

## HOW TO USE THIS BULLETIN

The information in this bulletin is current at the time of publication. If you are pursuing a degree, you are obligated to fulfill the requirements as they are listed in the bulletin for the semester in which you enroll in that program.

If the requirements change after you have enrolled in the program, you have the option of fulfilling either the old or new requirements. If you elect to fulfill the old requirements and find that necessary courses have been eliminated or substantially revised, you may substitute other courses with the approval of the dean of the college. If the revision is required by an external accreditation certification body, and this body submits a written statement to the University that the accreditation of a program or certification of its graduates is in jeopardy unless students fulfill the new requirements, the option of fulfilling the old requirements shall not apply.

If your study in the program or the University is interrupted for more than two semesters, your college dean will decide which program requirements must be fulfilled.

Find out more about the University of Kentucky at: [www.uky.edu](http://www.uky.edu).

Information about the Kentucky Community & Technical College System is available at: [www.kctcs.edu/](http://www.kctcs.edu/).

## COMPLIANCE WITH REGULATIONS

The University of Kentucky complies with the federal and state constitutions, and all applicable federal and state laws, regarding nondiscrimination. The University provides equal opportunities for qualified students in all aspects of University operations, and does not discriminate on the basis of race, color, national origin, ethnic origin, religion, creed, age, physical or mental disability, veteran status, uniformed service, political belief, sex, sexual orientation, gender identity, gender expression, pregnancy, marital status, genetic information, social or economic status, or whether the person is a smoker or nonsmoker, as long as the person complies with University policy concerning smoking. Compliance with the Title IX of the Educational Amendments of 1972, which prohibits sex discrimination, and with Title VI of the Civil Rights Act of 1964 is coordinated by the Equal Opportunity Office, Main Bldg., University of Kentucky, Lexington, KY 40506-0032, 859-257-8927.

Efforts to comply with the laws and regulations applicable to people with disabilities are also coordinated by the Office of Institutional Equity and Equal Opportunity, as required by Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990.

Questions concerning compliance with regulations may be directed to UK's Office of Institutional Equity and Equal Opportunity, or to the Director of the Office for Civil Rights, U.S. Department of Education, Washington, D.C.

Qualified students with disabilities should contact the associate dean and director of the Disability Resource Center at 859-257-2754 to request reasonable accommodation.

The University is in compliance with the Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act Amendment of 1989. Questions may be directed to the Associate Provost for Student and Academic Life or the Office of the Vice President for Human Resources.

Information on the employment and earnings of public postsecondary education institution graduates in Kentucky is available at: <https://kcews.ky.gov/KYLM/>  
Questions about admission to the University should be directed to the appropriate admissions office.

## OFFICE FOR INSTITUTIONAL DIVERSITY

The University of Kentucky prepares students for meaningful and responsible engagement within and across diverse communities. Through its own example, the University strives to improve the climate for diversity throughout Kentucky, a commitment given special importance and emphasis in the 2015-2020 UK Strategic Plan. The composite effect of work with students enables them to develop a more enlightened worldview; attain a deeper understanding of and commitment to authentic democratic values and social justice; embrace a greater commitment to service and leadership; exhibit greater cultural knowledge and competence; and facilitate Kentucky's success in the global economy.

The Office for Institutional Diversity has a primary responsibility to uphold the University's commitment to embracing diversity and inclusion and promoting increased knowledge of diversity and its significance as a fundamental value of the campus community. Of equal importance is its mission to enhance academic support services to ensure the academic success and personal development of all students, especially those students from backgrounds that have been historically marginalized on the University campus.

The Office for Institutional Diversity works collaboratively where all students, faculty, and staff live or work in an environment of openness and acceptance, and in which people of all backgrounds, identities, and perspectives can feel secure and welcome.

**University of Kentucky is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate, baccalaureate, masters, and doctorate degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097, call 404-679-4500, or online at [www.sacscoc.org](http://www.sacscoc.org) for questions about the accreditation of University of Kentucky.**

## STATEMENT OF MISSION, VISION AND VALUES

### MISSION

The University of Kentucky is a public, land grant university dedicated to improving people's lives through excellence in education, research and creative work, service and health care. As Kentucky's flagship institution, the University plays a critical leadership role by promoting diversity, inclusion, economic development and human well-being.

### VISION

The University of Kentucky will be one of the nation's 20 best public research universities.

### VALUES

The University of Kentucky is guided by its core values:

- Integrity
- Mutual respect and human dignity
- Diversity and inclusion
- Academic freedom
- Personal and institutional responsibility and accountability
- Shared governance
- A sense of community
- Work-life sensitivity
- Civic engagement
- Social responsibility

## DISTANCE LEARNING STATE AUTHORIZATION & LICENSURE

The University of Kentucky is committed to compliance with state authorization and licensure disclosure regulations as a member of the State Authorization Reciprocity Agreement (NC-SARA). States have varying requirements for distance education programs to be offered in their jurisdiction. To see if your program of interest is offered in your state, please visit the UK State Authorization web page: [www.uky.edu/ukonline/state-authorization-1](http://www.uky.edu/ukonline/state-authorization-1).

If you are considering an online degree program that requires you to pursue a professional license or certification, please be aware that there may be additional requirements or limitations based on your state of residence. Academic programs and individual graduates must meet standards set by that state's licensure board for a graduate to be eligible for a license in the state in which the student wishes to work or practice. To learn if your program of interest meets the licensure requirements for your state, visit the UK Licensure Disclosure web page: [www.uky.edu/ukonline/licensure-disclosures](http://www.uky.edu/ukonline/licensure-disclosures).

## ANNUAL DISCLOSURE STATEMENT

### Student Right-to-Know Act (P.L. 101-542) University of Kentucky 2019-2020

Section 103 of the Student Right-to-Know and Campus Security Act of 1990 (Public Law 101-542) as amended by the Higher Education Technical Amendments of 1991 (Public Law 102-26) requires public disclosure of relevant graduation rate information for students enrolled in colleges and universities receiving federal financial assistance annually beginning July 1, 1993. The following statement is the University of Kentucky's official disclosure statement in accordance with the requirements of P.L. 101-542 Section 103 for the 2018-2019 academic year.

### Graduation Rate of Entering Freshmen

The graduation rate for all students entering the University of Kentucky as first-time freshmen during the 2012-2013 academic year\* was **65.8 percent**. This graduation rate represents the percentage of students entering the University of Kentucky as first-time (i.e., new) full-time degree-seeking freshmen during the 2012 Summer and Fall terms who subsequently were awarded baccalaureate degrees by the University of Kentucky within six calendar years (i.e., through August 2018). This rate was calculated under definitions and procedures established by the National Collegiate Athletic Association (NCAA), and reported to the NCAA on the University's 2018 Graduation Rate Disclosure Form in March 2019.

March 2019

\* The information to be disclosed by July 1 of each year is "the graduation rate for the most recent cohort of entering students that all have had an opportunity to complete or graduate from their respective programs" in the specified completion period (which for the University of Kentucky is six years). The most recent entering cohort meeting this requirement is the 2012-2013 freshman class.

## NOTIFICATION OF RIGHTS UNDER FERPA FOR POSTSECONDARY INSTITUTIONS

[www.uky.edu/Registrar/ferpa.html](http://www.uky.edu/Registrar/ferpa.html)

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

- (1) The right to inspect and review the student's education records within 45 days of the day the University receives a request for access. Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
- (2) The right to request the amendment of the student's education records that the student believes is inaccurate. Students may ask the University to amend a record that they believe is inaccurate. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
- (3) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A *school official* is a:
  - a. person employed by the University in an administrative, supervisory, academic or research, or support staff position, including health or medical staff;
  - b. person who is employed by the University Police Department;
  - c. student serving on an official committee, such as a disciplinary or grievance committee, or who is assisting another University official in performing her or his tasks; or
  - d. contractor, consultant, volunteer or other third parties provided that the outside party:
    1. performs an institutional service which would otherwise be provided by employees of the University;
    2. has been determined to meet the criteria set forth for being a "school official with a legitimate interest" in the education records;
    3. is under the direct control of the University with respect to the use and maintenance of education records; and
    4. uses education records only for authorized purposes and may not re-disclose personally identifiable information from education records to other parties, under third party has specific authorization from the University to do so and such use is otherwise permitted by FERPA.

A University official has a legitimate educational interest if the official requires the information for the purpose of fulfilling her or his official duties, including but not limited to:

- a. performing a task that is specified in her or his position description or contract agreement or within the scope of assigned professional responsibilities;
- b. performing a task related to a student's education;
- c. performing a task related to the discipline of a student;
- d. providing a service or benefit relating to the student or student's family, such as health care, counseling, job placement or financial aid;
- e. maintaining the safety and security of the campus; or
- f. participating in or conducting studies, evaluations, or assessment of educational programs.

Upon request, the University discloses education records without consent to officials of another school in which a student seeks or intends to enroll. [Note: FERPA requires an institution to make a reasonable attempt to notify the student of the records request unless the institution states in its annual notification that it intends to forward records on request.

- (4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University of Kentucky to comply with the requirements of FERPA. The name and address of the office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C., 20202-4605.

The University may release information without the student's consent where the information is classified as "Directory information." The following categories of information have been designated by the University as directory information: name, address, telephone listing, email address, photograph, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, full-time/part-time status\*, and the most recent previous educational institution attended by the student.

Direct questions concerning this law and the University's policy concerning release of academic information to the Student Records Office, 859-257-7157. Students who do not wish such information released without their consent should notify the Student Records Office in writing. For complete information on (1) adding and removing a privacy flag to prevent the release of directory information; (2) the definition of education records; (3) the types of directory information that may be made available without the student's consent; and (4) the annual FERPA notification deadline for prevention of release of directory information, please visit:

[www.uky.edu/registrar/FERPA-privacy](http://www.uky.edu/registrar/FERPA-privacy).

\*For a description of full-time and part-time status, see Note 2 on page 28.

# 2019-2020 Calendar

Check the **Academic Calendars** at [www.uky.edu/registrar/content/academic-calendar](http://www.uky.edu/registrar/content/academic-calendar) for any calendar changes that may have been approved after the publication of this Bulletin.

## 2019 Fall Semester

December 1, 2018 - Saturday – Early action deadline for freshmen applying for Fall 2019

February 1 - Friday – Deadline for submission of all application materials, College of Medicine, for the 2019 Fall Semester

February 1 - Friday – Deadline for submission of all application materials for the School of Interiors

February 15 - Friday – Regular decision deadline for freshmen applicants. Applicants for the 2019 Fall Semester by this date who meet selective admission criteria will be offered general admission; applicants after this date or deferred decision candidates will be considered on a space-available basis only.

February 15 - Friday – Priority filing deadline for the 2019-2020 academic year for financial aid for entering freshmen

March 1 - Friday – Deadline for all applicants to the College of Design

March 15 - Friday – Priority filing deadline for the 2019-2020 academic year for financial aid for continuing and transfer students

March 15 - Friday – Deadline for international applications to be submitted to The Graduate School for the 2019 Fall Semester

April 1 - Monday – Deadline for NAAB Architecture transfer applicants

April 15 - Monday – Deadline for applying with college deans for reinstatement after a second academic suspension for the 2019 Fall Semester

May 1 - Wednesday – Enrollment deposit due for freshmen entering in the 2019 Fall Semester

May 15 - Wednesday – Deadline for students to schedule an appointment for reinstatement in all colleges for the 2019 Fall Semester

May 15 - Wednesday – Deadline for undergraduate international applicants to submit their 2019 Fall Semester application

June 15 - Saturday – Earliest date to submit application for regular and Early Decision Program admission, College of Medicine, for the 2020 Fall Semester

June 17-July 12 - Monday through Friday – “see blue” U Orientation for new freshmen, transfers, and readmitted students enrolling for the 2019 Fall Semester

June 22-September 20 - Saturday through Friday – Approved time period to apply online in myUK for a December 2019 degree from the Graduate School

July 13-August 25 - Saturday through Sunday – Add/Drop for registered students

July 19 - Friday – Deadline for applying for admission to the Graduate School for the 2019 Fall Semester

August 1 - Thursday – Final deadline for submission of all required documents to the Office of Undergraduate Admission for undergraduate admission for the 2019 Fall Semester, excluding freshmen who will be considered on a space-available basis

August 1 - Thursday – Deadline for application for Early Decision Program, College of Medicine, for the 2020 Fall Semester

August 7 - Wednesday – Last day for students in the Employee Educational Program registered through August 7 to submit EEP form to Human Resource Services to confirm 2019 registration and tuition waiver

August 19 and 22 - Monday and Thursday – “see blue” U Orientation and Registration for new freshmen and transfer students who have been cleared for admission but did not priority register

August 19-23 - Monday through Friday – Registration for new program graduate students

August 19-23 - Monday through Friday – Fall registration for new undergraduate and new program graduate students who entered the University in the 2019 Summer Session

August 20-21 - Tuesday and Wednesday – “see blue” U Orientation and Registration for new international students who have been cleared for admission but did not priority register

August 20-23 - Tuesday through Friday – Fall registration for new post-baccalaureate students admitted for the 2019 Summer Session or the 2019 Fall Semester

August 21-25 - Wednesday through Sunday – K Week for all new undergraduate students

August 22 - Thursday – Payment deadline of registration fees and/or housing and dining fees – if total amount due is not paid as indicated on the account statement, a late payment fee of 1.5 percent of the amount past due will be assessed

August 23 - Friday – “see blue” U Orientation and Registration for readmission and non-degree students who have been cleared for admission but did not priority register

August 23-28 - Friday through Wednesday – Approved time period for students to change academic majors (note: please check with college for admission deadline)

August 25 - Sunday – Last day a student may officially drop a course or cancel registration with the University Registrar for a full refund of fees

August 26 - Monday – First day of classes

August 26-30 - Monday through Friday – Late registration for returning students who did not priority register and new applicants cleared late for admission. A late fee is assessed for students who register late.

August 30 - Friday – Last day to add a class for the 2019 Fall Semester

August 30 - Friday – Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund

September 2 - Monday – Labor Day – Academic Holiday

September 4 - Wednesday – Last day for students in the Employee Educational Program who registered and/or changed schedules after August 7 to submit EEP form to Human Resource Services to confirm 2019 Fall Semester registration and tuition waiver

September 13 - Friday – Last day to drop a course without it appearing on the student’s transcript

September 13 - Friday – Last day to change grading option (pass/fail to letter grade or letter grade to pass/fail; credit to audit or audit to credit)

September 20 - Friday – Last day for doctoral candidates for a December degree to submit a Notification of Intent to schedule a final examination in The Graduate School

September 20 - Friday – Last day to officially withdraw from the University or reduce course load and receive a 50 percent refund

September 24 - Tuesday – Deadline for submission of application and all required documents to the Office of Undergraduate Admission and University Registrar for change of residency status for 2019 Fall Semester

September 30-November 27 - Monday through Wednesday – Students are prohibited from changing academic majors

October 14-28 - Monday through Monday – Midterm Grading window is open. The mid-term grading window will close at 5:00 p.m. on October 28.

October 15 - Tuesday – Deadline for submission of application and all required documents to the Office of Undergraduate Admission for undergraduate applicants planning to attend November “see blue” U Orientation (including registration for spring classes)

October 21 - Monday – Midterm of 2019 Fall Semester

October 21-22 - Monday and Tuesday – Fall Break – Academic Holiday

November 1 - Friday – Last day for filing an application for a December 2019 undergraduate or graduate degree online in myUK

November 4 - Monday – Deadline for completed AMCAS application, College of Medicine, for the 2020 Fall Semester

November 4-January 14, 2020 - Monday through Tuesday – Priority registration for the 2020 Spring Semester. Add/Drop for registered students for the 2020 Spring Semester.

November 6 - Wednesday – Last day to withdraw from the University or reduce course load. Students can withdraw or reduce course load after this date only for “urgent non-academic reasons.”

November 14 - Thursday – Last day candidates for a December 2019 degree can schedule a final examination in the Graduate School

November 22 - Friday – 2020 Spring Semester “see blue” U Orientation for new and readmitted undergraduate students

November 27-30 - Wednesday through Saturday – Thanksgiving – Academic Holidays

November 28 - Thursday – Last day candidates for a December 2019 graduate degree can sit for a final examination

December 1 - Sunday – Deadline for submission of application and receipt of all materials for admission, readmission or transfer to the College of Law for the 2020 Spring Semester

December 1 - Sunday – Early action deadline for freshmen applying for admission for the 2020 Fall Semester

December 9 - Monday – Deadline for applying for admission to the Graduate School for the 2020 Spring Semester

December 9-23 - Monday through Monday – Final Grading window is open. The final deadline for submission of grades online in the grading portal is 5 p.m., December 23.

December 11 - Wednesday – Last day for students in the Employee Program registered through December 11 to submit EEP form to Human Resource Services to confirm 2020 Spring Semester registration and tuition waiver

December 13 - Friday – Last day of classes

December 13 - Friday – Last day candidates for December 2019 degree to submit thesis/dissertation (ETD) for format review to the Graduate School via UKnowledge

December 16-20 - Monday through Friday – Final Examinations

December 20 - Friday – Last day for candidates for a December 2019 degree to submit final revised thesis/dissertation (EDT) for acceptance by the Graduate School for those students who first submitted December 13

December 20 - Friday – End of 2019 Fall Semester

December 20 - Friday – December Commencement – [www.uky.edu/Commencement](http://www.uky.edu/Commencement)

December 23 - Monday – Final deadline for submission of grades online in the grading portal is 5 p.m.

## Winter Intersession 2019-2020

October 15, 2019 - Tuesday – Priority deadline for admission to the Winter Intersession

November 4-December 22 - Monday through Sunday – Priority registration for Winter Intersession

November 22, 2019 - Friday – Winter Intersession registration for newly-admitted students

December 20, 2019 - Friday – Deadline for admission to the Winter Intersession

December 20, 2019 - Friday – Last day a student may drop a course or cancel registration with the University Registrar for a full refund of fees

December 22, 2019 - Sunday – Payment deadline of registration fees and/or housing and dining fees – if total amount is not paid as indicated on the account statement, a late payment fee of 1.5 percent of the amount past due will be assessed

December 23, 2019 - Monday – First day of class

December 23, 2019 - Monday – Last day to add a class for the 2019-2020 Winter Intersession

December 23, 2019 - Monday – Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund

December 25, 2019-January 1, 2020 - Wednesday through Wednesday – Academic Holidays

January 2, 2020 - Thursday – Last day to officially withdraw from the University or reduce course load and receive a 50 percent refund

January 2, 2020 - Thursday – Last day to drop a course without it appearing on the student’s transcript

January 2, 2020 - Thursday – Last day to change a grading option (pass/fail to letter grade or letter grade to pass/fail; credit to audit or audit to credit)

January 2, 2020 - Thursday – Last day to withdraw from the University or reduce course load. Students can withdraw or reduce course load after this date only for urgent non-academic reasons.

January 14, 2020 - Tuesday – Final Examinations

January 14, 2020 - Tuesday – End of 2019-2020 Winter Intersession

January 17, 2020 - Friday – Final deadline for submission of grades online in the grading portal is 5 p.m.

## 2020 Spring Semester

February 15, 2019 - Friday – Priority filing deadline for the 2019-2020 academic year for financial aid for entering freshmen

March 15, 2019 - Friday – Priority filing deadline for the 2019-2020 academic year for financial aid for continuing and transfer students

August 15, 2019 - Thursday – Deadline for international applications to be submitted to the Graduate School for the 2020 Spring Semester

September 15, 2019 - Sunday – Deadline for applying with college deans for reinstatement after a second academic suspension for the 2020 Spring Semester

September 22, 2019-February 26, 2020 - Sunday through Wednesday – Approved time period to apply in myUK for a May 2020 degree from the Graduate School

October 1, 2019 - Tuesday – Deadline for students to schedule an appointment for reinstatement in all colleges for the 2020 Spring Semester

October 15, 2019 - Tuesday – Deadline for submission of application and all required documents to the Office of Undergraduate Admission for undergraduate applicants planning to attend November “see blue” U Orientation (including registration for spring classes)

October 15, 2019 - Tuesday – Deadline for undergraduate international applicants to submit 2020 Spring Semester application

November 22, 2019 - Friday – “see blue” U Orientation for freshmen, transfer, readmission students admitted for spring 2020

December 3, 2019 - Tuesday – Final deadline for submission of application and all required documents to the Office of Undergraduate Admission for undergraduate admission for the 2020 Spring Semester

December 9, 2019 - Monday – Deadline for applying for admission to the Graduate School for the 2020 Spring Semester

December 11, 2019 - Wednesday – Last day for students in the Employee Educational Program registered through December 11 to submit EEP form to Human Resource Services to confirm 2020 Spring Semester registration and tuition waiver

January 8-13 - Wednesday through Monday – Registration for new program graduate students

January 9-13 - Thursday through Monday – Registration for new post-baccalaureate students

January 10 - Friday – International Student “see blue” U Orientation

January 13 - Monday – “see blue” U Orientation and Registration for new freshmen and transfer students who have been cleared for admission but did not priority register including registration for Evening and Weekend

January 14 - Tuesday – Last day a student may officially drop a course or cancel registration with the University Registrar for a full refund of fees

January 14 - Tuesday – “see blue” U Orientation and Registration for readmission and non-degree students including registration for Evening and Weekend

January 15 - Wednesday – First day of classes

January 15-22 - Wednesday through Wednesday – Late registration for returning students who did not priority register and new applicants cleared late for admission. A late fee is assessed for students who register late.

January 20 - Monday – Martin Luther King Birthday – Academic Holiday

January 22 - Wednesday – Last day to add a class for the 2020 Spring Semester

January 22 - Wednesday – Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund

January 22 - Wednesday – Last day for students in the Employee Educational Program who registered and/or changed schedules after December 11 to submit EEP form to Human Resource Services to confirm 2020 Spring Semester registration and tuition waiver

January 22 - Wednesday – Payment deadline of registration fees and/or housing and dining fees – if total amount due is not paid as indicated on the account statement, a late payment fee of 1.5 percent of the amount past due will be assessed

February 1 - Saturday – Deadline for international applications to be submitted to the Graduate School for the 2020 Fall Semester

February 1 - Saturday – Preferred deadline for submitting application for admission to the College of Dentistry for the 2020 Fall Semester

February 5 - Wednesday – Last day to drop a course without it appearing on the student’s transcript

February 5 - Wednesday – Last day to change grading option (pass/fail to letter grade or letter grade to pass/fail; credit to audit or audit to credit)

February 12 - Wednesday – Last day to officially withdraw from the University or reduce course load and receive a 50 percent refund

February 13 - Thursday – Deadline for submission of application and all required documents to the Office of Undergraduate Admission and University Registrar for change of residency status for 2020 Spring Semester

February 20 - Thursday – Last day for doctoral candidates for a May 2020 degree to submit a Notification of Intent to schedule a final examination in the Graduate School

March 2-16 - Monday through Monday – Midterm Grading window is open. The mid-term grading window will close at 5:00 p.m. on March 16.

March 2-April 22 - Monday through Wednesday – Students are prohibited from changing academic majors

March 3 - Tuesday – Last day for submission of application for admission to the College of Law for the 2020 Fall Semester

March 9 - Monday – Midterm of 2020 Spring Semester

March 16-21 - Monday through Saturday – Spring Vacation – Academic Holidays

March 20 - Friday – Last day for filing an application for a May 2020 undergraduate or graduate degree online in myUK

March 30-June 21 - Monday through Sunday – Priority registration for the 2020 Fall Semester and the 2020 Summer Session. Add/Drop period for all students registered for Fall 2020.

April 3 - Friday – Last day to withdraw from the University or reduce course load. Students can withdraw or reduce course load after this date only for “urgent non-academic reasons.”

April 9 - Thursday – Last day for candidates for a May 2020 degree to schedule a final examination in the Graduate School

April 10 - Friday – Deadline for applying for admission to the Graduate School for the 2020 Summer Session

April 23 - Thursday – Last day for candidates for a May 2020 graduate degree to sit for a final examination

April 27-May 11 - Monday through Monday – Final Grading window is open. The final deadline for submission of grades online in the grading portal is 5 p.m., May 11.

May 1 - Friday – Last day of classes

May 1 - Friday – Last day candidates for a May 2020 degree to submit thesis/dissertation (ETD) for format review to the Graduate School via UKnowledge

May 4-8 - Monday through Friday – Final Examinations

May 8 - Friday – End of 2020 Spring Semester

May 8 - Friday – Last day for candidates for a May 2020 degree to submit final revised thesis/dissertation (EDT) for acceptance by the Graduate School for those students who first submitted May 1

May 8 and 9 - Friday and Saturday – Commencement – [www.uky.edu/Commencement](http://www.uky.edu/Commencement)

May 11 - Monday – Final deadline for submission of grades online in the grading portal is 5 p.m.

May 11-August 21 - Monday through Friday – College of Pharmacy 15-Week Summer Term

### 2020 Summer Session

February 22-June 20 - Saturday through Saturday – Approved time period to apply online in myUK for an August 2020 degree from the Graduate School

March 15 - Sunday – Priority filing deadline for financial aid for the 2020 Summer Session

April 11 - Saturday – Deadline for applying for admission to the Graduate School for the 2020 Summer Session

April 15 - Wednesday – Deadline for submission of application and all required documents to the Office of Undergraduate Admission for undergraduate admission for the 2020 Summer Session

April 28-May 11 - Tuesday through Monday – 2020 Summer Session registration and add/drop continue for students enrolled in the 2020 Spring Semester

May 11 - Monday – Beginning of College of Pharmacy 15-week Summer Term

May 11 - Monday – “see blue” U Orientation and Registration for new and returning students

May 12 - Tuesday – First day of classes

May 12 - Tuesday – Last day a student may officially drop a course or cancel registration with the University Registrar for a full refund of fees

May 12-13 - Tuesday through Wednesday – Late registration for returning students not already registered and new applicants cleared late for admission. A late fee is assessed to students who register late.

May 13 - Wednesday – Last day for students in the Employee Educational Program to submit EEP form to Human Resource Services for tuition waiver for the 2020 Summer Session

May 19 - Tuesday – Last day to add a class for the 2020 Summer Session

May 19 - Tuesday – Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund

May 22 - Friday – Payment deadline of registration fees and/or housing and dining fees – if total amount due is not paid as indicated on the account statement, a late payment fee of 1.5 percent of the amount past due will be assessed

May 25 - Monday – Memorial Day – Academic Holiday

May 30 - Saturday – Last day to drop a course without it appearing on the student’s transcript

May 30 - Saturday – Last day to change grading option (pass/fail to letter grade or letter grade to pass/fail; credit to audit or audit to credit)

June 3 - Wednesday – Last day to officially withdraw from the University or reduce course load and receive a 50 percent refund

June 10 - Wednesday – Deadline for submission of application and all required documents to the Office of Undergraduate Admission and University Registrar for change of residency status for the 2020 Summer Session

June 20 - Saturday – Last day to submit application for degree to receive an August 2020 degree in the Graduate School

June 20 - Saturday – Last day for doctoral candidates for the August 2020 degree to submit a Notification of Intent to schedule a final exam

June 22-July 17 - Monday through Friday – Summer “see blue” U Orientation for new freshmen, transfer students, auditors, non-degree and readmitted students enrolling for the 2020 Fall Semester

June 24 - Wednesday – Midterm of 2020 Summer Session

July 1 - Wednesday – Last day for filing an application for an August 2020 undergraduate or graduate degree online in myUK

July 3 - Friday – Independence Day – Academic Holiday

July 9 - Thursday – Last day candidates for an August 2020 degree can schedule a final examination in the Graduate School

July 12 - Sunday – Last day to withdraw from the University or reduce course load. Students can withdraw or reduce course load after this date only for “urgent non-academic reasons.”

July 23 - Thursday – Last day for candidates for an August degree to sit for the final examination in the Graduate School

July 24 - Friday – Deadline for applying for admission to the Graduate School for the 2020 Fall Semester

July 27-August 10 - Monday through Monday – Final Grading window is open. The final deadline for submission of grades online in the grading portal is 5 p.m., August 10.

July 30 - Thursday – Last day for candidates for an August 2020 degree to submit thesis/dissertation (ETD) for format review to the Graduate School via UKnowledge

August 6 - Thursday – Last day for students in the Employee Educational Program registered through August 6 to submit EEP form to Human Resource Services to confirm 2020 Fall Semester registration and tuition waiver

August 6 - Thursday – Last day for candidates for an August 2020 degree to submit final revised thesis/dissertation (EDT) for acceptance by the Graduate School for those students who first submitted July 30

August 6 - Thursday – Final Examinations

August 6 - Thursday – End of 2020 Summer Session

August 10 - Monday – Final deadline for submission of grades online in the grading portal is 5 p.m.

August 22 - Saturday – End of College of Pharmacy 15-week Summer Term

## College of Dentistry Academic Calendar

### DMD, Orofacial Pain, Orthodontics, Pediatric Dentistry, and Periodontics Programs

#### Fall 2019

June 10 - Monday – Academic Year Begins for 4th Year DMD Students (Clinics and Externships)

July 4 - Thursday – Independence Day – Academic Holiday

July 5 - Friday – Academic Year Begins for 1st Year Periodontics Students

July 8 - Monday – Academic Year Begins for Orofacial Pain Students

July 15 - Monday – Academic Year Begins for 2nd and 3rd Year Periodontics Students

August 5 - Monday – Academic Year Begins for 1st, 2nd, and 3rd Year DMD Students

August 5 - Monday – Academic Year Begins for 4th Year DMD Students

August 5 - Monday – Academic Year Begins for 1st Year Orthodontics Students, 1st Years Promoted to 2nd Year, 2nd Years Promoted to 3rd Year

August 5 - Monday – Last day a 1st, 2nd, 3rd, and 4th Year DMD student can officially withdraw from the College of Dentistry for a full refund for the current term

August 12 - Monday – Last day a 1st, 2nd, 3rd, and 4th Year DMD student can officially withdraw from the College of Dentistry and receive an 80 percent refund for the current term

September 2 - Monday – Labor Day – Academic Holiday

September 3 - Tuesday – Last day a 1st, 2nd, 3rd, and 4th Year DMD student can officially withdraw from the College of Dentistry and receive a 50 percent refund for the current term

November 28, 29 - Thursday and Friday – Thanksgiving Holidays – Academic Holidays

December 20 - Friday – Winter Break Begins After Last Class or Clinic for DMD, Orthodontics and Periodontics Students

December 24 - Tuesday – Winter Break Begins After Last Class or Clinic for Orofacial Pain

#### Spring 2020

January 6 - Monday – Classes/Clinics Resume for All Students/Residents: DMD, Orofacial Pain, Orthodontics and Periodontics

January 20 - Monday – Martin Luther King, Jr. Birthday Observed – Academic Holiday

TBD – Spring Break for DMD, Orthodontics and Periodontics Students

TBD – Spring Break for Orofacial Pain Students (National Conference)

May 8 - Friday – Academic Year Ends for Graduating DMD Students

May 8 - Friday – College of Dentistry Hooding Ceremony

May 10 - Sunday – University Commencement

May 25 - Monday – Memorial Day – Academic Holiday

May 29 - Friday – Academic Year Ends for 3rd Year Graduating Orthodontics Students

June 5 - Friday – Academic Year Ends for 3rd Year DMD Students

June 12 - Friday – Academic Year Ends for 2nd Year DMD Students

June 19 - Friday – Academic Year Ends for 1st Year DMD students and 1st and 2nd Year Orthodontics Students

June 26 - Friday – Last Day of Class/Clinic for Orofacial Pain

June 30 - Tuesday – Last Day of Class/Clinic for Periodontics Students

## College of Law Academic Calendar

#### Fall 2019

August 28 - Wednesday – Payment Deadline for fall 2019 fees

August 27 - Tuesday – Class work begins

August 27 - Tuesday – Add/Drop

August 27 - Tuesday – Last day a student may officially drop a course or cancel registration with the university Registrar for a full refund of fees.

August 28 - Wednesday – Add/Drop

September 2 - Monday – Labor Day – Academic Holiday

September 3 - Tuesday – Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund

September 4 - Wednesday – Last day to add a class for the 2019 fall semester

September 18 - Wednesday – Last day to change grading option (credit to audit or audit to credit)

September 18 - Wednesday – Last day to drop a course without it appearing on student’s transcript

September 18 - Wednesday – Last day to officially withdraw from the University or reduce course schedule and receive a 50 percent refund

September 25 - Wednesday – Last day to file an application for a December degree

September 26 - Thursday – Deadline to apply for Kentucky residency for this semester

## 2019-2020 Calendar

---

October 15 - Tuesday – Last day to withdraw from a course. Students may withdraw after this date only upon petition to the Dean’s office specifying “reasons relating to extended illness or equivalent distress.”

November 27-30 - Wednesday through Saturday – Thanksgiving Holidays – Academic Holidays

December 6 - Friday – End of class work

December 6-9 - Saturday through Monday – Law Final Examination Period

December 10-21 - Tuesday through Saturday – Law Final Examination Period

December 21 - Saturday – End of 2019 Fall Semester

### Spring 2020

January 13 - Monday – Add/Drop

January 13 - Monday – Class work begins

January 14 - Tuesday – Add/Drop

January 14 - Tuesday – Last day a student may officially drop a course or cancel registration with the University Registrar for a full refund of fees

January 15 - Wednesday – Last day to add a class for the 2020 Spring Semester

January 15 - Wednesday – Last day to officially withdraw from the University or reduce course load and receive an 80 percent refund

January 17 - Friday – Payment deadline of registration fees

January 20 - Monday – Martin Luther King Day – Academic Holiday

January 29 - Wednesday – Last day to drop a course without it appearing on your transcript

February 5 - Wednesday – Last day to officially withdraw from the University or reduce course schedule and receive 50 percent refund

February 6 - Thursday – Last day to file application for May degree

February 28 - Friday – Last day to withdraw from a course – Students may withdraw after this date only upon petition to the Academic Dean’s office specifying “reasons relating to extended illness or equivalent distress”

March 16-21 - Monday through Saturday – Spring Vacation – Academic Holidays

April 24 - Friday – End of class work

April 25-27 - Saturday through Monday – Law Examination Reading Period

April 28-May 9 - Tuesday through Saturday – Law Final Examination Period

May 8 - Friday – Law Commencement

May 9 - Saturday – End of 2020 Spring Semester

### Summer 2020

May 11 - Monday – First day of classes

May 25 - Monday – Memorial Day – Academic Holiday

July 3 - Friday – Independence Day – Academic Holiday

July 31 - Friday – End of class work

August 1-2 - Saturday & Sunday – Law Examination Reading Period

August 3-6 - Monday through Thursday – Law Final Examination Period

August 6 - Thursday – End of 2020 Summer Session

---

## College of Medicine Academic Calendar

### Fall 2019

June 10 - Monday – Fourth-year students begin rotations

June 10 - Monday – Last day fourth-year students to withdraw from the College of Medicine for a full refund of tuition & fees

June 17 - Monday – Last day for fourth-year students to withdraw from the College of Medicine and receive an 80 percent refund

June 20-21 - Thursday and Friday – Third-year orientation

June 24 - Monday – Third-year students begin rotations

June 24 - Monday – Last day third-year students to withdraw from the College of Medicine for a full refund of tuition & fees

July 1 - Monday – Last day for third-year students to withdraw from the College of Medicine and receive an 80 percent refund

July 4 - Thursday – Fourth of July Holiday for all students

July 9 - Tuesday – Last day for fourth-year students to withdraw from the College of Medicine and receive a 50 percent refund

July 23 - Tuesday – Last day for third-year students to withdraw from the College of Medicine and receive a 50 percent refund

July 29 - Monday – First-year students begin orientation

August 5 - Monday – First-year and second-year begin classes

August 5 - Monday – Last day for first-year and second-year students to withdraw from the College of Medicine for a full refund of tuition & fees

August 12 - Monday – Last day for first-year and second-year students to withdraw from the College of Medicine and receive an 80 percent refund

August 22 - Wednesday – Tuition deadline for all students

September 2 - Monday – Labor Day Holiday for all students

September 3 - Tuesday – Last day for first-year and second-year students to withdraw from the College of Medicine and receive a 50 percent refund

November 1 - Friday – Last day for candidates applying to the College of Medicine to submit their application to AMCAS

November 27-29 - Wednesday-Friday – First-year and second-year students – Thanksgiving Holiday

November 28-29 - Thursday-Friday – Third-year and fourth-year students – Thanksgiving Holiday

December 20 - Thursday – Winter Break begins for first-year and second-year students

December 21 - Saturday – Winter Break begins for third-year students

December 23 - Monday – Winter Break begins for fourth-year students

### Spring 2020

January 6 - Monday – All students return to class

January 6 - Monday – Last day to withdraw from the College of Medicine and receive a full refund

January 13 - Monday – Last day to withdraw from the College of Medicine and receive an 80 percent refund

January 15 - Wednesday – Last day for candidates applying to the College of Medicine to submit their supplemental application materials

January 20 - Monday – Martin Luther King Jr.’s Holiday for all students

January 22 - Tuesday – Tuition deadline for all students

February 4 - Tuesday – Last day to withdraw from the College of Medicine and receive a 50 percent refund

March 30-April 3 - Monday through Friday – Spring Break for first-year students

April 24 - Friday – End of academic year for fourth-year students

May 16 - Saturday – College of Medicine Graduation

May 22 - Friday – End of academic year for third-year students

May 28 - Monday – Memorial Day Holiday for all students

May 29 - Friday – End of academic year for first-year and second-year students

May 31 - Sunday – Special graduation date

June 30 - Tuesday – Special graduation date

---

## College of Pharmacy Academic Calendar

### Doctor of Pharmacy Program

### Fall 2019

August 5 - Monday – 4th Year Professional Students begin Rotation Block 3 Ends 9/13/2019

August 12 - Monday – Orientation for 1st Year Professional Students

August 13 - Tuesday – Orientation for 1st Year Professional Students

August 14 - Wednesday – Orientation for 1st Year Professional Students

August 15 - Thursday – Orientation for 1st Year Professional Students

August 16 - Friday – Orientation for 1st Year Professional Students

August 19 - Monday – First Day of Classes for 1st, 2nd and 3rd Year Professional Students

September 2 - Monday – Labor Day – Academic Holiday  
 September 13 - Friday – Exams for 1st, 2nd and 3rd Year Professional Students  
 September 14 - Saturday – Exams for 1st, 2nd and 3rd Year Professional Students  
 September 16 - Monday – Exams for 1st, 2nd and 3rd Year Professional Students  
 September 16 - Monday – 4th Year Professional Students begin Rotation Block 4 Ends 10/25/2019  
 October 11 - Friday – Exams for 1st, 2nd and 3rd Year Professional Students  
 October 12 - Saturday – Exams for 1st, 2nd and 3rd Year Professional Students  
 October 14 - Monday – Exams for 1st, 2nd and 3rd Year Professional Students  
 November 4 - Monday – 4th Year Professional Students begin Rotation Block 5 Ends 12/13/2019  
 November 8 - Friday – Exams for 1st, 2nd and 3rd Year Professional Students  
 November 9 - Saturday – Exams for 1st, 2nd and 3rd Year Professional Students  
 November 11 - Monday – Exams for 1st, 2nd and 3rd Year Professional Students  
 November 27 - Wednesday – Thanksgiving – Academic Holiday  
 November 28 - Thursday – Thanksgiving – Academic Holiday  
 November 29 - Friday – Thanksgiving – Academic Holiday  
 December 6 - Friday – Last Day of Classes for 1st, 2nd and 3rd Year Professional Students  
 December 9 - Monday – Exams for 1st, 2nd and 3rd Year Professional Students  
 December 10 - Tuesday – Exams for 1st, 2nd and 3rd Year Professional Students  
 December 11 - Wednesday – Exams for 1st, 2nd and 3rd Year Professional Students  
 December 12 - Thursday – Exams for 1st, 2nd and 3rd Year Professional Students  
 December 13 - Friday – Exams for 1st, 2nd and 3rd Year Professional Students  
 December 13 - Friday – End of Fall Term

### Spring 2020

December 16 - Monday – 4th Year Professional Students begin Rotation Block 6 Ends 1/24/2020  
 January 13 - Monday – First Day of Classes for 1st, 2nd and 3rd Year Professional Students  
 January 20 - Monday – Martin Luther King, Jr. Birthday – Academic Holiday  
 February 3 - Monday – 4th Year Professional Students begin Rotation Block 7 Ends 3/13/2020

February 7 - Friday – Exams for 1st, 2nd and 3rd Year Professional Students  
 February 8 - Saturday – Exams for 1st, 2nd and 3rd Year Professional Students  
 February 10 - Monday – Exams for 1st, 2nd and 3rd Year Professional Students  
 March 6 - Friday – Exams for 1st, 2nd and 3rd Year Professional Students  
 March 7 - Saturday – Exams for 1st, 2nd and 3rd Year Professional Students  
 March 9 - Monday – Exams for 1st, 2nd and 3rd Year Professional Students  
 March 16 - Monday – Spring Break – Academic Holiday  
 March 17 - Tuesday – Spring Break – Academic Holiday  
 March 18 - Wednesday – Spring Break – Academic Holiday  
 March 19 - Thursday – Spring Break – Academic Holiday  
 March 20 - Friday – Spring Break – Academic Holiday  
 March 23 - Monday – 4th Year Professional Students begin Rotation Block 8 Ends 5/1/2020  
 April 17 - Friday – Exams for 1st, 2nd and 3rd Year Professional Students  
 April 18 - Saturday – Exams for 1st, 2nd and 3rd Year Professional Students  
 April 20 - Monday – Exams for 1st, 2nd and 3rd Year Professional Students  
 May 1 - Friday – Last Day of Classes for 1st, 2nd and 3rd Year Professional Students  
 May 4 - Monday – Exams for 1st, 2nd and 3rd Year Professional Students  
 May 5 - Tuesday – Exams for 1st, 2nd and 3rd Year Professional Students  
 May 6 - Wednesday – Exams for 1st, 2nd and 3rd Year Professional Students  
 May 7 - Thursday – Exams for 1st, 2nd and 3rd Year Professional Students  
 May 8 - Friday – Exams for 1st, 2nd and 3rd Year Professional Students  
 May 8 - Friday – Class of 2020 Graduation and Graduation Ceremony for the Class of 2020  
 May 11 - Monday – 4th Year Professional Students begin Rotation Block 1 Ends 6/19/2020  
 May 18 - Monday – 1st and 2nd Year Professional Students begin Rotation Block A Ends 6/5/2020  
 June 8 - Monday – 1st and 2nd Year Professional Students begin Rotation Block B Ends 6/26/2020  
 June 22 - Monday – 4th Year Professional Students begin Rotation Block 2 Ends 7/31/2020  
 July 13 - Monday – 1st and 2nd Year Professional Students begin Rotation Block C Ends 7/31/2020  
 August 3 - Monday – 1st and 2nd Year Professional Students begin Rotation Block D Ends 8/21/2020  
 August 21 - Friday – End of Spring Term

## A Message from President Eli Capilouto

More than 150 years ago, two Kentuckians shared an audacious dream.

In the midst of the American Civil War, President Lincoln signed the Morrill Land Grant Act, making it possible for states, for the first time, to offer public higher education to a broader group of people on an unprecedented scale. John Bowman and other Kentuckians seized upon this opportunity to found what we know today as the University of Kentucky.

Though located in the Bluegrass, the young Agriculture and Mechanical College of Kentucky University would go on to serve the better interests of the entire Commonwealth. Our founders acted upon a profound idea that a university had the ability to change people's lives through unmatched higher education, innovative research and discovery, and outreach that uplifts and heals communities and the people it serves.

Bowman challenged the Commonwealth to dream of what is possible.

What is possible? It is the question that both pushes and informs us in everything that we do. Indeed, today, the University of Kentucky is pioneering new ways to carry out its mission to our students, faculty, staff, alumni and friends, and the people of the Commonwealth we serve.

We benefit from a strong faculty core that pioneers what is possible, teaching in more than 200 academic programs across 16 degree-granting colleges, the Graduate School, the Lewis Honors College, and the UK Libraries system.

We educate more than 30,000 students who dream what is possible. They learn across a range of disciplines and work with experts as far reaching – but increasingly connected – as history and neuroscience; medicine and computer science.

The University is one of only eight in the country with programs in engineering, agriculture, law, and a full complement of health care programs on a single contiguous campus.

But that number is more than a statistic reflecting some level of distinctiveness. With students from all 120 Kentucky counties, each of the 50 states, and more than 100 countries worldwide, our campus environment is an incomparable setting to prepare students for a global society and to create incomparable space for faculty to work together, in and among disciplines, toward solutions to seemingly insoluble problems.

We discover what is possible, earning \$333.8 million in federal, state, and industry research support this past year alone to confront the complex challenges in energy, health care, addiction, the humanities, and the human condition.

Benefiting from a diverse and high-achieving faculty core, the University is among a small cadre of public research institutions to receive the top, federal grants in cancer, translational science, and aging research and care.

We treat the most complex of illnesses and diseases, enabling us to reimagine what is possible in terms of enhancing and extending life. We provide comfort and healing to 40,000 patients annually and more than 1 million through ambulatory services that are linked to clinics around the Commonwealth.

We serve every corner of the Commonwealth to achieve what is possible: supporting farmers, small businesses, and families through our historic land-grant mission and Cooperative Extension network.

We innovate to expand the boundaries of what is possible: leading to burgeoning entrepreneurial work and start-ups that launch new industries and keep our state's economy at the leading edge.

President Eli Capilouto

Together, the University of Kentucky, its students, faculty, staff, and alumni have boldly aspired to both ask and answer a singularly important question: what is possible?

We answer that question daily, emboldened by the relentless determination and collaborative community that define our shared work and underscore what it means to be the University *for* Kentucky.

Sincerely,

ELI CAPILOUTO  
President

## University of Kentucky – The Commonwealth’s Flagship Institution

The innovation, creativity, quality teaching, and uplifting service underway at the University of Kentucky touch the lives of people throughout the state, the nation, and the world. It is our role as the University *for* Kentucky that calls us to ground-breaking research, community outreach, intellectually rigorous education, and technological advances that contribute to the betterment of the Commonwealth while also fostering a cultural quality of life through our museums, libraries, and special events.

Founded in 1865 as a land-grant institution adjacent to downtown Lexington, UK is nestled in the scenic heart of the beautiful Bluegrass Region of Kentucky. From its early beginnings, with only 190 students and 10 professors, UK’s campus now covers more than 918 acres and is home to more than 30,000 students and approximately 13,900 employees, including more than 2,400 full-time faculty, and operates an annual budget of more than \$4 billion. UK is one of eight universities in the United States that has colleges of agriculture, engineering, medicine, and pharmacy on a single campus, leading to groundbreaking discoveries and unique interdisciplinary collaboration. The state’s flagship University consists of 16 academic and professional, degree-granting colleges where students can choose from more than 200 majors and degree programs at the undergraduate and graduate levels. The Colleges include Agriculture, Food and Environment; Arts and Sciences; the Gatton College of Business and Economics; Communication and Information; Dentistry; Design; Education; Engineering; Fine Arts; Health Sciences; Law; Medicine; Nursing; Pharmacy; Public Health; and Social Work. The Lewis Honors College provides an immersive liberal arts education with the resources of a leading research university. The Graduate School prepares the next generation of business, industry, and academic leaders. Supporting and emboldening our scholarly community is a comprehensive research library system made up of nine facilities, including the world-class William T. Young Library.

The student body is diverse, representing more than 100 countries, every state in the nation, and all 120 Kentucky counties. The University continues to attract the best and brightest from Kentucky and beyond. At 25.6, the average ACT score for first-year students is more than four points above the national average. Several hundred students participated in the Kentucky Governor’s Scholars Program or the Governor’s School for the Arts; and the University enrolled more than 700 National Merit, National Achievement, and National Hispanic Scholars in the last several years. UK students compete successfully for prestigious scholarships and awards, such as the Fulbright, Astronaut, Truman, Goldwater, Marshall, Udall, Rhodes and Gates Cambridge. UK has had 14 Truman Scholars and had its 10th Rhodes Scholar named in 2018-19. Additionally, UK has celebrated 21 Astronaut Scholars, as well as 24 Goldwater Scholars since 1995. For 2018-19, six UK students and alumni were awarded the National Science Foundation Graduate Research Fellowship. In the past 10 years, 51 UK students and faculty have been awarded Fulbrights in the last decade.

By focusing on student success; academic excellence; infrastructure growth and improvement; creating opportunities for innovative teaching and learning; fostering a robust research and creative scholarship enterprise; providing life-saving subspecialty care; and empowering communities through service and outreach, the University of Kentucky will ensure a new century of promise for the people we impact.

### The University

The University of Kentucky has a broad range of resources centered on a single campus in the heart of the Bluegrass. Our wide array of programs allows us to excel in multidisciplinary studies and fosters an environment of cooperative engagement across all colleges, programs, and research endeavors. Because of the lives we touch and teach, we remain anchored in our mission to Kentucky – to educate, innovate, heal, and serve. To be sure, our complex, multi-faceted mission looks different today in many ways than it did in 1865. However, our sense of responsibility to our communities on campus and across the region is resolute. The mission has evolved and grown. The vision of service to our Commonwealth and the world beyond remains the same. They remain our compass – the soul of the University of Kentucky.

In the last several years, UK has received nearly 100 national rankings for excellence in academics, research, health care, and economic development. *U.S. News and World Report* ranks several of UK’s graduate programs among the nation’s best: the Martin School of Public Policy and Administration is ranked fourth in the category of public finance and budgeting, and the College of Pharmacy is ranked sixth. The University of Kentucky earned 28 Top 10 rankings and 50 Top 25 rankings over the last several years.

The College of Arts and Sciences, Department of Hispanic Studies, Department of English, and doctoral program in Clinical Psychology have received top honors for faculty productivity and scholarly activity. The Institute for the Theory and Practice of International Relations named the Patterson School of Diplomacy and International Commerce among the top 20 master’s degree programs in international affairs in the world. In the last few years, the colleges of Engineering, Communication and Information, Education, Health Sciences, and the Gatton College of Business and Economics have been ranked in the top 30 in their respective fields. In addition, a study published in the *Southern Economic Journal* ranked the Gatton College of Business and Economics’ Department of Economics 19th among public institutions in the U.S., and Gatton’s Master’s in Accountancy program has among the highest passage rates on the CPA exam. The College of Agriculture, Food and Environment – the foundation of our land-grant mission – boasts the nation’s third largest Cooperative Extension Service, and UK’s College of Law has been ranked a top 10 best value law school by National Jurist Magazine.

With its well-manicured landscape and landmark buildings, UK’s campus also offers great facilities that advance the scholarship of its students and the research endeavors of its faculty. At the heart of the campus is the iconic William T. Young Library, the most visible of several facilities that comprise UK Libraries. The stately architecture features a 93-foot-tall rotunda and a dramatic five-floor atrium allowing natural light to pour in from skylights. UK Libraries is among the world’s leading research libraries with a broad scope of advanced technology that offers students, faculty, staff, and Kentucky residents special access to current information online, in addition to printed resources.

To match the scope, scale, and grandeur of William T. Young Library, the University of Kentucky engaged in an effort to revitalize student living and learning spaces. UK’s public/private partnership with EdR/Greystar has yielded more than 6,800 modern beds and more than 200 active learning spaces in 14 buildings – a more than \$450 million investment made by our partners.

- Johnson Hall and Donovan Hall opened in fall 2013;
- Chellgren Hall, Woodland Glen II, Haggin Hall, Jewell Hall, and Blazer Hall opened in fall 2014;
- Woodland Glen III, IV, & V opened in fall 2015;
- Holmes Hall and Boyd Hall opened in fall 2016; and
- University Flats and Lewis Hall opened in fall 2017.

Over the last eight years, the University approved the construction of more than \$2.4 billion in infrastructure to bolster the long-term health and success of the institution. In addition to the aforementioned residential housing projects, UK has invested:

- \$65 million to renovate and expand the Gatton College of Business and Economics with the support of generous donors and friends;
- \$110 million in the new Jacobs Academic Science Building that defines cutting-edge, interdisciplinary education and research. UK Athletics funded \$65 million of this modern learning and research space – an unprecedented move in American higher education and NCAA athletics;
- \$120 million to enhance Kroger Field, \$45 million to renovate and expand the Nutter Training and Recruiting Center, and the \$49 million Kentucky Proud Park, financed completely by self-generated revenue from and partnerships with UK Athletics;

- \$20 million invested in the College of Fine Arts, including a new home for the School of Art and Visual Studies;
- More than \$150 million to continue the fit-out of UK HealthCare's Chandler Hospital, financed with clinical revenue;
- \$201 million to renovate and expand the Bill Gatton Student Center and create a modern facility for the campus and community, financed with the support of donors and friends of the institution; and
- The \$265 million multi-disciplinary Healthy Kentucky Research Building, financed in partnership by the state and institution.

Building on these campus investments, the University is investing:

- More than \$40 million to renovate and expand the College of Law; and
- Several million to restore the historic academic core of the UK campus.

Research at the University of Kentucky is a dynamic enterprise encompassing traditional scholarship, the humanities, health care, and emerging fields and technologies. UK's research enterprise received approximately \$333.8 million research awards in fiscal year 2018. The scope and scale of UK's research enterprise resulted in a more than \$698 million economic impact and 4,260 jobs across Kentucky.

With more than 50 research centers and institutes, UK researchers are discovering new knowledge; providing a rich training ground for current students and the next generation of researchers; advancing the economic growth of the Commonwealth of Kentucky; and exploring art and creativity of diverse cultures. After working for more than 10 years on unlocking an ancient piece of history, faculty in the UK Department of Computer Science will "virtually" unroll 2,000-year old Herculaneum scrolls buried by a volcanic eruption in AD 79. The discovery—made possible by first-of-its-kind software—could have profound impacts on history and literature from the Classical era.

Several centers excel in the services offered to the public. The Gluck Equine Research Center is one of only three facilities of its kind in the world, conducting research into diseases of the horse. The Center for Applied Energy Research (CAER) is pursuing groundbreaking innovation across the energy disciplines. CAER staff are pioneering new ways to sustainably utilize Kentucky's natural resources through carbon-capture algae technology, biomass/coal-to-liquid products, and the opening of UK's first LEED-certified research lab to support the development of Kentucky's growing alternative energy industry. The College of Education's P20 Innovation Lab is reforming Kentucky classrooms by implementing 21st century learning techniques derived from pedagogical research, preparing new teachers, and providing additional training for school and district leadership.

Among the brightest examples of UK's investment in transformative research is the Markey Cancer Center. As a center of excellence and distinction at UK, Markey's robust research and clinical enterprise is the cornerstone of our commitment to Kentucky. It is fundamental to our success in uplifting lives through our endeavors and improving the general health and welfare of our state, which is burdened by the nation's highest rate of cancer deaths per 100,000 people. The Markey Cancer Center is one of 68 National Cancer Institute-designated cancer centers in the nation and the only one in Kentucky.

Because UK is one of the few universities in the country with a research and teaching campus and a medical center in one central location, multidisciplinary research is particularly strong. Through the collaborative efforts of nearly 200 faculty and staff across 12 departments and colleges, the University of Kentucky was awarded a \$20 million Clinical Translational Sciences Award (CTSA) from the National Institutes of Health (NIH). As one of only 60 institutions with this research distinction, UK was awarded the CTSA for its potential in moving research and discovery in the lab into practical field and community applications. The CTSA and NCI are part of a trifecta of federal research grants that includes an Alzheimer's Disease Center. UK is one of only 20 universities in the country to hold all three premier grants from NIH.

In addition, UK's commitment to addressing relevant and complex questions is evident in the four-year, more than \$87 million grant to reduce opioid overdose deaths by 40 percent in 16 counties that represent more than a third of Kentucky's population. This work, in partnership with the state and federal government, is designed to discover and implement research-driven solutions to stem the tide of a national crisis.

Established in 1957, the medical center at UK is one of the nation's finest academic medical centers and includes the University's clinical enterprise, UK HealthCare. The 945-bed UK Albert B. Chandler Hospital and Kentucky Children's Hospital, along with 221 beds at UK Good Samaritan Hospital, are supported by a growing faculty and staff providing the most advanced subspecialty care for the most critically injured and ill patients throughout the Commonwealth and beyond. The number of patients served by the medical enterprise has increased from roughly 19,000 discharges in 2003 to more than 40,500 discharges in 2018.

UK Chandler Hospital includes the only Level 1 Trauma Center for both adult and pediatric patients in Central and Eastern Kentucky. In addition, the dramatic growth of UK HealthCare's clinical enterprise has created approximately 7,500 additional jobs over the last several years. While our new patient care pavilion is the leading health care facility for advanced medical procedures in the region, our talented physicians consult with and travel to our network of affiliate hospitals, so Kentucky citizens can receive the best health care available close to their home and never need to leave the Bluegrass for complex subspecialty care.

The University has demonstrated its commitment to partnerships with businesses and other institutions of higher learning. In Lexington, UK is shaping a better relationship with the community by directly engaging with businesses, local government, and civic service organizations. As a \$4 billion university, UK is the region's largest employer, providing more than 13,900 full-time jobs and more than \$100 million in state and local payroll taxes.

UK's reach extends far beyond the borders of Fayette County. As an anchor institution for the Bluegrass Economic Advanced Movement, UK's College of Engineering and graduates of our institution are a critical component of growing an advanced manufacturing economy in Central Kentucky. UK is also part of the Bluegrass Higher Education Consortium, a collection of postsecondary institutions working together to advance the cause of learning. And we work collaboratively with other institutions to establish joint degree programs and improve the pipeline of students transferring between colleges and universities.

UK's agenda remains committed to accelerating the University's academic excellence in all areas and gaining worldwide recognition for its outstanding academic programs, its commitment to students, its investment in pioneering research and discovery, its success in building a diverse community, and its engagement with the larger society. It's all part of the University's mission as a 21st century flagship and land-grant research university. From its first Nobel Laureate to cutting-edge work in addressing health disparities, and from the artistic wonders that stir souls to our scientific creativity that inspires minds, UK seeks a brighter future through the contributions of our faculty, staff, students, and alumni. We are the University of Kentucky.

## 2015 UK Alumni Association Hall of Distinguished Alumni Honors

The UK Alumni Association Hall of Distinguished Alumni was established in 1965 in celebration of the university's centennial year. Every five years the UK Alumni Association recognizes a select group of outstanding alumni and honors them with induction into the UK Alumni Association Hall of Distinguished Alumni. This honor acknowledges UK alumni who deserve recognition for personal and professional endeavors and community leadership. This year there were 23 recipients inducted making the overall total of 306 inductees into the UK Alumni Association Hall of Distinguished Alumni. For a complete list of UK Alumni Association Hall of Distinguished recipients, visit: [www.ukalumni.net/hoda](http://www.ukalumni.net/hoda).

The 2015 inductees are:

Joyce Hamilton Berry '67, '70 – College of Education

Amy L. Bondurant '73 – College of Communication & Information

Stephen B. Bright '71 – College of Arts & Sciences; '74 – College of Law

Timothy A. Byers '81 – College of Engineering

Jennifer Burcham Coffman '69 – College of Arts & Sciences; '71 – College of Communication & Information, '78 – College of Law

L. Berkley Davis Jr. '66, '70, '72 – College of Engineering

Brady J. Deaton '66 – College of Agriculture, Food and Environment; '68 – Graduate School

Thomas B. Deen '51 – College of Engineering

Holloway Fields Jr.\* '51 – College of Engineering

Dr. Ernest Lee Fletcher '74 – College of Engineering; '84 – College of Medicine

John R. Guthrie '63 – College of Communication & Information

Dr. Ardis D. Hoven '66 – College of Arts & Sciences; '70 – College of Medicine

Robert Milton Huffaker '57 – College of Arts & Sciences

Terence Hunt '67 – College of Communication & Information

Howard L. Lewis '70 – Gatton College of Business & Economics

Thomas W. Lewis '71 – College of Engineering

Dr. James W. May Jr. '65 – College of Arts & Sciences

W. Rodney McMullen '81, '82 – Gatton College of Business & Economics

Dr. Jeffrey P. Okeson '72 – College of Dentistry

Beverly Moore Eaves Perdue '69 – College of Arts & Sciences

Peter Perlman '59 – College of Arts & Sciences; '62 – College of Law

Theodore Strickland '66, '80 – College of Education

Richard E. Whitt\* '70 – College of Communication & Information

*\*Deceased*

## ADMISSION PHILOSOPHY

The Office of Undergraduate Admission supports the mission of the University of Kentucky. Consistent with the University’s mission of research, service and teaching, the university seeks to enroll and retain an academically talented student body that enriches the learning community and is representative of the diverse society it serves. The following admission policies reflect this philosophy.

## GENERAL INFORMATION

The Dean of Undergraduate Admission authorizes the admission of all undergraduate students to the University. Students should direct all admissions inquiries to:

**Office of Undergraduate Admission**  
**100 W. D. Funkhouser Building**  
**University of Kentucky**  
**Lexington, KY 40506-0054**  
**859-257-2000**  
**www.applyuk.com**

Undergraduates at UK enroll in one of twelve colleges. Each college is supervised by an academic dean and is usually made up of several academic departments that offer different major fields of study.

The general University admission requirements and procedures for freshmen and transfer students are outlined below. **All applicants should be aware that certain colleges and some programs within colleges have additional admission standards and criteria beyond those for general University admission.** Refer to *Special Application Dates and Procedures* on page 20 for information on deadlines and procedures for particular colleges and programs. Detailed information on admission criteria is provided in the college sections of this Bulletin.

The University provides equal opportunities for qualified students in all aspects of University operations, and does not discriminate on the basis of race, color, national origin, ethnic origin, religion, creed, age, physical or mental disability, veteran status, uniformed service, political belief, sex, sexual orientation, gender identity, gender expression, pregnancy, marital status, genetic information, social or economic status.

## FRESHMAN ADMISSION TO THE UNIVERSITY

The University of Kentucky subscribes to a selective admission policy. Admission for freshman applicants is based on a holistic review including high school grades, national college admission test results, successful completion of pre-college curriculum, essay and an optional academic letter of recommendation. Applicants may submit official scores from either the ACT Assessment or the SAT I. Official test scores must be sent directly from ACT or SAT (College Board) testing headquarters.

**MINIMUM ELIGIBILITY REQUIREMENT** – All students who have completed the pre-college curriculum (see below) as prescribed by the Council on Postsecondary Education and have a 2.0 high school grade-point average are encouraged to apply to the freshman class at UK. Enrollment in the freshman class is limited. Within the limits of space availability, the Office of Undergraduate Admission will endeavor to accommodate all eligible applicants. However, the number of freshman applications far exceeds the number of spaces available in the entering class. For this reason, **the selective and competitive admission requirements often exceed the minimum eligibility requirement.**

## Application Deadlines for Admission

### Freshmen

**Fall – Early Action** **December 1**  
 Early Action freshman application deadline for admission, Competitive Scholarships and the Lewis Honors College.

**Fall – Regular Decision** **February 15**  
 Freshman regular decision deadline for fall term. Freshman applicants who apply by this date are given full consideration for admission and orientation. Applications received after this date will be considered on a space-available basis.

**Spring** **September 30**

**Summer Session** **February 15**

### Transfer / Readmission / Non-Degree

**Fall** **July 1**

**Spring** **November 15**

**Summer Session** **April 15**

### International Students\*

**Fall** **May 15**

**Spring** **October 15**

**Summer Session** **March 1**

**All applicants should be aware that some programs have application procedures and deadlines which differ from those for general University admission.** Applicants should refer to *Special Application Dates and Procedures* on page 20 for information on deadlines and procedures for selective admissions colleges and programs.

\*International students – see page 18.

**SELECTIVE ADMISSION** – The University of Kentucky has a selective admission policy. A faculty committee of the University Senate establishes the academic criteria. A holistic review is based on factors including cumulative high school grade-point average, completion of the pre-college curriculum, ACT or SAT I score results, essay, special talents and abilities and an optional academic letter of recommendation. Applicants are offered admission on a competitive basis, with those meeting the University’s selective admission criteria receiving first offers.

**DEFERRED DECISIONS** – Freshman applicants who have completed the pre-college curriculum, but do not have the requisite grade-point average, test scores or both for selective admission, may have their admission decisions deferred.

## Pre-College Curriculum

Incoming freshmen should have the high school preparation necessary for academic success at the college level. To be eligible for consideration at UK under the policy outlined above, an applicant must have successfully completed the following high school courses as a minimum:

### English/Language Arts – 4 credits

English I, II, III, IV

### Mathematics – 3 credits

Algebra I, Algebra II and Geometry (or more rigorous courses in mathematics)

### Science – 3 credits

Biology I, Chemistry I, Physics I or life science, physical science, and earth/space science (at least one lab course)

### Social Studies – 3 credits

From U.S. History, Economics, Government, World Geography and World Civilization (or comparable courses)

### Foreign Language – 2 credits

Two credits in the same foreign language or demonstrated competency

### Health – 1/2 credit

### Physical Education – 1/2 credit

### History and Appreciation of Visual, Performing Arts – 1 credit

History and appreciation of visual and performing arts or another arts course that incorporates such content

### Electives – 7 credits

Recommended strongly: one or more courses that develop computer literacy

Additionally, high school students are encouraged to complete at least one year of mathematics beyond Algebra II.

A total of 24 credits or more must be completed in high school. Applicants should contact the Office of Undergraduate Admission for information concerning exceptions to this policy.

A portion of the freshman class may be admitted from this group of applicants. If, after the application deadline, spaces in the class remain to be filled, admission will be offered to deferred-decision applicants on a competitive basis. Admission will be offered first to those applicants with the strongest records and offers will continue until the class is filled.

Strength of record is a relative term and refers to an applicant's record in comparison with those of all other freshman applicants. Strength of record may be determined by a number of different factors beyond selective admission criteria. While grades and test scores are important in this assessment, course selection, senior year schedule, honors and Advanced Placement courses, extracurricular and leadership activities and a student's potential to benefit from or contribute to the learning community may also be considered. The overriding concern will always be for the student's potential to be successful in meeting the academic expectations at the University.

Pursuant to the Kentucky Council on Post-Secondary Education (13 KAR 2:020) Guidelines for Admission to state-supported postsecondary education, applicants admitted with a cumulative unweighted high school GPA between 2.00-2.49 on a 4.0 scale will be required to enter into a learning contract with the University of Kentucky prior to enrollment.

## Special Admission Colleges and Programs

Some colleges and programs within colleges at UK have admission standards and criteria that are higher than those for general admission

to the University. Also, some programs have deadlines and application procedures that differ from those for general University admission. Refer to *Special Application Dates and Procedures* on page 20 for information on procedures and deadlines for special admission programs. Detailed information on admission criteria is provided in the college sections of this Bulletin.

## Matriculation Into a Degree-Granting College

All undergraduate degrees are conferred by the college offering the program of study (major). Upon admission to the University of Kentucky, all students will be enrolled in a specific college.

## APPLICATION PROCEDURES FOR FRESHMEN

Prospective freshmen are encouraged to apply as early as possible in their senior year. The early action deadline to be considered for all scholarships and the Lewis Honors College is December 1. The Regular Decision Deadline is February 15.

All freshman applicants should submit the following:

1. the application form for undergraduate admission;
2. a non-refundable application processing fee;
3. official high school transcript;
4. official test scores from either the ACT or the SAT I. "Official" scores are reported **directly** from the testing agency to the Office of Undergraduate Admission. Test scores appearing on the high school transcript are not considered "official" reports; and
5. an optional academic letter of recommendation.

High school students are strongly encouraged to take the ACT or SAT I late in their junior year and again early in their senior year. When registering for the test, please request scores to be sent to UK. It is a mistake to withhold test scores as this can cause added expense and possible delay in the processing of the application. Please request scores from all test administrations so that the Office of Undergraduate Admission can work with the complete test history. High school guidance counselors can provide students with registration forms, information about registration deadlines, test dates and locations.

## High School Equivalency Certificates

The University considers admission from freshman applicants who are not high school graduates but who present a valid High School Equivalency Certificate and General Education Development test scores. Applicants must also take the ACT Assessment (or SAT I) and have the results sent **directly** to the Office of Undergraduate Admission from the testing agency.

## TRANSFER ADMISSION TO THE UNIVERSITY

Students at other colleges or universities, including community colleges, are eligible to transfer to UK if they:

1. would have been selectively admitted to UK when they entered the first institution attended provided they have a cumulative grade-point average of 2.0 or better for all college-level work attempted. Applicants must **also** have a cumulative grade-point average of 2.0 or better for all college-level work attempted at the last institution attended, provided at least 12 credit hours (or the equivalent thereof) was attempted there.
- or**
2. would not have been selectively admitted to UK but have completed 24 semester hours or more and achieved a cumulative grade-point average of 2.0 or better for all college and university work attempted. Applicants must **also** have a cumulative grade-point average of 2.0 or better for all work attempted at the last institution attended.

Please note that grade-point averages are computed by the Office of Undergraduate Admission and reflect the grade and credit for each course attempted, regardless of the practice of the offering institution of waiving the low grade for a repeated course.

Refer to the University Calendar on page 4 for general University admission deadlines.

### Special Admission Colleges and Programs

Some colleges and programs within colleges at UK have additional admission standards and criteria beyond those for general admission to the University. Also, some programs have deadlines and application procedures that differ from those for general University admission. Refer to *Special Application Dates and Procedures* on page 20 for information on procedures and deadlines for special admission programs. Detailed information on admission criteria is provided in the college sections of this Bulletin.

## APPLICATION PROCEDURES FOR TRANSFER STUDENTS

Transfer applicants from other colleges and universities should request an application packet from the Office of Undergraduate Admission. Applicants must submit the following to the Office of Undergraduate Admission:

1. an application for admission;
2. an official transcript from **each** college or university attended, containing a complete record of all courses completed at the time of application;
3. a roster of the courses in which the student is currently enrolled;
4. a final official transcript of any additional work completed before entering the University; and
5. a non-refundable application processing fee.

Refer to *Special Application Dates and Procedures* on page 20 for admissions process information. **Candidates tentatively admitted at the time of application should be aware that the University will cancel the admission and/or the early registration of an applicant whose final official record, after completion of a current semester, shows ineligibility because of suspension, dismissal, or a drop in grade-point average below the required 2.0.**

## TRANSFER OF CREDIT

### General Transfer Policies

Students transferring to UK are required to submit official transcripts from all previously attended institutions as part of the admissions process. Send transcripts to this address:

**Office of Undergraduate Admission  
100 W.D. Funkhouser Building  
Lexington, KY 40506-0054**

- Credits earned at a fully accredited institution may be transferred to UK and applied toward a degree. A fully accredited institution is one in good standing and a member of one of the six regional academic accrediting associations.
- Transfer credit below the 100 level is considered remedial work and will not be accepted toward a UK degree.
- UK does not accept transfer grades toward the UK grade-point average. A UK grade-point average is established after the first term of classes. However, all transfer grades in all courses are included and counted in the admissions process.
- A minimum grade of D- is required for a course to be accepted by UK. Colleges and departments may require a higher grade in order for the course to apply toward degree requirements. Refer to the major sheets at [www.uky.edu/academics/](http://www.uky.edu/academics/) to determine the specific requirements for each major.

- The transferability of course credit earned at two-year institutions is limited to a total of 67 semester hours, regardless of the total number of hours earned.
- All work from any four year regionally accredited institution is posted to the UK transcript except for remedial work.
- Regardless of the number of hours accepted for transfer, all candidates for an undergraduate degree must complete 30 of their last 36 hours toward their degree at UK.

### Kentucky General Education Transfer Policy

The General Education Transfer Policy facilitates the transfer of credits earned in general education requirements for students moving from one Kentucky public college or university to another Kentucky public college or university. Under this agreement, a student may satisfy the general education discipline requirements at their current college and have that requirement completion accepted at the university or college to which they may transfer.

Students that are “Fully Certified” are considered to have completed UK’s baccalaureate general education requirements known as the UK Core.

Students may also transfer to UK and be Category Certified in up to 5 areas. Students who are Category Certified in each of the 5 areas will be considered “Fully Certified” at UK. **The five categories are:**

1. Arts and Humanities (AH)
2. Written Communication (WC) and Oral Communication (OC)
3. Natural Sciences (NS), plus Science Lab (SL)
4. Quantitative Reasoning (QR)
5. Social and Behavioral Sciences (SB)

The sending institution will indicate, either on the transcript or as an attachment to the transcript, whether the student is Fully Certified, Core Certified, or Category Certified in general education, or if they have completed any of the coded general education courses (i.e., AH, NS, OC, QR, SB, SL, and WC) at their institution.

**Fully Certified** – All general education requirements are completed (AA and AS degrees guarantee full certification.)

**Core Certified** – The 30 hours of core general education is completed and remaining general education requirements of the receiving institution are still required.

**Category Certified** – One or more of the above categories is complete (e.g., AH Category certification means no additional courses are required in the AH category.)

**Course Certified** – The category is not complete, but a course will partially fulfill a given category.

For more specific information about GETA, contact Transfer Admissions, 100 Funkhouser Building, (859) 257-2000.

### Transfer Students with Bachelor’s, AA or AS Degrees

Students who have completed a Bachelor’s degree, an AA (Associate of Arts) or an AS (Associate of Science) degree from an accredited institution automatically fulfill the UK Core general education requirements.

### Transfer Admissions

Transfer Admissions serves as a hub of information for the undergraduate transfer student population at UK. The Transfer Admissions staff collaborates with other on-campus units to provide the necessary resources for successful progress toward graduation. Our motto, “Start There, Finish Here” represents the University of Kentucky’s commitment to helping each transfer student with their transition and goal of earning a UK degree.

Students can utilize Transfer Admissions to:

- Discuss transfer course equivalencies prior to admission.
- Resolve specific transfer related issues by connecting with a UK staff member.
- Discuss transfer planning strategies prior to enrolling at UK.

For more information, contact us at:

**Transfer Admissions**  
**100 Funkhouser Building**  
**859-257-2000**  
**email: UKTransfer@uky.edu**  
**www.uky.edu/admission/transfer**

## OTHER CATEGORIES OF ADMISSION

### Readmission

Former University students who have not been enrolled for one semester or more, and who are in good standing are required to apply for readmission.

Applications for readmission should be submitted to the Office of Undergraduate Admission, along with:

1. official transcripts from all regionally accredited institutions attended since last attending UK; and
2. a non-refundable application processing fee.

In order to be eligible for readmission, former UK students must have been in good standing at the time they left the University. Those who have been enrolled elsewhere must be eligible as transfer students on the basis of grade-point average and be in good standing at the institution most recently attended. Students under suspension from UK are not eligible for readmission, regardless of their status at another institution, until they have been reinstated to the University. If the suspension is for academic reasons, reinstatement should be requested from the dean of the college in which they intend to enroll by the stated deadline; if the suspension is nonacademic, reinstatement should be requested from the appropriate University official. **Reinstated students also must file an application for readmission in the Office of Undergraduate Admission by the stated deadline.**

Readmission candidates should submit an application as early as possible. This allows the Office of Undergraduate Admission adequate time to prepare the necessary forms for registration. Refer to the University Calendar on page 4 for general admission deadlines. Information on selective college and program deadlines and procedures appears at the end of this section.

### Nondegree Students

The goal of the University of Kentucky policy for nondegree students is to provide appropriate access to academic courses for students desiring to continue their education without seeking a degree. Although degree-seeking students should have top priority with respect to University resources, the University does wish to provide access to these resources on a space-available basis to nondegree seeking students. This policy will provide reasonable access to a broader range of students without unnecessarily limiting University resources for degree-seeking students.

Nondegree status affords an opportunity for individuals to pursue lifelong learning without the structure of degree-seeking status and is consistent with the educational mission of the University.

Most nondegree students are considered “Lifelong Learners” and include the following groups: Donovan Scholars, students who have already earned degrees and non-traditional students who wish to begin their studies as nondegree students in order to be considered for degree-seeking status later. Other students eligible to enter the University in a nondegree status include visiting students from other colleges and universities, high school students of exceptional ability, and other students in special circumstances as determined by the Dean of Admissions.

### Rules Governing Admission of Nondegree Seeking Students

To be admitted as a non-degree student, an applicant must meet the following criteria: the high school class of a non-degree applicant must have graduated at least two years prior to the applicant’s anticipated semester of enrollment unless:

1. The applicant will be on active military duty during his/her tenure as a non-degree student;
2. The applicant is a visiting student or;
3. The applicant is seeking high school dual enrollment or;
4. The applicant possesses a bachelor’s degree.

There are three types of non-degree students at the University of Kentucky. The first two types, visiting and high school dual enrollment students, are degree-seeking at other institutions. The third type is not seeking a degree from any institution at the time of enrollment.

- a. Visiting Students – A visiting student is a student that is currently enrolled at another institution of higher education who intends to earn credit at UK that will be applied to degree requirements at his or her home institution. Visiting students must meet the same admission requirements as regular transfer students. Applicants will be asked to self-certify that they are in good standing at their home institution and have a minimum 2.00 GPA at the time of application.
- b. High School Students Seeking Dual Enrollment – Students currently enrolled in high school who desire to enroll in courses at UK must submit a high school transcript, ACT or SAT scores and provide a signature from a high school counselor or principal. Students must have a minimum 2.00 GPA and must meet the Kentucky Council on Post-Secondary Education college readiness indicators.
- c. Other Non-Degree Students – These students are not currently enrolled in a degree program at a high school, college or university, but wish to take undergraduate coursework at the University of Kentucky without pursuing a formal degree. Applicants will be asked to self-certify that they have obtained a high school diploma, GED or meet the Kentucky Council on Post-Secondary Education college readiness indicators. Students wishing to change to degree-seeking status at the University of Kentucky after enrolling as a non-degree student must apply using the same application process as those who are degree seeking.

Applicants who have been denied admission as degree seeking students may not in turn be enrolled as non-degree seeking students. [US: 10/11/93; US: 4/13/98]

Former University of Kentucky degree seeking students generally will not be enrolled as non-degree students without having earned an undergraduate degree. [US: 10/11/93]

University students under academic or disciplinary suspension at any higher education institution may not be enrolled as non-degree students. [US: 10/11/93; US: 4/13/98]

Students currently under suspension at other institutions may not be enrolled as non-degree students at UK. Failure to disclose a current suspension may result in forfeiture of eligibility for future enrollment. [US: 10/11/93; US: 4/13/98]

- d. Applicants are strongly encouraged to submit transcripts of prior colleges at the time of application in order to facilitate advising about appropriate coursework.

International students applying as a non-degree seeking student whose primary physical residence will be UK, will apply using the same application process as those who are degree seeking.

### Rules Governing Enrollment of Nondegree Seeking Students

Non-degree students must meet course prerequisites or obtain the consent of the instructor to enroll in a course.

Non-degree students (except Donovan Scholars) who complete 9 credit hours or more, with less than a 2.00 GPA will not be allowed to continue enrollment.

No student may continue to enroll as a non-degree student after earning 24 semester hours in this status without the special permission of the dean of the college in which the student is registered.

Credit earned as a non-degree student will be evaluated for applicability toward a degree by the dean of the college in which the student will be enrolled. Successful completion of course work as a non-degree student does not ensure admission as a degree seeking student. No graduate or professional credit is awarded for courses taken while a student is enrolled as an undergraduate non-degree student.

#### Changing Status from Non-Degree to Degree Seeking

Applicants who earned fewer than 24 semester credit hours at UK must meet the University's standards for selective admission as first-time freshmen. Applicants who have earned 24 or more semester hours will be considered transfer students for admission purposes and transfer of credit policies will apply.

The dean of the college the degree-seeking student enrolls in determines how credit earned as a nondegree student is applied toward a degree.

Nondegree students applying for degree-seeking status must submit to the Office of Undergraduate Admission:

1. an application for admission;
2. a non-refundable application processing fee;
3. official scores from the ACT or SAT (if fewer than 24 semester hours earned); and
4. official transcripts from all previously attended institutions.

Refer to the University Calendar on page 4 for general admission deadlines.

#### International Applicants

UK is authorized under federal law to enroll qualified nonimmigrant international applicants.

International applicants should apply and submit all required documents by **May 15** for fall semester admission and **October 15** for spring semester admission. International applicants must submit to the Office of Undergraduate Admission:

1. an international application for admission;
2. a non-refundable application processing fee.
3. a sponsor guarantee form;
4. \*bank statement;
5. \*\*official academic transcripts and English-translated course descriptions of all college-level work completed;
6. \*\*\*TOEFL/IELTS/English proficiency;
7. ACT or SAT results for freshmen applicants wishing to apply for academic scholarships or selective colleges;
8. copy of government issued passport; and,
9. additional information may be requested by admission officer.

Admission is competitive and preference is given to applicants who are best qualified academically. All documents relating to academic records, financial ability, and competency in the English language must be received before permission to enroll and the proper immigration form can be issued. All documents must be official or certified as such.

Undergraduate international applicants who are otherwise admissible, but who have not yet demonstrated English proficiency, may be conditionally admitted to the University of Kentucky. Conditionally admitted students will be academically admitted to UK as full-time degree-seeking undergraduates upon demonstration of English proficiency, as defined below.

Students enrolled in Level 5 or Level 6 of CESL course work may, upon meeting criteria set forth by the CESL program, enroll for one semester as non-degree seeking students in a pre-matriculation bridge program (half-time enrollment in non-credit CESL course work and 6-8 hours of credit-bearing undergraduate course work), constituting full-time enrollment in English preparation for immigration purposes. Completion of the bridge program with grades of **A** or **B** in all classes will constitute demonstration of English proficiency for full admission to the University of Kentucky; however, some UK academic colleges and/or majors may require a TOEFL/IELTS score for admission to their programs.

\*All international applicants must show proof of at least \$44,000 for the first academic year. This amount covers present tuition, fees, health insurance, books and living expenses from the fall semester through the spring semester. This amount also includes room and board expenses for summer. Evidence of financial support may include bank letters verifying personal and family assets, government or private scholarships. An authorized bank official must sign the guarantee. All documents must be originals (faxes and photocopies are not accepted), dated and have appropriate seals and/or be notarized as official. **Fees are subject to change at any time.**

All international applicants are required to have university-approved health insurance.

\*\*Official transcript from each institution attended (high school, college or university). Applicants from non-English speaking countries must provide an official literal English translation of their official school records. Students who wish to transfer credit to UK should submit course descriptions, course syllabi, and any other materials that can help determine course equivalencies. It is recommended that applicants additionally have their transcripts evaluated by a professional evaluation agency, such as World Education Services.

\*\*\*Students whose native language is other than English must score at least 527 (paper and pen), 197 (computer-based), or 71 (iBT) on the Test of English as a Foreign Language (TOEFL) to be eligible for general admission to UK. Students may also satisfy the requirement by providing an IELTS score of 6 or better. "Native language" is defined as an individual's first acquired language and the language of educational instruction. The TOEFL requirement **may** be waived for students who present an official transcript of satisfactory English work taken at an accredited American college, or a college in another country where English is the native language.

The Test of English as a Foreign Language (TOEFL) is offered by the Educational Testing Service and may be taken at various test centers throughout the world. Applicants must take the test early enough to ensure that the results are reported to the University by the required deadlines.

For students with marginal scores on the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS), the Center for English as a Second Language at UK offers an intensive English program. **Successful completion of this program satisfies English language proficiency for admission to UK; however, other conditions for admission must still be met, as outlined above.** For complete details about the program, visit <http://esl.as.uky.edu>

**The Office of Undergraduate Admission may require additional documents in order to process an application.**

#### QUESTIONS CONCERNING ADMISSION DECISIONS

All applicants to the University of Kentucky have the right to question or appeal admission decisions. Applicants desiring to appeal a decision should contact the Office of Undergraduate Admission to obtain information on the appeal process as well as deadlines.

## ORIENTATION TO UK

New freshmen and transfer students are oriented to the University in two steps. The first step is attending a “see blue.” U Orientation. This informative event offers students and parents/families the opportunity to learn more about the University, student life and residence hall living. Participants attend sessions on academic expectations as well as student service departments from around campus. Students also meet with an academic advisor, plan their schedules, and register for classes.

First-year students admitted for fall attend a two-day orientation. These orientations allow students more time to meet UK faculty, staff, and students. Participants get the chance to meet with their academic advisors, take placement exams, and register for classes.

Students receive complete information about the “see blue.” U Orientations after they are admitted. Freshmen must confirm a “see blue.” U Orientation and pay the enrollment deposits by May 1 to hold a space in the class.

### Merit Weekends

The University invites admitted students who have met various academic standards to attend special two-day orientation events called Merit Weekend. Students attending Merit Weekend will register for their fall term courses and will not need to attend the summer “see blue.” U Orientation. Merit Weekends are usually held in early spring.

## K WEEK

New students ease their transition to campus life through participation in K Week, the second step in the orientation process to UK. This welcome week begins before fall classes start and offers a variety of academic, informational, and social programs and activities. Some events, such as Big Blue U, the New Student Induction Ceremony, and college meetings, familiarize students with University community expectations and opportunities. Other activities, such as K Team meetings and Campus Ruckus, give students the opportunity to meet new people and become engaged with campus life. Students receive detailed information about K Week during the summer, and all new students are expected to attend. K Week includes special programming for transfer students as well.

For more information, visit [www.uky.edu/KWeek](http://www.uky.edu/KWeek) or download the UK Guides mobile app. Or contact the K Week Student Services Center, 230 McVey Hall, 859-257-6597.

### UK 101 ACADEMIC ORIENTATION COURSE

UK 101 is an academic orientation course for first-year students that significantly promotes a successful transition to college life. The class is taught by a faculty or staff member and an upperclass student. Topics addressed in the course include academic expectations, time management, academic integrity, campus resources, campus involvement, and wellness.

### UK 201 TRANSFER ORIENTATION COURSE

This course is designed to assist transfer students with prior academic or military credit in adjusting to the academic life at the University of Kentucky. Through lectures, discussions, exercises and out-of-class assignments, students will gain a better understanding of the challenges which they will encounter and, thus, will learn how to make effective use of the University’s resources. Considerable attention will be directed to graduation and career planning.

## SPECIAL APPLICATION DATES AND PROCEDURES

For Admission To	Submit	By Deadlines For		
		Fall	Spring	Summer
<b>COLLEGE OF AGRICULTURE, FOOD AND ENVIRONMENT</b>

<sup>†</sup>Law school applications are processed through the Law School Admission Council (LSAC), online at: [www.lsac.org](http://www.lsac.org).

**FEES ARE SUBJECT TO CHANGE WITHOUT NOTICE AND INCREASES MAY BE NECESSARY IN SUBSEQUENT YEARS.**

## FEE PAYMENT POLICY

You become financially obligated to the University of Kentucky when you register for classes. This financial obligation can only be adjusted if you add/drop hours or officially withdraw from the University. It is your responsibility to comply with the policy and schedule for paying registration fees.

A student with unpaid tuition/fees who subsequently leaves or officially withdraws from school will be held liable for a percentage of those fees and will be declared delinquent subject to the penalties imposed by the institution for financial delinquency.

Students who late register will be assessed a \$40 late registration fee.

### Monthly Account Statements

Account statements will be created at the end of each month itemizing that month's new charges and credits. The University must receive the **total** amount due (less estimated aid) on or before the **due date** indicated on the account statement. If full payment is not received by the due date, a late payment fee of 1.5 percent of the amount due will be assessed.

### Late Registration Fee

All continuing students are expected to priority register each semester for the next semester. New students are assigned a specific date for registration. Any student who registers after the regular registration period will be charged a late registration fee of \$40.

### Auditors

All auditors are charged the same fees they would pay for credit.

### Internship Courses

Students taking internship courses (e.g., courses numbered 399) **must** register for the course during the term the internship is taken and pay all required semester fees. In no case shall students be allowed to defer registration and payment for summer internships to the following fall semester.

### Zero-Credit Courses

Some University courses are offered for 0 credit hours. The fees for these courses are based on the number of hours per week the course meets, so that the cost of a 0-credit course which meets one hour per week is the same as the cost of a 1-credit course for a student in a particular classification (i.e., resident, nonresident, graduate, undergraduate). Zero-credit courses are counted as part of the student load for fee payment purposes and for purposes of issuing ID cards.

There is no fee for a course numbered 749, or 769, if the student is approved to take the 769 course for 0 credit hours. In a few departments zero-credit courses are actually laboratories which are a required part of another course. They are numbered separately for scheduling purposes, but no additional fee is charged.

### Financial Delinquency

The University of Kentucky expects students to be responsible in their financial obligations to the University or any department or division thereof. The

University assesses student fees for various services, fines, and materials. Students are to be properly notified of amounts to be paid and designated payment due dates. After unsuccessful collection efforts by the department or division, the student is classified delinquent and the following may occur: financial holds, class cancellations, late fees, collection agency efforts, and denial of access to student services.

## FINANCIAL OMBUD SERVICES

The Financial Ombud provides a neutral and confidential setting for current and prospective students and their parents to discuss difficult or unusual financial problems affecting tuition and fee payment. The Financial Ombud resolves problems, counsels, and makes recommendations and referrals as needed.

The Office of the Financial Ombud Services is open from 8 A.M. to 4:30 P.M. and is located in 10 Funkhouser Building. For information, questions, or appointments, email: [financialombud@lsv.uky.edu](mailto:financialombud@lsv.uky.edu).

## HEALTHCARE

For the regular fall and spring semesters, payment of the mandatory health fee by full-time students entitles them to medical and behavioral health care at University Health Service. Part-time students may pay the health fee or use the Health Service on a fee-for-service basis. The health fee is voluntary for all students for the summer session. Students are strongly advised to have health insurance to cover medical expenses incurred beyond those covered by the health fee. For more information on the health fee or the services provided, call 859-323-5823; or visit us at: [www.ukhealthcare.uky.edu/uhs](http://www.ukhealthcare.uky.edu/uhs).

## WILDCARD STUDENT ID

All students admitted to the University (both full-time and part-time) are expected to obtain a WildCard student ID. You must bring a government-issued photo ID when you come to get your WildCard. This is a permanent card that becomes valid each semester when fees are paid. The cost of a new WildCard is \$17.00; replacing a lost WildCard is \$32.00. We accept cash, credit (all except American Express), check, and plus account. The following information will help you understand your responsibility and how to fully utilize your WildCard ID. For additional information, visit our web site at:

<https://www.uky.edu/seeblueU/content/your-wildcard-student-id>.

- Your WildCard ID is the official identification for class attendance and tests, the Student Employment office, and student elections.
- Stop at a circulation desk at any campus library to activate the library barcode number and you can use your WildCard to check out books and materials. Students must have their WildCard student ID card to enter the William T. Young Library between 10 P.M. and 6 A.M.
- The Plus Account is an optional debit program for University of Kentucky students. A Plus Account is automatically open and accessed as a feature of your WildCard student ID. The Plus Account is extremely flexible and widely used on campus and off campus for dining, bookstores, printing, copying, prescriptions, and much more. Residence Hall laundry and campus printing may only be accessed using a Plus Account.
- The WildCard will access your Dining and Flex Accounts. Off-campus students may also purchase a Dining Plan.

- The WildCard is your key to your residence hall.
- Use your WildCard at University Health Service to pay for services not covered by the health fee, like vaccinations, medical equipment, or prescriptions in the student health pharmacy. Visit: [www.ukhealthcare.uky.edu/uhs/](http://www.ukhealthcare.uky.edu/uhs/) for more information.
- Use your WildCard ID at the Singletary Center for the Arts, the Ticket Center and the Cat's Den in Blazer Dining.
- Pick up football and basketball tickets and use your WildCard ID for entry to other UK campus events.
- You must have your WildCard for access to the Johnson Center, the Lancaster Aquatic Center, and to check out equipment.
- Use your WildCard to open an account at the UK Federal Credit Union.
- Get free unlimited access on all Lextran routes by showing your valid Wildcard ID when boarding Lextran buses.
- You even have the option to link your PNC account to your WildCard so you can use it to get cash with no fee at any PNC ATM. There's no charge to link and it's easy to do online. That's one powerful card! For more information, visit a PNC Bank near you or [www.pnc.com/uk](http://www.pnc.com/uk).
- PNC Bank helps make it easier for University of Kentucky students to keep track of their money. Virtual Wallet Student@ provides interactive tools that help take the guessing game out of managing money – like easy ways to check balances online or through Text Message Banking and Alerts, you can set up to flag you or your parents when an account balance is low. Plus, with ATMs and branches conveniently located on or near the University of Kentucky campus, we're here when you need us. For more detailed information on all the features of Virtual Wallet Student and banking at PNC, or to open an account, visit [www.pnc.com/uk](http://www.pnc.com/uk), stop by any PNC Bank branch, or call 1-877-PNC-1000 today.
- Linking your WildCard to your PNC Bank accounts enables you to use your WildCard in ATMs only. Your PNC Bank account is a separate account from the Campus Meal Plan and plus account. PNC Bank, NA. **Member FDIC.**

If you lose your WildCard ID, report the loss immediately to the WildCard ID Office at 859-257-1378, 160 Avenue of Champions, Suite A380, Lexington, KY 40506; or the Plus Account Office at 859-257-6159. You can also cancel your card online at: [www.uky.edu/plusaccount](http://www.uky.edu/plusaccount).

The WildCard ID Office is open Monday through Friday, 8 A.M. to 4:15 P.M.

Any financial charges/transactions made with this card are the responsibility of the student. The cost of a new WildCard is \$17.00; replacing a lost WildCard is \$32.00. We accept cash, credit (all except American Express), check, and plus account. The WildCard ID is the property of the University of Kentucky and must be surrendered upon request of authorized officials of the University.

### PERSONAL EXPENSES (not payable to the University)

**Books and Supplies.** Range from \$400-\$600 up, depending on the student's major field of study and schedule of classes for the semester. Students may use their Plus Accounts for purchases at the University of Kentucky Bookstore. Plus Account deposits may be made at the following locations: online at [www.uky.edu/plusaccount](http://www.uky.edu/plusaccount) (\$20 minimum; \$2 convenience fee); the Plus Account Office (\$20 minimum, no fee) 859-257-6159, between 8 A.M. and 4:30 P.M., Monday through Friday; Student Account Services (\$20 minimum, no fee); or DART machines in campus computing labs (cash only, any whole dollar amount, no fee). For more information about Plus Accounts, call 859-257-6159.

**Laundry.** UK's washers and dryers are equipped with credit/debit card payment and mobile e-wallet systems such as Apple-Pay, Samsung Pay, or Google Wallet. For convenience you may also download a mobile app to pay for laundry directly from your smartphone by scanning the machine QR codes. All apps are secure and PCI compliant.

You can start a machine in the following ways:

- Swipe MasterCard or Visa credit or debit card on machine.
- Use the smartphone app and scan the QR code on the machine.
- Use an e-wallet app.

You can also monitor the availability and status of the machines either through a computer web portal or via your smartphone, as described below.

You can register and set up an account on your computer. After logging in, you will be able to:

- See which machines are available for use.
- Go to laundry room and swipe your payment card to start the machines.
- Verify how much time is left for a cycle.
- Get a text message or email when your laundry is finished.

You can register and set up an account on your smartphone by visiting the App Store or Google Play Store. The app also allows you to pay for your laundry from your smartphone by adding funds directly to your phone app. It allows you to:

- See which machines are available for use.
- Then open the app, scan the machine's QR code, tap to start the machine
- Verify how much time is left for a cycle.
- Get a text message or email when your laundry is finished.

Students who may not have a debit/credit card or preloaded funds may purchase a MasterCard or Visa debit/credit card at the UK Bookstore, grocery or convenience stores. All washers and dryers are tagged with usage directions, and laundry information and instructions are posted in each laundry room.

**Detergent:** All laundry rooms are equipped with high Efficiency (HE) washing machines. Please be sure to use HE detergent only. When using soap PODs, please load the POD directly into the tub prior to adding your laundry.

## WITHDRAWAL FROM THE UNIVERSITY

You may cancel your registration before the first day of class by using myUK. See below for dropping a class with a **W** grade.

**All students, including degree seeking, non-degree seeking, and visiting students, who wish to leave the university during a term (fall, spring or summer) must formally withdraw.**

There are **five methods** of withdrawing from the University of Kentucky:

1. withdrawing in person at the Registrar's Office in 10 Funkhouser Building;
2. requesting withdrawal from course work via UK email account;
3. requesting withdrawal from course work via fax;
4. mailing your withdrawal request to the Registrar's Office; and
5. drop or withdraw from all courses using myUK (available prior to the first day of fall/spring classes; available through the first day of summer sessions).

**In person:** A student is required to come to 10 Funkhouser Building between 8 A.M. and 4:30 P.M., Monday through Friday and complete an *Authorization to Withdraw* card. Additional signatures may be required depending upon the student's enrollment status. The date noted on the *Authorization to Withdraw* card will serve as the student's official withdrawal date.

**Email/Fax request:** There are circumstances in which a student cannot physically appear to withdraw. For these cases, the Registrar's Office will accept an emailed (from the student's UK email account) or faxed request for withdrawal. The date of the email/fax will serve as the official date of the withdrawal. The fax number is 859-257-7160.

The information needed for the fax request is:

- **full name**
- **student number**
- **list of courses**
- **term**
- **date**
- **signature** (not required if emailed from the student's UK email account)
- **phone number**

**Mail request:** The student may mail a written request for withdrawal to the Registrar's Office at:

**Student Records  
10 Funkhouser Building  
University of Kentucky  
Lexington, KY 40506-0054**

The postmark will serve as the official date of the withdrawal. Information for withdrawal via mail is identical to that of the fax request.

**NOTE:** After the last official day to withdraw from a term, the student must start the withdrawal process beginning with the dean of the student's college. (Senate Rule, V.1.8.3). A student should contact his/her college's student services office for more details concerning this process.

## REFUND and FEE LIABILITY POLICY

Tuition refunds or outstanding fee liabilities for students who officially withdraw through the Registrar's Office, or who change their status from full-time to part-time or further reduce their part-time status through Add/Drop, will be made according to the following schedule. All dates are those designated in the official University Calendar.

SEMESTER	STUDENTS WHO WITHDRAW BY:	WILL RECEIVE REFUND/REDUCTION	WILL CONTINUE TO OWE
<b>Fall 2019</b>	August 25, 2019	100%	0%
	August 30, 2019	80%	20%
	September 20, 2019	50%	50%
<b>Winter Intersession 2019-20</b>	December 20, 2019	100%	0%
	December 23, 2019	80%	20%
	January 2, 2020	50%	50%
<b>Spring 2020</b>	January 14, 2020	100%	0%
	January 22, 2020	80%	20%
	February 12, 2020	50%	50%
<b>Summer Session 2020</b>	May 12, 2020	100%	0%
	May 19, 2020	80%	20%
	June 3, 2020	50%	50%

### After last day to officially withdraw per University Calendar – No Refund

Refunds are based solely on the date of withdrawal, regardless of whether students attend any class(es). As required under section 484B of the Higher Education Act (HEA), to assure recovery of federal financial aid funds, a special refund schedule applies to those students receiving Title IV financial assistance who withdraw (officially or unofficially) during the academic term.

A student not paying tuition fees and subsequently leaving or officially withdrawing from school will be held liable for one-half of those fees. In the case of nonpayment, he or she will be declared delinquent subject to the penalties imposed by the institution for financial delinquency.

Questions concerning fee payment procedures may be directed to the Financial Ombud, 10 Funkhouser Building, email: [financialombud@lsv.uky.edu](mailto:financialombud@lsv.uky.edu). Questions concerning tuition refunds may be directed to the Registrar's Office, Funkhouser Building, 859-257-7157.

## DINING COSTS 2019-2020

Dining will offer four dining plans – one minimum plan and three optional plans – to students living on-campus during 2019-20. These dining plans provide from 10 meals per week to unlimited servings per week. One block plan of 150 meals per semester is available only for Resident Advisors (RA).

Each dining plan also includes 'Flex Dollars.' Flex Dollars can be used to purchase à la carte items at any of the more than 30 dining locations across campus. Flex Dollars may be carried over from the fall to spring semester.

Plan	Flex Dollars Per Semester	Price Per Semester
<b>Minimum Plan</b> (10 meals per week)	\$75.00	\$1,575.00
<b>All Access Blue</b>	\$250.00	\$2,035.00
<b>All Access White*</b>	\$400.00	\$2,140.00
<b>150 RA</b>	\$500.00	\$1,545.00

\*Default Dining Plan.

## TUITION AND MANDATORY FEES <sup>1, 2, 3, 4, 5</sup> 2019-2020

### ANNUAL FULL-TIME RATE<sup>12</sup> Effective July 2019

<b>Doctorate of Physical Therapy (Annual Charges)<sup>12</sup></b>		
	<b>Resident</b>	\$21,766.00
	<b>Nonresident</b>	\$45,060.00

<b>UK-UofL Joint Executive Master in Business Administration<sup>19</sup> (17 months) (Annual Charges)<sup>12</sup></b>	
	\$67,500.00

### NOTES

- 1 The applicable tuition and mandatory fee rate will be determined at the time charges are assessed based on the student's primary academic program, including students concurrently pursuing multiple degrees and/or certificates. Course and program fees are not included in the above rates, except for the UK-UofL Joint Executive Master in Business Administration program.
- 2 Unless stated otherwise, the full-time per semester rates will be charged to undergraduate students enrolled for 12 credit hours or more and graduate and professional practice doctoral students enrolled for nine credit hours or more. Students enrolled part-time will be charged on a per credit hour basis. Students considered full-time for financial aid and reporting purposes, but with less than full-time credit hours, (e.g., graduate students in residency status) will be assessed on a per credit hour basis.  
  
Beginning fall 2019, undergraduate courses offered fully online (i.e., Internet, web-based delivery mode) will be assessed using the Undergraduate Online Learning Rates. These courses will be assessed tuition and mandatory fees per credit hour, separate and in addition to tuition and mandatory fees for any other courses. The Undergraduate Online Learning Rates are the same for resident and non-resident undergraduate students.
- 3 Mandatory fees are listed separately above and will be assessed based on the student's full-time or part-time status, course delivery mode(s), and whether or not the student is enrolled in at least one on-campus course. An on-campus course requires regular or periodic physical attendance on campus for instruction and/or assessment. The delivery modes for an on-campus course may include, but are not limited to, traditional classroom, hybrid (e.g., traditional classroom and Internet, web-based), compressed video, or satellite courses. Unless stated elsewhere, students will be assessed a maximum \$674.50 for mandatory fees per semester.  
  
The Annual Full-Time Rates for graduate and professional programs include all mandatory fees totaling \$1,524.00 for the full academic year and provide year-round access to services provided by University Health Service. The Full Program Rates for graduate programs include mandatory fees for all terms covered by the applicable program.  
  
If a student wishes to participate in any activity supported by a mandatory fee that has not been assessed, the student must pay the total mandatory fees for the semester, except as follows. Parttime students and students enrolled in all off-campus courses may pay the Student Health Fee to access University Health Service at minimal additional cost. Students enrolled in programs within the colleges of Dentistry, Health Sciences, Medicine, Nursing, Pharmacy, and Public Health are assessed the Student Health Mandatory Fee regardless of the location of courses. Students enrolled in programs within the College of Medicine will be assessed all mandatory fees regardless of the location of the courses.  
  
Pursuant to the Memorandum of Agreement with the Kentucky Community and Technical College System, students enrolled at the Bluegrass Community and Technical College (BCTC) will have the opportunity to select and pay for specific services from the list of mandatory fees. However, all mandatory fees will be assessed BCTC students that reside in University of Kentucky student housing.
- 4 For graduate and professional program students enrolled exclusively in online courses (i.e., Internet, web-based delivery mode), the course(s) will be assessed tuition using the applicable resident rate, regardless of residency status.
- 5 The President, or his delegate, may interpret the application of these rates on an individual student basis in extraordinary circumstances.
- 6 Prior to fall 2019, undergraduate students with less than 60 cumulative credit hours (freshmen and sophomores) were assessed lower-division rates. Undergraduate students with 60 or more cumulative credit hours (juniors and seniors) were assessed upper-division rates. Effective fall 2019, the undergraduate tuition and mandatory fee rates will no longer be differentiated based on the student's accumulated number of credit hours.

## TUITION AND MANDATORY FEES <sup>1, 2, 3, 4, 5</sup> 2019-2020

Lower-division undergraduate students (freshmen and sophomores) enrolled in the UK College of Engineering Extended Campus Program – Paducah will be assessed tuition and mandatory fees based upon the West Kentucky Community and Technical College’s tuition and fee rates. Upper-division undergraduate students (juniors and seniors) enrolled in the UK College of Engineering Extended Campus Program – Paducah will be assessed the applicable UK rates. Non-resident undergraduate students from select contiguous counties in Illinois (Massac, Alexander, and Pulaski) and enrolled in this program will be eligible for the applicable Kentucky resident rates.

Undergraduate students in the BCTCblue+ Program may enroll in up to 12 credit hours (no more than four courses) during the fall and spring semesters at the current Kentucky Community and Technical College System tuition rate plus associated University of Kentucky mandatory fees and any applicable course fees. For more information visit: <https://bluegrass.kctcs.edu/currentstudents/academic-resources/transfer-information.aspx>

- 7 Effective fall 2019, students pursuing the Master of Science in Finance will be assessed tuition and mandatory fees based on the applicable per credit hour rate for all attempted credit hours, regardless of full-time or part-time status.
- 8 Students pursuing the Master of Forensic Toxicology and Analytical Genetics, a new graduate program offered in fall 2019, will be assessed tuition and mandatory fees based on a per credit hour rate for all attempted credit hours, regardless of full-time or part-time status.
- 9 The “Master or Graduate Certificate, Professional” tuition and mandatory fee rates will be assessed to students enrolled in the following master and graduate certificate programs:
  - Applied Statistics
  - Digital Mapping
  - Diplomacy and International Commerce
  - Diversity and Inclusion
  - Liberal Studies
  - Public Financial Management
  - Teaching English as a Second Language
  - Teaching World Languages
- 10 The “Master or Graduate Certificate, Health Professional” tuition and mandatory fee rates will be assessed to students enrolled in the following programs:
  - Graduate Certificate in Applied Nutrition and Culinary Medicine
  - Master of Science in Nursing – Healthcare Systems Leadership
  - Master of Science in Physician Assistant Studies
  - Master of Science in Radiological Medical Physics
- 11 The “Professional Practice Doctoral” tuition and mandatory fee rates will be assessed to students enrolled in doctoral programs in the following colleges:
  - Nursing
  - Public Health
- 12 Unless otherwise publicized, students enrolled in programs with Annual Full-Time Rates or Full Program Rates will be assessed the tuition and mandatory fees semi-annually for all terms within the same academic year. The Academic Year (AY) 2019-20 rates are effective July 2019.
- 13 Half-time tuition and mandatory fee rates for AY 2019-20 of \$18,376 for resident students and \$38,351 for non-resident students are established for those dental students who have been approved by the Dean of the College of Dentistry to have a reduced curriculum load.
- 14 Half-time tuition and mandatory fee rates for AY 2019-20 of \$14,931 for resident students and \$27,078 for non-resident students are established for those pharmacy students who have been approved by the Dean of the College of Pharmacy to have a reduced curriculum load.
- 15 Part-time enrollment in the College of Law is permitted only with prior approval of the College of Law Associate Dean for Academic Affairs and is granted only for extraordinary circumstances.
- 16 The College of Medicine tuition and mandatory fee rates are “locked-in” for each entering class cohort. The rates do not change while students are enrolled in the program. Reduced curriculum tuition and fee rates for AY 2019-20 of \$20,783 for resident students and \$36,949 for non-resident students are established for those medical students who have been approved by the College of Medicine Student Progress and Promotion Committee to have a reduced curriculum load.
- 17 Effective fall 2019, students pursuing the Master of Science in Accounting will be assessed the applicable Full Program Rate for the 11-month program. Tuition is assessed in three installments (fall, spring, and summer semesters) and mandatory fees are assessed in two installments (fall and spring semesters). The Becker CPA Review Course is optional and not included in the Full Program Rates.
- 18 Effective summer 2016, the Master of Business Administration rates for new students are based on the program duration. The rates will be assessed in installments throughout the duration of the program. Tuition for the one-year program will be assessed in three installments (one-fifth for summer and two-fifths for the fall and spring semesters) \ and mandatory fees will be assessed in two installments (fall and spring semesters). Tuition and mandatory fees for the two-year and three-year programs will be assessed each semester based on course load.
- 19 The UK-UofL Joint Executive Master in Business Administration rate will be assessed to resident and non-resident students and reflects the total price of the program including tuition, mandatory fees, and program fee. The rate will be apportioned to each institution.

## 2019-2020 MANDATORY FEE ASSESSMENT POLICY

	Full-Time	Undergraduate Part-Time <sup>2</sup>	Graduate Part-Time <sup>2</sup>
<b>Mandatory Fees Assessed</b>			
<b>All Undergraduate and Graduate Students</b>

Part-Time with No Courses On-Campus <sup>1</sup>	\$11.00	\$15.00
Enrolled in Annualized Program <sup>3</sup>		\$1,524.00

Fees are subject to change without notice.

Applicants for University financial aid are given equal consideration, without regard to race, color, religion, sex, marital status, beliefs, age, national origin, sexual orientation, gender identity, gender expression, or disability.

The University of Kentucky offers three types of financial aid to students:

1. Financial aid **based on financial need** is awarded to undergraduate and graduate students by the Office of Student Financial Aid and Scholarships.
2. Direct unsubsidized loans not based on financial need are available to students through the Office of Student Financial Aid and Scholarships.
3. Financial aid **based on academic merit** is awarded by the Academic Scholarship Office, as well as by certain academic departments and colleges.

Each year the amount of funds requested by eligible applicants falls short of the resources available. The Office of Student Financial Aid and Scholarships bases its decisions on a) financial need, and b) the date of application. **Students should apply as early as possible. Entering freshmen should apply by December 1. Transfer and continuing students should apply by March 15.** Undergraduate Kentucky residents are encouraged to apply as soon as possible after October 1 to increase the likelihood of receiving limited KY College Access Program (CAP) Grant funds. Eligible students who apply after these dates will receive assistance, but will receive less because some funds will already be exhausted. **Students should not enroll in classes with the intent of obtaining financial aid after the semester is underway.**

**Graduate students** should consult *The Graduate School Bulletin* for information about assistantships and fellowships.

For more information on financial aid, contact:

**Office of Student Financial Aid and Scholarships**  
127 Funkhouser Building  
University of Kentucky  
Lexington, KY 40506-0054  
859-257-3172  
[www.uky.edu/financialaid/](http://www.uky.edu/financialaid/)

## APPLYING FOR FINANCIAL ASSISTANCE

### Entering Freshmen

**Apply early.** Applicants should apply by completing and submitting the *Free Application for Federal Student Aid (FAFSA)* at: [www.fafsa.ed.gov](http://www.fafsa.ed.gov) as soon as possible after October 1. A *FAFSA on the Web Worksheet* is also available at this site to assist applicants in completing the online form. Applicants who are unable to file online can obtain a paper copy of the FAFSA by calling 1-800-433-3243. Submit the online or paper FAFSA, designating UK to receive the analysis. **UK's federal school code is 001989.**

The Office of Student Financial Aid and Scholarships will consider applicants for need-based scholarships, Federal Pell Grants, Kentucky College Access Program (CAP) Grants, Federal Supplemental Educational Opportunity Grants (FSEOG), Federal Work-Study, Health Professions Loans, Federal Direct Stafford Loans, and Federal Direct Graduate PLUS Loans and Federal Direct Parent PLUS Loans.

A student must enroll in a degree program at UK in order to be awarded financial aid. The Office of Student Financial Aid and Scholarships informs students of financial aid decisions in mid to late March (or as soon thereafter as possible). Financial aid is credited directly to the student's University account at the beginning of each semester, or when eligibility requirements are complete.

When the amount of financial aid credits exceeds the student's billed charges, a residual (refund) check for the difference will be mailed to the student, or direct deposited for students who have signed up for this service.

Federal regulations require a number of applicants to verify the information they report. Be as accurate as possible when filling out financial aid forms. FAFSA filers are strongly encouraged to use the IRS Data Retrieval Tool within the online FAFSA application to authorize transfer of tax data required for the FAFSA directly from the IRS. Using this tool will decrease the likelihood of the student's FAFSA application being selected for verification. Changes in federal regulations and methodology for determining financial need may produce results which differ from year to year. Students selected for verification will be contacted by KHEAA Verify. All verification documentation must be submitted to KHEAA Verify, not to the University of Kentucky.

### Nondegree Students

Individuals admitted by the Office of Undergraduate Admission or by the Graduate School as nondegree students generally do not qualify for financial assistance. **Nondegree students must make an appointment to see a financial aid counselor to discuss their eligibility to apply for assistance.** Nondegree students who receive and accept a financial aid award without **appropriate clearance** by their financial aid counselor will be required to repay any funds credited towards billed charges or released in a refund check. Students whose status changes to nondegree after the start of the term must notify their financial aid counselor and in most cases will be required to repay all funds disbursed during the term.

### Continuing Students and Transfer Students

Continuing students and transfer students **must reapply** for financial aid (including scholarships) each year by submitting the *Free Application for Federal Student Aid (FAFSA)*. This is required in order to track changes in student or family resources that could affect the amount of an award. To reapply for the 2020-2021 academic year, students should complete and submit the FAFSA at: [www.fafsa.ed.gov](http://www.fafsa.ed.gov) as soon as possible after October 1, 2019 and preferably before March 15. A *FAFSA on the Web Worksheet* is also available at this site to assist applicants in completing the online form. Undergraduate Kentucky residents are encouraged to apply as soon as possible after October 1 to increase the likelihood of receiving limited KY College Access Program (CAP) Grant funds. Applicants who are unable to file online can obtain a paper copy of the FAFSA by calling 1-800-433-3243. Submit the online or paper FAFSA, designating UK to receive the analysis. **UK's federal school code is 001989.** Completing the FAFSA is also the first step in applying for a Federal Direct Stafford Loan.

The Office of Student Financial Aid and Scholarships informs students of financial aid decisions in early June (or as soon thereafter as possible).

### Medical and Dental Students

Medical students apply for financial aid through the Office of Education, College of Medicine, 800 Rose Street, room MN-104J, 859-257-1652. Dental students apply in the Office of Student Affairs, D-155 A. B. Chandler Medical Center, 859-323-5280.

## CONTINUED ELIGIBILITY FOR STUDENT FINANCIAL AID

Federal regulations mandate that all students be required to make measurable progress toward a degree in order to receive financial assistance through Title IV federal financial aid grant, loan and work programs. The University of Kentucky has adopted the following standards of satisfactory academic progress in order to comply with this federal requirement. **These standards are**

for financial aid purposes only and neither replace nor override University of Kentucky academic policies. Under normal circumstances, satisfactory academic progress will be evaluated once each year at the end of the spring semester.

**Minimum Credit Hour Completion Ratio:** All undergraduate and graduate students will be required to complete at least two-thirds (67 percent) of all cumulative credits attempted as expressed by the number of cumulative hours successfully completed divided by the number of cumulative hours attempted, with the result rounded up to the nearest whole percent. For example: A student who attempts thirty (30) credit hours during an academic year must earn at least twenty (20) of those hours before he or she is considered to be making satisfactory academic progress for financial aid purposes. **Credit Hours Attempted** include all hours for which a student is registered as of the end of the add period during the first week of classes. Transfer credits hours that will be applied toward a student's degree at the University of Kentucky will be counted toward the maximum number of attempted hours in the completion ratio calculation. **Credit Hours Earned** would be grades of A, B, C, D, or pass; **unearned** credit would be grades of E, F, W, Z, or Incomplete. Transfer credits hours that will be applied toward a student's degree at the University of Kentucky will be counted toward the maximum number of earned hours in the completion ratio calculation. Hours for courses with **grades of 'incomplete' (I)** will not be counted as hours earned until the credit is received, but will be counted as hours attempted.

**Cumulative Grade-Point Average:** In addition to the 'minimum credit hour completion ratio' requirement indicated above, all financial aid students must maintain a cumulative grade-point average (GPA) that is consistent with the institution's requirements for graduation. Specifically, an undergraduate student must earn at least a 2.0 cumulative grade-point average, while a graduate student must maintain a 3.0 cumulative grade-point average to be eligible for student financial aid. **Note:** For financial aid purposes GPA calculations are based **only** on hours attempted at the University of Kentucky, and by federal regulation, will include any grades removed from the UK GPA by academic bankruptcy.

**Maximum Time Financial Aid May be Received:** Each student has a maximum time frame during which they can receive financial aid. To remain eligible for financial aid at the University of Kentucky, students must complete their degree program requirements within 150 percent of the published length of their degree program. All attempted hours are counted, **including** transfer hours, whether or not financial aid was received, or whether or not the course work was successfully completed.

An **undergraduate student** enrolled at the University of Kentucky should be able to complete his or her program of study in no more than one hundred and twenty (120) credits of academic work, including any transfer credits. Therefore, a University of Kentucky undergraduate student typically may not receive federal financial aid after attempting one hundred and eighty (180) credit hours. The maximum time frame for students enrolled in programs of study requiring completion of more than one hundred and twenty credits will be 150 percent of the credits required, e.g., programs requiring 130 credits will have a 195 credit maximum. Changes in major and/or double majors do **not** increase the time frame allowed: once the allowed number of hours have been attempted, the maximum time frame is reached. By Federal regulation, if it is determined that the student has completed the requirements for a degree, regardless of whether the student has applied to receive the degree, the student will no longer be eligible to receive aid for that degree.

A **graduate student** enrolled at the University of Kentucky should be able to complete his or her program of study in no more than forty-eight (48) credits of academic work, including any transfer credits. Therefore, a University of Kentucky graduate student typically may not receive federal financial aid after attempting seventy-two (72) credit hours. The maximum time frame for students enrolled in programs of study requiring completion of more or less than forty-eight credits will be 150 percent of the credits required, e.g., programs requiring 50 credits will have a 75 credit maximum. Doctoral students maximum time frame is 150 percent of the hours required for the program.

**Students in Law, Physical Therapy, Pharmacy, and Physician Assistant programs** are considered eligible as long as they are in good standing with their program requirements.

The maximum time frame requirement may be adjusted for students pursuing a second undergraduate or graduate degree. However, before this occurs, the student will be required to file an appeal to document this situation. Generally, students will be allowed to attempt up to 150 percent of the **additional** credit hours required to earn the second degree.

**Repeated Course Work:** A student is ineligible to receive Title IV and state aid for any course that is repeated for the second time after passing it at least once.

**Failure to Complete Enrolled Courses:** A student who enrolls at the University of Kentucky and fails to earn any credit for two consecutive terms, i.e., receives a 0.0 term GPA, or withdraws from all courses two consecutive terms (i.e., fall and spring semesters) is not eligible for future financial aid without an approved SAP appeal.

**Special Grading Options and Situations:** **Repeat courses** taken during the year will automatically be considered in the following spring review for progress. Note that a repeat option replaces **only** the credit hours earned for GPA calculation; **all** attempts at a course are calculated in **total** hours attempted and in the **completion ratio** calculation. **Academic Bankruptcy** will delete an early **academic** record from the University of Kentucky GPA but does **not** remove the attempted hours from the **total** cumulative hours nor from the **completion ratio** calculation nor from the grade-point average calculation. **Audited classes, credits earned through CLEP testing, or noncredit courses** are not considered in determining satisfactory academic progress. Hours earned on a **'pass-fail'** basis or paid through a **consortium** agreement and accepted by the University of Kentucky will be used in determining satisfactory academic progress. Credits assigned to **developmental (remedial) courses** will be counted in calculating hours attempted; however, these courses are not used in calculating the grade-point average (GPA).

**Re-establishing Satisfactory Academic Progress:** Students who have failed to meet one or more of the Satisfactory Academic Progress requirements are not eligible for financial aid; however, eligibility may be regained if the student enrolls at UK at his or her own expense in a subsequent term or terms and meets the standards according to the **cumulative** credit hours completion ratio and **cumulative** grade-point average (see Sections A and B). **Note:** Once the maximum time limit has been exceeded, then aid eligibility ends, even if the student is in compliance with the other two standards.

**Right of Appeal:** Federal regulations allow for certain situations in which the Office of Student Financial Aid and Scholarships may waive the standards. Appeals will be considered if a student's failure to meet the Satisfactory Academic Progress standards is due to extenuating circumstances beyond his or her control, which have since been resolved, and which will not affect future academic performance. Detailed information about the appeal process and deadlines for submission can be found at: [www.uky.edu/financialaid/rap](http://www.uky.edu/financialaid/rap) and will be included in the student's written notification of failure to maintain satisfactory progress.

**Transfer Credits:** As stated above, transfer credits hours that will be applied toward a student's degree at a University of Kentucky will be counted **(a)** toward the maximum number of attempted hours allowed to be eligible for financial aid (i.e., usually 180 credit hours for undergraduate students) and **(b)** in the credit hour completion ratio. Transfer hours are not counted in the calculation of a student's UK GPA. **Note:** If the student must take additional credits as a result of transferring from another institution, the student must submit a written appeal to the Assistant Director of Financial Aid. If the appeal is approved, the student may continue on financial aid.

**Evaluation of Financial Aid Eligibility:** Standards of Academic Progress are applied once each year at the end of the spring semester. At that point, a student's entire academic history at the university (even for periods he/she did not receive financial aid) will be subject to the above quantitative and qualitative standards. Currently enrolled students with a FAFSA record who do not meet the Standards of Academic Progress will be notified by mail. Other students who do not meet

the Standards of Academic Progress will be notified by mail at the time UK receives the student aid application (FAFSA) data. The student may make a written appeal or re-establish his or her eligibility by attending UK at his or her own expense to make up for any deficits. It is the student's responsibility to monitor his academic progress and to be aware of the requirements of his program, so that the degree can be completed within the time allowed by Federal regulations.

**Summer School:** Any credit hours earned during the four- and eight-week summer sessions will be included in the annual evaluation made at the end of the following spring term.

**Notification:** A summary of the criteria for maintaining satisfactory progress shall be included with a student's paper Financial Aid Notification (FAN) and is also part of the *Terms and Conditions of Awards* the student must agree to when the student views and accepts his or her financial aid awards via the **myUK** portal. All students denied financial aid for failure to maintain satisfactory progress shall be notified in writing and furnished a copy of the entire satisfactory progress policy statement.

## GRANTS

A **grant** is a financial aid award that does not require repayment. Students can apply for all of the grant programs described below by completing the *Free Application for Federal Student Aid (FAFSA)*.

### Federal Pell Grants

The Federal Pell Grant Program provides grants to eligible undergraduate students working on their first baccalaureate degree. Federal Pell Grants currently range in value from \$657 to \$6,195 per school year and are based upon the student's enrollment status and the financial circumstances of the family and applicant. All students are subject to a lifetime maximum of 12 full-time equivalent semesters of Pell Grant eligibility.

The U.S. Department of Education determines eligibility according to financial need. Applicants will receive a Student Aid Report (SAR) one to six weeks after applying. Applicants who provide an email address will receive SAR information via email. Applicants who do not supply an email address will receive a paper Student Aid Report (SAR).

### Supplemental Educational Opportunity Grants (SEOG)

The Higher Education Act of 1980 provides Federal Supplemental Educational Opportunity Grants for undergraduate students who need financial aid to enter or remain in college. SEOG recipients must be eligible to receive a Pell Grant and have exceptional financial need. **The average SEOG award at the University is \$600.** Larger awards are generally not possible, since there are more eligible applicants than available funds.

### Teach Grant Program

The Teacher Education Assistance for College and Higher Education (TEACH) Grant Program provides grants of up to \$4,000 per year to students who intend to teach in a public or private elementary or secondary school that serves students from low-income families. In exchange for receiving a TEACH Grant, the student must agree to serve as a full-time teacher in a high-need field in a public or private elementary or secondary school that serves low-income families. A TEACH Grant recipient must teach at least four academic years within eight calendar years of completing the program of study for which the student received a TEACH Grant. **Important:** If the student fails to complete this service obligation, all amounts of the TEACH Grants received will be converted to a Federal Direct Unsubsidized Stafford Loan which must then be repaid to the U.S. Department of Education. The student will be charged interest from the date the grant(s) was disbursed. To receive a TEACH Grant the student must: complete the *Free Application for Federal Student Aid (FAFSA)*, although the student does not have to demonstrate financial need; be a U.S. citizen or eligible non-citizen; be enrolled as an undergraduate, post-baccalau-

reate, or graduate student in a postsecondary educational institution that has chosen to participate in the TEACH Grant Program; be enrolled in course work that is necessary to begin a career in teaching or plan to complete such course work. Such course work may include subject area courses (e.g., math courses for a student who intends to be a math teacher); meet certain academic achievement requirements (generally, scoring above the 75th percentile on a college admissions test or maintaining a cumulative GPA of at least 3.25); and sign a *TEACH Grant Agreement to Serve*.

### College Access Program (CAP) Grants for Kentucky Residents

The CAP Grant Program is administered by the Kentucky Higher Education Assistance Authority. CAP Grants are one-year monetary awards based on financial need. They may be renewed for a total of eight semesters if financial need is established. The current amount of the grant is \$2,000 annually for full-time attendance. Recipients must be enrolled at least half-time. Awards are prorated for less than full-time attendance.

To be eligible for a CAP Grant, a student must be an undergraduate, a U.S. citizen or permanent resident, a Kentucky resident, have an eligible expected family contribution (EFC).

For more information, contact KHEAA, P.O. Box 798, Frankfort, KY 40602; or visit their website at: [www.kheaa.com](http://www.kheaa.com).

### Kentucky Educational Excellence Scholarships (KEES)

The Kentucky Educational Excellence Scholarship Program (KEES) was established by the Kentucky General Assembly in 1998 and is administered by the Kentucky Higher Education Assistance Authority (KHEAA). **KEES Scholarships are available to students who graduate from a Kentucky high school and have earned at least a 2.5 GPA during one year of attendance.** Kentucky residents who meet the eligibility criteria can earn up to \$2,500 per year. The amount of the scholarship is based on the student's high school performance and ACT scores. Students will generally be eligible to receive the scholarship for a maximum of eight academic terms in an undergraduate program, or until the student meets the requirements to earn a bachelor's degree, whichever comes first.

To receive the full award, students must be enrolled full-time. Students enrolling less than full-time (but at least half-time) will receive a proportionate award.

Renewal amounts will be determined as follows: if your cumulative GPA is at least 3.0, your full award will be renewed; if your cumulative GPA is a 2.5 to 2.99, your full award will be renewed only if you have completed enough hours to be certified as **on track to graduate** by the University's financial aid office; if your cumulative GPA is a 2.5 to 2.99 and you have not earned enough hours to be considered on track to graduate, but you were enrolled full-time during the prior year, your award amount will be reduced by 50 percent; if your cumulative GPA is a 2.5 to 2.99 and you were enrolled less than full-time during the prior year and are not considered **on track to graduate** by the University's financial aid office, you will become ineligible until you meet one of the standards above at the end of the next academic year.

Students will be considered **on track to graduate** according to the following criteria: the student has earned 48 credit hours at the end of 4 terms of enrollment; 72 credit hours at the end of 6 terms of enrollment; 120 credits at the end of 8 terms of enrollment. In determining a student's **on track to graduate** status, enrollment in only the fall and spring terms will be included in the number of terms of enrollment. On track to graduate status will be determined at the end of each spring term. Any hours earned during a summer period will be included in the number of credits earned at the end of the following spring term.

Eligible students will receive official notification of their KEES award from KHEAA. The student's enrollment must be verified prior to disbursement of the award. Therefore, funds will not be available until four weeks after the start of the semester. For more information, contact KHEAA, P.O. Box 798, Frankfort, KY 40602; or visit their website at: [www.kheaa.com](http://www.kheaa.com).

### LOANS

Loans generally supplement a student's savings, earnings, or other financial assistance. Loan funds generally are not adequate to cover **all** expenses. When possible, loans are combined with other types of financial assistance to **reduce** the amount a student must borrow.

#### Subsidized Federal Direct Stafford Loans

The University of Kentucky participates in the Federal Direct Stafford Loan Program through an agreement with the U.S. Department of Education. The University receives loan funds directly from the Department of Education and disburses them to eligible students. Undergraduate students with a freshman classification may borrow up to \$3,500 per academic year. Students with a sophomore classification may borrow up to \$4,500 per academic year. Students with a junior, senior, or fifth-year classification may borrow up to \$5,500 per academic year. The amount of the loan may not exceed the cost of attendance or the cost of attendance less other aid received minus the expected family contribution, whichever is less. Beginning July 1, 2012 graduate students are no longer eligible for **subsidized** Federal Direct Stafford Loans but can still borrow an **unsubsidized** Federal Direct Stafford Loan. (Refer to the section on Unsubsidized Federal Stafford Loans below.)

The interest rate for undergraduate **subsidized** Federal Direct Stafford Loans is fixed at 4.53 percent for loans first disbursed on or after July 1, 2019. Rates will be set each year. Borrowers pay an origination fee of 1.062 percent. The fee is withheld from the loan when the funds are disbursed.

Interest will not be charged while the student is enrolled in school at least half-time, during a grace period, or during authorized periods of deferment. Interest will begin to accrue when the student enters repayment. Repayment begins six months after the borrower leaves school.

Students must complete a *Free Application for Federal Student Aid (FAFSA)* to apply for a Subsidized Federal Direct Stafford Loan.

**Apply early.** Allow a minimum of 4 to 6 weeks for the loan to be processed.

#### Health Professions Student Loans (HPSL)

Students in the Colleges of Dentistry and Pharmacy are eligible for Federal Health Professions Student Loans. Funds for the HPSL program are cooperative loan funds.

The law requires that borrowers be enrolled as full-time students in good standing in the Colleges of Dentistry or Pharmacy and be in need of a loan to continue their professional education. **Parental information must be reported on the FAFSA** even if the student is considered independent. If required, the student must be registered with the Selective Service Administration.

The amount a student may borrow annually may not exceed the student's cost of attendance. Repayment of principal and interest begins one year after the student ceases full-time study, and must be completed within ten years. HPSL Loans carry a fixed interest rate of 5 percent.

#### Primary Care Loan (PCL) Program

The Primary Care Loan Program (PCL) assists students in the College of Medicine who intend to engage in primary care residency and/or practice upon graduation. *Primary health care* is defined as family medicine, general internal medicine, general pediatrics, preventive medicine, or osteopathic general practice.

Eligibility requirements for PCL are the same as those for HPSL, except recipients must agree to enter and complete a residency program in Primary Care within 4 years following completion of residency training; and practice in primary care until the loan is repaid in full (10 years with extension at the discretion of the school). Based on compliance, the interest rate is 5 percent (paid by the federal government) during in-school and approved deferment periods. When a borrower fails to comply with the service obligation, the balance due on the loan involved will be immediately recomputed from the date of issuance (using the original principal) at an interest rate of 12 percent per year, compounded annually **for loans made prior to November 13, 1998**. For loans made on or after November 13, 1998, when a PCL borrower fails to comply with

the primary care service requirement, the PCL will begin to accrue interest at a rate of 18 percent per year beginning **on the date of noncompliance**. The penalty is calculated on the outstanding balance of the PCL on the date of noncompliance. For loans made on or after March 23, 2010, PCL borrowers who fail to comply with the service requirements of the program will have their loans begin to accrue interest at an **annual rate** of 2 percent greater than the rate the student would pay if compliant.

The amount a student may borrow may not exceed the student's cost of attendance. Interest and repayment provision are identical to those in the HPSL Program. To apply for the PCL, contact the financial aid office in the UK College of Education.

#### Federal Direct PLUS Loans and Graduate/Professional Federal Direct PLUS Loans

A biological or adoptive parent can borrow a Federal Direct PLUS Loan to help pay their child's educational expenses if the student is a dependent undergraduate student enrolled at least half-time in an eligible program. The student for whom the parent is borrowing the PLUS Loan must complete the *Free Application for Federal Student Aid (FAFSA)* and the University of Kentucky financial aid office must have determined the student's maximum eligibility for Direct Subsidized and Unsubsidized Stafford Loans. The parent borrower must also have an acceptable credit history. Both the student and the parents must also meet other general eligibility requirements for federal student financial aid. The yearly limit for a PLUS Loan is equal to the student's cost of attendance minus any other financial aid received.

Graduate/Professional students enrolled at least half-time in an eligible program can borrow a Federal Direct Grad PLUS Loan to help meet their educational expenses. The yearly limit for a Grad PLUS Loan is equal to the student's cost of attendance minus any other financial aid received.

To apply for a Federal Direct PLUS Loan or a Grad PLUS Loan go to [www.studentloans.gov](http://www.studentloans.gov). The interest rate for PLUS and Grad PLUS Loans is 7.08 percent. Interest is charged on a PLUS/Grad PLUS Loan from the date of the first disbursement until the loan is paid in full. A 4.248 percent origination fee is charged on all PLUS/Grad PLUS Loans.

#### Unsubsidized Federal Direct Stafford Loans

The Unsubsidized Federal Direct Stafford Loan program is open to undergraduate and graduate students who may not qualify for subsidized Federal Direct Stafford Loans or to undergraduate students who may qualify for only partial subsidized Federal Direct Stafford Loans. Undergraduate borrowers may receive both subsidized and unsubsidized Federal Direct Stafford Loans totaling up to the applicable Stafford limit, if they do not qualify for the full amount permitted under the subsidized Federal Direct Stafford Loan Program. For undergraduate students, this includes eligibility to borrow up to an additional \$2,000 in unsubsidized Federal Direct Loan funds. Independent undergraduate students, dependent undergraduate students whose parents cannot borrow a PLUS Loan, and graduate students have increased loan eligibility.

Unsubsidized Federal Direct Stafford Loans have the same terms and conditions as Subsidized Federal Direct Stafford Loans. Effective for loans first disbursed on or after July 1, 2019, the interest rate is 4.53 percent for undergraduate and 6.08 percent for graduate student borrowers. Rates are set each year. The borrower is responsible for interest that accrues while the borrower is in school. Borrowers pay an origination fee of 1.062 percent. The fee is withheld from the loan when the funds are disbursed.

#### Short-term Loans

Students are eligible to receive short-term, interest-free loans for a documented emergency. A \$1 service fee is charged for each loan.

Up to four **working** days are required to process a short-term loan application. Short-term loans are not available during the first three weeks of a semester or immediately preceding the close of a semester. Only students who have paid their tuition and are in good financial standing with the University are eligible. Contact the Office of Student Financial Aid and Scholarships for more information.

## FEDERAL WORK-STUDY

The Federal Work-Study Program (FWS) provides students with part-time employment to help meet college costs and, if possible, provide work experience related to their field of study. FWS is federally funded and need-based. Eligibility is determined from information provided on the Free Application for Federal Student Aid (FAFSA).

A variety of FWS positions are available. Virtually every college and department uses FWS in some capacity. Positions are available in libraries, laboratories, student services and academic departments, the Singletary Center and the Johnson Center. Off-campus jobs with non-profit agencies provide opportunities to work directly with the community.

### Earnings

Earnings through FWS vary with the amount of the FWS award, the pay rate, and the hours worked. Salaries start at \$8.25 per hour and range upward according to grade level and whether work is on or off campus. Most students work ten to twenty hours per week. Employers usually prefer students to work three or more consecutive hours depending on their class schedules. FWS pay is received via direct deposit every two weeks according to the number of hours worked and submitted to the FWS Office. FWS earnings do not directly credit a student's billing statement for University charges.

## SCHOLARSHIPS

Scholarship programs based primarily on **financial need** are administered by the Office of Student Financial Aid and Scholarships. Students with substantial financial need should read the preceding information and contact the Office of Student Financial Aid and Scholarships.

Scholarship programs based primarily on **academic merit** are administered through the Office of Academic Scholarships, including academic and competitive awards for first-time incoming freshmen, current UK students, and transfer students.

For academic scholarship consideration, first-time incoming freshmen must be admitted to UK and have qualifying test score and GPA on file with the Office of Undergraduate Admission prior to **December 1**. For more information and to view scholarships offered, please visit our website: [www.uky.edu/financialaid/scholarships](http://www.uky.edu/financialaid/scholarships).

The University of Kentucky also provides a competitive scholarship program for higher valued scholarships, for first-time incoming freshmen. The awards include the Otis A. Singletary Scholarship and Presidential Scholarship. To apply, students must complete the competitive academic scholarship section of the undergraduate admission application by **December 1**. Students must be admitted to UK and have qualifying test score and GPA on file with the Office of Undergraduate Admission by the **December 1** deadline. Early application is strongly encouraged.

The Office of Academic Scholarships also offers special first-time incoming freshmen academic scholarships to National Merit/Hispanic Scholar Finalists, Kentucky Governor's Scholars, Kentucky Governor's School for the Arts, and Kentucky Governor's School for Entrepreneurs. For more information, please visit our website or see our contact information below.

Currently enrolled UK students, not already receiving a four-year academic scholarship, who have demonstrated high academic achievement, may apply for an Academic Excellence Scholarship. Applications are available online during the spring semester and awards are made for the upcoming school year. Students must be full-time and achieve a minimum 3.50 cumulative GPA to apply. Awards are competitive and the deadline to apply is in May.

Transfer students currently enrolled full-time at an accredited institution who will be transferring to the UK main campus for the fall semester may be considered for academic scholarships. To be eligible, applicants must have completed a minimum of 24 semester hours and have a minimum 3.0 cumulative GPA. Students must be admitted to UK and have a final spring transcript on file with the Office of Undergraduate Admission by **June 15**. For more information and to view scholarships offered, please visit our website: [www.uky.edu/financialaid/scholarships](http://www.uky.edu/financialaid/scholarships).

Many academic departments and colleges have funds of their own that are granted to deserving students. For more information, check with the individual college or department of interest

For more information concerning scholarships, contact:

**Office of Academic Scholarships**  
**University of Kentucky**  
**217 Funkhouser Building**  
**Lexington, KY 40506-0054**

### William C. Parker Scholarship Program

The University of Kentucky has a mission and commitment to aggressively recruit and retain students from all segments of society, including African American, American Indian, Asian or Pacific Islander, Hispanic, and Alaskan Native students. Factors which are considered in the holistic evaluation of William C. Parker scholarship applications include test scores, grades, an essay, leadership experience, extracurricular activities, awards and recognition, community service and contribution to diversity.

The William C. Parker Scholarship Program is available for incoming freshmen, transfer, and continuing students. Students may receive only one award through the William C. Parker Scholarship Program.

For more information concerning the William C. Parker Scholarship Program, contact:

**Asia Payne**  
**Director**  
**William C. Parker Scholarship Program**  
**217 Funkhouser Building**  
**Lexington, KY 40506-0054**  
**859-323-6334**

## LEGACY TUITION PROGRAM

The University of Kentucky offers partial tuition awards to eligible non-resident undergraduate children of UK graduates. An eligible student is defined as a child whose mother, father, or step-parent has earned a bachelor, graduate, doctorate, or professional degree from the University of Kentucky, whose parent or step-parent is a member of the UK Alumni Association, and who would normally be subject to non-resident tuition rates. New first-time freshmen will be eligible for the Legacy Tuition Program for a total of eight semesters. Transfer students are eligible through the equivalent of their eighth semester of undergraduate study. Semesters of prior college enrollment at other institutions are considered in the total eight semesters. Automatic renewal each semester is contingent upon the student's full-time enrollment on the UK main campus while maintaining a good academic standing and the qualifying parent's active membership in the UK Alumni Association. Eligibility for continued enrollment in the program will be verified each semester. Students are required to complete the Legacy Tuition Program application in order to receive the benefits.

Students who participate in cooperative education programs or who participate in Study Abroad programs should contact the Office of Academic Scholarships for information regarding eligibility during these semesters. Student athletes should contact the Athletics Office to ensure compliance with NCAA regulations.

### Application Deadlines

**Fall -** March 1  
**Spring -** December 1

For more information, contact:

**Office of Academic Scholarships**  
**217 Funkhouser Building**  
**University of Kentucky**  
**Lexington, KY 40506-0054**  
**859-257-1535**  
**email: [academicscholar@lsv.uky.edu](mailto:academicscholar@lsv.uky.edu)**  
**[www.uky.edu/financialaid/scholarships](http://www.uky.edu/financialaid/scholarships)**

### HUMAN RESOURCES STUDENT EMPLOYMENT

Human Resources Student Employment is a free referral service for UK students who are seeking part-time employment during the school year and part-time or full-time employment during academic breaks. Both on-campus and off-campus jobs in various fields with assorted required skills, pay rates, and flexible schedules are usually available.

To be considered for jobs available through HR Student Employment, UK students first complete an application through the Integrated Employment System (IES). Next, UK students can search the IES for available jobs and submit their application for specific jobs. After submitting an application, students who meet the minimum qualifications for specific jobs will receive an email with instructions to visit Scovell Hall for a screening interview and possible referral. Casual, walk-in interviews are conducted Monday through Friday between 12:30 P.M. and 4 P.M. or by appointment.

Students can access the Online Employment System and other information at the HR Student Employment website at: [www.uky.edu/HR/studentjobs/](http://www.uky.edu/HR/studentjobs/). Feel free to call us at 859-257-8894.

### SPECIAL AWARDS

#### The Herman L. Donovan Fellowship for Adults 65+

The Donovan Fellowship, named in honor of the late Herman L. Donovan, University President from 1941-1956, is a tuition waiver program for adults, 65 years and older, taking academic courses at the University of Kentucky. The tuition waiver is available for courses held on campus and limited availability for UK online classes. Donovan Fellows may audit courses for the joy of learning (exams, papers or other assignments are typically not required), take courses for credit without working toward a degree, or take classes for credit as a degree-seeking candidate. There is no previous educational requirement for Donovan Fellows auditing an undergraduate class (not seeking a degree). When working toward a degree, UK Admissions criteria must be met.

For more information, contact Tyler Barber at 859-257-2657; or email: [Tyler.Barber@uky.edu](mailto:Tyler.Barber@uky.edu).

#### Osher Lifelong Learning Institute (OLLI) at UK, Lexington and Morehead

The OLLI at UK offers intellectual, social, and cultural programs for adults aged 50 years and older which characterize the university setting. Educational, enrichment, and experiential learning opportunities are offered at our locations in Lexington and Morehead. Programs are held in community locations and are offered in a variety of formats including: weekly courses, presentations series, trips, events, interest groups and more. Courses are taught in: history and government, culture and travel, languages, literature and writing, health and wellness, science and environment, and the visual and performing arts. The annual membership fee is \$35; course fees vary.

For more information, contact the OLLI at UK at 859-257-2656; toll free at 866-602-5862; or email: [Teresa.Hager@uky.edu](mailto:Teresa.Hager@uky.edu).

**OLLI at UK**

#### Oswald Research and Creativity Program

The Oswald Research and Creativity Program began in 1964 with the express purpose of encouraging research and creative activities by undergraduate students at UK. The objectives of the program are: (1) to stimulate creative work by undergraduate students, and (2) to recognize individuals who demonstrate outstanding achievement. This recognition emphasizes the importance the University places upon academic excellence.

The program has categories in Biological Sciences, Design (including but not limited to, architecture, landscape architecture, and interior design), Fine Arts, Humanities/Creative, Humanities/Critical Research, Physical and Engineering Sciences, and Social Sciences. In the science categories and the Humanities/Critical Research category, students generally submit research papers done for class or as an independent research project. For the Humanities/Creative category, students submit short stories, original plays, or poetry. The Fine Arts category is appropriate for musical compositions, paintings, sculpture, videos/films, or photographic essays. Up to 21 works of art, creative compositions, and serious research papers are recognized by the program each year. This competition is unique to the University and provides an excellent opportunity for undergraduates to test their skills and to see their academic work in a serious, professional light.

Awards are given in each category: \$350 for first, \$200 for second place, and an Honorable Mention certificate. The Associate Provost for Student and Academic Life presents the awards and a certificate to each winner at a luncheon held each December. Any undergraduate (full- or part-time, enrolled for either semester in the current academic year) who does not already have a baccalaureate degree is eligible to enter.

For information, contact the Office of Undergraduate Research, 211 Funkhouser Building, 859-257-0049; or visit us at: [www.uky.edu/chellgren/undergraduate-research](http://www.uky.edu/chellgren/undergraduate-research).

#### Undergraduate Summer Research and Creativity Fellowships

One of the strengths of research institutions like the University of Kentucky is the opportunity they provide for undergraduates to be involved in research and creative projects. Engagement in educational activities outside the classroom is a key element in the learning process. Faculty members in many fields welcome the opportunity to share their expertise and assist students with research projects. Each year, the Office of Undergraduate Research supports numerous independent research and creativity projects. Awardees range from \$2,000 to \$5,000 and support these activities during the summer months. Awards are given out at the end of the spring semester. Undergraduate students in all academic areas are eligible to compete for these fellowships.

For information and applications, contact the Office of Undergraduate Research, 211 Funkhouser Building, 859-257-0049; or visit us at: [www.uky.edu/chellgren/undergraduate-research](http://www.uky.edu/chellgren/undergraduate-research).

#### Other Awards Programs

Many academic departments at UK give special awards and prizes to students each year. Generally, special awards are cash prizes and are given on the basis of academic achievement or outstanding scholarship.

### VETERANS BENEFITS

#### Benefits for Veterans and Eligible Dependents

Federal and state benefit programs for veterans and eligible dependents are coordinated through the Veteran Resource Center, located in Room 2 Erikson Hall. Veterans or eligible dependents should contact the Veteran Resource Center during priority registration or on the Orientation date to request information on how to apply for VA benefits.

Students who have already been approved for federal or state benefit programs should bring their Certificate of Eligibility from the VA. Students who depend on these benefits to meet their living expenses should bring enough money to cover expenses for at least eight weeks while the first benefit check is processed.

For further information on VA educational benefit programs, contact the St. Louis VA Regional Office at 888-442-4551.

### Kentucky Department of Veterans Affairs Tuition Waiver Program

Under the provisions of KRS 164.505, 164.507, and 164.515 certain children and spouses of Kentucky veterans are eligible for tuition assistance from the Commonwealth of Kentucky. All persons eligible under this program must contact the VA Certifying Official in Room 2 Erikson Hall, 859-257-1148, for instructions on how get the KDVA tuition waiver applied to their account.

For additional information on the provisions of KRS 164.505, 164.507, and 164.515, contact the Kentucky Department of Veterans Affairs at 502-595-4447.

## ROTC FINANCIAL ASSISTANCE

### Air Force ROTC Scholarships

The types of financial assistance available through Air Force ROTC are briefly described below. For further details on eligibility and requirements, contact the Department of Aerospace Studies, 203 Barker Hall, University of Kentucky, Lexington, KY, 40506-0028, 859-257-7115; or visit <https://afrotc.as.uky.edu/> for more information. Additional information is also listed in this *Bulletin* under Aerospace Studies.

**High School Scholarship Program (HSSP).** Scholarships are available to those qualified and selected students who enroll in the Air Force ROTC program. These scholarships cover tuition and laboratory fees, provide an allowance for books, and provide a graduated nontaxable subsistence allowance ranging from \$300 to \$500 per month. Qualified high school students can apply for four-year Air Force ROTC scholarships. Applicants for four-year scholarships are evaluated on the basis of the following criteria: a composite score on the ACT, or a composite score on the SAT; the applicant's high school academic record; class ranking; extracurricular and athletic activities; personal interview; and ability to qualify on an Air Force medical examination. High school students who meet the basic eligibility requirements for a four-year scholarship must submit an application anytime between June 1 and December 1 of the year prior to enrollment in the program (usually the spring of their junior year into the fall of their senior year).

All selections for four-year scholarships are made at Air Force ROTC headquarters. Students meet regularly scheduled boards from September to February (which is dependent upon when they officially apply). High school students should apply online at: [www.afrotc.com](http://www.afrotc.com). For additional information, contact the Air Force ROTC detachment, 203 Barker Hall, University of Kentucky, Lexington, KY 40506-0028, or at 859-257-7115.

**In College Scholarship Program (ICSP).** Scholarships are awarded to students enrolled as cadets currently in the Air Force ROTC program on a competitive basis. Depending on the particular scholarship program, selection may be made on campus by the Air Force ROTC detachment commander or at Air Force ROTC headquarters. Scholarships may be awarded for up to three and a half years of study. Students interested in these scholarships should call 859-257-7115 for the latest information. Freshman students are not eligible for an ICSP until they have completed one full-time semester of college education. Typically freshman ICSP scholarships will be given during spring semester of their freshman year, and students in the program could be awarded a scholarship from spring semester freshman status through spring semester sophomore status.

Furthermore, the **HQ AFROTC ICSP** is an in-college scholarship program available to students pursuing a degree in critical areas needed by the Air Force. These scholarships can be up to three and a half years. These scholarships are awarded on a competitive basis for those who qualify. ICSP scholarships have historically been awarded to cadets pursuing academic majors in electrical and computer engineering, nursing, and certain foreign language studies. Selections for this particular in college scholarship program are made at Air Force ROTC headquarters. Critical areas are updated every year and are subject to change without notice. For current information, call 859-257-7115.

Information is current as of January 2019 and is subject to change.

## Army ROTC Scholarships

Army ROTC is the single largest source of scholarship money in the United States. Each year, the Army awards millions of dollars in scholarships to thousands of deserving students nationwide. **Two-year, three-year and four-year scholarships** are available through the Army Reserve Officers' Training Corps program. These scholarships pay tuition, mandatory university fees, \$1,200 per year for textbook costs, and up to \$500 per month tax-free subsistence allowance while school is in session. Scholarship recipients will be commissioned as officers at the rank of Second Lieutenant in the United States Army upon graduation. Scholarship recipients will typically incur a four-year active duty or eight-year Army Reserve/National Guard service commitment. Two- to three-year Guaranteed Reserve Forces Duty Scholarships are also available.

### Length of scholarship, application deadline, and where to apply:

1. Scholarship applications are accepted year-round. The address to request or submit an application is: Professor of Military Science, ATTN: Admissions Officer, U.S. Army ROTC, 101 Barker Hall, University of Kentucky, Lexington, KY 40506-0028; or call 859-257-6865.
2. Four-year scholarships: Application deadline is January 10 of a student's high school senior year. High school seniors are eligible to apply as early as June 15. Apply online at: [www.goarmy.com/rotc](http://www.goarmy.com/rotc). All applicants are evaluated by a board that considers the following criteria: ACT/SAT scores, high school academic record, extracurricular and/or athletic activities, and personal interview.

### Advance Course (last two academic years of baccalaureate degree)

All contracted cadets (committed by signing an Army ROTC contract) receive a subsistence allowance of up to \$500 per month while school is in session, whether or not they are scholarship recipients. Active duty commitments range from a 90-day Officer Basic Course for Reserve (Army National Guard or U.S. Army Reserve) officers to four years for active duty officers.

To be eligible for the Advance Course, students must have completed the first two academic years of the ROTC program (Basic Course) or other training (Basic Training, JROTC experience, Basic Camp).

### Basic Course (first two academic years of the four-year ROTC program)

All students are eligible and welcome to participate in military science 100- and 200-level classes **without obligation**. Completion of these courses may be utilized towards earning a minor in military leadership. The Basic Course focuses on an introduction to leadership, tasks common to all soldiers, and adventure training.

### Basic Camp and Advanced Camp

These camps are fully funded and resourced, immersive leadership training experiences lasting approximately four weeks.

Basic Camp is held at Fort Knox, Kentucky, and is attended by students who wish to participate in the Advanced Course. Completion of training qualifies students to enter the Advanced Course and compete for a two or two and a half year scholarships.

Advanced Camp is held at Fort Knox, Kentucky, and is a requirement of the Advanced Course for commissioning. Normally, students attend this Camp between the junior and senior years.

### **Simultaneous Membership Program**

This program is open to students in the Advanced Course. It enables them to remain a member of, or join a local Army National Guard unit or U.S. Army Reserve unit as officer trainees while attending college. Pay through either of these units is based on that of a Sergeant. See the admissions officer or call your local National Guard/Army Reserve recruiter for details. Simultaneous Membership Program students receive tuition assistance, Montgomery \*GI Bill®, Kicker, plus monthly drill pay while serving in the Army Reserves.

\*GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at <https://www.benefits.va.gov/gibill>.

The University of Kentucky is approved by the Kentucky State Approving Agency for Veterans Education (SAA) to offer VA Educational Benefits (GI Bill®) to eligible individuals enrolled in approved programs.

## APPLYING FOR HOUSING

It is recommended that students apply to Campus Housing as soon as they are accepted to UK. It is important to note that applying for admission to the University and applying for housing and the Living Learning Program (LLP) are **separate processes**.

On-campus housing will be provided for those who meet all University of Kentucky and Campus Housing qualifications and deadlines.

Questions regarding the housing application should be directed to Campus Housing, which processes housing applications, assigns students to residence hall rooms, and notifies students of assignments (see Contact Information at the end of this section).

### Apply Online

Apply by logging into myUK using your Link Blue credentials. Select “Undergraduate Housing” on the “Student Services > myinfo” tab.

## LIVING ON CAMPUS

The University of Kentucky has 17 residence halls and apartments designed in several different room types, including 4-person suites, 2-bedroom suites, 4-bedroom suites, as well as 2-bedroom apartments and 4-bedroom apartments. The on-campus residence halls and apartments house over 7,200 undergraduate students.

The residential setting at UK is intended to contribute to a student’s education by providing a living learning environment. There are several living learning communities within undergraduate housing. For more information about each living learning community, visit the Living Learning Program website at: [www.uky.edu/housing/](http://www.uky.edu/housing/).

UK’s residence halls are the foundation upon which a solid college experience is built. Many current students believe that living in a residence hall is the best way to make friends, meet new people, and become involved in campus life. Studies on UK’s campus indicate that students who live on campus, particularly those in living learning communities, tend to have higher grade-point averages and have higher retention rates than students living off campus. Students are encouraged to apply to live on-campus during their sophomore, junior and senior years.

UK’s residence halls are staffed with professionally trained personnel, including full-time resident directors, hall directors, and resident advisors who live on each floor. The hall director and resident advisors assist in creating a safe, inclusive environment, helping students in their academic efforts, planning social and educational programs, and developing hall governments. Residents are encouraged to participate both within the hall and in the campus community.

All on-campus undergraduate residents are represented by the Resident Student Association, a group whose goal is to improve residence hall life by planning and directing social, educational and recreational programs, and by providing a unified voice for residents. The Resident Student Association is a member of the National Association of College and University Residence Halls (NACURH), enabling interested residents to attend regional and national leadership conferences.

### Room Assignments

Housing assignments are based on the application for admission track (Early Action or Regular Decision) and the student’s housing application completion date. Acceptance into a Living Learning Program designates the specific residence hall. Residents have the opportunity to select their room through the online Room Selection process. Applying early for housing is strongly encouraged.

If housing demand exceeds capacity, students may be placed on standby for housing until a permanent room assignment can be made. Each year, a number of housing recipients do not come to school, or come but do not stay, creating vacancies.

### Roommates

Students may request roommates on the housing application. Two students who wish to share a room must indicate each other as the preferred roommate and request the same room types and area of campus. Living Learning Program participants will be expected to room with another student in the same LLP community.

## HOUSING

UK’s residence halls and apartments have many attractive features. Housing rates include utilities, cable television, computer network connection and furniture. All residence halls are staffed by hall directors and resident advisors. Each front desk has a staff member monitoring the lobby area 24/7. Security cameras are placed in many areas of the halls. Residence halls provide convenient access to laundry facilities, game and television rooms, vending machines, lounges, and study rooms. Dining facilities are close to all areas of campus. **Smoking and other tobacco products are not allowed on UK’s campus.** UK Housing policies and procedures apply to all residents who sign a contract and live in one of the residence halls or Greek facilities managed by the University.

UK’s campus covers many acres. Students and faculty refer to the areas of campus as north campus and central campus. UK’s residence halls are located in both areas, and apartments are on central campus.

Students should learn about the facilities and the various living learning communities available.

### North Campus

The north campus consists of five residence halls: Blazer Hall, Boyd Hall, Holmes Hall, Jewell Hall, and Wildcat Coal Lodge. North campus halls are close to many classrooms, the UK Bookstore, Memorial Coliseum, Rupp Arena, Singletary Center, downtown, many eclectic shops and restaurants, and the UK Gatton Student Center containing Champions Kitchen, the new residential dining facility that opened in spring 2018.

### Central Campus

Central campus consists of 12 residence halls: Baldwin Hall, Chellgren Hall, Donovan Hall, Haggin Hall, Ingels Hall, Lyman T. Johnson Hall, Lewis Hall, Smith Hall, Woodland Glen II, Woodland Glen III, Woodland Glen IV, and Woodland Glen V. University Flats, with apartments for upper-class students, is also located here. These residential communities are located near the Fresh Food Company at The 90, William T. Young Library, the E.J. Nutter Field House and Training Facility, the Hilary J. Boone Tennis Center, Lancaster Aquatic Center, Shively Field at Cliff Hagan Stadium, Bernard Johnson Student Recreation Center, and Kroger Field – UK’s football stadium.

### Office of Residence Life

The Office of Residence Life intentionally creates values-based living and learning communities that empower students and staff to engage in active learning, global citizenship, and self-discovery as they shape their Kentucky experience. Through two major high impact programs such as, the Residential Curriculum and Living Learning Programs, the Office of Residence Life seeks to accomplish four major educational goals in the lives of both students and staff at UK:

## Living Accommodations

- (1) Academic & Career Preparedness
- (2) Personal Wellness
- (3) Community Responsibility and Involvement, and
- (4) Sense of Belonging.

Currently the Office of Residence Life employs over 200 student and full-time staff members, including Resident Directors, Resident Advisors, Peer Mentors, and Desk Clerks who live and work in on-campus residential facilities. Each of these staff members receives extensive training in community development, on campus resources and skills-based training, in an effort to prepare staff in executing a residential curriculum throughout the academic year. As a result, all residence life staff are seen as a valuable resource in meeting the holistic needs students have throughout the academic year.

Also the Office of Residence Life is well known for coordinating 14 high impact practices called Living Learning Programs (LLPs). Living Learning Programs consist of two types of LLPs; residential colleges and living learning communities. Both programs offer students the opportunity to interact more with faculty both in and outside of the classroom as well as access resources related to their academic pursuits or thematic interests.

For more information about Living Learning Programs, the Residential Curriculum, or the Office of Residence Life, please contact:

### RATES

The cost for living in UK Housing is listed in the *Fees* section of this Bulletin.

### Rate Changes

Rates are subject to change at any time before the beginning of the academic year, upon action by the Board of Trustees. Rates are normally established in May for the succeeding academic year.

### CANCELLATIONS

If, after completing the housing application and the Housing and Dining Contract, a student chooses to cancel the Contract, the student is required to do so in writing to the Campus Housing office and UK Dining by email at [ukhousing@uky.edu](mailto:ukhousing@uky.edu) and [contactukdining@lsv.uky.edu](mailto:contactukdining@lsv.uky.edu), through the University Housing Portal, or by mail to the following addresses:

- **Housing Cancellations:** Campus Housing 125 Funkhouser Building, Lexington, KY 40506-0054.
- **Meal Plan Cancellations:** Dining Center, Gatton Student Center, Suite A382, 160 Avenue of Champions, University of Kentucky, Lexington, KY 40508.

The Official Date of Cancellation will be the date the cancellation notification is received in the Campus Housing office and UK Dining. For information about refund schedule, cancellation dates, and other important facts, visit:

[www.uky.edu/housing/sites/www.uky.edu.housing/files/2019-20\\_Contract\\_and\\_Cancellation\\_Policy.pdf](http://www.uky.edu/housing/sites/www.uky.edu.housing/files/2019-20_Contract_and_Cancellation_Policy.pdf).

### GRADUATE AND FAMILY HOUSING

The University provides convenient and affordable housing options for full-time graduate students, professional students, and non-traditional undergraduate students. Graduate and Family Housing may accept Visiting Scholars, Interns, Post-doctoral students, or others who have an educational association with the University if space permits.

Graduate and Family Housing offers internationally diverse communities which are open year-round. A variety of housing options are available including efficiencies, suites, one- and two-bedroom units, and a limited number of townhomes, all conveniently located on campus. Appliances, furnishings, utilities, Internet and cable are available in most communities. Laundry facilities are available in all communities. For convenience, monthly rent may be paid online.

Please visit the Graduate and Family Housing website to learn more about the amenities provided for each residential facility, rental rates and other important information. A parking permit is required and must be purchased through UK Transportation Services for all properties.

For more information, please visit us at: [www.uky.edu/housing/graduate-family-housing](http://www.uky.edu/housing/graduate-family-housing) or contact our office:

### UK DINING

UK Dining is about more than just food. It's an experience. It's a community. It's a place to meet friends, to unwind, to celebrate, and even to study. When you dine on campus you're sure to eat well and be well-nourished so you can excel in your classes. And if there's ever anything the dining team can do to make your experience better, just ask. State-of-the-art facilities, restaurants you know and love, and people that care about what you eat are all on campus at the University of Kentucky. Let's eat.

#### Commitment to Nutrition

UK Dining is committed to providing you a broad selection of great tasting, nutritious food and beverages. UK Dining offers an on-site dietitian who is available for consultations. Email [contactukdining@lsv.uky.edu](mailto:contactukdining@lsv.uky.edu) to schedule a meeting. The menus are created by experienced chefs who have a passion for food, and recipes feature fresh fruits, vegetables, whole grains, lean proteins, and low or nonfat dairy options. UK Dining also recognizes and accommodates special dietary needs in a personalized, sensitive manner, including developing a step-by-step guide: *Your Guide to Managing Food Allergies & Celiac Disease*, available on the dining website.

#### Restaurants

The University of Kentucky features two large, all-you-care-to-eat restaurants where students utilize the "meals" from their meal plan. North campus and the academic neighborhood are closest to Champions Kitchen, a campus favorite with traditional and cutting-edge selections. Central and south campus are closest to Fresh Food Company at The 90, a state-of-the-art facility with an open kitchen design and an innovative menu prepared right in front of you. Across campus UK Dining provides so many options that you know and love like Chick-fil-A, Starbucks, Panda Express, Taco Bell, local favorites Aqua Sushi and Common Grounds, Wildcat Pantry convenience stores, and much more. What

you see in every restaurant is a host of people that care about how your day is going and want to make sure you get a great meal. They're here because of you.

### Meal Plans

Every student, whether you live on campus, walk to campus, or drive to campus has the benefit of saving money to get great food with a meal plan. All students living in a residence hall must choose a meal plan as part of the fall 2019-spring 2020 housing contract (two all access plans with varying levels of flex and a weekly 10 option). All students living off campus can choose any of the traditional meal plans or plans created especially for their varied needs. A full list is available on the "Meal Plans" page of the dining website: [www.uky.campusdish.com](http://www.uky.campusdish.com). Students can get advice on how best to utilize their plan and map out locations close to their classes by visiting the UK Dining Center in the Gatton Student Center at 160 Avenue of Champions.

Meal plans include both "meals" and "Flex Dollars" –

**Meals:** With a meal plan you receive credit for all-you-care-to-eat meals at Champions Kitchen and Fresh Food Company. This is where many students will eat the majority of their meals.

- To use a meal at one of these locations, simply present your WildCard ID to the cashier upon entering the restaurant.
- Each time you swipe your card a meal will be deducted from your remaining meals.
- Meals are reserved for the account holder. Some meal plans offer "guest meals" that can be used to treat friends, family, or even yourself.

**Flex Dollars:** Flex Dollars supplement your meals and are included in each meal plan. Flex Dollars work just like a debit card and may be used at all UK Dining locations.

- Flex Dollars are not taxed at the time of your purchase.
- Flex Dollars can be added anytime in the semester and there is no fee to add Flex Dollars.
- Unused Flex Dollars will carry forward from fall to spring for students enrolled in the spring semester.

Meal plans are for the academic year. You will be automatically billed each semester. You will begin the spring semester on the same meal plan that you have at the end of the fall semester. Unused Weekly Meals cannot be refunded, accumulated, or carried over for the next week. Unused Block Meals cannot be refunded or carried over to the next semester. All Flex Dollars are non-refundable, non-transferable and expire at the end of the spring semester.

Meal plans save time and are less stressful. With a meal plan you don't have to worry about preparing your own food. There isn't the hassle of shopping, cooking, and cleaning after every meal. We've got you covered. When you don't have to worry and are well-fed from a meal plan, you're better nourished and have more energy. We want you to succeed at UK by offering a plan that fits your needs best.

## STUDENT PARKING AND TRANSPORTATION OPTIONS

University of Kentucky parking permits are required for parking on campus. Permit control signs at the entrance to each parking lot display the type of permit required and the hours when the lot is controlled for permits. There are a variety of student permit types, including residential, commuter, periphery, remote and off-peak. Permit sales will begin in summer 2019, with an exact date to be announced on our website, located at: [www.uky.edu/transportation](http://www.uky.edu/transportation).

The University of Kentucky also has a robust and growing alternative transportation network that all students are encouraged to use, regardless of whether or not they choose to bring a personal vehicle to campus. In fact, less than half of students bring a vehicle to campus, a decision from which everyone benefits – our campus, our community and our environment. With a variety of car-free options readily available, it's easy to access the campus and explore Lexington without a personal vehicle.

Information on topics related to parking, permit application, motorist assistance, bicycle parking, bus routes and schedules, and frequently asked questions can be found online at [www.uky.edu/transportation](http://www.uky.edu/transportation). Students can also register for and renew permits, check for unpaid citations, and pay and appeal citations online. Visit the website for hours of operation and for information on satellite office locations.

Transportation Services also sends vital information on campus parking and transportation-related matters to parents and students who subscribe to the department's email newsletters. Stay informed by signing up for Transportation Services' e-News at: [www.uky.edu/transportation](http://www.uky.edu/transportation).

### Campus Buses and Shuttle Routes

Over 40,000 people are on-site at the University of Kentucky campus each day, and the free campus shuttle system helps them get around campus. All buses are equipped with wheelchair lifts and most have bicycle racks.

All areas of campus are less than a 5-minute walk from a bus stop, providing easy access in either direction so that students and employees arrive at their destinations faster than it would take to walk the same distance. Buses serve stops every 7-10 minutes, with more frequent service during peak arrival times.

When the University is open but classes are not in session, campus transit continues to operate with a reduced number of buses.

All campus routes – as well as off-campus Lextran routes – are viewable in real-time on TransLoc Rider, UK's GPS-based bus locating system. TransLoc can be accessed at <http://uky.transloc.com/> and via the free Transloc Rider Android and iPhone apps.

Route and schedule information is available at [www.uky.edu/transportation](http://www.uky.edu/transportation).

### Late Night Bus Service

Buses traverse campus throughout the day, but as night approaches, UK's bus service becomes increasingly important from a safety perspective. Nighttime campus bus service operates until 5 A.M., Monday through Friday, and until midnight on Sunday.

### Kentucky Wildcab

Kentucky Wildcab is a free, late night, on-demand transportation option for students, provided by Student Government and operated by students through Transportation Services. The service operates Thursday through Saturday from 10 P.M. to 3 A.M. during fall and spring semesters. Rides must be requested through the Kentucky Wildcab app.

### Lexington Bus Service

Students ride all Lextran city routes for free through the *BluPass* program. This program allows students to commute to and from campus, run errands and go shopping. Students simply show their Wildcard ID to the bus driver on any of Lextran's routes. For more information on Lextran routes and schedules, visit [www.lextran.com](http://www.lextran.com). For more information on *BluPass*, visit [www.uky.edu/transportation](http://www.uky.edu/transportation).

### BreakShuttle

Transportation Services offers an alternative travel option for students and employees in visiting a variety of destinations during academic breaks. BreakShuttle operates at the start and end of Thanksgiving, Winter and Spring breaks. For more information about BreakShuttle, visit [www.uky.edu/transportation](http://www.uky.edu/transportation).

### Free Regional Airport Shuttles

Transportation Services offers free shuttles to Blue Grass Airport, Louisville International Airport and the Cincinnati/Northern Kentucky Airport at the start

## Living Accommodations

of Thanksgiving, Winter, and Spring breaks with daily pick-up times. Return trip shuttles are also available from all three airports back to campus. For more information about this free service, visit [www.uky.edu/transportation](http://www.uky.edu/transportation).

### Car Sharing

Car sharing is a low-cost, short-term car rental option with an hourly rate for use of a car. UK Transportation Services has partnered with Zipcar to offer car sharing on campus. Unlike traditional car rental services, the minimum age allowed to use the car sharing program is 18. Car sharing is a great option for those who don't have cars on campus, those who regularly use alternative transportation, and those who want to avoid wear and tear on their vehicle. For more information, visit [www.zipcar.com/uky](http://www.zipcar.com/uky).

### Motorist Assistance

Transportation Services has developed a motorist assistance program for students and employees who have valid parking permits, which includes free on-campus battery jump-start service 24 hours a day, seven days a week. Additionally, the University offers other motorist assistance services at a discounted rate to valid UK parking permit holders. For more information, visit [www.uky.edu/transportation](http://www.uky.edu/transportation).

### Guest Parking

Family and friends visiting campus during the week may pay to park in the Sports Center Garage (PS #7, near the Johnson Center), in the South Limestone Garage (PS #5, across from the Student Center), or at parking meters. Guests or the students they are visiting may also stop by Transportation Services, located in the Press Avenue Garage (PS #6), at the corner of Press and Virginia avenues, to obtain a temporary parking pass. After hours and on weekends, visitors can also park in lots not controlled for permits. A permit control sign at the entrance to each parking lot displays the hours when the lot is being controlled for permits.

### Off-Peak Permits

Parking on campus does require a valid University permit until 7:30 P.M. in most instances. However, any valid permit can be used in most intermediate Employee (E) lots after 3:30 P.M. as a general rule of thumb. Refer to the permit control sign at the entrance to each parking lot for specifics. Students who choose to operate a vehicle on campus during evening hours as a safety measure, and don't have another valid University parking permit, may consider the off-peak parking permit as an option. This permit is offered at a reduced rate compared to other student permits, and is valid in most campus lots after 3:30 P.M.

### Football Game Day Parking Relocation

Students and employees who park in the Kroger Field parking lots (Red, Blue, Orange, Commonwealth Drive and the Soccer/Softball Complex Lots), in the Sports Center Garage (PS #7) or in the Sports Center Lots must move their vehicles before 7 A.M. on the days of home football games. Students and employees who park in the Kroger Field Green Lot must relocate prior to 10 P.M. the night before home football games. No parking is permitted on University Drive on game days.

Failure to move any vehicle from the stadium parking lots, the Sports Center Garage, the Sports Center Lots or University Drive may result in a citation or impoundment at the owner's expense.

Vehicles may be moved any time after 3:30 P.M. on Friday, and must be moved back by 5 A.M. Monday.

Please refer to the Game Day Parking map located at [www.uky.edu/transportation](http://www.uky.edu/transportation) for specific lot relocation information.

### Bicycle Parking and Registration

The University of Kentucky recognizes bicycles as vehicles and encourages bicycling as a mode of transportation. In an effort to provide the campus community with a safe, secure, and efficient cycling environment, the University requires bicyclists to observe established regulations for operating and parking bicycles and campus and strongly encourages cyclists to obtain and

display a bicycle permit, available at no charge. Visit [www.uky.edu/transportation](http://www.uky.edu/transportation) for more information.

Bicycles may **only** be parked at bicycle racks, located at all residence halls, classroom buildings, and throughout campus. This means that bicycles may not be parked on benches, railings, trees or anything other than a bike rack. Parking at locations that are not bike racks poses a number of safety issues, and bikes parked in such a manner may be cited or impounded.

All Lextran and some campus buses are equipped with bicycle racks for your convenience.

### Bicycling on Campus and Beyond

Biking as a mode of transportation has a number of advantages: it's good for you and the environment, saves you money and is often faster than other ways of getting around. The University of Kentucky is committed to educating its community about safe bicycling practices and improving bicycle facilities on campus through the Bicycle Advisory Committee.

Here is a list of campus and community bike resources to help you get started on two wheels:

- Transportation Services Bike Info: [www.uky.edu/transportation](http://www.uky.edu/transportation)
- Wildcat Wheels Bike Library: [www.uky.edu/transportation/wildcatwheels](http://www.uky.edu/transportation/wildcatwheels)
- Interactive Campus Bicycle Map: <https://maps.uky.edu/bicycle/>
- Lexington Bicycle-Friendly Streets Map: [https://www.lexingtonky.gov/sites/default/files/2016-08/BikeLexMap\\_2012\\_web.pdf](https://www.lexingtonky.gov/sites/default/files/2016-08/BikeLexMap_2012_web.pdf)

### Wildcat Wheels

The Wildcat Wheels Bicycle Library (WWBL) is a nationally-recognized educational resource that provides free bicycle use and repair assistance to students, faculty and staff at the University of Kentucky. The program has two main components:

1. A bicycle library that takes abandoned bikes from campus and reuses them in the rental fleet, and
2. A student-run bike shop to assist with and teach bicycle maintenance and repair. The on-campus bike shop is open five days a week during the fall and spring semesters to assist the campus community

For more information, as well as the shop location and hours, visit: <https://dib.uky.edu/transportation/bike/wildcatwheels>.

### Semester-Long Checkout

More than 80 bicycles are available through an online lottery at the start of each academic term to all students, faculty, and staff. Please visit our website for additional details. A limited number of bikes are also available for weekly check-out.

### Big Blue Cycles

The Big Blue Cycles program is a fleet of more than 150 bicycles available to students living in campus housing who sign a commitment not to bring a car to Lexington. The bicycles for this program are 8-speed commuter bicycles equipped with fenders, a bell, and a lock. Participating students will be guaranteed the bicycle for the entire academic year with the requirement that they attend a hands-on safety training course, adhere to program requirements, and waive their ability to purchase a parking permit for the year. Online registration for the program on our website. If more than 150 students register for the program, bicycle recipients will be chosen through a lottery. In the event a student selected through the lottery has already purchased a parking permit, they will be able to return the permit for a full refund.

# Cultural Opportunities

## Otis A. Singletary Center for the Arts

Located on the corner of Rose Street and Euclid Avenue, the Singletary Center for the Arts serves as the primary performance facility for the University, as well as for many community and regional events. The Center includes a 1500-seat Concert Hall and a 400-seat Recital Hall, both designed for acoustical excellence.

The Singletary Center opened in the fall of 1979 and hosts an average of 400 events annually, including nearly 175 performances by School of Music faculty and students. The Center is visited by over 123,000 patrons each year.

The Singletary Center is also the primary performance venue of community arts organizations including the Lexington Philharmonic Orchestra and Central Kentucky Youth Orchestras. In addition to performance spaces, the Center houses the Gallery at the President's Room, which showcases regional, local, and student art exhibits. Admission to the Gallery is free.

The Center offers discounts and/or free admission to numerous programs for students, faculty and staff with a valid UK ID. For more information, visit online at: [www.singletarycenter.com](http://www.singletarycenter.com). For ticket information, call the Singletary Center Ticket Office at 859-257-4929. The ticket office is open 10 A.M. to 5 P.M. Monday through Friday, and 12 P.M. to 5 P.M. on Saturday if there is a ticketed performance.

## Singletary Signature Series

The Singletary Center for the Arts at the College of Fine Arts presents and hosts artistic, cultural, and educational events for the University community, Lexington community, and the Commonwealth of Kentucky. The Singletary Signature Series offers audiences the highest standards of artistic excellence usually found in major metropolitan art centers. Each year, the series features national and international acts ranging from jazz to rock, dance to opera, and classical to modern. Past performers include Trombone Shorty, Denyce Graves, Joshua Bell, Savion Glover, Mark O'Connor, the B-52s, Chris Isaak, Itzhak Perlman, Boyz II Men, Wynton Marsalis and Emmlyou Harris.

Don't miss the opportunity to see some of the world's best performers right here on UK's campus. For more information about the Singletary Signature Series and other concerts at the Singletary Center, call 859-257-4929; or visit the website at: [www.singletarycenter.com](http://www.singletarycenter.com).

## Theatre and Dance

The UK Department of Theatre and Dance at the College of Fine Arts produces a dynamic variety of performances each season, inspired by its dedication to artistic excellence and professionalism. Housed in the historic Guignol Theatre on Rose Street, season repertoire features innovative reinvention of classics, original work developed by students and faculty, and new plays by emerging voices in the American Theatre. Additionally, the department presents an annual dance concert featuring dance minors and a musical theatre production featuring exceptional students in the Musical Theatre Certificate. All performances are open to the Lexington as well as the UK campus community. For more information on auditions and other theatre activities, visit: <https://finearts.uky.edu/theatre-dance>.

## UK School of Music Concerts

The School of Music at the College of Fine Arts presents a variety of recitals and concerts throughout the year by faculty, students and guest artists. Student ensembles include University Chorale, University Choristers, Men's Chorus, Women's Choir, Symphony Orchestra, UK Philharmonia, Wind Symphony, Symphony Band, Concert Band, Wildcat Marching Band, three Jazz Ensembles, Percussion Ensemble, Opera Theatre, and acoustic vocal groups Paws and Listen and the AcoUstiKats.

All performances are open to the public. For a complete listing, visit: <https://finearts.uky.edu/music>.

## Chamber Music Society of Central Kentucky

The Chamber Music Society of Central Kentucky offers a series of concerts featuring outstanding chamber music ensembles of national and international reputation. Most performances are held on campus at the Singletary Center for the Arts. Tickets are available individually or by subscription. For ticket information, call 859-257-4929.

## Lexington Philharmonic Orchestra

The Lexington Philharmonic Orchestra is conducted by Scott Terrell and performs regularly in the Concert Hall of the Singletary Center for the Arts. The orchestra plays a varied repertoire and features outstanding guest soloists at each concert. Tickets are available individually or by subscription. For ticket information, call 859-233-4226.

## University Art Galleries

The gallery in the Bolivar Art Center, the home of the School of Art and Visual Studies, houses B.A. and B.F.A. senior exhibitions as well as juried shows. The Pence Hall Gallery, under the direction of the College of Design, combines exhibits of architectural interest featuring painting, drawing and sculpture. For more information, visit the School of Art and Visual Studies site at the College of Fine Arts at: <https://finearts.uky.edu/art>.

## Martin Luther King Center

Established on the University of Kentucky campus in 1987 as the Martin Luther King Center, this much-visited campus venue has been a vital resource, providing year-round programs and activities that have focused on the importance of cultural awareness and cross-cultural understanding. The center offers a relaxed and affirming atmosphere that enhances the recruitment and retention of students from diverse backgrounds. Entering its fourth decade of operation, the center has evolved into an education resource facility where all students, as well as faculty and staff of the university can engage each other through cross-cultural exploration and intellectual exchange.

Increasingly, research has shown a vitally positive link between intercultural engagement and student success. As a result, the King Center has sharpened its focus on diversity education and increased its support of the academic enterprise. In addition to cultural/educational programs consisting of lectures, concerts, artistic performances, film/video screenings and workshops, faculty involvement in the center has increased through the establishment of the Scholar-in-Residence (SiR). During his/her two-year assignment, the faculty SiR helps to situate many center programs and activities within the academic/intellectual realm, and engages students, faculty and staff in meaningful exploration and intellectual discourse. Check the King Center website for programs and scheduling details at: [www.uky.edu/mlkc](http://www.uky.edu/mlkc).

## Mission

The mission of the King Center is threefold: (1) to advance the university's strategic goal of achieving a more diverse and inclusive campus environment, (2) to support increased retention of undergraduate students who are generally underrepresented in the student body, and (3) to enhance student achievement by helping students to have a more engaged, productive and fulfilling undergraduate experience. To these ends, our goals are to foster intercultural competence, promote respect and passion for the pursuit of quality education, and to help prepare students for productive and responsible engagement in a global society.

### Values

It is a truism that education transcends the traditional classroom setting and takes place whenever and wherever individuals engage each other sincerely and open-mindedly in earnest pursuit of knowledge and deeper understanding. MLK Center programs and activities support this educational process through embrace of certain values, which include the following:

- **Inclusive Leadership:** Strive to create opportunities for learning for the entire campus community.
- **Student Success:** Strive to become an essential element to success for the students that are underserved in the population.
- **Advocacy:** Serve as an advocate for an inclusive campus and environment, and for all students to realize that they are a valued part of the UK community.
- **Collaboration:** Work with high regard of collaborating and partnering with a variety of entities.
- **Outreach:** Exemplify the ideal and philosophy of Dr. King by connecting students across social and cultural boundaries and the campus to the Lexington community, and reaching across the state of Kentucky to further efforts of inclusivity.

### The University of Kentucky Art Museum

The University of Kentucky Art Museum is an encyclopedic museum that promotes the understanding and appreciation of visual art from a range of cultures and historical periods. We present significant temporary exhibitions, lectures, and educational programs throughout the year, and selections from our permanent collection of more than 4,800 works are always on view. This includes paintings, sculptures, drawings, photographs, and functional objects by some of the world's most renowned artists, including Ansel Adams, Milton Avery, Romare Bearden, Alexander Calder, Albrecht Dürer, Louise Nevelson, Pablo Picasso, Robert Rauschenberg, Louis Comfort Tiffany, and Andy Warhol.

The Art Museum is accredited by the American Alliance of Museums. Prearranged group and class tours led by Museum volunteers or staff are encouraged. The Museum offers students training opportunities for work-study and internships as well as a Museum Studies course in partnership with the College of Fine Arts. For more information, visit our website at: <https://finearts.uky.edu/Art-Museum>. The Art Museum, located in the Singletary Center for the Arts at the corner of Rose Street and Euclid Avenue, is open 10 A.M. to 5 P.M. Tuesday through Thursday; 10 A.M. to 8 P.M. on Friday; and noon to 5 P.M. on Saturday and Sunday. Admission is free. The Museum is closed on Mondays.

### William S. Webb Museum of Anthropology

The William S. Webb Museum of Anthropology is the major curation facility for archaeological collections in the state. The Museum was founded in 1931 by William S. Webb, and houses many unique collections recovered from archaeological excavations all across the Commonwealth. Every year we welcome researchers from all parts of the world who come to study, photograph and interpret the material remains representing 12,000 years of Native American life in Kentucky, and the last 200 years or so of the Commonwealth. The museum library contains approximately 11,500 volumes on Kentucky prehistorical and historical archaeology. Researchers are welcome to apply to the Museum for collections access.

## DEAN OF STUDENTS OFFICE

The University of Kentucky Dean of Students Office provides both administrative and educational services that support the personal and academic success of students. The office provides extracurricular, non-academic educational programs and also collaborates with academic units to provide support for students in reaching their educational goals.

### Office of Student Conduct

The Office of Student Conduct is committed to promoting a safe, healthy, student-centered, and inclusive community where students can learn, grow, and develop as they pursue their academic endeavors at the University of Kentucky. The goals of the student conduct system are to:

- Promote personal responsibility and peer accountability.
- Encourage students to consider the impact of their actions on themselves, their peers, and the greater community.
- Empower students to address any conflict that may arise in a safe, respectful, and socially conscious manner.
- Collaborate with faculty, staff, students, and the campus community with regard to student conduct matters.
- Educate the campus community about student rights and responsibilities related to the University Code of Student Conduct.

The Code of Student Conduct (“the Code”) at the University of Kentucky is established to promote and protect the core mission and values of the University. By maintaining the Code, the University affirms the rights, protections, and expectations of students regarding their behavior as members of the University community. Students enrolled at the University of Kentucky are expected to conduct themselves according to federal, state, and local laws, and promote an educational environment that supports the University’s mission and values. When incidents of potential misconduct occur, students are afforded a fair, educational, and consistent student conduct process. The student conduct process is designed to be a learning experience that facilitates responsible conduct and positive citizenship among the University and greater community. For further information about the student conduct process, visit:

[www.uky.edu/studentconduct](http://www.uky.edu/studentconduct).

### Community of Concern

The Community of Concern Team is a part of the University’s commitment to proactively addressing issues of concern involving our students and/or employees. Our paramount concern is maintaining the safety of all members of the University community. The Community of Concern team seeks to enhance the well-being and safety of the University’s students and employees by:

- providing a centralized point of contact for persons who develop a concern about the welfare of an individual;
- taking appropriate action by referring individuals to the resources that can provide the support/assistance needed to safely maintain successful relationship to the University; and
- providing training and education to the University community.

For more information, visit the COC website at: [www.uky.edu/concern/](http://www.uky.edu/concern/).

### Fraternity and Sorority Life

Fraternity men and sorority women have been part of the long-standing tradition at the University of Kentucky since the first fraternity was established in 1893. The Fraternity and Sorority Life Office includes professional fraternity and sorority advisors with more than 50 years of combined experience working with fraternal organizations. Fraternity and Sorority Life is a part of the Dean of

Students Office and works collaboratively with other departments in the Division of Student and Academic Life to promote the success of organizations and students through education, guidance and advocacy. The professional staff advisors work in partnership with a team of fraternal housing coordinators who support facilities and large community projects. The staff also supports the governing councils and chapters in all areas of fraternity and sorority operations including membership education, leadership, community service, university involvement, finance, recruitment, scholarship, personal growth and accountability. They work collaboratively with council officers, members and chapter officers, as well as chapter advisors, alumni corporations and inter/national organization volunteers and staff.

The governing bodies for Fraternity and Sorority Life are the Interfraternity Council, National Pan-Hellenic Council, Panhellenic Council, and United Greek Council, comprised of representatives from each group on campus.

The Interfraternity Council (IFC) is the governing body for many of the men’s fraternities at the University of Kentucky. IFC will host a structured primary recruitment process each semester so interested candidates can meet all of the organizations housed within this council. The IFC is currently the only council with a GPA requirement to participate in recruitment activities: a 2.7 (on a 4.0 unweighted scale, per University of Kentucky’s determination) high school GPA or a 2.5 college GPA for returning students and transfer students. Men interested in participating in recruitment must register and pay a fee.

The National Pan-Hellenic Council (NPHC) at the University of Kentucky is the coordinating body of the active historically black fraternities and sororities. NPHC organizations take new members into their organizations through a process called membership intake. This process is organized by each chapter and includes selection of candidates, education about the organization and initiation and full membership. Students interested in joining any of the NPHC organizations must complete NPHC 101 – an in-person educational program organized by the council each semester to provide interested students with more information about each chapter, membership intake and the expectations of fraternity and sorority life.

The Panhellenic Council is the governing body for the 14 National Panhellenic Conference sororities. Panhellenic uses a fully-structured recruitment process in order to build relationships between chapter members and potential new members, discover shared interests and values among chapter members and potential new members and display the high standards held by all NPC member organizations. This primary recruitment will occur each fall and women interested in participating are required to register and pay a fee.

The United Greek Council (UGC) at the University of Kentucky is the governing council for special-interest and culturally-based fraternities and sororities. Fraternities and sororities within the United Greek Council individually coordinate their recruitment opportunities by chapter. Culturally-based organizations will conduct membership intake and special-interest organizations will host a primary recruitment opportunity. To provide a centralized location to learn about all the organizations within UGC, the council hosts an open house event within the first few weeks of school.

The Fraternity and Sorority Life Office is located in 518 Patterson Office Tower. For more information about each of our chapters, our governing councils, or recruitment and intake processes, call 859-257-3151 or visit [www.uky.edu/greeklife/](http://www.uky.edu/greeklife/).

### OrgSync

The OrgSync online platform provides an easy way to connect with more than 500 student organizations. Visit [www.orgsync.com](http://www.orgsync.com) and use your LinkBlue ID and password to sign in.

### Volunteer Match

This online platform will help you find volunteer opportunities in your local and/or the Lexington community. You can also track your service hours here. Visit [uky.volunteermatch.org](http://uky.volunteermatch.org) and volunteer.

The Office of Student Involvement connects students to their passions and strengths, as well as, providing leadership development that help students build and enhance the skills employers are looking for. Not only will students build lifelong friendships by getting involved, they also build a better future! For more information about student organizations and campus activities, contact the Office of Student Involvement, third floor of Blazer Dining, 859-257-8867, follow us on Twitter at: [@ukgetinvolved](https://twitter.com/ukgetinvolved), or visit [getinvolved.uky.edu](http://getinvolved.uky.edu).

### Center for Community Outreach

The UK Center for Community Outreach (UK CCO) is the largest student-run organization on campus, as well as the university's volunteer office. By living their motto "Do Good. Start Here." on a daily basis, the UK CCO organizes strong, direct service events and educational events for both the UK campus and the Lexington community.

Opportunities for community engagement include individual and group projects in the areas of hunger and homelessness, animal welfare, children and education, local empowerment, elderly companionship, global issues, and rural poverty. Service events range from one-day events, like FUSION, the largest one-day service project in Kentucky, to regular volunteering through UK Service Corps, to year-long fundraising efforts through DanceBlue, to two week service-immersion experiences through UK Alternative Service Breaks. Other programs in the UK CCO include Big Blue Pantry, UK Mountain Cats, National Hunger and Homelessness Awareness Week (NHHAW), Martin Luther King, Jr. Wildcats for Service, Young at Heart, Beyond the Blue, and Promoting Animal Welfare and Services (PAWS). Each program has its own specific social justice issue and extended leadership teams that provide multiple leadership opportunities to students.

Students who are interested in volunteering with the UK CCO can attend the yearly Volunteer Fair, held at the beginning of the fall semester. Or, log on to [uky.volunteermatch.org](http://uky.volunteermatch.org) to access volunteer opportunities posted by the UK CCO or other local organizations. Students can also find the UK CCO online at [ukcco.org](http://ukcco.org), email [volunteer@ukcco.org](mailto:volunteer@ukcco.org). Follow us on Twitter and Instagram at [@ukcco](https://twitter.com/ukcco). Or stop by our office in 361 Blazer Dining between 9 A.M. and 5 P.M.

## STUDENT AND ACADEMIC LIFE

### UK Parent and Family Association

The UK Parent and Family Association (UKPFA) believes that student success is enhanced by well-informed parents and families. The UKPFA invites all parents and families of UK undergraduate students to join its free membership. Members receive the *Cat Chat* email newsletter two to three times a month during the academic year. The UKPFA coordinates events for students and families during K Week and Family Weekend. The staff members are happy to assist parents and family members with questions and concerns related to their students and UK. For more information on the Parent and Family Association, including how to join, visit: [www.uky.edu/parents](http://www.uky.edu/parents).

### K Book

The K Book new student handbook eases the transition of new students to the University of Kentucky by addressing topics related to institutional history and traditions, student life, academic life, athletics, campus resources, and life in Lexington. The K Book is distributed to most new students during "see blue" U Orientation; new students participating in Merit Weekend or starting during either summer term receive theirs by mail. The K Book is written every year by a group of current students, providing a peer perspective on life as a UK student.

### Off-Campus Student Advising

Off-Campus Student Services (OCSA) fosters and enhances the off-campus student experience through education, advocacy, and involvement. The Off-

Campus Advisor helps students strengthen their connection to campus and navigate obstacles that emerge from living off campus. Off-Campus Student Advising works directly with students and their academic advisors while also collaborating with other campus offices (e.g., Division of Student and Academic Life, Enrollment Management, International Center, and Office for Institutional Diversity) to provide the best resources to promote the success of off-campus students at UK.

### Religious Affairs

While the University does not directly sponsor religious activities, it both welcomes and supports the diverse religious traditions and organizations on campus. A member of the Dean of Students staff assists religious groups through the Religious Advisors Staff, an organization of campus ministers and religion-based student organizations. Information about the different Religious Advisors Staff groups is available at: [www.ukfaith.org](http://www.ukfaith.org). A list of student religious organizations is available at: <http://getinvolved.uky.edu/so/findorg>.

For additional information, to contact the University Liaison, Office of Student Involvement, Blazer Dining, 859-257-3110.

### Disability Resource Center

The mission of the Disability Resource Center is to provide and coordinate services that will allow students with disabilities equal access to the University's educational, social, and cultural opportunities. Services are tailored to meet the needs of individual students based on their specific functional abilities and are designed to assist students in developing the skills necessary to advocate for their individual learning and living needs. The services provided through the Disability Resource Center include, but are not limited to, determining needed accommodations, consulting with students regarding compensatory strategies, coordinating student services, assisting with campus and housing accommodation arrangements, and providing information about other available campus resources that may be of benefit to the student with a disability. The office registers all on-campus support animals. The Disability Resource Center also works with academic departments to provide accommodated testing on an as-needed basis.

Students with permanent disabilities include individuals with physical conditions, medical and chronic health disorders, learning disabilities, attention deficit/hyperactivity disorder (ADHD), communication disorders, and other neurological or psychological disorders (i.e., seizure disorders, migraines, depression or anxiety disorders, brain injuries, etc.). Students with temporary disabilities include those who are recovering from surgery or who are being treated for temporary medical conditions (sprained ankle, broken leg, etc.).

In order to receive accommodations, students with disabilities are required to self-identify by registering with the Disability Resource Center. All students requesting accommodations must provide current documentation of their disability and the need for accommodations before services can be provided. This will usually be in the form of a medical statement or report, or a psychological evaluation, or other related assessment from a qualified professional in the relevant field (such as a medical doctor, psychologist, psychiatrist, etc.). For further information about documentation guidelines, please check our website at: [www.uky.edu/DisabilityResourceCenter/](http://www.uky.edu/DisabilityResourceCenter/). Eligibility for accommodations is based on proof of the disability and the need for accommodations.

Students are encouraged to contact the Disability Resource Center to set up an appointment or obtain further information.

## UNIVERSITY HEALTH SERVICE

University Health Service (UHS) offers confidential, affordable and accessible health care for students. UHS has physicians who are board certified in family practice, internal medicine, emergency medicine, psychiatry, med-peds, occupational medicine, and sports medicine. Additionally, our nurse practitioners have certification in family medicine, women's health, and psychiatry.

### Eligibility

The health fee is your ticket to access UK's University Health Service. The health fee is one of the mandatory fees assessed to full-time students. Part-time and

BCTC students may opt into the health fee or be seen on a fee-for-service basis. For details and deadlines, visit: <http://ukhealthcare.uky.edu/uhs/>.

### Health Fee vs. Optional Health Coverage Plan

The health fee is not intended to replace health insurance. Students should have health insurance coverage for issues beyond the health fee such as diagnostic testing (X-rays, most laboratory tests), hospitalization, surgical procedures, specialist referrals, and prescriptions.

### Student Health Plan

UK offers a school-sponsored student health insurance plan which is customized to work with the care provided by UHS/UK HealthCare and cover the additional items mentioned above.

UK has on-campus insurance coordinators to educate students about the plan and to help students become effective consumers of insurance and health care. For more information, email: [StudentHealthPlan@email.uky.edu](mailto:StudentHealthPlan@email.uky.edu); or call our insurance coordinator at 859-218-3208.

### Clinic Services

Unlimited office visits for:

- \* Injury or illness
- \* Allergy injections
- Well-patient physical exams
- GYN/GU and Transform Health Clinic
- Observation room care
- Phone information nurse
- On-call physician for emergencies after hours
- Limited medications
- Behavioral Health office visits
- Eating disorders treatment team
- Health and education wellness services:
  - \* Nutrition counseling
  - \* Tobacco treatment counseling
  - \* Sexual health education session

### Campus Wellness Outreach

- Health education and wellness staff
- Health and wellness coaching
- Student peer health educators
- Information and resources about nutrition, quitting tobacco, sexual health and much more
- Health and wellness programs such as:
  - \* Biometric Health Screening (iCheck)
  - \* Flu Shot Clinics
  - \* Free Monthly HIV Testing Clinics
  - \* iQuit Tobacco Treatment Coaching Program
  - \* Love Your Selfie Week
  - \* Less Stress More Success Week
  - \* Registered Dietitian on the Go
  - \* Prescription Drug Abuse and more
- Programs in residence halls, sororities, fraternities and academic classes
- We can help students get connected to other campus resources

### Promoting and Achieving Wellness for Students (PAWS)

The PAWS Team includes staff certified health educators and student peer health educators. Its aim is to provide inclusive, innovative, evidence-based health promotion programs and resources that promote optimal physical, mental, and social health.

### Student Health Advisory Council (SHAC)

The Student Health Advisory Council is comprised of students who work to improve and promote the quality and delivery of health care for all UK students. SHAC student members study and advise the University Health Service on issues such as the student health fee, insurance, policies, services and health education programs. For more information, email: [SHACatUK@gmail.com](mailto:SHACatUK@gmail.com).

#### Location

Student Health is located in the University Health Service Building at 830 South Limestone, between Kentucky Clinic and the Charles T. Wethington Building.

#### Hours

When classes are in session, Student Health is open Monday through Friday from 8 A.M. to 6 P.M. and on Saturday from 9 A.M. to 11 A.M. During the summer and on the day prior to and when classes are not in session, we're open Monday through Friday from 8 A.M. to 4:30 P.M.

#### Appointments

Appointments are required and can be made online via Link Blue/myUK or by calling the Appointment Line: 859-323-APPT (2778) or Behavioral Health Clinic 859-323-5511.

For more information, contact:

**General Information – 859-323-5823**  
**Phone Information Nurse (PIN) – 859-323-INFO (4636)**  
**On Call (for emergencies) – 859-323-5321**  
[www.ukhealthcare.uky.edu/uhs](http://www.ukhealthcare.uky.edu/uhs)

## CAMPUS RECREATION AND WELLNESS

The Department of Campus Recreation and Wellness offers wholesome physical activities and sports programs for students, faculty and staff. Activities include intramural sports, club sports, outdoor pursuits, leisure recreation, and fitness programs. We are also home to the Student Wellness Center, which empowers students to enhance their overall well-being through varying outreach and educational opportunities.

### Bernard Johnson Student Recreation Center

The Bernard Johnson Student Recreation Center is an 87,000 square-foot facility that provides the latest in equipment and amenities. Major spaces include basketball courts, racquetball courts, a fitness center, aerobics studios, a climbing wall and more. All students are encouraged to visit the Center and make positive, healthy use of leisure time.

### Alumni Gym Fitness Center

The Alumni Gym is a newly renovated gymnasium turned into a state-of-the-art fitness center. Located adjacent to the new Gatton Student Center, this 29,000 square foot facility consists of group fitness studios and fitness areas.

### Lancaster Aquatic Center

The Lancaster Aquatic Center is available for recreational swimming during open hours. For information, call 859-257-7946.

### Intramural Sports

The Intramural Sports program provides competition among students at UK. Individual, dual, and team sports events are available.

### Club Sports

The Club Sports program provides opportunities for UK students, faculty, and staff who desire a more in-depth sports experience than is provided in the Intramural and/or open recreation program.

### Outdoor Pursuits

The Outdoor Pursuits program offers a variety of adventure trips for UK students, faculty, and staff. The trips vary from day hiking in the beautiful wild regions of Kentucky, to a weekend of whitewater rafting in nearby regional areas, to rock climbing at premier spots close to Lexington.

### Student Wellness Center

The Student Wellness Center promotes holistic lifestyles and student success through six dimensions of wellness including: Social, Physical, Emotional, Financial, Intellectual/Coaching and Environmental. Programs include alcohol and other drug education, mind body classes, the relaxation station, the well hut and the collegiate recovery community.

### For More Information

For more information about recreation and wellness programs, or recreational facilities, contact the Department of Campus Recreation and Wellness, 177 Johnson Center, 859-257-3928. Visit us on the web at: [www.uky.edu/recwell/](http://www.uky.edu/recwell/)

### GATTON STUDENT CENTER

The University of Kentucky Gatton Student Center strives to serve as a “living room” for the campus through providing facilities, services, conveniences and programs for the University community which enhance their daily lives on campus. These experiences afford the opportunity to learn, know, and understand one another through informal association outside the formal classroom. The student is central to this mission, as the department serves as a laboratory for teaching student leadership strategies and human relation skills through work experience, involvement in student organizations, and experience in program development through execution.

The Gatton Student Center has been an energetic and vibrant hub of the University of Kentucky campus since 1938. From the wide range of dining options to our entertainment and educational opportunities there’s so much more in between the lines: UK Bookstore & Café, UK Federal Credit Union, PNC Bank, free wireless internet access, meeting/conference rooms, a state of the art Dolby Atmos cinema theater, WRFL radio, the Cats Den recreational and entertainment facility, as well as the UK Visitors Center, the Center For Student Involvement, the Martin Luther King Center, and the Office of LGBTQ\* Resources. Additionally, students will find numerous student services, programs and organizations all within the Gatton Student Center. We invite to you explore and enjoy.

The Gatton Student Center is **open seven days a week from 6 A.M. to midnight during the regular academic terms.**

For more information, call the Director’s Office at 859-257-5781 or to reserve a room, visit [meetatbigblue.uky.edu](http://meetatbigblue.uky.edu).

### ACADEMIC OMBUD SERVICES

The Academic Ombud helps resolve academic disagreements between students and faculty or administration. When students are unable to resolve grievances through normal resolution processes, the Ombud may be able to expedite the process or advise the student about the proper procedures to follow. Problems include, but are not limited to, admission/registration problems, violation of students’ academic rights, unfair teaching and grading practices, and cheating and plagiarism. All cases are held in strict confidence.

The Office of Academic Ombud Services is open from 8 A.M. to 4:30 P.M. and is located in 109 Bradley Hall. For information, questions, or appointments, call 859-257-3737, or email [Ombud@uky.edu](mailto:Ombud@uky.edu).

### FINANCIAL OMBUD SERVICES

The Financial Ombud provides a neutral and confidential setting for current and prospective students and their parents to discuss difficult or unusual financial problems affecting tuition and fee payment. The Financial Ombud resolves problems, counsels, and makes recommendations and referrals as needed.

The Office of the Financial Ombud Services is open from 8 A.M. to 4:30 P.M. and is located in 10 Funkhouser Building. For information, questions, or appointments, email: [financialombud@lsv.uky.edu](mailto:financialombud@lsv.uky.edu).

### ATHLETICS

The University of Kentucky sponsors a total of 22 athletic teams in men’s and women’s sports and is a member of the National Collegiate Athletic Association and the Southeastern Conference. The University fields representative teams in a variety of varsity sports: basketball, football, baseball, tennis, golf, track, cross country, soccer, swimming, and rifle for men; and basketball, golf, gymnastics, rifle, soccer, swimming, tennis, track, cross country, softball, and volleyball for women. These various teams provide wholesome entertainment for the student body, faculty, staff, alumni, and general public. Students interested in joining a team should contact the head coach’s office in the sport of interest.

The Athletics Department helps support the band and cheerleaders; provides athletic scholarships for approximately 400 students; and provides grants to the University of Kentucky for academic scholarships and the new Jacobs Science Building.

For information about tickets to athletic events, visit: [www.ukathletics.com](http://www.ukathletics.com).

### UK INTERNATIONAL CENTER

The University of Kentucky International Center (UKIC) is the catalyst for diverse internationalization initiatives at UK. Located in Bradley Hall, UKIC serves as a resource center for the University’s vital international linkages by supporting the development of agreements and partnerships with universities across the world; promoting the involvement of UK faculty, staff, and students in international research, development projects, and related activities; and facilitating access to international funding opportunities. Visit UKIC’s website for more information: [international.uky.edu](http://international.uky.edu).

The UKIC is headquartered in Bradley Hall in the center of UK’s campus, while the Confucius Institute is located in newly renovated space in the Lucille Little Fine Arts Library. The UKIC comprises the following units:

#### International Partnerships & Research

UKIC serves as a resource center for the University’s vital international linkages by supporting the development of agreements and partnerships with universities, foreign governments, NGOs, and U.S. government agencies abroad; promoting the involvement of UK faculty members, staff, and students in international grants, research, development projects, and related activities; and facilitating access to international funding opportunities. To learn more, visit: [international.uky.edu/PR](http://international.uky.edu/PR).

#### UK Education Abroad & Exchanges (EA)

Education Abroad & Exchanges (EA) is the University’s comprehensive resource for study abroad, research abroad, intern abroad, teach abroad, service abroad and other educational experiences worldwide. EA provides academically sound international experiences for all students that promote intercultural competence, disciplinary scholarship, and language acquisition. EA also oversees student exchange programs with partner institutions, facilitates faculty-directed programs and partners with affiliate providers to offer a diverse portfolio of education abroad programs. For more information, call 859-257-4067; or visit: [international.uky.edu/EA](http://international.uky.edu/EA).

#### International Student and Scholars Services (ISSS)

ISSS provides leadership and expertise in the advising and immigration needs of more than 2,000 international students and 500 international faculty, staff and exchange visitors. ISSS also administers university compliance with evolving federal regulations, supports the university and its medical center by managing global student and scholar interactions, and facilitates the well-being and academic success of all international students, faculty, staff, and scholars. For additional information, call 859-323-2121; or visit:

[international.uky.edu/ISSS](http://international.uky.edu/ISSS).

#### International Student Recruitment

In close partnership with Undergraduate Enrollment Management, the Center for English as a Second Language, and the Graduate School, UKIC recruits a growing number of international students to UK each year. UKIC’s International Enrollment Manager attends education fairs around the globe, develops online marketing strategies, works with government sponsored programs, and per-

sonally meets with potential students and their families in countries such as India, China, and Oman. For more information, visit: [international.uky.edu/Apply](http://international.uky.edu/Apply).

### Confucius Institute

Established in 2010, the Confucius Institute at the University of Kentucky is a center for Chinese language, culture, art and business. A gateway to China for the university and the Commonwealth, the Confucius Institute serves as the conduit for UK's China initiatives, facilitating a range of China exchange programs across the campus and beyond. In addition, the Institute works to strengthen China Studies within the university, while at the same time providing leadership and support for Chinese language programs in Kentucky's K-12 classrooms and forging important community relationships through Chinese cultural outreach to people in the Commonwealth. The Institute was awarded the 2012, 2014 and 2017 Confucius Institute of the Year. Additionally, the UKCI has been named the Global Model by the Confucius Institute, making it the flagship program among the 525 Confucius Institutes in 146 countries worldwide. To learn more, call 859-257-4523; or visit: [international.uky.edu/UKCI](http://international.uky.edu/UKCI).

### UK Office of China Initiatives

The UK Office of China Initiatives (UKOCI) provides leadership in developing and facilitating connections with China both at the university level and across the Commonwealth. To this end, the UK OCI links China-related opportunities to UK's strategic plan; provides support to Chinese students and scholars during their time at UK and beyond; assists in advancing research and scholarship about China; maintains and expands UK's China presence and collaborations; and works with colleges to strategize their recruitment efforts of Chinese students via UK's partner universities in China. To learn more, visit: [international.uky.edu/OCI](http://international.uky.edu/OCI).

### Global Health Initiative

UK's Global Health Initiative is focused on advancing research, educational programs, and service learning for our faculty and students, with the goal of improving the health of people throughout the world and promoting health equity. The Global Health Initiative is directed by Samuel C. Matheny, MD, MPH, Assistant Provost for Global Health Initiatives. To learn more visit: [international.uky.edu/GHI](http://international.uky.edu/GHI).

Under the Global Health Initiative, Shoulder to Shoulder Global is an organization which incorporates other academic and community partners and seeks to improve the health and well-being of impoverished and underserved communities globally. The initial focus of STSG has been in Santo Domingo, Ecuador, with its year-round health clinic. While providing primary care for this community, STSG also works with the community to improve education, public health, access to safe water, and to improve economic opportunities. STSG seeks to provide and promote educational, service and research opportunities for all partners involved. To learn more, visit: [international.uky.edu/STSG](http://international.uky.edu/STSG).

### International Health and Security Services (IHSS)

IHSS manages UK's international travel medical insurance and evacuation policy and oversees risk management issues related to international travel. Working closely with Education Abroad and the UKIC Marketing and Communications Manager, IHSS monitors news outlets and government resources to identify current events and threats that may have implications for the safety and well-being of students on EA programs, and works with EA to ensure that students stay informed. Additionally, IHSS is responsible for outlining the appropriate unit-level and institutional responses to a variety of emergency situations abroad. To learn more visit: [international.uky.edu/IHSS](http://international.uky.edu/IHSS).

## OFFICE FOR INSTITUTIONAL DIVERSITY

The University of Kentucky prepares students for meaningful and responsible engagement within and across diverse communities. Through its own example and engagement, the University strives to improve the climate for diversity throughout Kentucky, a commitment given special importance and emphasis by

shared history. The composite effect of work with students in classrooms, residence halls, offices, laboratories, clinics, libraries, and public places should be to enable them to develop a more enlightened worldview; attain a deeper understanding of and commitment to authentic democratic values and social justice; embrace a greater commitment to service and leadership for the common good; exhibit greater cultural knowledge and competence; and facilitate Kentucky's success in the global economy.

The Office for Institutional Diversity has a primary responsibility to advance the University's commitment to embracing difference and promoting increased knowledge of diversity and its significance as a fundamental value of the campus community. Of equal importance is its mission to enhance academic support services to help ensure the academic success and personal development of all students, but especially those students from backgrounds that have been historically underrepresented on the University campus.

### Martin Luther King Center

Established on the University of Kentucky campus in 1987 as the Martin Luther King Center, this much-visited campus venue has been a vital resource, providing year-round programs and activities that have focused on the importance of cultural awareness and cross-cultural understanding. The center offers a relaxed and affirming atmosphere that enhances the recruitment and retention of students from diverse backgrounds. Entering its fourth decade of operation, the center has evolved into an education resource facility where all students, as well as faculty and staff of the University can engage each other through cross-cultural exploration and intellectual exchange.

Increasingly, research has shown a vitally positive link between intercultural engagement and student success. As a result, the King Center has sharpened its focus on diversity education and increased its support of the academic enterprise. In addition to cultural/educational programs consisting of lectures, concerts, artistic performances, film/video screenings and workshops, faculty involvement in the center has increased through the establishment of the Scholar-in-Residence (SiR). During his/her two-year assignment, the faculty SiR helps to situate many center programs and activities within the academic/intellectual realm, and engages students, faculty and staff in meaningful exploration and intellectual discourse. Check the King Center website for programs and scheduling details at: [www.uky.edu/mlkc](http://www.uky.edu/mlkc).

### Mission

The mission of the King Center is threefold: (1) to advance the university's strategic goal of achieving a more diverse and inclusive campus environment, (2) to support increased retention of undergraduate students who are generally underrepresented in the student body, and (3) to enhance student achievement by helping students to have a more engaged, productive and fulfilling undergraduate experience. To these ends, our goals are to foster intercultural competence, promote respect and passion for the pursuit of quality education, and to help prepare students for productive and responsible engagement in a global society.

### Values

It is a truism that education transcends the traditional classroom setting and takes place whenever and wherever individuals engage each other sincerely and open-mindedly in earnest pursuit of knowledge and deeper understanding. MLK Center programs and activities support this educational process through embrace of certain values, which include the following:

- **Inclusive Leadership:** Strive to create opportunities for learning for the entire campus community.
- **Student Success:** Strive to become an essential element to success for the students that are underserved in the population.
- **Advocacy:** Serve as an advocate for an inclusive campus and environment, and for all students to realize that they are a valued part of the UK community.
- **Collaboration:** Work with high regard of collaborating and partnering with a variety of entities.

- **Outreach:** Exemplify the ideal and philosophy of Dr. King by connecting students across social and cultural boundaries and the campus to the Lexington community, and reaching across the state of Kentucky to further efforts of inclusivity.

### Center for Academic Resources and Enrichment Services (CARES)

CARES offers academic support services and enrichment opportunities that enhance the student's undergraduate experience. The overall program goals are to increase the retention and graduation rates of students traditionally underrepresented in post-secondary education, including African American, Hispanic or Latino, and Native American students as well as students receiving the William C. Parker Scholarship. The Center's services and programs include individual tutoring, study groups, academic planning and monitoring, career exploration, networking opportunities, personal development workshops, graduate school information and preparation, and the Freshman Summer Program (FSP), a six-week academic enrichment program.

For additional information, call 859-323-6347 or stop by CARES at 104 McVey Hall. Visit us online at: [www.uky.edu/cares/](http://www.uky.edu/cares/) or like us on Facebook.

### Student Support Services

Student Support Services (SSS) is a federally-funded TRIO program designed to provide comprehensive academic support to improve academic performance and increase retention and graduation rates. Participation in SSS requires that a student be a U.S. citizen and at least one of the following: (1) first-generation college – neither parent has a baccalaureate degree; (2) low income – according to federal guidelines; or (3) have a documented disability. When a student has been accepted into the program, all program services are free. Services offered include: individual and group tutoring (in any subject), academic planning, personal counseling, peer mentoring, career counseling, financial aid information, study skills instruction, writing assistance, graduate school preparation, technology assistance, cultural/social activities, and limited computers, calculators, and a small resource library for check-out and on-site use.

Students interested in becoming a part of the SSS program can stop by the office at Suite 443 of the Multidisciplinary Science Building, 725 Rose Street, to pick up an application; call 859-257-9797 to request an application be mailed to you, or download from our website at: [www.uky.edu/sss/](http://www.uky.edu/sss/).

Are you an independent student? An independent student is someone who is transitioning from foster/adoptive care, or is non-traditional age 23 and up starting out in college and or a parent (single or married). Are you a first-generation student (neither parent has a bachelor's degree) or low-income, or have a documented disability? Then you may want to check out the Student Support Services table during orientation. We are a program designed to assist you in your journey while at the University of Kentucky. Come check us out.

### Center for Graduate and Professional Diversity Initiatives

The Center for Graduate and Professional Diversity Initiatives focuses on recruiting diverse graduate and professional students in UK's six health colleges and retaining diverse graduate and professional students in all colleges, contributing to an inclusive campus environment where all students can fully engage and succeed.

## PROFESSIONAL SERVICES

### University of Kentucky Counseling Center: Consultation and Psychological Services

The UK Counseling Center: Consultation and Psychological Services (UKCC) has a staff of licensed clinicians and supervised graduate trainees whose primary function is to help UK students with mental well-being, personal and psychological concerns, career decision-making, and support for academic success. UKCC provides a variety of services ranging in intensity from drop-in self-care, wellness and stress management services to crisis intervention. In between, the UKCC offers support groups and brief group, couples and individual therapy.

UKCC clinicians will also assist students in finding treatment in the community, especially for longer-term mental health needs. Examples of self-care and psychological wellness services are Wildcat Wellness (therapy dog, mindfulness, yoga and relaxation) and all aspects of the Relaxation Room, which is located in 114 Frazee Hall, and offers space for meditation, arts and crafts, full-spectrum lights, biofeedback, and massage chairs.

Another drop-in service is Let's Talk, which provides students an opportunity to have an informal conversation with a mental health professional in a location outside of the UKCC. These meetings do not require an appointment. Let's Talk is an easy way for students to get an introduction to the Counseling Center services and meet one of the staff. Support groups are available for a number of student groups and concerns (e.g., Grief Support, Trans\* and Gender Nonconforming Support, and Life Beyond ED: Eating Disorder Recovery) as are a variety of structured skills groups and therapy groups (ACT for anxiety, Koru Mindfulness, Understanding Self and Other Groups, Color Coded for students of color, CBT Group for Depression, and Wise Minds). Short-term individual, couples and group counseling services are available to assist students with concerns such as adjustment to college, relationship difficulties, career exploration/decision-making (including choice of major), depression, anxiety, discrimination/oppresion, low self-esteem, life transitions, alcohol/substance use, eating and body image concerns, family problems, trauma, and/or longstanding dysfunctional behavioral patterns (e.g., procrastination, low motivation, organizational issues and impulsivity). Discussions are confidential.

To access UKCC services, most students utilize the same-day appointment system. Others may opt to call and schedule an appointment. There are many same-day appointments available each day. Please see the UKCC website for details regarding same-day appointment times, the typical process for initial assessments, and how to utilize crisis intervention services. To inquire about any of the UKCC's services, students or those concerned about students may call 859-257-8701 between 8 A.M. and 4:30 P.M., Monday through Friday. The UKCC is located in 106 Frazee Hall, which is on Administration Drive next to the Student Center. After-hours consultation for urgent matters is available by calling 859-257-8701 and pressing '1' at the prompt.

The UKCC maintains an active outreach program, offering workshops, preventative programs and events to students, faculty, staff and community audiences on a variety of college life, wellness and mental health topics. In addition, faculty, staff, TA's, administrators, parents and other concerned parties can call the UKCC for consultations regarding students. Call 859-257-8701 for outreach and consultation services.

### Eligibility and Limitations for Treatment

The Counseling Center offers an initial assessment to all students who are eligible for services. At the initial assessment, students and clinicians collaborate to determine what might be helpful after that first meeting. Depending on the presenting concerns and specific needs, some students will be directed to less intensive or drop-in wellness services, some will be referred out for specialized or more intensive services, and some will receive brief ongoing group, couples or individual therapy services at the Center.

With the exception of some optional testing services, UKCC services are free of charge to eligible undergraduate, graduate and professional students. Eligibility for UKCC services is based on enrollment; students must be paying for at least six credit hours (or any number of thesis or dissertation credits) at the University of Kentucky during the current semester. To be eligible for services in the summer, students need to be enrolled at UK during the previous spring semester AND preregistered for the upcoming fall semester, or they can be enrolled for any number of hours in the summer.

### The James W. Stuckert Career Center

The Stuckert Career Center (SCC) is a comprehensive and centralized career center for undergraduate students enrolled at the University of Kentucky. The Career Center's programs are designed to help students, and employers integrate occupational and employment information into educational experiences, extra-curricular activities and work. Career Center staff members work with students from their first-year experience through degree completion and

beyond, helping them define goals, such as selecting or changing a major, exploring career possibilities, and obtaining employment related to their education and interests. The SCC collaborates with campus academic advising centers as we work to tie our students' academic and career goals together.

All UK enrolled students have an account in *Handshake* which is the Stuckert Career Center's user-friendly career services platform. Students can activate their accounts using their computers, cell phone or tablets and the *Handshake* app is available. We know how busy students are and a trip to SCC can seem daunting. However, through *Handshake* students now have immediate access to the multitude of SCC resources mentioned here including the ability to electronically make an appointment with a career adviser before the even visiting the Career Center. They can conduct internship and job searches in *Handshake* and send their uploaded résumé and cover letter directly to employers. All of SCC's digital resources can also be utilized from this great tool. Visit <http://seebblue.com/handshake> to activate your account. Use your LinkBlue ID and password. We can also help you activate your *Handshake* account in the lobby of SCC.

Through individual appointments, drop-in sessions, classroom presentations, and group workshops, students are provided tools for and assistance with: career assessments, determining work/life values, decision-making, career exploration, internships, résumé writing, interviewing preparation and practice, job search strategies, networking with potential employers, researching salary information, salary negotiation and preparing for a successful transition from campus to the professional world.

Students are encouraged to explore careers first-hand by participating in employer informational interviews, networking receptions and career fair opportunities throughout the year as they begin seeking internships and full-time, career related employment. Internship positions can be full-time or part-time, and are available in local, national and international settings. Students may apply for internships and gain academic credit, or may elect to participate in noncredit positions if employers are in compliance with U.S. labor laws.

These experiences provide ways that students can connect with career professionals in order to learn more about careers of interest and develop ongoing contacts with professionals in their fields. Students have the opportunity to work alongside business organizations, nonprofit agencies, or other settings pertinent to their academic major and career goals. These experiences better prepare students to be more competitive and polished as graduate/professional school applicants and job candidates upon graduation.

The SCC offers many event and career search software programs such as *Candid Careers*, *CareerShift*, *Vault*, and *Interview Stream*. These digital resources website for students and alumni seeking 24/7 career services are available at: [www.uky.edu/careercenter/](http://www.uky.edu/careercenter/) as well as on *Handshake*. Here, students have access to hundreds of job and internship opportunities. Students may also apply for interviews on campus with employers directly from our site.

For other information about all programs and services, UK students may call 859-257-2746. Drop-in hours are available for 10-15 minute sessions to discuss career services questions with career staff members. We are located at 408 Rose Street across the street from the Singletary Center for the Arts.

### The Office of Undergraduate Research

The Office of Undergraduate Research provides coordination, leadership and support for the many programs at the University of Kentucky designed to promote undergraduate research, scholarship, and creativity. The office is the starting point for **any** undergraduate student desiring to include mentored research in their undergraduate experience. Our website will familiarize mentors and students alike with the many and varied opportunities provided by the office, and by related programs and activities both on and off campus, focused on undergraduate research and undergraduate student excellence. A prominent service orchestrated by the Office of Undergraduate Research is the pairing of faculty mentors with undergraduate protégés to create a formalized, meaningful research experience across disciplines. Other services and opportunities include:

- Assist in the pairing of undergraduate protégés with faculty mentors to create a formalized, meaningful scholarly or research experience
- Research travel funding for students accepted to present at national conferences/meetings
- Summer Research and Creativity Fellowships
- Annual Showcase of Undergraduate Scholars
- Posters-at-the-Capitol (presentation opportunity to State Legislatures)
- Undergraduate Research Abroad Scholarship
- Oswald Research and Creativity Competition
- Buck 4 Brains Program

For more information, contact the Office of Undergraduate Research at 859-257-0049; visit us at: [www.uky.edu/chellgren/undergraduate-research](http://www.uky.edu/chellgren/undergraduate-research); or email us at: [ugresearch@uky.edu](mailto:ugresearch@uky.edu).

### Violence Intervention and Prevention (VIP) Center

The VIP Center provides students, staff, and faculty the tools, support, and opportunities to shape a violence-free campus through the design and delivery of innovative and inclusive programming and services. All students are encouraged to learn to become active bystanders by participating in our nationally-recognized Green Dot/Bystander Intervention and educational programs, which equip students with the knowledge and skills to create a safe and violence-free culture at UK. The Center also provides support, referrals, resources, and advocacy for survivors of sexual and gender-based interpersonal violence and their loved ones. Faculty, staff, and students are invited to contact the VIP Center for additional information or services.

The VIP Center is available Monday through Friday 9 A.M. to 5 P.M.

### Adult Student Services – Undergraduate Admission

Adult Student Services assists individuals starting or returning to college after several years and current adult students enrolled at the University of Kentucky.

Our goal is to offer programs, scholarships, workshops, advocacy and support to adults. Students with questions can go to the Office of Undergraduate Admission, 100 Funkhouser, or contact the Office using the information below. All scholarship information is available in the Office of Academic Scholarships.

For more information or questions:

**Undergraduate Admission**

**100 Funkhouser Building**

**University of Kentucky**

**Lexington, KY 40506-0054**

**859-257-2000**

### TRANSFER CENTER

The Transfer Center serves as a hub of information for the undergraduate transfer student population at UK. The Transfer Center staff collaborates with other on-campus units to provide the necessary resources for successful progress toward graduation. Our motto, "Start Here, Finish Here" represents the University of Kentucky's commitment to helping each transfer student with their transition and goal of earning a UK degree.

The following services are offered in the Transfer Center:

- academic advising
- course equivalency evaluation
- transfer planning strategies
- admissions counseling

For more information, contact us at:

**Transfer Center**  
**100 Funkhouser Building**  
**Lexington, KY 40506-0054**  
**859-257-2000**  
**email: UKTransfer@uky.edu**  
**www.uky.edu/Transfer**  
**Hours: Monday - Friday, 8 A.M. to 4:30 P.M.**

### TRANSCRIPT SERVICES

Before you order a transcript, please read the following:

#### Financial Holds

If you have a financial delinquency, the University will not process your transcript request until the delinquency has been cleared. If you have a hold, we will notify you and provide the contact information for you to clear the hold.

#### Ordering Transcripts

The University of Kentucky provides three options for ordering transcripts:

##### 1. Online – By Credit Card

The University of Kentucky uses the National Student Clearinghouse to process online transcript requests. This service is available 24 hours a day, 7 days a week, allows you to track your order, and ensures the security of your information and payment. Please note: if you have attachments that need to be sent with your transcript, email [transcripts@uky.edu](mailto:transcripts@uky.edu) for further instructions.

To order and pay online, go to [www.getmytranscript.com](http://www.getmytranscript.com) and select “Order College Transcripts”.

##### 2. In Person

You may request transcripts at the Registrar’s Office, 10 Funkhouser Building, Monday through Friday, 8 A.M. to 4:30 P.M. If you attended UK **prior to 1988**, these requests may take longer to process because your records are on microfilm. For all others, we can normally process your request immediately. Please bring the following with you:

- Picture ID
- \$10.00 per transcript, payable by cash, check, money order or credit card
- **Please note:** the University is closed most holidays and during the break between Christmas and New Years. If you need to request a transcript when the University is closed, you may order online (see #1 above).

##### Pick Up by Person Other Than Student

The University will not release a transcript to another individual unless we receive a signed statement from the student providing the complete name of the individual who will pick up the transcript. This individual must also bring a picture ID when they come to pick up the transcript.

### 3. By Mail

To order by mail, go to:

[www.uky.edu/registrar/sites/www.uky.edu/registrar/files/transcript\\_2.pdf](http://www.uky.edu/registrar/sites/www.uky.edu/registrar/files/transcript_2.pdf) and print the form. Complete the information, sign the request and mail to the address listed on the form. Do not fax the request. Submitting requests without adequate information will cause a delay in processing. Please be sure to include a check or money order made payable to the University of Kentucky for each transcript ordered. The cost is \$10.00 per transcript. If you wish to pay by credit card, you may order online (see #1 above).

#### Special Mailing and Electronic Transcripts

For information and instructions on special mailing options, view the Transcript site at: [www.uky.edu/Registrar/Transcripts.htm](http://www.uky.edu/Registrar/Transcripts.htm).

We are not responsible for delays in delivery by the Post Office. Prices are subject to change by the USPS.

#### To Check the Status of a Transcript Request

If you ordered your transcript online, you may track your request online at [nslc.org](http://nslc.org) using the tracking number you received in your confirmation email.

To track a transcript ordered by mail, email: [transcripts@uky.edu](mailto:transcripts@uky.edu).

#### Other Transcripts

##### Transcripts from the Colleges of Medicine or Dentistry

Transcripts for professional programs in the Colleges of Medicine and Dentistry must be ordered directly from those colleges. For information, see:

College of Medicine:

[http://meded.med.uky.edu/sites/default/files/transcript\\_request.pdf](http://meded.med.uky.edu/sites/default/files/transcript_request.pdf)

College of Dentistry:

<https://dentistry.uky.edu/transcript-request>

##### Community College or Fort Knox Records

Students who have attended any of the Kentucky community colleges (KCTCS) should contact the college they attended, even if the college was part of the University of Kentucky at the time they attended.

The University maintains the academic records for students who attended Northern Community College through 1972. Students who attended after 1972 should contact Northern Kentucky University for their records.

The University maintains the academic records for students who attended Fort Knox through 1988. Students who attended after that time should contact Elizabethtown Community and Technical College.

**University of Kentucky Registrar**  
**10 Funkhouser Building**  
**Attention: Transcripts**  
**Lexington, KY 40506-0054**  
**859-257-7157**

## ACADEMIC ADVISING

Academic advising at the University of Kentucky is an ongoing educational process that connects the student to their undergraduate education, their career pathway and to resources. As students progress through their academic programs, their advising needs change. At the University of Kentucky, academic advisors help students meet these changing needs. Faculty advisors support students in a variety of ways by providing mentorship and specialized information related to an academic program. In some colleges, faculty advisors serve as the primary academic advising contact for students. Program advisors provide an additional layer of support and guidance for students. University academic and career advising is the responsibility of the Student and Academic Support Office and those colleges offering degree programs. Working together, each area seeks to provide assistance in navigating the degree process, career pathways and University policies and procedures.

### Academic Advising Mission Statement

The UK Advising Community empowers students through individualized support, guidance, and connection to resources to realize and achieve academic, career, and personal goals.

### Exploratory Studies

Students can explore majors within many colleges at the University of Kentucky. Students can also work with a Major Exploratory Associate within the Stuckert Career Center to explore major and career options. They can schedule an appointment with a Major Exploratory Associate or a Career Advisor at [seeblue.com/handshake](http://seeblue.com/handshake) or by calling 859-257-2746. Professional academic advisors within the colleges work individually with students to help them explore interests, abilities and values; clarify and articulate academic and professional goals; develop and implement appropriate degree plans; and connect with campus resources. Academic advisors also make referrals to student support services on campus for career interest assessments, personal counseling, academic tutoring and coaching, and financial literacy.

Students may declare an Exploratory Studies Option because there are many areas that interest them, they are considering a pre-professional field and have not selected an undergraduate major, or they wish to explore their options. Time as an exploratory student provides an opportunity to investigate UK's majors while fulfilling the UK Core requirements. Students can remain an exploratory student until they have earned 60 credit hours.

Colleges that offer an exploratory studies option are:

- College of Agriculture, Food & Environment
- College of Arts & Sciences
- Gatton College of Business & Economics
- College of Communication & Information
- College of Education
- College of Engineering
- College of Fine Arts
- College of Health Sciences
- College of Social Work

Each has specific admission and entrance requirements. Students should contact the college for more information regarding the exploratory option.

### Transfer Students

Students interested in transferring to the University of Kentucky can utilize the services of the Office of Undergraduate Admissions Transfer Center, which serves as a focal point for information concerning programs, resources, and services available to aid the transfer student's entry and continued success at the University of Kentucky. Transfer staff are available to answer questions about the transfer process, discuss course equivalencies, and provide both pre-admission and general academic advising. UK's transfer advisors are housed in the Office of Undergraduate Admission, 100 Funkhouser Building, and divide their time between the University of Kentucky and the Kentucky Community and Technical College System. Contact [UKTransfer@uky.edu](mailto:UKTransfer@uky.edu) or 859-257-2000.

### National Student Exchange

The University of Kentucky provides opportunities for full-time undergraduate students with a GPA of 2.5 or higher to attend one of over 200 colleges and universities in the United States and its territories while paying UK tuition and fees through the National Student Exchange (NSE). Some NSE institutions require a 2.75 GPA. Check the program page on the NSE website for each school's GPA requirement. Students can visit for an academic year or a semester. Likewise, students attending other participating colleges and universities may visit UK. For more information about NSE and academic requirements, including GPA, visit: <http://international.uky.edu/ea>.

### Major Advising

Students who have declared a major are advised by either a faculty member or professional advisor in their college. These advisors, with their in-depth knowledge of a particular field, can provide guidance toward completing degree requirements as well as information regarding careers and long-term educational goals. It is important for students, as soon as they declare a major, to contact their college and request assignment to an advisor.

### Pre-Professional Advising

Pre-professional tracks are not majors at the University of Kentucky, and pre-professional students may choose any undergraduate major based on their interests and strengths. There are many campus resources available to support students considering careers in law and healthcare. The Stuckert Career Center provides campus-wide advising for both prospective and current students considering professional programs in law, medicine, dentistry, pharmacy, podiatry, and optometry. Students are encouraged to contact the Stuckert Career Center to inquire about pre-professional advising by emailing [ukcareercenter@uky.edu](mailto:ukcareercenter@uky.edu) or by visiting [www.uky.edu/careercenter](http://www.uky.edu/careercenter). Students should consult the preprofessional information found below and the specific college sections of the *Bulletin* for more information.

### Pre-Law Study

While a broad, liberal arts education is generally considered to be an excellent preparation for law school, no fixed, comprehensive Pre-Law curriculum is prescribed by any American law school. In general, Pre-Law students should develop rigorous study habits; become skilled in clear and logical communication; and select courses that enhance critical reading, writing, and analytical skills.

Law schools do not require or expect a particular undergraduate degree program. Students are advised to consider majors aligned with their interests, strengths, and potential career choices.

Students also are encouraged to explore the websites of law schools in which they are interested and to familiarize themselves with admissions standards at those schools. Almost all law schools require students to take the Law School Admission Test (LSAT). Additional information is available from the Law School Admission Council, [www.lsac.org](http://www.lsac.org). Another valuable resource is the current *ABA-LSAC Official Guide to ABA-Approved Law Schools*, published and prepared by the Law School Admission Council and the American Bar Association. This yearly publication and information on the law and lawyers, pre-Law preparation, applying to law schools, the study of law, and most American law schools is available at: [www.lsac.org](http://www.lsac.org).

Students interested in law school should meet with a Pre-Law advisor at least once a year while pursuing their undergraduate curriculum, attend Pre-Law information sessions, and subscribe to the Pre-Law listserv. Please contact a prelaw advisor at [ukcareercenter@uky.edu](mailto:ukcareercenter@uky.edu) or [ASPreLaw@uky.edu](mailto:ASPreLaw@uky.edu) to set up a meeting to discuss law school in more detail. Any students interested in law school are encouraged to visit [www.uky.edu/careercenter/pre-law](http://www.uky.edu/careercenter/pre-law) or [www.as.uky.edu/pre-law](http://www.as.uky.edu/pre-law) for additional information.

### Pre-Medical Study

Students are free to choose any major while pursuing their undergraduate degree and fulfilling Pre-Medical requirements. When selecting a major, students should consider subjects they find interesting and challenging, and those in which they perform best. Medical schools do not require a specific major to enter the professional program, but they do have minimum entrance requirements. Most students accepted to medical school earn a bachelor's degree while satisfying Pre-Med requirements.

Currently the minimum requirements for most medical schools are:

- 1 semester of biochemistry
- 2 semesters of college English or intensive writing courses
- 2 semesters of biology with labs
- 2 semesters of general chemistry with labs
- 2 semesters of organic chemistry with labs
- 2 semesters of physics with labs

Some medical schools have additional requirements beyond the minimum. Check specific medical schools for admissions requirements.

In addition, students are encouraged to take course work in areas such as anatomy, cell biology, calculus, genetics, histology, immunology, microbiology, physiology, psychology, sociology, and statistics.

Students interested in medical school should meet with a Pre-Med advisor at least once a year while pursuing their undergraduate curriculum, attend Pre-Medical information sessions, visit the Pre-Medical website at [www.uky.edu/careercenter/pre-medicine](http://www.uky.edu/careercenter/pre-medicine), and subscribe to the Pre-Health listserv. For additional information, contact a Pre-Med advisor at [www.uky.edu/careercenter](http://www.uky.edu/careercenter). Students in the College of Arts & Sciences are encouraged to visit [www.as.uky.edu/pre-medicine](http://www.as.uky.edu/pre-medicine) and to contact an advisor by emailing [ASAdvisingCenter@uky.edu](mailto:ASAdvisingCenter@uky.edu).

### Pre-Dental Study

Students are free to choose any major while pursuing their undergraduate degree and fulfilling pre-dental requirements. When selecting a major, students should consider subjects they find interesting and challenging, and those in which they perform best. Dental schools do not require a specific major to enter the professional program, but they do have minimum entrance requirements. All students accepted to dental school must earn a bachelor's degree while satisfying pre-dental requirements.

Currently the minimum requirements for entering dental school at the University of Kentucky are:

- 2 semesters of college English or intensive writing courses
- 2 semesters of biology with labs
- 2 semesters of general chemistry with labs

2 semesters of organic chemistry with labs

1 semester of physics with labs

1 semester of microbiology

1 semester of biochemistry

Other dental schools in the country may have different prerequisite courses. Check specific dental schools for admissions requirements.

In addition, students are encouraged to take course work in areas such as anatomy, cell biology, calculus, genetics, histology, immunology, physiology, psychology, and statistics.

Students interested in dental school should meet with a Pre-Dental advisor at least once a semester while pursuing their undergraduate curriculum, attend pre-dental information sessions, visit the Pre-Dental website at [dentistry.uky.edu/students](http://dentistry.uky.edu/students), and to contact an advisor by emailing [chioma.brown@uky.edu](mailto:chioma.brown@uky.edu). Students can also subscribe to the Pre-Health listserv by contacting [www.uky.edu/careercenter](http://www.uky.edu/careercenter).

### Pre-Optometry Study

Students are free to choose any major while pursuing their undergraduate degree and fulfilling Pre-Optometry requirements. When selecting a major, students should consider subjects they find interesting and challenging, and those in which they perform best. Optometry schools do not require a specific major to enter the professional program, but they do have minimum entrance requirements. Most students accepted to optometry school earn a bachelor's degree while satisfying Pre-Optometry requirements.

The Commonwealth of Kentucky has one college of optometry, University of Pikeville-Kentucky College of Optometry. Contract seats are also available to legal Kentucky residents at the University of Alabama at Birmingham – School of Optometry, and Southern College of Optometry through the Southern Regional Education Board (SREB). Students accepted for the SREB contract program are exempt from the out-of-state tuition. Students are competitively selected by the optometry school to receive a contract seat. Kentucky residency and acceptance into the Doctor of Optometry program does not guarantee a contract seat. Contract availability is subject to change as state legislatures annually review budget expenditures. For the number of contract seats available and more information, contact the specific optometry school.

Pre-Optometry requirements differ but generally include:

- 2 semesters of general chemistry with labs
- 2 semesters of English
- 1 or 2 semesters of mathematics
- 1 or 2 semesters of general biology or zoology with labs
- 1 semester of microbiology with lab
- 2 semesters of general physics with labs
- 1 or 2 semesters of organic chemistry
- 2 semesters of statistics
- 1 or 2 semesters of psychology

Some schools may also require biochemistry, anatomy, and physiology. Check individual optometry schools for specific course requirements.

Students interested in optometry school should meet with a Pre-Optometry advisor at least once a year while pursuing their undergraduate curriculum and subscribe to the Pre-Health listserv by contacting [www.uky.edu/careercenter](http://www.uky.edu/careercenter), and visit the Pre-Optometry website at [www.uky.edu/careercenter/pre-optometry](http://www.uky.edu/careercenter/pre-optometry) for more information. Students in the College of Arts & Sciences are encouraged to contact an advisor by emailing [ASAdvisingCenter@uky.edu](mailto:ASAdvisingCenter@uky.edu).

### Prepharmacy Study

The equivalent of two years (70 semester credit hours) of college-level liberal arts and basic sciences is the minimum requirement for admission to the PharmD program. The minimum course requirements for admission to UK's College of Pharmacy are:

2 semesters of English\*

1 semester of introductory biology (with laboratory) (BIO 148) and (BIO 155)

1 semester of microbiology (with laboratory) (BIO 208 or BIO 308) and (BIO 209)

1 semester of mathematics (Calculus I) **or** the combination of 1 semester of college algebra and 1 semester of elementary calculus (MA 113 or MA 137) or (MA 109 and MA 123)

1 semester of any of the following: principles of microeconomics, principles of macroeconomics, financial accounting, corporation finance (ECO 201, ECO 202, ACC 201, or FIN 300)

1 semester of human anatomy (ANA 209)

1 semester of elementary physiology (PGY 206)

2 semesters of general chemistry (with labs) (CHE 105, CHE 111, CHE 107, CHE 113)

2 semesters of organic chemistry (with labs) (CHE 230, CHE 231, CHE 232, CHE 233)

1 semester of statistics (BST 230 or STA 296)

Students must complete sufficient electives to raise the total hours, including prerequisites, to 70 or more semester hours.

\*English requirement for students interested in pharmacy: University of Kentucky students must take courses which satisfy the Composition and Communications I & II requirements. Non-UK students: two semesters of English writing/composition **and** one semester of basic public speaking will suffice.

Prepharmacy courses should be completed by the end of the spring semester prior to the desired fall enrollment, with at least one semester completed in a lecture and lab in organic chemistry, and either anatomy or microbiology by the end of the fall semester prior to the application deadline.

Students are encouraged to take elective courses that satisfy their major requirements. Highly recommended electives include biochemistry, genetics, and physics. Other electives to consider: courses required by major; UK Core courses; PharmD Dual Degree prerequisites (if needed); medical terminology; healthcare-related courses; undergraduate courses in Human Health Sciences (HHS), Public Health (CPH), Clinical Leadership and Management (CLM).

Admission to the college is competitive, based on a holistic review of the application, grade-point average, PCAT scores and interview.

For more information, contact the College of Pharmacy at:

**University of Kentucky  
College of Pharmacy  
Academic and Student Affairs  
114 Lee Todd Building  
Lexington, KY 40536-0596  
859-323-2755  
[http://pharmacy.uky.edu/  
pharmacyadvising@uky.edu](http://pharmacy.uky.edu/pharmacyadvising@uky.edu)**

### Pre-Podiatry Study

The Commonwealth of Kentucky does not have a school/college of podiatric medicine. Students are free to choose any major while pursuing their undergraduate degree and fulfilling Pre-Podiatry requirements. When selecting a major, students should consider subjects they find interesting and challenging, and those in which they perform best. Podiatry schools do not require a specific major to enter the professional program, but they do have minimum entrance requirements. Most students accepted to podiatry school earn a bachelor's degree while satisfying Pre-Podiatry requirements.

Currently the minimum requirements for Pre-Podiatry school are:

2 semesters of college English or intensive writing courses

2 semesters of biology with labs

2 semesters of general chemistry with labs

2 semesters of organic chemistry with labs

2 semesters of physics with labs

In addition, students are encouraged to take course work in areas such as anatomy, biochemistry, cell biology, calculus, genetics, histology, immunology, microbiology, physiology, psychology, and statistics.

Students interested in podiatry school should meet with a Pre-Podiatry advisor at least once a year while pursuing their undergraduate curriculum and subscribe to the Pre-Health listserv by emailing [ukcareercenter@uky.edu](mailto:ukcareercenter@uky.edu).

### Pre-Physical Therapy and Pre-Physician Assistant Studies

Students interested in pursuing pre-physical therapy should consult [www.uky.edu/chs/pt](http://www.uky.edu/chs/pt) and are encouraged to contact an advisor in the College of Health Sciences by emailing [CHS-Admissions@uky.edu](mailto:CHS-Admissions@uky.edu). Students who wish to pursue pre-physician assistant studies should visit [www.uky.edu/chs/academic-programs/physician-assistant-studies](http://www.uky.edu/chs/academic-programs/physician-assistant-studies) for more information. To meet with an advisor in the College of Health Sciences, students should email [CHS-Admissions@uky.edu](mailto:CHS-Admissions@uky.edu).

### Pre-Veterinary Studies

Students who are interested in attending veterinary school should contact the Department of Animal and Food Science in the College of Agriculture, Food and Environment by visiting [afs.ca.uky.edu/students/pre-vet](http://afs.ca.uky.edu/students/pre-vet) and by emailing [colette.tebeau@uky.edu](mailto:colette.tebeau@uky.edu). Students are encouraged to view the pre-veterinary information in the College of Agriculture, Food and Environment section of this *Bulletin*.

# Libraries

University of Kentucky Libraries offers students academic services across campus. Students may use any library branch location no matter what their college or major. Using their Wildcard student ID and LinkBlue account, students can check out books, access online databases, and do research in the library or anywhere their laptop computer may take them. Knowledgeable staff members are ready to help students find information in person or via email, chat, or phone. For more information, visit: <http://libraries.uky.edu/index.php>.

UK Libraries employs several hundred students each year in a variety of different jobs. No experience is required for most positions, and schedules are flexible. For more information, visit the Student Employment site at: [www.uky.edu/HR/studentjobs/](http://www.uky.edu/HR/studentjobs/).

Here are a few services offered at William T. Young Library, as well as many of the branch libraries across campus:

- Late study hours (Young Library is open overnight five days a week).
- Librarians and search tools to find information for papers and projects.
- Study rooms and group study areas.
- Videos to check out or watch in the library.
- Help from the Writing Center and Presentation U (basement of Young Library).
- Access newspapers and periodicals from across the state, nation, and world.
- Work on video and interactive projects in the Media Depot.
- Use computer labs including PCs and Apple computers.
- Starbucks is at Young Library, for all your coffee needs.
- Check out a laptop for use in the library.

## THE ACADEMIC COMMON MARKET

The Academic Common Market allows non-resident students to pay resident tuition rates while studying selected academic programs that are not available in their home states. The list of programs included in the Academic Common Market is revised periodically to reflect the changing needs and offerings of participating states. For more information, visit: [www.sreb.org](http://www.sreb.org). The fifteen states that participate in the Academic Common Market are Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia. For more information, contact the Academic Common Market Institutional Coordinator, 10 Funkhouser Building, University of Kentucky, [residency@uky.edu](mailto:residency@uky.edu) or 859-562-2075.

## ACCELERATED PROGRAMS

The University of Kentucky has a broad policy for accelerated programs. Among the opportunities available are special programs for high school students and a variety of credit-by-examination programs. Many students use these opportunities to earn degrees in less time. Others prefer to use the time gained to explore areas outside their majors or to do more work in their major fields.

### Accelerated Programs for High School Students

High school students interested in earning college credit while still in high school should inquire about admission before graduating from high school. The High School Exceptional Ability program is described in greater detail in the *Undergraduate Admission* section of this Bulletin.

### Credit-by-Examination Programs

UK students may earn degree credit by successfully completing examinations described below.

#### Advanced Placement Program (AP)

The University of Kentucky recognizes examinations of the College Board Advanced Placement Program offered by high schools throughout the nation. Currently, UK ranks among the top 100 schools in the U.S. for receipt of AP test score results. A high school senior who wishes to have AP scores evaluated for academic credit or placement should have the results sent to the Office of Undergraduate Admission. UK's code is **1837**.

Students who receive Advanced Placement credit for a course may apply this credit the same way credit earned by passing a course is applied. UK does not recognize College Board SAT II Subject Tests for placement or credit purposes.

Academic departments have designated the current policy (see chart on pages 68-70) for students who score 3 or higher on the Advanced Placement examinations.

Please note that the University of Kentucky awards Advanced Placement credit based on the score of the exam that is in effect during the academic year that the student enrolls in UK. Students should refer to the AP chart in the *Bulletin* they received when they were admitted for the appropriate score.

UK does not award duplicate credit in the event that a student repeats an exam or if the credit award is the same for two or more exams. In the event a student takes the same exam more than once, credit is awarded for the best score only.

For more information on UK's Advanced Placement policy, contact:

**Office of Undergraduate Admission**  
100 W. D. Funkhouser Building  
University of Kentucky  
Lexington, KY 40506-0054  
859-257-2000

#### College Level Examination Program (CLEP)

UK participates in the national testing program of The College Board. CLEP Examinations cover specific material common to courses at many universities.

Credit for University courses is awarded to students who obtain the listed scores on the appropriate Examinations, as listed in the "Policy Guide for CLEP Examinations" on pages 71-72.

The Registrar's Office is responsible for all official posting of credit to a student's record. For information regarding the CLEP program and posting of credit, contact the Registrar's Office at 859-257-7157. For information on CLEP exams in general, visit the College Board website at:

[www.collegeboard.com/clep/](http://www.collegeboard.com/clep/).

#### International Baccalaureate Program (IB)

The University of Kentucky recognizes course credit earned through the International Baccalaureate (IB) Program offered by high schools throughout the world.

Generally, course credit is awarded for scores of 5, 6, or 7 on either the Standard Level exam or the Higher Level exam. Please refer to the chart on pages 73-74 for the actual course credit policy in each subject.

Any student desiring credit must request an IB transcript to be sent to the University. Course credit awarded through the IB program will apply toward degree requirements just as if the course had been taken on campus, except that there will not be a specific letter grade associated with the course. Instead, a designation of CR – credit – will be awarded and the grade-point average will not be affected.

In some cases, as noted on the chart on pages 73-74, additional curriculum information must be supplied by the student's high school before credit will be awarded.

For more information, contact the Registrar's Office at 859-257-7157. For information on the IB Program in general, visit the IB website at: [www.ibo.org](http://www.ibo.org).

#### Special Departmental Examinations

Undergraduate students requesting a special examination must apply in writing to the chairperson of the department that offers the course. Graduate students should apply to the director of graduate studies in the department offering the course. Applicants should include evidence that they are reasonably prepared for the examination.

These examinations are prepared and administered by the offering department, and are usually equivalent to a final examination. Students must be enrolled in good standing at UK. The examinations are offered without charge.

Almost any course offered at the University is available for credit by special examination, regardless of whether a student has audited the course, is currently enrolled in it, or has studied it independently. Please note, most elementary and intermediate foreign language courses are not available on the basis of a special examination.

More information about special examination credit appears in the *Academic Requirements* section of this Bulletin.

## EGR 198: Project Lead The Way. Credit: 1.0-6.0 (variable)

This course will be graded on a pass/fail basis.

This course grants college credit to Project Lead the Way Pathway to Engineering graduates from PLTW high schools. University of Kentucky Engineering students may earn one college credit for each of the PLTW Pathway to Engineering courses [IED, POE, DE, CIM, CSE, CEA, ES, AE] completed while enrolled in secondary school(s), up to a maximum of six UK College of Engineering credits. Three of these credits may be used in approved engineering majors as support electives. Additional credits past three can be used to fulfill free electives in approved engineering majors.

Criteria to obtain the credit include:

- Completing each PLTW course with an average of **B**
- Scoring in the 6th Stanine or above on the End-of-Course (EOC) PLTW exam
- Enrolling in the UK College of Engineering
- Paying any designated University of Kentucky tuition and fees
- Complete the End of Course PLTW Exam before June 2018

Process to obtain the credit:

- Freshmen Advisor receives documentation for request for credit from engineering student
- PLTW Teacher, Administrator, or Counselor submits required data to Freshmen Advisor
- Engineering student enrolls in appropriate EGR 198 course to receive credit during the semester

Prereq: Enrollment in the College of Engineering.

### National College Credit Recommendation Service (NCCRS)

Students may be eligible to receive credit for extra-institutional learning. The American Council on Education through its National College Credit Recommendation Service (NCCRS) has evaluated over 2,000 courses sponsored by over 140 corporations, organizations, and agencies drawn from business, industry, and government. On the basis of the NCCRS evaluations, the University has established guidelines for awarding credit for college-level courses. The University recognizes these recommendations as appropriate credit for meeting degree requirements.

The University's colleges and departments determine the amount of credit that will apply to a student's curriculum.

Information on the NCCRS appears in *The National Guide to Educational Credit for Training Programs*. For more information, contact the Office of Undergraduate Admission.

### Evaluation of Military Credit

Military Credit is awarded following the procedures below:

#### I. Procedures

- A. The student must submit a letter requesting evaluation, along with the necessary supportive documentation, to the Office of Admission.
- B. The letter should specify the types of educational experiences the student wishes to have evaluated.

1. Military Schools should be listed by:
  - Name of school
  - Location
  - Name of course
  - Length of course in weeks
  - Date course began
  - Date course completed
  - Final mark and/or standing in class
2. Military Occupational Specialties (MOS) should be listed by:
  - Complete MOS designation
  - MOS Title
  - Period of time MOS was held as a primary duty assignment
  - How MOS was awarded (School Attendance, OJT, etc.)
  - MOS evaluation score and date of evaluation

#### II. Documentation

- A. Official documentation is necessary to support the awarding of any credit based on military service. The supportive documentation required is as follows:
  1. Computerized transcript from the Army/American Council on Education Registry (request forms are available in the Office of Undergraduate Admission)
  2. Copies of Course Completion Certificates
  3. Enlisted Evaluation Data Report reflecting competency in any MOS submitted for evaluation
  4. DD Form 214 (Report of Transfer or Discharge) if no longer on Active Duty
- B. Required documentation may be obtained as follows:
  1. Active Duty Personnel: Custodian of individual's personnel records, Military installation to which assigned
  2. Retired Army Personnel or Reserve Personnel:
    - US Army Reserve Component & Administration Center (TAGO)
    - 9700 Page Boulevard
    - St. Louis, Missouri 63132
  3. Discharged Personnel (Veterans):
    - General Services Administration
    - National Personnel Records Center (Military Personnel Records)
    - 9700 Page Boulevard
    - St. Louis, Missouri 63132
  4. Discharged Personnel Now Members of Army National Guard:
    - National Guard unit to which assigned

#### III. Awarding of Credit

Credit is evaluated using the ACE Guide for evaluation of military credit (Army, Navy, Air Force, Coast Guard). ACE guide recommends hours to be awarded based on the length and content of each course. Evaluations are typed on appropriate form.

- A. Credit will be awarded on the student's official academic transcript.
- B. No credit will be awarded based on a Military Occupational Specialty (MOS) which has not been held as a primary duty assignment for a minimum duration of one (1) year or more.
- C. Copies of the Evaluation are forwarded to the college dean's office and to Student Records Office.
- D. One copy of the evaluation is maintained in the Office of Undergraduate Admission.
- E. Each college determines how awarded hours may be used in the degree program.

## THE CHELLGREN STUDENT FELLOWS PROGRAM AND THE GAINES FELLOWSHIP PROGRAM

The Chellgren Student Fellows Program is designed to provide experiences for outstanding sophomores at UK. The program offers students opportunities to go beyond classroom instruction in order to help them cultivate extraordinary academic achievement. These programs are explicitly intended to help high-achieving undergraduates attain levels of accomplishment that will enable them to compete successfully for prestigious awards – such as the Rhodes, Marshall, and Truman Scholarships – and gain admittance into the very best graduate and professional programs.

The John R. and Joan B. Gaines Fellowship in the Humanities is awarded to a select number of upper-level students. Gaines Fellows are mentored by UK faculty in a jury project (junior year), then a thesis project (senior year).

## THE LEWIS HONORS COLLEGE

The Lewis Honors College is dedicated to excellence in undergraduate education and engages students holistically to learn and thrive. The mission of the Lewis Honors College is to better the Commonwealth of Kentucky and the world by helping students to explore their purpose, develop intellectually, and lead with integrity. The Lewis Honors College at the University of Kentucky offers specialized, interdisciplinary, seminar style classes consisting of up to 25 students, as well as departmental Honors section courses, which accelerate common undergraduate education course offerings such as biology, chemistry, and English. The flexibility of the required curriculum in order to earn the Lewis Honors College graduation designation allows students to select classes from a variety of course offerings that best suit their individual interests and needs. Lewis Honors College students satisfy six credit hours of required Lewis Honors College experiences through opportunities like research experiences, service learning, education abroad, and/or internship programs. Students complete their Lewis Honors College curriculum through engagement in a Senior Thesis project. Lewis Honors College participation at the University of Kentucky allows students priority registration, dedicated advising, and access to the Lewis Honors College Center for Personal Development. The class discussions demand active participation and involvement, and are led by full-time faculty members. The Lewis Honors College encourages students' interest in other divisions of excellence such as the Chellgren Center for Undergraduate Excellence and the Gaines Center for the Humanities, among others. The Lewis Honors College typically looks for a 28 ACT (1270 SAT) and at least a 3.5 GPA from applicants; however, it primarily identifies self-motivated, eager students through the essay question responses, class rigor, and extracurricular participation.

## THE UNIVERSITY SCHOLARS PROGRAM

The University Scholars program offers students the opportunity and challenge of integrating their undergraduate and graduate or professional courses of study into a single, continuous program leading to both a baccalaureate and master's degree. The student's particular requirements will determine the amount of time needed to complete the program; however, the program can normally be completed in less time than that required in a conventional program.

### Admission to the Program

Applicants for the University Scholars program must meet the following admissions requirements:

1. The applicant must have senior standing (completed at least 90 hours of course work) and have completed all UK Core requirements.
2. Students should apply at the end of their junior year.
3. The master's program should be in the field of the undergraduate major.
4. Applicants must have an undergraduate grade-point average of 3.5 or above in their major field and 3.2 or above overall.
5. Follow the current application procedures for the Graduate School, subject to the above conditions. Admission decisions will be made by the Graduate Dean or his/her appointee.

## Degree Requirements and Curriculum

Students in the University Scholars program must meet these requirements:

1. The total number of credit hours completed for the combined program may be twelve (12) fewer than the total required for both the bachelor's and master's, or bachelor's and graduate doctoral degrees. (**The requirements for the bachelor's degree are unchanged.**)
2. Students should take no more than 16 credit hours per semester, unless they have express permission from the appropriate director of graduate studies and the Dean of The Graduate School.
3. Students must complete at least 36 hours of graduate level courses in the combined program, 15 credit hours of which must be in the 600 level or above for a Plan B master's degree. Students pursuing Plan A must complete at least 30 hours of graduate level courses in the combined program of which 12 credit hours must be at the 600 level or above. (Consult *The Graduate School Bulletin* for detailed information concerning Plan A and Plan B for master's degrees.)
4. Students must have an undergraduate and a graduate advisor. A jointly planned program must be prepared for each student.
5. In order to participate in the University Scholars program, a department must submit to The Graduate School a plan and illustrative examples of typical programs.

## DONOVAN SCHOLARS PROGRAM AND OSHER LIFELONG LEARNING INSTITUTE AT UK

The University of Kentucky has a long-standing interest in individuals of or nearing retirement age. In 1962, the Board of Trustees established the Council on Aging to serve as the focal point for programs for older persons. The Council is an integral part of the College of Public Health.

### The Herman L. Donovan Fellowship for Adults 65+

The Donovan Fellowship, named in honor of the late Herman L. Donovan, University President from 1941-1956, is a tuition waiver program for adults, 65 years and older, taking academic courses at the University of Kentucky. The tuition waiver is available for courses held on campus and limited availability for UK online classes. Donovan Fellows may audit courses for the joy of learning (exams, papers or other assignments are typically not required), take courses for credit without working toward a degree, or take classes for credit as a degree-seeking candidate. There is no previous educational requirement for Donovan Fellows auditing an undergraduate class (not seeking a degree). When working toward a degree, UK Admissions criteria must be met.

For more information, contact Tyler Barber at 859-257-2657; or email: [Tyler.Barber@uky.edu](mailto:Tyler.Barber@uky.edu).

### Osher Lifelong Learning Institute (OLLI) at UK, Lexington and Morehead

The OLLI at UK offers intellectual, social, and cultural programs for adults aged 50 years and older which characterize the university setting. Educational, enrichment, and experiential learning opportunities are offered at our locations in Lexington and Morehead. Programs are held in community locations and are offered in a variety of formats including: weekly courses, presentations series, trips, events, interest groups and more. Courses are taught in: history and government, culture and travel, languages, literature and writing, health and wellness, science and environment, and the visual and performing arts. The annual membership fee is \$35; course fees vary.

For more information, contact the OLLI at UK at 859-257-2656; toll free at 866-602-5862; or email: [Teresa.Hager@uky.edu](mailto:Teresa.Hager@uky.edu).

## ACADEMIC PREPARATION AND PLACEMENT PROGRAM

The Academic Preparation and Placement Program (APP) provides placement testing for incoming students and preparatory instruction for admitted students who have not yet met statewide minimum test score requirements for college readiness.

### Placement Testing

On campus placement testing at UK is offered FREE of charge for all incoming first time admitted students.

#### Math

All incoming UK students with a Math ACT of 29 or below or Math SAT of 680 or below take the ALEKS mathematics placement test. However, students who have a UK approved 100-level or above mathematics credit (including official AP, Dual credit, or transfer credit) accepted by UK admissions are highly encouraged, but not required to take the ALEKS placement test. The University of Kentucky uses the ALEKS math placement test to ensure students' proper course enrollment in mathematics courses to meet UK Core and to prepare for their major program of study. The ALEKS PPL account is free for incoming UK students to continue mathematics preparation for future courses through the individualized learning modules for up to one year.

#### English

UK Placement tests in Reading and Writing (ACCUPLACER) are also available to assess students' skills in these areas and assist advisors in recommending courses.

#### English as a Second Language

Placement testing in Reading and Writing is available for international students who have an ACT reading sub-score below 20 (SAT reading below 25), an ACT English sub-score below 18 (SAT writing below 25), a TOEFL score below 100, or any TOEFL sub-score below 20.

Information about all placement tests are online at: [www.uky.edu/app/placement-testing](http://www.uky.edu/app/placement-testing) under 'Placement Testing.' In order to register for online testing, students will need their official UK ID number.

### APP Courses

APP offers courses in Reading, Writing, and Math. Students enrolled in APP courses will have access to resources that support their success. Resources include peer tutoring, study skills development, and academic coaching.

#### UK 125 APP Writing

The Academic Preparation & Placement Program supports UK students in meeting college readiness benchmarks in Reading & Writing and prepares them to be successful in their major. By the end of this course students will demonstrate college readiness through the development of transferable skills necessary for success across disciplines and within their major. Specifically, students will be able to process, retain, and analyze multiple texts as a key process in producing well-constructed composition and communication assignments within future coursework. This course replaces UK 120 and 130.

**Prerequisites:** Students with an ACT scores below 18 in English and/or 20 in Reading or an SAT (evidence-based reading and writing) score below 480 need to demonstrate college Reading and Writing readiness via either the Reading and Writing Accuplacer placement exam or by successfully completing UK 125. A score of 244 or higher on either the Reading or Writing Accuplacer exam demonstrates college readiness. Those who do not receive a 244 or higher are required to enroll in UK 125.

International Students requiring college readiness in reading and listening should visit the Center for English as a Second Language **English for Academic Purposes** page and click on CESL 100 and CESL 110.

#### UK 101 APP Student Success (2 Credits)

APP Student Success is a specialty section of UK 101 designed to help new students transition to University life through engagement with building academic success, promoting personal growth, fostering growth mindsets, developing a sense of belonging and community, and building fundamental concepts of mathematics. Students are given the opportunity to demonstrate mathematics college readiness by taking the ALEKS placement test upon course completion. This unique UK 101 and mathematics combined support approach allows students to work at an individualized pace in a supportive classroom environment. Students are assisted by their instructor and peer tutor for one on one and small group instruction. This course replaces UK 095 and UK 096.

**Prerequisites:** Students with a Math ACT score of 18 or below need to demonstrate college math readiness through placement testing or course work. Students demonstrate readiness by scoring a 30 or above on their proctored ALEKS Math placement test. Scores less than a 30 on the ALEKS placement test will enroll in UK 101: APP Student Success (enrolling individuals with a Math ACT score of 17 and below) or MA 111 & A&S 121 (enrolling individuals with a Math ACT score of 18).

For more information on APP coursework, please visit [www.uky.edu/app/](http://www.uky.edu/app/).

## Placement for Composition and Communication Courses

Students entering UK must meet basic skills in the UK Core. The placement information outlined below plays an important role in determining specific options for meeting these requirements. Please carefully read the placement information below to determine which placement exam(s) or other exam(s) you may benefit from taking.

### UNIVERSITY COMPOSITION AND COMMUNICATION REQUIREMENT

All students must fulfill the University Composition and Communication Requirement. See “Composition and Communication Requirements” in the *Graduation Requirements* section of this Bulletin for more information.

<p>You have scored <b>32 or above</b> on ACT English <i>or</i> <b>720 or above</b> on SAT Writing Score <i>or</i> earned a score of <b>6 or 7</b> on the Higher Level IB English (Language A: Literature) course</p> <ul style="list-style-type: none"> <li>• <i>No course credit awarded</i></li> </ul>	—	<p>Enrollment permitted in <b>CIS/WRD 112</b> or <b>CIS/WRD 110</b></p> <p>Does not satisfy any portion of the Composition and Communication requirement. Must complete Graduation Composition and Communication Requirement course(s) in major after achieving sophomore status</p>
<p>You have scored <b>3</b> on AP English Language/Composition Exam</p> <ul style="list-style-type: none"> <li>• <i>3 credits awarded for Departmental Elective Credit (WRD 1--) at the 100 level</i></li> </ul>	—	<p>Enrollment permitted in <b>CIS/WRD 110</b></p> <p>Does not satisfy any portion of the Composition and Communication requirement. Must complete Graduation Composition and Communication Requirement course(s) in major after achieving sophomore status</p>
<p>You have scored <b>4-5</b> on AP English Language/Composition Exam</p> <ul style="list-style-type: none"> <li>• <i>3 credits awarded for Departmental Elective Credit (WRD 1--) at the 100 level</i></li> </ul>	—	<p>Enrollment permitted in <b>CIS/WRD 112</b> or <b>CIS/WRD 110</b></p> <p>Does not satisfy any portion of the Composition and Communication requirement. Must complete Graduation Composition and Communication Requirement course(s) in major after achieving sophomore status</p>
<p>You have scored <b>3-4</b> on the AP English Literature/Composition Exam</p> <ul style="list-style-type: none"> <li>• <i>3 credits awarded for Departmental Elective Credit (ENG 1--) at the 100 level</i></li> </ul>	—	<p>Must enroll in <b>CIS/WRD 110</b></p> <p>Does not satisfy any portion of the Composition and Communication requirement. Must complete Graduation Composition and Communication Requirement course(s) in major after achieving sophomore status</p>
<p>You have scored <b>5</b> on the AP English Literature/Composition Exam</p> <ul style="list-style-type: none"> <li>• <i>3 credits awarded for <b>ENG 230</b></i></li> </ul>	—	<p>Must enroll in <b>CIS/WRD 110</b></p> <p>Does not satisfy any portion of the Composition and Communication requirement. Must complete Graduation Composition and Communication Requirement course(s) in major after achieving sophomore status</p>
<p>You have scored <b>5</b> on the IB HL English Exam</p> <ul style="list-style-type: none"> <li>• <i>3 credits awarded for Departmental Elective Credit (ENG 1--) at the 100 level</i></li> </ul>	—	<p>Must enroll in <b>CIS/WRD 110</b></p> <p>Does not satisfy any portion of the Composition and Communication requirement. Must complete Graduation Composition and Communication Requirement course(s) in major after achieving sophomore status</p>
<p>You have scored <b>6</b> on the IB HL English Exam</p> <ul style="list-style-type: none"> <li>• <i>3 credits awarded for Departmental Elective Credit (ENG 1--) at the 100 level</i></li> </ul>	—	<p>Enrollment permitted in <b>CIS/WRD 112</b></p> <p>Does not satisfy any portion of the Composition and Communication requirement. Must complete Graduation Composition and Communication Requirement course(s) in major after achieving sophomore status</p>
<p>You have scored <b>7</b> on the IB HL English Exam</p> <ul style="list-style-type: none"> <li>• <i>3 credits awarded for <b>ENG 230</b></i></li> </ul>	—	<p>Enrollment permitted in <b>CIS/WRD 112</b></p> <p>Does not satisfy any portion of the Composition and Communication requirement. Must complete Graduation Composition and Communication Requirement course(s) in major after achieving sophomore status</p>

## Placement for Composition and Communication Courses

### UNIVERSITY COMPOSITION AND COMMUNICATION REQUIREMENT

You have scored <b>50-74</b> on American Literature or English Literature or Analyzing & Interpreting Literature CLEP Exam • <i>3 credits awarded for Departmental Elective Credit (ENG 1--)</i> at the 100 level	—	Must enroll in <b>CIS/WRD 110</b> Does not satisfy any portion of the Composition and Communication requirement. Must complete Graduation Composition and Communication Requirement course(s) in major after achieving sophomore status
You have scored <b>75-80</b> on American Literature or English Literature or Analyzing & Interpreting Literature CLEP Exam • <i>3 credits awarded for ENG 230</i>	—	Must enroll in <b>CIS/WRD 110</b> Does not satisfy any portion of the Composition and Communication requirement. Must complete Graduation Composition and Communication Requirement course(s) in major after achieving sophomore status
You have scored <b>3</b> on the AP Capstone Seminar exam	—	Must enroll in <b>CIS/WRD 110</b> Does not satisfy any portion of the Composition and Communication requirement. Must complete Graduation Composition and Communication Requirement course(s) in major after achieving sophomore status
You have scored <b>4 or 5</b> on the AP Capstone Seminar exam	—	Must enroll in <b>CIS/WRD 112</b> Does not satisfy any portion of the Composition and Communication requirement. Must complete Graduation Composition and Communication Requirement course(s) in major after achieving sophomore status
You have completed <b>ENG 101 and 102</b> (or equivalent)	—	Must enroll in <b>COM 252, COM 281, or COM 287</b> Partially satisfies the Composition and Communication requirement; completion of <b>COM 252, COM 281, or COM 287</b> fulfills the Composition and Communication Requirement . Must complete Graduation Composition and Communication Requirement course(s) in major after achieving sophomore status
You have completed <b>ENG 101</b>	—	Must enroll in <b>CIS/WRD 110</b> Does not satisfy any portion of the Composition and Communication requirement. Must complete Graduation Composition and Communication Requirement course(s) in major after achieving sophomore status

**First-Year Requirement Questions:** (859) 257-7002.

**Graduation Composition and Communication Requirement Questions:** (859) 257-3027.

## Placement for Mathematics, Biology and Chemistry Courses

These prerequisites are in effect and will be applied to all students. Students should see their advisor before enrolling in any courses. A **math placement test is required for all students with a Math ACT score of 26 or below or a Math SAT of 610 or below.**

### MATHEMATICS

#### If your ACT Math Score is:

<b>Less than or equal to 18</b> (Math SAT: <b>less than or equal to 450</b> )	COMPASS math placement test required	Enrollment permitted in <b>MA 108R, UK 090</b> (enrollment in <b>MA 109, MA 111, MA 112</b> barred)
	<b>and</b> Appropriate score achieved on COMPASS math placement test	Enrollment permitted in <b>MA 111</b>
<b>19-20</b> (Math SAT: <b>460-500</b> )	Math placement test required	Enrollment permitted in <b>MA 108R, MA 111</b> (enrollment in <b>MA 109, MA 112</b> barred)
	<b>and</b> Appropriate score achieved on math placement test	Enrollment permitted in <b>MA 109, MA 110, MA 112</b>
<b>21-22</b> (Math SAT: <b>510-530</b> )	Math placement test required	Enrollment permitted in <b>MA 109, MA 111, MA 112</b> (enrollment in <b>MA 110</b> barred)
	<b>and</b> Appropriate score achieved on math placement test	Enrollment permitted in <b>MA 110</b>
<b>23-25</b> (Math SAT: <b>540-590</b> )	Math placement test required	Enrollment permitted in <b>MA 109, MA 110, MA 111, MA 112</b> (enrollment in <b>MA 113, MA 123</b> barred)
	<b>and</b> Appropriate score achieved on math placement test	Enrollment permitted in <b>MA 113, MA 123</b>
<b>26</b> (Math SAT: <b>600-610</b> )	Math placement test required	Enrollment permitted in <b>MA 109, MA 110, MA 111, MA 112, MA 123</b> (enrollment in <b>MA 113</b> barred)
	<b>and</b> Appropriate score achieved on math placement test	Enrollment permitted in <b>MA 113</b>
<b>27 or greater</b> (Math SAT: <b>620 or greater</b> )	Math placement not required	Enrollment permitted in <b>MA 113, MA 123</b>

### BIOLOGY

#### If your ACT Math Score is:

<b>Less than 24</b> (Math SAT: <b>less than 560</b> )	<b>and</b> <b>MA 109</b> not completed	Enrollment in <b>BIO 148</b> barred
	<b>or</b> <b>MA 109</b> completed <b>AND</b> <b>CHE 105</b> completed or concurrent enrollment	Enrollment permitted in <b>BIO 148</b>
<b>24 or greater</b> (Math SAT: <b>560 or greater</b> )	<b>and</b> <b>CHE 105</b> completed or concurrent enrollment	Enrollment permitted in <b>BIO 148</b>
Earned a <b>C</b> or better in <b>BIO 148</b> <i>Students must complete BIO 148 prior to enrolling in BIO 152</i>		Enrollment permitted in <b>BIO 152</b>

### CHEMISTRY 105

Proficiency in chemistry and biology are options in the Natural, Physical and Mathematical Sciences requirement of the UK Core. If you plan to major in science, nursing, engineering, or a health profession, chemistry and biology may be important parts of your first year at UK. A strong math background is essential for success in chemistry, and a strong chemistry background is essential for success in biology. The chart below can help you determine what level of science you're eligible to take.

#### \*If your ACT Math Score is:

<b>Less than or equal to 22</b> (Math SAT: <b>less than or equal to 530</b> )	<b>and</b> Appropriate score on math placement test not achieved and <b>MA 109</b> or <b>MA 110</b> not completed	Enrollment in <b>CHE 105</b> barred
	<b>or</b> Appropriate score on math placement test achieved and enrollment permitted in <b>MA 123</b>	Enrollment permitted in <b>CHE 105</b>
	<b>or</b> <b>MA 109</b> or <b>MA 110</b> completed with passing grade	Enrollment permitted in <b>CHE 105</b>
<b>23 or greater</b> (Math SAT: <b>540 or greater</b> )		Enrollment permitted in <b>CHE 105</b>

## University of Kentucky Policy Guide for Advanced Placement

<b>AP Test</b>	<b>Score</b>	<b>Credit Awarded</b>	<b>Credit Statement</b>	<b>UK Core Area</b>
<b>Art History</b>	3 - 5	A-H 106	3 credit hours for A-H 106 with a grade of CR.	Humanities
<b>Art Studio (Drawing)</b>	3 - 5	A-S 1--	3 credit hours for 100-level art studio credit (see note below) with a grade of CR. <i>Credit will be replaced with 3 credit hours in the appropriate media course upon successful completion of a portfolio review. Please contact the Director of Undergraduate Studies for the School of Art and Visual Studies to schedule your review.</i>	
<b>Art Studio (2-D Design)</b>	3 - 5	A-S 1--	3 credit hours for 100-level art studio credit (see note below) with a grade of CR. <i>Credit will be replaced with 3 credit hours in the appropriate media course upon successful completion of a portfolio review. Please contact the Director of Undergraduate Studies for the School of Art and Visual Studies to schedule your review.</i>	
<b>Art Studio (3-D Design)</b>	3 - 5	A-S 1--	3 credit hours for 100-level art studio credit (see note below) with a grade of CR. <i>Credit will be replaced with 3 credit hours in the appropriate media course upon successful completion of a portfolio review. Please contact the Director of Undergraduate Studies for the School of Art and Visual Studies to schedule your review.</i>	
<b>Biology</b>	3	BIO 102, 103	3 credit hours each for BIO 102, 103 with a grade of CR.	Natural/Physical/ Mathematical Sciences
	4 or 5	BIO 103, 148, 152	3 credit hours each for BIO 103, 148, 152 with a grade of CR.	
<b>Calculus AB</b>	3 - 5	MA 113	4 credit hours for MA 113 with a grade of CR.	Quantitative Foundations
<b>Calculus BC</b>	3 - 5	MA 113, 114	4 credit hours each for MA 113, 114 with a grade of CR.	Quantitative Foundations
	3 - 5 subscore on AB subsection	MA 113	4 credit hours for MA 113 with a grade of CR.	Quantitative Foundations
<b>Capstone Research</b>	3 - 5	GEED 1--	3 credit hours for GEED 1-- with a grade of CR.	
<b>Capstone Seminar</b>	3 - 5	WRD 1--	3 credit hours for WRD 1-- with a grade of CR. Score of 3 provides placement in CIS/WRD 110. Score of 4 or 5 provides placement in CIS/WRD 112.	
<b>Chemistry</b>	3 - 4	CHE 105, 111	4 credit hours for CHE 105 and 1 credit hour for CHE 111 with a grade of CR.	Natural/Physical/ Mathematical Sciences
	5	CHE 105, 107, 111	4 credit hours for CHE 105, 3 credit hours for CHE 107, and 1 credit hour for CHE 111 with a grade of CR.	Natural/Physical/ Mathematical Sciences
<b>Chinese Language and Culture</b>	3	CHI 102	4 credit hours for CHI 102 with a grade of CR.	
	4	CHI 102, 201	4 credit hours each for CHI 102, 201 with a grade of CR.	
	5	CHI 102, 201, 202	4 credit hours each for CHI 102, 201, 202 with a grade of CR.	
<b>Computer Science A</b>	3 - 5	CS 115	3 credit hours for CS 115 with a grade of CR.	
<b>Computer Science Principles</b>	3 - 4	CS 1--	3 credit hours for Departmental Elective Credit at the 100 level with a grade of CR.	
	5	CS 101	3 credit hours of CS 101 with a grade of CR.	
<b>Economics (micro)</b>	3 - 5	ECO 201	3 credit hours for ECO 201 with a grade of CR.	
<b>Economics (macro)</b>	3 - 5	ECO 202	3 credit hours for ECO 202 with a grade of CR.

*\*Credit will be replaced with 3 credit hours in the appropriate media course upon successful completion of a portfolio review. Please contact the Director of Undergraduate Studies for the School of Art and Visual Studies to schedule your review.*

Certain conditions concerning the number and level of courses required, the patterns they must follow, the amount of time to be spent as a full-time student, grades and conduct have been established by the University Senate for all University of Kentucky students who are pursuing a degree. Those which relate to academic requirements are listed below. Others will be found in the University Senate Rules, pertinent portions of which are printed in the booklet *Student Rights and Responsibilities*, which is available to all students through the Dean of Students Office.

## STUDENT LOAD

With the exceptions noted below, the maximum load to be carried during any semester by an undergraduate student (including courses taken on an audit basis) shall be 19 credit hours.

The maximum allowable load to be carried during any summer term/session for undergraduate students (including residence or audit courses) shall be nine (9) credit hours in the eight-week summer session and four (4) credits in the four-week term, but under no circumstances no more than 13 credits during the summer term and summer session.

Students may be enrolled in a maximum of nine credit hours of classes meeting concurrently during an eight week session. For this purpose, a course meeting for a four-week period during the eight-week session must be counted double. Thus a student may enroll in two consecutive four-week (three credit hours) classes plus one eight week class, or as many as three eight week (three credit hour) classes. A student would not, however, be able to enroll in two four-week (three credit hour) classes meeting concurrently. A student may be enrolled in a maximum of seven credit hours for a six-week summer term.

A student may be permitted by the dean of his or her college to carry such extra credit hours as in the dean's judgment, based upon the student's past performance, the student can complete successfully.

A student on academic probation shall take no more than fifteen (15) credit hours in a semester, three (3) credit hours in a four-week term, or seven (7) credit hours in a six- or eight-week session. This rule may be waived by written permission from the student's academic dean or the dean's designee. The waiver and the rationale for the waiver must be documented in the student's record maintained by the college.

Students in the combined Bachelor's/Master's or Bachelor's/Graduate Doctoral degree program (University Scholars Program) shall not take more than 16 credit hours per semester. Permission to exceed that number is subject to approval by the Director of Graduate Studies and the Dean of the Graduate School.

The professional colleges and the Graduate School may set lower maximum loads which are consistent with their degree requirements.

The maximum allowable load to be carried during any summer term for graduate students is nine (9) credit hours in the eight-week summer session and four (4) credit hours in the four-week term. The maximum load for graduate students in any combination of the four- and eight-week sessions/terms shall be twelve (12) credit hours.

A student may be registered simultaneously at the University of Kentucky and at another institution only with the approval of the dean of the college in which the student is registered at the University of Kentucky, the credit hours obtained at the other institution being considered a part of the student's maximum load. If the simultaneous registration has not been authorized, the transfer of credit from the other institution may be denied.

## CLASSIFICATION

Any undergraduate student shall be classified by the Registrar as a freshman if fewer than 30 hours have been completed; as a sophomore upon completion of 30 credit hours; as a junior upon completion of 60 credit hours; and as a senior upon completion of 90 credit hours.

A Law student shall be classified as a second-year student upon completion of 24 credit hours and as a third-year student upon completion of 53 credit hours. However, a Law student is not classified as a second-year student until that student has been in residence at least two semesters, nor as a third-year student until that student has been in residence at least three semesters.

A Pharmacy student shall be classified as a second-year student upon completion of 28 credit hours and as a third-year student upon completion of 56 credit hours.

Credit granted by examinations shall count in determining a student's classification.

## GENERAL GRADING SYSTEM

The general grading system uses a series of letters, to which are assigned grade-point values. The system is based neither on an absolute numerical system nor on a distribution curve, but on the following descriptions:

**Grade A** represents exceptionally high achievement as a result of aptitude, effort, and intellectual initiative. It is valued at four (4) quality points for each credit hour.

**Grade B** represents a high achievement as a result of ability and effort. It is valued at three (3) quality points for each credit hour.

**Grade C** represents satisfactory achievement for undergraduates; represents unsatisfactory achievement for graduate students and is the minimum passing grade for which credit is conferred. It is valued at two (2) quality points for each credit hour.

**Grade D** represents unsatisfactory achievement for undergraduates and is the minimum grade for which credit is conferred; the grade is not to be used for graduate students. It is valued at one (1) quality point for each credit hour.

**Grade E** represents unsatisfactory performance and failure in the course. It is valued at zero (0) quality points and zero (0) credit hours. A student receiving this grade can obtain credit in the course only by repeating the entire work of the course in class, or by special examination in accordance with the procedures outlined under Special Examinations. In rare cases in which undue hardship is involved in repeating the work in class, the dean of the college in which the student is enrolled may approve repeating the work by correspondence.

**Grade P** represents a passing grade in a course taken on a Pass/Fail basis. It may also be assigned by the University Appeals Board in cases involving a violation of student academic rights. Credit hours successfully completed under this grade will count towards graduation but will not be used in calculating grade-point averages.

**Grade F** represents failure in a course taken on a Pass/Fail basis. It is valued at zero (0) quality points and zero (0) credit hours.

**Grade AU** represents a completion of a course attended on an audit basis. It is valued at zero (0) quality points and zero (0) credit hours.

**Grade CR** (credit) is a grade assigned to AP or CLEP or bypass work to reflect that credit is granted for a course. Credit hours will count towards graduation but will not be used in calculating grade-point averages.

**Grade I** (incomplete) means that part of the regularly assigned work of the course remains undone. It shall be conferred only when there is a reasonable possibility that the student can complete the work within the allowable period of time for removal of an **I** grade and that a passing grade will result from completion of the work. Except under exceptional circumstances, the student shall initiate the request for the **I** grade. An **I** grade shall not be conferred when the student's reason for incompleteness is unsatisfactory to the Instructor of Record.

A grade of **I** must be replaced by a regular final letter grade not later than 12 months from the end of the academic term in which the **I** grade was awarded or prior to the student's graduation, whichever occurs first. The Registrar's Office shall notify the Instructor of Record at least two months prior to expiration of the allowable period. The Instructor of Record can extend the allowable period for up to an additional 12 months by completing a grade assignment form. If the Instructor of Record is not available, the department chair or dean of the college in which the course is offered may complete a grade assignment form to extend the allowable period for up to 12 months. In the event the grade of **I** is not replaced by a regular final letter grade within the allowable period, the Registrar shall change the **I** grade to a grade of **E** on the student's permanent academic record and adjust the student's GPA accordingly. In the event that an **I** becomes an **E**, the Instructor of Record may submit a grade assignment form to replace the **E** within 12 months from the time the **E** was assigned. A graduate who had an **I** grade on his or her academic record at the time of graduation (and which grade was subsequently changed to an **E** by the Registrar) may be allowed a maximum of 12 months following the end of the semester, term or session in which the course was taken to satisfactorily complete the course and receive a grade change.

Each department is responsible for recording information for each incomplete, specifying:

1. the student name and student number;
2. the course and section number, hours of credit, semester, year, Instructor of Record;
3. the work to be completed and basis for grading;
4. the time frame for completing the incomplete (not exceeding 12 months); and
5. documentation that the student has been advised of the conditions for removing the incomplete.

This information shall be filed with the department chair or chair's designee. It is preferable that the information be signed and dated both by the student and the Instructor of Record. A standard form is available at the University Senate website, but each department is welcome to create its own form and scheme for recording this information.

The Instructor of Record shall provide a completed copy of this record to the student and the department chair at the time the **I** grade is reported. The term *student* in this context excludes only students in the Graduate School and the Colleges of Medicine and Dentistry.

**Grade IP** represents satisfactory work in progress in courses carrying no academic credit. It is valued at zero (0) quality points and zero (0) credit hours. The grade **IP** may be recorded for students in zero-credit courses of research, independent work, or seminar-type, if at the end of a semester the student, because of the nature or size of the project, has been unable to complete the course. The project must be substantially continuous in its progress. When the work is completed, a final grade will be substituted for the **IP**. This grade may not be conferred to a student who has done unsatisfactory work or to one who has failed to do a reasonable amount of work.

**Grade N** represents a temporary grade to be submitted for students who have been entered by the Registrar into official class rolls but have never attended class and who have not officially withdrawn. The Registrar shall remove their names from the official class roll and the student's enrollment in the class shall not be recorded in the student's official academic record. (As a temporary mark, **N** carries no credit hours or quality points).

**Grade S** represents a final grade in courses carrying no academic credit or in courses used for residency credit or dissertation/thesis credit. It is valued at zero (0) quality points.

**Grade SI** represents an interim grade in credit-bearing seminars, independent work courses, or research courses if these courses extend beyond the normal limits of a semester or summer term. This grade signifies that both the quality and quantity of the student's academic work were satisfactory during the applicable term. All **SI** grades must be replaced by a regular final letter grade prior to the Qualifying Examination or Final Examination for doctoral students or prior to graduation in all other cases. As a temporary mark, **SI** carries no credit hours or quality points.

**Grade UI** represents an interim grade in credit-bearing seminars, independent work courses, or research courses if these courses extend beyond the normal limits of a semester or summer term. This grade signifies that the quality or the quantity of the student's academic work was unsatisfactory during the applicable term. All **UI** grades must be replaced by a regular final letter grade prior to the Qualifying Examination or Final Examination for doctoral students or prior to graduation in all other cases. As a temporary mark, **UI** carries no credit hours or quality points.

**Grade UN** represents a final grade in courses carrying no academic credit, in graduate residence courses, or as an interim grade in specific types of courses for which a student has done unsatisfactory work or has failed to do a reasonable amount of work. It is valued at zero (0) quality points and zero (0) credit hours.

**Grade XE** represents failure in a course due to an academic offense. It is valued at zero (0) quality points and zero (0) credit hours. The repeat option may not be exercised for any course in which the grade of **XE** was received. A grade of **XE** normally may not be changed to a **W** by retroactive withdrawal, except upon appeal to the University Appeals Board as prescribed by University Senate Rules.

**Grade XF** represents failure in a course taken on a Pass/Fail basis due to an academic offense. It is valued at zero (0) quality points and zero (0) credit hours. The repeat option may not be exercised for any course in which the grade of **XF** was received. A grade of **XF** may not be changed to a **W** by retroactive withdrawal, except upon appeal to the University Appeals Board as prescribed by University Senate Rules.

**Grade W** denotes withdrawal from class. It may be assigned by the University Appeals Board in cases involving a violation of student academic rights. It is valued at zero (0) quality points and zero (0) credit hours.

**Grade Z.** The grade **Z** means that the student has made significant progress but needs and deserves more time to achieve a passing level. The student should re-enroll in the course in order to continue advancement to a level of competence set for the course. Re-enroll grades may be assigned only for development courses numbered 000-099.

**Official Withdrawal from a Course:** A student may withdraw from a class, or from the University, after the withdrawal period but through the last day of classes for the semester/session/term upon approval by the dean of the student's college of a petition certifying urgent non-academic reasons including but not limited to:

- a. illness or injury of the student;
- b. serious personal or family problems;
- c. serious financial difficulties; or
- d. having excused absences for the dates and times associated with more than one-fifth of the required interactions in a course.

Before acting on such a petition, the dean will consult with the Instructor of Record of the class. The dean may not delegate the authority to approve or deny a petition to withdraw to the University Registrar or to any other agency external to his or her college. If such a petition is approved by the dean of the student's college, the dean shall inform in writing the Instructor of Record of the class of his/her action, and the student shall be assigned a grade of "W".

## Academic Requirements

A student may withdraw from a class, or from the University, after the withdrawal period but through the last day of classes for the semester/session/term upon approval by the dean of the student's college of a petition certifying urgent nonacademic reasons including but not limited to:

- a. illness or injury of the student;
- b. serious personal or family problems;
- c. serious financial difficulties; or
- d. having excused absences for the dates and times associated with more than one-fifth of the required interactions in a course.

Before acting on such a petition, the dean will consult with the Instructor of Record of the class. The dean may not delegate the authority to approve or deny a petition to withdraw to the University Registrar or to any other agency external to his or her college. If such a petition is approved by the dean of the student's college, the dean shall inform in writing the Instructor of Record of the class of his/her action, and the student shall be assigned a grade of "W".

**Unilateral removal for failure to attend a course.** If from the first day of classes to the last day to add a class, inclusive, students neither show evidence of participation in the course nor notify the Instructor of Record of their intent to complete the course, the Instructor of Record may report these students to the Registrar who shall remove the students from the class roll and who shall inform such students that they have been removed. The students will have no record of the class appear on their transcripts.

**Withdrawal to Enter Military Service:** Students who withdraw (and within ten (10) days enter the Armed Services either mandatorily or voluntarily) after completing the twelfth week of the semester, the third week of the four week summer term, or the sixth week of the 8 week summer session, or later, shall be entitled to receive full credit and residence for the course. The grade report shall be that attained in the course up to the time of withdrawal. If, with the credit and residence time granted, the student has fulfilled all requirements for a degree, the student shall be recommended for that degree by the University Senate. If a comprehensive course examination is required for graduation, this requirement shall be waived.

**Retroactive Withdrawal:** Typically, a student may withdraw from a given semester only if the withdrawal is from all classes. A grade of **E** or **XE** assigned as a result of an academic offense may be changed to a **W** only by a petition to the University Appeals Board and only after a retroactive withdrawal for the semester in which the grade was assigned is granted. The student must demonstrate that the hardships enumerated in the request for the Retroactive Withdrawal also resulted in the academic offense in a manner that the student's culpability was severely diminished as a result.

Requests for retroactive withdrawals shall be made of the Dean of the college in which the student was enrolled at the time the classes were taken. The complete request shall be made before a student has graduated and not later than two calendar years from the last day of class for the semester for which the withdrawal is requested, unless the Senate Retroactive Withdrawal Appeals Committee votes to waive the two year limit. The fully complete request shall be submitted using the University Senate Retroactive Withdrawal Application, which includes a form on which an instructor can offer feedback, along with the documentation required by the University Senate as described on that form. Retroactive withdrawals may be granted only when the student has demonstrated satisfactory evidence that the student has incurred:

- a. a serious injury or illness;
- b. serious personal or family problems;
- c. serious financial difficulties; or
- d. permanent disability verified by the Disability Resource Center and diagnosed after the semester for which the withdrawal is requested.

Retroactive withdrawal from a class in which an **XE** or **XF** has been imposed shall not be granted.

**Audit.** Students who register for an audit do so for reasons other than fulfilling explicit requirements. They must come to individual agreements with the instructor as to what responsibilities they will be expected to perform. Normally,

students who audit would be expected to do the readings and attend class; they may be required to enter more fully into the class work. In any case, they will receive no credit hours or grades. Any change from audit to credit or credit to audit by a student regularly enrolled in a college must be accomplished within three (3) weeks from the beginning of classes in the fall or spring semester (or a proportionate amount of time in the summer term/session or other courses of less than a full semester's duration). No credit can be conferred for a class audited nor is a student permitted to take an examination for credit except for the special examinations described on page 83 under "Special Examinations". A student who initially enrolls in a class as an auditor must attend at least 80 percent of the classes in the course (excluding excused absences). If a student changes her or his enrollment from credit to audit, s/he must attend at least 80 percent of the remaining classes (excluding excused absences). If an auditor fails to attend the requisite number of classes, the Instructor of Record may request that the Dean of the instructor's college award a grade of **W** for that course and the Dean shall report the grade to the Registrar. No instructor is authorized to admit anyone as an auditor to any classes unless the auditor has registered as such.

### Repeat Option

An undergraduate student has the option to repeat once as many as three different completed courses (including special exams as described on page 83) with only the grade, credit hours, and quality points for the second completion used in computing the student's academic standing and credit for graduation. The limit of three repeat options holds for a student's entire undergraduate career (including when academic bankruptcy is exercised as described on page 85), no matter how many degrees or programs are attempted. A student may not use the repeat option when retaking a course on a Pass/Fail basis if the course was originally taken for a letter grade.

**A student exercising the repeat option must consult the student's advisor and must notify the Office of the Registrar. A student may exercise the repeat option at any time prior to graduation and must be enrolled at UK.**

If a student officially withdraws from the second attempt, then the grade, credit hours, and quality points for the first completion constitute the grade in that course for official purposes. Permission to attempt again the same course may only be granted by the Instructor of Record and the dean of the college in which the student is enrolled. (**Note:** The repeat option cannot be used to raise the student's standing for admission to the University of Kentucky Graduate School.)

The repeat option may be exercised only the second time a student takes a course for a letter grade, not a subsequent time (excluding audits).

The repeat option shall not be exercised for any course in which the grade of **XE** or **XF** was received.

### Prohibition of Duplicate Credit for Undergraduate and Graduate Students

A student may earn credit hours and associated quality points for a course only once unless the course is designated as repeatable. A student who nonetheless has enrolled more than once for the same nonrepeatable course will be awarded credit hours and associated quality points only for the first time the course is completed during the student's academic career, regardless of the source (e.g. transfer, A.P., etc.) unless the student properly exercises the Repeat Option.

- The dean of a student's college may elect to count the grades of subsequent attempts for selective admission purposes only, and not for calculating the grade-point average for graduation or any other purpose.
- The Graduate Faculty Rules, as codified in the Graduate Bulletin, concerning the repeat option are in force and must be applied by the Registrar to all students enrolled in particular graduate degree program, or while in postbaccalaureate status.

### Pass/Fail Option

Undergraduate students above the freshman level and not on academic probation may select a maximum of four (4) elective courses, with certain restrictions, to be taken on a Pass/Fail basis. Students in the Lewis Honors College above the

freshman level may, with advance written approval of the Dean of the Lewis Honors College, select additional elective courses to be taken on a Pass/Fail basis. Credit hours successfully completed under this option shall count toward graduation but shall not be used in calculating GPA.

Courses taken on a Pass/Fail basis (including transfer courses) shall be limited to those considered as elective in the student's program and such other courses or types of courses as might be specifically approved by the Senate Council for a college or department. Prerequisites for such courses may be waived with the consent of the Instructor of Record. Students are expected to participate fully in these courses and to take all examinations. Any student may change his or her grading option (Pass/Fail to letter grade or letter grade to Pass/Fail; credit to audit or audit to credit) within three (3) weeks from the beginning of classes in the fall or spring semester (or a proportionate amount of time in the summer term/session or other courses of less than a full semester's duration). After such time, a student may not change his or her grading option without the express approval of the student's academic dean or the dean's designee. The waiver and the rationale for the waiver must be documented in the student's record in the college.

Courses offered only on a Pass/Fail basis shall not be included in the maximum number of elective courses which a student may take under these provisions.

The Instructor of Record shall not be notified by the Office of the University Registrar or by another office of the University of those students who are taking the course Pass/Fail. However, if an Instructor of Record is also the student's designated academic advisor, then the Instructor of Record shall have access to a student's Pass/Fail status in a course for the purpose of advising the student. The Instructor of Record shall submit a regular letter grade to the Registrar's Office which will take the appropriate action to change the grade into Pass/Fail grading track for records. Neither a grade of **P** nor a grade of **F** shall be taken into consideration in calculating a student's GPA, except as described in Senate Rule 5.1.2.1.

Giving a **P/F** credit for AP tests and for CLEP tests does not mean that students may elect to take a required course for **P/F**. If the student elects to take the course he or she must get a letter grade to satisfy the UK Core requirements.

### Temporary Notations

**Course in Progress.** Three dashes (---) appear in a grade report prepared during the term in which the student is enrolled in the course. It is to be replaced by a final grade. The Registrar shall notify all unit or program heads at the end of each semester regarding "Course in Progress" notations (---) in all courses offered by that unit or program. The unit or program head shall have six weeks from the date of notification by the Registrar to assign a grade in the course. If no change is made by the unit or program head, the "Course in Progress" notation (---) will be replaced with a "Missing Grade" notation (\*\*\*)

**Missing Grade.** Three asterisks (\*\*\*) appear in a grade report when no grade has been reported to the Registrar. The Registrar shall notify all unit or program heads at the end of each semester or term regarding all "Missing Grade" notations (\*\*\*) in all courses offered by that unit or program. If a missing grade notation can be replaced with a grade, it should be done as promptly as possible.

**Procedures for Changing Temporary Notations.** The unit or program head will consult, if possible, with the Instructor of Record for the course when assigning a grade. The Registrar shall notify the student at the student's address of record of any assignment of a grade. Appeals shall be taken to the Academic Ombud.

### Grade-Point Average (GPA)

GPA is the ratio of the number of quality points gained to the number of credit hours (whether earned or not) in courses for which the grades **A**, **B**, **C**, **D**, or **E** were conferred, excluding grades in developmental or remedial courses.

If a student repeats a course in which a grade of **B** or better has been received, any subsequent grades of **B** or better and credit hours earned for those courses (if any) shall be ignored in computing the student's grade-point average, unless

the repeat option has been exercised according to Rule 5.3.1.1. A student does not repeat a course within the meaning of this rule if he or she only repeats the same course number where there are multiple topics, subtitles, independent study, or other courses allowed by the student's program using a common course number.

Credit hours are considered as earned only if a grade of **A**, **B**, **C**, **D**, **P**, or **S** was conferred.

## EXCEPTIONS TO THE GRADING SYSTEM

### Design and Landscape Architecture

Students enrolled in courses numbered 800 or higher in the College of Design or the Program in Landscape Architecture in the College of Agriculture, Food and Environment shall be conferred the following grades with the respective quality point value indicated:

<b>A</b>	4.0	<b>B</b>	3.0	<b>C</b>	2.0	<b>D</b>	1.0
<b>A-</b>	3.7	<b>B-</b>	2.7	<b>C-</b>	1.7	<b>D-</b>	0.7
<b>B+</b>	3.3	<b>C+</b>	2.3	<b>D+</b>	1.3	<b>E</b>	0

The use of the plus-minus system does not change any college or university GPA requirement, nor the method by which GPAs are computed, nor the interpretations of other grades awarded, such as **F**, **I**, **P**, **W**, and **S**.

All students enrolled in courses using the plus/minus grading system will have the appropriate point value calculated into their GPA regardless of their college of origin.

In the Program in Landscape Architecture, students must earn a **C** grade or better in major design studios in order to advance to the next level in the curriculum.

### College of Dentistry

An **A**, **B+** or a **B** is within the expected range of performance. A **C** is a marginal level of performance. To remain in good academic standing and to graduate, a student must maintain a grade-point average (GPA) of 2.75 or more. Student performance will be reported to the University Registrar's Office as follows:

**A** represents exceptionally high level of performance; four (4) quality points are awarded to each credit hour.

**B+** represents a high level of performance; three and one-half (3.5) quality points are awarded for each credit hour.

**B** represents the minimum expected level of performance; three (3) quality points are awarded for each credit hour.

**C** represents a marginal level of performance; two (2) quality points are awarded for each credit hour.

**E** represents an unacceptable level of performance; zero (0) quality points are awarded for each credit hour.

**P** represents a passing grade in courses taken on a Pass/Fail basis. It is not used in GPA calculations.

**F** represents an unacceptable level of performance in courses taught on a Pass/Fail basis. It is not used in GPA calculations.

**I** – incomplete – course objectives have not been completed during the allotted course time due to circumstances usually beyond the student's control. An **I** grade shall be conferred only when there is a reasonable possibility that a passing grade will result when work is completed. An **I** must be replaced by another grade within 12 months or before graduation, whichever occurs sooner. After this period, an **I** grade will automatically convert to an **E** or an **F** grade as appropriate.

**W** – withdrawn – this grade will be awarded to a student who withdraws from a course or from the college. It shall be awarded only after recommendation by the Academic Performance Committee and approval by the dean.

### College of Law

The College of Law uses a special letter grading system in which the following grades are conferred with the respective quality point values indicated:

A+ 4.3	B+ 3.3	C+ 2.3	D+ 1.3	E 0
A 4.0	B 3.0	C 2.0	D 1.0	
A- 3.7	B- 2.7	C- 1.7	D- 0.7	

A student's academic grade record is expressed as a grade-point average computed by multiplying the semester hours of credit for each course by the quality point value of the grade received in the course. These products are added together, and the sum is divided by the total semester hours attempted. The grade-point average thus derived is the basis for each student's academic status as indicated in the published rules and policies of the College of Law Faculty.

Selected College of Law courses are graded on a Pass/Fail basis, and law students enrolled in courses enrolled in graduate school courses for which the College of Law grants credit toward graduation are treated by the College of Law as Pass/Fail courses. A failing grade (F) in any Pass/Fail course in the College of Law or any graduate school course in which a student in the College of Law enrolls for credit toward graduation from the College of Law will be taken into account at a quality point value of zero (0) in computing the student's grade-point average.

#### Limitation on Pass-Fail Units Creditable for College of Law Students

In determining the number of hours credited toward the requirement for the J.D. degree:

1. No more than 6 hours of graduate courses outside of the College of Law shall be counted. All such courses must be approved by the faculty in advance. The College of Law will assign a grade of P if a student receives an "A" or "B" in the course; the College of Law will assign an "E" if the student receives a C, D, or E.
2. No more than 9 hours of courses in the College of Law that are offered on a pass-fail basis shall be counted.
3. No more than 12 of the total number of pass-fail credit hours, whether earned under 1. (above) or under 2. (above) shall be counted.
4. No more than one graduate course outside the College of Law, graded on a pass-fail basis, may be credited in any one semester.

Students in joint degree programs may only take up to nine pass-fail course credit hours in the College of Law and may take no courses outside the College of Law for credit toward the J.D.

### College of Medicine

All professional program (MD degree) courses in the College of Medicine will determine a minimum level of competency. Students will receive one of the grades below.

**E** represents failure to achieve competency and unacceptable performance in a pass/fail course.

**P** represents achievement of competency and a passing grade in a pass/fail course.

**W** denotes withdrawal from the college or from an elective course. **W** must be approved or recommended by the Student Progress and Promotion Committee. Withdrawal from a required course is not permitted, except when a student withdraws from the college. A student may withdraw from an elective and the **W** will remain on the record.

**I** represents incomplete work at the time grades are submitted for courses. It is conferred only when there is a reasonable possibility that achievement of competency will be demonstrated upon completion of the work. All **I** grades in required courses must be replaced by a passing grade before a student can be promoted to a subsequent year. If a student later withdraws from the College, an outstanding **I** grade can revert to a **W** grade at the discretion of the Student Progress and Promotion Committee.

### College of Pharmacy – Experiential Course Work

Grades in all experiential course work in the professional curriculum (i.e., Introductory Pharmacy Practice Experiences, IPPE I and IPPE II; and Advanced Pharmacy Practice Experiences, APPE) are assigned on the following basis:

**PH – Pass with Honors.** Represents exceptionally high achievement in all course requirements as a result of aptitude, effort and intellectual initiative. Credit hours under this grade will count towards graduation, but will not be used in calculating grade-point averages.

**P – Pass.** Represents high achievement as a result of ability and effort and reflects student competence in all course requirements. Credit hours under this grade will count towards graduation, but will not be used in calculating grade-point averages.

**F – Fail.** Represents a marginal or unsatisfactory level of achievement in any of the course requirements. Credit hours under this grade will not count towards graduation but will be used in calculating grade-point averages.

## OTHER REGULATIONS

### Definition of a Major

A major is a primary area of study defined by a set of course and/or credit hour requirements within specified disciplines. Within degree programs, majors may be further defined by requirements in an area of emphasis (also known as an "option").

### Undergraduate Major Requirements

Students at the University of Kentucky who have not chosen a major or been admitted to a selective admissions college and who have earned at least 45 credit hours should meet regularly with an advisor who will help the student to choose a major or seek admission to a selective admissions college. Students at the University of Kentucky who have not chosen a major or been admitted to a selective admissions college and who have earned at least 60 credit hours will not be permitted to register for classes, except registration will be permitted for the following students if they have earned no more than 75 credit hours:

1. Students lacking specific courses to gain admission to a college or to declare a particular major who have a written commitment from the college of their choice to accept them upon successful completion of specified courses;
2. Students who have been dropped from a college for academic reasons, or who have been readmitted or transferred to the University of Kentucky.

This rule may be waived by the dean of the college in which the student is currently enrolled or into which the student wishes to transfer or be readmitted.

### Language Limitations for Foreign Students

Students whose native language is other than English and who have had formal instruction in schools of their own country shall not be permitted to take elementary, intermediate or conversation courses or examinations for credit in that language.

### Late Registration

After the sixth day of classes for a 15-week semester term or a proportionate number of days for shorter terms as determined and published by the Registrar, no student may register for an organized class without written permission from the student's academic dean (or dean's designee) and the course instructor. The college in which the course is listed may require additional approval. The waiver and the rationale for the waiver must be documented in the student's record in the college.

The Registrar may set a later date for final registration in classes that do not start on the first day of a semester or a summer session, or for the registration of a group of students who were not present at the regular registration time.

### Participation in Intercollegiate Athletics

The University accepts the eligibility rules for intercollegiate athletics as set up by the Southeastern Conference, National Collegiate Athletics Association, Region II, the Association of Intercollegiate Athletics for Women, and the Kentucky Women's Intercollegiate Conference.

### Attendance and Completion of Assignments

For each course in which the student is enrolled, the student shall be expected to carry out all required work including laboratories and studios, and to take all examinations at the class period designated by the instructor.

Each instructor shall determine the policy regarding completion of assigned work, attendance in class, absences at announced or unannounced examinations, and excused absences in excess of one-fifth of class contact hours. This policy shall be presented in writing to each class at its first or second meeting. Students' failure to comply with the announced policy may result in appropriate reductions in grade as determined by the Instructor of Record.

### Excused Absences

A student shall not be penalized for an excused absence. The following are defined as excused absences:

- A. Significant illness of the student or serious illness of a member of the student's household (permanent or campus) or immediate family. The Instructor of Record shall have the right to request appropriate verification.
- B. The death of a member of the student's household (permanent or campus) or immediate family. The Instructor of Record shall have the right to request appropriate verification. For the purpose of this rule, immediate family is defined as spouse or child or parent (guardian) or sibling (all of the previous include steps, halves and in-laws of the same relationship); and grandchild or grandparent.
- C. Trips for members of student organizations sponsored by an educational unit, trips for University classes, and trips for participation in intercollegiate athletic events, including club sports registered with the university as well as varsity sports. When feasible, the student must notify the Instructor of Record **prior to** the occurrence of such absences, but in no case shall such notification occur more than one week after the absence. Instructors of Record may request formal notification from appropriate university personnel to document the student's participation in such trips.
- D. Major Religious Holidays. Students are responsible for notifying the Instructor of Record **in writing** of anticipated absences due to their observance of such holidays. Faculty shall give students the opportunity to make up work (typically, exams or assignments) when students notify them that religious observances prevent the students from doing their work at its scheduled time. Faculty should indicate in their syllabus how much advance notice they require from a student requesting an accommodation. Faculty shall use their judgment as to whether the observance in question is important enough to warrant an accommodation, although the presumption should be in favor of a student's request. The Offices of Institutional Diversity, the Dean of Students, and the Ombud are available for consultation.  
*For additional information on excused absences due to the observance of major religious holidays; visit:*  
[www.uky.edu/ombud/religious-observation-accommodations](http://www.uky.edu/ombud/religious-observation-accommodations).
- E. Interviews for full-time job opportunities post-graduation and interviews for graduate or professional school. The student must notify the Instructor of Record prior to the occurrence of such absences. Instructors of Record have the right to request appropriate verification.
- F. Any other circumstance which the Instructor of Record finds reasonable cause for absence.

Students missing any graded work due to an excused absence bear the responsibility of informing the Instructor of Record about their excused absence within one week following the period of the excused absence (except where prior notification is required), and of making up the missed work. The Instructor

of Record shall give the student an opportunity to make up the work and/or the exams missed due to an excused absence, and shall do so, if feasible, during the semester in which the absence occurred.

The instructor shall provide the student with an opportunity to make up the graded work (e.g., quiz, exam, homework, etc.) and may not simply calculate the student's grade on the basis of the other course requirements, unless the student agrees in writing.

If the course syllabus does not require students to interact with other students, an instructor, or an instructor's proxy and if such interactions are not a criterion for a grade in the course, then the Instructor of Record shall not take any account of a student's excused or unexcused absences from such interactions when assigning a grade.

If the course syllabus requires students to interact with other students, an instructor, or an instructor's proxy and if such required interactions are a criterion for a grade in the course, the following rules apply:

1. Excused Absences: If a student has excused absences for the dates and times associated with more than one-fifth of the required interactions for a course, the student shall have the right to receive a "W", or the Instructor of Record may award an "I" for the course if the student declines to receive a "W".
2. Unexcused Absences: The Instructor of Record shall define any course policy relating to unexcused absences in the course syllabus. If a policy is not stated in the course syllabus or the policy does not allow for a penalty to the student, the Instructor of Record shall not penalize the student for any unexcused absences.

With respect to nonattendance for reason of an employment-related schedule conflict, the student who is a UK employee has exactly the same standing as a student who is working for some other employer.

### Dead Week

1. The last week of instruction of a regular semester is termed "Dead Week." This term also refers to the last three days of instruction of a summer session, a summer term and a winter intersession.
2. In cases of "Take Home" final examinations, students shall not be required to return the completed examination before the regularly scheduled examination period for that course.
3. No written examinations, including final examinations, may be scheduled during Dead Week.
4. No quizzes may be given during Dead Week.
5. No project/lab practicals/paper/presentation deadlines or oral/listening examinations may be scheduled to fall during Dead Week unless it was scheduled in the syllabus AND the course has no final examination (or assignment that acts as a final examination) scheduled during finals week. A course with a lab component may schedule the lab practical of the course during Dead Week if the lab portion does not also require a Final Examination during finals week.
6. Make-up exams and quizzes are allowed during Dead Week; these are exempt from the restrictions stated in 3, 4, and 5 above.
7. Class participation and attendance grades are permitted during Dead Week.

### Final Examinations

If an instructor is administering a final examination, and he or she is requiring students to take the exam in a particular place at a particular time, then he or she must administer the exam during the examination period scheduled by the Registrar.

- a. The Registrar shall schedule two-hour periods for final examinations for courses offered during the fall and spring semesters. The faculties of colleges that have Senate approval for their own special calendars may instruct the Registrar to schedule final examination periods of a different length. The Registrar shall schedule spring and fall semester final examination periods during the last five (5) days of the semester; that five-day period shall be preceded by a study day or weekend on

which no classes or examinations for weekday classes will be scheduled. Final examinations for weekend classes will be administered the weekend before this five-day period and need not be preceded by a study day.

- b. The Registrar shall schedule final examinations for courses offered during the four-week summer term, the eight-week summer session, and winter intersession for the time of the last scheduled class period.
- c. An instructor may allow students less than the full period scheduled by the Registrar to complete the final examination, but he or she must inform the students at least two weeks before the start of the examination how much time they will have to complete the examination (one week in advance for winter intersession, four-week summer term and eight-week summer session.)

In cases of take-home final examinations, students shall not be required to return the completed examination before the end of the regularly scheduled examination period.

Final examinations may be given at times other than the regularly schedule times in the following instances:

**Faculty:** In the case of conflicts or undue hardship for an individual instructor, a final examination may be rescheduled at another time during the final examination period upon the recommendation of the chair of the department and with the concurrence of the dean of the college.

**Students:** Any student with more than two final examinations scheduled on any one date shall be entitled to have the examination for the class with the highest catalog number rescheduled at another time during the final examination period. In case this highest number is shared by more than one course, the one whose departmental prefix is first alphabetically will be rescheduled. The option to reschedule must be exercised in writing to the appropriate Instructor of Record or his/her designee two weeks prior to the last class meeting.

If a conflict is created by rescheduling of an examination, the student shall be entitled to take the rescheduled examination at another time during the final examination period.

Any student whose name is on the approved degree list who has a conflict between a final exam scheduled by the Registrar and a University-sanctioned commencement ceremony may reschedule their final examination for another time agreed to by the Instructor of Record during the final examination period. The notice to reschedule must be given to the class instructor no later than two weeks prior to the scheduled examination.

In the case of undue hardship for an individual student, a final examination may be rescheduled by the instructor.

### Final Examinations Scheduled for the Same Time

A student for whom two examinations have been scheduled for the same time shall be entitled to have the examination for the class with the higher catalog number rescheduled. In case both classes have the same number, the one whose departmental prefix is alphabetically first will be rescheduled. This rescheduling must be requested of the appropriate instructor in writing at least two weeks prior to the scheduled examination.

### Common Examinations

A student enrolled in a course where a common exam is scheduled may also enroll in a class scheduled in the time slot of the common exam.

If a student has a course scheduled at the same time as a common exam and the student has given written notice of the conflict to the instructor at least two weeks prior to the common exam, the student shall be entitled to an excused absence from the conflicting common examination.

### Common Examinations Scheduled for the Same Time

Any student for whom two examinations have been scheduled for the same time shall be entitled to have the examination for the class with the highest catalog

number rescheduled. In case both classes have the same number, the one whose departmental prefix is first alphabetically will be rescheduled. The option to reschedule must be exercised in writing to the appropriate instructor two weeks prior to the scheduled exam.

### Special Examinations

Any full-time or part-time student enrolled in the University, and in good academic standing, has the right to request a special examination for credit in many courses offered (check with the offering department), regardless of whether the student has audited the course, is currently enrolled in it, or has studied for it independently. Please note, most elementary and intermediate foreign language courses are not available on the basis of a special examination.

Application for a special examination must be made in writing. (Students should obtain application forms in the Registrar's Office.) Undergraduates will address requests to the chair of the department in which the course is given, or to the office of the educational unit responsible; graduate students, to the Director of Graduate Studies in the department in which the course is given. Approval of requests from undergraduate students rests with the department chair; from graduate students, with the Dean of the Graduate School, acting upon recommendation of the Director of Graduate Studies.

The request for special examination may be denied by the department chair or the office of the educational unit responsible, or the Dean of the Graduate School acting upon recommendation of the Director of Graduate Studies, if it is decided that the student has not furnished evidence that he/she is reasonably prepared to take the examination, or that the course is of such a nature that credit by examination is inappropriate. (The fact that a student has failed the course within the last semester may be regarded as evidence that the student is unprepared to take a special examination.)

The examiner designated by the educational unit may schedule the examination at his/her convenience, but must offer it within a reasonable time after the student has submitted his/her request.

The examiner shall inform the Registrar of the student's grade in the course. A student currently enrolled in the class who successfully completes a special examination will be formally removed from the official roll by the Registrar, unless the student is dissatisfied with the results, in which case he/she may continue in the course and be graded in the usual manner. The examiner then may or may not include the results of the special examination in computing the final grade.

Credit earned by special examination may be counted as residence credit by the dean of the student's college. The limits on maximum loads are waived in cases where the excess is due to special examination credits.

The student, with the educational administrator's consent, may take the special examination on a Pass/Fail basis, including any course not otherwise available under the Pass/Fail option. Credit derived in this manner does not reduce the number of courses permitted under the Pass/Fail rules.

## ACADEMIC REQUIREMENTS AND EXPECTATIONS

### Grade Appeals

If a student believes that he or she has been graded unfairly on a particular paper, test, or other assignment, or if the student believes that his or her final course grade is unfair, the student is expected to share those concerns with the instructor of the course and/or the chair of the department where the course is taught. If the student's issues are not resolved in conversation with the instructor and department chair, the student may contact the Office of the Academic Ombud at 859-257-3737 or [Ombud@uky.edu](mailto:Ombud@uky.edu). The Academic Ombud will discuss the matter with the student to assess the merit of the complaint. If the Academic Ombud agrees that the complaint has merit, the Ombud, with the student's permission, will contact the instructor and attempt to resolve or mediate the dispute.

If a student's grade dispute involves a **final grade** and the Ombud cannot resolve the issue informally, a student is entitled to have the University Appeals

Board hear the complaint. That body is the only University entity that can modify a grade. If a student wishes to file an appeal with the University Appeals Board, the student will be asked by the Ombud to prepare a written appeal. The Ombud will also approach the instructor for his or her perspective. If the Ombud determines that the appeal has merit, the matter will be sent to the University Appeals Board for a hearing. If the Ombud determines that the case does not have merit, the student will be notified in writing and will then have 30 days to appeal to the University Appeals Board directly, requesting that a hearing be granted. **It is important to know that there is a 180 day statute of limitations for grade appeals.** The Academic Ombud is empowered to hear only those grievances directed to the Office of the Academic Ombud within 180 days subsequent to the conclusion of the academic term in which the problem occurred.

### Course Syllabus

The course syllabus is the first indicator of an instructor's expectations. The syllabus contains a detailed description of both course content and assignments. It functions as an academic "contract" between an instructor and the students in his or her class. It must be provided to students free of charge and distributed to student on the first or second meeting of the class. A course syllabus may be posted electronically, although it must be available online by the first class meeting of the semester and the syllabus must remain available electronically for the entire semester.

The syllabus must provide relevant details about regularly scheduled office hours during which students may seek consultation and advice. It must also provide information about all course-related policies, such as the instructor's policy on attendance or make-up exams.

### Academic Integrity

Students are expected to pursue their studies with steadfast commitment to intellectual honesty and personal integrity. The University defines as an academic offense any act of plagiarism, cheating, or falsification or misuse of academic records.

**Plagiarism.** All academic work, written or otherwise, submitted by students to their instructors or other academic supervisors, is expected to be the result of their own thought, research, or self-expression. In cases where students feel unsure about a question of plagiarism involving their work, they are obliged to consult their instructors on the matter before submission.

**Cheating.** Cheating is defined by its general usage. It includes, but is not limited to, the wrongfully giving, taking, or presenting any information or material by a student with the intent of aiding himself/herself or another on any academic work which is considered in any way in the determination of the final grade.

**Falsification or Misuse of Academic Records.** Maintaining the integrity, accuracy, and appropriate privacy of student academic records is an essential administrative function of the University and a basic protection of all students. Accordingly, the actual or attempted falsification, theft, misrepresentation or other alteration or misuse of any official academic record of the University, specifically including knowingly having unauthorized access to such records or the unauthorized disclosure of information contained in such records, is a serious academic offense. As used in this context, "academic record" includes all paper and electronic versions of the partial or complete permanent academic record, all official and unofficial academic transcripts, application documents and admission credentials, and all academic record transaction documents.

All incidents of cheating and plagiarism are taken very seriously at the University of Kentucky, and there are specific policies and procedures in place to prosecute them. A student accused of an academic conduct offense may not withdraw from the class in which the academic conduct violation is alleged to have occurred.

If a student is formally accused of and found responsible for an academic offense, the individual will be informed in writing and given 10 days to appeal the ruling by contacting the Office of the Academic Ombud. Penalties for

academic offenses range from a zero on the assignment (for a first offense) to suspension or expulsion. A record of an academic offense for which a student is found responsible will be filed in the University Registrar's Office, and in some cases may be recorded on the offending student's transcript. A student charged with an academic offense may contact the Office of the Academic Ombud for an explanation of the procedural steps in cases involving academic offenses, including the processes for appealing one's responsibility or the severity of the sanction being imposed.

Students shall have the right to attend classes, to pursue their academic programs, and to participate in University functions during the consideration of any appeal.

### Academic Rights of Students

Students attending the University of Kentucky are afforded a set of academic rights. A summary of those academic rights is found below. The comprehensive source for the academic rights of students is found in the University Senate Rules. Any issue regarding an interpretation of those academic rights will be determined finally by the language in the Senate Rules, not this summary. A student who believes his or her academic rights have been violated should contact the Office of the Academic Ombud.

Students have the right to expect that:

- all instructors will provide students with a written class syllabus by the first or second class meeting outlining the nature of the course content, the activities to be evaluated, and the grading practice to be followed.
- all instructors will permit students to express **reasoned** contrary opinions in their classes without being penalized.
- all instructors will award grades based only upon fair and just evaluation measured by the standards outlined in the syllabus. Grades will never be based on "irrelevant considerations," such as sex, sexual orientation, race, ethnic origin, religion, age, etc.
- a student's academic records will be kept confidential and access will be authorized by University personnel for official use only.

A student who believes that his or her academic rights have been violated is encouraged to talk with the instructor or the chair of the department where the course is taught. The student may also contact the Office of the Academic Ombud for assistance in addressing those concerns.

### Religious Observances

The University strives to create an environment where students of all different religious views are welcome. If a student needs to miss class in order to fulfill a bona fide religious observance or practice, he or she should inform the instructor, who will treat it as an excused absence. If the religious observance or practice makes it difficult or impossible for a student to take an exam or to complete a graded assignment by the scheduled due date, the student's instructor, if given sufficient notice, will give the student the opportunity to make up the work. Instructors will note in their syllabi how much notice they require from students who are requesting accommodations due to religious observances or practices.

### Discrimination and Harassment

The University is committed to maintaining an environment free of prohibited discrimination, which includes sexual and other forms of harassment. Discrimination and harassment are prohibited between members of the University community and are not tolerated. The Office of Institutional Equity and Equal Opportunity is the University office charged with handling reports of discrimination and for developing procedures for the investigation and resolution of reports. A report of discrimination may also be initiated by contacting any dean, director, faculty member, department head, manager, supervisor, or other individual with administrative responsibility. Any such individual who receives a report of discrimination shall contact the Office of Institutional Equity and Equal Opportunity (859-257-8927) as soon as possible after receiving the report.

## SCHOLASTIC PROBATION, ACADEMIC SUSPENSION AND REINSTATEMENT

### General Regulations for Undergraduate Students

#### Academic Probation and Suspension

The academic probation and suspension standards that are used to determine a student's academic standing University-wide are based on grade-point average.

Individual colleges may establish policies regarding academic probation and suspension with regard to a student's academic standing within the college in addition to the University-wide policies prescribed in Senate Rule 5.3.1. If a college establishes such a policy, the policy must be approved by the University Senate and made available in writing to the students.

A student suspended from a college or program may transfer to another college or program which has a 2.0 grade-point average admission requirement for transfer students, even if the student has a GPA lower than 2.0, provided he or she is not subject to the provisions for suspension from the University. However, the student must meet all other admission criteria established by the college or program. If the student would have been placed on academic probation by the college to which he or she is transferring had he or she been previously enrolled in that college, then the college may place the student on probation at the time of admission.

#### Academic Probation

Students are placed on probation if:

1. Their cumulative grade-point average (GPA) falls below 2.0. Students on probation for this reason who achieve a cumulative 2.0 GPA or higher shall be removed from probation.
2. They have two consecutive UK academic terms with term GPAs below 2.0 regardless of their cumulative GPA. Students who achieve a 2.0 or better in the next term and have a cumulative GPA of 2.0 or higher will be removed from probation.
3. If the student has completed all the academic and procedural requirements for the degree while still maintaining an overall GPA of 2.0 or higher (or the minimum GPA established by a specific college), the degree shall be awarded and the student placed in good standing.
4. The Summer Session and Summer Term are considered two separate academic terms and are subject to the same probation and suspension provisions as Spring and Fall.

#### Removal from Probation

Except as provided for by specific college probation policy, an undergraduate student may be removed from probation by the dean of the college when the student on scholastic probation has earned 90 semester hours (senior standing), and at the end of a semester or session has a cumulative grade-point standing of 2.0.

#### Academic Suspension

Students are suspended if:

1. They fail to earn a 2.0 term GPA for any term while on probation;
  2. They have three consecutive UK terms in which their cumulative GPA remains below 2.0;
- or**
3. Their GPA is below 0.6 after their first term, if the semester's GPA is based on at least 9 hours of grades, **A, B, C, D** or **E**.

Notwithstanding the provisions above, in the case of a student eligible for suspension, the dean of the student's college may continue a student on academic probation if the individual case so justifies with notification to the Director of Undergraduate Studies.

#### General Rules Pertaining to Students Under Academic Suspension

A student academically suspended from the University may not enroll in any courses offered by the University, nor take any special examination for University credit.

A student academically suspended from the University a second time shall not be readmitted to the University except in unusual circumstances and then only upon recommendation of the dean of the college in which the student plans to enroll and approval of the University Senate Council.

Once reported to the Registrar, an academic suspension may be rescinded by the dean only in the event of an error in the determination of the student's eligibility for suspension, an official grade change that alters the student's suspension eligibility, or exceptional circumstances.

#### Reinstatement

After they have remained out of the University for at least a semester and a summer session (a semester for students academically suspended at the end of a summer session), students who have been academically suspended may only be reinstated by the dean of the college in which they plan to enroll when they present evidence that they are capable of performing at the level required to prevent being suspended a second time. The deadline for students to schedule an appointment for reinstatement in all colleges is May 15 for the fall semester and October 1 for the spring semester.

#### General Rules for Reinstated Students

A student who has been academically suspended shall, upon reinstatement, be placed on scholastic probation and be subject to final academic suspension from the University if:

1. They acquire any additional deficit during any semester or session while on academic probation;
2. They have failed to meet the requirements for removal from academic probation by the end of the third semester following the reinstatement.

Once reinstated students have been removed from scholastic probation, they will be subject to the same conditions for subsequent academic suspension as students who have not previously been academically suspended.

#### Readmission After Two or More Years (Academic Bankruptcy)

Undergraduate students who have been readmitted through the usual channels after an interruption of two or more continuous years, and who have completed at least one semester or 12 hours with a GPA of 2.0 or better, beginning with the semester of readmission, may choose to have none of their previous University course work counted toward graduation and in the computation of their GPAs. Enrollment for a semester, when terminated by a withdrawal before completion of the semester (grades all **Ws**), in the two years preceding readmission is not an interruption. Under this circumstance, a student **cannot** invoke the academic bankruptcy rule.

In addition, the dean of the student's college may permit such a readmitted student who has elected not to count past work to receive credit for selected courses without including those grades in the computation of the student's GPA (cumulate or otherwise).

Part-time as well as full-time students can take advantage of the academic bankruptcy rule. Students need not have been originally suspended from the University to qualify for this option.

In calculating the 2.0 GPA, a student must have taken all of the 12 hours necessary to apply for bankruptcy for a letter grade. Course numbers ending with a suffix of R, if taken for a letter grade, shall count toward the 12-hour minimum of eligibility for bankruptcy under this rule.

If a student has completed a bachelor's degree and re-enrolls, he/she may not apply the academic bankruptcy rule to courses taken for the degree already completed.

The Academic Bankruptcy option may be used only once.

## SPECIFIC PROBATION AND SUSPENSION POLICIES FOR INDIVIDUAL COLLEGES

### College of Design

A student may be placed on probation in the College of Design or suspended from the College of Design, but not necessarily the University, according to the College of Design standards that follow.

A student enrolled in the College of Design who is placed on college probation may continue with studies in the college and university subject to general University regulations concerning academic standing. A student enrolled in the College of Design who is suspended from the college may not take classes offered in the College of Design until reinstated. A student who is suspended from the College of Design may take classes outside the college subject to general University regulations concerning academic standing.

A grade of **C** or higher is required to advance to the next level of studio in the College of Design. A grade below **C** in an architectural design studio is considered unacceptable for majors in the College of Design. A student who earns a grade below **C** in a design studio will be placed on College probation. This probation will be removed when the student earns a grade of **C** or higher in the same studio.

A student will be suspended from the college for:

1. failing to earn a grade of **C** or higher in a particular architectural design studio for the second time; or
2. failing to earn a grade of **C** or higher in a particular design studio in its first or second offering after the semester in which the student earned a grade below **C** in that studio, provided the student remains in the University, except that students are not required to enroll in summer sessions; or
3. failing to earn a grade of **C** or higher in any design studio while the student is on University probation for two or more consecutive semesters.

Provision 3 does not apply to first year architectural design students.

College of Design rules on probation and suspension may be waived by the Dean of the College of Design under extraordinary circumstances, with notification to the Faculty.

A student who has been suspended from the College of Design may petition the Dean for reinstatement after a period of no less than 12 months.

### College of Education

See the policies of the College of Education on pages 224-228.

### College of Engineering

#### Probation and Academic Suspension

The following rules apply to the College of Engineering.

1. Any engineering student who has completed two or more semesters at UK and who fails to maintain a cumulative UK GPA of 2.0 or higher will be suspended from the College of Engineering and will not be readmitted until this GPA is 2.0 or higher.
2. Any student enrolled in the College of Engineering who earns a UK GPA of less than 2.0 in any semester will be placed on academic probation.
3. Any student on academic probation who fails to earn a 2.0 or higher semester GPA will be suspended from the College of Engineering and will not be readmitted until he or she has obtained a semester GPA of 2.0 or higher for one semester and the student's cumulative UK GPA is 2.0 or greater.
4. Students who are suspended twice from the College of Engineering will not be readmitted.

### Gatton College of Business and Economics

See the policies of the Gatton College of Business and Economics on page 194.

### The Graduate School

When graduate students have completed 12 or more semester hours of graduate course work with an average of less than 3.0, they will be placed on academic probation. Students will have one semester to remove the scholastic probation by attaining a cumulative 3.0 average in graduate course work. If the probation is not removed, the student will be dismissed from The Graduate School.

A student who has been dismissed from The Graduate School for these reasons may reapply for admission to The Graduate School after two semesters or one semester and the eight-week summer term.

Exceptions to this policy can be made only by the Graduate Dean.

With the approval of the Graduate Dean, a student may repeat a graduate course and count only the second grade as part of the graduate grade-point average. This action will be initiated by petition of the Director of Graduate Studies and may be done only once in a particular degree program or in post-baccalaureate status.

### College of Health Sciences

The following standards apply to Health Sciences students in professional programs:

#### Placement on Probation

A student will be placed on probation in the professional program when:

1. the semester GPA falls below 2.0 in courses required by the professional program; or,
2. a failing grade is earned in any course required by the professional program.

#### Removal from Probation

A student may satisfy the deficiency warranting probation and will be removed from probation when:

1. in the semester following probation, a 2.0 or above semester GPA is achieved in courses required by the professional program; and
2. a passing grade is earned in any previously failed course required by the professional program.

#### Suspension

A student will be suspended from the professional program when:

1. The student does not earn a 2.0 semester GPA in courses required by the professional program is not earned either at the end of the probationary semester, or in any subsequent semester; or
2. The student fails a course required by the professional program a second time; or
3. The student fails two courses required by the professional program, unless alternative action is recommended by the Program Director and approved by the Dean.

Program	GPA minimum
Clinical Leadership and Management	2.0
Communication Sciences and Disorders	3.0
Human Health Sciences	3.0
Medical Laboratory Sciences	2.5

It is important to note that our college has high admissions standards for each of our selective admissions programs. Thus, this is taken into consideration when making readmission decisions in the College of Health Sciences.

#### Student Affairs Academic Standing Sub-Committee

An Academic Standing Committee will be formed and comprised of a representative from each of the undergraduate programs, the Assistant Dean of Student Affairs, Academic Affairs Chairperson, and an academic advisor. The Assistant Dean of Student Affairs will serve as the chair of this committee. The Academic Standing Committee will meet regarding suspension and probationary status once a semester after final grades are posted. The committee will convene to hear appeals at least twice a year and more often as needed.

### Appeals

Students who are placed on suspension may appeal their status to the College of Health Sciences Student Affairs Academic Standing Sub-Committee. The student must submit documentation regarding any circumstances that influenced their academic performance for review by the committee. This includes, but is not limited to, a personal statement explaining their situation and how they plan to rectify this in the future. Students are welcome to submit letters of support from individuals who have knowledge about their situation and can provide insight into how the student is addressing the issue(s).

All appeals must be submitted electronically by January 10 or July 1 to the Office of Student Affairs. While students are in the appeals process, he/she may maintain their current major in the College of Health Sciences.

### College of Nursing

The following standards apply undergraduate students in the professional nursing program:

#### Undergraduate Program Dismissal

A student shall be dismissed (subject to appeal) from the undergraduate nursing program when the student:

1. earns less than a semester GPA of 2.0 in courses required by the CON either at the end of the first probationary period or in any subsequent semester; or
2. for a second time fails to earn a grade of C (2.0) or higher in a completed attempt of a course required in the CON (NUR prefix); or
3. fails to earn a grade of C (2.0) or higher on the first completed attempt of any two courses required in the CON (NUR prefix); or
4. earns less than a GPA of 1.5 in the courses required by the CON at the end of any semester, except for the first semester at the University, with a preliminary probationary period.

#### Dismissal

Repeat options are not recognized by the College of Nursing for dismissal decisions based on failure to earn a C (2.0) or higher on the first completed attempt of any two NUR courses. The original grade received in each NUR course will be considered for the dismissal decision regardless of any grades earned in repeated courses.

## PROFESSIONAL COLLEGES

**NOTE:** All students in the professional colleges are subject to the rights, rules and regulations governing University of Kentucky students in all matters not specifically covered in these rules.

### College of Dentistry

The following academic disciplinary policies for students in the professional dental educational program are initiated upon unsatisfactory academic performance.

#### Academic Probation

**Placement on Probation.** A student will be placed on probation immediately after any of the following has occurred:

1. The student has completed any academic year with a grade-point average (GPA) for the academic year less than 2.75 or
2. The student has received a failing (E or F) final course grade; or
3. The student has failed Part I of the National Dental Board Examination, or
4. The student has been placed in a modified curriculum, or
5. The student has been reinstated after suspension.

#### Methods and Procedures:

**Limitation on the Use of Probation.** The Academic Performance Committee (APC) shall place a student on probation only if, based on the student's performance in the College of Dentistry's course work (including but not limited

to grades, attendance, motivation, work ethic, and professionalism), it has determined that the student has the potential of meeting graduation requirements after addressing academic shortcomings and receiving counseling to address issues that may be contributing to the academic problems.

**Duration of Probation.** The duration of probation shall be established by the APC. The following rules for establishing the minimum duration of probation shall apply:

1. In the case of probation for a low GPA, the minimum duration of probation shall be one academic term following the academic year in which the low GPA occurred.
2. In the case of a failing grade, the minimum duration of probation shall begin the day a failing grade is reported to the registrar and continue at least one academic term after the term in which a passing grade in the course has been achieved.
3. In the case of a failed Part 1 NBDE, probation shall begin the day the failure is reported to the Office of Academic Affairs. Retaking and passing the failed NBDE before a deadline to be set by the APC shall be among the terms of probation. The minimum duration of probation shall be at least until the end of the term in which the retake of the NBDE is passed.
4. In the case of a student who has been placed in a modified curriculum, the minimum duration of probation shall be the entire period in which a student is enrolled in a modified curriculum and at least one academic year after the student has been allowed to resume in the College's regular curriculum.
5. In the case of a student who has been suspended, the minimum duration of probation shall be at least one academic year after the student has been readmitted after suspension.

**Terms of probation.** The terms of probation will be established by the APC.

The terms of probation may also include required activities to help the student prepare to pass Part I of the NBDE. The APC may decide to include in the terms that during probation the student is ineligible for certain curricular or extracurricular College activities, within parameters established by higher University rules and regulations. Policies for the terms of probation, including those for a modified curriculum arising from academic suspension of clinical privileges, shall be as elaborated in the College Academic Policies.

**Notification of Probation.** Probation is triggered automatically by the situations listed in the Policy Statement, not by decision of the APC. The student shall be notified by letter of the date when the probation began. This letter shall explain the student's status and inform him or her that the terms of probation and minimum duration of probation will be established by the APC the next time it meets.

When an APC places a student on probation or affirms an automatic probation, its Chair shall notify the student by a letter with verified receipt of the terms of probation, including the minimum conditions that must normally be fulfilled before the APC will consider removal from probation.

#### Academic Suspension

**Placement on Academic Suspension.** The Academic Performance Committee (APC) shall in the absence of extraordinary circumstances suspend a student if any of the following is true AND, in judgment of the APC, she or he is likely to be helped by experiences exclusively outside of the College. The student has:

1. Received, within the last four academic terms (or, for first-year students, within two academic term) two or more failing (E or F) final course grades or
2. Received a failing (E or F) final course grade and an annual grade-point average for all other courses of less than 2.75 or
3. Received a failing (E or F) final course grade while on probation or
4. Failed to meet the terms of probation or
5. While on probation after the first year of the curriculum, achieved a cumulative GPA of less than 2.75 at the end of any term or

- Failed Part I of the National Dental Board Examination (NBDE) a third time.

#### Methods and Procedures:

**Limitation on the Use of Suspension.** The Academic Performance Committee shall suspend a student only if, based on the student's performance in the College of Dentistry's course work (including, but not limited to grades, attendance, motivation, work ethic, and professionalism), it has determined the student has the potential of meeting graduation requirements after addressing academic shortcomings and receiving counseling to address issues that may be contributing to the academic problems.

**Deadline to Notify Student of Suspension.** Except under extraordinary circumstances, the APC shall notify the student that he or she is being suspended within 15 working days of the date when a triggering condition occurs (a failing grade is turned into the registrar, the Office of Academic Affairs is notified of a failed NBDE, etc.).

**Terms of Suspension.** The APC shall recommend to the Dean the terms for consideration of reinstatement following suspension. If the APC determines the student might benefit from additional course work or other remediation experiences available outside the College, it shall specify the particular course work and/or the particular customized experiences the student must complete prior to consideration of reinstatement. Terms for reinstatement shall include grades of **B** or better in courses and evidence of completion of any specially designed curriculum offered outside the College. A student who has been suspended because of a third failure of Part I of the NBDE must pass this exam to be eligible for reinstatement. The terms of suspension must include the maximum time within which the student must gain readmission.

**Notification of Suspension.** The student shall be notified by a letter with verified receipt from the Chair of the APC of the terms of suspension, including the minimum conditions that must normally be fulfilled before the Dean will consider reinstatement of the student in the regular College curriculum. The letter must include notification of the student's right to appeal and a summary of the procedures for appealing the decision.

**Appeal.** A suspended student may appeal this decision. The appeal request must be made in writing to the Dean within five working days of receipt of notification of suspension, as elaborated by the College Academic Policies for the program.

**Reinstatement following suspension.** When the student has demonstrated he or she can perform at the level required to graduate from the College, and has met the terms of readmission recommended by the APC, the Dean may readmit him or her. However, granting a request for reinstatement is not automatic. Procedures for considering and granting reinstatement shall be elaborated by the College Academic Policies for the program.

**Consequences of Failure to Gain Reinstatement.** If a student who has been suspended for a third failure of Part I of the NBDE does not pass the Boards within two months of the date when he or she is first eligible to retake the exam after the third failure, that student shall be dismissed. A student who has not been reinstated within the maximum time allowed by the APC shall be dismissed and will no longer be eligible for reinstatement.

**Responsible Agent.** The Academic Performance Committee.

#### Dismissal

**Placement in Dismissal Status.** The Academic Performance Committee (APC) shall in the absence of extraordinary circumstances dismiss a student if the student has:

- Failed to Part I of the National Board Dental Examination a fourth time or
- Failed to meet the terms of a modified curriculum or suspension or
- Become eligible for either a modified curriculum or suspension and has been previously placed in a modified curriculum or suspended or
- Failed to be reinstated in the regular College curriculum after being placed on a modified curriculum within the maximum time allowed by the APC or

- Failed to be reinstated to the College after being suspended within the maximum time allowed by the APC or
- Failed to retake Part I of the NBDE within two months of being eligible to retake it when on a modified curriculum or when under suspension for a third failure of the exam or
- Failed to convince the APC, based on the student's performance in the College of Dentistry's course work (including, but not limited to grades, attendance, motivation, work ethic, and professionalism), that she or he has the potential of meeting graduation requirements.

**Reinstatement following dismissal.** The dismissed student shall not be reinstated.

#### Methods and Procedures:

**Deadline to Notify Student of Dismissal.** Except under extraordinary circumstances, the APC shall notify the student that he or she is being dismissed within 15 working days of the date when a triggering condition occurs (e.g., a failing grade is turned into the registrar, the Office of Academic Affairs is notified of a failure of Part I of the NBDE, etc.).

**Notification.** The student shall be notified of the decision to dismiss by a letter with verified receipt from the Dean. The letter must include notification of the student's right to appeal and a summary of the procedures for appealing the decision.

**Appeal.** A dismissed student may appeal this decision. The appeal request must be made in writing to the Dean within 5 working days of receipt of notification of dismissal (see Academic Disciplinary Policy for the program, "Appeal Procedures").

## College of Law

### Exclusion for Poor Scholarship and Readmission

- All students in the College of Law must maintain a satisfactory cumulative GPA, and failure to do so will result in the student being dropped from the college for poor scholarship. Any student who earns a GPA below 1.5 for his or her first semester of law study may be suspended by the Dean on recommendation of the Law Faculty Academic Status Committee for poor scholarship. Any student who fails to earn a 2.0 cumulative grade-point average at the end of the first two semesters will automatically be suspended for poor scholarship. In addition, any student whose cumulative GPA falls below a 2.0 at the end of any subsequent semester will also be suspended from the college.
- Any student who earns a grade of **E** in a required course must reregister for the course and complete all its requirements thereof. When such a required course is retaken or when a student elects to repeat an elective course in which the student has earned a failing grade, both the initial and subsequent grade will be reflected on the student's record and counted in the computation of class standing, subject to readmission standards below.
- Any student dropped for poor scholarship may petition the Law Faculty Academic Status Committee for readmission. A recommendation to the Dean for readmission is within the discretion of the Academic Status Committee; however, in most cases, the following policies will guide the Committee: a student suspended after the first semester will be required to petition the full Law Faculty for readmission; in the case of students suspended at the end of the second semester, a student with a cumulative GPA of 1.90 and above will normally be readmitted, a student with a cumulative GPA of 1.70 to 1.89 may be readmitted but will be carefully scrutinized, and a student with a cumulative GPA below 1.70 will normally not be readmitted; any student dropped at the end of the third semester or thereafter will be subject to case-by-case analysis.
- Any student who is readmitted after being dropped at the end of the second semester and who fails to raise his or her cumulative GPA to 2.0 by the end of the third semester will be readmitted again at that time only if he or she has made material progress toward raising his or her

cumulative GPA to 2.0. Material progress at a minimum shall mean obtaining a 2.0 GPA for the semester. Moreover, such a student must raise his or her cumulative GPA to 2.0 by the end of the fourth semester. In addition to the foregoing academic standards for readmission, the Academic Progress Committee may impose additional academic standards in individual cases, and in any case may impose other reasonable conditions of readmission including, but not limited to, limitation of outside work, specification of schedule of study (including specification of particular courses and limitation of hours), and the limitation of extracurricular activities. The Academic Progress Committee with the approval of the full Law Faculty may also require the repetition of courses either with or without substitution of the grades earned in the courses retaken. Failure to comply with the requirements and conditions of readmission will result in the student being suspended again from the College of Law, in which case he or she will not be readmitted without approval of the University Senate Council upon the recommendation of the Dean following action by the full Law Faculty. Any student aggrieved at any time by recommendation of the Academic Status Committee may petition the full Law Faculty for review.

5. A student who is required by the Academic Status Committee to repeat 14 or more hours of the freshman curriculum in his or her third and fourth semester will be considered as enrolled in his or her first and second semesters.
6. A student who has once been suspended for poor scholarship and who fails to have a 2.0 cumulative GPA at the end of the semester or summer session in which he or she completes the 90th hour of course work will not be allowed to graduate from the College of Law. Such student will not be allowed to enroll in additional hours of course work in an attempt to achieve a 2.0 cumulative GPA.

### Withdrawal and Readmission

1. First-year students are expected to complete their first year of law study without interruption. If a student withdraws from the college and University during his or her first year of law study, readmission is not automatic. If a student withdraws during the first semester of law study, application for readmission will be referred to the Admissions Committee; if a first-year student withdraws during the second semester, application for readmission will be referred to the Academic Status Committee; provided that in either of the above withdrawal situations, the Dean's designee may grant a special leave of absence for the balance of the academic year for reasons relating to extended illness or equivalent distress.
2. After completion of all required first-year courses, a student who withdraws from the College of Law and the University is subject to the rules stated herein regarding readmission after a leave of absence and grades for students who withdraw. To officially withdraw from the College of Law, a student must obtain from Registrar's Office a withdrawal card; this card must be signed by the Dean of the College of Law or the Dean's designee. If a student plans to complete a semester, but not reenroll for the subsequent semester, he or she must give the Dean's designee written notice of such intention.
3. If a student withdraws from the college and University or does not continue enrollment **and** has complied with paragraph 2 of this rule, the student will routinely be readmitted to the college provided that the student is in good standing and the absence was not longer than two semesters plus one summer term. No student will be readmitted pursuant to this paragraph more than one time.
4. A student who intends to remain away from the college for more than 2 semesters plus one summer term must request permission for a Leave of Absence. These requests are not routinely granted and will be referred to the Academic Status Committee for recommendation to the Dean.
5. Readmission for students who are not entitled to readmission pursuant to paragraphs 1-4 of this rule is not automatic. Applications for such readmission will be referred to the Academic Status Committee for a recommendation to the Dean. The Academic Status Committee may

consider all relevant facts and circumstances, including the length of time out of the college and reasons for the absence. The Academic Status Committee and Dean will normally not approve readmission for any student who has been away from the college for six regular semesters. Reasonable conditions, including the repetition of courses for no credit, may be imposed if readmission is approved.

6. A second-year student, a third-year student, or a first-year student with special permission of the Dean's designee may withdraw from any course or seminar within the first half of a semester or summer session. To withdraw from a course or seminar within the first half of a semester or summer session, the student must submit a completed course withdrawal card to the Dean's designee. A student may withdraw from a course or seminar during the last half of a semester or summer session only on a petition certifying reasons relating to extended illness or equivalent distress. This petition must be approved by the instructor and the Dean's designee.

### Limitation on Pass-Fail Units Creditable for College of Law Students

In determining the number of hours credited toward the requirement for the J.D. degree:

1. No more than 6 hours of graduate courses outside of the College of Law shall be counted. All such courses must be approved by the faculty in advance. The College of Law will assign a grade of P if a student receives an "A" or "B" in the course; the College of Law will assign an "E" if the student receives a C, D, or E.
2. No more than 9 hours of courses in the College of Law that are offered on a pass-fail basis shall be counted.
3. No more than 12 of the total number of pass-fail credit hours, whether earned under 1. (above) or under 2. (above) shall be counted.
4. No more than one graduate course outside the College of Law, graded on a pass-fail basis, may be credited in any one semester.

Students in joint degree programs may only take up to nine pass-fail course credit hours in the College of Law and may take no courses outside the College of Law for credit toward the J.D.

## College of Pharmacy

### Academic Performance, Progress and Guidelines

The Academic Performance Committees (APC) are charged with monitoring students' progress through the curriculum. The Committees regularly review (during and at the end of each semester) the performance of each student based on course grades and on written comments on each student's performance, both of which are shared with the student and are part of the student record. The APC for students in a particular year will consist of the course directors and laboratory instructors for that academic year plus a standing core of faculty. The APC will recommend an action appropriate to the particular student standing and record, i.e., proceed to the next series of courses, promotion to the next year, graduation, probation, probation with remedial action, removal from probation, academic leave, suspension, dismissal, or other action. Recommendations for graduation are made through the dean for approval by the Faculty. All other recommendations are to the Dean. Students must be promoted to subsequent year standing by action of the APC. Promotion is not automatic, but must be earned based on appropriate performance and satisfactory completion of course work. The APC may also recommend other remedies including but not limited to adjustment of academic load, repetition of curriculum segments and participation in counseling sessions. Although the APC considers the overall record of the student in making decisions, the APC will rely heavily on the following:

All students must maintain a minimum Pharmacy GPA of 2.0 and earn a minimum grade of C in each course taken during the time they are students in the College of Pharmacy. This includes all course work, including PHR and non-PHR electives, which comprise the first through fourth professional years of the Pharmacy program.

Further:

1. Any student with a GPA less than 2.0 in a single semester or with a cumulative GPA less than 2.0 will be placed on probation or may be suspended from the College.
2. Students who fail to earn a minimum of **C** in any one course may be placed on probation. The APC will determine the level of remediation required.
3. Students who fail to earn a minimum grade of **C** in two courses will be placed on probation and remediation may be required. The APC will determine the level of remediation required.
4. Students who fail to earn a minimum of **C** in three or more courses will be suspended from the College of Pharmacy, regardless of GPA.
5. A failure in a Pass/Fail course will be considered a grade less the **C**.
6. Students who satisfactorily complete the remediation requirements for probation will be removed from probation.
7. Students who are on probation and fail to meet the requirements for remediation or fail to meet the requirements needed to remove them from probation.
8. Students eligible for probation on a second occasion may be suspended from the College.

### Probation

Students who are on academic probation may not be allowed:

1. To serve as officers or committee members in any campus organization.
2. To participate in any University extracurricular activities or in the activities of any University organization if the participation involves the expenditures of any appreciable amount of time.
3. To be employed by the University.

Students on probation may have a restricted academic schedule as dictated by the APC. Students placed on probation must meet the requirements dictated by the APC before being removed from probation.

### Suspension

Students suspended from the college may petition the APC for reconsideration of their case and for permission to re-take College of Pharmacy courses to correct their academic deficiencies. That permission may or may not be granted by the APC. If a student is allowed to re-take required College of Pharmacy courses, and the academic deficiencies have been satisfactorily addressed, these students may re-enter the College of Pharmacy but will do so on probation status. If the student is judged after 2 semesters to be performing satisfactorily by the APC while taking normal academic course loads, their probation status may be removed by the College Faculty.

### Special Considerations

1. Because of the demands of the Doctor of Pharmacy curriculum upon acceptance to the program of study students are expected to devote their energies to the academic program. The college actively discourages employment while courses are in session and cannot take outside employment or activities into account when scheduling classes, examinations, reviews, field trips or individual course functions or special projects.
2. Due to curricular requirements course functions and/or examinations outside the normal Monday through Friday, 8 A.M. to 5 P.M. business hours time frame will occur.
3. Clinical responsibilities include evening and weekend work.
4. All College of Pharmacy students are subject to the rights, rules and regulations governing University students in all matters not specifically covered in College of Pharmacy documents.

### All Undergraduate and Professional Colleges

Each student has access to rules that deal with scholastic probation, academic suspension, and reinstatement through the printed class schedule, this Bulletin, and *Student Rights and Responsibilities*.

## GRADUATION REQUIREMENTS

To be eligible for any undergraduate, graduate or professional degree, a student must have completed the requirements as approved by the University Senate, except that curriculum substitutions may be made by the college affected if not inconsistent with these rules. Curriculum requirements must include, in addition to specified credits, a specified grade-point average both overall and in the student's major which may in no case be less than 2.0. Every baccalaureate degree program must include five divisions or components: (1) UK Core, (2) premajor or preprofessional, (3) general college requirements (if any), (4) major or professional, and (5) electives.

To be eligible for an undergraduate degree, a student must file an application with the dean of the college from which the undergraduate degree is to be awarded. The deadline for application for a degree will be no more than two months prior to the conferral dates in December, May, and August. The University Registrar will recommend appropriate deadlines for Senate Council approval. Upon Senate Council approval, the Registrar will publicize the deadlines.

### Composition and Communication Requirements

Students must complete the Composition and Communication I and the Composition and Communication II requirements:

#### Composition and Communication I

In this course, students are introduced to the process of writing, speaking, and visually representing their own ideas and the ideas of others; they also practice basic interpersonal communication skills and the ability to communicate with multiple audiences.

To fulfill the Composition and Communication I requirement, complete **one** of the following:

- CIS 110 Composition and Communication I
- WRD 110 Composition and Communication I
- CIS 112 Accelerated Composition and Communication II (CIS)
- WRD 112 Accelerated Composition and Communication II (WRD)
- ICT 114 Composition and Communication in the Digital Age I

#### Composition and Communication II

In this course, students research public controversies and work in teams to analyze and argue for a solution to these controversies in oral, written, and visual/digital forms for multiple audiences.

To fulfill the Composition and Communication II requirement, complete **one** of the following:

- CIS 111 Composition and Communication II
- WRD 111 Composition and Communication II
- CIS 112 Accelerated Composition and Communication II (CIS)
- WRD 112 Accelerated Composition and Communication II (WRD)
- ICT 115 Composition and Communication in the Digital Age II

#### Transfer Students

Transfer students may fulfill the Composition and Communication requirements by completing **one** of the following:

- Become Category Certified in the communications category under GETA (General Education Transfer Agreement) before transferring.
- Complete transfer courses equated to UK's ENG 101, ENG 102, and one of the following: COM 252, COM 281 or COM 287.

- Complete an A.A. or A.S. degree from an institution accredited by one of the six organizations recognized by the U.S. Department of Education and the Council for Higher Education Accreditation.

### Graduation Composition and Communication Requirement

The Graduation Composition and Communication Requirement (GCCR) replaces the Graduation Writing Requirement (GWR). The GCCR is intended to vertically integrate learning outcome #2 of the UK Core (students will demonstrate competent written, oral, and visual communication skills both as producers and consumers of information) into upper-division majors across the university.

The GCCR is designed to extend and improve education in multimodal composition and communication. Improved vertical integration under the new GCCR will carry this emphasis on composition and communication from the lower level of the UK Core into the upper levels of individual majors and programs.

Beginning fall 2014, every incoming student completing a Bachelors program at UK will be required to fulfill the GCCR. Every undergraduate degree-granting program and major will be required to fulfill the stipulations of the GCCR by assuring a clear path to its completion for their majors.

To complete the **Graduation Composition and Communication Requirement**, students must:

- Complete the Composition I and Composition II Requirement;
- Attain sophomore status (30+ hours); and
- Complete an approved course or series of courses. Note that some of these courses may only be taken by students in the major; check with your advisor to verify.

### GCCR Required Courses by Major

**Accounting** – CIS 300

**African American and Africana Studies** – AAS 401

**Agricultural and Medical Biotechnology** – ABT 201 + ABT 301

**Agricultural Economics** – AEC 306

**Analytics** – CIS 300

**Animal Sciences** – WRD 203 or WRD 204

**Anthropology** – ANT 582

**Architecture** – ARC 152 + ARC 314

**Art Education** – EPE 301

**Art History and Visual Studies** – A-H 300

**Art Studio, B.A.** – ART 301

**Art Studio, B.F.A.** – ART 301

**Arts Administration** – AAD 450

**Biology** – BIO 425 + **one** of the following: BIO 398, BIO 404, BIO 405, BIO 418, BIO 430G, BIO 445, WRD 305, WRD 310

**Biosystems Engineering** – WRD 204

**Career and Technical Education** – AED/FCS 583

**Chemical Engineering** – WRD 204

**Chemistry** – WRD 310

**Civil Engineering** – WRD 204

- Clinical Leadership and Management** – CLM 300
- Communication** – COM 326 or COM 351
- Communication Sciences and Disorders** – CSD 378 + CSD 402 + CSD 591
- Community and Leadership Development** – CLD 305 + CLD 497
- Computer Engineering** – CPE 490
- Computer Science** – CS 499
- Consumer Economics and Family Financial Counseling** – CEF 390 + CEF 402 + FAM 360
- Dance** – TAD 492
- Dietetics** – DHN 374
- Digital Media Design** – A-S 585
- Early Elementary Education** – EPE 301
- Economics (Arts and Sciences)** – ECO 499
- Economics (Business and Economics)** – CIS 300
- Electrical Engineering** – EE 490
- English** – ENG 330
- Environmental and Sustainability Studies** – ENS 400
- Equine Science and Management** – EQM 305
- Family Sciences** – FAM 357 + FAM 360 + FAM 390
- Finance** – CIS 300
- Food Science** – WRD 203
- Foreign Language and International Economics** – MCL/SPA 300
- Forestry** – FOR 400 + FOR 480
- Gender and Women’s Studies** – GWS 599
- General Business** – CIS 300
- Geography** – GEO 499
- Geological Sciences** – EES 235 + EES 461
- Health Promotion** – EPE 301
- Health, Society, and Populations** – HSP 499
- History** – HIS 499
- Horticulture, Plant and Soil Sciences** – PLS 490
- Hospitality Management and Tourism** – RTM 425
- Human Health Sciences** – HHS/CLM 350 + HHS 453
- Human Nutrition** – DHN 474 + DHN 475
- Information Communication Technology** – ICT 300 (Tracks A and B); ICT 305 (Track C)
- Integrated Strategic Communication** – ISC 491 + ISC Portfolio
- Interdisciplinary Early Childhood Education** – EDS 530
- Interior Design** – ID 362 + ID 461
- International Studies** – INT 495
- Journalism** – JOU 330 + JOU Portfolio
- Kinesiology** – KHP 300
- Landscape Architecture** – LA 222 + LA 223
- Liberal Studies** – WRD 430
- Linguistics** – LIN 222
- Management** – CIS 300
- Marketing** – CIS 300
- Materials Engineering** – MSE 407
- Mathematical Economics** – ECO 491G
- Mathematics** – MA 391
- Mechanical Engineering** – WRD 204
- Media Arts and Studies** – MAS 300 + JAT 399
- Medical Laboratory Science** – MLS 463 + MLS 470
- Merchandising, Apparel and Textiles** – RTM 425
- Middle Level Education** – EPE 301
- Mining Engineering** – MNG 371
- Modern and Classical Languages, Literatures and Cultures (all tracks)** – MCL 495
- Music** – MUS 304 + MUS 305
- Music Education** – EPE 301
- Music Performance** – MUS 304 + MUS 305
- Natural Resources and Environmental Science** – NRE 400
- Neuroscience** – WRD 204
- Nursing, Accelerated Program B.S.N.** – NUR 321 + NUR 328 + NUR 426
- Nursing, Four-Year B.S.N.** – NUR 200 + NUR 310 + NUR 413
- Nursing, R.N. to B.S.N.** – NUR 350 + NUR 453
- Philosophy** – PHI 350
- Physics** – PHY 435 (for B.A.) or PHY 535 (for B.S.)
- Political Science** – WRD 304
- Psychology** – one of the following: PSY 427, PSY 430, PSY 440, PSY 450, PSY 456, PSY 460, PSY 552
- Public Health** – CPH 470
- Public Policy** – PPL 434
- Secondary English Education** – EPE 301
- Secondary Social Studies Education** – EPE 301
- Secondary STEM Education** – EPE 301
- Social Work** – SW 470
- Sociology** – SOC 302
- Spanish** – SPA 323
- Special Education** – EDS 529
- Sustainable Agriculture** – SAG 310 + SAG 490
- Theatre** – TA 483
- Topical Studies** – Any approved A&S course or sequence of courses that satisfies the GCCR requirement for any A&S major: please consult with the Arts & Sciences Dean of Undergraduate Programs.
- US Culture and Business Practices** – USB 495
- Writing, Rhetoric and Digital Studies** – WRD 430
- The Graduation Composition and Communication Requirement is overseen and assessed by the GCCR Advisory Committee. For questions regarding fulfillment of the Requirement, please consult the Director of Undergraduate Studies and/or Chair of the appropriate major or program.
- Change in Program Requirements**
- When requirements for an undergraduate degree program are changed after a student has enrolled in it, the student has the option of fulfilling either the old or the new requirements.
- In fulfilling the old requirements, if a student finds that necessary courses have been eliminated or substantially revised, he or she may substitute other courses with the approval of the dean of the college. In this eventuality, however, the student shall not be forced to comply with the new requirements.
- However, if a student interrupts work in the program or the University for more than two semesters, then the dean of the college shall determine which requirements the student shall fulfill.

If the curriculum revision is required by an external accreditation or certification body, and this body submits a written statement to the University that the accreditation of a program or certification of its graduates is in jeopardy unless students fulfill the new requirements, the option of fulfilling the old requirements shall not apply.

When The Graduate School or degree program requirements are changed after a student has begun a course of study, the student shall have the option of fulfilling either the old or new requirements.

If the student elects to fulfill the old requirements but finds that necessary resources (e.g., courses, instruction in particular skills) are no longer available, the student may make reasonable substitutes with the approval of The Graduate School Dean upon recommendation of the Director of Graduate Studies.

In the event that a student interrupts work on a graduate degree (i.e., is not enrolled) for one calendar year or more, The Graduate School Dean shall determine, upon recommendation of the Director of Graduate Studies, whether the old requirements or the new requirements shall apply. In the event a student has not completed the requirements for the graduate degree five years after the effective date of a change in degree requirements, the new requirements shall apply unless determined otherwise by The Graduate School Dean.

The colleges offering professional degrees (Law, Medicine, Dentistry, Pharmacy) reserve the right to change curriculum requirements provided the program change has gone through the University's approval process. Any such change in curriculum, however, shall not result in a longer tenure for students enrolled in the program who are making satisfactory academic progress.

### Residence Requirements

Residence – a requirement for a degree which specifies the minimum period during which a student must be registered on the main campus – is intended to provide an adequate contact with the University and its faculty for each student who is awarded a degree.

For an undergraduate degree, (a) at least 25 percent of the credits presented for a degree; (b) not less than 30 credit hours; and (c) a minimum of 30 of the last 36 credits presented for the degree must be taken from the University.

Courses taken elsewhere with credit transfer to UK, courses taken through the UK International Center (except for courses taught by UK faculty), credits achieved by examination, credits earned via CLEP (the College Level Examination Program), and courses taken through the National Student Exchange do not count toward the 25 percent requirement.

Any request for waiver by veterans of any of the above requirements, or a request by other students for a waiver of requirement (b) or (c), must be presented for approval to the dean of the student's college. Students who wish to satisfy the above requirement with credit earned through such methods as independent study by correspondence, special examination, CLEP, and other methods which limit the opportunity for active exchange between students and instructors must have the prior approval of their department chair and college dean.

Courses taken through the UK International Center and through the National Exchange Student programs are considered as courses taken at UK for purposes of both the residence requirement and for graduates to be conferred commencement honors at the time of award of their degrees.

### Credit by Correspondence and Examination

No more than 30 credit hours of the total required for an undergraduate degree may be gained by correspondence. No more than one-third of the requirements for a major may be gained by correspondence.

No credit will be conferred in The Graduate School or in the professional colleges for courses done by correspondence.

No more than half of the credit toward an undergraduate degree may be earned by any combination of CLEP Examinations, PEP Examinations, National College Credit Recommendation Service courses, Special Departmental Examinations, Advanced Placement Examinations and IB Examinations.

### Application for Degrees

To be eligible for an undergraduate degree, a student must file an application with the dean of the college from which the undergraduate degree is to be awarded. The deadline for application for a degree will be no more than two months prior to the conferral dates in December, May, and August. The University Registrar will recommend appropriate deadlines for Senate Council approval. Upon Senate Council approval, the Registrar will publicize the deadlines.

### Commencement Honors

Students who attain a grade-point average of 3.8 or higher for at least three years (90 hours) of work at the University (excepting correspondence study) shall be graduated "Summa Cum Laude."

Students who attain a grade-point average of 3.6 or higher for at least three years (90 hours) of work at the University (excepting correspondence study) shall be graduated "Magna Cum Laude."

Students who attain a grade-point average of 3.4 or higher for at least three years (90 hours) of work at the University (excepting correspondence study) shall be graduated "Cum Laude."

Students with a minimum of two (60 hours) but less than three years (90 hours) of work at the University will receive the appropriate commencement honors if they attain a grade-point average of 0.2 greater than those specified for three years of residence work.

The bachelor's degree with honors in a student's major or a degree with honors from a professional college will be conferred upon a student whom the faculty of the student's department, or college, in the case of a professional college, and the dean of the student's college recommend receive the degree. A student may be required to complete work in addition to that required for the bachelor's or professional degree to receive a degree with honors.

The degree with honors from a professional college is based solely upon work done in the professional college.

All students in the Lewis Honors College of the University who do not have a grade-point standing of 3.5 or better but are in the top 10 percent of their college's class are eligible to graduate in the Honors program if they satisfy the other requirements and have approval of the Lewis Honors College Dean.

Work done in the Kentucky Community and Technical College System shall not be counted as work at the University of Kentucky in calculating the grade-point average for honors.

### A Double Major

An undergraduate student earns a double major when he or she completes all university, college, and departmental requirements in one department—the Primary Major—and all departmental requirements in a second department—the Secondary Major. Students choose which major is their Primary Major. If there is a generic relationship, work in the Primary Major may be applicable to the Secondary Major. The student must indicate the double major to the Registrar and to the student records office in his or her college(s). The student must have an advisor in each major. The student who completes the requirements for a double major receives a degree from the college of his or her Primary Major and has the successful completion of the Secondary Major entered on his or her transcript. A Secondary Major may be completed after the degree for the Primary Major has been awarded. A double major does not result in an additional degree.

Concurrent enrollment for degree purposes in more than one graduate program is permitted only with the approval of the student's graduate advisor(s), Directors of Graduate Studies in the programs, and the Dean of The Graduate School.

Subsequent to the receipt of a doctoral degree, a student is not eligible to receive a master's degree based on the work which led to the doctorate.

**Additional Bachelor's Degrees**

A student is eligible to qualify for additional Bachelor's degrees in different majors. The student must complete all university, college, and departmental requirements for all degrees. Courses taken towards fulfilling one degree may also count towards fulfilling parallel requirements in another degree, but the student must complete at least 24 additional hours for each degree. The student may elect to receive the degrees simultaneously if college and departmental requirements can be met simultaneously.

**A Second Master's Degree**

A student may receive two master's degrees. However, simultaneous enrollment in two or more programs and the granting of two or more master's degrees at the same time is not permitted, unless approved by the student's advisors and the Directors of Graduate Studies in the programs.

**The University Scholars Program**

The University Scholars program enables gifted and highly motivated students to integrate their undergraduate and graduate or professional courses of study into a single, continuous program leading to both a baccalaureate and master's degree. The admissions requirements for the University Scholars program and the curricular requirements are outlined in the *Special Academic Programs* section of this Bulletin.

**Academic Minors**

Many departments have designed academic minors for the convenience of undergraduate students. A minor is a structured group of courses that leads to considerable knowledge and understanding of a subject, although with less depth than a major. Some employers consider minors desirable, and the corresponding major requirements at the University may stipulate a minor. Some students choose to complement their major program with a minor in a related field or even in an entirely different field of interest. The minors that are available are described with the departmental listings and major programs in this Bulletin. Students interested in pursuing an academic minor should contact their college dean's office and the department responsible for the minor program for guidance and advising. Please note that undergraduate students can only complete a minor *in addition to* and *as a complement to* a major. The University does not award stand-alone minors.

**NOTE: Please use the UK Core search filter located on the online course catalog page to view current offerings of UK Core courses.**

## The UK Core – General Education Requirements

The University of Kentucky's general education program—the UK Core—is foundational to a university education at the University of Kentucky. A university education is more than simply learning a set of skills in a specific area in preparation for a job or career. A university education is designed to broaden the students' understanding of themselves, of the world we live in, of their role in our global society, and of the ideals and aspirations that have motivated human thought and action throughout the ages. It must help individuals effectively put into action their acquired knowledge, to provide the bases for critical thinking and problem solving, and to develop life-long learning habits.

The UK Core is composed of the equivalent of 30 credit hours in 10 course areas that address four broad learning outcomes. Depending on choice of major or courses, some students may take more than 30 credit hours to complete the UK Core.

### The UK Core Learning Outcomes

The UK Core curriculum is based on a comprehensive set of student learning outcomes that all students are expected to be able to demonstrate upon completion of a baccalaureate degree at the University of Kentucky. All UK Core courses are designed to meet one or more of the following learning outcomes:

**I. Students will demonstrate an understanding of and ability to employ the processes of intellectual inquiry. [12 credit hours]**

Students will be able to identify multiple dimensions of a good question (i.e., interesting, analytical, problematic, complex, important, genuine, researchable); determine when additional information is needed, find credible information efficiently using a variety of reference sources, and judge the quality of information as informed by rigorously developed evidence; explore multiple and complex answers to questions/issues/problems within and across the four broad knowledge areas: arts and creativity, humanities, social and behavioral sciences, and natural/physical/mathematical sciences; evaluate theses and conclusions in light of credible evidence; explore the ethical implications of differing approaches, methodologies or conclusions; and develop potential solutions to problems based on sound evidence and reasoning. Students will take four 3-credit courses, one in each of the four broad knowledge areas defined above.

**II. Students will demonstrate competent written, oral, and visual communication skills both as producers and consumers of information. [6 credit hours]**

Students will demonstrate the ability to construct intelligible messages using sound evidence and reasoning that are appropriate for different rhetorical situations (audiences and purposes) and deliver those messages effectively in written, oral, and visual form. Students will also demonstrate the ability to competently critique (analyze, interpret, and evaluate) written, oral, and visual messages conveyed in a variety of communication contexts. Students will take one 3-hour course focusing on the development of effective writing skills, and one 3-hour integrated communications course focusing on oral and visual communication skills, along with continued development of written communication skills.

**III. Students will demonstrate an understanding of and ability to employ methods of quantitative reasoning. [6 credit hours]**

Students will (a) demonstrate how fundamental elements of mathematical, logical and statistical knowledge are applied to solve real-world problems; and (b) explain the sense in which an important source of uncertainty in many everyday decisions is addressed by statistical science, and appraise the efficacy of statistical arguments that are reported for general consumption. Students will take one 3-hour course on the application of mathematical, logical and statistical methods, and one 3-hour course devoted to a conceptual and practical understanding of statistical inferential reasoning.

**IV. Students will demonstrate an understanding of the complexities of citizenship and the process for making informed choices as engaged citizens in a diverse, multilingual world. [6 credit hours]**

Students will recognize historical and cultural differences arising from issues such as ethnicity, gender, language, nationality, race, religion, sexuality, and socioeconomic class; students will demonstrate a basic understanding of how these differences influence issues of social justice, both within the U.S. and globally; students will recognize and evaluate the ethical dilemmas, conflicts, and trade-offs involved in personal and collective decision making. Students will take two courses, each with a topical or regional focus. The first course will include critical analysis of diversity issues as they relate to the contemporary United States. The second will be a non-US based course that includes critical analysis of local-to-global dynamics as they relate to the contemporary world. In addition, each course must address at least 2 of these 4 topics: societal and institutional change over time; civic engagement; cross-national/comparative issues; power and resistance.

### The Curricular Framework and Relationship to the Learning Outcomes

Students must take one course from each of the areas listed below in order to complete the UK Core. A course taken to satisfy a requirement in one area of the UK Core cannot be used to satisfy a requirement in another area, even if a specific course is present in more than one area (e.g., some courses are designed to meet the learning outcomes in more than one area).

## Course Areas by Learning Outcome

## Credit Hours

**Learning Outcome I: Intellectual Inquiry**

The Nature of Inquiry in Arts and Creativity .....	3
The Nature of Inquiry in the Humanities .....	3
The Nature of Inquiry in the Social Sciences .....	3
The Nature of Inquiry in the Natural, Physical and Mathematical Sciences .....	3

**Learning Outcome II: Written, Oral and Visual Communication**

Composition and Communication I .....	3
Composition and Communication II .....	3

**Learning Outcome III: Quantitative Reasoning**

Quantitative Foundations .....	3
Statistical Inferential Reasoning .....	3

**Learning Outcome IV: Citizenship**

Community, Culture and Citizenship in the USA .....	3
Global Dynamics .....	3

**UK Core Credit-Hour Total\*** ..... **30**

*\*The UK Core is designed to provide the equivalent of 30 credit hours. Some courses in the UK Core require more than three credits, resulting in more than 30 credits in some cases.*

Please consult your advisor for a complete list of options.

## I. Intellectual Inquiry in Arts and Creativity

Courses in this area are hands-on courses that allow students to engage actively with the creative process. Students will define and distinguish different approaches to creativity, demonstrate the ability to critically analyze work produced by other students, and evaluate results of their own creative endeavors. In general education, a focus on creativity adds to the vitality and relevance of learning and will translate into graduates who are better prepared to face the challenges of a dynamic society.

To fulfill the Arts and Creativity requirement, complete **one** of the following:

A-E120	Pathways to Creativity in the Visual Arts	ENG180	Great Movies (Subtitle required)
A-S102	2D	GEO109	Digital Mapping
A-S103	3D	HON252	Honors in Arts and Creativity (Subtitle required)
A-S130	Drawing	ICT200	Information Literacy and Critical Thinking
A-S200	Digital Art	IS200	Information Literacy and Critical Thinking
A-S245	Introduction to Web Design	LA111	Living on the Right Side of the Brain
A-S270	Ceramics for Non-Majors	LIN200	How to Create Your Own Language
A-S280	Introduction to Photographic Literacy	MCL311	Autobiography and World Literature
A-S285	Lens Arts	MCL312	The Art of Adaptation
A-S300	Digital Photography	ME411	ME Capstone Design I
A-S380	Black & White Darkroom Photography	MNG592	Mine Design Project II
AAS168	All That Speak of Jazz: An Intellectual Inquiry Into Jazz and Democracy	MUS123	Beginning Classroom Guitar
BAE402†	Biosystems Engineering Design I	MUS130	Performing World Music (Subtitle required)
BAE403†	Biosystems Engineering Design II	MUS200	Music for Living
CME455*	Chemical Engineering Product and Process Design I	MUS222	Creativity and Innovation in Rock Music
DES100	Design in Your World	PHI193	Circus and Philosophy
DST200	Digital Literacy	PHI315	Philosophy and Science Fiction
EE101	Creativity and Design in Electrical and Computer Engineering	PHI393	Philosophy of Film
EGR101**	Engineering Exploration I	PLS240	Introduction to Floral Design
EGR103**	Engineering Exploration II	TA110	Theatre: An Introduction
EGR215**	Introduction to the Practice of Engineering for Transfer Students	TA120	Creativity and the Art of Acting
ENG107	Writing Craft: Introduction to Creative Writing	TA150	Creativity and the Art of Design and Production
ENG130	Literary Encounters	TA220	Shakespeare Page to Stage
ENG168	All That Speak of Jazz: An Intellectual Inquiry Into Jazz and Democracy	TA370	Staging History
		TAD140	Introduction to Dance
		WRD307	Writing Comics
		WRD312	Introduction to Documentary

† To fulfill the Arts and Creativity requirement, students must complete both BAE 402 and BAE 403.

\* Chemical Engineering students only.

\*\* To fulfill the Arts and Creativity requirement, students must complete both EGR 101 and EGR 103 (freshmen students) or EGR 215 (transfer students). In addition, EGR 102 is a prerequisite for EGR 103.

## II. Intellectual Inquiry in the Humanities

These courses develop students' skills in *interpretation* and *analysis* of creations of the human intellect such as art and literature (including folklore, popular culture, film and digital media), philosophical and religious contemplation and argumentation, language systems, and historical narratives. In these courses, students gain the ability not only to analyze the works themselves but to *evaluate* competing interpretations of such works.

To fulfill the Humanities requirement, complete **one** of the following:

A-H 101	Introduction to Visual Studies	HIS 119	War and Society, 1350-1914
A-H 105	World Art Before 1400	HIS 121	War and Society, 1914-1945
A-H 106	Renaissance to Modern Art	HIS 130	Drugs and Alcohol in Western Civilization, 1492 to the Present
A-H 334	Reframing Renaissance Art	HIS 191	A History of World Religions (Subtitle required)
AAS 253	History of Pre-Colonial Africa	HIS 202	History of the British People to the Restoration
AAS 254	History of Colonial and Post-Colonial Africa	HIS 203	History of the British People Since the Restoration
AAS 264	Introduction to Black Writers	HIS 207	History of Modern Latin America, 1810 to Present
AIS 228	Islamic Civilization	HIS 229	The Ancient Near East and Greece to the Death of Alexander the Great
AIS 320	Modern Arabic Literature and Film in Translation	HIS 230	The Hellenistic World and Rome to the Death of Constantine
AIS 345	Islamic Mysticism	HIS 253	History of Pre-Colonial Africa
ARC 314*	History and Theory III: 20th Century and Contemporary Architecture	HIS 254	History of Colonial and Post-Colonial Africa
CHI 330	Introduction to Chinese Culture, Pre-Modern to 1840	HIS 296	East Asia Since 1600
CHI 331	Introduction to Chinese Culture, 1840 to Present	HJS 110	Introduction to the Old Testament/Hebrew Bible
CLA 135	Greek and Roman Mythology	HON 151	Honors in Humanities (Subtitle required)
CLA 190	Introduction to the New Testament	ID 161	History and Theory 1
CLA 191	Christianity, Culture, and Society: A Historical Introduction	ID 162	History and Theory 2
CLA 229	The Ancient Near East and Greece to the Death of Alexander the Great	ITA 263	Studies in Italian Culture (Subtitle required)
CLA 230	The Hellenistic World and Rome to the Death of Constantine	LIN 209	The Structure and Use of English
CPH 309	Health, History, and Human Diversity	MCL 135	Vampires: Evolution of a Sexy Monster
EGR 201	Literature, Technology, and Culture	MCL 270	Introduction to Folklore and Mythology
ENG 142	Global Shakespeare	MCL 343	Global Horror
ENG 191	Literature and the Arts of Citizenship	MCL 360	Catastrophes and Calamities in the Greco-Roman World and Afterwards
ENG 209	The Structure and Use of English	MUS 100	Introduction to Music
ENG 230	Introduction to Literature (Subtitle required)	PHI 100	Introduction to Philosophy: Knowledge and Reality
ENG 260	Introduction to Black Writers	PHI 260	History of Philosophy I: From Greek Beginnings to the Middle Ages
ENG 280	Introduction to Film	PHI 270	History of Philosophy II: From the Renaissance to the Present Era
ENG 290	Introduction to Women's Literature	PHI 310	Philosophy of Human Nature
EPE 350	Town and Gown in Fact and Fiction: Campus and Community as Local History	PHI 317	Existentialist Thought and Literature
FR 103	French Cinema	PHI 380	Death, Dying and the Quality of Life
FR 205	The French Graphic Novel	RUS 275	Russian Film
FR 225	French Film Noir	RUS 371	The Russian Cultural Imagination: 900-1900

GER 305	German Film Today	SPA 262	Hispanic Literatures in Translation (Subtitle required)
GWS 201	Gender and Popular Culture	SPA 330	Spanish and Globalization
GWS 309	Health, History, and Human Diversity	SPA 371	Latin American Cinema (Subtitle required)
HIS 104	A History of Europe Through the Mid-Seventeenth Century	SPA 372	Spanish Cinema (Subtitle required)
HIS 105	A History of Europe from the Mid-Seventeenth Century to the Present	TA 385	World Theatre I
HIS 108	History of the United States Through 1876	TA 386	World Theatre II
HIS 109	History of the United States Since 1877	TA 388	History of the American Musical
HIS 112	The Making of Modern Kentucky	WRD 210	Social Media: Theory, Culture, Politics, Practice
		WRD 320	Rhetorical Theory and History

\* *Architecture students only.*

### III. Intellectual Inquiry in the Social Sciences

These courses promote an understanding of the relationships between individuals and society and how scholars have come to understand these relationships using conceptual models and processes of inquiry. Through a discipline-based study of social problems or themes, students will learn to critically evaluate the variety of social situations with which they may be confronted in their everyday lives.

To fulfill the Social Sciences Requirement, complete **one** of the following:

AEC 110	Current Issues in Agricultural Economics	ECO 101	Contemporary Economic Issues
AIS 430	Islam in America	EGR 120	Technology: Blessing or Curse
ANT 101	What Makes Us Human? Intro to Anthropology	EPE 174	Theories of College Student Success
ANT 102	Archaeology: Mysteries and Controversies	EPE 374	Theories of College Student Development and Mentoring
ANT 103	Sports, Culture, and Society	GEO 172	Human Geography
ANT 335	Religion in Everyday Life	GWS 200	Sex and Power
ANT 339	Human Rights in Global Perspective	HON 251	Honors in Social Sciences (Subtitle required)
BSC 251	The Enemy Within: Culture and Health Behavior	HP 101	Historic Preservation: How the Past Informs the Future
CLD 102*	The Dynamics of Rural Social Life	ICT 150	Experience ICT
COM 101	Introduction to Communications	MCL 135	Vampires: Evolution of a Sexy Monster
COM 311	Taking Control of Your Health: Patient-Provider Communication	MCL 270	Introduction to Folklore and Mythology
COM 313	Interpersonal Communication in Close Relationships	PCE 201	Introduction to Peace Studies
COM 314	The Dark Side of Interpersonal Communication and Relationships	PS 230	Introduction to International Relations
COM 317	Communication in Family and Marital Relationships	PSY 100	Introduction to Psychology
CPH 201	Introduction to Public Health	PSY 160	Human Sexuality
CPH 202	Public Health Through Popular Film	RUS 370	Russian Folklore (in English)
CPH 203	Sexual Health	SOC 101*	Introduction to Sociology

\* Students may not receive credit for both SOC 101 and CLD 102.

### IV. Intellectual Inquiry in the Natural, Physical and Mathematical Sciences

These courses engage students in the fundamental processes of science through the exploration of an area in science. Students will be expected to use their knowledge of scientific concepts to formulate predictions, collect and analyze data, and construct explanations for the questions posed.

To fulfill the Natural, Physical and Mathematical Sciences requirement, complete **one** of the following:

ABT 120	Genetics and Society	EES 170	Blue Planet: Introduction to Oceanography
ANT 105	Human Origins	EES 180	Geology of the National Parks
ANT 230	Introduction to Biological Anthropology	ENT 110	Insect Biology
ARC 333	Environmental Controls II	ENT 209	Bees and People
AST 191	The Solar System	FOR 100	Forests and Forestry
BIO 102	Human Ecology	GEO 130	Earth's Physical Environment
BIO 103	Basic Ideas of Biology	GEO 133	Science and Policy of Natural Hazards
CHE 101	Molecular Science for Citizens	GEO 135	Global Climate Change
CHE 103	Chemistry for Health Professionals	HON 152	Honors in Natural, Physical, and Mathematical Sciences (Subtitle required)
CHE 105†	General College Chemistry I	MUS 140	Acoustics of Music
CHE 109*	General Chemistry 1A	PHY 120	How Things Work
CHE 110*	General Chemistry 1B	PHY 130	Science and Technology for the Future
CHE 111†	General Chemistry I Laboratory	PHY 140	Quantum Theory for Everyone
CPH 310	Disease Detectives: Epidemiology in Action	PHY 211	General Physics
EE 167	Fundamentals of Nanotechnology and Applications in Renewable Energy	PHY 231**	General University Physics
EES 110	Endangered Planet: An Introduction to Environmental Geology	PHY 241**	General University Physics Laboratory
EES 120	Sustainable Planet: The Geology of Natural Resources	PLS 104	Plants, Soils, and People: A Science Perspective
EES 150	Earthquakes and Volcanoes		

† CHE 105 and 111 are paired courses. To earn UK Core credit, both courses must be completed. CHE 111 may be taken concurrently with CHE 105 or after CHE 105 has been completed. Students must sign up for them separately.

\* CHE 109 and CHE 110 are equivalent to CHE 105. To earn UK Core credit, students must complete CHE 109, CHE 110 and CHE 111. Students must sign up for them separately.

\*\* PHY 231 and 241 are paired courses. To earn UK Core credit, both PHY 231 and PHY 241 must be completed. They may be taken in either order and students must sign up for them separately.

## V. Composition and Communication I

In this course, students are introduced to the process of writing, speaking, and visually representing their own ideas and the ideas of others; they also practice basic interpersonal communication skills and the ability to communicate with multiple audiences.

To fulfill the Composition and Communication I requirement, complete **one** of the following:

- |           |  |           |  |
|-----------|--|-----------|--|
| • CIS 110 | Composition and Communication I                    | • ICT 114 | Composition and Communication in the Digital Age I |
| • CIS 112 | Accelerated Composition and Communication II (CIS) | • WRD 112 | Accelerated Composition and Communication II (WRD) |
| • WRD 110 | Composition and Communication I                    |           |  |

**Placement in CIS/WRD 112** – Students who have a score of **32 or above** on the English component of the ACT; a score of **720 or above** on SAT I Verbal; or a standard score of **4 or 5** on the AP English Language Exam receive placement in CIS/WRD 112. No credit for CIS/WRD 110/111 is awarded.

## VI. Composition and Communication II

In this course, students research public controversies and work in teams to analyze and argue for a solution to these controversies in oral, written, and visual/digital forms for multiple audiences.

To fulfill the Composition and Communication II requirement, complete **one** of the following:

- |           |  |           |   |
|-----------|--|-----------|---|
| • CIS 111 | Composition and Communication II                   | • ICT 115 | Composition and Communication in the Digital Age II |
| • CIS 112 | Accelerated Composition and Communication II (CIS) | • WRD 111 | Composition and Communication II                    |
| • CIS 184 | Communicating Arguments                            | • WRD 112 | Accelerated Composition and Communication II (WRD)  |

**Placement in CIS/WRD 112** – Students who have a score of **32 or above** on the English component of the ACT; a score of **720 or above** on SAT I Verbal; or a standard score of **4 or 5** on the AP English Language Exam receive placement in CIS/WRD 112. No credit for CIS/WRD 110/111 is awarded.

## VII. Quantitative Foundations

These courses are concerned with the application of mathematical concepts and skills to solve real-world problems. In order to perform effectively as professionals and citizens, students must become competent in reading and using quantitative data, in understanding quantitative evidence and in applying basic quantitative skills to the solution of real-life problems.

**NOTE:** Students must have demonstrated basic proficiency in math skills as determined by a minimum Math ACT of 19 or the appropriate math placement test to take these courses.

To fulfill the Quantitative Foundations requirement, complete **one** of the following:

- |         |   |         |   |
|---------|---|---------|---|
| CS261   | Social Networks: Methods and Tools                  | MA 109  | College Algebra                               |
| EES 151 | Quantitative Planet                                 | MA 111  | Introduction to Contemporary Mathematics      |
| EES 155 | Earthquakes and Quantitative Reasoning              | MA 113  | Calculus I                                    |
| EES 185 | Quantifying the Bluegrass Water Supply              | MA 123  | Elementary Calculus and Its Applications      |
| FOR200  | Basics of Geospatial Technology                     | MA 137  | Calculus I With Life Science Applications     |
| GEO310  | Data Explorations and Applications in Everyday Life | PHI 120 | The Art of Thinking: An Introduction to Logic |

## VIII. Statistical Inferential Reasoning

These courses will encourage students to evaluate claims based on statistical principles by providing an understanding of the conceptual and practical applications of statistical reasoning and thinking. Students will receive an introduction to the science of statistics, and while students will be expected to reason with statistical ideas and make sense of statistical information, computations are not the focus.

To fulfill the Statistical Inferential Reasoning requirement, complete **one** of the following:

ANT 360	Statistics in Anthropology	PSY 215*	Experimental Psychology
BAE 202	Statistical Inferences for Biosystems Engineering	PSY 216*	Applications of Statistics in Psychology
BST 230	Statistical Thinking in Public Health	SOC 303	Quantitative Sociological Analysis
EDP 557	Gathering, Analyzing, and Using Educational Data	STA 210	Making Sense of Uncertainty: An Introduction to Statistical Reasoning
EPE 557	Gathering, Analyzing, and Using Educational Data	STA 296	Statistical Methods and Motivations
FOR 250	Statistics and Measurements I	STA 381	Engineering Statistics – A Conceptual Approach
MNG 335	Introduction to Mine Systems Analysis		

\* *PSY 215 and 216 are paired courses and are restricted to Psychology majors and minors. To earn UK Core credit, both PSY 215 and PSY 216 must be completed. They may be taken in either order and students must sign up for them separately.*

## IX. Community, Culture and Citizenship in the USA

These courses promote a student's understanding of historical, societal, and cultural differences, such as those arising from race, ethnicity, gender, sexuality, language, nationality, religion, political and ethical perspectives, and socioeconomic class; engage students in grappling with conflicts, compromises, and/or ethical dilemmas stemming from the complex and diverse cultural contexts of US communities; and foster effective and responsible participation in a diverse community or society in the United States.

To fulfill the Community, Culture and Citizenship in the USA requirement, complete **one** of the following:

A-H 360	Visual Culture of Politics	GRN 250	Aging in Today's World
AAS 168	All That Speak of Jazz: An Intellectual Inquiry Into Jazz and Democracy	GWS 301	Crossroads (Subtitle required)
AAS 200	Introduction to African-American Studies	GWS 309	Health, History, and Human Diversity
AAS 235	Inequalities in Society	HIS 108	History of the United States Through 1876
AAS 261	African American History 1865-Present	HIS 109	History of the United States Since 1877
AIS 430	Islam in America	HIS 112	The Making of Modern Kentucky
ANT 221	Native People of North America	HIS 261	African American History 1865-Present
ANT 330	North American Cultures	LIN 331	Language in U.S. Society
APP 200	Introduction to Appalachian Studies	MCL 335	Democracy – Ancient and American
CLD 360	Environmental Sociology	PHI 130	Introduction to Philosophy: Morality and Society
COM 312	Learning Intercultural Communication Through Media and Film	PHI 205	Food Ethics
COM 315	Understanding Workplace Communication in a Diverse U.S. Society	PHI 335	The Individual and Society
CPH 309	Health, History, and Human Diversity	PHI 340	Introduction to Feminism and Philosophy
ENG 168	All That Speak of Jazz: An Intellectual Inquiry Into Jazz and Democracy	PHI 361	Biology and Society (Subtitle required)
ENG 191	Literature and the Arts of Citizenship	PS 101	American Government
EPE 301	Education in American Culture	PSY 320	Introduction to Forensics: Psychology and Legal Issues
GEN 100*	Issues in Agriculture, Food and Environment	SOC 235	Inequalities in Society
GEO 220	U.S. Cities	SOC 360	Environmental Sociology
GEO 221	Immigrant America: A Geographic Perspective	SPA 208	U.S. Latino Culture and Politics
GEO 320	Geography of the United States and Canada	SW 124	Introduction to Social Work and Diverse Populations
		SW 325	Social Justice Foundations
		TA 286	Social Action Theatre
		WRD 222	Current Events and Public Engagement: U.S. Citizens, Global Citizens

\* *GEN 100 is for College of Agriculture, Food and Environment students only.*

## X. Global Dynamics

These courses equip students to participate in a diverse, multiethnic, multilingual world community. Toward this end, students consider issues of equality, ethical dilemmas, global trends, social change, and civic engagement in the context of local cultures outside the U.S.

To fulfill the Global Dynamics requirement, complete **one** of the following:

A-H 304	African Art and Its Global Impact	HIS 121	War and Society, 1914-1945
A-H 311	The Arts as Soft Power: The Japanese Tea Ceremony	HIS 122	War and Society Since 1945
AAS 100	Introduction to African Studies	HIS 191	A History of World Religions (Subtitle required)
AAS 253	History of Pre-Colonial Africa	HIS 202	History of the British People to the Restoration
AAS 254	History of Colonial and Post-Colonial Africa	HIS 203	History of the British People Since the Restoration
ANT 160	Cultural Diversity in the Modern World	HIS 206	History of Colonial Latin America, 1492-1810
ANT 222	Middle East Cultures	HIS 207	History of Modern Latin America, 1810 to Present
ANT 225	Culture, Environment and Global Issues	HIS 208	History of the Atlantic World
ANT 241	Origins of Old World Civilization	HIS 253	History of Pre-Colonial Africa
ANT 242	Origins of New World Civilization	HIS 254	History of Colonial and Post-Colonial Africa
ANT 311	Anthropology of Globalization	HIS 296	East Asia Since 1600
ANT 321	Introduction to Japanese Culture, Meiji (1868) to Present	HIS 357	Japan at War, 1850 to the Present
ANT 329	Cultures and Societies of Eurasia and Eastern Europe: Socialism and Post-Socialist Change	HON 352	Study and Travel Abroad (Subtitle required)
ANT 336	Contemporary Muslim Societies	ICT 205	Issues in Information and Communication Technology Policy
ARC 315	History and Theory of Architecture IV: Urban Forms	INT 200	Introduction to International Studies
CHI 331	Introduction to Chinese Culture, 1840 to Present	ITA 335	Topics in Italian Cinema (Subtitle required)
CLD 380	Globalization: A Cross-Cultural Perspective	JPN 320	Introduction to Japanese Culture, Pre-Modern to 1868
COM 390	Communication Education Abroad (Subtitle required)	JPN 321	Introduction to Japanese Culture, Meiji (1868) to Present
EGR 240	Global Energy Issues	JPN 351	The Japanese Experience of the Twentieth Century
ENG 142	Global Shakespeare	LAS 201	Introduction to Latin America
ENG 171	Global Literature in English	MAT 247	Dress and Culture
FOR 435	Conservation Biology	MCL 324	The City in the Twentieth-Century: Tokyo, Shanghai, Paris
GEO 160	Lands and Peoples of the Non-Western World	MCL 343	Global Horror
GEO 161	Global Inequalities	MCL 360	Catastrophes and Calamities in the Greco-Roman World and Afterwards
GEO 162	Introduction to Global Environmental Issues	MUS 330	Music in the World (Subtitle required)
GEO 163	Global Conflicts	MUS 335	Exploring World Music and Ethnomusicology
GEO 164	iWorlds: Global Information Geographies	PCE 410	Peace Studies Capstone Seminar
GEO 222	Cities of the World	PHI 343	Asian Philosophy
GEO 255	Geography of the Global Economy	PLS 103	Plants, Soils, and People: A Global Perspective
GEO 260	Geographies of Development in the Global South	PPS 104	International Healthcare Experience
GEO 261	Global Dynamics of Health and Disease	PS 210	Introduction to Comparative Politics
GEO 316	Environment and Development	RUS 275	Russian Film
GER 305	German Film Today	RUS 370	Russian Folklore (in English)
GER 342	War, Peace, and Terror in Germany and Europe	RUS 371	The Russian Cultural Imagination: 900-1900
GER 361	German Cinema	RUS 372	Experiments in Life and Art: Russian Culture 1900-Present
GWS 250	Social Movements	SAG 310	Cultural Perspectives on Sustainability
GWS 302	Gender Across the World (Subtitle required)	SOC 180	Global Societies in Comparative Perspective
HIS 100	Introduction to African Studies	SOC 380	Globalization: A Cross-Cultural Perspective
HIS 104	A History of Europe Through the Mid-Seventeenth Century	SPA 111	The Hispanic Caribbean
HIS 105	A History of Europe From the Mid-Seventeenth Century to the Present		

## Foreign Language Requirement

Foreign language is no longer explicitly required as part of the new UK General Education, the UK Core. However, foreign language proficiency is still an expectation for students who enter UK, and is still considered to be an important part of the students' educational background.

Any first-time freshman or transfer student must demonstrate that they have completed two high school credits in a single foreign language, or two semesters at the postsecondary level. A student who has not completed the high school foreign language requirement will be required to take a two-semester sequence in one foreign language at the University of Kentucky prior to graduation.

# College of Agriculture, Food and Environment

*Nancy M. Cox, Ph.D., is Dean of the College of Agriculture, Food and Environment; Robert Houtz, Ph.D., is Associate Dean for Research and Director of the Kentucky Agricultural Experiment Station; Laura Stephenson, Ph.D., is Associate Dean for Extension; Carmen T. Agouridis, Ph.D., is Associate Dean for Instruction; Orlando Chambers, Ph.D., is Associate Dean for Administration; Sandra Bastin, Ph.D., R.D., L.D., is Associate Dean for Faculty Resources, Planning and Assessment.*

The research, teaching, extension, and regulatory functions of the College of Agriculture, Food and Environment are combined into a coordinated, mutually supporting program of undergraduate and graduate education. Teaching in this college is closely related to the other functions thus providing the student with a unique opportunity to broaden his or her background in the areas of research and application of scientific findings to stakeholders.

Degrees and preprofessional programs in the college encompass the entire range of the food, fiber, and agricultural system from farm production and marketing, manufacturing, processing and fabrication through nutrition, hospitality management, and consumer, community, and family sciences.

The School of Human Environmental Sciences is part of the College of Agriculture, Food and Environment. Degree requirements and information pertaining to these programs are listed beginning on page 118.

## Admission

All students planning to study any phase of agriculture, food or environment, including pre-veterinary medicine, are admitted directly into the College of Agriculture, Food and Environment. Application for admission is made through the Office of Undergraduate Admission.

Students interested in the Landscape Architecture program must meet all requirements for admission to the University. In addition, enrollment in the landscape architecture program is determined by a selective admission procedure. Applicants are selected on a competitive basis as determined by potential success in the program.

Students must apply for the Coordinated Program in Dietetics by **February 1** prior to potential admission to year three in the Dietetics Program. For additional information, see page 119.

## Accreditation

The undergraduate Forestry program at the University of Kentucky is accredited by the Society of American Foresters. The Landscape Architecture program is accredited by the American

Society of Landscape Architects and meets all the requirements for licensing of landscape architects in Kentucky and other states. The Food Science program is accredited by the Institute of Food Technologists.

Accreditations for the School of Human Environmental Sciences are listed on page 118 of this Bulletin.

## Undergraduate Programs in Agriculture, Food and Environment

The University of Kentucky grants the following degrees in the College of Agriculture, Food and Environment:

- Bachelor of Science in Agriculture
- Bachelor of Science in Agricultural and Medical Biotechnology
- Bachelor of Science in Agricultural Economics
- Bachelor of Science in Animal Sciences
- Bachelor of Science in Career and Technical Education
- Bachelor of Science in Community and Leadership Development
- Bachelor of Science in Consumer Economics and Family Financial Counseling
- Bachelor of Science in Dietetics
- Bachelor of Science in Equine Science and Management
- Bachelor of Science in Family Sciences
- Bachelor of Science in Food Science
- Bachelor of Science in Forestry
- Bachelor of Science in Horticulture, Plant and Soil Sciences
- Bachelor of Science in Hospitality Management and Tourism
- Bachelor of Science in Human Nutrition
- Bachelor of Science in Landscape Architecture
- Bachelor of Science in Merchandising, Apparel and Textiles
- Bachelor of Science in Natural Resources and Environmental Science
- Bachelor of Science in Sustainable Agriculture and Community Food Systems

## SPECIAL APPLICATION DEADLINE FOR SCHOOL OF HUMAN ENVIRONMENTAL SCIENCES

**Coordinated Program in Dietetics** Upper division program applicants (students who have 71 semester hours of lower division courses) – special application, transcript(s), and recommendations are due by:

**February 1**

For fall entry to  
Coordinated Program

Information and degree requirements for each program follows. Students may obtain additional information on programs and recommended plans of study from the Center for Student Success.

The college offers minors in agricultural economics, animal sciences, community and leadership development, entomology, family sciences, food science, pest management, plant and soil science, sustainable agriculture, technical systems management, and wildlife biology and management.

Students majoring in biosystems engineering are enrolled in the College of Engineering. Degree requirements and curriculum are listed in the *College of Engineering* section of this Bulletin.

See page 118 of this Bulletin for the list of degree requirements for majors in the School of Human Environmental Sciences.

## Undergraduate Certificates in Agriculture, Food and Environment

The University of Kentucky grants the following undergraduate certificates in the College of Agriculture, Food and Environment:

- Distillation, Wine and Brewing Studies
- Food Systems and Hunger Studies

## Undeclared / Exploratory Studies

Students who are interested in the College of Agriculture, Food and Environment but are undecided about a major should work closely with an advisor in the college who will assist them in selecting courses that will fulfill general requirements while exploring the various areas of study in agriculture, food and environment.

## Scholarships and Financial Aid

The College of Agriculture, Food and Environment offers scholarship awards to students on the basis of academic accomplishment and involve-

ment in extracurricular activities. Many of the departments in the college employ students in laboratories, greenhouses, barns, and field work in connection with the college's research programs in agriculture. Information about scholarships and work opportunities is available in the Center for Student Success.

Freshman scholarship applications are due **December 1**. Continuing and transfer scholarship applications are due **April 1**. For more information go to:

<http://students.ca.uky.edu/scholarships>.

### Academic Advising

Students in the College of Agriculture, Food and Environment are advised by selected faculty or academic coordinators in the department of the student's major. Students needing assistance selecting an advisor or general information about academics may visit the Center for Student Success.

Inquiries about programs or majors within the College of Agriculture, Food and Environment may be directed to:

**College of Agriculture, Food  
and Environment  
Center for Student Success  
N24 Ag. Science Center  
University of Kentucky  
Lexington, KY 40546-0091  
859-257-3468**

### Dean's List

A student who completes at least 12 credits of "letter" grades with a 3.50 or higher grade-point average with no **I** grades listed for the fall or spring semester will be named to the Dean's List in the College of Agriculture, Food and Environment. CLEP, AP, special exam and Independent Study credits are excluded. The student's cumulative grade-point average is not considered; only the grade-point average for that particular semester is relevant. Exceptional circumstances including fewer than 12 credits will be considered for inclusion on the Dean's List; students should contact the Center for Student Success for more information.

### Graduate Work

The College of Agriculture, Food and Environment offers the Master of Science degree in the following areas: Agricultural Economics, Animal and Food Sciences, Biosystems and Agricultural Engineering, Community and Leadership Development, Entomology, Family Sciences, Forestry, Integrated Plant and Soil Science, Nutrition and Food Systems, Plant Pathology, Retailing and Tourism Management, Science Translation Outreach, and Veterinary Science.

Doctor of Philosophy degrees are offered in the following areas: Agricultural Economics, Animal and Food Sciences, Biosystems and Agricultural Engineering, Entomology, Family Sciences, Integrated Plant and Soil Science, Plant Pathology, and Veterinary Science. For more information, visit The Graduate School website at: [www.research.uky.edu/gsl/](http://www.research.uky.edu/gsl/).

### MINIMUM REQUIREMENTS FOR GRADUATION

**NOTE:** Except where noted in specific degree programs, students pursuing a Bachelor of Science degree in the College of Agriculture, Food and Environment:

1. Complete UK Core and University graduation requirements;
2. Complete GEN 100: Issues in Agriculture, Food and Environment. Students who transfer into the College and have already completed the UK Core Community, Culture and Citizenship in the USA requirement are not required to take GEN 100;
3. Earn a minimum of 120 credit hours with at least a 2.0 cumulative grade point average and at least a 2.0 grade-point average in major specific courses. Note that "major-specific" refers to all premajor, major, and specialty/professional support courses. Further, note that some programs require more than the minimum 120 credit hours and have higher grade-point average requirements. Remedial courses **cannot** be counted toward the total hours required for the degree;
4. Complete a minimum of 24 credit hours of major required course work to include a capstone course or other culminating experience;
5. Complete a core of specialty or professional support courses outside their major totaling 18 or more hours at the 200 level or above;
6. Complete a graded, credit-bearing Academic Enrichment Experience (AEE) as specified by the degree program. The AEE may consist of a single course or could involve a series of related courses. Such experiences may include mentored research or teaching, supervised internships, directed service learning, or Education Abroad. Some programs may choose to accept course work from other programs to satisfy this requirement; and
7. Complete a minimum of 45 graded credit hours from upper division courses (300 level and above). Note that some such courses are only offered for P/F grading; in that case, such courses can be counted toward this requirement at the discretion of the College.

### B.S. in Agriculture with a major in INDIVIDUALIZED PROGRAMS

Individualized program opportunities have been developed to assist students with academic goals that cross several disciplines.

The procedure for entering an individualized program is as follows:

1. Each student must apply to the Associate Dean for Instruction. The student will receive an explanation of the program and its objectives, and the possible risks involved, including prospective employment and acceptance for advanced graduate degree work.
2. Students who continue their interest in the individualized program develop, with the assistance of an advisor, the plan which they propose to follow.
3. This plan must be submitted to the Associate Dean for consideration and possible approval.
4. Approval of the student's program by the Associate Dean will admit the student to the individualized program option.

For more information, contact:

**College of Agriculture, Food  
and Environment  
Center for Student Success  
N24 Ag. Science Center  
University of Kentucky  
Lexington, KY 40546-0091  
859-257-3468**

### BACHELOR OF SCIENCE IN AGRICULTURAL AND MEDICAL BIOTECHNOLOGY

Agricultural and medical biotechnology encompasses cellular and molecular approaches to the manipulation and improvement of agricultural plants, animals and microorganisms, and the control of agricultural pests and diseases. The primary purpose of the baccalaureate degree program in Agricultural and Medical Biotechnology is to train students in modern cellular and molecular biology and genetic engineering. Students will be provided with a firm foundation in the principles of genetics and molecular biology of both prokaryotic and eukaryotic organisms. Each student will then specialize in an area appropriate to his or her interest and career objectives, including: microbial, fungal, plant, insect and mammalian biotechnology.

Graduates will be prepared to assume government, university, and industry positions with research and technology applications to agriculture and food production. Employment opportunities include research scientists, laboratory technicians or managers in university, government, industrial, or clinical laboratories using biotechnological tools for research and production. Examples of re-

search areas include: gene cloning, construction of novel pest and disease resistance genes, development of new immunological and nucleic acid types of diagnostic probes for plant and animal disease, genetic engineering of microorganisms for the production of important pharmaceutical agents, and development of new bioengineered strains of microorganisms for fermentation and food production services. Students will also be prepared to enter graduate programs in agriculture, molecular biology, and the biological sciences.

### Graduation Requirements

To earn a Bachelor of Science in Agricultural and Medical Biotechnology the student must complete 125 semester hours with at least a 2.0 grade-point standing. A minimum of 45 credit hours must be from upper division courses (300 and above). Remedial courses may **not** be counted toward the total hours required for the degree. In addition to the UK Core requirements, students must complete college, premajor, major, and specialty support requirements, including an independent research project relevant to the student's interest in biotechnology.

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

ABT 395 Independent Study in Biotechnology  
or  
ABT 399 Experiential Learning in Biotechnology ..... 3  
All students are expected to undertake an independent study project in an area of their interest for a minimum of 3 credit hours. This requirement can be met by a research project or an internship that is agreed upon by a student's advisor and

approved by the Biotechnology Coordinating Committee prior to initiation of the project. Both written and oral reports are required when the project is completed.

**Subtotal: Major hours** ..... **34-35**

### Specialty Support

### Hours

Students must take a minimum of 21 credit hours of specialty support courses that will be selected according to the student's area of interest with the approval of the academic advisor. Of these 21 credits, a maximum of 9 credits may be ABT prefixed courses. Of the 21 credits, a maximum of 6 credits may be research credits. The remaining 15 credits must be in regularly scheduled courses.

**Subtotal: Specialty Support hours** ..... **21**

### Electives

Electives should be selected to complete the 125 hours required for graduation.

**Subtotal: Electives** ..... **7-10**

**TOTAL HOURS:** ..... **125**

## BACHELOR OF SCIENCE IN AGRICULTURAL ECONOMICS

The Agricultural Economics program enables graduates to pursue careers in agribusiness and food industries, international marketing and trade, farm management and production, and related opportunities. Opportunities are also available in public policy for agriculture and rural America and environmental economics. These career opportunities may be found in both the private and public sectors. Economic theory is applied to problems concerning the production, marketing, and distribution of agricultural and food products and also to public policy and natural resource and environmental issues facing rural communities.

Agricultural Economics students choose one of three options (1) Agribusiness Management & Food Marketing, (2) Agricultural Economics, or (3) Advanced Studies in Agricultural Economics.

### Graduation Requirements

To earn the Bachelor of Science in Agricultural Economics, students must have a minimum of 120 credit hours with at least a 2.0 grade-point average in either of the first two program options or at least a 3.4 grade-point average in the Advanced Studies option. Students must earn a minimum grade of **C** in each of the five agricultural economics courses required in the major. A minimum of 45 credit hours must be from upper division courses (300 and above). Remedial courses may **not** be counted toward the total hours required for the degree. In addition to UK Core requirements, students must complete college, departmental and support requirements.

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements. NOTE: Students who enter/transfer into the College and have already satisfied the UK Core Community, Culture and Citizenship in the USA requirement are not required to take GEN 100.

**OPTIONS**

**1. Agribusiness Management & Food Marketing Option**

This option provides a program of study for students interested in careers in marketing, sales, and management of farms or firms involved in production, financing, processing, marketing and distribution of food and agricultural products, depending on the electives chosen.

NOTE: MA 113 or MA 123 satisfies the UK Core Quantitative Foundations requirement and STA 296 satisfies the UK Core Statistical Inferential Reasoning requirement. Students must earn a C or higher in MA 113 or MA 123 to take AEC 303 and a C or higher in ECO 201 to take any AEC 300 level or higher course.

<b>Premajor Requirements</b>	<b>Hours</b>
CS 101 Introduction to Computing I .....	3
or B&E 105 Technology for Business Solutions .....	1
ECO 201 Principles of Economics I .....	3
ECO 202 Principles of Economics II .....	3
MA 113 Calculus I .....	4
<b>OR</b>	
MA 123 Elementary Calculus and Its Applications .....	4
and MA 162 Finite Mathematics and Its Applications .....	3
STA 296 Statistical Methods and Motivations .....	3
ECO 391 Economic and Business Statistics .....	3
<b>Subtotal: Premajor hours .....</b>	<b>17-22</b>

<b>Major Requirements</b>	<b>Hours</b>
NOTE: Students must receive a grade of C or better in AEC 302, AEC 303, AEC 305, AEC 306, and AEC 422 required for graduation.	
Students may count only one of the following towards their major requirements: AEC 324, AEC 325, AEC 326.	
AEC 301 Career Readiness for Agricultural Economics .....	1
AEC 302 Agricultural Management Principles .....	4
AEC 303 Microeconomic Concepts in Agricultural Economics .....	3
AEC 305 Food and Agricultural Marketing Principles ...	3
AEC 422 Agribusiness Management .....	3
plus 9 hours at the 300+ level .....	9
plus 3 hours at 400+ level .....	3
<b>Subtotal: Major hours .....</b>	<b>26</b>

<b>Academic Enrichment Requirement</b>	<b>Hours</b>
Choose one of the following:	
NOTE: Additional credit hours of AEC 399 beyond one (1) credit shall not count towards the AEC Major Requirements, but additional graded credit hours of AEC 395 or AEC 580 beyond one (1) credit may count towards that requirement.	
AEC 395 Independent Research in Agricultural Economics .....	1
AEC 396 International Studies in Agricultural Economics .....	1
AEC 399 Experiential Learning in Agricultural Economics .....	1
AEC 580 Special Problems in Agricultural Economics .....	1
<b>Subtotal: Academic Enrichment hours .....</b>	<b>1</b>

plus 3 hours at 400+ level .....	3
<b>Subtotal: Major hours .....</b>	<b>26</b>

<b>Academic Enrichment Requirement</b>	<b>Hours</b>
Choose one of the following:	
NOTE: Additional credit hours of AEC 399 beyond one (1) credit shall not count towards the AEC Major Requirements, but additional graded credit hours of AEC 395 or AEC 580 beyond one (1) credit may count towards that requirement.	
AEC 395 Independent Research in Agricultural Economics .....	1
AEC 396 International Studies in Agricultural Economics .....	1
AEC 399 Experiential Learning in Agricultural Economics .....	1
AEC 580 Special Problems in Agricultural Economics .....	1
<b>Subtotal: Academic Enrichment hours .....</b>	<b>1</b>

<b>Specialty Support</b>	<b>Hours</b>
ACC 201 Financial Accounting I .....	3
ACC 202 Managerial Uses of Accounting Information .....	3
plus 15 additional hours of courses at the 200 level or higher to fulfill the student's area of interest and selected with advisor's approval from the College of Agriculture, Food and Environment, the Gatton College of Business and Economics or the departments of COM, CS, GEO, MA, PPL, PS, PSY, SOC, STA, and WRD (excluding WRD 203) .....	15
<b>Subtotal: Specialty Support hours .....</b>	<b>21</b>

<b>Electives</b>	
Electives should be selected by the student to complete the minimum total of 120 hours required for graduation.	
<b>Subtotal: Electives .....</b>	<b>minimum of 19</b>
<b>TOTAL HOURS: .....</b>	<b>120</b>

### 3. Advanced Studies in Agricultural Economics Option

This option targets students who plan to pursue graduate study in law (JD), business (MBA), public policy (MPA), or other areas including agricultural economics (MS) and international affairs (MA). This option is only available to students who maintain at least a 3.4 cumulative grade-point average. Students that complete this option will receive Departmental Honors in Agricultural Economics. Students in this option that have at least a 3.5 grade-point average in their major coursework are eligible to apply at the end of their Junior year for admission to the Department's two University Scholars Programs where 12 credit hours from their undergraduate degree may also count towards a master's degree at UK in Agricultural Economics (MS) or international affairs (Patterson School). Students enrolled in the Lewis Honors College who complete this option will satisfy their 2nd Tier Honors requirements (6 credit hours), Honors Experience requirement (6 credit hours), and Honors Capstone requirement (3 credit hours).

**Important:** This option requires students to substitute 9 hours of lower-level major elective or specialty support credit with 9 hours of graduate-level course work completed for graduate credit and selected with their advisor's approval. Graduate-level courses include 500+ level AEC courses and non-AEC courses at the 400G level or higher.

NOTE: MA 113 satisfies the UK Core Quantitative Foundations requirement and STA 296 satisfies the UK Core Statistical Inferential Reasoning requirement. Students must earn a C or higher in MA 113 to take AEC 303 and a C or higher in ECO 201 to take any AEC 300 level or higher course.

#### Premajor Requirements Hours

ECO 201 Principles of Economics I .....	3

Accounting Information .....	3

plus 15 additional hours of courses at the 200 level or higher to fulfill the student's area of interest and selected with advisor's approval from the College of Agriculture, Food and Environment, the Gatton College of Business and Economics or the departments of COM, CS, GEO, MA, PPL, PS, PSY, SOC, STA, and WRD (excluding WRD 203) .....

**Subtotal: Specialty Support hours .....** 21

#### Electives

Electives should be selected by the student to complete the minimum total of 120 hours required for graduation.

**Subtotal: Electives .....** minimum of 20

**TOTAL HOURS: .....** 120

## BACHELOR OF SCIENCE IN ANIMAL SCIENCES

Animals have many important roles in human societies including the provision of food and fiber, draft power, recreational and athletic activities, and companionship. In addition, animals and their interactions with humans have environmental consequences. Processing, preservation, and quality of animal-derived foods significantly affect human health and economics. Animal Sciences involves studying and applying the basic principles of nutrition, reproduction, and genetics to the production and management of animals including horses, dairy and beef cattle, sheep, swine, poultry, and other domesticated species. Additional course work provides information on production and handling of animal-derived foods.

No one program fits all Animal Sciences students. Students come from varied backgrounds and their interests range from livestock and poultry production and management to marketing and public relations; from public education and extension to graduate training in research and teaching and veterinary medicine. No matter what species you have an interest in, the Animal Sciences major will allow you to combine your interest with your desire for an exciting and rewarding career.

As an Animal Sciences major, students have the opportunity to pursue specific interests by selecting one of three study options: Animal Industry, Food Industry or Pre-Professional. The Animal Industry option is for those students interested in animal production and management and allows specialization in one of three areas: livestock, equine, or dairy. The Food Industry option is designed to provide an emphasis on aspects of food processing, chemistry, and safety. The Pre-Professional option is a rigorous study program for students with interests in veterinary sciences, human medicine, and graduate research. Students must consult the pre-professional advisor or graduate school advisor of the university to which they intend on applying for additional or specific requirements.

#### Career Opportunities

To keep pace with the food, fiber, and recreation requirements of a growing world population, Animal Sciences graduates are needed in the livestock industry and closely related fields. The

Animal Sciences major offers considerable flexibility in fulfilling specific career objectives, whether you are interested in working directly with livestock or indirectly in closely related areas such as agribusiness, research, government, or education.

#### Graduation Requirements

To earn the Bachelor of Science in Animal Sciences, the student must have a minimum of 120 credit hours with at least a 2.0 grade-point standing. A minimum of 45 credit hours must be from upper division courses (300 and above). Remedial courses may **not** be counted toward the total hours required for the degree. In addition to UK Core requirements, students must complete college, departmental and specialty support requirements.

Each student must complete the following:

#### UK Core Requirements

See the **UK Core** section of this Bulletin for the complete **UK Core** requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

plus <b>one</b> of the following courses: ASC 333 Topics in Animal Science (Subtitle required).....	3
ASC 395 Special Problems in Animal Sciences.....	1-4
ASC 399 Experiential Learning in Animal Sciences.....	1-4
EAP 599 Study Abroad.....	1
GEN 300 Special Course.....	3
plus at least <b>three</b> of the following courses: ASC 340 Poultry Production.....	2
ASC 404G Sheep Science.....	4
ASC 406 Beef Cattle Science.....	4
ASC 408G Swine Production.....	3
ASC 410G Equine Science.....	3
ASC 420G Dairy Cattle Management.....	3
<b>Subtotal: Major hours</b> .....	<b>37-43</b>

In addition to the Major Requirements, students choose one of three options:

**OPTIONS**

**Option A – Animal Industry**

Students fulfilling the Major Requirements are eligible for the Animal Industry Option by taking certain required Specialty Support Courses (see below). In addition, students with more specific interests may, but are not required to, choose from three specializations available within this Option.

**No Specialization**

(required Specialty Support only; see below)..... 0

**Livestock Specialization**

ASC 300 Meat Science..... 4

and at least two from:

ASC 340 Poultry Production..... 2

ASC 404G Sheep Science..... 4

ASC 406 Beef Cattle Science..... 4

ASC 408G Swine Production..... 3

**Equine Specialization**

ASC 310 Equine Anatomy..... 3

ASC 320 Equine Management..... 3

ASC 410G Equine Science..... 3

**Dairy Specialization**

ASC 420G Dairy Cattle Management..... 3

ASC 564 Milk Secretion..... 3

**Subtotal: Option A hours**..... **0-5**

**Option B – Food Industry**

Students fulfilling the Major Requirements are eligible for the Food Industry Option by taking certain required Specialty Support Courses (see below) and:

ASC 300 Meat Science.....	4
FSC 107 Introduction to Food Science.....	3

**Subtotal: Option B hours**..... **7**

**Option C – Pre-Professional**

Students fulfilling the Major Requirements are eligible for the Pre-Professional Option by taking certain Specialty Support Courses (see below). Students must consult the pre-professional advisor or graduate school advisor of the university to which they intend on applying for additional or specific requirements.

**Specialty Support**

**Animal Industry Option**

CHE 230 Organic Chemistry I or CHE 236 Survey of Organic Chemistry.....	3
Depending on the student’s area of interest and subject to the advisor’s approval, additional courses at the 200-level or above may be selected from biochemistry, biology, chemistry, physics, statistics, or any agriculture-related area other than Animal Sciences.....	15

**Food Industry Option**

CHE 230 Organic Chemistry I or CHE 236 Survey of Organic Chemistry.....	3
FSC 304 Animal Food Products.....	4
Depending on the student’s area of interest and subject to the advisor’s approval, additional courses at the 200-level or above may be selected from biochemistry, biology, chemistry, physics, statistics, or any agriculture-related area other than Animal Sciences.....	12

**Pre-Professional Option\***

BIO 304 Principles of Genetics or ABT/ENT 360 Genetics.....	3-4
CHE 230/231 Organic Chemistry and Laboratory I.....	4
CHE 232/233 Organic Chemistry and Laboratory II.....	4
PHY 211 General Physics.....	5
PHY 213 General Physics.....	5

\*Students must consult the pre-professional advisor or graduate school advisor of the university to which they will apply for additional or specific requirements.

**Subtotal: Specialty Support**..... **18-22**

**Electives**

Electives should be selected to complete the 120 hours required for graduation.

**Subtotal: Electives**..... **minimum of 18**

**TOTAL HOURS:**..... **120**

**BACHELOR OF SCIENCE IN BIOSYSTEMS ENGINEERING**

Biosystems engineering provides an essential link between the biological sciences and the engineering profession. This linkage is essential for the development of production and processing systems involving biological materials that preserve our natural resource base. Students have the latitude to develop an area of specialization relating to bioenvironmental engineering, food and bioprocessing, machine systems, or controlled environment engineering. The curriculum is also

ideal preparation for those students wanting to pursue a graduate or professional degree in biomedical engineering or veterinary medicine through pre-biomedical engineering and pre-veterinary medicine options.

The degree requirements and curriculum are listed in the *College of Engineering* section of this Bulletin.

**BACHELOR OF SCIENCE IN CAREER AND TECHNICAL EDUCATION**

Students pursuing a degree in Career and Technical Education complete courses in education and agriculture. Graduates with this degree pursue careers in both formal and informal education of agriculture. Formal education opportunities include teaching in the middle school or high school classroom. Informal education opportunities include working in Extension and the public or private sectors of industry. In addition to receiving the degree, graduates attain Rank III teaching certification in Agricultural Education.

**Teacher Certification**

Besides receiving the B.S. in Career and Technical Education, students completing the requirements obtain a letter of endorsement to teach agricultural education.

Requirements for teacher certification are as follows:

You must be admitted to the teacher education program (TEP) after you have completed, or complete during the semester in which you apply, 60 semester hours of course work and AED/FCS 110 Introduction to Career and Technical Education and have at least a 2.75 grade-point standing (on a 4.0 scale). See a full description of “Admission, Retention, and Completion from Teacher Education Programs” in the *College of Education* section of this Bulletin.

Applicants are evaluated on an interview, recommendations, scholastic achievement, demonstrated skills, and professional commitment and goals. A student’s progress is continuously monitored, assessed, and reviewed throughout the teacher education program as described in the Teacher Education Programs section of this Bulletin. You must successfully complete assessment items and portfolio items as required. Further, you must successfully complete the Principles of Learning and Teaching Exam and a professional exam, scoring above cutoff scores specified by the State Board of Education for each exam. After completing these exams, students hired by Kentucky schools will complete a one-year paid internship as a first-year teacher and will be evaluated at least three times by a three-person committee before certification is completed.

**Note:** Because graduation and teacher certification requirements change frequently, students should obtain more complete information from their advisors.

**Graduation Requirements**

To earn the Bachelor of Science in Career and Technical Education, the student must have a minimum of 120 credit hours with at least a 2.75 grade-point average (required for Teacher Certification). A minimum of 45 credit hours must be from upper division courses (300 level and above). Remedial courses may **not** be counted toward the total hours required for the degree.

Students must complete the following:

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

\*ECO 201 is a prerequisite for AEC 302.

\*\*CHE 105 is a prerequisite for PLS 366.

**Specialty Support Requirements**

Students must complete one additional agricultural economics course, one additional animal sciences course, one additional agricultural engineering course, two additional plant and soil sciences courses, and three additional courses in the College of Agriculture, Food and Environment in consultation with your advisor.

**Subtotal: Specialty Support** ..... 24

Other agriculture majors can also qualify to teach agricultural education provided they meet current certification requirements.

**Electives**

Electives should be selected by the student to lead to the minimum total of 120 hours required for graduation

**Subtotal: Electives** ..... minimum of 7

**Total Minimum Hours for Program** ..... 120

## BACHELOR OF SCIENCE IN COMMUNITY AND LEADERSHIP DEVELOPMENT

Community and Leadership Development is an interdisciplinary social science major. It provides students with the knowledge and skills to integrate communications, sociology, journalism, and community development theories and apply them to real-world situations involving local communities and agricultural organizations.

The major focuses on such skills as written and oral communication; strategic problem solving; critical thinking; understanding of group, organizational, and community dynamics; and ethical decision making.

**Graduation Requirements**

To earn the Bachelor of Science in Community and Leadership Development, the student must have a minimum of 120 credit hours with at least a 2.0 grade-point average. A minimum of 45 credit hours must be from upper division courses (300 level and above). Remedial courses may **not** be counted toward the total hours required for the degree.

Students must complete the following:

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements. The UK Core courses listed below are **recommended** by the College to fulfill each area.

**I. Intellectual Inquiry in Arts and Creativity**

Choose **one** of the following:

A-S 245 Introduction to Web Design	
A-S 280 Introduction to Photographic Literacy	
LA 111 Living on the Right Side of the Brain .....	3

**II. Intellectual Inquiry in the Humanities**

Choose **one** of the following:

EGR 201 Literature, Technology, and Culture	
ENG 230 Introduction to Literature (Subtitle required)	
ENG 264 Introduction to Black Writers	
GWS 201 Gender and Popular Culture	
HIS 112 The Making of Modern Kentucky	
MCL 100 The World of Language .....	3

**III. Intellectual Inquiry in the Social Sciences**

CLD 102 The Dynamics of Rural Social Life ..... 3

**IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences**

Choose **one** of the following:

PLS 104 Plants, Soils, and People: A Science Perspective	
ANT 230 Introduction to Biological Anthropology	
BIO 102 Human Ecology	
GEO 130 Earth's Physical Environment	
GEO 135 Global Climate Change	
EES 120 Sustainable Planet: The Geology of Natural Resources .....	3

**Major Electives**  
Students must choose 12 hours of additional CLD courses in consultation with their advisor. Up to 3 credits as CLD 395 (Special Problems in Community and Leadership Development) or CLD 399 (Experiential Learning in Community and Leadership Development) may be counted as part of these 12 credits.

**Subtotal: Major Electives** ..... **12**

**Specialty Support**  
Depending on the student's area of interest and subject to his/her academic advisor's approval, he/she will complete 30 hours in related areas at the 200 level or higher.

**Subtotal: Specialty Support** ..... **30**

**Electives**  
Electives should be selected by the student to lead to the minimum total of 120 hours required for graduation

**Subtotal: Electives** ..... **24**  
**Total Minimum Hours for Program** ..... **120**

**BACHELOR OF SCIENCE IN  
EQUINE SCIENCE  
AND MANAGEMENT**

The horse industry is a dynamic industry that encompasses not only the breeding, raising and training of horses but also the development of activities for the use of the horse in sports and recreation. The industry has a significant economic impact across the U.S. and world-wide.

Equine science and management involves the study and application of science and business concepts to the horse industry. Additional course work supports learning in areas that aid in breeding and raising horses and marketing the industry. Students come from varied equine backgrounds but have a common interest in the horse. Regardless of which breed of horse or activity focus students have, equine science and management majors will have the opportunity to combine their interest in the horse with a desire to become active participants in the horse industry.

Students in equine science and management considering a career in veterinary medicine or graduate research can meet those goals in the degree program as well. Interested students need to consult with an advisor to ensure all specific academic requirements are met.

**Career Opportunities**  
The horse industry is continually changing. Equine science and management graduates are needed in all aspects of the industry including production, business management and other related support industries.

**Graduation Requirements**  
To earn the Bachelor of Science in Equine Science and Management, the student must have a minimum of 120 credit hours with at least a 2.0 grade-point average. A minimum of 45 credit hours must be from upper division courses (300 level and above). Remedial courses may **not** be counted toward the total hours required for the degree.

Students must complete the following:

**UK Core Requirements**  
See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

VS 500 Advanced Equine Reproduction .....	3
VS 507 Advanced Horse Genetics .....	2

**Subtotal: Emphasis hours** ..... **21**

**Equine Management and Industry**

Students will learn skills related to marketing, operations, and management of equine businesses. This will prepare students for careers as farm managers as well as business managers for equine enterprises, breed associations, and sales associates. This area also introduces them to the diversity of the equine industry through courses in equine law, sales, careers, event planning, marketing, and human resources.

AEC 305 Food and Agricultural Marketing Principles .....	3
AEC 312 Equine Markets .....	3
AEC 320 Agricultural Product Marketing and Sales or	
MKT 300 Marketing Management .....	3

CLD 530 Fundamentals of Organizational Leadership .....	3
EQM 300 Topics in Equine Science and Management .....	1-6
EQM 302 Equine Event Planning .....	1
<b>Subtotal: Emphasis hours .....</b>	<b>21</b>

**Specialty Support Requirement**

The student will choose, in consultation with an advisor, at least 18 hours of courses at the 200 level or above that will strengthen the program in an area of importance to the student. To aid in developing this area of study, a list of suggested courses is available from your advisor. The list includes courses in agricultural economics, animal sciences, community and leadership development, marketing, management, finance, plant and soil sciences plus other areas of study at UK.

**Subtotal: Specialty Support .....** 18

**Electives**

Electives should be selected by the student to lead to the minimum total of 120 hours required for graduation

**Subtotal: Electives .....** minimum of 3

**Total Minimum Hours for Program .....** 120

**BACHELOR OF SCIENCE IN  
FOOD SCIENCE**

Food science is the study of the transformation of biological materials into food products acceptable for human consumption. This requires studying diverse scientific disciplines related to food, including chemistry, engineering, microbiology, biochemistry, toxicology, and management; and effectively applying the industrial and practical aspects to product development, food processing, preservation, and marketing. The program is administered by the Department of Animal and Food Sciences and offers training in the basic sciences and in the fundamentals of food science.

Career opportunities in food industries include: management, research and development of new food products and ingredients, process supervision, quality control, procurement, distribution, sales, and merchandising. Positions include sales and services in allied industries; consulting and trade association activities; and promotional and educational services. Governmental agencies employ food scientists whose work is directed towards research, regulatory control, and the development of food standards.

**Graduation Requirements**

To earn the Bachelor of Science in Food Science, the student must complete a minimum of 120 semester hours with at least 45 hours from courses at the 300 level and above. A 2.0 grade-point standing (on a 4.0 scale) is necessary and remedial courses may **not** be counted toward the total hours required for the degree.

The Food Science program meets the requirements for accreditation by the Institute of Food Technologists and the National Organization of Food Science Professionals.

Each student must complete the following:

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**BACHELOR OF SCIENCE IN FORESTRY**

Kentucky boasts many forested areas with famous reputations, such as Natural Bridge, Red River Gorge, Daniel Boone National Forest, and Robinson Forest. Robinson Forest is one of the largest research and educational forests in the eastern United States. It is managed by the Department of Forestry and Natural Resources, and as a forestry student at the University of Kentucky all of its resources will be available to you as a unique outdoor laboratory.

The missions of the Department of Forestry and Natural Resources are to identify and address the challenges and opportunities facing sustained management of our renewable natural resources, including forests, soils, water, and wildlife. These missions involve three interrelated functions: research, extension, and education. The research goal of the department is to obtain basic and applied information leading to wise and effective management of our natural resources. Forestry extension seeks to inform land owners and the general public about forest stewardship. Forestry education prepares students for careers as forestry and natural resource professionals. The objectives of the required courses in the forestry curriculum are to educate and train students in the communication, managerial, scientific, processing, and administrative skills and principles related to the stewardship and utilization of renewable natural resources. Accomplishment of these objectives will ensure a continuing supply of entry-level professionals for Kentucky and the nation.

The undergraduate (B.S.) program leading to the professional degree in forestry is accredited by the Society of American Foresters (SAF). SAF is the specialized accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation as the accrediting agency for forestry in the United States. Additionally, you may become certified by The Wildlife Society if you choose appropriate elective courses.

**Career Opportunities**

Forestry graduates are employed as professional foresters in private forest industries and organizations, consulting companies, and public agencies, including the U.S. Forest Service, Soil Conservation Service, and state, county, or urban forestry programs. Graduates are also qualified to be research technicians in government, university, and private laboratories, or may continue their studies in specialized graduate programs.

The inclusion in the curriculum of management and processing principles makes UK forestry graduates attractive to the forest products industry; graduates are often employed as technical specialists, managers, and marketing and wood procurement personnel.

**Graduation Requirements**

To earn the Bachelor of Science in Forestry, the student must complete a minimum of 121 semester hours. A 2.0 grade-point standing (on a 4.0 scale) is necessary and remedial courses may **not** be counted toward the total hours required for the degree.

Students will complete a field semester in the spring of their junior year. Throughout the spring field semester, students will visit numerous sites to see different ecosystems in the region. Students will periodically return to one site, or sample property, that will be used for in-depth analysis to show integration and application of field semester concepts.

The curriculum consists of UK Core requirements, preprofessional, professional, and specialty support components. Preprofessional, professional, and specialty support courses provide the skills and understanding to manage forest resources. Electives, chosen with the assistance of your advisor, strengthen your knowledge of basic principles in areas of special interest to you.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Nine hours of professional electives. In general, the professional electives should be a 300-level or above course. If a student wants to take a course not on the forestry program's professional elective list, the student must receive approval from the Department of Forestry and Natural Resources Undergraduate Programs Committee.

**Subtotal: Professional electives** ..... 9

**Electives**

Elective courses should be selected by the student to lead to the minimum total of 121 hours required for graduation.

**Subtotal: Electives** ..... 3

**TOTAL HOURS:** ..... 121

## BACHELOR OF SCIENCE IN HORTICULTURE, PLANT AND SOIL SCIENCES

The Horticulture, Plant and Soil Sciences degree program is designed to provide students with the knowledge and skills needed for a career in the production and management of plants and soils for food, fiber, forage, oil, recreation, landscaping and the enhancement of the human environment. Graduates have the technical and scientific skills as well as the communication, computational, leadership, and interpersonal capabilities necessary to function effectively as professionals. Careers are as diverse as they are challenging. Each Option prepares graduates for specific professional opportunities.

**Options**

Students pursuing a Horticulture, Plant and Soil Sciences degree may choose from the following Options:

- Horticulture Enterprise Management
- Turfgrass Science
- Crops and Livestock
- Crop, Soil and Horticulture Science

**Graduation Requirements**

Students must complete a minimum of 120 semester credit hours with at least 45 credit hours from courses at the 300 level or above. A 2.0 grade-point standing (on a 4.0 scale) is necessary and remedial courses may **not** be counted toward the total hours required for the degree. In addition to the UK Core and college requirements, students must select an Option with the assistance of an advisor and fulfill the area's program requirements.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

An Introduction to Statistical Reasoning ..... 3

for the **Crop, Soil and Horticulture Science Option**, students take:

STA 296 Statistical Methods and Motivations ..... 3

**IX. Community, Culture and Citizenship in the USA**

GEN 100 Issues in Agriculture,  
Food and Environment ..... 3

**X. Global Dynamics**

Choose one course from approved list ..... 3

**UK Core hours** ..... 33

### Graduation Composition and Communication Requirement (GCCR)

PLS 490 Topics in Plant and Soil Science ..... 3

**Subtotal: Graduation Composition  
and Communication hours (GCCR)** ..... 3

In addition, the student must submit a proposed plan of study for the junior and senior years.

Premajor Requirements	Hours
CHE 105 General College Chemistry I	4
CHE 107 General College Chemistry II	3
CHE 111 General Chemistry I Laboratory	1
CHE 113 General Chemistry II Laboratory	2
MA 123 Elementary Calculus and Its Applications	4
<b>Subtotal: Premajor hours</b>	<b>14</b>

Students choose one of four Options in the Horticulture, Plant and Soil Science program – Horticulture Enterprise Management; Turfgrass Science; Crops and Livestock; and Crop, Soil and Horticulture Science. All students take the Major Requirements listed below. Then, depending on their Option, take specific courses and 21 hours of Specialty Support courses, some of which may be specified. Option requirements follow Major Requirements.

PLS 490 Topics in Plant and Soil Science ..... 3

**Subtotal: Graduation Composition  
and Communication hours (GCCR)** ..... 3

In addition, the student must submit a proposed plan of study for the junior and senior years.

### Horticulture Enterprise Management Option

PLS 100 An Introduction

to Horticulture Professions ..... 1

PLS 440 Plant Propagation ..... 3

PLS 525 Nursery and Floriculture Crop Production ..... 4

PPA 400G Principles of Plant Pathology ..... 3

Select 12 credit hours from the following courses:

PLS 320 Woody Horticultural Plants ..... 4

PLS 330 Herbaceous Horticultural Plants I ..... 2

PLS 332 Herbaceous Horticultural Plants II ..... 2

PLS 451 Landscape Management

and Arboriculture ..... 3

PLS 515 Turf Management ..... 3

PLS 520 Fruit and Vegetable Production ..... 4

Other PLS courses with consent of advisor

**Subtotal: Option hours** ..... 23

**Specialty Support Requirements**

Select 21 hours of courses with consent of advisor ..... 21

**Subtotal: Specialty Support** ..... 21

**Electives**

Elective courses should be selected by the student to lead to the minimum total of 120 hours required for graduation.

**Subtotal: Electives** ..... minimum of 1

**TOTAL HOURS:** ..... 120

### Turfgrass Science Option

PLS 514 Grass Taxonomy and Identification ..... 3

PLS 515 Turf Management ..... 3

PPA 400G Principles of Plant Pathology ..... 3

Select additional 9 credit hours of PLS courses ..... 9

**Subtotal: Option hours** ..... 18

**Specialty Support Requirements**

ENT 320 Horticultural Entomology ..... 3

CHE 226 Analytical Chemistry

or

CHE 236 Survey of Organic Chemistry ..... 3

Select additional 15 credit hours of specialty support

in consultation with academic advisor ..... 15

**Subtotal: Specialty Support** ..... 21

**Electives**

Elective courses should be selected by the student to lead to the minimum total of 120 hours required for graduation.

**Subtotal: Electives** ..... minimum of 1

**TOTAL HOURS:** ..... 120

### Crops and Livestock Option

PLS 510 Forage Management and Utilization ..... 3

Select 15 credit hours of additional PLS courses ..... 15

**Subtotal: Option hours** ..... 18

**Specialty Support Requirements**

CHE 236 Survey of Organic Chemistry ..... 3

Earn a minor in Animal Science ..... 18

**Minor in Animal Sciences****Prerequisites**

Note that several classes in Group A and Group B have prerequisites beyond/other than ASC 101. These are indicated in parentheses following the courses below. Students taking the minor are responsible for satisfying the prerequisites.

**Minor Requirements**

ASC 101 Domestic Animal Biology .....	3
ASC 102 Introduction to Livestock and Poultry Production ( <i>ASC 101</i> ) or	
ASC 382 Animal Production Principles .....	3
Additional Course Work .....	9

At least 9 credit hours must be selected from the list that follows (Groups A and B). At least one course must be selected from Group A and one course from Group B.

**Group A**

ASC 300 Meat Science ( <i>ASC 101, 102</i> ) .....	4
ASC 325 Animal Physiology ( <i>BIO 152</i> ) .....	3
ASC 362 Animal Breeding and Genetics ( <i>ASC 101 and BIO 152</i> ) .....	4
ASC 364 Reproductive Physiology of Farm Animals ( <i>ASC 101 and BIO 152</i> ) .....	4
ASC 378 Animal Nutrition and Feeding ( <i>ASC 101 and CHE 230 or 236</i> ) .....	3
ASC 380 Applied Animal Nutrition ( <i>ASC 378</i> ) .....	3

**Group B**

ASC 340 Poultry Production ( <i>ASC 101 or 102</i> ) .....	2
ASC 404G Sheep Science ( <i>ASC 300, 362, 364, 378</i> ) .....	4
ASC 406 Beef Cattle Science ( <i>ASC 300, 362, 364, 378</i> ) .....	4
ASC 408G Swine Production ( <i>ASC 101, 102</i> ) .....	3
ASC 410G Equine Science ( <i>ASC 310, 364, 378</i> ) .....	3
ASC 420G Dairy Cattle Management ( <i>ASC 325, 364, 378</i> ) .....	3

**Total Hours Required** ..... 15

Additional specialty support classes may be selected in consultation with your academic advisor for a total of 21 hours in specialty support.

**Subtotal: Specialty Support** ..... 21

**Electives**

Elective courses should be selected by the student to lead to the minimum total of 120 hours required for graduation.

**Subtotal: Electives** ..... minimum of 1

**TOTAL HOURS:** ..... 120

**Crop, Soil and Horticulture Science Option**

Select 18 hours of PLS courses with consent of advisor .....

**Subtotal: Option hours** ..... 18

**Specialty Support Requirements**

CHE 226 Analytical Chemistry or	
CHE 230 Organic Chemistry I or	
CHE 236 Survey of Organic Chemistry .....	3
STA 296 Statistical Methods and Motivations .....	3

An additional 15 credit hours of other science courses from the following list or other science courses selected with consent of advisor for a total of 21 hours:

BIO 304 Principles of Genetics .....	4
BIO 308 General Microbiology .....	3
BIO 315 Introduction to Cell Biology .....	4
BIO 430G Plant Physiology .....	4

EES 220 Principles of Physical Geology .....	4
PHY 211 General Physics .....	5
PHY 213 General Physics .....	5
CHE 231 Organic Chemistry Laboratory I .....	1
CHE 232 Organic Chemistry II .....	3
CHE 233 Organic Chemistry Laboratory II .....	1
<b>Subtotal: Specialty Support</b> .....	<b>21</b>

**Electives**

Elective courses should be selected by the student to lead to the minimum total of 120 hours required for graduation.

**Subtotal: Electives** ..... minimum of 1

**TOTAL HOURS:** ..... 120

**BACHELOR OF SCIENCE IN LANDSCAPE ARCHITECTURE**

The profession of landscape architecture has grown out of the tradition of the great garden designers of Italy, France, England, and China to encompass the art and science of design, planning, and management of the land. The *science* of landscape architecture is concerned with the conservation and management of natural resources. The *art* of landscape architecture is concerned with the creation of more enjoyable, comfortable, and safe outdoor areas where human use requires adaptation of the natural environment.

This four-year professional program is accredited by the American Society of Landscape Architects and meets all the requirements for licensing of landscape architects in Kentucky and other states. Landscape architecture employment opportunities may be found in the designing of urban communities, plazas, university campuses, institutional grounds, parks and recreational areas, commercial and industrial sites, and residential communities, as well as in the areas of historic preservation, regional planning, and mine reclamation.

**Admission Requirements**

Admission to the University of Kentucky and to the College of Agriculture, Food and Environment does not guarantee admission to the Landscape Architecture program. All applicants must be reviewed by the Landscape Architecture Program Chairperson. The number of applicants ultimately admitted is determined by the resources available to provide high quality instruction. Applicants will be reviewed on a comparative basis. Determination of acceptability into the program is based on the following.

**Entering freshmen and transfer students from degree programs other than Landscape Architecture must:**

- submit a formal application to the Undergraduate Admissions Office indicating Landscape Architecture as your major;
- meet the minimum criteria for admission or readmission to the University as specified in this Bulletin (The Landscape Architecture program requires a minimum of a 2.0 grade-point average on a 4.0 scale for eligibility to transfer into the program.); and

- successfully complete the aptitude testing designated by the Landscape Architecture program.

If a student transferring from another degree program has a background in related design fields, he or she may submit available work, such as a portfolio or other work examples, as an indication of potential success.

**Transfer students from degree programs in Landscape Architecture at other accredited institutions must:**

- submit a formal application to the Office of Undergraduate Admissions indicating Landscape Architecture as your major;
- meet the minimum criteria for admission to the University as specified in this Bulletin (The Landscape Architecture program requires a minimum of a 2.0 grade-point average on a 4.0 scale for eligibility to transfer into the program.); and
- submit a portfolio for review which, combined with an evaluation of courses completed, will determine acceptance into the program as well as the level to which the student will be accepted.

**Graduation Requirements**

To earn a Bachelor of Science degree in Landscape Architecture, the student must have 128 semester hours with at least a 2.0 grade-point standing (on a 4.0 scale). Remedial courses may **not** be counted toward the total hours required for graduation. In addition to satisfying the UK Core requirements, each student must complete pre-major, professional, and specialty support requirements. The Landscape Architecture program policy requires a student to achieve a C grade or better in major design studios in order to advance to the next level.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete **UK Core requirements**. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

LA 111 Living on the Right Side of the Brain .....

**II. Intellectual Inquiry in the Humanities**

Choose one course from approved list .....

**III. Intellectual Inquiry in the Social Sciences**

**Subtotal: Specialty Support .... minimum of 17****Electives**

Electives should be selected by the student to lead to the minimum total of 128 hours required for graduation. Electives may be chosen from the Landscape Architecture Topical Studies or other university courses at any level.

**Subtotal: Electives ..... minimum of 3****TOTAL HOURS: ..... 128****BACHELOR OF SCIENCE IN NATURAL RESOURCES AND ENVIRONMENTAL SCIENCE**

The program in Natural Resources and Environmental Science is designed to provide students with the knowledge and skills needed for a career in the rapidly growing fields of environmental science, natural resource management, and environmental policy. With global climate change and an inter-connected world economy, the conservation and management of our natural resources and sustainability of our natural environment is becoming an issue for all societies. This curriculum provides students with exposure to a broad array of disciplines that are essential in approaching issues of natural resources, environmental quality, and environmental sustainability. Experiential learning is a key component in the curriculum. As a result, graduates have the capacity to integrate perspectives and diverse bodies of knowledge in dealing with environmental resource management problems.

All students in the program take a common core of major requirements which is designed to provide exposure to technical and socioeconomic dimensions of natural resource management and policy. Important components of the core requirements are a required three-week summer camp, a pre-professional internship or research experience, and a senior capstone course that is problem based. In addition to the core requirements, all students must complete nine hours of course work in both an Analytical Skill Development Area (ASD) and an Environmental System Emphasis Area (ESEA). This allows students to match analytical skills to an area of particular interest in conservation biology, natural resource planning, environmental soil science, water resources, forestry, wildlife management, agricultural sustainability, geological processes, or related areas. Courses completed for the ASD and ESEA are selected from a list of choices in each area. Students are required to complete an off-campus internship or a research experience that is related to their ESEA and/or ASD. NRES majors have completed internships in several foreign countries, although most are conducted within the U.S. with organizations such as the National Park Service, the U.S. Forest Service, with local nature preserves, an Alaskan salmon recovery program, a national laboratory, environmental consulting firms, private corporations, and both state and

local governments. All seniors apply their course work and experiential learning to the senior capstone course which focuses on a well-defined natural resource issue, requires group collaboration and problem-solving, and involves actual stakeholders.

Graduates of the Natural Resources and Environmental Science degree program move on to graduate work or careers. Many graduates continue their studies in Masters or Ph.D. programs or go on to law school. Most graduates begin careers as aspiring environmental professionals in both the public and private sector. Additional employment opportunities exist in environmental education, journalism, and work with nonprofit organizations which have environmental concerns.

**Graduation Requirements**

To earn a Bachelor of Science in Natural Resources and Environmental Science, a student must complete at least 120 semester hours of credit with at least a 2.0 cumulative grade-point average. A minimum of 45 credits must be from upper division courses (300-level and above). Remedial courses may **not** be counted toward the total degree hours. In addition to the UK Core requirements, students must complete College requirements, premajor and major requirements, and complete an internship or research experience. With advisor approval, students select and Analytical Skill Development and an Environmental System Emphasis Area which focuses course work in a student's area of interest.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete **UK Core requirements**. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**Subtotal: Major hours ..... 44-47**

**Analytical Skill Development (ASD)  
 and Environmental System  
 Emphasis Areas (ESEA)**

Students must select one area within Analytical Skill Development and one Environmental System Emphasis Area and complete nine hours of course work in each area from the list of courses provided below. Students must select from the courses listed under each ASD and ESEA but may request one (1) substitute course per ASD and ESEA, subject to approval by both their academic advisor and the DUS. For the 18 hours of ASD and ESEA course work, all classes must be 200-level or above and at least twelve (12) credit hours must be in 300-level or above courses. Classes taken to complete the ASD requirement may not count towards the ESEA course requirement and vice versa. Research experiences, internships, or apprenticeships cannot be used to satisfy the ASD and ESEA requirements, including individualized options.

**Analytical Skill Development Areas**

**1. Economic and Policy Analysis**

Economic and Policy Analysis – The economic and policy analysis skill development area will provide students with the theoretical and analytical tools necessary to evaluate the economic and social effects of resource and environmental issues. The policy courses will help students understand how environmental policy is made, the public agencies that manage resources, and how policies are evaluated for impact on humans and the environment.

 and Natural Resources ..... 3  
 GEO 235 Environmental Management and Policy ..... 3  
 GEO 316 Environment and Development ..... 3  
 GEO 431 Political Ecology ..... 3

**2. Field and Laboratory Analysis  
 of Ecosystems**

Students will learn the theory and application of sample data collection and techniques, field and laboratory analysis, statistical analysis, and data interpretation required to evaluate the quality of water, soil, and ecosystem resources. This analytical skill development area is geared towards students pursuing careers as environmental science and protection scientists/technicians and forest and conservation scientists/technicians.

**3. Geospatial Analysis**

Geospatial technologies are often used in conjunction with traditional natural resource and environmental scientist job requirements. This development area will provide students with enhanced skills beyond the major requirements in the use of geospatial software, approaches, and products. Students will learn the theory and application required to address a variety of environmental conditions. This analytical skill development area is geared towards students wishing to pursue careers that depend on extensively applying geospatial technologies to natural resources and environmental science issues or advanced study in geospatial science.

**5. Individualized Analytical Skill  
 Development**

With advisor approval, a student may submit a request for an individualized ASD. The written proposal must include a memo explaining the rationale, a list of proposed courses for the ASD, an explanation of how those courses meet the intent of the ASD, and a copy of the student's Plan of Study which includes the proposed course work. The written proposal must be submitted to the DUS for Steering Committee approval.

**Environmental System Emphasis  
 Areas**

**1. Conservation Biology**

The conservation biology emphasis area will provide students with knowledge of the ecological underpinnings and organismal biology of conservation biology. Depending on the courses chosen, students will: (1) gain a solid foundation in field botany by learning tree identification and by developing a taxonomic framework for plant identification; (2) become familiar with the mammals, birds, reptiles and amphibians of Kentucky and surrounding states; (3) gain an introduction to the vegetation, flora and forests of Kentucky and surrounding states; and (4) develop an understanding of ecosystem pattern and process. Students who choose courses in this environmental systems emphasis area may be qualified

to pursue careers with organizations dedicated to the preservation, conservation, and management of habitat, and related rare species preservation. Other opportunities include nature preserve manager, natural resource educator, naturalist, biological inventories and assessment, and environmental consulting. This emphasis area also prepares students for graduate studies in ecology, evolutionary biology, zoology, or botany.

## 2. Forestry

The forestry emphasis area provides students with knowledge in dendrology (the study of trees) and silviculture (the cultivation, growing, and management of trees). In dendrology students will learn basic concepts of botany of woody species, and their use, along with basic soil and site characteristics used in the identification of trees and forest vegetation. In silviculture students will learn the basics of ecologically-based management of forest ecosystems to achieve a desired objective. Students who choose this emphasis area may be qualified to pursue careers in natural resource management with an emphasis on forest systems. [Note: Students with a B.S. in Forestry from a Society of American Foresters (SAF) accredited forestry program may be more competitive for certain forestry jobs. The NRES program is not an SAF accredited program.]

FOR 221 Winter Dendrology .....	1
FOR 255 Forest Fire .....	1
FOR 260 Forest Products and Wood Science .....	4
FOR 320 Forest Valuation and Economics .....	3
*FOR 350 Silviculture .....	4
FOR 400 Human Dimensions of Forestry and Natural Resources .....	3
FOR 425 Forest Management .....	4
ENT/FOR 502 Forest Entomology .....	3

\*Students are strongly encouraged to take these key courses.

## 3. Human Dimensions and Natural Resource Planning

The human dimensions and natural resource planning emphasis area will provide students with an understanding of the interaction between society and natural systems and provide students with the skills and knowledge for tomorrow's effective conservation leaders. This emphasis area does this by building upon the core NRES curriculum with course work and internship experience focused on land planning, legal aspects of land and water, landscape ecology, biogeography, and geospatial technologies. Private foundations and government entities are funding land conservation efforts, and increasingly, real estate developers and their consultants are incorporating land conservation into their development projects. There is a professional community working in a variety of capacities for conservation organizations globally and there is the opportunity for advanced study in a variety of graduate programs.

BIO/GEO 530 Biogeography and Conservation .....	3
CLD/SOC 340 Community Interaction .....	3
CLD/SOC 360 Environmental Sociology .....	3
CLD/SOC 420 Sociology of Communities .....	3
CLD/SOC 440 Community Processes and Communication .....	3
CLD/SOC 517 Rural Sociology .....	3
ENG 425 Environmental Writing .....	3

GEO 422 Urban Geography .....	3
GEO 431 Political Ecology .....	3
GEO 485G Urban Planning and Sustainability .....	3
GEO 490G American Landscapes .....	3
GEO/BIO 530 Biogeography and Conservation .....	3
GEO 531 Landscape Ecology .....	3
GEO 550 Sustainable Resource Development and Environmental Management .....	3
LA 307 Cultural Landscape Preservation .....	3
LA 308 Regional Land Use Planning Systems .....	3
SOC 363 Environmental Justice .....	3

## 4. Soil Science

Students choosing this emphasis area will learn about the dynamic and interrelated processes taking place within the thin skin of the Earth (i.e., Critical Zone) and the services provided by these processes to ensure adequate and sustainable feed, fuel and fiber production, clean air and water, and healthy habitats. Topics covered include bioremediation, phytoremediation, soil fertility, microbiology, soil chemistry, biogeochemistry, etc. Students completing this emphasis area will be equipped to evaluate soils for a range of management options, and be eligible for positions with public and private agencies (e.g., the Natural Resource Conservation Service, Environmental Protection Agency, U.S. Department of Agriculture, Environmental Consulting Firms, etc.)

PLS 396 Soil Judging .....	3
PLS 406 Advanced Soil Judging .....	1
PLS/NRE 455G Wetland Delineation .....	3
PLS 468G Soil Use and Management .....	3
PLS/NRE 470G Soil Nutrient Management .....	3
PLS 566 Soil Microbiology .....	3
PLS 573 Soil Morphology and Classification .....	3
PLS 575 Soil Physics .....	3
GEO 351 Physical Landscapes .....	3
EES 530 Low Temperature Geochemistry .....	3

## 5. Water Resources

The water resources emphasis area will provide students with a fundamental understanding of the hydrologic cycle so that students understand how climate, soils, vegetation, and land-use affect the amount, timing and quality of water. Use of this information is important in natural resource management so that one may determine where water resource management objectives are compatible and where they conflict with other resource management objectives. Ultimately, students will gain an understanding of the role of watershed management and multiple use in planning and implementing natural resource programs while becoming familiar with current issues in watershed management and water resources.

PLS/NRE 455G Wetland Delineation .....	3
PLS 573 Soil Morphology and Classification .....	3
PLS 575 Soil Physics .....	3

## 6. Wildlife Ecology and Management

This emphasis area will provide opportunities for students to gain knowledge and experience, understand fundamental concepts, and develop basic skills in the area of wildlife ecology and management. The curriculum provides students with the option to meet certification requirements to become a registered Associate Wildlife Biologist with The Wildlife Society. To do this, students will need to complete additional course work. For more information visit: <http://wildlife.org/learn/professional-development-certification/certificationprograms/>

FOR/GEO 570 Landscape Ecology for Natural Resources .....	3

## 7. Global Sustainable Food Systems

Students who choose this area will be exposed to basic principles in sustainable agriculture, issues in global food systems (e.g., food security) and the ecology of agricultural systems, emphasizing the overlap and complementarities between systems emphasized through NRES major requirements and food production systems. Some students choosing this ESEA may want to obtain the minor in Sustainable Agriculture, which requires the selection of SAG 210 (not listed below because all 9 credits must be 200 or above), in addition to SAG 310 and 386.

AEC 309 International Agriculture, World Food Needs and U.S. Trade in Agricultural Products .....	3
AEC 532 Agricultural and Food Policy .....	3
CLD/SOC 360 Environmental Sociology .....	3
DHN 318 Hunger, Food Behavior, and the Environment .....	3
ENT/BIO 300 General Entomology .....	3
ENT 310 Insect Pests of Field Crops .....	3
PLS 404 Integrated Weed Management .....	4
SAG 310 Cultural Perspectives on Sustainability .....	3
SAG/PLS 386 Plant Production Systems .....	4
SAG 390 Agroecology .....	3

## 8. Earth System Sciences

The Earth Systems Science emphasis area will provide context for understanding the processes that operate within and at the interface between Earth's lithosphere, biosphere, hydrosphere, and atmosphere, i.e., the environments in which bedrock, soil, organisms, water, and air interact. Students pursuing this area of emphasis may choose to pursue the minor in Geological Sciences, which can be partly satisfied with NRES required courses EES 220 and PLS 366, plus EES 230 and 235, and an additional 5 credits at the 300

level or higher in Earth and Environmental Sciences (EES) or a related field. All courses listed below at the 300+ level would count toward the minor. Students who take EES 385 among their NRES major requirements may also count this course toward the minor.

EES 230 Fundamentals of Geology I	3
EES 235 Fundamentals of Geology II	3
EES 323 Field Work in Regional Geology	6
EES 345 Paleoclimatology: The Science	3
EES 360 Mineralogy	4
EES 450G Sedimentary Geology	4
EES 530 Low Temperature Geochemistry	3
EES 550 Fundamental Geophysics	3
EES 585 Hydrogeology	3
GEO 331 Global Environmental Change	3
GEO 351 Physical Landscapes	3
PLS 450G Biogeochemistry	3

**9. Individualized System Emphasis Area**

With advisor approval, a student may submit a request for an individualized ESEA. The written proposal must include a memo explaining the rationale, a list of proposed courses for the ESEA, an explanation of how those courses meet the intent of the ESEA, and a copy of the student’s Plan of Study which includes the proposed course work. The written proposal must be submitted to the DUS for Steering Committee approval.

<b>Subtotal: Analytical Skill Development and Environmental System Emphasis Areas</b>	<b>18</b>
---	-----------

**Electives**

Free elective courses should be selected by the student to lead to the minimum total of 120 hours required for graduation.

<b>Subtotal: Electives</b>	<b>7-9</b>
<b>TOTAL HOURS:</b>	<b>120</b>

**BACHELOR OF SCIENCE IN SUSTAINABLE AGRICULTURE AND COMMUNITY FOOD SYSTEMS**

This interdisciplinary, interdepartmental program in the College of Agriculture, Food and Environment is grounded in the framework integrates three conceptual “pillars”: environmental stewardship, economic profitability, and social responsibility. Sustainable Agriculture and Community Food Systems core courses are designed to integrate these perspectives at the introductory, intermediate, and capstone levels. The remainder of the curriculum leverages external courses within each of these “three pillars” of sustainability, in addition to UK Core and premajor requirements.

Specialty support credits are recommended along two tracks: 1) Farming Systems – for students seeking focus on sustainable production methods and biophysical systems; and 2) Community Food Systems – for students seeking focus on food systems issues beyond the “farm gate”, including access, food security, and hunger issues. Experiential learning is emphasized throughout the program, through the course work and faculty advising directing independent research (395-level) and EXP 399 credit, as well as Education Abroad offerings. Graduates of the B.S. in Sustainable Agriculture and Community Food

Systems are prepared for careers in farming, the non-profit sector, Cooperative Extension, local government, on-farm conservation service providers, and graduate studies in their track area.

**Graduation Requirements**

Students must complete a minimum of 120 semester credit hours with at least 45 credit hours from courses at the 300 level or above. A 2.0 grade-point standing (on a 4.0 scale) is necessary and remedial courses may **not** be counted toward the total hours required for the degree. In addition to the UK Core and college requirements, students must select an Option with the assistance of an advisor and fulfill the area’s program requirements.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

Choose one course from approved list ..... 3

**II. Intellectual Inquiry in the Humanities**

Choose one course from approved list ..... 3

**III. Intellectual Inquiry in the Social Sciences**

Recommended:

- \*CLD 102 The Dynamics of Rural Social Life  
or
- \*SOC 101 Introduction to Sociology ..... 3

**IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences**

Choose one course from approved list ..... 3

### Electives

Free electives may be chosen as needed to achieve at least 120 credit hours.

<b>Subtotal: Elective hours .....</b>	<b>12</b>
<b>TOTAL HOURS: .....</b>	<b>120</b>

## MINORS IN AGRICULTURE, FOOD AND ENVIRONMENT

### Minor in Agricultural Economics

#### Preprofessional Requirement Hours

ECO 201 Principles of Economics I .....	3
---	---

#### Minor Requirements

Two courses selected from:

AEC 302 Agricultural Management Principles .....	4
AEC 303 Microeconomic Concepts in Agricultural Economics .....	3
AEC 305 Food and Agricultural Marketing Principles .....	3

In addition, students should select 9 hours from other agricultural economics courses. A maximum of 3 credit hours from AEC 312, 313, 314, 315, or 341 may be credited to the minor. AEC 399 may not be included.

### Minor in Animal Sciences

#### Prerequisites

Note that several classes in both Group A and Group B have prerequisites beyond ASC 101. These are indicated in parenthesis following the courses below. Students taking the minor are responsible for satisfying the prerequisites.

#### Minor Requirements Hours

ASC 101 Domestic Animal Biology .....	3
ASC 102 Introduction to Livestock and Poultry Production ( <i>ASC 101</i> ) <b>or</b> ASC 382 Animal Production Principles .....	3
Additional Course Work .....	9

At least 9 credit hours must be selected from the list that follows (Groups A and B). At least one course must be selected from Group A and one course from Group B.

#### Group A

ASC 300 Meat Science ( <i>ASC 101, 102</i> ) .....	4
ASC 325 Animal Physiology ( <i>BIO 152</i> ) .....	3
ASC 362 Animal Breeding and Genetics ( <i>ASC 101 and BIO 152</i> ) .....	4
ASC 364 Reproductive Physiology of Farm Animals ( <i>ASC 101 and BIO 152</i> ) .....	4
ASC 378 Animal Nutrition and Feeding ( <i>ASC 101 and CHE 230 or 236</i> ) .....	3
ASC 380 Applied Animal Nutrition ( <i>ASC 378</i> ) .....	3

#### Group B

ASC 340 Poultry Production ( <i>ASC 101 or 102</i> ) .....	2
ASC 404G Sheep Science ( <i>ASC 300, 362, 364, 378</i> ) .....	4
ASC 406 Beef Cattle Science ( <i>ASC 300, 362, 364, 378</i> ) .....	4
ASC 408G Swine Production ( <i>ASC 101, 102</i> ) .....	3
ASC 410G Equine Science ( <i>ASC 310, 364, 378</i> ) .....	3
ASC 420G Dairy Cattle Management ( <i>ASC 325, 364, 378</i> ) .....	3

<b>Total Hours Required .....</b>	<b>15</b>
-----------------------------------	-----------

## Minor in Community and Leadership Development

The minor in Community and Leadership Development requires 15 hours as follows:

	Hours
Select three of the following courses:	
CLD 260 Community Portraits .....	3
CLD 320 Community and Communication: Exploring Their Intersections .....	3
CLD 370 Learning in Society .....	3
CLD 430 Leading in Communities: Vision, Action, and Change .....	3
Students must choose 6 hours of additional CLD courses at the 300 level and above, in consultation with their advisor.	
<b>Total Hours Required .....</b>	<b>15</b>

### Minor in Entomology

#### Premajor Requirement Hours

Two semesters of introductory biology .....	6
---	---

#### Minor Requirements

Required: .....	15
ENT 300 General Entomology .....	3

Select the remaining credits (12 hours) from:

ENT 310 Insect Pests of Field Crops .....	3
ENT 320 Horticultural Entomology .....	3
ENT 340 Livestock Entomology .....	2
ENT 360 Genetics .....	3
ENT 395 Independent Work .....	1-3
ENT 502 Forest Entomology .....	3
ENT 530 Integrated Pest Management .....	3
ENT 561 Insects Affecting Human and Animal Health .....	3
ENT 563 Parasitology .....	4
ENT 564 Insect Taxonomy .....	4
ENT 568 Insect Behavior .....	3
ENT 574 Advanced Applied Entomology .....	4

### Minor in Food Science

#### Required Courses Hours

FSC 535 Food Analysis <b>or</b> .....	4
FSC 434G Food Chemistry .....	4
FSC 530 Food Microbiology .....	5
FSC 536 Advanced Food Technology <b>or</b> FSC 538 Food Fermentation .....	4

#### Elective Courses

Two of the following:	
FSC 306 Introduction to Food Processing .....	4
AEN 340 Principles of Food Engineering .....	4
*FSC 535 Food Analysis <b>or</b> *FSC 434G Food Chemistry .....	4
*FSC 536 Advanced Food Technology <b>or</b> .....	4
*FSC 538 Food Fermentation .....	4

*\*If not taken as one of the required courses.*

**Minor in Pest Management**

**Prerequisite** **Hours**

One course from the following:  
 ASC 320, 404G, 406, 408G, 420G  
 PLS 352, 386, 402, 408, 512, 515, 520, 525, 556 ..... 2-4

**Minor Requirements**

ENT 300 General Entomology .....	3
PLS 404 Integrated Weed Management .....	4
PPA 400G Principles of Plant Pathology .....	3
Select at least 9 hours from the following:	
ENT 310 Insect Pests of Field Crops .....	3
ENT 320 Horticultural Entomology .....	3
ENT 340 Livestock Entomology .....	2
ENT 502 Forest Entomology .....	3
ENT 530 Integrated Pest Management .....	3
ENT 574 Advanced Applied Entomology .....	4
PPA 595 Epidemiology and Control of Plant Diseases .....	4
VS 351 Principles of Animal Hygiene and Disease Control .....	3
PLS 470G Soil Nutrient Management .....	3
ASC 378 Animal Nutrition and Feeding .....	3

**Minor in Plant and Soil Science**

**Premajor Requirement** **Hours**

CHE 105 General College Chemistry I ..... 4

**Minor Requirements**

Required: ..... 18

PLS 104 Plants, Soils, and People:  
A Science Perspective ..... 3

PLS 210 The Life Processes of Plants  
or  
BIO 152 Principles of Biology II ..... 3

PLS 366 Fundamentals of Soil Science ..... 4

plus 9 more hours of plant and soil science courses chosen from the following prefixes: PLS, PPA.

**Minor in Sustainable Agriculture**

The minor in Sustainable Agriculture requires 21 to 23 hours as follows:

**Minor Prerequisite** **Hours**

ECO 201 Principles of Economics I ..... 3

**Minor Requirements**

Required: ..... 9

SAG 210 Introduction to Sustainable Agriculture  
and Community Food Systems ..... 3

SAG 310 Cultural Perspectives on Sustainability ..... 3

SAG 397 Apprenticeship in Sustainable Agriculture ..... 3

Select one from:

GEO 235 Environmental Management and Policy ..... 3

\*PLS 366 Fundamentals of Soil Science ..... 4

Select one from:

AEC 302 Agricultural Management Principles ..... 4

AEC 305 Food and Agricultural  
Marketing Principles ..... 3

AEC 445G Introduction to Resource  
and Environmental Economics ..... 3

Select one from:

\*\*SOC 360 Environmental Sociology ..... 3

GEN 501 Agricultural and Environmental Ethics ..... 3

\*Prerequisite: CHE 105.

\*\*Prerequisite: SOC 101.

**Minor in Technical Systems Management**

The minor in Technical Systems Management requires 15 hours as follows:

**Required**

TSM 101 Introduction to Technical Systems Management .....	1
TSM 252 Fabrication and Construction for Technical Systems .....	3
plus 11 or more hours from the following:	
TSM 203 Basic Principles of Surveying .....	3
TSM 220 Principles of Internal Combustion Engines ...	3
TSM 340 Principles of Food Engineering .....	4
TSM 341 Brewing Science and Technology .....	3
TSM 370 Fundamentals of Occupational Safety and Health .....	3
TSM 461G Biometeorology .....	3

**Minor in Wildlife Biology and Management**

The minor in Wildlife Biology and Management requires 21 hours of course work as follows:

**Prerequisite** **Hours**

BIO 148 Introductory Biology I ..... 3

**Requirements**

FOR 101 Introduction to Wildlife Conservation .....	3
FOR 370 Wildlife Biology and Management .....	4
FOR 435 Conservation Biology .....	3
Two of the following courses:	
FOR 510 Herpetology .....	4
FOR 520 Mammals of the Eastern United States .....	4
BIO 559 Ornithology .....	4

**Electives**

One of the following courses:

BIO 303 Introduction to Evolution .....	4
BIO 325 Ecology .....	4
BIO 375 Behavioral Ecology and Sociobiology .....	3
BIO 555 Vertebrate Zoology .....	5
*FOR 340 Forest Ecology .....	4
*FOR 400 Human Dimensions of Forestry and Natural Resources .....	3
FOR 530 Freshwater Ecology .....	3
FOR 540 Urban Ecology .....	3
FOR 550 U.S. Biodiversity Hotspots .....	3
FOR/GEO 570 Landscape Ecology for Natural Resources .....	3
NRE/LA 556 Contemporary Geospatial Applications for Land Analysis .....	3

\*Forestry majors may not select FOR 340 or FOR 400 to count towards the Minor Electives. Forestry majors must select one of the other courses listed under the Minor Electives.

**Undergraduate Certificate in Distillation, Wine and Brewing Studies**

The Undergraduate Certificate in Distillation, Wine and Brewing Studies (DWBS) is inclusive of students from all departments and colleges at UK. The Departments of Animal and Food Sciences; Biosystems and Agricultural Engineering; Chemistry; Chemical and Materials Engineering; History; Horticulture; Plant and Soil Sciences; Retailing and Tourism Management; and Writing, Rhetoric and Digital Studies are all engaged in DWBS. Three key student learning outcomes comprise the DWBS and are accomplished through a cluster of courses:

- Students will comprehend the breadth of the career opportunities in the DWBS industry.
- Students will be able to identify key technical methods and analytical skills required in the DWBS industry.
- Students will be capable of outlining the history of DWBS and clearly explain how this relates to human cultures.

UK is offering this program because, (a) this industry represents the science of one of the oldest products linked to human civilization; thus, education opportunities span a breadth of disciplines; and (b) this is a global industry that provides a wide and interdisciplinary range of careers. The curriculum was developed due to an urgent need to train people in this area as identified by the local industries. The Bluegrass is home to nearly 95 percent of the production of bourbon, one of the world's premier distilled spirits. There are over 70 wineries in the area as well, in addition to numerous large and small breweries. The program is suited to an undergraduate certificate rather than a minor because the undergraduate certificate creates a framework for students from programs across the UK to gain a certificate without changing their major/minor of interest, which is congruent with the interdisciplinary nature of the career opportunities available in this space.

The DWBS is affiliated with the Department of Horticulture in the College of Agriculture, Food and Environment (CAFE). The DWBS will complement the undergraduate B.S. program in Horticulture, Plant and Soil Science by providing additional opportunities for students already interested in these industries (e.g., in wine-growing) to delve into the related areas of wine-making.

Distillation, wine and brewing industries form a multi-billion dollar industry with a myriad of careers in science, engineering and the arts. Regionally, Kentucky is famous for bourbon production and in 2013 the industry surpassed 5 million barrels in over 40 distilleries worth more than \$8 billion/year. Current estimates suggest Kentucky employment may now number 10,000 within the bourbon industry alone.

## Undergraduate Certificate in Distillation, Wine and Brewing Studies

Further, approximately 25 new craft and full scale distillers are opening in the coming year with a shortage of trained intellectual infrastructure identified recently as a major hurdle to growth (by the Kentucky Distillers Association Technical Committee Meeting). There are over 70 wineries that also demand trained and knowledgeable employees, and a thriving craft beer movement has been established in the past 5 years.

Despite Kentucky being a landmark destination for producers, few courses focused on this industry have been delivered in the past at UK. The proposed certificate pedagogy will engage an inter-disciplinary team that will align certificate enrollees with skills and knowledge of career options. Intellectual infrastructure will immediately benefit the career opportunities and serve a rapidly growing industry.

The DWBS certificate program is designed to be applicable across many of the current UK academic majors. Most obviously, the DWBS would serve students in the colleges of Agriculture, Food and Environment; Arts & Sciences; Business & Economics; Education; and Engineering. However the DWBS is designed to also attract students from other colleges and units based on interest.

### Distilling, Wine and Brewing Studies Curriculum

The Certificate in Distilling, Wine and Brewing Studies curricula are as follows:

- A minimum of 12 credits of course work taken for a letter grade.
- At least 12 credits must be 200 level or above, and a minimum of 6 credits must be at the 300-level or above.
- The student must complete a 3-credit breadth component. The breadth component requires that a student take courses in at least two colleges, with a minimum of three credits to be completed in a discipline other than the student's major.
- Student must earn a C or better in each required certificate course to receive the certificate.
- Certificates will only be awarded to students who successfully complete a degree, or have completed a four-year degree.
- No more than 9 credits taken for a certificate can be used to satisfy the requirements for the student's bachelor's degree, a minor, or another certificate, exclusive of free or unrestricted electives.

Course	Credit Hours	Term Offered	Minimum Age
<b>Required Courses</b>			
A&S 306 Spirit Chemistry	3	Fall	
PLS 335 Distillation, Wine and Brewing Science	3	Fall	
<b>Elective Courses</b>			
Select 6 hours from the following:			
AEN/TSM 341 Brewing Science and Technology	3	Spring	
FSC 430 Sensory Evaluation of Foods	3	Fall (even years)	
FSC 538 Food Fermentation	4	Spring	
FSC 540 Food Sanitation	3	Fall (even years)	
PLS 336 Introduction to Viticulture – Grape Production	3	Spring	
PLS 337 Introduction to Enology: Wine Production	3	Fall	21
HMT 420 Beer, Wine and Spirits Tourism Principles and Practice	3	Fall	21
PLS 389 Wine Appreciation	3	Fall/Spring	21
PLS 395 Special Problems in Plant and Soil Science	3	Fall/Spring	
PLS 399 Experiential Learning in Plant and Soil Science	3	Fall/Spring	
WRD 225 Craft Writing	3	Spring	

Students must complete a minimum of 12 hours from the list of courses in the chart above. A&S 306 and PLS 335 are required. Students will select an additional 6 hours from the list of elective courses to complete the certificate.

### Undergraduate Certificate in Food Systems and Hunger Studies

Career opportunities related to food systems and hunger are expanding domestically and abroad. However, there are limited academic programs that prepare the workforce with a comprehensive approach focused on the impact of food systems on food security and health. The 12-credit hour Certificate in Food Systems and Hunger Studies provides students with a cross-disciplinary approach to understanding the impact of food systems on food security, hunger, and the overall health and wellness of a community. Through structured experiential learning opportunities, students will apply knowledge of food systems and the environment to develop and implement evidence-based strategies to end hunger in both the United States and globally.

The Certificate in Food Systems and Hunger Studies will complement numerous majors and minors offered on campus, but through a multidisciplinary approach and structured experiential learning opportunities tailored towards the interests and professional goals of the student. Students completing the certificate will have the basic knowledge and skills to provide thoughtful and impactful strategies to promote a sustainable food system and fight hunger and related issues.

All undergraduate students in good standing at the University of Kentucky are invited to declare the Certificate in Food Systems and Hunger Studies and complete the required coursework and certificate activities. Students must earn a C or better in each required certificate course to receive the certificate.

#### Required Courses

SAG 210 Introduction to Sustainable Agriculture and Community Food Systems .....	3
DHN 318 Hunger, Food Behavior, and the Environment .....	3
DHN 319 Seminar in Hunger Studies .....	1
DHN 320 Experiential Learning in Hunger Studies .....	2

plus 3 hours of pre-approved elective course work at the 200-level or above. The elective course work includes pre-approved courses as well as additional course work (3 hours), such as education abroad credit and special topics courses, that are appropriate to fulfill this requirement and should be approved in advance by the Certificate Director.

AEC 309 International Agriculture, World Food Needs, and U.S. Trade in Agriculture Products .....	3
ANT 225 Culture, Environment and Global Issues .....	3
ANT 251 Global Health Inequalities .....	3
CPH 201 Introduction to Public Health .....	3
ECO 450G The Economics of Poverty and Welfare Programs .....	3
*GEN 300 Special Course .....	3

\*Course must have subtitle: *Food Connections: Issues in Food Systems.*

## PRE-VETERINARY MEDICINE (Non-Degree)

Students interested in becoming veterinarians may enroll in the College of Agriculture, Food and Environment at the University of Kentucky and complete their requirements for admission to veterinary school. Most students completing a science-based degree program can complete pre-vet requirements at the same time. Pre-veterinary advising is available for any UK student.

Although the Commonwealth of Kentucky does not have a school of veterinary medicine, it is a participating member of the Southern Regional Education Board plan, under which legal Kentucky residents may attend the Auburn University College of Veterinary Medicine. Each year 38 qualified Kentucky students are chosen from Kentucky to enter the Auburn program. There is also a plan whereby three legal Kentucky residents may be accepted by the Tuskegee University College of Veterinary Medicine each year.

Admission is on a competitive basis with the final selection being made by a committee from each of the veterinary schools.

Pre-veterinary studies is not a degree program, but a pre-professional curriculum. It is strongly recommended that all pre-veterinary students choose a degree goal early in their college career. Although it is possible to complete pre-vet requirements in three years, the majority of students accepted to veterinary school have a B.S. or B.A. degree.

Due to the high level of competition for admission to any veterinary school, a student should maintain at least a 3.2 academic standing on all college work. The average overall GPA for students accepted to veterinary schools is approximately 3.6. All required courses must have a grade of **C** or greater.

Most US veterinary schools use the Veterinary Medical College Application Service (VMCAS) application.

The following is a list of courses for Auburn College of Veterinary Medicine requirements. However, some changes in the pre-veterinary curriculum may go into effect during the school year. **The student has the responsibility to work closely with his or her pre-veterinary advisor in making certain that all requirements are met for consideration for acceptance.**

All advanced placement credit for required courses must have prior approval by Dr. Dwyer. Auburn does not accept correspondence credit for required courses, except for Animal Nutrition.

## Auburn's Pre-Veterinary Curriculum

Written Composition*	6
Literature (e.g. ENG 251)**	3 or 6
Fine Arts (e.g. MUS 100)**	3
Humanities/Fine Arts electives**	6
History (e.g. HIS 108/109)**	3 or 6
Social sciences electives**	9
MA 123 Elementary Calculus and Its Applications	
or	
MA 113 Calculus I	4

**The above courses are waived for students with a B.S. or B.A. degree.**

BIO 148 Introductory Biology I	3
BIO 152 Principles of Biology II	3
Biology Laboratory I and II***	2
BIO 315 Introduction to Cell Biology	4
CHE 105 General College Chemistry I	4
CHE 107 General College Chemistry II	3
CHE 111 General Chemistry I Laboratory	1
CHE 113 General Chemistry II Laboratory	2
CHE 230 Organic Chemistry I	3
CHE 231 Organic Chemistry Laboratory I	1
CHE 232 Organic Chemistry II	3
CHE 233 Organic Chemistry Laboratory II	1
PHY 211 General Physics	5
BCH 401G Fundamentals of Biochemistry	3
ASC 378 Animal Nutrition and Feeding	3
Science Electives****	6

\*Consult advisor.

\*\*Students should contact a UK pre-veterinary advisor regarding approved courses.

\*\*\*Check with pre-veterinary advisor for approved courses.

\*\*\*\*Science electives must be two of the following courses: BIO 304, BIO 350 or ASC 325, BIO 308, BIO 542, ASC 364, BIO 561 or BIO 563, BIO 544, PHY 213.

Auburn strongly urges students to take organic chemistry and physics courses at a four-year college or university.

## Tuskegee's Pre-Veterinary Curriculum

Chemistry w/Lab	4
Organic Chemistry w/Lab	4
Biochemistry w/Lab	4
Physics w/Lab	8
Advanced Biology (300 level or above)	9
ASC 101 Domestic Animal Biology	3
ASC 378 Animal Nutrition and Feeding	3
Mathematics	6
English	6
Social Sciences/Humanities	6
Liberal Arts	6
Advanced Biology Electives	8
Medical Terminology	1

**The student has the responsibility to work closely with his or her pre-veterinary advisor in making certain that all requirements are met for consideration for acceptance.**

All pre-veterinary students who enter veterinary school without obtaining an Animal Science degree and petition UK for one later must fulfill the departmental requirements for an Animal Science degree. In order to be eligible for the B.S. in Animal Sciences, students must have completed all UK Core courses, all college requirements and all of the required core courses and production courses required in the Animal Sciences degree program.

## SCHOOL OF HUMAN ENVIRONMENTAL SCIENCES

Human Environmental Sciences provides science-based programs concerned with the interactions of individuals and families within multiple environmental contexts, including social, cultural, economic, and political. The specialized areas of study prepare graduates for professional roles through academic work, practicum or field experience, and research with a focus on improving quality of life for individuals and families throughout the lifespan.

There are three departments in the School of Human Environmental Sciences – Dietetics and Human Nutrition; Family Sciences; and Retailing and Tourism Management. Each department offers both undergraduate and graduate study.

For more information, visit:

<http://hes.ca.uky.edu/>.

### Undergraduate Programs in Human Environmental Sciences

The University of Kentucky grants the following degrees in the School of Human Environmental Sciences:

- Bachelor of Science in Consumer Economics and Family Financial Counseling
- Bachelor of Science in Dietetics
- Bachelor of Science in Family Sciences
- Bachelor of Science in Hospitality Management and Tourism
- Bachelor of Science in Human Nutrition
- Bachelor of Science in Merchandising, Apparel and Textiles

### Minor Offered

The following minor is available:

- Family Sciences

### Accreditations and Approvals

All undergraduate programs in the School of Human Environmental Sciences are accredited by the American Association of Family and Consumer Sciences.

Additionally, all programs and facilities which can be accredited or approved have achieved that recognition:

- Didactic and Coordinated Programs in Dietetics are both accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND)
- The Masters Specialization in Couple and Family Therapy (M.S. in Family Sciences) is accredited by the Commission on Accreditation for Couple and Family Therapy Education (COACFTE). The program includes course work and clinical practicum required for licensure.

## Unique Features of the School Facilities and Services

The School oversees the Research Center for Families and Children and the Family Center. The Family Center is a learning laboratory for students who provide services to students, staff, and community members. The Department of Retailing and Tourism Management oversees the Betty D. Eastin Costume Collection and the Textiles Quality Research Laboratory. The Department of Family Sciences includes two research labs. The Family Interaction Research Lab (FIRL) features equipment to measure family interactions, including psychological arousal and electrical brain activity. The Family Social Science Research Center includes equipment to complete random digit dialing research. The Department of Dietetics and Human Nutrition operates the Lemon Tree Restaurant and the Nutritional Assessment Laboratory.

## Scholarships

Over fifty scholarships are awarded each year to undergraduate and graduate students enrolled in the School of Human Environmental Sciences. Information about scholarships is available from the College of Agriculture, Food and Environment Scholarship Office, N-8 Ag Science Building.

## Advising

All students are assigned an advisor during their first semester in a program in the School of Human Environmental Sciences. For more information about programs or advising, contact:

**Center for Student Success**  
**N24 Ag. Science Center**  
**University of Kentucky**  
**Lexington, KY 40506-0091**  
**859-257-3468**

## DEPARTMENT OF DIETETICS AND HUMAN NUTRITION

The Department of Dietetics and Human Nutrition provides sound undergraduate and graduate programs in foods and nutrition, and is concerned with research and extension services.

The department offers the Bachelor of Science in Dietetics and the Bachelor of Science in Human Nutrition. A post-baccalaureate dietetic internship is also offered.

Visit us on the web at:  
<http://dhn-hes.ca.uky.edu/>.

## Admission Policy

Admission to the University is sufficient for lower-division admission to the human nutrition and dietetics majors. However, lower-level admission to the majors or any admission to the University does not guarantee upper-division admission to either of the degree programs in the Department of Dietetics and Human Nutrition. In

general, admission depends upon the qualifications and preparation of applicants, as well as the availability of resources for maintaining quality instruction.

Upper-division admission into the human nutrition or dietetics degree programs is necessary in order to be granted a baccalaureate degree from the Department of Dietetics and Human Nutrition. Students who have attained a **2.8** or higher grade-point average in the premajor component required for all students in the Department of Dietetics and Human Nutrition will be assured admission.

To be considered for upper-division admission to either the human nutrition or dietetics undergraduate degree programs, an applicant must fulfill the following requirements:

1. Enrollment in the University of Kentucky. (Students are considered for acceptance by the Department only after acceptance by the University of Kentucky.);
2. Completion of the premajor component (premajor courses include: CHE 105, CHE 107, CHE 111, CHE 113, BIO 148, DHN 212, and DHN 241) required for all students within the Department of Dietetics and Human Nutrition with a minimum premajor course work grade-point average of 2.8.\*
3. Submission of an application form to the Department of Dietetics and Human Nutrition Academic Coordinator.

*\*A student can repeat a premajor course to meet this GPA requirement. If a student repeats the course as one of their three University-accepted repeat options only the repeat grade will be factored into the premajor course work GPA. If a student repeats the course outside of the University-accepted repeat options then the course grades will be averaged and then factored into the premajor course work GPA.*

Applications from students outside the University of Kentucky seeking admission to the Human Nutrition or Dietetics degree programs, whether for upper-division or lower-division status, must be received by the University Admissions Office no later than **April 15** (first summer session); **May 15** (second summer session); August 1 (fall semester); and **December 1** (spring semester).

Students enrolled in other UK programs on campus should apply for admission prior to the priority registration period. (The appropriate deadlines are listed in the University calendar for approved times to change major.)

Lower-division students enrolled in the Department of Dietetics and Human Nutrition should apply for upper-division admission to the Human Nutrition Program or Didactic Program in Dietetics during the semester they are completing the premajor course work. The application for upper-division admission should be made before the priority registration period for the upcoming semester.

## Appeal Process

Students with a GPA below 2.8 and who have completed all premajor requirements may appeal for admission into the human nutrition or dietetic

programs. If the Appeals Committee feels that there is persuasive evidence that personal, academic or professional circumstances have affected a student's grades and the student shows promise for successful completion of a degree in the Department of Dietetics and Human Nutrition, acceptance may be granted. Materials and information necessary for the appeals process will be available from the DHN Academic Coordinator. The deadline for submission of the appeals is generally 45 days prior to the beginning of the semester; however, appeals materials are not accepted for the first summer session.

## BACHELOR OF SCIENCE IN DIETETICS with a major in Dietetics

Dietetics prepares professionals who are recognized for expertise in food and nutrition. Graduates of the University of Kentucky Dietetics Program are prepared to apply to an accredited Dietetic Internship program to become Registered Dietitians to function as entry level professionals with opportunities for practice in medical nutrition therapy, community dietetics, food systems management, and/or the business of dietetics. Becoming a registered dietitian involves a combination of academic preparation, including a minimum of a baccalaureate degree, and a supervised practice component and successfully passing the registration examination for dietitians.

The UK DHN Dietetics Program offers two options to earn a bachelor's degree in dietetics. Option A is the Didactic Program in Dietetics (DPD) and Option B is the Coordinated Program in Dietetics (CP). Both options lead to the Bachelor of Science in Dietetics and fulfill the foundation knowledge and/or competencies established by the Accreditation Council for Education in Nutrition and Dietetics, ACEND, the accrediting agency for the Academy of Nutrition and Dietetics, AND. The DPD and the CP are both fully accredited by ACEND. Option B, CP, is a selective admission program to which students must apply prior to beginning the major course work in the third year of the dietetics program.

**Option A**, designated as the Didactic Program in Dietetics, DPD, focuses on the foundation knowledge requirements provided by the academic component of dietitian education. A student must be a declared dietetics major in the Department of Dietetics and Human Nutrition to complete the DPD. Students must attain a cumulative grade-point average of **2.4** or above to progress into course work designated as major requirements.

Successful completion of the DPD curriculum enables graduates to apply to a ACEND-accredited supervised practice program, SPP, in a post-baccalaureate Dietetic Internship.

Upon successful completion of the Dietetic Internship the individual is eligible to sit for the national registry exam administered by the Com-

mission on Dietetic Registration, CDR, the credentialing agency of the AND, which grants use of the nationally recognized credential “RD” Registered Dietitian.

Graduates of the UK DHN Option A may apply for placement in the Dietetic Internship program offered by the Department of Dietetics and Human Nutrition, School of Human Environmental Sciences, or any other ACEND-accredited dietetic internship outside the department. Students must consider the highly competitive scenario in competing for acceptance into a Dietetic Internship.

**Option B**, designated as the Coordinated Program in Dietetics, CP, provides the foundation knowledge requirements provided by the academic component of dietitian education (see DPD above) **and** an ACEND-accredited supervised practice component. Students who have completed the premajor requirements and are interested in the Coordinated Program to attain the academic preparation and supervised practice program through the UK DHN Dietetics Program may apply for admission to Option B, the CP. Option B requires three additional semesters of didactic course work in the major requirements prior to beginning the 1,200 hour supervised practice program. Students in the CP must successfully complete the didactic and supervised practice component to receive the B.S. in Dietetics degree.

The ACEND-accredited CP is a selective admission program. Admission to the University of Kentucky DHN Dietetics Program does not guarantee admission to the Coordinated Program, CP. A limited number of students who have completed the required preprofessional courses will be admitted on the basis of cumulative grade-point average, potential qualities for becoming a successful dietitian, leadership potential and professional involvement and commitment.

The application deadline for the UK DHN CP is February 1, prior to potential fall admission in Year Three of the Dietetics Program. Year Three of the Dietetics Program is the beginning of the Major Requirements for completion of course work. Program application materials should include an application form, a letter of professional goals and qualifications, three letters of reference, and record of academic performance.

The CP Admissions Committee considers grade-point average, letter of application, work experience, honors and extracurricular activities and letters of recommendation. Students who apply to the UK DHN CP will be granted an interview where the applicant’s goals, communication skills, knowledge of the profession, and organizational and leadership skills are evaluated.

Successful CP applicants will be notified of provisional acceptance into the CP before UK’s priority registration dates for the ensuing fall semester. Final acceptance depends on successful completion of the work in progress at the time

of the application and throughout the remaining didactic component prior to beginning the supervised practice component of the undergraduate dietetics program.

Transfer students are urged to contact the DHN Academic Coordinator, 203 Funkhouser Building, for a preliminary evaluation of credits well in advance of the application date. Year Three of the Dietetics Program is the beginning of the Major Requirements for completion of course work. CP applicants must be a declared major in the UK DHN dietetics program or if a transfer student, indicate intent to declare dietetics as their major. Students accepted into the CP must be majors in the UK DHN dietetics program.

Successful completion of Option B, the UK DHN CP, results in the Bachelor of Science in Dietetics degree. Graduates of Option B are eligible to sit for the national registry exam administered by the Commission on Dietetic Registration, CDR, the credentialing agency of the AND, which grants use of the nationally recognized credential “RD” Registered Dietitian.

The UK DHN ACEND-accredited Dietetic Internship, DI, selects competitive students who have completed a Didactic Program in Dietetics at UK or other ACEND-accredited institutions. Qualified graduates compete for a limited number of positions in the UK DHN DI. For information regarding the UK DHN Dietetic Internship, the application and/or screening procedures, please contact:

**Director, Dietetic Internship Program  
203 Funkhouser Building  
University of Kentucky  
Lexington, KY 40506-0054**

### Degree Requirements

Each student must complete the following:

1. Complete UK Core requirements.
2. Complete 124-133 credit hours with a minimum grade-point average of 2.0.
3. Complete the required curriculum in the major program.

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

- I. Intellectual Inquiry in Arts and Creativity**  
Choose one course from approved list ..... 3
- II. Intellectual Inquiry in the Humanities**  
Choose one course from approved list ..... 3

## BACHELOR OF SCIENCE IN HUMAN NUTRITION with a major in Human Nutrition

The Bachelor of Science in Human Nutrition offers appropriate preparation for further study in nutritional sciences and health-related sciences, particularly public health, pharmacy, medicine, dentistry, physical therapy, physician assistant school, optometry, and nutrition research.

Each student must complete the following:

1. Complete UK Core requirements.
2. Complete 120 credit hours with a minimum grade-point average of 2.0.
3. Complete the required curriculum in the major program.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**TOTAL HOURS: .....** 120

## DEPARTMENT OF FAMILY SCIENCES

The Department of Family Sciences is committed to offering quality programs for students preparing to work with individuals and families in various settings including schools, private and public social agencies, and business. The focus is on enhancing the quality of life for families. Undergraduate programming is at an applied level using an interdisciplinary approach from the perspectives of individual and family development, family resource management, and family systems.

The department offers a major in family sciences. Students in the family sciences major earn the degree Bachelor of Science in Family Sciences. A minor in family sciences is available.

Family sciences prepares students to work with individuals and families in unique ways. Positions include coordinators of community education and outreach, crisis management, residential care, family financial management, research and planning, and social service workers. Students completing the program are eligible to apply to become certified family life educators through the National Council on Family Relations. Contact the Department of Family Sciences, 315 Funkhouser Building, 859-257-7750, for more information about this optional credential.

Visit us on the Web at:  
<http://fam-hes.ca.uky.edu/>.

### BACHELOR OF SCIENCE IN CONSUMER ECONOMICS AND FAMILY FINANCIAL COUNSELING

The Consumer Economics and Family Financial Counseling program provides students with the knowledge and skills to positively impact economic and financial decision making of individuals and families. The course work in consumer economics, personal finance, and financial counseling provides students with a broad skill-set to assist consumers in making sound financial decisions and ultimately improving overall family economic well-being and financial security.

Students will receive training that will allow for them to pursue careers in local government agencies such as the housing authority; state agencies such as health and human services; and federal agencies such as the Social Security Administration. For students who choose to pursue the AFC (Accredited Financial Counselor) certification option, careers are available as financial counselors in credit counseling agencies and non-profits. Additionally, program graduates will have a clear understanding of consumer issues and personal finance; this educational background will result in individuals capable of making healthy and informed family and personal financial decisions leading to responsible consumerism and financial independence for themselves and their families.

To earn a Bachelor of Science in Consumer Economics and Family Financial Counseling, the student must have:

1. a minimum of 120 credit hours that meet the requirements of the UK Core, the College, and the curriculum of the major;
2. at least a 2.0 grade-point average;
3. a grade of C or higher in the following Consumer Economics and Family Financial Counseling courses required to graduate: CEF 350, CEF 351, CEF 352, CEF 402, and CEF 403; and
4. a minimum of 45 credit hours from upper division courses (300 level and above).

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ..... 3

#### II. Intellectual Inquiry in the Humanities

Choose one course from approved list ..... 3

#### III. Intellectual Inquiry in the Social Sciences

**Subtotal: Major hours** ..... 30**Professional Support**

In addition to the major requirements, each student in consultation with his or her academic advisor will select a minimum of 18-21 credits in course work in a university-recognized minor. At least 12 of these hours must be at the 300 level or above. A minor is a structured group of courses that leads to considerable knowledge and understanding of a subject. Suggested minors include Psychology, Sociology, Gender and Women's Studies, Anthropology, Economics, Political Science, Appalachian Studies, Business, Communication, Health Promotion, Human Nutrition, Community and Leadership Development, etc.

Students must contact the department responsible for the minor program for guidance and advising.

**Subtotal: Professional Support** ..... 18-21**Electives**

Electives at the 300 level or above to reach 120 credits including sufficient credits to reach 45 hours at the 300 level or above. Work with an advisor to select additional FAM classes if available.

**Subtotal: Electives** ..... 7**TOTAL HOURS:** ..... 120**Minor in Family Sciences**

Any student interested in a minor in family sciences should file an application with the student's college prior to entering the program.

**Minor Requirements**

FAM 251 Personal and Family Finance ..... 3

FAM 254 Life Course Human Development ..... 3

FAM 352 Issues in Family Sciences ..... 3

Plus 12 additional hours in family sciences with at least 6 hours at the 300-level or above.

**DEPARTMENT OF RETAILING AND TOURISM MANAGEMENT**

The Department of Retailing and Tourism Management is committed to excellence in teaching, service and research resulting from innovative interdisciplinary education with a global, product, and consumer focus. Students build competencies for outstanding business and customer service in retail and hospitality organizations in a changing society. Opportunities are provided for experiential education through industry-related work experiences, internships, study tours, and exchange programs. Graduates are prepared for careers in the merchandising, hospitality and tourism industries in the developing experience economy. The department offers the Bachelor of Science in Hospitality Management and the Bachelor of Science in Merchandising, Apparel and Textiles.

Visit us on the Web at:

<http://rtm-hes.ca.uky.edu/>.

**BACHELOR OF SCIENCE IN HOSPITALITY MANAGEMENT AND TOURISM**

The Hospitality Management and Tourism program focuses on the specialized knowledge needed for careers in the hospitality industry. The degree develops graduates who are consumer and technology focused within the service industry. Course work integrates hospitality marketing strategies, communications and financial management through a curriculum focused on management of facilities and operations that provide hospitality services to the public.

The curriculum challenges students to exercise an integration of creativity and business components for various tourism services such as, Food & Beverage, Lodging, Attractions, Convention and Meeting Planning, Non-Profit Management, and Special Event Coordinating. The hospitality and tourism industries are rapidly growing; as the United States' second largest employer, a degree in Hospitality Management and Tourism provides many career opportunities for graduates.

Internships are a required component of the program, which can lead to permanent professional placement. The internship provides stu-

dents with first-hand experience in hospitality and tourism related fields, allowing them to exercise classroom knowledge in a real-world setting. Visit us at:

<http://rtm-hes.ca.uky.edu/content/bachelor-science-hospitality-management-and-tourism>.

**Entrance Requirement**

The minimum grade-point average for entrance of all students into the Hospitality Management and Tourism program is 2.30.

**Progression Requirement**

In addition, students must have completed the following premajor courses with a grade of C or better in order to progress to courses which are major requirements: CS 101, ACC 201, ACC 202, ECO 201, ECO 202, HMT 120, HMT 210, DHN 241, and HMT 270.

**Graduation Requirement**

Students must fulfill all prerequisites and achieve a grade of C or better in all DHN and HMT courses which are major requirements.

Each student must complete the following:

1. Complete UK Core requirements.
2. Complete 120 credit hours with a minimum grade-point average of 2.0.
3. Complete the required curriculum in the major program.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**BACHELOR OF SCIENCE IN MERCHANDISING, APPAREL, AND TEXTILES**

The Merchandising, Apparel, and Textiles program blends creativity with business components to develop graduates who are consumer and technology focused. Students study concepts and develop skills necessary for understanding market trends, retail strategies, and industry structures that facilitate the development, sourcing, marketing, and merchandising of consumer goods and services in the domestic and international marketplace.

The curriculum challenges students to exercise resourceful thinking in business operations, merchandising strategies, and the interrelationships of people, technology, and materials. Course work is designed to match industry expectations and intended to provide students with the knowledge and experience they will need to understand trends and applications in the merchandising, apparel, and textiles industries.

Internships are a required component of the program, which can lead to permanent professional placement. The internship provides students with first-hand experience in merchandising, apparel, and textiles related fields, allowing them to exercise classroom knowledge in a real-world setting. Visit us at:

<http://rtm-hes.ca.uky.edu/content/bachelor-science-merchandising-apparel-and-textiles>.

Each student must complete the following:

1. Complete UK Core requirements.
2. Complete 120 credit hours with a minimum grade-point average of 2.0.
3. Complete the required curriculum in the major program.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Mark Lawrence Kornbluh, Ph.D., is Dean of the College of Arts and Sciences; Anna Bosch, Ph.D., is Associate Dean for Undergraduate Programs; Elizabeth Lorch, Ph.D., is Senior Associate Dean for Research; Richard Schein, Ph.D., is Associate Dean of Faculty; Ruth Beattie, Ph.D. is Associate Dean for Advising; Cristina Alcalde, Ph.D., is Associate Dean for Inclusion and Internationalization; Sarah Lyon, Ph.D., is Associate Dean for Graduate Studies.

The College of Arts and Sciences embodies the liberal arts: the natural sciences and mathematics, the social sciences, and the humanities. Students augment their knowledge in all three areas by exploring the interconnections among them.

Study of the liberal arts opens to students the vast scope and excitement of human intellectual and cultural achievement. It enlarges the student's vision and enriches the student's life. Study of arts and sciences prepares students for life-long learning and vocational success. It also prepares them for a life of effective civic participation as informed and critical citizens of a diverse global society.

In essence, an Arts and Sciences education fosters the ability to think and learn independently. Arts and Sciences graduates are well prepared to meet future technological and cultural transformations.

## Undergraduate Programs in Arts and Sciences

The University of Kentucky grants the following degrees in the College of Arts and Sciences:

- Bachelor of Arts
- Bachelor of Science
- Bachelor of Liberal Studies

Students pursuing the Bachelor of Arts or the Bachelor of Science select from these majors: anthropology; biology; chemistry; economics; English; foreign language and international economics; geography; geological sciences; history; linguistics; mathematical economics; mathematics; modern and classical languages, literatures and cultures (with tracks in Arabic and Islamic studies, Chinese studies; Classics; French and Francophone studies; German studies; Japan studies; and Russian studies); physics; political science; psychology; sociology; writing, rhetoric, and digital studies; and topical studies. The College also offers a Bachelor of Arts with these majors: African American and Africana Studies; environmental and sustainability studies; gender and women's studies; health, society, and populations; international studies; philosophy; Spanish; and U.S. Culture and Business Practices; a Bachelor of Science with a major in Neuroscience; and a Bachelor of Liberal Studies.

For more information on degree programs, visit: [www.as.uky.edu/](http://www.as.uky.edu/).

## Undergraduate Certificates in Arts and Sciences

The University of Kentucky grants the following undergraduate certificates in the College of Arts and Sciences:

- Appalachian Studies
- Global Studies
- International Film Studies
- Peace Studies
- Sexuality Studies
- Social Sciences Research

Information and requirements for these certificates are listed at the end of this section.

## ADMISSION

Admission requirements are the same as those of the University, except for the topical studies major. Prospective students should see the college web site: [www.as.uky.edu/](http://www.as.uky.edu/).

## PROGRAMS AND SERVICES

### Academic Advising

Academic advising in the College of Arts and Sciences is provided by professional advisors, faculty, and graduate students beginning with new student advising conferences all the way through to graduation. All Arts and Sciences students are assigned an academic advisor after enrollment. Students and advisors will work as partners to help the student meet their academic goals.

All currently enrolled primary A&S majors have an assigned professional academic advisor or faculty advisor. All Arts and Sciences freshmen have an advising hold placed on their record requiring the student to meet with their A&S academic advisor prior to registration each semester. All students are encouraged to meet with their A&S advisor at least once each semester.

Students experiencing academic difficulty (academic probation) should meet with their academic advisor at the beginning of each semester and before the last day to withdraw from classes. For more information concerning these meetings, contact the Arts and Sciences Advising Center at 859-257-8712.

All Arts and Sciences students are expected to familiarize themselves with the degree requirements and keep track of requirements. The University has an online degree audit system within myUK GPS (Graduation Planning System). Stu-

dents are expected to view their personalized degree audit prior to any advising session where scheduling for classes will be discussed. Routine questions concerning UK Core, college, major and minor requirements, grade-point average, repeat or bankruptcy options, transient student forms, credit overload requests, transfer credit equivalencies, forms required for graduation, and changing majors should be addressed to the student's academic advisor.

For more information or to schedule an appointment with an advisor, visit [www.as.uky.edu/advising](http://www.as.uky.edu/advising).

### Dean's List

A student who completes at least 12 credits of "letter" grades with a 3.60 or higher grade-point average with no **I** grades listed for the fall or spring semester will be named to the Dean's List in the College of Arts and Sciences. CLEP, AP, special exam and Independent Study credits are **excluded**. The student's cumulative grade-point average is not considered; only the grade-point average for that particular semester is relevant. Exceptional circumstances, including fewer than 12 credits, will be considered for inclusion on the Dean's List; students should submit a petition to the A&S Advising Center, 202 Patterson Office Tower.

### Commencement and Departmental Honors

Commencement honors are determined by University standards. A full explanation of these honors can be found in the *Graduation Requirements* section of this Bulletin. Please note that if a student has not completed at least 90 hours at the University of Kentucky, but has completed at least 60 hours at the University of Kentucky, the student is eligible for commencement honors, but is held to a 0.2 point higher standard. If the student has not completed at least 60 hours, the student is not eligible for commencement honors. Commencement honors are indicated on the student's final transcript.

Departments in the College of Arts & Sciences award departmental honors to their outstanding graduates. The standards for departmental honors are not collectively established by the College, but determined by each department. For details on departmental honors, see "Guide to A&S Departmental Honors Requirements" on pages 127-128. Address questions to the department awarding honors. Departmental honors are indicated on the student's final transcript.

## Guide to A&S Departmental Honors Requirements

<b>Major</b>	<b>Cumulative GPA</b>	<b>Criteria</b>
<b>Anthropology</b>	3.5	The honors program in the Department of Anthropology is a research-intensive experience in which the student works closely with a faculty mentor. Requirements are: (1) a cumulative GPA of 3.5 or higher; (2) a departmental Major GPA of 3.5 or higher; (3) a research component designed by the student and the faculty mentor.
<b>Biology</b>	3.5	Biology majors are eligible for honors in biology if they: (1) Complete 6 hours of BIO 395. (2) Have an overall 3.5 GPA on graduation. (3) Successfully complete two biology honors (BIO--H) courses or two honors-selected 500 or 600 level Biology (BIO) courses, or a combination of BIO--H and honors-selected 500/600 BIO courses. Each semester the honors-selected 500/600-level BIO courses will be identified by a course note in the course schedule: this note will state "fulfills an Honors in Biology course requirement". (4) A public presentation of one's research results. Such a presentation can be a journal article, a seminar given to a diverse group, a talk or a poster at a professional meeting, a thesis or some form of public presentation approved by the Director of Undergraduate Studies.
<b>Chemistry</b>	3.5	12 hours in CHE or BCH courses (other than CHE 440G, 441G, and 572) at or above the 300 level. At least 6 of those hours must be in CHE 395. 3.5 cumulative GPA and 3.5 major GPA or above.
<b>Earth and Environmental Sciences</b>	3.5	3.3 cumulative GPA and senior thesis or 3.5 cumulative GPA or above.
<b>Economics</b>	3.2	3.2 cumulative GPA and a major GPA of 3.2 or above.
<b>English</b>	3.75	(1) 3.75 major GPA or above in courses taken at UK which count toward the English major. (2) At least 8 such courses taken at UK (i.e., not transferred). (3) Successful completion of at least one designated ENG honors seminar with a grade of <b>B</b> or higher.
<b>Environmental and Sustainability Studies</b>	3.5	3.5 cumulative GPA.
<b>Gender and Women's Studies</b>	3.5	3.5 cumulative GPA and major GPA of 3.5 or above.
<b>Geography</b>	3.5	3.5 cumulative GPA and major GPA of 3.5 or above.
<b>Health, Society, and Populations</b>	3.6	3.6 or above major GPA.
<b>Hispanic Studies</b>	3.6	Overall cumulative GPA 3.6 and departmental GPA in 300-500 level SPA courses 3.75.
<b>History</b>	3.5	Minimum 3.5 cumulative GPA, 3.5 departmental GPA or above and a grade of <b>A</b> or <b>B</b> in HIS 301 and HIS 499.
<b>International Studies</b>	3.5	3.5 cumulative GPA and major GPA of 3.5 or above.

– continued on next page –

## Guide to A&S Departmental Honors Requirements, continued

<b>Major</b>	<b>Cumulative GPA</b>	<b>Criteria</b>
<b>Linguistics</b>	3.5	3.5 cumulative GPA and major GPA of 3.75 or above.
<b>Mathematical Economics</b>	3.2	3.2 cumulative GPA or above and 3.2 major GPA or above.
<b>Mathematics</b>	3.5	3.5 cumulative GPA or above.
<b>Modern and Classical Language</b>	3.5	3.5 cumulative GPA and major GPA of 3.75 or above.
<b>Neuroscience</b>	3.5	Neuroscience majors are eligible for honors in neuroscience if they: (1) Have an overall GPA of 3.5 or above at graduation. (2) Complete two scholars courses or two 400G, 500 or 600 level or a combination of a scholars course and a 400G/500/600 BIO course. (3) Complete 6 credit hours of an independent research experience. (4) Give a public presentation of one's research results. Such presentation can be a journal article, a seminar given to a diverse group, a talk or a poster at a professional meeting, a thesis or some form of public presentation approved by the Director of Undergraduate Studies.
<b>Philosophy</b>	3.5	3.5 cumulative GPA or above in PHI courses, plus a senior thesis. Students are encouraged to enroll in PHI 395 for support in writing the senior thesis.
<b>Physics</b>	3.4	3.4 cumulative GPA or above and 3.4 major GPA or above in physics and astronomy. All students awarded department honors will have fully participated in independent study or research including the preparation of a final report; participation with a high grade in a 3-credit-hour PHY 395 or participation in a summer research experience are ways of achieving this. Other factors such as citizenship, leadership in the Society of Physics Students, and other meritorious activity will be considered in the selection of seniors for graduation with honors.
<b>Political Science</b>	3.5	In order to graduate with departmental honors in political science, a student must obtain at least a 3.5 GPA in the major and at least a 3.25 overall GPA. Additionally, honor students must complete PS 490, Honors in Political Science. In this course, students will be expected to carry out a major research project. Should that option be unavailable, however, students <i>will have an opportunity</i> to arrange completion of a major research project under faculty guidance as part of PS 395, the department's Independent Study course, subject to approval from the Director of Undergraduate Studies.
<b>Psychology</b>	3.5	3.6 major GPA or above and successful completion of PSY 495 and PSY 496.
<b>Sociology</b>	3.5	3.5 cumulative GPA or above.
<b>Topical</b>	3.6	3.6 cumulative GPA or above and recommendation of the Associate Dean based on the final thesis.
<b>Writing, Rhetoric, and Digital Studies</b>	3.5	3.5 or above cumulative GPA and major GPA of 3.5 or above and GPA of 3.5 or above in 400-level WRD courses.

## Scholarships

For information on general scholarships in the College, contact the A&S Advising Center, 202 Patterson Office Tower, 859-257-8712, or [www.as.uky.edu/scholarships](http://www.as.uky.edu/scholarships). Students interested in scholarships in a specific major should contact the individual department.

## College Policy on Learning Disabilities

The College of Arts and Sciences anticipates that virtually all of its students will satisfy all of its requirements. However, any student who believes that he or she can show evidence – by diagnostic testing and/or psychological evaluation – that he or she has a learning disability which warrants course substitution of any specific college requirement may request such an exception from the College. Students should begin their inquiries and/or discussions in the UK Disability Resource Center, 407 Multidisciplinary Science Building, 725 Rose Street.

## Readmission After a Two-Year Absence

In accordance with the University Senate rules which allow the dean of each college to determine which degree requirements a returning student shall follow, students should note the following: Students enrolling in the College of Arts and Sciences after an absence from the University of Kentucky of two or more years will be expected to satisfy the university, college, graduation, and department requirements in effect at the time of readmission.

Students with extenuating circumstances may petition the College for permission to continue under the degree requirements that were in effect during their previous enrollment in the UK system.

## ACADEMIC SUSPENSION AND REINSTATEMENT

The College of Arts and Sciences follows the general University rules for academic suspension and reinstatement, which are outlined in the *Academic Requirements* section of this Bulletin. Students placed on academic suspension **must be reinstated by the college in which they plan to enroll** before applying for readmission to the university. Students planning to pursue a degree program in the College of Arts and Sciences should arrange for reinstatement proceedings before **May 15** for any fall semester reinstatement, or **October 1** for any spring semester reinstatement by calling the A&S Advising Center, 859-257-8712. Students who fail to request reinstatement prior to these deadlines will normally not be considered for reinstatement until the subsequent semester.

A student who has been suspended for a second time from the University of Kentucky will usually not be considered for reinstatement by the College of Arts and Sciences until **two years** have passed since the date of the second suspension.

## THE BACHELOR OF ARTS AND BACHELOR OF SCIENCE DEGREE

Students must complete **four** areas of requirements to obtain a UK Arts and Sciences degree. The four areas are: UK Core; major requirements; college requirements; and university graduation requirements. The following information outlines the specific degree requirements for the B.A. and the B.S. in Arts and Sciences. Please read them carefully and also note the *specific* differences in each degree program.

The B.S. degree requires **three hours** in college disciplinary requirements for the natural sciences, social sciences and humanities beyond those required for the UK Core and requires **60 hours of physical, biological and/or mathematical sciences**.

The B.A. degree requires **six hours** in college disciplinary requirements for the natural sciences, social sciences and humanities beyond those required for the UK Core and requires **39 hours in course work numbered at or above the 300 level**.

### College Requirements for a Bachelor of Arts Degree

It is important to review the “NOTES” section that immediately follows the “College Requirements for a Bachelor of Science Degree” section.

To receive the Bachelor of Arts degree, students must:

1. Complete the UK Core requirements.<sup>1</sup>
2. Complete the following college requirements:
  - a. Foreign Language Requirement. Contact your advisor or the A&S Advising Center for an explanation of the Foreign Language Requirement.
  - b. Students must take **six** college hours in disciplines in the natural sciences.<sup>†</sup>
  - c. Students must take **six** college hours in disciplines in the social sciences.<sup>†</sup>
  - d. Students must take **six** college hours in disciplines in the humanities.
3. Complete at least **120** credit hours in courses acceptable to the College of Arts and Sciences.<sup>2</sup>
4. Complete at least **90** credit hours in Arts and Sciences courses.<sup>3</sup>
5. Complete at least **39** credit hours in courses numbered at or above the 300 level.<sup>4</sup>
6. Complete at least **39** credit hours within the major. At least 24 of these hours must be at or above the 300 level.
7. Complete at least one course that includes some laboratory or field experience. (See the description of the *College Laboratory or Field Experience Requirement* which follows.)
8. Attain an overall grade-point average of at least 2.0.

9. Attain a grade-point average of at least 2.0 in all major requirements courses (including all premajor courses).
10. Complete a minimum of **six** credit hours of free electives. These college electives cannot be counted towards UK Core, college or major requirements.
11. Complete University graduation requirements, the Graduation Composition and Communication Requirement, and the residence requirement.

<sup>†</sup>See *College Core Requirements for B.A. and B.S. Degree* following the next section.

### College Requirements for a Bachelor of Science Degree

It is important to review the “NOTES” section that immediately follows the “College Requirements for a Bachelor of Science Degree” section.

To receive the Bachelor of Science degree, students must:

1. Complete the UK Core requirements.<sup>1</sup>
2. Complete the following college requirements:
  - a. Foreign Language Requirement. Contact your advisor or the A&S Advising Center for an explanation of the Foreign Language Requirement.
  - b. Students must take **three** college hours in disciplines in the natural sciences.<sup>†</sup>
  - c. Students must take **three** college hours in disciplines in the social sciences.<sup>†</sup>
  - d. Students must take **three** college hours in disciplines in the humanities.
3. Complete at least **120** credit hours in courses acceptable to the College of Arts and Sciences.<sup>2</sup>
4. Complete at least **90** credit hours in Arts and Sciences courses.<sup>3</sup>
5. Complete at least **60** credit hours in the physical, biological and/or mathematical sciences.<sup>5</sup>
6. Complete at least **39** credit hours within the major. At least 24 of these hours must be at or above the 300 level.
7. Complete at least one course that includes some laboratory or field experience. (See the description of the *College Laboratory or Field Experience Requirement* which follows.)
8. Attain an overall grade-point average of at least 2.0.
9. Attain a grade-point average of at least 2.0 in all major requirements courses (including all premajor requirements).
10. Complete a minimum of **six** credit hours of free electives. These college electives cannot be counted towards UK Core, college or major requirements.

## 11. Complete University graduation requirements, the Graduation Composition and Communication Requirement, and the residence requirement.

†See *College Core Requirements for B.A. and B.S. Degree* following the next section.

### NOTES

- See the *UK Core* section of this Bulletin for a detailed explanation of the requirements.
- 001-099 courses, or courses followed by an “R” designation **cannot** be counted as credit towards a bachelor’s degree.
  - Physical education one-hour service courses (KHP) are acceptable as electives only and may count toward the total 120 minimum hours needed to graduate. Only **one** successful completion of multiple completions of the same KHP course will count.
  - A maximum of 16 semester credit hours earned in military science (AMS) and aerospace studies (AFS) are acceptable towards fulfilling both the College 90-hour and 120-hour requirement for the B.A. or B.S. degree. AMS/HIS 320 is not included in this 16 hour limit.
  - A maximum of 12 semester credit hours earned in experiential education and internship courses (EXP 396, departmental 399 courses) will be accepted. For ANT 399, SOC 399 and SPA 399, a maximum of 15 semester credit hours can be earned. See *Experiential Education and Internship Course* section within the Arts and Sciences section of the Bulletin.
  - All courses offered by the College of Arts and Sciences are acceptable with the exception of MA 108R.
  - Courses transferred from other institutions and judged by the College to be equivalent or comparable to Arts and Sciences courses are acceptable.
  - Usually the College will apply only six hours of technical course work taken at any institution.
  - The student is permitted to elect and count toward graduation courses in other colleges within the University of Kentucky or their equivalent from other institutions, not to exceed 30 hours. Hours taken in the other colleges at UK gained during the junior and senior years may, if at the 200-level or above, be counted towards the major requirements with approval from the Director of Undergraduate Studies/Program Director and the College.
  - Courses with an “S” grade designation or a “place holder” designation such as NSE (National Student Exchange) for 1 credit hour **cannot** be counted as credit toward a bachelor’s degree in Arts & Sciences. EAP 599, 1 credit hour, **can count** towards the A&S “hours” requirements for the degree.
- Courses classified as Arts and Sciences courses for purposes of the 90-hour requirement include all courses offered by the College of Arts and Sciences; all art history courses; all courses in music and theatre appreciation and ART 100 plus the history of music and theatre; TAD 370; all economics courses; all undergraduate courses in the Department of Computer Sciences (CS); all undergraduate courses in the Department of Communication (COM); and all American Sign Language courses officially transferred to the student’s UK record.
- CHE 230, 231, 232 and 233 will count towards the 39 credit hours in courses numbered at or above the 300 level needed for degree requirements. Please note that courses numbered 800-899 cannot be counted as 300-level and above for the purpose of completing the 39 hours needed for the degree.
- Courses offered within the disciplines of physical, biological and/or mathematical sciences may count towards the 60 credit hours of physical, biological and/or mathematical sciences for the Bachelor of Science degree. That includes courses with the following departmental prefix: ANA, AST, BCH, BIO, CHE, CS, EES, MA (except MA 108R), PGY, PHY, and STA. In addition, the following courses may be used to satisfy the 60-credit-hour requirement: ECO 391,

PHI 120, PHI 320, PSY 215, and PSY 216. Courses listed as satisfying the A&S natural science core requirement may also be used towards the 60 credit hours of physical, biological and/or mathematical sciences.

### College Core Requirements for B.A. and B.S. Degree

To satisfy the Arts and Sciences college core requirement, students must complete three (for a B.S.) or six (for a B.A.) college hours in each of three areas – natural sciences, social sciences, and humanities – not counting any courses taken to fulfill the requirements of UK Core.

Students may also use other Arts and Sciences courses to satisfy the college core requirement if these courses have been approved to fulfill parallel inquiry areas in the UK Core.

#### Natural Sciences

Students cannot double dip courses to satisfy the Arts and Sciences core requirement that students complete in each of the three areas – natural sciences, social sciences, and humanities. A course used to satisfy the natural sciences requirement may not be used to satisfy the social sciences or humanities requirement.

- All courses offered by Arts and Sciences departments or programs within the disciplines of the natural sciences including courses with the following departmental prefixes: **AST, BIO, CHE, EES, PHY**.
- The following courses may also be used to satisfy the Arts and Sciences College requirement for course work within the discipline of natural sciences. However, if used to count as a Natural Science they cannot also be used for any Social Science requirement.
  - ANA 209
  - ANT 105, 230, 332, 333, 353, 354, 355
  - CGS 500
  - DHN 101
  - ENS 200, 202, 400
  - ENT 110, 300
  - GEO 130, 135, 230, 351, 451G, 530
  - PGY 206
  - PLS 104
  - PSY 312, 360, 393, 456, 459, 565

Students who take courses fulfilling the Natural, Physical, and Mathematical Sciences UK Core requirement that exceed the credit hours needed for the requirement itself may apply the excess to this college core requirement, accumulating credit hours until the minimum has been fulfilled. This option applies to all Arts and Sciences students regardless of where the course work was completed (e.g., main campus or transfer credit).

#### Social Sciences

Students cannot double dip courses to satisfy the Arts and Sciences core requirement that students complete in each of the three areas – natural sciences, social sciences, and humanities. A course used to satisfy the social sciences requirement may not be used to satisfy the natural sciences or humanities requirement.

- All courses offered by Arts and Sciences departments or programs within the disciplines of the social sciences including courses with the following departmental prefixes: **ANT, APP, ECO, GEO, GWS, IAS, PS, PSY, SOC** if content is designated as a social science; also, see #3 below.
- The following courses may also be used to satisfy the Arts and Sciences College requirement for course work within the discipline of social sciences:
  - AAS 200, 235, 301, 326, 328, 336, 400, 401, 417G, 432, 471, 500, 560
  - ANT/LIN 515
  - ANT/LIN 516
  - ANT/LIN 519
  - ANT/JPN 321
  - CGS 500

ENS 200, 400  
GEO/JPN 334  
GEO/JPN 551

- The following courses **may NOT** be used in the social sciences area: GWS 201, PSY 459.

#### Humanities

Students cannot double dip courses to satisfy the Arts and Sciences core requirement that students complete in each of the three areas – natural sciences, social sciences, and humanities. A course used to satisfy the humanities requirement may be used to satisfy the natural sciences or social science requirement.

- Excluding the courses listed below**, all courses offered by Arts and Sciences departments or programs within the disciplines of the humanities, including courses with the following prefixes: **A-H, AAS, CLA, ENG, FR, GER, HIS, JPN, LAS, LIN, MCL, PHI, RS, RUS, SPA**, and **HON** courses designated as humanities. Note exceptions in #2 and #3 below.
- The following courses may NOT be used in the humanities area:**
  - AAS 200, 235, 326, 328, 336, 417G, 432, 471
  - AIJ 101, 102, 201, 202, 442, 443
  - CHI 101, 102, 201, 202
  - CLA 131
  - ENG 102, 207, 405, 407, 507, 509
  - FR 011, 101, 102, 106, 201, 202, 204, 307, 310, 507, 553, 570
  - GER 011, 101, 102, 201, 202, 205, 206, 211, 212, 307, 308, 310, 507, 553, 612
  - GRK 101, 102, 201, 202
  - HJS 101, 102, 201, 202
  - ITA 101, 102, 201, 202
  - JPN 101, 102, 201, 202, 301, 302, 401, 402, JPN/GEO 334, JPN/GEO 551
  - LAT 101, 102, 201, 202
  - LIN 520, 521
  - PHI 120, 320
  - PS 417G, 471
  - RUS 101, 102, 201, 202, 301, 302, 401, 404, 501, 502
  - SPA 011, 101, 102, 103, 151, 201, 202, 203, 205, 210, 211, 215, 302, 313, 413, 501, 506, 553
  - WRD 203, 204, 205, 306
- The following courses may also be used to satisfy the Arts and Sciences College requirement for course work within the discipline of humanities:
  - AMS 201
  - ANT 515, 516, 519
  - ART 100
  - CGS 500
  - GWS 201, 506
  - MUS 203, 222, 301, 302, 303, 325

#### College Laboratory or Field Experience Requirement

The college requires its students to complete at least one course that includes some laboratory or field experience. In such courses the external world is observed in a controlled manner using systematic techniques and methods. A substantial portion of the course must include data collection, data analysis, and hypothesis testing under supervised conditions. The approved courses for the laboratory requirement are:

#### Natural Sciences

**Biology** – BIO 111, 155, 209  
**Chemistry** – CHE 111, 113  
**Earth and Environmental Sciences** – EES 160, 220  
**Physics** – PHY 211, 213, 241, 242

#### Social and Behavioral Sciences

**Anthropology** – ANT 230, 541, 585  
**Geography** – GEO 406

Political Science – PS 372

Psychology – PSY 100, 215

Sociology – SOC 302, 303

When appropriate, other upper level courses may be used to satisfy this requirement by petition.

## MAJOR REQUIREMENTS

A major concentration in the College of Arts and Sciences consists of at least a 39-credit-hour program, referred to as the “major requirements.”

Each department or program has specified the requirements for their majors, as listed in this Bulletin under each relevant heading and as outlined in the online degree audit system within myUK GPS (Graduation Planning System).

Aside from any exceptions explicitly approved by the Arts and Sciences Educational Policy Committee and the Undergraduate Council, however, major requirements must conform to the following restrictions:

1. A total of 39 credits is required in the major requirements.
2. Courses *electively* taken pass-fail will not count toward UK Core, major/minor, or College requirements.
3. At least 24 credits must be in courses at the 300 level or above.
4. A minimum of 18 credits in a department, taken at the 200 level or above, is required for a major.
5. An overall grade-point average of at least 2.0 in all courses listed for the major requirements, including all premajor courses. This includes all grade attempts except those for which repeat options or academic bankruptcy has been approved.

Students are expected to review and understand all degree requirements listed in the online degree audit system within myUK GPS (Graduation Planning System).

Students who have taken courses (200 level or above) outside the college should talk with their academic advisor to see if these courses are applicable to their major requirements.

### Topical Studies Majors

Students who have multiple interests or interests which do not fall into departmental areas may select a topic for concentration instead of a departmental major. Topical Studies offers academic flexibility and allows students to cut across departmental and college lines in constructing meaningful and imaginative programs. Courses in several departments might be selected to pursue special interests – Asian studies, for instance. Other examples might be African American studies or human studies.

Each Topical Studies major is designed and directed by the student in consultation with a faculty advisor in the general area of study, and in consultation with the topical studies advisor in the

A&S Advising Center and an Arts and Sciences Associate Dean.

Topical Studies is the only selective admission program in the College of Arts and Sciences. The student must have a cumulative UK grade-point standing of at least 2.5 to be accepted to Topical Studies. The specific requirements of the topical studies major are that the student must meet UK Core and College requirements, must enroll in and complete at least 30 credit hours after formal admission, and complete the 39-hour major requirements (see preceding section entitled “Major Requirements”). Except for electives, all of the student’s work must be related to the topic. Additionally, in the senior year, the student must complete a comprehensive paper or project that serves to integrate his or her topical studies field. Frequently, it is advantageous to begin writing this paper or project in the context of an independent work course or a seminar, with the instructor’s approval. The paper or project proposal must be approved by a faculty advisor, an Arts and Sciences Associate Dean, and the Topical Studies advisor before significant work has begun on the project. Students must submit the final paper or project for review and approval **no later than eight weeks** before finals during the semester the student intends to graduate. The paper should be submitted to the Associate Dean **no later than six weeks** before the final exam week during the semester the student intends to graduate. Departmental honors for topical studies majors are determined by the Associate Dean and the Topical Studies advisor. To be eligible for departmental honors, a student must have a cumulative GPA of at least 3.6 and a final paper or project that has been judged to be outstanding.

For more information, contact the Arts and Sciences Topical Studies advisor in the A&S Advising Center (202 Patterson Office Tower); or visit the Topical Studies major website at: [www.as.uky.edu/topical-studies](http://www.as.uky.edu/topical-studies).

### A Second Major

A student may obtain a second major by meeting all requirements in two departments. Major work in one department can, if there is a generic relationship, serve as the outside field in the second major, and vice versa. However, the International Studies major allows a maximum of 15 hours of course work to overlap between two majors. The student must indicate his or her second major to the A&S Advising Center, 202 Patterson Office Tower. He or she must have an advisor in both departments. If one of the majors is in another college, the student is still required to know the list of requirements from the other college. The student who completes requirements for a second major will receive only one degree, but his or her transcript and diploma will reflect the two majors.

For information on second majors (not the same as second degree), consult the *Graduation Requirements* section of this Bulletin.

### A Second Bachelor’s Degree

A student may obtain a second bachelor’s degree by completing all university requirements for one degree; by completing all the major requirements of both degrees; and by completing all college requirements of both degrees. Courses taken towards fulfilling one degree may also count towards fulfilling parallel requirements in the other, but the total credits in the two degree programs must be at least 144 hours. Major work in one department can, if there is a generic relationship, serve as the outside field in the second major and vice versa. However, the International Studies major allows a maximum of 15 hours of course work to overlap between two majors. The student must indicate his/her double degree in his/her primary college. The student may elect to receive the degree simultaneously, if college and departmental requirements can be met simultaneously. For information regarding double degree (not the same as double majors), consult the *Graduation Requirements* section of this Bulletin. Students are expected to be knowledgeable of requirements for any major in Arts and Sciences as outlined in the online degree audit system within myUK GPS (Graduation Planning System).

### Minors

The College of Arts and Sciences does not require minors. However, students can earn a minor in the following disciplines in the college:

- anthropology
- biological sciences
- chemistry
- creative writing
- criminology
- economics
- English
- gender and women’s studies
- geography
- geology
- history
- international studies
- linguistics
- mapping and GIS
- mathematics
- microbiology
- military leadership
- modern and classical languages, literatures and cultures
- neuroscience
- philosophy
- physics
- political science
- professional and technical writing
- psychology
- sociology
- Spanish
- statistics
- writing, rhetoric and digital studies

Interdisciplinary minors are available in:

- African American and Africana studies
- American studies
- Appalachian studies
- cognitive science
- environmental and sustainability studies
- Indian culture
- Jewish studies
- Latin American, Caribbean, and Latino studies
- world religions

Minors can only be awarded in conjunction with a UK undergraduate degree. Additionally, students cannot pursue a minor in the same discipline as their major. This includes the area of concentration for a Topical Studies major and International Studies major.

For more information about choosing or declaring a minor, please review the requirements outlined in the online degree audit system within myUK GPS (Graduation Planning System); contact the department where the minor is offered; and/or consult the departmental section of this Bulletin. To officially declare a minor, students must complete a Declaration/Change of Major or Minor form in the A&S Advising Center, 202 Patterson Office Tower.

Awarded minors appear on the student's final transcript but not on his or her diploma.

### The Preparation of Teachers

Any Arts and Sciences student intending to seek teaching certification should so indicate to his or her academic advisor. The student should also contact the College of Education, 166 Taylor Education Building. As soon as the student has determined to seek certification he or she is assigned an advisor both in the College of Education and in the major department in the College of Arts and Sciences.

Students seeking certification should be sure to familiarize themselves with the requirements of both colleges. The sooner and the more thoroughly this is done, the greater the advantage to the student.

## INFORMATION ON COURSES

### Transfer of Kentucky Community and Technical College System (KCTCS) Courses

The college will usually apply up to 6 hours of technical course work taken at any accredited institution including KCTCS. Beyond these 6 credit hours, courses will be evaluated on an individual basis and as it applies to the student's baccalaureate degree program.

### Independent Work Courses

A junior or senior may, with prior approval of his or her faculty advisor and the instructor who would direct the work, register for an independent work course in his or her major department.

Normally, a cumulative GPA of 3.0 in the major is required. In exceptional circumstances a non-major or topical studies major may be permitted to enroll in a departmental independent work course. Such a course is characterized by special assignments for study, regular conferences, reports, and usually involves preparation of a paper. The instructor in each case must file with the department evidence of the nature of the work achieved. Credit for such courses may be granted to undergraduates to an amount of not more than 12 hours.

### Experiential Education and Internship Courses

The College of Arts and Sciences accepts experiential education and internship courses (such as EXP 396, departmental 399 courses,) on a pass-fail basis only, regardless of which college is offering the courses. A total of 12 credit hours in these courses may be counted toward the 120 credit hours required for graduation. For ANT 399 and SPA 399, a maximum of 15 semester credit hours can be earned. For PS 399, a maximum of 12 credit hours can be earned per semester on a case by case basis. However, College of Arts and Sciences majors may only earn a maximum of six credit hours of experiential education credit (EXP) in one semester.

### ROTC Program

A maximum of 16 semester credit hours earned in American Military Studies and Air Force Studies courses will be accepted towards fulfilling the 90 hours of A&S courses required and the 120 minimum number of hours needed for graduation with a baccalaureate degree in the College of Arts and Sciences, even though students typically enroll for more than 16 semester credit hours of AMS and AFS course work. However, credit received from taking AMS/HIS 320, American Military History, can apply in addition to the 16 credit hour limit earned in AMS or AFS course work. Additionally, AMS 350 (1 credit hour) can only be counted for a maximum of 4 credit hours.

---

## AEROSPACE STUDIES (Air Force ROTC)

---

The Department of Aerospace Studies provides a campus education program through which qualified students can simultaneously earn an Air Force commission and a college degree. Faculty members are experienced, active duty Air Force officers.

### Admission to the Program

- Non-scholarship freshmen and sophomores may register for Air Force Studies (AFS) courses without incurring a military commitment.
- Students with a minimum of five semesters of school remaining in undergraduate status may qualify for Air Force ROTC. For more information, call 859-257-7115.

### Requirements

An academic major in aerospace studies is not offered. However, by successfully completing the Air Force ROTC program, a qualified student may concurrently earn a commission as an active duty Air Force Second Lieutenant while completing requirements for a degree. Students may enroll in some Aerospace Studies courses without joining the Air Force ROTC cadet corps. For more information, call 859-257-7115.

### AFROTC Curriculum

The AFROTC curriculum consists of both academic classes and leadership laboratory or seminar classes.

- The General Military Course (GMC) is a two-year course normally taken during the freshman and sophomore years.
- The Professional Officer Course (POC) is a two-year course normally taken during the junior and senior years. Along with academic classes each semester, all cadets also take leadership laboratory classes.

In the GMC, there are four academic classes:

#### Freshman Semesters

- AFS 111 offered in fall semesters
- AFS 113 offered in spring semesters

#### Sophomore Semesters

- AFS 211 offered in fall semesters
- AFS 213 offered in spring semesters

These cover two main themes – the development of air power and the contemporary Air Force in the context of the U.S. military organization. The GMC academic classes are open to any UK student.

In the POC, there are four academic classes:

#### Junior Semesters

- AFS 311 offered in fall semesters
- AFS 313 offered in spring semesters

#### Senior Semesters

- AFS 411 offered in fall semesters
- AFS 413 offered in spring semesters

These cover Air Force management and leadership and national security studies.

**Note:** Entry into the POC years is competitive and is based on:

- Air Force Officer Qualifying Test scores
- Grade-point average
- Evaluation by the AFROTC Detachment Commander
- Only physically qualified students in good academic standing may compete for entry into the POC.
- Typically, these courses are for those cadets who have already completed the courses in the GMC, but the courses are open to any UK student.

Students enrolled as cadets are required to be involved once a week in a **1-credit-hour course** in the cadet corps training program designed to simulate a typical Air Force organization and its associated functions. This course is known as **Leadership Laboratory**. All cadets (only cadets) are required to take all of the Leadership Laboratories each fall and spring semester, concurrent with their AFS courses listed above. Please call 859-257-7115 for further inquiries on the matter.

#### GMC Years

##### Freshman Semesters

- AFS 112 fall semesters
- AFS 114 spring semesters

##### Sophomore Semesters

- AFS 212 fall semesters
- AFS 214 spring semesters

#### POC Years

##### Junior Semesters

- AFS 312 fall semesters
- AFS 314 spring semesters

##### Senior Semesters

- AFS 412 fall semesters
- AFS 414 spring semesters

The leadership laboratories are largely cadet-planned and conducted under the concept that they provide leadership training experiences that will improve the cadets' capabilities as Air Force officers. This also involves three hours of physical training each week. Leadership laboratory is open to students who are members of the Air Force Reserve Officer Training Corps or are eligible to pursue a commission as determined by the Air Force ROTC Detachment Commander.

#### Field Training

Field Training (FT) is offered at Maxwell Air Force Base in Alabama. FT students receive officer training and leadership development with other students from across the nation. Simultaneously, the Air Force has an opportunity to evaluate each student as a potential member of its officer corps. FT courses include cadet orientation, survival training, officer training, physical training, organizational and functional aspects of an Air Force base, career orientation, small arms familiarization, first aid, and other supplemental training.

#### Scholarships

Students interested in AFROTC scholarships should refer to the *Student Financial Aid, Awards, and Benefits* section of this Bulletin or call 859-257-7115. Information is subject to change.

### Minor in Military Leadership

The Military Leadership Minor provides students with a broad perspective on the military with analysis of the Army and Air Force service branches of the Armed Forces, as well educating students on historical and social scientific perspectives. This minor is open to students who are enrolled in Bachelor's degree programs at the University of Kentucky, and is designed to produce rounded leaders in the academic environment as well as in a professional setting.

The Military Leadership Minor requires 20 credit hours from the following:

#### Required Courses

one of the following groups (3 credits):	
AMS 101 Introduction to the Army .....	2
AFS 111 Aerospace Studies I .....	1
or	
AMS 102 Introduction to Leadership .....	2
AFS 113 Aerospace Studies I .....	1

one of the following groups (5 credits):

AMS 212 Advanced Leadership II .....	2
AMS 301 Leadership and Management I .....	3
or	
AFS 211 Aerospace Studies II .....	1
AFS 213 Aerospace Studies II .....	1
AFS 311 Aerospace Studies III .....	3

one of the following groups (6 credits):

AMS 302 Advanced Tactics .....	3
AMS/HIS 320 Advanced Studies in American Military History .....	3
or	
AFS 313 Aerospace Studies III .....	3
AFS 411 Aerospace Studies IVA .....	3

#### Guided Electives

two of the following courses (6 credits):

CLD 230 Intrapersonal Leadership .....	3
CLD 530 Fundamentals of Organizational Leadership .....	3
HIS 119 War and Society, 1350-1914 .....	3
HIS 121 War and Society, 1914-1945 .....	3
HIS 122 War and Society Since 1945 .....	3
HIS 357 Japan at War, 1850 to the Present .....	3
GEO 109 Digital Mapping .....	3
GEO 130 Earth's Physical Environment .....	3
GEO 133 Science and Policy of Natural Hazards .....	3
GEO 160 Lands and Peoples of the Non-Western World .....	3
GEO 162 Introduction to Global Environmental Issues .....	3
GEO 163 Global Conflicts .....	3
GEO 172 Human Geography .....	3
GEO 222 Cities of the World .....	3
GEO 255 Geography of the Global Economy .....	3
GEO 261 Global Dynamics of Health and Disease .....	3
GWS 302 Gender Across the World (Subtitle required) .....	3
ANT 160 Cultural Diversity in the Modern World .....	3
PSY 320 Introduction to Forensics: Psychology and Legal Issues .....	3
A-H 360 Visual Culture of Politics .....	3
PS 101 American Government .....	3
PS 230 Introduction to International Relations .....	3
SOC/CLD 380 Globalization: A Cross-Cultural Perspective .....	3
GER 342 War, Peace, and Terror in Germany and Europe .....	3
JPN 351 The Japanese Experience of the Twentieth Century .....	3
WRD 204 Technical Writing .....	3

### AFRICAN AMERICAN AND AFRICANA STUDIES

The African American and Africana Studies degree allows students to complete an interdisciplinary program of study that draws together the multifaceted understanding of the African experience. The rich and challenging course work addresses historical, cultural, sociological, political, and psychological factors that affect the lives of people of African descent worldwide. Students will develop the breadth of knowledge indicative of a liberal arts education, and enhance their critical thinking and writing, analysis, and communication skills. The African American and Africana Studies degree will be beneficial for a wide range of students who plan to work in communication and media, education, law, health care, non-profit, and government.

#### Bachelor of Arts with a major in AFRICAN AMERICAN AND AFRICANA STUDIES

##### 120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

#### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

##### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list .....

##### II. Intellectual Inquiry in the Humanities

Choose one course from approved list .....

##### III. Intellectual Inquiry in the Social Sciences

SOC 101 Introduction to Sociology  
or one course from approved list .....

##### IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

Choose one course from approved list .....

##### V. Composition and Communication I

CIS/WRD 110 Composition and Communication I .....

##### VI. Composition and Communication II

CIS/WRD 111 Composition and Communication II .....

##### VII. Quantitative Foundations

Choose one course from approved list .....

##### VIII. Statistical Inferential Reasoning

Choose one course from approved list .....

##### IX. Community, Culture and Citizenship in the USA

AAS 200 Introduction to African-American Studies  
or one course from approved list .....

**X. Global Dynamics**

AAS 100 Introduction to African Studies  
or one course from approved list ..... 3  
**UK Core hours: ..... 30**

**Graduation Composition and Communication Requirement (GCCR)**

AAS 401 Independent Reading and Research  
in African-American and Africana Studies ..... 3  
**Graduation Composition and Communication Requirement hours (GCCR) ..... 3**

**College Requirements**

I. Foreign Language (*placement exam recommended*) ..... 0-14  
II. Disciplinary Requirements  
a. Natural Science ..... 6  
b. Social Science ..... 6  
c. Humanities ..... 6  
III. Laboratory or Field Work ..... 1  
IV. Electives ..... 6  
**College Requirement hours: ..... 13-27**

**Major Core Requirements**

AAS 100 Introduction to African Studies ..... 3  
AAS 200 Introduction to African-American Studies ..... 3  
AAS 301 Introduction to the African Diaspora ..... 3  
AAS 401 Independent Reading and Research  
in African-American and Africana Studies ..... 3  
\*AAS 400 Special Topics in African-American  
and Africana Studies (Subtitle required) ..... 6  
**Major Core hours: ..... 18**

\*Students must take AAS 400 twice under different subtitles to satisfy the major core requirement.

**Guided Electives**

Students must take at least 15 hours of electives from the approved list, of which 12 credit hours must be at the 300 level or above:

A-H 304 African Art and Its Global Impact ..... 3  
A-H 308 Studies in African Arts  
(Subtitle required) ..... 3  
AAS/ENG 168 All That Speak of Jazz:  
An Intellectual Inquiry Into Jazz and Democracy ..... 3  
AAS/SOC 235 Inequalities in Society ..... 3  
AAS/HIS 253 History of Pre-Colonial Africa ..... 3  
AAS/HIS 254 History of Colonial  
and Postcolonial Africa ..... 3  
AAS/HIS 260 African American History to 1865 ..... 3  
AAS/HIS 261 African American History  
1865-Present ..... 3  
AAS/FR 263 African and Caribbean Literature and  
Culture of French Expression in Translation  
(Subtitle required) ..... 3  
AAS 264/ENG 260 Introduction to Black Writers ..... 3  
AAS/MUS 300 History of Jazz ..... 3  
AAS/ANT 326 Contemporary African Lives ..... 3  
AAS/GEO 328 Geography of the Middle East  
and North Africa ..... 3  
AAS/GEO 336 Geography of Sub-Saharan Africa ..... 3  
AAS/HIS 360 Race and Sports in America ..... 3  
AAS/SOC 432 Race and Ethnic Relations ..... 3  
AAS 433/SOC 435 Topics in Social Inequalities  
(Subtitle required) ..... 3

SW 325 Social Justice Foundations ..... 3  
**Guided Elective hours: ..... 15**

**From Outside the Major Department**

Students must complete 6 or more credit hours of courses outside the AAS prefix, but in allied departments and programs at the 200 level or above to bring the total number of credit hours within the major to 39. Free electives may not be counted toward the UK Core or A&S requirements. Applicable departments and programs include (by prefix): A&S, AIS, A-H, HIS, SOC, ENG, FR, MUS, ANT, GEO, PS, SW, EDP, GWS. .... 6

**Total Minimum Hours  
Required for Degree ..... 120**

**ANTHROPOLOGY**

The Department of Anthropology offers opportunities to learn about the diverse people of today’s world, as well as about their biological and cultural origins. This area of study deals with ecology, society, biology, culture, and language, among other aspects of human life. In addition, anthropologists study history and evolution in both a cultural and biological framework.

Anthropology provides an excellent foundation for careers in a variety of professions and occupations, including community health, public health policy, medicine and health services, planning and community development, international relations and development, private business, government, law, journalism, museum work, and university teaching and research.

Students can major or minor in anthropology. The major is structured to provide the student with a broad overview of the major subdisciplines: cultural anthropology, physical anthropology and archaeology. It also allows sufficient flexibility for a student to concentrate on a specific area of interest.

Visit our website at:  
<http://anthropology.as.uky.edu/>.

**Bachelor of Arts with a major in ANTHROPOLOGY**

**120 hours (minimum)**

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. **Premajor hours: ..... 21**

†The CHE 105 requirement can be satisfied with CHE 109 and CHE 110.

††PHY 151 Introduction to Physics ..... 3-5

**Major Requirements**

Minimum major requirement for graduation is 54 credit hours in courses as detailed below. **Once all other major requirements are completed, students must complete Biology electives until the 54 credit hour requirement has been met.** The minimum GPA of all major and premajor courses must be at least 2.0.

**First Tier Core**

BIO 303 Introduction to Evolution ..... 4

BIO 304 Principles of Genetics ..... 4

**Second Tier Core**

To be taken **after** completion of First Tier Core.

Choose **two** of the following to complete 8 hours:

BIO 350 Animal Physiology

or

BIO 430G Plant Physiology ..... 4

BIO 315 Introduction to Cell Biology ..... 4

BIO 325 Ecology ..... 4

**plus:**

STA 296 Statistical Methods and Motivations ..... 3

BIO 425 Biology Seminar (Subtitle required)

or

BIO 499 Biology Research Seminar ..... 1

**Core hours: ..... 20**

**Other Course Work Required for the Major****From Outside the Major Department**

CHE 236/231 Survey of Organic Chemistry/

Organic Chemistry Laboratory I

or

CHE 230/231 Organic Chemistry I/Laboratory I ..... 4

PHY 211 General Physics

or

††PHY 151 Introduction to Physics ..... 3-5

††PHY 151 is not accepted for admission into Medical, Dental or Pharmacy School. Check with your advisor before choosing a physics course.

**Other Major hours: ..... 7-9**

**Options**

Complete **one** of the following options. **Students cannot mix and match requirements from the two options.** An option must be completed in its entirety.

**Option A – Minor Option**

**NOTE:** Fourteen of these hours must be at the 300-level or above.

Complete the requirements for any minor other than the biology minor ..... 18-21

Biology Electives ..... 4-9

Biology Electives – **A minimum of 6 of the 4-9 upper-level elective credit hours must be BIO courses (i.e., have a BIO prefix).** If fewer than 6 hours are required to complete the requirements, all hours must be upper-level elective BIO courses. A maximum of 3 credits of independent research course work may be used in this section.

If students double-dip major and minor requirements, additional biology electives must be taken to meet the graduation requirement of 54 hours for the B.A. in Biology.

**Total hours Option A ..... 25-27**

**Option B – Topical Focus Option**

Complete a 12 credit hour sequence of courses with a topical focus. At least 6 of these hours must be at the 300-level or above ..... 12

**NOTE:** Students who have multiple interests or interests that do not fall into the requirements for a minor offered at the University of Kentucky may select a 12 credit hour sequence of courses with a topical focus. Courses in several disciplines and in the various interdisciplinary programs may be combined to pursue the topical focus. Students interested in pursuing Option B must have the 12 credit hour sequence of courses **APPROVED IN ADVANCE** by the Director of Undergraduate Studies, Department of Biology. Students must submit an Approval of Topical Focus Form to the Director of Undergraduate Studies.

Biology Electives ..... 13-15

Biology Electives – **A minimum of 9 of the 13-15 upper-level elective credit hours must be BIO courses (i.e., have a BIO prefix).** A maximum of 6 credits of independent research course work may be used in this section.

**Total Hours Option B ..... 25-27**

Hours to be chosen from 300+ level BIO courses or the list below. Note: ANA 209, BIO 208, BIO 209 and PGY 206 CANNOT be used for this requirement. A maximum of 1 credit hour of seminar course work (for example BIO 425, BIO 426, BIO 427) may be counted within this elective requirement.

Complete one of the following tracks below to fulfill your 13-15 hours of Biology electives. If an alternative track is not declared, the default track will be General Biology.

### Cellular, Molecular, and Developmental Biology Track

The Cellular, Molecular, and Developmental Track provides a broad background in biology, with a focus on the molecular, cellular, and integrative mechanisms by which organisms regulate life processes. Students will learn about the molecular and cellular mechanisms that provide the basis for biological structure, growth, evolution, embryonic development, and genetic inheritance. Students will understand how eukaryotic cells process information from their environment and initiate programs of gene expression leading to growth, development, and functional specification.

A degree in biology with an emphasis in Cellular, Molecular, and Development will prepare students for a career in the life sciences, whether they are interested in understanding the molecular mechanisms underlying cell growth, or the complex patterns of organismal development. This can help prepare students for a career in academic or industrial research, biotechnology, genetic engineering, or any of the health professions.

12 upper-level guided elective hours out of the required 13-15 hours of guided electives must be completed from the courses listed below. Of those 12 hours, a maximum of 3 hours can be independent research (BIO 394/395/397). The remaining 1-3 credit hours may come from the list of approved electives for the general biology track, which may include an additional 3 hours of independent research (BIO 394/395/397). A maximum of 6 credit hours of independent research can be counted toward the Biology degree. Of the 13-15 hours of total upper-level electives required, 9 credit hours must have a BIO prefix.

BIO 308 General Microbiology .....	3
BIO 309 Microbiology Laboratory .....	2
BIO 429 Developmental Biology .....	3
BIO 494G Immunobiology .....	3
BIO 394/395/397 Research in Neuroscience/Biology/ Microbiology (maximum 3 credits toward track) .....	1-3
BIO 495G Bacterial Pathogenesis .....	3
BIO 502 Systems, Cellular and Molecular Physiology ..	5
BIO 510 Recombinant DNA Techniques Laboratory ....	4
BIO 520 Bioinformatics .....	3
BIO 527 Stem Cells, Tissue Engineering, and Regenerative Medicine .....	3
BIO 582 Virology .....	3
BIO 542 Histology .....	5
BIO 410 Vertebrate Endocrinology .....	3
*BIO 315 Introduction to Cell Biology .....	4
**BIO 380 Special Topics in Biology (Intermediate Level) (Subtitle required) .....	1-4

#### Courses from Outside the Biology department:

BCH 401G Fundamentals of Biochemistry .....	3

CHE 552 Biological Chemistry II .....	3
CHE 532 Spectrometric Identification of Organic Molecules .....	2
MI/PAT 598 Clinical Microbiology .....	3
ANA 442 Molecular and Cellular Neurobiology .....	3

Other courses can be accepted by the Director of Undergraduate Studies in Biology on a case by case basis.

\*Only for students who do not use the course to fulfill the 2<sup>nd</sup> Tier Core.

\*\*Subtitle must be approved by Director of Undergraduate Studies.

### Ecology and Evolutionary Biology Track

The Ecology and Evolutionary Biology Track focuses on the diversity of life on Earth, including diversity in genes, physiology, and behaviors. Students will learn about how this diversity emerged, as plants, animals, and microbes became adapted to the environment and to each other. A wide variety of scientific disciplines are integrated within the track, including ecology, organismal biology, physiology, genetics, evolution, conservation biology, and behavior. A degree in biology with an emphasis in Ecology and Evolution will prepare students for a career in the life sciences, whether they are interested in having a deep understanding of evolutionary process, or are interested in the interactions between organisms and their environment. This can help prepare students for careers in areas such as: 1. conservation and restoration biology – addressing the impacts of climate change, developing plans for habitat conservation and wildlife protection, or other issues critical to maintaining a healthy planet; 2. working as a doctor or veterinarian; 3. science education – educating students and the public on the history and diversity of life on earth and the need to conserve it; 4. basic research in biology – helping to expand the frontiers of knowledge by studying the evolution of organisms and their ecosystems.

12 upper-level guided elective hours out of the required 13-15 hours of guided electives must be completed from the courses listed below. Of those 12 hours, a maximum of 3 hours can be independent research (BIO 394/395/397). The remaining 1-3 credit hours may come from the list of approved electives for the general biology track, which may include an additional 3 hours of independent research (BIO 394/395/397). A maximum of 6 credit hours of independent research can be counted toward the Biology degree. Of the 13-15 hours of total upper-level electives required, 9 credit hours must have a BIO prefix.

BIO 300 General Entomology .....	3
BIO 337 Mathematical Modeling in the Life Sciences ...	3

ANA 410G Neurobiology of Brain and Spinal Cord Disorders ..... 3  
 ANA 442 Molecular and Cellular Neurobiology ..... 3  
 ANA 511 Introduction to Human Anatomy ..... 5  
 ANA 512 Microscopy and Ultrastructure ..... 4  
 ANA 516 Selected Topics in Advanced Neuroscience ..... 3  
 Some other anatomy courses at the 500-level are acceptable, but they are usually restricted to professional students.  
 BCH 401G Fundamentals of Biochemistry ..... 3  
 MI/BIO 494G Immunobiology ..... 3  
 MI 595 Immunobiology Laboratory ..... 2  
 MI/PAT 598 Clinical Microbiology ..... 3  
 PGY 412G Principles of Human Physiology Lectures ..... 4  
 PGY 412G is acceptable as an elective for upper level biology credit ONLY IF a student DOES NOT complete BIO 350. It DOES NOT substitute for BIO 350 or BIO 430G.  
 PGY 431 Introduction to Neuroendocrinology ..... 3  
 PGY 417 Genomics and Epigenetics ..... 2  
 PGY 512 Evolutionary Medicine ..... 3  
 PGY 560 Pathophysiology: Integrative Study in Physiology and Medicine ..... 1  
 PGY 502 Systems, Cellular and Molecular Physiology ..... 5  
 TOX 509 Environmental and Regulatory Toxicology .... 2

Unacceptable courses often mistakenly thought to be acceptable. These courses are not acceptable electives for Biology majors:

ANA 209 Principles of Human Anatomy ..... 3  
 PGY 206 Elementary Physiology ..... 3

Other courses may be accepted at the discretion of the Director of Undergraduate Studies in the Department of Biology.

**Genetics, Genomics, and Bioinformatics Track**

The Genetics, Genomics, and Bioinformatics Track will provide guidance and structure to students with a desire to specialize in the study of inheritance and will formally recognize their chosen area of specialization in the description of their degree. The selected course offerings span the spectrum of studies within the area of inheritance, allowing students to select broadly from courses that provide sophisticated insight into genetic information and genetic analysis. The selected courses also allow students to dive deeply into different realms of genetics, including: emphasis on microbes (BIO 308, 309 and 510); emphasis on animals (BIO 404, 405, 429, 527); emphasis on analytical technology (BIO 337, 404, 461, 510, 520, STA 579, STA 580, ABT 460); emphasis on development (BIO 404, 405, 429, 445, 527, PGY 417); and emphasis on evolution (BIO 461, 508, 518).

Students selecting this track will be able to demonstrate a clear understanding of the most important and fundamental theories and ideas in contemporary biology from a perspective that emphasizes inheritance, organization, and analysis of genetic information.

12 upper-level guided elective hours out of the required 13-15 hours of guided electives must be completed from the courses listed below. Of those 12 hours, a maximum of 3 hours can be independent research (BIO 394/395/397). The remaining 1-3 credit hours may come from the list of approved electives for the general biology track, which may include an additional 3 hours of independent research (BIO 394/395/397). A maximum of 6 credit hours of independent research can be counted toward the Biology degree. Of the 13-15 hours of total upper-level electives required, 9 credit hours must

have a BIO prefix.

BIO 308 General Microbiology ..... 3  
 BIO 309 Microbiology Laboratory ..... 2  
 BIO 337 Mathematical Modeling in the Life Sciences ..... 3  
 BIO 395/397 Research in Biology/Microbiology (maximum 3 credits toward track) ..... 1-3

 STA 580 Biostatistics I ..... 2  
 ABT/ENT 460 Introduction to Molecular Genetics ..... 3  
 PGY 417 Genomics and Epigenetics ..... 2

Other courses can be accepted by the Director of Undergraduate Studies in Biology on a case by case basis.

*\*Subtitle must be approved by Director of Undergraduate Studies.*

**Physiology and Behavior Track**

Physiology is the study of function of living organisms, primarily plants and animals. The field studies cells, tissues, organs, and the whole organism. To understand function, a mechanistic approach is used to integrate the cell level to the whole organism. The study of animal behavior and physiology go hand and hand in addressing the functional mechanisms which regulate behavior. This track will prepare pre-professionals in health science areas (MD, DO, DDS, and PT), researchers in the function of animals and plants (MS/PhD), and ecologists.

12 upper-level guided elective hours out of the required 13-15 hours of guided electives must be completed from the courses listed below. Of those 12 hours, a maximum of 3 hours can be independent research (BIO 394/395/397). The remaining 1-3 credit hours may come from the list of approved electives for the general biology track, which may include an additional 3 hours of independent research (BIO 394/395/397). A maximum of 6 credit hours of independent research can be counted toward the Biology degree. Of the 13-15 hours of total upper-level electives required, 9 credit hours must have a BIO prefix.

**Plant Biology Track**

The Plant Biology Track focuses on fundamental aspects of how plants function as organisms and interact with their environment. A wide variety of scientific disciplines are integrated within the track, including physiology, taxonomy, reproduction, and ecology.

A degree in biology with an emphasis in plant biology serves as an excellent launching point for a wide range of career options, including domestic and international opportunities in business, research, and teaching. The program is excellent preparation for students wishing to enter graduate or other professional schools. Plant biologists can work in the laboratory or field, forestry, botanical gardens and nurseries, agricultural companies, biotechnology, pharmaceuticals, energy and chemical industries, or environmental protection.

12 upper-level guided elective hours out of the required 13-15 hours of guided electives must be completed from the courses listed below. Of those 12 hours, a maximum of 3 hours can be independent research (BIO 394/395/397). ## Pre-Professional Track

The Pre-Professional Track in the biology major broadly explores organismal structure and function in the context of preparing students for health-related professional programs. The courses in this track give the students a broad view of both normal and abnormal organismal function, with courses specializing in neuroscience, physiology, microbiology, and molecular biology. Independent research in this track will be an opportunity for students to work with science professionals within their desired field. Through completion of this track, students can fulfill prerequisite and recommended courses for most pre-professional health programs. Students who excel in this track can go on to enroll in a variety of professional programs, including medical, dental, optometry, veterinary, and physician's assistant programs. A biology degree with a pre-professional health emphasis also prepares students for careers as research scientists, research lab technicians, microbiologists, genetic counselors, biology teachers, and many other general biology careers.

12 upper-level guided elective hours out of the required 13-15 hours of guided electives must be completed from the courses listed below. Of those 12 hours, a maximum of 3 hours can be independent research (BIO 394/395/397). The remaining 1-3 credit hours may come from the list of approved electives for the general biology track, which may include an additional 3 hours of independent research (BIO 394/395/397). A maximum of 6 credit hours of independent research can be counted toward the Biology degree. Of the 13-15 hours of total upper-level electives required, 9 credit hours must have a BIO prefix.

## Bachelor of Science with a major in BIOLOGY

### 120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 130.

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete **UK Core requirements**. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list .....

#### II. Intellectual Inquiry in the Humanities

Choose one course from approved list .....

#### III. Intellectual Inquiry in the Social Sciences

### Graduation Composition and Communication Requirement (GCCR)

In order to meet the Graduation Composition and Communication Requirement (GCCR), students must successfully complete **both** BIO 425 to fulfill the oral communication requirement **and** one course from the list below to fulfill the written communication requirement. In order to receive GCCR credit a student must:

a. Earn an average grade of C or better on all GCCR assignments; and

b. Have completed at least 30 credit hours of college-level course work prior to registering for the course.

### Oral Communication Requirement

BIO 425 Biology Seminar (Subtitle required) .....

### Written Communication Requirement

Choose one course from the following 8 options:

BIO 398 Research and Writing in Biology .....

BIO 404 Advanced Genetics .....

BIO 405 Human Genetics .....

BIO 418 Ecological Genetics .....

BIO 430G Plant Physiology .....

BIO 445 The Biology of Sex .....

**Premajor hours: .....** 25-26

†The CHE 105 requirement can be satisfied with CHE 109 and CHE 110.

### Major Requirements

Minimum major requirement for graduation is 56 credit hours in courses not open to freshmen. The minimum GPA of all major and premajor courses must be at least 2.0.

### Major Core

#### First Tier Core

BIO 303 Introduction to Evolution .....

BIO 304 Principles of Genetics .....

#### Second Tier Core

To be taken **after** completion of First Tier Core.

BIO 315 Introduction to Cell Biology .....

BIO 325 Ecology .....

BIO 350 Animal Physiology

or

BIO 430G Plant Physiology .....

STA 296 Statistical Methods and Motivations .....

BIO 425 Biology Seminar (Subtitle required)

or

BIO 499 Biology Research Seminar .....

**Core hours: .....** 24

**Other Course Work Required for the Major****From Outside the Major Department**

CHE 230 Organic Chemistry I .....	3
CHE 231 Organic Chemistry Laboratory I .....	1
CHE 232 Organic Chemistry II .....	3

Biology Electives .....
 15 |

Choose 15 hours of acceptable biology electives:

15 hours to be chosen from 300+ level BIO courses or the list below. **At least 9 of the 15 hours must be BIO courses.** A maximum of 6 hours of Independent Research course work from biological sciences departments may be counted within the 15 hour requirement. NOTE: ANA 209, BIO 208, BIO 209 and PGY 206 CANNOT be used for this requirement. A maximum of 1 credit hour of seminar course work (ex. BIO 425, BIO 426, BIO 427) may be counted within the 15 hour requirement.

**Other Major hours: .....** 32**Tracks**

Complete one of the following tracks. If an alternative track is not declared, the default track will be General Biology.

**Cellular, Molecular, and Developmental Biology Track**

The Cellular, Molecular, and Developmental Track provides a broad background in biology, with a focus on the molecular, cellular, and integrative mechanisms by which organisms regulate life processes. Students will learn about the molecular and cellular mechanisms that provide the basis for biological structure, growth, evolution, embryonic development, and genetic inheritance. Students will understand how eukaryotic cells process information from their environment and initiate programs of gene expression leading to growth, development, and functional specification.

A degree in biology with an emphasis in Cellular, Molecular, and Development will prepare students for a career in the life sciences, whether they are interested in understanding the molecular mechanisms underlying cell growth, or the complex patterns of organismal development. This can help prepare students for a career in academic or industrial research, biotechnology, genetic engineering, or any of the health professions.

12 upper-level guided elective hours out of the required 13-15 hours of guided electives must be completed from the courses listed below. Of those 12 hours, a maximum of 3 hours can be independent research (BIO 394/395/397). The remaining 1-3 credit hours may come from the list of approved electives for the general biology track, which may include an additional 3 hours of independent research (BIO 394/395/397). A maximum of 6 credit hours of independent research can be counted toward the Biology degree. Of the 13-15 hours of total upper-level electives required, 9 credit hours must have a BIO prefix.

BIO 308 General Microbiology .....	3
BIO 309 Microbiology Laboratory .....	2
BIO 429 Developmental Biology .....	3
BIO 494G Immunobiology .....	3
BIO 394/395/397 Research in Neuroscience/Biology/ Microbiology (maximum 3 credits toward track) .....	1-3
BIO 495G Bacterial Pathogenesis .....	3

BIO 502 Systems, Cellular and Molecular Physiology .....	5
BIO 510 Recombinant DNA Techniques Laboratory ....	4
BIO 520 Bioinformatics .....	3
BIO 527 Stem Cells, Tissue Engineering, and Regenerative Medicine .....	3
BIO 582 Virology .....	3
BIO 542 Histology .....	5
BIO 410 Vertebrate Endocrinology .....	3
*BIO 380 Special Topics in Biology (Intermediate Level) (Subtitle required) .....	1-4

**Courses from Outside the Biology department:**

BCH 401G Fundamentals of Biochemistry .....	3
CHE 233 Organic Chemistry Laboratory II .....	1
or	
CHE 533 Advanced Organic Chemistry Laboratory .....	2
CHE 550 Biological Chemistry I .....	3
CHE 552 Biological Chemistry II .....	3
CHE 532 Spectrometric Identification of Organic Molecules .....	2
MI/PAT 598 Clinical Microbiology .....	3
ANA 442 Molecular and Cellular Neurobiology .....	3

Other courses can be accepted by the Director of Undergraduate Studies in Biology on a case by case basis.

\*Subtitle must be approved by Director of Undergraduate Studies.

**Ecology and Evolutionary Biology Track**

The Ecology and Evolutionary Biology Track focuses on the diversity of life on Earth, including diversity in genes, physiology, and behaviors. Students will learn about how this diversity emerged, as plants, animals, and microbes became adapted to the environment and to each other. A wide variety of scientific disciplines are integrated within the track, including ecology, organismal biology, physiology, genetics, evolution, conservation biology, and behavior. A degree in biology with an emphasis in Ecology and Evolution will prepare students for a career in the life sciences, whether they are interested in having a deep understanding of evolutionary process, or are interested in the interactions between organisms and their environment. This can help prepare students for careers in areas such as: 1. conservation and restoration biology – addressing the impacts of climate change, developing plans for habitat conservation and wildlife protection, or other issues critical to maintaining a healthy planet; 2. working as a doctor or veterinarian; 3. science education – educating students and the public on the history and diversity of life on earth and the need to conserve it; 4. basic research in biology – helping to expand the frontiers of knowledge by studying the evolution of organisms and their ecosystems. 12 upper-level guided elective hours out of the required 13-15 hours of guided electives must be completed from the courses listed below. Of those 12 hours, a maximum of 3 hours can be independent research (BIO 394/395/397). The remaining 1-3 credit hours may come from the list of approved electives for the general biology track, which may include an additional 3 hours of independent research (BIO 394/395/397). A maximum of 6 credit hours of independent research can be counted toward the Biology degree. Of the 13-15 hours of total upper-level electives required, 9 credit hours must have a BIO prefix.

ANA 410G Neurobiology of Brain and Spinal Cord Disorders .....	3
ANA 442 Molecular and Cellular Neurobiology .....	3
ANA 511 Introduction to Human Anatomy .....	5
ANA 512 Microscopy and Ultrastructure .....	4
ANA 516 Selected Topics in Advanced Neuroscience .....	3
Some other anatomy courses at the 500-level are acceptable, but they are usually restricted to professional students.	
BCH 401G Fundamentals of Biochemistry .....	3
MI/BIO 494G Immunobiology .....	3
MI 595 Immunobiology Laboratory .....	2
MI/PAT 598 Clinical Microbiology .....	3
PGY 412G Principles of Human Physiology Lectures .....	4
PGY 412G is acceptable as an elective for upper level biology credit ONLY IF a student DOES NOT complete BIO 350. It DOES NOT substitute for BIO 350 or BIO 430G.	
PGY 431 Introduction to Neuroendocrinology .....	3
PGY 417 Genomics and Epigenetics .....	2
PGY 512 Evolutionary Medicine .....	3
PGY 560 Pathophysiology: Integrative Study in Physiology and Medicine .....	1
PGY 502 Systems, Cellular and Molecular Physiology .....	5
TOX 509 Environmental and Regulatory Toxicology .....	2

Unacceptable courses often mistakenly thought to be acceptable. These courses are not acceptable electives for Biology majors:

ANA 209 Principles of Human Anatomy .....	3
PGY 206 Elementary Physiology .....	3

Other courses may be accepted at the discretion of the Director of Undergraduate Studies in the Department of Biology.

**Genetics, Genomics, and Bioinformatics Track**

The Genetics, Genomics, and Bioinformatics Track will provide guidance and structure to students with a desire to specialize in the study of inheritance and will formally recognize their chosen area of specialization in the description of their degree. The selected course offerings span the spectrum of studies within the area of inheritance, allowing students to select broadly from courses that provide sophisticated insight into genetic information and genetic analysis. The selected courses also allow students to dive deeply into different realms of genetics, including: emphasis on microbes (BIO 308, 309 and 510); emphasis on animals (BIO 404, 405, 429, 527); emphasis on analytical technology (BIO 337, 404, 461, 510, 520, STA 579, STA 580, ABT 460); emphasis on development (BIO 404, 405, 429, 445, 527, PGY 417); and emphasis on evolution (BIO 461, 508, 518).

Students selecting this track will be able to demonstrate a clear understanding of the most important and fundamental theories and ideas in contemporary biology from a perspective that emphasizes intertemporality, organization, and analysis of genetic information.

12 upper-level guided elective hours out of the required 13-15 hours of guided electives must be completed from the courses listed below. Of those 12 hours, a maximum of 3 hours can be independent research (BIO 394/395/397). The remaining 1-3 credit hours may come from the list of approved electives for the general biology track, which may include an additional 3 hours of independent research (BIO 394/395/397). A maximum of 6 credit hours of independent research can be counted toward the Biology degree. Of the 13-15 hours of total upper-level electives required, 9 credit hours must have a BIO prefix.

BIO 308 General Microbiology .....	3
BIO 309 Microbiology Laboratory .....	2
BIO 337 Mathematical Modeling in the Life Sciences ...	3
BIO 395/397 Research in Biology/Microbiology (maximum 3 credits toward track) .....	1-3

*BIO 380 Special Topics in Biology (Intermediate Level) (Subtitle required) .....	1-4

**Courses from Outside the Biology department:**

STA 570 Basic Statistical Analysis .....	3
STA 580 Biostatistics I .....	2
ABT/ENT 460 Introduction to Molecular Genetics .....	3
PGY 417 Genomics and Epigenetics .....	2

Other courses can be accepted by the Director of Undergraduate Studies in Biology on a case by case basis.

\*Subtitle must be approved by Director of Undergraduate Studies.

**Physiology and Behavior Track**

Physiology is the study of function of living organisms, primarily plants and animals. The field studies cells, tissues, organs, and the whole organism. To understand function, a mechanistic approach is used to integrate the cell level to the whole organism. The study of animal behavior and physiology go hand and hand in addressing the functional mechanisms which regulate behavior. This track will prepare pre-

professionals in health science areas (MD, DO, DDS, and PT), researchers in the function of animals and plants (MS /PhD), and ecologists.

12 upper-level guided elective hours out of the required 13-15 hours of guided electives must be completed from the courses listed below. Of those 12 hours, a maximum of 3 hours can be independent research (BIO 394/395/397). The remaining 1-3 credit hours may come from the list of approved electives for the general biology track, which may include an additional 3 hours of independent research (BIO 394/395/397). A maximum of 6 credit hours of independent research can be counted toward the Biology degree. Of the 13-15 hours of total upper-level electives required, 9 credit hours must have a BIO prefix.

Other courses can be accepted by the Director of Undergraduate Studies in Biology on a case by case basis.

\*Only for students who do not use the course to fulfill the 2<sup>nd</sup> Tier Core.

\*\*Subtitle must be approved by Director of Undergraduate Studies.

**Plant Biology Track**

The Plant Biology Track focuses on fundamental aspects of how plants function as organisms and interact with their environment. A wide variety of scientific disciplines are integrated within the track, including physiology, taxonomy, reproduction, and ecology.

A degree in biology with an emphasis in plant biology serves as an excellent launching point for a wide range of career options, including domestic and international opportunities in business, research, and teaching. The program is excellent preparation for students wishing to enter graduate or other professional schools. Plant biologists can work in the laboratory or field, forestry, botanical gardens and nurseries, agricultural companies, biotechnology, pharmaceuticals, energy and chemical industries, or environmental protection.

12 upper-level guided elective hours out of the required 13-15 hours of guided electives must be completed from the courses listed below. Of those 12 hours, a maximum of 3 hours can be independent research (BIO 394/395/397). The remain-

ing 1-3 credit hours may come from the list of approved electives for the general biology track, which may include an additional 3 hours of independent research (BIO 394/395/397). A maximum of 6 credit hours of independent research can be counted toward the Biology degree. Of the 13-15 hours of total upper-level electives required, 9 credit hours must have a BIO prefix.

BIO 310 The Life Processes of Plants ..... 3

Other courses can be accepted by the Director of Undergraduate Studies in Biology on a case by case basis.

\*Only for students who do not use the course to fulfill the 2<sup>nd</sup> Tier Core.

\*\*Subtitle must be approved by Director of Undergraduate Studies.

**Pre-Professional Track**

The Pre-Professional Track in the biology major broadly explores organismal structure and function in the context of preparing students for health-related professional programs. The courses in this track give the students a broad view of both normal and abnormal organismal function, with courses specializing in neuroscience, physiology, microbiology, and molecular biology. Independent research in this track will be an opportunity for students to work with science professionals within their desired field. Through completion of this track, students can fulfill prerequisite and recommended courses for most pre-professional health programs. Students who excel in this track can go on to enroll in a variety of professional programs, including medical, dental, optometry, veterinary, and physician’s assistant programs. A biology degree with a pre-professional health emphasis also prepares students for careers as research scientists, research lab technicians, microbiologists, genetic counselors, biology teachers, and many other general biology careers.

12 upper-level guided elective hours out of the required 13-15 hours of guided electives must be completed from the courses listed below. Of those 12 hours, a maximum of 3 hours can be independent research (BIO 394/395/397). The remaining 1-3 credit hours may come from the list of approved electives for the general biology track, which may include an additional 3 hours of independent research (BIO 394/395/397). A maximum of 6 credit hours of independent research can be counted toward the Biology degree. Of the 13-15 hours of total upper-level electives required, 9 credit hours must have a BIO prefix.

Other courses can be accepted by the Director of Undergraduate Studies in Biology on a case by case basis.

\*Only for students who do not use the course to fulfill the 2<sup>nd</sup> Tier Core.

\*\*Subtitle must be approved by Director of Undergraduate Studies.

**Total Track Hours ..... 25-27**  
**Total Minimum Hours  
 Required for Degree ..... 120**

**Minor in Biology**

The minor in Biology consists of 21 hours of course work to include:

**Preminor Requirements**

BIO 148 Introductory Biology I ..... 3  
 BIO 152 Principles of Biology II ..... 3  
 BIO 155 Laboratory for Introductory Biology I ..... 1

**Minor Requirements**

BIO 303 Introduction to Evolution ..... 4  
 BIO 304 Principles of Genetics ..... 4

**Minor Electives**

Approved 300+ level BIO courses or other courses from the approved list. At least 3 of the 6 minor electives must be BIO courses (i.e., have a BIO prefix). Up to 3 hours of life science independent research course work can be counted here.

**Approved list:**

(Note: *BIO 208 and BIO 209 CANNOT be used to satisfy the upper-level elective requirement for the Minor in Biology.*)  
 ANT 332  
 CHE 226, 232, 233, 440G, 441, 442G, 446G, 532, 533, 550,  
 552, 558, 565  
 EES 401G

PSY 459  
 STA 570, 580 (Biology usually accepts only **one** of these courses for each student. Other STA courses may be accepted at the discretion of your advisor, and this may depend upon the area of biology in which you choose to specialize.)

ABT 460  
 ASC 364, 378  
 ENT 310, 320, 402, 460, 561, 564, 568  
 FOR 340, 402  
 FSC 530  
 NRE 320, 420G, 450G, 455G  
 PLS 320, 330, 332, 366, 450G, 502, 566, 567  
 PPA 400G

ANA 511, 512, 516 (some other anatomy courses at the 500-level are accepted, but are usually restricted to professional students)

BCH 401G  
 MI 494G, 595, 598  
 PGY 412G, 560, 590 (PGY 412G is acceptable as an elective for upper level biology credit ONLY IF a student does NOT complete BIO 350; PGY 412G but DOES NOT substitute for BIO 350 or BIO 430G)

**TOX 509**

Other courses may be accepted at the discretion of the Director of Undergraduate Studies in the Department of Biology.

**Minor in Microbiology**

The minor in Microbiology consists of a total of 19 hours as follows:

**Minor Requirements**

BIO 308 General Microbiology ..... 3  
 BIO 309 Microbiology Laboratory ..... 2  
 BCH 401G Fundamentals of Biochemistry  
 or  
 BIO 315 Introduction to Cell Biology  
 or  
 CHE 550 Biological Chemistry I  
 or  
 CHE 552 Biological Chemistry II ..... 3-4

One course from the following:

BIO/MI 494G Immunobiology ..... 3  
 BIO/MI 495G Bacterial Pathogenesis ..... 3  
 BIO/MI 582 Virology ..... 3

If more than one course is taken from this list, the additional course(s) would count as an elective for the minor.

**Minor Electives**

Select 7 or 8 hours of electives (to make a total of 19 hours for the minor) from:

BIO 397 Research in Microbiology ..... 1-3  
 BIO 427 Seminar in Microbiology (Subtitle required) ..... 1  
 ABT/BIO/ENT/FOR 461 Introduction to  
 Population Genetics ..... 3  
 CPH 310 Disease Detectives:  
 Epidemiology in Action ..... 3  
 FSC 530 Food Microbiology ..... 5  
 PLS 566 Soil Microbiology ..... 3  
 PLS 567 Methods in Soil Microbiology ..... 1  
 PPA 500 Physiology of Plant Health and Disease ..... 3  
 Other microbiology-related courses at the 300-level or above,  
 as approved by the Director of Undergraduate Studies for the  
 Microbiology minor.

High achieving students may take advanced level course work from (permission of the Dean of the Graduate School is required to register for these courses):

FSC 632 Foodborne Disease Agents .....	3
PPA 650 Fungal Biology .....	3
PPA 670 Plant Bacteriology .....	1
PPA 671 Advanced Plant Virology .....	2

## CHEMISTRY

The Department of Chemistry offers the Bachelor of Science degree for students who intend to become professional chemists or do graduate work in chemistry or a closely related discipline. There are three options in the B.S. program: a traditional track covering all the major areas of chemistry, an option that emphasizes biochemistry and an option in materials chemistry. The Biochemistry and Traditional Options are certified by the American Chemical Society. A Bachelor of Arts degree program is offered as well for students who want greater flexibility in the selection of courses to perhaps pursue more diverse degree options, including dual and double majors. The Department also offers the Master of Science and the Doctor of Philosophy degree.

### Bachelor of Arts with a major in CHEMISTRY

#### 122 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. Please also note that the Organic Chemistry Sequence (CHE 230/231/232/233) will count towards completion of this requirement. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

#### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete **UK Core requirements**. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ..... 3

#### II. Intellectual Inquiry in the Humanities

Choose one course from approved list ..... 3

#### III. Intellectual Inquiry in the Social Sciences

Choose one course from approved list ..... 3

#### IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

CHE 105 General College Chemistry I ..... 4

CHE 111 General Chemistry I Laboratory ..... 1

#### V. Composition and Communication I

CIS/WRD 110 Composition and Communication I ..... 3

#### VI. Composition and Communication II

CIS/WRD 111 Composition and Communication II ..... 3

#### VII. Quantitative Foundations

MA 113 Calculus I ..... 4

#### VIII. Statistical Inferential Reasoning

Choose one course from approved list ..... 3

#### IX. Community, Culture and Citizenship in the USA

Choose one course from approved list ..... 3

#### X. Global Dynamics

Choose one course from approved list ..... 3

**UK Core hours: ..... 33**

#### Graduation Composition and Communication Requirement (GCCR)

In order to meet the Graduation Composition and Communication Requirement (GCCR), students must successfully complete **both** BIO 425 to fulfill the oral communication requirement **and** one course from the list below to fulfill the written communication requirement. In order to receive GCCR credit a student must:

- Earn an average grade of C or better on all GCCR assignments;  
**and**
- Have completed at least 30 credit hours of college-level coursework prior to registering for the course.

#### Oral Communication Requirement

BIO 425 Biology Seminar (Subtitle required) ..... 1

#### Written Communication Requirement

Choose one course from the following 8 options:

BIO 398 Research and Writing in Biology ..... 1-3

BIO 404 Advanced Genetics ..... 3

BIO 405 Human Genetics ..... 3

BIO 418 Ecological Genetics ..... 3

BIO 430G Plant Physiology ..... 4

BIO 445 The Biology of Sex ..... 3

WRD 305 Writing Public Science ..... 3

WRD 310 Writing in the Natural Sciences ..... 3

**Graduation Composition and Communication Requirement hours (GCCR) ..... 2-5**

#### College Requirements

I. Foreign Language (*placement exam recommended*) ..... 0-14

II. Disciplinary Requirements

a. Natural Science (*completed by Major Requirements*)

b. Social Science ..... 6

c. Humanities ..... 6

III. Laboratory or Field Work (*completed by Premajor Requirement*)

IV. Electives ..... 6

**College Requirement hours: ..... 18-32**

CHE 231 Organic Chemistry Laboratory I ..... 1

CHE 232 Organic Chemistry II ..... 3

CHE 233 Organic Chemistry Laboratory II ..... 1

CHE 440G Introductory Physical Chemistry ..... 3

CHE 441 Physical Chemistry Laboratory ..... 2

**Major Core hours: ..... 16**

#### Other Course Work Required for the Major

##### Chemistry Major Field Options

Choose 21 hours at the 300+ level with a prefix of ANA, BCH, BIO, CHE, CME, CS, EES, MA, MI, MSE, PAT, PGY, PHA, PHR, PHY, PM, RM, or STA. Credit will not be given for both BCH 401G and CHE 550 or CHE 552. At least 5 of these hours must be in CHE courses; at least 4 hours must be taken outside CHE. Up to 9 hours of CHE 395 are possible for students having a minimum GPA of 3.0 in CHE courses. Other courses may be approved by the Undergraduate Program Committee. Students working towards teaching accreditation may count 6 hours taken at the 300+ level from the College of Education. A maximum of 9 hours in undergraduate research or reading courses may be counted; such courses require approval of the Undergraduate Program Committee if the courses do not carry the CHE prefix 21

##### From the Physics Department

## EARTH AND ENVIRONMENTAL SCIENCES

The earth and environmental sciences encompass a wide variety of studies of our planet, including the study of its composition, structure, prehistoric life, internal and surficial processes, and history. These studies have important implications for understanding how our planet functions, as well as for understanding the interactions between humans and their environment. The discipline includes numerous applications in the discovery and use of mineral, energy, and water resources; in the protection and restoration of the environment; and in planning for the impacts of natural hazards (earthquakes, landslides, etc.) and climate change on global societal development. Students undertake the study of earth and environmental sciences in the classroom, laboratory, and field.

Students in earth and environmental sciences earn the Bachelor of Science or Bachelor of Arts degree with a major in Geological Sciences. The B.S. program is designed for students who plan a career as a professional geologist or who plan to attend graduate school. The B.A. program is designed for students planning a career in public policy relating to earth science and environmental issues, earth-science education, business (environmental consulting), environmental law, or environmental medicine.

### Bachelor of Arts with a major in GEOLOGICAL SCIENCES

#### 120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

#### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Choose 6 additional hours of 300+ EES or related courses

**From the Physics Department**

\*PHY 211/213 General Physics **or**  
\*PHY 231/232/241/242 General University Physics .. 10  
**NOTE:** 14 hours at the 200 level or higher must be completed outside Geological Sciences. Partial fulfillment of this requirement can be completed by the PHY Sequence and EES Elective II Requirements .....

**Other Major hours:** ..... **0-18**

**Total Minimum Hours**

**Required for Degree** ..... **120**

\*Course used towards completion of a UK Core Requirement.

**Minor in Geological Sciences**

The minor in Geological Sciences requires 19 hours of course work to include:

EES 220 Principles of Physical Geology .....	4
EES 230 Fundamentals of Geology I .....	3
EES 235 Fundamentals of Geology II .....	3
Plus 9 hours in EES courses at the 300 level or higher ...	9

**ECONOMICS**

The Department of Economics offers theoretical and applied courses in diverse areas including microeconomics, macroeconomics, labor, money and banking, international economics, public economics, and industrial organization. It provides an opportunity for the student to pursue his or her interests within the framework of a liberal arts education.

The department offers programs leading to different undergraduate degree – a Bachelor of Science in the Gatton College of Business and Economics, a Bachelor of Arts and a Bachelor of Science with a major in economics in the College of Arts and Sciences, and a Bachelor of Arts and a Bachelor of Science with a major in mathematical economics. The distinctions among these degree lie primarily in the required supporting courses in the various programs. (For students wishing to major in economics through the Gatton College of Business and Economics, please refer directly to that college's section in the Bulletin. Mathematical economics majors should refer directly to that section of the Bulletin under the College of Arts and Sciences.)

**Bachelor of Arts with a major in ECONOMICS****120 hours (minimum)**

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

## Bachelor of Science with a major in ECONOMICS

### 120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with a prefix of ECO are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this 60-hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 130.

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ..... 3

#### II. Intellectual Inquiry in the Humanities

Choose one course from approved list ..... 3

#### III. Intellectual Inquiry in the Social Sciences

Choose one course from approved list ..... 3

#### IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

ECO 401 Intermediate Microeconomic Theory ..... 3

ECO 402 Intermediate Macroeconomic Theory ..... 3

ECO 499 Seminar in Economics (Subtitle required) ..... 3

**Major Core hours:** ..... 12

### Other Course Work Required for the Major

#### From the Major Department:

Choose 9-15 hours of 300+ level economics courses of which at least 6 hours must be at the 400+ level ..... 9-15

#### From Outside the Major Department

Choose 15-21 hours outside Economics at the 200+ level, with at least 6 hours in two different departments. These courses are generally chosen from the following departments: Anthropology, Computer Science, History, Mathematics, Philosophy, Political Science, Psychology, Sociology, Statistics, or courses offered by the College of Business and Economics. 200+ level courses used to satisfy College Requirements can also be counted here ..... 15-21

**Other Major hours:** ..... 30

### Electives

Choose electives to lead to the minimum total of 60 science hours and 120 earned hours required for graduation ..... 7

#### Total Minimum Hours

**Required for Degree** ..... 120

*\*Course used towards completion of a UK Core Requirement.*

## Minor in Economics

The minor in Economics requires 18 hours of course work to include:

ECO 201 Principles of Economics I ..... 3

ECO 202 Principles of Economics II ..... 3

ECO 401 Intermediate Microeconomic Theory

or

ECO 402 Intermediate Macroeconomic Theory ..... 3

Three additional economics courses at the 300-level

or above ..... 9

## ENGLISH

The Department of English offers a wide variety of courses in British, American and African-American literature as well as in creative writing, cultural studies, composition, and film.

### Bachelor of Arts with a major in ENGLISH

#### 120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally com-

pleted by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ..... 3

#### II. Intellectual Inquiry in the Humanities

Choose one course from approved list ..... 3

#### III. Intellectual Inquiry in the Social Sciences

Choose one course from approved list ..... 3

Choose one course from approved list ..... 3

#### V. Composition and Communication I

CIS/WRD 110 Composition and Communication I ..... 3

#### VI. Composition and Communication II

CIS/WRD 111 Composition and Communication II ..... 3

#### VII. Quantitative Foundations

Choose one course from approved list ..... 3

#### VIII. Statistical Inferential Reasoning

Choose one course from approved list ..... 3

#### IX. Community, Culture and Citizenship in the USA

Choose one course from approved list ..... 3

#### X. Global Dynamics

Choose one course from approved list ..... 3

**UK Core Hours** ..... 30

### Graduation Composition and Communication Requirement (GCCR)

ENG 330 Text and Context (Subtitle required) ..... 3

**Graduation Composition and Communication Requirement hours (GCCR)** ..... 3

### College Requirements

I. Foreign Language (*placement exam recommended*) ..... 0-14

#### II. Disciplinary Requirements

a. Natural Science ..... 6

b. Social Science ..... 6

c. Humanities (*completed by Major Requirements*) ..... 0-6

III. Laboratory or Field Work ..... 1

IV. Electives ..... 6

**College Requirement hours:** ..... 19-33

### Premajor Requirements

\*CIS/WRD 110 Composition and Communication I (*requirement fulfilled in UK Core*)

\*CIS/WRD 111 Composition and Communication II (*requirement fulfilled in UK Core*)

plus one of the following:

\*ENG 230 Introduction to Literature (Subtitle required) ..... 3

\*ENG 260 Introduction to Black Writers ..... 3

\*ENG 290 Introduction to Women's Literature ..... 3

**Premajor hours:** ..... 3

*\*Course used towards completion of a UK Core Requirement.*

**Major Requirements****Major Core Requirements**

**ENG Historical Survey Requirement** ..... 6  
Majors must take two Historical Survey courses of their choice. Historical Surveys can be taken in any combination and any order. Courses fulfilling the Historical Survey Requirement include:

ENG 241 Survey of British Literature I ..... 3  
ENG 242 Survey of British Literature II ..... 3  
ENG 251 Survey of American Literature I ..... 3  
ENG 252 Survey of American Literature II ..... 3  
ENG 265 Survey of African-American Literature I ..... 3  
ENG 266 Survey of African-American Literature II ..... 3

**ENG 330 Text and Context**

**(Subtitle required)** ..... 3  
Majors must complete this core course after completing the premajor requirements and before going on to 400-level courses in the major. ENG 330 fulfills the Graduation Composition and Communication Requirement. ENG 330 is repeatable for up to six hours of credit as an ENG elective.

**ENG Early Period Requirement** ..... 0-3  
Majors must take at least one Early Period ENG course of their choice. Courses fulfilling the Early Period Requirement include:

ENG 241 Survey of British Literature I ..... 3  
ENG 251 Survey of American Literature I ..... 3  
ENG 341 Chaucer and His Contemporaries ..... 3  
ENG 342 Shakespeare ..... 3  
ENG 343 Renaissance Drama and Society ..... 3  
ENG 518 Advanced History of the English Language ..... 3  
ENG 519 Introduction to Old English ..... 3  
or other Early Period subtitled courses as designated at the 300-400 level ..... 3

**Diversity Requirement** ..... 3  
Students must take at least one Diversity ENG course of their choice. Courses fulfilling the Diversity Requirement include:

ENG 260 Introduction to Black Writers ..... 3  
ENG 265 Survey of African-American Literature I ..... 3  
ENG 266 Survey of African-American Literature II ..... 3  
ENG 361 Early African-American Literature ..... 3  
ENG 362 Flights to Freedom: Literature of the Great Black Migrations ..... 3  
ENG 368 Contemporary African-American Voices ..... 3  
ENG 369 African American Women's Writing ..... 3  
ENG 370 Literature Across Borders ..... 3  
ENG 460G Studies in African-American Literature (Subtitle required) ..... 3  
ENG 470G Comparative and Transnational Studies in Literature (Subtitle required) ..... 3  
ENG 490G Studies in Literature and Gender (Subtitle required) ..... 3  
any other course designated as a Diversity course at the 200-500 level ..... 3

**Major Core hours:** ..... 9-15

**Other Course Work Required for the Major****From the Major Department:**

Majors must take an additional seven courses in ENG (Major Electives) primarily at the 300-level and above. Of these required seven courses:

- two courses must be at the 400-level, of which one must be above ENG 407 (i.e., not ENG 401, 405, or 407);

- two courses maximum may be counted from additional Historical Surveys (surveys cannot be double-counted for the Historical Survey Requirement and for the total ENG course requirement);
- two courses maximum may be counted from among ENG 207, ENG 221, ENG 260, ENG 280, and ENG 290.

All additional courses must be at the 300-500 level in ENG. Majors should fulfill the Early Period and Diversity Requirements from among these courses if they have not been already satisfied (e.g., by survey classes or ENG 330) ..... 21

**Total minimum ENG course hours (excluding premajor)** ..... 30

**From Outside the Major Department**

For the English B.A. degree, 9 additional hours at the 200+ level outside English are required in allied departments and programs in Arts, Humanities, Social Sciences, and Education. Applicable departments and programs include (by prefix): A&S, AAS, AIS, ANT, APP, CHI, CLA, EDC, EDU, EPE, GER, GWS, HJS, HIS, HMN, HON, IAS, ITA, JOU, JPN, LAS, LIN, MAS, MCL, PHI, PS, RS, SPA, ST, WRD ..... 9

**Total Major hours:** ..... 39-42

**Other Electives**

Choose electives and other courses to lead to the minimum total of 120 hours required for graduation.

**Total Minimum Hours Required for Degree** ..... 120

**Creative Writing Option – B.A.****12 total hours within the ENG program**

To fulfill the ENG Creative Writing Option, students must complete the following:

- ENG 207 Beginning Workshop in Creative Writing (Subtitle required) ..... 3
- ENG 407 Intermediate Workshop in Creative Writing (Subtitle required) ..... 3
- \*ENG 507 Advanced Workshop in Creative Writing (Subtitle required) *taken twice* ..... 6
- submission of a portfolio for evaluation by the Creative Writing staff six weeks prior to graduation

\*Students complete 6 credit hours of ENG 507 under different subtitles **but** within the same genre.

**Bachelor of Science with a major in ENGLISH****120 hours (minimum)**

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Courses with an ENG prefix are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. For the ENG B.S. in particular, majors are allowed to apply an additional 9 hours of elective course work towards the science requirement. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 130.

**UK Core Requirements**

See the **UK Core** section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

Choose one course from approved list ..... 3

**II. Intellectual Inquiry in the Humanities**

Choose one course from approved list ..... 3

**III. Intellectual Inquiry in the Social Sciences**

Choose one course from approved list ..... 3

**IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences**

Choose one course from approved list ..... 3

**V. Composition and Communication I**

CIS/WRD 110 Composition and Communication I ..... 3

- two courses maximum may be counted from among ENG 207, ENG 221, ENG 260, ENG 280, and ENG 290.

All additional courses must be at the 300-500 level in ENG. Majors should fulfill the Early Period and Diversity Requirements from among these courses if they have not been already satisfied (e.g., by survey classes or ENG 330) ..... 21

**Total minimum ENG course hours  
(excluding premajor)** ..... 30

**From Outside the Major Department**

For the English B.S. degree, 9 additional hours in the sciences are required that can be applied toward the 60-hour science requirement. Choose from among the applicable courses in the natural, physical, mathematical, and computer sciences ..... 9

**Major hours:** ..... 39-42

**Other Electives**

Choose electives and other courses to lead to the minimum total of 120 hours of course work and 60 hours of science credits required for graduation.

**Total Minimum Hours  
Required for Degree** ..... 120

**Creative Writing Option – B.S.****12 total hours within the ENG program**

To fulfill the ENG Creative Writing Option, students must complete the following:

- ENG 207 Beginning Workshop in Creative Writing (Subtitle required) ..... 3
- ENG 407 Intermediate Workshop in Creative Writing (Subtitle required) ..... 3
- \*ENG 507 Advanced Workshop in Creative Writing (Subtitle required) *taken twice* ..... 6
- submission of a portfolio for evaluation by the Creative Writing staff six weeks prior to graduation

\*Students complete 6 credit hours of ENG 507 under different subtitles **but** within the same genre.

**Minor in Creative Writing**

The minor in Creative Writing consists of a total of 18 hours, of which at least 9 hours must be at or above the 300 level, distributed as follows:

**Minor Requirements**

One ENG Historical Survey course:  
ENG 241 Survey of British Literature I  
ENG 242 Survey of British Literature II  
ENG 251 Survey of American Literature I  
ENG 252 Survey of American Literature II  
ENG 265 Survey of African-American Literature I  
ENG 266 Survey of African-American Literature II ..... 3

ENG 207 Beginning Workshop in Creative Writing (Subtitle required) ..... 3

ENG 407 Intermediate Workshop in Creative Writing (Subtitle required) ..... 3

or  
ENG 507 Advanced Workshop in Creative Writing (Subtitle required) ..... 3

plus one additional Creative Writing course:  
ENG 107 Writing Craft: Introduction to Creative Writing  
ENG 207 Beginning Workshop in Creative Writing (Subtitle required)  
ENG 407 Intermediate Workshop in Creative Writing (Subtitle required)  
ENG 507 Advanced Workshop in Creative Writing (Subtitle required) ..... 3

**Minor Electives**

Two non-Creative Writing ENG courses at the 300-level or above ..... 6

**NOTE:** Students pursuing both the Minor in English and the Minor in Creative Writing may only count 3 credit hours of ENG prefix course work towards both minors.

**Minor in English**

The minor in English requires 18 hours of course work to include:

Any one ENG Historical Survey course:  
ENG 241 Survey of British Literature I ..... 3  
ENG 242 Survey of British Literature II ..... 3  
ENG 251 Survey of American Literature I ..... 3  
ENG 252 Survey of American Literature II ..... 3  
ENG 265 Survey of African-American Literature I ..... 3  
ENG 266 Survey of African-American Literature II ..... 3

One core course:  
ENG 330 Text and Context (Subtitle required) ..... 3

Four more ENG courses, with a maximum of one 100-level course and a minimum of two 300+ level courses ..... 12

**NOTE:** Students pursuing both the Minor in English and the Minor in Creative Writing may only count 3 credit hours of ENG prefix course work towards both minors.

**ENVIRONMENTAL AND SUSTAINABILITY STUDIES**

The Environmental and Sustainability Studies B.A. degree educates students in a broad range of fundamental environmental studies subjects with concepts of sustainability integrated throughout the curriculum. The course work requirements consist of 18 credits of core courses and 24 credits of electives organized in the Areas of Economics, Environment, and Society. In order to ensure depth of knowledge and expertise 15 credits of courses will be taken within one Area. To provide breadth of knowledge, six credits of courses will be taken in a second Area and three credits of courses in the third Area. The Areas were selected in recognition that any type of sustainable activity, resource, or product must balance economic, environmental, and social considerations. In the Environmental and Sustainability Studies program, students will combine the fundamental knowledge they obtain in the three Areas to develop an understanding of sustainability and how sustainable practices can be implemented in their eventual careers. The ENS B.A. is an ideal double major for other disciplinary degrees.

**Bachelor of Arts with a major in ENVIRONMENTAL AND SUSTAINABILITY STUDIES**

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major.

See the complete description of College requirements for a Bachelor of Arts degree on page 129.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

Choose one course from approved list ..... 3

**II. Intellectual Inquiry in the Humanities**

Choose one course from approved list ..... 3

**III. Intellectual Inquiry in the Social Sciences**

Recommended:

ECO 101 Contemporary Economic Issues ..... 3

**IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences**

Choose one course from approved list ..... 3

**V. Composition and Communication I**

CIS/WRD 110 Composition and Communication I ..... 3

**VI. Composition and Communication II**

CIS/WRD 111 Composition and Communication II ..... 3

**VII. Quantitative Foundations**

Choose one course from approved list ..... 3

**VIII. Statistical Inferential Reasoning**

STA 296 Statistical Methods and Motivations ..... 3

**IX. Community, Culture and Citizenship in the USA**

Choose one course from approved list ..... 3

**X. Global Dynamics**

Choose one course from approved list ..... 3

**UK Core hours:** ..... 30

**Graduation Composition and Communication Requirement (GCCR)**

ENS 400 Senior Seminar (Subtitle required) ..... 3

**Graduation Composition and Communication Requirement hours (GCCR)** ..... 3

**College Requirements**

I. Foreign Language (*placement exam recommended*) ..... 0-14

II. Disciplinary Requirements

- a. Natural Science (*completed by Major Requirements*)
- b. Social Science (*completed by Major Requirements*)
- c. Humanities ..... 6

III. Laboratory or Field Work ..... 1

IV. Electives ..... 6

**College Requirement hours:** ..... 13-27

**Required Core Courses**

**Hours**

ENS 201 Environmental and Sustainability Studies I: Humanities and Social Sciences ..... 3

ENS 202 Environmental and Sustainability Studies II: Natural Science and Policy ..... 3

ENG 425 Environmental Writing ..... 3

ENS 300 Special Topics (Subtitle required) ..... 3

PHI 336 Environmental Ethics ..... 3

ENS 400 Senior Seminar (Subtitle required) ..... 3

**Required Core Courses hours:** ..... 18

**AREAS OF EXPERTISE**

Students must take five courses (15 credits) in one Area of Expertise, two in another Area (6 credits), and one in a third Area (3 credits)

**Area 1 – Economics**

A sustainable balance must be made between economic gain and protection of natural resources. Governments must determine policy and institute laws to provide the necessary protection of natural resources, and provide the guidelines for any development. This Area will provide the students with training in the interconnectedness of economics, policy and development. The students will have the freedom to select clusters of courses suited to their career goals. For example, students anticipating careers in business may select courses related to economics and those planning to go to Law School may focus on policy courses.

\*ECO 201 is required for Area 1.

**Area 2 – Environment**

This area will build upon the fundamental natural science knowledge obtained in ENS 202 and the subjects taken to fulfill the A&S requirements. Students will be able to select from courses spanning a wide range of environmental subjects in order to focus on a subject of their specific interest. For example, this Area could be used to observe how societies have influenced the natural world from historic to modern times, the impact of development on ecology, and how climate change today compares to changes that occurred in the past.

**Area 3 – Society**

This Area explores the way that human society interacts with the environment. “Coupled human-natural systems” are a primary driver of environmental change, and also a key source of solutions to environmental problems. This Area will build students’ knowledge of the mutually influencing human-environment dynamic.

### From Outside the Major Department

Choose hours outside Environmental and Sustainability Studies at the 300+ level. 200+ level courses used to satisfy College Requirements can also be counted here.

**Subtotal: Other Major hours: .....** 6

### Electives

Electives should be selected to complete the 120 hours required for graduation.

**Subtotal: Electives .....** minimum of 6

### Total Minimum Hours

**Required for Degree .....** 120

## FOREIGN LANGUAGE AND INTERNATIONAL ECONOMICS

The Foreign Language and International Economics (FLIE) major combines economics with proficiency in a non-English language and prepares students for a future in government, international relations, law, research, multinational corporations, and local industries who conduct business internationally. Economists are able to interpret and forecast general economic conditions, estimate trends, analyze data, and use economic theory to help their organization operate more efficiently. Combine those skills with the ability to communicate effectively in another language, and opportunities abound.

In the FLIE major, students take a minimum of nine economics courses and seven to ten intermediate and advanced courses in one of the following languages: Arabic, Chinese, French, German, Italian, Japanese, Russian, or Spanish.

## Bachelor of Arts with a major in FOREIGN LANGUAGE AND INTERNATIONAL ECONOMICS

### 120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete **UK Core requirements**. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

*\*Course used towards completion of a UK Core Requirement*

## Bachelor of Science with a major in FOREIGN LANGUAGE AND INTERNATIONAL ECONOMICS

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. **Please note:** courses with a FR, GER, JPN, RUS, SPA or ECO prefix are generally **not** accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 130.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete **UK Core requirements**. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

Choose one course from approved list ..... 3

**II. Intellectual Inquiry in the Humanities**

## GENDER AND WOMEN'S STUDIES

The Department in Gender and Women's Studies offers an interdisciplinary curriculum which focuses on the study of gender as an aspect of everyday life, as well as on the political and cultural experiences and contributions of women across the world and through time. Majors in GWS have gone on to become artists, activists, to study law, medicine, social work, and to pursue academic careers.

### Bachelor of Arts with a major in GENDER AND WOMEN'S STUDIES

#### 120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the

major. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

GWS 595 Issues in Gender and Women's Studies (Subtitle required) .....	3

**Elective hours: .....** **15**

**Total Major hours: .....** **27**

### Other Course Work Required for the Major

Students must complete at least 27 credit hours of the major through upper-division course work (12 credit hours of core courses, 15 credit hours of electives).

### From Outside the Major Department

Choose 12 hours outside GWS at the 300+ level. 200+ level courses used to satisfy College requirements can also be counted here.

**Other Major hours: .....** **12**

**Total Minimum Hours  
Required for Degree .....** **120**

*\*Course used towards completion of a UK Core Requirement.*

## Minor in Gender and Women's Studies

The minor in Gender and Women's Studies requires 18 hours of course work to include:

GWS 200 Sex and Power	
or	
GWS 201 Gender and Popular Culture .....	3
GWS 250 Social Movements	
or	
GWS 340 History of Feminist Thought to 1975 .....	3
GWS 350 Feminist Theory .....	3

Plus an additional 9 hours of electives to be selected with the approval of the Director of Undergraduate Studies in the Department of Gender and Women's Studies.

**Courses used for the Gender and Women's Studies topical major, minor or graduate certificate must be taught by a Gender and Women's Studies Affiliated Faculty.**

Gender and Women's Studies also offers an Undergraduate Certificate in Sexuality Studies, listed on page 197.

For further information, contact the department manager, Gender and Women's Studies, 112 Breckinridge Hall, 859-257-1388.

## GEOGRAPHY

Geography analyzes and explains the location of and interrelationships between human and physical features of the earth's environment. Geographers also examine how and why features and their locations change over time, with particular interest in the many impacts of these changes on both people and natural settings. Geography is, therefore, both a social and a physical science. Because its fundamental subject matter is people and their environments, the discipline serves as an effective bridge between the physical and cultural worlds.

Majors in geography build solid academic foundations that draw from and interrelate areas of study from the environmental sciences, natural sciences, social and behavioral sciences, humanities, digital studies, and graphic communication. With developed analytical, critical thinking, and communication skills, geography is particularly useful for students wishing to enter a wide range of careers, such as economic development, environmental management, international trade, transportation analysis, diplomacy, government administration, market analysis, urban and regional planning, research, teaching, cartography, Geographic Information Systems (GIS), and private business.

The Department of Geography has developed detailed major concentration tracks in seven areas: environmental geography, physical geography, urban geography and planning, GIS focus, human geography, international studies, and design your own geography major. For more information, contact the Department of Geography at 859-257-2931, or on the web at: <https://geography.as.uky.edu/>.

### Bachelor of Arts with a major in GEOGRAPHY

#### 120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

#### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

##### Methods Requirements

Choose one methods course from the following options:

GEO 305 Elements of Cartography ..... 3

GEO 310 Data Explorations and Applications

in Everyday Life ..... 3

GEO 311 Qualitative Methods in Geography ..... 3

GEO 409 Advanced GIS ..... 3

**Methods hours: ..... 3**

#### Other Course Work Required for the Major

**Geography Tracks ..... 18**

Choose at least 18 hours of additional geography courses to include: no more than 3 hours of 100-level courses; no more than 6 hours of GEO 560 and GEO 399; a minimum of 3 hours of 400+ level courses (not including GEO 409, 406, or 499). The following focus areas represent specializations within Geography and are provided as guidelines. Most students will find it useful to concentrate their 18 hours within these focus areas, but this is not a requirement. On completion of 15 hours within any focus area, the Geography Department will award a certificate of completion of studies in the area of specialization. Consult with your advisor in making selections of courses.

## GEOGRAPHY TRACKS

### Environmental Geography Option

Suggested Courses:

GEO 135 Global Climate Change ..... 3

GEO 162 Introduction to

Global Environmental Issues ..... 3

GEO 231 Environment and Development ..... 3

GEO 235 Environmental Management and Policy ..... 3

GEO 261 Global Dynamics of Health and Disease ..... 3

GEO 321 Land, People, and Development

in Appalachia ..... 3

GEO 331 Global Environmental Change ..... 3

GEO 334 Environment, Society

and Economy of Japan ..... 3

GEO 431 Political Ecology ..... 3

GEO 530 Biogeography and Conservation ..... 3

GEO 531 Landscape Ecology ..... 3

### Physical Geography Option

Suggested Courses:

GEO 135 Global Climate Change ..... 3

GEO 130 Earth's Physical Environment ..... 3

GEO 230 Weather and Climate ..... 3

GEO 235 Environmental Management and Policy ..... 3

GEO 351 Physical Landscapes ..... 3

GEO 451G Fluvial Forms and Processes ..... 3

GEO 530 Biogeography and Conservation ..... 3

GEO 531 Landscape Ecology ..... 3

### Urban Geography and Planning Option

Suggested Courses:

GEO 220 U.S. Cities ..... 3

GEO 285 Introduction to Planning ..... 3

GEO 485G Urban Planning and Sustainability ..... 3

GEO 235 Environmental Management and Policy ..... 3

GEO 309 Introduction to GIS ..... 3

GEO 310 Data Explorations and Applications

in Everyday Life ..... 3

GEO 415 Map Interpretation ..... 3

GEO 422 Urban Geography ..... 3

GEO 455 Globalization and the

Changing World Economy ..... 3

GEO 490G American Landscapes ..... 3

GEO 544 Human Population Dynamics ..... 3

GEO 545 Transportation Geography ..... 3

### GIS Focus

Suggested Courses:

GEO 109 Digital Mapping ..... 3

GEO 164 iWorlds: Global Information Geographies ..... 3

GEO 409 Advanced GIS ..... 3

GEO 509 Workshop in Geospatial Technologies ..... 3

GEO 419 Introduction to Remote Sensing ..... 3

GEO 305 Elements of Cartography ..... 3

GEO 506 Introduction to Computer Cartography ..... 3

GEO 505 Practicum in Cartography ..... 3

GEO 310 Data Explorations and Applications

in Everyday Life ..... 3

GEO 415 Map Interpretation ..... 3

GEO 365 Special Topics in Geography

(Subtitle required) ..... 3

### Human Geography Option

Suggested Courses:

GEO 161 Global Inequalities ..... 3

GEO 240 Geography and Gender ..... 3

GEO 260 Geographies of Development

in the Global South ..... 3

GEO 422 Urban Geography ..... 3

GEO 442G Political Geography ..... 3

GEO 455 Globalization and the

Changing World Economy ..... 3

GEO 475 Health and Medical Care in Space and Time .....	3
GEO 490G American Landscapes .....	3
GEO 544 Human Population Dynamics .....	3
GEO 545 Transportation Geography .....	3
GEO 546 Tourism and Recreation Geography .....	3

### International Studies Option

Suggested Courses:

GEO 163 Global Conflicts .....	3
GEO 221 Immigrant America: A Geographic Perspective .....	3
GEO 222 Cities of the World .....	3
GEO 255 Geography of the Global Economy .....	3
GEO 326 Geography of Europe .....	3
GEO 328 Geography of the Middle East and North Africa .....	3
GEO 329 Geography of the Former Soviet Union .....	3
GEO 331 Global Environmental Change .....	3
GEO 334 Environment, Society and Economy of Japan .....	3
GEO 546 Tourism and Recreation Geography .....	3

### Design Your Own Geography Major Option

Any Geography courses fulfilling the requirements for the major.

**Major hours:** ..... 39

### Electives

Choose electives to lead to the minimum total of 120 hours required for graduation .....

**Total Minimum Hours  
Required for Degree** ..... 120

## Bachelor of Science with a major in GEOGRAPHY

### 120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with a GEO prefix are generally not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 130.

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list .....

#### II. Intellectual Inquiry in the Humanities

Choose one course from approved list .....

#### III. Intellectual Inquiry in the Social Sciences

GEO 475 Health and Medical Care  
in Space and Time ..... 3  
GEO 490G American Landscapes ..... 3  
GEO 544 Human Population Dynamics ..... 3  
GEO 545 Transportation Geography ..... 3  
GEO 546 Tourism and Recreation Geography ..... 3

**International Studies Option**

Suggested Courses:

GEO 163 Global Conflicts ..... 3  
GEO 221 Immigrant America:  
A Geographic Perspective ..... 3  
GEO 222 Cities of the World ..... 3  
GEO 255 Geography of the Global Economy ..... 3  
GEO 326 Geography of Europe ..... 3  
GEO 328 Geography of the Middle East  
and North Africa ..... 3  
GEO 329 Geography of the Former Soviet Union ..... 3  
GEO 331 Global Environmental Change ..... 3  
GEO 334 Environment, Society  
and Economy of Japan ..... 3  
GEO 546 Tourism and Recreation Geography ..... 3

**Design Your Own Geography Major Option**

Any Geography courses fulfilling the requirements for the major.

**Major hours: ..... 39**

**Electives**

Choose electives to lead to the minimum total of 120 hours required for graduation ..... 4

**Total Minimum Hours  
Required for Degree ..... 120**

**Minor in Geography**

The minor in Geography requires a minimum of 18 hours, 15 of which must be in courses at the 200+ level, taken within the department as follows:

The courses below are *suggested* courses; all GEO courses count toward the minor.

**K-12 Teaching and Administration**

Take 6 for 18 credit hours:

GEO 172 Human Geography ..... 3  
GEO 130 Earth's Physical Environment ..... 3  
GEO 200 Orientation to Geography ..... 3  
GEO 220 U.S. Cities

or

GEO 222 Cities of the World ..... 3  
GEO 320-365 Regional Geography Courses ..... 3  
GEO 452G World Geography for Teachers ..... 3  
GEO 430G Physical Geography for Teachers ..... 3

**Geosciences**

Take 6 for 18 credit hours:

GEO 130 Earth's Physical Environment ..... 3  
GEO 230 Weather and Climate ..... 3  
GEO 331 Global Environmental Change ..... 3  
GEO 351 Physical Landscapes ..... 3  
GEO 451G Fluvial Forms and Processes ..... 3  
GEO 530 Biogeography and Conservation ..... 3  
GEO 531 Landscape Ecology ..... 3

**Social Sciences and Humanities**

Take 6 for 18 credit hours:

one of the following:

GEO 160 Lands and Peoples of the Non-Western World  
GEO 161 Global Inequalities  
GEO 162 Introduction to Global Environmental Issues  
GEO 163 Global Conflicts ..... 3

plus:

GEO 172 Human Geography ..... 3  
GEO 221 Immigrant America:  
A Geographic Perspective ..... 3  
GEO 240 Geography and Gender ..... 3  
GEO 320-GEO 336 Regional Geography Courses  
GEO 422 Urban Geography ..... 3  
GEO 442G Political Geography ..... 3  
GEO 470G America's Cultural Geographies ..... 3

**Environmental Studies**

Take 6 for 18 credit hours:

GEO 162 Introduction to  
Global Environmental Issues ..... 3  
GEO 130 Earth's Physical Environment ..... 3  
GEO 230 Weather and Climate  
or  
GEO 331 Global Environmental Change ..... 3  
GEO 231 Environment and Development ..... 3  
GEO 235 Environmental Management and Policy ..... 3  
GEO 351 Physical Landscapes ..... 3  
GEO 431 Political Ecology ..... 3  
GEO 530 Biogeography and Conservation ..... 3  
GEO 531 Landscape Ecology ..... 3  
GEO 546 Tourism and Recreation Geography ..... 3  
GEO 550 Sustainable Resource Development  
and Environmental Management ..... 3  
GEO 585 Aging and Environment ..... 3

**Economic Geography**

Take 6 for 18 credit hours:

GEO 161 Global Inequalities  
or  
GEO 164 iWorlds: Global Information Geographies ..... 3  
GEO 172 Human Geography ..... 3  
GEO 255 Geography of the Global Economy ..... 3  
GEO 260 Geographies of Development  
in the Global South ..... 3  
GEO 320-365 Regional Geography Courses ..... 3  
GEO 455 Globalization and  
the Changing World Economy ..... 3  
GEO 545 Transportation Geography ..... 3  
GEO 546 Tourism and Recreational Geography ..... 3  
GEO 551 Japanese Multinational Corporations ..... 3

**Medical and Health Geography**

Take 6 for 18 credit hours:

GEO 172 Human Geography ..... 3  
GEO 261 Global Dynamics of Health and Disease ..... 3  
GEO 309 Introduction to GIS ..... 3  
GEO 320-365 Regional Geography Courses ..... 3  
GEO 422 Urban Geography ..... 3  
GEO 475 Health and Medical Care  
in Space and Time ..... 3  
GEO 585 Aging and Environment ..... 3

**Urban Planning and Urban Studies**

Take 6 for 18 credit hours:

GEO 161 Global Inequalities  
or  
GEO 164 iWorlds: Global Information Geographies ..... 3  
GEO 172 Human Geography ..... 3  
GEO 220 U.S. Cities ..... 3  
GEO 222 Cities of the World ..... 3

GEO 235 Environmental Management and Policy ..... 3  
GEO 285 Introduction to Planning ..... 3  
GEO 309 Introduction to GIS ..... 3  
GEO 422 Urban Geography ..... 3  
GEO 455 Globalization and the  
Changing World Economy ..... 3  
GEO 485G Urban Planning and Sustainability ..... 3  
GEO 550 Sustainable Resource Development  
and Environmental Management ..... 3

**Minor in Mapping and GIS**

The minor in Mapping and GIS requires 18 hours as follows:

**Introduction to Digital Mapping (3 hours)**

GEO 109 Digital Mapping  
or  
GEO 164 iWorlds: Global Information Geographies ..... 3

**GIS Theories and Methods (6 hours)**

GEO 309 Introduction to GIS ..... 3  
GEO 409 Advanced GIS ..... 3

**GIS Design and Application (9 hours)**

Complete three of the following:  
GEO 305 Elements of Cartography ..... 3  
\*GEO 399 Internship in Geography ..... 3  
GEO 415 Map Interpretation ..... 3  
GEO 419 Introduction to Remote Sensing ..... 3  
GEO 505 Practicum in Cartography ..... 3  
GEO 506 Introduction to Computer Cartography ..... 3  
GEO 509 Workshop in Geospatial Technologies ..... 3  
\*GEO 560 Independent Work in Geography ..... 3  
\*GEO 565 Topics in Geography ..... 3  
\*With approval of DUS for GIS/Mapping related internships or independent study.

Geography majors can also minor in Mapping and GIS, but no more than 6 credits can be used to cover both major and minor requirements.

**HEALTH, SOCIETY,  
AND POPULATIONS**

The undergraduate program in Health, Society, and Populations (HSP) focuses on understanding health outcomes and their unequal distribution as a product of multiple interacting influences, including health care, behaviors, environmental conditions, genetic and biological factors, and social and cultural characteristics of groups and individuals. The B.A. in HSP provides graduates with a broad liberal-arts education in addition to a concentration on social science based approaches to population health. Students may further specialize in three areas: Global Health, Health Ecologies, and Social Inequalities in Health and Illness. HSP students will obtain fundamental knowledge of the complex relationship that exists among the global economy, societal problems and needs, and the distribution of health and illness, in addition to providing students the opportunity to develop critical thinking, communication, and independent study skills necessary for many entry-level career opportunities in city, state and federal government, nonprofit organizations and in the public and private health sectors.

## Bachelor of Arts with a major in HEALTH, SOCIETY, AND POPULATIONS

### 120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ..... 3

#### II. Intellectual Inquiry in the Humanities

Choose one course from approved list ..... 3

#### III. Intellectual Inquiry in the Social Sciences

##### Recommended:

PSY 100 Introduction to Psychology ..... 4

#### IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

Choose one course from approved list ..... 3

#### V. Composition and Communication I

CIS/WRD 110 Composition and Communication I ..... 3

#### VI. Composition and Communication II

CIS/WRD 111 Composition and Communication II ..... 3

#### VII. Quantitative Foundations

Recommended – one of the following:

MA 111 Introduction to Contemporary

Mathematics ..... 3

MA 113 Calculus I ..... 4

MA 123 Elementary Calculus and Its Applications ..... 4

MA 137 Calculus I with Life Science Applications ..... 4

#### VIII. Statistical Inferential Reasoning

Choose one course from approved list ..... 3

#### IX. Community, Culture and Citizenship in the USA

Choose one course from approved list ..... 3

#### X. Global Dynamics

Choose one course from approved list ..... 3

**UK Core hours:** ..... 30-32

### Graduation Composition and Communication Requirement (GCCR)

HSP 499 Health, Society and Populations Capstone

(Subtitle required) ..... 3

**Graduation Composition and Communication Requirement hours (GCCR)** ..... 3

### College Requirements

I. Foreign Language

(placement test recommended) ..... 6-14

II. Disciplinary Requirements

a. Natural Science

(may be satisfied by major requirements) ..... 0-6

b. Social Science

(may be satisfied by major requirements) ..... 0-6

c. Humanities ..... 6

III. Laboratory or Field Work

(PSY 100 recommended) ..... 1-3

IV. Electives ..... 6

**College Requirement hours:** ..... 19-29

### Major Requirements

### Hours

Major courses that also fulfill the A&S College requirements are marked with “\*”; major courses that also fulfill UK Core areas are marked with “†”. 24 credit hours within the major must be at the 300+ level.

#### Statistics

Choose one of the following (3 hours):

STA 296 Statistical Methods and Motivations ..... 3

\*SOC 303 Quantitative Social Analysis ..... 3

\*GEO 309 Introduction to GIS ..... 3

#### Math

Choose one of the following (3-4 hours):

MA 109 College Algebra ..... 3

†MA 111 Introduction to

Contemporary Mathematics ..... 3

†MA 113 Calculus I ..... 4

†MA 123 Elementary Calculus and Its Applications ..... 4

†MA 137 Calculus I with Life Science Applications ..... 4

MA 111, 113, 123, 137 recommended.

#### Writing

(3 hours):

WRD 205 Writing and Rhetoric (Subtitle required)

see HSP advisor for appropriate subtitles ..... 3

#### Science

Choose one BIO course and one from any of the remaining science electives (6 hours):

ANA 109 Anatomy and Physiology for Nursing I ..... 4

ANA 110 Anatomy and Physiology for Nursing II ..... 4

\*ANA 209 Principles of Human Anatomy ..... 3

\*†BIO 102 Human Ecology ..... 3

\*†BIO 103 Basic Ideas of Biology ..... 3

\*BIO 148 Introductory Biology I ..... 3

\*BIO 208 Principles of Microbiology ..... 3

\*CHE 104 Introductory General Chemistry ..... 3

\*CHE 108 Introduction to Inorganic, Organic,

and Biochemistry without Laboratory ..... 3

\*PGY 206 Elementary Physiology ..... 3

#### Social Science Approaches to Health

(9 hours):

##### Required

HSP/SOC 255 Medicine, Health, and Society ..... 3

plus two of the following:

\*ANT 429 Survey of Medical Anthropology ..... 3

\*GEO 475 Health and Medical Care

in Space and Time ..... 3

\*PSY 223 Developmental Psychology ..... 3

SOC 355 Sociology of Health and Illness ..... 3

#### Topics in Society and Health

(12 hours):

For a total of four additional courses, choose any remaining courses from the *Social Science Approaches to Health* category above, or from the following list. Students must choose courses from at least two different disciplines:

\*†ANT 225 Culture, Environment and Global Issues ..... 3

\*ANT 251 Global Health Inequalities ..... 3

\*ANT 303 Topics in Anthropology of Food

and Nutrition (Subtitle required) ..... 3

\*ANT 333 Contemporary Human Variation ..... 3

\*†GEO 261 Global Dynamics of Health and Disease ..... 3

\*GEO 544 Human Population Dynamics ..... 3

†GRN 250 Aging in Today’s World ..... 3

GRN 585 Aging and Environment ..... 3

\*AGWS 300 Topics in Gender and Women’s Studies

(Subtitle required) ..... 3

\*HIS 584 Health and Disease in the U.S. .... 3

\*PHI 305 Health Care Ethics ..... 3

\*†SOC 235 Inequalities in Society ..... 3

\*SOC 340 Community Interaction ..... 3

\*†SOC 360 Environmental Sociology ..... 3

\*SOC 439 Topics in Crime, Law and Deviance

(Subtitle required) ..... 3

*^Course is approved only when the subtitle is “Gender, Race and Science.”*

### Health Professions

Choose two from the following (6 hours):

CPH 201 Introduction to Public Health ..... 3

CPH 202 Public Health Through Popular Film ..... 3

CPH 203 Sexual Health ..... 3

CPH 310 Disease Detectives:

Epidemiology in Action ..... 3

CPH 320 Fundamentals of Environmental Health ..... 3

CPH 351 Preparing for An Apocalyptic Event:

Population Health and Crisis Management ..... 3

CPH 440 Foundations of Health Behavior ..... 3

CPH 450 Managing Health Organizations

to Improve Population Health ..... 3

CPH 472 Public Health Professions and Practice ..... 3

CPH 476G A Sick World: Global Public Health

in the Early 21st Century ..... 3

HSM 241 Health and Medical Care

Delivery Systems ..... 3

KHP 230 Human Health and Wellness ..... 3

KHP 270 Introduction to Health Education

and Health Promotion ..... 3

KHP 590 Advanced Health Concepts ..... 3

### Capstone

(3 hours):

HSP 499 Health, Society and Populations Capstone

(Subtitle required) ..... 3

**Major hours:** ..... 45-46

### Electives

Choose electives to lead to the minimum total of 120 hours required for graduation.

#### Total Minimum Hours

Required for Degree ..... 120

## HISPANIC STUDIES

The Department of Hispanic Studies aims to develop students’ Spanish language skills, to deepen their understanding of Spanish-speaking cultures and literatures domestically and abroad, to sharpen their critical thinking, and to heighten their awareness of their role as local and global citizens in a pluralistic society. The department offers a major with three specialty options and a minor in Spanish.

### Hispanic Studies Department Policy for Spanish Language Placement Exams

The Spanish language placement exam – currently the AAPPL (ACTFL Assessment for Performance toward Proficiency in Language) – is administered to incoming and current students who have not completed any Spanish language course work at the University of Kentucky. This exam is administered for the sole purpose of determining the most appropriate initial course for students embarking on their study of Spanish at the University. However, it is also used to exempt students from the A&S language requirement if

their score demonstrates language ability roughly equivalent to that which is expected of students who have completed 4 semesters of Spanish language study at the Elementary and Intermediate levels (SPA 101, 102, 201 and 202) here at UK. This differs from other exams that give incoming students credit on their transcripts, such as the Advanced Placement Exam (AP), the International Baccalaureate Exam (IB) and the College Level Examination Program Exam (CLEP). No credit is earned through this placement exam.

Most often, this exam is administered when students arrive as freshmen or transfers, whether for the fall or the spring semester, during their initial orientation and registration for incoming students. However, if a person chooses not to take the placement exam upon entering as a freshman or transfer student, the Hispanic Studies Department offers alternative opportunities to take the exam in our departmental office by appointment.

Sometimes, students choose not to take the placement exam or choose to enroll in a course that is below the level recommended by the AAPPL exam score. If a student has a question or concern about the level recommended for a certain score, we recommend that the student consult with the department directly, in order to assure that the decision is in the best interest of both that student and the other students in the class.

Sometimes, students take the placement exam at the start of their time at the university but choose not to take language classes immediately. If a student does not choose to enroll in Spanish classes the semester following the administration of the placement exam, the placement score is valid for another two years and is reported on the student's advising profile on myGPS. As with many skills, language ability begins to degrade over time if those skills are not employed regularly. Pedagogically, it is important that the student be placed into the appropriate class for her/his current skill level. Thus, **after two years, the student will need to repeat the placement exam in the Hispanic Studies departmental office before enrolling in course work in Spanish.**

Once a student has chosen to take a class in the Spanish language sequence – or has chosen to transfer credit from another institution as Spanish language credit – the placement exam **is no longer an option for that student.** The exam serves as a placement exam and **will not be used to determine language competency beyond recommended placement for continued study.** Therefore, no student may take the AAPPL placement exam to satisfy language requirements if they have already taken Spanish language course work at UK or if they have transferred in Spanish language course work from another college or university, since that course work determines the placement of the

student in the language series.

If you have any questions regarding the use and scope of the placement exam, please contact the Hispanic Studies department directly at 859-257-2565.

### Bachelor of Arts with a major in SPANISH

#### 120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

#### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete **UK Core requirements.** The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

- I. Intellectual Inquiry in Arts and Creativity**  
Choose one course from approved list ..... 3
  - II. Intellectual Inquiry in the Humanities**  
Choose one course from approved list ..... 3
  - III. Intellectual Inquiry in the Social Sciences**  
Choose one course from approved list ..... 3
  - IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences**  
Choose one course from approved list ..... 3
  - V. Composition and Communication I**  
CIS/WRD 110 Composition and Communication I ..... 3
  - VI. Composition and Communication II**

**HISTORY**

History is the study of the most important and exciting events that have ever occurred, providing students with a wide ranging introduction to modern societies, cultures, and global events. The Department of History’s program provides rigorous instruction in critical thinking, writing, and composition. And as one of the broadest and most diverse disciplines in academia, history provides students with connections to numerous other programs and opportunities across campus. History majors develop research and presentation skills that are highly transferable to any career,

including those in public policy, law, government, education, public relations, healthcare, journalism, publishing, sales, and marketing, among others.

**Bachelor of Arts with a major in HISTORY**

**120 hours (minimum)**

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete **UK Core requirements**. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

Since 1825

2. 12 hours of course work at or above the 300 level, at least 6 hours of which must be at or above the 400 level. No more than 12 of the 18 hours required may be in any one of the subfields of American history, European history, or history of the non-Western world.

## INTERNATIONAL STUDIES

International Studies is an interdisciplinary program that encourages students to explore global issues in disciplines such as anthropology, economics, history, political science, geography, foreign languages, English and the arts. Students will choose course work focused around a **central theme** and **geographical region**. Cultural knowledge will be developed further through expanded foreign language study. The program culminates in a capstone senior project. Study abroad is highly encouraged, although not required, for the International Studies major.

A degree in International Studies will prepare students for careers in business, government, non-government organizations, philanthropic agencies, or the arts. The major also prepares students for graduate study in the humanities, social sciences, international affairs, law, public health and communications.

### Bachelor of Arts with a major in INTERNATIONAL STUDIES

#### 120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. A complete description of College requirements for a Bachelor of Arts degree can be found on page 129.

#### UK Core Requirements

See the **UK Core** section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ..... 3

#### II. Intellectual Inquiry in the Humanities

Choose one course from approved list ..... 3

#### III. Intellectual Inquiry in the Social Sciences

Choose one course from approved list ..... 3

#### IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

Choose one course from approved list ..... 3

#### V. Composition and Communication I

CIS/WRD 110 Composition and Communication I ..... 3

#### VI. Composition and Communication II

CIS/WRD 111 Composition and Communication II ..... 3

#### VII. Quantitative Foundations

Choose one course from approved list ..... 3

#### VIII. Statistical Inferential Reasoning

Choose one course from approved list ..... 3

#### IX. Community, Culture and Citizenship in the USA

Choose one course from approved list ..... 3

#### X. Global Dynamics

INT 200 Introduction to International Studies ..... 3

**UK Core hours:** ..... 30

#### Graduation Composition and Communication Requirement (GCCR)

INT 495 Capstone Seminar for International

Studies Majors (Subtitle required) ..... 3

**Graduation Composition and Communication Requirement hours (GCCR)** ..... 3

#### College Requirements

I. Foreign Language (*placement exam recommended, completed by Major Requirements*) ..... 0-14

II. Disciplinary Requirements

a. Natural Science ..... 6

b. Social Science (*can be completed with Major Requirements*) ..... 6

c. Humanities (*can be completed with Major Requirements*) ..... 6

III. Laboratory or Field Work ..... 1

IV. Electives ..... 6

**Subtotal: College Hours:** ..... 25-39

#### Distribution Requirements

1. Students may not apply to their IS major more than 15 credit hours that have already been applied to another major, minor, or undergraduate certificate program.
2. Students must apply to their IS major at least one course from four different departments and/or academic programs.
3. Students must complete at least 24 of the major's total credit hours at the 300 level or above.

#### Major Requirements

##### Pathway Courses

INT 200 Introduction to International Studies ..... 3

plus an additional 3 hours from the following list. Courses must be from two departments:

ANT 160 Cultural Diversity in the Modern World ..... 3

ANT 225 Culture, Environment and Global Issues ..... 3

GEO 152 Regional Geography of the World ..... 3

GEO 160 Lands and Peoples

of the Non-Western World ..... 3

RUS 381 Writing, Revolution & Reaction in Modern Russian Literature .....	3
<i>^The subtitle for this course must directly relate to the Russia and Eurasia concentration. You must check with the IS director or advisor for verification prior to taking the course.</i>	

**Minor in International Studies**

The minor in International Studies requires 18 credit hours of course work, 12 of which must be at the 300 level or above. Nine of the 18 credit hours should be in either a single thematic or single area concentration. No more than 9 credit hours from any other major can apply to the minor. All 18 credit hours must be in approved International Studies courses.

**BACHELOR OF LIBERAL STUDIES**

A Bachelor of Liberal Studies degree allows students to design individualized programs of study in the humanities, social sciences, and natural and mathematical sciences; to develop a breadth of knowledge reflective of a true liberal arts education; to develop critical thinking and writing skills; and to synthesize problem-solving strategies.

This degree is beneficial to a wide range of students: students who plan to work in business, technological, cultural, community, and human-service settings; students for whom a highly specialized, structured major is not ideal; and students who have accumulated a substantial number of credit hours across a range of departments.

To graduate with a BLS degree, students will complete rigorous upper-division courses within the College of Arts and Sciences and complete a capstone writing intensive course in which they synthesize and evaluate their previous course work. Students will also be required to take at least one course that includes laboratory or field experience. Along with the completion of UK Core courses, and the College of Arts and Sciences requirements, students complete 24 credit hours in a specific track: Humanities, Social Sciences, and Natural/Physical/Mathematical Sciences.

Students must complete at least 45 credit hours before declaring the major. Students may not double or triple major/degree with the BLS.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

Choose one course from approved list .....

**II. Intellectual Inquiry in the Humanities**

Choose one course from approved list .....

**III. Intellectual Inquiry in the Social Sciences**

Choose one course from approved list .....

**IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences**

Choose one course from approved list .....

**V. Composition and Communication I**

CIS/WRD 110 Composition and Communication I .....

**VI. Composition and Communication II**

CIS/WRD 111 Composition and Communication II .....

\*WRD 430 Advanced Workshop  
(Subtitle required) .....

**Graduation Composition and Communication Requirement hours (GCCR)** .....

*\*Students must take WRD 430 for BLS students.*

**College Requirements**

I. Foreign Language .....	6-19
II. Disciplinary Requirements	
a. Natural Science .....	6
b. Social Science .....	6
c. Humanities .....	6
III. Electives .....	6
<b>College Requirement hours:</b> .....	<b>30-43</b>

**Major Requirements**

Students must take 24 credit hours within ONE of the Major Areas: Humanities, Social Sciences, or Natural/Physical/Mathematical Sciences. At least 12 of these hours must be at the 300-level or above and another 6 hours must be at the 400-level or above. In addition, all BLS students must also take WRD 430 for BLS students, which serves as the senior capstone course. This will help students synthesize and evaluate their previous course work and lead to the production of a final project that will be required for graduation. Students will also submit their final portfolio to their WRD 430 instructor. Courses used to satisfy UK Core requirements cannot be used to satisfy major requirements.

**Humanities**

Select courses from the following prefixes: AIS, CHI, CLA, ENG, FR, GER, GWS, HIS, HJS, ITA, JPN, LAS, LIN, MCL, PHI, RUS, SPA, WRD.

**Social Sciences**

Select courses from the following prefixes: ANT, APP, ENS, GEO, HSP, IAS, PCE, PS, PSY, SOC, ST.

**Natural/Physical/Mathematical Sciences**

Select courses from the following prefixes: AST, BIO, CHE, EES, GLY, MA, PHY, STA.

**Major Requirement hours:** .....

**Guided Electives**

Students must take at least 12 credit hours in ANY of the three Major Areas: Humanities, Social Sciences, or Natural/Physical/Mathematical Sciences. At least 3 of these must be at the 300-level or above. Courses used to satisfy UK Core requirements cannot be used to satisfy major requirements.

**Guided Electives** ..... 12

**Free Electives**

Students may take a total of 14-27 hours of free electives to bring the total number of hours to 120. Free electives may not be counted toward the UK Core or A&S requirements.

**Free Electives** ..... 14-27

**Total Minimum Hours**

**Required for Degree** ..... 120

**LINGUISTICS**

The Department of Linguistics offers an interdisciplinary curriculum designed to develop an understanding of the nature and implications of human language. The Linguistics Department provides solid foundations in phonological and grammatical analysis, as well as opportunities to investigate the social, cultural, psychological, and physical aspects of language use.

**Bachelor of Arts with a major in LINGUISTICS**

**120 hours (minimum)**

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

LIN 512 Analysis of English Syntax

LIN 505 Linguistic Morphology

LIN 509 Formal Semantics

or

LIN 516 Grammatical Typology ..... 3

Choose two other LIN courses at 300 level or above ..... 6

**MATHEMATICAL ECONOMICS**

The mathematical economics major offers students a degree program that combines mathematics, statistics, and economics. In today's increasingly complicated international business world, a strong preparation in the fundamentals of both economics and mathematics is crucial to success. This degree program is designed to prepare a student to go directly into the business world with skills that are in high demand, or to go on to graduate study in economics or finance. A degree in mathematical economics would, for example, prepare a student for the beginning of a career in operations research or actuarial science.

In many ways, the mathematical economics program parallels the engineering philosophy. It combines the quantitative methods of mathematics with an applied science in order to solve real problems. As an example, operations research is used to optimize costs for extremely complicated systems such as airline scheduling. A major problem in business and economics is decision making under uncertainty. Efficient inventory control for large national retail chains can mean the difference between success and failure. A business will improve its bottom line if it can effectively control cost of inventory under the uncertainty of consumer demand. The solution of control problems of this type requires knowledge of relatively sophisticated mathematics and statistics as well as knowledge of basic economic principles.

There is currently a serious shortage of individuals who have sufficient training in mathematics and statistics as well as an understanding of business and economics. Companies that employ operations research analysts or actuaries cannot fill their positions. Mathematical economics and related areas have often been referred to as engineering for the service sector or "financial engineering." With the ever increasing importance of the service sector in our economy, the math-econ degree will prove to be a valuable asset. The program will give the student an opportunity to study a fascinating collection of ideas and it will also provide the student with very marketable skills.

**Bachelor of Arts with a major in  
 MATHEMATICAL ECONOMICS****120 hours (minimum)**

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. *\*Course used towards completion of a UK Core Requirement.*

**MATHEMATICS**

The department offers two programs leading to the B.A. or B.S. degree. Students may major in mathematics by completing the requirements for either: Option A, Mathematics or Option B, Mathematical Sciences.

The mathematics option consists of courses offered solely by the department of mathematics and is intended for those who wish to follow a traditional mathematics career path. The mathematical sciences option consists of courses offered by the departments of computer science, mathematics and statistics, and is intended for those who opt for a career that requires the application of mathematics. The requirements for these programs are outlined below.

**Bachelor of Arts with a major in MATHEMATICS**

**120 hours (minimum)**

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

MA 322 Matrix Algebra and its Applications ..... 3

**Major Core hours:** ..... 10

**Other Course Work Required for the Major**

**From the Major Department:**

Choose 18 hours of 300+ level mathematics courses. One of the following sequences, or a substitute approved by the Director of Undergraduate Studies, must be included: MA 351/352, MA 361/362, MA 471G/472G, MA 481G/483G, CS/MA 416G and MA/STA 417G; at least two of the following must be included (they can also count as the sequence if appropriate): MA 351, 352, 361, 362, 471G, 472G.

May not include MA 322. .... 18

**From Outside the Major Department**

Choose 14 hours outside Mathematics at the 300+ level. Courses are generally chosen from physics, chemistry, biology, logic, statistics, computer science, economics, and engineering. 200+ level courses used to satisfy College requirements can also be counted here ..... 14

**Other Major hours:** ..... **32**

**Option B – Mathematical Sciences**

**Premajor Requirements**

\*MA 113 Calculus I

or

\*MA 137 Calculus I with Life Science Applications ..... 4

MA 114 Calculus II

or

MA 138 Calculus II with Life Science Applications ..... 4

CS 115 Introduction to Computer Programming ..... 3

**Premajor hours:** ..... **11**

**Major Requirements**

CS 215 Introduction to Program Design, Abstraction and Problem Solving ..... 4

MA 213 Calculus III ..... 4

MA 214 Calculus IV ..... 3

MA/STA 320 Introductory Probability ..... 3

MA/CS 321 Introduction to Numerical Methods ..... 3

MA 322 Matrix Algebra and its Applications ..... 3

STA 321 Basic Statistical Theory I ..... 3

plus a two-semester sequence chosen from the following:

MA/CS 340 Applicable Algebra

and

MA/CS 415G Combinatorics and Graph Theory

MA 432G Methods of Applied Mathematics I

and

MA 433G Introduction to Complex Variables

MA 481G Differential Equations

and

MA 483G Introduction to Partial Differential Equations

MA/CS 416G Introduction to Optimization

and

MA/STA 417G Decision Making Under Uncertainty ... 6

**Major Core hours:** ..... **29**

**Other Course Work Required for the Major**

**From the Major Department:**

Choose 6 hours of acceptable MA courses at the 300 level and above (MA 308 may not be used) ..... 6

**From Outside the Major Department**

Nine hour supporting program chosen from one area outside mathematics. The Director of Undergraduate Studies must approve the supporting program. Courses in the supporting program must be at the 300 level and above. Cross-listed courses may be used for the supporting program provided they are not used to satisfy another major requirement ..... 9

**Other Major hours:** ..... **15**

**Electives**

Choose electives to lead to the minimum total of 120 hours required for graduation ..... 0-9

**Total Minimum Hours Required for Degree ..... 120**

*\*Course used towards completion of a UK Core Requirement.*

**Minor in Mathematics**

The minor in Mathematics requires 21 hours of course work to include:

1. MA 113/114 Calculus I and II **and** ..... 8  
 MA 213 Calculus III ..... 4  
**or equivalent**

2. MA 322 Matrix Algebra and Its Applications ..... 3  
**or equivalent**

3. 6 additional hours of mathematics courses numbered greater than 213. Possible courses include: MA 214, MA 261, MA 320, MA 321, MA 327, MA 330, MA 341, MA 351, MA 361, or any 400 level math course.

**MILITARY SCIENCE AND LEADERSHIP (Army Officer Commissioning)**

The Army Reserve Officers' Training program at the University of Kentucky is open to both men and women and follows a general military science curriculum that is normally completed in four years but which may be completed in two years. An academic major in military science is not offered. The program's primary objective is to commission the future leadership of the Active Army, Army National Guard, and U.S. Army Reserve in the rank of Second Lieutenant.

**Scholarships**

Students interested in Army ROTC scholarships should contact the Army ROTC Admissions Officer at 859-257-6865; or visit 101 Barker Hall on campus. Additionally, students should refer to the *Student Financial Aid, Awards, and Benefits* section of this Bulletin.

**Academic Program**

Required program courses are: AMS 101, AMS 102, AMS 211, AMS 212, AMS 301, AMS 302, AMS 341, AMS 342, an approved military history course (AMS 320), and continuous enrollment (or participation) in physical fitness training (KHP 107, KHP 108, KHP 137, KHP 138) and practical laboratories (AMS 250 or AMS 350) once contracted in the ROTC program. Cadets must successfully attend an immersive four-week leadership experience in order to commission, usually in the summer between the junior and senior years in Fort Knox, KY.

An alternative two-year program is available for students with at least two academic years remaining until graduation and who have not completed the AMS 100- and AMS 200-level courses. Students will attend and complete a four-week immersive summer leadership camp held at Fort Knox, Kentucky in order to be eligible.

Successful completion of the camp enables students to take AMS 300-level courses and complete the program in two years.

In certain cases, veterans or students who have completed Army basic training are also eligible to complete the program in two years. Members of the Army National Guard or U.S. Army Reserve may directly enroll in the ROTC program and participate in the Simultaneous Membership Program (SMP).

**The Basic Course:** (100 and 200 level) are orientational and deal with the Army's role in the U.S. government. American military history, small unit organizations/operations, military geography/map reading and some adventure training are also addressed. **No military obligation** is incurred by completion of the courses.

**The Advanced Course:** (300 level) focus on leadership, management, and command/staff responsibilities within military organizations. All contracted Army ROTC students receive subsistence pay during the academic year. During the summer, students are compensated while attending Camp.

Leadership Lab periods, held weekly during the academic year, and on one weekend per semester, focus on adventure-type training (e.g., orienteering, rappelling, survival training, and basic marksmanship). These activities are offered, subject to availability of equipment and facilities, to provide an opportunity to develop leadership, organizational abilities, and confidence.

Army ROTC incorporates the dimension of leadership into the academic curriculum and provides training and experience that can be valuable in any profession.

For more information, contact the Professor of Military Science, ATTN: Admissions Officer, U.S. Army ROTC, 101 Barker Hall, University of Kentucky, Lexington, KY 40506-0028; or call 859-257-6865. Visit the website at:

<http://armyrotc.as.uky.edu/>

**Minor in Military Leadership**

The minor in Military Leadership is on page 133 of this *Bulletin*.

**MODERN AND CLASSICAL LANGUAGES, LITERATURES AND CULTURES**

The Department of Modern and Classical Languages, Literatures and Cultures is comprised of tracks in Arabic and Islamic Studies, Chinese Studies, Classics, Folklore and Mythology, French and Francophone Studies, German Studies, Hebrew and Jewish Studies, Italian Studies, Japan Studies and Russian Studies.

## Bachelor of Arts with a major in MODERN AND CLASSICAL LANGUAGES, LITERATURES AND CULTURES

### 120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete **UK Core requirements**. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

MCL 311 The World of Autobiography  
MCL 312 The Art of Adaptation  
or any area course ..... 3

#### II. Intellectual Inquiry in the Humanities

Choose one of the following courses  
AIS 228 Islamic Civilization  
AIS 320 Modern Arabic Literature and Film in Translation  
AIS 345 Islamic Mysticism  
CHI 330 Introduction to Chinese Culture,  
Pre-Modern to 1840  
CHI 331 Introduction to Chinese Culture, 1840 to Present  
CLA 135 Greek and Roman Mythology  
CLA 191 Christianity, Culture, and Society:  
A Historical Introduction  
CLA 229 The Ancient Near East and Greece  
to the Death of Alexander the Great  
FR 103 French Cinema  
FR 205 The French Graphic Novel  
FR 225 French Film Noir  
GER 103 Fairy Tales in European Context  
GER 305 German Film Today  
ITA 263 Studies in Italian Culture (Subtitle required)  
MCL 135 Vampires: Evolution of a Sexy Monster  
MCL 270 Introduction to Folklore and Mythology  
MCL 343 Global Horror  
MCL 360 Catastrophes and Calamities in the Greco-Roman  
World and Afterwards  
RUS 275 Russian Film  
RUS 371 The Russian Cultural Imagination: 900-1900  
RUS 372 Experiments in Life and Art:  
Russian Culture 1900-Present  
or any area course ..... 3

#### III. Intellectual Inquiry in the Social Sciences

AIS 430 Islam in America  
MCL 135 Vampires: Evolution of a Sexy Monster  
MCL 270 Introduction to Folklore and Mythology  
RUS 370 Russian Folklore (in English)  
or any area course ..... 3

#### IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

Choose one course from approved list ..... 3

#### V. Composition and Communication I

CIS/WRD 110 Composition and Communication I ..... 3

#### VI. Composition and Communication II

CIS/WRD 111 Composition and Communication II ..... 3

#### VII. Quantitative Foundations

Choose one course from approved list ..... 3

#### VIII. Statistical Inferential Reasoning

Choose one course from approved list ..... 3

#### IX. Community, Culture and Citizenship in the USA

AIS 430 Islam in America  
MCL 335 Democracy – Ancient and American  
or any area course ..... 3

#### X. Global Dynamics

CHI 331 Introduction to Chinese Culture, 1840 to Present  
GER 342 War, Peace, and Terror in Germany and Europe  
GER 361 German Cinema  
ITA 335 Topics in Italian Cinema (Subtitle required)  
JPN 320 Introduction to Japanese Culture,  
Pre-Modern to 1868  
JPN 321 Introduction to Japanese Culture,  
Meiji (1868) to Present  
JPN 351 The Japanese Experience  
of the Twentieth Century  
MCL 324 The City in the Twentieth Century:  
Tokyo, Shanghai, Paris  
MCL 343 Global Horror  
RUS 275 Russian Film  
RUS 370 Russian Folklore (in English)  
RUS 371 The Russian Cultural Imagination: 900-1900  
RUS 372 Experiments in Life and Art:  
Russian Culture 1900-Present  
or any area course ..... 3

**UK Core hours: ..... 30**

#### Graduation Composition and Communication Requirement (GCCR)

MCL 495 Modern and Classical Languages,  
Literatures and Cultures Capstone ..... 3

**Graduation Composition and Communication  
Requirement hours (GCCR) ..... 3**

#### College Requirements

I. Foreign Language (*completed by Major  
Requirements*)  
II. Disciplinary Requirements  
a. Natural Science ..... 3-6  
b. Social Science ..... 3-6  
c. Humanities (*completed by Major Requirements*)  
III. Laboratory or Field Work ..... 1  
IV. Electives ..... 6

**College Requirement hours: ..... 19**

#### MCL Common Core

MCL 100 The World of Language ..... 3  
MCL 200 Global Literacy ..... 3  
Cross-Disciplinary Requirement: a course at or above the  
200-level offered by MCLLC in an area other than the  
student's field of concentration (AIS, CHI, CLA, FR,  
GER, HJS, ITA, JPN, RUS). This requirement can also  
be fulfilled by MCL 135, 190, 270, 310, 311, 324, 343,  
360, and 390 ..... 3  
MCL 495 Modern and Classical Languages, Literatures  
and Cultures Capstone ..... 3

**Common Core hours: ..... 12**

#### Other Course Work Required for the Major

MCL Tracks ..... 30

The following applies to all MCL tracks. Students complete 30 hours of track requirements and track electives within **one** of 7 MCL language and culture tracks. Repeatable courses may be applied up to the maximum number of hours allowed for the course. Additional iterations of courses listed under the track requirements may be applied under track electives. The following MCL courses may be applied as elective hours to **all** tracks of the MCL major (up to the maximum allowed for the course):

MCL 375 Language Study Abroad ..... 1-12  
MCL 376 Cultural Studies Abroad ..... 1-12  
MCL 591 Language Practicum (Subtitle required) ..... 1-6  
MCL 592 Research Practicum (Subtitle required) ..... 1-9  
MCL 593 Internship ..... 1-12  
MCL 595 Topics in Folklore and Myth  
(Subtitle required) ..... 3-6  
MCL 596 Topics in Culture (Subtitle required) ..... 3-6  
MCL 597 Topics in Comparative Literary Studies  
(Subtitle required) ..... 3-6

## TRACKS

### MCL / Arabic and Islamic Studies

#### Track Requirements

AIS 228 Islamic Civilization ..... 3  
AIS 301 Advanced Modern Standard Arabic I ..... 3  
AIS 302 Advanced Modern Standard Arabic II ..... 3  
AIS 330 Islamic Civilization II ..... 3

**Track Requirement hours: ..... 12**

#### Track Electives

Students must choose an additional 18 hours from the list of elective courses approved for all tracks and/or those courses listed below.

AIS 300+ courses  
ANT 222 Middle East Cultures ..... 3  
ANT 326 Contemporary African Lives ..... 3  
ANT 327 Culture and Societies of India  
and South Asia ..... 3  
GEO 328 Geography of the Middle East  
and North Africa ..... 3  
GEO 330 Geography of the Indian Subcontinent ..... 3  
GEO 336 Geography of Sub-Saharan Africa ..... 3  
PHI 504 Islamic and Jewish Philosophy  
and the Classical Tradition ..... 3  
\*PS 410 Topics in Regional Politics  
(Subtitle required) ..... 3

*\*If topic is appropriate.*

**Total Elective hours ..... 18**

**Major Requirement hours: ..... 42**

### MCL / Chinese Studies

#### Track Requirements

CHI 301 Advanced Intermediate Chinese I ..... 3  
CHI 302 Advanced Intermediate Chinese II ..... 3  
CHI 330 Introduction to Chinese Culture,  
Pre-Modern to 1840 ..... 3  
CHI 331 Introduction to Chinese Culture,  
1840 to Present ..... 3

**Track Requirement hours: ..... 12**

#### Track Electives

Students must choose an additional 18 hours from the list of elective courses approved for all tracks and/or those courses listed below.

CHI 300+ courses  
HIS 355 Topics in Non-Western History  
Since 1789 ..... 3  
HIS 597 Westerners in East Asia,  
1839 to the Present ..... 3  
HIS 598 China in Revolution, 1895-1976 ..... 3

In addition to the courses above, students may also choose up to 6 hours maximum toward their total of 42 hours from the following courses in China and its East Asian context:

HIS 295 East Asia to 1800 ..... 3  
HIS 296 East Asia Since 1600 ..... 3

HIS 593 East Asian History Since World War II ..... 3  
 \*A-H 310 Asian Art and Culture (Subtitle required) ..... 3  
 GEO 333 Geography of East Asia ..... 3  
 MUS 330 Music in the World (Subtitle required) ..... 3  
 PHI 343 Asian Philosophy ..... 3  
 PS 419G The Governments and Politics  
 of Eastern Asia ..... 3  
*\*If topic is appropriate.*  
**Total Elective hours ..... 18**  
**Major Requirement hours: ..... 42**

**MCL / Classics**

**Track Requirements**

To graduate, the student must complete either Greek to the GRK 202 level or Latin to the 202 level either by successfully completing the specified course, by successfully completing a course above the 200 level in either language, or by demonstrating the equivalent competency.

The student must also complete 18 hours in courses at the 200 level or above with a CLA prefix or cross-listed CLA.

**Total Requirement hours: ..... 18**

**Track Electives**

In addition, the student must complete 12 hours in courses appropriate to the study of Classics at the 200 level or above not prefixed CLA (courses cross-listed CLA also fulfill this requirement). The following courses are automatically accepted to fulfill this requirement, but other courses may be approved by the major advisor on a case-by-case basis.

A-H 314 Ancient (Subtitle required) ..... 3  
 AIS 228 Islamic Civilization ..... 3  
 ANT 240 Introduction to Archaeology ..... 3  
 ENG 271 The Bible as Literature ..... 3  
 HIS 330 A History of Western  
 Religious Thought (I) ..... 3  
 HIS 370 Early Middle Ages ..... 3  
 HIS 500 Preclassical and Classical Greece ..... 3  
 HIS 501 Fourth-Century Greece  
 and the Hellenistic World ..... 3  
 HIS 502 A History of the Roman Republic ..... 3  
 HIS 503 A History of the Roman Empire ..... 3  
 HIS 504 Greek and Roman Medicine ..... 3  
 HIS 546 The Byzantine Empire ..... 3  
 HIS 324 Jewish Thought and Culture I:  
 From Ancient Israel to the Middle Ages ..... 3  
 MCL 270 Introduction to Folklore and Mythology ..... 3  
 MCL 360 Catastrophes and Calamities in the  
 Greco-Roman World and Afterwards ..... 3  
 PHI 260 History of Philosophy I:  
 From Greek Beginnings to the Middle Ages ..... 3  
 PHI 503 Topics in Ancient Philosophy ..... 3  
**Total Elective hours ..... 12**  
**Major Requirement hours: ..... 42**

**MCL / French and Francophone Studies**

**Track Requirements**

FR 204 Introduction to French  
 and Francophone Studies ..... 3  
 FR 214 France Today  
 or  
 FR 215 Visual Cultures ..... 3  
 FR 410 French in Performance  
 or  
 FR 425 Media Studies ..... 3  
 FR 470G Topical Seminar I (Subtitle required) ..... 3  
 FR 471G Topical Seminar II (Subtitle required) ..... 3  
**Track Requirement hours: ..... 15**

**Track Electives**

Students must choose an additional 15 hours from the list of elective courses approved for all tracks and/or those courses listed below.

FR 300+ courses, not including FR 335, 465G and FR 553  
**Total Elective hours ..... 15**  
**Major Requirement hours: ..... 42**

**MCL / German Studies**

**Track Requirements**

GER 307 Intermediate German Composition  
 and Conversation I ..... 3  
 GER 308 Intermediate German Composition  
 and Conversation II ..... 3  
 GER 311 Introduction to German  
 Literature: Themes (Subtitle required) ..... 3  
 GER 312 German Popular Forms  
 (Subtitle required) ..... 3  
**Track Requirement hours: ..... 12**

**Track Electives**

Students must choose an additional 18 hours from the list of elective courses approved for all tracks and/or those courses listed below.  
 GER 300+ courses  
 GER 206 Spoken Communication ..... 3  
 MCL 343 Global Horror ..... 3  
 Up to 6 hours of electives in ENG, GEO, GWS, HIS, LIN, MCL and PHI may be applied here.  
**Total Elective hours ..... 18**  
**Major Requirement hours: ..... 42**

**MCL / Japan Studies**

**Track Requirements**

JPN 320 Introduction to Japanese Culture,  
 Pre-Modern to 1868 ..... 3  
 JPN/ANT 321 Introduction to Japanese Culture,  
 Meiji (1868) to Present  
 or  
 JPN 351 The Japanese Experience  
 of the Twentieth Century  
 or  
 HIS 357 Japan at War, 1850 to the Present ..... 3  
 JPN 301 Advanced Japanese I ..... 3  
 JPN 302 Advanced Japanese II ..... 3  
**Track Requirement hours: ..... 12**

**Track Electives**

Students must choose an additional 18 hours from the list of elective courses approved for all tracks and/or those courses listed below.  
 JPN 300+ courses  
 JPN 283 Japanese Film ..... 3  
 MCL 324 The City in the Twentieth Century:  
 Tokyo, Shanghai, Paris ..... 3  
 A-H 310 Asian Art and Culture (Subtitle required) ..... 3

MCL 200 Global Literacy	3
Cross-Disciplinary Requirement: a course at or above the 200-level offered by MCLLC in an area other than the student's field of concentration (AIS, CHI, CLA, FR, GER, HJS, ITA, JPN, RUS). This requirement can also be fulfilled by MCL 135, 190, 270, 310, 311, 324, 343, 360, and 390	3
MCL 495 Modern and Classical Languages, Literatures and Cultures Capstone	3
<b>Common Core hours:</b>	<b>12</b>

**Other Course Work Required for the Major**

MCL Tracks	30
------------	----

The following applies to all MCL tracks. Students complete 30 hours of track requirements and track electives within one of 7 MCL language and culture tracks. Repeatable courses may be applied up to the maximum number of hours allowed for the course. Additional iterations of courses listed under the track requirements may be applied under track electives. The following MCL courses may be applied as elective hours to all tracks of the MCL major (up to the maximum allowed for the course):

MCL 375 Language Study Abroad	1-12
MCL 376 Cultural Studies Abroad	1-12
MCL 591 Language Practicum (Subtitle required)	1-6
MCL 592 Research Practicum (Subtitle required)	1-9
MCL 593 Internship	1-12
MCL 595 Topics in Folklore and Myth (Subtitle required)	3-6
MCL 596 Topics in Culture (Subtitle required)	3-6
MCL 597 Topics in Comparative Literary Studies (Subtitle required)	3-6

**TRACKS****MCL / Arabic and Islamic Studies****Track Requirements**

AIS 228 Islamic Civilization	3
AIS 301 Advanced Modern Standard Arabic I	3
AIS 302 Advanced Modern Standard Arabic II	3
AIS 330 Islamic Civilization II	3
<b>Track Requirement hours:</b>	<b>12</b>

**Track Electives**

Students must choose an additional 18 hours from the list of elective courses approved for all tracks and/or those courses listed below.

AIS 300+ courses	
ANT 222 Middle East Cultures	3
ANT 326 Contemporary African Lives	3
ANT 327 Culture and Societies of India and South Asia	3
GEO 328 Geography of the Middle East and North Africa	3
GEO 330 Geography of the Indian Subcontinent	3
GEO 336 Geography of Sub-Saharan Africa	3

PHI 504 Islamic and Jewish Philosophy and the Classical Tradition	3
*PS 410 Topics in Regional Politics (Subtitle required)	3
<i>*If topic is appropriate.</i>	
<b>Total Elective hours</b>	<b>18</b>
<b>Major Requirement hours:</b>	<b>42</b>

**MCL / Chinese Studies****Track Requirements**

CHI 301 Advanced Intermediate Chinese I	3
CHI 302 Advanced Intermediate Chinese II	3
CHI 330 Introduction to Chinese Culture, Pre-Modern to 1840	3
CHI 331 Introduction to Chinese Culture, 1840 to Present	3
<b>Track Requirement hours:</b>	<b>12</b>

**Track Electives**

Students must choose an additional 18 hours from the list of elective courses approved for all tracks and/or those courses listed below.

CHI 300+ courses	
HIS 355 Topics in Non-Western History Since 1789	3
HIS 597 Westerners in East Asia, 1839 to the Present	3
HIS 598 China in Revolution, 1895-1976	3

In addition to the courses above, students may also choose up to 6 hours maximum toward their total of 42 hours from the following courses in China and its East Asian context:

HIS 295 East Asia to 1800	3
HIS 296 East Asia Since 1600	3
HIS 593 East Asian History Since World War II	3
*A-H 310 Asian Art and Culture (Subtitle required)	3
GEO 333 Geography of East Asia	3
MUS 330 Music in the World (Subtitle required)	3
PHI 343 Asian Philosophy	3
PS 419G The Governments and Politics of Eastern Asia	3
<i>*If topic is appropriate.</i>	
<b>Total Elective hours</b>	<b>18</b>
<b>Major Requirement hours:</b>	<b>42</b>

**MCL / Classics****Track Requirements**

To graduate, the student must complete either Greek to the GRK 202 level or Latin to the 202 level either by successfully completing the specified course, by successfully completing a course above the 200 level in either language, or by demonstrating the equivalent competency.

The student must also complete 18 hours in courses at the 200 level or above with a CLA prefix or cross-listed CLA.

**Total Requirement hours:** 18

**Track Electives**

In addition, the student must complete 12 hours in courses appropriate to the study of Classics at the 200 level or above not prefixed CLA (courses cross-listed CLA also fulfill this requirement). The following courses are automatically accepted to fulfill this requirement, but other courses may be approved by the major advisor on a case-by-case basis.

A-H 314 Ancient (Subtitle required)	3
AIS 228 Islamic Civilization	3
ANT 240 Introduction to Archaeology	3
ENG 271 The Bible as Literature	3
HIS 330 A History of Western Religious Thought (I)	3

HIS 370 Early Middle Ages .....	3
HIS 500 Preclassical and Classical Greece .....	3
HIS 501 Fourth-Century Greece and the Hellenistic World .....	3
HIS 502 A History of the Roman Republic .....	3
HIS 503 A History of the Roman Empire .....	3
HIS 504 Greek and Roman Medicine .....	3
HIS 546 The Byzantine Empire .....	3
HJS 324 Jewish Thought and Culture I: From Ancient Israel to the Middle Ages .....	3
MCL 270 Introduction to Folklore and Mythology .....	3
MCL 360 Catastrophes and Calamities in the Greco-Roman World and Afterwards .....	3
PHI 260 History of Philosophy I: From Greek Beginnings to the Middle Ages .....	3
PHI 503 Topics in Ancient Philosophy .....	3
<b>Total Elective hours .....</b>	<b>12</b>
<b>Major Requirement hours: .....</b>	<b>42</b>

**MCL / French and Francophone Studies**

**Track Requirements**

FR 204 Introduction to French and Francophone Studies .....	3

**Track Electives**

Students must choose an additional 12 hours from the list of elective courses approved for all tracks and/or those courses listed below.

RUS 300+ courses	
RUS 275 Russian Film .....	3
plus 6 credit hours related to Russia/Formal USSR from outside the major department:	
ANT 329 Cultures and Societies of Eurasia and Eastern Europe: Socialism and Post-Socialist Change .....	3
ANT 432 Anthropology of Eastern Europe and Russia .....	3
HIS 385 History of Russia to 1825 .....	3
HIS 386 History of Russia Since 1825 .....	3
HIS 534 Russia in the 19th Century .....	3
HIS 535 Russia in the 20th Century .....	3
<b>Total Elective hours .....</b>	<b>18</b>
<b>Major Requirement hours: .....</b>	<b>42</b>
<b>Total Minimum Hours Required for Degree .....</b>	<b>120</b>

**Minor in Modern and Classical Languages, Literatures and Cultures**

The minor in Modern and Classical Languages, Literatures and Cultures requires a minimum of 18 hours of course work. Students choose one of nine options (fields of concentration) from: Arabic and Islamic Studies, Chinese Studies, Classics, Folklore and Mythology, French and Francophone Studies, German Studies, Italian Studies, Japan Studies, and Russian Studies.

Within all options of the MCL minor repeatable courses may be applied up to the maximum number of credit hours allowed for the course. Additional iterations of courses listed under the core requirements may be applied under track electives. The following MCL courses may be applied as elective hours to all MCL minor options.

MCL 100 The World of Language .....	3
MCL 200 Global Literacy .....	3
MCL 375 Language Study Abroad .....	1-3
MCL 376 Cultural Studies Abroad .....	1-3
MCL 591 Language Practicum (Subtitle required) .....	1-6
MCL 592 Research Practicum (Subtitle required) .....	1-9
MCL 593 Internship .....	1-12
MCL 595 Topics in Folklore and Myth (Subtitle required) .....	3-6
MCL 596 Topics in Culture (Subtitle required) .....	3-6
MCL 597 Topics in Comparative Literary Studies (Subtitle required) .....	3-6

**MCL / Arabic and Islamic Studies**

**Core Requirements**

Arabic language course at the 300 level .....	3
AIS 228 Islamic Civilization .....	3
AIS 330 Islamic Civilization II .....	3
<b>Total Core hours: .....</b>	<b>9</b>

**Elective Requirements**

Students must choose an additional 9 hours from the list of elective courses approved for all tracks and/or those courses listed below.

AIS 300+	
ANT 222 Middle East Cultures .....	3
ANT 331 Anthropology of North Africa .....	3
GEO 328 Geography of the Middle East and North Africa .....	3
HIS 549 History of the Middle East: 1952 to the Present .....	3
HIS 550 Studies in Mid-East History and Politics (Subtitle required) .....	3-6
PS 410 Topics in Regional Politics (Subtitle required) .....	3-9
<b>Total Elective hours .....</b>	<b>9</b>

**MCL / Chinese Studies**

**Core Requirements**

Students must complete 6 hours from among the following courses:

CHI 301 Advanced Intermediate Chinese I .....	3
CHI 302 Advanced Intermediate Chinese II .....	3
CHI 330 Introduction to Chinese Culture, Pre-Modern to 1840 .....	3
CHI 331 Introduction to Chinese Culture, 1840 to Present .....	3
<b>Total Core hours .....</b>	<b>6</b>

**Elective Requirements**

Students must choose an additional 12 hours from the list of elective courses approved for all tracks and/or those courses listed below.

## CHI 300+

\*HIS 355 Topics in Non-Western History Since 1789 .. 3  
HIS 597 Westerners in East Asia,

1839 to the Present ..... 3

HIS 598 China in Revolution, 1895-1976 ..... 3

**Total Elective hours ..... 12**

*\*Approved for the minor when the topic of the course is appropriate as determined by the minor advisor.*

**MCL / Classics****Core Requirements**

The requirements for a Classics minor are 18 credit hours, at least 6 of which must be at the 300 level or above, earned from among the following courses:

1. Greek and Latin courses at any level

2. Non-language CLA courses at the 200 level or higher

All courses may be chosen from category 1, all from category 2, or the two categories may be combined in any manner, as long as students earn the requisite 18 credit hours. Elective courses approved for all tracks also count towards the Classics minor.

**MCL / Folklore and Mythology****Core Requirements**

MCL 270 Introduction to Folklore and Mythology ..... 3

CLA 135 Greek and Roman Mythology

or

CLA 100 Ancient Stories in Modern Films ..... 3

GER 103 Fairy Tales in European Context ..... 3

**Total Core hours ..... 9**

Students in this minor must also satisfy the current A&S Language Requirement, regardless of their college. The minor is not restricted to A&S majors.

**Elective Requirements**

Students choose an additional 6 hours from the following courses:

CLA 331 Gender and Sexuality in Antiquity ..... 3

CLA 382 Greek and Roman Religion ..... 3

FR 263 African and Caribbean Literature  
and Culture of French Expression in Translation

(Subtitle required) ..... 3

GER 363 Germanic Mythology ..... 3

MCL 135 Vampires: Evolution of a Sexy Monster ..... 3

RUS 370 Russian Folklore (in English) ..... 3

Students choose 3 additional elective hours that may include those listed above not applied above and/or the following:

CLA 462G Topics in Classical Literature

(Subtitle required) ..... 3

GER 263 The German Cultural Tradition I ..... 3

\*GER 312 German Popular Forms

(Subtitle required) ..... 3

AAS 200 Introduction to

African-American Studies ..... 3

AAS 254 History of Colonial

and Post-Colonial Africa ..... 3

ANT 220 Introduction to Cultural Anthropology ..... 3

ANT 241 Origins of Old World Civilization ..... 3

ANT 242 Origins of New World Civilization ..... 3

ANT 245 Food Culture and Society ..... 3

ANT 301 History of Anthropological Theory ..... 3

ANT 401 Gender Roles in

Cross-Cultural Perspective ..... 3

ANT 450 Symbols and Culture ..... 3

ANT 470G Regional American Ethnography ..... 3

APP 200 Introduction to Appalachian Studies ..... 3

\*APP 300 Topics in Appalachian Studies

(Subtitle required) ..... 3

ENG 271 The Bible as Literature ..... 3

\*ENG 492G Cultural Studies (Subtitle required) ..... 3

ENG 519 Introduction to Old English ..... 3

HIS 521 European Social History, 1400-1800 ..... 3

LAS 201 Introduction to Latin America ..... 3

\*LIN 317 Language and Society

(Subtitle required) ..... 3

MAT 247 Dress and Culture ..... 3

MUS 300 History of Jazz ..... 3

MUS 301 Appalachian Music ..... 3

\*SOC 350 Topics in Sociology (Subtitle required) ..... 3

GWS 200 Sex and Power ..... 3

GWS 201 Gender and Popular Culture ..... 3

\*GWS 300 Topics in Gender and Women's Studies

(Subtitle required) ..... 3

\*GWS 301 Crossroads (Subtitle required) ..... 3

\*GWS 302 Gender Across the World

(Subtitle required) ..... 3

Other courses approved by the minor advisor

**Total Elective hours ..... 9**

*\*Approved for the minor when the topic of the course is appropriate as determined by the minor advisor.*

**MCL / French and Francophone Studies****Core Requirements**

FR 204 Introduction to French  
and Francophone Studies ..... 3

FR 214 France Today

or

FR 215 Visual Cultures ..... 3

**Total Core hours ..... 6**

**Elective Requirements**

Students must choose an additional 12 hours from the list of elective courses approved for all tracks and/or those courses listed below:

## NEUROSCIENCE

The Bachelor of Science degree program in Neuroscience provides undergraduate students with an opportunity to engage in the in-depth study of neuroscience from a uniquely interdisciplinary perspective. Students receive extensive exposure to fundamental and applied aspects of neuroscience through classroom and laboratory-based interactions with faculty members and research staff from several departments housed in the College of Arts and Sciences and Medicine. The scope of training spans the entirety of key topics in neuroscience and includes examination of biological systems ranging from cellular/molecular neuroscience; neurophysiology; neuroanatomy; and integrated neuroscience including behavior.

### Bachelor of Science with a major in NEUROSCIENCE

#### 120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 130.

#### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

##### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ..... 3

##### II. Intellectual Inquiry in the Humanities

Choose one course from approved list ..... 3

##### III. Intellectual Inquiry in the Social Sciences

PSY 100 Introduction to Psychology  
or equivalent transfer ..... 3-4

##### IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

CHE 105 General College Chemistry I ..... 4  
CHE 111 General Chemistry I Laboratory ..... 1

##### V. Composition and Communication I

CIS/WRD 110 Composition and Communication I ..... 3

##### VI. Composition and Communication II

CIS/WRD 111 Composition and Communication II ..... 3

##### VII. Quantitative Foundations

MA 137 Calculus I with Life Science Applications  
or  
MA 113 Calculus I ..... 4

##### VIII. Statistical Inferential Reasoning

STA 296 Statistical Methods and Motivations ..... 3  
or  
PSY 215 Experimental Psychology  
and  
PSY 216 Applications of Statistics in Psychology ..... 8

##### IX. Community, Culture and Citizenship in the USA

Choose one course from approved list ..... 3

##### X. Global Dynamics

Choose one course from approved list ..... 3

**UK Core hours: ..... 33**

#### Graduation Composition and Communication Requirement (GCCR)

**Psychology**

*PSY 393 Research in Neuroscience .....	1-3
PSY 459 Neuropharmacology: Drugs and Behavior .....	3

Other neuroscience-related courses at the 200-level or above, as approved by DUS in Biology

**Total Hours: ..... 18**

*\*No more than six hours from research courses may apply to the 12 hours of electives.*

---

## PHILOSOPHY

Philosophy encourages critical and systematic inquiry into fundamental questions of right and wrong, truth and falsehood, the meaning of life, and the nature of reality, knowledge, and society. More than any other discipline, Philosophy explores the core issues of the Western intellectual tradition. With its emphasis on analytic precision and dialogical engagement, Philosophy is well positioned to help students develop their problem-solving, creative and critical thinking, communication, and other skills highly valued in the real world.

---

### Bachelor of Arts with a major in PHILOSOPHY

**120 hours (minimum)**

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

Suggested:

PHI 315 Philosophy and Science Fiction .....	3
--	---

**II. Intellectual Inquiry in the Humanities**

Suggested – one of the following:

PHI 100 Introduction to Philosophy: Knowledge and Reality	
PHI 260 History of Philosophy I: From Greek Beginnings to the Middle Ages	
PHI 270 History of Philosophy II: From the Renaissance to the Present Era	
PHI 310 Philosophy of Human Nature	
PHI 317 Existentialist Thought and Literature	
PHI 380 Death, Dying and the Quality of Life .....	3

**III. Intellectual Inquiry in the Social Sciences**

Choose one course from approved list .....

**IV. Intellectual Inquiry in the Natural, Physical,  
and Mathematical Sciences**

Choose one course from approved list .....

**V. Composition and Communication I**

CIS/WRD 110 Composition and Communication I .....	3
---	---

**VI. Composition and Communication II**

CIS/WRD 111 Composition and Communication II .....	3
--	---

**VII. Quantitative Foundations**

Suggested:

PHI 120 The Art of Thinking: An Introduction to Logic .....	3
--	---

**VIII. Statistical Inferential Reasoning**

Choose one course from approved list .....

**IX. Community, Culture and Citizenship in the USA**

Suggested – one of the following:

PHI 130 Introduction to Philosophy: Morality and Society	
PHI 205 Food Ethics	
PHI 335 The Individual and Society	
PHI 340 Introduction to Feminism and Philosophy	
PHI 361 Biology and Society (Subtitle required) .....	3

**X. Global Dynamics**

Suggested:

PHI 343 Asian Philosophy .....	3
--------------------------------	---

**UK Core hours: ..... 30****Graduation Composition and  
Communication Requirement (GCCR)**

PHI 350 Metaphysics and Epistemology .....	3
--	---

**Graduation Composition and Communication  
Requirement hours (GCCR) ..... 3****College Requirements**

I. Foreign Language ( <i>placement exam recommended</i> )^ .....	0-14
II. Disciplinary Requirements	
a. Natural Science .....	6
b. Social Science .....	6
c. Humanities ( <i>completed by Major Requirements</i> )	
III. Laboratory or Field Work .....	1
IV. Electives .....	6

**College Requirement hours: ..... 19-33****Premajor Requirements**

PHI 260 History of Philosophy I: from Greek Beginnings to the Middle Ages .....	3
PHI 270 History of Philosophy II: from the Renaissance to the Present Era .....	3

**Premajor hours: ..... 6****Major Requirements****Major Core Requirements**

PHI 320 Symbolic Logic I .....	3
PHI 330 Ethics	
or	
PHI 335 The Individual and Society .....	3
PHI 350 Metaphysics and Epistemology .....	3
<b>Major Core hours: .....</b>	<b>9</b>

**Other Course Work Required for the Major  
From the Major Department:**

Choose 15 hours of PHI 500+ level courses with at least one course from each group below .....

**Group A:** PHI 503, 504, 506, 509, 513, 514, 515, 516, 517

**Group B:** PHI 519, 530, 531, 535, 537, 540, 545, 592

**Group C:** PHI 520, 550, 560, 561, 562, 565, 570, 575

Choose 3 hours from any of the group courses listed above or the following: PHI 300, 305, 310, 317, 330, 332, 334, 335, 336, 337, 340, 343, 361, 380, 395, 500 .....

**From Outside the Major Department**

Choose 18 hours at the 200+ level; up to 4 hours may come from Philosophy courses .....

**Other Major hours: ..... 36****Electives**

Choose electives to lead to the minimum total of 120 hours required for graduation .....

**Total Minimum Hours  
Required for Degree ..... 120**

*^French or German is highly recommended to complete the College foreign language requirements. Ancient Greek is recommended if the student plans to concentrate on ancient philosophy. Latin is recommended if the student plans to concentrate on medieval philosophy.*

---

## Minor in Philosophy

The minor in Philosophy requires a minimum of 18 hours of course work to include:

- No more than two 100-level courses
- At least one course in logic (PHI 120, PHI 320, or PHI 520)
- At least one course in the history of philosophy (PHI 260, PHI 270, or any course from Group A of the undergraduate curriculum)
- At least three courses (9 hours) at the 300 level or above, excluding PHI 320 and PHI 399.

## PHYSICS AND ASTRONOMY

The Department of Physics and Astronomy helps many students acquire a general understanding and appreciation of physics and astronomy. In the liberal arts tradition, the undergraduate curriculum is complete and flexible enough to allow a graduate with a major in physics to pursue a variety of careers. Many of our graduates continue their studies with graduate work in physics or other areas.

For the student interested in combining the study of physics with studies in other areas, the department can assist in the planning of an individual curriculum which meets **both** the minimum requirements of the Physics program and the student's needs and interests. Such planning is of particular value to students intending to pursue careers in engineering, computer science, applied physics, medicine, radiation medicine, biophysics, law, meteorology, oceanography, geophysics, environmental sciences, management, or the teaching of physics and/or physical science at the junior and senior high school levels. By working closely with an advisor, the student with special interests can take advantage of opportunities to take several other courses from one or more departments outside physics, or double major in physics and another area. For a description of suggested curricula, visit our website at:

<https://pa.as.uky.edu/>.

### Bachelor of Arts with a major in PHYSICS

#### 120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for the Bachelor of Arts degree on page 129.

#### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

##### From Outside the Major Department

Choose 13-16 hours outside Physics at the 300+ level. Courses are generally chosen from biology, chemistry, computer science, education, engineering, mathematics, philosophy, or statistics. 200+ level courses used to satisfy College requirements can also be counted here ..... 13-16

**Other Major hours: ..... 13-16**

##### Total Minimum Hours

**Required for Degree ..... 121**

*\*Course used towards completion of a UK Core Requirement.*

## Suggested Curriculum for B.A. in Physics

As you plan your physics studies, please note that upper division physics courses, PHY 3XX and all higher numbered courses, are offered once per year in the semester indicated on the suggested curricula. For example, PHY 306 and PHY 361 are offered in the spring semester only. This suggested curriculum minimally meets the requirements for the B.A. in Physics.

### Freshman Year

First Semester	Hours
MA 113 Calculus I	4
CIS/WRD 110 Composition and Communication I	3
UK Core	3
UK Core	3

### Second Semester

MA 114 Calculus II	4
PHY 231 General University Physics	4
PHY 241 General University Physics Laboratory	1
UK Core	3

PHY 4XX (suggested)	3
PHY 5XX (suggested)	3
Electives	5

\*A total of 14 credit hours in math, computer science, chemistry, engineering or other areas related to physics but outside the department must be completed to satisfy the college requirement. A total of 42 hours in physics and related areas must be taken to satisfy the major requirement.

\*\*The Bachelor of Arts requires the completion of six hours in humanities and social sciences as a college requirement. It also requires the completion of 39 hours at or above the 300 level.

## Bachelor of Science with a major in PHYSICS

### 120 hours (minimum)

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 130.

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ..... 3

#### II. Intellectual Inquiry in the Humanities

Choose one course from approved list ..... 3

#### III. Intellectual Inquiry in the Social Sciences

Choose one course from approved list ..... 3

#### IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

Choose one course from approved list ..... 3

#### V. Composition and Communication I

CIS/WRD 110 Composition and Communication I ..... 3

#### VI. Composition and Communication II

CIS/WRD 111 Composition and Communication II ..... 3

#### VII. Quantitative Foundations

Choose one course from approved list ..... 3

#### VIII. Statistical Inferential Reasoning

Choose one course from approved list ..... 3

#### IX. Community, Culture and Citizenship in the USA

Choose one course from approved list ..... 3

#### X. Global Dynamics

Choose one course from approved list ..... 3

**UK Core hours: ..... 30**

### Graduation Composition and Communication Requirement (GCCR)

PHY 535 Advanced Physics Laboratory ..... 3

**Graduation Composition and Communication Requirement hours (GCCR) ..... 3**

### College Requirements

I. Foreign Language (*placement exam recommended*) ..... 0-14

II. Disciplinary Requirements

PHI 300+ course ..... 3

Elective ..... 3

### Second Semester

PHY 521 Introduction to Quantum Mechanics II ..... 3

PHY 535 Advanced Physics Laboratory ..... 3

Social Sciences 300+ ..... 3

Elective ..... 4

\*A total of 14 credit hours in math, computer science, chemistry, engineering or other areas related to physics but outside the department must be completed to satisfy the college requirement. One-hundred-level freshman courses may not be counted for the Major Requirements except for CS 115 which may be counted.

## Minor in Physics

The minor in Physics requires 28 hours of course work to include:

PHY 231 General University Physics

and

PHY 241 General University Physics Laboratory

OR

PHY 211 General Physics ..... 5

PHY 232 General University Physics

and

PHY 242 General University Physics Laboratory

OR

PHY 213 General Physics ..... 5

MA 113 Calculus I  
**or**  
 MA 137 Calculus I  
 With Life Science Applications ..... 4

MA 114 Calculus II  
**or**  
 MA 138 Calculus II  
 With Life Science Applications ..... 4

PHY 228 Optics, Relativity and Thermal Physics ..... 3  
 MA 213 Calculus III ..... 4  
 PHY 361 Principles of Modern Physics ..... 3

**Astronomy Concentration**

For students with an interest in astronomy, the Department offers the B.S. degree in physics with a concentration in astronomy. Among the Major Requirements, AST/PHY 591 Astrophysics I – Stars and AST/PHY 592, Astrophysics II – Galaxies and Interstellar Material are strongly recommended as courses within the area of concentration. AST 395, Independent Work in Astronomy, may be substituted for one of the laboratory courses of Requirement Three, subject to the work being done in astronomy and astrophysics. Students are encouraged, though not required, to enroll in AST 191, The Solar System, and AST 192, Stars, Galaxies and the Universe.

**POLITICAL SCIENCE**

The undergraduate program in Political Science allows students to pursue course work in four disciplinary fields:

- American Politics – define the American political system, including the high-demand sub-field of judicial politics and legal studies; study of the institutions, behavioral patterns, and public policies that define the American political system;
- Comparative Politics – study of the institutions, policies, and mass behaviors observed in political systems outside the United States, usually explored through comparison within or across regions of the world;
- International Relations – study of the international system as a whole, as well as of the actors (such as nation-states, corporations, and international organizations) who participate in shaping diplomatic, military, and economic outcomes within that system;
- and
- Theory/Methodology – study of the values, concepts, and analytical methods that shape how people evaluate political life.

Degree recipients take introductory course work in each of these four areas, then pursue advanced studies in one or more of the fields as determined by their interests and/or career goals.

In addition to conveying information about politics and government – necessary background for pursuing graduate work in political science and related fields – Political Science courses at UK are designed to provide students with a broad

liberal arts education. Graduates leave the program having cultivated their analytical abilities and having exercised their written and spoken communication skills. Such disciplinary training leads to a wide variety of careers, many of which have no direct political or governmental connection, but is particularly helpful in preparing students for careers such as law, policy analysis, governmental administration, diplomatic service, journalism, lobbying, and other sorts of political activity.

Currently the department offers two degree: a Bachelor of Arts and a Bachelor of Science. Most majors choose to pursue the B.A. The primary difference is that B.A. students must complete a minimum of 39 hours at the 300+ level, a requirement that students can fulfill using courses already needed for the major. Earning the B.S. degree, on the other hand, requires completing a minimum of 60 hours in natural, physical, mathematical, and computer sciences. Little of that course work fulfills other degree requirements.

**Bachelor of Arts with a major in POLITICAL SCIENCE**

**120 hours (minimum)**

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

- I. Intellectual Inquiry in Arts and Creativity**  
 Choose one course from approved list ..... 3
- II. Intellectual Inquiry in the Humanities**  
 Choose one course from approved list ..... 3
- III. Intellectual Inquiry in the Social Sciences**  
 \*PS 230 Introduction to International Relations ..... 3

 PS 210 Introduction to Comparative Politics ..... 3  
**UK Core hours: ..... 30**

**Graduation Composition and Communication Requirement (GCCR)**

- WRD 304 Writing in the Social Sciences ..... 3  
**Graduation Composition and Communication Requirement hours (GCCR) ..... 3**

**College Requirements**

- I. Foreign Language (placement exam recommended) ..... 0-14**
- II. Disciplinary Requirements**
  - a. Natural Science ..... 6
  - b. Social Science (completed by Premajor Requirements) ..... 6
  - c. Humanities (choose 300+ level courses) ..... 6
- III. Laboratory or Field Work (completed by PS 372) ..... 6**
- IV. Electives ..... 6**  
**College Requirement hours: ..... 18-32**

**Premajor/Introductory Requirements**

- Field One – American Politics**  
 PS 101 American Government ..... 3
- Field Two – Comparative Politics**  
 PS 210 Introduction to Comparative Politics ..... 3
- Field Three – International Relations**  
 \*PS 230 Introduction to International Relations ..... 3
- Field Four – Theory/Methodology**  
 PS 240 Introduction to Political Theory  
**or**  
 PS 372 Introduction to Political Analysis ..... 3  
**Premajor/Intro hours: ..... 12**

**Major/Core Requirements**

After being introduced to each undergraduate field, Political Science majors must take an additional 39 hours of course work that combines both (1) courses within the discipline and (2) courses covering topics related to the discipline but offered by other programs. These 39 hours, of which 24 must be at the 300+ level, are divided as follows.

**Disciplinary Courses**

Students must take 18 additional credit hours of political science course work, of which at least 15 hours must be at the 300+ level. Note that PS 399 may not be counted toward this requirement. Eligible courses span all four undergraduate fields:

- Field One – American Politics**  
General American Politics Courses  
 PS 456G, 458, 470G, 471, 472G, 473G, 474G, 475G, 476G, 479, 480G, 484G, 489G, 557, 580  
Courses on American Law and Courts  
 PS 360, 363, 461G, 463G, 465G, 566
- Field Two – Comparative Politics**  
 PS 210, 410, 415G, 417G, 419G, 420G, 427G, 428G, 429G, 538
- Field Three – International Relations**  
 PS 430G, 431G, 433G, 436G, 437G, 439G, 538
- Field Four – Theory/Methodology**  
 PS 240 or 372, 441G, 442G, 545, 572  
*Note: PS 391, 395, 490, and 492 also meet this disciplinary requirement, although the fields will vary depending on the topic.*
- Other Courses**  
 Choose 6 hours of PS courses (including 1-6 hours of PS 399) or approved courses from outside political science (see list below) ..... 6

**From Outside the Major Department**

Choose 15 hours outside political science from the list below. Other course offerings may be substituted, subject to the approval of the Director of Undergraduate Studies ..... 15

Any course numbered 200 or above from the following prefixes: AAS, ANT, APP, CLD, ECO, ENS, GWS, GEO, HIS, IS, LAS, MAS, PCE, PHI, PSY, SOC, STA, and WRD.

Any course numbered 300 or above from the following prefixes: AEC, AIS, CHI, CLA, EPE, FR, GER, SPA, INT, IT, HJS, JPN, MCL, and RUS.

**Major/Core hours:** ..... 39

**Electives**

Choose electives to lead to the minimum total of 120 hours required for graduation.

**Total Minimum Hours  
Required for Degree** ..... 120

*\*Course used towards completion of a UK Core Requirement.*

---

**Bachelor of Science with a major in  
POLITICAL SCIENCE**

---

**120 hours (minimum)**

Any student earning a Bachelor of Science (BS) degree must complete a minimum of 60 hours in natural, physical, mathematical, and computer science. Please note: courses with a PS prefix are not accepted towards fulfilling this 60-hour requirement. Therefore, be sure to keep this requirement in mind as you choose your course work for the major. See the complete description of College requirements for a Bachelor of Science degree, including a specific listing of courses applicable to the 60-hour requirement, on page 130.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

Choose one course from approved list ..... 3

**II. Intellectual Inquiry in the Humanities**

Choose one course from approved list ..... 3

**III. Intellectual Inquiry in the Social Sciences**

\*PS 230 Introduction to International Relations ..... 3

**IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences**

Choose one course from approved list ..... 3

**V. Composition and Communication I**

CIS/WRD 110 Composition and Communication I ..... 3

**VI. Composition and Communication II**

CIS/WRD 111 Composition and Communication II ..... 3

**VII. Quantitative Foundations**

**VIII. Statistical Inferential Reasoning**

Choose one course from approved list ..... 3

**IX. Community, Culture and Citizenship in the USA**

PS 101 American Government ..... 3

**X. Global Dynamics**

PS 210 Introduction to Comparative Politics ..... 3

**UK Core hours:** ..... 30

**Graduation Composition and Communication Requirement (GCCR)**

WRD 304 Writing in the Social Sciences ..... 3

**Graduation Composition and Communication Requirement hours (GCCR) ..... 3****College Requirements**

I. Foreign Language (*placement exam recommended*) ..... 0-14

**II. Disciplinary Requirements**

a. Natural Science ..... 3

b. Social Science (*completed by Premajor Requirements*)

c. Humanities ..... 3

III. Laboratory or Field Work (*completed by PS 372*)

IV. Electives ..... 6

**College Requirement hours:** ..... 12-26

**Premajor/Introductory Requirements****Field One – American Politics**

PS 101 American Government ..... 3

**Field Two – Comparative Politics**

PS 210 Introduction to Comparative Politics

**Field Three – International Relations**

\*PS 230 Introduction to International Relations ..... 3

**Field Four – Theory/Methodology**

PS 240 Introduction to Political Theory

or

PS 372 Introduction to Political Analysis ..... 3

**Premajor/Intro hours:** ..... 12

**Major/Core Requirements**

After being introduced to each undergraduate field, Political Science majors must take an additional 39 hours of course work that combines both (1) courses within the discipline and (2) courses covering topics related to the discipline but offered by other programs. These 39 hours, of which 24 must be at the 300+ level, are divided as follows.

**Disciplinary Courses**

Students must take 18 additional credit hours of political science course work, of which at least 15 hours must be at the 300+ level. Note that PS 399 may **not** be counted toward this requirement. Eligible courses span all four undergraduate fields:

**Field One – American Politics****General American Politics Courses**

PS 456G, 458, 470G, 471, 472G, 473G, 474G, 475G, 476G, 479, 480G, 484G, 489G, 557, 580

**Courses on American Law and Courts**

PS 360, 363, 461G, 463G, 465G, 566

**Field Two – Comparative Politics**

PS 210, 410, 415G, 417G, 419G, 420G, 427G, 428G, 429G, 538

**Field Three – International Relations**

PS 430G, 431G, 433G, 436G, 437G, 439G, 538

**Field Four – Theory/Methodology**

PS 240 or 372, 441G, 442G, 545, 572

*Note: PS 391, 395, 490, and 492 also meet this disciplinary requirement, although the fields will vary depending on the topic.*

**Other Courses**

Choose 6 hours of PS courses (including 1-6 hours of PS 399) or approved courses from outside political science (see list below) ..... 6

**From Outside the Major Department**

Choose 15 hours outside political science from the list below. Other course offerings may be substituted, subject to the approval of the Director of Undergraduate Studies ..... 15

Any course numbered 200 or above from the following prefixes: AAS, ANT, APP, CLD, ECO, ENS, GWS, GEO, HIS, IS, LAS, MAS, PCE, PHI, PSY, SOC, STA, and WRD.

Any course numbered 300 or above from the following prefixes: AEC, AIS, CHI, CLA, EPE, FR, GER, SPA, INT, IT, HJS, JPN, MCL, and RUS.

**Major/Core hours:** ..... 39

**Electives**

Choose electives to lead to the minimum total of 120 hours required for graduation.

**Total Minimum Hours  
Required for Degree** ..... 120

*\*Course used towards completion of a UK Core Requirement.*

---

**Minor in Political Science**

---

The minor in Political Science requires a pre-requisite course (PS 101) and 18 hours of course work at the 200 level or above to be distributed as follows:

1. 6 hours of 200 level courses, 3 hours of which must be either PS 210 or PS 230.
2. Four other courses, at least three of which must be at the 400 or 500 level.

---

**PSYCHOLOGY**

---

The undergraduate curriculum in psychology includes courses in the major content areas of psychology. The program provides course work emphasizing the fundamental concepts and techniques of this basic behavioral science. In addition to course work, the program provides for experience in conducting and analyzing laboratory and field research.

---

**Bachelor of Arts with a major in  
PSYCHOLOGY**

---

**120 hours (minimum)**

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

**Minor in Psychology**

The minor in Psychology requires a minimum of 19-20 hours of course work to include:

**Prerequisite Courses**

PSY 100 Introduction to Psychology  
or equivalent ..... 3-4  
PSY 215 Experimental Psychology ..... 4

Four of the following five courses:

PSY 223 Developmental Psychology ..... 3  
PSY 311 Learning and Cognition ..... 3  
PSY 312 Brain and Behavior ..... 3  
PSY 313 Personality and Individual Differences ..... 3  
PSY 314 Social Psychology and Cultural Processes ..... 3

**SOCIOLOGY**

Sociology emphasizes the study of human behavior and basic social processes. The discipline provides excellent preparation for careers in a variety of occupations and professions including planning and community development, law, public relations and advertising, personnel administration, private business and government administration, health and human services, family relations, criminal justice fields, and others.

Students may major or minor in sociology. The department offers a Bachelor of Arts and a Bachelor of Science through the College of Arts and Sciences. Students may also complete a second major or minor in sociology even though they are enrolled in other colleges. In addition, students seeking certification in social studies education at the secondary level through the College of Education may also emphasize sociology in their programs.

Courses offered by the department cover a wide range of topics and issues. Areas such as social inequalities, work, organizations, economy, globalization, family, community, environment, crime, law and deviance comprise a large part of the curriculum. Students may also pursue special readings courses and experiential education placements or internships through the department.

**Bachelor of Arts with a major in  
SOCIOLOGY****120 hours (minimum)**

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

**Minor in Criminology**

The minor in Criminology requires 18 hours as follows:

**Minor Prerequisite**

SOC 235 Inequalities in Society ..... 3

**Minor Requirements**

SOC 302 Sociological Research Methods

or one of the following courses:

PSY 215 Experimental Psychology

PS 372 Introduction to Political Analysis

ANT 302 Ethnographic Methods: Doing Anthropology

SW 450 Social Work Research

COM 365 Introduction to Communication

Research Methods ..... 3-4

plus:

SOC 339 Introduction to Criminology ..... 3

**Minor Electives**

9 hours from the following courses, 3 which must be at the 400-level:

\*SOC 350 Topics in Sociology (Subtitle required) ..... 3

SOC 438 Cross-National Crime ..... 3

\*SOC 439 Topics in Crime, Law and Deviance (Subtitle required) ..... 3

To complete the 9 hours, students may take one course from the following:

PS 360 Politics of Law and Courts ..... 3

PS 415G Comparative Judicial Politics ..... 3

PS 437G Dynamics of International Law ..... 3

PS 463G Judicial Politics ..... 3

PS 465G Constitutional Law ..... 3

GWS 430 Gender, Power and Violence ..... 3

PSY 331 The Psychology of Adjustment ..... 3

PSY 333 Abnormal Psychology ..... 3

PSY 534 Child Pathopsychology ..... 3

SW 512 Social Work in the Criminal Justice System ..... 3

SW 580 Topical Seminar in Social Work ..... 1-4

SW 505 Child Welfare Services ..... 2-3

SW 571 Social Work and the Law ..... 3

COM 314 The Dark Side of Interpersonal Communication and Relationships ..... 3

*\*The subtitle for this course must directly relate to criminology.*

**Minor in Sociology**

The minor in Sociology requires 21 hours of course work to include:

**Prerequisites**

SOC 101 Introduction to Sociology

or

CLD 102 The Dynamics of Rural Social Life ..... 3

and

Any other 100- or 200-level sociology course ..... 3

**Premajor hours:** ..... 6

**Minor Requirements**

Students complete an additional 15 hours in sociology, at least 3 of which must be at the 400 level or above and must include one of the following six-hour blocks:

SOC 302 and SOC 303 (or PSY 216)

or

SOC 304 and SOC 305

or

SOC 302 and SOC 304

**STATISTICS**

The Department of Statistics at the University of Kentucky is concerned with three essential functions: teaching, research, and consulting in statistics.

The department does not offer an undergraduate degree, but students may elect to include statistics as part of a topical major or to minor in statistics. The program in mathematical sciences also includes several statistics courses. The Master of Science and the Doctor of Philosophy degree are offered.

Research is being actively pursued in statistical theory and methods, both parametric and non-parametric, linear models, inference, stochastic processes, applied probability, and biostatistics.

Consultation on statistical analysis and interpretation of data is provided to research workers on and off the campus. Particular attention is paid to the consulting needs of graduate students.

**Minor in Statistics**

The minor in Statistics is aimed specifically at social and life science students, as well as students in the traditional mathematical sciences. A minimum of 15 hours of course work is required to complete the minor, as follows:

Complete one of the following:

STA 296 Statistical Methods and Motivations

STA 321 Basic Statistical Theory I

STA 525 Introductory Statistical Inference ..... 3

Complete one of the following:

STA 281 Probability and Statistics

Using Interactive Computer Techniques

STA 320 Introductory Probability

STA 524 Probability ..... 3

plus

STA 570 Basic Statistical Analysis ..... 3

Complete one additional STA course approved by the Director of Undergraduate Studies ..... 3 - 4

Complete one course from the student's area approved by the Director of Undergraduate Studies ..... 3-4

**Total Hours** ..... 15-17

**US CULTURE AND BUSINESS PRACTICES**

A US Culture and Business Practices degree allows students to complete an interdisciplinary program of study that draws together rich training in the history, politics, arts, and culture of the United States with significant training in Business. Students will develop the breadth of knowledge indicative of a liberal arts education. Students will enhance critical thinking and writing skills, develop communication and other "soft skills," and hone problem-solving strategies.

This training will mesh with key aspects of a Business degree, including Management, Marketing, Finance, and Economics. Students will thus attain the fundamentals of a Business degree within the broader scope of skills and methods of inquiry associated with the liberal arts. This degree will be beneficial for a wide range of students: students who plan to work in business, technological, cultural, community, and human-service settings; students who wish to combine the liberal arts with a more applied field; and students for whom a traditional intracollege major is too limiting. Students will be equipped with the flexible skills associated with a liberal arts degree, and who are also well-positioned to succeed in a twenty-first century entrepreneurial economy.

## Bachelor of Arts with a major in US CULTURE AND BUSINESS PRACTICES

120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the major requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ..... 3

#### II. Intellectual Inquiry in the Humanities

Choose one course from approved list ..... 3

#### III. Intellectual Inquiry in the Social Sciences

### Electives

Students must complete at least 6 hours of free electives to bring the total number of credit hours to 120. Free electives may not be counted toward UK Core or A&S requirements.

**Elective Hours ..... minimum of 6**

**Total Minimum Hours  
Required for Degree ..... 120**

## WRITING, RHETORIC, AND DIGITAL STUDIES

The major in Writing, Rhetoric, and Digital Studies focuses on the humanistic study of writing and rhetoric in its various genres, contexts (social, historical, political), and media (print and digital, textual and visual). Students in the program study rhetoric and composition theory, practice writing in various forms (including professional and technical writing), and consider the emerging dynamics of digital composition.

The major prepares students to enter publishing, business, industry, or non-profit organizations. Students focusing on writing in digital environments may find employment with multimedia firms or web design organizations. For those interested in graduate work, the major prepares students to enter English education, rhetoric and composition, professional writing, and law.

The major in Writing, Rhetoric, and Digital Studies is grounded in the foundational idea that writing and rhetoric are important not only for professional success, but also for the development of an informed, engaged citizenry.

### Bachelor of Arts with a major in WRITING, RHETORIC, AND DIGITAL STUDIES

#### 120 hours (minimum)

Any student earning a Bachelor of Arts (BA) degree must complete a minimum of 39 hours at the 300+ level. These hours are generally completed by the Major Requirements. However, keep this hour requirement in mind as you choose your course work for the requirements in the major. See the complete description of College requirements for a Bachelor of Arts degree on page 129.

#### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

##### I. Intellectual Inquiry in Arts and Creativity

## INTERDISCIPLINARY MINORS

### African American and Africana Studies

The minor in African American and Africana Studies provides students with an opportunity to examine the contributions of established academic disciplines towards the understanding of African peoples, particularly those peoples in the New World. It also provides a framework for research and analysis of issues which focus on African American experiences in artistic, literary, historical, and sociopolitical environments. The minor requires 21 hours of study as follows:

1. AAS 200 Introduction to African-American and Africana Studies
2. AAS 400 Special Topics in African-American and Africana Studies
3. AAS 401 Independent Reading and Research in African-American and Africana Studies
4. a. At least 6 hours of course work in the humanities (as approved by the African American and Africana Studies Committee). Among these are:

AAS/ENG 264 Introduction to Black Writers  
AAS/FR 263 African and Caribbean Literature and Culture of French Expression (Subtitle required)  
FR 504 Topics in French Literature and Culture (if appropriate)  
AAS/HIS 254 History of Colonial and Post-Colonial Africa  
AAS/HIS 260 African American History to 1865  
AAS/HIS 261 African American History 1865-Present  
AAS/HIS 360 Race and Sports in America  
HIS 585 The Age of Jim Crow, 1880-1930  
AAS/MUS 300 History of Jazz

4. b. At least 6 hours in the social sciences (as approved by the African American and Africana Studies Committee). Among these are:

AAS/ANT 326 Contemporary African Lives  
AAS/EDC 550 Education in a Culturally Diverse Society  
AAS/GEO 336 Geography of Sub-Saharan Africa  
PS 417G Survey of Sub-Saharan Politics  
PS 461G Civil Liberties  
AAS/PS 471 Race, Ethnicity and Politics  
AAS/SOC 235 Inequalities in Society  
AAS/SOC 432 Race and Ethnic Relations  
AAS/SOC 433 Topics in Social Inequalities (Subtitle required)

**NOTE:** Courses in English and history are strongly recommended.

For further information, email [aaas@uky.edu](mailto:aaas@uky.edu);  
112 Breckinridge Hall 0056, 859-257-2284.  
<http://aaas.as.uky.edu/>

### American Studies

American studies draws together diverse disciplines to examine the historical and contemporary forms and issues of our national life. The program in American Studies takes as its field of study any peoples, cultural expressions and social institutions, however or whenever identified as "American." Program curricula link faculty, courses, and

students across a range of humanities, arts, and social science departments.

The minor centers on two interdisciplinary seminars on selected topics in American studies. Students electing the minor are also encouraged to take a range of elective courses to complement their major. The minor in American Studies prepares students for further graduate or professional training, or for work in education, government, or business.

The minor requires 18 hours of study as follows:

1. IAS 301 Topics in American Culture
2. IAS 401 Perspectives in American Culture
3. Four additional courses (12 hours) from the following list of approved courses. No more than two courses (or 6 hours) may be taken in any one discipline:

**Art History:** A-H 342

**Anthropology:** ANT 221, ANT 342, ANT 470G, ANT 527, ANT 534

**English:** ENG 310, ENG 480G

**Geography:** GEO 320, GEO 321, GEO 322, GEO 490G

**History:** HIS 260, HIS 261, HIS 265, HIS 350, HIS 351, HIS 460, HIS 461, HIS 463, HIS 464, HIS 465, HIS 466, HIS 467, HIS 572, HIS 573, HIS 574, HIS 575, HIS 576, HIS 577, HIS 578, HIS 579, HIS 580, HIS 584, HIS 585, HIS 586

**Linguistics:** LIN 317

**Music:** MUS 206, MUS 222, MUS 300, MUS 301, MUS 506

**Philosophy:** PHI 514

**Political Science:** PS 430G, PS 456G, PS 458, PS 461G, PS 463G, PS 465G, PS 470G, PS 475G, PS 479, PS 484G, PS 545

**Sociology:** SOC 340, SOC 534

For further information, contact: Director Pearl James, [avdool2@uky.edu](mailto:avdool2@uky.edu); 1227 Patterson Office Tower 0027, 859-257-6978.

<http://american-studies.as.uky.edu/>

### Appalachian Studies

This minor offers the student with serious interests in Appalachian regional studies an opportunity to pursue a minor concentration to complement a major in one of the university's professional or liberal arts programs. This interdisciplinary program enables students to comprehend more fully the history, health, social structure, environment, and culture of the region – its people, its challenges, and its future.

The minor in Appalachian Studies requires 18 hours of course work to include the following:

1. APP 200 Introduction to Appalachian Studies
2. Choose 15 hours of Appalachian Studies courses. These courses must be chosen from the list below, or current courses listed on the website approved by the Director of Appalachian Studies:
  - APP 300 Topics in Appalachian Studies (Subtitle required)
  - APP 395 Independent Study
  - APP 399 Practicum
  - GEO 365 Special Topics in Regional Geography (Subtitle required) (if appropriate)

- HIS 579 History of the New South
- HIS 580 History of Appalachia
- MUS 301 Appalachian Music
- PS 456G Appalachian Politics
- SOC 343 Political Sociology (if appropriate)
- SOC 534 Sociology of Appalachia
- SOC 735 Topical Seminar in Social Inequalities (if appropriate)

**Note:** Introduction to Appalachian Studies (APP 200) is strongly recommended. Individually arranged courses in independent study and experiential education may be counted toward the minor if approved by the Appalachian Studies Program Director. Special Topics courses offered by the various departments may also be counted, if appropriate.

For more information, contact: Appalachian Studies Associate Director, Kathryn Engle, [kathryn.enge@uky.edu](mailto:kathryn.enge@uky.edu); Room 204, 624 Maxwellton Court, 0347; 859-257-8262.

## Cognitive Science

The undergraduate minor in Cognitive Science is aimed to provide undergraduates with an introduction to cognitive science as a theory of the mind as an intelligent (information-processing) system. Our objectives are to ensure that each student (a) be able to articulate, at least in broad terms, some of the assumptions that have been thought to unify the various subfields within the domain of cognitive science; (b) explore more than one discipline's approach to matters pertaining to cognitive science; and (c) explore in some detail at least one of the five main disciplines contributing to cognitive science (biology, computer science, linguistics, philosophy, and psychology). CGS 500 (Cognitive Science in Theory and Practice) will be run with the aim in mind of getting students to satisfy (a); and distribution requirements aim to put students in a position to satisfy (b) and (c).

To receive an undergraduate minor in Cognitive Science, the student must successfully complete 18 credit hours to be distributed as follows:

1. CGS 500 Cognitive Science in Theory and Practice ..... 3
2. 15 credits from among the following:

- \*ANT 332 Human Evolution
- BIO 375 Behavioral Ecology and Sociobiology
- BIO 535 Comparative Neurobiology and Behavior
- BIO 550 Advanced Physiology
- BIO 556 Communication Biology
- COM 350 Language and Communication
- CS 375 Logic and Theory of Computing (may not be combined with PHI 520)
- CS 463G Introduction to Artificial Intelligence
- \*CS 521 Computational Sciences
- CS 536 Situated Computing
- CS 575 Models of Computation (may not be combined

- with PHI 520)
- LIN 210 History of the English Language
- LIN 211 Introduction to the Study of Language
- LIN 212 Introduction to Linguistics II
- LIN 509 Formal Semantics
- LIN 512 Analysis of English Syntax
- \*LIN 513 Teaching English as a Second Language
- LIN 515 Phonological Analysis
- LIN 516 Grammatical Typology
- LIN 517 Special Topics in Linguistics (Subtitle required)
- LIN 519 Historical Linguistics
- PHI 320 Symbolic Logic I
- PHI 361 Biology and Society (Subtitle required)
- PHI 520 Symbolic Logic II (may not be combined with CS 375, 575, or 675)
- PHI 560 Philosophy of Scientific Method
- PHI 565 Philosophy of Language
- PHI 575 Philosophy of Mind
- \*PSY 223 Developmental Psychology
- PSY 311 Learning and Cognition
- PSY 312 Brain and Behavior
- PSY 427 Cognitive Processes
- PSY 456 Behavioral Neuroscience
- PSY 552 Evolutionary Psychology
- PSY 562 Advanced Topics in Cognitive Psychology (Subtitle required)
- PSY 564 Advanced Topics in Learning (Subtitle required)
- PSY 565 Advanced Topics in Neuroscience (Subtitle required)
- \*PSY 566 Advanced Topics in Social Psychology (Subtitle required)

Of the 15 credit hours of courses from this list, (1) at least 6 credit hours must be in the same core discipline, where core disciplines are biology, computer science, linguistics, philosophy, and psychology; and (2) no more than 6 credit hours from any single discipline will count towards satisfaction of the requirement.

*\*Only by approval of the Director of Cognitive Science. The main criterion for approval will be the extent to which the course, as taught during the semester for which the student seeks cognitive science credit, contains a sufficient amount of materials relevant to cognitive science. The Director will make this determination by consultation with relevant faculty from the department teaching the course (including the instructor of the course), in conjunction with the criteria for course inclusion outlined on the Cognitive Science webpage.*

For more information, contact: Camille Harmon, [camille.harmon@uky.edu](mailto:camille.harmon@uky.edu); 859-257-3966. <http://idp.as.uky.edu/cognitive-science>

## Environmental and Sustainability Studies

Environmental considerations permeate almost every facet of modern life, and concern for "the environment" is practically universal as we approach the twenty-first century. The minor in Environmental and Sustainability Studies is designed to provide students with the opportunity to become conversant in a range of environmental topics, whether as private citizens in their daily lives or as professional members of corporate, government, legal, medical, and educational circles.

The minor draws on topics and perspectives from the natural and physical sciences, the social sciences, and the humanities to underscore the interdisciplinary nature of environmental issues and problems. Students taking the minor are encouraged to integrate the program with their

major study focus in order to gain a competitive advantage in grappling with environmental topics.

The minor in Environmental and Sustainability Studies requires 21 hours of course work including the following:

- ENS 201 Environmental and Sustainability Studies I: Humanities and Social Sciences ..... 3
- ENS 202 Environmental and Sustainability Studies II: Natural Science and Policy ..... 3
- PHI 336 Environmental Ethics ..... 3
- ENG 425 Environmental Writing ..... 3

plus 3 credit hours from each of the ENS Areas of Expertise: Economics, Environment, Society ..... 9

## Indian Culture

This minor is designed to allow students to develop a more profound understanding of Indian culture. The curriculum is strongly interdisciplinary, encompassing courses in linguistics, anthropology, English, geography, mathematics, philosophy, political science, and sociology.

Students completing the minor will possess: (1) a well-rounded, multidisciplinary understanding of the culture and geography of India and of contemporary Indian society and politics; and (2) a high degree of preparedness to pursue careers in business or teaching that require knowledge of Indian society and its traditions.

The minor in Indian Culture requires 18 hours of course work, as follows:

12 hours of courses on India from anthropology, English, geography, linguistics, mathematics, philosophy, political science, sociology, and independent studies in India. Students choose from the following courses:

ANT 327 Culture and Societies of India and South Asia .....	3
GEO 330 Geography of the Indian Subcontinent .....	3
GEO 365 Special Topics in Regional Geography (Subtitle required) .....	3
GEO 565 Topics in Geography .....	3
*GWS 302 Gender Across the World (Subtitle required) .....	3
LIN 395 Independent Work .....	3
MA 330 History of Mathematics .....	3
*MUS 330 Music in the World (Subtitle required) .....	3
PHI 343 Asian Philosophy .....	3
PS 420G Governments and Politics of South Asia .....	3
SOC 380 Globalization: A Cross-Cultural Perspective .....	3

\*The subtitle for this course must directly relate to the field of Indian culture.

Students in the Indian Culture minor program will be encouraged to participate in a study program in India in the course of their undergraduate education.

For more information, contact: Professor Srimati Basu, 214 Breckinridge Hall, 859-257-4372; [srimati.basu@uky.edu](mailto:srimati.basu@uky.edu) or Professor Mark P. Whitaker, 214 Lafferty Hall, 859-257-2611; [mark.whitaker@uky.edu](mailto:mark.whitaker@uky.edu)

## Jewish Studies

The interdisciplinary minor in Jewish Studies provides students with the opportunity to become acquainted with the culture, language, literature, religion, history, and philosophy of the Jewish people from antiquity to the present. For more information, visit:

[mcl.as.uky.edu/jewish-studies](http://mcl.as.uky.edu/jewish-studies)

The minor in Jewish Studies requires 18 hours of course work as follows:

### 1. Required Courses

HJS 324 Jewish Thought and Culture I: From Ancient Israel to the Middle Ages .....	3
HJS 325 Jewish Thought and Culture II: From the Expulsion from Spain to the Present .....	3

### 2. Elective Courses

HJS 101 Elementary Hebrew .....	4
HJS 102 Elementary Hebrew .....	4
HJS 201 Intermediate Hebrew .....	3
HJS 202 Intermediate Hebrew .....	3
HJS 326 The Jewish Experience in America .....	3
HJS 327 Women in Judaism .....	3
HJS 495 Independent Study in Judaic Studies .....	3
PHI 504 Islamic and Jewish Philosophy and the Classical Tradition .....	3
CLA 390 Backgrounds to and Early History of Christianity to 150 CE .....	3
HIS 330 A History of Western Religious Thought (I) ...	3
HIS 323 The Holocaust .....	3
HJS 425 Topics in Judaic Studies (Subtitle required) ....	3

And other courses with significant Judaic studies content, as approved by the Director, to a maximum of 6 credit hours.

For further information, contact: Director Janice Fernheimer, [jfernheimer@uky.edu](mailto:jfernheimer@uky.edu); 1457 Patterson Office Tower 0027, 859-257-1994.

<http://mcl.as.uky.edu/jewish-studies>

## Latin American, Caribbean, and Latino Studies

The minor in Latin American, Caribbean, and Latino Studies provides instruction and broad exposure to the society and culture of Latin America. The minor requires a minimum of 18 credit hours to be distributed as follows:

### Premior Requirement

1. LAS 201 Introduction to Latin America .....	3
--	---

### Minor Requirements

Complete 3 credit hours of language instruction in Spanish, Portuguese, or French (above the 200 level) or an indigenous language spoken in Latin America; and complete 12 credit hours of approved courses across at least three of the following disciplines: anthropology, Hispanic studies, history, Latin American studies, linguistics, geography, political science, sociology, and writing, rhetoric and digital studies. All courses need to have at least 75 percent Latin American, Caribbean or Latino content. Other courses, including independent studies and education abroad courses, may be counted with the approval from the LACLAS Director.

List of approved courses usually taught by affiliate faculty:

ANT 320 Andean Civilization .....	3
ANT 322 Ancient Mexican Civilizations .....	3
ANT 324 Contemporary Latin American Cultures .....	3
ANG 328 The Ancient Maya .....	3
GEO 324 Geography of Central and South America and the Caribbean .....	3
HIS 206 History of Colonial Latin America, 1492 to 1810 .....	3
HIS 207 History of Modern Latin America, 1810 to Present .....	3
HIS 208 History of the Atlantic World .....	3
HIS 562 Modern Mexico .....	3
HIS 563 The History of Women in Latin America .....	3
HIS 564 History of Brazil .....	3
LAS 395 Independent Work in Latin American Studies .....	3
PS 428G Latin American Government and Politics .....	3
PS 538 Conflict and Cooperation in Latin American Relations .....	3
*SOC 350 Topics in Sociology (Subtitle required) .....	3
SOC 432 Race and Ethnic Relations .....	3
SPA 314 Civilization of Spanish America .....	3
SPA 322 Literature, Life and Thought of Spanish America .....	3
SPA 332 Spanish and Latin American Business Environments .....	3
SPA 438G Literature of Social Protest in Spanish America .....	3
*SPA 474 Topics in Hispanic Studies (Subtitle required) .....	3

\*Course subtitle must focus on Latin American, Caribbean and/or Latino studies.

For more information, consult the Director of Latin American Studies.

<http://lacls.as.uky.edu/>

## World Religions

The minor in World Religions offers an expansive orientation to the diversity of human religious phenomena and the place these have in a complex, global society and its intellectual traditions. The minor requires a minimum of 18 credits as follows:

### Required

ANT 335 Religion in Everyday Life .....	3
---	---

Complete 15 credit hours from at least three different areas from the list provided. 9 of the 15 credit hours must be at the 300- level or above and 6 of the 15 credit hours must be from a prefix outside of their major. Students must take course work from at least two different prefixes. A course used to satisfy one area may not be used to satisfy another area in the minor.

### Area 1: Judaism

HJS 110 Introduction to the Old Testament/ Hebrew Bible .....	3
HIS 323 The Holocaust .....	3
HJS 324 Jewish Thought and Culture I: From Ancient Israel to the Middle Ages .....	3
HJS 325 Jewish Thought and Culture II: From the Expulsion from Spain to the Present .....	3
HJS 326 The Jewish Experience in America .....	3
HJS 327 Women in Judaism .....	3
CLA/HIS 390 Backgrounds to and Early History of Christianity to 150 CE .....	3
ENG 271 The Bible as Literature .....	3
HIS 191 A History of World Religions (Subtitle required) .....	3
PHI 504 Islamic and Jewish Philosophy and the Classical Tradition .....	3

### Area 2: Christianity

CLA 190 Introduction to the New Testament .....	3
CLA 191 Christianity, Culture, and Society: A Historical Introduction .....	3
CLA/HIS 391 Christians in the Roman Empire .....	3
HIS 330 A History of Western Religious Thought .....	3
HIS 512 Carolingian Empire .....	3
HIS 513 Medieval Institutions Since the Mid-10th Century .....	3
HIS 520 The Era of the Reformation .....	3
HIS 546 The Byzantine Empire .....	3
CLA/HIS 390 Backgrounds to and Early History of Christianity to 150 CE .....	3
ENG 271 The Bible as Literature .....	3
HIS 191 A History of World Religions (Subtitle required) .....	3
PHI 504 Islamic and Jewish Philosophy and the Classical Tradition .....	3

### Area 3: Islam

AIS 228 Islamic Civilization .....	3
AIS 330 Islamic Civilization II .....	3
AIS 338 Women and Islam .....	3
AIS 340 Fundamentalism and Reform in Islam .....	3
AIS 345 Islamic Mysticism .....	3
AIS 410 Theology and Law in Islam .....	3
AIS 430 Islam in America .....	3
AIS 440 Introduction to the Quran .....	3
HIS 191 A History of World Religions (Subtitle required) .....	3
PHI 504 Islamic and Jewish Philosophy and the Classical Tradition .....	3

### Area 4: Central and East Asian Religion

ANT 327 Culture and Societies of India and South Asia .....	3
--	---

CHI 345 Introduction to Early Chinese Thought ..... 3  
 CHI 450 Daoism ..... 3  
 PHI 343 Asian Philosophy ..... 3  
 HIS 191 A History of World Religions  
 (Subtitle required) ..... 3  
 PHI 504 Islamic and Jewish Philosophy  
 and the Classical Tradition ..... 3

**Area 5: Ancient, Folk, and Indigenous Religion**

CLA 135 Greek and Roman Mythology ..... 3  
 CLA 382 Greek and Roman Religion ..... 3  
 GER 363 Germanic Mythology ..... 3  
 RUS 370 Russian Folklore (in English) ..... 3

**Area 6: Methodology and Comparative Studies**

ANT 130 Introduction to Comparative Religion ..... 3  
 ANT 450 Symbols and Culture ..... 3  
 PHI 245 Introduction to Philosophy of Religion ..... 3  
 PHI 545 Philosophy of Religion ..... 3

For individual students and on a case-by-case basis, other courses which a student has taken may be counted toward the minor, upon request of the student and provided the content of the course is deemed sufficiently relevant by the adviser for the minor.

**UNDERGRADUATE CERTIFICATES**

The University of Kentucky grants the following undergraduate certificates in the College of Arts and Sciences:

- Appalachian Studies
- Global Studies
- International Film Studies
- Peace Studies
- Sexuality Studies
- Social Sciences Research

**Undergraduate Certificate in Appalachian Studies**

Students in any college may earn the Undergraduate Certificate in Appalachian Studies. The certificate is interdisciplinary (requiring course work in at least two colleges) and combines critical analysis with experiential education in the Appalachian region. The course work and practicum are tailored for each student in consultation with the program director to make the interdisciplinary certificate relevant to the student’s major, interests, and career plans.

A student planning a health science career might choose a practicum with the UK Center for Excellence in Rural Health in Hazard, Ky., for example, and a student interested in sustainable agriculture or elementary education might do a practicum with Green Forests Work, a reforestation and public education program in central Appalachia. The Appalachian Studies faculty spans ten colleges at UK and there are diverse courses available each semester to students enrolled in the certificate program.

The 12-hour certificate program focuses on understanding the Appalachian region, particularly Appalachian Kentucky, in historical, social/cultural, physical, and comparative context. All

students must: **1)** complete APP 200, Introduction to Appalachian Studies (which also satisfies the UK Core requirement in U.S. citizenship); **2)** to satisfy an Appalachian engagement requirement (either through APP 399, the Appalachian Studies practicum course, or a relevant internship, service-learning course, or practicum in another program); and **3)** to complete a capstone project either through APP 399, the Appalachian Studies Practicum, or a course approved as the capstone experience by the Appalachian Studies Program Director.

Remaining courses may be chosen from the Appalachia-related course listings publicized on the Appalachian Studies website each term, or a student may propose additional courses with a rationale accepted by the Appalachian Studies Program Director. **Course work for the undergraduate certificate must be taken from within at least two colleges at UK.** This requirement is a significant offering of this certificate program, given the Appalachian Center and Appalachian Studies Program’s service to the entire university community. The purpose of the requirement is to encourage students to explore curricular possibilities outside the college in which their major is administratively housed, in a program of study truly committed to interdisciplinary perspectives.

**Appalachian Studies Curriculum**

The Certificate in Appalachian Studies curricula are as follows:

- A minimum of 12 credits of course work taken for a letter grade.
- At least 12 credits must be 200 level or above, and a minimum of 6 credits must be at the 300-level or above.
- The student must complete a 3-credit breadth component. The breadth component requires that a student take courses in at least two colleges, with a minimum of three credits to be completed in a discipline other than the student’s major.
- Student must earn a C or better in each required certificate course to receive the certificate.
- Certificates will only be awarded to students who successfully complete a degree, or have completed a four-year degree.
- No more than 9 credits taken for a certificate can be used to satisfy the requirements for the student’s bachelor’s degree, a minor, or another certificate, exclusive of free or unrestricted electives.

**Examples of Programs of Study**

Here are three examples of programs of study for students successfully completing the Appalachian Studies undergraduate certificate:

APP 200 Introduction to Appalachian Studies ..... 3  
 APP 399 Practicum ..... 1-6  
 JOU 485 Community Journalism ..... 3

CLD 340 Community Interaction ..... 3  
 This student could satisfy the engagement requirement through APP 399 at UK’s Robinson Center for Appalachian Resource Sustainability in Breathitt County on youth agricultural entrepreneurship, and satisfy the capstone requirement through a paper for Community Interaction on participatory evaluation of a proposed economic development project in Appalachia.

APP 200 Introduction to Appalachian Studies ..... 3  
 MUS 301 Appalachian Music ..... 3  
 \*ENG 450G Studies in American Literature  
 (Subtitle required) ..... 3  
 APP 399 Practicum ..... 1-6  
 \*ENG 450G subtitle must focus on some aspect of Appalachian literature.

This student could satisfy the engagement requirement and the capstone experience together by creating and implementing a program on the multicultural history of the banjo for students at a 4-H camp in the Appalachian region.

APP 200 Introduction to Appalachian Studies ..... 3  
 EES 385 Hydrology and Water Resources ..... 3  
 FOR 460 Forest Hydrology  
 and Watershed Management ..... 3  
 APP 399 Practicum ..... 1-6

This student could satisfy the engagement requirement by serving as an Appalachian Center intern for the KY Riverkeeper, helping to create a waterways trail, and satisfy the capstone experience requirement through drafting a management plan for a forest in the Appalachian region.

For more information, contact: Appalachian Studies Associate Director, Kathryn Engle, [kathryn.enge@uky.edu](mailto:kathryn.enge@uky.edu); Room 204, 624 Maxwellton Court, 0347; 859-257-6882.

[appalachiancenter.as.uky.edu](http://appalachiancenter.as.uky.edu)

**Undergraduate Certificate in Global Studies**

The Certificate in Global Studies is designed to show collaboration across all the undergraduate colleges in creating a focus for students’ scholarly work in international settings. Successful completers of this interdisciplinary Certificate have demonstrated their preparedness to live and work in a global community. There are four components: globally focused course work, second language course work, credit-bearing education abroad experience, and co-curricular programming.

**Faculty Director:** Dr. Julie Human, Department of Modern and Classical Languages, Literatures and Cultures.

Details and requirements for the Global Studies Certificate are listed below.

The Certificate of Global Studies will allow students to demonstrate their preparedness to live and work in a global community. By taking a series of courses with an international focus that amplifies the global dimension of their majors, by engaging in a credit-bearing education abroad experience, by enhancing their experience with a second language, and by participating in internationally-focused co-curricular activities, students

will expand their view of the world and their place in it, and their perspectives on their own societies at home.

As the workplace seeks employees who can work in international or multicultural teams, and as participation in U.S. society increasingly demands the skills of global citizenship, students will benefit from an additional degree credential, alongside their major(s) and/or minor(s), that demonstrates their dedication to and experience with global perspectives. Having this Certificate on the transcript will also show that the students are interested in the international facets of their academic and/or pre-professional training, which will be attractive to potential graduate programs or employers.

The structure of the Certificate of Global Studies offers an academic credential as well as a coherently planned academic core, for students who otherwise might simply take a smattering of international courses or participate in some type of isolated international experience. At the heart of the Certificate is the required Education Abroad experience (study abroad, internship, research abroad), but the Certificate's structure is designed to make that experience integral to the undergraduate program of study. A coherent program in which the time abroad is both preceded and followed by appropriate opportunities for reflection, and bolstered by rigorous academic course work, will enhance the impact of the international experience. Research has demonstrated that one advantage of education abroad is that, when appropriately designed, it can move students from dependent to independent learners, and can help them to acquire interpersonal and intercultural competence.

This Certificate facilitates development of both objective and subjective intercultural experience. It will appeal to a wide range of students. It is intended to encourage study abroad and cross-cultural experiences, and facilitate and credential that experience. Students in semester-long study abroad experiences as well as those students undertaking international programs during an 8-week summer period, a 4-week term abroad, or even a 1- or 2-week "study tour" will benefit by study *in situ*. The Undergraduate Certificate in Global Studies offers a curriculum and co-curriculum to bolster the learning that takes place abroad.

In the Certificate curriculum, the skills that are acquired during the student's experience abroad is reinforced by course work that situates that experience in both academic and preprofessional growth, beyond that which is in the major or minor course of study. If the course work takes place before the program abroad, the student will be more receptive to the experience, better prepared to cope with cultural difference, and more educated about socio-historical contexts. If the course work takes place after the student's return, it offers opportunities for reflection and enrichment of the lessons learned abroad. In either case, the

experiential learning in the international context goes hand-in-hand with course work that has an intercultural and global focus. The Certificate curriculum is designed to be feasible across the array of UK academic majors. If the student already has selected a major with an international focus, the Certificate's additional course work and required component abroad will extend and deepen that curriculum. And if the student has a major that does not have a visible and discrete international focus, the Certificate structure offers the student a context within which to understand the major from an international perspective.

#### Global Studies Curriculum

The Certificate of Global Studies curricula are as follows:

- A minimum of 12 credits of course work taken for a letter grade.
- At least 12 credits must be 200 level or above, and a minimum of 6 credits must be at the 300-level or above.
- The student must complete a three-credit breadth component. The breadth component requires that a student take courses in at least two disciplines, with a minimum of three credits to be completed in a second discipline.
- Student must earn a C or better in each required certificate course to receive the certificate.
- Certificates will only be awarded to students who successfully complete a degree, or have completed a four-year degree.
- No more than nine credits taken for a certificate can be used to satisfy the requirements for the student's bachelor's degree, a minor, or another certificate, exclusive of free or unrestricted electives.

The Undergraduate Certificate in Global Studies has four interlocking components: 1) globally focused course work, 2) second language course work, 3) credit-bearing education abroad component, and 4) co-curricular programming.

#### Globally Focused Course Work

Students must enroll in 12 hours of globally focused course work at the 200 level or above, in conformance with UK requirements for undergraduate certificates. As noted above at least 12 credits must be 200 level or above, and a minimum of 6 credits must be at the 300-level or above. "Globally focused course work" is satisfied as follows:

- Any course that has been deemed as appropriate for the A&S International Studies major/minor, at the 200+ level; this compendium of courses from across the university currently numbers over 230 courses.

- Any course within the UK Core category of Global Dynamics, at the 200+ level.
- Any courses taken abroad as part of the education abroad component.
- Other courses can be considered, by petition to the faculty Director, if they are deemed to meet the learning outcomes of the Global Dynamics or International Studies course categories.

#### Second Language Course Work

For an academic credential that certifies a student as a global scholar, experience with a second language is required at a level beyond that required for all undergraduates. Language ability enriches the international experience; further, because language courses incorporate significant cultural materials and exercise analytical facilities, they provide the tools for expanded student awareness and interaction within the international experience. Students may satisfy this requirement in one of two ways:

- Complete the third semester of a language sequence (e.g., level 201), or the proficiency equivalent thereof;
- Complete the first-semester level or above, or demonstrate the proficiency equivalent thereof, or a language not previously studied in high school.

#### Credit-Bearing Education Abroad

Students will participate in an education abroad experience that involves at least one academic credit hour. Internationally oriented experiences undertaken within the U.S. will not satisfy this requirement; students must travel to a non-U.S. region to fulfill the requirement. Examples might include, but are not limited to:

- Education abroad programs facilitated by UK faculty or select customized programs offered in conjunction with Education Abroad at UK;
- University-wide or departmental education abroad exchange programs;
- Education abroad programs facilitated through UK consortia;
- Education abroad programs hosted by international institutions in which UK students are directly enrolled; and
- Education Abroad programs facilitated by third-party providers and other internship/service-learning based programs.

#### Co-Curricular Programming

Successful completers of the Certificate of Global Studies will have participated in at least two approved co-curricular activities with an international focus after returning to the U.S. from education abroad. These co-curricula activities may include lectures, performances, workshops, volunteer work, or conferences. Some of

the qualifying events are listed on the Global Studies web site: [www.as.uky.edu/gs-international-activities-us](http://www.as.uky.edu/gs-international-activities-us); or students may hear of others from professors, friends, and organizations located both on and off campus. To find out if an activity can be used for this requirement, contact the Certificate of Global Studies Director.

After the Director has approved an activity as the co-curricular event, students will write a reflective essay placing their responses within the context of the other experiences gained while earning the Certificate of Global Studies (including education abroad, language learning, and coursework). Note: Descriptions of courses, study abroad, and language acquisition in your essay will be compared to those recorded on your transcript.

When both of the essays have been reviewed and accepted as complete by the Certificate of Global Studies Director, the Director will submit this information along with a list of other required components that you have completed to a staff member who will update MyUK to reflect completion of the certificate.

### Undergraduate Certificate in International Film Studies

Cinema, sometimes referred to as the seventh art, was one of the great contributions to twentieth-century world culture. It will continue to be no less important in the twenty-first century and beyond where it continues to be transformed by its contact with even more recent technologies such as digital media and evolving entertainment and artistic platforms such as the internet and social media.

The certificate in International Film Studies is an interdisciplinary program that allows students to bring the knowledge they have gathered in their home departments to bear on their work in film studies. The certificate in International Film Studies emphasizes, in a comparative global context, how the language and history of film intersect with closely related movements in other artistic media, in philosophy and history, and in different cultural traditions.

The certificate in International Film Studies has three goals: 1) to introduce students to the history and theoretical vocabulary of cinema; 2) to provide a comparative approach through which students may reflect upon the nature and problematic concept of national film styles and their relation to each other in a globalized world; 3) to foster expertise in film analysis and its expression.

Upon completion of the Undergraduate Certificate in International Film Studies, students will be able to:

1. analyze the formal and technical aspects of film language and style;
2. recognize and define the primary aesthetic movements of world cinema, and situate them in social and historical context;

3. develop a critical language appropriate to the analysis of film;
4. communicate their analyses effectively in written and spoken form.

#### Admission Requirements

Students will be required to have accumulated at least 30 hours of course credit and have a cumulative GPA of at least 3.0.

The Undergraduate Certificate in International Film Studies is organized around three conceptual and methodological elements:

#### I. Introduction to Film Studies

Each student is required to take one film class designated as an introduction to Film Studies (see “Curriculum” list, below). This course will not only introduce students to the history of film, but to the technical vocabulary of film study, from basic principles of mise-en-scène, cinematography, editing, and sound to more theoretical questions of narrative, authorship, and formal design, as well as broader considerations concerning the nature of the image and visual language.

This component of the International Film Studies certificate also introduces students to the appropriate techniques of film analysis and strategies of analytical expression.

#### II. Comparative International Film

Students will be required to take Film Studies courses from several national film traditions (see below) and to explore cinema as an international art form. Students will examine the earliest days of filmmaking in the late nineteenth century when the language of film was basically uniform, the national film styles that began to emerge during and after World War I, as well as the new internationalization of film today that more explicitly puts, for example, Chinese and American film languages in dialogue with each other.

#### III. Certificate Capstone Project

In the final Film Studies course that a student takes and plans to count as part of the International Film Studies Certificate, the student will complete a research paper under the guidance of the faculty member teaching the course (see “Certificate Capstone Project” in Curriculum, 3. Capstone Course, below). Students must enroll, concurrently, in one (1) hour of MCL 592 Research Practicum (Film Studies Capstone).

#### Program

**NOTE:** Students may only take courses listed in the curriculum below one time. If a student takes a course in area no. 1 (Introduction to Film Studies), for example, that student may not repeat that course in area no. 2 (Comparative International Film).

The Undergraduate Certificate in International Film Studies requires sixteen (16) hours of course work in Film Studies.

- 3 hours may be, but are not required to be, at the 100 level
- 6 hours must be at the 300 level or above

#### Introduction to Film Studies

Choose one of the following for 3 hours:

ENG 280 Introduction to Film .....	3
FR 103 French Cinema .....	3
GER 305 German Film Today .....	3
JPN 283 Japanese Film .....	3

#### Comparative International Film

Choose three of the following for 9 hours. The three courses must come from three separate national film traditions:

CHI 321 Introduction to Contemporary Chinese Film .....	3
CLA 100 Ancient Stories in Modern Films .....	3
ENG 180 Great Movies (Subtitle required) .....	3
ENG 280 Introduction to Film .....	3
ENG 284 History of Film I .....	3
ENG 285 History of Film II .....	3
ENG 380 Film and Genre (Subtitle required) .....	3
ENG 384 Literature and Film .....	3
ENG 480G Studies in Film (Subtitle required) .....	3
FR 103 French Cinema .....	3
FR 225 French Film Noir .....	3
*FR 325 French Cinema (Subtitle required) .....	3
FR 335 War, Literature, Film .....	3
GER 305 German Film Today .....	3
GER 361 German Cinema .....	3
JPN 283 Japanese Film .....	3
PHI 393 Philosophy of Film .....	3
RUS 275 Russian Film .....	3
RUS 535 Russian Visual Studies (Subtitle required) .....	3
SPA 371 Latin American Cinema (Subtitle required) .....	3
SPA 372 Spanish Cinema (Subtitle required) .....	3
SPA 529 Themes in Modern and Contemporary Spanish Literature, Culture and Film (Subtitle required) .....	3
SPA 539 Themes in Latin American Literature, Culture and Film (Subtitle required) .....	3
WRD 311 History of Documentary .....	3
WRD 312 Introduction to Documentary .....	3
WRD 412G Advanced Documentary Production .....	3

#### Certificate Capstone Project

Choose one Capstone course for 3 hours:

CHI 321 Introduction to Contemporary Chinese Film .....	3
ENG 380 Film and Genre (Subtitle required) .....	3
ENG 384 Literature and Film .....	3
ENG 480G Studies in Film (Subtitle required) .....	3
*FR 325 French Cinema (Subtitle required) .....	3
FR 335 War, Literature, Film .....	3
GER 361 German Cinema .....	3
PHI 393 Philosophy of Film .....	3
RUS 535 Russian Visual Studies (Subtitle required) .....	3
SPA 371 Latin American Cinema (Subtitle required) .....	3
SPA 372 Spanish Cinema (Subtitle required) .....	3
**SPA 529 Themes in Modern and Contemporary Spanish Literature, Culture and Film (Subtitle required) .....	3
SPA 539 Themes in Latin American Literature, Culture and Film (Subtitle required) .....	3
WRD 311 History of Documentary .....	3
WRD 312 Introduction to Documentary .....	3
WRD 412G Advanced Documentary Production .....	3

\*Taught in French.

\*\*May be taken only when the course topic pertains to film.

#### Practicum

MCL 592 Research Practicum (Subtitle required) .....	1
--	---

**Total hours required** ..... 16

## Undergraduate Certificate in Peace Studies

The purpose of the Peace Studies program is to develop students with increased interests and understanding of issues of peace and justice from individual to global levels; to provide them with basic skills in peaceful communication, nonviolent and transformative conflict resolution; and to help them develop peaceful and cooperative cultures. The Peace Studies program will empower students to understand and reduce conflict at multiple levels, and will provide them with conflict resolution skills that are increasingly valued by employers, graduate programs, and are much needed in our communities.

A Peace Studies certificate offers a valuable credential and an appealing focus for students in many disciplines. While UK offers a plethora of courses relevant to Peace Studies, this is the single program that brings these elements into a coherent peacemaking focus. Because Peace Studies is inherently interdisciplinary, it can create an important context that may be missed when courses are completed within the framework of a single discipline. Students in Peace Studies will be better prepared to take advantage of co-curricular opportunities at UK. Many avenues also exist for fruitful synergy between the Peace Studies program and a student's major and minor fields.

### Program Requirements

The Peace Studies certificate is designed to be easily combined with a broad array of majors and minors across UK's colleges and departments, and will increase a student's credit hours needed for graduation only under rare circumstances. The Peace Studies program requires 12 credit hours. Six of the 12 required hours come from Peace Studies courses. These include the 'portal' course, PCE 201, which introduces students to Peace Studies, and the capstone course, PCE 410, which concludes the program.

### Peace Studies Courses

*PCE 201 Introduction to Peace Studies .....	3
**PCE 410 Peace Studies Capstone Seminar .....	3
<i>*Meets UK Core requirement for Inquiry in the Social Sciences</i>	
<i>**Meets UK Core requirement for Citizenship-Global Dynamics</i>	

### Peace Studies Electives

Peace Studies electives are selected from existing courses in the University catalog and reflect both different departments and colleges. They are grouped into four Focus Areas:

**Focus Area I: Peacebuilding** ..... 0-6  
Addresses systems and infrastructure needed to create more peaceful societies.

**Focus Area II: Peacemaking** ..... 0-6  
Addresses leadership skills, skills for resolving and transforming conflict.

**Focus Area III: Promoting Understanding, Cooperation, and Development** ..... 0-6  
Addresses cross cultural issues, international organizations, economic and social development.

**Focus Area IV: Addressing Global and Regional Pressures** ..... 0-6  
Addresses problems of population, scarcity, trade, sustainability, ecosystems, climate, and immigration.

## Undergraduate Certificate in Sexuality Studies

This Certificate in Sexuality Studies allows students to explore human sexuality in a profoundly interdisciplinary way. It encompasses scientific and medical fields as well as humanities and social sciences, and encourages the study of sexuality transhistorically and crossculturally. The goal of offering the certificate is three-fold. 1) To train students for fields in which knowledge of diverse perspectives on sexuality is important – including health-related fields, human resources-related fields, and international scholarship or business. 2) To provide students with an opportunity for transformative exploration of the relationship between sexuality and society. 3) To provide leadership in promoting sexuality education with an intersectional and interdisciplinary approach on the college level that profoundly enhances abstinence-only education offered in public high schools.

At least 8 credit hours must be at the 200 level or above, and a minimum of 6 credit hours must be at the 300 level or above.

### Core Courses (8 credits)

GWS 200 Sex and Power .....	3
KHP 220 Sexuality Education .....	2

Choose **one** from either:

GWS 410 Introduction to Queer Theory .....	3
GWS 506 History of Sexuality in the U.S. ....	3

### Elective courses (6 credits)

Courses on the core list above that are not used to satisfy core requirements may be used to satisfy the elective requirements.

Choose **one** from the following:

ANT 251 Global Health Inequalities .....	3
FAM 253 Human Sexuality: Development, Behavior and Attitudes .....	3
*PSY 563 Advanced Topics in Developmental Psychology: (Subtitle required) .....	3
PGY 401G Human Reproduction, Technology, and Society .....	3
CPH 203 Sexual Health .....	3

Choose **one** from the following:

GWS 250 Social Movements .....	3
GWS 302 Gender Across the World (Subtitle required) .....	3
GWS 300 Topics in Gender and Women's Studies (Subtitle required) .....	3
GWS 301 Crossroads (Subtitle required) .....	3
GWS 309 Health, History, and Human Diversity .....	3
GWS 430 Gender, Power, Violence .....	3

either:

GWS 410 Introduction to Queer Theory .....	3
<b>or</b>	
GWS 506 History of Sexuality in the U.S. ....	3

*\*Subtitle must be related to the field of sexuality studies.*

## Undergraduate Certificate in Social Sciences Research

The Undergraduate Certificate in Social Sciences Research will enhance the educational goals of any University of Kentucky student interested in obtaining research experience in the Social Sciences. The certificate is designed to ensure that students receiving it have mastered basic social science research skills, and have demonstrated their ability to apply those skills in independent undergraduate research. The purpose of this initiative is to encourage and recognize those students who have an interest in developing their scholarly and research pursuits in the Social Sciences, and have an interest in pursuing their scholarship in an advanced degree program or in their chosen career. The certificate provides students with the opportunity to learn a range of basic social science skills and focus their efforts in primary research activities.

### Admissions Criteria

- A minimum second semester freshman;
- 3.0 overall GPA and in good academic standing;
- An application submitted through the Central Advising Office in the College of Arts and Sciences.

### Program

The Undergraduate Certificate in Social Sciences Research requires a minimum of 12 credit hours. All courses for the certificate must be completed with a combined average GPA of 3.2 or better. If a class is only offered as a pass/fail, then a student may include a 'pass' grade in that class. However, 12 credit hours for the certificate must be completed in graded course work. All credit hours must be at 200+ level; 6 of these credits must be at 300+ level. At least one course (3 credit hours) must be from a department other than the student's major; no more than 9 credits may also satisfy requirements for the student's major. The certificate requires that a minimum of 3 credit hours be an independent research project, and that students make a presentation of their research in a public forum (this must be included in the learning contract for the independent research project). Students must successfully complete a Bachelor's degree to earn the certificate.

1. One research design/methods course, chosen from the following:

ANT 302 Ethnographic Methods: Doing Anthropology .....	3
ANT 525 Applied Anthropology .....	3
ANT 541 Archaeological Method and Theory .....	3
ANT 543 Cultural Resource Management .....	3
ANT 585 Field Laboratory in Archeological Research .....	3-6
COM 365 Introduction to Communication Research Methods .....	3
COM 553 Critical Analysis of Communication and Persuasion in Popular Culture .....	3
EDP/EPE/KHP 520 Program Evaluation .....	3

GEO 311 Qualitative Methods in Geography ..... 3  
 GEO 406 Field Studies in Geography  
 (Subtitle required) ..... 3  
 GWS 400 Doing Feminist Research ..... 3  
 LIN/SOC 508 Discourse Analysis ..... 3  
 PS 372 Introduction to Political Analysis ..... 3  
 PSY 215 Experimental Psychology ..... 4  
 SOC 302 Sociological Research Methods ..... 3

2. One quantitative/technical methods course chosen from the following:

AEC 490 Quantitative Methods and Price Analysis ..... 3  
 ECO 391 Economic and Business Statistics ..... 3  
 EPE/EDP/EDC 522 Psychological and Educational  
 Tests and Measurements ..... 3  
 EPE/EDP 557 Gathering, Analyzing,  
 and Using Educational Data ..... 3  
 EPE/EDP 558 Gathering, Analyzing,  
 and Using Educational Data II ..... 3  
 GEO 309 Introduction to GIS ..... 3  
 GEO 310 Data Explorations and Applications  
 in Everyday Life ..... 3  
 GEO 409 Advanced GIS ..... 3  
 PSY 216 Applications of Statistics in Psychology ..... 4  
 SOC 303 Quantitative Sociological Analysis ..... 3  
 STA 296 Statistical Methods and Motivations ..... 3

3. One independent study (or equivalent), chosen from the following. Included as part of this course requirement is the program requirement for a presentation of research in public forum. This requirement will be included in the learning contract for the independent study/research course.

AEC 395 Independent Research in  
 Agricultural Economics ..... 1-3  
 ANT 399 Field Based/Community Based Education  
 in Anthropology ..... 1-15  
 ANT 581 Independent Work in Anthropology ..... 1-4  
 COM 395 Independent Work ..... 1-3  
 ECO 395 Individual Work in Economics ..... 1-6  
 ENS 395 Independent Work ..... 3  
 GEO 499 Senior Research Seminar ..... 3  
 GEO 560 Independent Work in Geography ..... 3  
 GWS 395 Undergraduate Research  
 in Gender and Women's Studies ..... 1-3  
 HSP 499 Health, Society and Populations Capstone  
 (Subtitle required) ..... 3  
 LIN 395 Independent Work ..... 3  
 PS 395 Independent Work ..... 1-6  
 PSY 393 Research in Neuroscience ..... 1-3  
 PSY 394 Research in Psychology ..... 3  
 PSY 395 Independent Work in Psychology ..... 1-12  
 PSY 495 Senior Thesis Seminar ..... 4  
 PSY 496 Senior Thesis Research ..... 4  
 SOC 395 Independent Work ..... 1-3  
 SOC 565 Independent Work ..... 3

4. One 'outside area course', which must be a course from a department other than the student's major, chosen from the courses listed above.

# Gatton College of Business and Economics

*Simon J. Sheather, Ph.D., is Dean of the Gatton College of Business & Economics; Jennifer Siebenthaler, M.S.A., CPA, is Associate Dean for Undergraduate Affairs.*

The College of Business and Economics was established at the University of Kentucky in 1925 as the College of Commerce. The name was changed to College of Business and Economics in 1966. The name was changed again in 1996 to the Gatton College of Business and Economics.

The objective of the instructional programs in the Gatton College of Business and Economics is to prepare the student for a lifelong career in business, government, or research and teaching. The programs are structured to provide each student an opportunity to acquire a background in the basic areas of the arts and sciences, to obtain a broad knowledge of business and economics, and to study in depth one or more fields of special interest.

## Accreditation

The Gatton College of Business and Economics is a member of the AACSB – the Association to Advance Collegiate Schools of Business, which accredits undergraduate programs in accounting, business administration, and economics as well as master’s programs in accounting and business administration. The programs of the college enjoy the Association’s full accreditation.

## Undergraduate Programs in Business and Economics

The University of Kentucky grants the following degrees in the Gatton College of Business and Economics:

- Bachelor of Business Administration
- Bachelor of Science in Accounting
- Bachelor of Science in Business Administration
- Bachelor of Science in Business and Economics

Students pursuing the Bachelor of Business Administration may select from these majors: Finance, Management, and Marketing. In addition to these major choices, students exploring a business degree may select exploratory studies in business until they are ready to declare a major in the Gatton College or until they earn 60 credit hours.

## Undergraduate Certificates in Business and Economics

The University of Kentucky grants the following undergraduate certificates in the Gatton College of Business and Economics:

- Financial Planning
- General Business
- Global Scholars

## ADMISSION POLICY

Admission to the University is sufficient for lower-division admission to the Gatton College of Business and Economics for students with less than a junior standing. However, lower-division admission to the college or any admission to the University does not guarantee upper-division admission to one of the degree programs in the Gatton College of Business and Economics. In general, admission depends upon the qualifications and preparation of the applicants, as well as the availability of the resources for maintaining quality instruction.

Upper-division admission into a degree program is necessary in order to be granted a baccalaureate degree from the Gatton College of Business and Economics. Students who have attained a 3.0 or higher cumulative grade-point average overall and in the premajor component required of all students in the Gatton College of Business and Economics will be assured admission.

Annually the Gatton College of Business and Economics will review the admission requirements and determine the cumulative grade-point average (Annual Admission GPA), if any, that would be acceptable below the 3.0 standard. The Annual Admission GPA (both overall and in the premajor component) will be no lower than 2.5 (see “Appeal Process” below for special circumstances). This GPA will be made available in the Undergraduate Resource Center of the Gatton College of Business and Economics by **October 15** of each year. This GPA will be effective the following **May 1** for any student applying for upper-division admission to the Gatton College of Business and Economics, regardless of the time of his/her enrollment in the University.

To be considered for upper-division admission to any of the undergraduate degree programs offered by the Gatton College of Business and Economics, an applicant must fulfill the following requirements:

1. Enrollment in the University of Kentucky. (Students are considered for acceptance by the college only after acceptance by the University of Kentucky.);
2. A minimum cumulative grade-point average of 3.0 or the current Annual Admission GPA, whichever is lower;
3. Completion of the premajor component required of all students within the Gatton College of Business and Economics with a minimum grade-point average of 3.0 or the minimum current Annual Admission GPA, whichever is lower. (The courses meeting the premajor requirements are listed under “Graduation Requirements” below.);
4. Submission of an application form to the Gatton College of Business and Economics. The application is available on the web at: [mygatton.uky.edu/](http://mygatton.uky.edu/).

Applications from students outside the University of Kentucky seeking admission to the Gatton College of Business and Economics, whether for upper-division or lower-division status, must be received by the Office of Undergraduate Admission by the approved deadlines. These deadlines are listed on page 20 in the *Undergraduate Admission* section of this Bulletin.

Students enrolled in other UK colleges on campus should apply for admission **prior to** the priority registration period. (The appropriate deadlines are listed in the University calendar for approved times to change major).

Lower-division students enrolled in the Gatton College of Business and Economics should apply for upper-division admission to the college during the semester they are completing the premajor course work. The application for upper-division admission should be made before the priority registration period for the upcoming semester.

Lower-division students in the college who are missing no more than two premajor courses will be permitted to complete these courses simultaneously with enrollment in restricted course work if they are otherwise eligible. Eligibility is determined by attainment of the minimum cumulative and premajor grade-point standings. This privilege will be granted for one semester only.

Students not admitted to an upper-division program in the Gatton College of Business and Economics should be aware that others may be

given preference for enrollment in the restricted upper-division courses offered by the Gatton College of Business and Economics.

Enrollment in restricted Business and Economics courses numbered 300 or above will be limited to:

1. Enrollment in the University of Kentucky.
2. A minimum cumulative grade-point average of 3.0 or the Annual Admission GPA, whichever is lower.
3. Completion of the premajor component with a minimum cumulative grade-point average of 3.0 or the Annual Admission GPA, whichever is lower.
4. Submission of an application.

In the event of capacity limitations, enrollment preference would be made in the above order.

For applicants from non-English speaking countries, see the information on “International Students” in the *Undergraduate Admission* section of this Bulletin.

### Appeal Process

Students with a GPA below the Annual Admission GPA and who have completed all premajor requirements may appeal for admission into the Gatton College of Business and Economics. If the Appeals Committee feels that there is persuasive evidence that personal, academic or professional circumstances have affected a student’s grades and that the student shows promise for successful completion of a degree in the Gatton College of Business and Economics, acceptance may be granted. Information about the appeals process is available in the Undergraduate Resource Center in 144 Gatton College of Business & Economics Building. Students can submit appeals online at [myGatton.uky.edu](http://myGatton.uky.edu).

### Dean’s List

Students who have a term grade-point average of 3.6 or greater will appear on the Dean’s List.

### Probation and Academic Suspension

The following rules apply to students in the Gatton College of Business and Economics.

1. No student with a cumulative GPA of less than 2.0 will be enrolled in the Gatton College of Business and Economics. Any student who fails to maintain a cumulative GPA of 2.0 will be suspended from the Gatton College of Business and Economics and will not be readmitted until this GPA is 2.0 or greater. No probationary notice will be given.
2. Any student enrolled in the Gatton College of Business and Economics who achieves a GPA of less than 2.0 in any semester will be placed on probation.
3. Any student on probation who fails to achieve a 2.0 semester GPA will be dropped from the Gatton College of Business and Eco-

nomics and will not be readmitted until he or she has obtained a semester GPA of 2.0 or greater for one semester and the student’s cumulative GPA is 2.0 or greater.

4. Students who are suspended twice from the Gatton College of Business and Economics will not be readmitted.

### Scholarships

The Gatton College of Business and Economics is proud to offer scholarship opportunities to incoming freshmen, returning students, and international students. The available scholarships may be based on academic performance, financial need, program of study, ethnicity and/or residency. Students are encouraged to apply for Gatton scholarships each academic year. The application, as well as information regarding deadlines and selection process, can be found at: [www.gatton.uky.edu/programs/undergraduate/scholarships-financial-aid](http://www.gatton.uky.edu/programs/undergraduate/scholarships-financial-aid).

## DIVISIONS

### VON ALLMEN SCHOOL OF ACCOUNTANCY

The faculty in the Von Allmen School of Accountancy is committed to providing the best possible educational experience for students. The faculty has both breadth and depth of training and experience in public accounting, industry, government and regulated industries, and previous classroom experience.

### DEPARTMENT OF ECONOMICS

The Department of Economics provides theoretical and applied courses in widely diverse areas including urban problems, labor, monetary economics, international economics, comparative economic systems, and economic history.

### DEPARTMENT OF FINANCE AND QUANTITATIVE METHODS

#### Finance

The Finance major offers a variety of courses, both to students who concentrate their studies in finance and to those who desire additional knowledge in various financial areas. Such areas include financial management, security analysis and portfolio management, capital market theory, banking and institutions, and real estate.

#### Analytics

**NOTE: The Gatton College of Business and Economics has suspended admissions to the B.B.A. in Analytics for the 2019-20 academic year.**

This degree program focuses on Business Analytics, which involves an organization’s integrated use of technological and quantitative methods to process data and gain insights in the course

of making decisions. The objective of Business Analytics is to help an organization reach decisions leading to actions that yield strong performance and sustained competitiveness in the context of today’s turbulent, fast-paced, global business environment. The major covers application areas such as information systems, operations, and supply chain management.

### DEPARTMENT OF MANAGEMENT

The faculty in the Department of Management brings extensive academic and practical experience to the classroom. Course offerings cover an array of management areas such as human resources, organizational behavior, and strategic management policy.

### DEPARTMENT OF MARKETING AND SUPPLY CHAIN

The faculty in the Department of Marketing and Supply Chain has extensive experience in industry and government and includes individuals with interests and training in all areas of marketing. Aspects of marketing such as research, retailing, promotion, personal selling and strategy are covered in marketing course work.

### GRADUATION REQUIREMENTS

All students in the Gatton College of Business and Economics must fulfill the UK Core requirements as outlined in the *UK Core* section of this Bulletin, the premajor requirements, the college core requirements, and major requirements. Additionally, students must fulfill the College requirements listed below.

### College Requirements

To graduate from the Gatton College of Business and Economics, a student must have a total of 120 credit hours (exclusive of lower division military science courses, physical education service courses, remedial courses, and performance-type courses) with a 2.0 grade-point average. Students are required to earn at least 50 percent of their business credit hours required for the business degree at the University of Kentucky. A minimum GPA of 2.00 is required in all courses taken at the University of Kentucky used to satisfy the college core. Additionally, a minimum GPA of 2.00 is required in all courses taken at the University of Kentucky used to satisfy upper division departmental requirements.

Students must complete CIS 300, Strategic Business and Professional Communication (W). CIS 300 fulfills the Graduation Composition and Communication Requirement (GCCR).

Each student’s undergraduate curriculum must include at least 60 earned credit hours of courses outside the Gatton College of Business and Economics. Up to nine credit hours of economics and up to six credit hours of statistics may be counted toward the number of earned credit hours outside the Gatton College of Business and Economics.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

Choose one course from approved list ..... 3

**II. Intellectual Inquiry in the Humanities**

Choose one course from approved list ..... 3

**III. Intellectual Inquiry in the Social Sciences**

Choose one course from approved list ..... 3

*\*\*STA 296 fulfills the UK Core Statistical Inferential Reasoning requirement.*

**College Core Hours**

The college core, a total of 18 credit hours, consists of the following courses:

MKT 300 Marketing Management ..... 3

FIN 300 Corporation Finance ..... 3

MGT 301 Business Management ..... 3

MGT 340 Ethical and Regulatory Environment ..... 3

AN 300 Introduction to Business Analytics ..... 3

ECO 391 Economic and Business Statistics ..... 3

**Subtotal: College Core hours ..... 18**

**Electives**

Each of the degree programs affords the student considerable opportunity and freedom of choice to take elective courses. The number of electives will vary depending on the student and their major. Each student must meet the general minimum hours for graduation. Students pursuing a second degree must have a minimum of 144 hours. Military science (lower division), music performance, and KHP activity courses do not count for electives. A maximum of six hours of

technical courses can be counted for electives. A total of four electives may be taken on a pass/fail basis if they are not being used for any other type of requirement, nor taught through the student's major department(s).

**Policy on Experiential Education**

Gatton College of Business and Economics' faculty work with the Graham Office of Career Management to provide students with the opportunity to intern in a business-related field. The College allows a student to apply toward graduation a maximum of six credit hours (pass/fail option only, maximum of three credit hours in any single semester) of internship credit earned at the University of Kentucky. For further information, visit: [gatton.uky.edu/career](http://gatton.uky.edu/career).

**Advising**

The Undergraduate Resource Center (144 Gatton College of Business and Economics Building) coordinates the academic advising of business students. The staff of the Undergraduate Resource Center can assist with general information, admission decisions, and the applicability of credit toward degree requirements.

**Bachelor of Science in ACCOUNTING**

**MINORS**

**NOTE:** In addition to completing the minor requirements, students must complete at least six hours in each minor with courses that are not counted for any other academic program in the College.

**Minor Residency Requirement**

At least half of all upper division classes used to complete each minor must be earned from the Gatton College.

**Minor in Economics**

	<b>Hours</b>
ECO 201 Principles of Economics I .....	3
ECO 202 Principles of Economics II .....	3
ECO 401 Intermediate Microeconomic Theory .....	3
Three additional economics courses at the 300-level or above .....	9
Students must take at least 6 hours of upper-division classes from the Gatton College (50 percent of the upper-division requirement for a minor).	

**Minor in Business**

**NOTE:** This minor is not available to students pursuing a major in the Gatton College of Business and Economics. **Students should note that some courses in the minor have CS 101 or B&E 105 as a prerequisite. Further, MA 113 (or MA 123) is a prerequisite for STA 296, a preminor requirement. STA 296 is a prerequisite for FIN 300, a minor requirement. Students who choose AN 300 must complete all the business premajor requirements.**

Students wishing to complete a minor in Business must complete the following:

**Preminor Requirements**

ACC 201 Financial Accounting I .....	3
ACC 202 Managerial Uses of Accounting Information .....	3
ECO 201 Principles of Economics I .....	3
ECO 202 Principles of Economics II .....	3
STA 296 Statistical Methods and Motivations .....	3

Students must complete the preminor requirements prior to taking any course in the minor requirements.

**Minor Requirements**

AN 320 Business Computing Systems	
or	
AN 300 Introduction to Business Analytics .....	3
FIN 300 Corporation Finance .....	3
MGT 301 Business Management .....	3
MKT 300 Marketing Management .....	3

Students must take at least 6 hours of upper-division classes from the Gatton College (50 percent of the upper-division requirement for a minor).

**Minor in Business Analytics**

To be admitted to the minor in Business Analytics, students must complete the college premajor requirements and be admitted to Upper Division in Business & Economics or have the consent of the Department of Finance and Quantitative Methods. Students must complete course prerequisites to enroll in required courses.

To earn the minor in Business Analytics, complete 18 hours of course work as follows:

**Required Courses**

AN 300 Introduction to Business Analytics .....	3
AN 306 Business Intelligence and Data Visualization .....	3
AN 324 Business Data Management .....	3
AN 420G Business Data Mining .....	3
AN 450G Business Analytics Strategy and Applications .....	3
plus <b>one</b> course from the following:	
ACC 555 Forensic Accounting and Fraud Examination .....	3
*ACC 590 Special Topics in Accounting (Subtitle required) .....	3
ECO 430G Cost Benefit Analysis .....	3
ECO 463 Analysis of Business Conditions .....	3
ECO 491G Applied Econometrics .....	3
FIN 430 Financial Modeling .....	3
*MGT 390 Special Topics in Management (Subtitle required) .....	3
†MGT 780 Advanced Social Network Analysis .....	3
MKT 325 Digital Marketing Strategy Evaluation .....	3

*\*Use of a specific subtitle must be approved by the director of the minor.*

*†For Undergraduate Seniors with permission of instructor.*

Students must take at least 9 hours of upper-division classes from the Gatton College (50 percent of the upper-division requirement for a minor).

**Minor in International Business**

To earn the minor in International Business, complete the following:

**Prerequisite**

Complete the College premajor with a grade-point standing meeting the Annual Admission GPA, plus

FIN 300 Corporation Finance .....	3
MKT 300 Marketing Management .....	3

**Course Component**

Complete 15 hours of course work, including:

MGT 309 Introduction to International Business .....	3
ECO 370 The Global Economy	
or	
*AEC/ECO 471 International Trade .....	3
MKT 435 International Marketing .....	3

*\*ECO 401 is a prerequisite for AEC/ECO 471.*

plus two of the following: 1) FIN 423 International Finance\*\*; 2) a UK Core Global Citizenship course at the 200 level and above that is not used to satisfy UK Core requirements; 3) at least 3 credit hours earned through an education abroad experience; or 4) 6 hours of college-level foreign language.

Students must take at least 9 hours of upper-division classes from the Gatton College (50 percent of the upper-division requirement for a minor).

*\*\*FIN 405 is a prerequisite for FIN 423.*

**Undergraduate Certificate in Financial Planning**

The online Undergraduate Certificate in Financial Planning, offered by the Von Allmen School of Accountancy and the Department of Finance and Quantitative Methods, is a first step in preparation for a career as a financial planning professional. The certificate is open to students of any major and non-degree seeking students, including current CPAs or other working professionals, in an online format to allow work and lifestyle flexibility. The course work will provide students a broad range of knowledge in personal financial planning, including insurance and income tax planning, retirement and estate planning, and investment strategies.

**Academic Curriculum**

The Certificate in Financial Planning requires 18 credit hours as follows. Students must earn a C or better in each required certificate course to receive the certificate.

ACC 356 Principles for the Financial Planner .....	3
ACC 357 Tax Planning for the Professional Financial Planner .....	3
FIN 357 Investment Planning .....	3
FIN 358 Risk, Insurance and Retirement Planning .....	3
ACC 457 Estate Planning .....	3
FIN 359 Financial Plan Development (Capstone) .....	3

## Undergraduate Certificate in General Business

**NOTE:** This certificate is not available to students pursuing a major in the Gatton College of Business and Economics. **Students pursuing this certificate must complete the designated online sections of the required courses.**

The online Undergraduate Certificate in General Business is designed to provide students with a foundation in the major disciplines of business through an introduction to the essential aspects of business administration, accounting, economics, management, marketing, and finance. The course work will provide students with a skill set that is complementary to any discipline, allowing them to make sound personal financial decisions as well as better understand the operations of the organizations in which they will eventually work. The certificate is open to non-Gatton students of any major and non-degree seeking students. The General Business Certificate is not available to students pursuing a major in the Gatton College of Business and Economics.

### Academic Curriculum

The online Certificate in General Business requires 15 credit hours as follows. Students must earn a C or better in each required certificate course to receive the certificate.

B&E 201 Introduction to Business .....	3
ACC 221 Accounting Fundamentals .....	3
FIN 250 Personal Investing and Financial Planning .....	3
MGT 301 Business Management .....	3
MKT 300 Marketing Management .....	3

## Undergraduate Certificate in Global Scholars

The Global Scholars Program is a four-year honors program for high-achieving, highly-motivated business students who have a passion for leadership and international business. Every Global Scholar will study abroad for at least one semester and complete a Minor in International Business.

The Program's mission is to develop perceptive business professionals well-equipped to confront challenges of a global environment through specialized curriculum and co-curricular activities designed to enhance any Gatton major. Through successful completion of the Program, students should accomplish the following goals:

- Develop an appreciation of a global business perspective
- Develop the ability to communicate and work effectively in diverse teams
- Gain knowledge and exposure to international business practices and environments
- Galvanize leadership and professional skills through scholastic rigor and community engagement

In pursuit of these goals, the Global Scholars Program values:

- Academic excellence
- Self-discovery and creativity
- Professionalism
- Teamwork
- Diversity of opinion, ethnicity, culture, and experience

For more information about the Global Scholars program, visit: <http://gatton.uky.edu/globalscholars>.

### Academic Curriculum

Global Scholars cohorted classes are required. Global Scholars students should schedule other course work and extracurricular activities around these required classes.

#### Freshman Year

Fall Semester	Hours
UK 101 Academic Orientation .....	1
B&E 120 Leadership in the Global Marketplace .....	3

#### Spring Semester

B&E 122 The Challenge of Leadership .....	1
ECO 201 Principles of Economics I .....	3
ACC 201 Financial Accounting I .....	3

#### Sophomore Year

Fall Semester	Hours
ACC 202 Managerial Uses of Accounting Information .....	3
ECO 202 Principles of Economics II .....	3
B&E 240 Inter-Cultural Business Communication .....	3

#### Spring Semester

B&E 327 Larger World Issues in Business .....	3
---	---

#### Education Abroad Semester

EAP 599 Study Abroad .....	1
----------------------------	---

#### Junior Year

<i>Most Global Scholars study abroad during the junior year: Business or Economics class taken abroad at the 200-level or above .....</i>	<i>3</i>
---	----------

#### Senior Year

Spring Semester	Hours
MGT 499 Strategic Management .....	3
<b>Total hours .....</b>	<b>18†</b>

†\*The accounting and economics classes are not counted in the total because they are College-wide requirements.

#### Additional hours are required for the International Business Minor:

MGT 309 Introduction to International Business .....	3
ECO 471 International Trade	
or	
ECO 370 The Global Economy .....	3
FIN 423 International Finance .....	3
MKT 435 International Marketing .....	3

**Total additional International Business Minor hours .....** 12

### Academic Standards

Global Scholars students are held to higher standards. Students earning a 3.4 UK cumulative grade-point average (GPA) are in good academic standing within the Global Scholars Program. Students earning less than the expected 3.4 cumulative GPA are still in good academic standing if they meet the minimum standards outlined below:

### GPA Requirements

- End of First Year: 3.0 cumulative UK GPA
- End of Second Year: 3.2 cumulative UK GPA
- End of Third Year through Graduation: 3.4 cumulative UK GPA

Students who earn less than a 3.0 term GPA during their first semester will automatically be placed on probation. Sophomores and Juniors can also be placed on probation if their term and/or cumulative GPA is below the minimum standard and are not demonstrating progress towards the 3.4 cumulative UK GPA.

Global Scholar students must also meet the general academic standards of Gatton College. All standards of the University of Kentucky, such as academic honesty and integrity, must also be upheld. Should a student fail to meet any of these standards, this may warrant immediate expulsion from the Global Scholars Program. In some cases, the student in question may be eligible for Global Scholars Program probation.

## GRADUATE PROGRAMS

The Gatton College of Business and Economics offers the following graduate degrees through the Graduate School at UK: (1) Master of Science in Accounting, (2) Master of Business Administration, (3) Ph.D. in Business Administration, (4) Master of Science in Economics, (5) Ph.D. in Economics, and (6) Master of Science in Finance. Additional information may be obtained from the Associate Dean for Faculty, Research, and Administration, Gatton College of Business and Economics, and from *The Graduate School Bulletin*.

# College of Communication and Information

*Jennifer D. Greer, Ph.D., is Dean of the College of Communication and Information.*

The College of Communication and Information consists of the Department of Communication, the Department of Integrated Strategic Communication, the School of Journalism and Media, and the School of Information Science. The Department of Communication educates its students in interpersonal, small group, mass, health and organizational communication, and communication theory and research. Graduates pursue a variety of career paths in areas such as business and organizational communication, digital and mass communication, health communication, human communication, and sport communication. The Department of Integrated Strategic Communication prepares students for careers as professionals in the allied areas of advertising, public relations, and direct response communication. The journalism area within the School of Journalism and Media educates its students for professional careers in the media as writers, reporters, producers, editors, and broadcasters. The media arts and studies area within the School of Journalism and Media educates its students in telecommunications technology, management, programming, research, audio-video production, and the societal consequences of electronic media. The School of Information Science provides students with the basic knowledge and skills required to function effectively in beginning professional positions in various types of libraries and information-providing agencies.

## Accreditation

Journalism majors in the School of Journalism and Media have national accreditation from the Accrediting Council on Education in Journalism and Mass Communications (ACEJMC).

## Undergraduate Programs in Communication and Information

The University of Kentucky grants the following degrees in the College of Communication and Information:

- Bachelor of Arts
- Bachelor of Science

Students pursuing either the Bachelor of Arts or the Bachelor of Science select from these majors: communication, information communication technology, integrated strategic communication, journalism, and media arts and studies. Students may also select a minor in communication, a minor in information studies, a minor in journalism studies, and a minor in media arts and studies. Students may not double-major within the School of Journalism and Media; students majoring in integrated strategic communication or journalism may not minor in media arts and studies. Students majoring in integrated strategic communication or media arts and studies may not minor in journalism studies. Students majoring in information communication technology may not minor in information studies. University requirements for a double major stipulate that each major be in a separate department (see the *Graduation Requirements* section of this Bulletin). No student may take more than 48 hours within the School to complete a degree.

## Undergraduate Certificates in Communication and Information

The University of Kentucky grants the following undergraduate certificates in the College of Communication and Information:

- Health Communication
- Innovation and Entrepreneurial Thinking

Information and requirements for the certificates are listed on page 213.

## Scholarships and Financial Aid

The College of Communication and Information has several opportunities for students to obtain scholarship funding. The college awards four scholarships to incoming freshmen and two scholarships to rising juniors and seniors. The School of Journalism and Media awards nearly \$45,000 in aid from various scholarship funds annually. The Department of Communication also has funding available for rising juniors and seniors. Generally, the deadline for scholarship applications is early in the spring semester. For specific information on scholarships, go to <http://ci.uky.edu/ci/scholarships>, or contact the Office of Student Services in Blazer Hall.

## ADMISSION POLICY

Admission to the University is sufficient for admission to the College of Communication and Information as a **premajor** for students who have completed less than 30 semester hours. **An application must be filed with the college in order for a student to be considered for admission as a premajor or major.** However, admission as a premajor does not guarantee admission as a **major** in one of the degree programs in the College of Communication and Information. In general, admission as a major depends upon the qualifications and preparation of the applicant, as well as the availability of resources for maintaining quality instruction. Additionally, depending on the timing of admission into the major program, students may not have access to major classes until subsequent semesters.

Upper-division admission into a degree program is necessary in order to be granted a baccalaureate degree from the College of Communication and Information.

## Transfer Students

The journalism major in the School of Journalism and Media is accredited by the Accrediting Council on Education in Journalism and Mass Communication (ACEJMC). Under ACEJMC guidelines, no more than 12 hours of major courses from a student's previous institution(s) may be counted toward a degree in journalism at the University of Kentucky.

## Admission to Degree Programs

In order to be admitted to any of the five undergraduate majors (communication, information communication technology, integrated strategic communication, journalism, and media arts and studies) offered by the College of Communication and Information, an applicant must fulfill the following requirements:

1. Enrollment in the University of Kentucky (Students are considered for acceptance by the college only after acceptance by the University.);
2. Completion of 30 semester hours of course work;
3. Minimum of 2.0 cumulative grade-point average;

4. Completion of premajor requirements of the program to which application is made;
5. Completion of UK Core areas I, II, III, IV, V, VI, VII and VIII;
6. Submission of an application form.

No student will be allowed to test out of any Journalism, Integrated Strategic Communication, or Media Arts and Studies course. A student taking a similar course from another institution would still be allowed credit should the course meet criteria similar to the University of Kentucky course.

Students meeting these requirements will be designated as **majors** or as students with **upper-division standing** in the program to which admission is granted. Any student not meeting one or more of these requirements may be granted premajor status.

In the admission considerations, when personal, academic, professional, or intellectual circumstances tend to discount lower academic scores, admission may be granted if there is other persuasive evidence of both the capability and motivation to undertake successfully a program in the College of Communication and Information.

Annually, the College of Communication and Information faculty will review the minimum standards required for admission to the college. Any change in requirements will be implemented at the beginning of the academic year (fall semester) and will be in effect for the entire academic year. If the standards are to be changed, the Dean of the College of Communication and Information will submit the proposed change by February 1 to the University Senate Council for approval, with prior circulation to the University deans and directors.

### Admissions Process

Applications from students outside the University of Kentucky seeking admission to the College of Communication and Information, whether for lower-division or upper-division status, must be received by the University of Kentucky Admissions Office no later than **April 1** (for summer sessions), **August 1** (for fall semester) and **December 1** (for spring semester).

Students enrolled in other UK colleges on campus may apply for admission during the major change window. The appropriate deadlines are listed in the University calendar as approved times to change majors.

Each applicant bears the responsibility to see that the application contains all the requested materials.

### Enrollment in Upper Division Courses

Enrollment in College of Communication and Information courses numbered 300-599 will be limited in order of priority to:

1. majors and minors in College of Communication and Information degree programs;

2. non-College of Communication and Information students who are registered for specific programs requiring College of Communication and Information courses;
3. other students or categories of students with the express permission of the department offering the course (departments may choose to declare certain courses as open enrollment courses).

## GRADUATION REQUIREMENTS

To earn either the Bachelor of Arts or the Bachelor of Science degree in the College of Communication and Information, each student must (1) complete 120 hours of course work (excluding courses lower than the 100 level, courses with an **R** designation, physical education service courses, and/or EXP 396/397 credits) with a grade-point average of at least 2.0 and (2) complete at least 42 hours in upper division courses (300 or above). No more than 60 hours may be taken within the college.

Other requirements include UK Core, premajor requirements, field of concentration (24-27 hours of major work and 15-18 hours of cognate courses earned outside the college as defined by the units), and a minimum of six hours of free electives.

### Bachelor of Arts Degree Requirements

Students who pursue the B.A. within the College of Communication and Information must fulfill the following requirements.

**UK Core:** Students must complete all areas of the UK Core program. (See *UK Core* section in this Bulletin for a detailed explanation of requirements.)

### College B.A. Requirements

1. **Language.** Complete one of the following sequences:

**Option A:** Successful completion of the fourth college semester of one foreign language. (Note: This may be accomplished by scoring at this level on a placement test for previous work in the foreign language.)

**Option B:** Complete a set of two courses dealing with the nature and structure of language, language behavior, or comparative languages. This set shall be comprised of one course from Group I below, and one course from Group II. (Courses counted as meeting this option may not be counted in the major or field of concentration.)

**Group I:** LIN 211.

**Group II:** ENG/LIN 209, ENG 210, ENG/LIN 310, ENG/LIN 311, LIN 317, ANT/LIN 325, LIN 331.

2. **Statistics:** STA 210

### Major Requirements

Students must complete the departmental requirements for one of the five majors (communication, information communication technology, integrated strategic communication, journalism, or media arts and studies).

**Subtotal: College B.A. Hours ..... 9-17**

### Bachelor of Science Degree Requirements

Students who pursue the B.S. within the College of Communication and Information must fulfill the following requirements:

**UK Core:** Students must complete all areas of the UK Core program. (See *UK Core* section in this Bulletin for a detailed explanation of requirements.)

### College B.S. Requirements

1. **Mathematics, statistics and computer science:** Complete 9 credits in mathematics and/or computer sciences beyond the UK Core requirement. At least 3 hours must be in statistics.

2. **Science Courses.** Complete a minimum of 60 hours of science courses, with not more than 12 hours within the College of Communication and Information. These courses must be approved by an advisor in the College of Communication and Information and may be from the areas of mathematics, statistics, computer science, physical sciences, biological sciences, social and behavioral sciences, as well as from appropriate professional fields.

**Subtotal: College B.S. Hours ..... 60**

### Academic Advising

Advising in the College of Communication and Information is under the jurisdiction of the Office of Student Services, Blazer Hall. A registration hold is placed on each student's record at the beginning of each term. The hold is removed after the student meets with the academic advisor for a priority registration advising appointment.

When students in the School of Journalism and Media are admitted to the upper-division of the college, they are assigned a faculty mentor from their major program.

### B.S. or B.A. with a major in COMMUNICATION

The major in communication provides students with the knowledge and skills necessary to design, manage, and evaluate communication processes involving individuals, groups, and the public. Graduates develop strong oral, written, and interpersonal communication skills as well as an advanced ability to analyze and critique messages, behaviors, and media.

Majors typically plan their upper-division course work around five identified career paths: business and organizational communication, digital and mass communication, health care communication, human communication, and sport communication. Human communication students also can tailor their own unique program of study to meet specific needs. Careful planning with the student's advisor is necessary.

Communication majors are encouraged to participate in educational activities beyond regular course offerings. The department has an excellent internship program which offers the opportunity for work with employers in corporate, government, and public service agencies. In addition, students may elect to do independent study work

with individual faculty on special topics or projects. All majors are encouraged to participate in a variety of student organizations providing extra-curricular activities designed to enhance the academic experience and career opportunities. For students who qualify, the department sponsors an Honors Society and a department honors distinction (for COM majors with a 3.3+ COM GPA who complete COM 351, COM 365, and COM 454).

**Degree Requirements**

Each student completes the following:

**College Requirements**

See “College B.A. Requirements” or “College B.S. Requirements” on page 207.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

Choose one course from approved list ..... 3

**II. Intellectual Inquiry in the Humanities**

Choose one course from approved list ..... 3

**III. Intellectual Inquiry in the Social Sciences**

COM 101 Introduction to Communications ..... 3

**IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences**

**Subtotal: Premajor hours ..... 15**

**Major Requirements (21 hours)**

Students must complete 21 hours at the 325-level or above, of which at least 9 hours must be at the 400- and/or 500-level.

**Cognate (15 hours)**

Students must complete 15 hours in courses related to a Career Path at the 300-level or above, as approved by the student’s academic advisor.

**Open Electives (6 hours)**

Students must complete 6 additional hours of their choice at the 300-level. These courses can be taken pass/fail.

**Subtotal: Career Track Hours ..... 36**

**Subtotal: Major Hours ..... 42**

**TOTAL HOURS: ..... 120**

**Suggested Career Paths**

**Business and Organizational Communication**

**Required:**

COM 325 Introduction to  
Organizational Communication ..... 3

Complete **three** of the following:

COM 425 Communication, Negotiation,  
and Conflict Management in Organizations ..... 3

COM 581 Teamwork and Leadership  
in Organizations ..... 3

COM 525 Advanced Issues in Organizational  
Communication (Subtitle required) ..... 3

COM 535 Risk and Crisis Communication ..... 3

COM 399 Internship in Communication ..... 3

plus 9 additional credits in upper division COM courses at the 325 level and above and 15 additional credits in COGNATE courses including the following:

COM 315 Understanding Workplace Communication  
in a Diverse U.S. Society ..... 3

**Note:** 9 or more credits of upper-division COM courses will continue to be required at the 400 or 500 level.

**Cognate Area**

Courses in sociology, philosophy, marketing, management, and information studies are often chosen for this cognate.

**Digital and Mass Communication**

**Required:**

COM 352 Interpersonal Communication  
and Social Media ..... 3

COM 449 Social Processes and Effects  
of Mass Communication ..... 3

COM 453 Digital and Mass Communication  
Media Literacy ..... 3

COM 553 Critical Analysis of Communication  
and Persuasion in Popular Culture ..... 3

plus 9 additional credits in upper division COM courses at the 325 level and above and 15 additional credits in COGNATE courses including the following:

COM 312 Learning Intercultural Communication  
Through Media and Film ..... 3

**Note:** 9 or more credits of upper-division COM courses will continue to be required at the 400 or 500 level.

**Cognate Area**

Courses in art studio, sociology, political science, journalism and media arts and studies and marketing are often chosen for this cognate.

**Health Care Communication**

**Required:**

COM 471 Introduction to Health Communication ..... 3

COM 482 Studies in Persuasion ..... 3

COM 571 Interpersonal Communication  
in Health Contexts ..... 3

COM 572 Health Communication Campaigns  
and Communities ..... 3

plus 9 additional credits in upper division COM courses at the 325 level and above and 15 additional credits in COGNATE courses including the following:

COM 311 Taking Control of Your Health:  
Patient-Provider Communication ..... 3

**Note:** 9 or more credits of upper-division COM courses will continue to be required at the 400 or 500 level.

**Cognate Area**

Courses in sociology, psychology, behavioral science, philosophy, public health, marketing and management are often chosen for this cognate.

**Human Communication**

**Required:**

Minimum 21 credits in upper-division COM courses, 9 of which must be at the 400 or 500 level. Minimum 15 credits at the 300 level and above in COGNATE.

**Cognate Area**

Courses in sociology, political science, media arts and studies, family studies, marketing and management are often chosen for this cognate.

**Sport Communication**

**Required:**

COM 327 Communication and Sport ..... 3

Complete three of the following:

COM 353 Technology-Mediated  
Communication in Sport ..... 3

COM 426 Sport Communication and Analytics ..... 3

COM 460 Sport Industries and Audiences ..... 3

COM 563 Critical Analysis of Sport Media  
and Society ..... 3

plus 9 additional credits in upper-division COM courses at the 325 level and above, including GCCR, and 15 additional credits in COGNATE courses.

**Note:** 9 or more credits of upper-division COM courses will continue to be required at the 400 or 500 level.

**Cognate Area**

Courses in kinesiology and health promotion, marketing, family sciences, and information communication technology are often chosen for this cognate.

**B.S. or B.A. with a major in  
COMMUNICATION – Online Option –  
Human Communication**

**Prerequisites**

**For the B.A.**

At least 60 hours. Current UK students will not be admitted. Former UK students can apply after being unenrolled for at least a year. Additional semesters may be required if a student needs to complete UK Core or elects to choose the foreign language option of the B.A.

**For the B.S.**

At least 60 hours from another institution or after leaving UK and being out at least a year. Additional semesters may be required if a student needs to complete UK Core or needs additional math or science requirements for the B.S.

**Degree Requirements****For the B.A.**

- 120 credit hours (excludes KHP service courses, EXP courses, and remedial [and below 100-level] courses)
- Must complete all UK Core requirements, UK graduation language requirements, BA language requirements, premajor and major requirements, GCCR, and one statistics course
- 42 hours at the 300-level or above
- 2.0 major grade-point average
- 2.0 cumulative grade-point average

**For the B.S.**

- 120 credit hours (excludes KHP service courses, EXP courses, and remedial [and below 100-level] courses)
- Must complete all UK Core requirements, UK graduation language requirements, B.S. math/science requirements (9 hours beyond UK core in MA/CS/STA, 48 hours outside the college in science), premajor and major requirements, GCCR, and one statistics course
- 42 hours at the 300-level or above
- 2.0 major grade-point average
- 2.0 cumulative grade-point average

**Graduation Composition and Communication Requirement (GCCR)**

COM 351 Introduction to Communication Theory ..... 3

**Graduation Composition and Communication Requirement hours (GCCR) ..... 3**

**Premajor Requirements**

9 hours from the following courses:

COM 101 Introduction to Communications ..... 3  
 COM 249 Mass Media and Mass Culture ..... 3  
 COM 252 Introduction to Interpersonal Communication ..... 3

**Major Requirements**

21 hours from the following courses:

COM 325 Introduction to Organizational Communication ..... 3  
 COM 350 Language and Communication ..... 3  
 COM 351 Introduction to Communication Theory ..... 3  
 COM 449 Social Processes and Effects of Mass Communication ..... 3  
 COM 471 Introduction to Health Communication ..... 3  
 COM 482 Studies in Persuasion ..... 3  
 COM 572 Health Communication Campaigns and Communities ..... 3

**Cognate Requirements**

15 hours at the 300+ level in supportive electives which may include the following courses:

COM 311 Taking Control of Your Health: Patient-Provider Communication ..... 3  
 COM 313 Interpersonal Communication in Close Relationships ..... 3  
 COM 314 The Dark Side of Interpersonal Communication and Relationships ..... 3  
 COM 315 Understanding Workplace Communication in a Diverse U.S. Society ..... 3

**Minor in Communication**

Any student wishing to minor in Communication must meet college selective admission requirements (45 credits completed, 24 credits in UK Core courses, COM 101 and have a 2.0 cumulative grade-point average).

1. COM 101 Introduction to Communications ..... 3
2. COM 287 Persuasive Speaking ..... 3
3. Two courses (6 hours) from the following:
  - COM 249 Mass Media and Mass Culture ..... 3
  - COM 252 Introduction to Interpersonal Communication ..... 3
  - COM 281 Communication in Small Groups ..... 3
  - COM 325 Introduction to Organizational Communication ..... 3
4. Two courses (6 hours) from the following:
  - COM 311 Taking Control of Your Health: Patient-Provider Communication ..... 3
  - COM 312 Learning Intercultural Communication Through Media and Film ..... 3
  - COM 313 Interpersonal Communication in Close Relationships ..... 3
  - COM 314 The Dark Side of Interpersonal Communication and Relationships ..... 3
  - COM 315 Understanding Workplace Communication in a Diverse U.S. Society ..... 3
  - COM 316 Emergency and Disaster Communication: Humanity in a Zombie Apocalypse ..... 3
  - COM 317 Communication in Family and Marital Relationships ..... 3
  - COM 327 Communication and Sport ..... 3

**B.S. or B.A. with a major in INTEGRATED STRATEGIC COMMUNICATION**

The Integrated Strategic Communication major offers students professional preparation for careers in the allied areas of advertising, public relations, and direct response communication. Through course work, students develop conceptual command of these allied areas and also build expertise in one area through the *PATH* option they select. The major stresses a strategic approach to communication initiatives and is designed to build analytical and critical thinking skills as well as writing and presentation skills.

ISC graduates enjoy highly diverse career destinations. Agencies specializing in advertising, public relations, and direct response along with the media and communication technology industries, corporations, nonprofit organizations, and regulatory/consumer protection agencies need employees who have the skills developed by the ISC graduate.

ISC students are encouraged to expand their course work with activities unique to the major. The American Advertising Federation and Public Relations Student Society of America chapters offer both leadership and networking opportunities. A dynamic, professionally-oriented internship program insures that students gain hands-on experience with communications, government, or nonprofit agencies or with corporations or the

media. Students are also encouraged to work with the *Kernel*, WRFL and WUKY.

**Degree Requirements**

Each student completes the following:

**College Requirements**

See "College B.A. Requirements" or "College B.S. Requirements" on page 207.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete **UK Core requirements**. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

Choose one course from approved list ..... 3

**II. Intellectual Inquiry in the Humanities**

---	---

**Major Electives**

9 hours of 300+ level undergraduate courses offered in the Department of Integrated Strategic Communication or School of Journalism and Media. ISC majors are expected to work with their academic advisor to build a program of electives that supports and extends the courses in the Major *PATH*.

**Minor**

MKT 300 Marketing Management .....	3
------------------------------------	---

A 300+ level course in the Department of Philosophy dealing with social or professional ethics, such as PHI 332.

Students must complete a minor offered through UK, with the exception of minors in Journalism Studies or Media Arts and Studies.

**TOTAL HOURS:** ..... **minimum of 120**

**Note:** Of a student's total course work for a bachelor's degree, 72 of the 120 hours required for graduation must be in courses other than professional media-based communications.

**B.S. or B.A. with a major in JOURNALISM**

The journalism major prepares students for leadership roles in rapidly changing media by requiring a strong core of journalism courses within the rich context of a liberal arts education. Courses are designed to foster analytical and critical thinking skills and to teach students to communicate effectively with a mass audience.

Founded in 1914, the journalism program has full national accreditation by the Accrediting Council on Education in Journalism and Mass Communications. Alumni include Pulitzer Prize winners, Nieman fellows and nationally known journalists.

Journalism majors learn about media law, ethics and history, and about the media's role in an increasingly diverse society. The program emphasizes hands-on learning. Students select either a print/multimedia or broadcast/multimedia emphasis in their professional skills courses. Majors choosing a print/multimedia emphasis have the opportunity to write for a daily newspaper. Students who select the broadcast/multimedia gain on-air experience at the university radio station and report, anchor, videotape and produce a newscast aired on a local cable channel.

Graduates are prepared for jobs as reporters and editors for print, broadcast and online media, and for positions as assignment editors, producers, managing editors, publishers and new media entrepreneurs. Courses are also offered for students interested in specialized careers such as sports reporting, business writing, arts criticism or graphic design.

All majors are encouraged to supplement their course work with media experience at the *Kentucky Kernel*, the independent daily student newspaper; the *Kentuckian*, the student yearbook; WUKY, the university's public radio station, or WRFL, the student-run radio station. All students are required to participate in the school's internship program.

**Degree Requirements**

Each student completes the following:

**College Requirements**

See "College B.A. Requirements" or "College B.S. Requirements" on page 207.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete **UK Core requirements**. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

<i>*May be repeated to a maximum of 3 credits under different subtitles.</i>	
<i>**May be repeated to a maximum of 6 credits under different subtitles.</i>	

## B.S. or B.A. with a major in MEDIA ARTS AND STUDIES

The media arts and studies major offers students a liberal arts program covering a range of issues related to electronic mass communication and electronic personal communication. In addition, students interested in message production or media management can opt to integrate selected professional or skills-based courses into their program of study.

Socio-cultural media courses address the historical, political and social aspects of variegated forms of media communications. Media industry courses examine organizational, economic, and/or technological dimensions of telecommunications systems and the interrelations among these factors. These courses may center on mass communication issues, interactive communication issues, or both.

Media production courses cover the traditional telecommunications areas of audio and video production and the more recent developments in multimedia, videogame and Web design and production.

All media arts and studies majors will take advantage of the experiential learning opportunity provided by a formal internship. The School of Journalism and Media has an excellent internship program which offers the opportunity to work with a wide variety of employers, including companies oriented to the provision of voice, data, and/or video products and services. In addition, students may pursue special interests in media arts and studies through independent study with any of the media arts and studies professors.

**Degree Requirements**

Each student completes the following:

**College Requirements**

See "College B.A. Requirements" or "College B.S. Requirements" on page 207.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete **UK Core requirements**. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**Minor**

Students must complete a minor offered through UK, with the exception of minors in Journalism Studies or Media Arts and Studies.

**Subtotal: Major hours** ..... **36**

**TOTAL HOURS:** ..... **minimum of 120**

**Note:** Of a student's total course work for a bachelor's degree, 72 of the 120 hours required for graduation must be in courses other than professional media-based communications.

†At the time of publication, this course had not received formal approval.

## Minor in Media Arts and Studies

Any student wishing to minor in media arts and studies should file an application with the School of Journalism and Media after meeting the following requirements:

Complete either MAS 101 or MAS 201

Complete 45 hours of university course work with a cumulative grade-point average of 2.0

Students cannot register for upper-level media arts and studies courses until they have met the above requirements and have been accepted into the media arts and studies minor program.

The minor in Media Arts and Studies requires a minimum of 18 hours course work to include:

1. MAS 101 Introduction to Media and Culture  
or  
MAS 201 Communication Technologies  
and Society .....
2. 3 credits from social-cultural media studies group of courses: MAS 319, MAS 323, MAS 420, MAS 505, MAS 520, MAS 530, MAS 540, MAS 555, MAS 560, MAS 590.
3. 3 credits from media industry group of courses: MAS 335, MAS 355, MAS 425, MAS 435, MAS 482, MAS 490, MAS 535.
4. 9 additional credits from upper-division MAS courses: MAS 300, MAS 310, MAS 312, MAS 319, MAS 322, MAS 323, MAS 335, MAS 355, MAS 390, MAS 403, MAS 412, MAS 420, MAS 422, MAS 425, MAS 432, MAS 435, MAS 482, MAS 490, MAS 505, MAS 520, MAS 530, MAS 535, MAS 540, MAS 555, MAS 560, MAS 590.

**Note:** Students should recognize that most upper-division media arts and studies courses have specific prerequisite courses that must be taken and plan their programs accordingly.

**THE SCHOOL OF  
INFORMATION SCIENCE**

**B.A. or B.S. with a major in  
INFORMATION COMMUNICATION  
TECHNOLOGY**

The Information Communication Technology (ICT) program is designed to educate students to assume leadership roles where the application of information technology (IT) is concerned, with the ultimate goal of equipping students with the tools and soft skills necessary for articulating technology solutions to clients, organizations, and communities. ICT majors will also build expertise in either the technology management or commercialization emphasis area.

The program’s concentration on the human-centered approach to technology teaches students how to be effective users of technology, solve problems specifically related to information and communication, and to facilitate communicating information in meaningful ways. In general, ICT majors are exposed to issues involving information, policy and regulation, and the role of communication technologies in western societies and the developing world.

Graduates are prepared for jobs as desktop support technicians, information security analysts, front-end developers, systems administrators, project managers, and social media managers, to name a few.

Students are encouraged to get involved in extracurricular opportunities within the program, such as education abroad, the ICT Student Association (ICTSA), undergraduate research, independent studies, app development workshops, and professional networking events. ICT majors are required to complete one technology-oriented internship. Our robust professional internship program is a great resource for students who are eager to expand their undergraduate course work and gain hands-on experience in the field.

**Degree Requirements**

Each student completes the following:

**College Requirements**

See “College B.A. Requirements” or “College B.S. Requirements” on page 207.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

ICT 200 Information Literacy and Critical Thinking ..... 3

**II. Intellectual Inquiry in the Humanities**

Choose one course from approved list ..... 3

**III. Intellectual Inquiry in the Social Sciences**

ICT 150 Experience ICT ..... 3

**IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences**

Choose one course from approved list ..... 3

**V. Composition and Communication I**

ICT 114 Composition and Communication  
in the Digital Age I  
or  
CIS/WRD 110 Composition and Communication I ..... 3

**VI. Composition and Communication II**

ICT 115 Composition and Communication  
in the Digital Age II ..... 3  
or  
CIS/WRD 111 Composition and Communication II ..... 3

**VII. Quantitative Foundations**

Choose one course from approved list ..... 3

**VIII. Statistical Inferential Reasoning**

Choose one course from approved list ..... 3

**IX. Community, Culture and Citizenship in the USA**

Choose one course from approved list ..... 3

**X. Global Dynamics**

ICT 205 Issues in Information and  
Communication Technology Policy ..... 3

**Subtotal: UK Core hours ..... 30**

**Graduation Composition and  
Communication Requirement (GCCR)**

**TRACKS**

One of the following tracks:

**Track A – Commercialization**

Choose three from:  
ICT 302 Content Management Systems ..... 3  
ICT 307 Copyright ..... 3  
ICT 325 Multimedia and Technology ..... 3  
ICT 406 Internet and E-Commerce Regulation ..... 3  
ICT 410 Privacy ..... 3  
IS 402 Competitive Intelligence ..... 3  
ISC 361 Direct Response Targeting:  
Media and Database Management ..... 3  
MAS 322 Multimedia I ..... 3  
MAS 422 Multimedia II ..... 3  
and two 300+ level IS or ICT electives chosen in conjunction  
with advisor

**Subtotal: Track A hours ..... 15**

**Track B – Technology Management**

Choose three from:  
ICT 302 Content Management Systems ..... 3  
ICT 303 Systems Analysis ..... 3  
ICT 325 Multimedia and Technology ..... 3  
ICT 351 Technology Security ..... 3  
ICT 406 Internet and E-Commerce Regulation ..... 3  
ICT 418 Linux Systems Administration ..... 3  
ICT 420 Semantic Web Development ..... 3  
ICT 550 Security Informatics ..... 3  
ICT 552 Cybercrime and Digital Law Enforcement ..... 3  
JOU 330 Web Publishing and Design ..... 3  
MAS 335 Introduction to the Media Industries ..... 3  
MAS 355 Communication and Information Systems  
in Organizations ..... 3  
MAS 535 Telecommunications Network  
Management ..... 3  
and two 300+ level IS or ICT electives chosen in conjunction  
with advisor

**Subtotal: Track B hours ..... 15**

**Track C – Information Studies**

Choose five from:  
ICT 311 Introduction to Information Science ..... 3  
ICT 315 Human Relations and Technology ..... 3  
ICT 316 Universal Access: Information  
and Working Environments ..... 3  
ICT 320 Information Architecture ..... 3  
ICT 325 Multimedia and Technology ..... 3  
ICT 415 Technology Training  
and Instructional Strategies ..... 3  
ICT 420 Semantic Web Development ..... 3

**Subtotal: Track C hours ..... 15**

**Track D – Custom**

Choose three courses (9 hours) from the available tracks to  
customize a program of study in consultation with the  
student’s faculty advisor.

and two 300+ level IS or ICT electives chosen in conjunction  
with advisor

**Subtotal: Track D hours ..... 15**

In addition, students may take 21 hours of free electives. If  
students have premajor credit that does not fulfill the premajor  
courses for ICT that they may have the option of using those  
credits towards free electives. Otherwise, students may  
choose from online courses offered by the University.

**Cognate Area**

15 hours (300+ level) outside the major; can be any collection  
of courses selected in conjunction with advisor.

**Subtotal: Cognate Area hours ..... 15**

**TOTAL HOURS: ..... minimum of 120**

**Minor in Information Studies**

The minor in Information Studies requires 18  
hours of course work to include:

IS 200 Information Literacy and Critical Thinking ..... 3  
IS 201 Personal Knowledge Management ..... 3  
IS 202 Technologies for Information Services ..... 3

**Minor Electives**

Choose three courses in conjunction with your advisor:  
ICT 311 Introduction to Information Science ..... 3  
ICT 320 Information Architecture ..... 3  
ICT 325 Multimedia and Technology ..... 3  
IS 303 Systems Analysis ..... 3  
IS 326 Electronic Information Resources  
for Health Professionals ..... 3

IS 327 Consumer Health Information Seeking .....	3
IS 402 Competitive Intelligence .....	3

## UNDERGRADUATE CERTIFICATES

The University of Kentucky grants the following undergraduate certificates in the College of Communication and Information:

- Health Communication
- Innovation and Entrepreneurial Thinking

### Undergraduate Certificate in Health Communication

The Health Communication Undergraduate Certificate is a joint program of the Department of Communication, the College of Public Health, and the Department of Kinesiology and Health Promotion for undergraduate students.

The certificate is designed to give students an enhanced education in communication skills critical to health-related professions, beyond what would normally be received from the UK Core. Upon completion of the certificate students will be able to determine how communication impacts the major contributors for disease prevention and control as well as how to identify and analyze communication strategies that are most effective for health promotion and wellness.

The Certificate in Health Communication is feasibly combined with a broad array of majors across UK's colleges including the College of Public Health, the College of Education, the College of Arts and Sciences, but particularly the College of Communication and Information and the College of Health Sciences.

#### Health Communication Certificate Standards

In order to remain in good standing in the program, students must have a 2.0 overall GPA at the end of their first year, and a 2.0 in certificate classes to graduate from the certificate. Students are also required to take three core classes as requirements for the certificate program, as well as program electives.

- Courses taken within three years prior to admission to the certificate can be used in the certificate.
- Certificates will only be awarded to students who successfully complete a Bachelor's degree, or have completed a four-year degree.
- The certificate requires 15 hours and a minimum of 12 credits of course work in the certificate must be taken for a letter grade.
- The certificate requires 9 core hours of credit (2 communication core and 1 public health core) courses be completed.
- No more than 9 credits taken for a certificate can be used to satisfy the requirements for the student's major or minor, or another

certificate, exclusive of free or unrestricted electives.

- The Director approves the individual certificate curriculum for each student and informs the Registrar when the certificate is complete and may be awarded.
- The awarded certificate is to be posted on the student's official transcript.

#### Health Communication Curriculum Certificate Core Classes

##### Communication Core

COM 311 Taking Control of Your Health: Patient-Provider Communication .....	3
COM 471 Introduction to Health Communication .....	3

##### Public Health Core

Students must take at least one course from the following courses outside of Communication:	
CPH 201 Introduction to Public Health .....	3
CPH 202 Public Health Through Popular Film .....	3
CPH 440 Foundations of Health Behavior .....	3

##### Electives

In addition to meeting the Communication and Public Health Core requirements, students must take two additional electives from:

COM 287 Persuasive Speaking .....	3
COM 482 Studies in Persuasion .....	3
COM 454 Honors Seminar in Communication (Subtitle required) .....	3
*COM 525 Advanced Issues in Organizational Communication (Subtitle required) .....	3
COM 535 Risk and Crisis Communication .....	3
COM 571 Interpersonal Communication in Health Contexts .....	3
COM 572 Health Communication Campaigns and Communities .....	3
CI/LIS 629 Introduction to Medical Informatics .....	3
CPH 202 Public Health Through Popular Film .....	3
CPH 310 Disease Detectives: Epidemiology in Action .....	3
CPH 440 Foundations of Health Behavior .....	3
KHP 230 Human Health and Wellness .....	3

**Total required hours: ..... 15**

*\*When offered with the subtitle Communication in Healthcare Organizations.*

For more information, contact Faculty Director Dr. Kelly McAninch at [comm@uky.edu](mailto:comm@uky.edu)

### Undergraduate Certificate in Innovation and Entrepreneurial Thinking

The certificate program in Innovation and Entrepreneurial Thinking is designed to provide a coherent, integrated approach to helping ambitious undergraduate students develop and document the skills needed to become a successful innovator and entrepreneurial thinker. The certificate is multi-disciplinary but is hosted by the College of Communication and Information and includes four courses (12 credit hours) completed over a one- to two-year period. Courses include a mix of topics such as communication and leadership, two elective courses on innovation and entrepreneurial thinking from participating col-

leges, and a required capstone course (EXP 455) involving a project with the iNET entrepreneur-in-residence.

The undergraduate certificate also provides robust learning and teaching opportunities that will lead to enhanced employment and enterprise creation opportunities for University of Kentucky students.

#### Innovation and Entrepreneurial Thinking Curriculum

The Certificate of Innovation and Entrepreneurial Thinking curricula are as follows:

- A minimum of 12 credits of course work taken for a letter grade.
- At least 12 credits must be 200 level or above, and a minimum of 6 credits must be at the 300-level or above.
- No more than 9 credits taken for a certificate can be used to satisfy the requirements for the student's bachelor's degree, a minor, or another certificate, exclusive of free or unrestricted electives.
- Certificates will only be awarded to students who successfully complete a degree, or have completed a four-year degree.
- The student must complete a three-credit breadth component. The breadth component requires that a student take courses in at least two disciplines, with a minimum of three credits to be completed in a second discipline.
- Student must earn a C or better in each required certificate course to receive the certificate.

#### Certificate Core Classes

##### Required:

COM 381 Communication, Leadership, and Entrepreneurship .....	3
EXP 455 Capstone Experience in Innovation and Entrepreneurship .....	3

plus two 200-level or above elective courses (6 hours) that focus on an innovation and entrepreneurial thinking with the approval of the iNET Academic Certificate Director. Current electives include:

AAD 310 Marketing for the Arts .....	3
AAD 350 Arts Administration Business Communications .....	3
AAD 410 Arts Entrepreneurship .....	3
ART 491 Creativity and Innovation .....	3
*EDU 300 Special Course .....	3

IS 402 Competitive Intelligence .....	3
JOU 430 Media Management and Entrepreneurship .....	3
*MAS 490 Special Topics in Media Industry Studies (Subtitle required) .....	3
MAT 514 Retail Entrepreneurship .....	3
MGT 292 Introduction to Entrepreneurship .....	3
MGT 301 Business Management	
MKT 300 Marketing Management .....	3
MUS 200 Music for Living .....	3
MUS 222 Creativity and Innovation in Rock Music .....	3

*\*When offered under a subtitle relevant to Innovation and Entrepreneurial Thinking.*

Larry Holloway, Vice Provost, Interim Dean, College of Dentistry, State Director, Kentucky DOE EPSCoR, TVA Professor of Electrical and Computer Engineering.

The College of Dentistry offers a four-year curriculum leading to the degree of Doctor of Dental Medicine (D.M.D.) and six post-doctoral programs. The College of Dentistry and all of its programs are accredited by the Commission on Dental Accreditation of the American Dental Association.

Through leadership in education, patient care, discovery, and community engagement, we aim to advance oral and general health in Kentucky and beyond. We are committed to cultivating a humanistic environment that appreciates and respects the diversity of thought, culture, and experiences of all members of our community.

Of note, UKCD is one of five dental schools nationally to be piloting the digital dentistry curriculum of the American College of Prosthodontics.

## Admission – Doctor of Dental Medicine (D.M.D.)

The College of Dentistry seeks to enroll individuals whose academic preparation, personal qualities, and other qualifications suggest they will experience success in the curriculum and afterwards in the dental profession. Currently, the entering class composition is typically 60 percent Kentucky residents and 40 percent non-residents.

The University of Kentucky College of Dentistry will consider for admission any applicant who demonstrates the ability to perform or learn to perform the skills listed in the College's Technical Standards policy. The College's Academic Performance Committee will monitor each student's demonstration of such knowledge and skills; specific standards are included in the *College Bulletin* and *Student Handbook*. The ability to meet these standards is a requirement for admission to the University of Kentucky College of Dentistry.

## Predental Preparation

Prospective applicants are encouraged to contact the Office of Admissions and Student Affairs early in their undergraduate careers for guidance on admission requirements. The College desires applicants who have the requisite academic preparation to meet the challenges of a rigorous curriculum. In addition to earning a bachelor's degree, these individuals should complete courses in both science and non-science subject areas to increase

their likelihood of success in the dental program. Although many applicants each year major in the biological and natural sciences, students from all majors are welcome.

The criteria considered by the Admissions Committee includes the quality of the applicant's pre-professional preparation, Dental Admission Test (DAT) scores, knowledge of and exposure to the dental profession, letters of recommendation, a commitment to service and other relevant factors. Timing is always an important element in the application process. The College will work with students to advise them on ways to become competitive applicants. For more information, call 859-323-6071.

## Application Process

The University of Kentucky College of Dentistry is a member of AADSAS (American Association of Dental Schools Application Service). Candidates for admission are encouraged to apply early to receive the strongest consideration. The AADSAS electronic application becomes available in early June and UKCD has a Priority Deadline of October

To apply and obtain further information about the AADSAS application, visit: [www.adea.org](http://www.adea.org).

The College uses a "rolling admissions system" whereby applicants are interviewed throughout the fall with initial offers of admission made on **December 1**. The Admissions Committee continues to interview applicants into January and extend offers of admission until the class is filled.

The membership of the entering first-year class is usually confirmed by early February. Candidates who apply early in the admissions cycle are at a distinct advantage over those who wait much later to submit their AADSAS application and other credentials. The Office of Admissions and Student Affairs can provide applicants' information and sound advice to insure that they complete the process in a timely way.

## Letters of Evaluation

Two letters should come from science faculty members; however, in lieu of science faculty any other faculty that can speak to the student's academic performance will suffice. The third letter should come from a dental practitioner the candidate has shadowed. A pre-professional committee evaluation may be substituted for the three letters. Applicants must have the letters delivered to AADSAS; hardcopy letters sent to the Office of Admissions and Student Affairs will not be connected to the application.

## Dental Admission Test

Every applicant must take the Dental Admission Test (DAT). The DAT scores are considered along with a candidate's academic record and other criteria in the admissions decision. The exam is offered nationwide by computer through Prometric Testing Centers. The DAT results should not be more than three years old and the highest set of scores will be used. Information on the DAT is available on the American Dental Association website at: [www.adea.org](http://www.adea.org).

Direct questions regarding admission or arranging a visit to the college to: 859-323-6071; email: [UKCDadmissions@uky.edu](mailto:UKCDadmissions@uky.edu).

*Mitzi Vernon, M.S., is Dean of the College of Design. Jeffrey Johnson, M.Arch., is Director of the School of Architecture. Daniel Vivian, Ph.D., is Chair of the Department of Historic Preservation. Bruce Swetnam is Interim Director of the School of Interiors: Planning / Strategy / Design.*

The College of Design at the University of Kentucky has a world-renowned following of industry leaders and practitioners who have either lent their experience as faculty or served indirectly as supporters of the College's mission. This legacy affirms the college's place among well-respected design schools, who lead in creating the next generation of designers.

With hands-on experience and a faculty collectively engaged, students in one of the many programs offered at the college graduate with an accelerated vision of how they participate in the continued advancement of the design industry.

Undergraduates also have the opportunity to participate in the college's creative scholarship and research. Emerging areas of interdisciplinary research utilize the field of design in solving global challenges in the fields of medicine, health care, energy, sustainability and education; these, in addition to more traditional design areas of rural, urban and cultural landscapes; building design and construction; interiors; and historic preservation.

## Degree Programs in Design

The University of Kentucky grants the following degrees in the College of Design:

- Bachelor of Arts in Architecture
- Bachelor of Fine Arts in Interiors: Planning / Strategy / Design
- Master of Architecture
- Master of Arts in Interiors: Planning / Strategy / Design
- Master of Historic Preservation
- Graduate Certificate in Historic Preservation

## Undergraduate Certificates in Design

The University of Kentucky grants the following undergraduate certificates in the College of Design:

- Digital Design Literacy
- Historic Preservation
- Universal Design

## SCHOOL OF ARCHITECTURE

As Kentucky's only architecture program that is fully accredited by the National Architectural Accrediting Board (NAAB), the School of Architecture offers a Bachelor of Arts in Architecture and a Master of Architecture degree. The University of Kentucky's four-year Bachelor of Arts in Architecture serves as either an essential first step toward becoming a licensed practitioner, or an excellent foundation for a very wide range of career trajectories and related fields of study. The Graduate School of Architecture offers a Master of Architecture, the path toward licensure as a professional architect, with two points of entry for students with undergraduate degrees in a wide range of disciplines.

Regardless of what degree path you take, architectural education offers a transformation that enables you to see the world in a new way, allows you to hone your own critical point of view, and empowers you with skills to improve the world. The broad, generalist education of an architect differs from that of many other professions and disciplines. It empowers you with multidisciplinary knowledge and skills for a career today, while instilling essential critical and creative thinking that will enable you to adapt to the evolving workforce of the future.

The School of Architecture's curriculum centers around the design studio, which provides a social and curricular framework for every architecture student. As students develop their architectural acumen and spatial acuity over the studio sequence, they develop an array of techniques for visual communication. Architecture students acquire essential skills in drawing, model building, 2D and 3D modeling software, rendering and animation, as well as prototyping and digital fabrication. In addition to the design studio, students study building technology, material innovations, sustainable design and construction systems, as well as the history, theory, and criticism of architecture, and the ethical and professional principles of a successful architecture practice.

The School of Architecture's educational foundation combines theoretical, conceptual, technological and historical knowledge with critical thinking and creative problem-solving. Our curriculum is designed to prepare you for your future in the architectural profession, as well as broaden your knowledge of the many fields and disciplines that intersect with it. Our courses continually evolve to align with the latest developments in the profes-

## APPLICATION DEADLINES FOR COLLEGE OF DESIGN

### School of Architecture

#### Early Action Track

To be considered for scholarships and early admission –

**Incoming Freshmen and Transfer Students** – December 1

#### Regular Decision Track

**Incoming Freshmen and Transfer Students** – February 15

**Transfer Students from NAAB Architecture Programs** – April 1

**Graduate Students** – January 15

### School of Interiors

#### Planning / Strategy / Design

#### Early Action Track

To be considered for scholarships and early admission –

**Incoming Freshmen** – December 1

#### Regular Decision Track

**Incoming Freshmen** – February 15

**Transfer Students** – March 1

**Transfer Students from CIDA Interiors Programs** – May 1

**Graduate Students** – March 15

sion, and respond to current and emerging social, environmental, and global issues impacting the built environment.

## Accreditation

In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, Master

of Architecture, and Doctor of Architecture. A program may be granted from a few years up to an 8-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

The University of Kentucky School of Architecture offers the following NAAB accredited degree programs:

- Master of Architecture (pre-professional degree + 48 graduate credits and non-pre-professional degree + minimum of 78 graduate credits)

#### *Preprofessional Degree*

- Bachelor of Arts in Architecture (120 undergraduate credits)

### Admissions Procedures

The School of Architecture is a selective admissions program. All applicants are required to apply to the University of Kentucky at [www.uky.edu/Admission](http://www.uky.edu/Admission) as well as complete and submit the Architecture Admission Application requirements found in Slideroom at [www.ukcod.slideroom.com](http://www.ukcod.slideroom.com) in order to be considered for admittance into the program; this secondary application to the School of Architecture will include a series of design and writing exercises. The application must be completed and submitted by December 1, 2019, to the College of Design School of Architecture to be considered for scholarships and early notification of admittance to the program. The deadline for Regular Decision Track is February 15, 2020.

**Freshman candidates** are required to file a University application, with necessary supporting documents, with the Office of Undergraduate Admission and University Registrar by **February 15** for Fall Semester admission.

Candidates will be admitted in order of priority on the basis of the following criteria:

1. A potential for general academic achievement as indicated by the high school grade-point average and national college admission test scores (ACT or SAT).

As a rule, freshmen applying to the School of Architecture must meet the minimum academic standards required for all freshmen applicants for admission to the University. However, if the Architecture Admission Committee finds clear indications of probable success in architecture from its review of the further evidence pertaining to a candidate who does not meet these minimum criteria, an exception may be made to this rule. Any such exception would require

formal recommendation of the School of Architecture Admission Committee and approval of the Associate Dean for Administration.

For fall admission, applicants must register for and take the ACT or the SAT on or before the December test date.

2. The probability of success in a professional program in architecture as predicted by the Architecture Admission Application.
3. Comparative measures of aptitude and motivation derived by the Admission Committee from the Architecture Admission Application and, in cases of uncertainty, and circumstances permitting, personal interview.

**Transfer candidates from educational programs other than those in architecture** will be required to observe the same application deadlines and portfolio submission procedures (when applicable) as those set out above for freshmen. **Please note that this deadline is earlier than that for general admission of transfer students to the University.**

Candidates will be considered in order of priority on the basis of the following criteria:

1. The indication of general academic performance as reflected by the cumulative collegiate grade-point average, and the indications of specific interests and aptitudes as reflected by grades in certain critical disciplines (e.g., art history, art studio, foreign languages, freehand drawing, history of ideas, mathematics, philosophy, social history).

As a rule, the minimum academic standard acceptable to the Admission Committee will be a cumulative grade-point average of 2.0 on a 4.0 scale, or an average of **C** in all previous college work. However, if the Architecture Admission Committee finds clear indications of probable success in architecture from its review of the further evidence pertaining to a candidate who does not meet these minimum criteria, an exception may be made to this rule. Any such exception would require formal recommendation of the School of Architecture Admission Committee and approval of the Director of Admissions.

2. The probability of success in a professional program in architecture as predicted by the Architecture Admission Application. Any applicant who is successful on the Architecture Admission Application but who has a university grade-point average of less than 2.0 will not be accepted to begin work in the School of Architecture. However, a one-year deferment of admission may be granted pending grade improvement to at least 2.0. This requirement may be waived by the School of Architecture Program

Director under extraordinary circumstances.

3. Other indications of their aptitude and motivation may be available (e.g., a portfolio of work, references, experiences in building construction or related fields).
4. Comparative measures of their aptitude and motivation derived by the Architecture Admission Committee from the Architecture Admission Application and, in certain cases of indecision, and circumstances permitting, personal interviews. Students who have been admitted to and have completed some professional courses within the School of Architecture and have withdrawn from the university for a period of three years or more, or who have not taken professional courses within the School of Architecture but remain in the university for a period of two years or more, may not reenter the program without the consent of the Dean of the College of Design, which would be given only under extraordinary circumstances.

**Transfer candidates from NAAB accredited degree programs in architecture** are required to file application with the Office of Undergraduate Admission and University Registrar by April 1 for Fall Semester admission. **Please note that this deadline is earlier than those for application to the University in general.**

Candidates will be considered in order of priority on the basis of the following criteria:

1. The indication of general academic success and success in a professional program in architecture as reflected by the cumulative collegiate grade-point average, and indications of specific aptitude and skill development as reflected by grades in architecture or environmental design courses. As a rule, the minimum academic standard acceptable to the Admission Committee will be a cumulative grade-point average of 2.0 on a 4.0 scale, or a **C** average in all previous college work. However, if the Architecture Admission Committee finds clear indications of probable success in architecture from its review of the further evidence pertaining to a candidate who does not meet these minimum criteria, an exception may be made to this rule. Any such exception would require formal recommendation of the School of Architecture Admission Committee and approval of the Director of the School of Architecture.
2. The probability of success in a professional program in architecture as predicted by the Architecture Admission Application.
3. A review of at least three letters of reference addressed to the Admission Committee from referees such as previous other

teachers, architectural practitioners or related professionals for whom the candidate may have worked.

The candidate's Architecture Admission Application and letters of reference should be received by the committee by **April 1** for Fall Semester admission.

- In cases of indecision, and circumstances permitting, personal interview. Based on the above criteria, the Admissions Committee will determine entering placement in the program. This placement may be at a level lower than the applicant had achieved at his or her previous institution.

### Master of Architecture Candidates

Master of Architecture candidates from the University of Kentucky and other NAAB accredited degree programs are required to file a University application with the Graduate School with supporting documents by **January 15**. In addition, a School of Architecture application is due on the same date.

Candidates will be admitted in order of priority on the basis of the following criteria:

- A potential for academic achievement as indicated by college GPA and national college admission test score (GRE);
- A portfolio of undergraduate work;
- A personal statement; and
- Three letters of reference.

Master of Architecture candidates from non-NAAB accredited degree programs are required to file a University application with the Graduate School with supporting documents by **January 15**. In addition, a School of Architecture application is due on the same date.

Candidates will be admitted in order of priority on the basis of the following criteria:

- A potential for academic achievement as indicated by college GPA and national college admission test score (GRE);
- A portfolio of undergraduate work (when applicable);
- A personal statement; and
- Three letters of reference.

### Scholarships

The College of Design offers merit-based scholarships to undergraduate students. There is no application required to be eligible for scholarships for new incoming students; all students are automatically considered. Students currently enrolled in the Architecture program must apply. Thanks to the generosity of our alumni and friends, more than \$75,000 in scholarships are awarded to our students each year.

All graduate applicants are automatically considered for merit-based scholarships. Approx-

mately \$200,000 in merit-based scholarships, awards, and stipends are awarded to College of Design graduate students every year. Scholarships and awards can range from \$500 to full tuition. Because financial resources are limited, applicants are encouraged to seek out other sources of funding.

### Computer Requirements

Each new incoming student is required to possess a laptop computer with the specifications and software (preloaded) as specified in the School of Architecture Acceptance Letter.

### Advising

Advising in the School of Architecture is conducted through meetings with Student Services staff. The Student Services staff has knowledge of the College's programs and is ready to help students navigate and build their educational plans.

## PROBATION AND ACADEMIC SUSPENSION

Students should refer to the *Academic Requirements* section of this Bulletin for information concerning the College of Design's probation and academic suspension rules.

## CURRICULUM

The University's UK Core requirements complement the architecture course work. This program comprises liberal arts and science courses required of all students at the University of Kentucky.

The School of Architecture in the College of Design administers the program curriculum, and the University of Kentucky Board of Trustees grants degrees. The curriculum consists of 48 credits for the 2-year graduate degree for a total of 168 credits in six years. The curriculum consists of a minimum of 78 credits for the 3+ year graduate degree for a minimum total of 198 credits in seven years.

The curriculum conforms to the following outline:

	Hours
I. Undergraduate UK Core requirements .....	30
II. Core program requirements .....	78
III. Undergraduate elective courses .....	12
IV. Graduate core program requirements .....	33 (63)*
V. Advanced elective courses .....	6
VI. Master's Project .....	9
TOTAL .....	168 (198)*

\*Three+ Year Master of Architecture.

The above distribution of credit assumes that the UK Core requirements in mathematics and a foreign language have already been met prior to admission to the program, an assumption supported by historical student data. It also assumes that the Humanities and Global Dynamics sections are to be met by approved core program courses in the History and Theory of Architecture (ARC 314 and ARC 315).

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list .....

#### II. Intellectual Inquiry in the Humanities

ARC 314 History and Theory III:

20th Century and Contemporary Architecture .....

#### III. Intellectual Inquiry in the Social Sciences

Choose one course from approved list .....

#### IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

ARC 333 Environmental Controls II .....

#### V. Composition and Communication I

CIS/WRD 110 Composition and Communication I .....

#### VI. Composition and Communication II

CIS/WRD 111 Composition and Communication II .....

#### VII. Quantitative Foundations

Choose one course from approved list .....

#### VIII. Statistical Inferential Reasoning

Choose one course from approved list .....

#### IX. Community, Culture and Citizenship in the USA

Choose one course from approved list .....

#### X. Global Dynamics

ARC 315 History and Theory of Architecture IV:

Urban Forms .....

**UK Core Hours .....**

### Graduation Composition and Communication Requirement (GCCR)

ARC 152 Design Studio II .....

ARC 314 History and Theory III:

20th Century and Contemporary Architecture .....

**Graduation Composition and Communication Requirement hours (GCCR) .....**

## BACHELOR OF ARTS IN ARCHITECTURE (Four-Year Program)

### YEAR ONE

	Hours
ARC 101 Drawing I:	
Observational Freehand Drawing .....	3
ARC 111 Introduction to History and Theory .....	3
*ARC 151 Design Studio I .....	6
*ARC 152 Design Studio II .....	6
ARC 203 Digital Media Within Architecture .....	3
CIS/WRD 110 Composition and Communication I .....	3
CIS/WRD 111 Composition and Communication II .....	3
UK Core .....	3
TOTAL .....	30

### YEAR TWO

	Hours
ARC 212 History and Theory I:	
15th-17th Centuries .....	3
ARC 213 History and Theory II:	
18th-19th Centuries .....	3
ARC 231 Structural and Material Concepts .....	3
*ARC 253 Design Studio III .....	6
*ARC 254 Design Studio IV .....	6
PHY 151 Introduction to Physics .....	3
UK Core .....	6
TOTAL .....	30

**YEAR THREE**

	Hours
ARC 314 History and Theory III: 20th Century and Contemporary Architecture .....	3
ARC 315 History and Theory of Architecture IV: Urban Forms .....	3
ARC 332 Environmental Controls I .....	3
ARC 333 Environmental Controls II .....	3
*ARC 355 Design Studio V .....	6
*ARC 356 Design Studio VI .....	6
UK Core .....	6
<b>TOTAL</b> .....	<b>30</b>

**YEAR FOUR**

	Hours
ARC 434 Structural Design and Analysis I .....	3
ARC 435 Materials and Methods of Construction .....	3
*ARC 457 Design Studio VII .....	6
ARC 511-515 History and Theory Seminar .....	3
UK Core .....	3
Electives .....	12
<b>TOTAL</b> .....	<b>30</b>

**Four-Year Total Hours**

UK Core .....	30
Architecture Core requirements .....	78
Electives .....	12
<b>Total Undergraduate</b> .....	<b>120</b>

<b>Total Graduate</b> .....	<b>48</b>

For more information about the School of Architecture's Master of Architecture degree, consult the UK Graduate School *Bulletin*, or the College of Design website at:

<http://design.uky.edu/>

**SCHOOL OF INTERIORS****Planning / Strategy / Design**

The School of Interiors provides engaging opportunities for students to acquire background in systems planning and strategic thinking through the design of interior environments. As the only accredited program in Kentucky within a research-based institution and a college of design, students immerse in a process-driven approach to design in an environment that fosters interdisciplinary study within a collaborative community.

Graduates of the program practice across the United States and have been recognized at the highest level of the profession. Through studio, classroom and real-world assignments, students specializing in interior spaces learn to solve complex organizational problems associated with work, place, experience and performance. These professional skills prepare students to handle the aesthetic and technical aspects of projects, communicate with clients, and manage business and logistical requirements.

Students interact with regional, national and international design professionals through shadowing, education abroad, lectures by noted speakers, field experiences and other activities sponsored by the College. Graduates from the School of Interiors begin their careers in a variety of settings including interior design firms, architecture firms, corporations and public institutions. Students may also pursue graduate post-professional education to cultivate an interior environment design specialization.

**Accreditation**

The School of Interiors is a professional degree program accredited by the Council for Interior Design Accreditation (CIDA). This accreditation ensures professional training for entry into the practice of interior design and the educational foundation that will allow for professional testing (NCIDQ), certification or licensure at the individual state level.

---

**BACHELOR OF FINE ARTS**  
**IN INTERIORS:**  
**PLANNING / STRATEGY / DESIGN**

---

In addition to UK Core requirements, students in the School of Interiors must complete the following:

- 80 credit hours of major requirements
- 21 credit hours of directed electives
- electives required to meet minimum credit hour standard for graduation.

## UNDERGRADUATE ADMISSION PROCEDURES

### Admission into the Major

Students must be admitted both to the University of Kentucky and by secondary application to the School of Interiors. The School of Interiors is a selective admissions program; all applicants are required to apply to the University of Kentucky at [www.uky.edu/Admission](http://www.uky.edu/Admission) as well as complete and submit the creative exercises found in slideroom at [www.ukcod.slideroom.com](http://www.ukcod.slideroom.com) in order to be considered for admittance into the program; this secondary application to the School of Interiors will include a series of design and writing exercises. Application must be completed and submitted by **December 1**, to the College of Design School of Interiors to be considered for scholarship and early notification of admittance to the program. The deadline for Regular Decision Track is **February 15**.

### Freshman Candidates

1. File a University application with the Office of Undergraduate Admission and the University Registrar by **February 15** for fall admission in the year that the student wants to begin the program. For fall admission, applicants must register for and take the ACT or SAT on or before the December test date.
2. Apply for admission to the School of Interiors. The *Major Admission Application Form* and requirements are available at: [ukcod.slideroom.com](http://ukcod.slideroom.com).

Address correspondence to:

**Admissions, College of Design  
School of Interiors  
112 Pence Hall  
University of Kentucky  
Lexington, KY 40506-0041  
[ukcodinfo@uky.edu](mailto:ukcodinfo@uky.edu)**

### Transfer Students Without Design Credit

Transfer candidates from educational programs other than interiors will be required to observe the same application process and deadlines as outlined for freshmen. **Please note that the deadline is earlier than that for general admission of transfer students to the University.**

### Major Admission Selection Process

Candidates will be admitted to the major in order of priority based on demonstrated potential for academic achievement at the freshman level as indicated by high school grade-point average, ACT/SAT scores, and their response to the required secondary application. Additional consideration will be given to the student's demonstrated participation in extracurricular, service, or work activities that show evidence for potential development of characteristics that will assist them in succeeding in the profession. Acceptance will be

on a comparative and competitive basis. Notification of acceptance in the major will permit registration into the first-year studio, ID 121, fall semester of the same year.

### Transfer Students With Design Credit

Students who have university credit in design course work from an accredited professional program (CIDA, NAAB, etc.) who wish to transfer into the School of Interiors, must do an application for admission to the major. The application process includes:

1. File a University application with the Office of Undergraduate Admission and the University Registrar. Request an official transcript of college course work to be received by University of Kentucky Admissions.
2. Submit by email to [ukcodinfo@uky.edu](mailto:ukcodinfo@uky.edu) an electronic portfolio of student work completed in the university from which they are transferring.

Address correspondence to:

**Admissions, College of Design  
School of Interiors  
112 Pence Hall  
University of Kentucky  
Lexington, KY 40506-0041  
[ukcodinfo@uky.edu](mailto:ukcodinfo@uky.edu)**

### Transfer Admission Selection Process

Admission into the School of Interiors will be dependent upon the applicant's qualifications and preparation, the indication of general overall academic success (GPA), success in the Major requirements, and probability of success in a professional program as predicted by a review of the work submitted in the portfolio of student work. Since the number of students admitted will be limited, applicants will be examined on a comparative and competitive basis. Candidates will be admitted in order of priority.

### Education Abroad, Internships, Undergraduate Research

The School of Interiors faculty encourages each student to fully engage in curricular and co-curricular activities to round out his/her design education, including opportunities to take courses abroad, through internships and shadowing experiences, and through undergraduate research projects with a faculty member mentor. All of these experiences indicate to potential employers the value of the young designer upon graduation.

### Scholarships

The College of Design offers merit- and need-based scholarships to undergraduate students after their first year in the program. The process for distribution of these scholarships follows a schedule established by the College of Design. Because financial resources are limited, the School encourages applicants to seek other sources of funding.

### Advising

Student Services staff provides academic advising to students in the School of Interiors. In addition, School leaders and Student Services staff conduct group advising, and School faculty serve as mentors to students to ensure that students proceed through the program in a timely manner and discover pathways to professional practice.

### Computer Requirements

Professional practice in the design fields relies on both hand and digital production. To facilitate digital processes, each student must possess a laptop computer meeting minimum specifications and requirements as outlined by the School.

## CURRICULUM

The University's UK Core requirements – liberal arts and science courses required of all students at the University of Kentucky – complement course work in the major. The curriculum conforms to the following outline:

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ..... 3

#### II. Intellectual Inquiry in the Humanities

ID 161 History and Theory  
of Interior Environments I ..... 3

#### III. Intellectual Inquiry in the Social Sciences

Choose one course from the following:  
PSY 100 Introduction to Psychology  
SOC 101 Introduction to Sociology ..... 3-4

#### IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

Choose one course from the following:  
ANT 230 Introduction to Biological Anthropology  
BIO 102 Human Ecology  
EES 110 Endangered Planet:  
An Introduction to Environmental Geology  
EES 120 Sustainable Planet:  
The Geology of Natural Resources  
GEO 130 Earth's Physical Environment ..... 3

#### V. Composition and Communication I

**Subtotal: Major hours: ..... 80**

**Directed Electives**

Understanding people, their environments, key cultural issues, and design strategies from different disciplines represent a diversity of approaches for education for students in the School of Interiors. Alongside studio courses, lecture and lab courses, and the UK Core, these directed electives indicate a pathway toward breadth in a student's education.

During their course of study, each student will enroll in 21 credit hours by filing a directed electives plan which will be reviewed and signed by a faculty member, the Office of Student Services and the Director of the School.

Courses taken to fulfill UK Core requirements may not be used to fulfill directed electives requirements.

**Subtotal: Directed Electives: ..... 21**

**Total Minimum Hours Required for Degree ..... 128**

**Undergraduate Certificate in Digital Design Literacy**

The Undergraduate Certificate in Digital Design Literacy is a four-course (12 credit hour) program offered by the College of Design.

The core value of the online Digital Design Literacy certificate is the belief that digital literacy and good design can enhance the vitality, effectiveness, and impact of any project. The program leverages leading-edge technologies and existing online platforms to address the emergent need for both digital fluency and design savvy. From establishing a resonant online presence to capitalizing on the availability of DIY software and tools, digital design and literacy online is increasingly essential for entrepreneurs and creatives alike.

The program offers a suite of courses that can serve students and professionals throughout the Commonwealth, allowing enrollees to harness the power of design technologies for their professional growth and personal use.

The program requires students to successfully complete 4 of 5 courses that can be taken in any order. These include: one discussion course that introduces students to the vocabulary of visual culture, representation, and implications of visual culture in the digital age; and four technical courses that facilitate the creation of high-impact digital products. Students will learn how to read and create powerful images, cultivate a message using various online platforms, and use digital techniques to fabricate three-dimensional prototypes. Upon completion, students will be able to engage the digital world with confidence.

To complete the Certificate in Digital Design Literacy, students must complete four of the following courses:

- A-S 280 Introduction to Photographic Literacy ..... 3
- ARC 280 Visual Culture in a Digital Age ..... 3
- DES 285 Visual Storytelling ..... 3
- DES 380 DIY Maker: Using Digital Technology to Make Things ..... 3
- DES 385 Understanding Websites ..... 3

**Undergraduate Certificate in Historic Preservation**

Historic preservation is a specialized field of study dedicated to understanding, interpreting, and protecting buildings and sites considered historically valuable and advancing social, economic, and environmental sustainability through responsible use of existing buildings and resources. Although long considered a niche specialty concerned mainly with sites associated with elite actors, historic preservation today encompasses broad concern for myriad forms of heritage. Social justice, sustainability, and public interpretation have become major emphases. Studying historic preservation foregrounds the social and cultural significance of built environments and the role of heritage in grounding human relationships to place. Although closely tied to fields such as

planning, geography, architecture, and history, preservation is distinctive in its attention to age, decay, and material remains. These yield vital perspectives on social, economic, and political processes, the meanings humans ascribe to the spaces they inhabit, and opportunities for renewal.

With the pressures caused by climate change, mass migration, and globalization, preservation is poised to grow in importance. The need to create more humane, more equitable, less carbon intensive built environments is already a pressing concern. Opportunities to learn about history and culture through experiences at historic sites and attractions are vital for fostering tolerance, cultural sensitivity, and inclusive narratives of shared experience. Cultivation of local heritage and culture counters the homogenizing influences of globalization while simultaneously creating commercial opportunities. In sum, preservation has a role to play in addressing the challenges that will reshape human affairs in the current century and beyond.

### Admission

Undergraduate students who wish to pursue the certificate must have a minimum 2.75 grade-point average and must maintain a 3.0 grade-point average in certificate courses. Course work taken more than four (4) years before admission to the certificate may not be applied to the certificate. Students must meet all prerequisite requirements for certificate courses. Students may apply to the certificate upon completing HP 101, which does not count toward certificate requirements but provides foundational knowledge. Students then take HP 252, two electives, and HP 300. Students will be advised to take HP 300 as their final course or in the same semester as their final elective(s). An exit exam will be administered in HP 300. Students must earn a C or higher to complete the certificate. Students will be allowed to retake the exam if needed.

Post-baccalaureate and non-degree-seeking students will be admitted upon submitting a statement of 1,000 words or less explaining the reasons for their interest in pursuing the certificate

### Curriculum

Students may apply to the certificate after completing HP 101, *Historic Preservation: How the Past Informs the Future*. As a 100-level class, HP 101 does not count toward certificate requirements but provides fundamental knowledge that students need before proceeding to more advanced classes. Once a student is accepted into the certificate program, he or she must take the following Core Courses:

### Core Courses

HP 252 Adaptive Reuse and Treatments for Historic Buildings .....	3
HP 300 Sustainability and the Built World .....	3

### Electives

Students must complete **two** electives (6 credit hours) to complete the certificate:

ANT 342 North American Archaeology .....	3
ANT 545 Historical Archaeology .....	3
ARC 511 History and Theory Seminar: Pre-20th Century (Subtitle required) .....	3
ARC 512 History and Theory Seminar: Modern (Subtitle required) .....	3
ARC 513 History and Theory Seminar: Contemporary (Subtitle required) .....	3
ARC 514 History and Theory Seminar: Theory and Criticism (Subtitle required) .....	3
ARC 515 History and Theory Seminar: Urban Forms (Subtitle required) .....	3

HIS 261/AAS 261 African American History 1865-Present .....	3
HP 352 Kentucky Architecture and Landscapes .....	3
ID 283 The American House + Its Furnishings .....	3
LA 205 History of Landscape Architecture .....	3
LA 307 Cultural Landscape Preservation .....	3

## Undergraduate Certificate in Universal Design

The Certificate in Universal Design is designed to give students a foundation in the principles of universal design and its application across disciplines. The Certificate will create a focus for students' scholarly work in developing environments that maximize the engagement of all community members, including people with disabilities. Universal design creates environments and resources that are useable by people across the lifespan. Universal design utilizes a broad set of strategies that promote inclusion and participation of all, particularly people with disabilities, within a diverse world. Universal design grew from the independent living movement, and legislation including the Architectural Barriers Act, the Rehabilitation Act, the Education for All Handicapped Children Act, and the Americans with Disabilities Act. The Higher Education Opportunities Act furthered the reach of Universal Design through definition of Universal Design for Learning, or UDL, that provides flexibility in education in information presentation, student engagement and demonstration of knowledge.

The Certificate will provide academic recognition for participating in 12 hours of course work. This Certificate shows that the student has attained competency in universal design. Utilizing universal design ensures that the needs of the

widest range of possible users are considered at the outset. The principles of universal design are applicable across environments and to programs and learning across the lifespan. Students in this Certificate will: 1) demonstrate mastery of basic principles of universal design and accessibility (includes knowledge of accessibility mapping, methods of implementing universal design in the environment, and ways of relating various designs as universal design); and 2) employ the basic principles of universal design and accessibility techniques, including identification of barriers to accessibility, possible solutions and the long-term benefit of solutions. Students will be able to analyze the use of universal design in eliminating barriers in environments.

Universal design implications impact any disciplines that interact with people across the lifespan and the communities in which they live. The Certificate is applicable to undergraduates across colleges. This Certificate utilizes new courses from the Human Development Institute (HDI) along with an elective that may come from within the student's own academic unit. As such, the Certificate will emphasize and make meaningful elements from within the students' own major. The content has been successful in Discovery Seminar Program (DSP) courses which are no longer available at UK. The courses comprising the Certificate offer a unique cross-disciplinary opportunity for students. By not affiliating with an existing degree program, the cross-section of students will effectively shape the direction of the Certificate with each incoming cohort.

A primary concern to students completing their course of study and entering the workforce is access to the programs, products, and environments in which we interact. Increasingly, students are seeking experiential opportunities to have an impact in their campus community and to work with diverse populations. It is vital for students to learn the value of multiple perspectives in order to approach new endeavors with critical thoughtfulness. We see this at the Human Development Institute through our Graduate Certificate in Developmental Disabilities and in ongoing student interest in projects around creating a more inclusive campus. Students from across colleges come together, informally or through course projects, to participate in accessibility mapping of campus and develop a greater understanding of universal design and the importance of issues around access for all. The courses within the Certificate for Universal Design will enable students to further build upon the UK Core competencies and utilize a broad set of universal design strategies that will prepare them for productive careers and meaningful participation in their communities with an enriched understanding of diversity. Students will be able to link their own course of study to their certificate participation. For example, a communications student may take a practicum in

captioning, while a geography student's practicum could focus on conducting surveys of universal design elements used in small businesses on a particular Lexington street. Students will have the opportunity to work in group projects that result in scholarly papers, presentations and posters. These collaborations will be interdisciplinary and represent a variety of departments. The ability to have multiple semesters to work through complex issues is a strength of the certificate format, as opposed to a single course. Students will be engaged through the Certificates experiential activities and will ultimately have an enhanced understanding of the dynamic and multi-faceted nature of the communities in which they live and work.

**Admissions Criteria**

Students currently enrolled as undergraduates or post-baccalaureates may apply to participate in the Certificate. Students must be in good academic standing with the University. Students must be enrolled in or have completed HDI 350 to apply. The Faculty of Record will review applications and consider GPA, major, and student essay.

**Core Courses**

HDI 350 Universal Design: Applications in the Built, Virtual, and Learning Environments .....	3
HDI 400 Universal Design Practicum .....	3
HDI 500 Universal Design Practicum II: Advanced Techniques .....	3

**Elective Courses**

Choose one of the following courses:

EDS 517 Assistive Technology in Special Education .....	3
ID 234 Environmental Theory .....	3
Any other course approved by Certificate Director .....	3

**Total Credit Hours:** ..... **12**

**Faculty Director:** Dr. Kathleen Sheppard-Jones, director of the Human Development Institute (HDI), and adjunct professor in the Department of Early Childhood, Special Education and Rehabilitation Counseling, College of Education.

*Julian Vasquez Heilig, Ph.D., is Dean of the College of Education.*

Professional education programs at the University of Kentucky are guided by the theme, *Research and Reflection for Learning and Leading*. The vision of the unit is to become one of the nation's best public professional education units with emphasis on research, reflection, learning, and leading in service to the Commonwealth, the nation, and the world.

The professional education unit "endeavors to expand the knowledge of teaching and learning processes across a broad educational spectrum. The unit fosters a culture of reflective practice and inquiry within a diverse community of students, faculty, and staff. As part of a research-extensive university, the unit advances knowledge through research. As part of a land-grant institution, the unit prepares professionals for a variety of roles in educational settings and community agencies and provides leadership in the improvement of the education, health, and well-being of citizens in the Commonwealth, the nation, and the world."

Ninety-eight percent of unit faculty members have attained the highest degrees possible in their fields. The unit provides candidates with access to state-of-the-art technology. Each building is equipped with computer laboratories and "smart" classrooms to keep candidates and faculty in pace with the latest technological advances in education. In addition to preparing excellent teachers and school leaders, graduates have gone on to excel in numerous other professional fields.

## Educator Preparation at UK

The educator preparation unit of the University of Kentucky includes programs in the colleges of Arts and Sciences, Agriculture, Food and Environment, Arts and Sciences, Communication and Information, Education, Fine Arts, Health Sciences, and Social Work that prepare professionals for careers in public education. The dean of the College of Education is the chief educator preparation officer for the UK educator preparation unit.

The theme of the educator preparation unit is *Research and Reflection for Learning and Leading*. The vision of the unit is to become one of the nation's best public professional education units with emphasis on research, reflection, learning and leading.

The mission for the UK educator preparation unit is as follows: the Educator Preparation Unit at

the University of Kentucky endeavors to expand the knowledge of teaching and learning processes across a broad educational spectrum. The unit fosters a culture of reflective practice and inquiry within a diverse community of students, faculty, and staff. As part of a research-extensive university, the unit prepares professionals for a variety of roles in educational settings and community agencies and provides leadership in the improvement of the education, health, and well-being of citizens in the Commonwealth, the nation, and the world.

## Accreditation

The Professional Education Unit for the University of Kentucky is accredited by the National Council for Accreditation of Teacher Education (NCATE), and all professional educator programs are approved by the Kentucky Education Professional Standards Board (EPSB).

## Relationship with the Kentucky EPSB

All University of Kentucky educator preparation programs, initial or advanced, have been approved by the Kentucky Education Professional Standards Board (EPSB), in accordance with Kentucky statutes and regulations. In addition to overseeing all educator preparation programs approved for operation in Kentucky, the EPSB also issues, renews and revokes all Kentucky educator licenses (certificates). Kentucky educator certification regulations are updated in an ongoing basis. For the most up-to-date information about educator certification, refer to the EPSB website at: [www.kyepsb.net/](http://www.kyepsb.net/).

## Financial Aid/Scholarships

The College of Education awards scholarships to both undergraduate and graduate students. Information and application forms are available in 166 Taylor Education Building. The deadline for scholarship applications is **February 15**. Graduate students should also contact the Director of Graduate Studies in their department for information about any targeted scholarship funds. The College of Education also administers the Kentucky Minority Educator Recruitment and Retention scholarship program (MERR) for the Kentucky Department of Education. Minority students applying for MERR funds must be Kentucky residents. MERR forms are available in 166 Taylor Education Building. Kentucky residents who are enrolled in a teacher certification program may also apply for funds from the Kentucky Higher Education Assistance Authority Teacher

Scholarship program (KHEAA). Students applying for funds through the KHEAA teacher scholarship program must include a completed FAFSA need analysis data form with their applications. Funds are awarded first to students fully admitted to a teacher education program, in order of the greatest financial need. Both KHEAA and MERR teacher scholarship awards are forgivable on a semester by semester basis when the candidate teaches in Kentucky public schools. Award recipients who do not teach in Kentucky public schools must pay back the awards, with interest.

## Undergraduate Programs in Education

The University of Kentucky grants the following degrees in the College of Education:

- Bachelor of Arts in Education
- Bachelor of Science in Education

Students pursuing one of the following majors earn a Bachelor of Arts in Education degree: early elementary education, interdisciplinary disability studies, middle level education, or secondary education. Students selecting a major in secondary education must specialize in either English or social studies.

Students pursuing one of the following majors earn a Bachelor of Science in Education degree: health promotion, kinesiology (teacher certification or exercise science), interdisciplinary early childhood education, special education, and STEM education.

Persons holding a bachelor's degree from a regionally accredited institution, with a minimum overall GPA of at least 2.75, or a 3.0 in their last 30 hours of the degree, may pursue initial educator preparation at the undergraduate level by following any of the certification programs described in this Bulletin. If these persons also wish to earn a UK bachelor's degree, all UK degree requirements must be met. All educator preparation students at the University of Kentucky are expected to meet the requirements for "Admission, Retention and Completion from Teacher Education Programs" as described below.

## Undergraduate Certificate in Education

The University of Kentucky grants the following undergraduate certificate in the College of Education:

- Leadership Studies

## Graduate Programs in Education

### Graduate Degrees and Certificates

The University of Kentucky offers the following graduate degrees for education:

- Master of Arts in Education
- Master of Science (Kinesiology and Health Promotion)
- Master of Science in Education
- Master of Science in Education (Interdisciplinary Early Childhood Education)
- Doctor of Education (Ed.D.)
- Doctor of Philosophy (Ph.D.)
- Interdisciplinary Doctor of Philosophy (Ph.D. in Education Sciences)
- Rank II (32 hour) and Rank I (30 hour) Programs in Professional Education

### Graduate Programs Leading to Advanced Educator Licensure

The University of Kentucky offers graduate programs leading to advanced educator licensure in Literacy, Computer Science in Instructional Systems Design, Library Science, School Psychology, and School Leadership. Approved Teacher Leader programs at the master's level are also available in Special Education, Interdisciplinary Early Childhood Education, and Educational Leadership.

### UK Graduate Certificates

The University of Kentucky offers graduate certificates in: Assistive and Rehabilitation Technology; Autism Spectrum Disorders; Career, and Civic Life (C3) Teaching & Learning; Distance Education; Executive Educational Leadership; High Performance Coaching; Instructional Coaching; International Education; Leadership for Deeper Learning; Next Generation Teaching & Learning; Rehabilitation Counseling; Research Methods in Education; School Technology Leadership; Sport, Fitness, and Recreation Management; and Teaching in Culturally and Linguistically Diverse Classrooms.

### Graduate Programs Leading to Initial Educator Licensure

The following graduate level initial educator certification programs are available at the University of Kentucky: 1) graduate alternative certification program leading to certification in moderate/severe disabilities, grades P-12; 2) graduate level alternative certification program leading to initial certification in World Languages: Chinese, Japanese, French, German, Russian, Spanish, 3) master of arts in education with initial certification in secondary education, grades 8-12, English, mathematics, science (biology, chemistry, earth science, or physics), social studies; 4) Master of Science in Career and Technical education with initial certification, grades 5-12 (option in agriculture education); 5) master of science in communication disorders with initial certification, grades

P-12; 6) certification program in school psychology, grades P-12; and 7) master of arts in teaching world languages (with options in Chinese, Japanese, French, German, Latin, Russian, and Spanish), grades P-12.; 8), graduate program leading to initial certification in Learning and Behavior Disorders; 9) graduate program leading to initial certification in Interdisciplinary Early Childhood Education; and 10) Master of Science in Library Science leading to certification as a School Media Librarian.

For more information about programs, please visit the College of Education website at: <http://education.uky.edu/>.

### Graduate Alternative Certification Programs Leading to Initial Educator Licensure

Graduate Alternative Certification Programs leading to initial educator licensure are offered in the area of Moderate and Severe Disabilities P-12. Students who wish to enroll in a Graduate Alternative Certification Program must be employed in one of the participating school districts, and must meet the College of Education Admission, Retention and Completion standards, and the standards of the UK Graduate School. Graduate Alternative Certification Programs are three-year programs, including the Kentucky Teacher Internship Program. Additional alternative certification programs are under development and may become available at any time. Contact the Office of the Associate Dean for Academic and Student Services for more information.

### Special Facilities and Services

The **Education Library** provides a wide range of education materials, with over 400 journals and 100,000 books, plus children's literature and Kentucky state-approved textbook collections. In addition, major education databases are available through the library's website at:

<http://libraries.uky.edu/educ>.

The College's newly-formed **Kentucky P20 Innovation Lab: A Partnership for Next Generation Learning** gives students the chance to be part of transforming education to energize and empower today's students, who were born into a digital age. The Innovation Lab charges college students to play an active role in creating pathways that will lead to a love of learning for generations to come.

The **Center for Educator Preparation Information Systems** provides database and information system support for the College of Education. In addition, persons associated with the center engage in projects to make information systems technology more accessible to educator preparation programs nationally and in the Commonwealth.

The **Instructional Technology Center** provides media services to students, faculty, and programs of the College of Education. Services include computer classrooms, computer hardware and software support, presentation technol-

ogy, circulation of nonprint teaching materials and audiovisual equipment; a materials preparation laboratory; graphic, photographic, and recorded media; and facilities for working with films and electronic media. The staff is available to assist with a wide range of technology-related activities.

The mission of the **Office of Student Engagement, Equity and Diversity** is to enhance the academic experience of College of Education students through the development and management of co-curricular activities. The office partners with different units within the College of Education with the following goals: maintain a supportive and inclusive environment for College of Education students from the time of their enrollment through graduation; intellectually connect and engage students with all aspects of the College's programs and initiatives, the Lexington community, and beyond; create a vibrant community of discipline-specific student organizations that can provide all students with mentoring and support in their pursuit of professional careers and certificates; develop multiple paths for students to follow in pursuing personal, educational, leadership and professional growth; and provide opportunities for all students to participate in, experience and embrace diversity. All programs and activities supported by the Office of Student Engagement, Equity and Diversity are geared towards success of all students, regardless of race, nationality, gender, sexual orientation, geographical location, religion, and disability.

The mission of the **Institute for Educational Research** is to support faculty in identifying significant education and policy issues; encouraging individual, collaborative and interdisciplinary inquiry; locating external funding sources; preparing grant proposals and providing post-award management services.

The **Office of Higher Education Research and Development** conducts research on questions on higher education that are important to Kentucky. Research results are shared with the Council on Postsecondary Education and other institutions in Kentucky.

The **Biodynamics Laboratory** is a multidisciplinary facility housed in the Center for Biomedical Engineering. Faculty and students from Kinesiology and Health Promotion, Biomedical Engineering, Sports Medicine, Athletic Training, Minimally Invasive Surgery, and other related fields use high-speed videography, electromyography, and force measures to understand human movement.

The **Pediatrics Exercise Physiology (PEP) Laboratory** is one of only a handful of facilities in the world designed specifically to serve the needs of pediatrics patients. The PEP-Lab will provide a state of the art facility and resources for testing, physical training, and analysis of pediatric populations for research and clinical investigations.

The **UK Body Composition Core Laboratory (BCCL)** is a human-based laboratory facility specifically designed to provide state-of-the-

art body composition analysis for research and clinical investigations.

The **Collaborative Center for Literacy Development (CCLD)**, 120 Quinton Court, Suite 200, was established by the Kentucky General Assembly in 1998 to make available training in literacy for educators and to promote literacy development. The Center focuses on six requirements laid out in Senate Bill 186, to: provide professional development and coaching for classroom teachers to implement reliable research-based reading models; establish a demonstration and training site for early literacy at each of Kentucky's public universities; collaborate with public and private post-secondary institutions to provide quality pre-service and professional development in early reading instruction; assist districts located in areas with low reading skills to assess and address identified literacy needs; identify models of reading instruction supported by research; and develop and implement a clearing-house for information about reading models. The CCLD works to improve achievement for students pre-school through adulthood.

### General Information

Students who wish to be recommended for any state educator licensure (certification) must meet the requirements of the Kentucky Education Professional Standards Board, and the University of Kentucky Senate.

Students desiring to be recommended for initial certificates in a major must be admitted to the Teacher Education Program associated with that major. The number of students admitted to any UK teacher education program each year depends upon the availability of resources for maintaining quality instruction.

Admission to a teacher education program is highly selective and may be competitive. Meeting minimum requirements for application does not guarantee admission.

Students will be recommended for degrees only upon completion of approved degree programs. Students who have not been admitted to a teacher education program will not be permitted to enroll in courses requiring Teacher Education Program admittance.

## ADMISSION, RETENTION AND COMPLETION FROM TEACHER EDUCATION PROGRAMS

### Changes in Rules Governing Admission to Teacher Education Programs

Starting in fall 2012, the rules for admission to all teacher education programs in Kentucky have changed. All candidates for admission to any initial teacher education program are required to show an overall GPA of at least 2.75, or a 3.0 GPA in the last 30 hours taken (semester inclusive). Also, all candidates for admission to any initial teacher education program will need to demonstrate successful completion of the Praxis®

Core Academic Skills for Educators tests in reading, writing, and mathematics. Graduate students may substitute passing scores on the GRE for admission to teacher education.

A student must be admitted, retained in, and successfully complete a state-approved teacher education program in order to receive a teaching certificate. The components of an approved teacher preparation program include: 1) an earned bachelor's degree from a regionally accredited institution of higher education, 2) completion of approved teaching subject matter field(s), 3) successful completion of state mandated testing, 4) completion of a teacher preparation program, including student teaching, 5) and verification by program faculty that all applicable standards have been met.

The College of Education Certification Program Faculties, the College of Education Director of Academic Services and Teacher Certification, and the University Registrar are charged with the responsibility to monitor a student's progress through the teacher preparation program, and to recommend to the Kentucky Education Professional Standards Board (EPSB) that a successful candidate be awarded a state teaching license (certificate).

### SECTION 1: Overview

A student must be admitted, retained in, and successfully exit from a state-approved educator preparation program in order to receive a teaching certificate. The components of an approved teacher preparation program include:

1. an earned bachelor's degree from a regionally accredited institution of higher education,
2. completion of approved teaching subject matter field(s), e.g., approved majors, major equivalencies, minors, or support areas, as specified by the candidate's chosen program faculty,
3. completion of an educator preparation program, including the final clinical experience, e.g., student teaching,
4. and verification by program faculty that all applicable standards sets have been met.

The College of Education Educator Preparation Program Faculties, the College of Education Director of Academic Services and Teacher Certification, and the University Registrar are charged with the responsibility to monitor a student's progress through the educator preparation program, and to recommend to the Kentucky Education Professional Standards Board (EPSB) that a successful candidate be awarded a state teaching certificate.

### SECTION 2: Continuous Assessment

1. A candidate's progress through all educator preparation programs is continuously monitored, assessed, and reviewed. In addition to typical evaluation processes that occur as part of their coursework and

clinical experience placements, candidates will be assessed a minimum of three times during their program by representatives of their respective program faculty.

2. The candidate assessments will occur upon entry into the educator preparation program, at a midpoint in the program (no later than the semester prior to the final clinical experience, e.g., student teaching), and as candidates exit the program following the final clinical experience, e.g., student teaching. Assessments will include, but are not limited to: (a) appropriate scores on approved standardized tests, (b) review of grades via inspection of transcript, (c) personal and professional skills assessed during interviews with program faculty, throughout coursework, and during clinical experiences, (d) artifacts submitted by the candidate that demonstrate their ability to attain of standards, (e) continued adherence to the KY Professional Code of Ethics, and (f) documentation of the following skills: critical thinking, communication, creativity, and collaboration.
3. **Professional Growth Plan (PGP):** Following admission to an educator preparation program, if problems have been identified at any assessment point, program faculty will prepare a professional growth plan for the candidate which addresses the problems, identifies the scheme to implement the professional growth plan, and provides feedback and direction to the candidate.

### Section 2A: First Continuous Assessment Point – Admission to Educator Preparation Programs

1. A candidate's progress through all educator preparation programs is continuously monitored, assessed, and reviewed. The first continuous assessment point is admission to educator preparation (TEP). In addition to the general requirements for admission to educator preparation (TEP) listed below, candidates should carefully review the specific requirements of their individual programs.
2. Candidates for admission to educator preparation (TEP) must have completed at least 30 semester hours, or, if pursuing state teacher certification as a certification-only student or a graduate student, must have earned a bachelor's degree from a regionally accredited institution of higher education.
3. Candidates for admission to educator preparation (TEP) must demonstrate academic achievement by earning a minimum overall GPA of 2.75, or a GPA of at least 3.0 in the final semesters which include the last 30 hours of coursework. Candidates

seeking admission to a graduate-level educator preparation program must also satisfy UK Graduate School admission standards. The UK Graduate School requires an overall UG GPA of 2.75 as a minimum for unconditional admission to graduate programs. And, if the candidate has completed any graduate course work, a minimum graduate GPA of 3.0 is required. Candidates intending to use the “GPA of at least 3.0 on the final 30 hours option” should consult with their program’s Director of Graduate Studies for additional information. The UG GPA is taken directly from the transcript showing award of the undergraduate degree.

4. Candidates for admission to educator preparation (TEP) must certify their knowledge of the Kentucky Professional Code of Ethics and must sign a state mandated character and fitness review.
5. Candidates for admission to educator preparation (TEP) must demonstrate aptitude for teaching by presenting three letters of recommendation from individuals who can attest to the candidate’s potential success in teaching.
6. Candidates for admission to educator preparation (TEP) must demonstrate that they have reviewed and understand dispositions for teaching. At UK, these dispositions are encoded in the *UK Functional Skills and Dispositions Standards Set*. The UK Functional Skills and Dispositions are listed below:
  - a. The candidate communicates appropriately and effectively
  - b. The candidate demonstrates constructive attitudes
  - c. The candidate demonstrates ability to conceptualize key subject matter ideas and relationships
  - d. The candidate interacts appropriately and effectively with diverse groups of colleagues, administrators, students, and parents in educational settings.
  - e. The candidate demonstrates a commitment to professional ethics and behavior.
7. Candidates must present artifacts that demonstrate their ability to meet standards. In addition to items specified by the candidate’s program faculty, the candidate must provide documentation of the following skills:
  - a. Critical Thinking,
  - b. Communication,
  - c. Creativity, and

- d. Collaboration.
8. For those programs requiring educator preparation-related courses as a prerequisite for admission to educator preparation (TEP), candidates must complete these courses with a grade of C or better.
9. Candidates must undergo a formal interview with their educator preparation program faculty in which they will have the opportunity to discuss the artifacts that demonstrate their ability to meet standards, and engage in a dialog concerning their qualifications for admission to educator preparation (TEP).

**Section 2B: Testing Requirements for Admission to Educator Preparation Programs (TEP)**

1. All candidates for admission to a teacher education program at UK must demonstrate successful completion of the following pre-professional skills assessments of basic knowledge administered by the Educational Testing Service with the corresponding minimum scores:
  - a. The Praxis® Core Academic Skills for Educators: Mathematics test, with a minimum score of 150
  - b. The Praxis® Core Academic Skills for Educators: Reading test, with a minimum score of 156
  - c. The Praxis® Core Academic Skills for Educators: Writing test, with a minimum score of 162
2. Candidates for admission to a graduate level initial teacher education program (TEP) may demonstrate basic skills in the following manner:
  - a. Completion of the Praxis® Core Academic Skills for Educators tests: as in 1) a-c; or
  - b. Successful completion of the Graduate Record Exam (GRE) with the following corresponding scores:
    - i) Required minimum GRE scores for tests taken prior to August 1, 2011
      - (1) Verbal with a minimum score of 450
      - (2) Quantitative with a minimum score of 490
      - (3) Analytical Writing with a minimum score of 4.0
    - ii) Required minimum GRE scores for tests taken on or after August 1, 2011
      - (1) Verbal with a minimum score of 150

- (2) Quantitative with a minimum score of 143
- (3) Analytical Writing with a minimum score of 4.0

3. **Recency Requirements for Testing:** Candidates using the GRE must present GRE scores that are no older than five years. Candidates using the Praxis® Core Academic Skills for Educators (CORE) must present scores no older than 10 years. These recency requirements, adopted by the Kentucky Education Professional Standards Board correspond to the rules of the Educational Testing Service.

**Section 2C: Second Assessment Point – Retention of Candidates in Educator Preparation Programs**

1. The progress of candidates who have been admitted to an educator preparation program is continuously monitored. A retention review may be conducted at any time by the educator preparation program faculty, but is required no later than the semester prior to the final clinical experience, e.g., student teaching. In addition to the general requirements for the retention review listed below, candidates should continue to carefully review the specific requirements of their individual programs.
2. If at the time of admission to educator preparation (TEP), a professional growth plan was prepared for the candidate, progress on implementing the professional growth plan will be reviewed, and the plan will be updated as necessary.
3. Some of the items which are monitored in the retention review are:
  - a. Whether a candidate continues to earn grades of C or better in professional education classes;
  - b. Whether a candidate continues to maintain a 2.75 minimum GPA overall, or a minimum 3.0 GPA in the final semesters, including the last 30 hours;
  - c. Whether a candidate has demonstrated improved competence with the skills of communication, critical thinking, creativity, and collaboration;
  - d. Whether a candidate has demonstrated improved competence with the College of Education Functional Skills and Dispositions;
  - e. Whether a candidate continues to demonstrate adherence to the EPSB Professional Code of Ethics;
  - f. Whether adequate progress is being made toward meeting all required standards sets; and

- g. Whether adequate progress is being made toward completing subject matter coursework requirements for the candidate's chosen educator preparation program. If a review of the candidate's subject matter coursework identifies any problem areas, a professional growth plan will be developed to address the problems. Or, if the candidate already has a professional growth plan, it will be amended to include attention to subject matter coursework problems. (See Section 2, item 3)
4. Continued progress through the educator preparation program will be contingent on the results of the midpoint retention review. Following a retention review, candidates may be continued in good standing in the program, cautioned about identified problems which have been included in the professional growth plan, placed on probation in the program, or dropped from the program.
- If a candidate is placed on probation in the educator preparation program following a retention review, the time and conditions of the next review will be identified and communicated to the candidate by the Director of Academic Services and Teacher Certification.
  - If a candidate is dropped from the educator preparation program following a retention review, the Director of Academic Services and Teacher Certification will notify the candidate of this action. Candidates who have been dropped from an educator preparation program following a retention review may take no further professional education coursework in the program. (See Section 7, Appeals for additional information)
5. **Admission to the Final Clinical Experience, e.g., Student Teaching.** Admission to the final clinical experience, e.g., student teaching, requires a successful retention review and recommendation by the program faculty that the candidate be allowed to student teach.
6. **State Mandated Examinations for Teacher Certification.** The Kentucky Education Professional Standards Board (EPSB) requires that all applicants for a state teaching certificate present passing scores on the appropriate required PRAXIS 2 examinations. Although taking and passing the Kentucky mandated PRAXIS 2 examinations is not a requirement for completion of an educator preparation

program at UK, candidates are encouraged to complete the required state-mandated examinations prior to beginning student teaching so that the process of applying for and receiving a state teaching certificate can proceed in a timely manner. Candidates are encouraged to consult with their program faculties for advice on taking the required PRAXIS 2 examinations.

#### **Section 2D: Third Assessment Point – Completion of Educator Preparation Programs**

- The progress of candidates who have been admitted to an educator preparation program is continuously monitored. Each program faculty will conduct a completion review of all candidates, typically at the end of the final clinical experience, e.g., student teaching.
- All candidates for completion of an educator preparation program must continue to meet all standards for admission and retention at the time of program completion, including GPA requirements.
- Candidates must have completed the subject matter requirements for his/her chosen educator preparation program.
- Candidates must have successfully completed all professional education requirements for his or her program, including successful performance in the final clinical experience, e.g., student teaching.
- At program completion, all candidates must present final evidence for review (typically this includes required and optional artifacts that demonstrate attainment of standards) in the format designated by the candidate's program faculty.
- The program faculty must certify that a review of the final evidence and other pertinent documents has demonstrated that the candidate has met all of the required standards as a prerequisite to recommending the candidate for a state teaching certificate.

### **SECTION 3. GPA Rules for Educator Preparation Programs That Lead to a State Teaching Certificate**

#### **Section 3A: GPA Rules for Admission to an Undergraduate Educator Preparation Program**

Admission to an undergraduate educator preparation program shall require the following: A cumulative grade-point average of 2.75 on a 4.0 scale or a grade-point average of at least 3.00 on a 4.0 scale in the final semesters that include the last thirty (30) hours of credit completed. These will be taken directly from the most recent original transcripts supplied by the candidate.

#### **Section 3B: GPA Rules for Admission to a Graduate Level Educator Preparation Program**

Admission to a graduate level educator preparation program shall require the following: A bachelor's degree or advanced degree awarded by a regionally accredited college or university with a cumulative grade-point average of 2.75 on a 4.0 scale.

OR a grade-point average of at least 3.00 on a 4.0 scale in the final semesters that include the last thirty (30) hours of either undergraduate or graduate credit completed. This information will be taken directly from the most recent original transcript(s) supplied by the candidate. Candidates intending to use this "3.0 minimum GPA in the final semesters that include the last 30 hours of coursework" option should consult with their program faculty chair and the departmental Director of Graduate Studies concerning the use of this option for gaining admission to the UK Graduate School.

#### **Section 3C: Rules for Using of the "Final Semesters That Include the Last 30 Hours of Credit" Option**

If the candidate uses the "final semesters that include the last 30 hours of credit" option, the following procedure shall be used to calculate the last 30 hour GPA. The completed quality hours and quality points for each of the final terms that include the last 30 hours of credit shall be identified. The last 30 hours GPA shall be calculated using the statistics from the entire terms encompassing the last 30 hours. This means that in some instances, the number of hours used to calculate the last 30 hours GPA will be greater than 30.

#### **Section 3D: GPA Rules for Retention and Completion**

Candidates must maintain a minimum overall GPA of at least 2.75 for retention in the program. Candidates who used the "final semesters that include the last 30 hours of credit" rule for admission to the program may continue to calculate whether a 3.0 minimum GPA is being maintained at the time of the retention review (normally the two semesters prior to student teaching). Candidates who do not meet this requirement may not student teach.

Candidates must maintain a minimum overall GPA of at least 2.75 for completion of an educator preparation program. Candidates who used the "final semesters that include the last 30 hours of credit" rule for admission to the program may continue to calculate whether a 3.0 minimum GPA is being maintained at the time of the final completion review. Candidates who do not meet this requirement will not be considered to have completed the program, and may not be recommended for a state teaching certificate.

**Section 3E: The Rule of “No Grade Less Than C in Professional Education Courses”**

Candidates may have no grade less than C in any course defined in the program as being a part of the professional education component. Any professional education grades less than C must be retaken prior to the final clinical experience, e.g., student teaching.

**Section 3E.1: Special case of the rule “no grade less than C” for the Elementary Education Undergraduate Program.**

In addition to the rule in Section 3E, candidates in the Elementary Education Program must earn no grade less than “C” in both University of Kentucky Undergraduate *Bulletin* headings of Program Related Studies and Professional Education Requirements.

**Section 3F: Special GPA Rule Requiring a 2.75 GPA in Program Sub Areas**

Some programs require that candidates earn and maintain a 2.75 GPA in the majors, minors, support areas, and professional education course sequences as specified in the program curriculum description as approved by the UK Senate. The application of this rule means that candidates must demonstrate these 2.75 GPAs at the time of admission, retention, and completion of the program.

**Programs that the use of this special GPA rule are as follows:**

All STEM educator preparation programs, e.g., Mathematics Education, Science Education (all areas) and Computer Science Education.

**SECTION 4: Standards and Standards Sets in UK Educator Preparation Programs**

**Section 4A: All UK Educator Preparation Programs Are Standards-based**

All UK educator preparation programs are standards-based, requiring candidates to meet these standards before completing the program. Candidates are assessed on these standards at the three continuous assessment points: admission to educator preparation (TEP), prior to final practicum experiences e.g., student teaching, and at the program completion.

**Section 4B: There Are Three UK Required Core Standards Sets**

There are three core standards sets required for completion of all UK educator preparation programs. They are:

- Interdisciplinary Early Childhood Education Standards (IECE), or Kentucky Teacher Standards (whichever is appropriate for the candidate’s program.)
- College of Education Functional Skills and Dispositions
- College of Education Technology Standards

**Section 4C: Discipline (Subject) Specific Standards Also Required**

In addition to these three core standards sets, each candidate must demonstrate mastery of the subject specific standards set(s) associated with their individual program.

**SECTION 5: Policies on Clinical Experiences, Including the Final Clinical Experience, e.g., Student Teaching**

**Section 5A: General Policy on Intensive Clinical Experiences**

The University of Kentucky College of Education is committed to preparing candidates for the teaching profession who are effective, reflective leaders and decision makers. To that end, and in order to meet state teacher certification regulations and national accreditation requirements, educator preparation candidates complete an array of carefully planned clinical experiences. These experiences are systematically integrated into the educator preparation program curriculum. In order to ensure high quality experiences, the College has established a network of clinical sites where candidates complete clinical placements. These sites are part of the university’s extended campus known as the university clinical/field network. Sites are selected at the program level (i.e., by the program faculty that governs the curriculum for the particular educator preparation program). Selection decisions are made using specific criteria that are directly linked to program goals, accreditation standards, and certification requirements. All candidates are expected to complete their intensive clinical experiences, e.g., practica and the final clinical experience, e.g., student teaching in these approved clinical sites.

**Section 5B: General Rules for the Final Clinical Experience, e.g., Student Teaching**

A student may enroll in student teaching in one of the educator preparation programs provided he or she has:

1. been admitted to and retained in an educator preparation program;
2. maintained a grade-point standing of at least 2.75 overall or a minimum 3.0 GPA in the final terms that include the last 30 hours of coursework;
3. completed all professional education courses except the final clinical experience, e.g., student teaching;
4. completed a minimum of 75 percent of the required subject matter courses;
5. applied and been accepted for the final clinical experience, e.g., student teaching two semesters prior to the one in which student teaching is to be done;
6. completed the required national and state criminal background check with no criminal background identified;

7. been accepted by the school system and supervising teacher where he or she plans to do the final clinical experience, e.g., student teaching;
8. scheduled no more than 3 hours of college work to be carried during the final clinical experience, e.g., student teaching with no classes scheduled to interfere with the student teaching assignment; and
9. presented evidence of having had a specified physical examination.

**SECTION 6: Code of Ethics and Character and Fitness Reviews**

All students seeking admission to, retention in, or completion of a UK educator preparation program must complete a state mandated character and fitness review. In addition, students with records of misconduct beyond simple traffic violations must provide complete documentation of this misconduct, utilizing written procedures available in the office of Academic Services and Teacher Certification. Records of misconduct will be available for use by program faculties in making decisions about admission, retention, and completion of the program. Students must also complete any state-mandated background checks, which may include a national check of FBI records. By Kentucky statute, persons with records of serious legal misconduct are ineligible for student teaching, state teacher certification, or employment in the public schools. Students are responsible for completing all required background check procedures in a timely manner so that decisions about their movement through the program may be made.

**SECTION 7: Appeals**

1. The progress of all candidates in educator preparation programs is continuously reviewed and assessed at least three times: at the points of admission, retention, and completion of program. Candidates who are denied admission to an educator preparation program, not retained in the program, or denied completion of the program may appeal the decision of the program faculty. There are two grounds on which a candidate may appeal an unfavorable continuous assessment review: 1) a candidate may appeal if s/he has clear evidence that his/her rights to equal opportunity or due process were violated during the review process (i.e., evidence of discrimination on the basis of race, gender, sexual orientation, age, etc.) or 2) a candidate may appeal if there is new and substantial evidence pertaining to his/her review that was not available for Program Faculty consideration at the time the candidate applied and/or was reviewed (test scores were late or missing; transcripts were inaccurate, etc.). These are the only two grounds on which an appeal may be filed.

2. Any candidate considering an appeal of a program faculty decision at any of the required Continuous Assessment Review points is encouraged to first meet with the program faculty chair to discuss the program faculty's decision and to review grounds for the appeal.
3. If an appeal is to be made, candidates must request reconsideration of the program faculty's decision within 15 business days of the date on the letter notifying the candidate of an unfavorable continuous assessment review. The request for reconsideration must clearly state the grounds on which the appeal is made and demonstrate that one of the two conditions for appeal applies. Written requests should be presented to the program faculty chair, who will call a meeting of the program faculty to review the original decision. The program faculty chair will notify the Director of Academic Services and Teacher Certification of the faculty's decision, and the Director will notify the candidate in writing.
4. If the program faculty does not alter its initial decision, the candidate may use the same procedures and appeal to the Appeals Sub-committee of the Program Faculty Chairs Committee: Candidates wishing to appeal to the Program Faculty Chairs Appeals Sub-committee must present their request for sub-committee review to the Associate Dean for Academic and Student Services. The Associate Dean will assemble the necessary materials, call the sub-committee together to hear the appeal, and inform the candidate of the committee's decision. The program faculty chairperson for the applicant's program may not serve as a member of the Appeals Sub-committee that hears the case. The Associate Dean will notify the Director of Academic Services and Teacher Certification of the decision of the appeals sub-committee so that student records may be updated. For purposes of admission, retention, or completion of educator preparation programs, the decision of the Appeals Sub-committee of the Program Faculty Chairs Committee is final.
5. This policy addresses all faculty continuous assessment reviews of a candidate's progress through an educator preparation program, including admission to the program, retention reviews of progress through the program, and the final review for completion of the program.

#### **Interdisciplinary Early Childhood Education Birth to Primary Standards (IECE)**

1. Designs/plans instruction
2. Creates/maintains environments

3. Implements instruction
4. Assesses and communicates learning results
5. Reflects/evaluates professional practices
6. Collaborates with colleagues/families/others
7. Engages in professional development
8. Supports families
9. Demonstrates implementation of technology

#### **Kentucky Teacher Standards (KTS)**

1. The teacher demonstrates a current and sufficient academic knowledge of certified content areas to develop student knowledge and performance in those areas.
2. The teacher designs/plans instruction that develops student abilities to use communication skills, apply core concepts, become self-sufficient individuals, become responsible team members, think and solve problems, and integrate knowledge.
3. The teacher creates a learning climate that supports the development of student abilities to use communication skills, apply core concepts, become self-sufficient individuals, become responsible team members, think and solve problems, and integrate knowledge.
4. The teacher introduces/implements/manages instruction that develops student abilities to use communication skills, apply core concepts, become self-sufficient individuals, become responsible team members, think and solve problems, and integrate knowledge.
5. The teacher assesses learning and communicates results to students and others with respect to student abilities to use communication skills, apply core concepts, become self-sufficient individuals, become responsible team members, think and solve problems, and integrate knowledge.
6. The teacher uses technology to support instruction; access and manipulate data; enhance professional growth and productivity; communicate and collaborate with colleagues, parents, and the community; and conduct research.
7. The teacher reflects on and evaluates specific teaching/learning situations and/or programs.
8. The teacher collaborates with colleagues, parents, and other agencies to design, implement, and support learning programs that develop student abilities to use communication skills, apply core concepts, become self-sufficient individuals, become responsible team members, think and solve problems, and integrate knowledge.
9. The teacher evaluates his/her overall performance with respect to modeling and teaching Kentucky's learning goals, re-

finer the skills and processes necessary, and implements a professional development plan.

10. The teacher provides professional leadership within the school, community, and education profession to improve student learning and well-being.

#### **College of Education Skills and Dispositions**

1. Communicates appropriately and effectively
2. Demonstrates constructive attitudes
3. Demonstrates ability to conceptualize key subject matter ideas and relationships
4. Interacts appropriately and effectively with diverse groups of colleagues, administrators, students, and parents in educational settings
5. Demonstrates a commitment to professional ethics and behavior

#### **College of Education Technology Standards**

1. Integrates media and technology into instruction
2. Utilizes multiple technology applications to support student learning
3. Selects appropriate technology to enhance instruction
4. Integrates student use of technology into instruction
5. Addresses special learning needs through technology
6. Promotes ethical and legal use of technology disciplines

#### **Applying for Kentucky Educator Licenses**

The University of Kentucky offers programs for most initial and advanced professional educator licenses (certificates) issued by the Kentucky Education Professional Standards Board (EPSB). EPSB license requirements are subject to change by the EPSB at any time.

UK candidates for Kentucky professional educator licenses must submit all required application materials to Academic Services and Teacher Certification, 166 Taylor Education Building, Lexington, KY 40506-0001. Recommendations to the EPSB that an educator license be issued are based upon a final audit of all program completion requirements.

#### **GRADUATION REQUIREMENTS**

To graduate from the College of Education, a student must: 1) complete all specific program requirements as listed in this Bulletin; and 2) meet all requirements of the College of Education admission/retention/completion policy.

Because most students are pursuing both a UK degree and a state educator license (certificate), it is extremely important that advisors are consulted frequently to be sure that the best selection of courses is made to meet both requirements.

## Undergraduate Advising

Undergraduate advising is coordinated through Academic Services and Teacher Certification, 166 Taylor Education Building.

## DEPARTMENTS IN THE COLLEGE OF EDUCATION

### Curriculum and Instruction

The Department of Curriculum and Instruction offers both undergraduate and graduate programs. Undergraduate programs prepare teachers for early elementary, middle school, and secondary levels. Graduate programs include: advanced degrees in teaching at elementary, middle, and secondary levels; preparation for teaching at the college/university level; and preparation for instructional design roles in business and industry.

### Educational, School, and Counseling Psychology

The Department of Educational, School, and Counseling Psychology offers course work leading to provisional and standard certification and licensure in the Commonwealth of Kentucky, by the Education Professional Standards Board and the Kentucky Board of Psychology, respectively. The UK counseling and school psychology doctoral programs are fully accredited by the American Psychological Association (APA), and the doctoral and specialist degree programs in school psychology are approved by the National Association of School Psychologists (NASP) and the National Council for the Accreditation of Teacher Education (NCATE).

### Educational Leadership Studies

The Department of Educational Leadership Studies seeks to improve the quality of educational organizations through improved training and competence of leaders. The department is particularly mindful of its obligation to supply the needs of Kentucky for high quality leaders across a range of P20 organizations. Programs are offered at the Masters, Education Specialist, and Doctoral levels to meet a wide range of educational leadership needs as well as to meet specific requirements for a graduate certificate in school technology leadership, teacher leader endorsement, and certification for principals, supervisors of instruction, and superintendents of schools.

### Educational Policy Studies and Evaluation

The Department of Educational Policy Studies and Evaluation provides a unique opportunity for students who wish to develop the knowledge, judgment, and research skill required to address educational issues with flexibility and imagination. Students are offered the resources of historical, sociological, philosophical, and comparative analysis; knowledge of current educational issues; expertise in evaluation research; and the opportu-

nity to learn skills necessary to evaluate the significance of studies that bear on policy. The department offers advanced degrees only.

### Kinesiology and Health Promotion

The Department of Kinesiology and Health Promotion (KHP) offers undergraduate courses and degree programs in physical and health promotion education or exercise science. Students are encouraged to take one 1-credit physical education class each semester during the first two years of college.

The KHP Life Fitness program offers beginning instruction in both individual and team activities. In this program students have the opportunity to learn individual and team sports skills and/or improve their level of fitness. Currently 32 different courses are offered each year and over 1,200 students participate in the program. The classes are taught by members of the KHP Department and Department Graduate Teaching Assistants who possess expertise in the areas of health and physical education. Individual skill instruction is available in weight training, conditioning and fitness, golf, racquet sports, gymnastics, swimming, scuba diving, aerobic running and swimming, and dancing. Instruction in such team activities as basketball, soccer, volleyball, and softball is also available. In addition, intermediate and advanced courses in many of the activities are offered.

The kinesiology program is designed for students interested in teaching as well those interested in the application of knowledge and skills in kinesiology and health promotion in commercial settings. Students desiring teacher certification will complete one or more of the programs in kinesiology and health promotion described in this Bulletin. The department also offers a non-teacher certification kinesiology program in exercise science that many students pursue to prepare them for graduate programs within the medical and health field such as Physical or Occupational Therapy, Medical or Physician Assistant, Pharmacy, and also Dentistry.

The purpose of health promotion is to promote quality of life for all people. This area of study is interdisciplinary, extending into biology, psychology, sociology, and medicine. Health promotion generally focuses on the whole individual, including social and emotional dimensions, not just the physical. The primary focus of course work in health promotion is on teacher certification. Opportunities for health educators exist in community agencies, adult fitness programs, and health education programs in industry and business. The department offers a minor in health promotion that does not lead to teacher certification. The department also offers a minor in Coaching.

### Early Childhood, Special Education, and Rehabilitation Counseling

The Department of Early Childhood, Special Education, and Rehabilitation Counseling offers three different initial certification programs at the

undergraduate level: (1) interdisciplinary disability studies; (2) interdisciplinary early childhood education; and (3) special education.

The department offers graduate level programs leading to initial educator certification in learning and behavior disorders, moderate/severe disabilities, and interdisciplinary early childhood education. Students may also pursue the masters degree in rehabilitation counseling, and graduate advanced preparation in a variety of special education topics.

### STEM Education

The Department of Science, Technology, Engineering, and Mathematics (STEM) Education offers an undergraduate degree in STEM Education. The department also offers a Masters of Science degree in STEM Education. Our mission is to engage in scholarship, teaching, and service that is innovative and contributes to improving the quality of P20 science, technology, engineering, and mathematics education in the Commonwealth, the nation, and the world.

## DEGREE PROGRAMS IN THE COLLEGE OF EDUCATION

### B.A. in Education with a major in EARLY ELEMENTARY EDUCATION

#### Requirements for Program

The Early Elementary Education Program is aligned with the New Teacher Standards of the Kentucky Education Professional Standards Board, and the national standards for elementary education approved by the National Council for the Accreditation of Teacher Education.

The model for the early elementary education program presumes a collaborative relationship between school and university personnel focused on ensuring a high level of individual attention to the mentoring and socialization of teacher candidates. The faculty recognizes that this is a labor-intensive process, requiring sustained time and effort by all parties. Work in early elementary education must be guided by two principles: first, a commitment to continuous improvement based on reflection, evaluation, and on-going research; second, a commitment to peer collaboration as a source of professional growth for teacher candidates as well as school and university faculty.

To receive the B.A. degree in Early Elementary Education, students must: (1) complete the UK Core requirements; (2) complete the program related studies courses; and (3) complete the professional education component.

#### Continuous Assessment

1. Admission to the program is based on a selective admission process that generally occurs after students have completed at least 45 hours of university course work. All students are expected to meet the stan-

dards and rules for Admission, Retention and Completion from the Teacher Education Program as set forth in the section “Admission, Retention and Completion from Teacher Education Programs”.

2. **Assessment at the Point of Entry to the Early Elementary Education Program.** At the point of entry students must present an admission portfolio which includes the following: a) a “best piece” sample of writing which demonstrates ability to research a topic in some depth; b) evidence of multicultural/cross-cultural experience with written reflection on the experience; c) evidence of having completed 30 hours of community service with early elementary age children, including a written reflection on the experience; and, d) a written autobiography. Also at the time of entry, students will be required to complete an on-demand writing task.
3. **On-Going Assessment: Assessment During the Professional Introduction Semester.** Assessment of progress in the Professional Introduction semester includes assessment strategies specific to individual courses, but also includes an overall “Professional Introduction Portfolio.” This portfolio is intended to be an extension of the admissions portfolio, adding the following exhibits: a) philosophy of education statement (this will be modified as candidates move through the program); b) “best piece” samples from course work that show evidence of content knowledge, pedagogical content knowledge, and effective practice (given the students’ level of experience); and c) evidence of competence in instructional applications of technology and systems of information management.
4. **Assessment of Progress in the Professional Block.** This includes assessment strategies specific to individual methods courses that confirm content as well as pedagogical knowledge. It also includes some additional assessments. At the beginning of the semester, students’ Professional Introduction Portfolios are reviewed and placement needs are discussed. Once the semester begins, students are observed throughout the semester by their supervisor and are assessed using an observation form which directly reflects the New Teacher Standards. Students also submit videotapes of themselves teaching and an analysis of these as well as other lessons they have taught. The supervisors provide feedback on these lessons as well. The faculty also reviews students’ Professional Development Plans. Each student develops a Pro-

fessional Development Plan (PDP) in cooperation with UK faculty and school-based faculty. The PDP includes reflections on the student’s strengths and areas that need further work. This document serves as a planning tool for student teaching. Students also continue the development of their teaching portfolio, adding information that demonstrates competence on tasks related to the New Teacher Standards for each Professional Block course.

5. **Assessment During the Student Teaching Semester.** Students are assessed in a variety of ways during this semester. Student assignments include: observations reports, developing a thematic unit, critiquing their own teaching using videotapes, completing two solo weeks, and further developing their teaching portfolios.

### Statement on Student Teaching

Students in the early elementary education program complete 16-18 weeks of student teaching, concentrating on the ages in grades P-5. (See the section on “Student Teaching” above for additional information on student teaching.)

#### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete **UK Core requirements**. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

##### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ..... 3

##### II. Intellectual Inquiry in the Humanities

Choose one course from approved list ..... 3

##### III. Intellectual Inquiry in the Social Sciences

Choose one course from approved list ..... 3

##### IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

*EDC 433 Student Teaching in the Elementary School .....	12
†Course not recommended for ELED majors. *These courses require admission to the Teacher Education Program. **EDS 447 is no longer offered; EDS 547 (3 hours) is acceptable as a substitute course.	

#### Electives

Electives for 120 total credit hours chosen with the help of an advisor.

**TOTAL HOURS ..... 120**

**B.S. in Education with a major in  
HEALTH PROMOTION  
(Teacher Certification Program)**

**Requirements for Program**

The Department of Kinesiology and Health Promotion offers undergraduate courses and degree programs in kinesiology (physical education) and health promotion. These programs support the UK educator preparation unit's theme of Research and Reflection for Learning and Leading. The process of reflective decision-making is imbedded in the departmental philosophy that students learn best through experiencing. The Health Promotion Program is guided by the standards of the American Association of Health Education (AAHE) and the Kentucky New Teacher Standards.

The health promotion program ensures an understanding of and knowledge about the structure of the health promotion discipline through the content and methodology courses in sexuality education, drug education, human health and wellness, nutrition, and program planning in health education. The purpose of health promotion is to promote quality of life for all people. This area of study is interdisciplinary, extending into biology, psychology, sociology, and medicine. Health promotion generally focuses on the whole individual, including social and emotional dimensions, not just the physical.

The B.S. in Health Promotion requires completion of the following: (1) the UK Core requirements; (2) specified course work in Program Related Studies and Professional Education; (3) the health promotion major; and (4) completion of a university-approved minor. Students wishing to pursue certification both in health and kinesiology must follow the kinesiology program description.

**Continuous Assessment**

- All students in the health promotion program are expected to meet the standards and rules for Admission, Retention, and Exit from Teacher Education Programs as set forth in the section "Admission, Retention and Completion from Teacher Education Programs".
- The health promotion program stimulates higher performance goals for high-performing students by offering several modes of performance. Examples are: (a) skills in performing physical activities; (b) skills in writing and oral presentations in theory courses; (c) computer technological skills in some courses; and (d) leadership skills demonstrated by high-performing students who serve as class leaders, peer tutors, and/or assistant instructors.
- After admittance to the program, students not only must maintain a 2.75 GPA, they must continue to exhibit desirable professional characteristics to remain in the pro-

gram. Students who demonstrate a lack of commitment, effort, professional behavior, knowledge, or teaching skills may be removed from the program until these characteristics are demonstrated.

**Statement on Student Teaching**

Students who are majoring in Health Promotion will enroll in:

KHP 371 Student Teaching in Health Education ..... 12

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete **UK Core requirements**. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**TOTAL HOURS ..... 128**

**B.S. in Education with a major in  
HEALTH PROMOTION  
(Non-Teaching Certification Program)**

### Requirements for Program

The Department of Kinesiology and Health Promotion offers undergraduate courses and degree programs in kinesiology (exercise science and physical education) and health promotion. The health promotion program includes two tracks (health promotion non-teaching certification and health promotion teaching certification).

Students with the degree in Health Promotion non-teaching certification will be eligible to take the Certified Health Education Specialist (CHES) exam, apply to graduate schools in health related areas of study, seek employment in hospitals, health departments, worksite wellness, state or national agencies and organizations, or other similar settings.

Health promotion is the process of enabling people to increase control over, and to improve, their health. It moves beyond a focus on individual behavior towards a wide range of social and environmental interventions. The purpose of health promotion is to promote quality of life for all people. This area of study is interdisciplinary, extending into biology, psychology, sociology, and medicine. Health promotion generally focuses on the whole individual, including social and emotional dimensions, not just the physical. The Health Promotion track 2 is guided by the standards of the National Commission for Health Education Credentialing (NCHEC).

The B.S. in Education with a major in Health Promotion (non-teaching certification) requires completion of the following: (1) the UK Core requirements; (2) specified course work in Program Related Studies and Health Promotion course requirements; (3) practicum internship hours; and (4) completion of a university-approved minor.

### Probation, Dismissal and Reinstatement Policy

An undergraduate health promotion major may be dismissed from the College of Education Kinesiology and Health Promotion Department for failure to make satisfactory progress. In the KHP program, the college continuously monitors the progress of all KHP students. Consistent with University regulations and the College of Education, requirements are that KHP programs have policies for terminating a student's enrollment for reasons of academic and professional performance.

The following rules apply in the College of Education, Kinesiology and Health Promotion Department, Health Promotion major (non-teaching certification).

### Academic Performance

1. All students in the health promotion track 2 will enter the major with lower-division standing.

2. Students must take KHP 230, ANA 209 and PGY 206 or ANA 109 and ANA 110, and BIO 103 to be admitted to upper division standing.
3. At 45 hours, students will have to have taken the courses listed above and have an overall **2.2** grade-point average (GPA) to be admitted to upper division standing.
4. For students in the nonteaching health promotion major (track 2), these courses will be restricted to those who have upper division standing: KHP 325, 330, 420G, 520, 509, and 590. Students who are enrolled in the minor in health promotion and students taking these courses as electives will still be allowed to enroll in the courses.
5. Students will fill out a brief application form to gain upper division status and turn this form in to their advisor. KHP advisors in the College of Education will assume responsibility to review students' transcripts to determine if students should gain upper division status.
6. A 3-person appeals committee of Health Promotion faculty will be established to determine standards for accepting students who may have extenuating circumstances and to review appeals.
7. Once admitted to upper division status, students will be required to maintain a **2.2** GPA. Should their GPA drop below a **2.2**, they would have one semester to bring their GPA up to a **2.2**. If that does not occur, the student will no longer be in the program.
8. After admittance to the program, students must not only maintain a **2.2** GPA, they must continue to exhibit desirable professional characteristics to remain in the program. Students who demonstrate a lack of commitment, effort, professional behavior, and knowledge may be removed from the program until these characteristics are demonstrated.

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

HSP 255 Medicine, Health, and Society ..... 3

KHP 509 Workshop in Health and Safety

(can be retaken for up to 6 hours, topic varies) ..... 6

### Free Elective (2-3 hours)

Students must take one free elective.

**Minor (18-21 hours)**

One or more university approved minors (18-21 hours).  
**Note:** University approved minors outside the College of Education must be planned with an advisor in the appropriate college.

**TOTAL HOURS** ..... 120-126

### B.A. in Education with a major in INTERDISCIPLINARY DISABILITY STUDIES

The B.A. degree in Interdisciplinary Disability Studies (IDS) prepares students for service provision through the use of evidenced-based practices; and also prepares students who may be interested in matriculating to graduate level education, in areas such as Rehabilitation Counseling and Social Work.

**Applying to the Program**

In the spring of their sophomore year (e.g., 45 hours), students are required to formally apply for entry into the program, requiring an admission GPA of **2.5** in the following courses: PSY 100, SW 124, EDP 202, RC 250, RC 300, PSY 223. Upper division coursework is restricted to those who have been admitted to upper division status.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

*\*\*Students may enroll only in those sections with the following*

*subtitles: Family Violence; Victimology; Mass Incarceration;*

*Substance Use and Society.*

**Subtotal: Guided Electives** ..... 27

**Practicum**

Students in the Interdisciplinary Disability Studies program are required to complete a practicum in the community, outside of the traditional classroom setting. This ensures that students are exposed to real-life agencies, populations, situations and circumstances to which they will demonstrate skill proficiency and applied knowledge. Evening classes have been traditionally offered in Master's of Rehabilitation Counseling programs across the nation, as many students in this field work during the day. For this reason, students taking courses at the Rehabilitation Counseling 500 level may be required to take mixed graduate/undergraduate classes in the evening.

**Free Electives**

Select 12 credits of free elective classes of your choice.

**Subtotal: Free Electives** ..... 12

**TOTAL HOURS** ..... 120

## B.S. in Education with a major in INTERDISCIPLINARY EARLY CHILDHOOD EDUCATION

### Requirements for Program

Early Childhood Education is an interdisciplinary program which will prepare educators to work with children birth through age five, in public pre-primary classes and non-public institutions including day care, private preschool, and private kindergarten. The program is approved by the Kentucky Education Professional Standards Board to prepare graduates to seek a state teaching certificate in Interdisciplinary Early Childhood Education.

The faculty of the Interdisciplinary Early Childhood Education program are associated with the Department of Early Childhood, Special Education, and Rehabilitation Counseling. The faculty believe that teaching young children involves viewing children holistically, using structured behavioral approaches. They recognize that viewing children holistically requires considering all of the various settings of children's environment (e.g., home, school, and neighborhood) as well as the reciprocal relationship between any two of the following variables: the immediate context the child is active in, the individual child, and all aspects of the child's environment (including people). In the Interdisciplinary Early Childhood Education program, students will learn to apply behavioral principles for purposes of developing curricula, assessing child behavior, planning, implementing, and monitoring interventions, and assisting families. The program is guided by the standards of the National Association for the Education of Young Children, and the Division of Early Childhood of the Council For Exceptional Children.

To receive the B.S. degree in Education with a major in Interdisciplinary Early Childhood Education, students must: (1) complete the UK Core requirements; (2) complete the premajor requirements; and (3) complete requirements for the Interdisciplinary Early Childhood Education major, including required student teaching experiences and other practica. To be state-certified, candidates must also successfully complete all state-mandated testing requirements.

### Continuous Assessment

- All students in the interdisciplinary early childhood education program are expected to meet the standards and rules for Admission, Retention, and Exit from Teacher Education Programs as set forth in the section "Admission, Retention and Completion from Teacher Education Programs".
- Assessment at the Point of Entry to the IECE Program.** The admission process provides the first point for formal assessment of the competencies outlined in the Initial Certification Program Folio for the program. Students who apply for admission

must (a) meet the requirements for admission to the Teacher Education Program, and (b) be able to articulate their philosophy of teaching and document their experiences with young children in an initial portfolio and an entrance interview.

- On-going Assessment.** Once a student is admitted to the program, he/she meets with an advisor to plan the remainder of the program. Prior to the student teaching semester, the student must present a portfolio that documents his/her progress toward meeting program competencies.
- Completion Assessment.** At the exit assessment, students must document that they have met all program competencies through a final review of their portfolio and the successful completion of student teaching in an appropriate school placement for young children with and without disabilities.

### Statement on Student Teaching

Student teaching in the Interdisciplinary Early Childhood Education program is 16-18 weeks. Students will enroll in:

IEC 411 Student Teaching in Interdisciplinary Early Childhood Education .....	12
---	----

### Degree Requirements

Students in Interdisciplinary Early Childhood Education must complete the following:

- Complete the UK Core requirements.
- Complete all degree requirements.
- Complete the required curriculum in the major program.
- All students majoring in Interdisciplinary Early Childhood Education must apply and be admitted to the professional Teacher Education Program in order to complete the program.

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

All students in Interdisciplinary Early Childhood Education must apply, and be admitted to, and be retained in a Teacher Education Program (TEP), and complete a state approved university teacher training program in Early Childhood Education to be able to apply for certification. Students who are interested in certification in Early Childhood Education need to meet with a certification officer in the College of Education **prior** to completing 60 semester hours to discuss state certification and TEP requirements. A minimum 2.75 cumulative GPA is required to be eligible to apply for admission to TEP. TEP applications will be reviewed for students who have completed, or will complete during the semester in which they apply, 60 semester hours, including EDP 202, EDS 375, IEC 255, and IEC 256 with a grade of C or better.

**B.S. in Education with a major in KINESIOLOGY  
 (Teacher Certification Program)**

**Requirements for Program**

The Department of Kinesiology and Health Promotion offers undergraduate courses and degree programs in kinesiology (physical education) and health promotion. These programs support the UK educator preparation unit’s theme of Research and Reflection for Learning and Leading. The process of reflective decision-making is imbedded in the departmental philosophy that students learn best through experiencing. The kinesiology program is guided by the standards of the National Association for Sport and Physical Education (NASPE), and the Kentucky New Teacher Standards.

The kinesiology program ensures an understanding of and knowledge about the structure of physical education through the content courses of anatomy, physiology, kinesiology, exercise physiology, and nutrition. Application of this knowledge is demonstrated in physical education to ensure discipline knowledge for teaching.

The B.S. in Kinesiology requires completion of: (1) the UK Core requirements; (2) specified course work in Program Related Studies and Professional Education; and (3) one of the kinesiology plans. All kinesiology students are encouraged to complete Plan 1, which includes majors in kinesiology and health promotion, so that on graduating they will be qualified to pursue state teaching certification in physical education and health, grades P-12. In addition, students who choose to major in either kinesiology or health promotion **only**, must pick up a university-approved minor, and are only certified to teach in the single discipline selected.

**Continuous Assessment**

1. All students in the kinesiology program are expected to meet the standards and rules for Admission, Retention, and Exit from Teacher Education Programs as set forth in the section “Admission, Retention and Completion from Teacher Education Programs”.
2. The kinesiology program stimulates higher performance goals for high-performing students by offering several modes of performance. Examples are: (a) skills in performing physical activities; (b) skills in writing and oral presentations in theory courses; (c) computer technological skills in some courses; and (d) leadership skills demonstrated by high-performing students who serve as class leaders, peer tutors, and/or assistant instructors.
3. After admittance to the program, students not only must maintain a 2.75 cumulative GPA, they must continue to exhibit desirable professional characteristics to remain in the program. Students who demonstrate a lack of commitment, effort, professional behavior, knowledge, or teaching skills may be removed from the program until these characteristics are demonstrated.

**Statement on Student Teaching**

Students who are majoring **only** in kinesiology will enroll in:

KHP 369 Student Teaching in Physical Education ..... 12

Students who are completing a major in both kinesiology and health promotion will enroll in:

KHP 369 Student Teaching in Physical Education ..... 6  
**and**  
 KHP 371 Student Teaching in Health Education ..... 6

In this situation, student teaching time will be divided between the high school, middle school, and elementary grades, with student teaching supervision occurring cooperatively between the kinesiology and health promotion faculty.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

 Kinesiology major (33 hours) and Health Promotion major (30 hours)

**Plan 2**  
 Kinesiology major (33 hours) and one or more university approved minors (18-21 hours). **Note:** University-approved minors outside of the College of Education must be planned with an advisor in the appropriate college if the student wishes to have the minor appear on his/her transcript.

**Major in Kinesiology (33 hours)****Performance Area Courses (9 hours)**

	<b>Hours</b>
KHP 156 Educational Gymnastics .....	1
KHP 157 Track and Field .....	1
KHP 210 Introduction to Fitness (Subtitle required) .....	2
KHP 250 Team Sports (Subtitle required) .....	2
KHP 260 Individual Sports (Subtitle required) .....	2
KHP 162 Outdoor Education Through Activities .....	1

**Content Area Courses (24 hours)**

	<b>Hours</b>
KHP 200 The History and Philosophy of Physical Education and Sport .....	3
KHP 300 Psychology and Sociology of Physical Education and Sport .....	3
KHP 390 Dance Activities for Schools .....	2
KHP 415 Biomechanics of Human Movement .....	4
KHP 420G Physiology of Exercise .....	3
KHP 445 Introduction to Tests and Measurements .....	3
KHP 579 Adapted Physical Education .....	3
EDC 533 Teaching Literacy Across the Disciplines .....	3

**Major in Health Promotion (30 hours)**

	<b>Hours</b>
KHP 190 First Aid and Emergency Care .....	2
KHP 220 Sexuality Education .....	2
KHP 222 Drug Education .....	2
KHP 230 Human Health and Wellness .....	3
KHP 270 Introduction to Health Education and Health Promotion .....	3
KHP 310 Applied Health Education Practice .....	3
KHP 330 Planning and Implementing Health Education Programs .....	3
KHP 445 Introduction to Tests and Measurements .....	3
KHP 590 Advanced Health Concepts .....	3
Choose at least 6 hours from the following courses:	
KHP 240 Nutrition and Physical Fitness .....	3
KHP 395 Independent Study in Kinesiology and Health Promotion .....	3
*KHP 509 Workshop in Health and Safety .....	1-3
BSC 331 Behavioral Factors in Health and Disease .....	3
FAM 352 Issues in Family Sciences .....	3
HSM 250 Introductory Epidemiology .....	3
CPH 201 Introduction to Public Health .....	3

\*May be repeated under different topic names for up to 3 credit hours.

**Electives**

Electives for 120 total credit hours chosen with the help of an advisor.

**TOTAL HOURS** ..... 120

**B.S. in Education with a major in KINESIOLOGY (Non-Teacher Certification Program in Exercise Science)**

**NOTE:** At the time of publication, the following program in Kinesiology (Non-Teacher Certification Program in Exercise Science) had been provisionally approved by the University Senate; formal approval is expected in fall 2019.

**Requirements for Program**

The Department of Kinesiology and Health Promotion offers undergraduate courses and degree programs in kinesiology and health education. The kinesiology program (exercise science

option) leads to employment opportunities in the athletics, sports and fitness industries, as well as professional programs in health fields such as Physical Therapy, Physicians Assistant, Occupational Therapy, Medicine, Dentistry, and Pharmacy. The kinesiology program is guided by the standards of the National Association for Sport and Physical Education (NASPE).

The B.S. in Kinesiology requires completion of: (1) the UK Core requirements; (2) specified course work in program related studies, professional kinesiology requirements, education course requirements; (3) practicum internship hours; and (4) specified course work in exercise science.

**Continuous Assessment**

1. The kinesiology program stimulates higher performance goals for high-performing students by offering several modes of performance: (a) skills in performing physical activities; (b) skills in writing and oral presentations in theory courses; (c) computer technological skills in some courses; and (d) leadership skills by high-performing students are often used in classes through class leaders, peer tutors, and/or assistant instructors.
2. Students must maintain a 2.0 GPA for retention in and exit from the program with a bachelor's degree. Students who demonstrate a lack of commitment, effort, professional behavior, knowledge, or disciplinary skills, or who have not maintained the necessary GPA overall and in the major courses may be removed from the program and the college.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

Choose one course from approved list ..... 3

**II. Intellectual Inquiry in the Humanities**

Choose one course from approved list ..... 3

**III. Intellectual Inquiry in the Social Sciences**

PSY 100 Introduction to Psychology ..... 4

**IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences**

BIO 103 Basic Ideas of Biology ..... 3

**V. Composition and Communication I**

CIS/WRD 110 Composition and Communication I ..... 3

**VI. Composition and Communication II**

CIS/WRD 111 Composition and Communication II ..... 3

**VII. Quantitative Foundations**

Choose one course from approved list ..... 3

**VIII. Statistical Inferential Reasoning**

STA 210 Making Sense of Uncertainty:  
An Introduction to Statistical Reasoning ..... 3

**IX. Community, Culture and Citizenship in the USA**

Choose one course from approved list ..... 3

**X. Global Dynamics**

Choose one course from approved list ..... 3

**UK Core hours** ..... 31

**Graduation Composition and Communication Requirement (GCCR)**

KHP 300 Psychology and Sociology of Physical Education and Sport ..... 3

**Graduation Composition and Communication Requirement hours (GCCR)** ..... 3

**Premajor Requirements**

1. All students who declare exercise science as their major will be accepted with pre-major status.
2. All exercise science students will be required to take a minimum of 45 credit hours and complete the following courses (i.e., 400/500 level): ANA 209 and PGY 206 or ANA 109 and ANA 110; MA 109 or math ACT score of 25 or above; CHE 104 or 105. Upon completion of these requirements, students must have at least a 2.0 cumulative GPA to enroll in 400/500 level KHP courses (listed below).
3. Specific upper division level courses will be restricted so that only students who have been granted major status, graduate students, and students required to take the restricted courses as part of other University certificates, minors, and programs (e.g., Nutrition for Human Performance Certificate) will be allowed to enroll in those courses. The restricted classes are KHP 415, KHP 420G, KHP 445, KHP 450, KHP 473 and KHP 577.
4. A 3-person appeals committee of Exercise Science faculty will be established to determine standards for accepting students who may have extenuating circumstances and evaluate appeals to remain in the Program if students do not meet minimum major requirements. In addition, academic advisors and/or the Appeals Committee will review applications and transcripts of students transferring to the Exercise Science major (non-teacher education major). Transfer students will be required to complete the following courses (ANA 209 and PGY 206 or ANA 109 and ANA 110; MA 109 or math ACT score of 25 or above; CHE 104 or 105), complete a minimum of 45 credit hours, and maintain a cumulative 2.0 GPA prior to obtaining major status or be provided with an override by the Appeals Committee in special circumstances, and thus being able to register in KHP 415, KHP 420G, KHP 445, KHP 450, KHP 473 and KHP 577. Transfer students may complete the equivalent of the required courses at another academic institution. Transfer students are responsible for obtaining and submitting the syllabi of those courses to the academic advisor unless ex-

isting established transfer equivalency can be found on the official University of Kentucky Transfer Equivalency Database.

5. Students will complete a brief application form to be accepted into the major. Students who meet all premajor requirements will be admitted to the major, pending verification of all premajor requirements. Forms will be submitted to their assigned advisor. The KHP advisors in the College of Education will be responsible for reviewing students' transcripts to determine if students have achieved major status.
6. Once admitted to major status, students will be required to maintain a 2.0 cumulative grade-point average (GPA). Students whose cumulative GPA falls below 2.0 or who have two consecutive term GPAs below 2.0 will be placed on academic probation by currently existing university rules. A student who is placed on academic probation will retain major status (and be able to enroll in restricted courses) for one semester. If the student's cumulative GPA does not raise to 2.0 after one semester, the student will be removed from major status (thus not able to enroll in the restricted courses). Students who are placed on academic probation may take other University or unrestricted KHP courses to raise their GPA to 2.0 or higher and re-apply to obtain major status. In the case of academic probation due to an insufficient GPA, the process will involve the KHP Advisor notifying the Program Director which students do not meet the minimum cumulative GPA requirement (2.0). An academic advisor will contact the student and notify him/her of their probationary status. The student may appeal the probationary major course restriction by meeting with the Appeals Committee to state their case. Following this meeting an academic advisor or the Appeals Committee will provide a written decision for the student.
7. After admittance to the program, students not only must maintain a 2.0 cumulative GPA, they must continue to exhibit desirable professional characteristics to remain in the program. Students who demonstrate a lack of commitment, effort, professional behavior, and knowledge may be removed from the program until these characteristics are demonstrated.

**Premajor Requirements**

ANA 109 Anatomy and Physiology for Nursing I	
<b>or</b>	
ANA 209 Principles of Human Anatomy	3-4
CHE 104 Introductory General Chemistry	
<b>or</b>	
CHE 105 General College Chemistry I	3-4

KHP 547 Psychology of Sport and Physical Activity	3

**B.A. in Education with a major in MIDDLE LEVEL EDUCATION**

**Program Description**

The Middle Level Teacher Education Program supports the UK educator preparation unit's theme of Research and Reflection for Learning and Leading. The program emphasizes the development of professionally trained specialists in teaching early adolescents. As such, the program models team teaching and collaborative learning. Active learning experiences are emphasized, as are real-world connections. Throughout the program, students are encouraged to consider their present position and make plans for improvement. Students are urged to gather data continuously and to use this data in planning effective instruction. Students are required to provide questions for reflection when writing lessons they do not teach and to provide reflective summaries as part of lesson plans which are delivered to students. Students are provided time and resources to revise and improve curricular materials they develop within the program. Students assess their own progress through the program's curriculum, preparing them for the continuous self-assessment required of practicing professionals.

To receive the B.A. degree in Middle Level Education, students must: (1) complete the UK Core requirements; (2) complete all required program-related studies and the professional education course sequence; and (3) complete the content area requirements in each of two areas of specialization. Available content specialization areas are: English and Communication, Mathematics, Science, and Social Studies.

**Continuous Assessment**

- All middle level education students are expected to meet the standards and rules for Admission, Retention and Completion from Teacher Education Programs as set forth in the section “Admission, Retention and Completion from Teacher Education Programs”.
- Assessment at the Point of Entry to the Middle School Program.** The admission process provides the first point for formal assessment of the competencies outlined by the standards documents which guide the middle level education program. Basic skills standards must be met and students must be making satisfactory progress towards professional and content area proficiency.
- On-going Assessment.** Once a student is admitted to the program, he/she meets with an advisor to plan the remainder of the program. The focus of this initial advising session is to begin a professional development plan which ensures that all standards will be met by program completion.
- Completion Assessment.** At the completion assessment, students must show competency in all relevant standard areas. This is done through a final review of the eligibility portfolio, review of information provided by the cooperating teacher and university supervisor, and documentation of remediation of any weaknesses noted at the formal review in the methods semester.

**Statement on Student Teaching**

Middle level certification requires students to be certifiable in two academic subject areas, which requires two student teaching placements spread across the final two semesters: 6 hours in the second-to-last semester, and 9 hours in the final semester. Students seeking Middle Level certification will register for:

EDC 549 Student Teaching in the Middle School ..... 15

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

**Professional Education Courses (40 hours)**

The National Middle School Association (NMSA) describes six broad areas of competence for middle grades teachers. These are: (1) early adolescent development, (2) middle grades curriculum, (3) middle grades instruction, (4) middle grades school organization, (5) families and community relations, and (6) middle grades teaching roles. With the support of a liberal arts foundation provided by the UK Core requirements and the content area knowledge provided by the requirements detailed above, the professional education requirements of the program endeavor to provide a firm foundation in each of these six areas.

Middle Level Education ..... 3

EDC 549 Middle Level Student Teaching ..... 3-15

\*A total of four courses – two in each of the two selected content areas – must be completed from this group.

**Content Area Courses (18-27 hours)**

Students wishing to become certified in middle level (grades 5-9) must select two of the following content areas of specialization. Course requirements, particularly in the areas of English and Communication and Mathematics, have been prioritized to reflect prerequisite knowledge. Students should plan course work in these areas with the assistance of an advisor.

**English and Communication (24 hours)**

EDC/ENG 509 Composition for Teachers ..... 3

ENG 230 Introduction to Literature

(Subtitle required) ..... 3

ENG 330 Text and Context (Subtitle required) ..... 3

ENG 251 Survey of American Literature I ..... 3

for Young Adults ..... 3

LIN 211 Introduction to the Study of Language ..... 3

LIN 317 Language and Society (Subtitle required) ..... 3

**Mathematics (25 hours)**

The requirements for students choosing mathematics as a content area of specialization are based on standards developed by the National Council of Teachers of Mathematics, *KERA Goals and Academic Expectations*, and the *Core Content for Assessment*. The NCTM standards for middle grades include four common threads (reasoning, communication, problem solving, and connections) as well as content area standards of number, computation and estimation, probability, statistics, algebra, geometry, and measurement. Kentucky's *Goals and Academic Expectations* and the *Core Content for Assessment* focus mathematics instruction on seven core areas: number, mathematical procedures, mathematical structure, measurement, space and dimensionality, change, and data.

**Required**

MA 201 Mathematics for Elementary Teachers ..... 3

MA 202 Mathematics for Elementary Teachers ..... 3

MA 308 Mathematical Problem Solving

For Middle School Teachers ..... 3

MA 241 Geometry for Middle School Teachers ..... 3

MA 162 Finite Mathematics and Its Applications ..... 3

STA 296 Statistical Methods and Motivations ..... 3

MA 113 Calculus I ..... 4

MA 261 Introduction to Number Theory ..... 3

**Science (27 hours)**

The content area preparation required for students in the middle school education program is based on the standards adopted by the National Science Teacher's Association as well as Kentucky's *Core Content for Science Assessment* and the *New Teacher Standards*. It is important that science teachers have strong content preparation in the sciences. This is needed to communicate modes of scientific inquiry, select appropriate learning experiences, guide students in their early scientific efforts, and help students apply scientific knowledge and skills in their daily lives.

**TOTAL HOURS** ..... 120

### B.A. in Education with a major in SECONDARY EDUCATION

#### Option: English Education

**Requirements for Program**

This B.A. includes completion of an approved plan in the academic specialty teaching of English. **No teacher certification is awarded with the B.A.** Students desiring to go on to Master's with Initial Certification must apply to the Graduate School and apply to the Secondary English Program Faculty in the spring of their senior year.

To receive the B.A. degree, students must: (1) complete the UK Core requirements; (2) complete the requirements for secondary English education; (3) major course work, support area, and related studies; and (4) complete 100 hours of fieldwork with adolescents through the **required** three hour course:

EDC 362 Field Experiences in Secondary Education .....	3
--	---

In 1996, the National Council of Teachers of English and the International Reading Association published *Standards for the English Language Arts*. This document identified six English language arts: reading, writing, speaking, listening,

viewing, and visually representing. In addition, it presented an expanded definition of literacy, which reflects the ways technology and society have changed and will continue to change the ways in which we use language to communicate and to think. In order to prepare students for the literacy demands of today and tomorrow, English language arts education will need to address many different types and uses of language, including those that have traditionally been given limited attention in the curriculum. One such example is spoken language. Being literate in contemporary society means being active, critical, and creative users not only of print and spoken language but also of the visual language of film, television, photography and other media. Therefore, the content model should reflect the study of language and literacy through speech, theater, writing, and media. The English education program prepares its pre-service teachers with such a model so that their students will succeed as effective language learners and users, equipped with the skills they need to become critically literate citizens, workers, members of society, and lifelong learners.

**Continuous Assessment**

1. Because certification occurs through the Masters in Education including certification (MIC), students should be aware that they will need to be formally admitted to the MIC program. Admission/Retention/Completion regulations for all teacher certification programs are specified in the section "Admission, Retention and Completion from Teacher Education Programs".
2. Oral and written communication skills of applicants for the MIC program in English Education will be assessed at the time of the interview, and through the entrance portfolio.
3. At the time of application to the English Education program at the Master's degree level, applicants are evaluated according to the following criteria: grade-point average, quality of work in the subject content area, Graduate Record Examination scores, graded and on-site writing tasks, verbal communication, quality of references, commitment to teaching, social awareness, educational experiences with diverse learners 14-18 years old, and multicultural experiences.

**Statement on Student Teaching**

There is no student teaching required for completion of the Secondary English Education major. Student teaching occurs as part of the Masters in Education with initial certification.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**Support Area** (18 hours)

A minimum of three hours credit is required in each of the four areas: journalism, theatre, speech and fine arts, which English teachers will be qualified to teach in Kentucky. In one of the areas, to be selected with the aid of an advisor, a minimum of 9 hours is required.

The following courses are recommended; courses with two asterisks (\*\*) are highly recommended:

**Journalism**

**JOU 101 Introduction to Journalism .....	3
JOU 204 Writing for the Mass Media .....	3
**JOU 303 News Editing .....	3
**JOU 330 Web Publishing and Design .....	3
JOU 387 Photojournalism I .....	3
JOU 455 Mass Media and Diversity (Subtitle required) .....	3
**JOU 460 Journalism in Secondary Education .....	3

**Theatre**

**TA 126 Acting I: Fundamentals of Acting .....	3
**TA 150 Creativity and the Art of Design and Production .....	3
TA 267 Lighting and Sound Technology .....	3
**TA 330 Theatre Directing I .....	3
TA 365 Costume Design .....	3
TA 367 Lighting Design .....	3
TA 374 Scene Design .....	3
TA 385 World Theatre I .....	3
TA 386 World Theatre II .....	3

**Communications**

**COM 181 Basic Public Speaking .....	3
COM 249 Mass Media and Culture .....	3
COM 252 Introduction to Interpersonal Communication .....	3
**COM 281 Communication in Small Groups .....	3

**COM 287 Persuasive Speaking .....	3
**COM 482 Studies in Persuasion .....	3
**COM 584 Teaching of Communication .....	3

**Fine Arts**

**A-H 105 World Art Before 1400 .....	3
**A-H 106 Renaissance to Modern Art .....	3
A-H 323 Medieval (Subtitle required) .....	3
**A-H 334 Reframing Renaissance Art .....	3
**A-H 341 20th Century (Subtitle required) .....	3
A-H 343 History of Photography .....	3
A-H 350 Contemporary Art and Visual Studies (Subtitle required) .....	3
A-S 380 Black & White Darkroom Photography .....	3
A-S 381 Advanced Black & White Darkroom Photography .....	3

**Electives**

With the aid of your advisor, choose from the following courses to bring the total number of earned hours up to 120.

A-H 105 World Art Before 1400 .....	3
A-H 106 Renaissance to Modern Art .....	3
AAS 550 Education in a Culturally Diverse Society .....	3
ANT 160 Cultural Diversity in the Modern World .....	3
ANT 220 Introduction to Cultural Anthropology .....	3
ANT 324 Contemporary Latin American Cultures .....	3
ANT 326 Contemporary African Lives .....	3
ANT 401 Gender Roles in Cross-Cultural Perspective .....	3
ANT 534 Sociology of Appalachia .....	3
APP 200 Introduction to Appalachian Studies .....	3
APP 300 Topics in Appalachian Studies (Subtitle required) .....	3
COM 101 Introduction to Communications .....	3
GWS 200 Sex and Power .....	3
GWS 300 Topics in Gender and Women's Studies (Subtitle required) .....	3
GWS 350 Feminist Theory .....	3
HIS 105 A History of Europe from the Mid-Seventeenth Century to the Present .....	3
HIS 109 History of the United States Since 1877 .....	3
HIS 203 History of the British People Since the Restoration .....	3
SPA 371 Latin American Cinema (Subtitle required) .....	3
<b>TOTAL HOURS .....</b>	<b>120</b>

**B.A. in Education with a major in  
SECONDARY EDUCATION  
Option: Social Studies Education**

**Requirements for Program**

This B.A. includes completion of an approved plan in the academic specialty teaching social studies. **No teacher certification is awarded with the B.A.** Students desiring to go on to Master's with Initial Certification must apply to the Graduate School and apply to the Secondary Social Studies Education Program Faculty in the spring of their senior year.

To receive the B.A. degree, students must: (1) complete the UK Core requirements; (2) complete one of the secondary social studies education plans; and (3) complete 100 hours of fieldwork with adolescents through the **required 3** hour course:

EDC 362 Field Experiences in Secondary Education .....	3
--	---

Following completion of the secondary social studies major, students will demonstrate the following: (1) a reflective understanding of American society, its past and contemporary situation, and its place in the larger world; (2) an ability to apply social science concepts and use inquiry and interpretive skills; (3) a historical perspective; (4) a multicultural and global perspective; and (5) an ability to learn from participation in the community (from local to global) affairs and service. Students should consider experiences such as study abroad and internships in government and social agencies, as well as course work, in preparation for social studies teaching.

**Continuous Assessment**

- Because certification occurs through the Masters in Education including certification (MIC), students should be aware that they will need to be formally admitted to the MIC program. Admission/Retention/Completion regulations for all teacher certification programs are specified in the section "Admission, Retention and Completion from Teacher Education Programs".
- Oral and written communication skills of applicants for the MIC program in social studies education will be assessed at the time of the interview, and through the entrance portfolio.
- Admission to the Masters in Education with initial certification is competitive; completion of the Bachelors in Secondary Social Studies Education does not guarantee admission to the Masters in Education with certification program.
  - Students are reminded that they will be teaching about the whole world; somewhere in the 66 hours they should have at least one course about each world region.
  - Students also need to be prepared to teach U.S. history from an interdisciplinary perspective and a multicultural perspective.
  - Students need breadth **and** depth. Students are strongly urged to take nine hours in two of the subjects in their support area.

**Statement on Student Teaching**

There is no student teaching required for completion of the secondary social studies education major. Student teaching occurs as part of the Masters in Education with certification.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

Choose one course from approved list ..... 3

**II. Intellectual Inquiry in the Humanities**

Choose one course from approved list ..... 3

**III. Intellectual Inquiry in the Social Sciences**

Choose one course from approved list ..... 3

**IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences**

Choose one course from approved list ..... 3

**V. Composition and Communication I**

CIS/WRD 110 Composition and Communication I ..... 3

**VI. Composition and Communication II**

CIS/WRD 111 Composition and Communication II ..... 3

**VII. Quantitative Foundations**

Choose one course from approved list ..... 3

**VIII. Statistical Inferential Reasoning**

Choose one course from approved list ..... 3

**IX. Community, Culture and Citizenship in the USA**

Choose one course from approved list ..... 3

**X. Global Dynamics**

Choose one course from approved list ..... 3

**UK Core hours ..... 30**

**Graduation Composition and Communication Requirement (GCCR)**

EPE 301 Education in American Culture ..... 3

**Graduation Composition and Communication Requirement hours (GCCR) ..... 3**

**Program Related Studies (3 hours)**

EDC 362 Field Experiences in Secondary Education ..... 3

**Majors and Minors (66-72 hours)**

Students must complete Plan 1 or 2 in history and social sciences for secondary education.

**Plan 1**

Major in history (36 hours) with a minor (19-21 hours) in anthropology, economics, geography, political science, psychology, or sociology, and a support area (15 hours) which includes one course from each of the social sciences not chosen as minor.

**Plan 2**

Major (at least 30 hours) in anthropology, economics, geography, political science, or sociology, with a minor (21 hours) in history and a support area (15 hours) which includes one course from each of the social sciences not chosen as major.

**History Major for Secondary Education (36 hours)**

**Required (18 hours)**

HIS 104 A History of Europe Through the Mid-Seventeenth Century ..... 3

HIS 105 A History of Europe From the Mid-Seventeenth Century to the Present ..... 3

HIS 108 History of the United States Through 1876 ..... 3

HIS 109 History of the United States Since 1877 ..... 3

HIS 301 History Workshop: Introduction to the Study of History ..... 3

HIS 499 Senior Seminar for History Majors (Subtitle required) ..... 3

Twelve of the other 18 credits must be history courses numbered 300 to 599. There must be some chronological diversity, with at least 6 hours of U.S. history above the 100

level and at least 9 hours in history of other regions of the world, which will give the student the broad background necessary to teach World Civilization ..... 18

**History Minor for Secondary Education (21 hours)**

**Required (12 hours)**

HIS 104 A History of Europe Through the Mid-Seventeenth Century ..... 3

HIS 105 A History of Europe From the Mid-Seventeenth Century to the Present ..... 3

HIS 108 History of the United States Through 1876 ..... 3

HIS 109 History of the United States Since 1877 ..... 3

Plus 9 hours which will give students a broad preparation for teaching U.S. History and World Civilization. At least 6 hours should be at the 300 level or above ..... 9

**Anthropology Major for Secondary Education (33 hours)**

**Required (15 hours)**

ANT 220 Introduction to Cultural Anthropology ..... 3

ANT 230 Introduction to Biological Anthropology ..... 3

ANT 240 Introduction to Archeology ..... 3

ANT 302 Ethnographic Methods: Doing Anthropology ..... 3

ANT 582 Seminar Integrative Seminar ..... 3

Select a minimum of 18 hours of courses within anthropology of which 12 hours must be at the 300+ level.

**Anthropology Minor for Secondary Education (21 hours)**

**Required (9 hours)**

ANT 220 Introduction to Cultural Anthropology ..... 3

ANT 230 Introduction to Biological Anthropology ..... 3

ANT 240 Introduction to Archeology ..... 3

Select a minimum of 12 hours of courses within anthropology of which 9 hours must be at the 300+ level.

**Economics Major for Secondary Education (30 hours)**

**Required (12 hours)**

ECO 201 Principles of Economics I ..... 3

ECO 202 Principles of Economics II ..... 3

ECO 401 Intermediate Microeconomic Theory ..... 3

ECO 402 Intermediate Macroeconomic Theory ..... 3

Select a minimum of 18 hours of courses within economics numbered 300 to 599.

**Economics Minor for Secondary Education (21 hours)**

**Required (6 hours)**

ECO 201 Principles of Economics I ..... 3

ECO 202 Principles of Economics II ..... 3

Select a minimum of 15 hours of courses within economics numbered 300 to 599.

**Geography Major for Secondary Education (36 hours)**

**Required (18 hours)**

GEO 109 Digital Mapping ..... 3

GEO 130 Earth's Physical Environment ..... 3

GEO 172 Human Geography ..... 3

GEO 200 Orientation to Geography ..... 3

GEO 309 Introduction to GIS ..... 3

GEO 406 Field Studies in Geography (Subtitle required) ..... 3

Select a minimum of 18 hours of courses within geography numbered at the 200 level or above.

**Geography Minor for Secondary Education (21 hours)**

**Required (15 hours)**

GEO 109 Digital Mapping ..... 3

GEO 130 Earth's Physical Environment ..... 3

GEO 172 Human Geography ..... 3

GEO 200 Orientation to Geography ..... 3

GEO 309 Introduction to GIS ..... 3

Select a minimum of 6 hours of courses within geography numbered at the 200 level or above.

**Political Science Major for Secondary Education (30 hours)**

**Required (3 hours)**

PS 101 American Government ..... 3

Select two from the following:

PS 210 Introduction to Comparative Politics ..... 3

PS 230 Introduction to International Relations ..... 3

PS 240 Introduction to Political Theory ..... 3

PS 372 Introduction to Political Analysis ..... 3

Select a minimum of 21 hours of courses within political science of which 15 hours must be at the 300+ level. These courses should represent the various subfields in political science, including American Politics, Comparative Politics, International Relations, and Theory and Methodology.

**Political Science Minor for Secondary Education (21 hours)**

**Required (3 hours)**

PS 101: American Government ..... 3

Select two from the following:

PS 210 Introduction to Comparative Politics ..... 3

PS 230 Introduction to International Relations ..... 3

PS 240 Introduction to Political Theory ..... 3

PS 372 Introduction to Political Analysis ..... 3

Select a minimum of 12 hours of courses within political science of which 9 hours must be at the 300+ level. These courses should represent the various subfields in political science, including American Politics, Comparative Politics, International Relations, and Theory and Methodology.

**Psychology Minor for Secondary Education (20 hours)**

**Required (8 hours)**

PSY 100 Introduction to Psychology ..... 4

PSY 215 Experimental Psychology ..... 4

Complete four of the five courses:

PSY 223 Developmental Psychology ..... 3

PSY 311 Learning and Cognition ..... 3

PSY 312 Brain and Behavior ..... 3

PSY 313 Personality and Individual Differences ..... 3

PSY 314 Social Psychology and Cultural Processes ..... 3

**Sociology Major for Secondary Education (30 hours)**

**Required (6 hours)**

SOC 101 Introduction to Sociology ..... 3

One additional SOC course chosen in consultation with your academic advisor ..... 3

Select one (6 hours)

SOC 302 Sociological Research Methods

**and**

SOC 303 Quantitative Sociological Analysis ..... 6

**OR**

SOC 304 Classical Sociological Theory

**and**

SOC 305 Contemporary Sociological Theory ..... 6

Electives ..... 18

At least 6 of the remaining 18 hours must be at the 300 level or higher.

### Sociology Minor for Secondary Education (21 hours)

#### Required (6 hours)

SOC 101 Introduction to Sociology ..... 3  
One additional SOC course chosen in consultation with your academic advisor ..... 3

#### Select one (6 hours)

SOC 302 Sociological Research Methods

and

SOC 303 Quantitative Sociological Analysis ..... 6

OR

SOC 304 Classical Sociological Theory

and

SOC 305 Contemporary Sociological Theory ..... 6

Electives ..... 9

At least 6 of the 9 hours must be at the 300 level or higher.

#### Electives

Electives for 120 total credit hours chosen with the help of an advisor.

**TOTAL HOURS** ..... **120**

## B.S. in Education with major in SPECIAL EDUCATION

### Requirements for Program

The Special Education teacher preparation program supports the UK educator preparation unit's theme of Research and Reflection for Learning and Leading. Special education teachers are prepared to assess, plan, and teach based on what they learn from their students and to conduct continuous self-reflection in order to improve their teaching. The standards and competencies on which the Special Education program is based are those prescribed by The Council for Exceptional Children and The Kentucky New Teacher Standards. The B.S. in Education program in Special Education requires completion of: (1) the UK Core requirements; (2) specified course work in Related Studies and Professional Education; and (3) specified course work in the Learning/Behavior Disorders (LBD) and Moderate to Severe Disabilities (MSD) areas of specialization. Students graduating from the certification program obtain two Kentucky teacher certificates in Moderate to Severe Disabilities (grades P-12) and in Learning/Behavior Disorders (grades P-12). It is possible to complete this certificate program in four years.

### Continuous Assessment

- All students in the Special Education program are expected to meet the standards and rules for Admission, Retention, and Completion from Teacher Education Programs as set forth in the section "Admission, Retention, and Completion from Teacher Education Programs".
- Assessment at the Point of Entry to the Special Education Program. The admission

process provides the first point for formal assessment of the competencies outlined in the Initial Certification Program Folio for the program. Students who apply for admission must: (a) meet the requirement for admission to the Teacher Education Program; (b) have successfully completed a special education survey course (EDS 375) and have completed or be enrolled in initial coursework (EDS 514, EDS 526, EDS 546); and (c) be able to articulate their philosophy of teaching and document their experiences with persons with disabilities in an initial portfolio and an entrance interview. For students that have limited experience with individuals with disabilities, it is strongly recommended to be enrolled in the initial practicum when applying (EDS 301).

- On-going Assessment. Once a student is admitted to the program, he/she meets with an advisor to plan the remainder of the program. Prior to the student teaching semester, the student must present a portfolio that documents his/her progress toward meeting program competencies in the courses completed.
- Completion Assessment. At the completion assessment, students must document that they have met all program competencies through a final review of their portfolio and the successful completion of student teaching in multiple public school placements for students across a variety of grade levels and ability levels (i.e., LBD and MSD).

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ..... 3

#### II. Intellectual Inquiry in the Humanities

Choose one course from approved list ..... 3

#### III. Intellectual Inquiry in the Social Sciences

PSY 100 Introduction to Psychology ..... 4

PHY 232 General University Physics .....	4
PHY 242 General University Physics Laboratory .....	1
GEO 230 Weather and Climate .....	3
AST 192 Stars, Galaxies and the Universe .....	3
†GEO 130 Earth's Physical Environment .....	3
EES 230 Fundamentals of Geology I .....	3
EES 235 Fundamentals of Geology II .....	3
EES 360 Mineralogy .....	4
EES 401G Invertebrate Paleobiology and Evolution .....	3

**Earth Science Major hours .....** 54

†Eligible to meet a UK Core requirement.

^Required for TEP Application.

### Mathematics Major

#### Mathematics Core Courses

CS 115 Introduction to Computer Programming .....	3
†MA 113 Calculus I .....	4
MA 114 Calculus II .....	4
MA 213 Calculus III .....	4
MA 261 Introduction to Number Theory .....	3
MA 322 Matrix Algebra and Its Applications .....	3

#### Mathematics Sequence

Choose one. May substitute a different sequence with prior faculty approval (6 hours minimum):

MA 351 Elementary Topology I .....	3
<b>and</b>	
MA 352 Elementary Topology Algebra II .....	3
<b>OR</b>	
MA 361 Elementary Modern Algebra I .....	3
<b>and</b>	
MA 362 Elementary Modern Algebra II .....	3
<b>OR</b>	
MA 471G Advanced Calculus I .....	3
<b>and</b>	
MA 472G Advanced Calculus II .....	3

### Required Mathematics Electives

Courses at the 300 level or above with exception of MA 241; 12 hours minimum:

MA 310 Mathematical Problem Solving for Teachers ...	3
MA/STA 320 Introductory Probability .....	3
MA 330 History of Mathematics .....	3
MA 341 Topics in Geometry .....	3

### Optional Courses

MA 214 Calculus IV (recommended for AP Calculus) .....	3
MA 471G Advanced Calculus I (recommended for MA/MS in Mathematics) .....	3

**Mathematics Major hours .....** 39

†Eligible to meet a UK Core requirement.

^Required for TEP Application.

### Physics Major

†CHE 105 General College Chemistry I .....	4
†CHE 107 General College Chemistry II .....	3
^PHY 231 General University Physics .....	4
PHY 232 General University Physics .....	4
PHY 228 Optics, Relativity and Thermal Physics .....	3
PHY 306 Theoretical Methods of Physics .....	3
PHY 335 Data Analysis for Physicists .....	2
PHY 361 Principles of Modern Physics .....	3
PHY 401G Special Topics in Physics and Astronomy for Elementary, Middle School and High School Teachers .....	3
PHY 460G Hands-On Physics for Middle School and High School Teachers (taken twice for a total of 4 hours) .....	4
AST 310 Topics in Astronomy and Astrophysics (Subtitle required) .....	3
†MA 113 Calculus I .....	4
MA 114 Calculus II .....	4
MA 213 Calculus III .....	4

**Physics Major hours .....** 48

†Eligible to meet a UK Core requirement.

^Required for TEP Application.

### Free Elective

Select 3 hours of your choice. You may not double count these courses with your major content course requirements or UK Core requirements or your STEM content support courses. All courses should be approved by advisor prior to taking.

### STEM Content Support Courses

Take up to 120 hours required for graduation. Select from each area of interest – **you must choose at least 3 hours from Engineering unless you are a computer science major.** You may not double count these courses with your major content course requirements or UK Core requirements. **This list is not inclusive.** All courses should be approved by advisor prior to taking. SEM 575 is required for mathematics and computer science majors. It is highly encouraged for other majors.

### Mathematics/Statistics

FIN 350 Personal Investing and Financial Planning .....	3
STA 281 Probability and Statistics Using Interactive Computer Techniques .....	3
STA 292 Descriptive Statistics .....	1
MA 501/502 Seminar in Selected Topics .....	3
OR/STA 524 Probability .....	3
EDC/EDP/EPE 522 Psychological and Educational Tests and Measurements .....	3
SEM 575 See Blue Mathematics Clinic (required for Math Certification) .....	3

### Engineering

**ME 599 Topics in Mechanical Engineering (Subtitle required) .....	3
EGR 101 Introduction to Engineering .....	4
**EGR 199 Topics in Engineering: Title to Be Assigned .....	3
**EGR 199 Topics in Engineering: Title to Be Assigned .....	3

### Technology

CS 115 Introduction to Computer Programming .....	3
MAS 201 Communication Technologies and Society .....	3
INF 401G Informatics Fundamentals .....	3
EDC 543 Digital Game Based Learning and Instruction .....	3
EDC 544 Use and Integration of Instructional Media ...	3
CS 215 Introduction to Program Design, Abstraction, and Problem Solving .....	4
CS 221 First Course in Computer Science for Engineers .....	2
CS 316 Web Programming .....	3

### Science

CHE 105 General College Chemistry I .....	4
CHE 111 General Chemistry I Laboratory .....	1
BIO 150 Principles of Biology I .....	3
PHY 231 General University Physics .....	4
PHY 241 General University Physics Laboratory .....	1
EES 220 Principles of Physical Geology .....	4

\*\*The subtitle for this course must directly relate to STEM content. Check with your advisor for verification prior to taking the course.

Minimum 120 credit hours required for graduation and Rank III certification.

**TOTAL HOURS .....** 120

### Undergraduate Certificate in Leadership Studies

The Undergraduate Certificate in Leadership Studies will allow students to demonstrate their preparedness to lead, live, and work in an interconnected and interdependent global community. Students will improve their understanding of leadership and develop the skills needed to lead in their particular field through a series of courses designed to provide a rich leadership focus.

The modern workplace demands employees who understand the foundations of leadership, can navigate organizational change, value community leadership and relationships, and who embrace ethics, diversity, and an international understanding. Students who participate in this Undergraduate Certificate in Leadership Studies will master these skills and benefit from an additional degree credential, that alongside with their major(s) and/or minor(s) demonstrates their dedication to and experiences with leadership.

The structure of the Undergraduate Certificate in Leadership Studies offers a coherently planned academic core for students who otherwise might take very few courses that have an explicit focus on leadership. The core of the Certificate consists of four distinct pillars that are complimentary to a variety of existing undergraduate programs and are reflected throughout the content of course work in the following ways:

- Understanding core concepts about leadership
- Fostering team and organizational leadership
- Embracing community leadership
- Focusing on intercultural communication skills

### Leadership Studies Program of Study

The program consists of 18 credits of undergraduate study in leadership. Students will take one course from each of the four pillars and two additional elective leadership courses.

#### Leadership Foundations (3 credits)

CLD/EDL 402 Principles of Leadership .....	3
CLD 230 Intrapersonal Leadership .....	3

#### Organizational Change (3 credits)

EDL 571 Design Thinking in Education .....	3
CLD 530 Fundamentals of Organizational Leadership .....	3

#### Community Leadership and Relationships (3 credits)

CLD 430 Leading in Communities: Vision, Action, and Change .....	3
CLD/EDL 404 Contemporary Leadership Applications .....	3
CLD 260 Community Portraits .....	3
CLD 330 Interpersonal Skills for Tomorrow's Leaders .....	3

#### Ethics, Diversity, and International Understanding (3 credits)

CLD 470 Topics in Leadership (Subtitle required) .....	3
CLD/EDL 403 Leadership and Communication .....	3
Any university-approved study abroad experience	

#### Electives (6 credits)

Any course in the above pillars not already counted  
Any approved study abroad experience (can only count 3 credits for certificate)

Approved courses include but are not limited to:

AMS 301 Leadership and Management I .....	3
AMS 341 Leadership and Management II .....	3
AMS 395 Independent Study in Leadership .....	1-2
COM 252 Introduction to Interpersonal Communication .....	3
COM 281 Communication in Small Groups .....	3
COM 325 Introduction to Organizational Communication .....	3
MGT 410 Analysis of Organizational Behavior .....	3
MGT 320 Survey of Human Resource Management .....	3
*UK 100 University Course (Title to be assigned) ....	1-3

*\*To be taken only when subtitle is Emerging Leadership Institute.*

#### Other Vital Elements

At least 12 credit hours must be taken for a letter grade  
At least 12 credits at 200-level or above and a minimum of 6 credit hours at 300-level or above

Students must earn a C or better in each required certificate course

At least one course needs to be taken in the sister discipline (EDL or CLD)

No more than 9 credits in the certificate are used to satisfy requirements for the student's bachelor's degree, minor, or another certificate (exclusive of free or unrestricted electives)

For questions regarding this program, contact Program Director Dr. Jayson W. Richardson at [jayson.richardson@uky.edu](mailto:jayson.richardson@uky.edu), or 859-379-9097.

## DEGREE PROGRAMS OUTSIDE THE COLLEGE OF EDUCATION

### B.A. with a major in ART EDUCATION

The requirements for K-12 Art Education are listed in the *Fine Arts* section of this Bulletin.

### COMMUNICATION SCIENCES AND DISORDERS

The undergraduate and graduate programs in communication sciences and disorders are now part of the Division of Communication Sciences and Disorders in the College of Health Sciences. Prospective students should refer to the *Health Sciences* section of this Bulletin.

### B.M.M.E. with a major in MUSIC EDUCATION

The requirements for K-12 Music Education are listed in the *Fine Arts* section of this Bulletin.

*Rudolph Buchheit, Ph.D., is Dean of the College of Engineering; Kimberly Ward Anderson, Ph.D., is Associate Dean for Administration and Academic Affairs; John Balk, Ph.D., is Associate Dean for Research and Graduate Studies; Sue Nokes, Ph.D., is Associate Dean for Faculty Affairs and Facilities.*

The College of Engineering offers programs leading to undergraduate and graduate degrees in computer science and the following engineering disciplines – biosystems, chemical, civil, computer, electrical, materials, mechanical, and mining. A minor and graduate training in biomedical engineering is also offered through the College of Engineering. The College also offers a highly multidisciplinary master of science in manufacturing systems engineering to address the growing need for enhancing manufacturing productivity and quality.

Creative accomplishment in the career of an engineer or computer scientist depends upon an education that stresses major ideas and fundamental concepts of engineering rather than specific technologies. The academic programs in engineering provide a sound background in the mathematical, physical and engineering sciences blended with the social sciences and humanities to ensure both a thorough education in engineering and a liberal education. Such an approach provides the best preparation for the engineer or computer scientist who must envisage and develop the technologies of the future and deal with scientific advances at present unknown.

The various curricula in the College of Engineering are broad, so that no student is limited to a narrow field of specialized knowledge but receives sufficient technical depth to provide a sound preparation for a professional career.

The College of Engineering produces over 600 graduates per year. Among the alumni of the College of Engineering are those who have distinguished themselves in the major fields of industry, government and education.

Concern for the individual is a most important feature of education in the College of Engineering. Close faculty-student relationships are a meaningful part of the educational process. The faculty, in addition to their duties related to instruction and research, serve as advisors to the student in the preparation of the academic program best matched to the student's needs and intellectual capabilities. Students are also assigned a professional advisor who works with them on course selection and progress to degree.

## Accreditation and Program Assessment

The undergraduate program in Computer Science is accredited by the Computing Accreditation Commission of ABET, [www.abet.org](http://www.abet.org).

The undergraduate programs in Biosystems Engineering, Chemical Engineering, Civil Engineering, Computer Engineering, Electrical Engineering, Materials Engineering, Mechanical Engineering and Mining Engineering are accredited by the Engineering Accreditation Commission of ABET, [www.abet.org](http://www.abet.org).

In addition, the University of Kentucky is accredited by the Southern Association of Colleges and Schools (SACS), and therefore all degree programs and certificates including those in the College of Engineering are governed by the rules associated with that accrediting body. All programs are assessed periodically based on achievement of their self-proclaimed student learning outcomes and the results are used in the improvement of those programs and certificates.

## Undergraduate Certificates in Engineering

The University of Kentucky grants the following undergraduate certificates in the College of Engineering:

- Aerospace Engineering
- Biopharmaceutical Engineering
- Cybersecurity
- Environmental Engineering
- Power and Energy
- Production Engineering

Information and requirements for the undergraduate certificates are listed after the Bachelor of Science in Mining Engineering.

Student certification in Lean Systems is also available.

## Undergraduate Programs in Engineering

The University of Kentucky grants the following degrees in the College of Engineering:

- Bachelor of Science in Biosystems Engineering
- Bachelor of Science in Chemical Engineering
- Bachelor of Science in Civil Engineering
- Bachelor of Science in Computer Engineering
- Bachelor of Science in Mining Engineering

- Bachelor of Science in Electrical Engineering
- Bachelor of Science in Materials Engineering
- Bachelor of Science in Mechanical Engineering
- Bachelor of Science in Mining Engineering

While these are the official degrees granted at the bachelor's level in the college, the prospective student is encouraged to study the wide variety of options available through technical electives, some of which are listed following the degree requirements of each department. Electives are included in each curriculum to allow the student to apply the fundamentals of a particular discipline to an area of special interest during the senior year.

Students in any department interested in biomedical engineering may make special arrangements to include a limited amount of such studies in the undergraduate program. In addition, students have the option to pursue a biomedical engineering minor as described on page 250. Biomedical engineering is primarily the application of engineering principles to the solution of medical problems.

Students in a number of our engineering programs have the option to complete pre-medical requirements while pursuing the engineering degree. Interested students should contact their academic advisor.

In response to industry requests, the College of Engineering and the Gatton College of Business and Economics have joined to offer a coordinated Bachelor of Science in Engineering and Masters of Business Administration. The MBA will be taken during a student's fifth year of study beginning in the summer and finishing the following spring semester. In addition, students in the program will be required to complete an international study on Global Business designed specifically for the engineering/business student. This program will be conducted immediately upon completion of the MBA course requirements and the majority of costs will be paid by the program. Admission is highly competitive and is limited based upon the financial resources available.

For engineering students interested in manufacturing, the University offers a dual-degree program. This program allows students pursuing a B.S. in Electrical Engineering or Mechanical Engineering to concurrently enroll in the M.S. in Manufacturing Systems Engineering. The BSEE/

MSMSE or BSME/MSMSE dual-degree programs can be completed in five years. Students in the program are strongly encouraged to be Co-op students or to do industry internships to supplement their course work with industry experience. During their junior year, students should apply to the Graduate School for admittance into the dual-degree program.

Graduate programs in the engineering fields of study are listed in *The Graduate School* section of this Bulletin.

### ADMISSION POLICY FOR 2019-20

The College of Engineering has approved a revised Admission Policy effective fall 2020. Below is the current 2019-20 Admission Policy. The policy for 2020-21 follows the one for 2019-20.

The minimum entry requirement for admission into the College of Engineering is:

- ACT math score of 23 or higher, or the SAT equivalent of 570 or higher.

Additionally, students must meet the minimum Kentucky statewide academic readiness requirements for Reading and Writing to be admitted to the College of Engineering:

- **Reading:** Students must have an ACT Reading subscore of 20 or above (or SAT subscore of 26 or above in Critical Reading);
- **English/Writing:** Students must have an ACT English subscore of 18 or above (or SAT of 25 or above in Writing).

Alternative admission routes include:

1. 3 or above on the Calculus AB portion of the Advanced Placement Exam.
2. Eligibility to enter MA 110 based on the UK Math Department Placement Exam (61 percent or higher).
3. Completion of *or* the equivalent of MA 110 with a grade of C or higher.
4. Completion of *or* the equivalent of MA 109 and MA 112 with a grade of C or higher.
5. Students who do not meet the reading/writing requirements will be required to take the ACCUPLACER exam and receive a score of 244 or better.
6. Students who do not meet the minimum score on the ACCUPLACER will be required to take APP courses (UK 120 for Reading and UK 130 for Writing) and can be considered for admission to the College of Engineering after successful completion of these courses.

### International Students

#### Freshmen:

International freshman applicants must have both the minimum ACT/SAT scores, and must obtain a Test of English as a Foreign Language

(TOEFL) score of 71 or above or an International English Language Testing System (IELTS) score of 6.0 or above.

Students who received a TOEFL score of 71 but less than 100 (IELTS score of 6.0 but less than 7.5) will be admitted to the College of Engineering but will be required to participate in English for Academic Purposes (EAP).

If students do not meet the IELTS/TOEFL (6.0 or 71) or ACT/SAT requirements, they will be admitted to the College of Engineering after meeting the following criteria: attend ESL, meet EAP requirements, and complete the appropriate math class. They must retake the TOEFL and earn a minimum score of 71 or the IELTS and earn a minimum score of 6.0. Then they would apply for a change of major to Engineering.

#### Transfer:

In addition to the alternative routes listed above, international transfer applicants must obtain a Test of English as a Foreign Language (TOEFL) score of 71 or above (527 paper-based); an International English Language Testing System (IELTS) score of 6.0 or above; or completion of the first and second English composition classes (e.g., ENG 101 and 102) from another US college, i.e., institution upon review. If students do not meet these requirements once they have completed UK's ESL program, they must retake the TOEFL and earn a minimum score of 71 or the IELTS and earn a minimum score of 6.0.

### ADMISSION POLICY FOR 2020-21

To be accepted to the College of Engineering, high school students must have both:

- An ACT math score of 25 or higher, or the SAT equivalent of 590 or higher.
- An unweighted high school GPA of 3.0 or higher.

For students who meet the high school GPA requirement but not the ACT or SAT requirement, alternative admission routes include:

1. 3 or above on the Calculus AB portion of the Advanced Placement Exam, or
2. Eligibility to enter MA 110 based on the UK Proctored Math Department Placement Exam.

Students who are not initially admitted into the College of Engineering may apply at a later date as a transfer student.

To be accepted to the College of Engineering, transfer students must have a minimum cumulative college GPA of 2.5 and have completed MA 110 or its equivalent (or MA 109 and 112 or their equivalencies) with a grade of B or higher. Students who do not receive a B in these courses but who have completed calculus courses required in the Engineering curricula will be considered on a case-by-case basis.

Additionally, students must meet the minimum Kentucky statewide academic readiness require-

ments for Reading and Writing to be admitted to the College of Engineering:

- **Reading:** Students must have an ACT Reading subscore of 20 or above (or SAT subscore of 26 or above in Critical Reading);
- **English/Writing:** Students must have an ACT English subscore of 18 or above (or SAT of 25 or above in Writing).

Students who do not meet the reading/writing requirements will be required to take the ACCUPLACER exam and receive a score of 244 or better. Students who do not meet the minimum score on the ACCUPLACER will be required to take APP courses (UK 120 for Reading and UK 130 for Writing) and can be considered for admission to the College of Engineering after successful completion of these courses.

### International Students

#### Freshmen:

In addition to meeting the requirements above, international freshman applicants must also obtain a Test of English as a Foreign Language (TOEFL) score of 71 or above or an International English Language Testing System (IELTS) score of 6.0 or above. Students who received a TOEFL score of 71 but less than 100 (IELTS score of 6.0 but less than 7.5) will be admitted to the College of Engineering but will be required to participate in English for Academic Purposes (EAP).

If students do not meet the IELTS/TOEFL (6.0 or 71) or ACT/SAT requirements, they will be admitted to the College of Engineering after meeting the following criteria: attend ESL, meet EAP requirements, and complete the appropriate math class. They must retake the TOEFL and earn a minimum score of 71 or the IELTS and earn a minimum score of 6.0. Then they would apply for a change of major to Engineering.

#### Transfer:

In addition to the requirements listed above, international transfer applicants must obtain a Test of English as a Foreign Language (TOEFL) score of 71 or above (527 paper-based); an International English Language Testing System (IELTS) score of 6.0 or above; or completion of the first and second English composition classes (e.g., ENG 101 and 102) from another US college, i.e., institution upon review. If students do not meet these requirements once they have completed UK's ESL program, they must retake the TOEFL and earn a minimum score of 71 or the IELTS and earn a minimum score of 6.0.

### First-Year Engineering Program

All newly admitted students will participate in the First-Year Engineering Program for their first two semesters. During this first year, they will have the opportunity to participate in hands-on engineering activities, explore all the engineering and computer science disciplines and learn about the Engineering Grand Challenges. Based on this

experience, students will have the option to change their major or declare their major based on their interests.

Upon declaring their major, students will be designated as pre-major until they meet engineering standing requirements. Every student must be admitted to engineering standing in a specific program prior to taking engineering upper level courses that require engineering standing as a prerequisite.

### Engineering Standing Admission

Admission to engineering standing in a degree program is necessary in order to continue in upper level courses and to be granted a baccalaureate degree in engineering or computer science. Specific departmental requirements for admission to engineering standing are noted below and engineering standing applies to a specific program. Hence, receiving engineering standing in one program does not grant engineering standing in another. Students can request admission to engineering standing after completing the required set of pre-major courses in the first three semesters of the published curriculum in their chosen program. In addition to the requirements described below, each program may specify specific procedures for applying for engineering standing, submitting appeals, etc. Students should refer to the departmental handbook or their undergraduate advisor in their program of choice to identify these specific procedures.

**For Transfer Students:** The same criteria are applied to transfer students with the equivalence of courses reviewed by the Director of Undergraduate Studies. It is important to note if a student receives acceptance of transfer credit for one or more of the below listed courses, the grades earned will be used in the calculation for engineering standing. Transfer students who have not completed all courses listed below may be considered for admission into courses that require engineering standing on a case-by-case basis.

**Biosystems Engineering:** A cumulative UK GPA of at least 2.5 and successful completion of all pre-major courses. Successful completion of the following courses with at least a 2.5 GPA: CHE 105, CIS/WRD 110, MA 113, MA 114, MA 213, and PHY 231. Completion of BAE 200 with a grade of **C** or better. If a course is repeated, the best grade will be used for calculation of GPA in the above listed courses.

**Chemical Engineering:** A cumulative UK GPA of at least 2.5 and successful completion of all pre-major courses. Successful completion of the following courses with at least a 2.5 GPA: CHE 105, CHE 107, CHE 111, CHE 113, CIS/WRD 110, MA 113, MA 114, MA 213, and PHY 231. Completion of CME 200 with a grade of **C** or better. If a course is repeated, the best grade will be used for calculation of GPA in the above listed courses.

**Civil Engineering:** A cumulative UK GPA of at least 2.5 and successful completion of all pre-major courses. Successful completion of the following courses with at least a 2.5 GPA: CE 106, CE 211, CHE 105, CHE 107, CIS/WRD 110, EGR 103, EM 221, MA 113, MA 114, MA 213, PHY 231, and PHY 241 and a **C** or better in each course. If a course is repeated, the best grade will be used for calculation of GPA in the above listed courses.

**Computer Engineering:** A cumulative UK GPA of at least 2.5 and successful completion of all pre-major courses. Successful completion of the following courses with at least a 2.5 GPA: CHE 105, CIS/WRD 110, CS 215, CS 216, EE/CPE 282, and PHY 231. If a course is repeated, the best grade will be used for calculation of GPA in the above listed courses.

**Computer Science:** A cumulative UK GPA of at least 2.5 and successful completion of all pre-major courses. Successful completion of the following courses with at least a 2.5 GPA: CS 215, CS 216, CS 275, and MA 114. If a course is repeated, the best grade will be used for calculation of GPA in the above listed courses.

**Electrical Engineering:** A cumulative UK GPA of at least 2.5 and successful completion of all pre-major courses. Successful completion of the following courses with at least a 2.5 GPA: CIS/WRD 110, CHE 105, CS 215, EE 211, EE/CPE 282, and PHY 231. If a course is repeated, the best grade will be used for calculation of GPA in the above listed courses.

**Materials Engineering:** A cumulative UK GPA of at least 2.5 and successful completion of all pre-major courses. Successful completion of the following courses with at least a 2.5 GPA: CHE 105, CHE 107, CHE 111, CHE 113, CIS/WRD 110, MA 113, MA 114, MA 213, PHY 231, and PHY 241. Completion of MSE 201 with a grade of **C** or better. If a course is repeated, the best grade will be used for calculation of GPA in the above listed courses.

**Mechanical Engineering:** A cumulative UK GPA of at least 2.5 and successful completion of all pre-major courses. Successful completion of the following courses with at least a 2.5 GPA: CHE 105, CIS/WRD 111, EGR 101, EGR 102, EGR 103 (or EGR 215 in lieu of EGR 101 and EGR 103), EM 221, MA 113, MA 114, MA 213, PHY 231, PHY 241, PHY 232, and PHY 242 and a **C** or better in each course. If a course is repeated, the best grade will be used for calculation of GPA in the above listed courses.

**Mining Engineering:** A cumulative UK GPA of at least 2.5 and successful completion of all pre-major courses. Successful completion of the following courses with at least a 2.5 GPA: CIS/WRD 110, CHE 105, MA 113, MA 114, MA 213, and PHY 231. If a course is repeated, the best grade will be used for calculation of GPA in the above listed courses.

**NOTE:** According to Senate Rule 4.3.3, the chair of a department may refuse to allow a student to register in a course a third time. A withdrawal from the course shall not be counted as a registration for these purposes if a student can demonstrate that the withdrawal was for urgent non-academic reasons.

### COMBINED DEGREE PROGRAM

The College of Engineering has transfer agreements with several institutions throughout the state. These programs enable students to enroll in a pre-engineering curriculum at their respective schools and then transfer to the College of Engineering. Upon completion, they can receive two degrees, one from the school at which they originally enrolled and the other a Bachelor of Science in the appropriate field of engineering from the University of Kentucky.

### COOPERATIVE EDUCATION PROGRAM

The nationally recognized engineering co-op program provides students the opportunity to gain practical work experience before graduation. By alternating semesters of academic study with semesters of paid, full-time career-related employment, participants can gain a full year of engineering work experience. Students who wish to participate in the Cooperative Education program in the College of Engineering should contact the Engineering Career Development Office or its co-op director.

To be eligible for this program, students should have a minimum grade-point average of 2.50. In addition, students should be making sufficient progress in their curriculum prior to the first work tour, which typically begins at the end of the sophomore year. Students will remain on a full-time, continuing student status while they are at work by registering for a one hour, pass/fail course. The grade, assigned by the co-op director, is based on a self evaluation, a work report written by the student, and an evaluation completed by the immediate supervisor. In some states, co-op experience counts towards the practical experience requirement to sit for the Principles and Practice of Engineering (PE) exam.

The Cooperative Education program contributes significantly to the student's academic motivation, career preparation, and success with job offers upon graduation. About a quarter of our graduates obtain co-op experience before graduation, and about 100 employers nationwide participate in the UK Engineering Co-op Program.

## CONTINUING EDUCATION AND EXTENSION

The College of Engineering recognizes the rapid changes occurring in modern engineering technology. Students in engineering are made aware of the need to continue their studies after graduation. One of the ways to keep abreast of advances in engineering is for graduates and other engineering practitioners to participate in continuing education programs now available through the engineering colleges throughout the country.

The responsibilities of the Technology Exchange Program within the Kentucky Transportation Center, the Lean Manufacturing Program within the Institute of Research for Technology Development at the University of Kentucky and the staff of the former Office for Informational Services and Technical Liaison (OISTL), now administratively housed in the Department of Mining Engineering, are to:

1. create and manage appropriate intensive noncredit technical courses of interest to and needed by practicing engineers;
2. develop appropriate video-based courses and materials to be of interest to practicing engineers. Such activity includes taping, live satellite uplinking, and two-way video/audio of engineering-related courses and activities, Web-based instruction; and,
3. provide assistance in extension activities with other college and University units to be of assistance to engineers throughout the state.

## SCHOLARSHIPS

The College of Engineering awards merit- and need-based scholarships to incoming freshmen and transfer students as well as to students already enrolled in the College. Freshman scholarship applications are due December 1; transfer scholarship applications are due June 15 for students incoming in the fall, and November 15 for students incoming in the spring; and continuing student applications are due April 15. Awards are made for the upcoming academic year; no new awards are made for the spring semester for freshmen and continuing students.

For further information, visit <https://www.engr.uky.edu/students/undergraduate/scholarships-and-financial-aid>

## ENGINEERING DEAN'S LIST

Students enrolled in the College of Engineering can make the Engineering Dean's List for a fall or spring semester by meeting the following requirements during the semester:

- 3.6 or better semester GPA;
- 12 or more credit hours (not including duplicate credit or pass/fail grades);
- no **E**, **I** or **F** grades;
- no grades out; and
- no more than 3 hours pass/fail.

## MINIMUM REQUIREMENTS FOR GRADUATION

In addition to the University graduation requirements listed in the *Graduation Requirements* section of this Bulletin, to be awarded a Bachelor of Science degree in any field of engineering or Computer Science, a student must:

1. complete the University and College requirements relating to writing and the UK Core.
2. complete the required number of hours, exclusive of those earned in freshman college algebra and freshman college trigonometry, with a cumulative standing of not less than 2.0 on a 4.0 scale.
3. be admitted to engineering standing in an engineering program for at least the final semester, and complete the requirements of that program.
4. complete a minimum of 24 credit hours of departmental courses at or above the 300 level.
5. complete all departmental courses and technical electives with a cumulative standing of 2.0 or higher.
6. complete any additional departmental graduation requirements that may be listed below.

### Additional Departmental Graduation Requirements

In the B.S. program in Civil Engineering, the student must earn a **C** or better in each CE prefix course, except that a maximum of one **D** is permitted in a CE prefix course numbered 400 or higher. In addition, a **C** or better must be earned in EM 302.

In the Mining Engineering Department, the student must have earned a grade of **C** or better in the following courses that are valuable for safe operation of mines: MNG 341, Mine Ventilation; MNG 551, Rock Mechanics; MNG 591, Mine Design Project I; and MNG 592, Mine Design Project II.

### Second Bachelor's Degree Requirements

A student who has earned a bachelor's degree in the College of Engineering may earn a second bachelor's degree by meeting the following three conditions on the work applicable to the second degree:

1. The student must have been admitted to engineering standing in the program leading to the second degree at least for the final semester, or equivalent terms, prior to the completion of the degree requirements, and must be enrolled as a student in that degree program during the final semester or term.
2. The student must complete a minimum of 15 credit hours of departmentally approved courses at or above the 300 level.

3. To earn a second degree, a student must complete all degree requirements in that program.

## ACADEMIC ADVISING

Professional staff provide academic advising and support services to entering freshman students through the James and Gay Hardyman Center for Student Success. Sophomores, juniors and seniors are advised by professional advisors and faculty mentors in the department of the student's major.

It is the students' responsibility to satisfy University and College requirements with consultation from their advisor.

## PROBATION AND ACADEMIC SUSPENSION

Students should refer to the *Academic Requirements* section of this Bulletin for information concerning the College of Engineering's probation and academic suspension rules.

## Minor in Biomedical Engineering

This minor is intended for undergraduate engineering students seeking to supplement their education by applying skills learned in their respective disciplines to the field of biomedical engineering (BME). The emphasis on upper level BME courses builds upon the foundation taught in core undergraduate engineering courses. Beyond the one required course, students pursuing this minor will choose at least five elective courses in consultation with a Biomedical Engineering faculty advisor. Students and their Biomedical Engineering faculty advisor may select courses providing concentration in a particular subfield, or they may select courses providing breadth across the field of biomedical engineering.

The minor in Biomedical Engineering requires: a) at least 18 credit hours of course work; b) a GPA of 2.5 or greater in these courses; and c) no grade lower than **C** in any BME course. At the discretion of the BME department chair (or designee), a limited number (maximum 6 credit hours) of equivalent course substitutions may be used. At least 12 credit hours must have the BME prefix.

### Required Course

BME 301 Fundamentals of Biomedical Engineering ..... 3

### Elective Courses

\*Select five from among the following:

BME 395 Independent Research  
in Biomedical Engineering ..... 1-6  
BME 405 Introduction to Biomedical  
Signal Processing ..... 3  
BME 472 Human Biomechanics ..... 3  
BME 485 Fundamentals of Biofluid Mechanics ..... 3  
BME 488 Introduction to Biomaterials ..... 3  
BME 508 Cell Mechanics and Mechanobiology ..... 3  
BME 515 Modeling of Physiological Systems ..... 3  
BME 530 Biomedical Instrumentation ..... 3  
BME 540 Mechanical Modeling of Human Motion ..... 3

BME 579 Neural Engineering:	
Merging Engineering with Neuroscience .....	3
BME 580 Introduction to Biomedical Imaging .....	3
BME 481G Topics in Biomedical Engineering .....	3
BME 599 Topics in Biomedical Engineering	
(Subtitle required) .....	3

\*Up to 6 credit hours of independent research (e.g., BME 395) or special topics courses (e.g., BME 481G or BME 599) may count as electives.

## BACHELOR OF SCIENCE IN BIOSYSTEMS ENGINEERING

Biosystems engineering provides an essential link between the biological sciences and the engineering profession. This linkage is essential for the development of production and processing systems involving biological materials that preserve our natural resource base. Students have the latitude to develop an area of specialization relating to bioenvironmental engineering, food and bioprocessing, machine systems, or controlled environment engineering. The curriculum is also ideal preparation for those students wanting to pursue a graduate or professional degree in biomedical engineering or veterinary medicine through pre-biomedical engineering and pre-veterinary medicine options.

Engineers completing this program of study find employment in industries related to the production and processing of biological products. Opportunities include placement with manufacturers, consulting firms, or state and federal regulatory agencies. Biosystems engineers may work in the areas of biomedical/biotechnology engineering; environmental engineering; agricultural equipment; heating, ventilation and refrigeration equipment; food processing industries; livestock equipment and housing or greenhouse structures; and bioenergy.

The program educational objectives of the biosystems engineering program are based on the intellectual and professional development of our students. Graduates of the biosystems engineering program are expected within a few years of graduation to have:

- Established themselves as practicing professionals or engaged in advanced study in agricultural, biological, or environmental engineering or related area.
- Demonstrated their ability to work successfully as a responsible professional and function effectively on a professional team.

### Degree Requirements

Each student must complete the following:

#### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

\* Transfer students will take EGR 215, Introduction to the Practice of Engineering for Transfer Students, in place of EGR 101 and EGR 103.

Δ Students must complete both EGR 101 and EGR 103 to fulfill the UK Core Arts and Creativity requirement. Transfer students may satisfy the UK Core Arts and Creativity requirement by taking EGR 215.

\*A minimum of 9 hours are required from the biosystems engineering core courses: BAE 417 Design of Machine Systems, BAE 427 Structures and Environment Engineering, BAE 437 Land and Water Resources Engineering, and BAE 447 Bioprocess Engineering Fundamentals.

\*\*A minimum of 9 hours are to be taken in addition to the 9 core hours selected by the student. The technical electives allow the student an opportunity to concentrate or gain depth in one or more of the various specialty areas of biosystems engineering. The technical electives must be selected from the courses listed below and approved by the student's academic advisor. Other courses may be considered, each on its individual merit.

Approved technical electives: ABT 360, 495; ASC 325, 364; BAE 435G, 438G, 450, 503, 504, 505, 506, 515, 517, 532, 536, 537, 538, 541, 549, 580, 599; BCH 401G; BIO 302, 304, 315, 350, 395; BME 301, 395, 472, 481G, 485, 488, 501, 530, 540, 579, 580, 599; CE 211, 303, 351, 451, 461G, 471G, 525, 551; CHE 230, 236; CME 599; EE 402G; EES 530, 585; EGR 540, 542, 546, 599; FSC 434G, 530, 536, 538; GEO 309, 451G; ME 321, 344, 440, 501, 503, 513, 532; NRE 556; PGY 412G.

\*\*\*Graduation Composition and Communication Requirement (GCCR) course.

## BACHELOR OF SCIENCE IN CHEMICAL ENGINEERING

A foundation in mathematics, chemistry, and physics is required for the study of chemical engineering. Fundamental principles related to the transformation of matter and energy are developed in subjects including thermodynamics, fluid flow, separations, heat and mass transfer, reactor design, and chemical process design. Undergraduate electives are available in biopharmaceutical engineering, energy and fuels, environmental engineering, and materials engineering and nanotechnology. A program is also available to fulfill pre-medical requirements simultaneously with requirements for the B.S. in chemical engineering.

The educational objectives of the chemical engineering program state that graduates will:

- Excel in their chosen career pathways, as practicing chemical engineers or through the pursuit of advanced technical or professional degrees.

- Impact their profession through effective leadership, communication, teamwork, and through creative solution strategies to address global and societal issues.
- Apply their engineering training to contribute to the health, safety, environmental and economic well-being of their communities.
- Seek out continuing education, professional development and career advancement opportunities.

### Degree Requirements

The following curriculum meets requirements for the B.S. in chemical engineering, provided the student satisfies the graduation requirements listed earlier.

Each student must complete the following:

#### UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

- EGR 101 Engineering Exploration I § Δ ..... 1  
EGR 103 Engineering Exploration II § Δ ..... 2

#### II. Intellectual Inquiry in the Humanities

- Choose one course from approved list ..... 3

#### III. Intellectual Inquiry in the Social Sciences

- Choose one course from approved list ..... 3

#### IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

- CHE 105 General College Chemistry I ..... 4

STA 381 Engineering Statistics –  
A Conceptual Approach ..... 3

Subtotal: Major hours ..... 58

In addition to the premajor and major requirements, students must complete the following:

#### Engineering/Science Electives

Totalling three or more credit hours for each course.

Students must select **four** courses, as follows:

- One chemical engineering elective: (CME 395\*, 404G, 505, 515, 523, 542, 552, 554, 556, 570, 573, 580, 599.)
- One science/math elective (totaling 3 or more credit hours\*\*) that is not a more elementary version of a required course.
  - Math (MA 321, 322, 416G, 432G, 433G, 471G, 481G)
  - Chemistry (CHE 226, 250, 510 and above)
  - Biology (BIO 148 and above)
  - Physics (PHY 241 and above)
  - Other courses by approval of Director of Undergraduate Studies
- One engineering elective (level 300 and above) that does not significantly duplicate content in a core chemical engineering course (e.g., ME 330) or a CME elective (CME 395 and above).
- One chemical engineering elective (CME 395 and above) or one engineering elective (level 300 and above) or one science/math elective as described above.

\*CME 395 (3 credits) can be used to satisfy only one elective requirement.

\*\* Students may combine multiple qualifying courses that total 3 credits (e.g. pre-medical students may wish to combine PHY 241, 242 and CHE 233).

Subtotal: Engineering/Science Electives: ... 12

## BACHELOR OF SCIENCE IN CHEMICAL ENGINEERING – PADUCAH

In addition to the program on the Lexington campus, students can pursue a B.S. degree in chemical engineering through the College's Extended Campus Program in Paducah, Kentucky. The Paducah program uses the same curriculum as the main campus, but provides the opportunity for students to complete all B.S. degree requirements without having to relocate to Lexington.

Consistent with our Vision and Mission statements, the chemical engineering program at the University of Kentucky Extended Campus in Paducah strives to meet the following specific educational objectives:

- Produce graduates who are successful in chemical engineering practice, professional and/or academic pursuits.
- Produce graduates who function independently and in teams to carry out in-depth solution strategies to chemical engineering problems.
- Produce graduates who continue to advance in their careers and participate in professional development activities.

The Paducah chemical engineering program collaborates with West Kentucky Community and Technical College to provide the foundational math and science courses, as well as the general studies course requirements. On-site UK chemical engineering faculty members teach the engineering courses. Program admission, course registration, student advising and other student services all can be completed at the Paducah site.

**Degree Requirements**

The curriculum requirements for the B.S. degree in chemical engineering in Paducah are identical to those on the Lexington campus. Refer to those degree requirements for the Paducah degree program. Not all electives listed for the Lexington program will be available in Paducah. The student must satisfy the College graduation requirements listed earlier.

## BACHELOR OF SCIENCE IN CIVIL ENGINEERING

The student of civil engineering has a broad field of study to provide a strong foundation for entry into the profession or graduate school. Major areas include construction engineering and project management, environmental engineering, geotechnical engineering, materials engineering,

structural engineering, transportation engineering, and water resources engineering.

The program educational objectives for the civil engineering program reflect the mission of the Department of Civil Engineering. They are important for successful professional practice and the ability to pursue advanced degrees. Civil Engineering graduates from the University of Kentucky will:

1. Excel in Civil Engineering or a related career.
2. Create ethical and sustainable solutions.
3. Seek professional licensure.
4. Embrace life-long learning.

**Degree Requirements**

The following curriculum meets the requirements for a B.S. in civil engineering, provided the student satisfies the graduation requirements listed earlier.

Each student must complete the following:

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

## Second Semester

EM 302 Mechanics of Deformable Solids	3
MNG 303 Deformable Solids Laboratory	1
MA 214 Calculus IV	3
PHY 232 General University Physics	4
PHY 242 General University Physics Laboratory	1
Statistics Elective [1]	3

## Junior Year

First Semester	Hours
WRD 204 Technical Writing*	3
EES 220 Principles of Physical Geology	4
CE 303 Introduction to Construction Engineering	3
CE 341 Introduction to Fluid Mechanics	4
CE 381 Civil Engineering Materials I	3

## Second Semester

CE 331 Transportation Engineering	3
CE 351 Introduction to Environmental Engineering	3
CE 482 Structural Analysis and Design	3
Engineering Science Elective [2]	3
Math Elective or Science Elective [3]	3

## Senior Year

First Semester	Hours
CE 461G Water Resources Engineering	4
CE 471G Soil Mechanics	4
CE Design Elective [4]	3
Technical Elective [5]	3
UK Core – Citizenship - US	3

## Second Semester

CE 401 Seminar	1
CE 429 Civil Engineering Systems Design	3
CE Design Elective [4]	3
Technical Elective [5]	3
UK Core – Humanities	3
UK Core – Global Dynamics	3

§ Transfer students will take EGR 215, Introduction to the Practice of Engineering for Transfer Students, in place of EGR 101 and EGR 103.

Δ Students must complete both EGR 101 and EGR 103 to fulfill the UK Core Arts and Creativity requirement. Transfer students may satisfy the UK Core Arts and Creativity requirement by taking EGR 215.

\*Graduation Composition and Communication Requirement (GCCR) course.

[1] STA 296 or STA 381.

[2] ME 220 or EM 313.

[3] Math or Science Elective Options: MA 321, MA 322, MA 416G, MA 432G, BIO 208, CHE 230, CHE 236, EE 305, GEO 409, EES 550, EES 585, MNG 551, or the other half of the Engineering Science Elective in [2]. NOTE: MA 322 is required for a math minor.

[4] Students are required to select two design electives from different areas. Choose from: CE 508, CE 531 or CE 533, CE 534, CE 549, CE 551 or CE 599, CE 579, CE 589. Design elective courses are typically taught once a year.

[5] Technical Electives are to be chosen from any of the courses at the 300-level or above that carry a CE prefix and in which a student is qualified to enroll, exclusive of required courses. Engineering elective courses are typically taught once a year.

## BACHELOR OF SCIENCE IN COMPUTER ENGINEERING

### Program Educational Objectives

Computer Engineers shape the way people work, play, live and learn in the modern world and develop the infrastructure and devices people can't imagine living without. Computer Engineering is a dynamic and rewarding field that draws upon Electrical Engineering and Computer Science. Computer Engineers solve today's most challenging technology problems by applying their expertise in both hardware and software systems. Leveraging everything from the world's smallest micro-controllers to the largest server farms on the planet, Computer Engineers have revolutionized modern entertainment, medicine, telecommunications, transportation, and Information Technology. Computer Engineering graduates find employment in positions requiring Computer Science, Electrical Engineering or Computer Engineering expertise, are in high demand in virtually all industries, and are among the highest compensated specialties in engineering.

The objective of the computer engineering degree program is to prepare students for success as practicing engineers engaged in life-long learning and serving in leadership roles in their chosen career path. Specifically, within five years of graduation, the computer engineering degree program will prepare graduates to:

- Establish themselves as practicing professionals meeting or exceeding the expectations of their employers.
- Continue their professional development or pursue formal education to earn advanced degrees and/or certifications.
- Demonstrate leadership in their professional endeavors and/or in their communities.

### Degree Requirements

Each student must complete the following:

#### UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

§ Transfer students will take EGR 215, Introduction to the Practice of Engineering for Transfer Students, in place of EGR 101 and EGR 103.

Δ Students must complete both EGR 101 and EGR 103 to fulfill the UK Core Arts and Creativity requirement. Transfer students may satisfy the UK Core Arts and Creativity requirement by taking EGR 215.

\*Graduation Composition and Communication Requirement (GCCR) course.

† Technical elective may be selected from upper-division engineering, mathematics, statistics, computer science, physics, or other technically-related fields excluding more elementary version of required courses. To be selected in consultation with academic advisor. If a student wishes to use CS 499 instead of CPE 490 and CPE 491 to fulfill the GCCR and senior design requirements, the student must receive approval from the DUS to select an additional technical elective that supports the proposed CS 499 project.

†† 400-level CS courses and 500-level CPE and EE courses with emphasis in the computer engineering area. To be selected in consultation with academic advisor.

€ Hardware electives are senior level courses in the CPE or EE disciplines and shall be selected from the following list and/or selected in consultation with academic advisor:

EE 582 Hardware Description Languages and Programmable Logic  
CPE 584 Introduction of VLSI Design and Testing  
CPE 585 Fault Tolerant Computing  
CPE 586 Communication and Switching Networks

~ Software electives are senior level courses in the CPE or CS disciplines and shall be selected from the following list and/or selected in consultation with academic advisor:

CS 441G Compilers for Algorithmic Languages (fall only)  
CS 471G Networking and Distributed Operating Systems  
CS 570 Modern Operating Systems  
CPE 588 Real-Time Computer Systems

**BACHELOR OF SCIENCE IN COMPUTER SCIENCE**

The computer science program prepares students to identify and to solve computational problems in all areas of modern life; to design, implement, and analyze algorithmic solutions; and to build software for a variety of applications. Through required, elective and special topics courses students are exposed to the foundations and current practices of computing and algorithms, software engineering, programming languages, operating systems, graphics and multimedia, scientific computing and numerical analysis, databases, artificial intelligence, machine learning, and networks. Students are encouraged to take advantage of special topics courses, cooperative education, independent studies and undergraduate research.

The program's educational objective is to equip graduates to succeed in their chosen career path. Specifically, within three to five years after graduation:

- Those employed in industry or entrepreneurial endeavors will demonstrate professional advancement through expanded leadership responsibility, significant technical accomplishment, or other recognition of their contributions.
- Those who continue their formal education will achieve an advanced degree or other technical certification.

In addition, graduates will appreciate the preparation received in the program as it relates to their chosen careers, to their role as educated citizens in a global society, and to continued learning.

For more information, please visit the department website at: [www.cs.uky.edu](http://www.cs.uky.edu)

§ Transfer students will take EGR 215, Introduction to the Practice of Engineering for Transfer Students, in place of EGR 101 and EGR 103.

Δ Students must complete both EGR 101 and EGR 103 to fulfill the UK Core Arts and Creativity requirement. Transfer students may satisfy the UK Core Arts and Creativity requirement by taking EGR 215.

° Based on advisor consult.

‡ Only if enrolled in PHY 231.

[T] Technical Elective (12 credit hours) – include any 300-level and above courses in computer science, electrical engineering, mathematics and the Gatton College of Business and Economics. MA 214 is also an acceptable technical elective. Cooperative education credit may be used to satisfy this requirement; consult with advisor.

[S] Science Elective (3 credit hours) – must be selected from UK Core natural science or social science approved list or by consent of department. Any natural science course from the UK Core Natural Science list, excluding any elementary version of any required course.

[C] Computer Science Elective (18 credit hours) – include 300-level and above computer science courses with three to be selected from: CS 335, CS 378, CS 405G, CS 441G, CS 450G, CS 460G and CS 463G.

[N] Natural Science (3 elective credit hours) – Any natural science course excluding more elementary versions of completed required courses.

[E] Free Elective (10 credit hours) – can be any course that earns college credit and is not a more elementary version of a required course. 6 credits are not to be in computer science, mathematics, science or engineering.

\*Graduation Composition and Communication Requirement (GCCR) course.

## Minor in Computer Science

The minor in Computer Science requires a minimum of 19-20 hours of course work in CS, to include:

CS 115 Introduction to Computer Programming or EGR 102 Fundamentals of Engineering Computing ....	2-3
CS 215 Introduction to Program Design, Abstraction, and Problem Solving .....	4
CS 216 Introduction to Software Engineering Techniques .....	3
CS 275 Discrete Mathematics .....	4
CS 315 Algorithm Design and Analysis .....	3

or equivalent, plus 3 additional hours of upper-division courses (300 or higher) in computer science. A GPA of at least 2.5 across these courses is required. At least 10 of the credit hours required to complete the minor must be earned at the University of Kentucky.

## BACHELOR OF SCIENCE IN ELECTRICAL ENGINEERING

The electrical engineering undergraduate degree program seeks to produce graduates who are trained in the theory and practice of electrical and computer engineering and are well prepared to handle the professional and leadership challenges of their careers. The program allows students to specialize in high performance and embedded computing, microelectronics and nanotechnology, power and energy, signal processing and communications, high frequency circuits and fields, and control systems, among others.

The objective of the electrical engineering degree program is to prepare students for success as practicing engineers engaged in life-long learning and serving in leadership roles in their chosen career path. Specifically, within five years of graduation, the electrical engineering degree program will prepare graduates to:

- Establish themselves as practicing professionals meeting or exceeding the expectations of their employers.
- Continue their professional development or pursue formal education to earn advanced degrees and/or certifications.
- Demonstrate leadership in their professional endeavors and/or in their communities.

The electrical engineering undergraduate program has identified **curriculum tracks** as recommended groups of courses for undergraduate students interested in a particular area of electrical engineering. Each track consists of a list of three recommended electives (typically EE Technical Electives) and possibly a recommended lab elective. A student will be considered to have completed a track if these course requirements have been satisfied with a grade of **C** or better.

Students are not required to participate in a track. Tracks are intended for students as a guide of classes to take in a particular area. Student

transcripts will not explicitly mention completion of a track. However, any student completing a track will receive an official recognition of this completion from the department.

The current set of tracks are:

### Electric Power and Energy

EE Technical Electives EE 537 and EE 538, and one of the following: EE 518, EE 531, or EE 539. Also, EE 416G as a Lab Elective.

### Signals and Systems

Any three of the following EE Technical Electives: EE 511, EE 512, EE 513, EE 571, EE 572, EE 586. Also, EE 422G as a Lab Elective.

### Digital Systems

EE Technical Electives EE 582 and EE 584, and one of the following: EE 585, EE 586, EE 587, EE 589. Also, EE 281 as a Lab Elective.

### High Frequency Circuits and Fields

EE Technical Electives EE 522 and EE 523, and one of the following additional: EE 523, EE 525, EE 527.

### Degree Requirements

Each student must complete the following:

#### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

† *Transfer students will take EGR 215, Introduction to the Practice of Engineering for Transfer Students, in place of EGR 101 and EGR 103.*

‡ *Students must complete both EGR 101 and EGR 103 to fulfill the UK Core Arts and Creativity requirement. Transfer students may satisfy the UK Core Arts and Creativity requirement by taking EGR 215.*

[M] *Math/Statistics Elective: Any upper-division (300-level or higher) math or statistics course excluding MA 308 and MA 310 (3 credit hours total).*

[E] *Engineering/Science Electives: Any engineering, physics, computer science, or math course at the 200-level or higher, other than an electrical engineering course and excluding MA 308, MA 310, and more elementary versions of required courses (6 credit hours total). Cooperative education credit may not be used to satisfy this requirement.*

[T] *Technical elective may be selected from upper-division (300-level or higher) engineering, mathematics, statistics, computer science, physics, or other technically-related fields excluding MA 308, MA 310, EE 305, and more elementary versions of required courses, to be selected in consultation with the academic advisor (6 credit hours total).*

[L] *Electrical Engineering Laboratory Elective: EE 416G, EE 422G, EE 462G (4 credit hours total).*

‡ *Graduation Composition and Communication Requirement (GCCR) course.*

\**EE Technical Electives (must be 500-level courses). Courses recommended as electrical engineering technical electives are listed below (each course is 3 credit hours):*

EE 503 Power Electronics
EE 511 Introduction to Communication Systems
EE 512 Digital Communication Systems
EE 513 Audio Signals and Systems
EE 517 Advanced Electromechanics
EE 518 Electric Drives
EE 522 Antenna Design
EE 523 Microwave Circuit Design
EE 525 Numerical Methods and Electromagnetics
EE 527 Electromagnetic Compatibility
EE 531 Alternative and Renewable Energy Systems
EE 532 Smart Grid: Automation and Control of Power Systems
EE 533 Advanced Power System Protection
EE 535 Power Systems: Generation, Operation and Control
EE 536 Power System Fault Analysis and Protection
EE 537 Electric Power Systems I
EE 538 Electric Power Systems II
EE 539 Power Distribution Systems
EE 543 Solar Cell Devices and Systems for Electrical Energy Generation
EE 546 Electric Power System Fundamentals
EE 560 Semiconductor Device Design
EE 566 Engineering Optics
EE 567 Introduction to Lasers and Masers
EE 568 Fiber Optics
EE 569 Electronic Packaging Systems and Manufacturing Processes
EE 571 Feedback Control Design
EE 572 Digital Control of Dynamic Systems
EE 582 Hardware Description Languages and Programmable Logic
EE 584 Introduction of VLSI Testing and Design
EE 585 Fault Tolerant Computing
EE 586 Communication and Switching Networks
EE 587 Microcomputer Systems Design
EE 588 Real-Time Computer Systems
EE 589 Advanced VLSI
EE 599 Topics in Electrical Engineering (Subtitle required)

## BACHELOR OF SCIENCE IN MATERIALS ENGINEERING

The materials engineer is responsible for the selection, preparation and application of existing materials and for the development of new and improved materials. Materials engineers study the relationships between atomic and/or molecular constitution, microstructure and physical properties including mechanical, thermal, electrical, and optical behavior. Classes of materials include metals, ceramics, polymers, and electronic materials.

The educational objectives of the materials engineering program state that graduates will:

- Excel in their chosen career pathways, as practicing materials engineers or through the pursuit of advanced technical or professional degrees.
- Impact their profession through effective leadership, communication, teamwork, and through creative solution strategies to address global and societal issues.
- Apply their engineering training to contribute to the health, safety, environmental and economic well-being of their communities.

- Seek out continuing education, professional development and career advancement opportunities.

### Degree Requirements

The following curriculum meets requirements for the B.S. in materials engineering, provided the student satisfies the graduation requirements listed earlier. Each student must complete the following:

#### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

EGR 101 Engineering Exploration I § Δ .....	1
EGR 103 Engineering Exploration II § Δ .....	2

#### II. Intellectual Inquiry in the Humanities

§ Transfer students will take EGR 215, Introduction to the Practice of Engineering for Transfer Students, in place of EGR 101 and EGR 103.

Δ Students must complete both EGR 101 and EGR 103 to fulfill the UK Core Arts and Creativity requirement. Transfer students may satisfy the UK Core Arts and Creativity requirement by taking EGR 215.

\*Choose from the list of Technical Electives.

\*\*Graduation Composition and Communication Requirement (GCCR) course.

## BACHELOR OF SCIENCE IN MECHANICAL ENGINEERING

The training of the mechanical engineer is the broadest among the several fields of engineering. The mechanical engineer uses the techniques of mathematics combined with a specialized knowledge of the thermal and energy sciences, solid and fluid mechanics, and the properties of materials. This information is supplemented by an understanding of manufacturing processes, the design and control of systems, and the economics of the technological community.

Our graduates will be able to apply knowledge of mathematics, science and mechanical engineering to the solution of problems, particularly in the areas of thermodynamics and energy systems; heat transfer; fluid mechanics; mechanical systems and controls; mechanical design; finite element methods and computer-aided graphics; manufacturing; instrumentation; and experimental method.

Consistent with the Vision and Mission statements of the University of Kentucky and the College of Engineering, the undergraduate program in mechanical engineering will prepare our graduates for successful practice or academic pursuits in mechanical engineering. We expect our graduates to attain the following Program Educational Objectives within a few years of graduation:

1. Our graduates will be employed in mechanical engineering or a variety of related fields as professionals, or attend graduate and professional schools in their career paths.
2. Our graduates will continue their education and professional growth by supporting or participating in professional societies, licensure programs, short courses, or other professional development activities.

### Degree Requirements

Each student must complete the following:

#### UK Core Requirements

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

## BACHELOR OF SCIENCE IN MECHANICAL ENGINEERING – PADUCAH

In addition to the program on the Lexington campus, students can pursue a B.S. degree in mechanical engineering through the College's Extended Campus Program in Paducah, Kentucky. The Paducah program uses the same curriculum as the main campus, but provides the opportunity for students to complete all B.S. degree requirements without having to relocate to Lexington.

Consistent with the Vision and Mission statements of the University of Kentucky, the mechanical engineering program at the UK Extended Campus in Paducah strives to meet the following educational objectives:

The mechanical engineering program will prepare our students for successful practice or academic pursuits in mechanical engineering.

1. Our graduates will practice mechanical engineering in a variety of fields as professionals and/or be recruited to graduate and professional schools in their career paths.
2. Our graduates will communicate effectively, work in diverse teams, address the challenges of a global society, and exhibit

leadership, ethics, and creativity in their work places.

3. Our graduates will value continuing education and professional growth by supporting or participating in professional societies, licensure programs, short courses, or other professional development activities.

The Paducah mechanical engineering program collaborates with West Kentucky Community and Technical College to provide the basic math and science courses, as well as the general studies course requirements. On-site UK mechanical engineering faculty members teach the engineering courses. Program admission, course registration, student advising and other student services all can be completed at the Paducah site.

### Degree Requirements

The curriculum requirements for the B.S. degree in mechanical engineering in Paducah are identical to those on the Lexington campus. Refer to those degree requirements for the Paducah degree program. Not all the technical electives listed for the Lexington program will be available in Paducah. The student must satisfy the College graduation requirements listed earlier.

## BACHELOR OF SCIENCE IN MINING ENGINEERING

Mining engineering requires the broadest knowledge of sciences and other fields of engineering in its practice after graduation. The curriculum below prepares the student for a career in the field of mining.

The program educational objectives of the undergraduate program in mining engineering take into consideration the university mission and the constituents' needs by producing graduates who, in their first few years after graduation, will be able to:

- Advance in their careers, adapting to new situations and emerging problems, through the application of general purpose engineering skills and the core technical disciplines, analytical procedures, and design practices of the mining engineering profession.
- Function ethically in a variety of professional roles such as mine planner, designer, production manager, mineral processing engineer, consultant, technical support representative and regulatory specialist.
- Pursue advanced degrees in mineral-related fields and also those fields that support the mineral industries such as business and law.
- Utilize professional skills such as effective communication, teamwork, and leadership.
- Demonstrate an understanding of the critical role mining engineers play in society with respect to health, safety, and the envi-

ronment in tangible ways such as achieving professional licensure.

**Sophomore Year**

**First Semester Hours**

EES 220 Principles of Physical Geology	4
EM 221 Statics	3
MA 213 Calculus III	4
MNG 201 Mining Engineering Fundamentals	3
PHY 232 General University Physics	4

**Second Semester**

EES 230 Fundamentals of Geology I	3
EM 302 Mechanics of Deformable Solids	3
MA 214 Calculus IV	3
MNG 291 Elements of Mine Design	3
MNG 303 Deformable Solids Laboratory	1
MNG 322 Mine Safety and Health Management and Processes	2
MNG 331 Explosives and Blasting	2

**Junior Year**

**First Semester Hours**

EM 313 Dynamics	3
MNG 211 Mine Surveying	2
MNG 301 Minerals Processing	3
MNG 335 Introduction to Mine Systems Analysis†	3
MNG 463 Surface Mine Design	3
UK Core – Humanities	3

**Second Semester**

CE 341 Introduction to Fluid Mechanics	4
MNG 311 Electrical Circuits and Mining Machinery	3
MNG 371 Professional Development of Mining Engineers***	3
MNG 435 Mine Systems Engineering and Economics	3
MNG 551 Rock Mechanics	4

**Senior Year**

**First Semester Hours**

MNG 332 Mine Plant Machinery	3
MNG 341 Mine Ventilation	3
MNG 351 Underground Mine Design	3
MNG 591 Mine Design Project I	1
UK Core – Citizenship - USA	3

**Second Semester**

BAE 535/MNG 564 Environmental Control System Design and Reclamation	3
MNG 592 Mine Design Project II (UK Core – Arts and Creativity)	3
Minerals Processing Technical Elective*	3
Technical Elective**	3
UK Core – Global Dynamics	3

§ Transfer students will take EGR 215, Introduction to the Practice of Engineering for Transfer Students, in place of EGR 101 and EGR 103.

Δ Students must complete both EGR 101 and EGR 103 to fulfill the UK Core Arts and Creativity requirement. Transfer students may satisfy the UK Core Arts and Creativity requirement by taking EGR 215.

¶ Students only required to take one lab. Consult with advisor.

\*The Minerals Processing Technical Elective is to be chosen between MNG 575, Coal Preparation Design, and MNG 580, Mineral Processing Plant Design.

\*\*Courses recommended as technical electives are listed below. These courses must be chosen with the approval of the student's advisor to ensure that the curriculum includes sufficient engineering design content.

\*\*\*Graduation Composition and Communication Requirement (GCCCR) course.

†MNG 335 satisfies the Statistical Inferential Reasoning requirement in the UK Core.

**Technical Electives:** Students are required to select their technical elective from the departmental courses listed below:

MNG 511 Mine Power System Design
MNG 531 Advanced Blast Design and Technology
MNG 541 Computer Design of Mine Ventilation Systems
MNG 552 Ground Control Software and Analysis
MNG 561 Mine Construction Engineering I
MNG 575 Coal Preparation Design
MNG 580 Mineral Processing Plant Design
MNG 599 Topic in Mining Engineering

**UNDERGRADUATE CERTIFICATES**

The University of Kentucky grants the following undergraduate certificates in the College of Engineering:

**Undergraduate Certificate in Aerospace Engineering**

Aerospace Engineering careers are multidisciplinary, mathematical, and typically developed in graduate school or through career experience. Therefore, the UK undergraduate Aerospace Engineering certificate introduces UK students to multidisciplinary context of aerospace engineering through experiential education while preparing them for graduate education and careers through certificate course work. A strong foundation in mathematics is also essential, so technical elective course work is paired with cross-disciplinary Mathematics options. This will advance the mathematical maturity of aerospace certificate students, positively impact student performance in engineering courses, and prepare students for aerospace graduate degree programs and career opportunities.

**Admission**

For admission to the aerospace certificate program, students must submit an application, be in good academic standing, and have completed at least 24 hours and no more than 80 hours of course work with a minimum GPA of 2.5.

**Curriculum**

For completion of the Certificate, the GPA must be at least 3.0 with no grade less than C.

In addition to successfully completing with a C or better the 12 hours of course work for at least one of the aerospace specialties areas listed below, students must also successfully complete at least one of the following educational experiences relevant for aerospace engineering (all courses must be completed with C or better): Aerospace-related capstone design project or design/build/fly competition, aerospace-related internship or co-op term, faculty-mentored aerospace-related research or independent study, EGR 490 Engineering Leadership or Engineering Scholars Program, AFROTC or aerospace-related military experience, or approved equivalent aerospace-related educational experience. Your Aerospace Educational Experience is documented by your registration in EGR 390 Experiential Learning in Engineering or Computer Science (0 credits).

**Structures, Instrumentation and Testing (minimum 12 hours)**

EGR 390 Experiential Learning in Engineering or Computer Science*	0
MA 4XXG§	
or

<i>*Aerospace Experience.</i>	
§ <i>Cross-disciplinary course.</i>	

**Undergraduate Certificate in Biopharmaceutical Engineering**

The biopharmaceutical field is a continually changing industry that has classically been separated into upstream (drug formulation and development process) and downstream (process and manufacturing) components, with chemical engineering playing a critical role in both areas. The future of this field will depend upon innovative new engineers who are able to easily communicate with people on either side. The goal of this program is to provide students a cohesive view of basic biopharmaceutical principles, so that they can more readily apply their chemical engineering skills to this diverse discipline.

**Applying to the Program**

Students apply to the program during the fall semester of their sophomore year. The application process includes an online form, a written statement on career goals and an interview with two members of the faculty of record. In order for students to be admitted, they must have at least a 3.3 GPA and receive a B or better in CME 200. After this time, all students enrolled in the program meet once a semester with the director of the program or a faculty of record to assess progress, aid in course selection and provide guidance with career goals.

**Core Courses (12 credit hours)**

BCH 401G Fundamentals of Biochemistry	3
PHS 522 Fundamentals of Pharmaceutical Sciences and Development	3
CME 575 Fundamentals of Pharmaceutical Engineering	3
PGY 206 Elementary Physiology	3

**Elective Courses (6 credit hours)**

CME 573 Drug Delivery: Advanced Pharmaceutics	3
CME 570 Bionanotechnology: Interfaces and Devices	3
*CME 395 Special Problems in Chemical Engineering	3

**Total Hours** ..... 18*\*CME 395 research must be on a related topic.*

## Undergraduate Certificate in Cybersecurity

For students who are interested in pursuing careers in information technology, the Cybersecurity Certificate enhances traditional educational opportunities offered within the University of Kentucky's existing degree programs by equipping students with skills to identify, analyze and understand cybersecurity threats, and design and implement appropriate effective countermeasures. The certificate targets students in the computer science, computer engineering and electrical engineering programs. However, other students with appropriate background are also encouraged to apply.

The Cybersecurity Certificate educates undergraduate students in an increasingly important curriculum, preparing them to understand the challenges of cybersecurity, identify potential threats, and design effective countermeasures. The certificate is affiliated with the B.S. degrees in Computer Science and in Computer Engineering. Today, software and hardware security are a growing aspect of a computer scientist's or computer engineer's profession. The certificate complements standard curricula of the two programs with courses from Electrical and Computer Engineering, Computer Science, and Information Science and culminating in an independent study project, report, and presentation on a cybersecurity topic.

### Admission

In order for students to be admitted, they must be enrolled in an undergraduate degree program. They must have completed CS 270, EE 287 or have comparable experience. In addition, students must submit an application for the certificate program and go through the program interview process.

Any student may apply. The intended start semester for the program is the second semester of the student's junior year, although some students could be admitted earlier or as late as at the start of their senior year.

The application process requires students to submit a written statement about career goals and a follow-up interview with a member of the faculty of record. After admission, all students enrolled in the program will meet every semester with the director of the program or a faculty of record to discuss their progress, course selection and career goals.

### Curriculum

Students must earn 13-15 credit hours by taking these courses:

- EE 576 Cybersecurity ..... 3
- Two of the following three courses:
  - CS 378 Introduction to Cryptology ..... 3
  - CS 564 Computer Security ..... 3
  - CS 572 Network Security ..... 3

- One course from the following list, or a course approved by the certificate director/co-director:
  - CS 371 Introduction to Computer Networking ..... 3
  - CS 505 Intermediate Topics
    - in Database Systems ..... 3
  - CS 570 Modern Operating Systems ..... 3
  - CS 571 Computer Networks ..... 3
  - EE 380 Computer Organization ..... 3
  - EE 480 Advanced Computer Architecture ..... 3
  - EE 586 Communication
    - and Switching Networks ..... 3
  - ICT 351 Technology Security ..... 3
  - ICT 550 Security Informatics ..... 3
  - ICT 552 Cybercrime and
    - Digital Law Enforcement ..... 3
- CS 395 or EE 395 for 1 to 3 credit hours with the certificate director/co-director or a designated faculty. As part of the course requirements, every student will submit a final report on a selected topic in cybersecurity, to be approved by the certificate director or co-director, and will make an oral presentation (taken as final exam) to a group of members of the faculty of record. The number of credit hours depends on the complexity of the topic and will be determined by the certificate director/co-director.

## Undergraduate Certificate in Environmental Engineering

For students who are interested in pursuing environmental engineering careers, the Environmental Engineering Certificate enhances traditional educational opportunities offered within the existing degree programs available within the College of Engineering. Environmental engineering careers often begin with educational training in traditional engineering disciplines, but then require specialized cross-disciplinary training to cover a broader breadth of environmental issues. Environmental engineers work on projects related to drinking water, wastewater, storm water, solid waste, air, energy, site assessment and remediation, health and safety, etc. To develop sustainable solutions that address such a wide range of applications, environmental engineers not only require a strong foundation in engineering principles, but they also must have an understanding of biology and chemistry within the context of natural and engineered systems. The Environmental Engineering Certificate integrates principles of engineering, biology, and chemistry to address environmental problems impacting ecosystem and human health.

The Environmental Engineering Certificate offers current and incoming degree-seeking undergraduate students in the College of Engineering a curriculum that integrates principles of engineering, biology, and chemistry with the development of sustainable solutions to environmental problems impacting ecosystem and human health. The Environmental Engineering Certificate will: 1) formalize environmental engineering training taking place across various degree programs within the College of Engineering; 2) raise visibility of environmental engineering as a disci-

pline among students, faculty and advisors; and, 3) increase cross-departmental interaction among four departments within the College of Engineering.

### Admission

Students are encouraged to apply to the program during the fall semester of their sophomore year; however, students can apply anytime until graduation. The application process will include an online form, a written statement about career goals, and an interview with a member of the faculty of record. In order for students to be admitted, they must be enrolled in an undergraduate degree program and be in "good" standing as defined by the College. In addition, students must submit an application for the certificate program and go through the program interview process.

After admission, all students enrolled in the program will meet annually with the director of the program or a faculty of record to assess progress, aid in course selection, and provide guidance with career goals.

## Course Plan for Environmental Engineering Certificate

The Environmental Engineering undergraduate certificate involves a total of 12 credit hours (200-level or greater). To complete the certificate, student must take the foundation course (CE 351), one biology course, one chemistry course, and one course from a focus area. Course substitutions will be considered on a case-by-case basis and must be approved by the Certificate Director.

### Foundation Course

3 credits

CE 351 Introduction to Environmental Engineering ..... 3

### Biology Course

Choose one course, 3 credits:

BIO 208 Principles of Microbiology

or

BIO 308 General Microbiology ..... 3

CE 555 Microbial Aspects of  
Environmental Engineering ..... 3

PLS 566 Soil Microbiology ..... 3

### Chemistry Course

Choose one course, 3 credits:

CHE 226 Analytical Chemistry ..... 3

CHE 230 Organic Chemistry I ..... 3

CHE 236 Survey of Organic Chemistry ..... 3

CHE 565 Environmental Chemistry ..... 3

### Focus Areas

Choose one course, 3 credits:

#### Natural Water Systems

BAE 532/CE 542 Introduction to

Stream Restoration ..... 3

BAE 535/MNG 535 Environmental Control System

Design and Reclamation ..... 3

CE 547/BAE 547 Watershed Sedimentation ..... 3

#### Water and Wastewater Treatment

BAE 435G Waste Management for Biosystems ..... 3

CE 551 Water and Wastewater

Treatment Engineering ..... 3

CME 580 Design of Rate and Equilibrium

Processes for Water Pollution Control ..... 3

CME 599 Topics in Chemical Engineering .....	3
CME 395 Special Problems in Chemical Engineering .....	3
( <i>Environmental related</i> )	
CME 599 Topics in Chemical Engineering .....	3
( <i>Membrane Science and Technology</i> )	

**Stormwater**

BAE 599 Topics in Biosystems Engineering .....	3
( <i>Low Impact Development</i> )	

**Air**

MNG 341 Mine Ventilation .....	3
MNG 541 Computer Design of Mine Ventilation Systems .....	3

**Energy**

CE 553 Environmental Consequences of Energy Production .....	3
CME 523 Concepts, Assessment Tools and Methods in Sustainable Power and Energy .....	3

**Environmental Health and Remediation**

CE 599 Topics in Civil Engineering (Subtitle required) .....	3
( <i>Subsurface Remediation Engineering</i> )	

**Health and Safety**

*MNG 322 Mine Safety and Health Management Processes .....	2
<i>*MNG 322 is a 2 credit course, additional course credit must be satisfied.</i>	

**Chemistry**

CHE 565 Environmental Chemistry .....	3
---------------------------------------	---

**Biology**

CE 555 Microbial Aspects of Environmental Engineering .....	3
--	---

**Regulations**

AEC 445G Introduction to Resource and Environmental Economics .....	3
--	---

**Miscellaneous**

XXX 395 Independent Research Course .....	3
<i>must be approved by Director</i>	
XXX 599 Special Topics Engineering Course .....	3
<i>must be approved by Director</i>	

## Undergraduate Certificate in Power and Energy

### Requirements for the Undergraduate Certificate in Power and Energy

The purpose of the Power and Energy Undergraduate Certificate is to provide students with a formalized recognition of an emphasis in power and energy as part of their undergraduate degree program. The certificate consists of a series of foundational courses, supplemented with a broad array of elective courses related to power and energy. The elective courses cover a wide variety of areas, including fundamentals, conventional and emerging technologies, smart grid systems, distributed generation, power system protection, energy storage, solar power, biofuels, and others. This certificate is an important part of the Power and Energy Institute of Kentucky (PEIK), created through a grant from the US Department of Energy.

**Structure**

The Director of the Power and Energy Undergraduate Certificate is responsible for admitting students into the certificate, approving each student's curriculum for completing the certificate, and notifying the Registrar when certificate requirements have been completed. Students completing the certificate will receive a paper certificate and the certification will also be posted on the student's official transcript. The certification will not appear on the student's diploma.

**Entrance Requirements**

To be accepted into the University of Kentucky Power and Energy Undergraduate Certificate, the student must be pursuing an undergraduate degree and have completed at least 24 credits with a UK cumulative GPA of at least 2.50. A transfer student can be accepted into the certificate if he/she has completed at least 24 credits with a weighted cumulative GPA from all other institutions of at least 2.50.

**Exit Requirements**

- The student must complete a minimum of 15 credits of course work in the certificate curriculum taken for a letter grade. Courses taken prior to admission into the certificate can be applied to the certificate.
- A minimum of 9 credits must be at, or above, the 300-level.
- The student must earn a grade of **C** or better in each course used to satisfy the certificate.
- The student must complete a 3-credit breadth component. The breadth component requires that a student take courses in at least two disciplines, with a minimum of 3 credits completed in the second discipline.
- The certificate will be awarded to students who complete the certificate curriculum and also complete an undergraduate degree.
- No more than 9 credits of the Power and Energy Undergraduate Certificate can be used as required courses in the student's major, minor, or other certificate. Courses used to satisfy the certificate can be used as electives (including technical electives) in a student's degree program.
- Courses applied to the Power and Energy Undergraduate Certificate cannot also be applied to the Power and Energy Graduate Certificate.
- The Power and Energy Undergraduate Certificate Director must approve the certificate curriculum for each student.

### Power and Energy Undergraduate Certificate Curriculum

The structure of the certificate curriculum is shown below:

**Required Course (3 credits)**

EGR 240 Global Energy Issues .....	3
------------------------------------	---

**Core Elective (3 credits)**

Choose one of the following courses:

EGR 540 Power Economics and Public Policy .....	3
EGR 542 Electric Power Generation Technologies .....	3
EGR 546 Electric Power System Fundamentals .....	3

**Power and Energy Electives (9 credits)**

Choose 9 credits from the approved list of Power and Energy Electives. The selected courses must be approved by the Director of the Power and Energy Undergraduate Certificate to ensure that the selections maintain a thematic consistency and fulfill the certificate breadth requirement. A partial list of approved power and energy courses is provided below. Additional courses will be added as they are approved for the power and energy certificate curriculum.

BAE 503 Fundamentals of Biorenewable Resource Engineering .....	3
BAE 504 Biofuels Production and Properties .....	3
BAE 505 Thermochemical Processing of Biomass .....	3
BAE/EE/EGR 543 Solar Cell Devices and Systems for Electrical Energy .....	3
BAE/ME 580 Heating, Ventilating and Air Conditioning .....	3
CE 351 Introduction to Environmental Engineering .....	3
CE 433 Railway Operations and Multi-Modal Transportation .....	3
CE 533 Railroad Facilities Design and Analysis .....	3
CE/EGR 553 Environmental Consequences of Energy Production .....	3
CHE 565 Environmental Chemistry .....	3
CME 425 Heat and Mass Transfer .....	3
CME 515 Air Pollution Control .....	3
CME/EGR/MFS 523 Concepts, Assessment Tools and Methods in Sustainable Power and Energy .....	3
CME 580 Design of Rate and Equilibrium Processes for Water Pollution Control .....	3
EE 415G Electromechanics .....	3
EE 416G Energy Conversion Laboratory .....	2
EE 503 Power Electronics .....	3
EE 517 Advanced Electromechanics .....	3
EE 518 Electric Drives .....	3
EE 531 Alternative and Renewable Energy Systems .....	3
EE 532 Smart Grid: Automation and Control of Power Systems .....	3
EE 533 Advanced Power System Protection .....	3
EE 535 Power Systems: Generation, Operation and Control .....	3
EE 536 Power System Fault Analysis and Protection ...	3
EE 537 Electric Power Systems I .....	3
EE 538 Electric Power Systems II .....	3
EE 539 Power Distribution Systems .....	3
EGR 540 Power Economics and Public Policy .....	3
EGR/CME 542 Electric Power Generation Technologies .....	3
EE 543 Solar Cell Devices and Systems for Electrical Energy Generation .....	3
EGR/EE 546 Electric Power System Fundamentals .....	3
ME 321 Engineering Thermodynamics II .....	3
ME 325 Elements of Heat Transfer	
ME 515 Rotordynamics of Turbomachinery	
ME 530 Gas Dynamics .....	3
ME 548 Aerodynamics of Turbomachinery .....	3
ME 549 Power Generation .....	3
ME 563 Basic Combustion Phenomena .....	3
MNG 511 Mine Power System Design .....	3
MNG 575 Coal Preparation Design .....	3

## Undergraduate Certificate in Production Engineering

The Production Engineering Certificate (PEC) encompasses development of students' experiences and knowledge, and the application of engineering and scientific principles, in automotive manufacturing. It enhances capstone senior design projects, promotes student understanding of key automotive production processes, and involves students in capstone projects that develop knowledge of problems in and potential solutions for automotive production process design. Design projects within the Core Courses are developed through proposals from industry or an engineering organization.

The program requires 12 credit hours minimum to be awarded the certificate, which includes 6 credit hours of capstone design and 6 credit hours of elective courses. However, students from departments or disciplines that do not have two semesters (6 credit hours) of capstone design courses can substitute ME 526 Lean Operations Management (a required prerequisite for the certificate) as an acceptable core course to meet the 6 credit hours requirements. For example, CME/MSE students whose capstone design course is only one semester (3 credit hours), ME 526 Lean Operations Management, can count for one of the core courses or they will be required to take three elective courses (9 credit hours) to satisfy the total of 12 credit hours required. Students from departments or disciplines that may be interested in the certificate but do not have capstone design as part of their degree requirements, their core course requirement will be assessed by the director on a case by case basis.

### Admission Requirements

Students accepted for the PEC Program must be pursuing or have pursued an accredited university degree. For UK students, 24 credits completed and a minimum cumulative GPA of 2.5 are required; in the case of transfer students into UK, 24 credits completed and a minimum cumulative GPA of 2.5 are required from all other institutions.

### Core Courses

ME 411 ME Capstone Design I	
<b>or</b>	
EE 490 ECE Capstone Design I .....	3
ME 412 ME Capstone Design II	
<b>or</b>	
EE 491 ECE Capstone Design II	
<b>or</b>	
MSE 480 Materials Design .....	3

### Electives

ME 416 Automotive Painting Technology .....	3
EE 528 Automotive Body Welding .....	3
CME/MSE 552 Automotive Plastics .....	3
ME 418 Automotive Assembly and Quality Control ....	3
ME/MFS 511 Machining of Materials and Applications .....	3

Mark W. Shanda, M.F.A., is Dean of the College of Fine Arts.

The College of Fine Arts was established in September 1976 and includes the Department of Theatre and Dance, the School of Art and Visual Studies, the School of Music, the Department of Arts Administration, the UK Art Museum, and the Otis A. Singletary Center for the Arts.

## Accreditation

### Department of Theatre and Dance

The Department of Theatre and Dance is accredited by the National Association of Schools of Theatre (NAST).

### School of Art and Visual Studies

The School of Art and Visual Studies is accredited by the National Association of Schools of Art and Design (NASAD).

### School of Music

The School of Music is accredited by the National Association of Schools of Music (NASM).

## Undergraduate Programs in Fine Arts

The University of Kentucky grants the following degrees in the College of Fine Arts:

- Bachelor of Arts
- Bachelor of Fine Arts
- Bachelor of Music
- Bachelor of Music in Music Education
- Bachelor of Science in Digital Media Design

Students pursuing the Bachelor of Arts may select from these majors: art education, art history and visual studies, art studio, arts administration, dance, music (successful audition required), or theatre.

Students pursuing the Bachelor of Fine Arts select art studio. A portfolio review process is required.

Students pursuing a music degree select the Bachelor of Music with a major in music performance or the Bachelor of Music in Music Education. A successful audition is required.

Students pursuing a Bachelor of Science in Digital Media Design must submit an application. See details under Requirements for the B.S. with a major in Digital Media Design.

The college also offers several graduate programs, which are described in *The Graduate School Bulletin*.

## Departmental Minors

Students from any college may choose to have an interdisciplinary minor in the arts, or to minor in art history, art studio, dance, digital media design, music (music theory and history or performance), photography, theatre, and visual studies. Requirements for these minors may be found under the departmental listings.

## Undergraduate Certificates in Fine Arts

The University of Kentucky grants the following undergraduate certificates in the College of Fine Arts:

- Certificate in Baroque Trumpet
- Musical Theatre Certificate for Dance Majors
- Musical Theatre Certificate for Theatre Majors
- Musical Theatre Certificate for Voice Majors

## Financial Aid

### School of Music

A significant number of scholarships are available from the School of Music. For further information visit: [finearts.uky.edu/music/scholarships-financial-aid](http://finearts.uky.edu/music/scholarships-financial-aid).

### Department of Theatre and Dance

A significant number of scholarships are available from the Department of Theatre and Dance. For further information and to apply online, visit the scholarships page on our website at: [finearts.uky.edu/theatre](http://finearts.uky.edu/theatre).

## Requirements for the Bachelor of Arts Degree

Students who wish to pursue the Bachelor of Arts degree within the College of Fine Arts must fulfill the following requirements:

### University Requirements

All students must fulfill UK Core requirements. Students should work closely with advisors in selecting courses in each area.

### College Requirements

1. Students must complete at least 120 hours of course work or its equivalent with a grade-point average of at least 2.0. Of these hours, 39 must be at or above the 300 level.

2. Students in music and students in the art history option of the art history & visual studies major must 1) satisfy a four-semester sequence in one language by passing the fourth semester or by demonstrating equivalent competence, or 2) pass the third semester course in one language and the second semester course in a second language or demonstrate equivalent competence.
3. Students must complete a major program.

## Requirements for a Major

The major – selected from art education, art history and visual studies, art studio, arts administration, dance, digital media and design, music, or theatre – must include at least 45 credit hours. Among these 45 hours students must include the following:

1. At least 6 hours of premajor work.
2. At least 18 hours at or above the 200 level in a departmental or school program.
3. At least 9 hours in work related to but outside the major department.

In addition, students must complete the departmental or school requirements that have been established. Specific major requirements are outlined in detail under the appropriate department and school sections which follow.

## Requirements for the Bachelor of Fine Arts Degree

The University and College requirements for the B.F.A. are the same as the B.A. requirements outlined above. The major requirements are outlined with other program requirements under the School of Art and Visual Studies.

## Requirements for the Bachelor of Science in Digital Media Design

The University and College requirements for the B.S. are the same as the B.A. requirements outlined above. The major requirements are outlined with other program requirements under the School of Art and Visual Studies.

## Requirements for the Bachelor of Music in Music Performance and in Music Education

These requirements are outlined with other program requirements under the School of Music.

## Academic Advising

Advising is conducted through formal meetings with each student every semester to review individual curricular plans and progress towards degree. Advising is conducted by professional advisors in the Office of Student Affairs, locations per CFA website.

### DEPARTMENT OF ARTS ADMINISTRATION

#### Requirements for the B.A. with a major in ARTS ADMINISTRATION

The demand for arts administrators is strong. What was once a small niche has transformed into an industry of professionals trained to manage theatres, symphony halls, galleries, museums, community art councils, orchestras, art centers, and many other types of institutions. In fact, the nonprofit arts industry employs approximately 1.3 million individuals annually.

UK's Arts Administration degree program is designed to teach students the concepts, technologies, and skills necessary to successfully direct an arts organization in a competitive and changing environment. The program advocates a devotion to the arts, an interest in community development and integration, a focus on contemporary and relevant arts trends, and the belief that we can create a positive change by taking skills and knowledge out of the classroom and into the world.

#### Admission

In order to be admitted in the B.A. in Arts Administration as a full major, students must first:

1. be enrolled in the University of Kentucky;
2. complete 30 credit hours of course work;
3. have a minimum 2.8 cumulative grade-point average;
4. complete all premajor courses with a grade-point average of 3.0 in premajor courses;
5. submit an application; and
6. participate in an interview process with the arts administration faculty.

Students meeting these requirements will be accepted as majors in the program.

Students in Arts Administration must complete the following program requirements:

#### College Requirements

Students must complete 6 credit hours outside of the arts administration discipline, but within the College of Fine Arts. This requirement is satisfied by the student's required CFA minor. Students must complete 39 credit hours at the 300-level or above. This requirement is satisfied by the required course work in Arts Administration.

**Subtotal: College Required hours ..... 6**

#### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**NOTE: Students majoring in Arts Administration may use no more than six credit hours within the Arts Administration major requirements to fulfill UK Core requirements.**

<b>I. Intellectual Inquiry in Arts and Creativity</b>	
Choose one course from approved list .....	3
<b>II. Intellectual Inquiry in the Humanities</b>	
Choose one course from approved list .....	3

<b>Subtotal: Major hours .....</b>	<b>43</b>

In addition to the Major Requirements, students must take 21 credit hours with the College of Fine Arts, outside of their Arts Administration courses. Within these 21 credit hours, students must complete a minor or double major in the College of Fine Arts. The College of Fine Arts requires that all students must complete 6 credit hours outside of their major but within the college. For Arts Administration students, this requirement is satisfied by the student's required CFA minor.

The B.A. in Arts Administration requires a 2.8 cumulative GPA for graduation.

#### Directed Electives

Twelve (12) credits of Directed Electives chosen in consultation with the student's academic advisor from the following areas:

- AAD electives at the 300-level or above.
- AAD 500-level courses. At least 3 credit hours must be from 500-level AAD courses.
- AAD 395. Independent Study in Arts Administration. May complete up to 6 credit hours of an individually designed and approved project under the guidance of a faculty member.
- AAD 402. Special Topics in Arts Administration. May be repeated to a maximum of 6 credit hours when identified with different subtitles.
- AAD 499. An additional 3 credit hours (above the required 6 credit hours) of arts administration internship may be used toward directed elective credit.
- Study abroad courses may apply to directed elective credit. Consult department chair for approval.
- Individual courses (up to 6 credit hours) from any of the approved minors listed below.

Alternatively, students may select one of the following options for their directed electives:

1. Students may complete the Certificate in Innovation and Entrepreneurial Thinking (12 credit hours). Students may not use AAD courses as electives in the certificate.
2. A student may complete the following approved minors as their directed elective credit:
  - African American and Africana Studies
  - Appalachian Studies
  - Communication
  - Community and Leadership Development
  - Gender and Women's Studies
  - Information Studies
  - International Studies
  - Journalism Studies
  - Media Arts and Studies
  - Professional and Technical Writing
  - Statistics
  - Writing, Rhetoric, and Digital Studies

**Subtotal: Directed Electives ..... 12**

**Free Electives**

In addition to meeting their UK Core and major requirements, students must earn 6 credits in any area(s) of their choosing.

<b>Subtotal: Free Electives</b> .....	<b>6</b>
<b>TOTAL HOURS:</b> .....	<b>120</b>

## SCHOOL OF ART AND VISUAL STUDIES

### Requirements for the B.A. with a major in ART EDUCATION

Art Education majors who wish to be recommended for a state teaching certificate must complete the requirements for the major in Art Education and the requirements for admission, retention, and completion of a UK educator preparation program in the *College of Education* section of this Bulletin.

The Art Education Program Faculty, the College of Education Director of Academic Services and Teacher Certification, the University Registrar, and in the case of graduate level programs, the UK Graduate School Dean, are charged with the responsibility of monitoring a student's progress through educator preparation programs. The Director of Academic Services and Teacher Certification recommends to the Kentucky Education Professional Standards Board (EPSB) that a successful candidate be awarded a state educator license (certificate).

College Requirements	Hours
Music, Theatre and/or Arts Administration .....	6
plus 39 hours at 300-level or above	
<b>Subtotal: College Required hours</b> .....	<b>6</b>

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

(To be taken during the final semester of study)	
<b>Subtotal: Professional and Art Education hours</b> .....	<b>49-51</b>

**Continuous Assessment in the Art Education Program**

Students' progress through the art education programs is continuously monitored, assessed, and reviewed. In addition to regular evaluation in conjunction with their program course work and field placements, students will be assessed three times in their art education program:

- 1. Teacher Education Program (TEP).** Students who desire to declare an Art Education major will demonstrate their progress in

the Foundations Program and commitment to advanced undergraduate study through an application to the TEP. In this application, students must demonstrate that they have earned at least 60 credit hours and meet the criteria put forth by the College of Education by filling out the College of Education TEP application form. Upon meeting those criteria, applicants then have a portfolio review and interview with art education faculty to determine entry into the program.

The TEP criteria include:

- Total academic record. A minimum overall grade-point average of 2.75 is required.
  - Performance on required tests measuring proficiency in writing, reading and math.
  - Record of completed preprofessional course work, experiences, and awards.
- 2. Mid-Level review.** No later than the semester prior to student teaching, students will demonstrate that they meet the criteria put forth by the art education faculty by submitting the materials required for review by the art education faculty.
  - 3. Student Teaching.** The final assessment is made by the two cooperating public school teachers who supervise the student, and by the observation assessments of the University student teaching supervisor.

**Area of Concentration in Art**

- A-E 300 Introduction to Art Education .....
- Two Art History courses at  
or above the 300 level .....
- All of the following courses:  
A-S 310 Painting I .....
- A-S 320 Printmedia: Screenprint/Relief  
or  
A-S 321 Printmedia: Intaglio/Lithography .....
- A-S 355 Introduction to Sculpture .....
- A-S 370 Ceramics I .....
- A-S 331 Exploration of Human Form .....

Art Studio electives .....

<b>Subtotal: Area of Concentration in Art hours</b> .....	<b>30</b>
<b>Subtotal: Major hours</b> .....	<b>79-81</b>

**TOTAL HOURS:** ..... minimum of 120

**State Mandated Testing and the Kentucky Teacher Internship**

Successful completion of the examinations required by the Kentucky Education Professional Standards Board is a precondition for the granting of a teaching license (certificate). See [www.kyepsb.net/](http://www.kyepsb.net/) for the current list of PRAXIS examination requirements for P-12 Art certification.

Upon being recommended for a Kentucky Teaching License (certificate), a candidate will be issued a Kentucky Letter of Eligibility for the Kentucky Teacher Internship Program. Upon employment in a Kentucky P-12 school, the candidate will receive a one-year license to practice as a fully qualified intern Art teacher. After successfully completing the intern-

ship year, the candidate will be eligible for a regular Kentucky Professional Teaching License (certificate).

Information concerning licensure in other states is available from the office of Academic Services and Teacher Certification in the College of Education.

### Requirements for the B.A. with a major in ART HISTORY & VISUAL STUDIES

This degree offers its majors a solid foundation in the art and visual cultures of Africa, Asia, and the Western tradition, with advanced courses that present differing approaches to both art history and visual studies. A major in Art History & Visual Studies provides a solid liberal arts education with a strong emphasis on skills in visual literacy, critical thinking, problem solving, and written and oral communication that are required for virtually any career path. The program also equips majors with advanced skills in visual analysis and research.

All majors are required to take a shared art history core of 15 credits. In consultation with their advisor, majors organize their upper-division course work around one of two options: art history or visual studies.

Any student earning a Bachelor of Arts (B.A.) degree must complete a minimum of 39 hours at the 300 or above level. Depending on the option selected, at least 27 of the 39 hours are completed by the major requirements. However, students should keep this requirement in mind as they select their courses.

#### College Requirements

Music, Theatre and/or Arts Administration ..... 6  
plus 39 hours at 300-level or above  
**Subtotal: College Required hours ..... 6**

#### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

Choose **one** of the following courses, or a course from the approved list:

A-S 102 2D ..... 3  
A-S 103 3D ..... 3

#### II. Intellectual Inquiry in the Humanities

Choose **one** of the following courses, or a course from the approved list:

A-H 101 Introduction to Visual Studies ..... 3  
A-H 105 World Art Before 1400 ..... 3

#### III. Intellectual Inquiry in the Social Sciences

Choose one course from approved list ..... 3

#### IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

Choose one course from approved list ..... 3

#### V. Composition and Communication I

CIS/WRD 110 Composition and Communication I ..... 3

#### VI. Composition and Communication II

CIS/WRD 111 Composition and Communication II ..... 3

#### VII. Quantitative Foundations

Choose one course from approved list ..... 3

#### VIII. Statistical Inferential Reasoning

Choose one course from approved list ..... 3

#### IX. Community, Culture and Citizenship in the USA

Choose **one** of the following courses, or a course from the approved list:

A-H 360 Visual Culture of Politics ..... 3

#### X. Global Dynamics

Choose **one** of the following courses, or a course from the approved list:

A-H 304 African Art and Its Global Impact ..... 3

A-H 311 The Arts as Soft Power:

The Japanese Tea Ceremony ..... 3

**UK Core hours ..... 30**

#### Graduation Composition and Communication Requirement (GCCR)

A-H 300 Topics in Art History and Visual Studies

(Subtitle required) ..... 3

**Subtotal: GCCR hours ..... 3**

#### Premajor Requirements

#### Hours

The premajor requirements enable students to develop their abilities to observe, describe, and identify visual images, objects, and structures utilizing a shared vocabulary, and to analyze and interpret them in relation to particular cultural and historical circumstances.

All students take the following (3 credit hours):

A-H 106 Renaissance to Modern Art ..... 3

Plus one of the following (see requirements for the Art History or Visual Studies options for majors below; 3 credit hours):

A-H 101 Introduction to Visual Studies ..... 3

A-H 105 World Art Before 1400 ..... 3

Plus one of the following (3 credit hours):

A-S 102 2D ..... 3

A-S 103 3D ..... 3

A-S 130 Drawing ..... 3

A-S 200 Digital Art ..... 3

**Subtotal: Premajor hours ..... 9**

#### Major Requirements

To complete this major, students must fulfill the following:

- the shared curriculum core of Art History & Visual Studies courses (15 credit hours)
- one of two options in the major described below (33 credit hours);
- a capstone course (3 credit hours)
- electives (21 credit hours)

#### Shared Curriculum Core

Courses from the three shared curriculum core groups are designed to provide students with a broad knowledge of major developments in art history and visual studies. Students will develop skills in visual analysis, research methods, problem solving, and writing and oral communication.

**Subtotal: Shared Curriculum Core ..... 15**

All students must take:

A-H 300 Topics in Art History and Visual Studies

(Subtitle required) ..... 3

Select four more courses, including at least one course from each of the following three groups:

#### Art & Visual Studies of Non-Western Cultures

A-H 304 African Art and Its Global Impact ..... 3

A-H 308 Studies in African Arts (Subtitle required) ..... 3

A-H 310 Asian Art and Culture (Subtitle required) ..... 3

A-H 311 The Arts as Soft Power:

The Japanese Tea Ceremony ..... 3

#### Art & Visual Studies of Europe Before the Modern Era

A-H 314 Ancient (Subtitle required) ..... 3

A-H 323 Medieval (Subtitle required) ..... 3

A-H 334 Reframing Renaissance Art ..... 3

A-H 335 Early Modern Art & Visual Culture,

1400-1700 (Subtitle required) ..... 3

#### Art & Visual Studies of the Modern Era

A-H 339 Art & Visual Culture 1700-1840

(Subtitle required) ..... 3

A-H 340 Art & Visual Culture 1840-1914

(Subtitle required) ..... 3

A-H 341 20th Century (Subtitle required) ..... 3

A-H 342 American Art & Visual Studies

(Subtitle required) ..... 3

A-H 350 Contemporary Art and Visual Studies

(Subtitle required) ..... 3

A-H 360 Visual Culture of Politics ..... 3

Students may petition the College to substitute the following course to fulfill the corresponding historical core category above when the focus of the subtitle is appropriate:

A-H 301 Cross-Cultural Topics in Art History

& Visual Studies (Subtitle required) ..... 3

#### Option in the Major (select one)

Both of the options in the major assume a sound knowledge of art history and visual studies provided by the shared curriculum core. Each requires upper-division art history courses and courses in one or more cognate disciplines. Majors should consult with their advisor in the Art History & Visual Studies program to select the path that best serves their future goals.

#### Art History Option (33 credit hours)

This option focuses on the development of the visual arts, particularly on the histories of artworks within a broad liberal arts tradition. Students study artistic images, objects, complexes and events representing diverse cultures within a global context. It provides majors with historical, methodological, and theoretical knowledge to interpret visual forms as expressions of historical periods and cultural values.

The discipline of art history puts strong emphasis on the acquisition of skills in written and oral communication, foreign language comprehension, critical reading, and problem solving, all leading to the pursuit of independent scholarship. These are skills useful for virtually any career path, including law and international business. However, this option specifically prepares majors to pursue post-graduate studies in art history, curatorial studies, and related humanistic disciplines, leading to careers in academia, arts administration, visual resource management, museum and curatorial professions, and similar fields.

Students who have selected the Art History option are required to take A-H 105, World Art Before 1400, which is offered as a premajor requirement option.

#### Foreign Language (6-7 credit hours)

Complete one of the following sequences *beyond* the UK foreign language requirement:

**Option A:** Successful completion of the fourth college semester of one foreign language, German or French recommended. (Note: This may be accomplished by scoring at this level on a placement test for previous work in the foreign language.)

**Option B:** Successful completion of the third college semester course of one foreign language and the second college semester course of a second language. (Note: Either or both may be accomplished by scoring at the appropriate level on

a placement test for previous work in the foreign languages selected.)

**Option C:** Demonstrate equivalent competence. Students for whom English is a second language, for instance, may use their native language to fulfill this requirement.

### Upper-Division Art History & Visual Studies Courses (12 credit hours)

Select one of the following courses designed to provide students with direct experience with the art object through either a museum practicum or appropriate course offering:

A-H 399 Experiential Education in Art History & Visual Studies .....	3
A-H 501 Museum Studies I: Introduction .....	3
A-H 502 Museum Studies I: Internship .....	3
A-H 504 Practical Issues in Art History (Subtitle required) .....	3

Plus at least three Art History & Visual Studies courses at the 300 level or above, of which at least *two* must be from the seminars listed below. To fulfill the requirement, students must select two different seminar numbers (not the same seminar number with different subtitles). These courses provide students with differing perspectives and approaches to the study of the visual arts. Courses may explore interdisciplinary aspects of art history and visual studies, concentrate on an in-depth study of a specialized topic or period, or provide other frameworks beyond the traditional canon.

A-H 524 Theory and Methods (Subtitle required) .....	3
A-H 525 Studies in Genres and Media (Subtitle required) .....	3
A-H 526 Art and the Artist in Society (Subtitle required) .....	3
A-H 527 Interdisciplinary Approaches (Subtitle required) .....	3
A-H 528 Topical Seminar in Art History & Visual Studies (Subtitle required) .....	3
A-H 529 Topical Seminar in Architectural or Design History (Subtitle required) .....	3

### Cognate Courses (15 credit hours)

Students must complete 15 hours in courses identified in consultation with their advisors to provide context or address skills related to their course work in art history and visual studies. Such courses can come from – but are not limited to – anthropology, art studio, arts administration, classics, history, history of film, history of interior design, history of theatre, literature, music, aesthetics or philosophy. Foreign language courses over and above the foreign language requirement for the art history option are also encouraged.

### Capstone Course (3 credit hours)

Students will demonstrate a broad knowledge of art history and visual studies as well as skills in research and written and oral communication.

A-H 555 Methods in Art History & Visual Studies .....	3
---	---

### Electives

In addition, students must choose 21 hours of free electives.

**Subtotal: Electives** ..... 21

**TOTAL HOURS:** ..... **minimum of 120**

### Visual Studies Option (33 credit hours)

This option offers majors a broad interdisciplinary selection of courses and methodologies from the arts, design, humanities, social sciences, and sciences. Visual studies deal with all aspects of culture that communicate through visual means, from paintings and film to advertising and websites.

Students who choose this option may pursue further training leading to emerging careers in the “creative economy”, especially those involved with the creation, curation, dissemination, manipulation and retrieval of images. They may also pursue graduate work in visual studies, curatorial studies, cultural studies, and film studies.

Students who select the Visual Studies option are required to take A-H 101, Introduction to Visual Studies, offered as an option for the premajor requirement.

### Foreign Language

The UK foreign language requirement satisfies the Visual Studies option. The requirement states that any first-year freshman or transfer student must demonstrate that they have completed two high school credits in a single foreign language, or two semesters at the postsecondary level. A student who has not completed the high school foreign language requirement will be required to take a two-semester foreign language at UK prior to graduation.

### Upper-Division Art History & Visual Studies Courses (12 credit hours)

Select four of the following. To satisfy this requirement, courses must have a different subtitle from those used to satisfy the shared curriculum core, or cognate requirements:

A-H 300 Topics in Art History & Visual Studies (Subtitle required) .....	3
A-H 301 Cross-Cultural Topics in Art History & Visual Studies (Subtitle required) .....	3
A-H 350 Contemporary Art and Visual Studies (Subtitle required) .....	3
A-H 360 Visual Culture of Politics .....	3
A-H 399 Experiential Education in Art History & Visual Studies .....	3
A-H 504 Practical Issues in Art History (Subtitle required) .....	3
A-H 524 Theory and Methods (Subtitle required) .....	3
A-H 525 Studies in Genres and Media (Subtitle required) .....	3
A-H 526 Art and the Artist in Society (Subtitle required) .....	3
A-H 527 Interdisciplinary Approaches (Subtitle required) .....	3
A-H 528 Topical Seminar in Art History & Visual Studies (Subtitle required) .....	3
A-H 529 Topical Seminar in Architectural or Design History (Subtitle required) .....	3

### Cognate Courses (21 credit hours)

Students must complete 21 hours in courses identified in consultation with their advisors that have a significant visual component, and do not have an A-H or ART prefix. These courses will have topics associated with visual or material culture, visual analysis, or aesthetics, and can come from areas such as – but not limited to – visual or material anthropology, art, architecture and design, film studies, and fashion studies. At least three of these courses must be at the 300 level or above; students should bear in mind that some of the courses may have prerequisites. No more than three cognate courses may be in the same practice-based area of study (such as art studio, architecture studio design, arts administration, or communication).

### Capstone Course (3 credit hours)

A-H 555 Methods in Art History & Visual Studies .....	3
---	---

Students will demonstrate a broad knowledge of art history and visual studies as well as skills in research and written and oral communication.

### Electives

In addition, students must choose 21 hours of free electives.

**Subtotal: Electives** ..... 21

**TOTAL HOURS:** ..... **minimum of 120**

## Minor in Art History

The minor in Art History focuses on the development of the visual arts, particularly of the histories of “high” or “fine” art, within a broad liberal arts tradition. Students study artistic images, objects, and events representing diverse cultures within a global context. The minor provides students with historical, methodological, and theoretical knowledge to interpret visual forms as expressions of historical and cultural circumstances. Art history courses put strong emphasis on the acquisition of skills in critical reading, problem solving, art historical research, and written and oral communication. Students from any college may choose to minor in art history. Bear in mind that some course options may have prerequisites.

The minor requirements are as follows:

At least one course must be in non-Western Art History & Visual Studies. At least three courses must be at the 300-level or above

- Two courses selected from the following (6 credit hours):
  - A-H 101 Introduction to Visual Studies ..... 3
  - A-H 105 World Art Before 1400 ..... 3
  - A-H 106 Renaissance to Modern Art ..... 3
- One applied course in the College of Fine Arts appropriate to art history (3 credit hours). Courses in art studio, art education, as well as costume, make-up, or set design would apply.
- Four additional Art History & Visual Studies courses (A-H prefix; 12 credit hours).

**TOTAL HOURS:** ..... **21**

## Minor in Visual Studies

Workplaces today are visually saturated environments, our dominant pastimes are visual media (films, television, video, the Internet, etc.); and information is commonly communicated visually. Visual Studies teach critical viewing skills with a more broadly based curriculum than traditional art history. This minor offers students a broad interdisciplinary selection of courses and methodologies from the arts, design, humanities, social sciences, and sciences. Visual studies examine production and consumption of images, objects, and events in diverse cultures and within a global context. Students from any college may choose to minor in visual studies. Bear in mind that some of the course options may have prerequisites.

The minor requirements are as follows:

No more than four courses may be from Art History & Visual Studies (A-H prefix). At least two courses selected must be taken at the 300 level or above (including requirement #4 below).

- A-H 101 Introduction to Visual Studies ..... 3
- One course selected from the following:
  - A-H 105 World Art Before 1400 ..... 3
  - A-H 106 Renaissance to Modern Art ..... 3
- One course selected from the following:
  - A-S 102 2D ..... 3
  - A-S 103 3D ..... 3
  - A-S 130 Drawing ..... 3
  - A-S 200 Digital Art ..... 3

4. One course selected from the following:  
Any Art History & Visual Studies course at the 300 level

5. Three courses selected from the following:  
In consultation with an Art History & Visual Studies advisor, students may identify and propose courses relevant to visual studies other than those listed below to fulfill this requirement. They must file a College of Fine Arts petition form for approval of the substitution of the alternate course with the College of Fine Arts Dean's Office.

A-H Art History & Visual Studies – up to one additional course

A-S 200 Digital Art  
(if not already used to fulfill #3 above) ..... 3

A-S 280 Introduction to Photographic Literacy ..... 3

A-S 345 Web Design ..... 3

**TOTAL HOURS ..... 21**

**Requirements for the B.A. with a major in  
ART STUDIO**

The B.A. in Art Studio is a broad liberal arts degree. This is a perfect degree for students wishing to explore a wide variety of interests in and out of art studio. Students can choose a minor, double major or simply a focus on another subject area on campus. This flexible degree is available to students wishing to focus in a single medium or a combination of the following media: ceramics, digital media, drawing, fiber, painting, photography, printmedia, and sculpture.

The major in art studio must include the following:

**College Requirements**

Music, Theatre and/or Arts Administration ..... 6  
plus 39 hours at 300-level or above

**Subtotal: College Required hours ..... 6**

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete **UK Core requirements**. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

Choose one course from approved list ..... 3

**II. Intellectual Inquiry in the Humanities**

A-H 105 World Art Before 1400  
or  
A-H 106 Renaissance to Modern Art ..... 3

**III. Intellectual Inquiry in the Social Sciences**

Choose one course from approved list ..... 3

**IV. Intellectual Inquiry in the Natural, Physical,  
and Mathematical Sciences**

Choose one course from approved list ..... 3

**V. Composition and Communication I**

CIS/WRD 110 Composition and Communication I ..... 3

**VI. Composition and Communication II**

CIS/WRD 111 Composition and Communication II ..... 3

**VII. Quantitative Foundations**

Choose one course from approved list ..... 3

**VIII. Statistical Inferential Reasoning**

Choose one course from approved list ..... 3

**IX. Community, Culture and Citizenship in the USA**

Choose one course from approved list ..... 3

**X. Global Dynamics**

Choose one course from approved list ..... 3

**UK Core hours ..... 30**

**Graduation Composition and  
Communication Requirement (GCCR)**

ART 301 Professional Practices ..... 3

**Subtotal: GCCR hours ..... 3**

**First Year Foundation Requirements**

**Progression Requirement**

Students must have earned at least a letter grade of C in each of the premajor foundation courses.

**Art Studio Foundations**

**Hours**

1. A-S 101 Creativity Practices  
(taken first semester) ..... 1

2. Choose one 100 level A-H course from approved  
list ..... 3

3. A-H 106 Renaissance to Modern Art ..... 3  
\*A-S 001 Foundation Exhibition ..... 0  
A-S 102 2D ..... 3  
A-S 103 3D ..... 3  
A-S 130 Drawing ..... 3  
A-S 200 Digital Art ..... 3

**Subtotal: Premajor hours ..... 19**

**Foundation Exhibition**

Each student in the Foundations Program must participate in an exhibition during the spring semester. Students will select and submit one art piece from a UK Foundations course, present it professionally, and provide an artist's statement. Participation in this exhibition is required and is tracked in A-S 001, Foundation Exhibition.\*

\*A-S 001 offered spring only. Transfer students should enroll in A-S 001 the first spring semester in which they are enrolled.

**Major Requirements**

- 21 credit hours of studio courses at or above the 300 level, including the Studio Core requirement (9 credit hours). To fulfill the Studio Core, students must first complete one course from each of the following categories:

**STUDIOCORE**

**Category One Options** (3 credit hours)

- A-S 310 Painting I
- A-S 320 Printmedia: Screenprint/Relief
- A-S 321 Printmedia: Intaglio/Lithography
- A-S 330 Intermediate Drawing
- A-S 331 Exploration of Human Form
- †A-S 350 Introduction to Fiber

**Category Two Options** (3 credit hours)

- A-S 355 Introduction to Sculpture
- A-S 360 Introduction to Hot Metals: Fabrication
- A-S 361 Introduction to Hot Metals: Casting
- A-S 370 Ceramics I

**Category Three Options** (3 credit hours)

- A-S 300 Digital Photography
- A-S 340 Introduction to Graphic Design,  
Meaning and Image
- A-S 345 Web Design
- A-S 346 Digital Video
- A-S 347 Multimedia (Non 3D Subtitle required)
- A-S 348 Circuits & Bits: Introduction to  
Hardware and Software Topics in Arts
- A-S 380 Black & White Darkroom Photography

- 3 credit hours of art studio at the 500 level
- 6 credit hours of art history at or above the 300 level
- A-S 490 Senior Seminar (1 credit hour; taken during the final semester of study)

**Subtotal: Major hours ..... 31**

†A-S 350: Two-Dimensional subtitle required.

**Electives**

Students must complete 31 hours of electives, 9 of which must be outside of art studio, in a related area; the other 22 are free electives.

**Subtotal: Electives ..... 31**

**TOTAL HOURS: ..... 120**

## Requirements for the B.F.A. with a major in ART STUDIO

The B.F.A. program will allow for the development of studio practice at a focused, sophisticated and pre-professional level. A student's program of study may focus on a single medium from of the following media: ceramics, digital media, drawing, fiber, painting, photography, printmedia, and sculpture, or across a wide variety of media.

Students seeking the Bachelor of Fine Arts in art studio must complete the following:

### College Requirements

Music, Theatre and/or Arts Administration ..... 6  
plus 39 hours at 300-level or above

**Subtotal: College Required hours ..... 6**

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ..... 3

#### II. Intellectual Inquiry in the Humanities

A-H 105 World Art Before 1400

or

A-H 106 Renaissance to Modern Art

#### III. Intellectual Inquiry in the Social Sciences

Choose one course from approved list ..... 3

#### IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

Choose one course from approved list ..... 3

#### V. Composition and Communication I

CIS/WRD 110 Composition and Communication I ..... 3

#### VI. Composition and Communication II

CIS/WRD 111 Composition and Communication II ..... 3

#### VII. Quantitative Foundations

Choose one course from approved list ..... 3

#### VIII. Statistical Inferential Reasoning

Choose one course from approved list ..... 3

#### IX. Community, Culture and Citizenship in the USA

Choose one course from approved list ..... 3

#### X. Global Dynamics

Choose one course from approved list ..... 3

**UK Core hours ..... 30**

### Graduation Composition and Communication Requirement (GCCR)

ART 301 Professional Practices ..... 3

**Subtotal: GCCR hours ..... 3**

### First Year Foundation Requirements

#### Progression Requirement

Students must have earned at least a letter grade of C in each of the premajor foundation courses.

#### Art Studio Foundations Hours

- A-S 101 Creativity Practices (taken first semester) ..... 1
- 100 level A-H course from approved list
- A-H 106 Renaissance to Modern Art ..... 3  
\*A-S 001 Foundation Exhibition ..... 0  
A-S 102 2D ..... 3

A-S 103 3D .....	3
A-S 130 Drawing .....	3
A-S 200 Digital Art .....	3

**Subtotal: Premajor hours ..... 19**

### Foundation Exhibition

Each student in the Foundations Program must participate in an exhibition during the spring semester. Students will select and submit one art piece from a UK Foundations course, present it professionally, and provide an artist's statement. Participation in this exhibition is required and is tracked in A-S 001, Foundation Exhibition.\*

\*A-S 001 offered spring only. Transfer students should enroll in A-S 001 the first spring semester in which they are enrolled.

### Major Requirements

#### B.F.A. Entrance Portfolio

B.A. Art majors may apply for the B.F.A. degree no earlier than the student's fifth semester of college art study (60 credit hour minimum). Applicants must have earned at least a letter grade of C in each of the First Year Foundation courses. The procedure to apply for entry into the Art Studio B.F.A. major consists of a mandatory portfolio review juried by Art Studio faculty. If the quality of the portfolio is not deemed sufficient, students may reapply in a later semester for admittance to the B.F.A. program.

The portfolio will be juried from actual works of art presented in a professional format. The selected works should demonstrate the student's creative abilities and productivity, current proposed direction, and strong evidence that the student can succeed in creating a coherent body of work for a senior exhibition. Students will be present during the review to answer questions regarding formal, technical and conceptual elements of their work. In addition to the in-person review, students will submit an artist's statement and documentation of work presented during the review.

- See B.F.A. Guidelines for procedures governing this program
- 2 credit hours of ART 291 B.F.A. Studio Practicum
- At least 30 credit hours of studio courses at or above the 300 level, according to the student's committee-approved plan of study, including the Studio Core requirement (9 credit hours). To fulfill the Studio Core, students must complete one course from each of the three following categories:

#### STUDIOCORE

##### Category One Options (3 credit hours)

- A-S 310 Painting I
- A-S 320 Printmedia: Screenprint/Relief
- A-S 321 Printmedia: Intaglio/Lithography
- A-S 330 Intermediate Drawing
- A-S 331 Exploration of Human Form
- †A-S 350 Introduction to Fiber

##### Category Two Options (3 credit hours)

- A-S 355 Introduction to Sculpture
- A-S 360 Introduction to Hot Metals: Fabrication
- A-S 361 Introduction to Hot Metals: Casting
- A-S 370 Ceramics I

##### Category Three Options (3 credit hours)

- A-S 300 Digital Photography
- A-S 340 Introduction to Graphic Design, Meaning and Image
- A-S 345 Web Design
- A-S 346 Digital Video
- A-S 347 Multimedia (Non 3D Subtitle required)
- A-S 348 Circuits & Bits: Introduction to Hardware and Software Topics in Arts
- A-S 380 Black & White Darkroom Photography

- At least 6 credit hours of art studio at or above the 500 level
- At least 9 credit hours of art history at or above the 300 level
- A-S 490 Senior Seminar (1 credit hour; taken during the final semester of study)
- Students are required to complete a minimum of two semesters at the University of Kentucky following admission to the B.F.A. program.
- Students are required to participate in a B.F.A. Senior Thesis Exhibition, reviewed by their B.F.A. committee in final semester of study. NOTE: See B.F.A. Guidelines for procedures governing the B.F.A. Senior Thesis Exhibitions.
- Students must pass an exit review with their B.F.A. committee their final semester of study in order to graduate with the B.F.A. degree.

**Subtotal: Major hours ..... 48**

†A-S 350: Two-Dimensional subtitle required.

### Electives

Students must complete 14 hours of electives, 9 of which must be outside of art studio, in a related area; the other 5 are free electives.

**Subtotal: Electives ..... 14**

**TOTAL HOURS: ..... 120**

## Minor in Art Studio

Students from any college may choose to minor in Art Studio. They may choose between a broad-based introduction to studio arts or a more focused concentration in a specific medium such as ceramics, drawing, intermedia, fiber, painting, photography, printmaking, or sculpture. All prospective minors should seek advice from an Art Studio faculty member.

To earn a minor in Art Studio, students must complete the following:

- |  | Hours     |
|--|-----------|
| 1. One course chosen from the list below:  |           |
| A-S 102 2D .....   | 3         |
| A-S 103 3D .....   | 3         |
| A-S 130 Drawing .....  | 3         |
| A-S 200 Digital Art .....  | 3         |
| 2. One course in Art History .....   | 3         |
| 3. At least 12 hours in studio at the 200 level or above (with a minimum of 9 hours at or above the 300 level) |           |
| <b>Subtotal: Minor hours .....</b>   | <b>18</b> |

Only 3 hours from courses taken to fulfill a requirement in another major or minor can be used to meet the requirements of the minor in Art Studio. Students must take at least 9 hours of classes at the 200 level or above from the UK Art Studio program.

## Minor in Photography

Students from any college may choose to minor in Photography. They may choose from a list of approved courses dealing with the photographic arts from the 19th century to the present. All prospective minors should seek advice from an Art Studio faculty member or advisor.

To earn a minor in Photography, students must complete the following:

1. Required Courses
    - A-S 285 Lens Arts ..... 3
    - A-S 380 Black & White Darkroom Photography ..... 3
    - A-S 580 Photography Projects I ..... 3
  2. Choose an additional three courses from the list below:
    - A-H 343 History of Photography ..... 3
    - A-S 300 Digital Photography ..... 3
    - A-S 305 Studio Lighting ..... 3
    - A-S 346 Digital Video ..... 3
    - A-S 381 Advanced Black & White Darkroom Photography ..... 3
    - A-S 384 Color Photography I ..... 3
    - A-S 385 Intermediate Photomanipulation:
      - Photoshop ..... 3
    - A-S 386 Alternative Processes Photography I ..... 3
    - A-S 387 Topics in Photography (Subtitle required) ..... 3
    - A-S 581 Photography Projects II ..... 3
    - A-S 584 Color Photography II ..... 3
    - A-S 586 Alternative Processes Photography II ..... 3
- Total: Minor hours ..... 18**

Students should note that some courses in the minor have A-S 200 as a prerequisite.

Only 3 hours from courses taken to fulfill a requirement in another major or minor can be used to meet the requirements of the minor in Photography. Students must take at least 9 hours of classes at the 200 level or above from the UK Art Studio program.

NOTE: This minor is not available to students pursuing a degree in Art Studio or Digital Media and Design.

See more at:

[www.uky.edu/academics/minor/finearts/photography-minor](http://www.uky.edu/academics/minor/finearts/photography-minor).

### Requirements for the B.S. with a major in DIGITAL MEDIA DESIGN

The B.S. degree program in Digital Media Design offers students an intensive digital media curriculum at a pre-professional level. This degree is available to students who plan to undertake careers in practical and commercial applications of digital design and related technologies involved in the creation and use of digital imagery.

#### Admission into the Major

Students who want to major in Digital Media Design must first be admitted into the program. Due to the competitive nature of this program, early applications are encouraged.

#### Freshman Candidates

- a. File a University application with the Office of Undergraduate Admission and the University Registrar by **university scheduled dates** for fall or spring admission in the year which the student wants to begin the program. For fall admission, applicants must register for and take the American College Test (ACT) or Scholastic Aptitude Test (SAT) on or before the December test date.
- b. Apply for admission to the Digital Media Design program using the *Digital Media Design Admission Application Form*. Requirements are available on the school web site.

- c. Submit an essay as required by the *Digital Media Design Admission Application Form*. The essay will require applicants to express in writing the rationale for their interest in the Digital Media Design profession and what steps they have taken to make an informed decision regarding their choice for a major.
- d. The *Digital Media Design Admission Application Form* with essay will be reviewed in mid-February and mid-April in the year the student wants to begin the program.

#### Transfer Candidates

- a. File a University application with the Office of Undergraduate Admission and the University Registrar by **university scheduled date** for fall or spring admission in the year which the student wants to begin the program.
- b. Apply for admission to the Digital Media Design program using the *Digital Media Design Admission Application Form*. Requirements are available on the school web site.
- c. Submit an essay as required by the *Digital Media Design Admission Application Form*. The essay will require applicants to express in writing the rationale for their interest in the Digital Media Design profession and what steps they have taken to make an informed decision regarding their choice for a major.
- d. The *Digital Media Design Admission Application Form* with essay will be reviewed in mid-February and mid-April in the year the student wants to begin the program.

#### Change of Major Candidates

- a. Apply for admission to the Digital Media Design program using the *Digital Media Design Admission Application Form*. Requirements are available on the school web site.
- b. Submit an essay as required by the *Digital Media Design Admission Application Form*. The essay will require applicants to express in writing the rationale for their interest in the Digital Media Design profession and what steps they have taken to make an informed decision regarding their choice for a major.
- c. The *Digital Media Design Admission Application Form* with essay will be reviewed on a rolling basis throughout the year the student wants to begin the program.

#### Major Admission Selection Process

Candidates will be admitted to the major in order of priority based on demonstrated potential for academic achievement at the freshman level as indicated by high school grade-point average

and/or college grade-point average, ACT/SAT scores, and the required essay. Any additional or optional items for consideration will be in the *Digital Media Design Admission Application Form*. Acceptance will be on a comparative and competitive basis and limited to the number of students the School of Art and Visual Studies: Digital Media Design is able to accommodate in studio.

Students seeking the Bachelor of Science in Digital Media Design must complete the following:

#### College Requirements

Music, Theatre and/or Arts Administration ..... 6  
 plus 39 hours at 300-level or above  
**Subtotal: College Required hours ..... 6**

#### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

##### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ..... 3

##### II. Intellectual Inquiry in the Humanities

Choose one:  
 A-H 105 World Art Before 1400 ..... 3  
 A-H 106 Renaissance to Modern Art ..... 3

##### III. Intellectual Inquiry in the Social Sciences

Choose one course from approved list ..... 3

##### IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

Choose one course from approved list ..... 3

##### V. Composition and Communication I

CIS/WRD 110 Composition and Communication I ..... 3

##### VI. Composition and Communication II

CIS/WRD 111 Composition and Communication II ..... 3

##### VII. Quantitative Foundations

Choose one course from approved list ..... 3

##### VIII. Statistical Inferential Reasoning

Choose one course from approved list ..... 3

##### IX. Community, Culture and Citizenship in the USA

Choose one course from approved list ..... 3

##### X. Global Dynamics

Choose one course from approved list ..... 3

**UK Core hours ..... 30**

#### Graduation Composition and Communication Requirement (GCCR)

A-S 585 Industry Pathways and Practice ..... 3  
**Subtotal: GCCR hours ..... 3**

#### First-Year Foundation Requirements

##### Progression Requirement

Students must have earned at least a letter grade of C in each of the premajor foundation courses to progress to major status.

##### Residency Requirement

Students are required to complete a minimum of two semesters at UK following admission into the B.S. program.

DMDE Foundations	Hours
1. A-S 101 Creative Practices (taken first semester)	1
2. *A-S 001 Foundation Exhibition	0
A-S 102 2D	3
A-S 130 Drawing	3
A-S 200 Digital Art	3
A-S 285 Lens Arts	3
3. Choose any <b>one</b> Art History and Visual Studies courses	
A-H 101 Introduction to Visual Studies – recommended	3
and <b>one</b> additional course from approved list	3
<i>*A-S 001 offered spring only and can be taken concurrently with the last of the following four courses: A-S 102, 103, 130, 200.</i>	
<i>#Note: For students interested in sculpture and/or 3-D fabrication, A-S 103 (3D) will be required as well.</i>	

### Foundation Exhibition

Each student in the Foundations Program must participate in an annual exhibition to occur late each spring semester. Students will submit one work of their own selection from the first year's work for the exhibition, present it professionally, and provide an accompanying artist's statement. Participation in this exhibition is required and is tracked in \*A-S 001, Foundation Exhibition.

*\*A-S 001 offered spring only. Transfer students should enroll in A-S 001 the first spring semester in which they are enrolled.*

**Subtotal: Foundation hours** ..... 19

### Major Requirements

- Studio Requirements:  
A minimum of 9 Art Studio courses at the 300 level or above, of which at least 6 are digital-based (printmedia, digital photography, graphic design, video, web-based art, 3-D fabrication, among others) ..... 27
  - Career Pathway Core:  
A-S 547 Digital Media Projects Capstone ..... 3  
A-S 585 Industry Pathways and Practice ..... 3
  - Art History/Visual Culture:  
At least 6 hours of art history, visual studies, film history or theory at or above the 300 level from approved list ..... 6
- Subtotal: Major hours:** ..... 39

All major requirements must be completed with a grade of C or better.

### Required Outside Concentration

Each student, with the approval of his or her academic advisor, will select a minimum of 18 hours in related course work. 6 hours must be at 300 level or above. 12 hours must be from a single discipline or focused area, such as film studies, WRD, media arts, business, etc.

**Note:** Students pursuing a B.S. degree in Digital Media Design may enroll in internships under one of the following course numbers: A-H 399, A-S 399, EXP 396, and EXP 397 (learning contract required). Up to 6 internship credit hours may be used towards the outside concentration with advisor approval.

**Subtotal: Required for Outside Concentration** ..... 18

All required outside concentration requirements must be completed with a grade of C or better.

### Electives

Students must complete at least 8 hours of free electives.

**Subtotal: Electives** ..... 8

**TOTAL HOURS:** ..... 120

## Minor in Digital Media and Design

Students from any college may choose to minor in Digital Media and Design. Students select approved courses dealing with the creation of digital art and design. Prospective students should seek advice from an Art Studio faculty member or CFA advisor.

To earn a minor in Digital Media and Design students must complete six, 3 credit hour courses from the following:

At least **two** courses chosen from:

A-H 101 Introduction to Visual Studies	3
A-S 102 2D	3
A-S 130 Drawing	3
A-S 103 3D	3
A-S 200 Digital Art	3
A-S 280 Introduction to Photographic Literacy	3
A-S 285 Lens Arts	3

At least **two** courses chosen from:

A-S 300 Digital Photography	3
A-S 305 Studio Lighting	3
A-S 320 Printmedia: Screenprint/Relief	3
A-S 321 Printmedia: Intaglio/Lithography	3
A-S 322 Screen Printing	3
A-S 340 Introduction to Graphic Design, Meaning, and Image	3
A-S 341 Graphic Design: Layout	3
A-S 345 Web Design	3
A-S 346 Digital Video	3
A-S 347 Multimedia (Subtitle required)	3
A-S 348 Circuits & Bits: Introduction to Hardware and Software Topics in Arts	3
A-S 364 Introduction to Digital Fabrication	3
A-S 365 Digital Fabrication and Design	3
A-S 366 Hybrid Fabrication	3
A-S 367 Topics in Digital Fabrication (Subtitle required)	3
A-S 385 Intermediate Photomanipulation: Photoshop	3

Or other 300-level or above course(s) on an approved list (see a CFA advisor).

**Please note:** 300-level courses may have prerequisites that will determine which 100- and/or 200-level courses you should take. Taking 100- and/or 200-level course work first is strongly advised.

**Total Minor Hours** ..... 18

Only 3 hours from courses taken to fulfill a requirement in another major or minor can be used to meet the requirements of the minor in Digital Media and Design. Students must take at least 9 hours of classes from the UK Art Studio program.

## SCHOOL OF MUSIC

### Requirements for the B.A. with a major in MUSIC

Admission to the B.A. program in music is granted only after the successful completion of an audition in the student's performance area.

The major in music must include the following:

#### College Requirements

Art, Theatre and/or Arts Administration ..... 6  
plus 39 hours at 300-level or above

**Subtotal: College Required hours** ..... 6

#### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

##### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ..... 3

##### II. Intellectual Inquiry in the Humanities

Choose one course from approved list ..... 3

##### III. Intellectual Inquiry in the Social Sciences

Choose one course from approved list ..... 3

##### IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

### Graduation Composition and Communication Requirement (GCCR)

MUS 304 Music Communication I: Oral Communication of Music	1
MUS 305 Music Communication II: Written Communication of Music	1
<b>Subtotal: GCCR hours</b>	2

### Lower Division Major Requirements

#### Hours

- Music Theory: MUS 170, 171, 172, 173,  
270, 271, 272, 273 ..... 16
- Music History: MUS 203 ..... 3
- Major musical instrument or voice performance  
course of 2 hours each semester ..... 8
- Ensemble each semester ..... 4
- All music majors must pass a piano proficiency examination and should schedule, in consultation with their advisor, a suitable course each semester until this requirement is completed. Students with little or no prior piano study should normally expect to complete the piano proficiency examination by the end of four semesters of study ..... 0-4

6. MUS 001 Recital Attendance (four courses – zero credit – completed satisfactorily) ..... 0  
**Subtotal: Lower Division hours ..... 31-35**

**Foreign Language**

To satisfy the requirement students must: 1) satisfy a four-semester sequence in one language by passing the fourth semester, or 2) pass the third semester course in one language and the second semester course in a second language, or 3) demonstrate equivalent competence.

**Subtotal: Foreign Language ..... 0-19**

**Upper Division Major Requirements**

**Hours**

1. Continuation of major musical instrument or voice performance courses above the sophomore level ..... 4  
 2. MUS 372 Musical Analysis ..... 2  
 3. MUS 302 and 303 ..... 6  
 5. Ensemble each semester ..... 2  
 6. Music courses chosen from upper division courses appropriate to the areas of music history, theory, composition, and literature ..... 10  
 7. Electives: To include 12 hours in courses related to the major but outside the School of Music. The student’s advisor must approve choice of this related work. Courses used to fulfill UK Core requirements may be used to fulfill this related work, when appropriate.

**Subtotal: Upper Division hours ..... 36**

**TOTAL HOURS: ..... 120**

**Requirements for the BACHELOR OF MUSIC**

**with a major in Music Performance**

Admission to the Bachelor of Music program in music performance is granted only after the successful completion of an audition in the student’s performance area.

To earn a Bachelor of Music degree in music performance, a student must complete 120 credit hours and have at least a 2.0 grade-point standing. At the conclusion of the sophomore year and before continuing in music performance at the upper division level, each student must perform before the music performance faculty for approval. Each student must also present a full recital during the senior year.

Students in music performance must complete the following:

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

Choose one course from approved list ..... 3

**II. Intellectual Inquiry in the Humanities**

**Music History**

MUS 203, 302, 303, plus one course elected from MUS 500, 501, 502, 503, 504, 505, 506 or 507 ..... 12

**Appropriate Music Ensemble**

Each semester ..... 8

**Subtotal: Major hours ..... 60**

Students in music performance must choose one of the following concentrations:

**Concentration in an Instrument**

1. All music majors must pass a piano proficiency examination and should schedule, in consultation with their advisor, a suitable course each semester until this requirement is completed. Students with little or no prior piano study should normally expect to complete the piano proficiency examination by the end of four semesters of study ..... 0-4  
 2. Music Theory: MUS 370, 371, 372, and choice of MUS 572 or 573 ..... 9  
 3. Conducting: MUS 358 ..... 2  
 4. Electives ..... 13  
 5. Senior Recital (MUP 440): the successful completion of a solo recital must be completed for graduation.  
**Subtotal: Instrument Concentration ..... 24-28**

**Concentration in Piano**

1. All music majors must pass a piano proficiency examination. Piano majors work toward this goal as part of their keyboard study ..... 0  
 2. Music Theory: MUS 370, 372, and choice of MUS 572 or 573 ..... 7  
 3. Piano Literature: MUS 522 ..... 3  
 4. Piano Pedagogy: MUS 566 ..... 3  
 5. Conducting: MUS 358 ..... 2  
 6. Electives ..... 15  
 7. Senior Recital (MUP 440): the successful completion of a solo recital must be completed for graduation.  
**Subtotal: Piano Concentration ..... 30**

**Concentration in Organ**

1. All music majors must pass a piano proficiency examination. Organ majors work toward this goal as part of their keyboard study ..... 0  
 2. Piano – one credit course MUP 101, MUP 201, each repeated once ..... 4  
 3. Music Theory: MUS 370, 372, and choice of MUS 572 or 573 ..... 7  
 4. Organ Literature: MUS 521 ..... 3  
 5. Conducting: MUS 358 ..... 2  
 6. Electives ..... 14  
 7. Senior Recital (MUP 440): the successful completion of a solo recital must be completed for graduation.

**Subtotal: Organ Concentration ..... 30**

**Concentration in Voice**

1. All music majors must pass a piano proficiency examination and should schedule, in consultation with their advisor, a suitable course each semester until this requirement is completed. Students with little or no prior piano study should normally expect to complete the piano proficiency examination by the end of four semesters of study ..... 0-4  
 2. Music Theory: MUS 370, 372, and choice of MUS 572 or 573 ..... 7  
 3. Foreign Language – Select two languages from Italian, French, or German and pass the third semester course of one language (or demonstrate equivalent competence) and the second semester course of another language (or demonstrate equivalent competence); or from these same three languages, pass the second semester course of one language (or demonstrate equivalent competence), the second semester course of a second language (or demonstrate equivalent competence) and the first semester of a third language (or demonstrate equivalent competence) ..... 0-19  
 4. Foreign Language Vocal Diction:  
 MUS 120 (four semesters) ..... 4  
 5. Vocal Solo Literature: MUS 520 ..... 3  
 6. Conducting: MUS 358 ..... 2  
 7. Opera Workshop: MUC 196 (two semesters) ..... 2  
 8. Movement for Singers: MUC 197 ..... 1  
 9. Opera Practicum: MUC 198 (two semesters) ..... 2  
 10. Electives ..... 6-8  
 11. Senior Recital (MUP 440): the successful completion of a solo recital must be completed for graduation.

**Subtotal: Voice Concentration ..... 27-52**

**TOTAL HOURS: ..... minimum of 120**

**Requirements for the BACHELOR OF MUSIC IN MUSIC EDUCATION**

The major in music education is the joint concern of the School of Music in the College of Fine Arts and the Department of Curriculum and Instruction in the College of Education. Admission to the program is granted only after the successful completion of an audition in the student’s performance area. In addition to completing the required courses, the student must present a half-recital or the equivalent on the major instrument or in voice during or after the sixth semester of study.

Music education majors who wish to receive a teaching certificate must meet the certification requirements of the College of Education, as well as the requirements for the College of Fine Arts. To qualify for student teaching and state teacher certification, a student must be officially admitted into the Teacher Education Program. Certifica-

tion also requires successful completion of the NTE/Praxis II and a one-year paid internship. Additional information on TEP, NTE/Praxis II, certification and internship is outlined in the *College of Education* section of this Bulletin.

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**Subtotal: General Major Requirements ..... 53**

### Music Requirements – Major Performance Areas

Depending on the area of interest, the student must select one of the major performance areas below:

#### Major Performance Area – Vocal Hours

A. Diction: MUS 120 (two semesters) ..... 2

B. All music majors must pass a piano proficiency examination and should schedule, in consultation with their advisor, a suitable course each semester until this requirement is completed. Students with little or no prior piano study should normally expect to complete the piano proficiency examination by the end of four semesters of study. Music Education majors should pass the piano proficiency examination at least two semesters before student teaching. .... 0-4

C. Music Education: MUS 262, 264, 360\*, 361\*, 362\* ..... 15

D. Secondary Instruments—choose three of the following: MUC 157, MUC 158, MUC 161, MUC 163 ..... 3

**Subtotal: Vocal Performance Area ..... 20-24**

#### Major Performance Area – Keyboard Hours

A. All music majors must pass a piano proficiency examination. Keyboard majors work towards this goal as part of their keyboard study. Music education majors should pass the piano proficiency exam at least two semesters before student teaching.

B. Minor Performance: MUP 102, 202 ..... 3

A voice proficiency test must be passed prior to student teaching.

C. Pedagogy and Literature—select one of the following: MUS 522, 523, 566 ..... 3

D. Music Education: MUS 262, 264, 360\*, 361\*, 362\* ..... 15

E. Secondary Instruments—choose three of the following: MUC 157, MUC 158, MUC 161, MUC 163 ..... 3

**Subtotal: Keyboard Performance Area ..... 24**

#### Major Performance Area – Woodwinds, Brass, Strings, Percussion Hours

A. All music majors must pass a piano proficiency examination and should schedule, in consultation with their advisor, a suitable course each semester until this requirement is completed. Students with little or no prior piano study should normally expect to complete the piano proficiency examination by the end of four semesters of study. Music Education majors should pass the piano proficiency examination at least two semesters before student teaching. .... 0-4

B. Secondary Instruments

**Brass, Woodwind and String majors:** Choose five hours from MUC 158, 161, and 163, plus one hour of MUC 157 ..... 6

**Percussion majors:** Take two hours each of MUC 158, 161, and 163 ..... 6

C. Music Education: MUS 263, 265, 360\*, 363\*, 365\* ..... 15

**Subtotal: Woodwinds, Brass, Strings, Percussion Performance Area ..... 21-25**

**TOTALHOURS: ..... minimum of 125-131**

\*These courses require admission to the Teacher Education Program.

### Minor in Music

Students from any college may complete a minor in Music, selecting either an emphasis in theory/history or performance. Such a minor consists of at least 18 hours of course work in music. In the theory/history emphasis, six to nine hours of music theory, six to nine hours of music history, and three hours of music performance are required. In the performance emphasis, eight hours of performance instruction, four hours of appropriate ensemble, and six hours of music history or theory are required. A successful audition is required for private performance study in the designated area (level of performance expectation is that of entering freshman music major). The course requirements are as follows:

#### Minor in Music: Music Theory and History

##### 1. Music Theory (6 to 9 hours)

Students should choose from:

MUS 174 Theory for Non-Music Majors ..... 3

MUS 170/171 Theory I: Elementary Aural and Written Theory ..... 4

(Theory placement examination or MUS 174 is a prerequisite)

MUS 172/173 Theory I: Elementary Aural and Written Theory ..... 4

(MUS 170/171 are prerequisites)

2. Music History (6 to 9 hours)

Students should choose from:

MUS 100 Introduction to Music ..... 3

MUS 201 Music in Western Culture to 1700 ..... 3

MUS 202 Music in Western Culture, 1700 to Present .. 3

MUS 203 History of Music I ..... 3

MUS 206 American Music ..... 3

MUS 220 Symphonic Music ..... 3

MUS 221 Survey of Vocal Music:

Opera, Art Song, Choral Music ..... 3

MUS 300 History of Jazz ..... 3

MUS 301 Appalachian Music ..... 3

MUS 302 History of Music II ..... 3

MUS 303 History of Music III ..... 3

MUS 330 Music in the World (Subtitle required) ..... 3

3. Performance (3 hours)

Students may choose class or private performance instruction (1 to 2 hours) or ensemble (1 to 2 hours).

**Minor in Music: Performance**

##### 1. Performance Study (12 hours)

Performance instruction (8 hours) – four semesters, sequential enrollment in MUP courses at appropriate level; 2 hours per semester.

Ensemble (4 hours) in appropriate ensemble.

2. Music History and Theory (6 hours)

Courses to be chosen from the following:

MUS 174 Theory for Non-Music Majors ..... 3

MUS 170/171 Theory I: Elementary Aural and Written Theory ..... 4

(Theory placement examination or MUS 174 is a prerequisite)

MUS 172/173 Theory I: Elementary Aural and Written Theory ..... 4

(MUS 170/171 are prerequisites)

MUS 100 Introduction to Music ..... 3

MUS 201 Music in Western Culture to 1700 ..... 3

MUS 202 Music in Western Culture, 1700 to Present .. 3

MUS 203 History of Music I ..... 3

MUS 206 American Music ..... 3

MUS 220 Symphonic Music .....	3
MUS 221 Survey of Vocal Music:	
Opera, Art Song, Choral Music .....	3
MUS 300 History of Jazz .....	3
MUS 301 Appalachian Music .....	3
MUS 302 History of Music II .....	3
MUS 303 History of Music III .....	3
MUS 330 Music in the World (Subtitle required) .....	3

*Note: Some variation in the above courses is possible, with written approval from the Director of Undergraduate Studies, School of Music. The availability of the minor in music performance is dependent on sufficient time within the appropriate instructor's designated teaching load.*

### Undergraduate Certificate in Baroque Trumpet

The Undergraduate Certificate in Baroque Trumpet develops performance and interpretation skills for the natural trumpet. The Baroque Trumpet is a valveless ancestor of the modern valved trumpet. It reached its zenith during the Baroque era, and today is once again becoming an important instrument in the fields of music performance, musicology, and music education. Already in many parts of Europe, it is expected that performances of music written prior to the 19th century be played on the valveless natural ("Baroque") trumpet, and this is now a growing field in the United States. Students will examine the stylistic aspects of Baroque music through (a) study of primary sources from the Baroque era; (b) study of prominent secondary sources on Baroque interpretation; and (c) preparation and performance of music from the Baroque era on the natural trumpet. This certificate may be earned concurrently with an undergraduate degree, as an additional (second) program of study if the student is a current degree seeking student or a post-baccalaureate student. This certificate may be earned as the primary (first) program of study ONLY if the student is non-degree seeking or is a post-baccalaureate student who is not pursuing any other credential.

#### Requirements for Admission

- Students must audition for admission into the UK School of Music and be accepted;
- students must audition for Faculty Director on the Baroque trumpet; and
- students must own a Baroque trumpet.

The curriculum for the Undergraduate Certificate in Baroque Trumpet consists of 15 credit hours as follows:

*MUP 322 Historical Instruments .....	3
*MUP 422 Historical Instruments .....	3
MUS 395 Independent Work in Music .....	1
MUC 171 Brass Ensemble (1 credit per semester for a minimum of two semesters) .....	2
MUS 203 History of Music I .....	3
MUS 302 History of Music II .....	3

*\*Students must complete a public jury performance each semester they are enrolled in MUP 322 or MUP 422.*

### Undergraduate Certificates in Musical Theatre

The Department of Theatre and Dance and the School of Music in the College of Fine Arts offer an undergraduate interdisciplinary Certificate in Musical Theatre. By combining the efforts and resources of the Department of Theatre and Dance and the School of Music, students are able to take the breadth of course work necessary for a fundamental experience in musical theatre. The course work includes acting, dance, voice, and musical theatre techniques. This certificate will provide desired course work as well as performance opportunities for undergraduate students.

The course work in the certificate is designed to use the strengths of each unit and supplement them with course work from the other unit. For example, music students don't need additional voice work, but they do need training in acting and dance in order to be educated in musical theatre. Theatre students have access to both acting and dance classes, but lack sufficient preparation in voice and music for musical theatre. The Certificate provides an interdisciplinary bridge between the two programs.

Upon completion of the Musical Theatre Certificate students will be able to:

- apply and exhibit proficiency in vocal technique within the forms and styles of the musical theatre canon
- apply and exhibit proficiency in diverse acting techniques and styles necessary for the forms and styles of musical theatre
- apply and exhibit proficiency in diverse dance techniques and styles necessary for the forms and styles of musical theatre
- synthesize acting, singing, and dancing in a musical theatre performance

#### Applying to the Program

Students audition in April during the spring semester to enroll and be accepted into the Certificate program. Students participate in a dance audition, and perform a short monologue and section of a song for the selection process. This process is similar to one that students can be expected to perform and compile as their audition material for any local, regional, or national musical theatre performance opportunity.

Students entering the Certificate Program must have a 3.0 GPA in their major course work.

### Musical Theatre Certificate for Voice Majors

The Musical Theatre Certificate for Voice Majors provides an opportunity for theatre majors to enhance a specific set of skills and techniques required for musical theatre performance, enriching their undergraduate experience and course work in their primary degree program.

### Requirements for the Musical Theatre Certificate for Voice Majors

The certificate in musical theatre for voice majors requires 15 credits, including the following:

TA 348 Musical Theatre Technique .....	3
TAD 147 Beginning Musical Theatre Dance .....	2
TAD 347 Advanced Musical Theatre Dance .....	2
TAD 243 Jazz Dance II .....	2
TAD 242 Ballet II .....	2
TA 237 Acting: Scene Study .....	3
TA 001 Musical Theatre Master Class (repeated 4 times) .....	0

#### Practicum

Students complete a practicum course where skills are applied and observed:

TA 390 Theatre Practicum .....	1
<b>TOTAL HOURS:</b> .....	<b>15</b>

### DEPARTMENT OF THEATRE AND DANCE

Our program of study emphasizes the intersection of practice and theory and is geared toward students who are interested in theatre and dance as part of a liberal arts education. Students create a program that is unique to their interests and strengths, with freedom to choose between a wide variety of electives to complete a truly individualized course of study. Theatre courses emphasize the collaborative nature of the art form, which encompasses performance, literature, design, history, artistic community, and intellectual rigor. Dance courses enhance critical thinking and analytical skills, cooperation and teamwork, self-expression and self-esteem, organization and problem solving, and cultural literacy. They also provide integral skills for theatre and opera students who want to market themselves as versatile performers.

### Requirements for the B.A. with a major in THEATRE

The major in theatre must include the following:

#### College Requirements

Art, Music and/or Arts Administration .....	6
plus 39 hours at 300-level or above	

**Subtotal: College Required hours** ..... 6

#### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**TOTAL HOURS: ..... 120****Minor in Theatre**

Students from any college may choose to minor in Theatre. This minor requires at least 19 hours of course work arranged as follows:

**Prerequisite****Hours**

One theatre course chosen from the list below:

TA 110 Theatre: An Introduction ..... 3

TA 120 Creativity and the Art of Acting ..... 3

TA 126 Acting I: Fundamentals of Acting ..... 3

TA 150 Creativity and the Art

of Design and Production ..... 3

When appropriate, upper level courses may be substituted with the approval of the student's advisor and the chairperson of the Department of Theatre and Dance.

**Performance/Production Experience**

TA 390 Theatre Practicum ..... 1

**Elected Theatre Courses (15 hours)**

15 credits of theatre electives of which 6 must be at the 300 level and above.

**Requirements for the B.A. with a major in DANCE**

The B.A. degree in Dance in the Department of Theatre and Dance will educate its students in the history, theory, creativity, practice, and performance of dance within the context of a broad liberal arts education. Dance students master interpersonal communication skills that incorporate physical authority and assurance, as well as anatomical integration and awareness. The primary emphasis and central focus of the degree is based in creativity and choreography through the lens of diverse dance genres, with an emphasis on contemporary practice. Admission to the B.A. Dance Degree is selective, in that students will audition for placement and acceptance into the program.

**College Requirements**Art, Music and/or Arts Administration ..... 6  
plus 39 hours at 300-level or above**Subtotal: College Required hours ..... 6****UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete **UK Core requirements**. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

TAD 140 Introduction to Dance ..... 3

**II. Intellectual Inquiry in the Humanities**

Choose one course from approved list ..... 3

**III. Intellectual Inquiry in the Social Sciences**

Choose one course from approved list ..... 3

**IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences**

Choose one course from approved list ..... 3

**V. Composition and Communication I**

CIS/WRD 110 Composition and Communication I ..... 3

**VI. Composition and Communication II**

CIS/WRD 111 Composition and Communication II ..... 3

**VII. Quantitative Foundations**

Choose one course from approved list ..... 3

**VIII. Statistical Inferential Reasoning**

Choose one course from approved list ..... 3

**IX. Community, Culture and Citizenship in the USA**

Choose one course from approved list ..... 3

**X. Global Dynamics**

Choose one course from approved list ..... 3

**UK Core hours ..... 30****Graduation Composition and Communication Requirement (GCCR)**

TAD 492 Senior Thesis ..... 3

**Graduation Composition and Communication Requirement hours (GCCR) ..... 3****Major Requirements (32 credits)****Dance Technique (12 credits)**

Students are required to complete 12 hours of dance technique courses at recommended skill level. Four credits must be 300 level and above; 4 credits in Ballet Technique; 4 credits in Jazz

Technique; 4 credits in Modern Technique. All Dance Technique classes are repeatable up to 12 credit hours.

**Modern Technique**

TAD 141 Modern Dance 1  
 TAD 241 Modern Dance 2  
 TAD 341 Modern Dance 3  
 Subtotal ..... 4

**Jazz Dance**

TAD 143 Jazz Dance 1  
 TAD 243 Jazz Dance 2  
 TAD 343 Jazz Dance 3  
 Subtotal ..... 4

**Ballet Technique**

TAD 142 Ballet 1  
 TAD 242 Ballet 2  
 TAD 342 Ballet 3  
 Subtotal ..... 4

**Creative Studies (5 credits)**

TAD 244 Dance Improvisation ..... 1  
 TAD 344 Choreography 1 ..... 2  
 TAD 444 Choreography 2 ..... 2

**History and Theory (9 credits)**

TAD 140 Introduction to Dance ..... 3  
 TAD 370 Dance History ..... 3  
 TAD 470 Dance Teaching Methods ..... 3

**Practice and Performance (3 credits)**

Students are required to repeat a practicum course 3 times for 3 credits total (may be a combination):

TAD 392 Dance Practicum ..... 3  
**and/or**  
 TA 390 Theatre Practicum ..... 3

**Thesis (3 credits)**

TAD 492 Senior Thesis ..... 3

**Subtotal: Major Requirement hours ..... 32**

**Electives (13 credits)**

**Dance Electives (4 credits)**

Students may choose any TAD dance technique class; technique classes above the required 12 credits for the major will be counted as electives.

TAD 141 Modern Dance 1 ..... 2  
 TAD 142 Ballet 1 ..... 2  
 TAD 143 Jazz Dance 1 ..... 2  
 TAD 147 Beginning Musical Theatre Dance ..... 2  
 TAD 241 Modern Dance 2 ..... 2  
 TAD 242 Ballet 2 ..... 2  
 TAD 243 Jazz Dance 2 ..... 2  
 TAD 341 Modern Dance 3 ..... 2  
 TAD 342 Ballet 3 ..... 2  
 TAD 343 Jazz Dance 3 ..... 2  
 TAD 347 Advanced Musical Theatre Dance ..... 2  
 TAD 447 Studies in Dance (Subtitle required) ..... 1-3

**Theatre Electives (6 credits)**

Students may choose from the following TA courses or any other theatre course in consultation with their advisor.

TA 120 Creativity and the Art of Acting ..... 3  
 TA 126 Acting I: Fundamentals of Acting ..... 3  
 TA 150 Creativity and the Art of Design and Production ..... 3  
 TA 237 Acting: Scene Study ..... 3  
 TA 260 Stagecraft ..... 3  
 TA 265 Costume Production ..... 3  
 TA 300 Special Projects in Theatre (Subtitle required) ..... 3  
 TA 311 Audition Techniques ..... 3  
 TA 350 Topics in Theatre ..... 3  
 TA 365 Costume Design ..... 3  
 TA 367 Lighting Design ..... 3  
 TA 369 Sound Design for the Theatre ..... 3  
 TA 516 Playwriting ..... 3

**Wellness and Conditioning Electives (3 credits)**

Students may choose from the following Life Fitness courses in KHP, or any other KHP course in consultation with their advisor and course availability.

KHP 104 Pilates ..... 1  
 KHP 110 Awesome Abs ..... 1  
 KHP 115 Tai Chi ..... 1  
 KHP 119 Body Sculpture ..... 1  
 KHP 120 Weight Training ..... 1  
 KHP 120 Zumba ..... 1  
 KHP 127 Kickboxing ..... 1  
 KHP 128 Yoga ..... 1  
 KHP 240 Nutrition and Physical Fitness ..... 3

**Subtotal: Electives ..... 13**

**TOTAL HOURS ..... 45**

**Minor in Dance**

The Dance program in the Department of Theatre and Dance was launched in 2011. Classes are available in modern, musical theatre, ballet and more, as well as an Introduction to Dance course under the UK Core Arts and Creativity curriculum. The program presents one annual concert with guest choreographers (auditions are open to all UK students). This minor requires at least 21 hours of course work to include:

**Dance Minor Requirements (21 hours)**

TAD 140 Introduction to Dance ..... 3  
 TAD 141 Modern Dance I ..... 2  
 TAD 241 Modern Dance II ..... 2  
 TAD 244 Dance Improvisation ..... 1  
 TAD 344 Choreography I ..... 2  
 TAD 370 Dance History ..... 3

Plus one additional Dance Technique Course:

TAD 142 Ballet I ..... 2  
 TAD 242 Ballet II ..... 2  
 TAD 143 Jazz Dance I ..... 2  
 TAD 243 Jazz Dance II ..... 2  
 TAD 147 Beginning Musical Theatre Dance ..... 2  
 TAD 447 Studies in Dance (Subtitle required) ..... 1-3

Plus 6 hours from the following courses:

TAD 142 Ballet I ..... 2  
 TAD 242 Ballet II ..... 2  
 TAD 143 Jazz Dance I ..... 2  
 TAD 243 Jazz Dance II ..... 2  
 TAD 147 Beginning Musical Theatre Dance ..... 2  
 TAD 347 Advanced Musical Theatre Dance ..... 2  
 TAD 444 Choreography II ..... 2  
 TAD 447 Studies in Dance (Subtitle required) ..... 1-3  
 TAD 392 Dance Practicum ..... 1

**Undergraduate Certificates in Musical Theatre**

The Department of Theatre and Dance and the School of Music in the College of Fine Arts offer an undergraduate interdisciplinary Certificate in Musical Theatre. By combining the efforts and resources of the Department of Theatre and Dance and the School of Music, students are able to take the breadth of course work necessary for a fundamental experience in musical theatre. The course work includes acting, dance, voice, and musical theatre techniques. This certificate will

provide desired course work as well as performance opportunities for undergraduate students.

The course work in the certificate is designed to use the strengths of each unit and supplement them with course work from the other unit. For example, music students don't need additional voice work, but they do need training in acting and dance in order to be educated in musical theatre. Theatre students have access to both acting and dance classes, but lack sufficient preparation in voice and music for musical theatre. The Certificate provides an interdisciplinary bridge between the two programs.

Upon completion of the Musical Theatre Certificate students will be able to:

- apply and exhibit proficiency in vocal technique within the forms and styles of the musical theatre canon
- apply and exhibit proficiency in diverse acting techniques and styles necessary for the forms and styles of musical theatre
- apply and exhibit proficiency in diverse dance techniques and styles necessary for the forms and styles of musical theatre
- synthesize acting, singing, and dancing in a musical theatre performance

**Applying to the Program**

Students audition in April during the spring semester to enroll and be accepted into the Certificate program. Students participate in a dance audition, and perform a short monologue and section of a song for the selection process. This process is similar to one that students can be expected to perform and compile as their audition material for any local, regional, or national musical theatre performance opportunity.

Students entering the Certificate Program must have a 3.0 GPA in their major course work.

**Musical Theatre Certificate for Dance Majors**

The Musical Theatre Certificate for Dance Majors provides an opportunity for students of dance to gain knowledge in additional areas of study that include acting, voice, and musical theatre techniques. Students who successfully complete this Certificate will be able to synthesize acting, singing, and dancing within a musical theatre performance.

**Requirements for the Musical Theatre Certificate for Dance Majors**

The certificate in musical theatre for dance majors requires 17-18 credits, including the following:

**Core Courses**

MUC 150 Class Instruction in Piano ..... 1  
 TA 348 Musical Theatre Technique ..... 3  
 TA 237 Acting: Scene Study ..... 3  
 TA 326 Advanced Acting (Subtitle required) ..... 3  
 TAD 147 Beginning Musical Theatre Dance ..... 2  
 TAD 347 Advanced Musical Theatre Dance ..... 2  
 TA 390 Theatre Practicum ..... 1

Chose **one** of the following:

MUC 192 University Choristers .....	1
MUC 174 University Chorale .....	1
MUC 196 Opera Workshop .....	1

Chose **one** of the following:

MUP 102 Voice .....	2
MUC 155 Voice Class for Non-Music Majors .....	1

Participate **4 semesters** total:

TA 001 Musical Theatre Master Class .....	0
<b>TOTAL HOURS:</b> .....	<b>17-18</b>

### Musical Theatre Certificate for Theatre Majors

The Musical Theatre Certificate for Theatre Majors provides an opportunity for voice majors to enhance a specific set of skills and techniques required for musical theatre performance, enriching their undergraduate experience and course work in their primary degree program.

#### Requirements for the Musical Theatre Certificate for Theatre Majors

The certificate in musical theatre for theatre majors requires 18 credits, including the following:

##### Vocal Ensemble Class

Choose one of the following:

MUC 192 University Choristers	
MUC 174 University Chorale	
MUC 196 Opera Workshop .....	1

##### Voice Class

Choose one of the following:

MUP 102 Applied Voice*	1
MUC 155 Voice Class for Non-Music Majors* .....	1
MUC 150 Class Instruction in Piano .....	1
TA 348 Musical Theatre Technique .....	3
TAD 242 Ballet II .....	2
TAD 243 Jazz Dance II .....	2
TA 237 Acting: Scene Study .....	3
TAD 147 Beginning Musical Theatre Dance .....	2
TAD 347 Advanced Musical Theatre Dance .....	2
TA 001 Musical Theatre Master Class (repeated 4 times) .....	0

##### Practicum

Students complete a practicum course where skills are applied and observed:

TA 390 Theatre Practicum .....	1
<b>TOTAL HOURS:</b> .....	<b>18</b>

\*Theatre Majors who are Voice Minors within the School of Music would be able to register for MUP 102, Applied Voice. Other Theatre Majors could enroll in MUC 155, Voice for Non-Majors unless an appropriate private voice instructor or graduate student was available.

### Minor in Interdisciplinary Arts

The Interdisciplinary Arts Minor allows students to design their own minor with course work across at least two disciplines in the College of Fine Arts. The minor is intended to deepen an appreciation for and encourage a lifelong engagement in the arts.

To earn an Interdisciplinary Arts minor, students must complete a **minimum of 18 credit hours** of course work arranged as follows:

1. 6 credit hours of 100-level courses in a minimum of two College of Fine Arts disciplines (AAD, A-E, A-H, A-S, ART, FA, MUC, MUP, MUS, TA or TAD); and
2. 6 credit hours of 200-level or above courses in a minimum of two College of Fine Arts disciplines (AAD, A-E, A-H, A-S, ART, FA, MUC, MUP, MUS, TA or TAD); and
3. 6 credit hours of College of Fine Arts elective courses at any level.

Students pursuing a major within the College of Fine Arts must select courses *outside* of their major discipline.

Only three credit hours from courses taken to fulfill a requirement in another major or minor can be used to meet the requirements of the Interdisciplinary Arts minor.

**TOTAL HOURS** ..... **18**

The Gaines Center for the Humanities is distinctive among special programs at state universities. Designed to enrich the upper levels of undergraduate study and thereby to offer exceptional opportunities for dedicated students, the programs of the center are open on a competitive basis to any student interested in the humanities, regardless of particular major or intended profession.

Activities of the Gaines Center are developed to encourage participation by a large segment of the university population. Conferences and lectures, informal seminars and discussions are open to all those interested. While the center's principal purpose is to enhance an appreciation of the humanities, its programs are arranged to stimulate inquiry about the relationship of the humanities to other broad areas of investigation, such as the sciences, the arts, and the professions.

### **The John R. and Joan B. Gaines Fellowships in the Humanities**

A major feature of the Gaines Center for the Humanities is the Gaines Fellowship Program. The Gaines Fellowships are given in recognition of outstanding academic performance, demonstrated independent study, an interest in public issues, and a desire to enhance understanding of the human condition.

The fellowships are awarded in the student's sophomore year for tenure in the junior and senior years. Renewal in the senior year is contingent upon satisfactory academic performance.

All Gaines Fellows are required to take a specially-designed, four-credit-hour seminar in the humanities (HMN 301 and HMN 302) during both semesters of the junior year. Moreover, each Fellow in the senior year completes an undergraduate thesis (HMN 497) under the supervision of three faculty members and with a credit of six to fifteen hours.

Gaines Fellows also participate in all social and cultural activities sponsored by the Gaines Center.

### **Eligibility**

Any student enrolled at the University of Kentucky, or any student enrolled in a community college who intends to transfer to the University of Kentucky, is eligible to apply.

### **The Thomas D. Clark Lectureship in the Humanities**

Created to bring eminent scholars and authors to the campus, the Thomas D. Clark Lectureship stipulates that the recipient will offer a public lecture and will lead a session of a special humanities seminar related to the Lecturer's professional field of interest. Juniors and seniors, selected on the basis of written application, participate in this seminar.

### **The Mary C. Bingham Seminar in the Humanities**

The Mary C. Bingham Seminar in the Humanities is offered every other year and is open on a competitive basis to any junior or senior in the University. Participating students are selected on the basis of written application. The seminar combines course work with a special summer field trip up to four weeks in length either in this country or abroad (four credit hours). The seminar is concerned with the comparative study of a humanities subject that benefits from site analysis (e.g., cities, landscape). Conducted by a faculty member whose proposal has been selected in competition, the seminar offers up to a \$1,000 summer travel scholarship to each student participant.

### **Edward T. Breathitt Undergraduate Lectureship in the Humanities**

The Edward T. Breathitt Lectureship is the first undergraduate lectureship established at an American university. It is named in honor of an eminent Kentuckian and an outstanding alumnus of the University of Kentucky whose interest in higher education has been exceptional.

The lectureship is awarded to an undergraduate student whose qualities of mind and spirit have been expressed eloquently on one or more of the basic characteristics that distinguish the humanities as fields of study. They are: form, value, memory.

Any university faculty member may nominate a qualified upper level student from any discipline. Each nominee must submit a two-page prospectus describing the lecture topic (to be of the candidate's own choice) and a brief, tentative biography, as well as a personal resume and an additional letter of recommendation. The recipient receives a special award and an honorarium.

### **How to Apply**

Students interested in any of these special educational opportunities should write or telephone:

**Gaines Center for the Humanities**  
232 East Maxwell Street  
University of Kentucky  
Lexington, KY 40506-0344  
859-257-1537  
[www.uky.edu/gainescenter](http://www.uky.edu/gainescenter)

# The Graduate School

*Brian Jackson, Ph.D., is Interim Dean of the Graduate School.*

The University of Kentucky began offering graduate work in 1870, and awarding degrees in 1876. The Graduate School was organized as a distinct unit in 1912.

The Graduate School is concerned with advanced study and research carried on by the faculty and students of all colleges and departments. Under it, the total graduate resources of the University are merged in order to promote the achievement of knowledge in an atmosphere of free and lively inquiry.

More information is available on the web at: [www.gradschool.uky.edu/](http://www.gradschool.uky.edu/).

## GRADUATE DEGREES

Graduate work is offered in most colleges in the University. The following advanced degrees are conferred:

Doctor of Education  
Doctor of Musical Arts  
Doctor of Philosophy  
Master of Applied Statistics  
Master of Architecture  
Master of Arts  
Master of Arts in Education  
Master of Arts in Interior Design  
Master of Business Administration  
Master of Education  
Master of Engineering  
Master of Fine Arts  
Master of Health Administration  
Master of Historic Preservation  
Master of Mining Engineering  
Master of Music  
Master of Public Administration  
Master of Public Financial Management  
Master of Public Health  
Master of Public Policy  
Master of Rehabilitation Counseling  
Master of Science  
Master of Science in Accounting  
Master of Science in Agricultural Economics  
Master of Science in Agriculture  
Master of Science in Athletic Training  
Master of Science in Applied Behavior Analysis  
Master of Science in Biomedical Engineering  
Master of Science in Biosystems and Agricultural Engineering  
Master of Science in Chemical Engineering  
Master of Science in Civil Engineering  
Master of Science in Communication Sciences and Disorders

Master of Science in Community and Leadership Development  
Master of Science in Education  
Master of Science in Electrical Engineering  
Master of Science in Epidemiology  
Master of Science in Family Sciences  
Master of Science in Forest and Natural Resource Sciences  
Master of Science in Library Science  
Master of Science in Manufacturing Systems Engineering  
Master of Science in Materials Science and Engineering  
Master of Science in Mechanical Engineering  
Master of Science in Nursing  
Master of Science in Nutrition and Food Systems  
Master of Science in Nutritional Sciences  
Master of Science in Physician Assistant Studies  
Master of Science: Professional Master in Biomedical Engineering  
Master of Science in Radiological Medical Physics  
Master of Science in Research Methods in Education  
Master of Science in Retailing and Tourism Management  
Master of Science in Sport and Exercise Psychology  
Master of Social Work  
Specialist in Education

The degree of **Doctor of Philosophy** is offered with major work in the following fields:

Agricultural Economics  
Anatomy and Neurobiology  
Animal and Food Sciences  
Anthropology  
Biochemistry  
Biology  
Biomedical Engineering  
Biosystems and Agricultural Engineering  
Business Administration  
Chemical Engineering  
Chemistry  
Civil Engineering  
Clinical and Translational Sciences  
Communication  
Computer Science  
Counseling Psychology  
Early Childhood, Special Education, and Rehabilitation Counseling  
Economics  
Educational Psychology  
Education Sciences

Educational Leadership Studies  
Educational Policy Studies, Measurement and Evaluation  
Electrical Engineering  
English  
Entomology  
Epidemiology and Biostatistics  
Exercise Science  
Family Sciences  
Forest and Natural Resource Sciences  
Gender and Women's Studies  
Geography  
Geological Sciences  
Gerontology  
Hispanic Studies  
History  
Integrated Plant and Soil Science  
Kinesiology and Health Promotion  
Materials Science and Engineering  
Mathematics  
Mechanical Engineering  
Microbiology, Immunology and Molecular Genetics  
Mining Engineering  
Music  
Musical Arts  
Nursing  
Nutritional Sciences  
Pharmaceutical Sciences  
Pharmacology  
Philosophy  
Physics  
Physiology  
Plant Physiology  
Political Science  
Psychology - Clinical Psychology  
Psychology - Experimental Psychology  
Public Policy and Administration  
Radiation and Radiological Sciences  
Rehabilitation Sciences  
Social Work  
Sociology  
Special Education  
Statistics  
Studies in Higher Education  
Toxicology  
Veterinary Science

The Graduate School administers two multidisciplinary Graduate Centers:

The Patterson School of Diplomacy and International Commerce offers an interdisciplinary master's degree which can be tailored to meet the career needs of individual students. The program is especially useful for students desiring careers in

any of the non-academic fields in foreign affairs such as international banking, commerce and journalism, or service with governmental agencies or international organizations. For more information see the Patterson School Web site at: [www.uky.edu/PattersonSchool/](http://www.uky.edu/PattersonSchool/).

The Martin School of Public Policy and Administration offers four multidisciplinary degree programs – the Master of Public Administration, the Master of Public Financial Management, the Master of Public Policy and the Ph.D. in Public Administration – and engages in research and public service activities. The disciplines represented by the School’s faculty are management, finance, economics, industrial engineering, political science, and health administration. The research and public service components of the Martin School offer the School’s faculty, staff, and graduate students the opportunity to engage in interdisciplinary research on public policy issues. For more information see the Martin School Web site at: [www.martin.uky.edu/](http://www.martin.uky.edu/).

### ORGANIZATION OF THE GRADUATE SCHOOL

**The Graduate Faculty** consists of the Dean of the Graduate School and all persons appointed thereto by the President of the University. As the chief University agency for the promotion of the ideals of graduate study, it determines the policies of the Graduate School and makes recommendations to the University Senate on such matters as require the approval of that body. All rules affecting graduate work and the inauguration of new graduate programs must be approved by the Graduate Faculty.

**The Dean.** The Dean of the Graduate School is charged with the administration of the policies adopted by the Graduate Faculty and the University Senate relating to graduate studies.

**The Graduate Council** is composed of 21 members and the Dean of the Graduate School, who serves as chair. There are 19 faculty representatives and two student representatives. Associate deans serve in a nonvoting, ex officio capacity.

The Graduate Council approves or disapproves proposals concerning courses offered for graduate credit, and advises and lends assistance to the Dean of the Graduate School in his execution of policies and regulations determined by the Graduate Faculty.

**Directors of Graduate Studies.** A Director of Graduate Studies is appointed for each program of graduate study. Among other duties, each director serves as advisor to students majoring in his or her area.

### ADMISSION

Students seeking admission to a degree program in the Graduate School must hold a baccalaureate degree from a fully accredited institution of higher learning. For U.S. institutions “fully accredited” means that the institution is a member in good standing of one of the 6 regional academic accrediting associations. International institutions must be recognized by the ministry of education or by another centralized government educational body within the institution’s country. An overall undergraduate grade-point average of 2.75 and 3.0 on all graduate work is required by the Graduate School. Individual departments may require higher grade-point averages.

All applicants for admission to degree programs in the Graduate School must submit official scores on the verbal, quantitative and analytical writing portions of the Graduate Record Examination, except programs with approved alternate requirements (refer to *The Graduate School Bulletin* for a list of programs).

Upon admission, new students must submit official transcripts directly to the Graduate School from each institution of higher learning previously attended.

International applicants must meet the requirements listed above, as well as the English proficiency requirement (refer to *The Graduate School Bulletin* for a list of programs).

For domestic applicants (U.S. citizens or resident aliens) the application fee is \$65; for international applicants, the fee is \$75.

Complete applications must be submitted no later than one month before the beginning of the term the applicant intends to begin graduate work (five months for international applicants). Students should refer to the *University Calendar* in the front of this Bulletin for important dates.

#### University Scholars Program (Combined Doctoral or Master’s/ Bachelor’s Degree Program)

This program offers particularly gifted and highly motivated students the opportunity of integrating their undergraduate and graduate courses of study in a single continuous program culminating in both a baccalaureate and a master’s or doctoral degree. The total number of hours for the combined program may be as many as 12 less than the total required for the bachelor’s and the master’s or doctoral degrees separately. The requirements for the bachelor’s degree are unaffected.

Applications to the program should be submitted at the end of the student’s junior year. Applicants should have completed at least 90 credit hours of work toward the bachelor’s degree, or be eligible for senior standing in the semester they are admitted to the program. The master’s pro-

gram should be in the field of the undergraduate major (there are some exceptions made), and the undergraduate grade-point average must be at least a 3.50 in the applicant’s major field and 3.20 overall.

Students must register in the Graduate School for all work taken following admission to the University Scholars Program. The primary classification of University Scholars will be undergraduate until they have completed all requirements for their undergraduate degree, and undergraduate tuition rates will be applied to the 12 hours (or less) of graduate level course work designated for dual credit in this program.

#### Graduating Seniors as Part-Time Graduate Students

A senior at the University of Kentucky lacking no more than six credit hours for graduation and having an undergraduate grade-point average of at least 2.75 on all work attempted may register in a degree program in the Graduate School with the consent of his or her college dean, the Director of Graduate Studies, and the Dean of the Graduate School.

*The total load of such a student may not exceed 12 credit hours.* Graduate credit will be allowed for each credit hour of graduate work beyond the six or fewer credit hours needed to complete undergraduate requirements. Requirements for the undergraduate degree must be completed during the semester in which the student is allowed to register for part-time graduate work.

#### Conditional Admission

Students wishing to pursue a higher degree who are temporarily ineligible for regular graduate admission status may be recommended by the Director of Graduate Studies for conditional admission status for a maximum of one full-time semester. Students should refer to *The Graduate School Bulletin* for further information. Special international cohorts are considered for admission to graduate programs prior to meeting the language proficiency and GRE/GMAT requirements. If granted conditional admission, students must meet the language and GRE/GMAT requirements prior to beginning the academic program of study.

#### Post-Baccalaureate and Graduate Certificate Admission

Students who hold a baccalaureate degree and who wish to pursue graduate study **without a degree objective** may apply for admission as post-baccalaureate graduate students. An overall undergraduate grade-point average of 2.5 or better and 3.0 on all previous graduate work is required by the Graduate School for admission to post-baccalaureate status.

## Advanced Degrees for Faculty Members

Members of the faculty, except those in the Community College System, having a rank higher than that of instructor may not be considered as candidates for degrees in the discipline in which they are employed and hold academic rank.

### DUAL DEGREE PROGRAMS

The University of Kentucky offers a number of dual degree programs; such programs require separate admission to each discipline involved. Dual degree programs currently in place are: J.D./M.H.A., J.D./M.B.A., J.D./M.P.A., M.D./M.B.A., M.D./M.P.H., Pharm.D./M.S.P.A.S., Pharm.D./M.S. in Pharmaceutical Sciences, Pharm.D./M.B.A., Pharm.D./M.P.A., Pharm.D./M.P.H., Pharm.D./M.S. in Economics, B.S. in Engineering/M.B.A., and B.S. in Engineering/M.P.A., M.P.H./M.H.A. Combined study leading to both the M.D. and Ph.D. is also available.

For more information on the dual degree programs, see *The Graduate School Bulletin*.

### JOINT AND COOPERATIVE DOCTORAL PROGRAMS

Cooperative doctoral programs in education are offered between the University of Kentucky and other state universities: Eastern Kentucky University, Morehead State University, Murray State University, and Western Kentucky University. These programs permit qualified candidates to complete approximately one year of graduate work above the master's degree at the cooperating university, and the work of each candidate is directed by a joint faculty committee from both institutions.

Cooperative doctoral programs in musicology, physics, and higher education are offered between the University of Kentucky and the University of Louisville; a cooperative program in geology between the University of Kentucky and Eastern Kentucky University; and a cooperative program in history between the University of Kentucky and Western Kentucky University. A cooperative doctoral program in rehabilitation sciences is offered between the University of Kentucky, Eastern Kentucky University, Murray State University, and Western Kentucky University. The University of Kentucky and the University of Louisville share a joint Ph.D. program in Social Work.

For more information on joint and cooperative programs, see *The Graduate School Bulletin*.

## INDEPENDENT STUDY PROGRAMS (Correspondence Courses)

No graduate credit is given for courses taken by correspondence.

### REGISTRATION AND CLASSIFICATION

All students expecting graduate credit must be enrolled in the Graduate School. Graduate students will conform to the general registration schedule of the University and may not enter later than the last allowable date set by the University Registrar.

Before registering, a graduate student must obtain his or her advisor's approval of the proposed program.

### ASSISTANTSHIPS AND FELLOWSHIPS

Financial assistance is available in the form of assistantships and fellowships. An **assistantship** is an appointment to specified teaching or research duties. A **fellowship** is a non-service award made to superior students to assist in the pursuit of an advanced degree.

#### Assistantships

More than 1,500 teaching and research assistantships are available from departments and other units of the University. In addition to an assistantship stipend, full or partial tuition scholarships are available for most assistantship holders based on the number of hours per work in the assistantship. University-provided health insurance is offered for full-time assistants who meet eligibility criteria.

Most assistantships are awarded for the academic year. Additionally, most assistantships are provided through academic departments, although some are offered by non-academic departments and offices throughout the university. When avail-

able, these assistantships are posted on the UK job site at: <https://ukjobs.uky.edu/>. Students interested in assistantships through their academic department should contact their Director of Graduate Studies no later than February for the next academic year. Later applicants have a reduced chance of obtaining an assistantship, as most decisions are made by April for the following academic year. Directors of Graduate Studies can provide information regarding the availability of positions or the status of assistantship offers. Notification of an assistantship offer in an academic department comes from the program.

For more information on assistantships, visit The Graduate School's website at:

<http://gradschool.uky.edu/assistantships>.

#### Fellowships

Several non-service fellowships are offered by The Graduate School. The specific deadlines, eligibility requirements, and award packages of these competitive fellowships vary greatly, however most require a nomination from each applicant's Director of Graduate Studies. All fellowships require a student to be admitted to both their program and The Graduate School before an award offer is made. Applicants must also have an activated LinkBlue to be able to apply for fellowships, and an activated @uky.edu email address for communication of any award offer. All offers are contingent on the recipient's enrollment in their program and progress toward their degree. Post-baccalaureate students are not eligible for The Graduate School's fellowships.

Some colleges, departments, and programs offer fellowships that are external to The Graduate School. The Graduate School does not maintain information on these, and any inquiries should be directed to the entity that offers them.

For more information on The Graduate School's fellowships, visit:

<http://gradschool.uky.edu/fellowships-0>.

*Scott M. Lephart, Ph.D., is Dean of the College of Health Sciences; Janice Kuperstein, Ph.D., is Professor and Associate Dean for Clinical Engagement; Karen Badger, Ph.D., is Associate Dean of Academic Affairs; Patrick Kitzman, Ph.D., is Associate Dean for Research; Randa Remer, Ph.D., is Associate Dean for Admissions and Student Affairs.*

The College of Health Sciences is one of the six health professions colleges which, with the University Hospital, constitute the health science campus of the University of Kentucky.

The College of Health Sciences is composed of five departments: Health and Clinical Sciences, Communication Sciences and Disorders, Athletic Training and Clinical Nutrition, Physician Assistant Studies, and Physical Therapy.

Today health science professionals are assuming greatly expanded and increasingly complex duties and responsibilities as essential members of the health care team. They work in a variety of delivery settings and have key responsibilities for the care and health of patients, clients, and communities. The UK College of Health Sciences, established in 1966, was among the first colleges to offer programs for students interested in these rapidly developing health professions. The college strives continually to revise its offerings in keeping with society's evolving expectations and health care needs.

## Graduate, Professional and Undergraduate Programs in Health Sciences

All students within the College of Health Sciences must adhere to the Health Care Colleges Code of Student Professional Conduct, as well as the UK Student Code of Conduct. The Health Care Colleges Code of Student Professional Conduct is online at: [www.uky.edu/reg/sites/www.uky.edu/reg/files/files/HCCcode.pdf](http://www.uky.edu/reg/sites/www.uky.edu/reg/files/files/HCCcode.pdf).

## Undergraduate Programs in Health Sciences

The University of Kentucky grants the following degrees in the College of Health Sciences:

- Bachelor of Health Sciences
- Bachelor of Science

Students pursuing the Bachelor of Health Sciences select from these majors: Clinical Leadership and Management, Communication Sciences and Disorders, and Medical Laboratory Science. The College also offers a Bachelor of Science with a major in Human Health Sciences.

The College of Health Sciences offers a minor in Health Advocacy.

Students desiring to explore their options in healthcare can select the Exploratory in the Health Sciences program as an initial course of study before making a long-term selection.

## Undergraduate Certificates

The University of Kentucky grants the following undergraduate certificates in the College of Health Sciences:

- Clinical Healthcare Management
- Nutrition for Human Performance
- Research in Human Health Sciences

## Exploratory Studies in Health Sciences

Exploratory Studies in Health Sciences (EHS) provides a home for students who are exploring potential majors at University of Kentucky for a pathway to working in health care. The EHS Academic Advisor assists students with their transition to university, identification of a best fit major for their professional goals, and transition to their chosen academic major and college. Students may enter EHS because there are many areas that interest them, they are weighing options for major choice leading to their health profession goal, or they wish to explore professional options more generally and have some interest in health.

In addition to participation in academic and career advising and co-curricular activities, incoming EHS students will be required to follow a curricular pathway. The curricular path will include a set of courses that provides students with the greatest opportunity for successful matriculation into a CHS program of study and is centered on exposure to the vast opportunities available in the college and in overall healthcare related fields. The EHS students will be cohorted into courses that provide an opportunity for exploration and community connection. The curriculum is delineated in "EHS Curricular Pathway" below. (NOTE: At the time of publication, the EHS curricular pathway requirement was pending approval by the University Senate.) Students may remain in Exploratory Studies until they have earned 60 credit hours. The academic advisor works with students to help them clarify their academic and professional goals, realistically assess their capabilities and options, develop an appropriate degree plan, connect with campus resources, and declare a major of interest. The advisor also makes referrals to student support services on campus for career interest testing, personal counseling, tutoring, and assistance with study skills. For more information about EHS, contact Casey Shadix, Ph.D., at [casey.shadix@uky.edu](mailto:casey.shadix@uky.edu) or 859-218-0573.

## APPLICATION DEADLINES FOR UNDERGRADUATE PROGRAMS IN HEALTH SCIENCES

**Professional Program Applicants** (Students who have completed prerequisites at UK, community colleges, or other accredited colleges or universities)

Applications are available on the program website (see below):

**ADMISSIONS PROCEDURES****Baccalaureate Programs**

Baccalaureate programs in the College of Health Sciences prepare students for the health professions. Students must first make application to the University of Kentucky.

A **premajor program** (Pre-Communication Sciences and Disorders, and Pre-Medical Laboratory Sciences) is comprised of courses prerequisite to professional program content as well as UK Core requirements. Freshman and transfer students who have initially not completed prerequisites for entrance into a professional program complete only the first step of the application process – application to the University of Kentucky. Freshman applicants to the college will be

admitted into a premajor program if they meet University entrance requirements or to the Clinical Leadership and Management or the Human Health Sciences program if they are selected for admission.

A **professional program** is comprised of all courses and clinical experiences required for students who have applied for and have been accepted into professional programs. Consideration for admission to the college's professional programs requires completion of prerequisite course work and completion of the professional application procedure.

The admissions procedure for all baccalaureate programs require a two-step process. Applicants must first be accepted by the University of Kentucky and second must apply for admission into a professional program. The timing for the secondary application varies by program. Students applying to the Clinical Leadership and Management and Human Health Sciences submit a secondary application prior to admission in the College of Health Sciences. Students applying to Communication Sciences and Disorders and Medical Laboratory Science programs within the College of Health Sciences must first be accepted by the University of Kentucky and second must apply for admission to a professional program approximately two semesters prior to completing prerequisites. This selection procedure is necessary because of the limited space in the professional years of the health sciences programs.

Requirements for the first several years (pre-professional program) may be completed at the University of Kentucky, a community college, or another fully accredited college or university.

At the time of application to the major program, the student should have completed the prerequisites required for application to the program he or she plans to enter, and have plans to complete all prerequisites before actual enrollment in the professional program as directed by each program. Transfer students into Human Health Sciences are strongly encouraged to complete the following prerequisites prior to application:

CHE 105 General Chemistry I	
and	
CHE 111 General Chemistry I Laboratory .....	5
PSY 100 Introduction to Psychology .....	4
MA 137 Calculus I With Life Science Applications .....	4

It is essential that complete, accurate information be furnished on the application. Individuals seeking entry into the professional programs or those admitted to the programs through falsified or misleading information may be dropped from consideration or dismissed from the programs.

Persons not enrolled at the University of Kentucky must complete applications to both the University of Kentucky **and the professional program**. Application materials are available from:

**Clinical Leadership and Management**  
[www.uky.edu/chs/clm](http://www.uky.edu/chs/clm)

**Communication Sciences and Disorders**  
[www.uky.edu/chs/csd](http://www.uky.edu/chs/csd)

**Human Health Sciences**  
[www.uky.edu/chs/hhs](http://www.uky.edu/chs/hhs)

**Medical Laboratory Science**  
[www.uky.edu/chs/mls](http://www.uky.edu/chs/mls)

Deadlines and specific application instructions are listed for each program in the descriptions which follow. Additional information for each program is available on their respective websites.

**Graduate Programs**

Students who want to earn advanced degrees in health sciences fields must be admitted to the University of Kentucky Graduate School. For complete information, students should refer to *The Graduate School Bulletin* or contact:

**Graduate School Admissions**  
201 Gillis Building  
University of Kentucky  
Lexington, KY 40506-0033  
859-257-4613  
fax: 859-323-5986  
<http://gradschool.uky.edu/>

The College of Health Sciences offers graduate programs in the following areas: Athletic Training, Communication Sciences and Disorders, Physician Assistant Studies, and Rehabilitation Sciences; and a professional program in Physical Therapy.

**PROBATION AND SUSPENSION**

The probation and suspension rules for all students in the College of Health Sciences appear under *Academic Requirements* in the front section of this Bulletin and the Technical and Behavior Standards at: [www.uky.edu/chs/current-students/technical-standards-collegehealth-sciences](http://www.uky.edu/chs/current-students/technical-standards-collegehealth-sciences).

**BACKGROUND CHECKS AND DRUG SCREENS**

The College of Health Sciences requires full background checks and drug screenings for all students. This has become necessary due to the increasing numbers of our affiliates (e.g., hospitals, schools, units) that are requesting drug testing for employees and students who are trained by them. The college works with a company called Castle Branch to meet these requirements. Students **MUST** complete these requirements via the Castle Branch system. Background checks and drug screens from other sources will **NOT** be accepted. The UK Castle Branch portal can be found at: <https://uky-health.castlebranch.com/UK33>. Select "Place order". Students can expect to pay approximately \$95 to the company.

Information regarding this process will be provided and will need to be completed prior to the student's start of applicable program. The student and the college will receive results shortly after the process is completed. If necessary, the student will have the opportunity to discuss or explain any discrepancies. Students failing to submit these documents will not be granted final acceptance into applicable program.

Students must understand that this background check and drug screening may not be the last or final request, as additional checks may be required by particular clinical sites, the program, and/or college. A "positive" result during one's student tenure may lead to dismissal from the program – students are encouraged to be proactive in conversations about potential background check issues and should contact Tammy Jo Edge at [Tammy.Edge@uky.edu](mailto:Tammy.Edge@uky.edu) for advisement with this matter. Costs associated with these tests will be the student's responsibility.

**NOTICE TO ALL APPLICANTS**

Some programs will require a period of training off-campus in community facilities outside of Lexington.

**ADMISSIONS, RECRUITMENT AND ACADEMIC ADVISING**

Academic advising is available from the College of Health Sciences. Students should report to the Office of Student Affairs to be assigned an advisor. Detailed information on each program is detailed on each program's website.

For academic advising and recruiting, contact:

**Allison Burton, M.S.**  
Academic Advisor  
[arrich2@uky.edu](mailto:arrich2@uky.edu)  
859-218-0546

or

**Amy Karr, M.A.**  
Academic Advisor

**BACCALAUREATE PROGRAMS**

**College Graduation Requirements**

To graduate with a Bachelor of Health Sciences or a Bachelor of Science degree from the College of Health Sciences, a student must (1) satisfy UK Core requirements and (2) complete a minimum of 120 semester hours, including required courses in both the preprofessional and professional programs.

**HEALTH AND CLINICAL SCIENCES**

**B.H.S. with a major in CLINICAL LEADERSHIP AND MANAGEMENT**

Graduates of the Clinical Leadership and Management program earn a Bachelor of Health Sciences (B.H.S.) degree. The UK Clinical Leadership and Management Bachelor of Health Sciences degree lays the groundwork for graduates to pursue graduate education and careers as competent, evidence-informed, effective leaders and life-long learners prepared to engage in ethical and interprofessional healthcare management practice. Graduates develop fundamental knowledge, values, and skills to lead with cultural humility and promote compassionate, efficient, responsive services to improve healthcare outcomes, the patient experience, access to healthcare, and quality of life for people in the Commonwealth of Kentucky and beyond. Program graduates will be prepared to assume greater responsibilities at their current jobs, be better qualified for job promotions, and be positioned for graduate studies.

This degree program accommodates freshmen, associates or transfer students from many allied health disciplines including, but not limited to: radiological technology, respiratory therapy, dental hygiene, clinical laboratory technicians, and nursing. Students who graduate from the Clinical Leadership and Management program may pursue careers such as: practice manager, patient experience, healthcare non-profit management, medical sales, etc.

For additional information, go to: [www.uky.edu/chs/clm](http://www.uky.edu/chs/clm).

**Application Process and Requirements**

The admissions process begins with an application to the University of Kentucky by Priority deadline of **November 1** for spring enrollment and **April 1** for fall enrollment. For incoming freshmen applying for admission for summer, the deadline is **February 1**. For transfer students and readmitted students applying for admission for summer, the deadline is **April 1**.

Academic advising and information about admissions is available from:

**William Bickers, B.A.**  
Director of Recruitment  
[Chs-admissions@uky.edu](mailto:Chs-admissions@uky.edu)  
859-323-6743

or

**Casey Shadix, Ph.D.**  
Director of Advising  
[casey.shadix@uky.edu](mailto:casey.shadix@uky.edu)  
859-218-0573

or

**Office of Student Affairs**  
College of Health Sciences  
859-218-1100

All transfer credits to meet CLM program core courses and electives must receive prior approval by the CLM Director of Undergraduate Studies or student advisor. For additional information about program content, email Professor Sarah Kericsmar at:

**Sarah Kericsmar, Ph.D.**  
CLM Director of Undergraduate Studies  
[sarah.kericsmar@uky.edu](mailto:sarah.kericsmar@uky.edu)  
859-218-0514

Students will have to maintain an overall GPA of 3.0 in the CLM Core Courses and an overall GPA of 2.8 in all courses. If during any semester the student drops below the GPAs designated above, the student will be placed on probation for one semester and if the GPA remains below 3.0 for the CLM Core Courses or less than an overall GPA of 2.8 the student will be suspended from the program.

**UK Core Requirements**

See the UK Core section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**B.S. with a major in**  
**HUMAN HEALTH SCIENCES**

---

Students interested in health care have a variety of academic options. The Human Health Sciences (HHS) baccalaureate program was created to address the need for a well prepared health care work force. Graduates of this program will have a strong foundation in competencies necessary to deliver high quality health care in an interprofessional, dynamic environment. This program is not intended to replace traditional pathways to health care careers; instead, it is intended to offer a unique alternative for those who seek careers in health care and the health professions. Specifically, the degree offers eight options for students interested in future graduate or professional study: Athletic Training, Audiology, Dentistry, Occupational Therapy, Optometry, Pharmacy, Physical Therapy, and Physician Assistant programs.

**Admission**

Admission into the Human Health Sciences baccalaureate program is highly competitive. The following factors will be taken into consideration as part of the admissions decision:

- high school GPA (preference given to those with an unweighted high school grade-point-average of 3.5 or higher);
- ACT or SAT scores (preference given to those with a 28 ACT or composite SAT equivalent or higher);
- service and volunteerism;
- shadowing and observation of healthcare professionals;
- cultural experiences as well as leadership roles;
- completion of program application and interview process.

The Human Health Sciences program employs a holistic admissions model in which all aforementioned values are weighed equally along with an interview experience. The program **priority** application deadline is **April 1** of each year and will include a personal statement. A rolling admissions process shall be utilized until the cohort is filled. Interviews will be conducted to allow student finalists to demonstrate their non-academic skills.

Human Health Sciences students must maintain a 3.0 cumulative GPA and have a C or higher

in all courses required for the degree in order to graduate. A **D** or **E** in any course, or term GPA below 3.0, will result in HHS probation. Failure to regain good standing during probation semester may result in HHS suspension.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete **UK Core requirements**. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

The Human Health Sciences baccalaureate program has selected specific UK Core courses that also meet major requirements. Students may choose their own UK Core approved course in areas where a specific one is not listed (e.g., Arts and Creativity, Humanities, etc.):

**I. Intellectual Inquiry in Arts and Creativity**

**Subtotal: ..... 35**

**Required Courses for the Major**

All HHS degree seeking students are required to complete ten courses totaling 31 credits. These courses provide students with comprehensive knowledge of healthcare and related issues and the initial competencies essential for the profession. Courses have a particular focus on interprofessional healthcare delivery.

**Prerequisite Courses Unique to Each Option**

These courses are consistent with the prerequisite requirements for each option program (Athletic Training, Audiology, Dentistry, Occupational Therapy, Optometry, Pharmacy, Physical Therapy, and Physician Assistant). Students will be advised accordingly to ensure they have met the course requirements for their program of interest.

**Required Core Courses – Non-HHS**

These courses are intended to support students' preparation in the sciences and better

prepare them for healthcare careers or entry into professional degree programs.

**Prerequisite Courses Recommended But Not Required**

The Dentistry, Pharmacy and Physical Therapy options have courses that are recommended, but not required. Students will be encouraged to take these courses, although taking these courses may extend their program. However, students completing the prerequisite recommended courses are traditionally more competitive for admission to future graduate and professional programs.

**Track Related Major Requirements**

The Dentistry and Physician Assistant options require an additional major course. For Dentistry, the course is HHS 450 Introduction to Dentistry (3 credits). For Physician Assistant, the course is HHS 451 Introduction to Medicine (2 credits).

**General Electives**

The University has many courses that add to the students' course of study. Students will be advised accordingly.

**B.H.S. with a major in MEDICAL LABORATORY SCIENCE**

The undergraduate Medical Laboratory Science (MLS) program prepares medical laboratory scientists who perform laboratory tests that aid the diagnosis, prevention, prognosis, and treatment of disease. MLS graduates are employed in a variety of health care settings including hospital and private laboratories, clinics, pharmaceutical companies, research institutions, the armed forces, and public health centers. In addition to performing laboratory tests, MLS graduates can serve as consultants, managers, sales and technical representatives, and educators.

The MLS Program is offered at the Lexington campus and at the Center of Excellence in Rural Health campus in Hazard, Kentucky. Within the MLS Program there are two tracks leading to a B.H.S. with a major in Medical Laboratory Science. The **Traditional Track** is for students who

have completed general education courses and have met the program preprofessional requirements. (This includes transfer students and students seeking a second bachelor's degree.) The **MLT to MLS Track** is only applicable to those who have earned an associate degree from a Medical Laboratory Technician (or Clinical Laboratory Technician) Program. (This track is offered via distance learning.)

### Traditional Track Admission

The MLS program has selective admissions and students are admitted to the professional program on a competitive basis. Applicants must have completed all UK Core requirements and preprofessional requirements prior to entering the program. In addition, students holding baccalaureate degrees in a health-related science may apply to the MLS program (fulfillment of preprofessional courses is required) and earn a second baccalaureate degree.

Admission is based on cumulative grade-point average (GPA) for all courses taken at institutions of higher education (2.5 or higher on a 4.0 scale), cumulative GPA for preprofessional courses, and recommendation scores. Interviews may also be used in the admissions process. Applicants must submit an application and three recommendation forms.

The application deadline is **March 1** for the Lexington Campus and **May 1** for the Hazard Campus.

### The Curriculum

A total of 120 credits (including 60 professional program credits, preprofessional credits, UK Core requirements and the Graduation Composition and Communication requirement credits) is required to receive the Bachelor of Health Sciences with a major in MLS degree.

### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

#### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ..... 3

#### II. Intellectual Inquiry in the Humanities

Choose one course from approved list ..... 3

MLS 483 Immunohematology Practicum ..... 4

**Subtotal: Professional Course hours ..... 60**

Upon successful completion of the professional program, all students are eligible for the national certifying exam.

### MLT to MLS Track

The MLT to MLS track (bridge) is an online program only available to those who have an associate degree from a medical laboratory technician (MLT) program.

### Admission

Early academic advising for this track is crucial and is available from Allison Burton at: [arrich2@uky.edu](mailto:arrich2@uky.edu) and Sarah Sheff at: [sarah.sheff@uky.edu](mailto:sarah.sheff@uky.edu).

The MLS Program has selective admissions and students are admitted to the professional program on a competitive basis. Applicants must have completed all UK Core requirements and preprofessional requirements prior to entering the program. Admission requirements include: cumulative grade-point average (GPA) for all courses taken at institutions of higher education of 2.5 or higher on a 4.0 scale, successful completion of all preprofessional courses, an associate degree from a MLT/CLT program, and certification (BOC preferred) or documentation of five years of work experience in a MLT position within a multidisciplinary laboratory, and current employment in a clinical laboratory that offers testing in all major disciplines. Admission is based on GPA, cumulative GPA for preprofessional courses, and recommendation scores. Interviews may also be used in the admissions process. Applicants must submit an application, three recommendation forms, official transcripts, resume, and documentation of MLT/CLT program completion.

The application deadline is **June 1**.

### The Curriculum

A total of 120 credits (including 40–48 professional program credits, preprofessional credits, UK core requirements, and the Graduation Composition and Communication Requirement) is required to receive the Bachelor of Health Sciences with a major in MLS degree.

### UK Core Requirements

UK Core Requirements are the same as those listed above under the Traditional Track heading.

### Graduation Composition and Communication Requirement (GCCR)

MLS 463 Immunohematology ..... 3

MLS 470 Clinical Correlations ..... 3

**Graduation Composition and Communication Requirement hours (GCCR) ..... 6**

### Minor in Health Advocacy

The minor in Health Advocacy educates students to serve as patient advocates to improve health and health care and help patients access an increasingly complex medical system.

The minor in Health Advocacy requires 18-19 hours:

#### Minor Prerequisites

HHS 101 Survey of Health Professions I ..... 1  
 HHS 102 Survey of Health Professions II:  
 Shadowing Experience ..... 1

#### Minor Requirements

HHS 241 Health and Medical Care  
 Delivery Systems ..... 3  
 HHS 350 Health Policy and Politics ..... 3  
 HHS 353 Ethics in Healthcare ..... 3  
 HHS 453 Cultural Competence in Healthcare ..... 3  
 HHS 354 Health Law ..... 3  
 HHS 362 Interdisciplinary Health Advocacy ..... 1  
 \*CNU 500 Integrative Care for Health Sciences ..... 1-3

#### Minor Electives

HHS 356 Seminar in Interprofessional Healthcare:  
 Part 1: Global Context ..... 3  
 HHS 361 Healthcare Quality and Patient Safety ..... 3  
 CNU 503 Nutrition for Health Professions ..... 1-2  
 HHS 405 Social and Cultural Evolution of Disease ..... 3  
 CLM 452 Community and Institutional Planning  
 for Health Services Delivery ..... 3

\*Students enrolling in this course should enroll for 2 credit hours.

### Undergraduate Certificate in Clinical Healthcare Management

Successful completion of the certificate in Clinical Healthcare Management will demonstrate that the graduate is prepared to function successfully in a clinical leadership and management role in a health care institution. The program is useful for any currently enrolled UK student (except Clinical Leadership & Management majors) interested in obtaining clinical management skills; in addition, the program is useful for practicing clinical professionals (non-degree-seeking) such as nurses, physicians, dentists, physician assistants, physical therapists, respiratory therapists and other interested in enhancing their management skills.

#### Admission

Students will complete the required application form, available at [www.uky.edu/chs/clinical-healthcare-management-certificate-application](http://www.uky.edu/chs/clinical-healthcare-management-certificate-application). Additionally, applicants will write a two paragraph response to the questions: "Why do you want to add the Clinical Healthcare Management certificate? How will it compliment your current major?" A holistic review process is employed to determine fit for the certificate. Students need to articulate how the certificate can enhance their education to gain admission. Students who are Clinical Leadership & Management majors **may not enroll** in the certificate due to duplication of content.

#### Required Courses

The Clinical Healthcare Management Certificate is comprised of 12 credit hours, including 9 hours of required courses:

HHS 241 Health and Medical Care  
 Delivery Systems ..... 3  
 CLM 325 Introduction to Health Care Management  
 or  
 \*MGT 301 Business Management ..... 3  
 CLM 345 Quality and Productivity  
 Improvement and Evaluation ..... 3  
 \*MGT 301 is available for students who are majors in the Gatton College of Business and Economics.

#### Elective

Choose **one** course from the following:  
 CLM 350 Health Policy, Politics, and Law ..... 3  
 CLM 353 Ethics in Health Services Management ..... 3  
 CLM 323 Social Determinants of Health ..... 3  
 CLM 455 Financial Management of  
 Healthcare Organizations ..... 4  
 HHS 405 Social and Cultural Evolution of Disease ..... 3  
 CLM 444 Leadership: Human Resources  
 Management in Healthcare ..... 3  
 CLM 443 Leadership: Strategic Vision,  
 Mission and Planning in Healthcare ..... 3  
 CLM 342 Leadership: Management Competencies  
 Essential to Lead in Healthcare ..... 3  
 CLM 452 Community and Institutional Planning  
 for Health Services Delivery ..... 3  
 CLM 335 Health Information Management ..... 3  
 CLM 453 Cultural Competence in Healthcare ..... 3

ICT 326 Electronic Information Resources  
 for Health Professionals ..... 3  
 NUR 372 Current Healthcare Topics in the US ..... 3  
 COM 571 Interpersonal Communication  
 in Health Contexts ..... 3

For more information, contact the Division of Clinical Leadership and Management within the Department of Clinical Sciences.

**Undergraduate Studies**  
**sarah.kercksmar@uky.edu**  
**859-218-0514**

### Certificate in Undergraduate Research in Human Health Sciences

The Office of Research in the College of Health Sciences offers an undergraduate certificate in Undergraduate Research in Human Health Sciences. This certificate will enhance the educational goals of any University of Kentucky student interested in obtaining experience in health-related research to benefit the pursuit of a health care career.

#### Admissions Criteria

The admissions criteria for the certificate are as follows:

- a minimum second semester freshman
- 3.0 GPA
- a statement from a CHS faculty research mentor willing to work with the student
- an application submitted through the Office of Student Affairs

Before beginning, all students accepted into the certificate program will be required to:

- register with the UK Office of Undergraduate Research
- complete research ethics education as directed by their mentor
- complete web-based biosafety modules as directed by their mentor

#### Required Courses

A total of 12-15 credit hours is required for the certificate. All required courses for the certificate must be completed with an overall GPA of 3.0 or better **and** each course within the certificate must be completed with at least a **C** or better. Courses are described below and can be adapted to accommodate students enrolled in the Honors Program as requested:

HHS 454 Research in Human Health Sciences ..... 3

This course provides an introduction to basic methods for undertaking research on issues related to health, health care, and within health services organizations and systems.

## HHS 455 Research Experience in

Human Health Sciences ..... 6-9\*

HHS 455 provides the student with the opportunity to engage in independent work devoted to research on a specific problem with the goal to challenge the student to synthesize concepts from his/her total program and relate them to his/her specific field of research interest. Students work under the direction of a faculty mentor in an area of mutual scientific interest. Student and mentor collaborate to develop a research contract that outlines the expectations of the research experience including: a description of the experience with goals and objectives, tasks for completing the objectives with timelines, and criteria, with percentages, for assessment. Students seeking the UGR certificate will complete, as part of one of their HHS 455 contracts, either (1) a presentation to a local targeted group (e.g. CHS Research Day); (2) poster preparation for national/international conference; or (3) manuscript development/writing with mentor. Additional activities expected of certificate holders could include participation in the mentor's lab group/journal club or IRB/IACUC preparation.

*\*If a student comes from another academic unit with research experience, the mentor can agree to have 3 credit hours count toward the 6-9 credit hours of research experience required for the certificate. In addition, students could elect to complete this requirement under the direction of different mentors as long as they demonstrate this is justified for their scientific field of interest.*

Mentor/student selected course work ..... 3  
(i.e. content specific to area of research) – 300 level or above

Student and mentor will collaborate to select an out-of-discipline course to meet this requirement of the certificate program. The course could come from any program on the UK campus with the caveat that the content of the course be specific to the student's scientific field of interest. For example, a student with a major in communication sciences and disorders interested in the effects of preterm birth on family stress might take a selected course in sociology (A&S), psychology (A&S), or health care navigation (HHS). A student interested in an aspect of aging muscle might take a course in gerontology (GRN) or public health (CPH). The connection between the selected course and its application to the area of research would be clearly linked in the agreement between the student and faculty mentor. In considering course options, the student/mentor would obtain any necessary instructor consent prior to student enrollment.

### Undergraduate Certificate in Nutrition for Human Performance

The Nutrition for Human Performance Certificate is a 14 credit hour program combining courses from HHS, DHN and KHP. The practice area of Nutrition for Human Performance continues to grow and has sparked interest among students pursuing undergraduate degrees in not only nutrition, but also kinesiology and health promotion and human health sciences (e.g., pre-medicine, pre-physical therapy, pre-physician assistant studies). Nutrition for Human Performance focuses on the

integration of nutrition and exercise to properly support physical activity, fitness, and athletic performance at all levels, from those just starting an exercise program, to elite athletes, and those recovering from injury. The Certificate in Nutrition for Human Performance also provides students with cross-disciplinary knowledge of the relationship between exercise physiology, nutrition, and overall wellness.

This certificate provides a unique opportunity to expand student knowledge in an area not traditionally, or adequately, addressed in each individual degree programs. For students in dietetics and human nutrition, the certificate would provide specialized knowledge that would immediately make graduates more competitive at securing a supervised internship and/or employment (e.g., as a Registered Dietitian Nutrition (RDN) interested in professional certification as a specialist in sports nutrition). For students in human health sciences, the certificate would provide basic knowledge to make them a more well-rounded candidate for professional school. For students in kinesiology and health promotion, the certificate would provide additional knowledge of the role of diet on health, wellness, and injury recovery.

At this time, it is not necessary to obtain a minor and, in fact, a minor is not offered at the University of Kentucky that addresses these needs. As well, there are no health-related interdisciplinary/cross-disciplinary certificate programs currently available to undergraduate students at UK and this certificate would be of interest to students in at least three colleges.

In addition, the HHS degree serves as a pre-professional undergraduate degree for students who aspire to careers in health care, such as dentistry, pharmacy, physician assistant studies, athletic training, and physical therapy. The program offers an interprofessional education with broad exposure to health care practices, policies and management. The Nutrition for Human Performance certificate enhances the value of the HHS degree by addressing a weakness found in many pre-health professions baccalaureate programs: absent to minimal nutrition and exercise education for healthcare professionals.

This certificate provides a unique opportunity to provide students with a better understanding and appreciation for how nutrition impacts athletic performance and the role of diet and exercise in disease prevention. Nationwide, this opportunity is not offered in most traditional pre-health profession programs (e.g., biology, chemistry) or only offered as separate entities with limited exposure (e.g., one class in kinesiology or basic nutrition).

The certificate program will be available to any student in good academic standing (minimum GPA 3.0) that has an interest obtaining undergraduate knowledge of Nutrition for Human Performance and meets all prerequisites for the required courses (GPA minimum 3.0, must have completed a 100- or 200-level basic nutrition

course (e.g., DHN 101: Human Nutrition and Wellness or DHN 212: Introductory Nutrition), a 200-level physiology course (e.g., PGY 206) and be classified as a sophomore, junior, or senior undergraduate student or post-baccalaureate student.

DHN 315 Nutrition Issues in Physical Activity	
or	
KHP 240 Nutrition and Physical Fitness .....	3
DHN students take DHN 315; KHP students take KHP 240; and HHS students choose either DHN 315 or KHP 240.

## COMMUNICATION SCIENCES AND DISORDERS

### B.H.S. with a major in COMMUNICATION SCIENCES AND DISORDERS

In keeping with the standards of the American Speech-Language-Hearing Association, the undergraduate program in communication sciences and disorders is considered to be a preprofessional degree program. In order to meet Kentucky licensure and American Speech-Language-Hearing Association certification requirements, it is necessary to complete the master's degree. Students pursuing this program should plan on six years to complete both the Bachelor of Health Science and Master of Science programs.

### Admission to the Professional Program

The Communication Sciences and Disorders program has selective admissions. Applicants must have completed a minimum of 42 credit hours at the time of application. Students are admitted to the pre-professional program on a competitive basis. Admission is based on cumulative grade-point average, ACT or SAT scores, three letters of recommendation, letter of application, and quality of professional and community-based experience. Completion of CSD 277 and PSY 100 (or equivalent) is also required prior to application to the major. New students are admit-

ted only for the fall semester. The application deadline is **February 1**.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**GRADUATE DEGREES IN HEALTH SCIENCES**

**Professional Master of Science in Athletic Training**

The entry-level Professional Master of Science in Athletic Training (MSAT) program is designed for students who wish to become athletic trainers (ATs). The mission of the MSAT program is to effectively prepare entry-level athletic trainers, who are life-long learners and servants to their communities, for employment and/or pursuit of advanced education by providing a comprehensive education in a collaborative, evidence-based, patient-centered environment that includes robust educational, scholarly, clinical and service opportunities.

The MSAT has a competitive admissions process that will begin July 1 for program entry the following summer. To learn more about the application processes and admissions requirements, please visit the website:

[www.uky.edu/chs/athletic-training/professional](http://www.uky.edu/chs/athletic-training/professional)

Or contact:

**Phillip Gribble, Ph.D., ATC, FNATA**

**Department Chair of Athletic Training**

**and Clinical Nutrition**

[phillip.gribble@uky.edu](mailto:phillip.gribble@uky.edu)

**859-218-0885**

The MSAT is currently seeking accreditation from the Commission on Athletic Training Education (CAATE). We will submit a self-study to begin the accreditation process on July 1, 2021. Submission of the self-study and completion of the site visit in early Spring 2022 does not guarantee the program will become accredited. Once accredited, graduates of the program will be eligible to sit for the Board of Certification exam. For further information, contact:

[www.uky.edu/chs/athletic-training/professional](http://www.uky.edu/chs/athletic-training/professional)

Or contact:

### Master of Science in Communication Sciences and Disorders

The Master of Science in Communication Sciences and Disorders is designed for students seeking entry-level professional preparation in speech-language pathology. Any student without an undergraduate major or equivalent in Communication Sciences and Disorders should apply as a prerequisite student to complete the prerequisite course work. The curriculum incorporates course work and intensive clinical practicum experiences designed to prepare students to meet state licensure and national certification requirements. For further information, contact:

[www.uky.edu/healthsciences/academic-programs/communication-sciences-and-disorders](http://www.uky.edu/healthsciences/academic-programs/communication-sciences-and-disorders)

Or contact:

**Anne Olson, Ph.D.**  
**Department Chair of Communication**  
**Sciences and Disorders**  
**Graduate Program**  
**aolso2@uky.edu**  
**859-218-0572**

### Certification and the Master's Degree

The Master of Science degree program in Communication Sciences and Disorders is accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association.

Upon completion of the undergraduate degree and with admission to the master's program, students complete the following courses for certification and the master's degree.

Course Requirements	Hours
CSD 621 Alternative and Augmentative Communication .....	3
CSD 647 Language Disorders in Developmentally Young Individuals .....	3
CSD 648 Language Disorders in School-Age Populations .....	3
CSD 661 Phonological Development and Disorders .....	3
CSD 670 Voice Disorders .....	3
CSD 675 Low Incidence Communication Disorders (Subtitle required) .....	3
CSD 677 Aphasia and Related Disorders .....	3

CSD 701 Research Methods in Communication Disorders .....	3
CSD 710 Cognitive Communication Disorders .....	3
CSD 744 Adult Swallowing and Motor Speech Disorders .....	3
CSD 745 Pediatric Feeding and Motor Speech Disorders .....	3
<b>Total Credit Hours .....</b>	<b>33</b>

The M.S. in Communication and Sciences Disorders consists of 33 didactic hours plus optional thesis or comprehensive examinations.

### ASHA Certification

Applicants wishing to meet American Speech-Language-Hearing Association certification requirements must also complete the following additional clinical orientation, clinical practicum and clinical rotation experiences plus 1 hour of graduate-level electives, and optional 1-6 hours in thesis or comprehensive exams:

CSD 654 Clinical Orientation in Communication Disorders .....	3
CSD 657 Clinical Practicum in Speech-Language Pathology .....	6
CSD 659 Clinical Rotation in Speech-Language Pathology .....	21-30

Students completing the thesis option also complete the following:

CSD 748 Master's Thesis Research .....	0
CSD 768 Residence Credit for the Master's Degree ...	1-6

### Master of Science in Nutritional Sciences

The program is designed to develop nutrition specialists, knowledgeable in the metabolic changes that occur in normal exercise and various pathophysiological states. Opportunities for specialization are available in the areas of clinical nutrition/medical nutrition therapy, wellness and sports nutrition, molecular and biomedical nutrition, and community nutrition. Clinical Nutrition is integrated with the doctoral program in the Graduate Center for Nutritional Sciences.

The courses provide the student with in-depth knowledge of the role of nutrition in metabolism, the physiology of organ systems, and the pathophysiology of specific disease states. Elective course selections provide program focus while allowing maximum flexibility to meet individual needs. A minimum of 30 credit hours of course work is required for graduation.

### Master of Science in Physician Assistant Studies

The University of Kentucky, Division of Physician Assistant Studies (PAS) offers a master's degree program that is accredited by the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA). The Master of

Science in Physician Assistant Studies (M.S.P.A.S.) program is designed for students who wish to become Physician Assistants (PAs) and hold a baccalaureate or will have earned a baccalaureate degree by the time they enter the program. The M.S.P.A.S. program is offered in Lexington at the University of Kentucky and in Morehead, KY, located at the Center for Health Education & Research (CHER).

The goal of the M.S.P.A.S. program is to develop well-educated and highly skilled primary care PAs who will extend the physician's effectiveness and improve access to health care. The PA functions under the supervision and responsibility of a licensed physician and is competent to elicit comprehensive health histories, perform physical examinations, interpret and evaluate diagnostic data, establish treatment plans, counsel and educate, and respond appropriately to commonly encountered emergency care situations. Physician Assistants serve in a variety of health care settings, such as primary care practices, subspecialty clinics, inpatient hospitals, and community-based clinics. The M.S.P.A.S. program also prepares graduates to be competitive for positions in clinical research, health care administration and higher education. Graduates of the program are eligible to take the Physician Assistant National Certifying Examination. After successful completion of the National Commission on Certification of Physician Assistants Exam, graduates are eligible for state certification/licensure to practice as certified PAs.

### Admission Requirements

Admission to the M.S.P.A.S. program occurs annually, with a new class beginning each January. Qualified applicants must simultaneously apply to the University of Kentucky Graduate School, <http://gradschool.uky.edu/>, as well as the Central Application Service for Physician Assistants (CASPA): <https://caspa.liaisoncas.com/applicant-ux/#/login>

Students must satisfy admissions requirements to both the Graduate School and the Physician Assistant Studies (PAS) Program. PAS practices holistic admissions. As part of this process, students must submit the following:

- Applicants to the PAS Program must complete the Graduate Record Examination (GRE). The UK GRE code is **1837** and all official scores must be sent to the University of Kentucky Graduate School Office.
- International students and domestic students who attended a high school in which English was not the primary language of instruction must achieve a minimum of 26 in each category on the TOEFL iBT exam. In addition to the TOEFL iBT requirement, international students must also complete the GRE.
- Applicants must hold a baccalaureate degree from an accredited college or university (or have earned a baccalaureate de-

**Prerequisite Courses for Physician Assistant Studies\***

A C grade or better must be earned in the following prerequisite courses:

Course	Requirement	UK Equivalencies
General Chemistry I	1 semester + lab	CHE 105 & 111
General Chemistry II	1 semester + lab	CHE 107 & 113
Organic Chemistry	1 semester + lab	CHE 230 & 231 or CHE 232 & 233
Human Anatomy <b>OR</b> Human Anatomy/Physiology	1 semester (3 hours) <b>OR</b> 1 semester (4 hours)	ANA 209 or ANA 109 (must be paired with ANA 110 only)
Human Physiology <b>OR</b> Human Anatomy/Physiology	1 semester (3 hours) <b>OR</b> 1 semester (4 hours)	PGY 206 or ANA 110 (must be paired with ANA 109 only)
General Animal Biology	1 semester + lab	BIO 148/152 & 155, or 150 & 151, or 152 & 153
Microbiology	1 semester + lab	BIO 208/308 & BIO 209
Statistics	1 semester	STA 291, 296 or PSY 216
Psychology	1 semester	PSY 100
Developmental Psychology	1 semester	PSY 223
Anthropology <b>OR</b> Sociology	1 semester <b>OR</b> 1 semester	any anthropology (3 hours) <b>OR</b> any sociology (3 hours)
Medical Terminology	1 semester	CLA 131

*\*For more detailed information on prerequisites and course equivalencies, please visit the program Web site: [www.uky.edu/healthsciences/academic-programs/physician-assistant-studies/admissions](http://www.uky.edu/healthsciences/academic-programs/physician-assistant-studies/admissions).*

- gree by the time of entry into the program).
- Applicants may only have two outstanding prerequisites at the time of application. These courses must be completed by January, prior to the beginning of the program.
- Three (3) letters of recommendation are required from people acquainted with the applicant for at least one year and familiar with his/her professional goals and must be submitted with the CASPA application packet, along with an admission essay.
- The UKPAS Program prefers to have one recommendation from a physician assistant or physician, one from an academic advisor or professor and one from either a PA, physician, other healthcare professional, or academic professor/ advisor.
- The admission essay must be of graduate quality that reflects the applicant's commitment to primary care.
- The applicant must be certified in Basic Life Support for Healthcare Providers by the American Heart Association
- Be in compliance with the Technical Standards established by the College of Health Sciences and the PAS Program.
- Health care experience is required and deemed beneficial to students entering the

PAS Program. The program strongly recommends applicants to complete shadowing or observation hours with a Physician Assistant to gain knowledge and understanding of the profession. The average shadowing hours for selected students is 100 shadowing hours.

- Additionally, applicants must have direct patient care experience. It is highly recommended that patient contact hours be obtained in a formally trained medical discipline (as a registered nurse, certified nursing assistant, emergency technician, certified medical assistant, etc.).
- Volunteer hours are desired. The program looks for direct and indirect service.

Due to the competitive nature and large number of students applying to the program, meeting the minimum requirements does not guarantee an interview or admissions.

Please see the Web site at: [www.uky.edu/healthsciences/academic-programs/physician-assistant-studies](http://www.uky.edu/healthsciences/academic-programs/physician-assistant-studies) for the application deadline. Generally, the application is due mid-July.

### Physician Assistant Program – Morehead, Kentucky

The College of Health Sciences offers an extension of the UK Physician Assistant Studies Program in Morehead, Kentucky. Located at the Center for Health Education & Research (CHER), this campus is a unique collaboration with Morehead State University (MSU) and St. Claire Regional Medical Center (SCRM). The requirements for admission are the same as in the curriculum. The purpose of the Morehead site is to enhance medical care for rural areas of Kentucky and Appalachia. For information on eligibility requirements and applications, please contact:

The Physician Assistant Program is linked with Graduate Certificates in Gerontology and Global Health.

## PROFESSIONAL PROGRAM

### Physical Therapy – Doctor of Physical Therapy

The Physical Therapy Program at the University of Kentucky offers the professional (entry level) Doctor of Physical Therapy (DPT) degree. The program is offered at the Lexington campus and at the Center of Excellence in Rural Health campus in Hazard, Kentucky. Once accepted, the PT Program requires three successful years to completion (137 course credits) and results in the awarding of the DPT.

The PT Program has selective admissions. To be eligible for application, the student must complete a bachelor's degree prior to the start of the PT program, or complete (by no later than the end of the spring semester of application).

- Ninety semester hours working toward a degree;
- An overall GPA of  $\geq 3.2$ ;
- A science GPA and major course GPA of  $\geq 3.5$ ;
- A combined verbal and quantitative GRE score of 300 is recommended by the Physical Therapy Division.

For additional requirements for application, including the application form, go to:

[www.uky.edu/chs/pt](http://www.uky.edu/chs/pt).

For more information about the Physical Therapy Program at the Lexington campus, contact:

[www.uky.edu/chs/pt](http://www.uky.edu/chs/pt)

<http://ruralhealth.med.uky.edu/physical-therapy>

David A. Brennen, J.D., LL.M., is Dean of the College of Law; Douglas C. Michael, J.D., Richard C. Ausness, J.D., and Susan Bybee Steele, J.D., are Associate Deans; Daniel P. Murphy, J.D., David Wright, J.D., and Jason J. Hardin, J.D., are Assistant Deans.

Since its establishment in 1908, UK Law has provided programs of legal instruction, research, and service to the Commonwealth and to the bar. The College of Law program is designed so graduates can practice their profession on a local, regional, or national level. The College is accredited by all agencies which establish standards for law schools, including the Association of American Law Schools and the American Bar Association.

The program consists of a three-year general law curriculum designed to be completed in six semesters (or in five semesters and two summer sessions). The program is designed to assist students in acquiring the skills required for the solution of modern legal problems; gaining an appreciation for and understanding of the legal, social, and political institutions on which the administration of justice rests; and preparing for the policy and ethical decisions which must be made in practicing law.

## The Faculty

UK Law has a full-time faculty and staff composed of approximately 34 professors, 14 administrators, and 13 library and support personnel. They are assisted by a number of part-time and adjunct professors, as well as visiting professors.

## The Library

The Law Library contains the state's most comprehensive print collection of primary legal materials, as well as access to a growing list of premiere legal databases, including WestlawNext, Lexis Advance, Checkpoint, Making of Modern Law, and HeinOnline. In addition, there are reference services to provide students with assistance in identifying, locating, and using resources within the collection.

## The Law Building

The College of Law, centrally located on UK's main campus, is currently undergoing a renovation and expansion to deliver the most engaging legal education possible to students. The current building was constructed in 1965 and legal education has changed dramatically since it was built.

The building was not constructed for the type of interaction students and faculty expect and deserve today. In the renovated building, the number of classrooms will be increased and those classrooms will be equipped with improved acoustics, seats and technology. The renovated building will also increase the number of group study rooms, an important aspect to any 21st century legal education that was not taken into account 50 years ago. Current plans set the opening date at fall of 2019.

During construction, administrative space for staff and faculty is in a portion of the former Lexington Seminary Building (across the street from the current Law Building). Three classrooms exist in that space. Other classes are held in close proximity to the former Seminary building, primarily in Gatton College of Business & Economics.

## Other Facilities and Information
