Since 1913 the College has published the *Kentucky Law Journal (KLJ)*, a quarterly periodical and the tenth oldest American law review. This journal is published by a student staff, and election to the staff is based on high academic achievement and proven ability to write and conduct research. Each issue contains articles written by prominent national scholars and notes written by *KLJ* members encompassing a broad range of legal topics.

The student-run *Kentucky Journal of Equine, Agriculture & Natural Resources Law (KLEANRL)* has been published since 1984, originally as the *Journal of Mineral Law & Policy* and then *Journal of Natural Resources and Environmental Law*, and is a multi-disciplinary journal of law, science, and policy.

Instruction in legal research and writing is available to all students, not only in required courses designed for this purpose, but also in seminars, drafting projects, and opportunities for independent study.

Practical training in trial and appellate advocacy is provided in courses like litigation skills and clinical courses, as well as the co-curricular Moot Court Board and Trial Advocacy Board. Teams representing the College compete in annual competitions.

The College operates an externship program to provide students with a variety of clinical learning experiences. In 1997, the UK Legal Clinic opened, which gives students, under the supervision of the clinic's director, the opportunity to advise, counsel, and represent clients on a variety of civil legal matters.

## APPLICATION DEADLINES FOR COLLEGE OF LAW

### First-Year Students

#### Fall

March 31

### Transfer Students

#### Fall

June 1

#### Spring

Dec. 1

#### Summer

May 1

## REQUIREMENTS FOR ADMISSION

1. The UK Law application and \$50 application fee (paid by credit card) must be submitted online through the Law School Admission Council (LSAC) at [www.lsac.org](http://www.lsac.org).
2. Applicants must obtain a bachelor's degree from a fully accredited institution of higher learning prior to enrollment at UK Law. However, if the applicant is a student at the University of Kentucky and is enrolled in an approved Bachelor to Law Undergraduate Education (BLUE or 3+3) program, the applicant will be considered for admission without having a bachelor's degree at the time of enrollment. Transcript(s) should be submitted to LSAC's Credentials Assembly Service (CAS). Be sure to provide transcripts from all institutions from which you have received credits. CAS simplifies the admissions process by providing a centralized service to submit application materials. Applicants can register for CAS and the Law School Admission Test (LSAT) at the same time.
3. Applicants must take the LSAT. Registration and information for the LSAT are available from LSAC. The Admissions Committee will view all scores, but in most cases, will consider only the highest score. UK Law requires applicants to retake the LSAT if the most recent test was more than five years before expected enrollment.
4. Applicants must submit at least two (2) letters of recommendation from those with personal knowledge of the applicant's abilities and qualifications to study law. Letters of recommendation must be submitted through LSAC's Letter of Recommendation and Evaluation Service.

- Applicants must submit a personal statement in accordance with the instructions on the application. Applicants must write their statement using their own words and ideas. The personal statement will be used as a sample of their writing and for insight into their background, goals, and potential for enriching UK Law's academic environment.

### The Admission Process

The admission process at UK Law involves a "full-file review" of each application taking numerical, academic, and non-academic factors into account. The goal is to admit a talented and diverse student body that enhances the educational process. UK Law offers a full-time day program for entering students in the fall semester.

In measuring your academic potential, the Admissions Committee will begin with your cumulative undergraduate grade-point average (GPA) and your highest score on the LSAT. Additional academic factors that may be considered include: writing skills, trend of college grades, letters of recommendation, time between college and law school, performance of other students from your college, and course selection patterns. Nonacademic factors that the Admissions Committee may consider include: geographic and cultural diversity; achievements and leadership positions; and perseverance and accomplishment under adverse circumstances. However, your application must show evidence of your ability to succeed academically at UK Law before non-academic factors can play a role in the admission decision.

### Admission of Transfer Students

To be competitive, transfer applicants should have a 2.7 or higher GPA with at least 25 credit hours of law school work. The Admissions Committee will consider the applicant's law school record, as well as all factors the Committee considers in a first-year application.

### Procedure for Application

UK Law applications and application fees must be submitted online through LSAC at [www.lsac.org](http://www.lsac.org).

### Submission Dates and Deadlines

First-year applications are accepted beginning September 1 with an application deadline of March 31. Admissions decisions are made on a rolling basis. The Admissions Committee begins its evaluation of files in November, with the majority of decisions being made between January and April. Applicants will be notified of their application status as soon as possible after their file is reviewed by the Admissions Committee.

### College of Law Withdrawal Policy

All students enrolled at UK Law are expected to complete their degree requirements without interruption other than for regularly scheduled academic holidays. It is expected that students will complete all courses or seminars in which they are enrolled. Contact UK Law for complete information about rules specific to withdrawal.

### PRELEGAL STUDY

If you are already in college and are thinking about law school, do not worry if your major is not typically thought of in connection with law. Law schools accept students from practically every undergraduate major there is. Choose a major you enjoy and find interesting, since you will be more likely to succeed. In addition, if you decide not to attend law school, a background in something that you enjoy will allow for more options than a typical "law school" major might.

In college as much as in high school, taking classes that require you to write papers and have them critiqued by your teachers or peers is an invaluable experience. It is also a good idea to consider taking at least one course related to logic. Having classroom experience with logic fundamentals will likely make the logical reasoning – an infamous section of the LSAT – less difficult during your LSAT preparation.

Generally, starting to plan for the LSAT in your junior year will give you plenty of time to study, take the LSAT (in June after your junior year), and have time to retake the LSAT if desired. There is a great deal of information about the LSAT on LSAC's website.

In addition, it is never too early to start thinking about which faculty members you would like to ask for letters of recommendation. Letters of recommendation are a required part of many law school applications. The best letters of recommendation come from faculty who know you well, are familiar with your academic work, and can write about your performance as a student. Making an effort to get to know your professors early is not only a smart step toward law school, but will often lead to a greater understanding of the subjects they teach.

For additional information, students can find a variety of information on LSAC's website as well as the *LSAC Official Guide to ABA Approved Law Schools*. UK undergraduate students can also visit [www.as.uky.edu/pre-law](http://www.as.uky.edu/pre-law) for additional information on pre-professional advising.

### THE DEGREE OF JURIS DOCTOR

Students admitted to UK Law are eligible for the degree of Juris Doctor (J.D.) upon completion of a minimum of three academic years (six full-time semesters or the equivalent) and 90 credit hours of courses with at least a cumulative GPA of 2.0. All courses in the first year of law study are required, as well as a course in professional responsibility and an upper division writing course.

Because the study of law at UK is a full-time pursuit, all law students are expected to carry a full academic program (14-16 credit hours each semester). Second and third year students may work up to 20 hours per week.

To view the *UK Law Viewbook*, please visit: <http://law.uky.edu/admissions/viewbook>. For specific information about UK Law's academics and curriculum, please visit: <http://law.uky.edu/academics/academic-resources>. Prospective applicants can contact UK Law Admissions at 859-218-1699, or at:

[uklawadmissions@uky.edu](mailto:uklawadmissions@uky.edu).

*Christian M. M. Brady, D.Phil. (Oxon.) is the T.W. Lewis Dean of the Lewis Honors College.*

The Lewis Honors College at the University of Kentucky is integral to the University’s commitment to excellence in undergraduate education. Through its special curriculum and related academic activities, the College provides a challenging course of instruction for outstanding, highly motivated students.

The mission of the Lewis Honors College is to better the Commonwealth of Kentucky and the world by helping students to explore their purpose, develop intellectually, and lead with integrity.

### Selection of Honors Students

The Lewis Honors College seeks students with intellectual curiosity, demonstrated academic achievements, and leadership potential. Admission to Honors is competitive; students may apply as high school seniors or as current UK students. For those applying as incoming first-year students, they must complete the application through the University’s Office of Undergraduate Admission. The Admissions Committee considers all aspects of an applicant’s record, including the student’s GPA, the academic rigor of high school

courses, the quality of the essays, and extracurricular activities.

Entering students ideally have an outstanding high school grade-point average, having taken a challenging curriculum. The Admissions Committee places great weight on the strength of the application essays, as well as the evidence they provide of motivation to accept the challenges of Honors and contribute to the program.

Current students at UK (in their first or second year) or transfer students with one semester or more of academic study at a college or university (with at least four semesters remaining) may apply to the Lewis Honors College for Upper Level Admission (ULA). Applicants are asked to submit a copy of their college transcripts, an essay, and a writing sample, preferably discipline-specific. ULA applicants must demonstrate strong academic performance at the college level (preferably a 3.6 GPA or better).

### The Honors Curriculum

An Honors education at UK opens up an exciting world of inquiry, including research, education abroad, and service that will challenge students intellectually, provide access to the most creative minds at UK, and prepare participants

for advanced study and to make a difference in the world upon graduation. The Honors curriculum requires a total of 30 credit hours in Honors course work. This includes the required 3-credit Foundations course, participation in at least six credit hours of Honors Experiences (typically research, education abroad, internship/co-op, or service learning), an Honors Thesis (for 3-credits), and the student’s choice of Honors course work offered campus-wide to fulfill the educational goals of the Honors student.

### Program Requirements

UK students starting in Honors as first-year students must complete 30 credit hours in Honors courses, experiences, and an Honors Thesis.

### Six Credits of Required Courses

*CIS/WRD 112 Accelerated Composition and Communication II .....	3
HON 101 Knowledge and Society .....	3

*\*Students with credit for ENG 101 and 102 before attending UK, can also meet this requirement by taking an appropriate COM course.*

### Twelve Credits of Honors Courses

Students choose at least two lower-level Honors courses, 6 credits total:

HON 151 Honors in Humanities (Subtitle required) .....	3
--	---

HON 152 Honors in Natural, Physical, and Mathematical Sciences (Subtitle required) .....	3
HON 251 Honors in Social Sciences (Subtitle required) .....	3
HON 252 Honors in Arts and Creativity (Subtitle required) .....	3
or Honors courses/sections in existing UK courses .....	3

Students choose at least two upper-level Honors courses, 6 credits total:

HON 301 Proseminar .....	3
Honors courses/sections in existing UK courses .....	3
or a graduate course that meets the needs and interests of the student** .....	3

\*\*Must be approved by the Director of Academic Affairs.

**Three Credits of Honors Elective**

Any HON course or departmental Honors section

**Six Credits of Honors Experiences**

Students choose two or more experiences (may opt to do the same experience multiple times for a total of 6 credit hours):

- Education Abroad, HON 352 or equivalent
- Service Learning or Community Outreach, HON 399 or equivalent
- Honors Independent Work, HON 395 or equivalent
- Internships/Co-op Experiences, EXP 396 or equivalent

*HON 395 is an Undergraduate Research Experience. It is suggested that 3 credits of undergraduate research be devoted to preparation for the student's Honors Thesis course.*

**Honors Thesis**

HON 398 Senior Honors Capstone or college/departmental equivalent .....	3
---	---

Honors students must maintain a cumulative GPA of at least 3.4. Probationary status will be applied to Honors students falling below this threshold. Students who have not removed themselves from probationary status after two consecutive semesters with a cumulative GPA below 3.4 will be dismissed from the Honors College.

**SUGGESTED FOUR YEAR PLAN**

**First Year**

CIS/WRD 112 Accelerated Composition and Communication II .....	3
HON 101 Knowledge and Society .....	3
One lower-level Honors course .....	3
<b>Total</b> .....	<b>9</b>

**Second Year**

One lower-level Honors course .....	3
One Honors experience .....	3
<b>Total</b> .....	<b>6</b>

**Third Year**

Two upper-level honors courses .....	6
Honors elective .....	3
<b>Total</b> .....	<b>9</b>

**Fourth Year**

One Honors experience (focused on thesis topic) .....	3
HON 398 Senior Honors Capstone .....	3
<b>Total</b> .....	<b>6</b>

**TOTAL HOURS:** ..... **30**

**Starting as a Junior Honors Student**  
(4-5 semesters remaining)

**Six Credits of Required Courses**

HON 101 Knowledge and Society .....	3
HON 301 Proseminar .....	3

**Three Credits of Honors Electives**

Any HON course or departmental Honors section

**Three Credits of Honors Experiences**

- Education Abroad, HON 352 or equivalent
- Service Learning or Community Outreach, HON 399 or equivalent
- Honors Independent Work, HON 395 or equivalent
- Internships/Co-op Experiences, EXP 396 or equivalent

**Honors Thesis**

HON 398 Senior Honors Capstone or college/departmental equivalent .....	3
---	---

**Graduating with Honors**

To graduate with Honors from the Lewis Honors College and have the University Honors designation on the final UK transcript and diploma, students must complete the requirements described above.

**Special Opportunities**

Students in the Lewis Honors College have many opportunities, both in and out of the classroom, to develop and demonstrate academic excellence. The small class size and method of instruction in Honors courses foster active learning. Informal conferences, special speakers, trips, and workshops allow students to explore topics and issues not regularly considered within University departmental offerings.

Students in the program may elect to live in the "Honors Quad," which consists of Donovan, Johnson, Haggin, and Lewis Halls. Lewis and Donovan also have classrooms and offices. Lewis Hall is home to the Honors College's main offices, the Scholars Lounge, and the Honors Café.

Extensive inclusive programming engaging students socially and intellectually are offered throughout the year. The social, service, and cultural activities organized by and for Honors students include the Lewis Honors College Ambassador Team (HCATs), a highly active peer mentoring team, and an active Honors College Student Council. Students will be encouraged to develop a portfolio over the course of their Lewis Honors College journey. This product of work will allow students to make critical connections between their Honors and major course work, career endeavors, and personal development. Content will include personal reflections, examples of academic work, a resume or vita, and references. The portfolio will serve as a demonstration of each student's growth and accomplishments and can be shared with prospective graduate schools, employers, and professional organizations.

Honors students in good standing are eligible for a number of special grants and awards during and at the conclusion of their undergraduate career. These include grants to support independent research conducted in the U.S. or abroad and education abroad endeavors. Several awards are given to graduating students recognizing excellence in the various areas represented in our mission statement, service (Raymond Betts Crystal), research (Diachun Award), leadership, and academics (Evans Scholar and the Diachun Scholar).

**Benefits**

The greatest benefits Lewis Honors College students enjoy are intensified intellectual development and a heightened personal awareness of the individual's place in their culture. It is a shared experience enabling students to develop close personal connections to their peers through residential living-learning opportunities and the many programs and activities of the Honors College, and to the Honors faculty and staff dedicated to mentoring their growth as passionate scholars, public intellectuals, and engaged citizens of their communities.

**How to Apply**

For admission as a first-year student, please visit [www.uky.edu/honors/admissions](http://www.uky.edu/honors/admissions) or contact the Director of Recruitment. The application deadline for first-year admission is **December 1**.

For Upper Level Admissions, please visit [www.uky.edu/honors/upper-level-admission](http://www.uky.edu/honors/upper-level-admission) or contact the Director of Academic Affairs. The application deadline for Upper Level Admissions is **December 1** and **April 1**.

**Lewis Honors College**

*Robert DiPaola, M.D., is Dean of the College of Medicine.*

The College of Medicine offers a four-year curriculum leading to a degree of Doctor of Medicine (M.D.).

A curriculum in medicine has been part of the University of Kentucky since 1960. The College of Medicine is responsible for providing its students with training in related basic sciences and in the clinical experience under supervision in the University of Kentucky Hospital and other affiliated facilities.

As part of the Medical Center – which also includes the University of Kentucky Hospital and the Colleges of Dentistry, Health Sciences, Nursing, Pharmacy, and Public Health – the College of Medicine strives for programs of the highest possible quality. This means selecting the best possible student body, creating an environment which fosters learning, investigation, and clinical excellence, and acquiring and keeping talented faculty and administrative staffs.

## ACADEMIC PREPARATION FOR THE STUDY OF MEDICINE

Medical science and practice involve complex relationships between physical, biological, psychological, cultural, and environmental aspects of human behavior. In the preparation for medical school, fundamental undergraduate college training in biology, chemistry, physics and English is essential. Minimal requirements are satisfied with the equivalent of two semesters of studies in physics; two semesters in the biological sciences; four semesters in chemistry, including organic chemistry and biochemistry; and at least one year of English with emphasis on communication skills such as reading, writing, and speaking.

In addition, we strongly recommend that prospective applicants complete a course in cell biology, statistics, psychology, and sociology. Students are encouraged to follow special interests which they may have in philosophy, psychology, literature, social sciences, or the fine arts.

Students are urged to demonstrate a capacity for advanced work through concentrated study of at least one subject in a major area by completing courses beyond the introductory level.

## REQUIREMENTS FOR ADMISSION

Applicants for admission to the College of Medicine M.D. program, in addition to meeting general University requirements, must meet the prerequisite requirements of the College of Medicine and be accepted by the College of Medicine

Admissions Committee. Applicants will be required to have taken the Medical College of Medicine Admission Test (MCAT) and are encouraged to have completed a baccalaureate degree program at an accredited college or university.

## SELECTION CRITERIA

In admitting students to the College of Medicine, the University endeavors to select students who show promise of becoming excellent future physicians. Applicants are judged on the basis of their total qualifications and in comparison with other applicants.

As a state-supported school, the College of Medicine gives preference to qualified residents of Kentucky. Although well-qualified nonresidents may apply, preference is given to candidates with Kentucky ties.

Selection from among applicants who meet the general premedical educational requirements of the College of Medicine is based on a number of criteria. A high level of academic performance at the undergraduate level is extremely important. It is recognized, however, that a meaningful evaluation of student performance must consider many factors in addition to grades. For example, exposure to the health care profession is considered essential.

The Medical College Admission Test (MCAT) is used to assess scholastic aptitude.

Since the practice of medicine involves the physician in continual relationships with people – with patients, and with other members of the health care team – applicants are also judged according to premedical evaluations, the degree of their participation in campus and community activities and organizations, and the personal characteristics that they demonstrate. Friendliness, compassion, integrity, professionalism, and commitment are all essential traits of the physician.

Often the physician's ability to communicate effectively will determine the degree of success in the diagnosis and management of a patient's medical condition and in other professional activities. Thus, consideration is given to the communication skills demonstrated by each applicant. Communication is bidirectional and involves the ability to listen perceptively, as well as to speak and write clearly.

Because the practice of medicine and the life of the medical student require a great investment of effort and demand both time and energy, it is essential that a prospective medical student meet the Technical Standards of the College of Medi-

cine detailed online at: <https://meded.med.uky.edu/medical-education-technical-standards>. Further, prospective applicants should be able to demonstrate that their motivation to study medicine is sufficiently strong to sustain him or her in the face of difficulties. Accepted applicants are subject to a criminal background check prior to matriculation.

## STUDENT PROGRESS

The Student Progress and Promotions Committee is charged with monitoring student progress through the curriculum. The committee regularly reviews each student's performance and makes recommendations on such actions as graduation, promotion, remediation, dismissal, and leaves of absence. Final authority on all matters of student progress and promotion is vested in the Dean of the College of Medicine.

Students are responsible for conforming to all rules and regulations specified by the *Behavioral Standards in Patient Care, Health Science Student Professional Behavior Code*, the College of Medicine Honor Code, the "Technical Standards Related to Applicant Admission and Student Performance" detailed online at: <https://meded.med.uky.edu/medical-education-technical-standards>, the academic standards established in the Student Promotion rules, and the Code of Student Rights and Responsibilities for all University of Kentucky students.

## COURSE DESCRIPTIONS

Course listings for the College of Medicine may be found at: <http://meded.med.uky.edu/curriculum-overview>.

For specific information about programs in the College of Medicine, students should refer to *The Graduate School Bulletin* or the *College of Medicine Bulletin*.

## COMBINED MEDICAL AND GRADUATE STUDIES

Students have the opportunity to pursue the M.D./M.B.A. and the M.D./M.P.H.

## Minor in Pharmacology

The minor in Pharmacology is designed to prepare graduates to enter agricultural, medical, dental, veterinary, nursing, medical technology and other health related professions. Regardless of their degree and career choices, the completion of this minor will prepare students to navigate the medical choices that lie before us all. It will also offer students a unique opportunity to discover how drugs work and how they are developed and used.

### Admission

Students will be admitted into the program when they declare Pharmacology as their minor and upon completion of the preminor courses with a cumulative GPA of 2.0 and award of a grade of C or higher in the minor prerequisites (see Minor Prerequisites below). Requests to waive any prerequisite must be made in writing to the Director of Undergraduate Studies. Students will be advised under their majors.

### Minor Prerequisites

BIO 148 Introductory Biology I ..... 3

plus 4 credits from either:

PGY 206 Elementary Physiology

and

PGY 207 Case Studies in Physiology ..... 4

or

BIO 350 Animal Physiology ..... 4

### Minor Requirements

PHA 200 Pharmacology: Drugs and Human Health ..... 3

PHA 421G Pharmacology:

Principles of Drug Action ..... 3

### Minor Electives

9 credits must be completed from any combination of electives below. **NOTE:** Although not needed for the minor, PHA 421G, 422G, 423G, 424G and 425G will all be able to be taken for graduate (G) credit:

PHA 422G Pharmacology of

Treating Human Disease ..... 3

PHA 423G Exploring the Dark Side of Medicine ..... 3

PHA 424G Pharmacology of Human Endocrinology

and Reproduction ..... 3

PHA 425G Neuropharmacology: Treating

Disorders of the Brain ..... 3

PSY 459 Neuropharmacology: Drugs and Behavior ..... 3

## Undergraduate Certificate in Medical Behavioral Science

The 12 credit hour undergraduate certificate in Medical Behavioral Science is designed to complement the university's rigorous pre-medical curriculum, which currently includes courses in biology, chemistry, physics, and English. The certificate consists of three sequential courses and a cross-disciplinary elective. The courses are uniquely focused on synthesizing the psychological, social, and biological dimensions of health outcomes and behavior.

The course objectives are aligned with the new Behavioral Science section of the Medical College Admissions Test (MCAT) and with Introduction to Clinical Medicine, the University of Kentucky's mandatory Behavioral Science course for first-year medical students.

The certificate is designed to provide students with an in-depth study of Medical Behavioral Science concepts; offer experiential learning activities such as conducting health needs assessments and taking part in supervised shadowing placements; and prepare students for successfully managing the both the intellectual and interpersonal demands of medical training.

### Required Courses

BSC 152 You, Me, Myself, and I:

Psychosocial Influences on Health ..... 3

BSC 251 The Enemy Within:

Culture and Health Behavior ..... 3

BSC 301 Doctoring Undercover:

Shadowing and the Culture of Medicine ..... 3

In addition, students must complete one of the elective courses below:

ANT 333 Contemporary Human Variation ..... 3

ANT 429 Survey of Medical Anthropology ..... 3

BIO 302 Introduction to Neuroscience ..... 3

BIO 375 Behavioral Ecology and Sociobiology ..... 3

SOC 255 Medicine, Health, and Society ..... 3

SOC 355 Sociology of Health and Illness ..... 3

other relevant 3-credit courses may be counted for the elective credit with the review and approval of the certificate director

Janie Heath, PhD, APRN-BC, FAAN, FNAP, FAANP, Dean and Warwick Professor of Nursing. Terry A. Lennie, PhD, RN, FAHA, FAAN, Senior Associate Dean. Kristin Ashford, PhD, APRN, WHNP-BC, FAAN, Associate Dean of Undergraduate Faculty & Interprofessional Education Affairs and Professor. Sheila Melander, PhD, APRN, ACNP-BC, FCCM, FAANP, FAAN, Associate Dean of MSN & DNP Faculty & Practice Affairs. Thomas H. Kelly, PhD, Associate Dean for Research.

## Accreditation

The College of Nursing has had continuous accreditation since 1967. The baccalaureate degree curriculum offered by the College of Nursing is accredited by the Commission on Collegiate Nursing Education and approved by the Kentucky Board of Nursing.

## Undergraduate Program in Nursing

The University of Kentucky grants the following degree in the College of Nursing:

- Bachelor of Science in Nursing

## ADMISSION REQUIREMENTS

The College of Nursing enrollment is composed of four-year students, associate degree nursing graduates, and diploma nursing school graduates. Admission to the University does not guarantee admission to the College of Nursing. Preference is given to Kentucky residents.

Applicants must be in a state of good health enabling them to carry out the functions of the professional nurse. Routinely, each student will be required to obtain a rubella and rubeola titers, hepatitis B immunizations, and have an annual tuberculin test or chest x-ray. (Other immunizations may be required. Check with the College of Nursing for a current list.)

The University of Kentucky will consider for admission any applicant who demonstrates the ability to perform or to learn to perform the skills listed below. Applicants are *not* required to disclose the nature of any disability, but an applicant with questions about these technical requirements is strongly encouraged to discuss the issue with the dean for the particular program of study. If appropriate, and upon the request of the applicant, student or faculty, reasonable accommodations for a disability will be provided.

Students must possess aptitude, abilities, and skills in five areas:

- observation;
- communication;
- sensory and motor coordination and function;

- conceptualization, integration, and quantification; and,
- behavioral and social skills, abilities and aptitude.

Full details on these standards are available by contacting the College of Nursing.

Progression to upper-division is regulated so that the total number of full-time equivalents at the beginning of the junior year does not exceed 120.

## Admission Criteria

Criteria for admission to the 4-year B.S.N. program include:

### 1. Freshman Student:

Students will be admitted as freshmen to a **pre-nursing** curriculum based on the following criteria:

- a) high school grade-point average of 3.25 (unweighted) or above on a 4.0 scale and a minimum of 22 ACT composite, with a minimum of 19 ACT math score;
- b) meeting criteria for selective admission to the University of Kentucky (see the *Undergraduate Admission* section of this Bulletin for more information).

**Consideration for Nursing** program will occur at the sophomore level for all students based on the following criteria:

- a) a minimum cumulative and science grade-point average of 3.0;
- b) a grade of **C** or better in all required pre-nursing courses;
- c) completion of the UK College of Nursing approved Medicaid Nurse Aide training program;
- d) the Internet-based TOEFL is required of all applicants whose *first or primary language* is other than English. Minimum cumulative score of 90; and at least minimum individual scores of 26 in speaking, 22 in listening, 20 in writing and 22 in reading.

In addition, any or all of the following information may be requested as part of the application:

- e) a writing exercise based on the criteria established by the College of Nursing;
- f) two letters of reference from individuals who can assess potential for success (e.g., teacher, employer).
- g) an interview with members of the Admissions and Progression Committee, or their designees.

## APPLICATION DEADLINE FOR COLLEGE OF NURSING

### Traditional B.S.N. Program

**March 1** for fall semester

**October 15** for spring semester

### Second Degree Program

**March 1** for fall semester

**August 15** for spring semester

### R.N.-B.S.N. Program

**May 1** for fall semester

**October 15** for spring semester

### D.N.P. Program

**January 15**

## Early Admission

Early provisional admission to the Professional Nursing Curriculum will be granted to graduating high school seniors who meet the criteria of a high school GPA of 3.6 or higher (unweighted). ACT composite of 28 or higher (or the equivalent SAT combined score). Students will be required to maintain a 3.6 GPA in each semester *in their first year at UK* and a 3.6 GPA in science to retain guaranteed admission to the professional level.

Students who meet the early admission requirements will be granted full admission to the Professional Nursing program in either the fall or spring of the student's sophomore year. Students who do not meet the requirements will be considered with other applicants who meet admission criteria, following completion of program prerequisites.

### 2. Transfer Student:

- a) **for transfer students with less than 24 hours of college credit**, meeting the criteria for entering freshmen and a minimum grade-point average of 3.0 on all college work attempted as computed by the Office of Admissions;
- b) **for transfer students with more than 24 hours of college credit**, maintaining grade-point average of 3.0 on all college work attempted, and a minimum cumulative grade-

Seeking licensure as a Registered Nurse requires that applicants have no criminal history. In Kentucky, applicants who are convicted felons may be denied licensure. Cases are reviewed individually, upon application. Additionally, some clinical agencies require criminal background checks and drug screening for students who might be placed there for a learning activity. The agency reserves the right to deny a student permission to meet clients, based on the results of the criminal background check.

If you have a criminal history, we urge you to contact the board of nursing in any state where you may seek licensure prior to enrolling in a nursing program. The regulations vary from state to state.

point average of 2.75 in science courses, as computed by the Office of Admissions;

- c) for applicants whose *first or primary language* is not English, a minimum TOEFL score of 90, with minimum scores of 26 in speaking, 22 in listening, 20 in writing and 22 in reading;
- d) grades of **C** or better in all courses required for CON curriculum;

In addition, any or all of the following information may be requested as part of the application:

- e) a writing exercise based on the criteria established by the College of Nursing;
- f) two letters of reference from individuals who can assess potential for success (e.g., teacher, employer). Reference forms are available by calling 859-323-5108.
- g) completion of an approved Medicaid Nurse Aide training program;
- h) an interview with members of the Admission and Progression Committee or their designees.

**3. Students will be eligible to apply for readmission** to the College of Nursing after suspension from the College when they meet criteria as stated in **Section 2 a** and **b** of this policy.

**4. A student who is a registered nurse** will be considered for admission to **upper-division** courses in the UK Professional Nursing program based on the following criteria:

- a)
  - i. **For Associate Degree Nurses:**  
The registered nurse with an associate degree in nursing from a college accredited by one of the six regional academic accrediting associations will be considered for admission with a minimum GPA of 2.5 on a scale of 4.0 in all course work attempted as computed by the Office of Admissions. **NOTE: R.N. licensure is required to progress**

**to the second semester of the curriculum or prior to beginning clinical experiences.**

- ii. **For Diploma Prepared Nurses:**  
**Registered nurses** who graduate from a diploma program will be considered for admission after earning a minimum of 60 college credits from a regionally accredited college with a 2.5 minimum GPA which include:
  - English – 6 semester credits
  - Natural Sciences – 6 semester credits
  - Social Sciences – 6 semester credits
  - Humanities – 6 semester credits
  - Nursing\* – 28 semester credits

\*Nursing credits may be earned from regionally accredited colleges by taking the courses or by submission of a portfolio of R.N. licensure and experience to the R.N.-B.S.N. Option Coordinator.

All nursing courses taken in associate degree or diploma programs are considered lower-division courses and are not equivalent to upper-division courses in this program. The applicant must have at least a GPA of 2.5 on a scale of 4.0 in all college course work attempted as computed by the Office of Admissions.

- b) a statement of academic and professional goals.
- c) two letters of reference from individuals who can assess potential for success (e.g., teacher, employer).

iii. **For Registered Nurses who received their nursing education abroad and are licensed to practice nursing in the State of Kentucky:**

Registered nurses who received their nursing education abroad and are licensed to practice nursing in the State of Kentucky will be considered for admission after earning/transferring in a minimum of 60 college credits with a 2.5 minimum GPA. These courses should include:

- English – 6 semester credits
- Natural Sciences – 6 semester credits
- Social Sciences – 6 semester credits
- Humanities – 6 semester credits
- Nursing\* – 28 semester credits

\*Nursing credits may be earned from regionally accredited colleges by taking the courses or by submission of a portfolio of R.N. licensure and experience to the R.N.-B.S.N. Option Coordinator.

### Application Deadline

The application deadline is **May 1** for the fall semester, and **October 15** for the spring semester.

### Application for Admission

All applications and transcripts for admission must be submitted to the Office of Admissions according to the deadlines listed in the box above. Transfer applicants will be evaluated for fall and spring admission, according to the deadlines listed. Those accepted for admission must notify the college within 30 days, in writing, of their intent to enroll. Late applicants will be considered for admission on a space-available basis.

### Part-Time Study

The traditional and accelerated nursing curricula were designed with co-requisites and courses taken in sequence. Therefore, students will be admitted to these options with the expectation that they will follow the prescribed nursing curriculum. R.N. students who are working toward the completion of the B.S.N. degree on a part-time basis must plan a course of study with the appropriate College of Nursing personnel or committee and may not alter that plan without prior approval from the College of Nursing.

Candidates for the degree who do not complete all requirements within a seven-year period (five years for R.N. students) after admission will have their records reevaluated and may be required to repeat or take selected courses.

### Financial Aid

The college has scholarships designated for Nursing students. Inquiries should be directed to the Office of Student Services, College of Nursing.

Students may also wish to pursue funds available through hospitals and other agencies that offer financial assistance in return for a work commitment.

### Academic Advising

Students who are admitted to the College of Nursing are assigned to an advisor within the college. Curriculum plans are determined in the first semester of enrollment in the college and updated each semester. Questions regarding progression through the program may be directed to the Office of Student Services, College of Nursing.

## DEGREE REQUIREMENTS

## BACHELOR OF SCIENCE IN NURSING

To obtain a Bachelor of Science in Nursing, students must satisfy the University requirements for graduation, including the UK Core requirements, and obtain a 2.0 grade-point average in nursing in the courses listed below. A grade of C or better must be attained in all courses required in the nursing curriculum in order to proceed to the next clinical course or to graduate. A minimum of 120 credit hours is required for graduation.

## UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

## I. Intellectual Inquiry in Arts and Creativity

**Curriculum Policies**

Students are expected to be familiar with the requirements for the degree of Bachelor of Science in Nursing and to confer with advisors in the College of Nursing when selecting courses.

Since the health needs of the nation are constantly changing, an effective curriculum requires continuous review and evaluation, which may necessitate revision of courses and requirements. Thus, there can be no guarantee that course content will be identical in each subsequent academic year. Furthermore, to continue to meet the changing emphasis in nursing education, some courses will require educational experiences for students in community facilities outside of Lexington.

## ACCELERATED BACHELOR OF SCIENCE IN NURSING

**Prerequisites for A.B.S.N. Degree**

The admission requirements/prerequisites include:

- Completion of all UK Core; 2nd degree students meet this requirement by virtue of the first degree
- Foreign Language Requirement – 2 years in high school or one year in college of same language

**Graduate Study**

The Doctor of Nursing Practice (D.N.P.) program is a professional clinical doctorate program which focuses on development of advanced competencies for complex practice, and research utilization for the improvement of clinical care delivery, patient outcomes, and system management. Graduates will be expert in designing, implementing, managing, and evaluating health care delivery systems and will be prepared to lead at the highest clinical and executive ranks.

There are two entry points to the D.N.P. program: the post-Master of Science in Nursing (M.S.N.) entry option for those with an awarded master’s degree in nursing that are already prepared in the role of an advanced practice nurse; and the post-Baccalaureate of Science in Nursing (B.S.N.) entry option. This option builds on the B.S.N. degree and prepares individuals for an APRN role. Both options culminate with the D.N.P. degree.

**Application Deadline**

Application materials are due by **January 15** for fall admission. Applications received after this date will be considered if space is available. For additional requirements for application, including the application forms, go to [www.uky.edu/nursing/](http://www.uky.edu/nursing/).

**Post M.S.N. - D.N.P. in Nursing**

Graduates of the post-M.S.N. -D.N.P. option are expected to be experts in designing, implementing, managing and evaluating healthcare delivery systems. Simultaneously, they will know how to manage the complex balance between quality of care, access and fiscal responsibilities. Individuals have the option of a Clinical Leadership focus or an Executive Leadership option.

**Admission Criteria**

- Graduate grade-point average of 3.3 on a 4.0 grading scale
- Master’s degree in nursing from a nationally accredited program
- Goal Statement: In one to three double-spaced pages, discuss your reasons for seeking doctoral study, including your short- and long-term professional goals. Discuss a system or population you are interested in working with and identify/discuss a system or health problem in that population that you wish to study as a practice inquiry project.

- An example of scholarly written work, completed within two years of application, related to nursing that demonstrates excellent writing skills and the ability to communicate clearly and logically. Samples of scholarly work: formal research paper written in M.S.N. program; published article on a nursing issue; or paper written on nursing issue of interest to applicant
- Three references attesting to the applicants’ expertise in nursing or health care. Faculty prefer professional references from nursing faculty advisor if available or a nursing faculty member who knows the applicant, one from a doctorally prepared Registered Nurse, and no more than one from peer.
- Unencumbered licensure to practice in Kentucky or in the state in which clinicals will occur (prerequisite to clinical experience)
- Interview(s) with D.N.P. faculty
- A minimum of 460 clinical practice hours from a formal graduate program and certification as applicable. (Applicants who cannot demonstrate a minimum of 460 clinical clock hours of practice will be expected to complete clinical course work beyond the proposed curriculum.)
- Current vita

## Post B.S.N. - D.N.P. in Nursing

The post-BSN entry option builds on a student's undergraduate degree and experience as a registered nurse and prepares the individual for the advanced practice registered nurse role in a chosen specialty. Direct care specialties include: Adult-Gerontology Acute Care Nurse Practitioner, Family Nurse Practitioner, Pediatric Acute Care Nurse Practitioner, Pediatric Primary Care Nurse Practitioner, and Psychiatric-Mental Health Nurse Practitioner. Non-direct care specialty: Executive Leadership in Health Care. Required credit hours vary by specialty. Students apply to and are admitted to a particular specialty. Admission decisions are made on a competitive basis by specialty.

### Admission Criteria

- Undergraduate grade-point average of 3.3 on a 4.0 grading scale
- Three references (forms provided) attesting to the applicants' expertise in nursing or health care. Faculty prefer professional references from nursing faculty advisor if available or a nursing faculty member who knows the applicant, one from a doctorally prepared Registered Nurse, and no more than one from peer.
- Personal interview(s)
- Unencumbered licensure as a registered nurse in the state in which clinicals will occur (prerequisite to clinical experience)
- Clinical nursing experience prior to the first D.N.P. clinical course
- Goal Statement: In one to three double-spaced pages, discuss your reasons for seeking doctoral study, including your short- and long-term professional goals. Discuss a system or population you are interested in working with and identify/discuss a system or health problem in that population that you wish to study as a practice inquiry project.
- An example of scholarly written work, completed within two years of application, related to nursing that demonstrates excellent writing skills and the ability to communicate clearly and logically. Samples of scholarly work: formal research paper written in B.S.N. program; published article on a nursing issue; or paper written on nursing issue of interest to applicant.

## Post Graduate Certificate Option

The primary objective of this option is to prepare advanced practice registered nurses for national certification eligibility and licensure in a new or additional specialty area of practice through a formal, organized curriculum that focuses on specialty courses in the students' area of interest. Post-Master of Science in Nursing, post-Doctor of Philosophy in Nursing and post-Doctor of Nursing Practice individuals are eligible to apply.

Students enrolled in this option are assessed the professional doctoral tuition and fee rates.

### Specialties Available for the Certificate Option

- Adult Gerontology Acute Care Nurse Practitioner
- Family Nurse Practitioner
- Psychiatric Mental Health Nurse Practitioner\*
- Pediatric Acute Care Nurse Practitioner\*
- Pediatric Primary Care Nurse Practitioner\*
- Executive Nursing Leadership

\*The specialty course sequence for these specialties is offered every OTHER year.

### Application Deadline

Application materials are due by **January 15**. Applications received after this date will be considered if space is available. Admission decisions are made on a competitive basis. Requirements and forms are available at: [www.uknursing.uky.edu](http://www.uknursing.uky.edu)

### Admission Criteria

- Master of Science or doctoral degree in nursing. Doctoral degree preferred.
- Completed application to the UK College of Nursing Certificate Option.
- Minimum score of 550 (or 213 on computer-based test, or 79 on iBT) on Test of English as a Foreign Language (TOEFL) for all applicants whose native language is not English.
- Unencumbered registered nurse licensure in the state where clinical work will take place.
- Two references, one of which must be from your current supervisor, the other from your master's or doctoral degree program advisor preferred, or other nursing faculty member.
- Interview(s) with graduate faculty member(s).

Admission to the certificate option is made on a competitive, space-available basis.

*R. Kiplin Guy, Ph.D., is Dean of the College of Pharmacy.*

The College of Pharmacy offers a professional degree program, a four year curriculum leading to the Doctor of Pharmacy (PharmD). The PharmD degree allows one to sit for the national licensing exam to become a licensed, practicing pharmacist. The College of Pharmacy also offers training for postdoctoral and research fellows, residency programs and graduate training (Ph.D.) in all areas of the pharmaceutical sciences and in pharmaceutical outcomes and policy through the Graduate School. The professional program is fully accredited by the Accreditation Council for Pharmacy Education and satisfies all educational requirements for licensure. Residency programs are accredited by the American Society of Health-System Pharmacists (ASHP).

## ADMISSIONS OVERVIEW – PharmD PROGRAM

The College of Pharmacy’s primary mission is to develop pharmacy practitioners and research scholars to improve patient outcomes and human health. The College recognizes that a geographically and culturally diverse student body contributes to more robust exchange of creative ideas and experiences, one that benefits all students. The UK College of Pharmacy, therefore, strives to admit a talented and diverse student body that enhances the educational process while serving the needs of the Commonwealth and the pharmacy profession.

Admission to the professional program is competitive. The number of students admitted to the Doctor of Pharmacy program depends upon the availability of resources such as faculty, clinical facilities and space for implementation of a quality educational program. Consideration for admission will be based on a holistic review of the applicant’s previous academic record, potential for academic achievement, assessment of communication skills, contribution to diversity, integrity, commitment, motivation, character, maturity and emotional stability. Each applicant must have the physical, mental and emotional ability to learn and accomplish those competencies required of a pharmacy practitioner, as well as the character and thought processes necessary to make professional judgments that benefit the patient.

The Admissions Committee believes the applicant should base a decision to enter the pharmacy profession on more solid reasoning than merely an interest in science courses. The applicant should research opportunities available to pharmacy

graduates, services provided by pharmacists and obligations of pharmacy practitioners to the people they serve.

Work experience is not a requirement for admission. However, applicants are strongly advised to shadow a pharmacist and volunteer in a pharmacy or health care environment prior to entering a pharmacy program. Students who have prior work, shadowing or volunteer experience in a pharmacy setting generally enhance their performance during the admissions interview process and in the PharmD program if later admitted.

The Admissions Committee cannot consider applications from students in other colleges of pharmacy when the applicant has previously been denied admission to the UK professional program or when the maximum number of students is already enrolled in the program.

Individuals who have been dropped for academic or other reasons applying for reinstatement in the College will have their application considered, but on a competitive basis with new applicants. Students applying for admission should be able to meet the technical standards for students in the College. These standards should be reviewed in the College Bulletin, under “Academic Progress and Promotion.”

Any student may be denied admission or permission to continue enrollment in the College of Pharmacy if, in the opinion of the faculty, the moral or ethical character of the student casts grave doubts upon his or her potential capabilities as a pharmacist. Any type of involvement in the illegal use of drugs or other illegal or unethical acts relating to the practice of pharmacy are examples of incidents which would provide cause for considering denying admission or for dismissal of a student from the College.

## ACADEMIC PREPARATION – PharmD ADMISSION REQUIREMENTS

A minimum of 70 semester credit hours of prepharmacy course work is required for admission. Approximately 45-55 of those hours are in required subjects; the remaining credit hours can be elective courses of the student’s choice. Students are encouraged to take elective courses that satisfy their major requirements. Highly recommended electives include biochemistry, genetics, and physics. Other electives to consider: courses required by major; UK Core courses; PharmD Dual Degree prerequisites (if needed); medical terminology; healthcare-related courses; under-

graduate courses in Human Health Sciences (HHS), Public Health (CPH), Clinical Leadership and Management (CLM).

Prepharmacy courses should be completed by the end of the spring semester prior to the desired fall enrollment. If admitted, a student may petition the Admissions Committee to determine if a prerequisite may be completed during the summer prior to College of Pharmacy matriculation. See the chart on page 313 for the number of semester credit hours required in each prepharmacy subject area and the exact courses as offered at UK. Students may complete the prepharmacy course work at any regionally-accredited college or university.

### English Requirement for Students Interested in Pharmacy

UK students must take courses which satisfy the Composition and Communications I and II requirements. Non-UK students must take two semesters of English writing/composition and one semester of basic public speaking.

### PharmD Admission Requirements: Suggested Prepharmacy Schedule

Below is a suggested three-year schedule for UK students on a prepharmacy track. For a two-year, more aggressive prepharmacy schedule, contact the Prepharmacy Advisor at: [pharmacyadvising@uky.edu](mailto:pharmacyadvising@uky.edu).

#### FIRST PREPHARMACY YEAR

##### Fall Semester

MA 109 College Algebra .....	3
CHE 105 General College Chemistry I .....	4
CHE 111 General Chemistry I Laboratory .....	1
CIS/WRD 110 Composition and Communication I .....	3
UK 101 Academic Orientation .....	1-2
Elective .....	3
TOTAL .....	15-16

##### Spring Semester

MA 123 Elementary Calculus and Its Applications .....	4
CHE 107 General College Chemistry II .....	3
CHE 113 General Chemistry II Laboratory .....	2
CIS/WRD 111 Composition and Communication II .....	3
Elective .....	3
TOTAL .....	15

#### SECOND PREPHARMACY YEAR

##### Fall Semester

CHE 230 Organic Chemistry I .....	3
CHE 231 Organic Chemistry Laboratory I .....	1
BIO 148 Introductory Biology I .....	3
BIO 155 Introductory Biology I Laboratory .....	1
STA 296 Statistical Methods and Motivations .....	3
Elective .....	3
TOTAL .....	14

**Spring Semester**

CHE 232 Organic Chemistry II .....	3
CHE 233 Organic Chemistry Laboratory II .....	1
ANA 209 Principles of Human Anatomy .....	3
Electives .....	6
TOTAL .....	13

**THIRD PREPHARMACY YEAR****Fall Semester**

PGY 206 Elementary Physiology .....	3
BIO 208 Principles of Microbiology .....	3
BIO 209 Introductory Microbiology Laboratory .....	2
Electives .....	6
TOTAL .....	14

**Spring Semester**

*Business .....	3
Electives .....	12
TOTAL .....	15

\*The Business requirement may be satisfied by taking one semester of any of the following: principles of microeconomics, principles of macroeconomics, financial accounting I, financial accounting II (ECO 201, ECO 202, ACC 201, or ACC 202).

**Grades**

**Grades:** Please note that a grade of **D** is not acceptable in any required prepharmacy course. Applicants should repeat such courses to receive a **C** average or better to improve their chances for admission. Most applicants are still completing prepharmacy courses when admission decisions are made. Acceptance is contingent upon continued strong academic performance. Any decline in academic performance, failure to complete the required courses, or a relevant change in status may result in an offer of admission being rescinded. If a grade of **D** or lower is earned in any required course after an offer of conditional admission has been made, the student must notify the Director of Enrollment Management immediately.

**Pharmacy College Admission Test (PCAT)**

Pending final approval by the University Senate, the UK College of Pharmacy will no longer require the PCAT for admission to the Doctor of Pharmacy (PharmD) program.

**Structured Admissions Interview**

To be considered for admission, applicants must be selected for and complete a structured interview process. Interview selection is based on information submitted during the application process. The interview itself is structured to assess the applicant's communication skills, confidence, integrity, maturity, commitment to the field of pharmacy, motivation, character and ability to interact with others. Students selected for an interview can expect to spend about four hours interviewing. The interview is structured to follow the style of the multiple mini interview (MMI). Students will be interviewed by faculty, practitioners and current students in the format of both individual interviews and collaborative scenarios with other interviewees.

**Note:** Interview dates for each admission cycle are set in early summer by the College of Pharmacy Admissions Office (dates may vary annually; it is strongly suggested that candidates

apply by **August 5** for maximum consideration). Applicants are strongly encouraged to begin the application process 13 months (July) in advance of intended start date or as soon as possible thereafter due to a rolling admissions process.

**Rolling Admissions Process/ Application Timelines**

**Rolling Admissions:** Please note that the UK College of Pharmacy uses a rolling admissions process. The College screens applications, schedules interviews and makes acceptance decisions on a continual basis, which makes it necessary to complete the application process as early in the admissions cycle as possible. Review of applications specifically begins with Early Decision in late August/early September.

**Early Decision (ED):** Applicants are strongly encouraged to apply by **August 5** for Early Decision consideration. Many positions in the class will be filled through the ED process which will limit the number of seats available through Regular Decision. Early Decision applications receive maximum consideration.

**Required Admission Applications, Documents and Verification Process**

1. PharmCAS Online Application – [www.pharmcas.com](http://www.pharmcas.com) (opens July 18, 2019), including “Program Materials” and all sections required by UK College of Pharmacy as indicated in the PharmCAS application.
2. UK College of Pharmacy Application Fee – [pharmacy.uky.edu/pharmd-admission-steps](http://pharmacy.uky.edu/pharmd-admission-steps).

**Note:** Deadlines for receipt of application materials may vary annually depending on PharmCAS requirements. For the most current listings of application deadlines and procedures, review both the PharmCAS and UK College of Pharmacy websites in June, approximately 14-months prior to intended start date.

**Admission Committee Decisions/ Conditional Acceptance**

The Admissions Committee convenes and admission decisions are made at the conclusion of each round of interviews. Selected candidates are then “conditionally accepted” based on a holistic review of GPA (weighing the science GPA most heavily), interview performance, references, leadership/volunteer/service activities, written essays, character, contribution to diversity and an assessment of other characteristics as described under “Admissions Overview.” The total number of students admitted each year will depend upon the availability of resources.

*All acceptances remain conditional until final matriculation and fall enrollment in classes.*

**Final Matriculation/Fall Enrollment Requirements**

Before final matriculation and fall enrollment can be approved, all conditionally accepted students must submit a non-refundable tuition de-

posit, signed copies of specified acceptance forms, pass a criminal background check/drug screen with acceptable results, attend orientation programs and meet other enrollment requirements as set forth by the College prior to the first day of classes.

Individuals who are being reinstated to the full course of study following their removal for academic or other reasons must also submit a non-refundable tuition deposit.

**Criminal Background Check and Drug Screen:** Applicants should be aware that both criminal background checks (CBC) and drug screens (DS) are becoming common requirements for participation in specific course work in the College of Pharmacy and for eventual licensure as a pharmacist. As a result, CBC/DS are requirements for those students conditionally accepted for admission and must be completed with satisfactory results prior to matriculation to the College. Instructions for completion of CBC/DS requirements will be forwarded immediately following conditional acceptance to the College. The CBC/DS will be annual requirements for all PharmD students enrolled in the College. The types of tests required as well as the cost involved are subject to change and beyond the control of the College of Pharmacy. The expense for background checks and drug screens will be borne by the individual applicant and/or student.

To view the official UK College of Pharmacy Criminal Background Check/Drug Screen Policy, visit: <http://pharmacy.uky.edu/pharmd-admission-steps>.

**Student Assessment**

PharmD students are formally assessed at the conclusion of the second and third professional years through the MileMarker1 and MileMarker2 examinations. These exams allow students to gauge their progress and learning across a professional year and will afford the ability to identify potential areas of weakness that could be remediated before progression to the next professional year.

**General/Contact Information**

*Prerequisite changes affecting first-time freshmen are reflected on page 313. Prerequisite listings for all students are available at <http://pharmacy.uky.edu/pharmd-professional-program/pre-pharmacy>.*

Prepharmacy Required Subjects	Number of Semester Credit Hours Required in Each Subject	UK Prepharmacy Courses
<b>English</b>	2 semester(s) (6-7 semester credit hours)	CIS/WRD 110/111 Composition and Communication I/II
<b>Basic Public Speaking</b>	1 semester (3 semester credit hours)	UK students satisfy this requirement through completion of Composition & Communications I & II
<b>Biology I and Lab</b>	1 semester plus lab (4-5 semester credit hours)	BIO 148 (lecture) and BIO 155 (lab)
<b>Microbiology and Lab</b>	1 semester plus lab (4-5 semester credit hours)	BIO 208 and BIO 209 (lab) (BIO 308 also acceptable with BIO 209 lab)
<b>Calculus</b> Students can choose to bypass calculus by taking both college algebra and elementary calculus.	1 semester (4 semester hours <b>OR</b> 6 semester hours if taking college algebra and elementary calculus)	MA 113 – <b>or both</b> MA 109 (College Algebra) <b>and</b> MA 123 (Elementary Calculus and Its Applications)
<b>Statistics</b>	1 semester (3 semester credit hours)	One of the following: STA 296, BST 230
<b>Human Anatomy</b>	1 semester (3 semester credit hours)	ANA 209
<b>Physiology</b>	1 semester (3 semester credit hours)	PGY 206
<b>General Chemistry I and II and Labs</b>	2 semesters plus lab (8-10 semester credit hours)	CHE 105 and CHE 111, CHE 107 and CHE 113
<b>Organic Chemistry I and II and Labs</b>	2 semesters plus lab (8-10 semester credit hours)	CHE 230 and CHE 231, CHE 232 and CHE 233
<b>Business</b>	1 semester (3 semester credit hours)	One of the following: ECO 201, ECO 202, ACC 201, ACC 202, FIN 300
<b>Elective Courses</b>	Enough elective hours (17-26) to bring total to a minimum 70 semester credit hours after required courses are included	Highly recommended electives include biochemistry, genetics, and physics. Other electives to consider: courses required by major; UK Core courses; PharmD Dual Degree prerequisites (if needed); medical terminology; healthcare-related courses; undergraduate courses in Human Health Sciences (HHS), Public Health (CPH), Clinical Leadership and Management (CLM).

*Donna Arnett, Ph.D., M.S.P.H., is Dean of the College of Public Health. Paula Arnett, Dr.P.H., is Associate Dean for Academic and Student Affairs.*

## The College of Public Health

The College of Public Health (CPH) is one of the six Health Professions Colleges at the University of Kentucky. Faculty within CPH work closely with the UK Healthcare, and local and regional clinical, research and translational centers. CPH takes seriously its responsibility to the communities and individuals that comprise the Commonwealth of Kentucky. Further, CPH values students highly and, in all its actions, strives to build an environment where students can succeed and thrive. It takes pride in a collegial community of faculty and staff who are encouraged and supported in their work to solve the pressing public health problems that plague the region and the nation. Diversity of thought and diversity among students, staff and faculty, is woven into the fabric of the CPH culture. Given Kentucky's ranking as one of the unhealthiest states in the nation, the College continues its mission to help reduce the burdens and disparities of health problems on individuals, families and communities in the Commonwealth. Several professional and academic programs are offered at CPH including doctoral programs in gerontology and epidemiology and biostatistics; master's programs in public health and health administration; an undergraduate program in public health; and an accelerated BPH/MPH degree program that is part of the UK University Scholars Program. Further, CPH has partnerships with other units across campus to offer joint degree programs, including MD/MPH, PharmD/MPH and JD/MHA. Graduate certificates are also offered in the following: biostatistics, gerontology, global health, public health management, and improving healthcare value.

### Accreditation

The College of Public Health is nationally accredited by the Council for Education in Public Health (CEPH). The Masters of Health Administration program is accredited by the Commission on Accreditation of Healthcare Management Education.

### Bachelor of Public Health

This program is for the student seeking a broad-based, scientifically grounded, and professionally-oriented foundation for impacting societal health. Public Health connects populations from an integrated approach of identifying behaviors that

affect health and changing these behaviors; education on the science of primary prevention of disease; promoting healthcare equity, quality and accessibility; and advocating for improved healthcare systems. Completion of a Bachelor of Public Health degree prepares students for the public health workforce and equips them to find effective and meaningful solutions to real-world health problems. The College has strong ties to the public health practice community, both regionally and nationally, and provides students with opportunities to engage with professionals across the country. BPH graduates are well-positioned to pursue entry-level positions in community and public health and healthcare organizations, as well as for graduate study in public health and a variety of other health professions. Students enrolled in the BPH program should have both a belief in making positive changes and a devotion to making a difference in the health status of communities.

### ADMISSION POLICY

Admission to the University as an incoming freshman is sufficient for admission to the Pre-Bachelor of Public Health (pre-BPH) program. Current University students and transfer students must meet the BPH grade-point average (GPA) admission criteria to be admitted as a pre-BPH student. Admission to the pre-BPH program does not guarantee admission to the Bachelor of Public Health (BPH) program. Students may apply to the pre-BPH program at any time. The application is available at: <https://cph.uky.edu/admissions/bachelor-public-health-admissions/bachelor-public-health-applications>.

BPH admission is necessary in order to be granted a baccalaureate degree from the College of Public Health. Students who have attained a 2.75 or higher cumulative GPA and have completed all required premajor requirements (see below) with a combined GPA of 3.0 or higher will be eligible for admission into the BPH program. To be considered for admission to the BPH program, students must fulfill the following requirements:

1. Enrollment in the University of Kentucky;
2. Completion of CPH 201 with a letter grade of B or higher;
3. Completion of all additional premajor required courses with a letter grade of C or higher;
4. Cumulative GPA of 2.75 or higher;
5. Premajor course work GPA of 3.0 or higher;

and

6. Submission of an application form to the College of Public Health prior to the **annual application deadline of June 1**. The application is available on the web at: <https://cph.uky.edu/admissions/bachelor-public-health-admissions/bachelor-public-health-applications>.

**Applications to the BPH program are only accepted from February 1 to June 1 each year.** All premajor requirements must be complete prior to the start of the following fall semester to be eligible for admission. All applications will be processed after June 1, and admissions status will be released to students no later than July 15 of the current academic year.

### Accelerated BPH/MPH Degree Program

The College of Public Health offers an Accelerated BPH/MPH Degree Program which provides high achieving students an opportunity to complete both a BPH and MPH degree in five years. This program is in accordance with UK's University Scholars program. In addition to the admission criteria outlined above, students wishing to apply for the accelerated degree program must fulfill the following requirements:

1. Admission to BPH program;
2. Cumulative GPA of 3.2 or higher;
3. Major GPA of 3.5 or higher;
4. A minimum of 12 free elective hours available during the final year of BPH course work; and
5. Submission of an application to the CPH MPH program in accordance with their admissions process and deadlines.

Applications to the Accelerated Program are only accepted in accordance with the CPH MPH application window. Students should apply for the program in the Fall semester of their third year. Students meeting the minimum criteria for application are not guaranteed a placement in the program as spots are limited. Further information about the program, including application information, can be found at: <http://cph.uky.edu/academic-programs/university-scholars-program>.

### Admission Appeals Process

Students who do not meet the GPA criteria for admission to the Bachelor of Public Health program, but have extenuating circumstances that prevented them from reaching their academic

potential may submit an appeal at the time their application is submitted. The appeal guidelines are available at: <http://cph.uky.edu>.

For questions regarding appeals, contact:

**Dr. Sarah Vos**  
111 Washington Avenue, Suite 105C  
[sarah.vos@uky.edu](mailto:sarah.vos@uky.edu)

#### Dean' List

Full-time undergraduate students who have a term grade-point average of 3.5 or greater will appear on the Dean's List.

#### Probation and Academic Suspension

University of Kentucky probation and suspension rules apply for all university undergraduate students. These rules may be reviewed in the Academic Requirements section of this *Bulletin*.

The following additional rules apply to students in CPH:

1. Any student who fails to maintain a cumulative UK GPA of 2.5 shall be placed on academic probation within CPH.
2. A student will be removed from academic probation when a cumulative GPA of 2.5 or higher is obtained.
3. A student shall be dismissed from the college if he/she fails to achieve a cumulative GPA of 2.5 or higher within two consecutive semesters following being placed on probation.
4. A student who earns a term GPA of 2.5 or higher for each semester following placement on probation will continue in probationary status until a cumulative GPA of 2.5 or higher is obtained.
5. A student who is on academic probation within CPH may transfer to other colleges or departments provided the student meets eligibility criteria.
6. A student who has been dismissed from CPH for academic reasons and has remained outside the program for at least a semester and a summer session may petition for reinstatement.
7. A student who has been dismissed for academic reasons and reinstated shall, upon reinstatement, be placed on academic probation.
8. No student will be readmitted to the College via reinstatement request more than twice.

#### Graduate Programs in Public Health

The College of Public Health offers the following graduate degrees: Master of Public Health, Master of Health Administration, Ph.D. in Epidemiology/Biostatistics and a Ph.D. in Gerontology. Additional information may be obtained from the Office of Student Engagement, Advising and Success in the College of Public Health and/or from the Graduate School. There is an application deadline for each program and current informa-

tion can be located on the College website at: <http://cph.uky.edu>

Students who want to earn advanced degrees must be admitted to the University of Kentucky Graduate School. For complete information, students should refer to *The Graduate School Bulletin* or contact:

**Graduate School Admissions**  
201 Gillis Building  
University of Kentucky  
Lexington, KY 40506-0033  
859-257-4613  
fax: 859-323-5986

<http://gradschool.uky.edu/admissions>

#### Student Success

Student success is a priority in the College of Public Health and relies on collaboration between students, faculty and staff. The College looks forward to working with you on a rewarding academic venture. Admitted students are assigned to an advisor within the College. Curriculum plans are determined in the first semester of enrollment and updated each semester. For questions regarding progression through the program, contact:

**Jennifer Stevens**  
Academic Advisor  
111 Washington Avenue, Suite 120  
Lexington, KY 40536-0003  
859-323-5998  
email: [jennifer.stevens@uky.edu](mailto:jennifer.stevens@uky.edu)

All students within CPH must adhere to the Health Care Colleges Code of Student Professional Conduct, as well as the UK Student Code of Conduct.

#### Bachelor of Public Health

##### UK Core Requirements

See the *UK Core* section of this *Bulletin* for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

##### I. Intellectual Inquiry in Arts and Creativity

Choose one course from approved list ..... 3

##### II. Intellectual Inquiry in the Humanities

Choose one course from approved list ..... 3

##### III. Intellectual Inquiry in the Social Sciences

CPH 201 Introduction to Public Health ..... 3

##### IV. Intellectual Inquiry in the Natural, Physical, and Mathematical Sciences

BIO 103 Basic Ideas of Biology ..... 3

##### V. Composition and Communication I

CIS/WRD 110 Composition and Communication I ..... 3

##### VI. Composition and Communication II

CIS/WRD 111 Composition and Communication II ..... 3

##### VII. Quantitative Foundations

MA 111 Introduction to Contemporary Mathematics ..... 3

##### VIII. Statistical Inferential Reasoning

BST 230 Statistical Thinking in Public Health ..... 3

**IX. Community, Culture and Citizenship in the USA**  
GRN 250 Aging in Today's World ..... 3

#### X. Global Dynamics

Choose one course from approved list ..... 3

**UK Core hours** ..... 30

#### Graduation Composition and Communication Requirement (GCCR)

CPH 470 Public Health Capstone ..... 3

CPH 320 Fundamentals of Environmental Health ..... 3

CPH 330 Health Analytics I ..... 3

CPH 350 Introduction to Health Care

Organization and Policy ..... 3

CPH 440 Foundations of Health Behavior ..... 3

CPH 470 Public Health Capstone ..... 3

CPH 472 Public Health Profession and Practice ..... 3

CPH 476G A Sick World:

Global Public Health in the Early 21st Century ..... 3

**Subtotal: Major Hours:** ..... 24

##### Guided Electives

Choose a total of 30 credit hours at the 200-level or above consisting of:

- 6 credit hours – Natural Science Electives
- 9 credit hours – Social Science Electives
- 15 credit hours – Public Health Electives

**Subtotal: Guided Electives:** ..... 30

*NOTE: Students must earn a grade of C or better in all Major Requirements courses.*

#### Electives

Free Electives ..... 18-36

##### Total Minimum Hours

**Required for Degree** ..... 120

*\*Course may also be used toward completion of a UK Core requirement.*

#### Curriculum Policies

Students are expected to be familiar with the requirements for the degree of Bachelor of Public Health and to confer with their advisor for selecting courses. An effective curriculum requires continuous review to remain current and applicable to changing health needs. This may result in revision of courses and requirements; therefore, there can be no guarantee that course content will be identical in each subsequent academic year.

The BPH Program Learning Outcomes are:

- Demonstrate knowledge of public health from an interdisciplinary perspective.
- Show competency in ethical issues, social responsibility, and problem solving using evidence-based concepts in core public health areas.
- Show competency in relationship-building and team dynamics to plan and promote public health and reduce health disparities.
- Apply theories and concepts to communicate the interconnectedness among the physical, social, and environmental aspects of population health.

# Martin School of Public Policy and Administration

Ron Zimmer, Ph.D., is Director of the Martin School of Public Policy and Administration.

## PUBLIC POLICY

The Martin School of Public Policy & Administration's Bachelor of Arts in Public Policy is a program that teaches students how to use scientific methods to make evidence-based decisions on problems that affect the public sector and societal welfare and how to design and implement public policy in a complex environment. It develops leadership skills that enable graduates to lead public and nonprofit organizations. Coursework draws on diverse perspectives that enable students to examine critical public and social problems and measure the effects of proposed and existing policy solutions to those problems. Armed with a sophisticated understanding of how governments and markets work, public policy majors will learn to read critically, think analytically, and write concisely in preparation for careers in the nonprofit, private, and public sectors or to pursue graduate study in public policy and administration, international affairs, law, or other social science fields.

### Bachelor of Arts with a major in PUBLIC POLICY

#### UK Core Requirements

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

*Justin “Jay” Miller, Ph.D., is Dean of the College of Social Work; Julie Cerel, Ph.D., is Director of the Ph.D. Program; Kalea Benner, Ph.D., is Associate Dean for Academic and Student Affairs; Pam Weeks, J.D., M.S.W., is Director of Field Education.*

Social work is the only helping profession that emphasizes both human well-being and social justice. Social workers strive to empower others to make the changes they desire in their lives and advocate to bring about social change on both the individual and community level. Social workers help communities provide maximum equality of opportunity for all; help vulnerable individuals address needs more effectively; and seek continually to strengthen and improve the institutional systems responsible for education, justice, health, business, labor, and welfare so that people are better served.

The social work profession has one of the fastest growing job outlooks in the nation; dedicated professionals make a difference daily in the lives of individuals, families, and communities. Social work students learn to assess and critically examine needs and available resources to create maximum opportunities for people of all ages.

The College of Social Work prepares students to become professional social workers through a liberal arts foundation and social work courses that include multiple service opportunities and field placement in social service agencies. Our alumni work in a variety of settings including schools, hospitals, child welfare, mental health agencies, and social welfare organizations and with a diversity of populations including the elderly, the impoverished, the homeless, veterans, and their families, children and adolescents, and refugees and immigrants. This includes services designed to protect, promote or restore the well-being of people.

## Program Accreditation

Both the Bachelor of Arts in Social Work and the Master of Social Work degree programs are fully accredited by the Council on Social Work Education.

## Licensing

Social work graduates are eligible for professional licensure. In Kentucky, social workers are licensed through the Kentucky Board of Social Work. For additional information on licensure visit [bsw.ky.gov](http://bsw.ky.gov) or the website for the licensing board in the state where you plan to practice.

## Undergraduate Program in Social Work

The University of Kentucky grants the following undergraduate degree in the College of Social Work:

- Bachelor of Arts in Social Work

## Undergraduate Certificate in Social Work

The University of Kentucky grants the following undergraduate certificate in the College of Social Work:

- Diversity and Inclusivity Awareness

## THE UNDERGRADUATE PROGRAM OF EDUCATION FOR SOCIAL WORK

The principal objective of the undergraduate program is to prepare students for beginning social work practice. Additionally, it prepares students for graduate professional education, whether in social work or other helping professions such as law or medicine.

All social work majors will participate in field education under faculty direction in a variety of community agencies. Students will complete the social work program with practical social work experience from their practicum placements.

Courses in social work contribute to the practice foundation of all students and help prepare them to be more effective practitioners in a complex society in which social welfare issues and programs are of increasing importance.

## Advising

Every student is assigned an academic advisor who assists them in preparing for registration each semester. Undergraduate advisors are assigned by the Director of the Undergraduate Program, 631 Patterson Office Tower, 859-323-0586.

## Undergraduate Admission Policy

Admission to the University of Kentucky is sufficient for admission to the College of Social Work as a premajor. Social work students must successfully complete the premajor course requirements before applying to the BASW degree program and maintain a 2.5 GPA. The premajor course requirements are: SW 124 and SW 222 or SW 322; PSY 100; SOC 101; and BIO 103.

An application must be filed with the College of Social Work in order for a student to be considered for admission as a full major. In general, admission as a major depends upon the qualifica-

tions and preparation of the applicant, as well as the availability of resources for maintaining quality instruction.

## Admission Criteria to the Bachelor of Arts in Social Work Professional Program

In order to be admitted to the BASW degree program as a major, applicants must fulfill the following requirements:

1. Admission to the University of Kentucky (students are considered for acceptance by the College only after acceptance by the University);
2. A grade of **B** or better in both SW 124 and SW 222, or equivalent (or a grade of **B** or better in SW 322);
3. Submission of an application form;
4. Minimum of a 2.5 cumulative grade-point average on all college work attempted as computed by the Registrar's Office;
5. Submission of essay based on criteria established by the College of Social Work;
6. A passing grade in PSY 100, SOC 101, and BIO 103.

Applications for admission are available online at: <https://socialwork.uky.edu/basw/basw-application-information/>; deadlines are **August 1** for the fall semester, and **December 1** for the spring semester.

Individuals who do not meet the admissions criteria may submit a petition for consideration of exception to the College's Admissions Committee. Admission may be granted if there is persuasive evidence of both the capability and motivation to successfully undertake the BASW degree program.

## BACHELOR OF ARTS IN SOCIAL WORK

### Degree Requirements

The College of Social Work requires students to earn a minimum of 120 hours for the B.A. in Social Work with a minimum grade-point average of 2.5. In addition, students must earn a grade of **C** or better in all professional social work core classes. Students may take additional hours in accordance with stated University policy.

In addition to fulfilling UK Core requirements, students must complete the program requirements listed below.

**UK Core Requirements**

See the *UK Core* section of this Bulletin for the complete UK Core requirements. The courses listed below are (a) recommended by the college, or (b) required courses that also fulfill UK Core areas. Students should work closely with their advisor to complete the UK Core requirements.

**I. Intellectual Inquiry in Arts and Creativity**

Choose one course from approved list ..... 3

**II. Intellectual Inquiry in the Humanities**

Choose one course from approved list ..... 3

**III. Intellectual Inquiry in the Social Sciences**

SOC 101 Introduction to Sociology ..... 3

**NOTE:** Students must earn a grade of C or better in all Major Requirements courses.

**Subtotal: Professional Social Work Major Hours ..... 47**

**Social Science Electives**

Students will select 12 hours of social science electives at the 300-level or above.

**Subtotal: Social Science Electives ..... 12**

**Electives**

Free electives may be at any level and must be sufficient to bring the total number of credits to 120 or above.

**TOTAL HOURS: ..... 120**

**Probation, Dismissal and Reinstatement Policy**

An undergraduate social work major or graduate student may be dismissed from the College of Social Work for failure to make satisfactory progress. In the Social Work program, the college continuously monitors the progress of all social work students. Consistent with University regulations and the CSWE requirements that social work programs have policies for “terminating a student’s enrollment . . . for reasons of academic and professional performance,” the following rules apply in the College of Social Work: Academic Performance.

For students accepted to the Bachelor of Arts in Social Work (BASW) program, the rules for academic probation, dismissal and reinstatement are comparable to those established by the University for undergraduate colleges and also include criteria for student performance in required social work courses:

- A student must earn a C or better in all social work core courses (SW 300, SW 350, SW 400, SW 421, SW 422, SW 430, SW 435, SW 444, SW 450, SW 460, SW 445, SW 470) in order to complete the major requirements and advance through sequential social work courses. A grade lower than a C will require the student to repeat that course and obtain a C or better to meet major requirements.
- Any student who fails to maintain a cumulative UK GPA of 2.5 shall be placed on academic probation within the College of Social Work.
- A student can be removed from academic probation when a cumulative GPA of 2.5 is obtained.
- A student shall be dismissed from the College if he/she fails to achieve a cumulative GPA of 2.5 or higher within two consecutive semesters of being placed on probation or fails to earn a term GPA of 2.5 or higher for any two consecutive semesters following his/her placement on academic probation.
- A student who earns a term GPA of 2.5 or higher for each semester following placement on probation will continue in probationary status until a cumulative GPA of 2.5 or higher is obtained.
- A student may not graduate from the College of Social Work while on academic probation.
- Students who are on academic probation within the College of Social Work may transfer to other colleges or departments provided the student meets eligibility criteria.
- A student who has been dismissed from the College for academic reasons and has remained outside the program for at least a semester and a summer session may petition for reinstatement. Petition for reinstatement is to be made in writing to the Dean and shall include a written statement by the student specifying why he/she should be considered for reinstatement. After consultation with the Director of Undergraduate Studies and other faculty as appropriate, the Dean may choose to accept or deny the petition. The Dean may require that the student agree to certain conditions in order to be reinstated (i.e. take additional course work, complete a writing class, obtain tutoring, etc.). The Dean shall inform the student in writing that he/she has been reinstated or reasons for denial of the petition for reinstatement. No student will be readmitted to the College via reinstatement request more than twice.

- i. A student who has been dismissed for academic reasons and reinstated shall, upon reinstatement, be placed on academic probation and be subject to the academic performance expectations outlined in this policy.

**COURSES FOR NONMAJORS**

Students from other departments are eligible to take certain social work courses offered to enrich the content of their basic major and/or to increase their knowledge and understanding of the society of which they are a part. They may take SW 124, Introduction to Social Work and Diverse Populations; SW 222, Development of Social Welfare Policy; SW 322, Social Work and Social Welfare; and elective social work courses.

**GRADUATE PROGRAMS**

The College of Social Work offers graduate curricula leading to the Master of Social Work degree and to the Ph.D. in Social Work. An MSW is a prerequisite to Ph.D. admission.

Master’s applicants holding the baccalaureate degree in social work may be eligible for the 30-credit advanced standing option. Others will be considered for the regular 60-credit MSW program.

For further information, see *The Graduate School Bulletin* or the *College of Social Work Bulletin*.

**UNIVERSITY SCHOLARS PROGRAM (USP)**

The University Scholars Program offers students the opportunity and challenge of integrating their undergraduate and graduate courses of study into a single, continuous program leading to both a baccalaureate and master’s degree. The student’s particular requirements will determine the amount of time needed to complete the program, but the two programs can be completed in less time and tuition than that required in a conventional program. Students with a 3.8 social work GPA and 3.5 UK cumulative GPA are eligible to apply following the completion of their first practicum.

**Departmental Honors**

The College of Social Work recognizes those undergraduate students who attain a 3.6 overall University of Kentucky GPA as having Departmental Honors which is indicated on the final transcript.

**Dean’s List**

Full-time (as defined by 12 hours at the University of Kentucky) students who achieve a 3.6 GPA for the semester will be recognized by the College of Social Work as having made the Dean’s List for that semester.

**Undergraduate Certificate in Diversity and Inclusivity Awareness**

The undergraduate certificate in Diversity and Inclusivity Awareness provides an enriching, multidisciplinary academic experience for UK students through exposure to a variety of cultures and lived experiences within the academic context. This certificate allows opportunities for students to engage with diverse content, views and experiences in order to gain preparedness for a worldview and a future that promises interconnectedness in all that we do. The certificate is designed to provide a depth and breadth of exposure to the diverse human experience, better preparing global citizens through a variety of courses designed to enrich and value diversity and inclusivity.

The Diversity and Inclusivity Awareness certificate is multidisciplinary and requires course work from at least two disciplines. Students must complete a total of 12 hours at the 200-level or above taken for a letter grade with a minimum of 6 credit hours at the 300-level or above. All courses must have a C grade or above to successfully complete the certificate criteria. The Diversity and Inclusivity Awareness certificate will enable students to better understand differences in cultures and lived experiences, social influences resulting from those differences as well as how those influences shape a student’s awareness and ability to connect with a worldview that values diversity and models inclusivity for all.

**Required Course**

SW 325 Social Justice Foundations ..... 3

plus a minimum of **three** of the following (which **must** include courses from two different departments and at least one must be at the 300-level or above):

EPE 301 Education in American Culture ..... 3

## ADDITIONAL LEARNING OPPORTUNITIES

There are plenty of ways students can earn credit at the University of Kentucky. To learn more, see the information below. Distance Learning Programs are administered by the Office of the Associate Provost for Undergraduate Education; all other programs are administered by the Assistant Provost for Enrollment Management.

## UK ONLINE PROGRAMS

UK Online Programs, a unit of the Teaching and Academic Support Center (TASC), provides a wide variety of faculty and student support services to enable development and delivery of credit courses and programs throughout the Commonwealth of Kentucky and around the world, with over 10,000 enrollments annually. UK Online students enroll in 15 full degree programs, over 700 courses, 5 certificates and state-mandated training while residing in over 200 cities and towns in more than 100 Kentucky counties. UK Online Programs delivers course work in cooperation with Teaching and Academic Support Center staff, UK academic departments and colleges, and other institutions of higher education state-wide and nationally. Available advanced delivery modes include online instruction, interactive video, video-desktop conferencing, videostreaming, Web 2.0 technologies and hybrid models.

Specific support includes:

- online and hybrid course development and support;
- technical coordinators at interactive video and videoconferencing sites;
- extensive online faculty and student support services;
- exploration of new technologies for distance learning delivery/modeling;
- strategic planning with academic units;
- support for collaborative distance learning programming;
- marketing for UK Online courses and programs; and
- coordination with Distance Learning Library Services.

For more information on UK Online Programs, call 859-257-3377; or visit:

[www.uky.edu/academics/online-programs](http://www.uky.edu/academics/online-programs).

## SUMMER SCHOOL

UK's summer school consists of a single 12-week term. Most courses will not meet for the entire twelve weeks but will follow standard meeting blocks: 1st 4-weeks, 2nd 4-weeks, 3rd 4-weeks; 1st 6-weeks, 2nd 6-weeks, 1st 8-weeks, etc. Summer School courses provide educational enrichment and give students the opportunity to accelerate their academic progress. Information regarding admission procedures and Summer School calendar dates are listed in the *University Calendar* at the front of this Bulletin.

The Summer School *Schedule of Classes* can be viewed online in early December. For information about summer school, contact:

**Summer School**  
**859-257-3382**

[www.uky.edu/registrar/content/summer-sessions](http://www.uky.edu/registrar/content/summer-sessions)

## WINTER INTERSESSION

Winter Intersession classes for 2019-20 begin on December 23, 2019 and end on January 14, 2020. For more information on Winter Intersession courses, please contact:

**Winter Intersession**  
**859-257-8725**

**email: [asout2@email.uky.edu](mailto:asout2@email.uky.edu)**  
**[www.uky.edu/registrar/winter-intersession](http://www.uky.edu/registrar/winter-intersession)**

# Course Numbering System

The number system reflects the level of course material and associated rigor. With the exception of upper graduate level and professional courses, any prerequisite restrictions limiting the level of a student accepted into a course shall be specified in a course prerequisites. Courses shall be numbered as follows:

- 001-099** – No credit, non-degree and/or developmental courses;
- 100-199** – Freshmen level course; undergraduate credit only;
- 200-299** – Sophomore level course; undergraduate credit only;
- 300-399** – Junior level course; undergraduate credit only;
- 400-499** – Advanced junior and senior level course; undergraduate credit only;
- 400G-499G** – Senior and first year graduate level course; graduate credit for non-majors only;
- 500-599** – First year graduate level course; undergraduate and graduate credit;
- 600-799** – Upper graduate level course; open only to graduate students;
- 800-999** – Professional Programs course; open only to students in professional colleges and to students in other colleges offering professional degrees as defined by the Council on Postsecondary Education.

**R** — The letter **R** following the course designation and number indicates a remedial course. No course designated with an **R** will be counted as credit toward a bachelor's degree at the University of Kentucky.

Courses may be approved for variable credits, e.g., (1-3), (2-6), etc. In no case, however, may the total credits exceed the maximum number authorized for the course.

Repeated registration in a course may be allowed if the course description carries the statement: "May be repeated to maximum of . . . credits." However, a student may enroll only one time in a specific course during a given semester. Courses with the same number are not considered to be the same course if different identifying titles are an integral part of the record.

*Unless indicated in the course description, the number of credits for a course indicates the number of lecture or discussion or class hours.*

Exceptions to the requirements for admission to courses may be made as follows:

Seniors with superior ability or preparation may be admitted to courses numbered between 600 and 799, upon approval of the instructor, the dean of the student's college and the Dean of The Graduate School.

## BOARD OF TRUSTEES

# Policy on Residency

**13KAR2:045.**

## **DETERMINATION OF RESIDENCY STATUS FOR ADMISSION AND TUITION ASSESSMENT PURPOSES.**

**RELATES TO: KRS Chapter 13B, 164.020, 164.030, 164A.330(6), 38 U.S.C. 3301-3325**  
**STATUTORY AUTHORITY: KRS 164.020(8)**

**NECESSITY, FUNCTION, AND CONFORMITY:** KRS 164.020(8) requires the Council on Postsecondary Education to determine tuition and approve the minimum qualifications for admission to a state postsecondary education institution and authorizes the Council to set different tuition amounts for residents of Kentucky and for nonresidents. This administrative regulation establishes the procedure and guidelines for determining the residency status of a student who is seeking admission to, or who is enrolled at, a state-supported postsecondary education institution.

### **Section 1. Definitions.**

- (1) "Academic term" means a division of the school year during which a course of studies is offered, and includes a semester, quarter, or single consolidated summer term as defined by the institution.
- (2) "Continuous enrollment" means enrollment in a state-supported postsecondary education institution at the same degree level for consecutive terms, excluding summer term, since the beginning of the period for which continuous enrollment is claimed unless a sequence of continuous enrollment is broken due to extenuating circumstances beyond the student's control, such as serious personal illness or injury, or illness or death of a parent.
- (3) "Degree level" means enrollment in a course or program that could result in the award of a:
  - (a) Certificate, diploma, or other program award at an institution;
  - (b) Baccalaureate degree or lower, including enrollment in a course by a nondegree-seeking post baccalaureate student;
  - (c) Graduate degree or graduate certification other than a first-professional degree in law, medicine, dentistry, or "Pharm. D"; or
  - (d) Professional degree in law, medicine, dentistry, or "Pharm. D".
- (4) "Dependent person" means a person who cannot demonstrate financial independence from parents or persons other than a spouse and who does not meet the criteria for independence established in Section 5 of this administrative regulation.
- (5) "Determination of residency status" means the decision of a postsecondary education institution that results in the classification of a person as a Kentucky resident or as a nonresident for admission and tuition assessment purposes.
- (6) "Domicile" means a person's true, fixed, and permanent home and is the place where the person intends to remain indefinitely, and to which the person expects to return if absent without intending to establish a new domicile elsewhere.
- (7) "Full-time employment" means continuous employment for at least forty-eight (48) weeks at an average of at least thirty (30) hours per week.
- (8) "Independent person" means a person who demonstrates financial independence from parents or persons other than a spouse and who meets the criteria for independence established in Section 5 of this administrative regulation.
- (9) "Institution" means an entity defined by KRS 164.001(12) if the type of institution is not expressly stated and includes the Kentucky Virtual University, the Council on Postsecondary Education, and the Kentucky Higher Education Assistance Authority.
- (10) "Kentucky resident" means a person determined by an institution for tuition purposes to be domiciled in, and a resident of, Kentucky as determined by this administrative regulation.
- (11) "Nonresident" means a person who:
  - (a) Is domiciled outside Kentucky;
  - (b) Currently maintains legal residence outside Kentucky; or
  - (c) Is not a Kentucky resident as determined by this administrative regulation.
- (12) "Parent" means one (1) of the following:
  - (a) A person's father or mother; or
  - (b) A court-appointed legal guardian if:
    1. The guardianship is recognized by an appropriate court within the United States;
    2. There was a relinquishment of the rights of the parents; and
    3. The guardianship was not established primarily to confer Kentucky residency on the person.

(13) "Preponderance of the evidence" means the greater weight of evidence or evidence that is more credible and convincing to the mind.

(14) "Residence" means the place of abode of a person and the place where the person is physically present most of the time for a noneducational purpose in accordance with Section 3 of this administrative regulation.

(15) "Student financial aid" means all forms of payments to a student if one (1) condition of receiving the payment is the enrollment of the student at an institution, and includes student employment by the institution or a graduate assistantship.

(16) "Sustenance" means:

- (a) Living expenses, such as room, board, maintenance, and transportation; and
- (b) Educational expenses, such as tuition, fees, books, and supplies.

### **Section 2. Scope.**

(1) State-supported postsecondary education institutions were established and are maintained by the Commonwealth of Kentucky primarily for the benefit of qualified residents of Kentucky. The substantial commitment of public resources to postsecondary education is predicated on the proposition that the state benefits significantly from the existence of an educated citizenry. As a matter of policy, access to postsecondary education shall be provided so far as feasible at reasonable cost to a qualified individual who is domiciled in Kentucky and who is a resident of Kentucky.

(2) In accordance with the duties established in KRS 164.020, the Council on Postsecondary Education may require a student who is neither domiciled in, nor a resident of, Kentucky to meet higher admission standards and to pay a higher level of tuition than resident students.

(3) Unless otherwise indicated, this administrative regulation shall apply to all student residency determinations, regardless of circumstances, including residency determinations made by:

- (a) The state-supported institutions for prospective and currently-enrolled students;
- (b) The Southern Regional Education Board for contract spaces;
- (c) Reciprocity agreements, if appropriate;
- (d) The Kentucky Virtual University;
- (e) Academic common market programs;
- (f) The Kentucky Educational Excellence Scholarship Program; and
- (g) Other state student financial aid programs, as appropriate.

### **Section 3. Determination of Residency Status; General Rules.**

(1) A determination of residency shall include:

- (a) An initial determination of residency status by an institution:
  1. During the admission process;
  2. Upon enrollment in an institution for a specific academic term; or
  3. For admission into a specific academic program;
- (b) A reconsideration of a determination of residency status by an institution based upon a changed circumstance; or
- (c) A formal hearing conducted by an institution upon request of a student after other administrative procedures have been completed.

(2) An initial determination of residency status shall be based upon:

- (a) The facts in existence when the credentials established by an institution for admission for a specific academic term have been received and during the period of review by the institution;
- (b) Information derived from admissions materials;
- (c) If applicable, other materials required by an institution and consistent with this administrative regulation; and
- (d) Other information available to the institution from any source.

(3) An individual seeking a determination of Kentucky residency status shall demonstrate that status by a preponderance of the evidence.

(4) A determination of residency status shall be based upon verifiable circumstances or actions.

(5) Evidence and information cited as the basis for Kentucky domicile and residency shall accompany the application for a determination of residency status.

(6) A student classified as a nonresident shall retain that status until the student is officially reclassified by an institution.

(7) A student may apply for a review of a determination of residency status once for each academic term.

(8) If an institution has information that a student's residency status may be incorrect, the institution shall review and determine the student's correct residency status.

(9) If the Council on Postsecondary Education has information that an institution's determination of residency status for a student may be incorrect, it may require the institution to review the circumstances and report the results of that review.

(10) An institution shall impose a penalty or sanction against a student who gives incorrect or misleading information to an institutional official, including payment of nonresident tuition for each academic term for which resident tuition was assessed based on an improper determination of residency status. The penalty or sanction may also include:

- (a) Student discipline by the institution through a policy written and disseminated to students; or
- (b) Criminal prosecution.

#### Section 4. Presumptions Regarding Residency Status.

(1) In making a determination of residency status, it shall be presumed that a person is a nonresident if:

- (a) A person is, or seeks to be, an undergraduate student and admissions records show the student to be a graduate of an out-of-state high school within five (5) years prior to a request for a determination of residency status;
- (b) A person's admissions records indicate the student's residence to be outside of Kentucky when the student applied for admission;
- (c) A person moves to Kentucky primarily for the purpose of enrollment in an institution;
- (d) A person moves to Kentucky and within twelve (12) months enrolls at an institution more than half time;
- (e) A person has a continuous absence of one (1) year from Kentucky; or
- (f) A person attended an out-of-state higher education institution during the past academic year and paid in-state tuition at that institution.

(2) A presumption arising from subsection (1) of this section shall only be overcome by preponderance of evidence sufficient to demonstrate that a person is domiciled in and is a resident of Kentucky.

#### Section 5. Determination of Whether a Student is Dependent or Independent.

(1) In a determination of residency status, an institution shall first determine whether a student is dependent or independent. This provision shall be predicated on the assumption that a dependent person lacks the financial ability to live independently of the person upon whom the student is dependent, and therefore, lacks the ability to form the requisite intent to establish domicile. A determination that a student is independent shall be one (1) step in the overall determination of whether a student is or is not a resident of Kentucky.

(2) In determining the dependent or independent status of a person, the following information shall be considered, as well as other relevant information available when the determination is made:

- (a) 1. Whether the person has been claimed as a dependent on the federal or state tax returns of a parent or other person for the year preceding the date of application for a determination of residency status; or
- 2. Whether the person is no longer claimed by a parent or other person as a dependent or as an exemption for federal and state tax purposes; and
- (b) Whether the person has financial earnings and resources independent of a person other than an independent spouse necessary to provide for the person's own sustenance.

(3) An individual who enrolls at an institution immediately following graduation from high school and remains enrolled shall be presumed to be a dependent person unless the contrary is evident from the information submitted.

(4) Domicile may be inferred from the student's permanent address, parent's mailing address, or location of high school of graduation.

(5) Marriage to an independent person domiciled in and who is a resident of Kentucky shall be a factor considered by an institution in determining whether a student is dependent or independent.

(6) Financial assistance from, or a loan made by, a parent or family member other than an independent spouse, if used for sustenance of the student:

- (a) Shall not be considered in establishing a student as independent; and
- (b) Shall be a factor in establishing that a student is dependent.

#### Section 6. Effect of a Determination of Dependent Status on a Determination of Residency Status.

(1) The effect of a determination that a person is dependent shall be:

- (a) The domicile and residency of a dependent person shall be the same as either parent. The domicile and residency of the parent shall be determined in the same manner as the domicile and residency of an independent person; and

(b) The domicile and residency of a dependent person whose parents are divorced, separated, or otherwise living apart shall be Kentucky if either parent is domiciled in and is a resident of Kentucky, regardless of which parent has legal custody or is entitled to claim that person as a dependent pursuant to federal or Kentucky income tax provisions.

(2) If the parent or parents of a dependent person are Kentucky residents and are domiciled in Kentucky, but subsequently move from the state:

- (a) The dependent person shall be considered a resident of Kentucky while in continuous enrollment at the degree level in which currently enrolled; and
- (b) The dependent person's residency status shall be reassessed if continuous enrollment is broken or the current degree level is completed.

#### Section 7. Member or Former Member of Armed Forces of the United States, Spouse and Dependents; Effect on a Determination of Residency Status.

(1) A member, spouse, or dependent of a member whose domicile and residency was Kentucky when inducted into the Armed Forces of the United States, and who maintains Kentucky as home of record and permanent address, shall be entitled to Kentucky residency status:

- (a) During the member's time of active service; or
- (b) If the member returns to this state within six (6) months of the date of the member's discharge from active duty.

(2) (a) A member of the armed services on active duty for more than thirty (30) days and who has a permanent duty station in Kentucky shall be classified as a Kentucky resident and shall be entitled to in-state tuition, as shall the spouse or a dependent child of the member.

(b) A member, spouse, or dependent of a member shall not lose Kentucky residency status if the member is transferred on military orders while the member, spouse, or dependent requesting the status is in continuous enrollment at the degree level in which currently enrolled.

(3) Membership in the National Guard or civilian employment at a military base alone shall not qualify a person for Kentucky residency status under the provisions of subsections (1) and (2) of this section. If a member of the Kentucky National Guard is on active duty status for a period of not less than thirty (30) days, the member shall be considered a Kentucky resident, as shall the spouse or a dependent child of the member.

(4) A person eligible for benefits under the federal Post-9/11 Veterans Educational Assistance Act of 2008, 38 U.S.C. 3301-3325, or any other educational benefits provided under Title 38 of the United States Code shall be entitled to Kentucky resident status for purposes of tuition charged at state-supported institutions.

(5) A person's residency status established pursuant to this section shall be reassessed if the qualifying condition is terminated.

#### Section 8. Status of Nonresident Aliens; Visas and Immigration.

(1) (a) A person holding a permanent residency visa or classified as a political refugee shall establish domicile and residency in the same manner as another person.

(b) Time spent in Kentucky and progress made in fulfilling the conditions of domicile and residency prior to obtaining permanent residency status shall be considered in establishing Kentucky domicile and residency.

(2) A person holding a nonimmigrant visa with designation A, E, G, H-1, H-4 if accompanying a person with an H-1 visa, I, K, L, N, R, shall establish domicile and residency the same as another person.

(3) (a) An independent person holding a nonimmigrant visa with designation B, C, D, F, H-2, H-3, H-4 if accompanying a person with an H-2 or H-3 visa, J, M, O, P, Q, S, TD, or TN shall not be classified as a Kentucky resident because that person does not have the capacity to remain in Kentucky indefinitely and therefore cannot form the requisite intent necessary to establish domicile as defined in Section 1(6) of this administrative regulation.

(b) A dependent person holding a visa as described in paragraph (a) of this subsection, but who is a dependent of a parent holding a visa as described in subsection (2) of this section, shall be considered as holding the visa of the parent.

(c) A dependent person holding a visa described in subsection (2) of this section or paragraph (a) of this subsection, if a parent is a citizen of the United States and is a resident of and domiciled in Kentucky, shall be a resident of Kentucky for the purposes of this administrative regulation.

(4) A person shall be a Kentucky resident for the purpose of this administrative regulation if the person graduated from a Kentucky high school and:

- (a) Is an undocumented alien;
- (b) Holds a visa listed in subsections (2) or (3)(a) of this section; or
- (c) Is a dependent of a person who holds a visa listed in subsections (2) or (3)(a) of this section.

(5) (a) Except as provided in paragraph (b) of this subsection, a person who has petitioned the federal government to reclassify visa status shall continue to be ineligible until the petition has been granted by the federal government.

- (b) A person who has petitioned the federal government to reclassify his or her visa status based on marriage to a Kentucky resident and who can demonstrate that the petition has been filed and acknowledged by the federal government, may establish Kentucky domicile and residency at that time.

### Section 9. Beneficiaries of a Kentucky Educational Savings Plan Trust.

A beneficiary of a Kentucky Educational Savings Plan Trust shall be granted residency status if the beneficiary meets the requirements of KRS 164A.330(6).

### Section 10. Criteria Used in a Determination of Residency Status.

- (1) (a) A determination of Kentucky domicile and residency shall be based upon verifiable circumstances or actions.
- (b) A single fact shall not be paramount, and each situation shall be evaluated to identify those facts essential to the determination of domicile and residency.
- (c) A person shall not be determined to be a Kentucky resident by the performance of an act that is incidental to fulfilling an educational purpose or by an act performed as a matter of convenience.
- (d) Mere physical presence in Kentucky, including living with a relative or friend, shall not be sufficient evidence of domicile and residency.
- (e) A student or prospective student shall respond to all requests for information regarding domicile or residency requested by an institution.
- (2) The following facts, although not conclusive, shall have probative value in their entirety and shall be individually weighted, appropriate to the facts and circumstances in each determination of residency:

- (a) Acceptance of an offer of full-time employment or transfer to an employer in Kentucky or contiguous area while maintaining residence and domicile in Kentucky;
- (b) Continuous physical presence in Kentucky while in a nonstudent status for the twelve (12) months immediately preceding the start of the academic term for which a classification of Kentucky residency is sought;
- (c)
  - 1. Filing a Kentucky resident income tax return for the calendar year preceding the date of application for a change in residency status; or
  - 2. Payment of Kentucky withholding taxes while employed during the calendar year for which a change in classification is sought;
- (d) Full-time employment of at least one (1) year while living in Kentucky;
- (e) Attendance as a full-time, nonresident student at an out-of-state institution based on a determination by that school that the person is a resident of Kentucky;
- (f) Abandonment of a former domicile or residence and establishing domicile and residency in Kentucky with application to or attendance at an institution following and incidental to the change in domicile and residency;
- (g) Obtaining licensing or certification for a professional and occupational purpose in Kentucky;
- (h) Payment of real property taxes in Kentucky;
- (i) Ownership of real property in Kentucky, if the property was used by the student as a residence preceding the date of application for a determination of residency status;
- (j) Marriage of an independent student to a person who was domiciled in and a resident of Kentucky prior to the marriage; and
- (k) The extent to which a student is dependent on student financial aid in order to provide basic sustenance.

(3) Except as provided in subsection (4) of this section, the following facts, because of the ease and convenience in completing them, shall have limited probative value in a determination that a person is domiciled in and is a resident of Kentucky:

- (a) Kentucky automobile registration;
- (b) Kentucky driver's license;
- (c) Registration as a Kentucky voter;
- (d) Long-term lease of at least twelve (12) consecutive months of noncollegiate housing; and
- (e) Continued presence in Kentucky during academic breaks.

(4) The absence of a fact contained in subsection (3) of this section shall have significant probative value in determining that a student is not domiciled in or is not a resident of Kentucky.

### Section 11. Effect of a Change in Circumstances on Residency Status.

- (1) If a person becomes independent or if the residency status of a parent or parents of a dependent person changes, an institution shall reassess residency either upon a request by the student or a review initiated by the institution.
- (2) Upon transfer to a Kentucky institution, a student's residency status shall be assessed by the receiving institution.
- (3) A reconsideration of a determination of residency status for a dependent person shall be subject to the provisions for continuous enrollment, if applicable.

### Section 12. Student Responsibilities.

- (1) A student shall report under the proper residency classification, which includes the following actions:
  - (a) Raising a question concerning residency classification;
  - (b) Making application for change of residency classification with the designated office or person at the institution; and
  - (c) Notifying the designated office or person at the institution immediately upon a change in residency.
- (2) If a student fails to notify an institutional official of a change in residency, an institutional official may investigate and evaluate the student's residency status.
- (3) (a) If a student fails to provide, by the date specified by the institution, information required by an institution in a determination of residency status, the student shall be notified by the institution that the review has been canceled and that a determination has been made.
  - (b) Notification shall be made by registered mail, return receipt requested.
  - (c) Notification shall be made within ten (10) calendar days after the deadline for receipt of materials has passed.
- (4) (a) The formal hearing conducted by an institution and the final recommended order shall be a final administrative action with no appeal to the Council on Postsecondary Education.
  - (b) A formal administrative hearing conducted by the Council on Postsecondary Education for residency determinations related to eligibility for the Academic Common Market and Regional Contract Programs shall be conducted pursuant to the provisions of KRS Chapter 13B and 13 KAR 2:070. The recommended order issued by the President of the Council shall be a final administrative action.
- (5) A student shall not be entitled to appeal a determination of residency status if the determination made by an institution is because a student has failed to meet published deadlines for the submission of information as set forth in subsection (3) of this section. A student may request a review of a determination of residency status in a subsequent academic term.

### Section 13. Institutional Responsibilities.

Each institution shall:

- (1) Provide for an administrative appeals process that includes a residency appeals officer to consider student appeals of an initial residency determination and which shall include a provision of fourteen (14) days for the student to appeal the residency appeals officer's determination;
- (2) Establish a residency review committee to consider appeals of residency determinations by the residency appeals officer. The residency review committee shall make a determination of student residency status and notify the student in writing within forty-five (45) days after receipt of the student appeal;
- (3) Establish a formal hearing process as described in Section 14 of this administrative regulation; and
- (4) Establish written policies and procedures for administering the responsibilities established in subsections (1), (2), and (3) of this section and that are:
  - (a) Approved by the institution's governing board;
  - (b) Made available to all students; and
  - (c) Filed with the council.

### Section 14. Formal Institutional Hearing.

- (1) A student who appeals a determination of residency by a residency review committee shall be granted a formal hearing by an institution if the request is made by a student in writing within fourteen (14) calendar days after notification of a determination by a residency review committee.
- (2) If a request for a formal hearing is received, an institution shall appoint a hearing officer to conduct a formal hearing. The hearing officer shall:
  - (a) Be a person not involved in determinations of residency at an institution except for formal hearings; and
  - (b) Not be an employee in the same organizational unit as the residency appeals officer.
- (3) An institution shall have written procedures for the conduct of a formal hearing that have been adopted by the board of trustees or regents, as appropriate, and that provide for:
  - (a) A hearing officer to make a recommendation on a residency appeal;
  - (b) Guarantees of due process to a student that include:
    - 1. The right of a student to be represented by legal counsel; and
    - 2. The right of a student to present information and to present testimony and information in support of a claim of Kentucky residency; and
  - (c) A recommendation to be issued by the hearing officer.
- (4) An institution's formal hearing procedures shall be filed with the Council on Postsecondary Education and shall be available to a student requesting a formal hearing.

**Section 15. Cost of Formal Hearings.**

(1) An institution shall pay the cost for all residency determinations including the cost of a formal hearing.

(2) A student shall pay for the cost of all legal representation in support of the student's claim of residency.

For further information about residency, please contact the Office of Undergraduate Admission and University Registrar, Funkhouser Building, University of Kentucky, Lexington, KY 40506-0054.

*Policy subject to change without notice.*

# Drug-Free Policy

## Policy Statement as a Drug-Free Institution

The University of Kentucky is committed to providing a healthy and safe environment for its students, faculty and staff. The University has defined conduct in relation to the unlawful possession, use, dispensation, distribution or manufacture of alcohol or illicit drugs. Conduct which is violative of this definition poses unacceptable risks and disregard for the health, safety, and welfare of members of the University community and shall result in disciplinary action up to and including suspension or termination.

As a recipient of federal grants and contracts, the University of Kentucky gives this notice to students, faculty and staff that it is in compliance with and shall continue to be in compliance with the Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act. Students, faculty and staff are herein notified of the standards of conduct which shall be applicable while on University of Kentucky property, on University business, and/or at University sponsored activities.

## Standards of Conduct

By University regulations, by federal law, by state law, and, in some instances, by local ordinance, students, faculty and staff are prohibited from the **unlawful** possession, use, dispensation, distribution, or manufacture of illicit drugs on University property, on University business and/or at University sponsored activities.

Under University regulations, students, faculty and staff are required to abide by state laws concerning alcoholic beverages. Basically, Kentucky laws state that if one is under the age of 21, it is unlawful to:

- (1) possess or consume alcoholic beverages,
- (2) misrepresent one's age for the purpose of purchasing alcoholic beverages, or
- (3) use a fake ID in an attempt to purchase alcoholic beverages.

No matter what one's age, Kentucky law states that it is unlawful to:

- (1) procure any alcoholic beverages for anyone under 21 years of age or
- (2) drink or to be drunk in a public place.

University campuses and buildings are considered as public places for purposes of these laws, except for a facility licensed to serve alcoholic beverages, and except for a facility used as a private residence, unless University regulations state otherwise.

Ordinances of the Lexington-Fayette Urban County Government basically parallel the state laws.

Any member of the University student body, faculty, or staff who violates these defined standards of conduct shall be subject to appropriate disciplinary action up to and including suspension and/or termination. The specifically defined standards of conduct, the disciplinary procedures, and the appropriate sanctions are detailed in the codes of student conduct and in the Administrative Regulations 6:4, and Human Resource Policy & Procedures Numbers 13.0 and 14.0).

In addition, it is a violation of state law to operate a motor vehicle while under the influence of any substance which may impair one's driving ability (drugs or alcoholic beverages).

## Sanctions

Under University regulation, students who violate this standard of conduct are subject to disciplinary action from a minimum of a warning to a maximum of suspension from the University. Students who reside in University Housing are subject to further disciplinary action which may vary from a warning to termination of their housing contract.

Faculty and staff are subject to disciplinary action from a minimum of a warning to a maximum of termination from University employment.

Under state and federal drug laws, the gravity of the sanction depends on the classification of the controlled substance, the particular activity involved (possession or trafficking which includes manufacture, sale and possession with intent to sell), and whether or not multiple convictions are involved.

Specific penalties under federal and state laws for trafficking in various controlled substances are outlined in Appendix A to this policy.

## Notice of Drug-Related Conviction

In compliance with the Federal Drug-Free Workplace Act of 1988, **any** employee shall notify the immediate supervisor if the employee is convicted of a criminal drug offense occurring in the workplace or while on University business within five (5) days of the conviction. The University shall take appropriate sanction and remedies in accordance within its policies. The provisions of this section are applicable to students who are employees of the University. If the employee is under a federal contract or grant, the University shall notify the contracting or granting agency of the conviction and of its actions. This section of this policy is also applicable to students who receive a Pell grant (federal grant).

## Health Risks

The scope and impact of health risks from alcohol and drug abuse are both alarming and well-documented, ranging from mood-altering to life-threatening, with consequences that extend beyond the individual to family, organizations and society at large. The University of Kentucky, therefore, conducts regular programs to educate its students, faculty and staff that consumption and use of drugs may alter behavior, distort perception, impair thinking, impede judgment, and lead to physical or psychological dependence.

Alcohol and/or drugs and/or drug abuse may lead to the deterioration of physical health by causing or contributing to various health conditions including but not limited to fatigue, nausea, personal injury, insomnia, pathological organ damage, some forms of cancer, pancreatitis, heart attack, respiratory depression, birth defects, convulsions, coma, and even death. Alcohol and drug abuse may also result in deterioration of mental health by causing or contributing to various conditions such as increased aggression, hallucinations, depression, disorientation, and psychosis.

A detailed list of the effects and health risks associated with the use of many specific drugs appears as Appendix B to this policy.

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident.

Low to moderate doses of alcohol also increases the incidence of a variety of aggressive acts, including spouse and child abuse.

Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information.

Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at greater risk than other youngsters of becoming alcoholics.

### Training and Counseling Resources

Continuous efforts are made to make students, faculty and staff aware of the on-campus and off-campus programs which provide information and professional services on matters related to the abuse of alcohol and drugs.

Lists of sources for information and counseling for students are published in the *Kernel* regularly. Students are encouraged to contact the Dean of Students and/or the Office of Residence Life for information and appropriate referral.

Counseling is provided by such areas as the University Health Services Counseling Center, Educational, School, and Counseling Psychology, the Medical Student Support Services program (MS3), and On-Call Counselors in the residence halls system.

For faculty and staff, the REFER Counseling program provides information as to resources specifically available to employees.

Other counseling, treatment, and rehabilitation services are available in the Lexington community as well as communities throughout the state in which College of Agriculture employees are located.

- Comprehensive Care Centers offer both counseling and treatment. (Visit [www.bluegrass.org](http://www.bluegrass.org) for locations and contact information.)
- In the Lexington area, the number for Alcoholics Anonymous (AA) is 859-225-1212. (Check local telephone directory for listings.)
- The Chrysalis House Inc. 859-977-2501 offers long term, half-way house residential treatment for recovering chemically dependent women.
- University of Kentucky Family Center: 859-257-7755.
- REFER Counseling Program: 859-257-1467.

Many other services are available and may be located by looking in the local telephone directory yellow pages under "Social Services" or "Alcohol Abuse & Addiction – Information & Treatment" or in the section at the front of the telephone directory. Services may also be located by searching on-line.

### Policy Review

This policy statement and any revisions thereto shall be distributed annually to students and employees. Distribution shall be the responsibility of the Vice President for Student Affairs and the Associate Vice President for Human Resources.

**Annual Review Policy** – The Vice President for Student Affairs and the Associate Vice President for Human Resources shall review and interpret policies and procedures relevant to this policy statement. These two administrators shall jointly be responsible for maintaining records of the annual review of the policy statement.

# Appendix A

Federal Trafficking Penalties Schedules I, II, III, IV and V (except Marijuana)							
CSA	PENALTY		Quantity	DRUG(SCHEDULE)	Quantity	PENALTY	
	1st Offense	2nd Offense				1st Offense	2nd Offense
I  and	Not less than 5 years, and not more than 40 years.	Not less than 10 years, and not more than life.	5-49 gms pure or 50-499 gms mixture	<b>METHAMPHETAMINE (II)</b>	50 gms or more pure or 500 gms or more mixture	Not less than 10 years, and not more than life.	Not less than 20 years, and not more than life.
			100-999 gms mixture	<b>HEROIN (I)</b>	1 kg or more mixture		
	If death or serious bodily injury, not less than 20 years or more than life.	If death or serious bodily injury, not less than life imprisonment.	500-4,999 gms mixture	<b>COCAINE (II)</b>	5 kgs or more mixture	If death or serious bodily injury, not less than 20 years, or more than life.	If death or serious bodily injury, life imprisonment.
			28-279 gms mixture	<b>COCAINE BASE (II)</b>	280 gms or more mixture		
	Fine of not more than \$5 million if an individual, \$25 million if not an individual.	Fine of not more than \$8 million individual, \$50 million if not an individual.	10-99 gms pure or 100-999 gms mixture	<b>PCP (II)</b>	100 gms or more pure or 1 kg or more mixture	Fine of not more than \$10 million if an individual, \$50 million if other not an individual.	Fine of not more than \$20 million if an individual, \$75 million if not an individual.
			1 - 9 gms mixture	<b>LSD (I)</b>	10 gms or more mixture		
			40-399 gms mixture	<b>FENTANYL (IV)</b>	400 gms or more mixture		
		10-99 gms mixture	<b>FENTANYL ANALOGUE (I)</b>	100 gms or more mixture		<b>2 or More Prior Offenses:</b> Life imprisonment. Fine of not more than \$20 million if an individual, \$75 million if not an individual.	
II	<b>DRUG</b>	<b>Quantity</b>	<b>First Offense</b>		<b>Second Offense</b>		
	Other I and II	Any	Not more than 20 years. If death or serious bodily injury, not less than 20 years or more than life. Fine \$1 million if an individual, \$5 million if not an individual.		Not more than 30 years. If death or serious bodily injury, life imprisonment. Fine \$2 million if an individual, \$10 million if not an individual.		
	Gamma Hydroxybutric Acid (GHB)	Any					
Flunitrazepam	1 gm or more						
III	All	Any	Not more than 10 years. If death or serious bodily injury, not more than 15 years. Fine of not more than \$500,000 if an individual, \$2.5 million if not an individual.		Not more than 20 years. If death or serious bodily injury, not more than 30 years. Fine of not more than \$1 million if an individual, \$5 million if not an individual.		
IV	All	Any	Not more than 5 years. Fine of not more than \$250,000 if an individual, \$1 million if not an individual.		Not more than 10 years. Fine of not more than \$500,000 if an individual, \$2 million if not an individual.		
	Flunitrazepam	less than 1 gm					
V	All	Any	Not more than 1 year. Fine of not more than \$100,000 if an individual, \$250,000 if not an individual.		Not more than 4 years. Fine of not more than \$200,000 if an individual, \$500,000 if not an individual.		

## Appendix A

As of August 1, 2017

Federal Trafficking Penalties – Marijuana (Schedule I)			
Description	Quantity	First Offense	Second Offense*
<b>Marijuana</b> mixture containing detectable quantity*	1,000 kg or more mixture or 1,000 or more plants	Not less than 10 years, or more than life. If death or serious bodily injury, not less than 20 years, or more than life. Fine of not more than \$10 million if an individual, \$50 million if not an individual.	Not less than 20 years, or more than life. If death or serious bodily injury, life imprisonment. Fine of not more than \$20 million individual, \$75 million if not an individual.
<b>Marijuana</b> mixture containing detectable quantity*	100 kg to 999 kg mixture, or 100-999 plants	Not less than 5 years, or more than 40 years. If death or serious bodily injury, not less than 20 years, or more than life. Fine of not more than \$5 million if an individual, \$25 million if not an individual.	Not less than 10 years, or more than life. If death or serious bodily injury, life imprisonment. Fine of not more than \$8 million if an individual, \$50 million if not an individual.
<b>Marijuana</b>	50-99 kg mixture or 50 to 99 plants	Not more than 20 years. If death or serious bodily injury, not less than 20 years, or more than life. Fine of not more than \$1 million if an individual, \$5 million if not an individual.	Not more than 30 years. If death or serious bodily injury, life imprisonment. Fine of not more than \$2 million if an individual, \$10 million if not an individual.
<b>Hashish</b>	more than 10 kg		
<b>Hashish Oil</b>	more than 1 kg		
<b>Marijuana</b>	1-49 plants or less than 50 kg	Not more than 5 years. Fine of not more than \$250,000 if an individual, \$1 million if not an individual.	Not more than 10 years. Fine of not more than \$500,000 if an individual, \$2 million if not an individual.
<b>Hashish</b>	10 kg or less		
<b>Hashish Oil</b>	1 kg or less		

\*Includes Hashish and Hashish Oil

(Marijuana is a Schedule I Controlled Substance.)

## Appendix B

Controlled Substances – Uses & Effects									
DRUGS CSA SCHEDULES	COMMON OR STREET NAMES	MEDICAL USES	DEPENDENCE		USUAL METHODS OF ADMINIS- TRATION	POSSIBLE EFFECTS	EFFECTS OF OVERDOSE	WITHDRAWAL SYMPTOMS	
			Physical	Psycho- logical					
<b>NARCOTICS</b>									
Heroin	I	Big H, Black Tar, Chiva, Hell Dust, Horse, Negra, Smack, Thunder	None	High	High	Injected, smoked, sniffed, snorted	Slowed physical activity, constriction of the pupils, flushing of the face and neck, constipation, nausea, vomiting, slowed/rapid heartbeat and slowed breathing	Constricted (pinpoint) pupils, cold clammy skin, confusion, convulsions, extreme drowsiness slowed breathing, coma and death	Watery eyes, runny nose, yawning, and sweating
Hydromorphone	II	D, Dilies, Dust, Footballs, Juice, Smack	Analgesic	High	High	Oral, injected			
Methadone	II	Amidone, Chocolate Chip Cookies, Fizzies, Maria, Pastora, Salvia, Street Methadone, Wafer	Analgesic	High	High	Oral, injected			
Morphine	II	Dreamer, Emsel, First Line, God's Drug, Hows, MS, Mister Blue, Morf, Morpho, Unkle	Analgesic	High	High	Oral, injected			
Opium	II	Aunt Emma, Big O, Black Pill, Chandoo/Chandu Chinese Molasses, Chinese Tobacco, Toys	Analgesic	High	High	Oral, injected, smoked			
Oxycodone	II	Hillbilly Heroin, Kicker, oC, ox, Roxy, Perc, oxy	Analgesic	High	High	Oral, injected			
<b>STIMULANTS</b>									
Amphetamines	I	Bennies, Black Beauties, Crank, Ice, Speed, Uppers	ADHD, nasal congestion, narcolepsy	High	High	Oral, injected	Dizziness, tremors, headache, increased blood pressure and pulse rates, flushed skin, chest pain with palpitations, excessive sweating, vomiting, and abdominal cramps	Agitation, delusions, hallucinations, high fever, convulsions, difficulty breathing, cardiovascular collapse and death	Depression, anxiety, drug craving, and extreme fatigue (aka "crash")
Cocaine	II	Coca, Coke, Crack, Flake, Snow and Soda Cot	Topical local anesthetic	High	High	Injected, smoked, sniffed, snorted			
Khat	I, IV	Abbyssinian Tea, African Salad, Catha, Chat, Kat, Oat	None	High	High	Oral, smoked			
Methamphetamine	II	Balu, Bikers Coffee, Black Beauties, Chalk, Chicken Feed, Crank, Crystal, Glass, Go-Fast, Ice, Meth, Poor Man's Cocaine, Shabu, Shards, Speed, Stove Top, Tina, Trash, Tweak, Uppers, Yellow Bam	Obesity, ADHD	High	High	Oral, injected, smoked, sniffed, snorted			
<b>DEPRESSANTS</b>									
Barbiturates	II, III, IV	Barbs, Block Busters, Christmas Trees, Goof Balls, Pinks, Red Devils, Red & Blues, Yellow Jackets	Anesthetic, anticonvulsant, hypnotic, sedative	High	High	Oral, injected	Amnesia, slurred speech, loss of motor coordination, weakness, headache, lightheadedness, blurred vision, dizziness, nausea, vomiting, low blood pressure, slowed breathing	Slowed heart rate and breathing, clammy skin, weak and rapid pulse, severe sedation, unconsciousness, coma, and death	Insomnia, anxiety, tremors, increased heart rate and blood pressure, psychotic thoughts, can be life-threatening
Benzodiazepines	IV	Benzos, Downers	Sedative, anxiety, seizures	Low	Low	Oral, injected			
GHB	I, III	Easy Lay, G, Georgia Home Boy, GHB, Goop Grievous Bodily Harm, Liquid Ecstasy, Liquid X	None	High	High	Oral			
Rohypnol	IV	Circles, Forget-Me-Pill, La Rocha, Lunch Money Drug, Mexican Valium, Roaches, Rohypnol, Row-Shay, Roofies, Wolfies	None	Low	Low	Oral			

## Appendix B

## Controlled Substances – Uses &amp; Effects, continued

DRUGS CSA SCHEDULES	COMMON OR STREET NAMES	MEDICAL USES	USUAL METHODS OF ADMINISTRATION	POSSIBLE EFFECTS	EFFECTS OF OVERDOSE	WITHDRAWAL SYMPTOMS	
<b>HALLUCINOGENS</b>							
Ecstasy/MDMA	I	Adam, Beans, Clarity, Disco Biscuit, E, Eve, Go Hug Drug, Lover's Speed, MDMA, Peace, STP, X, XTC	None	Oral, smoked, sniffed, snorted	Elevated heart rate, increased blood pressure, dilated pupils	Respiratory depression, coma, convulsions, seizures, death	Flashbacks, depression, muscle spasms, aggressive, hostile or violent behavior, high blood pressure, rapid heart rate
K2/Spice	I	Spice, K2, Blaze, RedX Dawn, Paradise, Derron, Black Magic, Crazy Clown	None	Oral, smoked, sniffed, snorted			
Ketamine	III	Cat Tranquilizer or Valium, Jet K, Kit Kat, Purple, Special K, Super K, Vitamin K	Anesthetic	Oral, injected, smoked, sniffed, snorted			
LSD	I	Acid, Blotter Acid, Dots, Mellow Yellow, Window Pane	None	Oral			
Peyote & Mescaline	I	Buttons, Cactus, Mesc, Peyoto	None	Oral, smoked			
Psilocybin	I	Magic Mushrooms, Mushrooms, Shrooms	None	Oral			
<b>MARIJUANA / CANNABIS</b>							
and Marijuana Concentrates - THC Extractions	I, III	Aunt Mary, Blunts, Chronic, Dope, Gangsta, Grass Hash, Herb, Indo, Joint, Mary Jane, Pot, Reefer, Weed, 710, Wax, Ear Wax, Honey Oil, Budder, BHO	None	Oral, smoked	Sedation, blood shot eyes, increased appetite, lower blood pressure, increased heart rate	Unknown	Restlessness, irritability, sleep difficulties, no appetite
<b>STEROIDS</b>							
	III	Arnolds, Juice, Pumpers, Roids, Stackers, Weight Gainers	Testosterone deficiency	Oral, injected, topical	Side effects include: Acne, early sexual development, stunted growth, deepened female voice, increased facial & body hair, menstrual irregularities, reduced sperm count, sterility, male pattern baldness, enlarged male breast tissue, prostate cancer		
<b>INHALANTS</b>							
		Gluey, Huff, Rush, Whippets	None	Sniffing, snorting, bagging, huffing	Weight loss, muscle weakness, disorientation, irritability, depression	Unconsciousness, death	Unknown
<b>DRUGS OF CONCERN *CURRENTLY NOT REGULATED BY THE CONTROLLED SUBSTANCE ACT.</b>							
Bath Salts*		Bliss, Blue Silk, Cloud Nine, Drone, Energy-1, Ivory Wave, Lunar Wave, MeowMeow, Ocean Burst, Pure Ivory, Purple Wave, Red Dove, Snow Leopard, Stardust, Vanilla Sky, White Dove, White Knight, White Lightening	None	Oral, injected, smoked, sniffed, snorted	Side effects include: paranoia, hypertension, hyperthermia, rapid heartbeat, sweating, teeth grinding, palpitations, seizures, hallucinations, delusions, headaches, death		
DXM*		CCC, Dex, DXM, Poor Man's PCP, Robo, Rojo Skittles, Triple C, Velvet	Cough Suppressant	Oral	Side effects include: confusion, inappropriate laughter, agitation, paranoia, hallucinations, over-excitability, lethargy, loss of coordination, slurred speech, sweating, hypertension		
Salvia Divinorum*		Maria Pastora, Sally-D, Salvia	None	Oral, smoked, vaporized	Side effects include: loss of coordination, dizziness, slurred speech, lack of coordination		

## COLLEGE OF AGRICULTURE, FOOD AND ENVIRONMENT

Nancy M. Cox, Dean

### AGRICULTURAL COMMUNICATIONS

Laura Skillman, Director

Carla G. Craycraft, Extension Professor Emerita, Ph.D., Oklahoma State, 1981  
Joe B. Williams, Extension Assistant Professor Emeritus, Ed.D., Kentucky, 1971

### AGRICULTURAL ECONOMICS

Barry J. Barnett, Chair

Barry J. Barnett, Professor, Ph.D., Kentucky, 1993  
Robert Lee Beck, Professor Emeritus, Ph.D., Michigan State, 1963  
Fred J. Benson, Extension Professor Emeritus, Ph.D., Missouri, 1972  
Barry Wright Bobst, Associate Professor Emeritus, Ph.D., Washington State, 1966  
Russell Herbert Brannon, Professor Emeritus, Ph.D., Wisconsin, 1967  
Roger M. Brown, Special Assistant Professor, Ph.D., Auburn, 2004  
Steven Buck, Assistant Professor, Ph.D., California-Berkeley, 2011  
Kenneth H. Burdine, Extension Associate Professor, Ph.D., Kentucky, 2011  
Orlando D. Chambers, Adjunct Assistant Professor, Ph.D., Kentucky, 1995  
James Earnest Criswell, Assistant Professor Emeritus, Ph.D., Minnesota, 1966  
Siddhartha Dasgupta, Adjunct Assistant Professor, Ph.D., Texas A&M, 1997  
Alison F. Davis, Extension Professor, Ph.D., North Carolina State, 2004  
Todd Davis, Extension Assistant Professor, Ph.D., Purdue, 2001  
David Lee Debertin, Professor Emeritus, Ph.D., Purdue, 1973  
Carl R. Dillon, Professor, Ph.D., Texas A&M, 1991  
David Freshwater, Professor Emeritus, Ph.D., Michigan State, 1977  
William T. Gorton, III, Adjunct Assistant Professor, J.D., Kentucky, 1988  
Gregory Halich, Extension Associate Professor, Ph.D., Virginia Tech, 2005  
Robert Wesley Harrison, Professor, Ph.D., Kentucky, 1994  
Craig Lynn Infanger, Professor Emeritus, Ph.D., Washington State, 1974  
Stephen G. Isaacs, Extension Professor, Ph.D., Tennessee, 1992  
Larry D. Jones, Extension Professor Emeritus, Ph.D., Purdue, 1973  
Fred Edward Justus, Jr., Professor Emeritus, Ph.D., Illinois, 1955  
Yoko Kusunose, Assistant Professor, Ph.D., California-Davis, 2010  
Tyler B. Mark, Assistant Professor, Ph.D., Louisiana State, 2010  
Loys L. Mather, Associate Professor Emeritus, Ph.D., Wisconsin, 1968  
Leigh J. Maynard, Professor, Ph.D., Penn State, 1998  
Lee Meyer, Extension Professor Emeritus, Ph.D., Purdue, 1979  
Michael R. Reed, Professor, Ph.D., Iowa State, 1979  
Steven K. Riggins, Extension Professor Emeritus, Ph.D., Cornell, 1977  
Lynn W. Robbins, Professor Emeritus, Ph.D., Michigan State, 1975  
Jairus J. Rossi, Research Assistant Professor, Ph.D., Kentucky, 2013  
Sayed H. Saghalian, Professor, Ph.D., Kentucky, 1992  
John K. Schieffer, Assistant Professor, Ph.D., Ohio State, 2008  
Jordan Shockley, Extension Assistant Professor, Ph.D., Kentucky, 2010  
Jerry Robert Skees, Professor Emeritus, Ph.D., Michigan State, 1981  
William M. Snell, Extension Professor, Ph.D., Kentucky, 1989  
Christina J. Stowe, Associate Professor, Ph.D., Texas A&M, 2002  
Richard L. Trimble, Extension Professor Emeritus, Ph.D., Michigan State, 1973  
Lionel Williamson, Extension Professor Emeritus, Ph.D., Missouri, 1977  
Timothy Woods, Extension Professor, Ph.D., Michigan State, 1996  
Yuqing Zheng, Associate Professor, Ph.D., Auburn, 2006

### ANIMAL AND FOOD SCIENCES

Richard D. Coffey, Chair

Debra K. Aaron, Professor, Ph.D., Oklahoma State, 1984  
Curtis W. Absher, Extension Professor Emeritus, Ph.D., Tennessee, 1969

Sunday Adedokun, Assistant Professor, Ph.D., Purdue, 2007  
Glen E. Aiken, Adjunct Associate Professor, Ph.D., Florida, 1989  
Donna M. Amaral-Phillips, Extension Professor, Ph.D., Iowa State, 1988  
Leslie H. Anderson, Extension Professor, Ph.D., Ohio State, 1996  
Kenneth Andries, Adjunct Assistant Professor, Ph.D., Kansas State, 1996  
Tuoying Ao, Adjunct Assistant Professor, Ph.D., Kentucky, 2005  
W. Luke Boatright, Professor, Ph.D., Arkansas, 1994  
James A. Boling, Professor Emeritus, Ph.D., Wisconsin, 1967  
Kristen M. Brennan, Adjunct Assistant Professor, Ph.D., Washington State, 2008  
Phillip J. Bridges, Associate Professor, Ph.D., West Virginia, 1999  
K. Darrh Bullock, Extension Professor, Ph.D., Georgia, 1992  
Walter R. Burris, Extension Professor Emeritus, Ph.D., Kentucky, 1974  
Fernanda Camargo, Extension Associate Professor, Ph.D., Kentucky, 2007  
Austin H. Cantor, Associate Professor Emeritus, Ph.D., Cornell, 1974  
Joao H. Cardoso Costa, Assistant Professor, Ph.D., British Columbia, 2015  
Richard D. Coffey, Extension Professor, Ph.D., Kentucky, 1994  
Robert J. Coleman, Extension Associate Professor, Ph.D., Alberta, 1998  
Victor S. Cortese, Adjunct Assistant Professor, D.V.M., Michigan State, 1980  
Nancy M. Cox, Professor, Ph.D., North Carolina State, 1982  
William L. Crist, Extension Professor Emeritus, Ph.D., Ohio State, 1970  
Gary L. Cromwell, Professor Emeritus, Ph.D., Purdue, 1967  
Karl A. Dawson, Adjunct Professor, Ph.D., Iowa State, 1979  
Roberta M. Dwyer, Professor, D.V.M., Iowa State, 1985  
Lee A. Edgerton, Associate Professor Emeritus, Ph.D., Purdue, 1970  
Donald G. Ely, Professor, Ph.D., Kentucky, 1966  
Michael D. Flythe, Adjunct Assistant Professor, Ph.D., Cornell, 2006  
David L. Harmon, Professor, Ph.D., Nebraska, 1983  
Robert J. Harmon, Professor Emeritus, Ph.D., Guelph, Ontario, 1977  
George Heersche, Jr., Extension Professor, Ph.D., Kansas State, 1975  
Camie Heleski, Senior Lecturer, Ph.D., Michigan State, 2004  
Bernhard Hennig, Professor, Ph.D., Iowa State, 1982  
Clair L. Hicks, Professor Emeritus, Ph.D., Wisconsin, 1974  
Mieke Holder, Assistant Research Professor, Ph.D., Kentucky, 2012  
James L. Klotz, Adjunct Assistant Professor, Ph.D., Tennessee, 2004  
Bruce E. Langlois, Professor Emeritus, Ph.D., Purdue, 1962  
Laurie M. Lawrence, Professor, Ph.D., Colorado State, 1982  
Jeffrey W. Lehmkuhler, Extension Associate Professor, Ph.D., Missouri, 2001  
Merlin D. Lindemann, Professor, Ph.D., Minnesota, 1981  
C. Oran Little, Professor Emeritus, Ph.D., Iowa State, 1960  
James C. Matthews, Professor, Ph.D., Virginia Tech, 1995  
Alan J. McAllister, Extension Professor Emeritus, Ph.D., Ohio State, 1975  
Kyle R. McLeod, Associate Professor, Ph.D., Kentucky, 1995  
George E. Mitchell, Jr., Professor Emeritus, Ph.D., Illinois, 1956  
William G. Moody, Professor Emeritus, Ph.D., Missouri, 1963  
Melissa C. Morgan, Associate Professor, Ph.D., Kentucky, 1990  
Joseph O'Leary, Associate Professor Emeritus, Ph.D., Minnesota, 1974  
Gary R. Parker, Extension Professor Emeritus, Ph.D., Kentucky, 1975  
Anthony J. Pescatore, Extension Professor, Ph.D., Texas A&M, 1981  
James L. Pierce, Adjunct Assistant Professor, Ph.D., Kentucky, 1999  
Gregg K. Rentfrow, Extension Associate Professor, Ph.D., Missouri, 2005  
John C. Robertson, Professor Emeritus, Ph.D., Kentucky, 1960  
Mary G. Rossano, Associate Professor, Ph.D., Michigan State, 2003  
Rachel R. Schendel, Assistant Professor, Ph.D., Karlsruhe Institute of Technology, 2016  
Keith K. Schillo, Associate Professor Emeritus, Ph.D., Wisconsin, 1981  
Herbert J. Strobel, Adjunct Associate Professor, Ph.D., Cornell, 1990  
Surendranath Suman, Professor, Ph.D., Connecticut, 2006  
Fred A. Thrift, Professor Emeritus, Ph.D., Oklahoma State, 1968  
James H. Tidwell, Adjunct Assistant Professor, Ph.D., Mississippi State, 1987  
Juan M. Tricarico, Adjunct Assistant Professor, Ph.D., Kentucky, 2001  
Ray E. Tucker, Professor Emeritus, Ph.D., Kentucky, 1966  
Kristine L. Urschel, Associate Professor, Ph.D., Alberta, 2007  
Eric S. Vanzant, Associate Professor, Ph.D., Kansas State, 1993  
Paul P. Vijayakumar, Extension Assistant Professor, Ph.D., Oklahoma State, 2014  
Jacqueline L. Wahrmund, Lecturer, Ph.D., Oklahoma State, 2011

Changzheng Wang, Adjunct Assistant Professor, Ph.D., Florida, 1990  
 Craig H. Wood, Extension Professor, Ph.D., New Mexico State, 1985  
 Youling L. Xiong, Professor, Ph.D., Washington State, 1989  
 Alexandros Yiannikouris, Adjunct Assistant Professor, Ph.D., University Blaise Pascal, 2004  
 Panayiotis M. Zavos, Professor Emeritus, Ph.D., Minnesota, 1978

## BIOSYSTEMS AND AGRICULTURAL ENGINEERING

Michael D. Montross, Chair

Akinbode A. Adedeji, Assistant Professor, Ph.D., McGill, 2010  
 Carmen T. Agouridis, Extension Associate Professor, Ph.D., Kentucky, 2004  
 Carl H. Bolster, Adjunct Assistant Professor, Ph.D., Virginia, 1999  
 Matthew E. Byers, Adjunct Assistant Professor, Ph.D., Nebraska, 1990  
 Manuel Castillo, Adjunct Associate Professor, Ph.D., University of Murcia, 2002  
 Donald G. Colliver, Professor, Ph.D., Purdue, 1979  
 Czarena Crofcheck, Professor, Ph.D., Kentucky, 2001  
 George A. Duncan, Extension Professor Emeritus, Ph.D., Kentucky, 1979  
 Joseph S. Dvorak, Associate Professor, Ph.D., Kansas State, 2012  
 Dwayne R. Edwards, Professor, Ph.D., Oklahoma State, 1988  
 Robert L. Fehr, Extension Professor Emeritus, Ph.D., Iowa State, 1976  
 William Ford, Assistant Professor, Ph.D., Kentucky, 2014  
 Richard S. Gates, Adjunct Professor, Ph.D., Cornell, 1984  
 Morgan D. Hayes, Extension Assistant Professor, Ph.D., Iowa State, 2012  
 Stephen F. Higgins, Adjunct Assistant Professor, Ph.D., Kentucky, 2004  
 Joshua J. Jackson, Extension Assistant Professor, Ph.D., Kentucky, 2015  
 Kevin W. King, Adjunct Professor, Ph.D., Texas A&M, 2000  
 Samuel G. McNeill, Extension Associate Professor, Ph.D., Tennessee, 1996  
 Michael D. Montross, Professor, Ph.D., Purdue, 1999  
 Sue E. Nokes, Professor, Ph.D., North Carolina State, 1990  
 Douglas G. Overhults, Extension Professor Emeritus, Ph.D., Nebraska, 1982  
 Blaine F. Parker, Professor Emeritus, Ph.D., Michigan State, 1954  
 Frederick A. Payne, Professor Emeritus, Ph.D., Kentucky, 1980  
 Michael Peterson, Professor, Ph.D., Northwestern, 1994  
 Mark Purschwitz, Extension Professor, Ph.D., Purdue, 1989  
 Michael Sama, Associate Professor, Ph.D., Kentucky, 2013  
 Scott A. Shearer, Professor Emeritus, Ph.D., Ohio State, 1986  
 Jian Shi, Assistant Professor, Ph.D., North Carolina State, 2007  
 Ashutosh Singh, Adjunct Assistant Professor, Ph.D. McGill, 2014  
 Timothy S. Stombaugh, Extension Professor, Ph.D., Illinois, 1998  
 Joseph L. Taraba, Extension Professor Emeritus, Ph.D., Ohio State, 1978  
 Linus R. Walton, Professor Emeritus, Ph.D., Tennessee, 1974  
 Richard C. Warner, Extension Professor Emeritus, Ph.D., Clemson, 1982  
 Larry G. Wells, Professor Emeritus, Ph.D., North Carolina State, 1975  
 Gerald Martin White, Professor Emeritus, Ph.D., Purdue, 1960  
 Stephen R. Workman, Professor, Ph.D., North Carolina State, 1990

## COMMUNITY AND LEADERSHIP DEVELOPMENT

Robert Wesley Harrison, Chair

Charles W. Byers, Professor Emeritus, Ph.D., Ohio State, 1972  
 C. Milton Coughenour, Professor Emeritus, Ph.D., Missouri, 1953  
 Patricia H. Dyk, Associate Professor, Ph.D., Utah State, 1990  
 Rebekah B. Epps, Associate Professor, Ph.D., Ohio State, 2010  
 Lorraine E. Garkovich, Professor Emeritus, Ph.D., Missouri, 1976  
 Bryan Hains, Associate Professor, Ph.D., Purdue, 2007  
 Gary L. Hansen, Extension Professor Emeritus, Ph.D., Iowa State, 1978  
 Rosalind P. Harris, Associate Professor, Ph.D., Penn State, 1990  
 Ronald J. Hustedde, Extension Professor, Ph.D., Wisconsin, 1988  
 William J. Jackman, Adjunct Assistant Professor, Ph.D., Virginia Tech, 1991  
 Kenneth R. Jones, Extension Professor, Ph.D., Penn State, 2004  
 Daniel W. Kahl, Assistant Extension Professor, Ph.D., Kansas State, 2012  
 Richard C. Maurer, Extension Professor Emeritus, Ph.D., Ohio State, 1977  
 Alissa L. Meyer-Rossi, Senior Lecturer, Ph.D., Penn State, 2008  
 Martha Nall, Extension Professor Emerita, Ed.D., North Carolina State, 1983  
 Laura Rice, Assistant Professor, Ph.D., Penn State, 2015  
 Kristina Ricketts, Extension Associate Professor, Ph.D., Florida, 2005  
 Karen E. Rignall, Assistant Professor, Ph.D., Kentucky, 2012  
 Lindsay Shade, Lecturer, Ph.D., Kentucky, 2017  
 Darryl Strode, Adjunct Assistant Professor, Ph.D., Kentucky, 2012  
 Keiko Tanaka, Professor, Ph.D., Michigan State, 1997  
 Rodney W. Tulloch, Associate Professor Emeritus, Ph.D., Penn State, 1972  
 Quentin R. Tyler, Adjunct Assistant Professor, Ph.D., Kentucky, 2011  
 Stacy K. Vincent, Associate Professor, Ph.D., Missouri, 2010  
 Paul D. Warner, Extension Professor Emeritus, Ph.D., Ohio State, 1973  
 Randy D. Weckman, Associate Professor Emeritus, Ph.D., Minnesota, 1989

Deborah B. Witham, Professor Emerita, Ph.D., Indiana, 1981  
 Julie N. Zimmerman, Extension Professor, Ph.D., Cornell, 1997

## DIETETICS AND HUMAN NUTRITION

Janet Mullins, Interim Chair

Kwaku Addo, Associate Professor Emeritus, Ph.D., Washington State, 1991  
 Sandra Bastin, Extension Professor, Ph.D., R.D., L.D., Kentucky, 1995  
 Dawn P. Brewer, Assistant Professor, Ph.D., R.D., L.D., Georgia, 2009  
 Lilian Brislen, Adjunct Assistant Professor, Ph.D., Kentucky, 2017  
 Ching K. Chow, Professor, Ph.D., Illinois-Urbana, 1969  
 Elizabeth L. Combs, Lecturer, M.S., R.D., L.D., Kentucky, 2010  
 Kyle Flack, Assistant Professor, Ph.D. Virginia Polytechnic Institute and State University, 2014  
 Hazel Waldron Forsythe, Associate Professor Emerita, Ph.D., R.D., Oklahoma State, 1987  
 Lisa Gaetke, Professor Emerita, Ph.D., R.D., Kentucky, 1994  
 Alison Gustafson, Associate Professor, Ph.D., R.D., L.D., North Carolina, 2010  
 Jessica Houlihan, Lecturer, PA-C, Kentucky, 2014  
 Yolanda Jackson, M.S., R.D., L.D., Kentucky, 2012  
 Janet Kurzynske, Extension Professor Emerita, Ph.D., R.D., Tennessee, 1975  
 Heather Norman-Burgdolf, Extension Assistant Professor, Ph.D., Kentucky, 2017  
 Janet Tietyen Mullins, Extension Professor, Ph.D., R.D., L.D., Kansas State, 1993  
 Julie Plasencia, Assistant Professor, Ph.D., R.D., L.D., Michigan State, 2016  
 Aaron K. Schwartz, Lecturer, M.S., Kentucky, 2014  
 Robin Shoemaker, Assistant Professor, Ph.D., Kentucky, 2015  
 Tammy J. Stephenson, Associate Professor, Ph.D., Kentucky, 2001

## ENTOMOLOGY

Subba Reddy Palli, Chair

Ricardo T. Bessin, Extension Professor, Ph.D., Louisiana State, 1990  
 Grayson C. Brown, Professor Emeritus, Ph.D., Washington State, 1978  
 Douglas Lee Dahlman, Professor Emeritus, Ph.D., Iowa State, 1965  
 Zachary Devries, Assistant Professor, Ph.D., North Carolina, 2017  
 Stephen Dobson, Professor, Ph.D., California-Berkeley, 1996  
 Luke E. Dodd, Adjunct Assistant Professor, Ph.D., Kentucky, 2010  
 Julian Dupuis, Assistant Professor, Ph.D., Alberta, 2016  
 Charles W. Fox, Professor, Ph.D., California-Berkeley, 1993  
 Paul H. Freytag, Professor Emeritus, Ph.D., Ohio State, 1963  
 David J. Gonthier, Assistant Professor, Ph.D. Michigan, 2014  
 Kenneth F. Haynes, Professor, Ph.D., California-Davis, 1982  
 Douglas W. Johnson, Extension Professor Emeritus, Ph.D., Florida, 1980  
 John J. Obrycki, Professor, Ph.D., Cornell, 1982  
 Subba Reddy Palli, Professor, Ph.D., Western Ontario, 1987  
 Daniel A. Potter, Professor, Ph.D., Ohio State, 1978  
 Michael F. Potter, Extension Professor, Ph.D., Arizona, 1982  
 Lynne K. Rieske-Kinney, Professor, Ph.D., Wisconsin, 1995  
 Clare C. Rittschof, Assistant Professor, Ph.D., Florida, 2011  
 John D. Sedlacek, Adjunct Assistant Professor, Ph.D., Kentucky, 1985  
 Michael Sharkey, Professor Emeritus, Ph.D., McGill, 1983  
 Brian Stevenson, Ph.D., State University of New York-Stony Brook, 1989  
 Zainulabeuddin Syed, Assistant Professor, Ph.D., University of Neuchatel, 2002  
 Nicholas M. Teets, Assistant Professor, Ph.D., The Ohio State University, 2012  
 Lee H. Townsend, Jr., Extension Professor Emeritus, Ph.D., Virginia Tech, 1977  
 Raul T. Villanueva, Assistant Professor, Ph.D., Florida, 2002  
 Bruce A. Webb, Professor, Ph.D., Washington, 1988  
 Thomas C. Webster, Adjunct Assistant Professor, Ph.D., California-Davis, 1986  
 Jennifer A. White, Associate Professor, Ph.D., Minnesota, 2005  
 Steve Yanoviak, Adjunct Associate Professor, Ph.D., Oklahoma, 1999  
 Kenneth V. Yeargan, Professor Emeritus, Ph.D., California-Davis, 1974  
 Xuguo Zhou, Associate Professor, Ph.D., Nebraska, 2002

## FAMILY SCIENCES

Ronald Werner-Wilson, Chair

Suzanne B. Badenhop, Extension Professor Emerita, Ph.D., Cornell, 1970  
 Darla R. Botkin, Associate Professor Emerita, Ph.D., Tennessee, 1983  
 Gregory W. Brock, Professor Emeritus, Ph.D., Penn State, 1978  
 John F. Crosby, Professor Emeritus, Ph.D., Syracuse, 1970  
 Ruth Ann Crum, Associate Professor Emerita, M.S., Kentucky, 1980  
 Kenneth Culp III, Adjunct Associate Professor, Ph.D., Purdue, 1995  
 Robert H. Flashman, Extension Professor Emeritus, Ph.D., Ohio State, 1976  
 Raymond Forgue, Associate Professor Emeritus, Ph.D., Virginia Tech, 1980  
 Diana L. Halem, Senior Lecturer, Ph.D., Kentucky, 1998  
 Jason Hans, Professor, Ph.D., Missouri, 2004

Claudia J. Heath, Professor, Ph.D., Iowa State, 1981  
 Gladys J. Hildreth, Professor Emerita, Ph.D., Michigan State, 1973  
 Jennifer L. Hunter, Extension Professor, Ph.D., Kentucky, 2010  
 Hyungsoo Kim, Associate Professor, Ph.D., Kyoto, 2000  
 Amy F. Kostelic, Associate Professor, Ph.D., Kentucky, 2006  
 Sandra Miller, Professor Emerita, Ph.D., Ohio State, 1971  
 David C. Payne, Associate Professor Emeritus, Ph.D., Indiana, 1965  
 Samuel Quick, Extension Professor Emeritus, Ph.D., Florida State, 1975  
 D. Bruce Ross III, Assistant Professor, Ph.D., Georgia, 2017  
 Donna R. Smith, Special Associate Professor, Ph.D., Ohio State, 1989  
 Ann Vail, Professor, Ph.D., Ohio State, 1991  
 Alexander T. Vazsonyi, Professor, Ph.D., Arizona, 1995  
 Retia Scott Walker, Professor Emerita, Ph.D., Iowa State, 1982  
 O'Neal Weeks, Professor Emeritus, Ph.D., North Carolina, 1972  
 Ronald Werner-Wilson, Professor, Ph.D., Georgia, 1993  
 Tracey Werner-Wilson, Lecturer, M.S.W., Western Michigan, 1995  
 Nathan D. Wood, Associate Professor, Ph.D., Brigham Young, 2004

## FORESTRY AND NATURAL RESOURCES

Jeffrey W. Stringer, Chair

Albert Abbott, Adjunct Assistant Professor, Ph.D., Brown, 1981  
 Mary A. Arthur, Professor, Ph.D., Cornell, 1990  
 Christopher D. Barton, Professor, Ph.D., Kentucky, 1999  
 Danna Baxley, Adjunct Assistant Professor, Ph.D., Southern Mississippi, 2007  
 John Brunjes, Adjunct Assistant Professor, Ph.D., Texas Tech, 2005  
 Terrance Conners, Extension Associate Professor, Ph.D., Virginia Tech, 1985  
 Marco A. Contreras, Associate Professor, Ph.D., Montana, 2010  
 Claudia A. Cotton, Adjunct Assistant Professor, Ph.D., Virginia Tech, 2010  
 John J. Cox, Associate Professor, Ph.D., Kentucky, 2003  
 Darryl W. Cremeans, Adjunct Instructor, Ph.D., Kentucky, 1992  
 Ellen Crocker, Extension Assistant Professor, Ph.D., Cornell, 2015  
 Tyler J. Dreaden, Adjunct Assistant Professor, Ph.D., Florida, 2014  
 Wendell R. Haag, Adjunct Assistant Professor, Ph.D., Mississippi, 2002  
 Deborah B. Hill, Extension Professor Emeritus, Ph.D., Yale, 1977  
 Michael J. Lacki, Professor, Ph.D., North Carolina State, 1984  
 Laura R. Lhotka, Adjunct Instructor, Ph.D., Auburn, 2006  
 John Lhotka, Associate Professor, Ph.D., Auburn, 2006  
 Monte McGregor, Adjunct Assistant Professor, Ph.D., Auburn, 2000  
 Charles Dana Nelson, Adjunct Professor, Ph.D., Minnesota, 1988  
 Thomas O. Ochuodho, Assistant Professor, Ph.D., New Brunswick, 2013  
 Robert Paratley, Adjunct Instructor, M.S., Cornell, 1985  
 Steven J. Price, Associate Professor, Ph.D., Wake Forest, 2011  
 James M. Ringe, Professor, Ph.D., Purdue, 1983  
 Matthew Springer, Extension Assistant Professor, Ph.D., Southern Illinois, 2016  
 Jeffrey W. Stringer, Extension Professor, Ph.D., Kentucky, 1993  
 David B. Wagner, Associate Professor Emeritus, Ph.D., California-Davis, 1986  
 Jian Yang, Assistant Professor, Ph.D., Missouri, 2005

## HORTICULTURE

Mark Williams, Interim Chair

Robert G. Anderson, Extension Professor Emeritus, Ph.D., Florida, 1976  
 George F. Antonious, Adjunct Assistant Professor, Ph.D., Alexandria, 1983  
 Douglas D. Archbold, Professor, Ph.D., Michigan State, 1982  
 Jack W. Buxton, Associate Professor Emeritus, Ph.D., Kentucky, 1973  
 Seth DeBolt, Professor, Ph.D., Adelaide, 2006  
 Bruce Downie, Associate Professor, Ph.D., Guelph, 1994  
 Winston Dunwell, Extension Professor, Ph.D., Idaho, 1978  
 Richard E. Durham, Extension Professor, Ph.D., Florida, 1990  
 William M. Fountain, Extension Professor, Ph.D., Louisiana, 1979  
 Robert L. Geneve, Professor, Ph.D., Minnesota, 1985  
 Robert L. Houtz, Professor, Ph.D., Michigan State, 1984  
 Dewayne L. Ingram, Extension Professor Emeritus, Ph.D., Tennessee, 1977  
 Krista L. Jacobsen, Assistant Professor, Ph.D., Georgia, 2008  
 R. Terry Jones, Extension Professor Emeritus, Ph.D., Ohio State, 1974  
 Thomas R. Kemp, Professor Emeritus, Ph.D., Kentucky, 1970  
 Carlos R. Lopez, Assistant Professor, Ph.D., Reading University, United Kingdom, 2005  
 Shawn Lucas, Adjunct Assistant Professor, Ph.D., Kentucky, 2013  
 Robert E. McNiel, Extension Professor Emeritus, Ph.D., Purdue, 1975  
 Kirk W. Pomper, Adjunct Associate Professor, Ph.D., Oregon State, 1995  
 C. R. Roberts, Extension Professor Emeritus, Ph.D., Texas A&M, 1964  
 Rachel E. Rudolph, Extension Assistant Professor, Ph.D., Washington State, 2017  
 Ruth Scott, Lecturer, M.S., Kentucky, 2000  
 John C. Snyder, Associate Professor, Ph.D., Minnesota, 1978

John G. Strang, Extension Professor, Ph.D., Oregon State, 1978  
 Leigh Whittinghill, Adjunct Assistant Professor, Ph.D., Michigan State, 2012  
 Mark A. Williams, Professor, Ph.D., California-Irvine, 1998  
 Mary L. Witt, Extension Professor Emerita, Ph.D., Oregon State, 1976

## LANDSCAPE ARCHITECTURE

Ned M. Crankshaw, Chair

Ned M. Crankshaw, Professor, M.L.A., Iowa State, 1988  
 Molly M. Davis, Adjunct Assistant Professor, B.S.L.A., Kentucky, 1987  
 Ryan Hargrove, Associate Professor, Ph.D., North Carolina State, 2007  
 Jayoung Koo, Extension Associate Professor, Ph.D., California-Davis, 2012  
 Brian D. Lee, Professor, Ph.D., Penn State, 2005  
 Thomas J. Nieman, Professor Emeritus, Ph.D., Southern Illinois, 1973  
 Jordan A. Phemister, Assistant Professor, M.L.A., Virginia, 2006  
 Christopher K. Sass, Associate Professor, Ph.D., Kansas State, 2011  
 Horst Schach, Professor Emeritus, M.L.A., California-Berkeley, 1966  
 Andrea Carolina Segura, Senior Lecturer, M.C.P., Cincinnati, 2010

## PLANT AND SOIL SCIENCES

Rebecca L. McCulley, Chair

William A. Bailey, Extension Professor, Ph.D., Virginia Tech, 2002  
 Richard Irven Barnhisel, Professor Emeritus, Ph.D., Virginia Tech, 1964  
 Michael Barrett, Professor, Ph.D., California-Davis, 1980  
 Carol Baskin, Professor, Ph.D., Vanderbilt, 1968  
 Robert L. Blevins, Professor Emeritus, Ph.D., Ohio State, 1967  
 Harold Rhodes Burton, Associate Professor Emeritus, Ph.D., Louisville, 1964  
 Lowell Palmer Bush, Professor Emeritus, Ph.D., Iowa State, 1964  
 Glenn Burton Collins, Professor Emeritus, Ph.D., North Carolina State, 1966  
 Mark S. Coyne, Professor, Ph.D., Michigan State, 1989  
 Elisa M. D'Angelo, Associate Professor, Ph.D., Florida, 1998  
 H. Maelor Davies, Professor Emeritus, Ph.D., London, 1977  
 Randy D. Dinkins, Adjunct Associate Professor, Ph.D., University of British Columbia, 1992  
 David C. Ditsch, Professor Emeritus, Ph.D., Virginia Tech, 1991  
 Charles Thomas Dougherty, Professor Emeritus, Ph.D., Purdue, 1966  
 Dennis B. Egli, Professor Emeritus, Ph.D., Illinois, 1969  
 Wilbur W. Frye, Professor Emeritus, Ph.D., Virginia Tech, 1969  
 Lawrence J. Grabau, Professor, Ph.D., Missouri, 1984; Ph.D., Kentucky, 2016  
 J.D. Green, Extension Professor, Oklahoma State, 1986  
 John Hamman Grove, Professor, Ph.D., Georgia, 1980  
 Erin R. Haramoto, Assistant Professor, Ph.D., Michigan State, 2014  
 Jimmy C. Henning, Extension Professor, Ph.D., Kentucky, 1986  
 James Herbek, Extension Professor Emeritus, Ph.D., Illinois, 1970  
 Andrew J. Hiatt, Professor Emeritus, Ph.D., North Carolina State, 1960  
 David Floyd Hildebrand, Professor, Ph.D., Illinois, 1982  
 Arthur G. Hunt, Professor, Ph.D., Brandeis, 1981  
 Isabelle A. Kagan, Adjunct Assistant Professor, Ph.D., Michigan State, 1999  
 Anastasios D. Karathanasis, Professor Emeritus, Ph.D., Auburn, 1982  
 Tomokazu Kawashima, Assistant Professor, Ph.D., California-Los Angeles, 2009  
 Carrie Knott, Extension Associate Professor, Ph.D., Kentucky, 2007  
 Garry Lacefield, Extension Professor Emeritus, Ph.D., Missouri, 1974  
 Brad D. Lee, Extension Associate Professor, Ph.D., California-Riverside, 1999  
 Chad D. Lee, Extension Professor, Ph.D., Michigan State, 2002  
 Travis R. Legleiter, Extension Assistant Professor, Ph.D., Purdue, 2017  
 James R. Martin, Extension Professor Emeritus, Ph.D., Kentucky, 1978  
 Christopher J. Matocha, Associate Professor, Ph.D., Delaware, 2000  
 Rebecca L. McCulley, Professor, Ph.D., Colorado State, 2002  
 Joshua McGrath, Extension Associate Professor, Ph.D., Delaware, 2004  
 David McNear, Associate Professor, Ph.D., Delaware, 2005  
 Robert D. Miller, Special Professor, Ph.D., Kentucky, 1980  
 Luke A. Moe, Associate Professor, Ph.D., Wisconsin-Madison, 2005  
 Gregg Munshaw, Extension Associate Professor, Ph.D., Virginia Tech, 2003  
 Lloyd W. Murdock, Jr., Extension Professor Emeritus, Ph.D., Virginia Tech, 1967  
 Gary K. Palmer, Extension Professor, Ph.D., Tennessee, 1984  
 Robert C. Pearce, Extension Professor, Ph.D., Georgia, 1994  
 Sharyn E. Perry, Professor, Ph.D., Wisconsin-Madison, 1993  
 Todd Wayne Pfeiffer, Professor, Ph.D., Wisconsin-Madison, 1982  
 Timothy D. Phillips, Associate Professor, Ph.D., North Carolina State, 1991  
 Hanna J. Poffenbarger, Assistant Professor, Ph.D., Iowa State, 2017  
 Charles Gustav Poneleit, Professor Emeritus, Ph.D., Purdue, 1968  
 John Leonard Ragland, Professor Emeritus, Ph.D., North Carolina State, 1959  
 Monroe Rasnake, Extension Associate Professor Emeritus, Ph.D., Kentucky, 1973  
 Wei Ren, Assistant Professor, Ph.D., Auburn, 2009  
 Harold B. Rice, Extension Associate Professor Emeritus, Ph.D., North Carolina State, 1966

Edwin L. Ritchey, Extension Associate Professor, Ph.D., Kentucky, 2010  
 Montserrat Salmeron Cortasa, Assistant Professor, Ph.D., University of Lleida, Spain, 2011  
 Travis Shaddox, Research Assistant Professor, Ph.D., Florida, 2004  
 Chris Shepard, Assistant Professor, Ph.D., Arizona, 2018  
 Frank J. Sikora, Adjunct Associate Professor, Ph.D., Illinois, 1986  
 John Leonidas Sims, Professor Emeritus, Ph.D., Iowa State, 1960  
 Karamat Sistani, Adjunct Professor, Ph.D., Oklahoma State 1983  
 Jan Smalle, Associate Professor, Ph.D., Ghent, 1998  
 M. Scott Smith, Professor Emeritus, Ph.D., Michigan State, 1978  
 S. Ray Smith Jr., Extension Professor, Ph.D., Georgia, 1991  
 John Spargo, Adjunct Assistant Professor, Ph.D., Virginia Tech, 2008  
 Chris Teutsch, Extension Associate Professor, Ph.D., Kentucky, 2000  
 Dennis M. TeKrony, Professor Emeritus, Ph.D., Oregon State, 1969  
 William Orville Thom, Extension Professor Emeritus, Ph.D., Missouri, 1975  
 Olga V. Tsyusko, Associate Professor, Ph.D., Georgia, 2004  
 Jason M. Unrine, Associate Professor, Ph.D., Georgia, 2004  
 David Anthony Van Sanford, Professor, Ph.D., North Carolina State, 1981  
 George Joseph Wagner, Professor Emeritus, Ph.D., SUNY at Buffalo, 1974  
 Michael Weintraub, Adjunct Assistant Professor, Ph.D., California-Santa Barbara, 2004  
 Kenneth Lincoln Wells, Extension Professor Emeritus, Ph.D., Iowa State, 1963  
 Ole Wendroth, Professor, Ph.D., Georg-August-University Gottingen, 1990  
 David W. Williams, Professor, Ph.D., Kentucky, 1996  
 Tanja Williamson, Adjunct Assistant Professor, Ph.D., California-Riverside, 1999  
 William W. Witt, Professor Emeritus, Ph.D., North Carolina State, 1974  
 Ling Yuan, Professor, Ph.D., Texas-Austin, 1988  
 Hongyan Zhu, Professor, Ph.D., Texas A&M, 2001  
 Demetrio Zourarakis, Adjunct Assistant Professor, Ph.D., Kentucky, 1992

## PLANT PATHOLOGY

Christopher L. Scharld, Chair

A. Rick Bennett, Professor, Ph.D., West Virginia, 1987  
 Carl A. Bradley, Extension Professor, Ph.D., Illinois-Urbana, 2001  
 Mark L. Farman, Professor, Ph.D., East Anglia, 1990  
 Saied A. Ghabrial, Professor Emeritus, Ph.D., Louisiana, 1963  
 Nicole A. Gauthier, Extension Associate Professor, Ph.D., Louisiana State, 2010  
 Michael M. Goodin, Professor, Ph.D., Penn State, 1996  
 John R. Hartman, Extension Professor Emeritus, Ph.D., Wisconsin, 1971  
 James W. Hendrix, Professor Emeritus, Ph.D., North Carolina State, 1963  
 Donald E. Hershman, Extension Professor Emeritus, Ph.D., Rutgers, 1983  
 R. Louis Hirsch, Lecturer, Ph.D., Arkansas, 2014  
 Aarda Kachroo, Professor, Ph.D., Maharaja Sayajirao University of Baroda, 1999  
 Pradeep Kachroo, Professor, Ph.D., Maharaja Sayajirao University of Baroda, 1995  
 Joseph A. Kuc', Professor Emeritus, Ph.D., Purdue, 1955  
 Peter D. Nagy, Professor, Ph.D., Keszthely, 1990  
 William C. Nesmith, Extension Professor Emeritus, Ph.D., North Carolina State, 1977  
 Emily E. Pfeufer, Extension Assistant Professor, Ph.D., Pennsylvania State, 2014  
 Thomas P. Pirone, Professor Emeritus, Ph.D., Wisconsin, 1960  
 Christopher L. Scharld, Professor, Ph.D., California-Davis, 1983  
 Louis Shain, Professor Emeritus, Ph.D., North Carolina State, 1967  
 John G. Shaw, Professor Emeritus, Ph.D., Wisconsin, 1960  
 Shuh J. Sheen, Professor Emeritus, Ph.D., Minnesota, 1962  
 Robert J. Shepherd, Professor Emeritus, Ph.D., Wisconsin, 1959  
 Malcolm R. Siegel, Professor Emeritus, Ph.D., Maryland, 1962  
 David A. Smith, Professor Emeritus, Ph.D., Cornell, 1974  
 Lisa J. Vaillancourt, Professor, Ph.D., Purdue, 1991  
 Paul Vincelli, Extension Professor, Ph.D., Cornell, 1988  
 Kiersten A. Wise, Extension Professor, Ph.D., North Dakota State, 2008

## RETAILING AND TOURISM MANAGEMENT

Vanessa Jackson, Chair

Desmond Brown, Special Associate Professor Emeritus, Ph.D., Virginia Tech, 1996  
 RayeCarol Cavender, Assistant Professor, Ph.D., Virginia Tech, 2012  
 Elizabeth Easter, Professor, Ph.D., Tennessee, 1982  
 Vanessa Jackson, Professor, Ph.D., Michigan State, 1998  
 Min-Young Lee, Professor, Ph.D., Tennessee, 2007  
 Ying Lu, Assistant Professor, Ph.D., Purdue, 2011  
 Robert Meuret, Lecturer, M.Ed., Northern Arizona, 2002  
 Susan O. Michelman, Associate Professor Emerita, Ph.D., Minnesota, 1992  
 Kim Miller-Spillman, Associate Professor, Ph.D., Wisconsin-Madison, 1990  
 Jason R. Swanson, Associate Professor, Ph.D., North Carolina State, 2010  
 Mika L. Turner-Pryor, Lecturer, M.S., Kentucky, 2005  
 Scarlett C. Wesley, Associate Professor, Ph.D., Tennessee, 1996  
 Pei Zhang, Assistant Professor, Ph.D., South Carolina, 2017

## VETERINARY SCIENCE

David W. Horohov, Chair

Emma Adam, Clinical Assistant Professor, Ph.D., Kentucky, 2016, B.Vet.Med., Royal Veterinary College, 1993  
 Amanda A. Adams, Associate Professor, Ph.D., Kentucky, 2008  
 Laura Michelle Arnold, Clinical Associate Professor, D.V.M., Tennessee-Knoxville, 1990  
 Ernest F. Bailey, Professor, Ph.D., California-Davis, 1980  
 Barry A. Ball, Professor, D.V.M., Georgia, 1981; Ph.D., Cornell, 1987  
 David C. Bolin, Special Associate Professor, D.V.M., Purdue, 1980; Ph.D., Purdue, 1988  
 Uneeda Bryant, Special Associate Professor, D.V.M., Tuskegee Institute, 2002  
 Craig Carter, Special Professor, D.V.M., Ph.D., Texas A&M, 1981, 1993  
 Lynne M. Cassone, Clinical Assistant Professor, D.V.M., Texas A&M, 1999  
 Thomas M. Chambers, Professor, Ph.D., Notre Dame, 1982  
 Seth E. Chapman, Adjunct Assistant Professor, D.V.M., Tennessee, 2002  
 Undine Christmann, Adjunct Assistant Professor, D.V.M., State University of Liege, 1997, Ph.D., Virginia Tech, 2008  
 Ward W. Crowe, Professor Emeritus, D.V.M., Auburn, 1957  
 Michael Cruz Penn, Clinical Instructor, D.V.M., National University of Costa Rica, 2009  
 James M. Donahue, Special Professor Emeritus, Ph.D., Missouri, 1971  
 Erdal Erol, Clinical Associate Professor, D.V.M., Firat University, 1986; Ph.D., Texas A&M, 2004  
 Cynthia Gaskill, Special Professor, D.V.M., Colorado State, 1987; Ph.D., University of Prince Edward Island, 2002  
 Ralph C. Giles, Jr., Special Professor Emeritus, D.V.M., Auburn, 1970  
 Kathryn T. Graves, Clinical Associate Professor, Ph.D., Cornell, 1985  
 Gracie Hale, Librarian II Emerita, M.S., Kentucky, 1990  
 Lenn R. Harrison, Special Professor Emeritus, V.M.D., Pennsylvania, 1967  
 C. B. Hong, Special Professor Emeritus, B.V.Sc., National Taiwan University, 1965; Ph.D., Cornell, 1972  
 David W. Horohov, Professor, Ph.D., Tennessee, 1985  
 Daniel K. Howe, Professor, Ph.D., Purdue, 1992  
 Charles J. Issel, Professor Emeritus, D.V.M., California-Davis, 1969; Ph.D., Wisconsin-Madison, 1973  
 Carney B. Jackson, Special Professor Emeritus, D.V.M., Oklahoma State, 1977  
 Jennifer G. Janes, Special Assistant Professor, Ph.D., Kentucky, 2014; D.V.M., Tennessee-Knoxville, 2006  
 Theodore S. Kalbfleisch, Associate Professor, Ph.D., Boston, 1995  
 Laura Kennedy, Clinical Assistant Professor, D.V.M., Michigan State, 2001  
 Alan T. Loynachan, Special Associate Professor, D.V.M., Ph.D., Iowa State, 2003, 2005  
 James N. MacLeod, Professor, V.M.D., Ph.D., Pennsylvania, 1984, 1990  
 Karen J. McDowell, Associate Professor, Ph.D., Florida, 1986  
 E. Duane Miksch, Extension Professor Emeritus, D.V.M., Kansas State, 1957  
 Martin K. Nielsen, Associate Professor, D.V.M., Royal Agriculture University, 2001; Ph.D., University of Copenhagen, 2007  
 K. B. Poonacha, Special Professor Emeritus, D.V.M., Madras University, India, 1963; Ph.D., Wisconsin, 1972  
 David G. Powell, Extension Professor Emeritus, B.V.Sc., Bristol University, England, 1965; FRCVS, Royal College of Veterinary Surgeons, London, 1980  
 Stephen M. Reed, Adjunct Professor, D.V.M., Ohio State, 1976  
 Rebecca Ruby, Special Assistant Professor, D.V.M., Massey University, 2011  
 Ahmad A. Saied, Clinical Assistant Professor, D.V.M., Jordan University of Science and Technology, 2002, Ph.D., Louisiana State, 2015  
 Carrie L. Shaffer, Assistant Professor, Ph.D., Vanderbilt, 2011  
 Pawel Slusarewicz, Adjunct Assistant Professor, Ph.D., University of London, 1994  
 Edward L. Squires, Adjunct Professor, Ph.D., Wisconsin, 1974  
 Scott Stanley, Professor, Ph.D., Kentucky, 1992  
 Thomas W. Swerczek, Professor Emeritus, D.V.M., Kansas State, 1964; Ph.D., Connecticut, 1969  
 John F. Timoney, Professor Emeritus, M.V.B., National University of Ireland, 1965; D.Sc., National University of Ireland, 1983; Ph.D., National University of Ireland, 1969  
 Peter J. Timoney, Professor, M.V.B., National University of Ireland (UCD), 1964; Ph.D., University of Dublin (Trinity College), Ireland, 1974; FRCVS, Royal College of Veterinary Surgeons, London, 1978  
 Thomas Tobin, Professor, M.V.B., University College Dublin, Ireland, 1964; Ph.D., Toronto, Canada, 1970  
 Mats Troedsson, Professor, D.V.M., Royal Veterinary College, Stockholm, Sweden, 1975, Ph.D., California-Davis, 1991  
 Ashutosh Verma, Adjunct Assistant Professor, Ph.D., Kentucky, 2007  
 Mary Lynne Vickers, Special Associate Professor Emerita, Ph.D., Wisconsin, 1981  
 Neil M. Williams, Special Professor Emeritus, D.V.M., Mississippi State, 1982; Ph.D., Kentucky, 1992  
 Paul L. Wood, Adjunct Professor, Ph.D., Queens University at Kingston, 1977  
 Walter W. Zent, Adjunct Professor, D.V.M., Cornell, 1963

## COLLEGE OF ARTS AND SCIENCES

Mark Kornbluh, Dean

### AEROSPACE STUDIES

(Air Force ROTC)

Lieutenant Colonel Kathleen D. Buss, Chair

Lieutenant Colonel Kathleen D. Buss, Professor, M.A., Embry Riddle, 2006; M.A., Naval Post Graduate School, 2013

Lindsey Colburn, Assistant Professor, B.P.S., Cazenovia College, 2006

Lindsey Phillabaum, Assistant Professor, M.S., Kent State, 2011

### ANTHROPOLOGY

Lisa A. Cliggett, Chair

Steven R. Ahler, Adjunct Assistant Professor, Ph.D., Wisconsin-Milwaukee 1984

Mary K. Anglin, Associate Professor, Ph.D., New School for Social Research, 1990

Lee Blonder,\* Associate Professor, Ph.D., Pennsylvania 1986

Renee M. Bonzani, Lecturer, Ph.D., Pittsburgh, 1995

Lisa Cliggett, Professor, Ph.D., Indiana, 1997

George M. Crothers, Associate Professor, Ph.D., Washington, 1999

Andrew S. Deane,\* Associate Professor, Ph.D., Toronto, 2007

Beth Goldstein,\* Associate Professor, Ph.D., Wisconsin, 1985

N. Thomas Hakansson, Adjunct Professor, Ph.D., Uppsala, 1987

A. Gwynn Henderson, Adjunct Assistant Professor, Ph.D., Kentucky, 1998

Scott R. Hutson, Associate Professor, Ph.D., California-Berkeley, 2004

Hsain Iahiane, Associate Professor, Ph.D., Arizona, 1998

Richard W. Jefferies, Professor, Ph.D., Georgia, 1978

Diane E. King, Associate Professor, Ph.D., Washington State, 2000

Ann Kingsolver, Professor, Ph.D., Massachusetts-Amherst, 1991

Erin Koch, Associate Professor, Ph.D., New School, 2005

Sarah Lyon, Associate Professor, Ph.D., Emory, 2005

Carmen Martinez Novo, Associate Professor, Ph.D., New School for Social Research, 2000

Kim A. McBride, Adjunct Assistant Professor, Ph.D., Michigan State, 1990

Juliana McDonald, Assistant Professor, Ph.D. Kentucky, 2000

Kristin V. Monroe, Assistant Professor, Ph.D., Stanford, 2009

Magdalena N. Muchlinski,\* Associate Professor, Ph.D., Texas-Austin, 2008

Shannon Plank, Lecturer, Ph.D., Boston University, 2003

David Pollack, Adjunct Assistant Professor, Ph.D., Kentucky, 1998

Christopher A. Pool, Professor, Ph.D., Tulane, 1990

Karl B. Raitz,\* Professor, Ph.D., Minnesota, 1970

Shaunna L. Scott,\* Associate Professor, Ph.D., California-Berkeley, 1988

Monica Udvardy, Associate Professor, Ph.D., Uppsala, Sweden, 1990

Helen Jean Wiese,\* Associate Professor, Ph.D., North Carolina, 1971

Mark Whitaker, Professor, Ph.D., Princeton, 1986

Heather Worne, Assistant Professor, Ph.D., Binghamton, 2011

#### Emeriti Faculty

William Y. Adams, Professor Emeritus, Ph.D., Kentucky, 1958

Deborah L. Crooks, Professor Emeritus, Ph.D., SUNY-Buffalo, 1992

Tom D. Dillehay, Professor Emeritus, Ph.D., Texas, 1976

Art Gallaher Jr., Professor Emeritus, Ph.D., Arizona, 1956

Peter D. Little, Professor Emeritus, Ph.D., Indiana, 1983

John van Willigen, Professor Emeritus, Ph.D., Arizona, 1971

\*Joint Appointment

### BIOLOGY

Vincent Cassone, Chair

Carol Baskin, Professor, Ph.D., Vanderbilt, 1968

Ruth Beattie, Professor, Ph.D., Queen's University, Belfast, 1987

Vincent Cassone, Professor, Ph.D., Oregon, 1983

Robin L. Cooper, Professor, Ph.D., Texas Tech, 1989

Philip H. Crowley, Professor, Ph.D., Michigan State, 1975

Melody Danley, Senior Lecturer, Ph.D., West Virginia, 2008

Elizabeth Debski, Associate Professor, Ph.D., Virginia, 1985

Elizabeth Duncan, Assistant Professor, Ph.D., Rockefeller, 2009

Jakub Famulski, Assistant Professor, Ph.D., University of Alberta, 2003

Scott Gleeson, Associate Professor, Ph.D., Michigan State, 1986

Douglas A. Harrison, Associate Professor, Ph.D., Johns Hopkins, 1990

Seth Jones, Senior Lecturer, Ph.D., Emory, 2007

Rebecca Kellum, Associate Professor, Ph.D., Princeton, 1990

Chintan Kikani, Ph.D., University of Texas, 2007

James J. Krupa, Professor, Ph.D., Oklahoma, 1987

Karla Lightfield, Senior Lecturer, Ph.D., California-Berkeley, 2010

Catherine R. Linnen, Associate Professor, Ph.D., Harvard, 2007

D. Nicholas McLetchie, Associate Professor, Ph.D., Tennessee, 1993

Peter M. Mirabito, Associate Professor, Ph.D., Georgia, 1989

Ann C. Morris, Associate Professor, Ph.D., Emory, 2001

Bruce F. O'Hara, Professor, Ph.D., Johns Hopkins, 1988

Claire T. O'Quin, Lecturer, Ph.D., Maryland, 2014

Jeffrey L. Osborn, Professor, Ph.D., Michigan State, 1979

Jennifer L. Osterhage, Assistant Professor, Ph.D., Vanderbilt, 2007

Julie Pendergast, Assistant Professor, Ph.D., Miami, 2012

Erin M. Richard, Lecturer, Ph.D., Medical University of South Carolina, 2009

Brian Rymond, Professor, Ph.D., SUNY-Albany, 1984

Jessica Santollo, Assistant Professor, Ph.D., Florida State, 2010

R. Craig Sargent, Professor, Ph.D., SUNY-Stony Brook, 1981

Eve Schneider, Assistant Professor, Ph.D., Princeton, 2012

Ashley W. Seifert, Associate Professor, Ph.D., Florida, 2009

Kausalya Shenoy, Senior Lecturer, Ph.D., Kentucky, 2012

Jeremiah J. Smith, Associate Professor, Ph.D., Kentucky, 2007

Jeremy Van Cleve, Assistant Professor, Ph.D., Stanford, 2009

David Weisrock, Associate Professor, Ph.D., Washington, 2003

David Westneat, Professor, Ph.D., North Carolina, 1986

#### Emeritus Faculty

Thomas C. Barr, Jr., Professor Emeritus, Ph.D., Vanderbilt, 1958

P. H. Bonner, Associate Professor Emeritus, Ph.D., California-San Diego, 1971

Jim D. Clark, Associate Professor Emeritus, Ph.D., California-Berkeley, 1972

W. S. Cohen, Associate Professor Emeritus, Ph.D., City University of New York, 1970

Wayne H. Davis, Professor Emeritus, Ph.D., Illinois, 1957

Lester Goldstein, Professor Emeritus, Ph.D., Pennsylvania, 1953

Denny O. Harris, Associate Professor Emeritus, Ph.D., Indiana, 1967

Carl E. Henrickson, Associate Professor Emeritus, Ph.D., Ohio State, 1950

John J. Just, Associate Professor Emeritus, Ph.D., Iowa, 1968

Judith A. Lesnaw, Professor Emeritus, Ph.D., Illinois, 1969

John M. Rawls, Jr., Professor, Ph.D., North Carolina, 1973

Gerald A. Rosenthal, Professor Emeritus, Ph.D., Duke, 1966

Sheldon Steiner, Professor Emeritus, Ph.D., Kentucky, 1967

### CHEMISTRY

Mark A. Lovell, Chair

John E. Anthony, Professor, Ph.D., California-Los Angeles, 1994

David A. Atwood, Professor, Ph.D., Texas-Austin, 1992

Samuel G. Awuah, Assistant Professor, Ph.D., Oklahoma, 2013

Lisa C. Blue, Lecturer, Ph.D., Kentucky, 2010

D. Allan Butterfield, Professor, Ph.D., Duke, 1974

Arthur Cammers, Associate Professor, Ph.D., Wisconsin, 1994

Mark Crocker, Professor, Ph.D., Bristol, 1985

Jason DeRouchey, Assistant Professor, Ph.D., Massachusetts-Amherst, 2002

Edith C. Glazer, Associate Professor, Ph.D., California-San Diego, 2003

Kenneth Graham, Assistant Professor, Ph.D., Florida, 2011

Robert B. Grossman, Professor, Ph.D., Massachusetts Institute of Technology, 1992

Beth Guiton, Associate Professor, Ph.D., Pennsylvania, 2008

Marcelo Guzman, Associate Professor, Ph.D., California Institute of Technology, 2006

Doo Young Kim, Associate Professor, Ph.D., Texas-Austin, 2005

Folami T. Ladipo, Associate Professor, Ph.D., Virginia Polytechnic Institute, 1991

Robert A. Lodder,\* Professor, Ph.D., Indiana, 1988

Mark A. Lovell, Professor, Ph.D., Kentucky, 1992

Bert C. Lynn, Jr., Professor, Ph.D., Mississippi State, 1987

Mark S. Meier, Professor, Ph.D., Oregon, 1988

Anne-Frances Miller, Professor, Ph.D., Yale, 1989

Justin Mobley, Adjunct Assistant Professor, Ph.D., Kentucky, 2016

Susan A. Odom, Associate Professor, Ph.D., Georgia Institute of Technology, 2008

Joshua Owen, Lecturer, Ph.D., Kentucky, 2010

Sean Parkin, Adjunct Associate Professor, Ph.D., California-Davis, 1993

Chris Richards, Assistant Professor, Ph.D., Georgia Institute of Technology, 2009

Chad Risko, Assistant Professor, Ph.D., Georgia Institute of Technology, 2005

John P. Selegue, Professor, Ph.D., Massachusetts Institute of Technology, 1979

Allison Soult, Senior Lecturer, Ph.D., Florida State, 2001

H. Peter Spielmann,\* Professor, Ph.D., California-Berkeley, 1991

Ashley J. Steelman, Lecturer, Ph.D., Alabama, 2015

Stephen M. Testa, Associate Professor, Ph.D., Purdue, 1994

Jesse Thompson, Adjunct Assistant Professor, Ph.D., Western Michigan, 2011

Mark D. Watson, Associate Professor, Ph.D., Florida, 1999

David S. Watt,\* Professor, Ph.D., Harvard, 1972

Yinan Wei, Associate Professor, Ph.D., Princeton, 2003

Kim Woodrum, Senior Lecturer, Ph.D., Kentucky, 1989  
Dong-Sheng Yang, Professor, Ph.D., Western Ontario, 1990  
Steven W. Yates, Professor, Ph.D., Purdue, 1973  
\*Joint Appointment

## EARTH AND ENVIRONMENTAL SCIENCES

Edward W. Woolery, Chair

### Regular Faculty

Andrea Erhardt, Assistant Professor, Ph.D., Stanford, 2013  
Frank R. Etensohn, Professor, Ph.D., Illinois 1975  
Rebecca L. Freeman, Assistant Professor, Ph.D., Tulane, 2011  
Alan E. Fryar, Professor, Ph.D., Alberta, 1992  
Michael M. McGlue, Associate Professor, Ph.D., Arizona, 2011  
David P. Moecher, Professor, Ph.D., Michigan, 1988  
Keeley O'Farrell, Assistant Professor, Ph.D., Toronto, 2013  
Dhananjay Ravat, Professor, Ph.D., Purdue, 1989  
J. Ryan Thigpen, Assistant Professor, Ph.D., Virginia Tech, 2009  
Edward W. Woolery, Professor, Ph.D., Kentucky, 1998  
Kevin Yeager, Associate Professor, Ph.D., Texas A&M, 2002

### Research Faculty

William C. Haneberg, Professor, Ph.D., Cincinnati, 1989  
James Hower, Adjunct Professor, Ph.D., Penn State, 1978

### Lecturers

Kent Ratajeski, Senior Lecturer, Ph.D., North Carolina, 1999

### Adjunct Faculty

J. Richard Bowersox, Adjunct Assistant Professor, Ph.D., South Florida, 2006  
Cortland Eble, Adjunct Assistant Professor, Ph.D., West Virginia, 1988  
Stephen Greb, Adjunct Associate Professor, Ph.D., Kentucky, 1992  
John Hickman, Adjunct Assistant Professor, Kentucky, 2011  
Thomas M. Parris, Adjunct Assistant Professor, Ph.D., California-Santa Barbara, 1998  
Zhenming Wang, Adjunct Associate Professor, Ph.D., Kentucky, 1998  
Jungfeng Zhu, Adjunct Assistant Professor, Ph.D., Arizona, 2005

### Emeritus Faculty

Richard I. Barnhise, Professor Emeritus, Ph.D., Virginia Tech, 1964  
William H. Blackburn, Jr., Professor Emeritus, Ph.D., MIT, 1968  
Bruce R. Moore, Associate Professor Emeritus, Ph.D., Melbourne, Australia, 1967  
Kieran D. O'Hara, Associate Professor Emeritus, Ph.D., Brown, 1984  
Susan M. Rimmer, Professor Emeritus, Ph.D., Penn State, 1985  
Lyle Sendlein, Professor Emeritus, Ph.D., Iowa State, 1964  
Ronald L. Street, Associate Professor Emeritus, Ph.D., St. Louis, 1975  
William A. Thomas, Professor Emeritus, Ph.D., Virginia Tech, 1960

## ENGLISH

Jonathan M. Allison, Chair

Jonathan M. Allison, Professor, Ph.D., Michigan, 1988  
Frederick Bengtsson, Lecturer, Ph.D., Columbia, 2014  
Jordan Brower, Assistant Professor, Ph.D., Yale, 2016  
Michael Carter, Senior Lecturer, M.F.A., Montana, 1983  
Jeffory A. Clymer, Professor, Ph.D., Duke, 1998  
Rynetta Sherri Davis, Assistant Professor, Ph.D., Kentucky, 2006  
Andrew V. Doolen, Professor, Ph.D., Arizona, 2001  
Janet Carey Eldred, Professor, Ph.D., Illinois, 1988  
W. Andrew Ewell, Assistant Professor, M.F.A., Boston, 2011  
Kamahra Ewing, Assistant Professor, Ph.D., Michigan State, 2016  
Walter C. Foreman, Associate Professor, Ph.D., Washington, 1974  
Michael E. Genovese, Associate Professor, Ph.D., Virginia, 2010  
Matthew C. Giancarlo, Associate Professor, Yale, 1998  
Matthew Godbey, Senior Lecturer, Ph.D., Kentucky, 2006  
Regina Hamilton, Assistant Professor, Ph.D., Rutgers, 2019  
DaMaris Hill, Associate Professor, Ph.D., Kansas, 2012  
John Daniel Howell, Senior Lecturer, M.F.A., California-Irvine, 1989  
Pearl James, Associate Professor, Ph.D., Yale, 2002  
Julia Mae Johnson, Professor, M.F.A., Virginia, 1995  
Peter J. Kalliney, Professor, Ph.D., Michigan, 2001  
Joyce G. MacDonald, Associate Professor, Ph.D., Vanderbilt, 1989  
Andrew Milward, Assistant Professor, M.F.A., Iowa, 2008  
Alan M. Nadel, Professor, Ph.D., Rutgers, 1981

Gurney M. Norman, Professor, A.B., Kentucky, 1959  
Hannah Pittard, Professor, M.F.A., Virginia, 2007  
Armando J. Prats, Professor, Ph.D., Florida, 1975  
Jill N. Rappoport, Associate Professor, Ph.D., Virginia, 2006  
Erik Reece, Professor, M.A., Kentucky, 1992  
Randall Keith Roorda, Associate Professor, Ph.D., Michigan, 1994  
Marion L. Rust, Professor, Ph.D., Stanford, 1997  
Emily Shortslef, Assistant Professor, Ph.D., Columbia, 2015  
Michelle Renee Sizemore, Associate Professor, Ph.D., Wisconsin, 2010  
Michael A. Trask, Professor, Ph.D., Johns Hopkins, 1998  
Frank X Walker, Professor, M.F.A., Spalding, 2003  
Crystal Wilkinson, Associate Professor, M.F.A., Spalding, 2003  
Nazera S. Wright, Associate Professor, Ph.D., Maryland, 2009  
Lisa Zunshine, Professor, Ph.D., California-Santa Barbara, 2000

## GEOGRAPHY

Matthew Zook, Interim Chair

Betsy Beymer-Farris, Assistant Professor, Ph.D., Illinois, 2011  
Stanley D. Brunn, Professor Emeritus, Ph.D., The Ohio State University, 1966  
Richard Donohue, Assistant Professor, Ph.D., Wisconsin-Madison, 2014  
Patricia Ehrkamp, Professor, Ph.D., Minnesota, 2002  
Jen Jack Giesecking, Assistant Professor, Ph.D., Graduate Center of the City University of New York, 2013  
Nick Lally, Assistant Professor, Ph.D., Wisconsin-Madison, 2018  
Michael D. Kennedy, Associate Professor Emeritus, M.S., Louisville, 1979  
Liang Liang, Associate Professor, Ph.D., Wisconsin-Milwaukee, 2009  
Priscilla McCutcheon, Assistant Professor, Ph.D., Georgia, 2011  
Tad Mutersbaugh, Professor, Ph.D., California-Berkeley, 1994  
Jonathan Phillips, Professor, Ph.D., Rutgers, 1985  
Lynn Roche-Phillips, Associate Professor, Ph.D., Louisville, 2013  
Karl B. Raitz, Professor Emeritus, Ph.D., Minnesota, 1970  
Susan Roberts, Professor, Ph.D., Syracuse, 1992  
Graham Rowles,\* Professor Emeritus, Ph.D., Clark, 1976  
Michael Samers, Professor, Ph.D., Oxford, 1997  
Ted Schatzki, Professor, California-Berkeley, 1986  
Richard H. Schein, Professor, Ph.D., Syracuse, 1989  
Nari Senanayake, Assistant Professor, Ph.D., Penn State, 2018  
Gary Shannon, Professor, Ph.D., Michigan, 1970  
Boyd Shearer, Lecturer, M.A., Kentucky, 1999  
J. Anthony Stallins, Associate Professor, Ph.D., Georgia, 2000  
Alice Turkington, Associate Professor, Ph.D., Queens University-Belfast, 2001  
John F. Watkins,\* Professor, Ph.D., Colorado, 1986  
Matthew W. Wilson, Associate Professor, Ph.D., Washington, 2009  
Andrew Wood, Associate Professor, Ph.D., The Ohio State University, 1993  
Matthew Zook, Professor, Ph.D., California-Berkeley, 2001  
\*Joint Appointment

## HISPANIC STUDIES

Yanira Paz, Chair

John J. Allen, Professor Emeritus, Ph.D., Wisconsin, 1960  
Anibal A. Biglieri, Professor, Ph.D., Syracuse, 1982  
Alan V. Brown, Associate Professor, Ph.D., Arizona, 2006  
Ruth Brown, Lecturer, Ph.D., Kentucky, 2013  
Heather Campbell-Speltz, Assistant Professor, Ph.D., Kentucky, 2003  
Moisés R. Castillo, Associate Professor, Ph.D., Minnesota, 2000  
Irene Chico-Wyatt, Assistant Professor, Ph.D., Kentucky, 2001  
Mónica Díaz, Associate Professor, Ph.D., Indiana, 2002  
Michael Impey, Professor Emeritus, Ph.D., Michigan, 1970  
Joseph R. Jones, Professor Emeritus, Ph.D., Wisconsin, 1962  
Margaret E. W. Jones, Professor Emerita, Ph.D., Wisconsin, 1963  
John Lihani, Professor Emeritus, Ph.D., Colorado, 1954  
Matthew Losada, Assistant Professor, Ph.D., California-Berkeley, 2009  
Georgie Medina, Senior Lecturer, Ph.D., Kentucky, 1998  
Carmen Moreno-Nuño, Associate Professor, Ph.D., Minnesota, 2000  
Yanira Paz, Professor, Ph.D., Kentucky, 2000  
Dierdra Reber, Assistant Professor, Ph.D., Pennsylvania, 2005  
Daniel R. Reedy, Professor Emeritus, Ph.D., Illinois, 1962  
Ana Rueda, Professor, Ph.D., Vanderbilt, 1985  
Enrico Mario Santí, Professor Emeritus, Ph.D., Yale, 1976  
Edward F. Stanton, Professor Emeritus, Ph.D., California-Los Angeles, 1972  
Haralambos Symeonidis, Professor, Ph.D., U of Münster, 1998

**HISTORY**

Karen Petrone, Chair

James C. Albisetti, Professor, Ph.D., Yale, 1976  
 Eladio B. Bobadilla, Assistant Professor, Ph.D., Duke, 2019  
 Nikki Lynn M. Brown, Associate Professor, Ph.D., Yale, 2001  
 Jane E. Calvert, Associate Professor, Ph.D., Chicago, 2003  
 Tracy Campbell, Professor, E. Vernon Smith and Eloise C. Smith Professor of American History, Ph.D., Duke, 1988  
 Francie R. Chassen-Lopez, Professor, Ph.D., Universidad Nacional de Mexico, 1986  
 Eric H. Christianson, Associate Professor, Ph.D., Southern California, 1976  
 Joseph Clark, Assistant Professor, Ph.D., Johns Hopkins, 2016  
 Anastasia Curwood, Associate Professor, Ph.D., Princeton, 2003  
 Randolph E. Daniel, Professor Emeritus, Ph.D., Virginia, 1966  
 Steve Davis, Associate Professor, Ph.D., Florida, 2010  
 Bruce S. Eastwood, Professor Emeritus, Ph.D., Wisconsin-Madison, 1963  
 Ronald D. Eller, Professor Emeritus, Ph.D., North Carolina-Chapel Hill, 1979  
 Abigail A. Firey, Professor, Ph.D., Toronto, 1995  
 Ronald P. Formisano, Bryan Professor Emeritus, Ph.D., Wayne State, 1966  
 William W. Freehling, Singletary Professor Emeritus, Ph.D., Berkeley, 1963  
 Ellen Furlough, Associate Professor Emeritus, Ph.D., Brown, 1987  
 Daniel J. Gargola, Professor, Ph.D., North Carolina-Chapel Hill, 1988  
 Melanie Goan, Associate Professor, Ph.D., Kentucky, 1999  
 David E. Hamilton, Associate Professor, Ph.D., Iowa, 1984  
 Philip R. Harling, Professor, Ph.D., Princeton, 1992  
 George C. Herring, Alumni Professor Emeritus, Ph.D., Virginia, 1965  
 Vanessa M. Holden, Assistant Professor, Ph.D., Rutgers, 2012  
 Bruce F. Holle, Associate Professor, Ph.D., Michigan, 1978  
 Nelli S. Humbert, Professor Emeritus, Ph.D., Chicago, 1965  
 Robert M. Ireland, Professor Emeritus, Ph.D., Nebraska, 1967  
 Kathi L. Kern, Associate Professor, Ph.D., Pennsylvania, 1989  
 Joanne Melish, Associate Professor Emeritus, Ph.D., Brown, 1996  
 Emily C. Mokros, Assistant Professor, Ph.D., Johns Hopkins, 2016  
 Francis Musoni, Associate Professor, Ph.D., Emory, 2011  
 Erik Lars Myrup, Associate Professor, Ph.D., Yale, 2006  
 Kathryn Newfont, Associate Professor, Ph.D., North Carolina-Chapel Hill, 2001  
 Donald G. Nugent, Associate Professor Emeritus, Ph.D., Iowa, 1965  
 Robert W. Olson, Professor Emeritus, Ph.D., Indiana, 1972  
 David M. Olster, Professor, Ph.D., Chicago, 1985  
 Karen Petrone, Professor, Ph.D., Michigan, 1994  
 Jeremy D. Popkin, Bryan Chair Professor, Ph.D., California-Berkeley, 1977  
 Charles P. Roland, Professor Emeritus, Ph.D., Louisiana, 1951  
 Daniel B. Rowland, Associate Professor Emeritus, Ph.D., Yale, 1976  
 Daniel B. Smith, Professor Emeritus, Ph.D., Virginia, 1977  
 Gerald L. Smith, Professor, Ph.D., Kentucky, 1988

 Jane E. Phillips, Professor Emerita, Ph.D., North Carolina-Chapel Hill, 1969  
 Rupert T. Pickens, Professor Emeritus, Ph.D., North Carolina, 1966  
 Suzanne R. Pucci, Professor, Ph.D., Syracuse, 1980  
 Robert J. Rabel, Professor, Ph.D., Michigan, 1975  
 John A. Rea, Associate Professor Emeritus, A.B., Miami, 1948  
 Nels Jeffrey Rogers, Associate Professor, Ph.D., Pennsylvania, 2001  
 Jeanmarie Rouhier-Willoughby, Professor, Ph.D., Virginia, 1992  
 Cynthia Ruder, Associate Professor, Ph.D., Cornell, 1987  
 Leon Sachs, Associate Professor, Ph.D., Yale, 2004  
 Jeorg Ellen Sauer, Senior Lecturer, M.A., Kentucky, 2001  
 Douglas N. Slaymaker, Professor, Ph.D., Washington, 1997  
 Louis J. Swift, Professor Emeritus, Ph.D., Johns Hopkins, 1963  
 Koji Tanno, Assistant Professor, Ph.D., Washington, 2010  
 Jennifer Morrish Tunberg, Associate Professor, D.Phil., Oxford, 1982  
 Terence O. Tunberg, Professor, Ph.D., Toronto, 1986  
 Anna Voskresensky, Lecturer, M.A., Russia, 1982  
 Matthew Wells, Associate Professor, Ph.D., Oregon, 2006  
 Linda Kraus Worley, Associate Professor, Ph.D., Cincinnati, 1985  
 Ghadir Zannoun, Assistant Professor, Ph.D., Arkansas, 2011  
 Sadia Zoubir-Shaw, Professor, Doctorate, Université de Provence, 1988

## PHILOSOPHY

Brandon C. Look, Chair

Clare Batty, Associate Professor, Ph.D., M.I.T., 2007  
 Stefan Bird-Pollan, Associate Professor, Ph.D., Vanderbilt, 2008; D.Phil., Oxford, 2003  
 David Bradshaw, Professor, Ph.D., Texas, 1996  
 J. Daniel Breazeale, Professor Emeritus, Ph.D., Yale, 1971  
 Ronald Bruzina, Professor Emeritus, Ph.D., Notre Dame, 1966; Doctorat de 3e cycle, Paris-Nanterre, France, 1970  
 Julia R. Bursten, Assistant Professor, Ph.D., Pittsburgh, 2015  
 K. Lindsey Chambers, Assistant Professor, Ph.D., UCLA, 2016  
 Arnold L. Farr, Professor, Ph.D., Kentucky, 1996  
 Oliver Leaman, Professor, Ph.D., Cambridge, 1979  
 Brandon C. Look, Professor, Ph.D., Chicago, 1997  
 Natalie Nenadic, Associate Professor, Ph.D., Yale, 2011  
 Alan R. Perreiah, Professor Emeritus, Ph.D., Indiana, 1967  
 Eric Sanday, Associate Professor, Ph.D., Penn State, 2003

Robert Sandmeyer, Assistant Professor, Ph.D., Kentucky, 2007  
 Theodore R. Schatzki, Professor, Ph.D., California-Berkeley, 1986  
 Tim Sundell, Associate Professor, Ph.D., Michigan, 2009  
 Anita M. Superson, Professor, Ph.D., Illinois-Chicago, 1989  
 Megan B. Wallace, Associate Professor, Ph.D., North Carolina-Chapel Hill, 2009

## PHYSICS AND ASTRONOMY

Alfred D. Shapere, Chair

Joseph Warren Brill, Professor, Ph.D., Stanford, 1978  
 Michael Cavagnero, Professor, Ph.D., Chicago, 1987  
 Yang-Tse Cheng,\* Professor, Ph.D., California Institute of Technology, 1987  
 John Ernest Christopher, Associate Professor Emeritus, Ph.D., Virginia, 1967  
 John W. D. Connolly, Professor Emeritus, Ph.D., Florida, 1966  
 Christopher B. Crawford, Associate Professor, Ph.D., Massachusetts Institute of Technology, 2005  
 Sumit Ranjan Das, Professor, Ph.D., Chicago, 1983  
 Lance Eric DeLong, Professor, Ph.D., California-San Diego, 1977  
 Terrence Draper, Professor, Ph.D., California-Los Angeles, 1984  
 Anatoly Y. Dymarsky, Assistant Professor, Ph.D., Princeton, 2007  
 Michael I. Eides, Professor, Ph.D., Leningrad State, 1977  
 Moshe Elitzur, Professor Emeritus, Ph.D., Weizmann Institute, 1971  
 Renee H. Fatemi, Associate Professor, Ph.D., Virginia, 2002  
 Gary Ferland, Professor, Ph.D., Texas-Austin, 1978  
 Susan V. Gardner, Professor, Ph.D., Massachusetts Institute of Technology, 1988  
 Tim Paul Gorringer, Professor, Ph.D., Birmingham, 1984  
 Howard Grotch, Professor Emeritus, Ph.D., Cornell, 1967  
 Richard J. Hill, Associate Professor, Ph.D., Cornell, 2002  
 Ribhu Kaul, Associate Professor, Ph.D., Duke, 2006  
 Wolfgang Korsch, Professor, Ph.D., Marburg, 1990  
 Michael A. Kovash, Professor, Ph.D., Ohio State, 1978  
 Richard Lamb, Professor Emeritus, Ph.D., Kentucky, 1963  
 Bing-An Li, Professor Emeritus, Ph.D., Academia Sinica, China, 1968  
 Keh-Fei Liu, Professor, Ph.D., SUNY-Stony Brook, 1975  
 Nicholas L.S. Martin, Professor, Ph.D., Oxford, 1977  
 Marcus T. McEllistrem, Professor Emeritus, Ph.D., Wisconsin, 1956  
 Madhu Menon,\* Adjunct Assistant Professor, Ph.D., Notre Dame, 1986  
 Ganpathy Murthy, Professor, Ph.D., Yale, 1987  
 Kwok-Wai Ng, Professor, Ph.D., Iowa State, 1986  
 Bradley Plaster, Professor, Ph.D., Massachusetts Institute of Technology, 2004  
 Dhananjay Ravat,\* Professor, Ph.D., Purdue, 1989  
 David Joseph Singh,\* Professor, Ph.D., University of Ottawa, 1985  
 Alfred D. Shapere, Professor, Ph.D., California-Santa Barbara, 1988  
 Isaac Shlosman, Professor, Ph.D., Tel Aviv, 1986  
 Seok Ambrose Seo, Associate Professor, Ph.D., Seoul National University, 2007  
 Douglas Strachan, Associate Professor, Ph.D., Maryland, 2002  
 Joseph Paul Straley, Professor, Ph.D., Cornell, 1970  
 Thomas H. Troland, Professor, Ph.D., California-Berkeley, 1980  
 Jesse L. Weil, Professor Emeritus, Ph.D., Columbia, 1959  
 Ronald Wilhelm, Associate Professor, Ph.D., Michigan State, 1995  
 Renbin Yan, Associate Professor, Ph.D., California-Berkeley, 2007  
 Steven W. Yates,\* Professor, Ph.D., Purdue, 1973

\*Adjunct or Joint Appointment

## POLITICAL SCIENCE

Clayton Thyne, Chair

Emily Beaulieu Baachus, Associate Professor, Ph.D., California-San Diego, 2006  
 Tiffany Barnes, Associate Professor, Ph.D., Rice, 2011  
 Horace Bartilow, Associate Professor, Ph.D., SUNY-Albany, 1994  
 Abby Córdova, Associate Professor, Ph.D., Vanderbilt, 2008  
 Betul Demirkaya, Assistant Professor, Ph.D., Washington University, 2017  
 Jillienne Haglund, Assistant Professor, Ph.D., Florida State, 2014  
 Jesse C. Johnson, Associate Professor, Ph.D., Rice, 2012  
 Daniel Morey, Associate Professor, Ph.D., Iowa, 2006  
 Mark Peffley, Professor, Ph.D., Minnesota, 1984  
 Ellen Riggle, Professor, Ph.D., Illinois, 1990  
 William Swinford, Associate Professor, Ph.D., Ohio State, 1993  
 Clayton Thyne, Professor, Ph.D., Iowa, 2007  
 Stephen Voss, Associate Professor, Ph.D., Harvard, 1998  
 Richard Waterman, Professor, Ph.D., Houston, 1986  
 Justin Wedeking, Professor, Ph.D., Minnesota, 2007  
 Michael Zilis, Assistant Professor, Ph.D., Michigan, 2013

**PSYCHOLOGY**

Gregory T. Smith, Chair

Thomas Adams, Assistant Professor, Ph.D., Arkansas, 2014  
 Chana Akins, Professor, Ph.D., Texas, 1994  
 Michael A. Andrykowski,\* Professor, Ph.D., Illinois, 1984  
 Christopher Ray Archer, Senior Lecturer, Ph.D., Virginia Commonwealth, 1997  
 Steven A. Arthur, Lecturer, Ph.D., Purdue, 2010  
 Christal Badour, Assistant Professor, Ph.D., Arkansas, 2014  
 Michael T. Bardo, Professor, Ph.D., Iowa State, 1980  
 Susan Barron, Professor, Ph.D., SUNY-Albany, 1987  
 Joshua Beckmann, Associate Professor, Ph.D., Southern Illinois, 2007

 Charlie Clarke, Assistant Professor, Ph.D., Connecticut, 2016  
 Grant Clayton, Assistant Professor, M.S., Northwestern, 2015  
 Chris Clifford, Associate Professor, Ph.D., Arizona State, 2008  
 Igor Cunha, Assistant Professor, Ph.D., Illinois, 2013  
 Robert Dahlstrom, Professor Emeritus, Ph.D., Cincinnati, 1990  
 Koustav De, Assistant Professor, M.S., Michigan, 2018  
 Will Gerken, Associate Professor, Ph.D., Michigan State, 2009  
 Merlin M. Hackbart, Professor, Ph.D., Kansas State, 1968  
 Shane Hadden, Lecturer, J.D., Georgetown, 1997  
 Scott Hankins, Lecturer, Ph.D. Florida, 2006  
 Kristine Hankins, Associate Professor, Florida, 2006  
 Charles F. Haywood, Professor Emeritus, Ph.D., California, 1955  
 Clyde W. Holsapple, Professor Emeritus, Ph.D., Purdue, 1977  
 Russell Jame, Associate Professor, Ph.D., Emory, 2010  
 Bradford D. Jordan, Professor, Ph.D., Florida, 1984  
 Susan D. Jordan, Associate Professor Emerita, Ph.D., Georgia, 1986  
 Mark Liu, Associate Professor, Ph.D., Boston College, 2004  
 Wendy Liu, Senior Lecturer, Ph.D., Indiana, 2003  
 Paulo Martins Manoel, Assistant Professor, Ph.D., California-Berkeley, 2019  
 Fred Morgan, Professor Emeritus, Ph.D., Michigan State, 1972  
 Donald J. Mullineaux, Professor Emeritus, Ph.D., Boston College, 1971  
 Dennis Officer, Associate Professor Emeritus, Ph.D., Arkansas, 1979  
 Ram Pakath, Professor, Ph.D., Purdue, 1988  
 Simon J. Sheather, Professor and Dean, Ph.D., La Trobe, 1986  
 David Sovich, Assistant Professor, Washington University in St. Louis, 2019

### MANAGEMENT

Stephen Borgatti, Chair

Stephen Borgatti, Professor, Ph.D., California-Irvine, 1989  
 Daniel Brass, Professor, Ph.D., Illinois, 1979  
 Chen-Hua Chung, Professor, Ph.D., Ohio State, 1982  
 Rebecca Davis, Lecturer, J.D., Kentucky, 2001  
 Zachary Edens, Lecturer, Ph.D., Kentucky, 2014  
 Walter J. Ferrier, Professor, Ph.D., Maryland, 1995  
 Daniel Halgin, Associate Professor, Ph.D., Boston College, 2009  
 Zhi Huang, Associate Professor, Ph.D., Boston College, 2007  
 Nancy Brown Johnson, Associate Professor, Ph.D., Kansas, 1987  
 Ji Youn (Rose) Kim, Assistant Professor, M.B.A., Washington, 2014  
 Jack Kirn, Lecturer, M.B.A., Kentucky, 2013  
 Deanna Kolar, Lecturer, Ph.D., University of London, 2014  
 Giuseppe (Joe) Labianca, Professor, Penn State, 1998  
 Albert L. Lederer, Professor Emeritus, Ph.D., Ohio State, 1983  
 Huiwen Lian, Associate Professor, Ph.D., University of Waterloo, 2011  
 Ajay Mehra, Professor, Penn State, 1998  
 Scott Soltis, Assistant Professor, Ph.D., Kentucky, 2012

### MARKETING AND SUPPLY CHAIN

David Hardesty, Chair

Alexis Allen, Assistant Professor, Ph.D., Florida State, 2014  
 Mark Anderson, Lecturer, MBA, California State-San Bernardino, 1984  
 Haipeng (Allen) Chen, Professor, Ph.D., Minnesota, 2002  
 Adam Craig, Associate Professor, Ph.D., South Carolina, 2011  
 Meika (Anne) Eilert, Assistant Professor, Ph.D., South Carolina, 2013  
 Aaron Garvey, Associate Professor, Ph.D., Penn State, 2012  
 Andrew Grimes, Lecturer, M.B.A., Kentucky, 2009  
 Holly Hapke, Senior Lecturer, M.B.A., Tarleton State, 1999  
 David Hardesty, Professor, Ph.D., South Carolina, 1998  
 Corinne Kelley, Assistant Professor, Ph.D., Florida State, 2019  
 Scott Kelley, Professor, D.B.A., Kentucky, 1987  
 Anita Lee-Post, Associate Professor, Ph.D., Iowa, 1990  
 Yunke Mai, Assistant Professor, Ph.D., Duke, 2019  
 Jordan Moffett, Assistant Professor, Ph.D., Louisiana State, 2019  
 Brian Murtha, Associate Professor, Ph.D., Georgia Institute of Technology, 2008  
 Rebecca Oliphant, Lecturer, Ph.D., Florida State, 1994  
 John Pelozo, Associate Professor, Ph.D., University of Calgary, 2006  
 Daniel Sheehan, Assistant Professor, Ph.D., Georgia, 2015

Steven J. Skinner, Professor Emeritus, D.B.A., Kentucky, 1983  
 Devanathan Sudharshan, Professor Emeritus, Ph.D., Pittsburgh, 1982  
 Haoying Sun, Assistant Professor, Ph.D., Texas, 2011  
 Leslie Vincent, Senior Lecturer, Ph.D., Georgia Institute of Technology, 2005

### DEAN'S OFFICE

Karl Gustafson, Lecturer, M.B.A., Wisconsin-Madison, 2003

## COLLEGE OF COMMUNICATION AND INFORMATION

Jennifer D. Greer, Dean

### COMMUNICATION

Shari R. Veil, Chair

James L. Applegate, Professor Emeritus, Ph.D., Illinois, 1978  
 John R. Baseheart, Associate Professor Emeritus, Ph.D., Michigan State, 1969  
 Tommy Booras, Lecturer, M.A., Arkansas, 1993  
 Douglas A. Boyd, Professor Emeritus, Ph.D., Minnesota, 1972  
 Alan D. DeSantis, Professor, Ph.D., Indiana, 1993  
 Marko Dragojevic, Assistant Professor, Ph.D., California-Santa Barbara, 2015  
 Diane B. Francis, Assistant Professor, Ph.D., North Carolina-Chapel Hill, 2016  
 Allison M. Scott Gordon, Associate Professor, Ph.D., Illinois, 2010  
 Nancy Grant Harrington, Professor, Ph.D., Kentucky 1992  
 Donald W. Helme, Associate Professor, Ph.D., Kentucky, 2000  
 Pam Henderson, Lecturer, M.A., Michigan State, 2012  
 J. David Johnson, Professor, Ph.D., Michigan State, 1978  
 Lainie Crouch Kaiser, Lecturer and Internship Director, J.D., American University, 2005  
 Derek Lane, Professor, Ph.D., Oklahoma, 1996  
 Traci S. Letcher, Senior Lecturer, M.A., Marshall, 1997  
 Nicky Lewis, Assistant Professor, Ph.D., Indiana, 2015  
 Anthony Limperos, Associate Professor, Ph.D., Penn State, 2011  
 Don I. Lowe, Senior Lecturer, M.A., Marshall, 1988  
 Kelly McAninch, Assistant Professor and Director of Undergraduate Studies, Ph.D., Illinois, 2015  
 H. Dan O'Hair, Professor, Ph.D., Oklahoma, 1982  
 Aurora Occa, Assistant Professor, Ph.D., Miami, 2018  
 Philip C. Palmgreen, Professor Emeritus, Ph.D., Michigan 1975  
 J.W. Patterson, Associate Professor Emeritus, Ph.D., Oklahoma, 1960  
 Andrew Pilny, Assistant Professor, Ph.D., Illinois, 2015  
 Kevin Real, Professor, Ph.D., Texas, 2002  
 Ramona R. Rush, Professor Emeritus, Ph.D., Wisconsin, 1969  
 Jennifer Scarduzio, Assistant Professor, Ph.D., Arizona State, 2012  
 Jeannette Sutton, Associate Professor and Director of the Risk and Disaster Communication Center, Ph.D., Colorado, 2004  
 G. Norman Van Tubergen, Associate Professor Emeritus, Ph.D., Iowa, 1968  
 Shari R. Veil, Professor and Chair, Ph.D., North Dakota State, 2007  
 Enid Waldhart, Associate Professor Emerita, Ph.D., Indiana, 1976  
 Rong Wang, Assistant Professor, Ph.D., Southern California, 2016  
 \*Joint Appointment

### INTEGRATED STRATEGIC COMMUNICATION

Chike Anyaegbunam, Interim Chair

Dennis Altman, Associate Professor Emeritus, B.A., Long Island University, 1953  
 Chike Anyaegbunam, Professor and Interim Chair, Ph.D., Iowa, 1994  
 Tae Hyun Baek, Associate Professor, Ph.D., Georgia, 2011  
 Beth E. Barnes, Professor, Ph.D., Northwestern, 1990  
 Alyssa Eckman, Associate Professor, Ph.D., Kentucky 2001  
 Laura Gorham Fischer, Assistant Professor, Ph.D., Texas Tech, 2017  
 Adriane Grumbein, Assistant Professor, Ph.D., Florida, 2014  
 Phillip J. Hutchison, Associate Professor, Ph.D., Utah, 2005  
 Bobi Ivanov, Professor, Ph.D., Oklahoma, 2006  
 Hyun Ju Jeong, Assistant Professor, Ph.D., Michigan State, 2011  
 Mengtian (Montina) Jiang, Assistant Professor, Ph.D., Michigan State, 2017  
 Jihye Kim, Assistant Professor, Ph.D., Florida, 2015  
 Mark W. Stuhlfaut, Associate Professor Emeritus, Ph.D., Michigan State, 2006  
 S. Scott Whitlow, Associate Professor, Ph.D., Southern Illinois, 1975  
 \*Joint Appointment

## SCHOOL OF JOURNALISM AND MEDIA

Elizabeth "Scoobie" Ryan, Interim Director

Douglas A. Boyd,\* Professor Emeritus, Ph.D., Minnesota, 1972  
 Deborah S. Chung, Associate Professor, Ph.D., Indiana, 2004  
 John Clark, Associate Professor, M.A., Kentucky, 1992  
 Alvin "Al" Cross, Professor, B.A., Western Kentucky, 1978  
 Andrew Dawson, Lecturer, B.A., Kentucky, 2009  
 J. Michael "Mike" Farrell, Professor, Ph.D., Kentucky 2006  
 James Hertog, Associate Professor, Ph.D., Minnesota, 1990  
 Kyra Hunting, Assistant Professor, Ph.D., Wisconsin, 2014  
 Yung Soo Kim, Associate Professor, Ph. D., Southern Illinois, 2008  
 Richard Labunski, Professor Emeritus, Ph.D., California, 1979; J.D., Seattle University School of Law, 1994  
 Thomas R. Lindlof, Professor Emeritus, Ph.D., Texas, 1980  
 Roy L. Moore, Professor Emeritus, Ph.D., Wisconsin, 1974; J.D., Georgia State, 1986  
 Robert N. Orndorff, Associate Professor Emeritus, A.B., Kentucky, 1961  
 Kimberly Parker, Associate Professor, Ph.D., Oklahoma, 2004  
 Elizabeth "Scoobie" Ryan, Associate Professor and Interim Director, M.A., Antioch School of Law, 1984  
 Leland "Buck" Ryan, Associate Professor, M.A., Missouri-Columbia, 1990  
 David Stephenson, Associate Professor, M.A., Asbury, 2017  
 Zixue Tai, Associate Professor, Ph.D., Minnesota, 2004  
 Kathleen "Kakie" Urch, Associate Professor, M.A., Kentucky, 1994  
 \*Joint Appointment

## SCHOOL OF INFORMATION SCIENCE

Jeffrey T. Huber, Director

Sarah Barriage, Assistant Professor, Ph.D., Rutgers, 2018  
 Kari Benguria, Lecturer, Ph.D., Virginia-Charlottesville, 2013  
 Sean Burns, Associate Professor, Ph.D., Missouri, 2013  
 Maria Cahill, Associate Professor, Ph.D., Tennessee, 2009  
 Namjoo Choi, Associate Professor, Ph.D., SUNY-Albany, 2011  
 Troy Cooper, Assistant Professor, Ph.D., Illinois, 2011  
 Conrad Davies, Lecturer, M.A., Western Kentucky, 2002  
 Ashley DeWitt, Lecturer, M.S.L.S., Kentucky, 2014  
 Allyson DeVito, Lecturer, Ph.D., Tennessee at Knoxville, 2014  
 Daniela K. DiGiacomo, Assistant Professor, Ph.D., Colorado-Boulder, 2017  
 T. Kody Frey, Lecturer, M.A., Illinois State, 2015  
 Brandi Frisby, Associate Professor, Ph.D., West Virginia, 2010  
 Meredith Garrison, Lecturer, M.A., Kentucky, 2014  
 Rajesh Gaur, Senior Lecturer, Ph.D., Kentucky, 2009  
 Spencer Greenhalgh, Assistant Professor, Michigan State, 2018  
 Stephen Haggerty, Lecturer, M.A., Marshall, 1995  
 Chas Hartman, Senior Lecturer, Ph.D., Kentucky, 2011  
 Jeffrey T. Huber, Professor and Director, Ph.D., Pittsburgh, 1991  
 Soohyung Joo, Assistant Professor, Ph.D., Wisconsin-Milwaukee, 2013  
 Renee Kauffman, Assistant Professor, Ph.D., Kentucky, 2014  
 Youngseek Kim, Associate Professor, Ph.D., Syracuse, 2013  
 Amanda Lawrence, Lecturer, Ph.D., Kentucky, 2018  
 Joe Martin, Lecturer, Th.M., Southern Baptist Theological Seminary, 2012  
 Shannon M. Oltmann, Associate Professor, Ph.D., Indiana, 2011  
 Nicholas J. Proferes, Assistant Professor, Ph.D., Wisconsin-Milwaukee, 2015  
 Robert M. Shapiro, Assistant Professor, M.A., Kentucky, 2010  
 Rachel Steckler, Lecturer, M.A., Kentucky, 2012  
 Jessalyn Vallade, Assistant Professor, Ph.D., West Virginia, 2014  
 Fátima K. Espinoza Vasquez, Assistant Professor, Ph.D., Syracuse, 2016  
 Fallon Watson, Lecturer, Psy.D., University of the Rockies, 2013  
 Sherali Zeadally, Associate Professor, Ph.D., University of Buckingham (England), 1996  
 \*Joint Appointment

## COLLEGE OF DENTISTRY

Larry E. Holloway, Interim Dean

### DEPARTMENT OF ORAL HEALTH PRACTICE

Robert Frazer, Chair

#### Comprehensive Care

Emily Winfrey, Division Chief

Tyler Bolin, D.M.D., Assistant Professor (part-time), D.M.D., Kentucky, 2013  
 Jane Jordan, Assistant Professor (part-time), D.M.D., Kentucky, 1987

Kristy A. Lawson, Assistant Professor, D.M.D., Kentucky, 2005  
Thomas A. McConnell, Associate Professor, D.D.S., University of the Pacific, 1977  
Cheryl A. Pearson, Assistant Professor (part-time) D.M.D. Kentucky, 1981  
Deborah S. Ray, Assistant Professor, D.M.D., Kentucky, 1987; GPR Cert., Kentucky, 1988  
Robert C. Taylor, Assistant Professor, D.M.D., Kentucky, 2003  
David Thornton, Assistant Professor, D.M.D., Kentucky, 2000  
Kathryn H. Wade, Assistant Professor, D.M.D., Kentucky, 2018; GPR Cert., Kentucky, 2019  
Emily Winfrey, D.M.D., Assistant Professor, D.M.D., Kentucky, 2013  
Allison Wright, Assistant Professor (part-time) D.D.S., Louisville, 2003; M.S., and Cert. Perio, Kentucky, 2013

### Endodontics

Alfred Wiemann, Division Chief

Alfred H. Wiemann, Assistant Professor, D.M.D., Kentucky, 1981  
Mark A. Schachman, Assistant Professor, D.M.D., Rutgers, 1987; Cert. Endo., New York, 1993  
Paul T. Wehrman, Assistant Professor (part-time), D.M.D., Kentucky, 1973; Cert. Endo., Pittsburgh, 1978

### Oral Diagnosis, Oral Medicine and Oral Radiology

Craig S. Miller, Division Chief

Robert Danaher, Assistant Professor, Ph.D., Maryland, 1994  
David M. DeVito, Assistant Professor, Ph.D., Florida, 2006; D.M.D., Kentucky, 2015  
Teresa A. Dawahare Lyon, Assistant Professor (part-time), D.M.D., Kentucky, 1989; Cert., G.P.R., Kentucky, 1991  
Craig S. Miller, Professor, D.M.D., Kentucky, 1982; Cert., G.P.R., USAF, 1983; M.S., Texas-San Antonio, 1987  
Thamar Musbah, Assistant Professor, B.D.S., Univ. of Al Fateh, Libya, 2003  
Kenneth B. Nusbacher, Assistant Professor, D.M.D., Kentucky, 2008  
Galal Omami, Assistant Professor, B.D.S., Benghazi Univ., Libya, 2003; M.Sc., Benghazi Univ., Libya, 2008; Cert. G.P.R., Connecticut, 2012; M.S.D., Connecticut, 2013  
Marcia Rojas, D.D.S., M.S., Assistant Professor, D.D.S., Univ. of Costa Rica, 2010; M.S., Kentucky, 2015  
B. Lynn Theiss, Assistant Professor, D.M.D., Kentucky, 1986; G.P.R., Kentucky 1988; M.S.D., Geriatric Dental Fellowship, Kentucky, 1991

### Periodontics

Mohanad Al-Sabbagh, Division Chief

Mohanad Al-Sabbagh, Professor, D.D.S., Damascus, Syria, 1993; M.S., Buffalo, 2002  
Brittany Camenisch, Assistant Professor, D.M.D., Kentucky, 2013; M.S., Kentucky, 2018; Perio. Cert., Kentucky, 2018  
Dolph Dawson, Assistant Professor, D.M.D., Louisville, 1993; M.S., Kentucky, 1998  
Pratishtha Mishra, Assistant Professor, B.D.S., India, 2006; M.S.D., India, 2011; Orofacial Pain Cert., Kentucky, 2018  
Elliot Neuman, Assistant Professor (part-time) D.M.D., Kentucky, 2011; M.S., Kentucky, 2014  
Thomas G. Rubino, Assistant Professor (part-time) D.D.S., Kentucky, 1985; M.S., Kentucky, 1988  
Luciana M. Shaddox, Associate Professor, D.D.S. 2001; M.S., 2003; Ph.D., 2005, State Univ. of Campinas, Brazil

### Prosthodontics

Richard J. Windhorn, Division Chief

Marcus F. Abboud, Professor, D.D.S., Bonn, Germany, 1996; Ph.D., Bonn Germany, 2000; Cert. Oral Surgery, Bonn Germany; Cert. CBCT Technology and Diagnostics, Dental Medical Assoc., Nordheim, Germany  
Kevin Elvidge, D.M.D., Assistant Professor, D.M.D., Kentucky, 1984  
Robert Q. Frazer, Associate Professor, D.D.S., Colorado-Denver, 1981; Cert. G.P.R., Chanute AFB Hospital, Illinois, 1982; Cert. Prosth., Missouri-Kansas City, 1983  
Rodrigo Fuentealba Hidalgo, Assistant Professor, D.D.S., Univ. of Concepcion, Chile, 1996  
Sarah F. Johnson, Assistant Professor (part-time) D.M.D., Kentucky, 1994; Cert. Prosthodontics, Louisville, 1996  
Ahmad Kutkut, Assistant Professor, D.D.S., Univ. of Jordan, 2001; M.S.D., New York, 2010  
Carla Rodriguez, Assistant Professor, D.M.D., Kentucky, 1981  
Richard J. Windhorn, Assistant Professor, D.M.D., Kentucky, 1983; Cert. Prosthodontics, Fort Gordon, Georgia, 1996

### Restorative Dentistry

Howard W. Roberts, Division Chief

Rowida A. Abdalla, Assistant Professor, D.D.S., Ain Shams Univ., Egypt, 2007; M.S.D., Al-Azhar Univ., Egypt; Cert. Community Dentistry, Rochester, 2013; Cert. GPR, Rochester, 2015

Elizangela Bertoli, Assistant Professor, D.D.S., Universidade Federal Do Espirito, 1995; Cert. Endodontics, Universidade Federal Do Espirito, 1998; Cert. Orofacial Pain, Kentucky, 2000; M.S., Kentucky, 2005  
Susan Bishop, Assistant Professor, D.M.D., Kentucky, 2001  
DeJon Graves, Assistant Professor (part-time), D.M.D., Louisville, 2013  
H. F. Howard, Assistant Professor (part-time), D.M.D., Kentucky, 1982  
Robert E. Kovarik, Associate Professor, D.M.D., Kentucky, 1982; M.S., Georgia, 1991  
Stacie Maggard, Assistant Professor (part-time), D.M.D., Kentucky, 1998  
Hiroko Nagaoka, Assistant Professor, D.D.S., Nihon Univ., Japan, 2001; M.S., North Carolina, 2013  
Gitanjali L. Pinto-Sinai, Assistant Professor, D.D.S., SUNY of Buffalo, 2001  
Howard W. Roberts, Associate Professor, D.M.D., Kentucky, 1992; M.S., Marquette, 2006  
Stephanie Roney, Assistant Professor (part-time), D.M.D., Kentucky, 1993  
W. Michael Sadler, Assistant Professor (part-time) D.M.D., Alabama, 1975  
Richard Stoss, Assistant Professor (part-time) D.M.D., Kentucky, 2006  
Gregory A. Zoll, Assistant Professor (part-time) M.S.Ed., Kentucky, 1995

### DEPARTMENT OF ORAL HEALTH SCIENCE

Ted Raybould, Interim Chair

Octavio A. Gonzalez, Associate Professor, D.D.S., Pontifical Javeriana Univ., Columbia, 1993; M.Sc., Pontifical Javeriana Univ., Columbia, 2002; Ph.D., Kentucky, 2010  
Christine T. Harper, Assistant Professor (Adjunct), M.S., Dayton, 2002

### Oral and Maxillofacial Surgery

Melvyn Yeoh, Acting Division Chief

Enif A. Dominguez Fernandez, Assistant Professor, D.D.S., Central Univ. of Venezuela, 2001; Ehab Shehata, Assistant Professor, M.M.Ch.B., 1988; M.Sc., 1993; B.D.S., 1997; M.D., 2004; Univ. of Alexandria, Egypt  
Steven Tucker, Assistant Professor (part-time), D.M.D., Kentucky, 1974; Cert. Oral and Maxillofacial Surgery, Kentucky, 1978  
Joseph D. Van Sickels, Professor, D.D.S., Virginia, 1972  
Melvyn Yeoh, Assistant Professor, D.M.D., Pennsylvania, 2000; M.D., Cornell Univ., 2008

### Pediatric Dentistry

Cristina V. Perez Pacheco, Division Chief

Kelly J. Dingrando, Assistant Professor, D.M.D., Kentucky, 2005; Cert. Pediatric Dentistry, Kentucky, 2019  
Wendy K. Humphrey Van Meter, Assistant Professor (part-time), D.M.D., Kentucky, 2003; G.P.R. Cert., Kentucky, 2004; Cert. Pediatric Dentistry, Kentucky, 2008  
Rodney Jackson, Assistant Professor (part-time), D.M.D., Kentucky, 2001  
Julie Keller, Assistant Professor (part-time), D.M.D., Louisville, 1986; Cert. Pediatric Dentistry, Kentucky, 1988  
Lisa A. Kochis, Assistant Professor (part-time), D.D.S., Oklahoma, 1999, Cert., G.P.R., Univ. of Oklahoma, 2000; Cert., Orthodontics, Louisville, 2003  
Cristina V. Perez Pacheco, Assistant Professor, D.D.S., Concepcion, Chile, 1998; Cert., Clinical Pediatric Dentistry, Concepcion, Chile, 2000, Cert., Specialization in Pediatric Dentistry, Concepcion, Chile, 2002; Cert. and M.S., Orofacial Pn, Kentucky, 2011  
Ronald Singer, Assistant Professor, D.D.S., Univ. of Southern California, 1979; Cert., Pediatric Dentistry, Univ. of California, The Center for Health Sciences, Los Angeles, 1981  
Erwin G. Turner, Associate Professor, D.M.D., Kentucky, 1974; Cert., Pediatric Dentistry, Kentucky, 1976  
J. Greg White, D.M.D., Assistant Professor (part-time), D.M.D., Kentucky, 1988, Cert., Orthodontics, Kentucky, 1991, M.S., orthodontics, Kentucky, 1991

### Adult Dentistry

Ted P. Raybould, Division Chief

John B. Burt, Assistant Professor, D.M.D., Kentucky, 1996  
Eric T. Demann, Associate Professor, D.M.D., Kentucky, 2000  
Christian S. Fraley, Assistant Professor, D.M.D., Kentucky, 1996; G.P.R. Cert., Kentucky, 1997  
Ted P. Raybould, Professor, D.M.D., Kentucky, 1981; G.P.R. Cert., Kentucky, 1985  
Sherry Slone, Assistant Professor, D.M.D., Louisville, 2012  
Daria Stone, Assistant Professor, D.M.D., Kentucky, 1995

### Oral Pathology

Molly H. Smith, Division Chief

Molly, H. Smith, Assistant Professor, D.M.D., Kentucky, 2013; Cert. GPR, VA, Gainesville, FL, 2014; Cert. Oral Pathology, Gainesville, FL, 2017  
Dean K. White, Professor (part-time), D.D.S., Missouri, 1970; M.S.D., Indiana, 1972  
Rashidah T. Wiley, Assistant Professor, D.D.S., Meharry, 2011; Cert. GPR, Shasta College, 2012; Cert. Oral Pathology, 2015

**Orofacial Pain**

Jeffrey P. Okeson, Division Chief

Charles R. Carlson, Associate Professor (joint), Ph.D., Vanderbilt, 1983  
 Reny de Leeuw, Professor, D.M.D., State Univ. Groningen, 1988; Ph.D., State Univ. Groningen, 1994  
 Hideaki Nagaoka, Assistant Professor, D.D.S., Nihon Univ., Japan, 2005; Ph.D., Nihon Univ., Japan, 2009  
 Isabel Moreno-Hay, Assistant Professor, D.D.S., Madrid, 2003; Cert., Implanted Prosthodontics, Madrid, 2006; Ph.D., Facial Treatment Specialist, Madrid, 2011; Cert., Orofacial Pain, Kentucky, 2013  
 Jeffrey P. Okeson, Professor, D.M.D., Kentucky, 1972

**Orthodontics**

G. Thomas Kluemper, Division Chief

Mohamed Bazina, Assistant Professor, B.D.S., Libya, 2007; GPR Internship, Libya, 2008; Cert. Orthodontics, Case Western, 2015; M.S., Case Western, 2016  
 Cynthia S. Beeman, Associate Professor, D.D.S., Case Western, 1981; Ph.D., Connecticut, 1989; Cert. Orthodontics, Connecticut, 1989  
 James K. Hartsfield, Jr., Professor, D.M.D., South Carolina, 1981; M.S., Indiana, 1983; M.Sc., Harvard, 1987; Ph.D., South Florida, 1993  
 Bruce S. Haskell, Professor (part-time), D.M.D., Pittsburgh, 1973; Cert. Orthodontics, Univ. of Rochester, 1975; Ph.D. Physical Anthropology, Pittsburgh, 1978  
 G. Thomas Kluemper, Professor, D.M.D., Kentucky, 1983; M.S., Orthodontics, Michigan, 1991  
 Judson M. Knight, Associate Professor (part-time), D.M.D., Kentucky, 1967; Cert. Orthodontics, Kentucky, 1972  
 Stephanos Kyrkanides, Professor, D.D.S., Univ. of Athens, 1991; Cert. Orthodontics, Eastman Dental Center, 1994; Cert. Orofacial Pain, Eastman Dental Center, 1995; M.S., Neurobiology, Univ. of Rochester, 1997; Cert. General Dentistry, Eastman Dental Center, 1997; Ph.D., Neuroscience, University of Rochester, 1999  
 Lorri Morford, Assistant Professor, Ph.D., Kentucky, 1995  
 Robert Rust, Assistant Professor (part-time), D.M.D., Louisville, 1981; Cert. and M.S. Orthodontics, Kentucky, 1985  
 Lina Sharab, Assistant Professor, D.M.D., Al-Ba'ath Univ., Syria, 2003; M.S., Kentucky, 2014  
 James Thacker, Assistant Professor (part-time), D.D.S., Case Western, 1982; Cert. Orthodontics, Boston, 1984  
 J. Philip Wahle, Assistant Professor (part-time), D.M.D., Kentucky, 1990; M.S., Kentucky, 1993

**Public Health Dentistry**

Ted Raybould, Interim Division Chief

Wesley Coffman, Assistant Professor (part-time), D.M.D., Kentucky, 1978  
 Nancy E. Rigdon, Assistant Professor, D.M.D., Kentucky, 1994; GPR Cert., Kentucky, 1995  
 Keith White, Assistant Professor, D.M.D., Kentucky, 1986

**COLLEGE OF DESIGN**

Mitzi Vernon, Dean

**SCHOOL OF ARCHITECTURE**

Jeffrey Johnson, Director

David M. Biagi, Associate Professor, M.Arch., Ohio State  
 Clyde R. Carpenter, Professor, M.Arch., Pennsylvania  
 Angus Eade, Assistant Professor, M.Arch., Harvard  
 Anne Filson, Associate Professor, M.Arch., Columbia  
 Hans Gesund, Professor, Department of Civil Engineering, College of Engineering and College of Design, Doctor of Engineering., Yale  
 Johanna Heinrichs, Assistant Professor, Ph.D., Princeton  
 Jordan Hines, Lecturer, M.Arch., Kentucky  
 Michael W. Jacobs, Instructor, B.Arch., Kentucky  
 Peyman Jahed, Instructor, A.B.D., Kentucky  
 Jeffrey R. Johnson, Associate Professor, M.Arch., Ball State  
 Jill Leckner, Lecturer, M.S., Columbia  
 Gregory Luhan, Professor, Ph.D., Texas A&M  
 Andrew Manson, Assistant Professor, Ph.D., Columbia  
 Michael McKay, Associate Professor, M.Arch., Princeton  
 Wallis Miller, Charles Parker Graves Professor of Architecture, Ph.D., Princeton  
 Mark J. O'Bryan, Associate Professor, M.Arch., Cornell

Brian Richter, Lecturer, M.Arch., Kentucky  
 Anthony Rocanova, Associate Professor, M.Arch., Cornell  
 Gary Rohrbacher, Associate Professor, M.S.Arch., MIT  
 Jerzy Rozenberg, Associate Professor, M.F.A., New York University  
 Jason Scroggin, Associate Professor, M.S., Columbia  
 Brent Sturlaugson, Assistant Professor, M.E.D., Yale  
 Martin Summers, Associate Professor, M.Arch., UCLA  
 Regina Summers, Lecturer, M.Arch., UCLA  
 Elizabeth Swanson, Associate Professor, M.Arch., California-Berkeley  
 Bruce A. Swetnam, Kentuckiana Masonry Institute Associate Professor, B.Arch., Kentucky

**SCHOOL OF INTERIORS****Planning / Strategy / Design**

Bruce Swetnam, Interim Director

Allison Carll-White, Professor, Ph.D., Tennessee  
 Lindsey Fay, Associate Professor, M.S., Cincinnati  
 Jill Leckner, Lecturer, M.S., Columbia  
 Patrick L. Lucas, Professor, Ph.D., Michigan State  
 Christine Mobley, Lecturer, M.S., Colorado State  
 Rebekah Radtke, Assistant Professor, M.Arch., School of the Art Institute of Chicago  
 Joe Rey-Barreau, Associate Professor, M.S., Louisville  
 Helen Turner, Assistant Professor M.S., Cincinnati

**HISTORIC PRESERVATION**

Daniel Vivian, Chair

Douglas Appler, Associate Professor, Ph.D., Cornell  
 Emily Bergeron, Assistant Professor, Ph.D., Cornell  
 Clyde R. Carpenter, FAIA, Professor, School of Architecture, M.Arch., Pennsylvania  
 Ned M. Crankshaw, ASLA, Professor, Department of Landscape Architecture, College of Agriculture, M.L.Arch., Iowa State  
 Hans Gesund, Professor, Department of Civil Engineering, College of Engineering and College of Design, Doctor of Engineering., Yale  
 Gregory Luhan, Professor, Ph.D., Texas A&M  
 Wallis Miller, Charles Parker Graves Endowed Associate Professor of Architecture, Ph.D., Princeton  
 Lynn Phillips, Assistant Professor, Department of Geography, Ph.D., Louisville  
 Julie Riesenweber, Assistant Professor, M.A., Delaware  
 Travis Rose, Lecturer, M.F.A. SCAD  
 Richard H. Schein, Professor, Department of Geography, Ph.D., Syracuse  
 Amy Murrell Taylor, Associate Professor, Department of History, Ph.D., Virginia  
 Darren Taylor, Adjunct, M.Arch., Pennsylvania  
 Daniel Vivian, Associate Professor, Ph.D., The Johns Hopkins University

**COLLEGE OF EDUCATION**

Julian Vasquez Heilig, Dean

**CURRICULUM AND INSTRUCTION**

Jared Stallones, Chair

Janice Almasi, Professor, Ph.D., Maryland, 1993  
 Gary Anglin, Associate Professor Emeritus, Ed.D., Indiana, 1979  
 Ronald Atwood, Professor Emeritus, Ed.D., Florida State, 1966  
 Virginia Atwood, Professor Emeritus, Ph.D., Texas, 1969  
 Harry V. Barnard, Professor Emeritus, Ed.D., Alabama, 1959  
 Sharon Brennan, Associate Professor, Ed.D., Kentucky, 1987  
 Elinor Brown, Associate Professor Emeritus, Ph.D., Akron, 1998  
 Les Burns, Associate Professor, Ph.D., Michigan State, 2005  
 Susan Cantrell, Associate Professor, Ed.D., Kentucky, 1997  
 Ryan Crowley, Assistant Professor, Ph.D., Texas, 2014  
 Laura Darolia, Assistant Professor, Ph.D., Missouri-Columbia, 2017  
 Regina Dawson, Clinical Assistant Professor, M.S., Kentucky, 2006

 Kun Huang, Assistant Professor, Ph.D., Oklahoma, 2011  
 Willis Johnson, Professor Emeritus, Ed.D., Temple, 1975  
 Linda Levstik, Professor Emeritus, Ph.D., Ohio State, 1980  
 Huajing Maske, Clinical Associate Professor, Ph.D., Oxford, 2008  
 Joan Mazur, Professor, Ph.D., Cornell, 1993  
 Jack McElroy, Professor Emeritus, Ed.D., Cincinnati, 1974  
 Phil Nacke, Associate Professor Emeritus, Ed.D., University of British Columbia, Canada, 1970

Kristen Perry, Associate Professor, Ph.D., Michigan State, 2007  
 Opal Reynolds, Assistant Professor Emeritus, M.A., Kentucky, 1952  
 Margaret Rintamaa, Associate Professor, Ed.D., Kentucky, 2000  
 Rosetta F. Sandidge, Associate Professor, Ed.D., Kentucky, 1989  
 Mary C. Shake, Associate Professor, Ed.D., SUNY-Albany, 1984  
 Doug Smith, Associate Professor Emeritus, Ph.D., Arizona State, 1986  
 Jared Stallones, Professor, Ph.D., Texas-Austin, 1999  
 J. Truman Stevens, Associate Professor Emeritus, Ed.D., Virginia, 1972  
 Gerry Swan,\* Associate Professor, Ph.D., Virginia, 2004  
 Kathleen Swan, Professor, Ph.D., Virginia, 2004  
 Mary Ann Vimont, Associate Professor, M.A., Kentucky, 1976  
 Kimberly White, Clinical Assistant Professor, Ed.D., Georgia, 1991  
 Angene Wilson, Professor Emeritus, Ph.D., Ohio State, 1976

\*Joint Appointment

## EARLY CHILDHOOD, SPECIAL EDUCATION, AND REHABILITATION COUNSELING

Ralph Crystal, Chair

Kera Ackerman, Assistant Professor, Ph.D., Kentucky, 2017  
 Richard Allday, Associate Professor, Ph.D., Auburn, 2004  
 Melinda Ault, Associate Professor, Ph.D., Kentucky, 2010  
 Margaret Bausch, Professor, Ed.D., Kentucky, 1999  
 William H. Berdine, Professor Emeritus, Ed.D., Penn State, 1972  
 Brian Bottge, Professor, Ph.D., Tennessee, 1991  
 Belva Collins, Professor Emeritus, Ed.D., Kentucky, 1990  
 Ralph M. Crystal, Professor, Ph.D., Wisconsin, 1977  
 Sonja M. Feist-Price, Professor, Ph.D., Southern Illinois, 1992  
 Jennifer Grisham-Brown, Professor, Ed.D., Kentucky, 1985  
 Debra A. Harley, Professor, Ph.D., Southern Illinois, 1992  
 Sarah Hawkins-Lear, Clinical Associate Professor, Ed.D., Kentucky, 2008  
 Channon Horn, Clinical Associate Professor, Ph.D., Kentucky, 2010  
 Justin Kaiser, Clinical Assistant Professor, Ph.D., Pittsburgh, 2014  
 Justin Lane, Assistant Professor, Ph.D., Georgia, 2014  
 Donna Lee, Clinical Associate Professor, Ph.D., Western Michigan, 2012  
 Allison Levine, Assistant Professor, Ph.D., Michigan State, 2018  
 Kristen Maxwell, Clinical Assistant Professor, Ph.D., Wisconsin-Madison, 2016  
 Katherine McCormick, Professor, Ph.D., Auburn, 1990  
 Robert McKenzie, Professor Emeritus, Ph.D., Iowa, 1981  
 C. Michael Nelson, Professor Emeritus, Ed.D., Kansas, 1969  
 Jackie Rogers, Clinical Associate Professor, Ph.D., Kentucky, 2001  
 Phillip Rumrill, Professor, Ph.D., Arkansas, 1993  
 Kelly Sampson, Clinical Assistant Professor, M.S., Eastern Kentucky, 1990  
 Collin Shepley, Assistant Professor, Ph.D., Kentucky, 2019  
 Sally Shepley, Assistant Professor, Ph.D., Georgia, 2015  
 Deborah Bott Slaton, Professor Emeritus, Ph.D., Florida, 1983  
 Amy Spriggs, Associate Professor, Ph.D., Georgia, 2011  
 Kim Townley, Associate Professor Emeritus, Ph.D., Missouri, 1984  
 Keith Wilson, Professor, Ph.D., Ohio State, 1997

## EDUCATIONAL, SCHOOL, AND COUNSELING PSYCHOLOGY

Kenneth Tyler, Chair

Kathleen Aspiranti, Assistant Professor, Ph.D., Tennessee, 2011  
 Charlotte Clark, Associate Professor Emeritus, Ph.D., Minnesota, 1977  
 Henry P. Cole, Professor Emeritus, Ed.D., SUNY-Buffalo, 1968  
 Fred W. Danner, Professor Emeritus, Ph.D., Minnesota, 1974  
 Stephen T. DeMers, Professor Emeritus, Ed.D., Rutgers, 1976  
 Alicia Fedewa, Associate Professor, Ph.D., Michigan State, 2009  
 Joseph Hammer, Assistant Professor, Ph.D., Iowa, 2015  
 Rachel Hammond, Clinical Associate Professor, Ph.D., Kentucky, 2009  
 Candice Hargons, Assistant Professor, Ph.D., Georgia, 2015  
 Xin Ma, Professor, Ph.D., British Columbia, 1997  
 H. Thompson Prout, Professor Emeritus, Ph.D., Indiana, 1976  
 Jeff Reese, Professor, Ph.D., Texas A&M, 2000  
 Pam Remer, Associate Professor Emeritus, Ph.D., Colorado, 1972  
 Rory Remer, Professor Emeritus, Ph.D., Colorado, 1972  
 Sharon S. Rostosky, Professor, Ph.D., Tennessee, 1998  
 Lisa Ruble, Professor, Ph.D., Indiana, 1998  
 Danelle Stevens-Watkins, Associate Professor, Ph.D., Kentucky, 2008  
 Michael Toland, Associate Professor, Ph.D., Nebraska-Lincoln, 2008  
 Kenneth M. Tyler, Professor, Ph.D., Howard, 2002  
 Ellen Usher, Associate Professor, Ph.D., Emory, 2007

Isaac Woods, Assistant Professor, Ph.D., Memphis, 2017  
 Judith Worell, Professor Emeritus, Ph.D., Ohio State, 1954  
 Lynda Brown Wright, Professor Emeritus, Ph.D., Texas A&M, 1991

## EDUCATIONAL LEADERSHIP STUDIES

John Nash, Chair

Justin Bathon, Associate Professor, Ph.D., Indiana-Bloomington, 2008  
 Lars G. Björk, Professor, Ph.D., New Mexico, 1983  
 Patricia Browne-Ferrigno, Professor, Ph.D., Colorado-Denver, 2001  
 Fred Edmonds, Professor Emeritus, Ed.D., Kentucky, 1961  
 J. John Harris III, Professor Emeritus, Ph.D., Michigan, 1972  
 Wayne Lewis, Associate Professor, Ph.D., North Carolina State, 2009  
 John Nash, Associate Professor, Ph.D., Wisconsin-Madison, 1992  
 Mary John O'Hair, Professor, Ed.D., New Mexico State, 1987  
 Amanda Potterton, Assistant Professor, Ph.D., Arizona State, 2017  
 Jayson Richardson, Associate Professor, Ph.D., Minnesota, 2007  
 Beth Rous, Professor, Ed.D., Professor, Kentucky, 2001  
 Eddy J. Van Meter, Professor Emeritus, Ed.D., New Mexico State, 1971  
 Gene Wilhoit, Clinical Assistant Professor, MAT, Indiana, 1971  
 Lu Young, Clinical Associate Professor, Ed.D., Northern Kentucky, 2013

## EDUCATIONAL POLICY STUDIES AND EVALUATION

Kelly Bradley, Chair

Richard Angelo, Associate Professor Emeritus, Ed.D., Temple, 1978  
 Jeffery P. Bieber, Associate Professor, Ph.D., Michigan, 1990  
 Kelly Bradley, Professor, Ph.D., Ohio State, 2002  
 Clinton Collins, Associate Professor Emeritus, Ph.D., Indiana, 1970  
 Alan J. DeYoung, Professor Emeritus, Ph.D., Stanford, 1975  
 Beth Goldstein, Associate Professor, Ph.D., Wisconsin, 1985  
 Julian Vasquez Heilig, Professor, Ph.D., Michigan, 2012  
 Jane Jensen, Associate Professor, Ph.D., Indiana, 1997  
 Willis Jones, Associate Professor, Ph.D., Vanderbilt, 2011  
 Edward Kifer, Professor Emeritus, Ph.D., Chicago, 1973  
 Jungmin Lee, Assistant Professor, Ph.D., Tennessee, 2014  
 Kiluba Nkulu, Clinical Assistant Professor, Ph.D., Kentucky, 2001  
 Virginia Davis Nordin, Associate Professor Emeritus, J.D., Harvard, 1959  
 Shannon Sampson, Clinical Assistant Professor, Ph.D., Kentucky, 2005  
 John Thelin, Professor, Ph.D., California-Berkeley, 1973  
 Richard Waddington, Assistant Professor, Ph.D., Michigan, 2012  
 Eric Weber, Associate Professor, Ph.D., Southern Illinois, 2007

## KINESIOLOGY AND HEALTH PROMOTION

Benjamin Johnson, Chair

Mark Abel, Associate Professor, Ph.D., Utah, 2006  
 Rayma Beal, Associate Professor Emeritus, Ed.D., Cincinnati, 1985  
 Aaron Beighle, Professor, Ph.D., Arizona State, 2003  
 Stephanie Bennett, Assistant Professor, Ph.D., Middle Tennessee State, 2006  
 Haley Bergstrom, Assistant Professor, Ph.D., Nebraska, 2014  
 Stuart Best, Assistant Professor, Ph.D., Sydney, 2010  
 Lance Bollinger, Assistant Professor, Ph.D., East Carolina, 2013  
 T. Jeff Chandler, Adjunct Professor, Ed.D., Auburn, 1987  
 Jody L. Clasey, Professor, Ph.D., Illinois, 1993  
 Marc Cormier, Assistant Professor, Ph.D., West Virginia, 2014  
 Randall Crist, Assistant Professor, Ed.D., Kentucky 1994  
 Heather Erwin, Professor, Ph.D., Illinois, 2006  
 Elizabeth Fetrow-Whitney, Assistant Professor, Ph.D., Ohio, 2013  
 Fan Gao, Associate Professor, Ph.D., Penn State, 2005  
 Melinda Ickes, Associate Professor, Ph.D., Cincinnati, 2010  
 Kathryn Lanphere, Assistant Professor, Ph.D., New Mexico, 2013  
 Kristen Mark, Associate Professor, Ph.D., Indiana, 2012  
 James Nance, Associate Professor Emeritus, Ed.S., Eastern Kentucky, 1977  
 Melody Noland, Professor, Ph.D., Maryland, 1981  
 Steve Parker, Associate Professor, Ed.D., Kentucky, 1995  
 Bruce A. Rector, Adjunct Professor, J.D., Kentucky, 1990  
 Richard Riggs, Associate Professor Emeritus, Ed.D., Tennessee, 1975  
 Michael Samaan, Assistant Professor, Ph.D., Old Dominion, 2014  
 Robert Shapiro, Professor Emeritus, Ph.D., Illinois-Urbana, 1979  
 Lucian Taylor, Associate Professor, Ph.D., Mississippi, 1995  
 Dennis Vinton, Associate Professor Emeritus, Re.D., Indiana, 1969  
 Andrew Weiner, Associate Professor Emeritus, Ed.D., Georgia, 1976  
 James W. Yates, Associate Professor Emeritus, Ph.D., Penn State, 1980

## STEM: SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS

Jennifer Wilhelm, Chair

Lisa Amick, Clinical Assistant Professor, Ed.D., Illinois, 2014  
Brett Criswell, Clinical Assistant Professor, Ph.D., Pennsylvania, 2009  
Molly Fisher, Associate Professor, Ph.D., North Carolina-Charlotte, 2009  
Cindy Jong, Associate Professor, Ph.D., Boston College, 2009  
Rebecca McNall Krall, Associate Professor, Ph.D., Virginia, 2003  
Margaret Schroeder, Professor, Ph.D., Texas A&M, 2006  
Jonathan Thomas, Associate Professor, Ed.D., Cincinnati, 2010  
Jennifer Wilhelm, Professor, Ph.D., Texas-Austin, 2002  
Lin Xiang, Assistant Professor, Ph.D., California-Davis, 2011

## COLLEGE OF ENGINEERING

Rudolph G. Buchheit, Dean

### F. JOSEPH HALCOMB III, M.D. DEPARTMENT OF BIOMEDICAL ENGINEERING

Guigen Zhang, Chair

Kimberly Ward Anderson,\* Professor, Ph.D., Carnegie-Mellon, 1986  
Babak Bazargari, Associate Professor, Ph.D., Ecole Polytechnique, Montreal, 2008  
Eugene Bruce, Professor Emeritus, Ph.D., Southern California, 1973  
Fanny Chapelin, Temporary Assistant Professor, California-San Diego, 2019  
Elaine Duncan, Adjunct Professor, M.S., Minnesota, 1981  
Fan Gao,\* Associate Professor, Ph.D., Penn State, 2005  
Peter Hardy,\* Assistant Clinical Professor, Ph.D., Toronto, 1991  
Thomas P. Hedman, Adjunct Associate Professor, Ph.D., University of Strathclyde, Scotland, 1996  
Charles F. Knapp, Professor Emeritus, Ph.D., Notre Dame, 1968  
Stephen Lai-Fook, Professor Emeritus, Ph.D., Washington, 1972  
Lu Yuan Lee,\* Professor, Ph.D., Mississippi, 1975  
Ai-Ling Lin,\* Associate Professor, Ph.D., University of Texas Health Science Center, 2006  
Abhijit Patwardhan, Professor, Ph.D., Kentucky, 1992  
David Pienkowski, Associate Professor, Ph.D., Pennsylvania, 1982  
David Powell,\* Assistant Professor, Ph.D., Kentucky, 2002  
David Puleo, Professor Emeritus, Ph.D., Rensselaer Polytechnic, 1991  
David Randall,\* Professor, Ph.D., Washington, 1972  
Keith Rouch,\* Professor Emeritus, Ph.D., Marquette, 1978  
Sibu P. Saha,\* Professor, M.D., MBA, University of Rajshahi, 1966  
Michael A. Samaan,\* Assistant Professor, Ph.D., Old Dominion, 2014  
Hainsworth Shin, Adjunct Assistant Professor, Ph.D., Rensselaer Polytechnic, 2003  
Betty F. Sisken, Research Professor Emeritus, Ph.D., Kentucky, 1973  
Charles Smith,\* Assistant Professor, M.D., Tulane, 1979  
Mark A. Suckow, Professor, Ph.D., Wisconsin, 1987  
Sridhar Sunderam, Associate Professor, Ph.D., Kansas, 1999  
Margaret M. Szabunio,\* Professor, M.D., Hahnemann Medical College, 1984  
Ramkumar Tiruvannam, Assistant Professor, Ph.D., Wayne State, 2014  
Sheng Tong, Associate Professor, Ph.D., Duke, 2003  
Janet Walker,\* Associate Professor, M.D., South Florida, 1981  
Guoqiang Yu, Professor, Ph.D., Tianjin, China, 1999  
Guigen Zhang, Professor, Ph.D., Clemson, 1994  
Caigang Zhu, Assistant Professor, Ph.D., Nanyang Technological University, 2014  
Joseph Zwischenberger,\* Professor, M.D., Kentucky, 1977

\*Joint Appointment

## CHEMICAL AND MATERIALS ENGINEERING

Thomas D. Dziubla, Chair

Kimberly Ward Anderson, Professor, Ph.D., Carnegie Mellon, 1986  
Rodney J. Andrews, Professor, Ph.D., Kentucky, 1999  
Thomas John Balk II, Professor, Ph.D., Johns Hopkins, 2000  
Christopher Barr, Assistant Professor, Ph.D., Drexel, 2016  
Matthew Beck, Associate Professor, Ph.D., Northwestern, 2005  
Bradley J. Berron, Associate Professor, Ph.D., Vanderbilt, 2008  
Dibakar Bhattacharyya, Professor, Ph.D., Illinois Institute of Technology, 1966  
Rudolph G. Buchheit, Professor, Ph.D., Virginia, 1991  
Yang-Tse Cheng, Professor, Ph.D., California Institute of Technology, 1987  
Thomas Cocheil, Senior Lecturer, Ph.D., Texas-Austin, 2013  
Thomas D. Dziubla, Professor, Ph.D., Drexel, 2002  
Derek L. Englert, Assistant Professor STS, Ph.D., Texas A&M, 2009

Isabel C. Escobar, Professor, Ph.D., Central Florida, 2000  
Eric A. Grulke, Professor, Ph.D., Ohio State, 1975  
J. Zachary Hilt, Professor, Ph.D., Texas-Austin, 2004  
Hyun-Tae Hwang, Assistant Professor STS, Ph.D., Southern California, 2009  
Douglas S. Kalika, Professor, Ph.D., California-Berkeley, 1988  
Barbara Knutson, Professor, Ph.D., Georgia Institute of Technology, 1994  
James Landon, Adjunct Assistant Professor, Ph.D., Carnegie Mellon, 2011  
Jennifer Lovely, Lecturer, Ph.D., Kansas State, 2016  
Kenji Okazaki, Professor Emeritus, Dr. Eng. Sci., Kyoto University, 1967  
Daniel W. Pack, Professor, Ph.D., California Institute of Technology, 1997  
Christina Payne, Adjunct Associate Professor, Vanderbilt, 2007  
Jonathan T. Pham, Assistant Professor, Ph.D., Massachusetts, 2015  
Stephen E. Rankin, Professor, Ph.D., Minnesota, 1998  
Phillip J. Reucroft, Professor Emeritus, Ph.D., Imperial College, England, 1959  
Paul Rottmann, Assistant Professor, Ph.D., Johns Hopkins, 2017  
Gisella Lamas-Samanamud, Lecturer, Ph.D., Texas-San Antonio, 2015  
J. Thomas Schrod, Professor Emeritus, Ph.D., Louisville, 1966  
Jeffrey R. Seay, Professor STS, Ph.D., Auburn, 2008  
Qing Shao, Assistant Professor, Ph.D., Washington, 2014  
David L. Silverstein, Professor STS, Ph.D., Vanderbilt, 1998  
Jim L. Smart, Associate Professor STS Emeritus, Ph.D., Texas-Austin, 1997  
Terry W. Strange, Voluntary Lecturer, M.S., Kentucky, 1974  
Tate T. H. Tsang, Professor, Ph.D., Texas-Austin, 1980  
Matthew C. Weisenberger, Adjunct Assistant Professor, Ph.D., Kentucky, 2007  
Sarah A. Wilson, Lecturer, Ph.D., Massachusetts, 2015  
Fuqiang Yang, Professor, Ph.D., Rochester, 1994  
Tongguang Zhai, Associate Professor, Ph.D., Oxford, England, 1994

## CIVIL ENGINEERING

Reginald R. Souleyrette, Chair

Whitney Blackburn-Lynch, Lecturer, Ph.D., Kentucky, 2015  
George E. Blandford, Professor Emeritus, Ph.D., Cornell, 1981  
Gail Brion, Professor, Ph.D., Colorado, 1995  
L. Sebastian Bryson, Associate Professor, Ph.D., Northwestern, 2002  
Diana Byrne, Assistant Professor, Ph.D., Illinois, 2019  
Richard Cheeks, Adjunct Assistant Professor, M.S., Kentucky, 1972; J.D., Kentucky, 2000  
Mei Chen, Associate Professor, Ph.D., New Jersey Institute of Technology, 1999  
Joseph Crabtree, Adjunct Assistant Professor, Ph.D., Kentucky, 2004  
Gabriel B. Dadi, Associate Professor, Ph.D., Kentucky, 2013  
Brad Davis, Associate Professor, Ph.D., Virginia Tech, 2008  
John A. Deacon, Professor Emeritus, D.Eng., California-Berkeley, 1965  
Vincent P. Drnevich, Professor Emeritus, Ph.D., Michigan, 1967  
Gregory D. Erhardt, Assistant Professor, Ph.D., University College London, 2016  
James Fox, Professor, Ph.D., Iowa, 2005  
Hans Gesund, Professor, D.Eng., Yale, 1958  
Ronnie Clark Graves, Adjunct Assistant Professor, Ph.D., Kentucky, 2012  
Eric Green, Adjunct Assistant Professor, Ph.D., Kentucky, 2018  
Mariantonieta Gutierrez-Soto, Assistant Professor, Ph.D., Ohio State, 2017  
Donn E. Hancher, Professor Emeritus, Ph.D., Purdue, 1972  
Bobby O. Hardin, Professor Emeritus, Ph.D., Florida, 1961  
Issam E. Harik, Professor, Ph.D., Wayne State, 1982  
Shakira Hobbs, Assistant Professor, Ph.D., Clemson, 2017  
Yang H. Huang, Professor Emeritus, D.Sc., Virginia, 1966  
Michael E. Kalinski, Professor, Ph.D., Texas-Austin, 1998  
Adam J. Kirk, Adjunct Assistant Professor, Ph.D., Kentucky, 2014  
Ying Li, Adjunct Assistant Professor, Ph.D., Kentucky, 2016  
Kamyar C. Mahboub, Professor, Ph.D., Texas A&M, 1988  
William F. Maloney, Professor Emeritus, Ph.D., Michigan, 1976  
Hala Nassereddine, Assistant Professor, Ph.D., Wisconsin-Madison, 2019  
Lindell E. Ormsbee, Professor, Ph.D., Purdue, 1983  
Nisal Abheetha Peiris, Adjunct Assistant Professor, Ph.D., Kentucky, 2011  
Kelly G. Pennell, Associate Professor, Ph.D., Purdue, 2005  
Kenneth L. Perry, Associate Professor Emeritus, M.S., Murray, 1975  
Jerry G. Rose, Professor Emeritus, Ph.D., Texas A&M, 1971  
Reginald R. Souleyrette, Professor, Ph.D., California-Berkeley, 1989  
Nikiforos Stamatiadis, Professor, Ph.D., Michigan State, 1990  
Roy Sturgill, Adjunct Assistant Professor, Ph.D., Kentucky, 2018  
Timothy Taylor, Associate Professor, Ph.D., Texas A&M, 2009  
Robert A. Walker, Associate Professor Emeritus, M.S., Eastern, 1978  
Shien T. Wang, Professor Emeritus, Ph.D., Cornell, 1969  
Yi-Tin Wang, Professor, Ph.D., Illinois Urbana-Champaign, 1984  
Don J. Wood, Professor Emeritus, Ph.D., Carnegie Institute of Technology, 1961  
Samantha Jones Wright, Senior Lecturer, M.S., Kentucky, 1997  
Scott Yost, Associate Professor, Ph.D., Michigan, 1995

**COMPUTER SCIENCE**

W. Brent Seales, Chair

Corey Baker, Assistant Professor, Ph.D., Florida, 2015  
 Anthony Q. Baxter, Associate Professor Emeritus, Ph.D., Virginia, 1973  
 James Brusuelas, Associate Research Professor, Ph.D., California-Irvine, 2008  
 Kenneth L. Calvert, Professor, Ph.D., Texas-Austin, 1991  
 Fuhua Cheng, Professor, Ph.D., Ohio State, 1982  
 Zongming Fei, Professor, Ph.D., Georgia Institute of Technology, 2000  
 Raphael A. Finkel, Professor, Ph.D., Stanford, 1976  
 Judith A. Goldsmith, Professor, Ph.D., Wisconsin-Madison, 1988  
 James Griffioen, Professor, Ph.D., Purdue, 1991  
 Brent Harrison, Assistant Professor, Ph.D., North Carolina State, 2014  
 Jane E. Hayes, Professor, Ph.D., George Mason, 1999  
 Nathan Jacobs, Associate Professor, Ph.D., Washington, 2010  
 Jerzy W. Jaromczyk, Associate Professor, Ph.D., Warsaw, Poland, 1984  
 Kevin W. Joiner, Lecturer, M.S., Vanderbilt, 1993  
 Venkata Kavuluru,\* Assistant Professor, Ph.D., Kentucky, 2009  
 Debby L. Keen, Lecturer, Ph.D., Kentucky, 1994  
 Hana Khamfroush, Assistant Professor, Ph.D., Univ of Oporto (Portugal), 2014  
 Andrew M. Klapper, Professor Emeritus, Ph.D., Brown, 1982  
 K. Kubota,\* Professor, Ph.D., Facultes des Sciences de Paris, France, 1969  
 Jinze Liu, Associate Professor, Ph.D., North Carolina-Chapel Hill, 2006  
 D. Manivannan, Associate Professor, Ph.D., Ohio State, 1997  
 Victor Marek, Professor Emeritus, Ph.D., Warsaw, Poland, 1968  
 Neil Moore, Assistant Professor STS, Ph.D., Kentucky, 2012  
 Yi Pike, Lecturer, Ph.D., Kentucky, 2011  
 W. Brent Seales, Professor, Ph.D., Wisconsin, 1991  
 Simone Silvestri, Assistant Professor, Ph.D., Sapienza University of Rome, 2010  
 Miroslaw Trusczyński, Professor, Ph.D., Warsaw University of Technology, 1980  
 Stephen Ware, Assistant Professor, Ph.D., North Carolina State, 2014  
 Grzegorz Wasilkowski, Professor, Ph.D., Warsaw, Poland, 1980  
 Ruigang Yang, Professor, Ph.D., North Carolina-Chapel Hill, 2003  
 Tingting Yu, Assistant Professor, Ph.D., Nebraska, 2014  
 Jun Zhang, Professor, Ph.D., George Washington, 1997

\*Joint Appointment

**ELECTRICAL AND COMPUTER ENGINEERING**

Michael T. Johnson, Chair

Robert J. Adams, Professor, Ph.D., Virginia Polytechnic, 1998  
 Jeffrey Ashley, Senior Lecturer, Ph.D., Kentucky, 2004  
 Lyle N. Back, Assistant Professor Emeritus, M.S., Kentucky, 1962  
 Jihye Bae, Assistant Professor, Ph.D., Florida, 2013  
 Zhi Chen, Professor, Ph.D., Illinois at Urbana-Champaign, 1999  
 Sen-ching Samson Cheung, Professor, Ph.D., California-Berkeley, 2002  
 Aaron M. Cramer, Associate Professor, Ph.D., Purdue, 2007  
 Henry Dietz, Professor, Ph.D., Polytechnic, 1987  
 Raymond J. Distler, Associate Professor Emeritus, Ph.D., Kentucky, 1964  
 Paul A. Dolloff, Adjunct Assistant Professor, Ph.D., Virginia Polytechnic Institute, 1996  
 Kevin D. Donohue, Professor, Ph.D., Illinois Institute of Technology, 1987  
 Joseph A. Elias, Adjunct Assistant Professor, Ph.D., Rice, 1996  
 Gregory Gerhardt,\* Professor, Ph.D., Kansas, 1983  
 Regina Hannemann, Senior Lecturer, Ph.D., Kassel, Germany, 2001  
 Laurence G. Hassebrook, Professor Emeritus, Ph.D., Carnegie Mellon, 1990  
 J. Todd Hastings, Professor, Ph.D., Massachusetts Institute of Technology, 2003  
 Jiangbiao He, Assistant Professor, Ph.D., Marquette, 2016  
 J. Robert Heath, Associate Professor Emeritus, Ph.D., Auburn, 1973  
 Lawrence E. Holloway, Professor, Ph.D., Carnegie Mellon, 1990  
 Dan M. Ionel, Professor, Ph.D., Polytechnic University of Bucharest, Romania, 1996  
 Nicholas F. Jewell, Adjunct Assistant Professor, Louisville, 2014  
 Michael T. Johnson, Professor, Ph.D., Purdue, 2000  
 Douglas Klein, Lecturer, M.S., Eastern Kentucky, 2012  
 Daniel L. Lau, Professor, Ph.D., Delaware, 1999  
 Laura M. Letellier, Lecturer, B.S., Purdue, 1977  
 Michael E. Lhamon, Adjunct Assistant Professor, Ph.D., Kentucky, 1997  
 Yuan Liao, Professor, Ph.D., Texas A&M, 2000  
 David J. Link, Adjunct Assistant Professor, Kentucky, 2006  
 Robert A. Lodder,\* Professor, Ph.D., Indiana, 1988  
 Caicheng Lu, Professor, Ph.D., Illinois at Urbana-Champaign, 1995  
 James E. Lumpp, Jr., Professor, Ph.D., Iowa, 1993  
 Janet K. Lumpp, Professor, Ph.D., Iowa, 1993  
 Sayed Ahmad Salehi, Assistant Professor, Ph.D., Minnesota, 2017  
 Luis Gonzalo Sánchez Giraldo, Assistant Professor, Ph.D., Florida, 2012  
 Vijay P. Singh, Professor, Ph.D., Minnesota, 1974

William T. Smith, Associate Professor, Ph.D., Virginia Polytechnic Institute, 1990  
 Joseph Sottile, Jr.,\* Associate Professor, Ph.D., Penn State, 1991  
 Ishan Thakkar, Assistant Professor, Ph.D., Colorado State, 2018  
 Himanshu Thapliyal, Assistant Professor, Ph.D., South Florida, 2011  
 Lee T. Todd Jr., Professor Emeritus, Ph.D., Massachusetts Institute of Technology, 1974  
 Frederick C. Trutt, Professor Emeritus, Ph.D., Delaware, 1964  
 Bruce L. Walcott, Professor, Ph.D., Purdue, 1987  
 Peng Wang, Assistant Professor, Ph.D., Case Western Reserve, 2017  
 Biyun Xie, Assistant Professor, Ph.D., Colorado State, 2019  
 John C. Young, Associate Professor, Ph.D., Clemson, 2002  
 Yu-Ming Zhang, Professor, Ph.D., Harbin Institute of Technology, China, 1990

\*Joint Appointment

**MECHANICAL ENGINEERING**

Michael W. Renfro, Chair

Nelson K. Akafuah, Lecturer, Ph.D., Kentucky, 2009  
 Rodney J. Andrews,\* Professor, Ph.D., Kentucky, 1999  
 Fazleena Badurdeen, Professor, Ph.D., Ohio, 2005  
 Sean Bailey, Associate Professor, Ph.D., Ottawa, 2006  
 John R. Baker, Associate Professor STS, Ph.D., Kentucky, 1999  
 Millard F. Beatty, Jr., Professor Emeritus, Ph.D., Johns Hopkins, 1964  
 Scott Berry, Associate Professor, Ph.D., Louisville, 2008  
 Christoph Brehm, Assistant Professor, Ph.D., Arizona, 2011  
 Louis M. Brock, Professor Emeritus, Ph.D., Northwestern, 1972  
 Roy D. Burberry, Assistant Professor Emeritus, M.A., Kentucky, 1958  
 Vincent R. Capece, Associate Professor STS Emeritus, Ph.D., Purdue, 1987  
 Hailong Chen, Assistant Professor, Ph.D., Arizona State, 2015  
 Oscar W. Dillon, Jr., Professor Emeritus, D.Eng.Sci., Columbia, 1959  
 Robert M. Drake, Jr., Professor Emeritus, Ph.D., California-Berkeley, 1950  
 Hari Ghimire, Lecturer, Ph.D., Kentucky, 2018  
 Christine F. Goble, Senior Lecturer, Ph.D., Purdue, 1999  
 Martha E. Grady, Assistant Professor, Ph.D., Illinois-Urbana, 2014  
 José Graña-Otero, Assistant Professor, Ph.D., Technical University of Madrid, 2009  
 Otfried J. Hahn, Professor Emeritus, Ph.D., Princeton, 1964  
 Mark T. Hanson, Associate Professor, Ph.D., Northwestern, 1989  
 J. Thomas Henninger, Senior Lecturer, Ph.D., Kentucky, 2009  
 David W. Herrin, Professor, Ph.D., Kentucky, 2000  
 Jesse Hoagg, Associate Professor, Ph.D., Michigan, 2006  
 I.S. Jawahir, Professor, Ph.D., University of New South Wales, 1986  
 Xu Jin, Assistant Professor, Ph.D., Georgia Institute of Technology, 2019  
 Haluk E. Karaca, Associate Professor, Ph.D., Texas A&M, 2007  
 Marwan Khraisheh, Adjunct Professor, Ph.D., Washington State, 1996  
 Thomas W. Lester, Dean and Professor Emeritus, Ph.D., Purdue, 1974  
 Wei (Mike) Li, Associate Professor, Ph.D., Calgary, 2011  
 Kunlei Liu, Associate Professor, Ph.D., Southeast University, 1993  
 Yuebin Charles Lu, Professor STS, Ph.D., Western Ontario, Canada, 1999  
 John Maddox, Assistant Professor STS, Ph.D., Auburn, 2015  
 M. Abbot Maginnis, Adjunct Assistant Professor, Ph.D., Kentucky, 2012  
 Alan T. Male, Professor Emeritus, Ph.D., University of Birmingham, England, 1962  
 Sergiy Markutsya, Assistant Professor STS, Ph.D., Iowa State, 2010  
 Alexandre Martin, Associate Professor, Ph.D., Ecole Polytechnique, Montreal, 2005  
 Harry L. Mason, Associate Professor Emeritus, M.S., Kentucky, 1959  
 James M. McDonough, Professor Emeritus, Ph.D., California-Los Angeles, 1980  
 M. Pinar Mengüç, Professor Emeritus, Ph.D., Purdue, 1985  
 William E. Murphy, Professor Emeritus, Ph.D., Purdue, 1980  
 Johné M. Parker, Associate Professor, Ph.D., Georgia Institute of Technology, 1996  
 Hasan Poonawala, Assistant Professor, Ph.D., Texas-Dallas, 2014  
 Savio Poovathingal, Assistant Professor, Ph.D., Minnesota, 2016  
 Michael W. Renfro, Professor, Ph.D., Purdue, 2000  
 Keith E. Rouch, Professor Emeritus, Ph.D., Marquette, 1977  
 Kozo Saito, Professor, D.Eng., Seikei University, Japan, 1980  
 Ahmad Salaimh, Assistant Research Professor, Ph.D., Kentucky, 2011  
 Julius Schoop, Assistant Professor, Ph.D., Kentucky, 2015  
 T. Michael Seigler, Associate Professor, Ph.D., Virginia Polytechnic, 2005  
 Dusan P. Sekulic, Professor, D.Sc., Belgrade, Yugoslavia, 1981  
 Andrew F. Seybert, Professor Emeritus, Ph.D., Purdue, 1975  
 Shiva N. Singh, Professor Emeritus, Ph.D., Indian Institute of Technology, Kharagpur, India, 1959  
 Suzanne Weaver Smith, Professor, Ph.D., Virginia Polytechnic Institute, 1988  
 Lyndon Scott Stephens, Professor, Ph.D., Virginia, 1995  
 Kaveh A. Tagavi, Professor, Ph.D., California-Los Angeles, 1982  
 Farzad Taghaddosi, Lecturer, Ph.D., McGill, 2006  
 Theodore R. Tauchert, Professor Emeritus, D.Eng., Yale, 1964  
 Christine Trinkle, Associate Professor, Ph.D., California-Berkeley, 2007

Horn-Sen Tzou, Professor Emeritus, Ph.D., Purdue, 1983  
 Jonathan F. Wenk, Associate Professor, Ph.D., California-Berkeley, 2008  
 Julie G. Whitney, Lecturer, Ph.D., Cincinnati, 1992  
 Ting-Wen Wu, Professor, Ph.D., Texas-Austin, 1987  
 \*Joint Appointment

## MINING ENGINEERING

Thomas Novak, Chair

Zacharias G. Agioutantis, Professor, Ph.D., Virginia Tech, 1987  
 John G. Groppo, Jr., Professor, Ph.D., Kentucky, 1992  
 Rick Q. Honaker, Professor, Ph.D., Virginia Polytechnic Institute, 1992  
 Joseph W. Leonard, Professor Emeritus, M.S., Penn State, 1958  
 G. T. Lineberry, Professor, Ph.D., West Virginia, 1982  
 Thomas Novak, Professor, Ph.D., Penn State, 1984  
 Pedram Roghanchi, Assistant Professor, Ph.D., Nevada, 2017  
 Steven Schafrik, Associate Professor, Ph.D., Virginia Tech, 2013  
 Jhon J. Silva Castro, Associate Professor, Ph.D., Kentucky, 2012  
 Joseph Sottile, Jr., Professor, Ph.D., Penn State, 1991  
 Richard J. Sweigard, Professor Emeritus, Ph.D., Penn State, 1984  
 Konstanty F. Unrug, Professor Emeritus, D.Sc., Krakow, 1971  
 Andrzej Wala, Professor Emeritus, Ph.D., Krakow, 1972  
 Joshua Werner, Assistant Professor, Ph.D., Utah, 2017

## COLLEGE OF FINE ARTS

Mark Shanda, Dean

### DEPARTMENT OF ARTS ADMINISTRATION

Rachel Shane, Chair

Katherine Adams, Adjunct Assistant Professor, J.D., Kentucky, 1985  
 Tara L. Baker, Adjunct Assistant Professor, M.A., New York, 2011  
 Michael Braun, Associate Professor Emeritus, M.A., St. Cloud State, 1978  
 Nancy Denholm, Adjunct Assistant Professor, M.F.A., Florida State, 1981  
 Lee Erik Eachus, Lecturer, M.A., Savannah College of Art & Design, 2016  
 Michelle Franzetti, Adjunct Assistant Professor, M.A., Kentucky, 2015  
 Joe French, Adjunct Assistant Professor, M.S., South Alabama, 2013  
 Leah Hamilton, Adjunct Assistant Professor, M.S., Drexel, 2016  
 Steve Hoffman, Adjunct Assistant Professor, M.A., Wisconsin-Madison, 1992  
 Michael Ibrahim, Adjunct Assistant Professor, M.A., Boston, 2007  
 Yuha Jung, Associate Professor, Ph.D., Penn State, 2012  
 Heather Kuruvilla, Adjunct Assistant Professor, J.D., DePaul, 2015  
 Geraldine Maschio, Professor Emerita, Ph.D., Wisconsin-Madison, 1981  
 Christopher Montpetit, Adjunct Assistant Professor, M.F.A., Columbia, 1990  
 Kathryn Mullen, Adjunct Assistant Professor, M.A., Kentucky, 2016  
 Stephanie Richards, Lecturer, M.F.A., Iowa, 2003  
 Kristina Rideout, Adjunct Assistant Professor, M.A., Kentucky, 2015  
 Ellen Rosewall, Adjunct Assistant Professor, M.F.A., Minnesota, 1978  
 Jill Schinberg, Assistant Professor, M.F.A., Utah, 2005  
 Jennifer Sciantarelli, Adjunct Assistant Professor, M.A., Ohio State, 2009  
 Rachel Shane, Associate Professor, Ph.D., Ohio State, 2006  
 Jeremy Stiffler, Adjunct Assistant Professor, M.S., Penn State, 2011  
 Misty Tolle, Adjunct Assistant Professor, M.A., Juilliard School, 2000

### SCHOOL OF ART AND VISUAL STUDIES

Robert Jensen, Director

Patrick Adams, Instructor, M.F.A., Kentucky, 1992  
 Ruth Adams, Associate Professor, M.F.A., Miami, 1999  
 Becky Alley, Lecturer, M.F.A., Kansas, 2005  
 Garry Bibbs, Professor, M.F.A., Kentucky, 1986  
 LA Watson Brock, Instructor, M.F.A., Boston, 2014  
 Mathew Brock, Senior Lecturer, M.F.A., Vermont College, 2006  
 Anna Brzyski, Professor, Ph.D., Chicago, 1999  
 Dennis Carpenter, Professor Emeritus, M.F.A., Florida, 1979  
 Dana Clark, Instructor, M.F.A., Cranbrook Academy of Art, 2008  
 Alice Christ, Associate Professor, Ph.D., Chicago, 1992  
 Mia Cinelli, Assistant Professor, M.F.A., Michigan, 2014  
 Jeremy Colbert, Lecturer, M.F.A., Florida State, 2002  
 Joel Feldman, Instructor, M.F.A., Indiana, 1967  
 Gerald Ferstman, Associate Professor Emeritus, M.F.A., Washington, 1965  
 Ivy Johnson Fleming, Instructor, M.F.A., Cranbrook Academy of Art, 2016

Chad Eby, Assistant Professor, M.F.A., IMDA-UMBC, 2006  
 Belinda Rae Goodwin, Professor, M.F.A., Winthrop, 2006  
 Carey Gough, Instructor, M.F.A., South Wales, 2013  
 Crystal Gregory, Assistant Professor, M.F.A., Art Institute of Chicago, 2013  
 Amy Hadden, Instructor, M.F.A., Maryland, 1995  
 Marilyn Hamann, Associate Professor Emeritus, M.A., California, 1970  
 Garrett Hansen, Assistant Professor, M.F.A., Indiana, 2011  
 Allison Hays, Instructor, M.A., Kentucky, 2002  
 Martha Henton, Senior Lecturer, M.A., Western Kentucky, 1972  
 Stuart Horodner, Instructor, M.F.A., Rutgers, 1986  
 Fuko Ito, Visiting Assistant Professor, M.F.A., Kansas, 2018  
 Christopher Jackson, Instructor, M.F.A., Maryland, 2005  
 Robert Jensen, Professor, Ph.D., California-Berkeley, 1987  
 David Kaiser, Instructor, M.F.A., Chicago, 1998  
 Forest Kelley, Assistant Professor, M.F.A., Rhode Island, 2014  
 Miriam Kienle, Assistant Professor, Ph.D., Illinois at Urbana-Champaign, 2014  
 Doreen Maloney, Associate Professor, M.F.A., Wisconsin, 1999  
 Andrew L. Maske, Associate Professor, Ph.D., Oxford, 1995  
 Jonathan McFadden, Associate Professor, M.F.A.  
 Guy Mendes, Instructor, M.F.A., Kentucky, 1970  
 Colleen Merrill, Instructor, Kentucky, 2013  
 Elissa Morley, Instructor, M.F.A., London, 2001  
 Rachel Moser, Instructor, M.F.A., Kentucky, 2017  
 John Norris, Assistant Professor, M.F.A., Louisiana, 2005  
 Renee Oswald, Instructor, M.F.A., Columbia College, 2007  
 Lee Ann Paynter, Lecturer, M.F.A., California Institute of the Arts, 2011  
 Emma Perkins, Instructor, EdD, Kentucky, 2004  
 Jane S. Peters, Associate Professor Emeritus, Ph.D., Wisconsin-Madison, 1975  
 Joanne Price, Instructor, M.F.A., Minnesota, 2002  
 Allan Richards, Associate Professor, Ed.D., Illinois State, 1987  
 Kristin Richards, Instructor, M.F.A., Yale, 2013  
 Paul Rodgers, Lecturer, M.F.A., Cincinnati, 2014  
 Arturo A. Sandoval, Professor Emeritus, M.F.A., Cranbrook, 1971  
 Robert Scroggins, Professor, M.F.A., Southern Illinois-Edwardsville, 1980  
 Robert Shay, Professor, M.F.A., Wisconsin, 1973  
 Elizabeth Shipp, Instructor, M.F.A., Cranbrook Academy of Art, 2016  
 Brandon Smith, Senior Lecturer, M.F.A., Cincinnati, 2004  
 James (Rob) Southard, Lecturer, M.F.A., Carnegie Mellon, 2011  
 N. "Hunter" Stamps, Associate Professor, M.F.A., Indiana, 2005  
 Dmitry Strakovsky, Associate Professor, M.F.A., Art Institute of Chicago, 2001  
 Heather Stratton, Lecturer, M.F.A., Maryland Institute College of Art, 2012  
 George Szekely, Professor, Ed.D., Columbia, 1975  
 Siavash Tohidi, Lecturer, M.F.A., Ohio University, 2015  
 Monica Visoná, Professor, Ph.D., California-Santa Barbara, 1983  
 Janie Welker, Instructor, M.A., New York, 1995  
 Kathleen Wheeler, Senior Lecturer, M.A., Kentucky, 2005  
 Jessica Whittington, Instructor, M.F.A., Cincinnati, 2018  
 Mark Williams, Instructor, M.F.A., Connecticut, 2004  
 Casey Wilson, Instructor, M.F.A., Ohio, 2016  
 David Wischer, Assistant Professor, M.F.A. Purdue, 2012

### SCHOOL OF MUSIC

Stanley Pelkey, Director

William Anderson, Instructor, Ph.D., Kentucky, 2012  
 Cecil "Ben" Arnold, Jr, Professor, Ph.D., Kentucky, 1986  
 Elizabeth P. Arnold, Associate Professor, D.M.A., Cincinnati University-College Conservatory of Music, 2006  
 Joseph W. Baber, Professor, M.M., Eastman School of Music, Rochester, 1965  
 Michael Baker, Associate Professor, Ph.D., Indiana, 2007  
 John "Dennis" Bender, Associate Professor, D.M.A., Cincinnati University-College Conservatory of Music, 2009  
 Dana Biggs, Assistant Professor, Director of Bands/Director of Athletic Bands, D.M.A., Kentucky, 2010  
 Cody Birdwell, Associate Professor, D.M.A., North Texas, 1996  
 Karen Bottge, Associate Professor, Ph.D., Wisconsin-Madison, 2006  
 George R. Boulden, Associate Professor, M.M.E., South Carolina, 1986  
 Lance W. Brunner, Associate Professor, Ph.D., North Carolina, 1976  
 James B. Campbell, Professor, M.M., Northern Illinois, 1978  
 Jennifer Campbell, Assistant Professor, M.A., Connecticut, 2002  
 James "Revell" Carr III, Assistant Professor, Ph.D., California-Santa Barbara, 2006  
 Daniel Cecil, Instructor, M.M.E., Kentucky, 2010  
 W. Harry Clarke, Associate Professor Emeritus, M.A., George Peabody, 1963  
 Gordon B. Cole, Associate Professor Emeritus, M.M., New Hampshire, 1976  
 Jacob Coleman, Assistant Professor, D.M.A., Texas, 2014

Elaine Cook, Instructor, M.M., San Francisco, 1976  
Marcello Cormio, Instructor, D.M.A., Kentucky, 2019  
Kate R. Covington, Associate Professor Emeritus, Ph.D., Indiana, 1982  
Raleigh Dailey, Associate Professor, Ph.D., Kentucky, 2007  
Paul Deatherage, Instructor, M.M., Kentucky, 2019  
Diana Deen, Instructor, Ph.D., Kentucky, 1999  
Richard C. Domek, Jr., Professor Emeritus, Ph.D., Indiana, 1976  
Jason Dovel, Associate Professor, D.M.A., North Texas, 2007  
David G. Elliott, Associate Professor Emeritus, M.M., Catholic University of America, 1968  
Angelique Everett, Associate Professor, D.M.A., Kentucky, 2007  
Beth Glixon, Instructor, Ph.D., Rutgers, 1985  
Jonathan E. Glixon, Professor, Ph.D., Princeton, 1979  
Arthur Graham, Professor Emeritus, Ed.D., Columbia, 1960  
Harold R. "Skip" Gray, Professor Emeritus, D.M.A., Illinois, 1994  
Diana R. Hallman, Associate Professor, Ph.D., City University of New York, 1995  
Hubert Henderson, Professor Emeritus, Ph.D., North Carolina, 1954  
Dieter Hennings Yeomans, Associate Professor, D.M.A., Eastman, 2015  
Alaine Reschke Hernandez, Assistant Professor, Ph.D., Iowa, 2019  
Alan B. Hersh, Professor Emeritus, D.Mus., Indiana, 1971  
Lori R. Hetzel, Professor, D.M.A., Michigan State, 1995  
Matthew Hightower, Assistant Professor, D.M.A., Texas-Austin, 2014  
Miriam Hillmer, Instructor, M.M.E., Kansas, 2007  
Julie Hobbs, Associate Professor, D.M., Northwestern, 2006  
Kevin Holm-Hudson, Professor, D.M.A., Illinois, 1992  
Sara Holroyd, Professor Emeritus, M.A., Columbia, 1951  
Michael Hudson, Associate Professor, Ph.D., Florida State, 2012  
Aaron Hynds, Lecturer, M.M., Wisconsin-Madison, 2019  
Cliff Jackson, Associate Professor Emeritus, B.M., Oberlin, 1977  
Phyllis Jenness, Professor Emeritus, M.A., Kentucky, 1958  
Robert Jeter, Instructor, M.M. Manhattan School of Music, 2006  
Jefferson G. Johnson, Professor, D.M.A., Colorado, 1992  
Benjamin C. Karp, Professor, M.M., Indiana, 1983  
Margaret Karp, Lecturer, B.M., Indiana, 1983  
Bradley Kerns, Associate Professor, M.M., Boston, 2005  
Donna Kwon, Associate Professor, Ph.D., California-Berkeley, 2005  
Cynthia Lawrence-Calkins, Professor, M.M., Colorado, 1987  
Tedin Blair Lindsay, Lecturer, Ph.D., Kentucky, 2009  
Charles H. Lord, Associate Professor Emeritus, Ph.D., Indiana, 1978  
Noemi G. Lugo, Professor, D.M.A., Colorado, 1992  
ToniMarie Marchioni, Assistant Professor, D.M.A. Juilliard, 2010  
Daniel E. Mason, Professor, M.M., Southern California, 1977  
Everett D. McCorvey, Professor, D.M.A., Alabama, 1989  
Vicki McVay, Senior Lecturer, Ph.D., Kentucky, 2005  
Nan McSwain, Lecturer, D.M.A., Michigan, 2002  
Patricia Montgomery, Associate Professor Emeritus, D.M.A., Indiana, 1979  
Timothy Moyers, Jr., Assistant Professor, Ph.D., Birmingham, 2016  
Catherine Nardolillo, Instructor, D.M.A., Kentucky, 2013  
John Nardolillo, Professor, M.M., Peabody Conservatory of Music, 1997  
Lisa Osland, Instructor, M.M., Rochester, 1987  
Miles S. Osland, Professor, M.M., Eastman School of Music, 1987  
Heidi Pelkey, Instructor, M.M.E., Kentucky, 1994  
Stanley Pelkey, Associate Professor, Ph.D., Eastman School of Music, 2004  
Ronald A. Pen, Professor Emeritus, Ph.D., Kentucky, 1987  
Joshua Rayburn, Instructor, Ed.S., Kentucky, 2015  
Paul Reich, Instructor, B.M., Cleveland Institute of Music, 1999  
Michael Rintamaa, Instructor, M.F.A., Emory, 1992  
Austin Robinson, Instructor, M.M., Kentucky, 2015  
Schuyler W. Robinson, Professor Emeritus, D.M.A., Illinois, 1972  
Desiree Scarambone, Instructor, B.M., University of Houston-Central, 2006  
Janet Scott, Instructor, B.A., Columbia University-Barnard College, 1977  
Andrew Serce, Instructor, D.M.A., Kentucky, 2017  
Deborah Shelton, Instructor, M.A., Georgetown College, 1990  
Peter C. Simpson, Professor, M.A., New Hampshire, 1975  
David W. Sogin, Professor, Ph.D., Texas at Austin, 1986  
Adam Sovkopolas, Instructor, D.M.A., Kentucky, 2013  
Joan Stansbury, Instructor, M.A., Kentucky, 1973  
Margaret Tung, Vising Assistant Professor, D.M.A., Ohio, 2019  
Martina Vasil, Assistant Professor, Ph.D., West Virginia, 2015  
Irina Vorobieva, Professor, D.M.A., Montreal, 1997  
Erin Walker, Lecturer, D.M.A. Kentucky, 2008  
Cecilia Hoi-Mee Chu Wang, Professor Emeritus, Ph.D., Texas Tech, 1975  
Dale E. Warren, Associate Professor Emeritus, M.M., North Colorado, 1976  
Ellyn Washburne, Instructor, B.M., Evansville, 2013

Delois Wiggins, Instructor, M.M.E., Georgia, 1985  
Elizabeth Wilson, Instructor, M.M., Georgia, 2008  
Scott Wright, Associate Professor, D.M.A., Arizona State, 1999  
Tze-Ying Wu, Assistant Professor, D.M., Indiana, 2016  
Wendy Yates, Instructor, D.M.A., Eastman, 2010  
Olivia Yinger, Associate Professor, Ph.D., Florida State, 2012

## DEPARTMENT OF THEATRE AND DANCE

Tony Hardin, Chair

Yoon Bae, Assistant Professor, M.F.A., University College London, 1997  
Maria Theresa Bautista, Instructor, B.S., Indiana, 1995  
Jennifer Benavides, Instructor, M.A., Kentucky, 2012  
EveMarie Bessenbach, Instructor, M.A., Kentucky, 2018  
Heather Brown, Visiting Lecturer, M.F.A., Michigan State, 2018  
Kristen Cerelli, Assistant Professor, M.F.A., New School, 2018  
Josiah Correll, Instructor, B.F.A., Kentucky, 2006  
Herman D. Farrell III, Professor, M.F.A., Columbia, 1994; J.D., New York, 1989  
Nelson Fields, Professor, M.F.A., Iowa, 1992  
Jordan Guffey, Instructor, B.A., Kentucky, 2015  
Tony Hardin, Associate Professor, M.F.A., Virginia, 1999  
Stephanie Harris, Visiting Lecturer, M.F.A., Hollins, 2020  
Robert W. Haven, Associate Professor Emeritus, M.F.A., Delaware, 1992  
Russell Henderson, Associate Professor Emeritus, M.F.A., Trinity University-Dallas Theatre Center, 1979  
John Holloway, Professor Emeritus, M.F.A., Trinity University-Dallas Theatre Center, 1980  
Nancy C. Jones, Professor, M.F.A., Western Illinois, 1997  
Geraldine Maschio, Professor Emeritus, Ph.D., Wisconsin-Madison, 1981  
Anne McAlexander, Visiting Assistant Professor, M.F.A., Ohio, 2019  
Mark Mozingo, Instructor, B.F.A., Wright State, 2005  
Marianne Phelps, Instructor, M.F.A., North Carolina, 2011  
Rhoda-Gale Pollack, Professor Emerita, Ph.D., Stanford, 1971  
Diana Evans Pulliam, Instructor, B.A., Kentucky, 1975  
Christina Ritter, Senior Lecturer, Ph.D., Ohio State, 2007  
James W. Rodgers, Professor Emeritus, Ph.D., Wayne State, 1968  
Peter Allen Stone, Assistant Professor, M.F.A., American Conservatory Theatre, 2005  
Zachary Stribling, Senior Lecturer, M.F.A., Florida State, 2003  
Susie Thiel, Associate Professor, M.F.A., Michigan, 2011  
Lauren Ward, Instructor, B.A., Kentucky, 2017  
Tracy M. Ward, Lecturer, M.F.A., Florida, 2003  
Stephen Wrentmore, Lecturer, Postgraduate Advanced Diploma, Central London School of Speech and Drama, 1997

## COLLEGE OF HEALTH SCIENCES

Scott M. Lephart, Dean

### DEPARTMENT OF HEALTH AND CLINICAL SCIENCES

Karen Badger, Department Chair

#### Human Health Sciences

Jami Warren, Program Director

#### Clinical Leadership and Management

Sarah Kercksmar, Program Director

Karen Badger, Professor, Ph.D., Kentucky, 2005  
Lynda Bennett, Adjunct Assistant Professor, B.H.S., M.S., Kentucky and Northern Kentucky, 2013  
Maria G. Boosalis, Associate Professor Emeritus, Ph.D., M.P.H., R.D., L.D., Minnesota, 1984  
Geza G. Bruckner, Professor, Ph.D., Kentucky, 1979  
Ming Chih, Assistant Professor, MHA, M.S., Ph.D., Wisconsin-Madison, 2013  
Joseph L. Fink III,\* Professor, J.D., Georgetown, 1973  
Rachel Hogg Graham, Assistant Professor, Dr. P.H., M.A., Kentucky, 2014  
Sarah E. Kercksmar, Assistant Professor, Ph.D., Kentucky, 2007  
Karen O. Skaff, Professor, Ph.D., Columbia, 1992; Kentucky, 1995  
Jami Warren, Lecturer, M.A., Ph.D., Kentucky, 2011  
Brandi M. White, Assistant Professor, Ph.D., South Carolina, 2015

**Medical Laboratory Science**

Steve Schwarze, Program Director

Kim Campbell, Senior Lecturer, MLS(ASCP)CM, M.S.Ed., Kentucky, 1985  
 Phillip Campbell, Adjunct Assistant Professor, M.T. (ASCP), M.S.Ed., Kentucky, 1979  
 Patricia Ann Collins, Associate Professor Emeritus, M.T. (ASCP), M.S., West Virginia, 1971  
 Stacy L. Gabbard, M.A., Lecturer, Liberty University, 2016  
 Linda Gorman, \*^Associate Professor Emeritus, MLS(ASCP)CM, Ph.D., Kentucky 1996  
 Chad Williams, Lecturer, MLS (ASCP)CM, M.Ed, Georgia, 2009  
 Steve Schwarze, Assistant Professor, MLS(ASCP)CM, Ph.D., Wisconsin, 1998  
 E. Anne Stiene-Martin, \*^ Professor Emeritus, M.T. (ASCP), Ph.D., Kentucky, 1991  
 Marie Vittetoe, Professor Emeritus, M.T. (ASCP), C.L.S. (NCA), Ed.D., West Virginia, 1973

\*Joint Appointment

^Graduate Faculty

**Physician Assistant Studies**

W. Scott Black, Department Chair

W. Scott Black, Department Chair, Ph.D.  
 Somu Chatterjee, Assistant Professor, M.S., MPH, West Virginia  
 Deshana Collett, Assistant Professor, Ph.D., Kentucky, 2013  
 David A. Fahringer, Associate Professor, M.S.P.H., PA-C, Kentucky, 1992  
 Gerry A. Gairola, Professor, Ph.D., Kentucky, 1975  
 Oleva Coleman Mullins, Assistant Professor, MSPAS, PA-C, Marietta College, 2007  
 Sam Powdrill, Associate Professor, M.Phil., PA-C, University of London, England, 1992;  
 North Dakota, 1999  
 Kevin M. Schuer, Associate Professor, DrPH, MSPAS, PA-C Kentucky, 2007, 2015  
 Cheryl E. Vanderford, Assistant Professor, MPAS, PA-C Kentucky, 2008  
 Leslie N. Woltenberg, Assistant Professor, Ph.D., Kentucky, 2014

**Athletic Training and Clinical Nutrition**

Phillip A. Gribble, Department Chair

John P. Abt, Associate Professor, Ph.D., ATC, FACSM, Pittsburgh, 2004  
 Carrie Silkman Baker, Assistant Professor, Ph.D., ATC, Kentucky 2012  
 Geza G. Bruckner, Professor, Ph.D., Kentucky, 1979  
 Timothy A. Butterfield, Associate Professor, Ph.D., ATC, University of Calgary, 2005  
 Phillip A. Gribble, Department Chair, Professor, Ph.D., ATC, FNATA, Penn State, 2003  
 Nick R. Heebner, Assistant Professor, Ph.D., ATC, Pittsburgh, 2015  
 Johanna M. Hoch, Assistant Professor, Ph.D., Kentucky, 2012  
 Matthew C. Hoch, Lecturer, Ph.D., University of Kentucky, 2011  
 David T. Thomas, Associate Professor, Ph.D., RDN, CSSD, LD, FAND, North Carolina-Greensboro, 2009

**Communication Sciences and Disorders**

Anne D. Olson, Department Chair

Richard D. Andreatta, Associate Professor, Ph.D., Indiana, 1999  
 Vrushali Angadi, Clinical Assistant Professor, Ph.D., CCC-SLP, Kentucky, 2016  
 Gilson C. Capilouto, Professor, Ph.D., CCC-SLP, South Carolina, 2002  
 Dan Croake, Clinical Assistant Professor, Ph.D., CCC-SLP, Kentucky, 2016  
 H. Isabel Hubbard, Assistant Professor, Ph.D., CCC-SLP, South Carolina, 2014  
 Joneen Lowman, Associate Professor, Ph.D., CCC-SLP, Florida State, 2003  
 Robert C. Marshall, Professor, Ph.D., CCC-SLP, Oklahoma, 1969  
 Peter A. Meulenbroek, Assistant Professor, Ph.D., CCC-SLP, Wisconsin, 2013  
 Donna Southerland Morris, Associate Professor, M.A., CCC-SLP, Eastern Kentucky, 1982  
 Anne D. Olson, Associate Professor, Ph.D., CCC-A, Kentucky, 2010  
 Judith L. Page, Associate Professor, Ph.D., CCC-SLP, Purdue, 1981  
 Janine Schmedding-Bartley, Assistant Professor, Ph.D., CCC-SLP, Florida State, 2006  
 Joseph C. Stemple, Professor, Ph.D., CCC-SLP, Cincinnati, 1977  
 Debra Suiter, Clinical Associate Professor, Ph.D., CCC-SLP, Tennessee, 2001

**Physical Therapy**

Robert A. (Tony) English, Department Chair

Ramona Carper, Assistant Professor, PT, DPT, Kentucky, 2011  
 Dean P. Currier, Professor Emeritus, PT, Ph.D., Maryland, 1971  
 Joan Darbee, Senior Lecturer, PT, Ph.D., SUNY-Buffalo, 2000  
 Esther Dupont-Versteegden, Professor, Ph.D., University of Texas Health Science Center, San Antonio, 1995  
 Susan Effgen, Professor, PT, Ph.D., Georgia State, 1984  
 M. Lynn English, Associate Professor, PT, D.PT, Simmons, 2007  
 Robert A. (Tony) English, Associate Professor, PT, Ph.D., Kentucky, 2008  
 Geetanjali Gera, Assistant Professor, PT, Ph.D., Delaware, 2013  
 Catherine Gohrband, Lecturer, PT, DPT, Kentucky, 2013

Anne L. Harrison, Associate Professor, PT, Ph.D., Kentucky, 2002  
 Charles Hazle, Associate Professor, PT, Ph.D., Kentucky, 2009  
 Nathan Johnson, Assistant Professor, PT, Ph.D., Kentucky, 2012  
 Deborah G. Kelly, Associate Professor, PT, M.S.Ed., DPT, Arcadia, 2012  
 Patrick Kitzman, Professor, PT, Ph.D., Ohio State, 1994  
 Janice M. Kuperstein, Professor, PT, Ph.D., Kentucky, 2008  
 Terry R. Malone, Professor, PT, A.T.C., Ed.D., Duke, 1985  
 Charles Marshall, Associate Professor, Ph.D., Louisville, 2006  
 Arthur J. Nitz, Professor, PT, Ph.D., E.C.S., O.C.S., Kentucky, 1984  
 Brian Noehren, Associate Professor, PT, Ph.D., Delaware, 2009  
 Tim L. Uhl, Professor, Ph.D., ATC, P.T., FNATA, Virginia, 1998

**Rehabilitation Sciences Doctoral Program**

Esther Dupont-Versteegden, Program Director

John P. Abt, Associate Professor, Ph.D., ATC, FACSM, Pittsburgh, 2004  
 Richard D. Andreatta, Associate Professor, Ph.D., Indiana, 1999  
 Timothy A. Butterfield, Associate Professor, Ph.D., ATC, University of Calgary, 2005  
 Gilson Capilouto, Professor, Ph.D., CCC-SLP, South Carolina, 2002  
 Jodelle Deem, Associate Professor, Ph.D., CCC-SLP, Memphis, 1988  
 Susan K. Effgen, Professor, PT, Ph.D., Georgia State, 1984  
 Robert A. (Tony) English, Division Director, Associate Professor, PT, Ph.D., Kentucky, 2008  
 Geetanjali Gera, Assistant Professor, Ph.D., Delaware, 2013  
 Phillip Gribble, Division Director, Professor, Ph.D., ATC, FNATA, Pennsylvania, 2003  
 Anne L. Harrison, Associate Professor, PT, Ph.D., Kentucky, 2002  
 Charles Hazle, Associate Professor, PT, Ph.D., Kentucky, 2009  
 Nick R. Heebner, Assistant Professor, Ph.D., ATC, Pittsburgh, 2015  
 Johanna Hoch, Assistant Professor, Ph.D., Kentucky, 2012  
 Matthew C. Hoch, Lecturer, Ph.D., Kentucky, 2011  
 Nathan F. Johnson, Assistant Professor, DPT, Ph.D., Kentucky, 2012  
 Patrick H. Kitzman, Professor, PT, Ph.D., Ohio State, 1994  
 Jane O. Kleinert, Professor, Ph.D., CCC-SLP, Kentucky, 2005  
 Janice Kuperstein, Associate Dean for Clinical Engagement, PT, Ph.D., Kentucky, 2008  
 Scott M. Lephart, Dean, Ph.D., Virginia, 1988  
 Joneen Lowman, Assistant Professor, Ph.D., CCC-SLP, Florida, 2003  
 Terry R. Malone, Professor, PT, Ed.D., ATC, FAPTA, Duke, 1985  
 Robert C. Marshall, Professor, Ph.D., F-ASHA, CCC-SLP, BC-ANCDs, Honors – ASHA, Oklahoma, 1969  
 Peter A. Meulenbroek, Assistant Professor, Ph.D., CCC-SLP, Wisconsin, 2013  
 Arthur J. Nitz, Professor, PT, Ph.D., E.C.S., O.C.S., Kentucky, 1984  
 Brian Noehren, Associate Professor, PT, Ph.D., Delaware, 2009  
 Anne D. Olson, Associate Professor, Ph.D., CCC/A, Kentucky, 2010  
 Judith L. Page, Associate Professor, Ph.D., CCC-SLP, Purdue, 1981  
 Charlotte A. Peterson, Associate Dean for Research, Ph.D., Virginia, 1984  
 Joseph Stemple, Professor, Ph.D., CCC-SLP, Ohio, 1977  
 Timothy L. Uhl, Professor, Ph.D., ATC, PT, FNATA, Virginia, 1998

**LEWIS HONORS COLLEGE**

Christian Brady, Dean

Susan Barron, Professor, Ph.D., SUNY-Albany, 1987  
 Clare Batty, Associate Professor, Ph.D., MIT, 2007  
 Lee Blonder, Professor, Ph.D., Pennsylvania, 1986  
 Lisa Blue, Lecturer, Ph.D., Kentucky, 2010  
 Luke Bradley, Associate Professor, Ph.D., Ohio State, 2001  
 Christian M. M. Brady, Dean, Professor, DPhil (Oxon.) Oxford, 2000  
 Laura Bryan, Senior Lecturer, Ph.D., Ohio State, 1987  
 Caroline Buchanan, Instructor, Ph.D., Kentucky, 2017  
 Jane E. Calvert, Associate Professor, Ph.D., Chicago, 2003  
 Francie Chassen-Lopez, Professor, Ph.D., Universidad Nacional Autónoma de México, 1986  
 Claire Clark, Assistant Professor, Ph.D., Emory, 2014  
 Rolf Craven, Associate Professor, Ph.D., North Carolina, 1996  
 Czarena Crofcheck, Professor, Ph.D., Kentucky, 2001  
 Florin Despa, Professor, Ph.D., Institute of Physics, Bucharest, 1997  
 Sanda Despa, Associate Professor, Ph.D., Limburgs Universitair Centrum, 2000  
 Isabel Escobar, Professor, Ph.D., Central Florida, 2000  
 Amanda Fallin-Bennett, Assistant Professor, Ph.D., Kentucky, 2011  
 Jakub Famulski, Assistant Professor, Ph.D., University of Alberta, 2003  
 Herman D. Farrell III, Associate Professor, J.D., New York, 1989  
 Dustin Faulstick, Senior Lecturer, Ph.D., Ohio, 2014  
 Don Gash, Professor, Ph.D., Dartmouth, 1975  
 Jonathan Glixon, Professor, Ph.D., Princeton, 1979  
 Christina Goble, Senior Lecturer, Ph.D., Purdue, 1999  
 Philip Harling, Professor, Ph.D., Princeton, 1992

Rebecca Gayle Howell, Senior Lecturer, Ph.D., Texas Tech, 2015  
 Jerzy Jaromczyk, Associate Professor, Ph.D., Warsaw, Poland, 1984  
 Nancy Johnson, Assistant Professor, Ph.D., Kentucky, 2005  
 Nancy Jones, Professor, Ph.D., Western Illinois, 1997  
 Rebecca Kellum, Associate Professor, Ph.D., Princeton, 1990  
 Michael Kilgore, Associate Professor, Ph.D., Texas Tech, 1990  
 Daniel Kirchner, Senior Lecturer, Ph.D., Indiana, 2010  
 Zada Komara, Lecturer, Ph.D., Kentucky, 2019  
 Philipp Kraemer, Professor & Chellgren Endowed Chair for Undergraduate Excellence, Ph.D., Western Ontario, 1982  
 Harry LeVine, Associate Professor, Ph.D., Johns Hopkins, 1975  
 Diane Loeffler, Senior Lecturer, Ph.D., Kentucky, 2006  
 Gregory Luhan, Professor, Ph.D., Princeton, 1998  
 Nicole Martin, Lecturer, Ph.D., Texas-Austin, 2015  
 Isabel Mellon, Associate Professor, Ph.D., University of Illinois Medical C, 1984  
 Timothy K. Minella, Lecturer, Ph.D., South Carolina, 2015  
 Daniel Morey, Associate Professor, Ph.D., Iowa, 2006  
 David Olster, Professor, Ph.D., Chicago, 1985  
 Ok-Kyong Park-Sarge, Associate Professor, Ph.D., Chicago, 1994  
 Tim Phillips, Associate Professor, Ph.D., North Carolina State, 1991  
 M. Sara Rosenthal, Professor, Ph.D., Toronto, 2002  
 Kevin Sarge, Professor, Ph.D., North Carolina State, 1989  
 Jeorg Ellen Sauer, Senior Lecturer, Ph.D., Kentucky, 2001  
 Mitzi Schumacher, Professor, Ph.D., Ohio State, 1986  
 F. Douglas Scutchfield, Professor Emeritus, M.D., Kentucky, 1966  
 Kenton Sena, Lecturer, Ph.D., Kentucky, 2018  
 Terry Stratton, Associate Professor, Ph.D., Kentucky, 1999  
 Akiko Takenaka, Associate Professor, Ph.D., Yale, 2004  
 Nicholas Teets, Assistant Professor, Ph.D., Ohio State, 2012  
 Tara M. Tuttle, Senior Lecturer, Ph.D., Louisville, 2008  
 Ryan Voogt, Lecturer, Ph.D., Kentucky, 2017  
 Patrick Walker, Senior Lecturer, J.D., Regent University, 2002  
 Thomas E. Wallace, Professor, J.D., Georgia State, 1990, M.D. Illinois, 1976  
 Eric Weber, Associate Professor, Ph.D., Southern Illinois, 2007  
 Eric Lee Welch, Senior Lecturer, Ph.D., Penn State, 2015  
 Melinda Wilson, Associate Professor, Ph. D., Loyola University of Chicago, 1997

Joel Brent Gunter, Professor, M.D., Oklahoma, 1982  
 Sarah Jean Hall, Assistant Professor, M.D., Ph.D., Texas Medical, 2012  
 Lauren Nicole Hampton, Assistant Professor, M.D., Kentucky, 2010  
 Michael Edward Harned, Associate Professor, M.D., Kentucky, 2004  
 Zaki Udin Hassan, Professor, M.B.B.S., Charing Cross & Westminster Med, 1989  
 Kevin Wayne Hatton, Professor, M.D., Kentucky, 2002  
 Eugene Andrew Hessel, Professor, M.D., San Francisco, 1960  
 Jon August Holzberger, Assistant Professor, M.D., Medical College of Wisconsin, 2013  
 Ivan Horvath, Associate Professor, Ph.D., Rochester, 1995  
 Cynthia Isela Keene, Assistant Professor, M.D., Cornell, 2002  
 Nicole Marie King, Assistant Professor, M.D., St. Louis, 2008  
 Oksana Klimkina, Associate Professor, M.D., First Moscow Medical, Diploma of Physician, Moscow, 1984  
 Allison Mays Krauss, Assistant Professor, M.D., Alabama-University College, 2013  
 Steven C. Lasher, Assistant Professor, M.D., Kentucky, 1995  
 Rebecca Lynn Layton, Assistant Professor, M.D., Kentucky, 1988  
 Julie Suzanne Lewis, Assistant Professor, M.D., Loma Linda University La Sierra, 2006  
 Charles Jacob Lowrey, Assistant Professor, M.D., MPH, Wright State, 2015  
 Margaret Faith Lukens, Associate Professor, M.D., Kentucky, 2003  
 Kenneth Todd McCoun, Associate Professor, D.O., Pikeville College, 2001  
 John T. McLarney, Professor, M.D., Kentucky, 1994  
 Christopher L. Montgomery, Professor, M.D., Kentucky, 1985  
 John Thomas Murphy, Professor, M.D., Dalhousie, 1978  
 Rebecca Crutcher Myers, Assistant Professor, M.D., Kentucky, 2014  
 Mark F. Newman, Professor, M.D., Louisville, 1985  
 Dung D.O. Nguyen, Associate Professor, M.D., St. George's, Grenada, WI, 2008  
 Jeffrey Samuel Oldham, Assistant Professor, M.D., Kentucky, 2011  
 Bjorn Thomas Olsen, Assistant Professor, M.D., Rush, 2007  
 Jayant Nick Pratap, Assistant Professor, M.D., Cambridge, 1998  
 Harish Ram, Assistant Professor, M.D., Bangalore Medical College, 2001  
 Dinesh Ramaiah, Associate Professor, M.D., Bangalore Medical College, 1990  
 Annette Rebel, Professor, M.D., University Heidelberg, 1993  
 Logan Quentin Reeves, Assistant Professor, M.D., Virginia, 2010  
 Michael A. Rie, Associate Professor Emeritus, M.D., Harvard, 1966  
 Rosalind Ritchie-Dabney, Associate Professor, M.D., Southern Illinois, 1992  
 Zbigniew Stanislaw Rogozinski, Associate Professor, M.D., Jagellonian, 1982  
 Gregory L. Rose, Professor, M.D., Kentucky, 1986  
 Victoria Anne Saïtes, Assistant Professor, M.D., Thomas Jefferson, 2014  
 Lauren Hinds Sayre, Assistant Professor, M.D., Howard, 2008  
 Randall M. Schell, Professor, M.D., Loma Linda University La Sierra, 1987  
 Joseph Cameron Shy, Assistant Professor, M.D., Marshall, 2010  
 Paul A. Sloan, Professor, M.D., McGill, 1980  
 James Philip Spaeth, Associate Professor, M.D., Virginia, 1993  
 Katherin Anne Moffett Sproul, Assistant Professor, M.D., Dartmouth College, 2005  
 Habib Srour, Assistant Professor, M.D., Toledo, 2010  
 Jay Srour, Assistant Professor, M.D., Padova, Padova, Italy, 1987  
 Johannes Wessel Steyn, Associate Professor, M.D., Kentucky, 2007  
 Pieter G. Steyn, Associate Professor, M.D., The Orange Free State, 1979  
 Lindsey Mae Van Drunen, Assistant Professor, M.D., Loma Linda University La Sierra, 2013  
 Dien Ngoc Vu, Assistant Professor, M.D., Florida, 1990  
 Justin K. Wainscott, Associate Professor, M.D., Louisville, 2003  
 Daniel David Wambold, Assistant Professor, M.D., Pennsylvania, 1996  
 Robert Harrison Weaver, Assistant Professor, M.D., Kentucky, 2013  
 Kimberly S. Winchester, Assistant Professor, M.D., Kentucky, 1985  
 William Orin Witt, Professor Emeritus, M.D., Minnesota, 1976

## COLLEGE OF MEDICINE

Robert S. DiPaola, Dean

### ANESTHESIOLOGY

Robert R. Gaiser, Chair

Syed Z. Ali, Assistant Professor, M.D., Mahadevappa Rampure Medical College, 1994  
 James David Bacon, Assistant Professor, M.D., Kentucky, 2013  
 Matthew Lecarpentier Baker, Assistant Professor, M.D., Wake Forest, 2009  
 Kevin Richard Bauereis, Assistant Professor, M.D., Kentucky, 2010  
 Peter P. Bosomworth, Professor Emeritus, M.D., Cincinnati, 1955  
 Edwin Allen Bowe, Professor, M.D., Missouri-Columbia Campus, 1975  
 Jaime Lynn Bozentka, Assistant Professor, M.D., Drexel, 2011  
 Victoria Ann Bradford, Assistant Professor, M.D., Toledo, 2012  
 Raeford E. Brown, Professor, M.D., North Carolina, 1980  
 Jonathan Lee Bylund, Assistant Professor, M.D., Kentucky, 2009  
 Joseph Samir Cassis, Assistant Professor, M.D., Wake Forest, 2013  
 Justin Matthew Craig, Assistant Professor, M.D., Louisville, 2013  
 Christopher Dale Denny, Assistant Professor, M.D., Kentucky, 2015  
 Jasdeep Singh Dhaliwal, Assistant Professor, M.D., Tulane, 2012  
 Johannes Dorfling, Associate Professor, M.D., Stellenbosch, 1979  
 Bradley James Dwan, Assistant Professor, M.D., Toledo, 2015  
 Sanjay Dwarakanath, Associate Professor, M.B.B.S., Bangalore Medical College, 2001  
 Christopher Lyndon Eddy, Assistant Professor, M.D., College Cork, Republic of Ireland, 2014  
 John H. Eichhorn, Professor, M.D., Harvard, 1973  
 Melinda Anne Eshelman, Assistant Professor, M.D., Illinois Medical C, 2014  
 Mark A. Etscheidt, Professor, Ph.D., Georgia State, 1989  
 Ekaterina Alimova Fain, Assistant Professor, M.D., Kentucky, 2015  
 Brian Anthony Fischer, Assistant Professor, M.D., Ph.D., Rush, 2003  
 Regina Y. Fragneto, Professor, M.D., Pittsburgh, 1985  
 Robert R. Gaiser, Professor, M.D., College of Physicians and Surgeons, Columbia, 1988  
 Shira Gurvitz Gambrel, Associate Professor, M.D., Louisiana State, 2008  
 Jason Samuel Garrison, Assistant Professor, M.D., Chicago, 2008  
 Carol Hansen Gieringer, Assistant Professor, M.D., Kentucky, 1988  
 Jay S. Grider, Professor, D.O., Ph.D., Ohio, 1993

### BEHAVIORAL SCIENCE

Thomas H. Kelly, Interim Chair

Michael Anthony Andrykowski, Professor, Ph.D., Illinois-Urbana, 1984  
 Shanna L. Babalonis, Assistant Professor, Ph.D., Kentucky, 2010  
 Paul Douglas Bishop, Assistant Professor, Ph.D., Ohio, 1972  
 Lee X. Blonder, Professor, Ph.D., Pennsylvania, 1986  
 Ty B Brumback, Assistant Professor, Ph.D., South Florida, 2013  
 Allison Mercedes Caban-Holt, Assistant Professor, Ph.D., Tennessee-Knoxville, 2004  
 Claire Ducharme Clark, Assistant Professor, Ph.D., MPH, Emory, 2014  
 Cynthia M. Cole, Associate Professor Emeritus, Ph.D., North Carolina, 1989  
 Jennifer Ellen Cole, Assistant Professor, Ph.D., Kentucky, 2007  
 Megan Filiatreau Dickson, Assistant Professor, Ph.D., Kentucky, 2013  
 Carol L. Elam, Professor, EdD, Kentucky, 1990  
 Anita F. Fernander, Associate Professor, Ph.D., Miami, 2000  
 Giovannina Ferrante, Assistant Professor, Ph.D., Cincinnati, 1984  
 Gilbert H. Friedell, Professor Emeritus, M.D., Minnesota, 1949  
 Eugene B. Gallagher, Professor Emeritus, Ph.D., Harvard, 1958  
 Thomas F. Garrity, Professor Emeritus, Ph.D., Duke, 1971

John V Haley, Professor Emeritus, Ph.D., Loyola University of Chicago, 1964  
 Jennifer Rochussen Havens, Professor, Ph.D., Johns Hopkins, 2004  
 Yang Jiang, Associate Professor, Ph.D., Miami, 1995  
 Thomas H. Kelly, Professor, Ph.D., Minnesota, 1983  
 Hannah Kathryn Knudsen, Professor, Ph.D., Georgia, 2003  
 Janice M. Gregor, Assistant Professor, M.D., Kentucky, 1981  
 Carl G. Leukefeld, Professor, Ph. D, D.S.W., Catholic University of America, 2006  
 Joshua Anthony Lile, Professor, Ph.D., Kentucky, 2002  
 Michelle Renee Lofwall, Professor, M.D., Chicago, 1999  
 TK Logan, Professor, Ph.D., Southern Illinois, 1994  
 Katherine Rose Marks, Assistant Professor, Ph.D., Kentucky, 2015  
 Christopher John McLouth, Assistant Professor, Ph.D., New Mexico, 2018  
 Laurie Elizabeth McLouth, Assistant Professor, Ph.D., New Mexico, 2016  
 Philip John Moberg, Assistant Professor, Ph.D., Illinois-Urbana, 1996  
 Garth L Olde, Professor Emeritus, Ph.D., Western Ontario, 1960  
 Raven Richardson Piercey, Senior Lecturer, Ph.D., Kentucky, 2013  
 Jacqueline Renee Pope-Tarrence, Assistant Professor, Ph.D., Louisville, 1991  
 Brady Allen Reynolds, Associate Professor, Ph.D., West Virginia, 2002  
 Shyanika Wijesinha Rose, Assistant Professor, Ph.D., North Carolina, 2014  
 Craig R. Rush, Professor, Ph.D., Vermont, 1992  
 Nancy E. Schoenberg, Professor, Ph.D., Florida, 1994  
 Mitzi Marie Schumacher, Professor, Ph.D., Ohio State, 1986  
 Timothy A. Smith, Professor Emeritus, Ph.D., North Carolina, 1963  
 Michelle Staton, Associate Professor, Ph.D., Kentucky, 2004  
 William Walton Stoops, Professor, Ph.D., Kentucky, 2005  
 Terry Dean Stratton, Associate Professor, Ph.D., Kentucky, 1999  
 Jamie Lawrence Studts, Professor, Ph.D., Kentucky, 2001  
 Hilary L. Surratt, Associate Professor, Ph.D., City University of New York, 2005  
 Sharon Lynn Walsh, Professor, Ph.D., Rutgers State University-Queens Campus, 1990  
 John Matt Webster, Associate Professor, Ph.D., Kentucky, 2001  
 Michael John Wesley, Assistant Professor, Ph.D., Wake Forest, 2010  
 Aaron Lee Wichman, Assistant Professor, Ph.D., Ohio State, 2005  
 Helen Jean C. Wiese, Associate Professor Emeritus, Ph.D., North Carolina, 1971  
 John F. Wilson, Professor Emeritus, Ph.D., Michigan, 1977

## EMERGENCY MEDICINE

### Roger Loyd Humphries, Chair

Brian Wayne Adkins, Associate Professor, M.D., Kentucky, 2003  
 Amal Kumar Agarwal, Assistant Professor, D.O., Des Moines, 2006  
 Peter Damian Storey Akpunonu, Assistant Professor, M.D., Toledo, 2012  
 Jacob Owen Avila, Associate Professor, M.D., Loma Linda University La Sierra, 2012  
 Nicole Jean Battaglioli, Assistant Professor, M.D., Ross, 2013  
 Christopher Neil Belcher, Assistant Professor, M.D., Kentucky, 2014  
 Rebecca Catherine Bowers, Associate Professor, M.D., Kentucky, 2000  
 Jonathan Michael Bronner, Associate Professor, M.D., Louisville, 2011  
 Jordan Michael Brunswick, Instructor, M.D., Wright State, 2015  
 Bradley Parker Buckingham, Assistant Professor, M.D., Kentucky, 2011  
 Craig T. Carter, Associate Professor, D.O., Midwestern University Downers, 1998  
 Nickolas Ray Collins, Assistant Professor, D.O, Pikeville College, 2015  
 Gena Lynn Cooper, Assistant Professor, M.D., Wisconsin-Madison, 2012  
 Amy Elizabeth Dahlgren, Assistant Professor, M.D., Michigan State, 2000  
 Danielle Rose Dardis, Assistant Professor, M.D., St. George's, 2014  
 Sameer Madhu Desai, Associate Professor, M.D., Texas A & M, 2001  
 Marc Patric Dotson, Instructor, D.O, West Virginia School of Osteo M.D., 2013  
 Christopher I. Doty, Professor, M.D., Thomas Jefferson, 1997  
 Charles A. Eckerline, Associate Professor, M.D., Kentucky, 1977  
 Joel Hamm, Assistant Professor, M.D., Kentucky, 2012  
 Roger Loyd Humphries, Professor, M.D., Kentucky, 1991  
 Landon Ashley Jones, Associate Professor, M.D., Kentucky, 2008  
 Bruce Kostelnik, Assistant Professor, D.O., Pikeville College, 2011  
 Julia E. Martin, Professor, M.D., West Virginia, 1993  
 Setareh Meriam Mohammadie, Instructor, M.D., Texas A & M, 2016  
 J. Daniel Moore, Associate Professor, M.D., Kentucky, 2011  
 Sanjoydeb Mukherjee, Assistant Professor, M.D., Louisville, 1995  
 David Matthew Muncy, Assistant Professor, D.O, Ohio, 2016  
 Erika Pasciuta, Assistant Professor, M.D., South Florida, 2010  
 Ashwin Basur Prabhu, Assistant Professor, M.D., Florida, 2003  
 Eric Michael Reid, Assistant Professor, M.D., Kentucky, 2013  
 Robert Lee Rogers, Professor, M.D., Tennessee-Knoxville, 1997  
 Aaron Joel Schneider, Assistant Professor, M.D., Ohio State, 2015  
 Seth Tobias Stearley, Associate Professor, M.D., Indiana, 2004  
 Michael Thomas Sweeney, Assistant Professor, M.D., Chicago, 2005  
 Terren Robert Trott, Assistant Professor, M.D., Kentucky, 2013  
 Fred Henry Warkentine, Assistant Professor, M.D., Kansas, 2000

Kimberly Wells, Assistant Professor, M.D., Louisville, 2009  
 Katelyn Ann Yackey, Assistant Professor, M.D., Kentucky, 2011  
 William F. Young, Associate Professor, M.D., Bowman-Gray School of Medicine, 1983  
 Amy Josephine Zeidan, Instructor, M.D., George Washington, 2014  
 Jaryd Kaufmann Zummer, Assistant Professor, M.D., Keith B. Taylor Global Scholars Program, Newcastle UK, 2012

## FAMILY AND COMMUNITY MEDICINE

### Roberto Cardarelli, Chair

Robert Ryland Atkins, Assistant Professor, M.D., St. Matthews, British West Indies, 2008  
 Mark A Boyd, Assistant Professor, M.D., Cincinnati, 1987  
 Kelly Rea Burgess, Assistant Professor, M.D., Kentucky, 1995  
 Roberto Cardarelli, Professor, D.O., North Texas, 2001  
 Max A Crocker, Professor Emeritus, M.D., Tennessee-Medical, 1963  
 Holly Graziani Danneman, Assistant Professor, M.D., Kentucky, 2000  
 Claude Hobert Dotson, Assistant Professor, Psy.D., Spalding, 2007  
 Key Covington Douthitt, Assistant Professor, M.D., Kentucky, 2007  
 William G. Elder, Professor Emeritus, Ph.D., Texas Southwestern, 1992  
 Keisa Fallin-Bennett, Associate Professor, M.D., Kentucky, 2005  
 Tina Denise Fawns, Assistant Professor, M.D., Louisville, 2000  
 Jaime Janelle Fields, Assistant Professor, Pharm.D., Kentucky, 2002  
 Crystal M. Fletcher-Jones, Assistant Professor, D.O., Pikeville College, 2012  
 Wanda Clark Gonsalves, Professor, M.D., Kentucky, 1984  
 Ginny Lee Gottschalk, Assistant Professor, M.D., Kentucky, 2007  
 Michael Dale Hagen, Professor, M.D., Missouri Columbia Campus, 1975  
 Larissa Kern Hufnagel, Assistant Professor, M.D., Kentucky, 2012  
 Juanita Froan Hughes, Assistant Professor, D.O., Pikeville College, 2006  
 Carol G. Hustedde, Associate Professor, Ph.D., Wisconsin-Madison, 1987  
 Lindsey Ann Jackson, Assistant Professor, M.D., Louisville, 2015  
 Stacey Campbell Johnson, Assistant Professor, M.D., Louisville, 2002  
 James William Keck, Assistant Professor, M.D., MPH, Minnesota, 2006  
 Brian Joseph Kingston, Assistant Professor, M.D., Texas Tech, 1995  
 Mikhail Nikolaas Koffarnus, Associate Professor, Ph.D., Michigan, 2009  
 Archana Mahesh Kudrimoti, Associate Professor, M.B.B.S., Osmania, 1992  
 Sarah Tully Marks, Assistant Professor, M.D., Kentucky, 2010  
 Samuel C. Matheny, Professor, M.D., Kentucky, 1967  
 Mary Flesher Meek, Assistant Professor, M.D., Kentucky, 2002  
 Sherri Lynn Muha, Assistant Professor, Pharm.D., Kentucky, 2005  
 John A. Patterson, Associate Professor, M.D., Tennessee-Medical, 1973  
 Kevin Andrew Pearce, Professor, M.D., MPH, Florida, 1983  
 Lars Eric Peterson, Associate Professor, M.D., Ph.D., Case Western Reserve, 2009  
 Jonathan Alan Piercy, Assistant Professor, M.D., Kentucky, 2002  
 Robin McHale Polly, Assistant Professor, D.O., Pikeville College, 2011  
 James C. Puffer, Professor, M.D., California Los Angeles, 1976  
 Ronald Earl Roberts, Assistant Professor, M.D., Kentucky, 1995  
 Karen Lyn Roper, Assistant Professor, Ph.D., Kentucky, 1995  
 Guy Roussel, Assistant Professor, M.D., Louisiana State, 1979  
 Michael E. Samuels, Professor Emeritus, Dr.P.H., North Carolina, 1975  
 Brian William Schack, Assistant Professor, M.D., Louisville, 1996  
 Ellsworth C. Seeley, Professor, M.D., Louisville, 1947  
 Jessica Lee Setser, Assistant Professor, M.D., East Tennessee State, 2014  
 Mary Burchett Sheppard, Assistant Professor, M.D., Kentucky, 2012  
 Kenneth Morris Slone, Assistant Professor, M.D., Louisville, 1984  
 Brittany La Titia Smalls, Assistant Professor, Ph.D., Medical University of South Carolina, 2014  
 Wanda Gayle Taylor, Assistant Professor, D.O., Pikeville College, 2011  
 Neena Elizabeth Thomas-Eapen, Associate Professor, M.B.B.S., Kerala, 1990  
 Shannon Joy Voogt, Assistant Professor, M.D., Michigan State, 2010  
 Stephen Wilson Wyatt, Professor Emeritus, D.M.D., Kentucky, 1980

## INTERNAL MEDICINE

### David Jon Moliterno, Chair

Ahmed Abdel-Latif, Associate Professor, M.D., Ain Shams, 1998  
 Derick Clayton Adams, Assistant Professor, D.O., Ohio, 2011  
 Kenneth Kafui Afenya, Assistant Professor, M.D., Ghana, 2003  
 Melina Tatiana Aguinaga-Meza, Assistant Professor, M.D., San Marcos, 2001  
 Abdullah Ali Ahmed, Assistant Professor, M.D., Dow Medical College, 2012  
 Sadiq Ahmed, Professor, M.B.B.S., Dhaka, 1989  
 Kenneth B. Ain, Professor, M.D., Brown, 1981  
 Olalekan Akanbi, Assistant Professor, M.D., Ibadan, 2009  
 Ihab M. Almagdub, Assistant Professor, M.D., Tripoli Medical School, Libya, 2003  
 Yaser Al-Solaiman, Assistant Professor, M.D., Aleppo, 2002  
 Bara Alzghoul, Assistant Professor, M.D., Jordan, 2012

- Paul Anaya, Associate Professor, M.D., Ph.D., Baylor, 1999
- James W. Anderson, Professor Emeritus, M.D., Northwestern University Medical School, 1961
- Lowell Brian Anthony, Professor, M.D., Vanderbilt, 1979
- Beth Joleen Arnold, Instructor, M.D., Nebraska Medical Ctr, 2007
- Susanne Markesbery Arnold, Professor, M.D., Kentucky, 1992
- Kamyar Asadipooya, Assistant Professor, M.D., Shiraz, 1999
- Samuel M. Ashe, Assistant Professor, M.D., Eastern Tennessee State University James H. Quillen College of Medicine, 2014
- Joseph E.W.M. Auer, Assistant Professor, M.D., Kentucky, 2005
- Edwin James Avallone, Assistant Professor, D.O., West Virginia School of Osteo M.D., 2012
- Taha Ayach, Associate Professor, M.D., Lebanese, 2007
- Juan-Carlos Aycinena, Assistant Professor, M.D., Ross, 2011
- Paula Bailey, Associate Professor, M.D., MHA, Kentucky, 2000
- Terrence Anthony Barrett, Professor, M.D., Illinois Medical C, 1983
- Karim Mustafa Benrajab, Assistant Professor, M.D., Univ of Tripoli, Tripoli, Libya, 2004
- Eric Salomon Bensadoun, Professor, M.D., McGill, 1986
- Rolando Berger, Professor, M.D., San Carlos, Guatemala, 1974
- Deidra D. Beshear, Assistant Professor, M.D., Kentucky, 1999
- Ryan Jeffrey Beyer, Assistant Professor, M.D., Michigan-Ann Arbor, 2011
- Meenakshi A Bhalla, Associate Professor, M.D., Indira Gandhi Medical School, Simla, India, 2000
- Vikas Bhalla, Assistant Professor, M.D., All-India Ins.of Medical Science, 1997
- David Coriell Booth, Professor, M.D., Texas, 1974
- Leslie B. Branch, Professor, M.D., North Carolina, 1965
- Deborah J. Brandewie, Assistant Professor, M.D., Cincinnati, 1988
- Amy Marie Brausch, Assistant Professor, Ph.D., Northern Illinois, 2008

 Nishant Tripathi, Assistant Professor, M.D., Rajshahi Medical College, Bangladesh, 2008  
 James Adam Troy, Assistant Professor, M.D., Yale, 2008  
 Katherine Elizabeth Twist, Associate Professor, M.D., Kentucky, 2010  
 Gary Van Zant, Professor Emeritus, Ph.D., New York, 1973  
 Michael William Vick, Assistant Professor, M.D., Indiana, 2014  
 Sarah Elizabeth Vick, Assistant Professor, M.D., Indiana, 2014  
 John Lee Villano, Professor, M.D., Ph.D., Texas Southwestern, 1997  
 Thomas Henry Waid, Professor, M.D., Kentucky, 1980  
 Thomas E. Wallace, Professor, M.D., J.D., MBA, Illinois Rockford, 1976  
 Peng Wang, Assistant Professor, M.D., Ph.D., Tongji University-Wuhan, 1999  
 Daniel Timotny Weaver, Assistant Professor, M.D., National University of Ireland, 2011  
 Angela Korreck Webb, Associate Professor, M.D., Kentucky, 2004  
 Jonathan C. Webb, Associate Professor, M.D., Kentucky, 2005  
 Gretchen Leis Wells, Professor, M.D., Ph.D., Alabama-University College, 1994  
 Thomas French Wayne, Professor, M.D., Ph.D., Pennsylvania, 1963  
 Richard Kyle Wheeling, Assistant Professor, D.O. Pikeville College, 2013  
 Mark Vincent Williams, Professor, M.D., Emory, 1985  
 Katherine Elizabeth Wimberly, Assistant Professor, M.D., Kentucky, 2015  
 Jeremy Paul Wood, Assistant Professor, Ph.D., Vermont, 2010  
 Matthew Jacob Woodward, Assistant Professor, Ph.D., Memphis, 2017  
 Binggang Xiang, Assistant Professor, Ph.D., Shanghai Jiatong, 2009  
 Pradeep Yarra, Assistant Professor, M.D., MPH, Kasturba Medical College, 2005  
 Rebecca Bartley Yarrison, Associate Professor, Ph.D., Oklahoma, 2009  
 Christopher Michael Yost, Assistant Professor, M.D., Kentucky, 2011  
 Cynthia R. Young, Assistant Professor, M.D., Harvard, 2010  
 Michael Han Young, Associate Professor, M.D., Michigan-Ann Arbor, 1999  
 Guo-Qiang Zhang, Professor, Ph.D., Cambridge, 1990  
 Khaled Mahmoud Ziada, Professor, M.D., Cairo, 1988

## MICROBIOLOGY, IMMUNOLOGY AND MOLECULAR GENETICS

Beth Garvy, Chair

Subbarao Bondada, Professor, Ph.D., Bombay, 1976  
 Donald A. Cohen, Professor, Ph.D., Cincinnati, 1979  
 Jeffrey Neal Davidson, Professor Emeritus, Ph.D., Harvard, 1976  
 Louis E. DeMoll, Associate Professor, Ph.D., Texas, 1982  
 Sarah Elizabeth D'Orazio, Associate Professor, Ph.D., Miami, 1995  
 Lucinda Anne Elliott, Professor, Ph.D., Kentucky, 1975  
 Kenneth Adrian Fields, Professor, Ph.D., Kentucky, 1999  
 Eric Luis Garcia, Assistant Professor, Ph.D., Michigan-Ann Arbor, 2010  
 Erin Courtney Garcia, Assistant Professor, Ph.D., Michigan-Ann Arbor, 2009  
 Beth Garvy, Professor, Ph.D., Michigan State, 1991  
 Brian Patrick Higgins, Assistant Professor, Ph.D., Georgia, 2006  
 Robert J. Jacob, Associate Professor Emeritus, Ph.D., Syracuse, 1974  
 Jieyun Jiang, Assistant Professor, Ph.D., China Pharmaceutical, 2003  
 Charlotte S. Kaetzel, Professor Emeritus, Ph.D., Maryland, 1979  
 Alan M. Kaplan, Professor Emeritus, Ph.D., Purdue, 1969

Heinz Kohler, Professor Emeritus, M.D., Ph.D., Technical University of Munich, 1965  
 Joseph P. McGillis, Associate Professor, Ph.D., George Washington, 1985  
 Robert D. Perry, Professor Emeritus, Ph.D., Michigan State, 1978  
 Martha L. Peterson, Professor, Ph.D., Wisconsin-Madison, 1984  
 Carol L. Pickett, Associate Professor, Ph.D., Texas at Austin, 1983  
 Thomas L. Roszman, Professor Emeritus, Ph.D., Michigan State, 1966  
 Anthony Peter Sinai, Professor, Ph.D., Rochester, 1994  
 Jesse Ernest Siskin, Professor Emeritus, Ph.D., Columbia University-College of Physicians and Surgeons, 1957  
 Ernest Charles Snow, Professor, Ph.D., Iowa, 1978  
 Brett T. Spear, Professor, Ph.D., Pennsylvania, 1985  
 Marion Rothberg Steiner, Associate Professor Emeritus, Ph.D., Kentucky, 1968  
 Brian Stevenson, Professor, Ph.D., SUNY Stony Brook, 1989  
 Harold Frederick Stills, Professor Emeritus, D.V.M., Ohio State, 1975  
 Susan Calhoon Straley, Professor Emeritus, Ph.D., Cornell, 1972  
 Yasuhiro Suzuki, Professor, Ph.D., The University of Tokyo, 1982  
 Katerina Wolf, Assistant Professor, Ph.D., Berne, 1998  
 Jerold G. Woodward, Professor, Ph.D., Utah, 1979  
 John R. Yannelli, Associate Professor, Ph.D., Virginia Commonwealth University-Acade, 1982  
 Jiayou Zhang, Associate Professor Emeritus, Ph.D., Texas, 1989

## MOLECULAR AND CELLULAR BIOCHEMISTRY

Rebecca Lynn Dutch, Chair

Douglas A. Andres, Professor, Ph.D., Purdue, 1990  
 Jessica Blackburn, Assistant Professor, Ph.D., Dartmouth, 2009  
 Shung Kai Chan, Professor Emeritus, Ph.D., Wisconsin, 1962  
 Trevor Paul Creamer, Professor, Ph.D., Western Australia, 1989  
 Robert C. Dickson, Professor, Ph.D., California-Los Angeles, 1970  
 Rebecca Lynn Dutch, Professor, Ph.D., Stanford, 1994  
 Yvonne Naokika Fondufe-Mittendorf, Associate Professor, Ph.D., George August University of Gott, 2000  
 Michael Gregory Fried, Professor, Ph.D., Yale, 1982  
 Emilia Galperin, Associate Professor, Ph.D., Tel-Aviv, 2002  
 Tianyan Gao, Professor, Ph.D., Northwestern University Medical School, 1998  
 Matthew Shawn Gentry, Professor, Ph.D., Syracuse, 2003  
 Louis B. Hersh, Professor, Ph.D., Brandeis, 1967  
 Alfred S Hu, Professor Emeritus, Ph.D., Oregon, 1957  
 Jianhang Jia, Professor, Ph.D., Chinese Academy of Sciences, 2000  
 Konstantin V. Korotkov, Associate Professor, Ph.D., Shemyakin & Ovchinnikov Inst of Bioorganic Chemistry, Moscow, 1998  
 Natalia A. Korotkova, Assistant Professor, Ph.D., Institute of Physiology and Biochemistry, Pushchino, Russia, 1999  
 Young-Sam Lee, Associate Professor, Ph.D., Chicago, 2005  
 Robert L. Lester, Professor Emeritus, Ph.D., California Institute of Technology, 1956  
 Harry LeVine, Associate Professor, Ph.D., Johns Hopkins, 1975  
 Yiwei Lin, Assistant Professor, Ph.D., Kentucky, 2012  
 Chunming Liu, Professor, Ph.D., Purdue, 1997  
 Michael D. Mendenhall, Associate Professor, Ph.D., Wisconsin-Madison, 1985  
 Sajad Hassan Zaffer Mir, Assistant Professor, Ph.D., Hamdard, 2012  
 Hunter Nathan Moseley, Associate Professor, Ph.D., Alabama-University College, 1998  
 Michael Paul Murphy, Associate Professor, Ph.D., Toronto, 1997  
 Daniel J. Noonan, Professor Emeritus, Ph.D., Texas, 1980  
 Kathleen Lynn O'Connor, Professor, Ph.D., Case Western Reserve, 1996  
 Sabire Ozcan, Associate Professor, Ph.D., Dusseldorf, 1993  
 David W. Rodgers, Associate Professor, Ph.D., Cornell, 1986  
 Jeffrey S. Rush, Assistant Professor, Ph.D., Kentucky, 1981  
 Kevin D. Sarge, Professor, Ph.D., North Carolina State University-Raleigh, 1989  
 Maj-Linda B Selenica, Assistant Professor, Ph.D., Lunds, 2007  
 H. Peter Spielmann, Professor, Ph.D., California-Berkeley, 1991  
 Stefan Stamm, Professor, Ph.D., Hannover, 1992  
 Ramon Chang Sun, Assistant Professor, Ph.D., Australian National, 2011  
 Salvatore J. Turco, Professor Emeritus, Ph.D., Pittsburgh, 1976  
 Thomas Clark Vanaman, Professor Emeritus, Ph.D., Duke, 1968  
 Craig William Vander Kooi, Associate Professor, Ph.D., Vanderbilt, 2004  
 Sudhakar Veeranki, Assistant Professor, Ph.D., Florida International, 2009  
 Charles J. Waechter, Professor, Ph.D., Kentucky, 1971  
 David S. Watt, Professor, Ph.D., Harvard, 1972  
 Sidney W. Whiteheart, Professor, Ph.D., Johns Hopkins, 1989  
 Binhua Zhou, Professor, M.D., Ph.D., Texas at Austin, 1996  
 Haining Zhu, Professor, Ph.D., California-Los Angeles, 2000

 David M. Romano, Instructor, M.D., West Virginia, 2010  
 Andrew Wilson Ryan, Assistant Professor, M.D., Indiana, 1988  
 Kaveh Robert Sajadi, Assistant Professor, M.D., Kentucky, 2000  
 Scott B. Scutchfield, Associate Professor, M.D., Kentucky, 1975  
 Jeffrey Bryan Selby, Professor, M.D., Texas Tech, 1997  
 Milton Kyle Smoot, Professor, M.D., Wright State, 2005  
 Jonathan M. Spanyer, Assistant Professor, M.D., Cincinnati, 2009  
 Arjun Kadaba Srinath, Assistant Professor, M.D., Syracuse, 2006  
 David Bruce Stevens, Professor Emeritus, M.D., Northwestern University Medical School, 1955  
 Austin Vincent Stone, Assistant Professor, M.D., Ph.D., Cincinnati, 2010  
 Vishwas R. Talwalkar, Professor, M.D., Washington, 1993  
 Stephen Charles Umansky, Assistant Professor, M.D., U of Med&Dent of NJ RW Johnson, 1996  
 Janet L. Walker, Professor, M.D., South Florida, 1981  
 Raymond Dayne Wright, Associate Professor, M.D., Case Western Reserve, 2002

## OTOLARYNGOLOGY – HEAD AND NECK SURGERY

Raleigh O. Jones, Chair

Rony K. Aouad, Associate Professor, M.D., St. Joseph, 2001  
 Sanford M. Archer, Professor, M.D., The Chicago Medical School, 1983  
 Christopher Haywood Azbell, Assistant Professor, M.D., Alabama-University College, 2012  
 Matthew Lee Bush, Associate Professor, M.D., Marshall, 2003  
 Brett Thomas Comer, Associate Professor, M.D., Indiana, 2006  
 Caitlin Elizabeth Fiorillo, Assistant Professor, M.D., Virginia, 2013  
 Mark Andrew Fritz, Assistant Professor, M.D., Vanderbilt, 2011  
 Thomas J Gal, Professor, M.D., Thomas Jefferson, 1993  
 Nikita Gupta, Assistant Professor, M.D., Vanderbilt, 2011  
 Kenneth Charles Iverson, Assistant Professor, M.D., South Carolina, 2007  
 Raleigh O. Jones, Professor, M.D., Kentucky, 1980  
 Alexandra Eva Kejner, Assistant Professor, M.D., Michigan-Ann Arbor, 2009  
 Beth N. McNulty, Assistant Professor, M.D., Louisville, 2009  
 Amit Bipin Patel, Associate Professor, M.D., Louisville, 2003  
 Alok Tejinder-Singh Saini, Assistant Professor, M.D., Tennessee-Medical, 2012  
 Jennifer B. Shinn-Pettyjohn, Associate Professor, Ph.D., Connecticut, 2005  
 Joseph Valentino, Professor, M.D., U of Med&Dent of NJ RW Johnson, 1987  
 Hong-Bo Zhao, Professor, M.D., Ph.D., Shanghai Institute of Physiology, Chinese Academy of Sciences, 1992

## PATHOLOGY AND LABORATORY MEDICINE

C. Darrell Jennings, Chair

Kimberly J. Absher, Assistant Professor, M.D., East Tennessee State, 1993  
 Kristi Caudill Adams, Assistant Professor, M.D., Kentucky, 1995  
 Derek Blake Allison, Assistant Professor, M.D., Georgetown, 2014  
 Ranjana Arora, Assistant Professor, M.D., MPH, University College of Medical Sciences, New Delhi, India, 1996

Vaneet Arora, Associate Professor, M.D., MPH, University College of Medical Sciences, 1999  
 Paul Bachner, Professor, M.D., Columbia University-College of Physicians and Surgeons, 1963  
 Therese Jeanne Bocklage, Professor, M.D., Toledo, 1986  
 Leonard I. Boral, Professor, M.D., MBA, Pennsylvania, 1971  
 Vernon K. Bumgardner, Assistant Professor, Ph.D., Kentucky, 2017  
 Michael L. Cibull, Professor Emeritus, M.D., University of Illinois, 1973  
 Virgilius M. Cornea, Associate Professor, M.D., Institute of Medicine, Timisoara, 1996  
 Shannon Murphy Crook, Assistant Professor, M.D., East Tennessee State, 2014  
 Daniel Burton Crump, Assistant Professor, M.D., Vanderbilt, 1995  
 Daron G. Davis, Associate Professor Emeritus, M.D., Kentucky, 1982  
 Gregory J. Davis, Professor, M.D., Tennessee-Medical, 1985  
 Alison Woodworth DeSalvo, Professor, Ph.D., Washington, 2003  
 Larry Gilroy Dickson, Professor Emeritus, M.D., Wayne State, 1959  
 Julie Christine Dueber, Assistant Professor, M.D., Southern Illinois, 2009  
 Jeffrey L. Ellis, Associate Professor, M.D., Louisville, 1988  
 Steven R. Frame, Assistant Professor, M.D., Kentucky, 2008  
 Amy S. Gewirtz, Professor, M.D., Cincinnati, 1990  
 Norman L. Goodman, Professor Emeritus, Ph.D., Oklahoma, 1965  
 John Claiborne Hunsaker, Professor, M.D., J.D., Kentucky, 1977  
 David Emerson Hunt, Assistant Professor, M.D., Cincinnati, 1991  
 C. Darrell Jennings, Professor, M.D., Kentucky, 1977  
 James Edward Johnson, Associate Professor Emeritus, Ph.D., Oklahoma, 1974  
 Melissa VanDyke Kesler, Associate Professor, M.D., Kentucky, 1999  
 Eun Y. Lee, Professor, M.D., Kyung Hee, 1978  
 Joan Elizabeth Lehmann, Assistant Professor, M.D., Louisiana State, 1982  
 Fritz E. Lower, Professor, M.D., Southern Illinois, 1989  
 Charles T. Lutz, Professor, M.D., Ph.D., Chicago, 1982  
 Duncan C. MacIvor, Associate Professor, M.D., Ohio State, 1976  
 Sarah Marie Maines, Assistant Professor, M.D., Louisville, 2013  
 Morgan Hager McCoy, Assistant Professor, M.D., Ph.D., Kentucky, 2011  
 Robert James McDonald, Assistant Professor, D.O., Lincoln Memorial, 2013  
 Bonnie L. Mitchell, Professor Emeritus, M.D., Washington, 1976  
 Kannabiran Nandakumar, Assistant Professor, Ph.D., German Cancer Research Center, Heidelberg, 2010  
 Peter Tobias Nelson, Professor, M.D., Ph.D., Chicago, 1998  
 Janna Hackett Neltner, Associate Professor, M.D., Kentucky, 2006  
 Sahar Nozad, Assistant Professor, M.D., Shahid Beheshti, Tehran, Iran, 2003  
 William N. O'Connor, Professor, M.D., National University of Ireland, 1972  
 Mary Evelyn O'Daniel-Pierce, Assistant Professor, M.D., Kentucky, 1990  
 Peter R. Oeltgen, Professor Emeritus, Ph.D., Loyola University of Chicago, 1973  
 Timothy L. Overman, Associate Professor Emeritus, Ph.D., Cincinnati, 1971  
 Dava West Piccoro, Assistant Professor, M.D., Louisville, 2007  
 Diane Marie Pierson, Assistant Professor, D.O., Kansas City University of Medicine and Biosciences, 2001  
 William Hudson Porter, Professor Emeritus, Ph.D., Vanderbilt, 1970  
 Deborah E Powell, Professor Emeritus, M.D., Tufts, 1965  
 Ralph D Powell, Professor Emeritus, M.D., Boston, 1958  
 Matthew Scott Purdom, Assistant Professor, M.D., Kentucky, 2005  
 Shadi Abdelrazaq Qasem, Associate Professor, M.D., Jordan University of Science and Technology, 1999  
 Protima Rayapati, Instructor, M.B.B.S., JJM Medical College, Davangere, India, 1996  
 Julie A. Ribes, Professor, M.D., Ph.D., Rochester, 1990  
 Dana Lynn Richards, Associate Professor, M.D., Emory, 2004  
 Luis Mario Samayoa, Associate Professor, M.D., Universidad Evangelica de El Salvador, 1991  
 Rachel Lauren Stewart, Assistant Professor, D.O., Ph.D., Touro University College of Osteopathic Medicine, 2010  
 Valerie Taylor, Assistant Professor, M.D., Louisiana State, 1984  
 Norbert W. Tietz, Professor Emeritus, Ph.D., Technical University of Stuttgart, Germany, 1950  
 Molly Megan Drehs Tovar, Assistant Professor, M.D., Columbia University-Columbia College, 2001  
 Wang-Xia Wang, Assistant Professor, Ph.D., Hebrew University of Jerusalem, 2002  
 Sainan Wei, Professor, M.D., Ph.D., Wuhan, 1986  
 Ronald Jay Whitley, Professor, Ph.D., Georgia Institute of Technology, 1975  
 Dennis James Williams, Associate Professor, M.D., Indiana, 2005  
 Dianne Wilson, Associate Professor, M.D., Kentucky, 1977  
 Kokichi Yoneda, Professor Emeritus, M.D., Nara Medical College, Japan, 1968  
 Min Yu, Assistant Professor, M.D., Ph.D., Nanjing Medical, 2001  
 Shulin Zhang, Professor, M.D., Ph.D., Beijing Medical, 1992

## PEDIATRICS

Scottie B. Day, Chair

Elie G. Abu Jawdeh, Associate Professor, M.D., American University in Beirut, 2006  
 Ahmad Maisam Abu-El-Haija, Associate Professor, M.D., Jordan University of Science and Technology, 2003  
 Rhoda Adwoba Akafuah, Assistant Professor, M.D., Science and Technology, 2004  
 Caitlin Allen, Associate Professor, Ph.D., Alliant International, 2004  
 Michael I. Anstead, Professor, M.D., Kentucky, 1989  
 Shaista Tariq Arain, Assistant Professor, M.D., People's Medical College, Pakistan, 2002  
 Susana Andrea Arriagada-Alvarado, Assistant Professor, M.D., Chile, 2000  
 Suzanna Labib Attia, Assistant Professor, M.D., Baylor, 2010  
 Matthew Keith Bacon, Assistant Professor, M.D., Kentucky, 2008  
 Henrietta S. Bada-Ellzey, Professor, M.D., MPH, Santo Tomas, 1969  
 James T.C. Badgett, Assistant Professor, M.D., Ph.D., Louisville, 2004  
 William Francis Balistreri, Professor, M.D., Buffalo School of Medicine, 1970  
 Hubert Otho Ballard, Associate Professor, M.D., Kentucky, 1996  
 Sarosh Batlivala, Associate Professor, M.D., Florida, 2005  
 John A. Bauer, Professor, Ph.D., SUNY of Buffalo, 1991  
 Sherry L. Bayliff, Associate Professor, M.D., Medical College of Ohio, 1995  
 Nicole A. Begg, Assistant Professor, Ph.D., Memphis, 2011  
 Miriam Joy Behar, Associate Professor, M.D., Johns Hopkins, 1981  
 Philip Alan Bernard, Associate Professor, M.D., Texas Southwestern, 1993  
 Jorge Abdon Bezerra, Professor, M.D., Federal University of Rio Grande Norte, 1984  
 Louis I. Bezold, Professor, M.D., Maryland, 1989  
 Prasad Bhandary, Assistant Professor, M.D., Rajiv Gandhi University of Medical Sciences, India, 2005  
 James Augustus Bottiggi, Professor, M.D., Vermont Colleges and Universities, 1975  
 Traci Downs Bouchard, Associate Professor, M.D., SUNY-Stony Brook, Stony Brook, NY, 1994  
 Alissa Briggs, Assistant Professor, Ph.D., Loyola University of Chicago, 2012  
 Robert Allen Broughton, Professor, M.D., Bowman-Gray School of Medicine, 1976  
 Robert C. Bunn, Associate Professor, Ph.D., Louisiana State, 1999  
 Jonathan Winfrey Byrnes, Assistant Professor, M.D., Mississippi Medical, 2005  
 Samantha Gretl Cappelto, Instructor, M.D., West Virginia, 2015  
 LaDonya Reed Cassidy, Assistant Professor, M.D., Kentucky, 2000  
 Janeth Ceballos Osorio, Assistant Professor, M.D., Universidad del Valle, Colombia, 1999  
 Aftab Shakir Chishti, Professor, M.B.B.S., Aga Khan, 1990  
 James Frank Cnota, Associate Professor, M.D., Tulane, 1995  
 Rebecca Lacy Collins, Professor, M.D., Kentucky, 1986  
 David Seth Cooper, Associate Professor, M.D., South Florida, 1996  
 Carol M Cottrill, Professor Emeritus, M.D., Cincinnati, 1971  
 Kristopher Michael Cumbermack, Associate Professor, M.D., Vermont, 2003  
 Melvin Douglas Cunningham, Professor, M.D., Cincinnati, 1965  
 Richard James Czosek, Associate Professor, M.D., Medical College of Georgia, 2001  
 Sumit Dang, Assistant Professor, M.D., Government Medical College, 2002  
 Zoran Danov, Associate Professor, M.D., University Cyril And Methodius, 1982  
 Scottie B. Day, Associate Professor, M.D., Kentucky, 2002  
 Sanchayan Debnath, Assistant Professor, M.D., Jawaharlal Mehru, 2012  
 Nirmala S. Desai, Professor, M.D., Baroda Medical College, 1966  
 Thomas G. Di Sessa, Professor Emeritus, M.D., SUNY-Buffalo, 1971  
 Allison Ann Divanovic, Associate Professor, M.D., Cincinnati, 2002  
 John August D'Orazio, Professor, M.D., Ph.D., Miami, 1994  
 Carl Wayne Dowden, Assistant Professor, M.D., Mississippi School of Medicine, 2015  
 Marcy M. Duncan, Assistant Professor, M.D., Missouri-Columbia Campus, 2003  
 Doane Fischer, Professor Emeritus, M.D., Temple, 1947  
 Kristen Elizabeth Fletcher, Assistant Professor, M.D., Kentucky, 2013  
 Laura A. Forster, Assistant Professor, M.D., Louisville, 2007  
 Abe Roger Fosson, Professor Emeritus, M.D., Vanderbilt, 1964  
 John L. Fowlkes, Professor, M.D., Texas Sch Allied Health, 1985  
 George J. Fuchs, Professor, M.D., Missouri Columbia Campus, 1980  
 Carrie E. Gaby, Instructor, M.D., Kentucky, 2011  
 John Donald Geil, Associate Professor, M.D., Kentucky, 1976  
 Peter John Giannone, Professor, M.D., State University of New York, 1996  
 Troy Emmanuel Gibbons, Professor, M.D., The West Indies, St. Aug., 1991  
 Bryan Howard Goldstein, Assistant Professor, M.D., Boston, 2004  
 Ricki Friedman Goldstein, Professor, M.D., Cornell, 1981  
 Enrique Martin Gomez Pomar, Assistant Professor, M.D., University Particular Peruana Cayetano, 2007  
 Martha F Greenwood, Professor Emeritus, M.D., Kentucky, 1968  
 Donna Glandon Grigsby, Associate Professor, M.D., East Tennessee State, 1986  
 Hana Lynn Haggard, Assistant Professor, D.O., West Virginia School of Osteo M.D., 2007  
 Eunice Hahn, Assistant Professor, M.D., Mount Sinai School of Medicine, 2006  
 Bryan D. Hall, Professor Emeritus, M.D., Louisville, 1965  
 Abeer Hamdy Ibrahim Hamdy, Assistant Professor, M.D., Cairo, 2002

- Mina Hanna, Associate Professor, M.D., Alexandria, 2000  
 Joshua M. Hayman, Assistant Professor, M.D., Yeshiva, 2010  
 Michael Henrikson, Professor, M.D., MPH, Thomas Jefferson, 1984  
 Haleh Christine Heydarian, Assistant Professor, M.D., Marshall, 2002  
 Garick David Hill, Assistant Professor, M.D., Wake Forest, 2007  
 Russel Hirsch, Professor, M.D., Cape Town, 1988  
 Katrina McMurry Hood, Assistant Professor, M.D., Louisville, 1994  
 Angela Dee Houchin, Assistant Professor, M.D., Kentucky, 2002  
 Christina Howard, Assistant Professor, M.D., Louisville, 2009  
 Gregory L. Johnson, Professor Emeritus, M.D., Washington, 1971  
 Evangelia Kalaitzoglou, Assistant Professor, M.D., National and Capodistrian, 2008  
 Jamshed Firoze Kanga, Professor, M.D., Dow Medical College, 1976  
 Thomas Richard Kimball, Professor, M.D., New York, 1982  
 Jaime Pittenger Kirtley, Associate Professor, M.D., Tennessee-Medical, 2006  
 Timothy Kevin Knilans, Assistant Professor, M.D., Cincinnati, 1983  
 Ashwin S. Krishna, Assistant Professor, M.D., Tennessee-Medical, 2007  
 Michael K. Kuduk, Assistant Professor, M.D., U of Med&Dent of NJ RW Johnson, 1989  
 Cheri D. Landers, Professor, M.D., Missouri-Columbia Campus, 1993  
 Sean Michael Lang, Assistant Professor, M.D., SUNY-Stony Brook, 2007  
 Daniel W. Larrow, Assistant Professor, M.D., Vermont, 1983  
 Philip B. Latham, Assistant Professor, M.D., Kentucky, 1981  
 Rebekah Antonie Leet, Instructor, M.D., Kentucky, 2015  
 Melissa Lynn Lefebvre, Assistant Professor, D.O., Western University of Health Sci, 2007  
 Tom Kuoyuan Lin, Assistant Professor, M.D., Wright State, 2001  
 Pai-Yue Lu-Fritts, Assistant Professor, M.D., New York Medical College, 2007  
 C. Charlton Mabry, Professor Emeritus, M.D., Emory, 1954  
 Bandi Rickell Mahaffey, Assistant Professor, M.D., Oklahoma Health Sci Ctr, 2012  
 Majd Makhoul, Associate Professor, M.D., Al-Baath, Hamas, Syria, 2002  
 Meghan L. Marsac, Associate Professor, Ph.D., Toledo, 2008  
 Erich C. Maul, Professor, D.O., Ohio, 1999  
 Michael Quinn McCoy, Instructor, M.D., Kansas Coll of Health Sc, 2002  
 Sean M. McTigue, Assistant Professor, M.D., U of Med&Dent of NJ RW Johnson, 2007  
 Joav Merrick, Professor, M.D., Copenhagen, 1977  
 Shaun Mohan, Assistant Professor, M.D., Stony Brook, Stony Brook, NY, 2009  
 Ryan Allen Moore, Assistant Professor, M.D., Indiana, 2008  
 Alba Morales, Associate Professor, M.D., Universidad Nacional Autonoma de Honduras Facultad de Ciencias Medicas, 1995  
 Margaret O. Murphy, Assistant Professor, Ph.D., RD, LD, Kentucky, 2014  
 David P. Nelson, Professor, M.D., Chicago, 1989  
 Jacqueline A. Noonan, Professor Emeritus, M.D., Vermont, 1954  
 Jessica Ellice Nordin, Assistant Professor, D.O., Ohio, 2010  
 Kimberly Renee Northrip, Associate Professor, M.D., MPH, Medical College of Virginia, 2001

Dwan Perry, Assistant Professor, D.O., West Virginia School of Osteo M.D., 2008  
Sara Shahid Salles, Professor, D.O., Health Sciences College of Osteopathic Medicine, 1996  
Andrew Allen Savoie, Assistant Professor, D.O., Philadelphia College of Osteopathic Medicine, 2014  
Randal E. Schleenbaker, Associate Professor, M.D., Loma Linda University La Sierra, 1986  
Nancy J. Stiles, Associate Professor, M.D., Texas Hlth Sci Ctr, 1986

## PHYSIOLOGY

Alan Daugherty, Chair

Francisco Humberto Andrade, Professor, Ph.D., Texas at San Antonio, 1994  
Erhard Bieberich, Professor, Ph.D., Cologne, 1990  
Jason Anthony Brandon, Assistant Professor, Ph.D., Central Lancashire, 2004  
Don E Burgess, Professor, Ph.D., Ohio State, 1990  
Kenneth Scott Campbell, Professor, Ph.D., Birmingham, 1998  
Lei Chen, Assistant Professor, Ph.D., Occupational and Environmental Health, Japan, 2006  
Alan Daugherty, Professor, Ph.D., D.Sc., Bath, 1981  
Brian Patrick Delisle, Associate Professor, Ph.D., Kentucky, 2001  
John Nicholas Diana, Professor Emeritus, Ph.D., Louisville, 1965  
Joseph Engelberg, Professor Emeritus, Ph.D., Pennsylvania, 1958  
Steven Estus, Professor, Ph.D., Case Western Reserve, 1989  
Donald T. Frazier, Professor, Ph.D., Kentucky, 1964  
Gregory I. Frolenkov, Professor, Ph.D., Moscow Institute of Physics & Technology & Cardiology Research Center, 1988  
John Carib Gensel, Associate Professor, Ph.D., Ohio State, 2006  
Ming Cui Gong, Professor, M.D., Ph.D., Peking Medical College, 1994  
Scott Maxwell Gordon, Assistant Professor, Ph.D., Cincinnati, 2012  
Henry R. Hirsch, Professor Emeritus, Ph.D., Massachusetts Institute of Technology, 1960  
Brian A. Jackson, Professor, Ph.D., Sheffield, 1977  
Lance Allen Johnson, Assistant Professor, Ph.D., North Carolina, 2011  
Lu Yuan Lee, Professor, Ph.D., Mississippi Medical College, 1975  
Sandra J. Legan, Professor Emeritus, Ph.D., Michigan, 1974  
Xiang-an Li, Professor, Ph.D., Osaka, 1994  
Hong Lu, Associate Professor, M.D., Ph.D., Kanazawa, 2003  
John Joseph McCarthy, Associate Professor, Ph.D., Oregon, 1995  
Timothy S. McClintock, Professor, Ph.D., Florida, 1989  
Jennifer S. Moylan, Assistant Professor, Ph.D., Arizona, 1994  
Mariana Nikolova-Karakashian, Professor, Ph.D., Bulgarian Academy of Sciences, Institute of Biophysics, Bulgaria, 1992  
Ok-Kyong Park-Sarge, Associate Professor, Ph.D., Illinois-Urbana, 1989  
Samirkumar Pravinbhai Patel, Assistant Professor, Ph.D., Maharaja Sayajirao University of Baroda, 2006  
Alexander G. Rabchevsky, Professor, Ph.D., Florida, 1995  
David C. Randall, Professor Emeritus, Ph.D., Washington, 1972  
Daniel Ray Richardson, Professor Emeritus, Ph.D., Indiana, 1969  
Kathryn Eileen Saatman, Professor, Ph.D., Pennsylvania, 1993  
Jonathan Satin, Professor, Ph.D., Emory, 1989  
Stefanka Spassieva, Assistant Professor, Ph.D., Groningen, 2003  
Dexter Franklin Speck, Professor, Ph.D., Loyola University of Chicago, 1980  
Venkateswaran Subramanian, Assistant Professor, Ph.D., Annamalai, 2003  
Ryan Eugene Temel, Associate Professor, Ph.D., SUNY-Stony Brook, 2001  
Alejandra Catalina Velez-Ortega, Assistant Professor, Ph.D., Kentucky, 2014  
Guanghu Wang, Assistant Professor, Ph.D., Dalian University of Science and Techn, 1997  
Christopher Mark Waters, Professor, Ph.D., Vanderbilt, 1991  
David R. Wekstein, Professor Emeritus, Ph.D., Rochester, 1962  
Donna Marie Wilcock, Professor, Ph.D., South Florida, 2005

Thomas Erich Wilkop, Assistant Professor, Ph.D., Sheffield, 2001  
Melinda Elizabeth Wilson, Associate Professor, Ph.D., Loyola University of Chicago, 1997  
James F. Zolman, Professor Emeritus, Ph.D., California-Berkeley, 1963

## PSYCHIATRY

Seth Scott Himelhoch, Chair

Timothy S. Allen, Associate Professor, M.D., Kentucky, 1998  
Robert G. Aug, Professor Emeritus, M.D., Cincinnati, 1955  
Emilee Ruth Bailey-offill, Assistant Professor, D.O., Pikeville College, 2011  
Sandra Dee Batsel-Thomas, Associate Professor, M.D., Kentucky, 2002  
Allen J. Brenzel, Associate Professor, M.D., Louisville, 1988  
Todd R. Cheever, Associate Professor, M.D., Kentucky, 1991  
Andrew T. Cooley, Associate Professor, M.D., Arizona, 1987  
Jose de Leon, Professor, M.D., Navarre, 1982  
Diane Ruth Follingstad, Professor, Ph.D., Colorado, 1974  
Teresa G. Gevedon, Associate Professor, M.D., Kentucky, 1983  
James Donald Hawthorne, Assistant Professor, M.D., Kentucky, 2010  
Lon R. Hays, Professor, M.D., MBA, Kentucky, 1982  
William Michael Heffron, Associate Professor, M.D., Kentucky, 1972  
Kelly K. Hill, Associate Professor, M.D., Marshall, 1986  
Seth Scott Himelhoch, Professor, M.D., Michigan, 1994  
Laurie Lee Humphries, Professor Emeritus, M.D., Emory, 1973  
Lindsey Jayne Jasinski, Associate Professor, Ph.D., Kentucky, 2010  
Steven Doyle Johnson, Associate Professor, Ph.D., Kentucky, 2013  
Hans Otto Kaak, Professor Emeritus, M.D., Michigan, 1964  
Fareesh H. Kanga, Assistant Professor, M.D., Vanderbilt, 2007  
Robert Francis Kraus, Professor Emeritus, M.D., Wisconsin, 1955  
Clark Costigan Lester, Assistant Professor, M.D., Louisville, 2009  
J. Scott Littleton, Assistant Professor, M.D., Louisville, 1985  
Arnold M Ludwig, Professor Emeritus, M.D., Pennsylvania, 1958  
Virginia H. Luftman, Associate Professor, LCSW, Ph.D., Kentucky, 2009  
Catherine A. Martin, Professor, M.D., Kentucky, 1976  
Edward Nisbet Maxwell, Associate Professor, M.D., Kentucky, 1971  
Amy Lynn Meadows, Assistant Professor, M.D., Yale, 2008  
Matthew John Neltner, Assistant Professor, M.D., Kentucky, 2005  
James C. Norton, Professor, Ph.D., Arizona, 1970  
Sarah May Oros, Assistant Professor, M.D., Wright State, 2014  
Gopalkumar Rakesh, Assistant Professor, M.D., Calicut, 2007  
Abner Oliver Rayapati, Associate Professor, M.D., Spartan Health Sciences, 2007  
Meghan Clay Riddle, Assistant Professor, M.D., Texas at San Antonio, 2011  
Andrew Russell Roads, Assistant Professor, M.D., Tennessee-Medical, 2013  
Joshua Aaron Rodocker, Assistant Professor, D.O., Virginia College of Osteopathic Medicine, 2008  
Charles I. Shelton, Assistant Professor, D.O., West Virginia School of Osteo M.D., 1989  
David Shraberg, Assistant Professor, M.D., Vanderbilt, 1973  
Robert E. Simon, Assistant Professor, M.D., Kentucky, 1994  
Mary V. Sprang, Professor, Ph.D., Texas, 1991  
Marian Swope, Professor, M.D., Kentucky, 1989  
Adrienne L. Whitt-Woosley, Assistant Professor, Ph.D., Kentucky, 2016  
Rachele Angela Yadon, Assistant Professor, M.D., Duke, 2015

## RADIATION MEDICINE

Marcus E. Randall, Chair

Falguni Amin-Zimmerman, Assistant Professor, M.D., Louisville, 2000  
Mark Edmund Bernard, Assistant Professor, M.D., Pittsburgh, 2012  
Dennis Allen Cheek, Assistant Professor, Ph.D., Texas Sch Allied Health, 2005  
Quan Chen, Associate Professor, Ph.D., Wisconsin-Madison, 2004  
Ellis Lee Johnson, Professor, Ph.D., Kentucky, 1993  
Mahesh Ravindra Kudrimoti, Professor, M.B.B.S., Osmania, 1992  
Sameera Sue Kumar, Assistant Professor, M.D., West Virginia, 2013  
Wei Luo, Associate Professor, Ph.D., Oklahoma, 2002  
Ronald Charles McGarry, Professor, M.D., Ph.D., Calgary, 1992  
Clinton Amos Medbery, Assistant Professor, M.D., Medical University of South Carolina, 1976  
Janelle Arlene Molloy, Professor, Ph.D., Virginia, 1990  
Waleed Fouad El Sayed Mourad, Associate Professor, M.D., Ain-Shams University School of Medicine, 2000  
Kristie J. Paris, Professor, M.D., Louisville, 1982  
Pushpa M. Patel, Associate Professor Emeritus, M.D., Bombay, 1973  
Damodar Pokhrel, Associate Professor, Ph.D., Virginia Commonwealth University-Acade, 2010  
Janalyn Prows, Assistant Professor, M.D., Cincinnati, 1984  
Marcus E. Randall, Professor, M.D., North Carolina, 1982

Vivek M. Rangnekar, Professor, Ph.D., Bombay, 1983  
 Robin A. Reams, Assistant Professor, M.D., Kentucky, 1981  
 Marguerite A. Sellitti, Assistant Professor, M.D., Ph.D., SUNY-Stony Brook, 1988  
 William H. St. Clair, Professor, M.D., Ph.D., Kentucky, 1995  
 Khadijeh S. Zarkoob, Assistant Professor, M.D., Pahlavi, 1977  
 Robert D. Zwicker, Professor Emeritus, Ph.D., Kentucky, 1972

## RADIOLOGY

M. Elizabeth Oates, Chair

Albert E. Alexander, Associate Professor, M.D., Louisiana State, 1980  
 Abdunnasser Ahmed Alhajer, Associate Professor, M.D., Arabian Gulf, Manama, Bahrain, 1999  
 Andres Rodriguez Ayoob, Associate Professor, M.D., Johns Hopkins, 1999  
 Francesca D. Beaman, Associate Professor, M.D., Florida, 2000  
 Gustav Arthur Blomquist, Assistant Professor, M.D., Vanderbilt, 2004  
 Michael A. Brooks, Professor, M.D., Florida, 1997  
 Aurela Clark, Assistant Professor, M.D., Kentucky, 2013  
 Christopher Dean Conley, Assistant Professor, M.D., Wright State, 1993  
 Gary R Conrad, Associate Professor Emeritus, M.D., Kentucky, 1977  
 Billy Elvis Cunningham, Assistant Professor, D.O., Kirksville College of Osteopathic Medicine, 1971  
 Adrian Alexander Dawkins, Associate Professor, M.B.B.S., The West Indies, 1999  
 Johanne Elizabeth Dillon, Associate Professor, M.D., Medical College of Pennsylvania, 1997  
 Riham H. El Khouli, Assistant Professor, M.D., Suez Canal, 1998  
 Edward Joel Escott, Professor, M.D., Albany Medical College, 1989  
 Aaron David Fain, Assistant Professor, M.D., Kentucky, 2011  
 Andrew M. Fried, Professor Emeritus, M.D., Alabama-Univ College, 1968  
 Gaby Elie Gabriel, Assistant Professor, M.D., American University in Beirut, 2005  
 Halemane Suryanarayana Ganesh, Assistant Professor, M.D., Government Medical College, 1999  
 Richard Dennis Gibbs, Assistant Professor, M.D., Cincinnati, 1988  
 Eduardo Roman Gomez, Assistant Professor, M.D., Loyola University of Chicago, 1981  
 Peter A. Hardy, Associate Professor, Ph.D., Toronto, 1991  
 Stephen Blake Hobbs, Associate Professor, M.D., Vanderbilt, 2007  
 Gwendolyn Margaret Hubbell, Assistant Professor, M.D., Loma Linda University La Sierra, 2008  
 Aman Khurana, Assistant Professor, M.D., Maulana Azad Medical College, 2010  
 June Kim, Assistant Professor, M.D., Mount Sinai School of Medicine, 2003  
 Charles Lee, Associate Professor Emeritus, M.D., Northwestern University Medical School, 1976  
 James Te-An Lee, Associate Professor, M.D., Texas Tech, 2004  
 Arthur Lieber, Professor, M.D., Louisville, 1953  
 Fang Kum Loh, Associate Professor Emeritus, M.D., National University of Singapore, 1972  
 Conor M. Lowry, Assistant Professor, M.D., St Louis, 2009  
 Douglas Edward Lukins, Assistant Professor, M.D., Indiana, 2006  
 Attef Azmi Mikhail, Assistant Professor, M.D., Cincinnati, 1986  
 Anna Miller, Assistant Professor, M.D., Wayne State, 1988  
 Blaine Thomas Mischen, Assistant Professor, M.D., Duke, 2008  
 Justin Royse Montgomery, Assistant Professor, M.D., Louisville, 2006  
 Rashmi Thottathil Nair, Assistant Professor, M.B.B.S., JIPMER, Pondicherry, India, 1995  
 David James Nickels, Associate Professor, M.D., MBA, Kentucky, 2005  
 M. Elizabeth Oates, Professor, M.D., Boston, 1981  
 Kwaku K. Obeng, Assistant Professor, M.D., Temple, 2004  
 Margaret Hazzard Ormanoski, Associate Professor, D.O., New England College of Osteopathic Medicine, 1990  
 Joseph Wilson Owen, Assistant Professor, M.D., Kentucky, 2009  
 Wendi Allison Bond Owen, Assistant Professor, M.D., Kentucky, 2009  
 Barbara Kenney Pawley, Associate Professor, M.D., Louisville, 1991  
 Miguel Alexis Pereira Rodriguez, Assistant Professor, M.D., Medical College of Georgia, 2009  
 Driss Raissi, Associate Professor, M.D., Universidad del Pais Vasco, Spain, 2005  
 Flavius Daniel Raslau, Assistant Professor, M.D., U of Hlth Sci Medical School, 2005  
 Amit Singh Rattan, Assistant Professor, M.D., Cincinnati, 2009  
 J. Paul Rubin, Assistant Professor, M.D., California-San Diego, 1984  
 Ung Yun Ryo, Professor Emeritus, M.D., Ph.D., Kyung-Pook National, 1960  
 Gary M. Schmitt, Assistant Professor, M.D., Northeast Ohio Medical, 1988  
 Daniel George Schwartzberg, Assistant Professor, M.D., Cornell, 1975  
 Thomas Marion Seay, Assistant Professor, M.D., Kentucky, 1987  
 Albert C Selke Jr, Professor Emeritus, M.D., Pennsylvania, 1959  
 Wei-Jen Shih, Professor Emeritus, M.D., National Defense Medical Center, School of Medicine Taipei, Taiwan, 1963  
 Fara Yasmeeen Shikoh, Instructor, M.D., Kentucky, 2014  
 Phillip J. Silberberg, Assistant Professor, M.D., The Witwatersrand, 1983  
 Paul James Spicer, Associate Professor, M.D., Meharry Medical College, 2004  
 Scott D. Stevens, Associate Professor, M.D., Duke, 1983

Margaret Maria Szabunio, Professor, M.D., Hahnemann Medical College, 1984  
 Jeremy Wayne Thacker, Assistant Professor, M.D., Kentucky, 2005  
 Jennifer F. True, Assistant Professor, M.D., Kentucky, 2006  
 Charl Stanhope van Wyk, Assistant Professor, M.D., Pretoria, 1992  
 Weiping Wang, Associate Professor, M.D., Xi'an Jiaotong, 1983  
 Xiaojin Jennifer Wang, Assistant Professor, M.D., Kentucky, 2010  
 Kari Renee Wilson, Assistant Professor, M.D., Marshall, 2013  
 Michael Alan Winkler, Associate Professor, M.D., Chicago, 1998  
 Marianna Zagurovskaya, Assistant Professor, M.D., Almaty State Medical Institute, 1998  
 Jie Zhang, Professor, Ph.D., Minnesota, 2004

## SURGERY

William B. Inabnet, Chair

Alexandre Paul Ancheta, Assistant Professor, M.D., State University of New York, 2011  
 Cherry Ballard-Croft, Associate Professor, Ph.D., South Alabama, 1998  
 Erik Q. Ballert, Associate Professor, M.D., Louisville, 2001  
 Maher Afif Baz, Professor, M.D., American University in Beirut, 1989  
 Sandra Jones Beck, Professor, M.D., Wright State, 1995  
 Henrik Oliver Berdel, Assistant Professor, M.D., Charite-Universitaetsmedizin-Berlin, Germany, 2008  
 Jonathan Carlin Berger, Assistant Professor, M.D., Chicago, 2005  
 Andrew C. Bernard, Professor, M.D., Kentucky, 1995  
 Avinash Bhakta, Assistant Professor, M.D., Nevada, 2010  
 Joseph Louis Bobadilla, Associate Professor, M.D., Wisconsin-Madison, 2003  
 Anthony James Bottiggi, Associate Professor, M.D., SUNY-Buffalo, 2000  
 Michael Charles Bounds, Assistant Professor, M.D., Wake Forest, 2011  
 Debra Anne Bourne, Assistant Professor, M.D., Yale, 2011  
 Kristopher Adam Braun, Assistant Professor, M.D., Kentucky, 2012  
 Sabine Monique Brouxhon, Professor, M.D., Rochester, 1998  
 Donald Wayne Brown, Assistant Professor, D.O., Oklahoma State, 1996  
 Rebeccah La Nan Brown, Professor, M.D., New Mexico, 1990  
 Roosevelt Bryant, Assistant Professor, M.D., Boston, 1999  
 Erin Elizabeth Burke, Assistant Professor, M.D., Vanderbilt, 2010  
 William Charles Cavatassi, Associate Professor, M.D., West Virginia, 2005  
 Michael Joseph Cavnar, Assistant Professor, M.D., Columbia University-Columbia College, 2007  
 Phillip K. Chang, Professor, M.D., Eastern Virginia Medical School, 1999  
 Gregory Scott Charak, Assistant Professor, M.D., Ph.D., Pennsylvania, 2012  
 Alfred Martin Cohen, Professor Emeritus, M.D., Johns Hopkins, 1967  
 Daniel L. Davenport, Professor, Ph.D., Kentucky, 2006  
 Andrea Nicole Doud, Assistant Professor, M.D., Wayne State, 2010  
 David B. Drake, Professor, M.D., Kentucky, 1983  
 John Martin Draus, Associate Professor, M.D., Louisville, 2002  
 Anil Duggal, Assistant Professor, M.D., McMaster, 2001  
 Eric D. Endean, Professor, M.D., Michigan-Ann Arbor, 1980  
 B. Mark Evers, Professor, M.D., Tennessee-Medical College, 1983  
 Richard A. Falcone, Professor, M.D., New York University School of Medicine, 1995  
 Victor A. Ferraris, Professor, M.D., Ph.D., Thomas Jefferson, 1977  
 Jason S. Frischer, Associate Professor, M.D., State University of New York, 1999  
 Mei Gao, Assistant Professor, Ph.D., Peking Union Medical College & Chinese Academy of Medical Sciences, Beijing, 2007  
 Aaron Paul Garrison, Assistant Professor, M.D., Wayne State, 2004  
 Roberto Gedaly, Professor, M.D., Universidad Central de Venezuela, 1990  
 James F Glenn, Professor Emeritus, M.D., Duke, 1952  
 William W Green, Professor Emeritus, Ph.D., Case Western Reserve, 1970  
 Meera Gupta, Assistant Professor, M.D., Pennsylvania, 2008  
 Patrick F. Hagihara, Professor Emeritus, M.D., Albany Medical College, 1960  
 Timothy Joseph Horrell, Assistant Professor, M.D., Kentucky, 2014  
 Jon S. Hourigan, Associate Professor, M.D., East Tennessee State, 2000  
 Gordon Lee Hyde, Professor Emeritus, M.D., Michigan, 1957  
 William Barlow Inabnet, Professor, M.D., North Carolina, 1991  
 Joshua Marshall Judge, Assistant Professor, M.D., Louisville, 2008  
 Herbert Kaufer, Professor Emeritus, M.D., Michigan, 1959  
 Paul A. Kearney, Professor, M.D., Thomas Jefferson, 1980  
 Daniel Edward Kenady, Professor Emeritus, M.D., Georgetown, 1972  
 Suresh Keshavamurthy, Assistant Professor, MBBS, JJM Medical College, Davangere, India, 1986  
 Jonathan Kiev, Associate Professor, M.D., Tulane, 1989  
 Joseph Kim, Professor, M.D., Loyola University of Chicago, 1998  
 Meera Kotagal, Assistant Professor, M.D., Harvard, 2009  
 Courtney Youens Lee, Associate Professor, M.D., Texas Tech, 2004  
 Dong Hee Lee, Assistant Professor, M.D., SUNY Stony Brook, 2010  
 Jing Li, Associate Professor, Ph.D., Harbin Medical College, 1999  
 James Yhi Liau, Associate Professor, M.D., Kentucky, 2004

Kant Yuan-Kai Lin, Professor, M.D., Mount Sinai School of Medicine, 1984  
 Tessa Elizabeth London, Assistant Professor, M.D., MPH, Tulane, 2011  
 Rajasekhar S. R. Malyala, Assistant Professor, M.D., Illinois Medical C, 1992  
 Emily Fontenot Marcinkowski, Assistant Professor, M.D., Louisiana State, 2007  
 Francese Marti, Associate Professor, Ph.D., Barcelona, 1995  
 Kevin Douglas Martin, Assistant Professor, M.D., Vanderbilt, 1982  
 Patrick C. McGrath, Professor, M.D., Illinois Medical C, 1980  
 J. William McRoberts, Professor Emeritus, M.D., Cornell, 1959  
 Shari Lynn Meyerson, Professor, M.D., MEd, Chicago, 1996  
 Jordan David Miller, Assistant Professor, D.O., Lake Erie College of Osteopathic, 2009  
 David J. Minion, Professor, M.D., Indiana, 1989  
 David Morales, Professor, M.D., Yale, 1995  
 Oscar Ignacio Moreno-Ponte, Assistant Professor, M.D., Universidad Centroccidental  
 Lisandro Alvarado, Venezuela, 2004  
 Timothy W. Mullett, Professor, M.D., Florida, 1983  
 Sravanthi Nandavaram, Assistant Professor, M.D., Osmania, 2009  
 Jaimie D. Nathan, Assistant Professor, M.D., Yale, 1998  
 Melissa Ranney Newcomb, Associate Professor, M.D., Kentucky, 2008  
 Nathan Terry Orr, Assistant Professor, M.D., Texas Southwestern, 2008  
 Prakash Pandalai, Assistant Professor, M.D., Wright State, 2001  
 Jitesh Arvind Patel, Associate Professor, M.D., U of Med&Dent of NJ RW Johnson, 2003  
 Andrew R. Pulito, Professor, M.D., Columbia University - College of Physicians and Surgeons,  
 1969  
 James A. Quintessenza, Professor, M.D., Florida, 1981  
 Reese Woodson Randle, Assistant Professor, M.D., Texas Hlth Sci Ctr, 2009  
 Hassan K. Reda, Associate Professor, M.D., American University in Beirut, 1995  
 Jessica Kathleen Reynolds, Assistant Professor, M.D., Medical College of Georgia, 2011  
 Anna Kure Rockich, Associate Professor, Pharm.D., Kentucky, 1998  
 John Scott Roth, Professor, M.D., Virginia Commonwealth University-Acade, 1993  
 Randall G. Rowland, Professor Emeritus, M.D., Ph.D., Northwestern University Medical  
 School, 1972  
 Ana Ruzic, Assistant Professor, M.D., Kentucky, 2005  
 Piotr Grigorievich Rychahou, Associate Professor, M.D., Byelorussian State Medical  
 University Minsk, Belarus, 2002  
 Beth Ann Rymeski, Assistant Professor, D.O., New England, 2005  
 Siby P. Saha, Professor, M.D., MBA, Rajshahi, 1966  
 Hiroshi Saito, Professor, Ph.D., Tokyo, 1987  
 Michael E. Sekela, Professor, M.D., Yeshiva, Einstein College Medicine, 1981  
 Malay Bipin Shah, Associate Professor, M.D., Medical College of Ohio, 2003  
 Sean C. Skinner, Associate Professor, M.D., Ross, 1999  
 David A. Sloan, Professor, M.D., McGill, 1977  
 Carol Spears, Assistant Professor, M.D., Alabama-University College, 1999  
 Marlene Elena Starr, Assistant Professor, Ph.D., Texas Medical, 2011  
 Daniel H. Stewart, Associate Professor, M.D., West Virginia, 1980  
 Gregory Tiao, Professor, M.D., Illinois at Chicago, 1990  
 Stuart Tobin, Associate Professor, M.D., Missouri-Columbia Campus, 1971  
 Crystal Faun Totten, Assistant Professor, M.D., South Florida, 2009  
 Brian Keith Tucker, Associate Professor, D.O., Pikeville College, 2002  
 James Scott Tweddell, Professor, M.D., Cincinnati, 1985  
 Samuel Chand Tyagi, Assistant Professor, M.D., Louisville, 2010  
 Henry C. Vasconez, Professor, M.D., Central University of Ecuador, 1978  
 William Jack Wallen, Instructor, M.D., Ph.D., Toronto, 2007  
 Dongfang Wang, Professor, M.D., Ph.D., Tongji University-Wuhan, 1991  
 Qingding Wang, Associate Professor, M.D., Ph.D., Institute of Beijing Pharmacology and  
 Toxicology, 1994  
 Zachary Douglas Warriner, Assistant Professor, M.D., Kentucky, 2012  
 Heidi L. Weiss, Professor, Ph.D., South Carolina, 1993  
 Lesley Wong, Professor, M.D., Cornell, 1982  
 David John Worthunsky, Assistant Professor, M.D., Harvard, 2010  
 Eleftherios S. Xenos, Professor, M.D., Athens, 1989  
 Joseph Bertram Zwischenberger, Professor, M.D., Kentucky, 1977

## TOXICOLOGY AND CANCER BIOLOGY

Xiaoqi Liu, Chair

Christine Fillmore Brainson, Assistant Professor, Ph.D., Tufts, 2009  
 Luksana Chaiswing, Assistant Professor, Ph.D., Mahidol, 2004  
 Min Chen, Assistant Professor, Ph.D., Texas Medical, 2011  
 Whei-Mei Teresa Fan, Professor, Ph.D., California-Davis, 1983  
 Jian Fu, Professor, Ph.D., Alabama-University College, 2001  
 Eva Marie Goellner, Assistant Professor, Ph.D., Pittsburgh, 2011  
 Liya Gu, Associate Professor Emeritus, Ph.D., Wayne State, 1992  
 Richard Masato Higashi, Professor, Ph.D., California-Davis, 1987  
 Tadahide Izumi, Associate Professor, Ph.D., Kyoto, 1993  
 Stuart Gordon Jarrett, Assistant Professor, Ph.D., Wales, 2005

Davy Jones, Professor, Ph.D., California-Davis, 1982  
 Andrew Nicholas Lane, Professor, Ph.D., University College London, London, England, 1979  
 Guo-Min Li, Professor, Ph.D., Wayne State, 1991  
 Zhiguo Li, Assistant Professor, Ph.D., Chinese Academy of Sciences, 2011  
 Ying Liang, Associate Professor, M.D., Ph.D., Kentucky, 2005  
 Xiaoqi Liu, Professor, Ph.D., Washington State, 1998  
 Amrita Machwe, Assistant Professor, Ph.D., Calgary, 1995  
 Isabel Mellon, Associate Professor, Ph.D., Illinois Medical C, 1984  
 David Keith Orren, Associate Professor, Ph.D., North Carolina, 1991  
 Xingcong Ren, Assistant Professor, M.D., Shanghai, 1982  
 Xianglin Shi, Professor, Ph.D., West Virginia, 1989  
 Daret K. St. Clair, Professor, Ph.D., Iowa, 1984  
 Nathan Lane Vanderford, Assistant Professor, Ph.D., Kentucky, 2008  
 Mary Vore, Professor Emeritus, Ph.D., Vanderbilt, 1972  
 Zhigang Wang, Professor, Ph.D., Texas at Austin, 1989  
 Zhishan Wang, Assistant Professor, M.D., Ph.D., Tongji University-Wuhan, 1998  
 Qiou Wei, Associate Professor, Ph.D., South Dakota, 2005  
 Chengfeng Yang, Professor, Ph.D., National University of Singapore, 2001  
 Hsin-Sheng Yang, Associate Professor, Ph.D., Arizona State, 1994  
 Jin-Ming Yang, Professor, M.D., Ph.D., FuDan, 1988  
 Yekaterina Y. Zaytseva, Assistant Professor, Ph.D., Kentucky, 2010  
 Zhuo Zhang, Professor, Ph.D., West Virginia, 2002

## UROLOGY

Stephen Edward Strup, Chair

Katie N. Ballert, Associate Professor, M.D., Louisville, 2001  
 John Roger Bell, Assistant Professor, M.D., Tulane, 2010  
 Amul Bhalodi, Assistant Professor, M.D., Marshall, 2010  
 Jason Robert Bylund, Associate Professor, M.D., Kentucky, 2005  
 Deborah R. Erickson, Professor, M.D., Missouri-Columbia Campus, 1984  
 Shubha Gupta, Associate Professor, MBBS, All-India Ins. of Medical Science, 2005  
 Andrew Mitchell Harris, Assistant Professor, M.D., Kentucky, 2007  
 Andrew Callaway James, Assistant Professor, M.D., Arizona, 2007  
 Bruce Allan Lucas, Professor Emeritus, M.D., Duke, 1965  
 David M. Preston, Associate Professor, M.D., Emory, 1990  
 Alison Marie Rasper, Assistant Professor, M.D., Cincinnati, 2011  
 Amanda Feige Saltzman, Assistant Professor, M.D., Tulane, 2011  
 Stephen Edward Strup, Professor, M.D., Indiana Central, 1988  
 Ali Mahmoud Ziada, Associate Professor, M.D., Kasr ElAini Cairo, 1991

## COLLEGE OF NURSING

E. Janie Heath, Dean

Kacy T. Allen-Bryant, Lecturer, M.S.N., Kentucky, 2006  
 Kristin B. Ashford, Associate Professor, Ph.D., Kentucky, 2007  
 Ruth Assell, Associate Professor Emerita, M.S., Colorado, 1966  
 Leslie M. Beebe, Senior Lecturer, M.S.N., Kentucky, 1988  
 Ruth D. Berry, Assistant Clinical Professor Emerita, M.S.N., Wayne State, 1964  
 Martha J. Biddle, Assistant Professor, Ph.D., Kentucky, 2011  
 Dorothy A. Brockopp, Professor Emerita, Ph.D., SUNY-Buffalo, 1982  
 Karen M. Butler, Associate Professor, D.N.P., Kentucky, 2006  
 Cathy A. Catlett, Lecturer, M.S.N., McKendree, 2009  
 Misook L. Chung, Professor, Ph.D., Kentucky, 2001  
 Tammy L. Courtney, Lecturer, M.S.N., Indiana Wesleyan, 2015  
 Jennifer B. Cowley, Senior Lecturer, M.S.N., Kentucky, 1987  
 Amanda D. Culp-Roche, Clinical Instructor, M.S.N., Kentucky, 2009  
 Judith A. Daniels, Assistant Clinical Professor, Ph.D., Kentucky, 2004  
 Audrey Darville, Associate Clinical Professor, Ph.D., Kentucky, 2012  
 Jennifer L. Dent, Lecturer, M.S.N., Eastern Kentucky, 2011  
 Claudia M. Diebold, Senior Lecturer Emerita, M.S.N., Arkansas, 1993  
 Peggy El-Mallakh, Associate Professor, Ph.D., Kentucky, 2005  
 Amanda Fallin, Assistant Professor, Ph.D., Kentucky, 2011  
 Janet L. Forren, Associate Professor, Ph.D., Kentucky, 2009  
 Susan K. Frazier, Associate Professor, Ph.D., Ohio State, 1996  
 Stephanie J. Fugate, Clinical Instructor, M.S.N., Kentucky, 2007  
 Margaret R. Grier, Professor Emerita, Ph.D., Texas Woman's University, 1975  
 Ellen J. Hahn, Professor, Ph.D., Indiana, 1991  
 Julia J. Hall, Lecturer, M.S.N., Kentucky, 2004  
 Lynne A. Hall, Professor Emerita, Dr.P.H., North Carolina-Chapel Hill, 1983  
 Debra C. Hampton, Assistant Professor, Ph.D., Cincinnati, 1996  
 Melanie Hardin-Pierce, Associate Professor, D.N.P., Kentucky, 2006  
 E. Janie Heath, Professor, Ph.D., George Mason, 2005

Angela B. Hensley, Clinical Instructor, D.N.P., Cincinnati, 2013  
 Patricia B. Howard, Professor, Ph.D., Kentucky, 1992  
 Dianna D. Inman, Assistant Professor, D.N.P., Arizona State, 2009  
 Lynne A. Jensen, Associate Clinical Professor, Ph.D., Kentucky, 2007  
 Mikael Jones,\* Clinical Associate Professor, Pharm.D., Florida, 2002  
 Thomas H. Kelly,\* Associate Dean for Research, Ph.D., Minnesota, 1983  
 Lynn A. Kelso, Assistant Clinical Professor, M.S.N., Case Western Reserve, 1991  
 Paula R. Kral, Lecturer, M.S.N., Kentucky, 1986  
 Whitney L. Kurtz-Ogilvie, Lecturer, M.F.A., School of the Art Institute of Chicago, 2005  
 Terry A. Lennie, Professor, Ph.D., Wisconsin-Madison, 1993  
 Ana Maria Linares, Associate Professor, D.N.S., Universidad Autonoma de Nuevo Leon, Mexico, 2006  
 Sharon E. Lock, Professor, Ph.D., South Carolina-Columbia, 1990  
 Wanda Lovitz, Clinical Instructor, M.S.N., Bellarmine, 1998  
 Joanne M. Matthews, Assistant Clinical Professor, D.N.P., Kentucky, 2012  
 Sheila D. Melander, Professor, Ph.D., Alabama-Birmingham, 1990  
 Debra K. Moser, Professor, D.N.Sc., California-Los Angeles, 1992  
 Gia T. Mudd-Martin, Associate Professor, Ph.D., Texas Health Science Center at Houston, 2007  
 Chizimuzo T.C. Okoli, Assistant Professor, Ph.D., Kentucky, 2005  
 Julianne Ossege, Associate Professor, Ph.D., South Carolina, 1993  
 Suzanne Pilon, Lecturer, D.N.P., Kentucky, 2016  
 Mary K. Rayens, Professor, Ph.D., Kentucky, 1993  
 Deborah B. Reed, Professor, Ph.D., Kentucky, 1996  
 Carol Riker, Associate Professor Emerita, M.S.N., Kentucky, 1974  
 Kay Robinson, Associate Professor Emerita, D.S.N., Alabama-Birmingham, 1995  
 Graham D. Rowles,\* Professor, Ph.D., Clark, 1976  
 Barbara A. Sachs, Professor Emerita, Ph.D., Wayne State, 1981  
 Kathryn Sallee, Associate Professor Emerita, M.N., Emory, 1971  
 Elizabeth G. Salt, Associate Professor, Ph.D., Kentucky, 2009  
 Laura C. Schrader, Lecturer, M.S.N., Kentucky, 2000  
 Leslie K. Scott, Associate Professor, Ph.D., Kentucky, 2004  
 Juliann G. Sebastian, Professor Emerita, Ph.D., Kentucky, 1994  
 Sharon L. Sheahan, Associate Professor Emerita, Ph.D., Kentucky, 1990  
 Marcia K. Stanhope, Professor Emerita, D.S.N., Alabama-Birmingham, 1981  
 Ruth R. Staten, Associate Professor Emerita, Ph.D., Kentucky, 1996  
 Karen A. Stefaniak, Adjunct Assistant Professor, Ph.D., Kentucky, 1998  
 Elizabeth Gressle Tovar, Associate Professor, Ph.D., Texas Medical Branch at Galveston, 2007  
 Kathleen D. Wagner, Lecturer Emerita, Ed.D., Kentucky, 2006  
 Lee Anne Walmsley, Lecturer, Ph.D., Kentucky, 2015  
 Sherry Warden, Associate Professor Emerita, Ph.D., Kentucky, 1990  
 J. Darlene Welsh, Associate Professor, Ph.D., Kentucky, 2006  
 Jo Ann Wever, Associate Professor Emerita, M.S.N., Kentucky, 1976  
 Amanda T. Wiggins, Lecturer, Ph.D., Kentucky, 2013  
 Carolyn A. Williams, Professor, Dean Emerita, Ph.D., North Carolina-Chapel Hill, 1969  
 Jessica L. Wilson, Assistant Clinical Professor, Ph.D., Kentucky, 2012  
 John F. Wilson,\* Professor, Ph.D., Michigan, 1977  
 Cheryl D. Witt, Lecturer, M.S.N., Cincinnati, 2013  
 Rebecca B. Yarrison,\* Assistant Clinical Professor, Ph.D., Oklahoma, 2009  
 Louise Zegeer, Professor Emerita, M.S.N., Case Western Reserve, 1959

\*Joint Appointment

## COLLEGE OF PHARMACY

R. Kiplin Guy, Dean

### PHARMACY PRACTICE AND SCIENCE

Aimee G. Adams, Adjunct Assistant Professor, Pharm.D., Cincinnati, 1994  
 Val R. Adams, Associate Professor, Pharm.D., Texas at Austin (jointly w/ UT Health Science Center at San Antonio), 1993  
 Dina Ali, Adjunct Assistant Professor, Pharm.D., Tennessee, 2016  
 Philip Almeter, Adjunct Assistant Professor, Pharm.D., Georgia, 2009  
 Ayesha Ather, Adjunct Assistant Professor, Pharm.D., Montana, 2014  
 Elizabeth Autry, Adjunct Assistant Professor, Pharm.D., North Carolina, 2012  
 Abby M. Bailey, Adjunct Assistant Professor, Pharm.D., Kentucky, 2011  
 Regan Baum, Adjunct Assistant Professor, Pharm.D., Kentucky, 2012  
 Craig Beavers, Adjunct Assistant Professor, Pharm.D., Kentucky, 2009  
 Elizabeth Beckman, Adjunct Assistant Professor, Pharm.D., Butler, 2007  
 Brittany Bissell, Adjunct Assistant Professor, Pharm.D., Midwestern, 2014  
 Karen M. Blumenschein, Associate Professor, Pharm.D., Kentucky, 1991  
 Samantha Bochenek, Adjunct Assistant Professor, Pharm.D., North Carolina, 2014  
 Ralph E. Bouvette, Adjunct Associate Professor, Ph.D., J.D., Kentucky, 1991  
 Emily Brouwer, Adjunct Assistant Professor, Pharm.D., North Carolina, 2012

Justin Bulter, Adjunct Assistant Professor, Pharm.D., Purdue, 2014  
 David S. Burgess, Professor, Pharm.D., Medical University of South Carolina, 1990  
 Allison Butts, Adjunct Assistant Professor, Pharm.D., Kentucky, 2013  
 Jeffrey Cain, Associate Professor, Ph.D., Kentucky, 2007  
 Jeff Carrico, Adjunct Assistant Professor, Pharm.D., Kentucky, 2000  
 Timothy M. Clifford, Adjunct Associate Professor, Pharm.D., Kentucky, 1998  
 Aaron M. Cook, Adjunct Associate Professor, Pharm.D., Kentucky, 2000  
 Megan Cooper, Adjunct Assistant Professor, Pharm.D., Kentucky, 2013  
 Danielle Corbett, Adjunct Assistant Professor, Pharm.D., Kentucky, 2016  
 Jessica Cox, Adjunct Assistant Professor, Pharm.D., Kentucky, 2014  
 George A. Davis, Adjunct Associate Professor, Pharm.D., Arkansas at Little Rock, 1993  
 Kyle Dawson, Adjunct Assistant Professor, Pharm.D., University of Toledo, 2008  
 Melanie Dicks, Clinical Assistant Professor, Pharm.D., Kentucky, 2004  
 Holly S. Divine, Clinical Professor, Pharm.D., Kentucky, 1998  
 Jessie Dunne, Adjunct Assistant Professor, Pharm.D., Iowa, 2005  
 Courtney Eatmon, Adjunct Assistant Professor, Pharm.D., Kentucky, 2005  
 Laura Ebbitt, Adjunct Assistant Professor, Pharm.D., Kentucky, 2013  
 Mary Eberly, Adjunct Assistant Professor, Pharm.D., The Ohio State University, 2013  
 Cassandra Fabbri, Adjunct Assistant Professor, Pharm.D., Wisconsin, 2016  
 David J. Feola, Associate Professor, Pharm.D., Kentucky, 1997  
 Joseph L. Fink III, Professor, J.D., Georgetown, 1973  
 Alexander H. Flannery, Adjunct Associate Professor, Pharm.D., Kentucky, 2011  
 Jeremy Flynn, Adjunct Associate Professor, Pharm.D., Kentucky, 1999  
 Patricia E. Rippetoe Freeman, Associate Professor, Ph.D., Kentucky, 1991  
 Brian Gardner, Adjunct Assistant Professor, Pharm.D., Kentucky, 1999  
 Daniel Grantz, Adjunct Assistant Professor, Pharm.D., Kentucky, 2004  
 Lindsay Gruber, Adjunct Assistant Professor, Pharm.D., Purdue, 2013  
 Jimmi C. Hatton, Professor, Pharm.D., Kentucky, 1984  
 Brooke Herndon, Adjunct Assistant Professor, Pharm.D., Kentucky, 2015  
 Elizabeth Hess, Adjunct Assistant Professor, Pharm.D., The Ohio State University, 2013  
 Patrick Higginbotham, Adjunct Assistant Professor, Pharm.D., Kentucky, 2003  
 Kimberley L. Brantley-Hite, Adjunct Assistant Professor, MH PHAR, Ohio State, 1989  
 Gavin Howington, Adjunct Assistant Professor, Pharm.D., Kentucky, 2014  
 Brooke Hudspeth, Adjunct Assistant Professor, Pharm.D., Kentucky, 2007  
 Mark Huffmyer, Adjunct Assistant Professor, Pharm.D., Kentucky, 2014  
 Eric Johnson, Adjunct Assistant Professor, Pharm.D., Colorado, 2012  
 Hannah Johnson, Clinical Assistant Professor, Pharm.D., Kentucky, 2012  
 Katie Johnson, Adjunct Assistant Professor, Pharm.D., Michigan, 2016  
 Mikael Jones, Clinical Associate Professor, Pharm.D., Florida, 2002  
 Shelley "Mandy" Jones, Clinical Associate Professor, Pharm.D., Florida, 2002  
 Alissa Karr, Adjunct Assistant Professor, Pharm.D., Purdue, 2012  
 Kristina Karrick, Adjunct Assistant Professor, Pharm.D., Kentucky, 2014  
 Clark Kebedeaux, Clinical Associate Professor, Pharm.D., Kansas, 2010  
 Jill Kolesar, Professor, Pharm.D., Texas-San Antonio, 1994  
 Kayla Kreft, Adjunct Assistant Professor, Pharm.D., Kentucky, 2016  
 William Kuan, Adjunct Assistant Professor, Pharm.D., Rutgers, 2014  
 Robert J. Kuhn, Professor, Pharm.D., Texas at Austin, 1984  
 Johnathan Labuhn, Adjunct Assistant Professor, Pharm.D., Findlay University, 2015  
 Melanie Laine, Adjunct Assistant Professor, Pharm.D., University of Houston Central CA, 2014  
 Matthew T. Lane, Clinical Associate Professor, Pharm.D., Kentucky, 1993  
 Amber Lawson, Adjunct Assistant Professor, Pharm.D., Kentucky, 2002  
 Noelle R. Leung, Adjunct Assistant Professor, Pharm.D., Kentucky, 2009  
 Tracy Macaulay, Clinical Associate Professor, Pharm.D., South Carolina, 2003  
 Barbara L. Magnuson, Adjunct Associate Professor, Pharm.D., Kentucky, 1990  
 Craig A. Martin, Clinical Professor, Pharm.D., Kentucky, 1999  
 Emily McCleary, Adjunct Assistant Professor, Pharm.D., Florida, 2014  
 Tera McIntosh, Clinical Assistant Professor, Pharm.D., Kentucky, 2001  
 Elise Metts, Adjunct Assistant Professor, Pharm.D., Kentucky, 2013  
 Christopher M. Miller, Clinical Associate Professor, Pharm.D., Kentucky, 2003  
 Trenika R. Mitchell, Clinical Assistant Professor, Pharm.D., Mississippi, 2004  
 Daniela Moga, Associate Professor, Ph.D., M.D., Iowa, 2012  
 Rachel Morgan, Adjunct Assistant Professor, Pharm.D., Kentucky, 2014  
 Ryan Naseman, Adjunct Assistant Professor, Pharm.D., Ohio Northern, 2011  
 Melissa Nestor, Adjunct Assistant Professor, Pharm.D., Georgia, 2009  
 Doug Oyler, Adjunct Associate Professor, Pharm.D., Kentucky, 2010  
 Komal Pandya, Adjunct Assistant Professor, Pharm.D., California, 2009  
 Sara Parli, Adjunct Assistant Professor, Pharm.D., Kentucky, 2010  
 Mary M. Piascik, Professor, Ph.D., Ohio State, 1978  
 Lance Piccoro, Adjunct Assistant Professor, Pharm.D., Kentucky, 1995  
 Kenneth E. Record, Associate Professor, Pharm.D., Kentucky, 1978  
 TrisAnn Rendulic, Adjunct Assistant Professor, Pharm.D., Duquesne, 2011  
 Frank Romanelli, Professor, Pharm.D., Kentucky, 1996  
 Katie Ruf, Adjunct Assistant Professor, Pharm.D., Kentucky, 2009  
 Melody Ryan, Professor, Pharm.D., Kentucky, 1993

Ashley Schenk, Adjunct Assistant Professor, Pharm.D., Nebraska, 2015  
 Philip Schwieterman, Adjunct Assistant Professor, Pharm.D., The Ohio State University, 2008  
 Adam Sieg, Adjunct Assistant Professor, Pharm.D., South Carolina Colleges and Universities, 2011  
 Devlin Smith, Adjunct Assistant Professor, Pharm.D., Tennessee, 2016  
 Ashley Soule, Adjunct Assistant Professor, Pharm.D., Michigan, 2016  
 Tyler Stevens, Clinical Assistant Professor, Pharm.D., VCU, 2007  
 Jeffery C. Talbert, Professor, Ph.D., Texas A & M, 1995  
 Stacy Taylor, Clinical Associate Professor, Pharm.D., Kentucky, 1999  
 Melissa Thompson Bastin, Adjunct Assistant Professor, Pharm.D., South Carolina, 2001  
 Kimberly Trobaugh, Adjunct Assistant Professor, Pharm.D., Auburn, 2011  
 Cory Vela, Adjunct Assistant Professor, Pharm.D., The Ohio State University, 2014  
 Robert Walchack, Adjunct Assistant Professor, Pharm.D., Duquesne, 2016  
 Elizabeth Walker, Adjunct Assistant Professor, Pharm.D., Cincinnati, 2015  
 Katie Wallace, Adjunct Assistant Professor, Pharm.D., Purdue, 2013  
 Lindsay Wells, Adjunct Assistant Professor, Pharm.D., Mississippi, 2012

## PHARMACEUTICAL SCIENCES

Bradley D. Anderson, Professor, Ph.D., Kansas, 1978  
 Younsoo Bae, Associate Professor, Ph.D., Tokyo, 2005  
 Björn Bauer, Associate Professor, Ph.D., University of Heidelberg, 2002  
 Esther P. Black, Associate Professor, Ph.D., Florida, 1997  
 Lisa Cassis, Joint Professor, R.Ph., West Virginia; Ph.D., West Virginia, 1984  
 Joe Chappell, Professor, Ph.D., California, Santa Cruz, 1981  
 Patrick P. Deluca, Professor Emeritus, Ph.D., Temple, 1963  
 George Digenis, Professor Emeritus, Ph.D., Wisconsin, 1964  
 Linda P. Dwoskin, Professor, Ph.D., Minnesota, 1983  
 Sylvie Garneau-Tsodikova, Professor, Ph.D., Alberta, 2003  
 Gregory A. Graf, Professor, Ph.D., Kentucky, 2000  
 R. Kiplin Guy, Professor, Ph.D., Scripps Research Institute-California, 199  
 Kyung Bo Kim, Associate Professor, Ph.D., Ohio State, 1997  
 Woon Lee, Adjunct Associate Professor, Ph.D., SUNY at Buffalo, 200  
 Markos Leggas, Associate Professor, Ph.D., Tennessee-Medical, 2004  
 Robert A. Lodder, Professor, Ph.D., Indiana, 1988  
 Charles D. Loftin, Associate Professor, Ph.D., North Carolina, 1995  
 William C. Lubawy, Professor Emeritus, Ph.D., Ohio State, 1972  
 Patrick Marsac, Associate Professor, Ph.D., Purdue, 2007  
 Patrick J. McNamara, Professor, Ph.D., SUNY at Buffalo, 1979  
 Chee M. Ng, Associate Professor, Ph.D., North Carolina-Chapel Hill, 2002  
 Daniel Pack,\* Professor, Ph.D., California Institute of Technology, 1997  
 James R. Pauly, Professor, Ph.D., Marquette, 1986  
 Hui Peng, Research Assistant Professor, M.D., Tongji Medical College of Huazhong University of Science and Technology, 1992  
 Todd D. Porter, Associate Professor, Ph.D., Illinois-Chicago, 1981  
 Jurgen T. Rohr, Professor, Ph.D., University of Göttingen, 1984  
 Vitaliy Sviripa, Assistant Professor, Ph.D., National Academic of Science of Ukraine  
 Hsin-Hsiung Tai, Professor Emeritus, Ph.D., Wisconsin-Madison, 1970  
 Jon Thorson, Professor, Ph.D., Minnesota, 1993  
 Oleg Tsodikov, Associate Professor, Ph.D., Wisconsin-Madison, 1998  
 Steven Van Lanen, Professor, Ph.D., Portland State, 2003  
 Vincent Venditto, Assistant Professor, Ph.D., Texas A&M, 2009  
 Sarah Walsh, Joint Professor, Ph.D., Rutgers, 1990  
 Dave Watt, Joint Professor, Ph.D., Harvard, 1972  
 Robert A. Yokel, Professor, Ph.D., Minnesota, 1973  
 Chang-Guo Zhan, Professor, Ph.D., Notre Dame, 1998  
 Fang Zheng, Research Associate Professor, Ph.D., Huazhong University of Science and Technology, China, 1993  
 \*Joint Appointment

## COLLEGE OF PUBLIC HEALTH

Donna Arnett, Dean

Erin Abner, Associate Professor, Ph.D., Kentucky, 2013  
 Urton Anderson,\* Professor, Ph.D., Minnesota, 1985  
 Mary Anglin,\* Associate Professor, Ph.D., New School for Social Research, 1990  
 Chike Anyaegbum,\* Associate Professor, Ph.D., Iowa, 1994  
 Donna K. Arnett, Professor, Ph.D., North Carolina, 1992  
 Paula Arnett, Assistant Professor, Dr.P.H., Kentucky, 2011  
 Henrietta Bada-Elizey,\* Professor, M.D., Santo Tomas, 1969  
 Shoshana Bardach, Research Assistant Professor, Ph.D., Kentucky, 2013  
 Joseph Benitez, Assistant Professor, Ph.D., Illinois-Chicago, 2015  
 Tyrone Borders, Professor, Ph.D., Iowa, 1999

Sabrina Brown, Associate Professor, Dr.P.H., Kentucky, 2008  
 Steven R. Browning, Associate Professor, Ph.D., North Carolina, 1994  
 Terry Bunn, Professor, Ph.D., Cornell, 2001  
 Heather Bush, Professor, Ph.D., Kentucky, 2006  
 Eli Capilouto, Professor, Ph.D., Harvard, 1991  
 Kathryn Cardarelli, Associate Professor, Ph.D., Texas, 2004  
 Roberto Cardarelli,\* Professor, D.O., North Texas, 2001  
 Angela Carman, Assistant Professor, Dr.P.H., Kentucky, 2012  
 Craig Carter,\* Professor, Ph.D., Texas A&M, 1993  
 Richard J. Charnigo, Professor, Ph.D., Case Western, 2003  
 Li Chen, Associate Professor, Ph.D., North Carolina, 2009  
 Radmila Choate, Assistant Professor, Ph.D., Kentucky, 2019  
 W. Jay Christian, Assistant Professor, Ph.D., Kentucky, 2013  
 Richard R. Clayton, Professor Emeritus, Ph.D., Tennessee, 1972  
 Tommy Collins, Instructor, B.A., Alice Lloyd, 1988  
 Julia F. Costich, Professor, J.D., Kentucky, 1993  
 Anita Courtney, Instructor, M.S., Kentucky, 1991  
 Sarah Cprek, Lecturer, M.P.H., Kentucky, 2014  
 Richard A. Crosby, Professor, Ph.D., Indiana, 1998  
 Jennifer Daddysman, Instructor, M.S., Kentucky, 2014  
 Paul Dassow,\* Assistant Professor, M.D., Washington, 1990  
 Angela Dearing,\* Assistant Professor, M.D., Kentucky, 2001  
 Mark Dignan,\* Professor, Ph.D., Tennessee, 1977  
 Michael Dobbs,\* Assistant Professor, M.D., Kentucky, 1998  
 David Fardo, Associate Professor, Ph.D., Harvard, 2008  
 Steven T. Fleming, Professor, Ph.D., Michigan, 1989  
 Charles H. Griffith,\* Professor, M.D., Vanderbilt, 1988  
 Ellen J. Hahn,\* Professor, D.N.S., Indiana, 1992  
 Kathi Harp, Assistant Professor, Ph.D., Kentucky, 2013  
 Nancy Harrington,\* Professor, Ph.D., Kentucky, 1992  
 Jennifer Havens\*, Assistant Professor, Ph.D., 2004; M.P.H. 2001, Johns Hopkins  
 Erin Haynes, Professor, Dr.P.H., Michigan-Ann Arbor, 2002  
 James Holsinger Jr., Professor Emeritus, Ph.D., Duke, 1968  
 Anna Hoover, Assistant Professor, Ph.D., Kentucky, 2012  
 Bin Huang, Associate Professor, Dr.P.H., Kentucky, 2009  
 Elizabeth Hunter, Assistant Professor, Ph.D., Kentucky, 2005  
 Richard Ingram, Associate Professor, Dr.P.H., Kentucky  
 Meghan Johnson, Instructor, M.P.H., Kentucky, 2016  
 Nancy Johnson, Assistant Professor (part-time), Dr.P.H., Kentucky, 2005  
 Tisha K. Johnson, Assistant Professor, M.D., Ohio 2002; M.P.H., Kentucky, 2013  
 Yuriko Katsumata, Assistant Professor, Ph.D., Kentucky, 2018  
 Marc Kiviniemi, Professor, Ph.D., Minnesota, 2001  
 Keith Knapp, Associate Professor, Ph.D., Kentucky, 2005  
 Jennifer Knight, Assistant Professor, Dr.P.H., Kentucky, 2010  
 Aaron Kruse-Diehr, Assistant Professor, Ph.D., Toledo, 2015  
 Anna Kucharska-Newton, Associate Professor, Ph.D., Rush, 1987  
 Joel M. Lee, Professor Emeritus, Dr.P.H., Texas, 1979  
 Mary (Beth) Leigh, Assistant Professor, Ph.D., Brown, 2018  
 Carl Leukefeld,\* Professor, D.S.W., Catholic University of America, 1975  
 Ellen Lycan, Assistant Professor (part-time), Dr.P.H., Kentucky, 2015  
 John Lyons, Professor, Ph.D., Chicago, 1982  
 David Mannino, Professor (part-time), M.D., Thomas Jefferson, 1981  
 Kristen Mark,\* Assistant Professor, Ph.D., Indiana, 2012  
 Samuel Matheny,\* Professor, M.D., Kentucky, 1963  
 Jaclyn McDowell, Assistant Professor, Dr.P.H., Kentucky, 2015  
 M. Raynor Mullins, Professor (Post-retirement), D.M.D., Kentucky, 1968  
 David Nash,\* Professor, Ed.D., West Virginia, 1984  
 Melody Noland,\* Professor, Ph.D., Maryland, 1981  
 Kim Northrip,\* Assistant Professor, M.D., Medical College of Virginia, 2001  
 Kevin A. Pearce,\* Professor, M.D., Florida, 1983  
 Rafael Perez-Figueroa, Assistant Professor, M.D., Catholic University (Dominican Republic)  
 Barbara A. Phillips,\* Professor, M.D., Kentucky, 1977  
 Susan Pollack,\* Assistant Professor, M.D., East Virginia, 1984  
 Caitlin Pope, Assistant Professor, Ph.D., Alabama-Birmingham, 2017  
 Timothy Scott Prince, Associate Professor, M.D., Emory, 1986  
 Ted P. Raybould,\* Professor, D.M.D., Kentucky, 1981; G.P.R., Kentucky, 1985  
 Mary K. Rayens,\* Professor, Ph.D., Kentucky, 1993  
 Deborah B. Reed,\* Professor, Ph.D., Kentucky, 1996  
 Martha Riddell, Associate Professor, Dr.P.H., Kentucky, 1999  
 Graham D. Rowles, Professor Emeritus, Ph.D., Clark, 1976  
 Thomas W. Samuel, Professor Emeritus, J.D., Tennessee, 1976  
 Wayne Sanderson, Professor, Ph.D., North Carolina, 1997  
 Nancy E. Schoenberg,\* Professor, Ph.D., Texas-Austin  
 F. Douglas Scutchfield, Professor Emeritus, M.D., Kentucky, 1966  
 Brent J. Shelton, Professor, Ph.D., North Carolina, 1998

Emily Slade, Assistant Professor, Ph.D., Harvard, 2018  
 Svetla Slavova, Associate Professor, Ph.D., Kentucky, 2008  
 Min-Woong Sohn, Professor, Ph.D., Chicago, 1996  
 Susan E. Spengler, Associate Professor, M.D., Medical College of PA, 1991  
 Christina Studts, Associate Professor, Ph.D., Louisville, 2008  
 Mark Swanson, Associate Professor, Ph.D., Florida, 2001  
 Jeffrey Talbert\*, Associate Professor, Ph.D., Texas A&M, 1995  
 Thomas C. Tucker, Professor, M.P.H., Michigan, 1982; Ph.D., Kentucky, 2001  
 Kimberly Tumlin, Assistant Professor, Ph.D., Kentucky, 2004  
 Olga Vsevolozhskaya, Assistant Professor, Ph.D., Montana State, 2013  
 Sarah Wackerbarth, Associate Professor, Ph.D., Wisconsin, 1997  
 Chi Wang, Associate Professor, Ph.D., Johns Hopkins, 2009  
 John Watkins, Professor, Ph.D., Colorado, 1986  
 Heidi Weiss\*, Professor, Ph.D., South Carolina, 1993  
 Philip Westgate, Associate Professor, Ph.D., Michigan-Ann Arbor, 2011  
 Corinne Williams, Associate Professor, Sc.D., Harvard School of Public Health, 2006  
 Mark Williams\*, Professor, M.D., Emory, 1985  
 Jason (Eric) Wilson, Instructor, M.S., Texas A&M, 2005  
 Kathleen Winter, Ph.D., California-Berkeley, 2016  
 April Young, Associate Professor, Ph.D., Emory, 2013  
 James Zembrodt, Instructor, M.B.A., Kentucky, 1982  
 \*Joint Appointment

## COLLEGE OF SOCIAL WORK

Justin "Jay" Miller, Dean

Karen Badger, Associate Professor, Ph.D., Kentucky, 2005  
 Sheila Barnhart, Assistant Professor, Ph.D., Ohio State, 2017  
 Kalea Benner, Associate Professor, Ph.D., Missouri, 2009  
 Sarabeth Biermann, Lecturer, Ph.D., Kentucky, 2012  
 Julie Cerel, Professor, Ph.D., Ohio State, 2001  
 Chris Flaherty, Associate Professor, Ph.D., Tennessee, Knoxville, 2001  
 Janet P. Ford, Associate Professor, Ph.D., Case Western Reserve, 1986  
 Allison Gibson, Assistant Professor, Ph.D., Ohio State, 2014  
 Jarod Giger, Associate Professor, Ph.D., Missouri, 2010  
 Blake Jones, Lecturer, Ph.D., Kentucky 2004  
 Karen Lawrence, Assistant Professor, Ph.D., Washington University, 2012  
 Diane Loeffler, Senior Lecturer, Ph.D., Kentucky, 2006  
 Erin Mayhorn, Clinical Instructor, M.S.W., Louisville, 2006  
 Sheila Miracle, Clinical Instructor, M.S.W., Louisville, 2014  
 Justin Miller, Associate Professor, Ph.D., Louisville, 2013  
 Melanie D. Otis, Professor, Ph.D., Kentucky, 1999  
 Natalie Pope, Associate Professor, Ph.D., Georgia, 2010  
 Stephanie Ratliff, Clinical Instructor, M.S.W., Kentucky, 1997  
 David D. Royse, Professor, Ph.D., Ohio State, 1980  
 Donald Schuman, Lecturer, Ph.D., Oklahoma, 2012  
 Donna Schuman, Assistant Professor, Ph.D., Texas-Arlington, 2017  
 Melissa Slone, Clinical Instructor, M.S.W., Kentucky, 2008  
 Pamela L. Weeks, Clinical Associate Professor, J.D., Kentucky, 1989  
 Melissa D. Whitaker, Clinical Instructor, M.S.W., Kentucky, 2010

## THE GRADUATE SCHOOL

Brian Jackson, Interim Dean

### JAMES W. MARTIN SCHOOL OF PUBLIC POLICY AND ADMINISTRATION

Merlin M. Hackbart, Interim Director

Philip K. Berger, Professor Emeritus, Ph.D., Texas Christian, 1969  
 Jack Blanton,\*\* Adjunct Professor, Ed.D., Kentucky  
 Glenn C. Blomquist,\* Endowed Chair, Ph.D., Chicago, 1977  
 Karen Blumenschein,\* Associate Professor, Ph.D., Kentucky, 1991  
 J.S. Butler, Professor, Ph.D., Cornell, 1982  
 Mike Clark,\*\* Adjunct Professor, Ph.D.  
 Dwight Denison, Professor, Ph.D., Kentucky, 1997  
 Joseph L. Fink III,\* Professor, J.D., Georgetown, 1973  
 Richard C. Fording,\* Associate Professor, Ph.D., Florida State, 1997  
 David Freshwater,\* Professor, Ph.D., Michigan State, 1977  
 Bryan Gibson,\*\* Lecturer, Ph.D., Kentucky, 2013.  
 Donald Gross,\* Professor, Ph.D., Iowa, 1976  
 Merlin M. Hackbart,\* Professor, Ph.D., Kansas State, 1968  
 Greg Hager,\*\* Adjunct Professor, Ph.D., North Carolina-Chapel Hill, 1995

David Hamilton,\* Associate Professor, Ph.D., Iowa, 1985.  
 David Hulse,\* Endowed Chair, Ph.D., Pennsylvania State, 1992  
 William Hoyt,\* Professor, Ph.D., Wisconsin, 1986  
 Edward T. Jennings, Jr., Professor, Ph.D., Washington-St. Louis, 1977  
 Doo-Oak Kim, Lecturer, Ph.D., Hanyang University, 1992.  
 Mark Peffley,\* Professor, Ph.D., Minnesota, 1984  
 Nicolai Petrovsky, Assistant Professor, Ph.D., Texas A&M, 2009  
 Margaret Plattner, Adjunct Faculty Instructor, J.D., Northern Kentucky  
 Annelise Russell, Assistant Professor, Ph.D., Texas, 2018  
 Keith Schnackenberg, Assistant Professor, Ph.D.  
 Jeffrey C. Talbert,\* Associate Professor, Texas A&M, 1995  
 John Thelin\* Professor, Ph.D., California, 1973.  
 Eugenia F. Toma, Endowed Chair, Ph.D., Virginia Polytechnic Institute, 1977  
 Richard Waterman,\* Professor, Ph.D., Houston, 1986  
 David Wildasin, Endowed Chair, Ph.D., Iowa, 1976  
 Virginia C. Wilson,\*\* Adjunct Professor, Ph.D., Kentucky, 1993  
 Aaron Yelowitz,\* Associate Professor, Massachusetts Institute of Technology, 1994  
 James Ziliak,\* Endowed Chair, Ph.D., Indiana

\*Joint Appointment

\*\*Adjunct Appointment

## GERONTOLOGY

Graham Rowles, Director

David T. R. Berry,\* Professor, Ph.D., Florida, 1985  
 Lee X. Blonder,\* Professor, Ph.D., Pennsylvania, 1986  
 Subbarao Bondada,\* Professor, Ph.D., Bombay, 1976  
 Linda H. Chen,\* Professor, Ph.D., Louisville, 1964  
 Moon Choi,\* Assistant Professor, Ph.D., Case Western Reserve, 2010  
 Deborah D. Danner,\* Research Assistant Professor, Ph.D., Kentucky, 1993  
 Steven Estus, Associate Professor, Ph.D., Case Western, 1989  
 James W. Geddes,\* Professor, Ph.D., University of Saskatchewan, 1984  
 Lawrence Gottlob, Associate Professor, Arizona State, 1995  
 Anne L. Harrison,\* Associate Professor, Ph.D., Kentucky, 2002  
 Robert G. Henry,\* Associate Professor, D.M.D., Kentucky, 1981  
 Karin N. Westlund High,\* Professor, Ph.D., University of Texas Medical Branch, 1981  
 Amy F. Hosier, Assistant Professor, Ph.D., Kentucky, 2006  
 Beth Hunter, Assistant Professor, Ph.D., OTR/L, Kentucky, 2005  
 Yang Jiang, Assistant Professor, Ph.D., Miami, 1995  
 Hyungsoo Kim, Associate Professor, Ph.D., Kyotou University, Japan, 2000  
 Chris Norris, Associate Professor, Ph.D., Virginia, 1998  
 L. Creed Pettigrew,\* Associate Professor, M.D., Texas-Galveston, 1980  
 Graham D. Rowles, Professor, Ph.D., Clark, 1976  
 Hiroshi Saito,\* Associate Professor, Ph.D., University of Tokyo, Japan, 1987  
 Stephen W. Scheff,\* Professor, Ph.D., Missouri, 1974  
 Frederick A. Schmitt,\* Professor, Ph.D., Akron, 1982  
 Nancy E. Schoenberg,\* Professor, Ph.D., Florida, 1994  
 Mitzi M. Schumacher,\* Professor, Ph.D., Ohio, 1986  
 Charles D. Smith,\* Associate Professor, M.D., Tulane, 1979  
 Michael Smith,\* Adjunct Assistant Professor, Ph.D., Loyola, 1978  
 Nikiphoros Stamatiadis,\* Professor, Ph.D., Michigan State, 1990  
 Joseph Stemple, Professor, Ph.D., Cincinnati, 1977  
 Nancy J. Stiles,\* Associate Professor, M.D., Texas, 1986  
 Sarah Wackerbarth,\* Associate Professor, Ph.D., Wisconsin, 1997  
 John F. Watkins, Professor, Ph.D., Colorado, 1986  
 Elaine M. Wittenberg-Lyles,\* Associate Professor, Ph.D., Oklahoma, 2004

\*Joint Appointment

## PATTERSON SCHOOL OF DIPLOMACY AND INTERNATIONAL COMMERCE

Kathleen T. Montgomery, Interim Director

Michael Cairo, Adjunct Professor, Ph.D., Virginia, 1999  
 Carey Cavanaugh, Professor, M.A., Notre Dame, 1980  
 John E. Charalambakis, Adjunct Professor, Ph.D., East London, 1994  
 Robert Farley, Senior Lecturer, Ph.D., Washington, 2004  
 Gregory O. Hall, Associate Professor, Ph.D., Howard, 1993  
 George Herring, Professor Emeritus, Ph.D., Virginia, 1965  
 Karen Mingst, Professor Emeritus, Ph.D., Wisconsin, 1974  
 Kathleen Montgomery, Associate Professor, Ph.D., Penn State, 1998  
 Ying Juan Rogers, Adjunct Professor, M.A., Kentucky 1992  
 Michael Stanaitis, Adjunct Professor, Ph.D., American University, 2017  
 John Stempel, Professor Emeritus, Ph.D., California-Berkeley, 1965  
 Max Wise, Adjunct Professor, M.A., Kentucky, 1999

**Associated Faculty**

James C. Albisetti, Department of History  
 Horace Bartilow, Department of Political Science  
 Emily Beaulieu, Department of Political Science  
 Francie Chassen-Lopez, Department of History  
 Abby Cordova, Department of Political Science  
 Anastasia Curwood, Department of History  
 Dwight Denison, Martin School of Public Administration  
 Wally Ferrier, School of Management  
 John Garen, Department of Economics  
 Beth Goldstein, College of Education  
 Gordon Holbein, School of Management  
 Claudia Hopenhayn, College of Public Health  
 Hsain Ilahiane, Department of Anthropology  
 Jane Jensen, College of Education  
 Mark Kightlinger, College of Law  
 Francis Musoni, Department of History  
 Karen Petrone, Department of History  
 Nikolai Petrovsky, Martin School of Public Administration  
 Michael Reed, Department of Agricultural Economics  
 Steve Vasek, College of Law

**UNIVERSITY OF KENTUCKY LIBRARIES****Doug Way, Dean**

Robert Aken, Librarian I, M.A., Kentucky, 1979; M.S.L.S., Kentucky, 1983  
 Stephanie Aken, Librarian I Emerita, M.S.L.S., Kentucky, 1975  
 Bernadette Baldini, Librarian I Emerita, M.S.L.S., Kentucky, 1974  
 Colleen Barrett, Librarian IV, M.L.S., Indiana, 2014  
 Jennifer A. Bartlett, Librarian II, M.L.S., Indiana, 1994; M.A., Murray State, 2007  
 James Birchfield, Librarian I Emeritus, Ph.D., Florida State, 1976; M.S.L.S., Florida State, 1977

 Laura Whayne, Librarian I Emerita, M.L.S., Denver, 1978; M.A., Kansas, 1989  
 Paul Willis, Librarian I Emeritus, M.L.S., Maryland, 1966; J.D., Kentucky, 1969  
 Patricia Wilson, Librarian I Emerita, M.S.L.S., Kentucky, 1988  
 Judith Wiza, Librarian I Emerita, M.A.L.S., Wisconsin-Madison, 1977; M.A., Wisconsin-Madison, 1978

**COLLEGE OF LAW LIBRARY**

Patricia Alvaay, Senior Library Manager, M.L.I.S., Syracuse University School of Information, 2010  
 Charlie Amiot, Librarian IV, J.D., Texas A&M; M.L.I.S., Washington, 2018  
 Tina M. Brooks, Librarian II, J.D. Nebraska, 2009; M.S.I.S., Texas-Austin, 2011  
 James M. Donovan, Director and Associate Professor of Law, Ph.D., Tulane, 1994; J.D., Loyola University New Orleans, 2003; M.L.I.S., Louisiana State, 1989  
 Sarah A. Lewis, Librarian III, J.D., Vanderbilt, 1998; M.L.I.S., Kent State, 2016  
 Nicole Reynolds, Senior Library Manager, M.L.S., Kentucky, 2017  
 Beau B. Steenken, Librarian II, J.D., Texas at Austin, 2003; M.S.I.S., Texas-Austin, 2010

# Course Descriptions

## A&S Arts and Sciences

### A&S 100 SPECIAL INTRODUCTORY COURSE:

#### TITLE TO BE ASSIGNED. (1-6)

This course permits the offering at the introductory level of special courses of an interdisciplinary, topical, or experimental nature. Each proposal must be approved by the Dean of the College of Arts and Sciences. A particular title may be offered at most three times under the A&S 100 number. Students may not repeat under the same title. May be repeated to a maximum of 12 credits. Prereq: Will be set by instructor.

### A&S 101 SPECIAL INTRODUCTORY COURSE:

#### TITLE TO BE ASSIGNED. (1-6)

This course permits the offering at the introductory level of special courses of an interdisciplinary, topical or experimental nature. Each proposal must be approved by the Dean of the College of Arts and Sciences. A particular title may be offered at most twice under the A&S 101 number. Students may not repeat under the same title. Offered pass/fail only. May be repeated to a maximum of 12 credits. Prereq: Will be set by instructor.

### A&S 103 BASIC INSTRUCTION IN LESS COMMONLY

#### TAUGHT LANGUAGES I (Subtitle required). (3-5)

This course provides elementary language instruction with an emphasis upon the spoken language of everyday use where appropriate. Writing and the elements of grammar are gradually introduced. Students may not repeat this course under the same subtitle. Prereq: Will be set by instructor.

### A&S 104 BASIC INSTRUCTION IN LESS COMMONLY

#### TAUGHT LANGUAGES II (Subtitle required). (3-5)

A continuation of A&S 103. Students may not repeat this course under the same subtitle. Prereq: A&S 103.

### A&S 110-A&S 119 SPECIAL INTRODUCTORY COURSE

#### IN THE HUMANITIES (Subtitle required) (1-6)

An introductory course of an interdisciplinary, topical, or experimental nature which may be used toward partial fulfillment of the Humanities requirement in the College of Arts and Sciences. Each pilot or experimental course must be approved by the department chair and by the Dean of the College of Arts and Sciences; a particular title may be offered no more than three times under this course number. Open to all university students, subject to controlled enrollment or prerequisites as set by the instructor. May be repeated under different subtitles up to 12 SCH.

### A&S 120-A&S 129 SPECIAL INTRODUCTORY COURSE IN THE NATURAL, PHYSICAL, OR MATHEMATICAL SCIENCES

#### (Subtitle required) (1-6)

An introductory course of an interdisciplinary, topical, or experimental nature which may be used toward partial fulfillment of the Natural, Physical, or Mathematical Sciences requirement in the College of Arts and Sciences. Each pilot or experimental course must be approved by the department chair and by the Dean of the College of Arts and Sciences; a particular title may be offered no more than three times under this course number. Open to all university students, subject to controlled enrollment or prerequisites as set by the instructor. May be repeated under different subtitles up to 12 SCH.

### A&S 130-A&S 139 SPECIAL INTRODUCTORY COURSE

#### IN THE SOCIAL SCIENCES (Subtitle required) (1-6)

An introductory course of an interdisciplinary, topical, or experimental nature which may be used toward partial fulfillment of the Social Sciences requirement in the College of Arts and Sciences. Each pilot or experimental course must be approved by the department chair and by the Dean of the College of Arts and Sciences; a particular title may be offered no more than three times under this course number. Open to all university students, subject to controlled enrollment or prerequisites as set by the instructor. May be repeated under different subtitles up to 12 SCH.

### A&S 140 FOCUS: CONNECT AND RECOVER. (2)

This course is designed to assist students in preparation for the continuing academic rigors of coursework in the College of Arts and Sciences majors. Through lectures, discussions, exercises, and out-of-class assignments, A&S 140: FOCUS: Connect and Recover will enable students to actively develop and maintain skill sets and study habits based on current educational practices and research linked to increased degree completion. Thematic activities will focus on personal and professional development; goal-setting; taking action; developing relationships with students, professors, and advisors; skill development; time management; and discovering and learning how to use college and university based support resources. Prereq: Permission of instructor.

### A&S 141 ASPIRE: ACADEMICALLY SOUND PREPARATION FOR INVOLVED RESEARCH EDUCATION. (3)

This course is designed to assist students in transitioning into majors in the College of Arts and Sciences with a focus on a deeper understanding of research and liberal arts education at a tier 1 research institution. Through lectures, discussions, exercises, and out-of-class assignments, A&S 141 will enable students to actively develop and maintain skill sets and information relevant to their major and planned career path while also emphasizing the interdisciplinary nature of college learning. Prereq: A&S Major; acceptance to Academic Preparation Program.

### A&S 150 YOUR CAREER AND ACADEMIC JOURNEY. (2)

This course simplifies the complex process of choosing a major by leading students through personal, academic and occupational information searches. It offers a natural progression for decision making by using thought-provoking self-exploratory activities. Whether choosing or changing a major, the discovery process examines different perspectives, such as relating interests, skills and values to academic fields of study. Once specific academic alternatives are identified, a search of occupational information helps students examine the career possibilities that specifically relate to the majors they are considering.

### A&S 160 LEADERSHIP AND PROFESSIONAL DEVELOPMENT

#### (Subtitle required). (1)

This course is designed to assist students in developing the tools they need to be successful in their student leadership positions in the College of Arts & Sciences. May be repeated to a maximum of eight credits. Prereq: Acceptance into A&S Ambassador Program, A&S Mentor Program, A&S leadership program, or consent of instructor.

### A&S 203 INTERMEDIATE INSTRUCTION IN LESS COMMONLY

#### TAUGHT LANGUAGES I (Subtitle required). (3-5)

This course provides intermediate instruction in a less commonly taught language. Development of speaking, listening, reading, and writing skills, as appropriate, will be stressed. Students may not repeat this course under the same subtitle. Prereq: A&S 104 in the same language or permission of instructor.

### A&S 300 SPECIAL COURSE (Subtitle required). (1-6)

Interdisciplinary, topical or experimental courses to be approved by the Dean of the College of Arts and Sciences. A particular course may be offered at most three times under the A&S 300 number, and no A&S 300 course may be given for more than six credits per semester. Open to all University students, subject to such limits or prerequisites as set by the instructor. May be repeated to a maximum of 12 credit hours under different subtitles.

### \*A&S 306 SPIRIT CHEMISTRY. (3)

In this course, students will explore the production of distilled spirits. The production of distilled spirits involves three basic steps: selection and processing of a carbohydrate (starch or sugar), fermentation of the carbohydrate to produce ethanol and distillation of the ethanol. In these processes, substances are produced and concentrated in the ethanol that create the unique flavors and fragrances associated with the individual spirit. Seven distilled spirits (moonshine, vodka, gin, rum, tequila, bourbon and scotch) will be discussed in detail. Prereq: Credit hours sufficient to be considered a junior or permission of the instructor. All students must be a minimum of 21 years of age prior to registering for the course.

### A&S 310-A&S 319 SPECIAL COURSE IN HUMANITIES

#### (Subtitle required). (1-6)

An interdisciplinary, topical, or experimental course which may be used toward partial fulfillment of the Humanities requirement in the College of Arts and Sciences. Each pilot or experimental course must be approved by the department chair and by the Dean of the College of Arts and Sciences; a particular title may be offered no more than three times under this course number. Open to all university students, subject to controlled enrollment or prerequisites as set by the instructor. May be repeated under different subtitles up to 12 SCH.

### A&S 320-A&S 329 SPECIAL COURSE IN NATURAL, PHYSICAL, OR MATHEMATICAL SCIENCES

#### (Subtitle required). (1-6)

An interdisciplinary, topical, or experimental course which may be used toward partial fulfillment of the Natural, Physical, or Mathematical Sciences requirement in the College of Arts and Sciences. Each pilot or experimental course must be approved by the department chair and by the Dean of the College of Arts and Sciences; a particular title may be offered no more than three times under this course number. Open to all university students, subject to controlled enrollment or prerequisites as set by the instructor. May be repeated under different subtitles up to 12 SCH.

**A&S 330-A&S 339 SPECIAL COURSE IN SOCIAL SCIENCES (Subtitle required). (1-6)**

An interdisciplinary, topical, or experimental course which may be used toward partial fulfillment of the Social Sciences requirement in the College of Arts and Sciences. Each pilot or experimental course must be approved by the department chair and by the Dean of the College of Arts and Sciences; a particular title may be offered no more than three times under this course number. Open to all university students, subject to controlled enrollment or prerequisites as set by the instructor. May be repeated under different subtitles up to 12 SCH.

**A&S 350 PERSONAL STRENGTHS AND YOUR CAREER DEVELOPMENT. (3)**

This course is designed to introduce students to the fundamentals of planning and organizing career development strategies. Emphasis is placed on identification of individual goals, assessment of talents/strengths and values, exploration of career options, analysis of the job market, effective use of employment search tools (e.g., résumés, cover letters, and interviewing), and management of career pathways. Stresses the value of the arts and sciences degree in the labor market and develops job search skills that will be useful throughout life. Prereq: Sophomore standing (30+ credits) or higher.

**#A&S 420 ADVANCED WRITING AND RESEARCH FOR THE SOCIAL SCIENCES. (3)**

This course will provide students with an opportunity to gain research experience drawing on the methods used in the social sciences. Students will be exposed to the process of research and writing used by social scientists. Student will identify and evaluate previous research, identify a topic of interest for research, conduct a literature review and create a research proposal for an original research project. Prereq: Bachelor of Liberal Studies major, or permission of instructor.

**#A&S 430 ADVANCED WRITING AND RESEARCH IN THE HUMANITIES. (3)**

A&S 430, Advanced Writing and Research in the Humanities, is a common capstone experience for students completing the Bachelor of Liberal Studies degree. It is designed to provide an opportunity for majors to gain research experience, as well as to allow them to explore various content areas and scholarly approaches represented in the humanities so as to enhance their understanding of the value of work across disciplines. In addition, the course facilitates student completion of a portfolio highlighting the common thread(s) of their coursework during their time at UK. This is a Graduation Communication and Composition Requirement (GCCR) course. Prereq: Bachelor of Liberal Studies major status or permission of instructor.

**A&S 500 SPECIAL COURSE (Subtitle required). (1-6)**

Interdisciplinary, topical, or experimental courses to be approved by the Dean of the College of Arts and Sciences and the Dean of the Graduate School. A particular course may be offered at most three times under the A&S 500 number. Open to all university students, subject to such limitations or prerequisites as set by the instructor. May be repeated to a maximum of six credits under different subtitles. Prereq: As specified by the instructor.

**#A&S 600 PERSPECTIVES ON DIVERSITY AND INCLUSION. (3)**

This 8-week course introduces students to meanings, practices, and theories connected to diversity and inclusion, and the implications of these within an increasingly interconnected world. The course approaches diversity and inclusion as central to professional and societal well-being and success. Students will critically examine the ways in which power, privilege, oppression, diversity, and inclusion inform everyday lives, organizations, institutions, and societies. Students will engage with multiple perspectives on human differences through multidisciplinary lenses to increase their awareness and understanding of the varied ways in which social identities and cultural beliefs inform social and professional settings on an individual basis and systemically. Prereq: Admission to an Online Graduate Certificate or MA program in the College of Arts and Sciences or consent of instructor.

**A-E Art Education****A-E 120 PATHWAYS TO CREATIVITY IN THE VISUAL ARTS. (3)**

Students will be challenged to think creatively, expand cognitive development, perception, self-expression, and sensory awareness through research and rich studio experiences. Aesthetic knowledge and skills will provide students with a pathway to learning in art that integrates prior knowledge with new experiences which enhance creative learning through discovery, discussion, and collaboration.

**A-E 200 WORKSHOP IN DESIGN EDUCATION FOR ELEMENTARY TEACHERS. (3)**

A lecture-laboratory course that explores and analyzes concepts in the visual arts and examines how these concepts might be used to improve and enhance learning opportunities in the visual arts and in various disciplines for elementary students.

**A-E 300 INTRODUCTION TO ART EDUCATION. (3)**

This course provides an introduction to the art teaching profession with particular emphases on developing the creative, critical, collaborative, and communicative skills that are required in art teaching situations. Opportunities to gain skills will be provided through participation in group-generated projects and leadership activities. Students will engage in personal reflection and critical analysis of the teaching/learning process through journal-keeping, teacher portfolio development and creative research.

**A-E 362 FIELD EXPERIENCES IN ART EDUCATION. (1-3)**

A-E 362 is the first course in the Art Education professional education sequence. It gives the art education candidate the opportunity for a variety of planned experiences in the schools and other educational and community settings. Candidates will learn to identify standards and unbridled learning tools in school settings, and will develop a variety of products to demonstrate Art Education learning outcomes. 64 field experience hours are required for A-E 362. Prereq: Admission to the Teacher Education Program (TEP).

**A-E 395 INDEPENDENT WORK: ART EDUCATION. (1-3)**

Supervised individual research, practicum, and field experience leading to the development of art education curriculum theory, and teaching techniques appropriate for various populations and conditions. A learning contract will be submitted to both the department and to the office of the dean at the time of registration. May be repeated to a maximum of six credits. Prereq: Major and consent of instructor.

**A-E 399 EXPERIENTIAL EDUCATION. (1-15)**

Development of personally motivated and planned projects and internships in art education and interdisciplinary program activities outside the academic classroom experience, encompassing recreation, general education, adult education, special education, state programs, and group field experiences and workshops. May be repeated to a maximum of 15 credits. (Approval of Fine Arts dean required for more than six credits per semester.) Prereq: Recommendation of art faculty member and department chairman; completion of departmental learning agreement.

**A-E 515 INTRODUCTION TO ART THERAPY. (3)**

An examination of various historical and contemporary conceptions of the therapeutic function and value of art from an art education perspective. The impact of art experience on emotional, intellectual and behavioral development and/or rehabilitation will be explored through readings, discussions, guest lectures, and lab experiences. Lecture, two hours per week; laboratory, two hours per week. Prereq: PSY 331 and major or consent of instructor.

**A-E 538 ADVANCED ARTS AND CRAFTS IN THE ELEMENTARY SCHOOL. (3)**

Planned to give the elementary teacher an understanding of teaching methods involved in, and construction of, art activities which would enrich the classroom program.

**A-E 545 TOPICAL STUDIES IN ART EDUCATION (Subtitle required). (3)**

Intensive study and analysis of a designated topic, issue or development in the philosophy, history, or methodology of art education in community and public school settings. May be repeated to a maximum of six credits. Prereq: Art education major or consent of the instructor.

**A-E 550 COMMUNITY ART EDUCATION. (3)**

An examination of community arts organizations and the role they play in identifying and interpreting the diverse artistic make-up of the community. The course will provide students with the tools to define, locate, and research community organizations as potential sites for art programming.

**A-E 560 MUSEUM EDUCATION. (3)**

An examination of educational techniques and practices of learning in a museum setting. The course will focus on educational theories, learning styles and techniques, audiences, educational materials and outreach strategies that will prepare students for successful professional careers in museum education.

**A-E 576 ART IN MIDDLE SCHOOLS. (3)**

Centering on the study of perceptual and aesthetic development of middle school adolescents, this course provides field and practicum experiences that utilize methods and materials appropriate to the teaching of art in the middle school. Topics include: curriculum design, lesson planning, teaching skills, classroom safety and assessment. Lecture, demonstrations, micro-teaching, laboratory and studio experiences are integrated into the class design. Prereq: Major in art education, admission to the Teacher Education Program (TEP), or consent of instructor.

**A-E 577 ART IN SECONDARY SCHOOLS. (3)**

This course provides students with an overview of the secondary school in American education and explores the history, theory, techniques and contemporary issues of teaching art in the secondary schools. Skills in the planning of multicultural activities and the teaching and evaluation of secondary art experiences are stressed. Full class instruction, video, micro-teaching, laboratory and studio experiences are incorporated into class design. Prereq: Major in art education, admission to the Teacher Education Program (TEP).

**A-E 578 ART IN ELEMENTARY SCHOOLS. (3)**

Focusing on the study of perceptual and aesthetic development of elementary age children, this course provides field and practicum experiences that utilize methods and materials appropriate to the teaching of art in the elementary school. Topics include: curriculum design, lesson planning, teaching skills, classroom safety and assessment. Lecture, demonstrations, micro-teaching, laboratory and studio experiences are integrated into the class design. Prereq: Major in art education, admission to the Teacher Education Program (TEP).

**A-E 579 ARTS AND HUMANITIES IN ART EDUCATION. (3)**

Inquiry into the relationship of current philosophies of art education and aesthetics; a consolidation of art education ideas with a formation of criteria for making value judgments; the development of a personal viewpoint consistent with education and art as humanistic endeavors. Prereq: Major in art education, admission to the Teacher Education Program (TEP).

**A-E 645 TOPICAL RESEARCH IN ART EDUCATION**

**(Subtitle required)** (3)  
Advanced study and research of a designated topic, issue, or development in the philosophy, history, or methodology of art education in community and public school settings. May be repeated for a maximum of nine credits. Prereq: Graduate standing in department.

**A-E 665 ISSUES IN ART EDUCATION.**

(3)  
This course is built within the context of the Advanced Preparation Programs in Teacher Leader Programs in Art Education. Each week one or two topics representing issues facing the arts in K - 12 education will be assigned to candidates. Selected candidates are expected to research these topics and post their thoughts on them on blackboard. Fellow candidates are expected to research the topics as well and provide cogent responses to the postings of the selected candidates. The class meets once per week through adobe connect for examination and analysis of the assigned topics. Prereq: Candidates must be enrolled in one of the Advanced Teacher Leader Programs in Art Education to take this course or by instructor permission.

**A-E 670 SCHOOL AND COMMUNITY ART.**

(3)  
Analysis of the social function of art; organization of school and community related programs in art; case studies of existing programs. Field experience, educational involvement. Lectures and demonstrations. Prereq: Major in Art Education or consent of instructor.

**A-E 675 AESTHETICS AND DESIGN.**

(3)  
Aesthetics and Design focuses on advancing aesthetic awareness, developing an understanding of the principles of visual design, and the application of aesthetic design to human-computer interaction in order to integrate an artistic approach to the examination of technological innovation.

**A-E 680 HISTORY OF ART EDUCATION.**

(3)  
A-E 680 is a survey of general education practices from classical times to the present. The class will examine the teaching of art in European schools and its influence on American art education. The course will analyze the birth of American art education and significant events related to art in the schools from the 19th to the 21st century.

**A-E 685 ACTION RESEARCH IN ART EDUCATION.**

(3)  
This course is built within the context of the Advance Teacher Leader program. All students in this course are expected to integrate the design elements of their curriculum contract into their activities, field experiences, research, and action research projects. Prereq: Students must be enrolled in one of the Advanced Teacher Leader Programs in Art Education to take this course or by instructor permission.

**A-E 686 TEACHER LEADERSHIP IN ART EDUCATION.**

(3)  
This course is built within the context of the Advanced Preparation Programs in Teacher Leader Programs in Art Education. All candidates in this course are expected to integrate the design elements of their curriculum contract into their activities, field experiences, research, and action research projects. This course must be repeated for a minimum of two times for a total of six hours but can be repeated for no more than three times for a total of nine credits. Prereq: Candidates must be enrolled in one of the Advanced Preparation Teacher Leader Programs in Art Education to take this course. Candidates must also have completed A-E 685 Action Research in Art Education as a prerequisite.

**A-E 695 INDEPENDENT WORK: ART EDUCATION.**

(1-3)  
Supervised individual research, experimental practicum, and the initiation of field programs leading to the discovery and development of new knowledge in art education theory and method. A formal learning contract between student and supervising faculty member is required. May be repeated to a maximum of six credit hours. Prereq: Graduate standing in the department and consent of instructor.

**A-E 748 MASTER'S THESIS RESEARCH.**

(0)  
Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

**A-H Art History**

**A-H 101 INTRODUCTION TO VISUAL STUDIES.**

(3)  
The course introduces students to the concepts and techniques of visual literacy. It explores a full spectrum of man-made visual forms encountered by contemporary Americans from architecture and works of art to graphic novels, advertisements, television programs and films, photos and the Internet.

**A-H 105 WORLD ART BEFORE 1400.**

(3)  
An introduction to the visual arts of civilizations prior to the Renaissance. Students will become familiar with selected monuments from cultures in Africa, Asia, the Pacific, the Americas and Europe, and will be able to evaluate the development of artistic practices within a tradition or comparatively between traditions.

**A-H 106 RENAISSANCE TO MODERN ART.**

(3)  
An introduction to the history of European art and its legacy from the Middle Ages to the present. Students will become familiar with major works and monuments and develop an understanding of how art has functioned and evolved in the European tradition. As an introduction to the discipline of art history, the class develops a student's ability to describe and analyze art and architecture using sophisticated terminology, and enables a student to connect works of art to specific social and historical contexts.

**A-H 300 TOPICS IN ART HISTORY AND VISUAL STUDIES**

**(Subtitle required)** (3)  
According to the subtitle, this writing-intensive undergraduate seminar examines topics in art history and visual studies that are explicitly not limited by geographical location and/or period in history. Topics might be defined by subject matter, artistic practices and traditions, genres, and other comparable categories within art history and visual studies. Students will develop skills in writing and formal visual analysis, as well as practical skills needed to conduct and present their research. This course is a Graduation Composition and Communication Requirement (GCCR) course for the Art History and Visual Studies program, and therefore is not likely to be eligible for automatic transfer credit to UK. Prereq: At least one Art History and Visual Studies course at the 100-level required. Because A-H 300 is the GCCR course for the major, students must have completed 30 credit hours, including both CIS/WRD 110 and CIS/WRD 111.

**A-H 301 CROSS-CULTURAL TOPICS IN ART HISTORY AND VISUAL STUDIES (Subtitle required).**

(3)  
Depending on the subtitle, this course compares images and/or artifacts produced either in different cultural contexts or as a result of intercultural contacts and interchange. May be repeated under a different subtitle to a maximum of six credits. Prereq: At least one Art History and Visual Studies course at the 100-level recommended.

**A-H 304 AFRICAN ART AND ITS GLOBAL IMPACT.**

(3)  
Throughout history, visual arts from the African continent (architecture, sculpture, painting, body arts, textiles, photography and performance) have inspired artists from around the world. This course examines a selection of specific African art works that have shaped European and American cultural histories, and created a global modernity. The earliest examples include ancient rock art, and the most recent are comprised of installations and digital works made by African artists working abroad. Prereq: A-H 105 recommended.

**A-H 308 STUDIES IN AFRICAN ARTS (Subtitle required).**

(3)  
Depending on the subtitle, the course will focus upon arts connected to a particular period, theme, medium, or region of Africa and the African Diaspora, or examine a specific set of images, themes, theoretical positions or media originating from, or associated with, the African continent. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 104 recommended.

**A-H 310 ASIAN ART AND CULTURE (Subtitle required).**

(3)  
Depending on subtitle, a study of the art production of a particular medium, theme, period, or region in East Asia. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 105 recommended.

**A-H 311 THE ARTS AS SOFT POWER: THE JAPANESE TEA CEREMONY.**

(3)  
The term "soft power" was coined by Joseph Nye, a U.S. scholar of international relations. It is used to describe forms of influence used as alternatives to "hard power" – coercive acts such as war, threats, or economic sanctions. This course will investigate how soft power was used as a tool of diplomacy thousands of years before the term was invented, and explore examples of how it is used at the beginning of the 21st century. The course then will examine the Japanese tea ceremony (known as chanoyu or chado) and its domestic use as soft power among Japanese warlords in the late sixteenth century, its adoption as a way to modernize Japanese women in the nineteenth century, and its role in shaping Japan's international image in the twentieth century. Prereq: Sophomore standing or permission of the instructor.

**A-H 314 ANCIENT (Subtitle required).**

(3)  
Study of the arts and visual cultures of the Ancient World. According to subtitles, focus may be on selected periods or media of artistic and visual production, in the context of political, social and cultural developments, from Bronze Age through the Roman Empire under Constantine. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 105 recommended. (Same as CLA 314.)

**A-H 323 MEDIEVAL (Subtitle required).**

(3)  
Considers the interrelationships of art and architecture with religion, literature, politics, and other expressive forms as they shape and are shaped by medieval patrons and artists between the fourth and fifteenth century C.E., according to subtitle. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 105 recommended.

**A-H 334 REFRAMING RENAISSANCE ART.**

(3)  
An exploration of Renaissance artistic production as a European phenomenon of dynamic interchange between European artistic centers, artists, and trade in works of art. Besides painting, sculpture, and architecture, the study of Renaissance visual culture is expanded to include prints and the decorative arts. While the achievements of individual artists are considered, focus is placed on the values and motives of the patrons as well as the purposes and functions of art works. Prereq: Sophomore standing or permission of the instructor.

**A-H 335 EARLY MODERN ART AND VISUAL CULTURE, 1400-1700 (Subtitle required).**

(3)  
According to the subtitle, this course examines various aspects of the social, political, cultural, and aesthetic contexts of European art and visual culture. Issues of production and reception, style and function, artist and viewer, and European interactions with non-European cultures will be considered. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 101 or A-H 106 recommended.

- A-H 339 ART AND VISUAL CULTURE 1700-1840 (Subtitle required). (3)**  
Study of specific developments, problems, and issues pertaining to art, art practice, and art theory between 1700 and 1840. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 106 recommended.
- A-H 340 ART AND VISUAL CULTURE 1840-1914 (Subtitle required). (3)**  
Study of specific developments, problems, and issues pertaining to art, art practice, and art theory between 1840 and 1914. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 106 recommended.
- A-H 341 20TH CENTURY (Subtitle required). (3)**  
Depending on subtitle, this course examines aspects of 20th century art in its social, political, and aesthetic contexts. May be repeated under a different subtitle for a maximum of six credits. Prereq: A-H 106 recommended.
- A-H 342 AMERICAN ART & VISUAL STUDIES (Subtitle required). (3)**  
According to the subtitle, this course examines various aspects of American art & visual culture in their social, political, and aesthetic contexts between the 18th and the early 21st centuries. Topics range from the traditional fine arts media to photography, advertising, film, and various forms of popular culture. May be repeated under a different subtitle to a maximum of six credit hours. Prereq: A-H 101 or A-H 106 recommended.
- A-H 343 HISTORY OF PHOTOGRAPHY. (3)**  
Chronological survey of the history of photography from its inception to the present day. Emphasis on fine art photography, the work and contributions of its practitioners, the relationship of photography to other art forms, general issues within the medium. Prereq: A-H 106 recommended.
- A-H 350 CONTEMPORARY ART AND VISUAL STUDIES (Subtitle required). (3)**  
According to the subtitle, this course examines various aspects of art and visual culture in their social, political, theoretical, and aesthetic contexts after 1965. May be repeated under a different subtitle to a maximum of six credit hours. Prereq: A-H 101 or A-H 106 recommended.
- A-H 360 VISUAL CULTURE OF POLITICS. (3)**  
The course examines specific instances of visual political discourse across a range of historic periods, cultural contexts, political positions, and media. Although a significant portion of the historic part of the course focuses on works of art and architecture, the course also examines popular print culture and political use of mass media from film to television and Internet. Some of the themes covered in the course are: symbols and symbolism of political power, imagery of specific political values, emotional appeal, political propaganda, politics of gender and race, and visual strategies of political opposition and resistance.
- #A-H 370 HISTORY OF DESIGN (Subtitle required). (3)**  
According to the subtitle, this course examines various aspects of Design History in its social, political, economic, and cultural contexts between the 16th and the 21st centuries. May be repeated under a different subtitle to a maximum of six credit hours. Prereq: A-H 106 or A-H 101.
- A-H 399 EXPERIENTIAL EDUCATION IN ART HISTORY AND VISUAL STUDIES. (1-15)**  
A community-based or field-based experience in Art History. A formal learning contract among student, field supervisor, and supervising faculty member required. May be repeated to a maximum of 15 hours. Prereq: Any 100-level course in Art History and Visual Studies.
- A-H 501 MUSEUM STUDIES I: INTRODUCTION. (3)**  
An introduction to museology and the museum profession as related to a particular exhibition project. Intended for advanced students in arts related professions. Seminar format, coordinated with the University of Kentucky Art Museum staff. Prereq: Major in art history or arts administration (with art history emphasis), or consent of instructor.
- A-H 502 MUSEUM STUDIES II: INTERNSHIP. (3)**  
A supervised internship in a professional museum setting that builds upon Museum Studies I. The focus may be on a single aspect or several areas of museum activity: administration, curatorship, education, registration and collection management, design, development, public relations, etc. Laboratory, 10 hours per week. May be repeated to a maximum of 9 credits within different contexts. Prereq: Completion of A-H 501 with a grade of B or better.
- A-H 504 PRACTICAL ISSUES IN ART HISTORY (Subtitle required). (3)**  
This course examines art from a practical perspective. It introduces various disciplines that relate to the understanding of art, such as materials, formats, handling, display, storage, conservation, and connoisseurship. In this course, students will have the opportunity to engage firsthand with artworks, meanwhile deepening their knowledge of the background and context of the types of art examined. May be repeated under a different subtitle to a maximum of six credits. Prereq: Junior standing and at least one course in Art History and Visual Studies.
- A-H 510 ART HISTORY AND VISUAL STUDIES HONORS THESIS. (3)**  
Faculty-sponsored research projects for Art History and Visual Studies Majors, leading to an Honors Thesis. Enrollment is offered only to outstanding undergraduate majors with a project in progress, including students who are accepted into the University Scholars Program. Topics to be determined. Prereq: A-HVS major and CFA learning contract, approved by faculty sponsor.
- A-H 524 THEORY AND METHODS. (3)**  
According to the subtitle, the seminar will focus on different theoretical and methodological issues pertaining to art and visual studies. May be repeated under a different subtitle to a maximum of six credits. Prereq: Junior standing or permission of the instructor.
- A-H 525 STUDIES IN GENRES AND MEDIA (Subtitle required). (3)**  
Study of a particular genre (type of subject, such as still life) or a particular medium (type of object, such as the icon) in the history of art. May be repeated to a maximum of 6 credits when identified by a different subtitle. Prereq: Junior standing.
- A-H 526 ART AND THE ARTIST IN SOCIETY (Subtitle required). (3)**  
Art historical study of a topic or period with particular emphasis on artists and the social and cultural context of their roles in the production of visual art forms. May be repeated to a maximum of 6 credits when identified by a different subtitle. Prereq: Junior standing.
- A-H 527 INTERDISCIPLINARY APPROACHES (Subtitle required). (3)**  
Study of artistic and other visual production of a period, geographical location, theme, or medium, with emphasis on its interdisciplinary connections. Depending on the topic, readings and research may engage with a wide variety of disciplines, for example, literature, music, theater, history, political science, philosophy, classics, anthropology, etc. May be repeated under a different subtitle to a maximum of six credits. Prereq: Junior standing or permission of instructor.
- A-H 528 TOPICAL SEMINAR IN ART HISTORY AND VISUAL STUDIES (Subtitle required). (3)**  
An in-depth study of works of art and visual culture, the study of a specific period, geographic location, medium, or theme, or the study of ideas and/or institutions related to the use of art and other forms of visual expression in society. May be repeated under a different subtitle to a maximum of six credits. Prereq: Junior standing.
- A-H 529 TOPICAL SEMINAR IN ARCHITECTURAL OR DESIGN HISTORY (Subtitle required). (3)**  
According to subtitles, seminar will focus on developments, problems, or issues in architectural or design history. Subtitle required. May be repeated to a maximum of six credits when identified by different subtitles. Prereq: Junior standing.
- A-H 555 METHODS IN ART HISTORY AND VISUAL STUDIES. (3)**  
A seminar that reviews basic research methods used by scholars in art history, visual studies, and related fields. In addition to becoming familiar with a range of methodological approaches to the study of objects, environments, and images, students refine the practical skills needed to conduct and present their research. Prereq: Junior status and A-H 300 plus one additional Art History and Visual Studies course at the 300-level, or permission of the instructor.
- A-H 592 AESTHETICS. (3)**  
Problems of method in aesthetics; major types of aesthetic theory. Aesthetic materials of the arts, in literature, music, and the space arts. Form and types of form. Meaning in the arts. Interrelations of the arts. (Same as PHI 592.)
- A-H 598 COORDINATE STUDY IN ART HISTORY AND VISUAL STUDIES. (3)**  
Course number for those students wishing to do advanced work on a special subject in conjunction with a regularly scheduled 300-level course in Art History and Visual Studies not previously taken by the student. May be repeated to a maximum of nine credits. Prereq: Two courses in Art History and Visual Studies or permission of the instructor.
- A-H 599 EXPERIENTIAL EDUCATION IN ART HISTORY AND VISUAL STUDIES. (1-9)**  
Internship with a university, community, state, regional or national organization that provides practical work experience related to art history and/or visual studies. The internship is identified by the student, conducted under the supervision of the on-site supervisor, and evaluated by a faculty advisor. Students must file a learning contract with the College of Fine Arts to register for the course. May be repeated to a maximum of nine credits. Prereq: Two art history courses at the 500-level, or graduate status, or permission of the instructor.
- A-H 604 PRACTICAL PROBLEMS IN ART HISTORY: (Subtitle required). (3)**  
A seminar that examines art from a practical perspective. It introduces various disciplines that relate to the understanding of art, such as materials, formats, handling, display, storage, conservation, and connoisseurship. Students engage firsthand with artworks, meanwhile deepening their knowledge of the background and context of the types of art examined. May be repeated under a different subtitle to a maximum of six credits. Prereq: Graduate status or permission of the instructor.
- A-H 624 THEORY AND METHODS: (Subtitle required). (3)**  
According to the subtitle, the seminar will focus on different theoretical and methodological issues pertaining to art and visual studies. May be repeated under a different subtitle to a maximum of six credits. Prereq: Graduate status or permission of the instructor.
- A-H 625 PROBLEMS IN GENRES AND MEDIA: (Subtitle required). (3)**  
Study of a particular genre (type of subject), such as still life) or a particular medium (type of object, such as the icon) in the history of art. May be repeated to a maximum of six credits when identified by a different subtitle. Prereq: Graduate standing.

## Course Descriptions

### **A-H 626 THE ARTIST IN SOCIETY: (Subtitle required). (3)**

Art historical study of a topic or period with particular emphasis on artists and the social and cultural context of their roles in the production of visual art forms. May be repeated to a maximum of six credits when identified by a different subtitle. Prereq: Graduate standing.

### **A-H 627 INTERDISCIPLINARY PROBLEMS: (Subtitle required). (3)**

Seminar that focuses on the artistic and other visual production of a period, geographical location, theme, or medium with an emphasis on its interdisciplinary connections. Depending on the topic, readings and research may engage with a wide variety of disciplines, for example, literature, music, theater, history, political science, philosophy, classics, anthropology, etc. May be repeated under a different subtitle to a maximum of six credits. Prereq: Graduate status or permission of the instructor.

### **A-H 628 ART HISTORY AND VISUAL STUDIES TOPICAL SEMINAR: (Subtitle required). (3)**

In-depth study of works of art and visual culture, the study of a specific period, geographic location, medium or theme, or the study of ideas and/or institutions related to the use of art and other forms of visual expression in society. May be repeated under a different subtitle to a maximum of six credits. Prereq: Graduate status or permission of the instructor.

### **A-H 629 ART HISTORY TOPICAL SEMINAR IN ARCHITECTURAL OR DESIGN HISTORY (Subtitle required). (3)**

According to subtitles, seminar will focus on developments, problems or issues in architectural or design history. May be repeated to a maximum of six credits when identified by different subtitles. Prereq: Graduate standing.

### **A-H 650 ADVANCED CONTEMPORARY ART HISTORY. (3)**

Through advanced readings, in-depth discussions, and substantial research projects, this course examines major issues raised in art and art criticism since 1960. Particular attention is given to the impact of social, intellectual, and technological developments upon art making and concepts of art and the artist.

### **A-H 655 ADVANCED RESEARCH METHODS IN ART HISTORY AND VISUAL STUDIES. (3)**

This course practices research methods used by scholars in art history, visual studies, and related fields. In addition to becoming familiar with a selection of methodological approaches to the study of art and images, graduate students will refine the practical skills to conduct and present their own research. Prereq: Graduate status in SAVS.

### **A-H 738 ART HISTORY AND VISUAL STUDIES M.A. PORTFOLIO PREPARATION. (3)**

Three hours of course work in addition to the 36 hours of course work for the Plan B MA degree, to be arranged with the Graduate Advisor, devoted to planning and executing their studies toward the fulfillment of the non-Thesis option. Prereq: 36 hours of graduate course work completed or in progress in semester of registration.

### **A-H 748 MASTER'S THESIS RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

### **A-H 768 THESIS FORMULATION AND PREPARATION IN ART HISTORY. (3)**

Independent study for art history graduate students to formulate and prepare master's thesis under the direction of their thesis advisor. A formal learning contract between student and thesis advisor is required. May be repeated to a maximum of six credits. Prereq: Art history graduate student completing thesis option (Option A).

### **A-H 780 INDEPENDENT WORK: ART HISTORY. (1-3)**

Supervised and sustained individual research and interpretation in the history of art leading to the discovery and demonstration of new knowledge. A formal learning contract between student and supervising faculty member required. May be repeated to a maximum of six credits. Prereq: Graduate standing in the department, 18 credits in art history and consent of instructor.

## **A-S Art Studio**

### **\*A-S 001 FOUNDATION EXHIBITION. (0)**

An annual exhibition where all first-year Foundation students will select and exhibit one of their works created in a course at UK in a Foundations studio course. Students will be required to select their own work, present it professionally, and provide an accompanying artist's statement. The exhibition will occur each spring semester. Grade: P or F.

### **\*A-S 101 CREATIVITY PRACTICES. (1)**

This seminar course for incoming Art Studio, Digital Media Design and Art Education majors is focused on creative strategies and introductory professional practices. This course also orients students to the School, College and University. Through discussion, in-class exercises, and out-of-class assignments, students will gain knowledge of arts-related resources and programming at UK and in the local community.

### **\*A-S 102 2D. (3)**

A-S 102 is an introductory course in composition on flat surfaces with an emphasis on learning and integrating elements and principles of 2D design. This studio course is essential for any student who wants to visually communicate in art studio, design, digital media and art education. Students will create contemporary works which may utilize a variety of art and design media,

including collage, drawing, painting, printmaking, and/or photography. These works will be informed by a wide variety of contemporary artists and designers. Students will work in an iterative process to research and develop ideas, enhance creativity, articulate personal expression, and problem-solve.

### **\*A-S 103 3D. (3)**

A-S 103 is an introductory course in compositional strategies within spatial forms for sculptural practices. This studio course is essential for any student who wants to visually communicate in art studio, design, digital media and art education. Students will work with a variety of contemporary art/design materials and approaches, while learning and integrating the basic vocabulary of composition in art and design. These works will be informed by a wide variety of contemporary artists and designers. Students will work in an iterative process to develop ideas, problem solve, enhance creativity and articulate personal expression.

### **\*A-S 130 DRAWING. (3)**

A-S 130 is an introductory studio course focused on drawing through observation. Students learn the mechanisms of visual perception, how individual components of a drawing relate to the organization of the composition as a whole. Each student develops not only observational skills rooted in traditional drawing media for realistic renderings, but also gradually builds strategies, concepts, and ideas for abstraction. Students will advance their knowledge of light, tones, composition and increase their ability to see and perceive the world around them. This studio course is essential for any student who wants to visually communicate in art studio, design, digital media and art education.

### **\*A-S 200 DIGITAL ART. (3)**

This course provides fundamental instruction in software as a creative tool for image making. Students will learn the basics of digital collage and drawing through use of software and formal qualities of composition. Lectures about the varied digital art practices will provide an overview of historical and contemporary digital art practice. This studio course is essential for any student who wants to visually communicate in art studio, design, digital media and art education. (Four studio hours, and one 50-minute lecture per week.)

### **A-S 201 PROFESSIONAL PRACTICES IN ART STUDIO. (1)**

This course is designed to assist Art Studio and Art Education majors in developing practical skills needed to create a successful, professional practice in the visual arts. Students are required to prepare a portfolio emphasizing written, oral, and visual presentation and documentation skills. The course will include developing resumes, artist and biographical statements, community engagement, networking, and locating exhibition opportunities. Art Studio and Art Education majors only. Prereq: A-S 101, A-S 102, A-S 103, A-S 130, and A-S 200; or consent of instructor.

### **A-S 245 INTRODUCTION TO WEB DESIGN. (3)**

An introductory level course designed to prepare students to create web pages. Emphasis is on creating functional and aesthetic web content within the current design parameters of the Internet. Navigation strategies, directory structures and familiarity with networks is stressed. Nine studio hours per week.

### **A-S 270 CERAMICS FOR NON-MAJORS. (3)**

This is a studio course that explores the arts and creativity through the discipline of ceramics. An overview of historical and contemporary ceramic art practices will be presented as well as the basics of design and composition. Using hand building and wheel throwing techniques, students will explore the sculptural and functional potential of clay as an object-making media. No prerequisites.

### **A-S 280 INTRODUCTION TO PHOTOGRAPHIC LITERACY. (3)**

Students are introduced to photography, through both the study of its history and the practice of making photographs. The historical portion will focus on both photographic literacy and aesthetics. The practice will take students through various styles, genres and technical aspects of the medium.

### **\*A-S 285 LENS ARTS. (3)**

A-S 285 is an introductory course in digital image capture that focuses on the still and moving image as an art practice. Students will learn the fundamentals of camera operation and editing software in order to visually communicate their creative ideas. Students will be introduced to contemporary lens arts practice through research and assignments. This course is essential for any student wanting to succeed in digital media and/or design. It is a pre-requisite for A-S 346, and thus upper level video classes.

### **A-S 300 DIGITAL PHOTOGRAPHY. (3)**

A-S 300 is an introductory course in digital photography as a creative tool. The primary emphasis is the practice of photography as fine art. This course also provides a thorough background in basic techniques that students may apply to any photographic discipline as well as historical and theoretical approaches to photography. Students receive technical instruction in the DSLR camera, lens choice, exposure controls, digital workflow, processing of digital files, output and presentation. Students must have a DSLR camera. Studio 9 hours per week.

### **A-S 305 STUDIO LIGHTING. (3)**

A-S 305, Studio Lighting is an introductory course in lighting control in photography. This course provides a thorough background in basic techniques that students may apply to any discipline, with its primary emphasis upon the practice of the medium as a fine art. Students will receive technical instruction in types of lighting, exposure controls, lighting styles and working in a photographic lighting studio. Prereq: A-S 300 or consent of instructor.

**A-S 306 CINEMATOGRAPHY: LIGHTS, CAMERA, ACTION. (3)**

A-S 306 is an intermediate course that will introduce students to the fundamental theory and practice of cinematography and lighting for film and video. We will examine the technical aspects of camera movement as well as aesthetic aspects of cinematography and learn how to apply this knowledge to practical cinematographic choices. We will also learn about how lighting is effectively used to convey mood, control exposure, and integrate with the narrative within the film industry. Prereq: Successful completion of A-S 346 Digital Video or consent of instructor.

**A-S 310 PAINTING I. (3)**

Concentrated painting experience stressing enlargement of formal understanding and personal expression. Prereq: A-S 102 and A-S 130.

**A-S 311 PAINTING II. (3)**

A continuation of A-S 310. Prereq: A-S 310 and consent of the instructor.

**A-S 320 PRINTMEDIA: SCREENPRINT/RELIEF. (3)**

Students will learn the skills necessary to create screen and relief prints. Curriculum will focus on building a working knowledge of how both analog and digital stencils can be used to create editionable images. Undertaking several projects in each medium students will explore the use of printmaking as both a fine art and graphic medium. Prereq: A-S 130 or consent of instructor.

**A-S 321 PRINTMEDIA: INTAGLIO/LITHOGRAPHY. (3)**

Students will learn the skills necessary to create Lithography and Intaglio prints. Curriculum will focus on building a working knowledge of how both analog and digital stencils can be used to create editionable images. Undertaking several projects in each medium students will explore the use of printmaking as both a fine art and graphic medium. Prereq: A-S 130 or consent of instructor.

**A-S 322 SCREEN PRINTING. (3)**

Intensive studio experience in serigraph printmaking processes and history relevant to contemporary practices in the medium. Six studio hours per week. Prereq: A-S 320.

**A-S 330 INTERMEDIATE DRAWING. (3)**

Continued studio experience in two-dimensional representation and abstraction using a variety of drawing materials and processes. When offered in the fall, emphasis will be on the human figure. When offered in the spring, course content will cover a broad range of traditional and experimental subjects including landscape, still lifes, collage, and mixing words with images. May be repeated to a maximum of six credits. Nine studio hours per week. Prereq: A-S 102 or consent of instructor.

**A-S 331 EXPLORATION OF HUMAN FORM. (3)**

Students strengthen drawing skills through observation and in experimentation with process and strategy. Students gain a better understanding of design and composition in relationship to overall outcome of drawing and explore a range of drawing materials. Prereq: A-S 102 and A-S 130.

**A-S 340 INTRODUCTION TO GRAPHIC DESIGN, MEANING, AND IMAGE. (3)**

An introductory digital-media studio course in graphic design. Emphasis will be placed on the study of typography, illustration, and layout design, as well as the social, political, and historical impact of graphic design. Technical and theoretical issues pertinent to the field will be presented. Prereq: A-S 102, A-S 200.

**A-S 341 GRAPHIC DESIGN: LAYOUT. (3)**

Students prepare professional quality assignments in lettering, pictogram systems, logos, and corporate identity design, line art, and cartoons for advertising illustration, as well as solutions for posters, billboards, folders, storyboards, and cover illustration. Nine studio hours per week. Prereq: A-S 340 (with a grade of B or better) and Portfolio Review.

**#A-S 342 TYPOGRAPHY. (3)**

Through course readings, personal investigations, creative projects and critiques, students will gain skills and knowledge on the history, use, and creation of typefaces. This course covers content ranging from creation to application across a variety of media, and explores a range of topics surrounding typography – from minute details of use to holistic understanding of its essential role in graphic communication. Prereq: A-S 340 Introduction to Graphic Design.

**A-S 343 ANIMATION (Subtitle required). (3)**

This broad, cross-disciplinary studio course will introduce students to a variety of animation techniques. Students learn the basics of animation through exploration of various tools and software while examining both historical and contemporary animated works. Prereq: A-S 200 or A-S 130 or consent of instructor.

**A-S 345 WEB DESIGN. (3)**

An intermediate level course designed to prepare students to create web pages. Emphasis is on creating functional and aesthetic web content within the current design parameters of the internet. Navigation strategies, directory structures and familiarity with networks is stressed. Nine studio hours per week. Prereq: A-S 200 or consent of instructor.

**A-S 346 DIGITAL VIDEO. (3)**

An intermediate level course in which students learn video editing and compositing methods, color techniques, masking and key effects in the digital video application environment. Storyboarding, shot lists, and audio and sound design will be emphasized for all projects. Creative work may be collaborative and/or individual. Prereq: A-S 285 or consent of instructor.

**A-S 347 MULTIMEDIA (Subtitle required). (3)**

An intermediate level course that allows students to explore a variety of programming environments. Programming topics may include video, audio and/or still images with net based or physical installation based output. This class builds on students' previous experiences with digital media production and introduces programming to their tool pallet. Fundamentals of computer programming are presented, supplemented by historical readings and discussions of art theory dealing with the use of digital technologies in artistic context. Nine studio hours per week. May be repeated to a maximum of nine hours when identified under a different subtitle. Prereq: A-S 200 or consent of instructor.

**A-S 348 CIRCUITS & BITS: INTRODUCTION TO HARDWARE AND SOFTWARE TOPICS IN ARTS. (3)**

A broad, cross-disciplinary, intermedia studio course designed to teach students custom software creation and electronics fabrication in an art environment. Technical information is presented in conjunction with art historical and theoretical issues. Students will be introduced to a skill-set needed to create interactive artworks. Prereq: A-S 200, or junior standing (or above) in the College of Design, or consent of the instructor.

**\*A-S 350 INTRODUCTION TO FIBER. (3)**

A survey of fiber art processes and textile techniques used to create sculptural forms. This includes, but is not limited to, looping, knotting, dyeing, hand and machine sewing, and woven and non-woven structures. This course focuses on experimentation with materials, while using history and theory to guide research. Nine studio hours per week. May be repeatable up to six credit hours when identified under a different subtitle. Prereq: A-S 102 or A-S 103 or consent of instructor.

**\*A-S 351 SOFT SCULPTURE. (3)**

Building on the skills developed in A-S 350, this course emphasizes development of conceptual and technical skills using textile techniques to guide research and build sculpture. Nine studio hours per week. May be repeatable up to six credit hours when identified under a different subtitle. Prereq: A-S 350 or consent of instructor.

**#A-S 352 WOVEN STRUCTURES. (3)**

Woven Structures explores the relationship of hand weaving, technology and sculpture. Experimenting with material and pattern, this course examines traditional techniques of floor-loom hand weaving as well as use of the computerized loom to understand weaving as a cross-disciplinary practice.

**A-S 355 INTRODUCTION TO SCULPTURE. (3)**

Emphasis is placed on learning diverse 3D techniques, tools and materials as students create sculptures dealing with movement, emotions, narrative and non-objective/abstract subject matters. Sculptural concepts are explored through individual research, critical discussions and art production. Students experiment with mixed-media, and surface finishing. Prereq: A-S 103.

**A-S 360 INTRODUCTION TO HOT METALS: FABRICATION. (3)**

Art Studio 360 is an introductory course in metal working skills, techniques and processes for producing sculptural forms based on traditional and contemporary ideas. Primary emphasis is placed on metal shop orientation: fabrication, forging and non-traditional materials and surfaces. Sculptural concepts are explored through individual research, critical discussions and art production. Prereq: A-S 103 or consent of instructor.

**A-S 361 INTRODUCTION TO HOT METALS: CASTING. (3)**

Art Studio 361 is an introductory course in metal working skills, techniques and processes for producing sculptural forms based on traditional and contemporary ideas. Primary emphasis is placed on metal shop orientation: casting and non-traditional materials and surfaces. Sculptural concepts are explored through individual research, critical discussions and art production. Prereq: A-S 103 or consent of instructor.

**A-S 364 INTRODUCTION TO DIGITAL FABRICATION. (3)**

This introductory multidisciplinary course explores digital design and fabrication in the context of Laser CNC and 3D printing. The goal of this course is to develop concepts and techniques of CAD modeling to use in 2D and 3D digital processes as they apply to visual art and design. Emphasis will be placed on aesthetics, effective image making, and problem solving. Six Studio hours per week. No prerequisites.

**A-S 365 DIGITAL FABRICATION AND DESIGN. (3)**

This intermediate level course allows students to explore a variety of 2D, "2.5D", and 3D forms through digital modeling and design. The primary focus of this course will be laser cutting and etching as well as CNC routing to produce surface designs and complex compositions. Students will use current Computer Aided Design (CAD) and Computer Aided Manufacturing (CAM) technology in combination with traditional processes. Emphasis will be given to multi-medium designs incorporating other creative disciplines. Six Studio hours per week. Prereq: A-S 103 and A-S 364 or consent of the instructor.

**A-S 366 HYBRID FABRICATION. (3)**

A-S 366 is an intermediate level course that allows students to explore three-dimensional form through digital design and hybrid fabrication. Students will create sculpture from digital models using 3D printing, 3D scanning, CNC routing, and laser cutting. The goal of this course is to develop concepts and techniques of CAD modeling for use in 3D CAD/CAM processes as they apply to visual art, space, and design. Emphasis will be given to dealing with the use of current technology in combination with traditional sculpture processes in an artistic context. Six Studio hours per week. Prereq: A-S 103 and A-S 364 or consent of the instructor.

**A-S 367 TOPICS IN DIGITAL FABRICATION (Subtitle required). (3)**

A-S 367 is an intermediate level course that allows students to explore a variety of digital fabrication processes used in CAD based artistic topics. This class builds on students' previous experiences with hybrid fabrication media. Readings and discussion of contemporary and future directions in digital fabrication supplement the class. The use of current technology combined with traditional processes in an artistic context will be emphasized. Students will develop a professional body of work stemming from personal research. Six studio hours per week. May be repeated to a maximum of nine credit hours when identified under a different subtitle. Prereq: A-S 365 or A-S 366 or consent of instructor.

**A-S 370 CERAMICS I. (3)**

Introductory studio experience to a variety of ceramic materials and processes. Nine studio hours per week. Prereq: A-S 103 or consent of instructor.

**A-S 371 CERAMICS II. (3)**

A continuation of A-S 370. Nine studio hours per week. Prereq: A-S 370 or consent of instructor.

**A-S 380 BLACK & WHITE DARKROOM PHOTOGRAPHY. (3)**

A-S 380 is an introductory course in photography. Although it provides a thorough background in basic techniques that students may apply to any discipline, its primary emphasis is upon the practice of the medium as a fine art. Students receive technical instruction in camera and lens construction, exposure controls, processing of black and white negatives and prints, and presentation. Studio, nine hours per week.

**A-S 381 ADVANCED BLACK & WHITE DARKROOM PHOTOGRAPHY. (3)**

A-S 381 is a continuation of A-S 380. The emphasis is upon refining visual perception and basic photographic skills with an introduction to some of the more advanced techniques of black and white photography. Students receive technical instruction in the Zone System, archival processing, toning, and presentation. Studio, nine hours per week. Prereq: A-S 380 or consent of instructor.

**A-S 384 COLOR PHOTOGRAPHY I. (3)**

A-S 384 is an introductory course in color photography. The emphasis is upon the unique qualities of color photography relating to visual perception and color theory. Students receive technical instruction in digital and analog cameras and color darkroom printing. Studio, nine hours per week. Prereq: A-S 380 or A-S 300 or consent of instructor.

**A-S 385 INTERMEDIATE PHOTOMANIPULATION: PHOTOSHOP. (3)**

An intermediate level course designed to help students integrate traditional photography with digital computer imaging tools such as Adobe Photoshop or like program. Students are required to produce original photographic imagery for use in creating digital artwork output to printed material with inkjet printers. Advanced methods of input and output calibration, as well as advanced methods of image manipulation, are covered. Emphasis is placed on the aesthetics and ethics of digital photographic art and creating meaningful and effective images. Nine studio hours per week. Prereq: A-S 200 and A-S 380 or A-S 300 or permission of instructor.

**\*A-S 386 ALTERNATIVE PROCESSES PHOTOGRAPHY I. (3)**

A-S 386 is an introductory course in alternative photographic processes. The emphasis is upon the unique qualities of alternative photography relating to visual perception. Students receive technical instruction in the use of digital negatives, cyanotypes, brown prints, and gum-bichromate printing among other 19th century processes. Studio, nine hours per week. Prereq: A-S 380 or A-S 300 or consent of instructor.

**A-S 387 TOPICS IN PHOTOGRAPHY (Subtitle required). (3)**

An intermediate level course that allows students to explore a variety of lens based or photographic artistic topics. This class builds on students' previous experiences with photographic media. The class is supplemented by historical readings and discussion of art theory dealing with the use of photographic technology in an artistic context. Six studio hours per week. May be repeated to a maximum of nine credit hours when identified under a different subtitle. Prereq: Will be designated with subtitle or consent of instructor.

**A-S 390 TOPICAL STUDIES (Subtitle required). (3)**

Studio investigation of art forms, processes, and topics not specially treated in the regular studio course of study. Topics announced in schedule book for each semester. Nine studio hours per week. May be repeated to a maximum of 12 credits when identified by different course subtitles. Prereq: To be specified as appropriate when topic is identified.

**A-S 395 INDEPENDENT WORK: ART STUDIO. (1-3)**

Supervised individual work in Art Studio. A learning contract will be submitted both to the department and the office of the dean at the time of registration. May be repeated to a maximum of nine credits. Prereq: Art major, senior standing, grade-point average of 3.0 within the department and consent of instructor.

**A-S 396 WORKSHOP (Subtitle required). (1-6)**

Workshops in a variety of media dealing with supervised investigation of Art-Studio problems. Studio, 3-18 hours per week. May be repeated to a maximum of nine credits when identified by different subtitles. Prereq: Consent of instructor.

**A-S 398 COORDINATED STUDIES IN ART STUDIO. (3)**

Supervised independent study in conjunction with regularly scheduled upper-division classes. Coordinate study credits may not be attached to any upper-division course in which the student is concurrently enrolled. Studio, nine hours per week. May be repeated to a maximum of nine credits. Prereq: Art major, junior standing or above, grade-point average of 3.0 in the department.

**A-S 399 EXPERIENTIAL EDUCATION. (1-15)**

Off-campus studio experience outside the academic environment leading to significant professional growth. A formal learning contract among student, field supervisor and the department. Studio hours per week by arrangement. May be repeated to a maximum of 15 credits. Prereq: Upper division standing; written statement of objective, recommendation of a studio faculty member and the approval of the department chairperson and the Office of Experiential Education.

**A-S 446 DIGITAL VIDEO: VISUAL STORYTELLING. (3)**

A digital video class with emphasis placed on use of camera and postproduction editing and keyframing skills for an advanced student. Curriculum will focus on the required creation of a series of short original video works. Industry practices of shotlists, color correction and post-production, such as AfterEffects will be explored in depth. Video works for this course can be 2-D animation, projection, installation or screen based. Prereq: A-S 346.

**A-S 480 PROFESSIONAL PRACTICES IN PHOTOGRAPHY. (3)**

A-S 480 is a seminar style class that looks at the business side of photography. Through this class students will look at different careers and business practices in the photography world. Students will work through exercises in goal setting, financial management, networking, branding, portfolio design and much more. This class is broad enough for students to feel prepared to enter numerous photographic fields after graduation. Prereq: Any two photography 300 level or above classes.

**A-S 490 SENIOR SEMINAR. (1)**

Readings and discussions in art. Selection, preparation, and presentation of senior exhibitions and portfolios. To be taken during the student's final semester of study. Two lecture hours per week. Prereq: Senior standing in Department of Art.

**A-S 510 PAINTING III. (3)**

Supervised individual development in painting. Nine studio hours per week. Prereq: A-S 311 or consent of instructor.

**A-S 511 PAINTING IV. (3)**

Continuation of A-S 510; emphasis on professional awareness and development. May be repeated to a maximum of six credits. Nine studio hours per week. Prereq: A-S 510 or consent of instructor.

**A-S 520 PRINTMEDIA: TOPICS (Subtitle required). (3)**

This course will explore and discuss contemporary and future directions in print media. Students will combine traditional, digital, and post-digital matrices to create works that merge print with installation, design, animation, book-arts, or other mixed-media methods. Prereq: A-S 320 or A-S 321 or consent of instructor.

**A-S 521 PRINTMEDIA: CONTEMPORARY PRACTICES. (3)**

Students will utilize knowledge from previous print courses to develop specific projects and research that develops a professional body of work and studio practice. Prereq: A-S 520 or consent of instructor.

**A-S 530 ADVANCED DRAWING. (3)**

Supervised individual development in drawing. When offered in the Fall, emphasis will be on the human figure. When offered in the Spring, students may select from a broad range of traditional and experimental subjects. May be repeated to a maximum of six credits. Nine studio hours per week. Prereq: A-S 330 or consent of instructor.

**A-S 540 GRAPHIC DESIGN: PUBLICATION DESIGN. (3)**

Students develop innovative concepts in advertising layout and design through brochures, direct mailers, magazine and newspaper ads. Contemporary techniques in design and production emphasized. Printing techniques, and paper selection introduced as design elements. Nine studio hours per week. Prereq: A-S 341 (with a grade of B or better) and Portfolio Review.

**A-S 541 GRAPHIC DESIGN: ADVANCED DESIGN. (3)**

Provides an opportunity for the advanced study of artistic and technical solutions for graphic design problems. Prospecting for employment, working conditions, avenues for advancement, pricing work, and the legal responsibilities of the artist-designer to the client-agency discussed. Students conclude this course with the presentation of a portfolio demonstrating their ability to do quality work which meets the highest professional standards. Nine studio hours per week. Prereq: A-S 540 (with a grade of B or better) and Portfolio Review.

**A-S 546 INTERMEDIA STUDIO (Subtitle required). (3)**

An advanced course focusing on a specific area of Intermedia art production, i.e. video, installation, robotics, or digital techniques, emphasizing personal development of theoretical and skill-based foundation. May be repeated to a maximum of six credits when identified by the same subtitle and nine credits when identified by different subtitles. Nine studio hours per week. Prereq: A-S 200 and either A-S 346 or A-S 347 or consent of instructor, or graduate enrollment.

**A-S 547 DIGITAL MEDIA PROJECTS CAPSTONE. (3)**

A culminating course that allows digital media students to propose and create large-scale, in depth projects such as short films, video installations, a complete animation, a photographic series, a 3D printing installation, a web-based research project, etc. that require time and focus to produce. 3 credit hours, may be repeated up to 9 hours. Prereq: Senior Standing, B.S. Digital Media and Design Majors.

- \*A-S 550 ADVANCED FIBER I. (3)**  
Supervised individual development in fiber. Nine studio hours per week. Prereq: A-S 351 or consent of instructor.
- \*A-S 551 ADVANCED FIBER II. (3)**  
Continuation of A-S 550; emphasis on professional awareness and development. May be repeated to a maximum of six credits. Nine studio hours per week. Prereq: A-S 550 or consent of instructor.
- #A-S 552 ADVANCED WOVEN STRUCTURES. (3)**  
Advanced Woven Structures builds on the knowledge acquired in A-S 352, through supervised individual project development in woven structures. Prereq: A-S 352.
- A-S 560 ADVANCED HOT METALS: FABRICATION. (3)**  
Art Studio 560 is an advanced level course, continuing metal working skills, techniques and processes for producing sculptural forms based on traditional and contemporary ideas. Primary emphasis is placed on metal shop orientation: fabrication, forging and non-traditional materials and surfaces. Sculptural concepts are explored through individual research, critical discussions and art production. Prereq: A-S 360 or consent of instructor.
- A-S 561 ADVANCE HOT METALS: CASTING. (3)**  
Art Studio 561 is an advance course in metal working skills, techniques and processes for production sculpture forms based on traditional and contemporary ideas. Primary emphasis is placed on metal shop orientation: casting and non-traditional materials and surfaces. Sculptural concepts are explored through individual research, critical discussions and art production. Prereq: A-S 361 or consent of instructor.
- A-S 564 DIGITAL FABRICATION PROJECTS (Subtitle required). (3)**  
This is an advanced course in which students will utilize knowledge from previous hybrid fabrication courses to create personal projects and research to develop a professional body of work and studio practice. Six studio hours per week. May be repeated to a maximum of six credit hours. Prereq: A-S 365 or A-S 366 or consent of the instructor.
- A-S 567 ADVANCED TOPICS IN DIGITAL FABRICATION (Subtitle required). (3)**  
This is an advanced course that allows students to explore a variety of digital fabrication processes used in CAD/CAM based artistic topics. This class builds on students' previous experiences with hybrid fabrication media. Readings and discussion of contemporary and future directions in digital fabrication supplement the class. The use of current technology combined with traditional processes in an artistic context will be emphasized. Students will develop a professional body of work stemming from personal research. Six studio hours per week. May be repeated to a maximum of nine credit hours when identified under a different subtitle. Prereq: A-S 365 or A-S 366 or consent of the instructor.
- A-S 570 CERAMICS III. (3)**  
Supervised individual development in ceramics. Nine studio hours per week. Prereq: A-S 371 or consent of instructor.
- A-S 571 CERAMICS IV. (3)**  
Continuation of A-S 570; emphasis on professional awareness and development. May be repeated to a maximum of six credits. Nine studio hours per week. Prereq: A-S 570 or consent of instructor.
- A-S 580 PHOTOGRAPHY PROJECTS I. (3)**  
A-S 580 is a photography based project course. The emphasis of this course is on the expansion of photographic techniques, self-expression, and long-term project development. Prereq: Any of the following: A-S 381, A-S 384, A-S 385, A-S 386, A-S 305 or consent of instructor.
- A-S 581 PHOTOGRAPHY PROJECTS II. (3)**  
A-S 581 is a continuation of A-S 580. The emphasis of this course is advanced exploration and experimentation of photographic techniques, self-expression, and long-term project development in preparation for student's future success in independent research. May be repeated to a maximum of six credits. Prereq: A-S 580 or consent of instructor.
- A-S 584 COLOR PHOTOGRAPHY II. (3)**  
A-S 584 is a continuation of A-S 384. The emphasis is upon advanced color photographic processes and continued acquisition of skills for self-expression through the medium. May be repeated to a maximum of six credits. Studio, nine hours per week. Prereq: A-S 384 or consent of instructor.
- A-S 585 INDUSTRY PATHWAYS AND PRACTICE. (3)**  
A-S 585 is a seminar/studio style class that looks at professional practices in the creative industry and helps prepare students for their post-college careers. Students will work through exercises ranging from goal setting to portfolio design as well as work in teams to create material for real world application. This class is broad enough for students to feel prepared to enter numerous creative fields after graduation. This course provides full GCCR credit for the BS in Digital Media and Design Degree. Prereq: Junior standing in the Digital Media and Design major or consent of instructor.
- \*A-S 586 ALTERNATIVE PROCESSES PHOTOGRAPHY II. (3)**  
A-S 586 is a continuation of A-S 386. The emphasis is upon advanced alternative photographic processes and continued acquisition of skills for self-expression through the various media. May be repeated to a maximum of six credits. Studio, nine hours per week. Prereq: A-S 386 or consent of instructor.
- A-S 587 ADVANCED TOPICS IN PHOTOGRAPHY (Subtitle required). (3)**  
An advanced course focusing on a specific area or topic of lens based or photographic arts emphasizing personal development of theoretical, conceptual and technical skills. Six studio hours per week. May be repeated to a maximum of nine credit hours when identified under a different subtitle. Prereq: Will be designated with subtitle or consent of instructor.
- A-S 596 WORKSHOP. (1-6)**  
Workshops in a variety of media dealing with supervised investigation of advanced art studio problems. Prereq: Consent of instructor.
- A-S 610 PAINTING V. (3)**  
Advanced studio investigation of current ideas in painting. Exploration of contemporary and traditional procedures, materials, and issues in a context of a group discussion and review. May be repeated to a maximum of nine credits. Prereq: Graduate standing in the department and approval of the instructor.
- A-S 611 PAINTING VI. (3)**  
Continued studio investigation of current ideas in painting, with increased concentration on critical group discussions of student work and readings in contemporary art. May be repeated to a maximum of nine credits. Studio, nine hours. Prereq: A-S 610 and consent of instructor.
- A-S 620 PRINTMAKING V. (3)**  
Advanced studio investigation of current ideas in printmaking. Exploration of contemporary and traditional procedures, materials, and issues. May be repeated to a maximum of nine credits. Studio, nine hours. Prereq: Graduate standing in the department and consent of the instructor.
- A-S 621 PRINTMAKING VI. (3)**  
Continued advanced studio investigation of current ideas in printmaking. Increased concentration of technical and aesthetic development in preparation for entry into the professional environment. May be repeated to a maximum of nine credits. Studio, nine hours. Prereq: A-S 620.
- A-S 630 GRADUATE DRAWING. (3)**  
Supervised studio course in graduate-level drawing and mixed media works on paper or other two-dimensional surfaces. Emphasis will be placed on personal style, its identification, definition and further development in the context of contemporary drawing. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.
- A-S 646 ADVANCED INTERMEDIA STUDIO (Subtitle required). (3)**  
A studio course specially designed for graduate students emphasizing sustained individual, technical and theoretical work in the area of Intermedia. May be repeated to a maximum of nine credits when identified by the same subtitle. Nine studio hours. Prereq: A-S 200 and either A-S 346 or A-S 347 or consent of instructor, or graduate enrollment.
- \*A-S 650 ADVANCED FIBER III. (3)**  
In this supervised graduate studio course in fiber, emphasis will be placed on personal style, its identification, definition, and further development in the context of major directions in the fiber arts. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: 12 credits in upper division studio work and consent of instructor.
- \*A-S 651 ADVANCED FIBER IV. (3)**  
Continued advanced studio investigation of current ideas in the fiber arts. Increased concentration on technical and aesthetic development, professional readings, and group discussion. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: A-S 650.
- A-S 660 SCULPTURE V. (3)**  
In this supervised studio course in graduate sculpture, emphasis will be placed on personal style, its identification, definition, and further development in the context of modern sculpture. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: 12 credits in upper division studio work and consent of instructor.
- A-S 661 SCULPTURE VI. (3)**  
Continued advanced studio investigation of current ideas in sculpture. Increased concentration on technical and aesthetic development, professional readings, and group discussion. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: A-S 660.
- A-S 670 CERAMICS V. (3)**  
In this supervised studio course in graduate ceramics, emphasis will be placed on personal style, its identification, definition, and further development in the context of direction in modern ceramics. Studio, nine hours per week. May be repeated to a maximum of nine credits. Prereq: 12 credits in upper division studio work and consent of instructor.
- A-S 671 CERAMICS VI. (3)**  
Continued advanced studio investigation of current ideas in ceramics, increased concentration on technical and aesthetic development, professional readings, and group discussions. Studio, nine hours per week. May be repeated to a maximum of nine credits. Prereq: A-S 670.
- A-S 680 PHOTOGRAPHY V. (3)**  
A-S 680 is a continuation of A-S 581. In this supervised studio course in graduate photography, emphasis will be placed on personal style, its identification, definition, and further development in the context of major directions in photography. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: A-S 581 and consent of instructor.

## Course Descriptions

- A-S 681 PHOTOGRAPHY VI.** (3)  
A-S 681 is a continuation of A-S 680. The emphasis will be upon continued advanced studio investigation of current ideas in photography with increased concentration on technical and aesthetic development, professional readings, and group discussion. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: A-S 680 and consent of instructor.
- A-S 687 GRADUATE TOPICS IN PHOTOGRAPHY (Subtitle Required).** (3)  
A studio course specially designed for graduate students emphasizing sustained individual, technical and theoretical work in a specified topical area of lens based or photographic arts. May be repeated to a maximum of nine credits when identified under a different subtitle. Six studio hours. Prereq: Graduate standing.
- A-S 710 PROBLEMS IN PAINTING.** (3)  
Sustained individual projects focusing on problems and experimental work in the technical and theoretical aspects of painting. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.
- A-S 720 PROBLEMS IN PRINTMAKING.** (3)  
Sustained individual projects focusing on problems and experimental work in the technical and theoretical aspects of printmaking. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.
- A-S 730 PROBLEMS IN DRAWING.** (3)  
Sustained individual projects focusing on problems and experimental work in the technical and theoretical aspects of drawing. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.
- A-S 740 PROBLEMS IN FIBER.** (3)  
Sustained individual problems and experimental work in the technical and theoretical problems of fiber. May be repeated two times to a maximum of nine credits. Nine studio hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.
- A-S 750 PROBLEMS IN SCULPTURE.** (3)  
Sustained individual problems and experimental work in the technical and theoretical problems of sculpture. May be repeated to a maximum of nine credits. Nine studio hours per week. Prereq: 12 credits in upper division studio work and consent of instructor.
- A-S 770 PROBLEMS IN CERAMICS.** (3)  
Sustained individual problems and experimental work in the technical and theoretical problems of ceramics. May be repeated two times for a maximum of nine credits. Nine studio hours per week. Prereq: 12 credits in upper division studio work and consent of instructor.
- A-S 777 PROBLEMS IN INTERMEDIA.** (3)  
A studio course specially designed for independent graduate research emphasizing individual, technical and theoretical work in the area of Intermedia. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.
- A-S 779 PROBLEMS IN PHOTOGRAPHY.** (3)  
A-S 779 emphasizes sustained individual problems and experimental work in the technical and theoretical problems of photography. May be repeated to a maximum of nine credits. Studio, nine hours per week. Prereq: Twelve credits in upper division studio work and consent of instructor.
- A-S 780 PROBLEMS IN DESIGN.** (3)  
Sustained individual problems and experimental work in the technical and theoretical problems of design. May be repeated two times for a maximum of nine credits. Nine studio hours per week. Prereq: 12 credits in upper division studio work and consent of instructor.
- A-S 793 GRADUATE STUDIO SEMINAR.** (3)  
A studio seminar for graduate students in the studio area, in all areas of concentration. Lectures, discussion and criticism will focus on current formal and theoretical problems in the arts. Emphasis will be placed on the integration of concepts and practices arising in the different fields in the visual arts with critical discourse through monthly group critiques. Required of M.F.A. candidates every Fall semester of their residency. May be repeated to a total of 12 credits. Prereq: Graduate standing in the department.
- A-S 795 INDEPENDENT RESEARCH.** (1-3)  
Advanced studio investigation of art forms, processes, and topics not specially treated in the regular curriculum. May be repeated to a maximum of nine credits. Studio, three hours per week per credit. Prereq: Twelve credits in upper division studio work and consent of instructor.
- A-S 799 M.F.A. STUDIO THESIS PROJECT.** (6)  
Independent research and preparation for the M.F.A. thesis exhibition. For the student working in a highly technical medium or process, the preparation of a correlated written thesis under close guidance will be the outcome. The student will be expected to know the standard forms for photographic records and the preparation of a professional portfolio. Prereq: Normally taken during final semester for graduate study.

## AAD Arts Administration

- #AAD 103 EMOTIONAL INTELLIGENCE FOR ARTS ADMINISTRATORS, PART I.** (1)  
Emotional intelligence (EI) is arguably the most important key to success in one's career and personal life. Emotional Intelligence for Arts Administrators I is the first course in a three-part series that allows students to explore the research and theories of EI, the various dimensions of EI, and EIs applications in the arts. Students will examine their own EI through a variety of self-assessment tools, activities, and exercises. In Part I, students will specifically consider their own self-awareness and explore ways to control their emotions. Prereq: Premajor in Arts Administration.
- \*AAD 150 EXPLORING ARTS ADMINISTRATION.** (3)  
Exploring Arts Administration introduces the field of arts administration to students interested in investigating the connections between art, artists, and audiences. Through class discussions, guest lecturers, research, and field trips, students will explore the breadth and depth of the arts in society and how arts administrators connect art to audiences.
- #AAD 203 EMOTIONAL INTELLIGENCE FOR ARTS ADMINISTRATORS, PART II.** (1)  
Emotional intelligence (EI) is arguably the most important key to success in one's career and personal life. Emotional Intelligence for Arts Administrators II is the second course in a three part series that allows students to explore the research and theories of EI, the various dimensions of EI, and EIs applications in the arts. Students will examine their own EI through a variety of self-assessment tools, activities, and exercises. In Part II, students will specifically focus on motivation, focused listening and asking questions, and empathy. Prereq: Premajor in Arts Administration and completion of AAD 103.
- AAD 250 DIGITAL DESIGN FOR ARTS ADMINISTRATORS I.** (3)  
Effective visual communication has become vital for business in today's global market. AAD 250: Digital Design for Arts Administrators I will explore the powerful graphic and visual design programs of Adobe Photoshop, InDesign, Illustrator and iMovie. Students will develop an 'eye' for design through the exploration of advanced design software, advanced design elements, and peer critiques. Students will demonstrate basic design skills through design projects for both print and the web. Prereq: Enrollment limited to AAD pre-majors prior to add/drop.
- \*AAD 260 DIGITAL DESIGN FOR ARTS ADMINISTRATORS II.** (3)  
A successful organization will have a beautiful and creative online presence through the digital realms of blogging, eNewsletters, and website design. In AAD 260: Digital Design for Arts Administrators II, students will explore topics such as branding, marketing, color theory, and digital analytics. Specifically, students will learn the process of designing, building and maintaining a website that meets an organization's needs. The course will also examine the legal, philosophical, societal and technological issues relevant to delivering information in the 21st century. Prereq: Completion of AAD 250, CIS/WRD 111 or CIS/WRD 112.
- \*AAD 299 ARTS ADMINISTRATION INTERNSHIP ORIENTATION.** (1)  
All students in Arts Administration are required to complete 6-credit hours of internship work. Internships provide an experiential learning opportunity for students to experience real-world circumstances in the arts. AAD 299: Arts Administration Internship Orientation is designed to prepare students for their internship experience. Topics include searching for an internship, resume and cover letter construction, interviewing skills, and professionalism in the workplace. Students must complete AAD 299 before they may register for internship hours. Prereq: Completion of AAD 150, 203, 250 and CIS/WRD 111 or CIS/WRD 112.
- \*AAD 300 MANAGEMENT AND PLANNING FOR THE ARTS.** (3)  
Arts organizations are inherently collaborative. Arts administration students need to understand the concepts and theories of leadership, management and followership in order to contribute effectively in the ever-changing and adaptive environment of arts organizations. AAD 300: Management and Planning for the Arts will explore the principles of arts management, management theory and practice, organizational structure, organizational culture and communication, decision-making and accountability, human resource management and volunteer administration, and ethics and social responsibility. Additionally, students will study the various approaches to conducting strategic planning, using SWOT analysis, as well as identification of strategic issues and the formulation of strategic plans. Prereq: Completion of AAD 150, 203, 250 and CIS/WRD 111 or CIS/WRD 112.
- #AAD 303 COLLABORATION AND TEAMWORK IN ARTS ADMINISTRATION.** (1)  
This course is designed to expand the competencies of students in order to work successfully in teams and build true collaborations. Through structured and unstructured team building, students will analyze and evaluate their own experiences in both leading and participating in teams. Special consideration will be placed on the how teams function within arts organizations. Prereq: Major status in Arts Administration and completion of all 100- and 200-level AAD courses and AAD 300.

**\*AAD 305 ARTS ADMINISTRATION BUSINESS COMMUNICATIONS. (3)**

Arts Administration Business Communications introduces students to a variety of technical and business writing theories and practices as they apply in the field of arts administration. The course introduces students to different communication styles and dynamic processes through the application of a variety of communications techniques including verbal, nonverbal, written, visual, listening, and technological communications. Students will apply business communications principles in the creation of business documents and both oral and visual presentations. Prereq: Completion of AAD 150, 203, 250 and CIS/WRD 111 or CIS/WRD 112.

**\*AAD 310 MARKETING FOR THE ARTS. (3)**

Connecting and communicating with current and prospective arts audiences is essential for ensuring a strong future for the arts. AAD 310: Marketing for the Arts offers an overview of marketing, advertising, and promotion for visual and performing arts institutions. Students will learn practical strategies and solutions for building audiences for the arts through market research, marketing principles, and communication techniques. Topics include audience development, market segmentation, positioning strategies, marketing plans, media coverage, and promotion techniques. Prereq: Completion of AAD 250, 300, and 305.

**\*AAD 320 FUNDRAISING FOR THE ARTS. (3)**

In the United States, a significant amount of nonprofit arts organizations' income comes from unearned revenue through fundraising. Without substantial knowledge and skills specific to fundraising in the nonprofit sector, arts organizations may not be able to sustain themselves long-term. This course prepares students to understand the function of fundraising in arts organizations and helps them pursue careers in fundraising and development within the nonprofit arts sector. Furthermore, this course will guide students through the key theories, principles, processes, and programs of fundraising. Prereq: Completion of AAD 250, AAD 300, and AAD 310.

**\*AAD 350 FINANCIAL MANAGEMENT FOR ARTS ORGANIZATIONS I. (3)**

Financial management is a core function within the management of cultural and arts organizations. It is the foundation upon which the resources (human, physical and financial) of any organization are maintained and monitored. In the nonprofit sector, the relationship of "mission to money" is an important conceptual framework, and must be understood by arts managers. Financial analysis is an essential requisite for sound strategic planning and governance, and managers of nonprofit arts organizations are the source of financial information. AAD 350: Financial Management for Arts Organizations I is the first of two courses that will guide students through the key conceptual areas of financial management. Part I includes understanding the basic principles of accounting, legal reporting requirements, reading financial statements and interpreting performance measurements. Prereq: Completion of AAD 300, 303, 310 and UK Core Quantitative and Statistical requirements.

**#AAD 353 EMOTIONAL INTELLIGENCE FOR ARTS ADMINISTRATORS, PART III. (1)**

Emotional intelligence (EI) is arguably the most important key to success in one's career and personal life. Emotional Intelligence for Arts Administrators III is the third course that will guide students through the key conceptual areas of financial management. Part III includes understanding the basic principles of accounting, legal reporting requirements, reading financial statements and interpreting performance measurements. Prereq: Major status in Arts Administration and completion of all 100- and 200-level AAD courses and AAD 303.

**\*AAD 370 FINANCIAL MANAGEMENT FOR ARTS ORGANIZATIONS II. (3)**

Financial management is a core function within the management of cultural and arts organizations. It is the foundation upon which the resources (human, physical, and financial) of any organization are maintained and monitored. In the nonprofit sector, the relationship of "mission to money" is an important conceptual framework, and must be understood by arts managers. Financial analysis is an essential requisite for sound strategic planning and governance, and managers of nonprofit arts organizations are the source of financial information. AAD 370: Financial Management for Arts Organizations II is the second of the two financial management courses that will guide students through the key conceptual areas of financial management. Part II includes creating mission-driven budgets, developing cost-benefit analyses, managing cash flow, endowment and capital management, and understanding the use and purpose of economic impact studies. Prereq: Completion of AAD 320 and 350.

**\*AAD 390 PROGRAMMING AND EVENT PLANNING. (3)**

Arts programming and events are at the core of all arts and cultural organizations. AAD 390: Programming and Event Planning will prepare students for planning and implementing arts programs and events by considering organizational mission and vision; planning processes and logistics; collaboration and individual responsibilities; marketing and fundraising strategies, budget management; and evaluation. Students will be introduced to relevant programming theory and research methodologies for planning and evaluating arts programs. Prereq: Major status in Arts Administration and completion of all 200-level AAD courses and AAD 320, AAD 350, and AAD 353.

**AAD 395 INDEPENDENT STUDY IN ARTS ADMINISTRATION. (1-9)**

Supervised individual work in Arts Administration. Restricted to majors with a 3.2 GPA overall/3.5 GPA in major. A learning contract with project clearly defined must be approved by supervising faculty member, program director, and site supervisor (if applicable). May be taken up to 9 credits. Prereq: Major status; 3.2 GPA overall/3.5 in major; consent of instructor.

**AAD 399 ARTS ADMINISTRATION PRACTICUM. (1)**

Under the supervision of a faculty member, students complete on-campus arts administration service projects. At least one of the two projects must be in service to the student's primary art discipline's department or school. Examples of projects might include conducting a publicity campaign for an event, working on a fundraiser, producing a publication, conducting research, updating a website, etc. Pass/fail option only. Learning contract required. Prereq: Arts Administration major or consent of instructor.

**\*AAD 402 SPECIAL TOPICS IN ARTS ADMINISTRATION. (1-6)**

A seminar course which covers special topics in arts administration. May be repeated to a maximum of 12 credits when identified by different subtitles. Prereq: Completion of AAD 300, AAD 310 and AAD 320 or consent of the department.

**#AAD 403 DECISION MAKING IN ARTS ADMINISTRATION. (1)**

People make hundreds of decisions each day. Many decisions are simple. Other decisions require thoughtful deliberation. Yet all decisions, whether simple or complex, involve cognitive processes which are reflected in a variety of different fields of study. In Decision Making in Arts Administration, students will explore the theories and concepts surrounding decision making, decision modes, and decision strategies. Students will use these concepts and apply them to real-world arts administration scenarios. Prereq: Major status in Arts Administration and completion of all 200- and 300-level AAD courses.

**\*AAD 410 ARTS ENTREPRENEURSHIP. (3)**

The arts of the 21st century need skillful, innovative, and imaginative leaders and followers. Students in Arts Entrepreneurship will have the opportunity to work on an entrepreneurial venture that connects with arts, artists and/or arts organizations with identified beneficiaries under the guidance of a faculty member. Students will have the opportunity to bring a project to life through a business or project plan that incorporates all the skills of an arts entrepreneur including project design, event planning, marketing, fundraising, financial management, leadership and followership, and program evaluation. Prereq: Major status in Arts Administration and completion all 200- and 300-level AAD courses. Students enrolled in the Certificate in Innovation and Entrepreneurial Thinking may enroll without the prerequisite courses in their senior year.

**\*AAD 420 ARTS ADMINISTRATION: PRACTICES, POLICIES AND THE LAW. (3)**

Artists and arts administrators are required to work within current cultural, business and legal environments. Thus, students in AAD 420 Arts Administration: Practices, Policies and the Law will discuss cultural policy, management and legal issues that affect the arts, arts organizations and artists. Topics include cultural policy, funding, advocacy, arts and community, First Amendment rights, intellectual property, organizational structure, contracts, labor unions and employee relations. Students will analyze contemporary and historical case studies to expose the cultural, legal and business issues that frame the arts in today's society. Prereq: Major status in Arts Administration and completion all 200- and 300-level AAD courses.

**\*AAD 450 ARTS ADMINISTRATION SENIOR SEMINAR. (3)**

As an advanced seminar course, this course prepares students to enter the job market or pursue graduate studies. It builds upon the other courses in the curriculum as well as practicum and internship experiences. During the course, students will work to revise and prepare electronic portfolios based on written and graphic materials prepared throughout their degree program. Additionally, students will write and critique cover letters and resumes and prepare for job interviews and negotiations. Prereq: Major status in Arts Administration and completion all 200- and 300-level AAD courses. The course should be completed in the final semester of a student's BA program. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for transfer credit to UK.

**AAD 475G MANAGING YOUR ARTISTIC CAREER. (3)**

Artistic careers are exciting, dynamic and meaningful. Yet artists still require the skills and knowledge of business and industry in order to build a successful career. This course will walk you through the steps of setting your goals and the objectives that will guide you in building your career. Using the hybrid format, the course will include presentations of arts administration principles and practices as well as in-person sections tailored to students in Music, Theatre and Dance, and the Visual Arts.

**\*AAD 499 ARTS ADMINISTRATION INTERNSHIP. (1-12)**

The Arts Administration internship experience provides each the student the opportunity to explore specific career interests in the arts while applying knowledge and skills learned in the classroom in a work setting with the support of both an on-site supervisor and a faculty advisor.

The primary goals of an arts administration internship include 1) acquiring first-hand knowledge about the field of arts administration; 2) exploring new professional activities and relationships; 3) applying classroom knowledge and skills to the work environment; 4) experiencing problems and contributing to solutions in the field; 5) learning by doing; and 6) building professional networks.

Internships also aid students in identifying which skills need more development prior to graduation. One credit hour is equal to 50 work hours. This is a controlled enrollment course and a completed Learning Contract is required. Prereq: AAD 299; Major status in Arts Administration; Controlled Enrollment; Learning Contract Required.

**AA500 THE ARTS AND ARTISTS IN SOCIETY. (3)**

The arts and artists have influenced concepts of love, war, religion, race, ethnicity, and gender and have helped societies face problems, celebrate accomplishments, mourn losses, beautify environments, and drive economies. The course allows students to investigate the intersection of arts and civic life. Through the exploration of topics including the intrinsic and extrinsic value of the arts; and social, economic, and political trends, students will learn the role of the arts and artists in historical and contemporary society. Prereq: Undergraduate Arts Administration students: senior status.

**\*AA502 SEMINAR IN ARTS ADMINISTRATION. (1-6)**

A seminar course which covers special topics in arts administration. May be repeated to a maximum of 9 credits when identified by different subtitles.

**#AA521 NONPROFIT BOARD GOVERNANCE. (1)**

The concept of governance is critical in the nonprofit sector. Governing boards are a vital component for the success of nonprofit organizations. AA521 Nonprofit Board Governance is designed to provide an understanding of how a nonprofit is governed through a volunteer board of directors. In this course, students will explore the fundamentals of governance, trusteeship, and leadership in nonprofit organizations. Additionally, students will analyze legal, fiduciary and ethical responsibilities of nonprofit boards in order to critically understand the role of board leadership. Prereq: Undergraduate students: AAD 350 and senior status. Graduate and certificate students: AAD 625 or AAD 626.

**#AA531 SOCIAL MEDIA MARKETING, PROMOTION, AND BRANDING FOR ARTS ORGANIZATIONS. (1)**

For most people, social media has become a place for news, networking, and keeping in touch. Today's arts organizations have a golden opportunity to tap into this hybrid form of word-of-mouth marketing to promote their own brands, share news and events, and tap into the wants and needs of their patrons and donors. In this course, students will learn the foundations of social media marketing through platform selection, content management, and posting techniques. Additionally, students will explore how to engage with an online audience and encourage user generated content by using various tools and techniques. Lastly, students will learn to read analytical data received from online engagement with digital marketing content. Prereq: For graduate students, no prerequisite courses are required. Undergraduate students must have permission from the instructor.

**#AA532 LIVE STREAMING EVENTS AND INTERACTIVITY FOR ARTS ORGANIZATIONS. (1)**

Live streaming video on a variety of social media sites has become a popular method of promoting a brand, enabling users to share content, and creating a high level of engagement with patrons and donors. Yet, with this tool, arts organizations grapple with a wide range of issues, including quality, purpose, and relevance. This course will explore how arts organizations can leverage this tool to increase brand awareness and provide an engaging platform for patrons, donors, and others to interact with the organization and its products. Prereq: For graduate students, no prerequisite courses are required. Undergraduate students need permission from instructor.

**#AA535 BRAND DEVELOPMENT FOR ARTS ORGANIZATIONS. (3)**

A powerful brand can propel a business, entrepreneur, or non-profit to reach its full potential. By connecting simple concepts to complex practices in the arts, strategic branding enables patrons, donors and stakeholders to better connect, and ultimately give, buy, and participate on a higher level. Elements such as writing tone and style; logo and its specific applications; use of color, pattern and spatial organization; social media practices; and public outreach events can either build a more powerful, clear brand or distract from that desired brand and mission. In this course, students will learn how to effectively assess existing arts brands and identify techniques to improve upon them, as well as learn how to build a new arts brand. Prereq: Undergraduate students: AAD 310 and senior status. Graduate students: AAD 600 and AAD 630.

**AA542 GRANT WRITING FOR NONPROFIT ORGANIZATIONS. (3)**

The competitive grant proposal process is the ultimate exercise in organizational capacity, yet the process itself can be elusive. In AA542 Grant Writing for Nonprofit Organizations, students will develop proposal writing, development, and research skills. Specific topics will include writing style and format, advanced analysis of tone, institutional prospect research, program design, strategic planning, building a case for support, identifying funding sources, creating the letter of intent, evaluation, sustainability, organizational capacity, and grant writing ethics. During this course, students will identify, work closely with, and write a complete grant proposal for a nonprofit organization of their choice.

**AA555 FUNDRAISING: IDENTIFYING AND CULTIVATING INDIVIDUAL DONORS. (3)**

This course will help students develop the necessary skills for soliciting contributions from individuals by focusing on the identification, cultivation, solicitation, and acknowledgement of contributions to arts organizations. Students will learn how to identify potential donors and create a "case for giving" that aligns with the arts organization's mission before creating targeted fundraising campaigns. The course will also include creative and effective methods of retaining donors. Students will not only be thinking about how to present an "ask" to potential arts donors, but actually demonstrating it through real-world activities. Prereq: For graduate students, no prerequisite courses are required. Undergraduate students must meet two key criteria before being able to register and enroll into this course: First, they must be classified as seniors at the university (successfully completed 90 credits of coursework). Second, they must have "full major status" in the Arts Administration program before registering and enrolling into this course.

**AA560 TEACHING ARTISTRY FOR SCHOOL-BASED PROGRAMS. (3)**

By giving students both the understanding and skills necessary to create engaging artistic experiences, AA560: Teaching Artistry for School-based Programs provides students preparation for reaching out to people and communities of diverse backgrounds. Participants will learn the essential skills, strategies, and processes of teaching artistry and arts education for arts organizations. Building from a historical perspective, students will practice teaching artistry by learning how to "open up works of art" and create interactive performances and art exhibits. Course content will also include classroom lesson and assessment creation as well as models of education utilized in professional arts organizations.

**AA565 COMMUNITY ENGAGEMENT IN THE ARTS. (3)**

The purpose of all arts-programming activities is to engage attendees somehow. Through a thorough case study\*, students explore the various ways arts administrators can provide community-engaging activities within their cultural organizations. The exploration includes assessing the risks taken by patrons to participate in the arts as well as identifying constituents and determining how to communicate with them. Students will not only learn to build strategies that identify program relevancy and engagement, but also explain why community engagement is essential for meeting an organization's goals. Plus, students will analyze how an organization relates to the public it serves. Finally, students will have an opportunity to organically develop an engagement plan that includes community-engagement activities as well as the evaluations that assess the effectiveness of those activities. NOTE: \*This course requires each student to choose one cultural organization in his or her community to research and serve as a case study throughout the entire course. Please see the syllabus for complete details and direct any questions to the instructor.

**\*AA585 ARTS EMERGENCY MANAGEMENT: CREATING A RESILIENT ORGANIZATION. (3)**

The frequency of natural disasters, terrorist attacks, and data breaches across the globe and the dramatic retelling of them on various media outlets has created an expectation that emergency plans be developed and routinely updated for areas of public assembly, including arts and culture venues. This course provides a sociological overview of community actions and reactions to disasters as well as a customized planning approach for arts managers and artists in preparing for emergencies. Prereq: For graduate students, no prerequisites are required. For undergraduate students, they must be classified as a senior (successful completion of 90 credit hours) and have "full major" status in the BA in Arts Administration.

**AA600 ARTS ADMINISTRATION TECHNOLOGIES. (3)**

From brochures to web sites to video, arts organizations are investing more time and resources in effectively communicating with the public. As such, arts administrators must be skilled in utilizing current technology to convey messages. In this course, students will learn a variety of software applications that will aid in the successful creation of print materials, web sites, video and other multi-media presentations. Additionally, the course will introduce concepts of design principles and relevant theories.

**AA620 MANAGEMENT AND LEADERSHIP IN THE ARTS. (3)**

People are the basis of arts organizations. Understanding the factors that determine individual actions and interactions, being able to solve problems, capitalize on new opportunities and reach goals is necessary for being a successful leader in a work environment. As such, this course focuses on the planned, systematic process in which applied organizational theory and behavioral science principles and practices are introduced into organizations, toward the goal of increasing organizational and individual effectiveness. The course prepares students to organize and motivate people within an arts organization, manage social environments, and execute strategic change. Topics explored include organizational design, decision-making, conflict resolution, designing effective reward systems, team building, and organizational dynamics and culture. Additionally, students will focus on reflecting upon their own leadership skills and abilities.

**AA625 FINANCIAL MANAGEMENT FOR ARTS ORGANIZATIONS. (3)**

Financial management is a central function of successful arts management. It is the foundation in which human, physical, and financial resources are maintained and monitored. In the nonprofit sector, the relationship of "mission to money" is a key conceptual framework that must be understood by arts managers and will be emphasized in this course. In addition, arts managers are the source of financial information to both internal and external stakeholders, and successful financial analysis is essential for sound strategic planning and governance. This course guides students through key topics of financial management including accounting practices, time value of money, interpreting financial statements, creating mission-driven budgets, analyzing cash-flow, and managing investments.

**#AA626 FINANCIAL MANAGEMENT FOR FUNDRAISING. (3)**

Financial management is a central function of successful nonprofit fundraising. In the nonprofit sector, the concept of contributed income is a key framework that must be understood by fundraisers and will be emphasized in this course. In addition, professional fundraisers are the source of financial information to both internal and external stakeholders, and successful financial analysis is essential for sound strategic planning and governance. This course guides students through key topics of financial management including accounting practices, contributed and earned revenue, time value of money, interpreting financial statements, creating mission-driven budgets, analyzing cash-flow, and managing investments.

**#AAD 629 ORGANIZATION THEORIES IN ARTS ADMINISTRATION.****(3)**

Organization theory examines the inner workings of institutions in an attempt to understand organization functionality. For this course, theories are drawn from numerous disciplines including arts management, business administration, nonprofit management, and public administration. Additionally, theories may be classical, foundational, modern, postmodern, and/or critical. Specifically, this course explores various organizational theories that are relevant to running and studying nonprofit arts organizations. Through readings and critical analysis, students will establish a conceptual framework in which to design a research study. Prereq: Arts Administration PhD student or consent of the Department of Arts Administration.

**AAD 630 MARKETING RESEARCH AND PLANNING FOR ARTS ORGANIZATIONS.****(3)**

Arts managers are consistently faced with the challenge of connecting arts offerings with an audience. Understanding the possible markets and developing strategies to reach the desired audience are part of every arts organization's primary administrative activities. Throughout this course, students will explore theories and frameworks crucial to the marketing function including product development, market research, consumer behavior, brand development, pricing strategies and promotion techniques. Students will utilize the knowledge to analyze marketing strategies, investigate consumer behavior and conduct primary and secondary marketing research for an arts organization. Prereq: AAD 600.

**AAD 640 PRINCIPLES OF FUNDRAISING.****(3)**

Most nonprofit organizations earn more than half of their total annual revenue from contributed sources, including funds from businesses, foundations, government, and individuals. This course will examine how each of these entities are identified, researched, cultivated, solicited, and stewarded, in context of the organization's fundraising cycle. Students will learn practical development techniques such as crafting a case for support, how to identify government and foundation grant programs, the basics of planned giving, donor research and solicitation plans, and carrying out both fundraising and stewardship events. The philosophies and theories that underlie the concept of charitable giving will also be examined, as will the ethical considerations inherent in the development process. During this course, students will identify, work closely with, and write a complete strategic development plan for a nonprofit organization of their choice. Prereq: AAD 600 and AAD 625, or consent of instructor.

**AAD 650 THE ARTS AND THE LAW.****(3)**

How does art interact with law? How does law impact artistic creation? How can arts administrators ensure that their organization legally protects itself? Understanding the legal environment in which arts organizations exist and artists create empowers arts administrators to make sound and reasoned decisions. Throughout this course, students will be exposed to a variety of legal topics related to artistic creation and the managing of arts organizations. The course will provide historical and contemporary introduction to the laws and policies, both in the United States and internationally, related to intellectual property, First Amendment, cultural property, human resource management, labor relations, immigration and cultural exchange, and contract development and enforcement.

**#AAD 655 CULTURAL POLICY.****(3)**

Arts and culture institutions operate in complex environments with policies that shape the kinds of artistic creations that are created, produced, disseminated, marketed, funded and preserved. What are these policies in the United States? Who are the policy actors? Who implements policy? Who enforces policy? How do you create new policies?

This course explores regulatory and provisional areas of public policy as well as cultural policy specifically. Historical and contemporary policy issues related to arts education, creative economy, cultural facility infrastructure, employment, equity, funding, and preservation will be investigated. Prereq: Arts Administration PhD student or consent of the Department of Arts Administration.

**AAD 660 SOCIAL AND CULTURAL ENTREPRENEURIALISM.****(3)**

Utilizing entrepreneurial concepts, social entrepreneurs use innovative solutions in order to achieve social change. Social entrepreneurialism is a burgeoning field that is garnering attention from investors, philanthropists, foundations and nonprofit leaders in order to achieve meaningful social returns while maintaining financially viable organizations. This course introduces students to the field of social entrepreneurship and explores how to start, grow and maintain successful mission-driven cultural ventures.

**#AAD 665 CREATIVE CITIES, CREATIVE PLACEMAKING, AND COMMUNITY VIBRANCY.****(3)**

This course examines an array of contemporary approaches to building the economic, physical, and social dimensions of cities structured around creativity, culture, and the arts. Historical underpinnings, trajectories, and problems of these approaches are explored through lectures, readings, student research, and discussions. Creative cities, the creative class, creative placemaking, and the like as "new" ways to further urban development have gained popularity yet remain problematic and raise important issues in how cities develop and how different people in those cities experience these approaches. Prereq: The course is restricted to PhD in Arts Administration students.

**#AAD 690 CREATING AND EVALUATING NEW ARTS PROGRAMS.****(3)**

Successful programs that meet the needs of current and potential audiences are the cornerstone of arts organizations. This course includes the necessary skills for designing, implementing, and evaluating a mission-based program for the arts. Students will utilize research techniques to determine the feasibility of a new program, both internally and externally to the organization. While developing an operating budget, students will include expenses from both earned and unearned revenue sources. Students will learn the process of implementing a new program and

applying audience development strategies. Finally, students will use various evaluation tools and create a timeline to evaluate the program for its effectiveness. Throughout the course, students will create a new program for an actual non-profit arts organization by preparing a proposal for board approval. Prereq: AAD 625 and AAD 630.

**AAD 695 INDEPENDENT STUDY IN ARTS ADMINISTRATION.****(1-6)**

Supervised individual work in Arts Administration. Restricted to majors. A learning contract with project clearly defined must be approved by supervising faculty member, program director, and site supervisor (if required). May be taken up to 6 credits. Prereq: Restricted to majors.

**AAD 699 INTERNSHIP IN ARTS ADMINISTRATION.****(3)**

Students without substantial work experience in the field of Arts Administration are required to complete three credit hours of internships in order to graduate, and must work at least 50 hours for each credit hour earned. While students are ultimately responsible for finding and completing their internships, students do receive ample support and assistance from Program faculty throughout the process. The activities to be carried out during internships must be mutually agreed upon by the student, their faculty supervisor and the host organization supervisor. Most internships are completed during the summer between the student's first and second year in the program. However, internships can also be completed during spring and fall semesters, or the summer after students have completed their regular course work.

**#AAD 720 SUSTAINING LEADERSHIP IN THE ARTS.****(3)**

This course offers a theoretical and practical understanding of leadership for arts and cultural organizations. Students will be exposed to various leadership theories, models, and issues from many different fields, such as arts management, business administration, nonprofit management, and public administration with a specific attention given to running arts and cultural organizations. Sustaining Leadership in the Arts also explores emerging, critical, and contemporary leadership issues including diversity, equity, and inclusion in arts and cultural leadership. Prereq: Arts Administration PhD student or consent of the Department of Arts Administration.

**AAD 730 MARKETING STRATEGIES AND APPLICATIONS FOR ARTS ORGANIZATIONS.****(3)**

Effective implementation of a marketing plan and marketing strategies brings an audience and arts organization together. In AAD 730: Marketing Strategies and Applications for Arts Organizations, students will learn the components and construction of a strategic integrated marketing communications plan. The process will allow students to make reasoned and sound marketing decisions for an arts organization based on marketing research conducted in AAD 630: Marketing Research and Planning for Arts Organizations. Additionally, students will utilize their skills in writing, graphic design, and communications to create effective marketing messages in a variety of mediums. Prereq: AAD 630.

**AAD 740 FUNDRAISING TECHNIQUES.****(3)**

This course will explore how the development theories examined in AAD 640 Principles of Fundraising are organized into actionable fundraising techniques and products. Students will continue working with their chosen organization from AAD 640 to create the many projects conceived in the strategic development plan. Emphasis will be placed on fundraising device creation, goal setting, case development, the donor-centric communication style, prospect identification, pre-campaign testing, campaign execution, practicing the major gift ask, and donor stewardship devices. The course will also cover how these campaigns are supported by planned giving methods, databases, and web-based applications, as well as related legal and ethical issues. Prereq: AAD 640.

**AAD 745 VENTURE PHILANTHROPY.****(2)**

This course seeks to challenge the systemic impact of venture philanthropy and empower access by applying an Indigenous-centric approach marked by democratizing, revitalizing, and reframing. Prereq: AAD 640 Principles of Fundraising or department approval.

**†AAD 750 CAPSTONE COURSE IN ARTS ADMINISTRATION.****#AAD 767 ARTS ADMINISTRATION DISSERTATION RESIDENCY CREDIT.****(2)**

Residency credit for dissertation research after the qualifying comprehensive examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended. Prereq: Passing the qualifying examination for the PhD in Arts Administration.

**#AAD 790 ARTS AND CULTURE RESEARCH STUDIES.****(3)**

Arts & Culture Research Studies explores various types of research studies done in the field of arts and culture. Both empirical and theoretical research in many different areas, such as management, governance, leadership, financial management, fundraising, marketing, programming and evaluation, human resources management, audience and community development, cultural economics, and cultural policy will be examined.

The types of research studies explored in this course will include white papers, research papers (articles), books (and book chapters), and websites (emphasis on visual elements). Studies included in this course are from many different fields, such as arts management, business administration, nonprofit management, and public administration but focus on topics in arts and culture management, administration, and policies. By reading and analyzing a number of studies in many different foci, students will be able to gain a broad understanding of arts and culture research and to shape their future research. Prereq: Arts Administration PhD student or consent of the Department of Arts Administration.

**#AAD 795 ARTS ADMINISTRATION RESEARCH PLANNING AND PROPOSAL WRITING. (3)**  
 Arts Administration Research Planning & Proposal Writing is designed to help students learn the significance and components of sound research design and proposal writing. In the course, students will be exposed to various research design approaches of qualitative, quantitative, and mixed methods utilized within arts and culture research. Students will also understand various components of a sound and effective research proposal including the abstract, introduction, purpose statement, literature review, theoretical framework, research questions and hypotheses, and methodology and methods. Within the course, students will work on their research plan and written proposal for their dissertation project. Prereq: Arts Administration PhD student or consent of the Department of Arts Administration.

## AAS African American Studies

**AAS 100 INTRODUCTION TO AFRICAN STUDIES. (3)**  
 This course provides a basic overview of African histories, cultures and societies. (Same as HIS 100.)

**AAS 168 ALL THAT SPEAK OF JAZZ: AN INTELLECTUAL INQUIRY INTO JAZZ AND DEMOCRACY (3)**  
 This course is a hybrid cultural studies seminar and creative composition course that explores jazz theory as a philosophical artistic practice rooted in American democracy. It investigates jazz aesthetics as a literary, visual, and musical art form, and it examines theories of jazz composition as philosophical statements in direct conversation with the principles of U.S. democracy. The course also explores the philosophical and aesthetic connections of jazz literature to surrealist and existentialist artistic movements in modern and postmodern cultural contexts. Artists to be discussed include James Baldwin, Harryette Mullen, and others. The theoretical aspects of this course will demonstrate how jazz has been a source of inspiration for a variety of twentieth-century literatures and theoretical practices. The readings include selections of fiction, poetry, drama, and essays with emphasis on jazz literary modes, creative trends, and political connotations specific to African American literature and culture. (Same as ENG 168.)

**AAS 200 INTRODUCTION TO AFRICAN-AMERICAN STUDIES. (3)**  
 An interdisciplinary course which establishes the intellectual context for an examination of the African-American experience; it introduces students to the various approaches scholars use to analyze that experience. This course employs a topical framework which permits focus on issues reflecting the diversity and richness of African-American experience across geographic boundaries. Additional costs associated with field trips may be associated with this course. It is anticipated the cost will be under \$50.

**AAS 235 INEQUALITIES IN SOCIETY. (3)**  
 This course seeks to promote an understanding of inequalities in American society by considering them in the context of the social origins, development, and persistence of inequalities in the United States and other societies. Bases of inequality that may be considered include race/ethnicity, class/status, gender/sexuality, age, political and regional differences as these relate to politics, social justice, community engagement, and/or public policy. Prereq: SOC 101 or CLD 102. (Same as SOC 235.)

**AAS 253 HISTORY OF PRE-COLONIAL AFRICA. (3)**  
 This course examines the early history of Africa, from human evolution to colonization by European powers in the late 19th century. Topics include: the development of states from kinship based forms of political organization, the political, cultural, and social transformations that accompanied African conversion to Islam, a close examination of oral epic poetry as a window into medieval empire-building in the Sahel, an extended conversation about the role of Africa in the transatlantic slave trade, and a discussion of the dilemmas faced by African rulers in the era of partition on conquest by European powers. Successful students will gain a thorough introduction to the major developments in the early history of Africa, which will serve as a solid foundation for further coursework in African history and other African studies courses. (Same as HIS 253.)

**AAS 254 HISTORY OF COLONIAL AND POSTCOLONIAL AFRICA. (3)**  
 This course is a survey of the history of Africa from the onset of colonial rule in the 1880s to the present. Its main objective is to introduce students to some of the major socio-political and economic developments that made Africa what it is today. The course will explore themes such as the European conquest of Africa and Africans' responses, African nationalism and struggles for independence, as well as post-colonial African politics and economic (under)development. (Same as HIS 254.)

**AAS 260 AFRICAN AMERICAN HISTORY TO 1865. (3)**  
 A study of the Black experience in America through the Civil War. An examination of the African heritage, slavery, and the growth of Black institutions. (Same as HIS 260.)

**AAS 261 AFRICAN AMERICAN HISTORY 1865-PRESENT. (3)**  
 This course traces the Black experience from Reconstruction to the Civil Rights Movement of the 1960's. The rise of segregation and the ghetto and aspects of race relations are examined. (Same as HIS 261.)

**AAS 263 AFRICAN AND CARIBBEAN LITERATURE AND CULTURE OF FRENCH EXPRESSION IN TRANSLATION (Subtitle required). (3)**  
 This course treats major cultural questions concerning the exchange between Africa and the Caribbean in terms of historical, sociological, political, and literary events. No knowledge of French is required. (Same as FR 263.)

**\*AAS 264 INTRODUCTION TO BLACK WRITERS. (3)**  
 An introduction to written and oral works by Black authors of Africa, the Caribbean, and the United States. The course includes writers such as Chinua Achebe (Africa), Wilson Harris (Caribbean), and Toni Morrison (USA), as well as others from the diverse field of literature written by African-American authors and authors of color worldwide. Attention will be paid to student writing, particularly to devising a thesis, crafting an argument, and learning how to use supporting evidence. See departmental listings for different offerings per semester. Offers UK Core credit for Intellectual Inquiry in the Humanities. Fulfills ENG premajor requirement. Can be taken for ENG Major Elective credit. Provides ENG minor credit. Credit will not be given to students who already have credit for ENG 264. (Same as ENG 260.)

**AAS 300 HISTORY OF JAZZ. (3)**  
 A listening survey course covering the chronological evolution of jazz from its West African and European roots, through its germination in America, to the present. Emphasis will be on the various styles and functions of jazz, particularly as they have been affected by changing social-cultural patterns during the twentieth century. (Same as MUS 300.)

**#AAS 301 INTRODUCTION TO THE AFRICAN DIASPORA. (3)**  
 The course will explore the making of the African Diaspora in the Atlantic and Indian Ocean worlds through a combination of historical and ethnographic studies. How did men and women of African descent come to populate and shape the cultures, economies, and politics of the Americas and South Asia? The course will begin with an examination of African cultures in the centuries leading up to European colonization of the Americas and the advent of the Atlantic slave trade. The spread of Islam and Christianity and the growth of empires in East and West Africa will be discussed as part of understanding the traditions and practices which Africans brought with them to the Americas and throughout the Indian Ocean world. We will look at the development of the African Diaspora in the Middle East and South Asia in order to more fully contextualize the western development of the diaspora. The course ends with an examination of African Americans in the United States.

**AAS 326 CONTEMPORARY AFRICAN LIVES. (3)**  
 What do you think when you hear AFRICA? This course goes beyond the words, images and stereotypes that we typically learn from western news reports, popular media and mainstream descriptions of issues on the continent. Our goal will be to examine, and challenge, many of the popular portrayals of Africa, and thus build a more realistic and grounded understanding of the region. We will consider issues of geography, social organization and family life, health and food security, economy and ecology, and politics and identity. But our examination will draw from African sources and people living on the continent, as well as media built on long term engagement with the multitude of African nations. We will investigate how social, economic and global systems come together to produce the diversity of lives across the vast region. We will also discover positive, hopeful and sustainable aspects of African life with attention to local people's solutions and efforts to build the lives they want. Ultimately, we will come away with both better understanding of the complex reality of "Africa", and with analytical tools for examining other complex, but often stereotyped, issues in society more broadly. Prereq: Sophomore standing or higher. (Same as ANT 326.)

**AAS 328 GEOGRAPHY OF THE MIDDLE EAST AND NORTH AFRICA. (3)**  
 A comprehensive regional overview, emphasizing cultural adaptation to desert environments. The interrelationships among religions, cultures, and the physical environment will be examined, along with the region's position and influence in the global system. Prereq: GEO 152, GEO 160, GEO 172, or consent of instructor. (Same as GEO 328.)

**AAS 336 GEOGRAPHY OF SUB-SAHARAN AFRICA. (3)**  
 This course focuses on the cultural and environmental geographies of the subcontinent, rural landscapes and cultures and environmental problems, the historical geography of precolonial and colonial Africa, and the social geography of contemporary economic development. Prereq: GEO 130 and 152, 160, or 172. (Same as GEO 336.)

**AAS 360 RACE AND SPORTS IN AMERICA. (3)**  
 This reading seminar examines the history of race and sport in America. (Same as HIS 360.)

**AAS 384 BLACK THEATRE WORKSHOP. (3)**  
 A workshop that explores the history, literature and performance of theater artists of the African diaspora. (Same as TA 384.)

**AAS 400 SPECIAL TOPICS IN AFRICAN-AMERICAN AND AFRICANA STUDIES (Subtitle required). (3)**  
 Detailed investigation of a particular topic in African-American and Africana Studies, with emphasis both on content and existing research. Topics will vary from semester to semester and are announced the preceding semester. May be repeated up to 12 credit hours when identified by a different subtitle. Prereq: AAS 200.

**AAS 401 INDEPENDENT READING AND RESEARCH IN AFRICAN-AMERICAN AND AFRICANA STUDIES.****(3)**

For African-American and Africana Studies majors and minors. The student pursues a course of reading and research under the guidance of a staff member and completes a major research project. A written contract defining the area of study is negotiated between student and instructor at the beginning of the course. May be repeated to a maximum of six credits. Prereq: African-American and Africana Studies major or minor, twelve hours of African-American and Africana Studies major or minor courses, including AAS 200.

**AAS 417G SURVEY OF SUB-SAHARAN POLITICS.****(3)**

A survey of sub-Saharan government and politics intended to give the student broad knowledge about the setting of African politics, precolonial African political systems, the political legacies of major European colonial powers, and problems of political development. Prereq: PS 210 or 212. (Same as PS 417G.)

**AAS 420 AFRICAN-AMERICAN RELIGIOUS EXPERIENCE.****(3)**

This course explores and examines how African Americans shaped and fashioned their religion to meet their own peculiar needs as they responded to historical occurrences.

**AAS 432 RACE AND ETHNIC RELATIONS.****(3)**

Analysis of relationships between racial and ethnic groups and the behavioral products thereof. Sources and consequences of prejudice and discrimination. Situation and prospects of minorities. Strategies of change and tension reduction. Prereq: Six hours of social science or consent of instructor. (Same as SOC 432.)

**AAS 433 TOPICS IN SOCIAL INEQUALITIES (Subtitle required).****(3)**

A sociological study of topics relevant to social inequalities and stratification. May be repeated under different subtitles to a maximum of six credits. Prereq: Six hours of social science or consent of instructor. (Same as SOC 435.)

**#AAS 469 THE KENTUCKY AFRICAN AMERICAN EXPERIENCE.****(3)**

This course offers a general perspective of the African American experience in Kentucky. Students will discuss the social, political, economic, and cultural dimensions of black life in the state from the earliest settlement to the present. This course will also highlight the people, places, events, organizations, and institutions that have been pivotal to the Kentucky African American experience. (Same as HIS 469.)

**AAS 471 RACE, ETHNICITY AND POLITICS.****(3)**

An examination of the role that race and ethnicity play in the political arena. Students will explore the nature of race, racism, and ethnocentrism, as well as their impact on political institutions and public policy. Particular attention will be given to elections, public opinion, mass media and social movements in the United States. (Same as PS 471.)

**#AAS 500 AFRICAN AMERICAN LIVES.****(3)**

This course will introduce students to the study of African American life, culture, and history as well as interdisciplinary modes of inquiry that engage the arts, history, literature, and social science. Major topics covered will be the history of race in America, the long Black freedom struggle, and African American epistemologies and methodologies.

**AAS 523 SOCIAL PERSPECTIVES ON RACISM AND ETHNIC PREJUDICES IN AMERICA.****(2-3)**

The course is designed to provide the knowledge needed in understanding the dynamics of institutional racism from a broader perspective of five specific ethnic minorities in rural and urban America. Particular emphasis is placed upon planned community change and strategies pertinent to minority group communities. Students who wish to make a special, in-depth study of one of the specified content areas may take this course for one additional credit. Prereq: Consent of instructor. (Same as SW 523.)

**AAS 535 ADVANCED TOPICS IN SOCIAL INEQUALITIES (Subtitle required).****(3)**

A sociological study of topics relevant to social inequalities and stratification. May be repeated to a maximum of six credits under different subtitles. Prereq: Graduate student status; undergraduates with consent of instructor only. (Same as SOC 535.)

**AAS 545 PSYCHOLOGY OF THE BLACK EXPERIENCE.****(3)**

EDP 545, Psychology of the Black Experience, is an elective course in the Department of Educational, School, and Counseling Psychology and is cross-listed with the Africana Studies program and Psychology department. It is designed to offer enrolled undergraduate and graduate students opportunities to survey, explore, and critique classic and contemporary theories and research articulating the psychologies that inform both social and academic experiences and observed behaviors of Black people. While there are multiple objectives for this upper-level undergraduate and graduate-level seminar course, one central objective for the course is to expose all students to literature and research pertaining to the Black experience in the United States in an effort to develop and refine ideas and mindsets that will foster and reflect innovative ways of thinking about how to enhance the life experiences of Black persons. That is, in the course, the primary objective is to have the course material and critical discourse influence your thinking about and actions towards or on behalf of Black persons. Prereq: PSY 100 or AAS 200 or consent of the instructor. (Same as EDP 545.)

**AAS 550 EDUCATION IN A CULTURALLY DIVERSE SOCIETY.****(3)**

This course assists future educators in developing strategies to create an equitable teaching/learning environment where all students are validated, stimulated, and nurtured. Course participants explore the rationale for their current belief systems and perceptions of other cultures; investigate how and why their personal attitudes, behaviors, and expectations affect the academic and social development of children and youth, and examine contemporary educational issues. (Same as EDC 550.)

**AAS 587 THE CIVIL RIGHTS MOVEMENT IN THE U.S. SINCE 1930.****(3)**

This course will focus on the struggle for African American equality in the U.S. during the mid twentieth century. It will examine key civil rights issues, events, strategies, leaders and organizations on both the local and national levels. Using historical documents and documentary film presentations this course will discuss the status of race relations in America over the past fifty years. (Same as HIS 587.)

**AAS 601 THEORIES, PERSPECTIVES, TRENDS AND ISSUES IN MULTICULTURAL EDUCATION.****(3)**

This course provides students with a critical analysis of multicultural education theories, perspectives, current issues, and trends. Students will develop the competencies needed to write scholarly literature reviews, identify areas in multicultural education needing further research studies, and submit papers for review and presentation at professional meetings. Prereq: Graduate standing, EDP 557 or consent of instructor. (Same as EDC 601.)

**AAS 616 MULTICULTURAL PSYCHOLOGY.****(3)**

This course is designed to increase one's sensitivity to and respect for individual differences. Models, frameworks, techniques and experiential exercises are presented to increase one's skill level in working with persons from racially and ethnically diverse backgrounds. Prereq: EDP 600 or equivalent or consent of instructor. (Same as EDP 616.)

**AAS 635 SEMINAR IN SOCIAL INEQUALITIES.****(3)**

This course provides a graduate-level introduction to sociological theory and research on social inequalities and stratification. It includes both classic and contemporary works on topics such as political economy, the state, domination, democracy, work, poverty, welfare, resistance, class, race, ethnicities, and gender. The course serves as a foundational course for graduate students with interests in social inequalities, and is required for Sociology graduate students seeking a specialization in this area. Prereq: SOC 650 or SOC 651 or consent of instructor. (Same as SOC 635.)

**AAS 654 READINGS IN MODERN AFRICAN-AMERICAN HISTORY.****(3)**

Introduces graduate students to the historical literature on 20th century African-American history and major historiographical issues. (Same as HIS 654.)

**AAS 656 BLACK AMERICAN LITERATURE.****(3)**

An in-depth study of black American literature, with concentration on major texts by major black writers. (Same as ENG 656.)

**AAS 657 RACE RELATIONS IN THE UNITED STATES.****(3)**

This seminar focuses on the African American experience in the United States from Reconstruction to the present. Using primary documents and secondary readings, this course will examine the construction of race relations and the individuals, organizations, events, and issues significant to the shaping of the black experience. (Same as HIS 657.)

**AAS 720 SOCIAL WORK PERSPECTIVES ON HUMAN AND CULTURAL DIVERSITY.****(2)**

This second required course in the human behavior and social environment sequence builds upon the foundation course. The focus of this course is upon the effects of discrimination and oppression experienced by diverse population groups with special attention to the effects of racism, sexism, ageism, classism and geography upon vulnerable groups; and upon institutionalized societal and cultural themes in diversity; with implications for social work practice. Prereq: SW 620 or advanced standing in the MSW program. (Same as SW 720.)

**ABT****Agricultural and Medical Biotechnology****ABT 101 INTRODUCTION TO BIOTECHNOLOGY.****(1)**

An introduction to biotechnology: historical perspectives, current applications and future directions. The course will consist of informal lectures and interactive discussions led by Biotechnology faculty and visiting professionals. The course will also orient students to the educational/career opportunities in Biotechnology and assist them in developing a focus for their individualized degree programs. Lecture, two hours per week. Prereq: First year or first semester transfer students in Agricultural Biotechnology. [Offered in fall only.]

**ABT 120 GENETICS AND SOCIETY.****(3)**

This course is designed for science and non-science majors, giving students an understanding of how genetics influences and impacts our social fabric on a daily basis, and equipping students with a sufficient understanding to participate in the policy debates that are impacting our lives. The course will introduce students to the basic concepts of genetics and to the modern methodologies of molecular genetics. The course will also educate students in the process of scientific discovery and empower students with the knowledge and critical thinking skills necessary to evaluate the present and future impact of genetics on society. While the course is intended for first semester freshmen, students at all class standings are welcome to enroll. [Offered in spring only.]

**ABT 201 SCIENTIFIC METHOD IN BIOTECHNOLOGY. (1)**

A course designed to acquaint students with the common experimental methods used in agricultural biotechnology. Students will be presented with several case studies which demonstrate basic scientific reasoning and experimental strategies. The students will then use their understanding of basic scientific methods and agricultural systems to critically evaluate work from the current scientific literature. Each student will be required to provide a written and oral evaluation of a research project in some aspect of agricultural biotechnology. The class will provide the students with the basic skills needed for preparing their own research proposals. Prereq: ABT 101 and enrollment in the Agricultural Biotechnology degree program or consent of instructor. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK. [Offered in fall only.]

**ABT 301 WRITING AND PRESENTATIONS IN THE LIFE SCIENCES. (2)**

The goals of this course are to expose students to current scientific literature in the life sciences, develop skills for the evaluation of primary research literature and presentations, prepare students to write an independent research proposal, and develop oral communication skills. Student participation is a key component of activities, and students are required to provide both oral and written evaluations of research publications, presentations, and proposals. A major part of the course involves students developing, writing, and presenting an independent research proposal in coordination with a research mentor. This course should be taken prior to ABT 395 or ABT 399, and students must identify a research mentor early during the semester. Prereq: Agricultural Biotechnology major or consent of instructor. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK. [Offered in fall and spring.]

**ABT 360 GENETICS. (3)**

The basic principles of heredity as currently understood from evidence accumulated in classical, cytogenetic, molecular, and quantitative genetic experiments. Emphasis is placed on a thorough understanding of genetic principles and the relationship of genetics to all biological disciplines. Prereq: BIO 148, BIO 152 and CHE 105 or consent of instructor. (Same as ENT 360.) [Offered in fall only.]

**ABT 361 GENETICS LAB ONLINE. (1)**

Analysis and interpretation of genetics problems using interactive computer programs. Prereq: ABT/ASC/ENT 360 (should be taken concurrently).

**ABT 395 INDEPENDENT STUDY IN BIOTECHNOLOGY. (1-4)**

Independent study in biotechnology under the supervision of a faculty member. May be repeated to a maximum of six credits. Prereq: Agricultural Biotechnology major and consent of appropriate instructor before registration. [Offered in fall, spring and summer II.]

**ABT 396 RESEARCH EXPERIENCE IN BIOTECHNOLOGY. (1-4)**

ABT 396: Research in biotechnology under the supervision of a faculty member. One to four credit hours/semester. The course may be repeated for a maximum of six credits, but the student must meet the requirements each semester to allow enrollment. This course should further the students' experience with science, enhance their appreciation for the scientific process, and what it means to conduct scientific research. Prereq: Agricultural and Medical Biotechnology major, consent of advisor before registration and identification of a faculty research mentor.

**ABT 399 EXPERIENTIAL LEARNING IN BIOTECHNOLOGY. (1-6)**

An internship in biotechnology under the supervision of a faculty member. May be repeated for a maximum of six credits. Prereq: Consent of the instructor, chairperson for the Agricultural Biotechnology degree program and completion of a learning contract before registration. [Offered in fall, spring and summer II.]

**ABT 460 INTRODUCTION TO MOLECULAR GENETICS. (3)**

Molecular genetics is the study of the biochemical basis of heredity and focuses on the structure and expression of DNA at the molecular and cellular level. The course will provide a detailed understanding of the biochemical events involved in genome replication, prokaryotic and eukaryotic transcription, and translation of DNA, as well as RNA processing, recombination and the theoretical underpinnings of genetic engineering. Prereq: ABT/ENT 360 or BIO 304 or consent of instructor. (Same as ENT 460.) [Offered in spring only.]

**\*ABT 461G INTRODUCTION TO POPULATION GENETICS. (3)**

This survey course examines the population dynamics and equilibria of genes in nuclei, chloroplasts and mitochondria. Emphasis will be on biological relevance (in plants, animals, and micro-organisms), but some theoretical derivations will also be introduced. Prereq: ABT 360 (or equivalent) and one course in probability/statistics. (Same as BIO/ENT/FOR 461.G.) [Offered in spring only.]

**ABT 495 EXPERIMENTAL METHODS IN BIOTECHNOLOGY. (4)**

A laboratory techniques course designed to give students the technical skills and understanding necessary to critically examine biological systems at the molecular level. The course will emphasize the principles of chemistry, biochemistry and molecular biology as applied to a model system for laboratory investigations. Laboratory, nine hours per week. Prereq: ABT/ENT 360 or BIO 304, Agricultural Biotechnology major or consent of instructor. [Offered in fall and spring.]

**ABT 505 EVOLUTION IN AGRICULTURE, MEDICINE AND CONSERVATION BIOLOGY. (3)**

An introduction to modern evolutionary theory with emphasis on its application to current problems in agriculture, the biomedical sciences, and conservation biology. Prereq: Genetics (ABT 360, BIO 304 or equivalent introductory genetics course). (Same as ENT 505.)

**ACC Accounting**

**\*ACC 201 FINANCIAL ACCOUNTING I. (3)**

This course is designed to provide an introduction to financial accounting from the users' perspectives. Its primary purposes are to promote understanding of financial accounting information for decision making purposes and to focus on financial accounting's role in communicating business results. Prereq: Successful completion of 27 semester credit hours or consent of the School of Accountancy Director.

**\*ACC 202 MANAGERIAL USES OF ACCOUNTING INFORMATION. (3)**

An introduction to the use of accounting data within an organization to analyze and solve problems and to make planning and control decisions. Prereq: ACC 201 or consent of the Director of the School of Accountancy.

**ACC 211 FINANCIAL ACCOUNTING LAB. (1)**

A laboratory-based approach to introductory financial accounting applications, with the primary focus on the accounting cycle. The primary objective is to promote an understanding of how accounting information is identified, recorded, and processed for financial reporting. Prereq: ACC 201. Enrollment priority will be given to accounting and finance majors.

**\*ACC 221 ACCOUNTING FUNDAMENTALS. (3)**

Examines the basic principles/concepts which govern the recording/reporting of accounting data. This course examines how business transactions affect the financial statements and establishes a framework for understanding how accounting data is transformed into the financial statements and how the statements are used by decision makers. Prereq: Consent of the School of Accountancy Director.

**ACC 222 ACCOUNTING FUNDAMENTALS II. (2)**

Examines the preparation and use of accounting information for management decision making. Provides an understanding of various traditional and contemporary management accounting techniques used to combine and analyze data within a company. This course is specifically designed to help prepare prospective MBA students for the economics and business classes and will not satisfy ANY undergraduate degree requirement. Prereq: Acceptance into MBA program, other graduate program or consent of instructor.

**ACC 300 FINANCIAL ACCOUNTING II. (3)**

This course is designed for non-accounting majors to provide expanded study of the impact of relevant financial accounting issues on the users of financial reporting. Topics may include financial statements; income recognition; cash and receivables; inventories; operational assets; investments; intangible assets; current liabilities; long-term liabilities emphasizing leases, pensions, postretirement benefits, and bonds; financial instruments; accounting for income taxes; and owner's equity. Not open to Accounting majors. Prereq: ACC 201 and ACC 202.

**ACC 301 INTERMEDIATE ACCOUNTING I. (3)**

This course is the first of a two-course financial accounting series, providing in-depth study of the accounting cycle, conceptual framework of financial accounting, valuation of balance sheet accounts, recognition of revenues, matching of expenses, and the reporting of the financial condition, operating results, and cash flows of an entity. Prereq: A grade of C or better in ACC 201 and ACC 202 or consent of the Director of the School of Accountancy.

**ACC 302 INTERMEDIATE ACCOUNTING II. (3)**

This course is the second of a two-course financial accounting series, providing an in-depth study of the accounting cycle, conceptual framework of financial accounting, valuation of balance sheet accounts, recognition of revenues, matching of expenses, and the reporting of the financial condition, operating results, and cash flows of an entity. Prereq: ACC 301 or consent of the Director of the School of Accountancy.

**ACC 324 ACCOUNTING INFORMATION SYSTEMS. (3)**

This course focuses on two major components of accounting information systems: conceptual models and physical implementation. Accounting systems are studied from an accounting cycles perspective, emphasizing the nature and relevance of accounting internal controls and the relationship of accounting systems to the functional areas of accounting. Using contemporary information technology, students analyze, design, and implement accounting systems along with relevant internal control structures. Prereq: A grade of C or better in ACC 201 and ACC 202 or consent of the Director of the School of Accountancy.

**#ACC 356 PRINCIPLES FOR THE FINANCIAL PLANNER. (3)**

This course introduces the principles of financial planning from a professional perspective; applying basic financial, economic, and institutional concepts to advise individuals, families, and small businesses in achieving their financial goals. Tools and topics include financial analysis, budgeting, credit management, time value of money, investment strategies, income taxes, risk management, and retirement and estate planning. This class does not count as an accounting elective for the accounting major. Prereq: The student must have completed 60 hours of college credit courses.

**#ACC 357 TAX PLANNING FOR THE PROFESSIONAL FINANCIAL PLANNER. (3)**

The course covers tax planning for the Personal Financial Planner. This course is targeted for Finance or Accounting majors as well as current CPAs interested in pursuing financial planning as a career but is open to anyone with an interest in a career in personal financial planning. This course is a starting point for understanding the tax issues facing a professional tax planner. This course cannot be counted as an accounting elective for an accounting degree. This course cannot be taken if the student has already taken ACC 407. ACC 407 will count towards the certificate in lieu of ACC 357. Prereq: The student must have completed 60 hours of college credit courses.

**#ACC 360 ACCOUNTING AND TAX FOR SMALL BUSINESS. (3)**

This course provides a deeper evaluation of accounting concepts as an essential tool in managing a small business. Students are exposed to important tax and legal considerations in deciding on the appropriate form for conducting business. This course also explores significant tax-related issues and rules for operating and expanding a small business. Prereq: ACC 202 or consent of department.

**ACC 395 INDIVIDUAL WORK IN ACCOUNTING. (1-6)**

Students confer individually with the instructor. Written paper usually expected and filed in chairperson's office. May be repeated to a maximum of six credits. Prereq: GPA of 3.0 in major, approval of instructor and chairperson.

**ACC 399 INTERNSHIP IN ACCOUNTING. (1)**

A course designed for undergraduate accounting students who, through the Accounting Internship Director, have secured full-time, salaried, career-related positions under the supervision of a sponsoring employer. Enrollment in the course constitutes full-time status. Course may be taken on a pass-fail basis only and for no more than two consecutive semesters, repeated to a maximum of three credits. Prereq: Junior standing in accounting and approval of the Accounting Internship Director.

**ACC 403 AUDITING. (3)**

This course examines the attest function in accounting. Emphasis is placed on audit standards and objectives, including the evaluation of internal control structures for the purpose of determining relevant auditing procedures. Prereq: ACC 301 and ACC 324 or consent of the Director of the School of Accountancy.

**ACC 407 CONCEPTS OF INCOME TAXATION. (3)**

A study of the federal income tax structure with emphasis upon the conceptual foundations of taxation relating to the three types of taxpayers: businesses, individuals, and estates and trusts. Prereq: Junior standing and ACC 202 or consent of the Director of the School of Accountancy.

**ACC 410 NOT-FOR-PROFIT AND GOVERNMENTAL ACCOUNTING. (3)**

This course examines accounting topics specific to not-for-profit entities and various governmental units. Emphasis is placed on the recording of usual transactions, form and content of reports, and analysis of external reports. Prereq: ACC 302 or consent of the Director of the School of Accountancy.

**ACC 418 COST MANAGEMENT. (3)**

Traditional and contemporary concepts and techniques that provide accounting information for management decision making at both strategic and operational levels. Topics include the costing of products and services; project and activity analysis; planning and control methods; and performance measurement. Prereq: ACC 301 or consent of the Director of the School of Accountancy.

**#ACC 457 ESTATE PLANNING. (3)**

The course covers estate planning and taxation for the Personal Financial Planning professional. This course is targeted for Finance or Accounting majors as well as current CPAs interested in pursuing financial planning as a career but is open to anyone with an interest in a career in personal financial planning. This course is part of the sequence for the certificate in Personal Financial Planning. Prereq: ACC 357 Tax Planning for Professional Financial Planners or ACC 407 Principles of Taxation or Consent of Director.

**ACC 507 ADVANCED TOPICS IN TAXATION. (3)**

A study of advanced topics in taxation, including corporate taxation, accounting for income taxes, and international tax. Prereq: ACC 302 and ACC 407 or consent of the Director of the School of Accountancy.

**ACC 508 CONTROLLERSHIP. (3)**

A comprehensive study of the controller's objectives, responsibilities, functions, organizational roles, etc. Prereq: ACC 418.

**ACC 516 ADVANCED TOPICS IN FINANCIAL REPORTING. (3)**

A comprehensive study of financial accounting and reporting issues involving business combinations, partnerships, foreign currency transactions, not-for-profit accounting and other current accounting issues. Prereq: ACC 302 or consent of the Director of the School of Accountancy.

**#ACC 520 FINANCIAL PLANNING FOR ACCOUNTING PROFESSIONALS. (3)**

The course is a first step in preparation for a career as a Personal Financial Planning professional. This course is for Finance or Accounting majors as well as current CPAs interested in pursuing financial planning as a career. This course is a first step for those intending to complete the PFS certificate exam given by the AICPA. Prereq: ACC 301, FIN 300.

**ACC 555 FORENSIC ACCOUNTING AND FRAUD EXAMINATION. (3)**

This course will cover the principles and methodology of fraud detection and deterrence. The course includes such topics as skimming, cash larceny, check tampering, register disbursement schemes, billing schemes, payroll and expense reimbursement schemes, non-cash misappropriations, corruption, fraudulent financial statements, and interviewing witnesses. Prereq: ACC 301 or consent of the Director of the School of Accountancy.

**ACC 590 SPECIAL TOPICS IN ACCOUNTING: (Subtitle required). (3)**

Readings, projects, lectures and/or discussion to illuminate current topics of special interest or concern in accounting. May be repeated to a maximum of twelve credits. May not be repeated under the same title. Prereq: Consent of instructor.

**ACC 601 RESEARCH IN ACCOUNTING THEORY. (3)**

Critical examination of accounting concepts and standards. Study of current problems and contemporary developments reflected in accounting literature and reports. Prereq: Admission to MSACC program, or consent of the Director of Graduate Studies.

**ACC 603 ATTEST FUNCTION. (3)**

A critical examination of contemporary professional attestation theory and practice including a comprehensive review of AICPA audit case studies, statements on audit procedure, and their application in simulated business situations. Prereq: ACC 403 and admission to MSACC program, or consent of the Director of Graduate Studies.

**ACC 605 INTERNAL AUDITING. (3)**

This course provides students an understanding of the internal audit profession and the internal audit process. Topics that will be included in this course are: the professional practices framework for internal auditing, organizational governance, risk and control issues, and experience in conducting internal audit engagements. It provides the basic preparation for students to take positions in auditing, compliance, risk management and process improvement. Prereq: Graduate standing.

**ACC 610 NOT-FOR-PROFIT AND REGULATORY ACCOUNTING. (3)**

A study of the contemporary issues in the area of not-for-profit and regulatory accounting. Prereq: ACC 410G or consent of instructor.

**ACC 617 SELECTED TOPICS IN TAXATION. (3)**

A study of selected topics in taxation, including partnership taxation, tax research, and other tax topics. Prereq: ACC 507 and admission to MSACC program, or consent of the Director of Graduate Studies.

**ACC 619 INDEPENDENT STUDY IN ACCOUNTING. (1-3)**

Designed for students undertaking special studies to be conducted in regular consultation with the instructor. Prereq: Consent of instructor.

**\*ACC 621 ACCOUNTING FUNDAMENTALS. (3)**

Examines the basic principles/concepts which govern the recording/reporting of accounting data. This course examines how business transactions affect the financial statements and establishes a framework for understanding how accounting data is transformed into the financial statements and how the statements are used by decision makers. Prereq: Consent of the School of Accountancy Director.

**ACC 624 ENTERPRISE INFORMATION AND CONTROL SYSTEMS. (3)**

The course simultaneously examines two issues related to enterprise information systems development: 1) methodologies for designing and implementing information systems, and 2) assessment of enterprise risk and internal control systems. Case analyses and "real world" projects are used to accomplish the course objectives. Current computer technologies, including relational database systems and internet data processing, are integrated into the course content. Prereq: ACC 324, ACC 403 and admission to MSACC program, or consent of the Director of Graduate Studies.

**ACC 628 FINANCIAL/MANAGERIAL ACCOUNTING. (3)**

A study of the application of accounting information and services in the recognition or solution of management problems in business. Prereq: Graduate standing in the MBA program, ACC 201 and ACC 202, or its equivalent. Course credit will not be given to students in the MSACC program.

**ACC 637 TAXATION OF FLOW-THROUGH ENTITIES. (3)**

A detailed study of the income taxation of flow-through entities, including Partnerships, S corporations, and limited liability companies. Prereq: ACC 507 and admission to MSACC program, or consent of the Director of Graduate Studies.

**ACC 647 MULTIJURISDICTIONAL TAXATION. (3)**

A study of the taxation of taxpayers located in two or more tax jurisdictions. The course involves two major categories, international taxation and state and local taxation. Prereq: ACC 507 and admission to MSACC program, or consent of the Director of Graduate Studies.

**ACC 700 TOPICAL SEMINAR IN ACCOUNTING RESEARCH (Subtitle required). (1-3)**

An advanced seminar on selected topics such as cross-disciplinary research on behavioral decision-making, research using archival data, and analytical models in accounting. May be repeated to a maximum of eighteen credits. Prereq: Doctoral student status in business administration.

**ACC 790 DOCTORAL COLLOQUIUM – ACCOUNTANCY. (1-2)**

This course provides professional socialization for Ph.D. students in accountancy. Topics include research, teaching, and service, transition, preparation for a career as a professor, and special research topics, including lectures by noted scholars.

**ACC 795 INDEPENDENT STUDY IN ACCOUNTING. (1-6)**

Designed for students undertaking special studies to be conducted in regular consultation with instructor. May be repeated to a total of 12 credit hours. Prereq: Consent of instructor.

## AEC Agricultural Economics

### AEC 101 THE ECONOMICS OF FOOD AND AGRICULTURE. (3)

An introduction to the field of agricultural economics and some of the basic tools and concepts of decision making. Concepts are illustrated in terms of selected current social and economic issues including the role of agriculture in both a national and international dimension. Students who have completed ECO 201 are not eligible to take AEC 101 without the consent of the instructor.

### #AEC 110 CURRENT ISSUES IN AGRICULTURAL ECONOMICS. (3)

An introduction to the field of agricultural economics and some of the basic tools and concepts of decision making. Concepts are illustrated in terms of selected current social and economic issues including the role of agriculture in both a national and international dimension. Students who have completed ECO 201 are not eligible to take AEC 110 without the consent of the instructor.

### AEC 300 TOPICS IN AGRICULTURAL ECONOMICS (Subtitle required). (1-3)

Study in special topics in agricultural economics. May be repeated under a different subtitle to a maximum of fifteen credits. Lecture, one to three hours; laboratory, zero to six hours per week. Prereq: ECO 201. [Offered in fall and spring.]

### AEC 301 CAREER READINESS FOR AGRICULTURAL ECONOMICS. (1)

A comprehensive post-graduate opportunities, expectations, and strategies in agricultural economics. Students will explore information relevant to writing resumes, completing job applications, and participating in job interviews. Prereq: Standing in Agricultural Economics and a "C" or higher in ECO 201. [Offered in fall and spring.]

### AEC 302 AGRICULTURAL MANAGEMENT PRINCIPLES. (4)

A comprehensive study of economic principles and management tools useful in farm and agribusiness decision making. Utilizes a systems approach to the planning, implementation and control of the agricultural business. Specific attention to application of management and decision theory, economic principles used in decision making, and risk management strategies. Emphasis on planning the future course of the business, acquiring and managing the necessary resources, and establishing physical and financial control over the business. Lab incorporates microeconomic applications of management principles developed in lectures. Prereq: "C" or better in ECO 201. [Offered in fall and spring.]

### AEC 303 MICROECONOMIC CONCEPTS IN AGRICULTURAL ECONOMICS. (3)

Emphasis on the development of theoretical models of production and consumption economics and application of these models to problems. The importance of concepts of marginality to managers and consumers is emphasized. Role of risk and uncertainty in resource allocation is outlined. Prereq: "C" or better in ECO 201 and "C" or better in MA 123 or MA 113. [Offered in fall and spring.]

### AEC 305 FOOD AND AGRICULTURAL MARKETING PRINCIPLES. (3)

Analysis of the market's role in determining prices and coordinating productive activities in the food and agricultural systems. Prereq: "C" or better in ECO 201. [Offered in fall and spring.]

### \*AEC 306 TECHNICAL COMMUNICATION IN ECONOMICS. (3)

This course examines how to create and distribute original economic ideas in written and oral forms using appropriate digital technologies. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK. Prereq: ECO 201; CIS/WRD 110 and 111 or equivalent; 30 credit hours of coursework. AEC 305 is a co-requisite (recommended) or prerequisite. This course fully satisfies the University's graduation composition and communication requirement (GCCR) for AGEC majors. To receive GCCR credit, students must earn an average (weighted) of "C" or better on all GCCR assignments.

### AEC 309 INTERNATIONAL AGRICULTURE, WORLD FOOD NEEDS AND U.S. TRADE IN AGRICULTURAL PRODUCTS. (3)

Present and projected world food/population balance by geographic regions; food production and world trade in agricultural products with an emphasis upon the implications for U.S. agriculture; an introduction to agricultural development problems of the less developed nations of Latin America, Africa, and Asia. Prereq: "C" or better in ECO 201. [Offered in fall only.]

### AEC 311 LIVESTOCK AND MEAT MARKETING. (3)

Provides students with a unique and practical overview of the economics of the livestock and meat marketing system. Topics will include general marketing, price forecasting, price risk management, decision making, and capital investment analysis. Prereq: AEC 305. [Offered in fall only.]

### AEC 312 EQUINE MARKETS. (3)

This course provides an overview of the economics of equine markets, both domestic and international, and includes an examination of market structures and functions. Prereq: AEC 305 and C or better in ECO 201.

### AEC 314 GRAIN MARKETING. (1)

Study of production and utilization of grain by areas of the world, the marketing systems for grain, and the application of economic and marketing principles to the pricing and movement of grain. Prereq: AEC 305, AEC 321. [Offered in fall only.]

### AEC 316 COOPERATIVE MANAGEMENT AND MARKETING. (1)

This course provides knowledge about the unique features of cooperatives and their role in a market economy and examines the structure organization, finance, management, and operations of cooperative organizations. Prereq: AEC 305. [Offered in fall only.]

### AEC 317 MARKETING HORTICULTURAL PRODUCTS. (1)

This course examines the market structure and institutions associated with horticultural and nursery product markets within the context of formulating and evaluating alternative, firm-specific marketing strategies. Prereq: AEC 305. [Offered in fall only.]

### AEC 320 AGRICULTURE PRODUCT MARKETING AND SALES. (3)

This course examines marketing activities within the U.S. food system. Sector performance is considered as well as the competitive behavior of firms within various agricultural market channels. Firm level marketing principles, methods, and strategies are considered, with a special focus on developing effective sales programs for agricultural products. Prereq: AEC 305. [Offered in fall and spring.]

### AEC 321 AGRICULTURAL FUTURES MARKETS. (3)

The mechanics, theory, and practical application of hedging as related to agricultural commodities. The historical development of futures markets, functions of the futures markets, and the role of the speculator will also be explored. Prereq: AEC 303 and AEC 305. [Offered in spring only.]

### AEC 324 AGRICULTURAL LAW. (3)

A study of legislation, administrative regulations, constitutions and court cases that have economic ramifications on agricultural and rural life. Prereq: "C" or higher in ECO 201. AEC majors who have completed AEC 325 or AEC 326 are not eligible to take AEC 324 without consent of the Director of Undergraduate Studies. [Offered in fall and spring.]

### AEC 325 EQUINE LAW. (3)

This course examines equine law from tort and contractual perspectives dealing with basics of liability, purchase and sale, entity formation, constitutional and tax issues. Following the class, students should be able to recognize when it is necessary to retain a lawyer, but are not expected to be able to act as a lawyer. Prereq: "C" or higher in ECO 201. AEC majors who have completed AEC 324 or AEC 326 are not eligible to take AEC 325 without consent of the Director of Undergraduate Studies. [Offered in spring only.]

### AEC 326 PRINCIPLES OF ENVIRONMENTAL LAW. (3)

Provides a basic knowledge of the principles of United States environmental law. Addresses the framework of the American Legal system as it applies to environmental regulation. Covers the sources of environmental law and reviews major federal environmental statutes and judicial decisions addressing specific issues. Prereq: "C" or higher in ECO 201. AEC majors who have completed AEC 324 or AEC 325 are not eligible to take AEC 326 without consent of the Director of Undergraduate Studies. [Offered in fall and spring.]

### AEC 340 HUMAN RESOURCE MANAGEMENT IN AGRICULTURE. (3)

An overview of the management of the human resource in an agricultural context. Major components will include the acquisition, training, motivation, compensation, performance evaluation, and retention of the agricultural labor force. Other topics include the legal and taxation components of hired labor and working with a multi-cultural and multi-generational work force. Prereq: "C" or higher in ECO 201. [Offered in spring only.]

### AEC 351 INTRODUCTION TO ANALYSIS WITH BUSINESS SOFTWARE. (1)

An introduction to the use of software to locate, input, manipulate, and analyze agricultural economics data and how to interpret, format, and communicate answers to related questions. Prereq: C or higher in ECO 201.

### AEC 361 INTERNATIONAL AGRIBUSINESS AND FOOD SYSTEMS. (3)

Agribusiness and farming are global industries, and managers need to be able to understand how events in other countries influence decisions made at the firm-level. This course examines the value-chains of select food and agricultural markets and the firms that provide the technology, production expertise, processing, and transformation of farm products into food entering global markets. Students will discuss supporting institutions like credit institutions, policy organizations, and regulatory agencies to show how these institutions can either foster or stifle business growth. This course may require domestic and/or international travel. Prereq: A "C" or higher in ECO 201 plus consent of instructor.

### AEC 395 INDEPENDENT RESEARCH IN AGRICULTURAL ECONOMICS. (1-3)

Directed independent study of a selected problem. May be repeated to a maximum of six credits. Prereq: Consent of instructor or director of undergraduate studies and completion of a proposed plan of learning objectives and outcomes prior to registration. The student must have completed 60 credit hours prior to registering for AEC 395 and the student must earn a C or better in one of the following courses: AEC 303, AEC 302, or AEC 305. [Offered in fall, spring and summer.]

### \*AEC 396 INTERNATIONAL STUDIES IN AGRICULTURAL ECONOMICS. (1)

The student will participate in a university-approved study abroad program or in an approved international study tour through the College of Agriculture or through additional international opportunities pre-approved by the director of undergraduate studies. Credit not available for the Agricultural Economics Major Elective Requirements. [Offered in spring only.]

**\*AEC 399 EXPERIENTIAL LEARNING IN AGRICULTURAL ECONOMICS.**

(1-6)

A field or community-based experience in the application of economics to agricultural or rural problems. May be repeated; a maximum of six credits allowed. Credit not available for the Agricultural Economics Major Elective Requirements. Prereq: Nine hours in agricultural economics or economics, permission of instructor and department chairperson and completion of learning agreement prior to registration. [Offered in fall, spring and summer.]

**AEC 422 AGRIBUSINESS MANAGEMENT.**

(3)

Examines and analyzes decision-making tools and problem-solving techniques available to agribusiness managers. Provides learning experience in addressing contemporary economic, marketing and management issues through case study analyses, selected readings and computerized business simulations. Prereq: AEC 303, AEC 305, MGT 301, MKT 300, and either FIN 300 or AEC 441G. [Offered in fall and spring.]

**AEC 425 FOREST MANAGEMENT.**

(4)

The principles of sustained yield forest management, management objectives, forest regulation, allowable cut, and timing of timber harvests. Students will identify management objectives for various properties and ownership types and integrate scientific knowledge and both timber and non-timber considerations with landowner objectives to derive management decisions. Prereq: Completion of the Spring Field Semester or consent of instructor. (Same as FOR 425.) [Offered in fall only.]

**AEC 441G AGRICULTURAL FINANCIAL MANAGEMENT.**

(3)

Applies micro agricultural finance to farm and other agricultural business firms. Reviews elementary mathematics of finance and the objectives of financial management. Uses financial statements, cash flow analysis, financial leverage and other elements in applying the theory of capital investment for making management decisions. Prereq: AEC 302 and AEC 303. [Offered in spring only.]

**AEC 445G INTRODUCTION TO RESOURCE AND ENVIRONMENTAL ECONOMICS.**

(3)

Economic analysis of the problems of assuring resource availability and environmental quality. Theoretical concepts and empirical tools for evaluating resource and environmental policy. Prereq: "C" or better in ECO 201 or consent of the instructor. [Offered in fall and spring.]

**AEC 471 INTERNATIONAL TRADE.**

(3)

This is advanced economic course in international trade. The first part of the course covers the basics of why countries trade, what explains the pattern of trade that we observe and what are the effects of trade on welfare and the distribution of income. The second part of the course covers issues concerning trade policy and looks at the positive and normative effects of trade policy and trade agreements as well as investigating topics of current interest. While the focus of the course is on theory, students will also be exposed to many applications of the theory as a means of both explaining the economic intuition and encouraging students to analyze the world around them from an economic perspective. Prereq: ECO 401 or equivalent. Agricultural Economics majors may substitute AEC 303 for this prerequisite. (Same as ECO 471.) [Offered in fall and spring.]

**#AEC 473G ECONOMIC DEVELOPMENT.**

(3)

A comparative study of economic progress in selected countries; growth patterns, theories of development and capital formation, interaction of social and economic change. Prereq: ECO 401 or equivalent or consent of instructor. (Same as ECO 473G.)

**AEC 479 PUBLIC ECONOMICS.**

(3)

An application of economic analysis to the study of the role of government. Emphasis is on the reasons for and the effects of government intervention in the economy. Topics covered include: market failure, public goods and externalities, welfare policy, voting and public choice, taxation, public debt and cost-benefit analysis. Prereq: ECO 401 or equivalent. Agricultural Economics majors may substitute AEC 303 for this prerequisite. (Same as ECO 479.) [Offered in fall and spring.]

**AEC 483 REGIONAL ECONOMICS.**

(3)

This course presents an economic approach to the study of regions. The emphasis is on the role of spatial relationships in economic activity. Topics considered include market area analysis, location theory, economic base and input-output analysis as well as regional economic development. Prereq: AEC 303. [Offered in fall only.]

**AEC 490 QUANTITATIVE METHODS AND PRICE ANALYSIS.**

(3)

An integration of current issues in Agricultural Economics with oral and written communications, problem solving, and research. Major emphasis is on a senior paper and oral presentation. Prereq: AEC 302, 303, 305, ECO 391 and senior standing in Agricultural Economics. [Offered in fall only.]

**#AEC 500 ADVANCED TOPICS IN AGRICULTURAL ECONOMICS (Subtitle required).**

(1-5)

Advanced study in special topics in agricultural economics. May be repeated under a different subtitle to a maximum of fifteen credits. Lecture, one to three hours; laboratory, zero to six hours per week. Prereq: AEC 303 or equivalent and consent of instructor.

**AEC 503 PRICE THEORY AND APPLICATIONS.**

(3)

This course uses calculus to develop core concepts in microeconomics and show how they can be applied to agricultural and natural resource issues. A central objective of this course is to link mathematical techniques with economic analysis to show students that calculus provides an efficient way to study producer and consumer behavior. Prereq: AEC 303 and MA 113. [Offered in fall only.]

**AEC 510 INTERNATIONAL TRADE AND AGRICULTURAL MARKETING.**

(3)

A study of institutional, economic and cultural factors that influence aggregate agricultural trade and exports of individual agribusinesses. Macro issues of agricultural trade policies are examined along with elements of international marketing for agricultural products. Prereq: AEC 303 (or equivalent) and AEC 305. [Offered in fall only.]

**AEC 531 AGRICULTURAL PRICE ANALYSIS.**

(3)

The course links calculus-based microeconomic theory, industry-specific pricing systems, and empirical analysis of agricultural and food markets ranging from farm inputs to the consumer level. Students gain experience with tools and techniques used in empirical analysis of supply and demand. Prereq: AEC 503 and (ECO 391 or STA 570). [Offered in spring only.]

**AEC 532 AGRICULTURAL AND FOOD POLICY.**

(3)

This course surveys a variety of current public policies that influence the agricultural and rural economies. Students are exposed to the conflicting views of those concerned with food and agricultural policy issues in an international economy. Economic principles are used to evaluate alternatives in terms of the general welfare of society. Prereq: AEC 303 and AEC 305. [Offered in spring only.]

**AEC 545 RESOURCE AND ENVIRONMENTAL ECONOMICS.**

(3)

This is an advanced level course focused on economic analysis. It will help students frame natural resource and environmental problems so that they can be analyzed and solved. Major topic areas include water resources, fisheries, energy (and other non-renewable resources), agriculture, and pollution. Policy instruments such as pricing, emission fees, and tradable permits will be covered in detail. Prereq: AEC 303 or AEC 445G or consent of instructor. (Same as NRE 545.) [Offered in fall only.]

**AEC 580 SPECIAL PROBLEMS IN AGRICULTURAL ECONOMICS.**

(1-3)

Directed independent study of a selected problem that generally is sustained over an entire semester, requires data analysis, and results in a significant written product suitable for publication. May be repeated to a maximum of six credits. Prereq: Consent of instructor, director of undergraduate or graduate studies and completion of a proposed plan of learning objectives and outcomes prior to registration. [Offered in fall, spring and summer.]

**AEC 590 INTRODUCTION TO QUANTITATIVE ECONOMICS I.**

(3)

An introduction to mathematical approaches to economic theory. Emphasis on linear models, constrained optimization, and techniques used in comparative statics. Prereq: ECO 401 and MA 213, or graduate status, or consent of instructor. (Same as ECO 590.) [Offered in fall only.]

**AEC 606 ADVANCED AGRICULTURAL MARKETING.**

(3)

A critical examination of objectives and results of various types of research in market organization, marketing functions, price analysis, markets over time, space and form, market information, commodity promotion programs, quality standards, and macroeconomic linkages to marketing. Prereq: AEC 624 and ECO 601 (may be concurrent). [Offered in fall only.]

**AEC 610 INTERNATIONAL TRADE IN AGRICULTURAL PRODUCTS.**

(3)

This course analytically examines current empirical research in the area of agricultural trade. Prereq: ECO 601, AEC 624 and ECO 671. [Offered in spring only.]

**AEC 620 ADVANCED PRODUCTION ECONOMICS I.**

(3)

An advanced treatment of production economics with emphasis on flexible product and factor price situations, factor demand functions, multiple product production, and poly-periodic production theory. Prereq: ECO 601. [Offered in fall only.]

**AEC 622 ADVANCED AGRIBUSINESS MANAGEMENT STRATEGIES.**

(3)

This course integrates knowledge of economics, econometrics, business administration, finance, accounting, marketing, decision making, and research methodology. The focus is on analytical skills and scholarly academic research. Prereq: AEC 422, ECO 601 or AEC 603, an introductory course in econometrics, or consent of instructor. [Offered in spring only.]

**AEC 624 ADVANCED QUANTITATIVE METHODS IN AGRICULTURAL ECONOMICS.**

(3)

This course uses statistical tools to model agricultural and economic systems. Subjects covered include: (1) the classical linear regression model, (2) statistical hypotheses tests, and (3) estimation techniques for single and simultaneous equation models. Prereq: ECO 391, STA 291 and MA 113. [Offered in spring only.]

**AEC 626 AGRICULTURE AND ECONOMIC DEVELOPMENT.**

(3)

Analytical consideration of the role of agriculture in economic development in relation to overall development strategy at various stages of growth. Theoretical and policy issues of particular relevance to the agricultural development in underdeveloped agrarian economies with various resource, social, political and economic systems. Prereq: ECO 473G or consent of instructor. (Same as ECO 674.) [Offered in spring only.]

**AEC 640 ADVANCED AGRICULTURAL POLICY.**

(3)

This course focuses on development of a framework to analyze alternate paradigms of the political economy. The framework focuses on the role of institutions that modify behavior of decision makers. Agricultural and food policies are evaluated in terms of the efficient use of resources and the general welfare of society. Prereq: ECO 601 or AEC 503. [Offered in spring only.]

## Course Descriptions

### **AEC 645 NATURAL RESOURCE ECONOMICS. (3)**

Economic analysis of natural resource use and environmental issues. Discussion of criteria for public decision making, welfare economics, market failure, benefit-cost analysis, and benefit estimation, as applied to natural resources and the environment. Prereq: ECO 590 and ECO 601.

### **AEC 646 INTERTEMPORAL ALLOCATION OF NATURAL RESOURCES. (3)**

This course teaches the application of economic theory to the analysis of solutions for current and prospective natural resource problems. Such understanding will be geared toward fashioning, selecting and implementing planning associated with land, water, air, biological and other natural resources and conservation of the natural environment in serving the needs and desires of citizens. Prereq: ECO 660 and AEC 590.

### **AEC 653 LOCAL ECONOMIC DEVELOPMENT. (3)**

The course develops the capacity to employ the theories, practices and philosophies of economic development as applied to local areas. The primary geographic focus of the course is the rural south-east of the United States, but examples will be drawn from rural areas in other developed countries. Prereq: Graduate status in agricultural economics, public administration, economics, or consent of instructor. (Same as PA 653.) [Offered in spring only.]

### **AEC 661 PROGRAMMING MODELS IN AGRICULTURAL ECONOMICS. (3)**

A study of some programming models useful in agricultural economics; includes an examination of the structure of the models themselves, economic interpretation of their components and their use in research in agricultural economics. Prereq: MA 416G and either AEC 620 or ECO 601. [Offered in fall only.]

### **AEC 662 QUANTITATIVE METHODS IN RENEWABLE AND NONRENEWABLE RESOURCE MANAGEMENT. (3)**

Application of dynamic optimization methods to renewable and nonrenewable resource management. Includes problem formulation, mathematical problem solving, Matlab programming, simulations and optimal policies analysis. Case examples are used to demonstrate applicability and problem formulation in finance and general and partial equilibrium. Prereq: MA 113 and MA 162 or equivalent, and AEC 661 or equivalent. (Same as FOR 662.)

### **AEC 691 SOCIOLOGY OF FOOD AND AGRICULTURE. (3)**

This seminar will analyze the transformation of agriculture and the food system in the historical context of increased globalization. Emphasis is given to key historical transitions, changing social relations surrounding production and consumption of food, and shifts in regulations and policy at the local, national, and/or international levels. Such emphases provide a framework for understanding the historical roots and future prospects for the socioeconomic problems confronting contemporary U.S. and global agriculture and food economies. Prereq: Graduate standing, or consent of instructor. (Same as CLD/SOC 691.)

### **AEC 724 APPLIED ECONOMETRICS. (3)**

This course introduces students to the econometric models, estimation procedures, and model applications in the literature. The course includes an overview of different econometric models, model estimations using Stata and SAS, discussion of agricultural and applied economics papers applying these models, and writing mini projects and a term paper with econometric applications. Topics include discrete and limited dependent variable models, panel data models, time-series models, instrumental variables, survival analysis, spatial econometrics and other special topics. Prereq: ECO 703 or consent of instructor. [Offered in spring only.]

### **AEC 745 ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS. (3)**

This course is a graduate-level survey of environmental and natural resource economics. Students will use mathematical models and econometric analysis to address topics including externalities and other market failures, environmental policies, management of renewable and nonrenewable resources, and non-market valuation. Prereq: ECO 701 and 703 (or equivalent courses), or consent of instructor. (Same as ECO 726.) [Offered in fall only.]

### **AEC 748 MASTER'S THESIS RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed. [Offered in fall, spring and summer.]

### **AEC 749 DISSERTATION RESEARCH. (0)**

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

### **AEC 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended. [Offered in fall, spring and summer.]

### **AEC 768 RESIDENCE CREDIT FOR MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours. Prereq: Consent of adviser and chairperson of department. [Offered in fall, spring and summer.]

### **AEC 769 RESIDENCE CREDIT FOR DOCTOR'S DEGREE. (0-12)**

May be repeated indefinitely. Prereq: Consent of adviser and chairperson of department.

### **AEC 780 SPECIAL PROBLEMS IN AGRICULTURAL ECONOMICS. (1-3)**

Open to graduate students who have the necessary training and ability to conduct research on a selected problem. May be repeated three times for a total of nine credits. Prereq: Consent of instructor and departmental chairperson. [Offered in fall, spring and summer.]

### **AEC 790 RESEARCH WORK IN AGRICULTURE ECONOMICS. (3-9)**

Independent research under the direction of a faculty members and the Director of Graduate Studies. Prereq: Successful completion of written portion of AEC qualifying exam and permission of Director of Graduate Studies. [Offered in fall, spring and summer.]

### **AEC 796 SEMINAR (Subtitle required). (3)**

An extended original investigation of a specific topic designed to give students experience in methods of research and an intensive study of a particular subject in the field of agricultural economics. May be repeated to a maximum of six credits under different subtitles. Prereq: Ph.D. applicant or candidate. [Offered in fall and spring.]

## **AED Agricultural Education**

### **AED 110 INTRODUCTION TO CAREER AND TECHNICAL EDUCATION. (3)**

The history, status, philosophy, and objectives of career and technical education in relation to general education. (Same as FCS 110.)

### **AED 362 FIELD EXPERIENCES IN CAREER AND TECHNICAL EDUCATION. (3)**

Supervised experiences in schools and other agencies. Required of all Career and Technical Education majors. Includes observation, participation, experience, field trips, inspection of programs, and professional organizations. Prereq: Majors only. (Same as FCS 362.)

### **AED 371 ADVISING A CAREER AND TECHNICAL STUDENT ORGANIZATION. (3)**

This course is designed to assist students in developing skills and competencies needed to plan, implement, advise, and evaluate a Career and Technical Student Organization as part of the total CTE program. (Same as FCS 371.)

### **AED 395 SPECIAL PROBLEMS IN CAREER AND TECHNICAL EDUCATION. (1-3)**

Directed independent study of a selected problem in the field of career and technical education under the supervision of a faculty member. May be repeated to a maximum of 6 credit hours. Prereq: Consent of appropriate instructor. (Same as FCS 395.)

### **AED 399 EXPERIENTIAL LEARNING IN CAREER AND TECHNICAL EDUCATION. (1-3)**

A field based learning experience in career and technical education under the supervision of a faculty member. Student must complete a learning contract which outlines the requirements agreed to by the student for successful completion of the course. Prereq: Consent of appropriate instructor. (Same as FCS 399.)

### **AED 580 FOUNDATIONS OF TEACHING CAREER AND TECHNICAL EDUCATION. (3)**

Course focuses on the foundation of teacher development including: effective teacher characteristics, principles of teaching and learning, and preparation of lesson plans. Prereq: Admission into the Teacher Education Program. (Same as FCS 580.)

### **AED 583 DESIGNING CURRICULUM AND ASSESSMENT IN CAREER AND TECHNICAL EDUCATION. (3)**

Instructional methodology course focused on analyzing the principles of teaching and learning to design curriculum, instruction, and assessment for formal and non-formal educational settings. (Same as FCS 583.) This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

### **AED 586 METHODS OF TEACHING CAREER AND TECHNICAL EDUCATION. (3)**

Development of teaching competencies with emphasis on: discussion, demonstration, problem-solving, cooperative learning, service learning methods. Prereq: Admission into the Teacher Education Program and AED/FCS 580. (Same as FCS 586.)

### **AED 592 TEACHING EXPERIENCE IN CAREER AND TECHNICAL EDUCATION. (12)**

Supervised experience in teaching Career and Technical Education. Requires observation, lesson plan development, and incorporation of effective teaching methods and strategies. Regularly scheduled seminars included as an integral part of course. Prereq: Admission into the Teacher Education Program and successful completion of AED/FCS 580 and AED/FCS 586. (Same as FCS 592.)

### **AED 671 YOUTH ORGANIZATIONS IN CAREER AND TECHNICAL EDUCATION. (3)**

A study of the underlying philosophy and principles for organizing and advising youth organizations in career and technical education. Emphasis on activities that will enrich and motivate the instructional programs, and develop leadership, cooperation and citizenship. (Same as FCS 671.)

### **AED 695 SPECIAL PROBLEMS IN CAREER AND TECHNICAL EDUCATION. (3)**

An independent work course for students interested in career and technical education. Students make individual investigations and report on special problems. (Same as FCS 695.)

**AED 799 RESEARCH IN CAREER AND TECHNICAL EDUCATION. (1-3)**  
Individual research of importance to career and technical education. May be repeated to a maximum of nine credits. (Same as FCS 799.)

## AEN Agricultural Engineering

**AEN 103 BASIC PRINCIPLES OF SURVEYING. (2)**  
General use of surveying equipment, development of topographic maps, layout of engineering systems, earthwork computations, and introduction to boundary surveys for Agriculture students. This course is not available for credit to persons who have received credit in another introductory surveying course. Lecture, one hour; laboratory, three hours. Prereq: A course in trigonometry, enrollment in the College of Agriculture and/or consent of instructor.

**AEN 203 BASIC PRINCIPLES OF SURVEYING. (3)**  
This course provides an introduction to the basic principles of surveying, the general use of surveying equipment, and basic surveying methods. This course is not intended for students who are seeking to become licensed surveyors. Lecture, two hours; laboratory, two hours. Prereq: A minimum of high school trigonometry, and enrollment in the College of Agriculture or consent of the instructor. (Same as TSM 203.)

**AEN 220 PRINCIPLES OF INTERNAL COMBUSTION ENGINES. (3)**  
Principles of selection of internal combustion engines. Operating principles of internal combustion engines including fuel injection, ignition, lubrication, and maintenance. Power transmission application and efficiency are considered. Lecture, two hours per week; lab, two hours per week. (Same as TSM 220.)

**AEN 252 FABRICATION AND CONSTRUCTION FOR TECHNICAL SYSTEMS. (3)**  
Lecture, 1 hour; laboratory 4 hours. Wood and metal work, including reading engineering drawings, welding, power woodworking tools, soldering and pipe work. Prereq: Major in agricultural education, or Individualized Agriculture Curriculum (TSM), or a minor in TSM, or consent of instructor. (Same as TSM 252.)

**AEN 263 AGRICULTURAL SAFETY AND HEALTH. (3)**  
The course provides an overview of major safety and health hazards in agricultural production (farms) and of the basic approaches to prevention of agricultural injuries and illnesses.

**AEN 340 PRINCIPLES OF FOOD ENGINEERING. (4)**  
The functional requirements and principles of operation of systems for the handling and processing of food and agricultural products are studied. The areas covered are mass and energy balances, fluid mechanics, heat transfer, refrigeration, food freezing, evaporation, drying and special topics such as extrusion and microwave heating. Prereq: Completion of PHY 211 and MA 123 or MA 113 or MA 137 and junior standing in Food Science major or Technical Systems Management option in AICU. (Same as TSM 340.)

**AEN 341 BREWING SCIENCE AND TECHNOLOGY. (3)**  
Introduction to the science and technology associated with the brewing of beer. Topics will include the history of beer, varieties of beer, and production of beer. Within the discussions about the production of beer, the effect of raw materials, processing, microbiology, and storage on the taste and appearance of the beer will be studied. The class will also cover beer appreciation and sensory perception, which will complement the discussions of science and technology in the production of beer. Prereq: All students must be 21 by the first day of class. (Same as TSM 341.)

**AEN 461 GBIOMETEOROLOGY. (3)**  
An introduction to the impact and relationship of the atmosphere on living organisms. Emphasis on the practical application of meteorology to everyday problems within the biosphere. Weather analysis, interpretation, psychometrics of the atmosphere, and the impact of weather and climate on animals, plants and man are discussed. Lecture, two hours; laboratory, two hours per week. Prereq: Junior, Senior, or Graduate standing. (Same as TSM 461G.)

**AEN 462 RESIDENTIAL AND COMMERCIAL IRRIGATION DESIGN. (3)**  
The utilization of hydraulic principles in the design, assimilation, installation and operation of residential and commercial irrigation systems in applications which emphasize water conservation, nutrient management and environmental protection. Lecture, two hours; laboratory, two hours per week. Prereq: Consent of instructor.

## AFS Air Force Studies

**AFS 111 AEROSPACE STUDIES I. (1)**  
A course designed to provide the student with a basic understanding of the nature and principles of war, national power, and the Department of Defense role in the organization of national security. The student also develops leadership abilities by participating in a military organization, the cadet corps, which offers a wide variety of situations demanding effective leadership.

**AFS 112 LEADERSHIP LABORATORY I. (1)**  
A course designed for development of basic skills required to be a manager, including communications, human relations, and administration of equal opportunity. Credit will not be granted toward the hours requirements for the degree. Pass/fail only. Coreq: AFS 111.

**AFS 113 AEROSPACE STUDIES I. (1)**  
A course designed to provide the student with a basic understanding of the contribution of aerospace power to the total U.S. strategic offensive and defensive military posture. The student also develops leadership abilities by participating in a military organization, the cadet corps, which offers a wide variety of situations demanding effective leadership. Prereq: AFS 111.

**AFS 114 LEADERSHIP LABORATORY I. (1)**  
A continuation of AFS 113. A course designed to develop managerial skills including superior/subordinate relationships, communications, customs and courtesies, basic drill movements and career progression requirements. Credit will not be granted toward the hours requirements for the degree. Pass/fail only. Coreq: AFS 113.

**AFS 211 AEROSPACE STUDIES II. (1)**  
Introduces the study of air power from a historical perspective; focuses on the development of air power into a primary element of national security. Leadership experience is continued through active participation in the cadet corps. Lecture, one hour; leadership laboratory, one hour. Prereq: AFS 111, 113 or PAS approval.

**AFS 212 LEADERSHIP LABORATORY II. (1)**  
A course designed for development of advanced skills required to be a manager/leader, including leadership styles, public speaking, group dynamics, motivation and preparation for field training. Credit will not be granted toward the hours requirements for the degree. Pass/fail only. Coreq: AFS 211.

**AFS 213 AEROSPACE STUDIES II. (1)**  
Provides a foundation for understanding how air power has been employed in military and non-military operations to support national objectives. Examines the changing mission of the defense establishment, with particular emphasis on the United States Air Force. Leadership experience is continued through participation in the cadet corps. Lecture, one hour; leadership laboratory, one hour per week. Prereq: AFS 111, 113 or PAS approval.

**AFS 214 LEADERSHIP LABORATORY II. (1)**  
A continuation of AFS 213. A course designed to develop supervisory management skills to include communications, techniques of critique, social actions, personnel evaluation procedures, problem solving, role playing and field training preparation. Credit will not be granted toward the hours requirements for the degree. Pass/fail only. Coreq: AFS 213.

**AFS 311 AEROSPACE STUDIES III. (3)**  
A study of management functions with emphasis on the individual as a manager in an Air Force environment. Individual motivational and behavioral process, communication, and group dynamics are included to provide a foundation for the development of professional skills as an Air Force Officer. Students refine their leadership and managerial abilities by organizing and managing a quasi-military unit. Prereq: Acceptance into POC or approval of PAS.

**AFS 312 LEADERSHIP LABORATORY IIIA. (1)**  
A course designed and focused on developing advanced leadership skills. Students fill the mid-level management function within the cadet corps. The course involves the planning and controlling of military activities of the cadet corps, and the preparation and presentation of briefings and other written and oral communications. Pass/Fail only. Coreq: AFS 311.

**AFS 313 AEROSPACE STUDIES III. (3)**  
A study of leadership with specific emphasis on the Air Force leader. Includes theoretical, professional and communicative aspects. In addition, military justice and administrative law are discussed within the context of the military organization. Students continue to develop and refine their leadership abilities by organizing and managing a military unit, the cadet corps, which offers a wide variety of situations requiring effective leadership. Prereq: AFS 311.

**AFS 314 LEADERSHIP LABORATORY III. (1)**  
Laboratory to accompany AFS 313. Pass/fail only. Coreq: AFS 313.

**AFS 395 INDEPENDENT AEROSPACE STUDIES. (2-6)**  
A study of an advanced problem on a subject area in aeronautical science under the guidance of a departmental staff member. One discussion per week; term paper is required. May not be repeated. Prereq: Senior standing in the AFROTC Program, and 3.0 standing in Aerospace Studies.

**AFS 411 AEROSPACE STUDIES IVA. (3)**  
A study of the military profession, civil-military interaction, communicative skills, framework of defense policy, and formulation of defense strategy. Students refine their leadership abilities by organizing and managing a military unit, the cadet corps, which offers a wide variety of situations requiring effective leadership. Prereq: AFS 313, or approval of PAS.

**AFS 412 LEADERSHIP LABORATORY IVA. (1)**  
A course designed and focused on developing advanced leadership skills. Students fill the top level management function within the cadet corps. The course involves the planning and controlling of military activities of the cadet corps, and the preparation and presentation of briefings and other written and oral communications. The lab also includes practice of leadership techniques aimed at motivating and instructing cadets in the lower three levels. Pass/Fail only. Laboratory, two hours per week. Coreq: AFS 411.

## Course Descriptions

### **AFS 413 AEROSPACE STUDIES IVB. (3)**

Continues the study of strategy and the management of conflict, formulation and implementation of U.S. defense policy, defense organization, and case studies in defense policy making. Students also refine their leadership abilities by organizing and managing a military unit, the cadet corps, which offers a wide variety of situations requiring effective leadership. Prereq: AFS 411 or approval of PAS.

### **AFS 414 LEADERSHIP LABORATORY IVB. (1)**

A continuation of AFS 412. A course designed and focused on developing advanced leadership skills. Students fill the top level management function within the cadet corps. The course involves the planning and controlling of military activities of the cadet corps, and the preparation and presentation of briefings and other written and oral communications. The lab also includes practice of leadership techniques aimed at motivating and instructing cadets in the lower three levels. Pass/Fail only. Laboratory, two hours per week. Coreq: AFS 413.

---

## **AHP Allied Health Professions**

---

### **AHP 840 ETHICS IN HEALTH PRACTICE. (2)**

A study of selected ethical issues that arise in the practice of health professionals. The health professional's obligations to patients, colleagues, employing institutions, and the community will be considered, and relevant case studies will be analyzed.

---

## **AIS Arabic and Islamic Studies**

---

### **AIS 101 ELEMENTARY MODERN STANDARD ARABIC. (4)**

An introduction to the standard written language of the Arab World. Initial emphasis upon the phonology and script, followed by gradual coverage of the grammar, with exercises in reading, writing, pronunciation, and vocabulary building.

### **AIS 102 ELEMENTARY MODERN STANDARD ARABIC. (4)**

Continuation of AIS 101. Prereq: AIS 101.

### **AIS 201 INTERMEDIATE MODERN STANDARD ARABIC. (3)**

A continuation of AIS 102, stressing comprehension of written and oral material, the ability to read Arabic aloud and to compose written material, and the ability to speak. Prereq: AIS 102.

### **AIS 202 INTERMEDIATE MODERN STANDARD ARABIC. (3)**

A continuation of AIS 201, stressing comprehension of written and oral material, the ability to read Arabic aloud and to compose written material, and the ability to speak. Prereq: AIS 201.

### **AIS 228 ISLAMIC CIVILIZATION. (3)**

This course is an introduction to the religion of Islam and the classical era of the Islamic civilization. A great deal of time will be spent on the life of Muhammad (570-632) and basic beliefs, rituals and practices. The course will also explore aspects of the history of Islamic civilization from the time of Muhammad to around the 17th century, including science, art, theology and law.

### **AIS 301 ADVANCED MODERN STANDARD ARABIC I. (3)**

This course provides advanced language instruction in Modern Standard Arabic. In addition, course explores aspects of culture in the Arab world. Prereq: AIS 202 or consent of instructor.

### **AIS 302 ADVANCED MODERN STANDARD ARABIC II. (3)**

This course provides advanced language instruction in Modern Standard Arabic. In addition, course explores aspects of culture in the Arab world. Prereq: AIS 301 or consent of instructor.

### **AIS 311 ARABIC FOR BUSINESS AND MEDIA I. (3)**

This course is designed to meet the needs of intermediate-level students of Arabic as well as members of the business community who wish to learn Arabic for professional purposes. The topics cover travel, social, and business interactions. The course also introduces and engages with a variety of current, authentic and primary Arabic materials through the language of the newspapers, magazines, Internet news sites, and TV news. Some of the media topics that will be covered are meetings and conferences, elections, and demonstrations and social protest. By the end of this course, the students will be at a mid-intermediate level of proficiency in Arabic. Prereq: To enroll in this course, students should have completed four semesters of Arabic (AIS 101, AIS 102, AIS 201, and AIS 202). Alternatively, the students should seek the approval of the course instructor.

### **AIS 312 ARABIC FOR BUSINESS AND MEDIA II. (3)**

This course builds on and expands the business, travel, and social topics covered in AIS 311 through additional and more complex situations and interactions, such as shopping, going around town, at the sales office, at the post office, at the bank, renting and buying a house and a lot of land. The course also expands on the media topics covered in the first part of this course, in terms of both variety and difficulty. Some of the new topics will be elections, conflict and terrorism, business, cultural and social news. The course will take the students to a high-intermediate level of proficiency in Arabic. Prereq: To enroll in this course, students should have completed five semesters of Arabic (AIS 101, AIS 102, AIS 201, AIS 202, and AIS 311). Alternatively, the students should seek the approval of the course instructor.

### **AIS 320 MODERN ARABIC LITERATURE AND FILM IN TRANSLATION. (3)**

This course introduces students to major Arab writers, poets, and film makers through some of their primary novels, novellas, poems, and films with a focus on the heart of the Arab world.

### **AIS 330 ISLAMIC CIVILIZATION II. (3)**

The Islamic world's response to westernization and the resultant reassertion of its cultural role in the modern world.

### **AIS 331 CLASSICAL ARABIC LITERATURE (in English). (3)**

Reading from some of the major works of Arabic literature (poetry and prose) of the 6th-14th centuries which are an integral part of the Arab cultural heritage, e.g., the Mu'allaqat, Koran, Ibn Ishaq's Sirah; al-Tabari's Ta'rikh; Abu'l Faraj's Kitab al-Aghani; al-Ghazzali's Ihya; al-Hariri's Maqamat; and Ibn Khaldun's Muqaddimah.

### **AIS 338 WOMEN AND ISLAM. (3)**

A survey of women's issues related to Islam and contemporary Muslim culture including the perception of women in Islam, the role and rights of women in Islam, female circumcision, honor killing women's dress. The course will discuss the viewpoints of the Muslim traditionalists, modernists, western feminists and the emerging Islamic feminists.

### **AIS 340 FUNDAMENTALISM AND REFORM IN ISLAM. (3)**

This course focuses on the revival of Islam in the 20th century and the various responses of Islam to modernism and western political and intellectual domination. Particular attention will be given to the rise of militant Islam and the terrorist attacks of 9/11. The original writings of major thinkers will be read and discussed.

### **AIS 345 ISLAMIC MYSTICISM. (3)**

This course is an overview of Islamic spirituality, which refers to the spiritual aspects within basic Islamic texts and general Islamic practices, and Islamic mysticism, which refers to the concepts and practices of Sufism. Throughout the entire course, poems from Rumi, the greatest of the Sufi poets, will be read and discussed. The purpose of the course is to expose students to the ideas and practices of Islamic spirituality and mysticism, the history of Sufism and in a lesser extent the debate between Sufism and normative Islam.

### **AIS 395 INDEPENDENT WORK IN ARABIC/ISLAMIC STUDIES. (1-3)**

Students who have the proper qualifications may undertake a special problem in reading and research. May be repeated to a maximum of six credits. (Recommended.)

### **AIS 410 THEOLOGY AND LAW IN ISLAM. (3)**

This course provides an historical and thematic overview of theology and law (Shari'ah or Fiqh) in Islam. The main concepts of Islamic theology are introduced, comparing them to Christian thought and taking into account contemporary issues. The section on law covers the historical development of the classical legal schools and the main concepts of Islamic legal philosophy. Prereq: Islamic Civilization I or the permission of the instructor.

### **AIS 430 ISLAM IN AMERICA. (3)**

This course is an overview of the Muslim experience in America with special emphasis on the issues facing Muslims as they seek to adjust and find their space in America, especially in the wake of 9/11.

### **AIS 435 TOPICS IN ISLAMIC STUDIES (Subtitle required). (3)**

Variable in content, this course focuses on important texts and issues in Islamic history, religion, literature, and philosophy. May be repeated to a maximum of six credits under different subtitles.

### **AIS 440 INTRODUCTION TO THE QURAN. (3)**

An introduction to the disciplines of knowledge related to the Quran, its major themes, style of presentation, and relevance to contemporary societies and issues.

### **AIS 442 ARABIC READING I. (3)**

Advanced skills in speaking, reading, and analyzing selected texts from traditional and modern Arabic literature using formal spoken and written Arabic. Introduction to the use of Arabic computer software. Prereq: AIS 202 or equivalent.

### **AIS 443 ARABIC READING II. (3)**

Continuation of AIS 442 with emphasis on Modern Arabic Short Stories. Prereq: AIS 442 or equivalent.

### **AIS 495G ADVANCED INDEPENDENT WORK IN ARABIC/ISLAMIC STUDIES. (1-3)**

Independent research in Russian and Eastern Studies on an advanced level for undergraduate and graduate students. Students will be required to establish a written contract with the relevant faculty member describing the tasks to be completed in the course. May be repeated to a maximum of six credits, or a total of six credits of AIS 395 and 495G.

## AMS American Military Studies

### BASIC COURSES

#### AMS 101 INTRODUCTION TO THE ARMY. (2)

This introductory level course is designed to give students an appreciation for the role the Army currently plays in our society. The course covers the history of the Army and the roles and relationships of the Army within our society. The course also covers some of the basic skills necessary for today's leaders to include oral presentation, time management, mapreading, basic rifle marksmanship and squad tactics. Prereq: Must be concurrent with AMS 250.

#### AMS 102 INTRODUCTION TO LEADERSHIP. (2)

This course is designed to acquaint the student with the fundamental skills necessary to be a leader, both in military and civilian context. Course also covers basic military map reading skills. Prereq: Must be concurrent with AMS 250.

#### AMS 211 ADVANCED LEADERSHIP I. (2)

This course focuses on both theoretical and practical aspects of leadership. Students will examine topics such as written and oral communication, effective listening, assertiveness, personality, adult development, motivation, and organizational culture and change. Prereq: AMS 101 and 102, or consent of instructor. Must be taken concurrent with AMS 250.

#### AMS 212 ADVANCED LEADERSHIP II. (2)

This course focuses principally on officership, providing an extensive examination of the unique purpose, roles, and obligations of commissioned officers. It includes a detailed investigation of the origin of our institutional values and their practical application in decision making and leadership. Prereq: AMS 101, 102 and 211, or consent of the instructor. Must be taken concurrent with AMS 250.

#### AMS 250 BASIC MILITARY SCIENCE LAB. (1)

A hands-on practicum which exposes the student to the military skills required for basic technical and tactical competence to enter the Advanced Course. Laboratory, two hours per week and two week-end exercises. May be repeated to a maximum of four credits.

### ADVANCED COURSES

#### AMS 301 LEADERSHIP AND MANAGEMENT. (3)

Course of study in development of basic skills required to function as a manager; study of leadership styles, group dynamics, communications, motivation and military instruction methods; and school of the soldier and exercise of command. Prereq: AMS 101, 102, graduate or undergraduate student (male or female), successful completion of basic course or basic camp, physically fit to pursue program; consent of PMS. Must be taken concurrent with AMS 350.

#### AMS 302 ADVANCED TACTICS. (3)

Small unit tactics and communications, organization and mission of combat arms units; leadership and the exercise of command. Prereq: AMS 101, 102, graduate or undergraduate student (male or female), successful completion of basic course or basic camp, physically fit to pursue program; consent of PMS. Must be taken concurrent with AMS 350.

#### AMS 320 ADVANCED STUDIES IN AMERICAN MILITARY HISTORY. (3)

This course will furnish upper level UK ROTC Cadets, and qualified History majors or minors with the methodological tools and materials needed to gain a more detailed understanding of American Military History and to put together a major research paper. AMS/HIS 320 will emphasize basic research skills: understanding historiographical debates within a military framework, developing effective note taking, outlining techniques, picking a feasible research topic, finding useful primary sources and drawing inferences from them, examining American military campaigns and leaders in order to complete a battle analysis, and short research assignments. Prereq: Consent of instructor (Same as HIS 320.)

#### AMS 341 LEADERSHIP AND MANAGEMENT II. (3)

An advanced study of logistics, operations, military administrations, personnel management, military justice, world change and military implications, service orientation and leadership training. Prereq: AMS 301, 302. Must be taken concurrent with AMS 350.

#### AMS 342 COMMAND MANAGEMENT. (3)

An advanced study of logistics, operations, military administration, personnel management, military justice, world change and military implications, service orientation and leadership training. Prereq: AMS 301, 302. Must be taken concurrent with AMS 350.

#### AMS 350 ADVANCED MILITARY SCIENCE LAB. (1)

A hands-on practicum which exposes the student to the military skills required for advanced technical and tactical competence as an Army officer. The course affords junior and senior cadets opportunities to develop and refine their leadership style and abilities under differing constraints and environments. Laboratory, two hours per week and two weekend exercises. May be repeated to a maximum of four credits. Prereq: AMS 250, AMS 101, AMS 201 and AMS 202. Concurrent: AMS 301, 302, 341 or 342.

#### AMS 395 INDEPENDENT STUDY IN LEADERSHIP. (1-2)

Advanced study in leadership. Students are under guidance and confer individually with faculty on approved topic(s). A written report or paper is expected and will be filed in the chairperson's office. May be repeated to a maximum of four credits. Prereq: Completion of AMS 302 and approval of PMS.

## AN Analytics

#### AN 250 BUSINESS DATA ANALYSIS. (3)

Business Data Analysis is a course in applied business decision making. It uses Excel to organize, summarize, and analyze data and to interpret the results of such analysis. It is an introduction to the process of transforming raw data into results to support common business decisions. The course will emphasize hands-on problem solving in a business context rather than on the specific techniques. Prereq: MA 113, MA 123, MA 137 or equivalent.

#### \*AN 300 INTRODUCTION TO BUSINESS ANALYTICS. (3)

This course introduces Business Analytics and its application to business problems in functional domains including Operations, Marketing, Management, etc. Students learn contemporary tools, models, and methods for developing and deploying descriptive, predictive, and prescriptive analytics approaches to solving such problems. This core course enables future in-depth knowledge of Business Analytics in advanced classes. Prereq: (1) Completion of all college pre-major requirements and Admission to Upper Division in Business and Economics, or (2) consent of department.

#### AN 303 SUPPLY CHAIN MANAGEMENT. (3)

The study of supply chain management involves the management of key business processes, the flow of goods and information, and relationships with fellow members of the supply chain. This course will introduce students to the terminology, concepts, and skills related to supply chain management. Students will develop an understanding of the complexities associated with the physical movement of goods and information, and how they affect the mission of the firm. Discussions will address the various processes and activities within an organization and how they interface with other members of the supply chain. Prereq: Completion of all college pre-major requirements and admission to Upper Division in Business and Economics. Non B&E Upper Division undergraduate students may be enrolled with the consent of the instructor. (Same as MKT 303.)

#### \*AN 306 BUSINESS INTELLIGENCE AND DATA VISUALIZATION. (3)

This course introduces students to the principles, tools and best practices of business intelligence and data visualization to enable the analysis of business data to improve decisions and performance. The course provides students with hands-on experience using appropriate software to create visual displays of quantitative data—in reports, graphs, charts, maps, stories and dashboards—to facilitate communication of actionable insights for managerial decision-making. Prereq: AN 300. (Same as MKT 306.)

#### AN 320 BUSINESS COMPUTING SYSTEMS. (3)

This course investigates how business firms use computing systems to facilitate effective and efficient business processes—thereby improving individual and organizational productivity and competitiveness. The course is geared toward non-technical professionals who seek an overall understanding of how firms design and deploy computer-based solutions to organizational problems. Using cases and hands-on exercises as pedagogical tools, the course furnishes a business applications-oriented view of various computing technologies, such as communication networks, databases, decision support systems, and enterprise systems. The course also addresses ethical and global management issues arising from the worldwide deployment and use of such systems by modern, global business firms. Prereq: CS 101 or MOS Certification. Open only to Business Minors; not available for credit to Business and Economics Majors.

#### AN 322 INFORMATION SYSTEMS IN THE MODERN ENTERPRISE. (3)

This course provides an introduction to the uses of information systems in the management of organizations. Recognizing that modern organizations rely on such systems, it is geared toward aspiring professionals who need to understand both how these systems contribute to their organizations and how they can participate in the realization in value from these systems. The course covers basic systems concepts; socio-technical issues; emerging hardware, software, and telecommunications infrastructure technologies; systems analysis and design, database management; system implementation; project management; and systems management. It also introduces such applications as decision support, knowledge management, and e-business with an emphasis on relevant managerial problems within both local and global contexts. Prereq: Completion of all college pre-major requirements and admission to Upper Division in Business and Economics. Non-B&E Upper Division undergraduate students may be enrolled with the consent of the instructor.

#### \*AN 324 BUSINESS DATA MANAGEMENT. (3)

This course introduces "big data," data harvesting and cleaning, relational databases, structured query language (SQL), Data Warehousing, and online analytical processing (OLAP). The course emphasizes data structure, database design, data queries and data manipulation. Prereq: AN 306 or consent of instructor. (Same as MKT 324.)

#### AN 390 SPECIAL TOPICS IN ANALYTICS. (3)

This course number gives faculty members the flexibility to teach various special topics of interest to students, subject to contemporary student demand and faculty availability. The special topics are concerned with techniques, technologies, and applications related to analytics. The offerings include, but are not limited to, such courses as Supply Chain Management, Enterprise Systems, Electronic Commerce, Systems Analysis & Design, Data Mining, Data Warehouse & Database Management, Online Analytical Processing, Knowledge Management Systems, and Programming Languages. While a student may take as many distinct DIS 390 courses as are offered, only two or these can be counted as electives. A student may not repeat a special topics course under the same title. Prereq: Completion of all college pre-major requirements and admission to Upper Division in Business and Economics. Non-B&E Upper Division undergraduate students may be enrolled with the consent of the instructor.

**AN 395 INDIVIDUAL WORK IN ANALYTICS. (1-3)**

This individually customized course enables the student to independently study a topic of personal interest that is not ordinarily covered in the standard curriculum. The student confers with a willing, qualified instructor to design the course – including the course scope, learning methods, timetable, milestones, deliverables, and evaluation metrics. Typically, a final written report or paper is required. To ensure progress, the student stays in contact with the instructor throughout the course of independent study. Examples of prior individual work include: Lean Logistics, Website Design & Implementation, Enterprise Resources Planning, Materials Requirement Planning, Lot Sizing, Advanced Six Sigma, Programming in Java, and Database Design. A course of independent study may not be requested/offered for material that is already covered in the normal curriculum, except under extenuating circumstances. May be repeated to a maximum of six credits. Prereq: Completion of all college pre-major requirements and admission to Upper Division in Business and Economics. Approval of Instructor and DSIS Director of Undergraduate Studies.

**AN 403G PRODUCTION AND INVENTORY SYSTEMS. (3)**

This course is an advanced introduction to the complexities of managing production and inventory systems. An enterprise's success in today's highly-competitive, often-global business environment, depends on effectively managing its production activities and the related inventories at various production-process stages. Because such decisions are invariably tied to demand forecasts, the course begins with an examination of forecasting. Students are then led through the topics of production planning, master scheduling, material-requirements & manufacturing-resources planning, production activity control, capacity management, and sequencing & scheduling. The course culminates with coverage of contemporary trends toward just-in-time manufacturing systems and lean manufacturing systems. Applications of analogous systems and principles in the service sector are also addressed throughout the course. Prereq: Completion of all college pre-major requirements and admission to Upper Division or graduate student status in Business and Economics. Non-B&E Upper Division undergraduate students and graduate students may be enrolled with the consent of the instructor. (Same as MKT 403.)

**AN 406G PRODUCTIVITY AND QUALITY MANAGEMENT. (3)**

This course is an advanced treatment of two related concepts that are vital to the success of an enterprise: quality and productivity. As a key ingredient of competitive strategy, quality encompasses many attributes of a product or service – such as its design, its features, fit and finish, durability, safety, and customer treatment. In highly competitive settings, a firm that achieves and sustains high quality levels for its goods and/or services, while remaining at least as efficient as competitors in processes used to produce these outputs, tends to outperform its competitors. Beginning with an examination of connections between quality and productivity, this course examines their underlying philosophic, strategic, and human issues. The coverage includes emergent practices for continuous improvement including Kaizen, Six Sigma, customer relationship management, and strategic planning. Prereq: Completion of all college pre-major requirements and admission to Upper Division or Graduate Student status in Business and Economics. Non-B&E Upper Division undergraduate students and graduate students may be enrolled with the consent of the instructor. (Same as MKT 406.)

**\*AN 420G BUSINESS DATA MINING. (3)**

Data mining is concerned with tools and techniques to numerically and visually explore vast data sets, classify data, predict outcomes, and identify associations, patterns, and exceptional events. Such capabilities enable firms to – for example – better segment markets, evaluate and classify stocks, identify prospective customers, predict contingencies and catastrophes, identify defaulters and fraudulent transactions, measure churn, identify threats, perform service requests, and bundle goods and services. Such capabilities are critical in global, competitive business settings. This course is an introduction to the rapidly blossoming field of Data Mining. Prereq: AN 300. (Same as MKT 420.)

**AN 440G TOPICS IN ANALYTICS. (3)**

This course covers contemporary topics in enterprise data, analysis, and decision making. Past coverage has included Data Mining, Data Communications, and Valuation of Information. The topics covered would also be valuable to students from programs such as Computer Science, Telecommunications, Statistics and Engineering. Prereq: Completion of all college pre-major requirements and admission to Upper Division or Graduate Student status in Business and Economics. Non-B&E Upper Division undergraduate students and graduate students may be enrolled with the consent of the instructor. (Same as MKT 440.)

**\*AN 450G BUSINESS ANALYTICS STRATEGY AND APPLICATIONS. (3)**

This case-based course examines the role of analytics in the development and execution of business strategy. The examination includes applying the principles, tools, and techniques for data-driven business decision-making within business domains. Students will learn to critically analyze data for its use in achieving strategic goals. Prereq: AN 300, AN 306, AN 324. Must have completed or be taking AN 420G concurrently.

**ANA Anatomy and Neurobiology**

**ANA 109 ANATOMY AND PHYSIOLOGY FOR NURSING I. (4)**

Basic anatomy and physiology integrated to prepare freshman students for nursing. Lecture 3 hours, laboratory 1 hour. (This course will have a laboratory fee.)

**ANA 110 ANATOMY AND PHYSIOLOGY FOR NURSING II. (4)**

Basic anatomy and physiology integrated to prepare freshman students for nursing. Lecture 3 hours, laboratory 1 hour. (This course will have a laboratory fee.) Prereq: Successful completion of ANA 109 with a C or better.

**\*ANA 209 PRINCIPLES OF HUMAN ANATOMY. (3)**

The structure of the human body will be examined at various levels: cellular, tissues and organ systems. The gross anatomical arrangement of the body will be studied in a system-by-system format relating structure to function and the fundamentals of human embryology/malformation with adult anatomy. The central nervous system will be emphasized. The course includes an online laboratory component for each system covered. Prereq: Introductory biology or zoology.

**ANA 305 INTRODUCTION TO NEUROSCIENCE TECHNIQUES. (4)**

This introductory laboratory course will provide students with practical knowledge and hands-on experience in basic behavioral, anatomical and physiological techniques used by laboratory scientists in the investigation of the nervous system. It is designed as a gateway to independent research experiences in working neuroscience laboratories. Prereq: BIO 302 Introduction to Neuroscience or equivalent. (Same as PSY 305.)

**ANA 309 AN INTRODUCTION TO REGIONAL ANATOMY. (5)**

This course is designed to serve as a transition between systems-based undergraduate anatomy and regionally-based medical professional anatomy. The human body will be taught in an online format, including modules for independent study, weekly virtual team-based learning sessions, and formal course and practical examinations. Anatomical organization will be presented in a regional format so that students can assimilate the bones, muscles, vasculature, innervations, and lymphatic pattern for each region of the body, similar to the pedagogical approach used in medical professional programs. Prereq: ANA 209 and mastery of the Second Life program.

**ANA 394 INDEPENDENT RESEARCH IN NEUROBIOLOGY AND NEUROSCIENCE. (1-3)**

ANA 394 is designed to provide students with an intensive experience in laboratory or field research. Participants should take an active role in the design and execution of experiments and in the analysis and interpretation of data. They should be capable of "independent research" in the sense that they can conduct the experiments with little direct supervision. Students are expected to become familiar with related research in the current literature by regularly reading scientific journals. The student is expected to devote at least 3-4 hours per week for each credit hour enrolled to laboratory work, although often more time is necessary.

**ANA 395 INDEPENDENT RESEARCH IN ANATOMY AND NEUROBIOLOGY. (1-3)**

Independent research with faculty members. May be repeated to a maximum of 12 credits. Laboratory, three to nine hours per week. Prereq: Biology or psychology majors with sophomore, junior, or senior standing and consent of a faculty member.

**ANA 410G NEUROBIOLOGY OF BRAIN AND SPINAL CORD DISORDERS. (3)**

ANA 410G is a multidisciplinary discussion of neurodegenerative diseases and neurologic disorders. The course objective is to provide an in depth understanding of the basic science and clinical symptoms of selected neurologic disorders and neurodegenerative diseases, current treatment strategies and new approaches for treatment and potential cure of these devastating illnesses. Included are such topics as the 1) subcellular and molecular basis of the diseases, 2) the role of genetics in aging and neurodegeneration, 3) mechanisms of cell death, and 4) the cellular/molecular basis of neurodegenerative diseases and neurologic disorders. The format of the course will consist of a series of formal lectures and informal discussion sessions. Reference materials will be recent review articles. Graduate students taking the course will present studies from the primary medical literature in a journal club format and will also prepare a paper examining one disorder in detail. This course will be of interest to advanced students from a variety of disciplines whose interests concern brain and spinal cord disorders. Prereq: For undergraduate students: BIO 302 or PSY 312 or consent of course directors. For graduate students: Enrollment in a graduate program in biomedical sciences, gerontological sciences or consent of one of the course directors.

**ANA 417G FUNCTIONAL HUMAN NEUROANATOMY. (3)**

This course provides an introductory level of understanding of human central nervous system (CNS) anatomy and function. Lecture topics will explore the CNS based on structures that make up functional systems (e.g., motor, sensory, visual, etc.), how these systems interact, and examples of how a loss of function results in disease conditions. Prereq: BIO 302 Introduction to Neuroscience.

**ANA 442 MOLECULAR AND CELLULAR NEUROBIOLOGY. (3)**

This 3 credit hour course is designed to be an introductory course for undergraduate students aimed at providing an overview of major principles and techniques associated with cellular and molecular neurobiology. Subject matter is intended to range from molecular mechanisms underlying neuronal signaling and cellular function to how these properties are invoked across simple networks, neural systems and behavior. Prereq: BIO 152 or an equivalent; BIO 302 or PSY 312, or consent of course director.

**ANA 503 INDEPENDENT WORK IN ANATOMY. (3)**

Reading and laboratory work in a defined area of anatomy are carried out under the direct supervision of one staff member. Hours of discussion and laboratory work by individual arrangement. May be repeated to a maximum of 12 credits. Prereq: An introductory course in biology, zoology, or botany and consent of instructor.

- ANA 511 INTRODUCTION TO HUMAN ANATOMY.** (5)  
The principles of organization of the human body are presented. Gross anatomy lectures initially follow a systemic plan. This is succeeded by a regional presentation. Several methods of studying anatomy are utilized. These include radiology, palpation of living structures, and the demonstration of prosected fresh and fixed materials. Prereq: Some background in biology, including one or more such courses as biology, zoology, botany, comparative anatomy or embryology, and enrollment in the College of Medicine or a graduate program in the biomedical sciences. In addition, students from graduate programs outside of anatomy must obtain the consent of the course director before registration.
- ANA 512 MICROSCOPY AND ULTRASTRUCTURE.** (4)  
The organization of cells, tissues and organs are presented through lectures and in the laboratory, through the microscopic study of histological sections and illustrations. Prereq: Some background in biology, including one or more such courses as biology, zoology, botany, histological techniques, comparative anatomy or embryology and enrollment in the College of Medicine or a graduate program in the biomedical sciences. In addition, students from graduate programs outside of anatomy must obtain the consent of the course director before registration.
- ANA 516 SELECTED TOPICS IN ADVANCED NEUROSCIENCE.** (3)  
ANA 516 will cover advanced topics in neuroscience. Topics include: neural pathways, development, neuroanatomy, neurobiochemistry, neuropharmacology, neural imaging and molecular neuroscience. Laboratory experiences will be used to complement lectures. Prereq: ANA 511, 512, 513; PGY 511; and enrollment in the College of Medicine or a graduate program in the bio-medical sciences. In addition, students from graduate programs outside of anatomy must obtain the consent of the course director before registration.
- ANA 530 COMBINED HISTOLOGY AND SPECIAL ORAL MICROANATOMY.** (5)  
An analysis of the histological structure and organization of the human body, including an especially detailed treatment of the tissues and organs related to the oral cavity. Prereq: Admission to the College of Dentistry or some background in biology and consent of instructor.
- \*ANA 534 ANATOMY, EMBRYOLOGY AND NEUROANATOMY.** (6)  
This class presents principles of human anatomy, integrated with embryology and neuroanatomy and with particular emphasis on the head and neck to first year dental students. The course involves both lectures and viewing cadaver prosections in a laboratory setting. Anatomical concepts are presented in a regional format in lecture followed by viewing specifically-prepared anatomical prosections of the same regions in lab. Prereq: Admission to the College of Dentistry or some background in biology and consent of instructor.
- ANA 536 HUMAN EMBRYOLOGY, AN ABBREVIATED COURSE.** (2)  
A concise presentation of developmental mechanisms, early development of the embryo, and subsequent development of selected systems and regions of the body. Lecture, one hour. Prereq: Admission to the College of Dentistry.
- †ANA 538 DENTAL NEUROANATOMY.**
- ANA 600 SEMINAR IN ANATOMY.** (1)  
A weekly seminar devoted to presentation and discussion of classic and new research in the field. May be repeated to a maximum of four credits. Prereq: Admission to the anatomy graduate program or permission of the course director.
- ANA 605 NEUROBIOLOGY OF CNS INJURY AND REPAIR.** (3)  
The objective of the course will be to provide a general overview of the current state of knowledge concerning the pathophysiology and therapeutic approaches to central nervous system injury. The course will provide a strong working background concerning the issues, techniques and frontiers of neurotrauma therapeutic discovery research aimed at reducing acute post-traumatic neurodegeneration in the injured brain or spinal cord or enabling regeneration and repair. This course is a graduate level course intended for students who are in their second or subsequent years of graduate study and who are pursuing focused research training in neurotrauma research. No special prerequisites, other than graduate standing, are necessary. However, a background in neuroanatomy and neurophysiology is highly recommended. Prereq: Permission of instructor. (Same as PGY 605.)
- ANA 609 EDUCATIONAL STRATEGIES IN THE ANATOMICAL SCIENCES.** (3)  
This course informs on and examines multiple aspects of teaching the Anatomical Sciences. Classroom and laboratory issues, teaching theory, portfolio development and presentation strategies are among the topics covered. Prereq: Admission to the graduate certificate program in the Anatomical Sciences or the permission of the course director.
- ANA 611 REGIONAL HUMAN ANATOMY.** (5)  
Functional human anatomy covering all regions of the body utilizing dissection techniques with an emphasis on cross-sectional anatomy and normal morphology. Lecture, four hours; laboratory, four hours per week. Prereq: Enrollment in the PAS Program of the College of Allied Health or a graduate program in the biomedical sciences (by consent of course director only).
- ANA 612 BIOLOGY OF AGING.** (3)  
A multidisciplinary discussion of how the process of aging affects biological systems. Coverage will be quite broad and includes topics such as subcellular and cellular aging, genetics, immunology, anatomy and physiology, animal model of aging, etc. Prereq: Enrollment in the doctoral program in Gerontology or a biomedical science department or consent of instructor. (Same as BIO/GRN/PGY 612.)
- ANA 625 INTRODUCTION TO FUNCTIONAL MRI.** (1)  
Hands-on course for practitioners interested in acquiring functional MRI technique(s) as a research tool. Prereq: (1) Introductory statistics (e.g. PSY 610, STA 503, STA 570). (2) Permission of instructor.
- ANA 631 ADVANCED HUMAN ANATOMY.** (3-5)  
The objective of this course is to meet individual student needs for increased knowledge in particular areas of gross human morphology. Investigations of problems involving gross morphology will be carried out. One or several defined areas of the body will be studied in considerable detail by dissection, by intensive use of the pertinent literature, by the use of visual aids, prosected materials and other appropriate learning aids. Prereq: A background in gross human anatomy equivalent to a medical school course in regional anatomy and consent of course director and/or Director of Graduate Studies in Anatomy and Neurobiology.
- ANA 636 ADVANCED NEUROSCIENCE.** (3-5)  
This course will consist of a comprehensive examination of the nervous system. Emphasis will be placed on structure-function relationships, neurotransmitters, chemical constituents of the nervous system, neuronal as well as non-neuronal cells, plasticity of the nervous system and developmental biology. The detailed content and emphasis will depend on both the background and goals of the students. Depending on the number of credits a student registers for, and the topic and course orientation, laboratory work, library work, written and/or oral presentations may be a course requirement. Prereq: Enrollment in a graduate program in the biomedical sciences, or consent of the instructor.
- ANA 638 DEVELOPMENTAL NEUROBIOLOGY.** (3)  
An explanation of the processes which contribute to the development of the nervous system. Neurophysiological, cell biological and molecular approaches to cell differentiation, neuronal pathfinding and synapse formation and stabilization will be explored and discussed. Examples will be drawn from both vertebrate and invertebrate preparations. Prereq: BIO 535 or consent of instructor. (Same as BIO/PGY/PSY 638.)
- ANA 655 INTRODUCTION TO MAGNETIC RESONANCE IMAGING.** (3)  
Survey of basic concepts and applications in magnetic resonance imaging: physics and chemistry, basic mathematical foundations, workings of a modern MRI scanner, image reconstruction, biology with emphasis on neurobiology, medical applications in the brain and heart. Covers basic functional imaging and spectroscopy. Prereq: Undergraduate major in a science or engineering discipline.
- ANA 660 BIOLOGY OF REPRODUCTION.** (3)  
Advanced study of current topics in reproductive biology. The course is comprised equally of student-led discussions and lectures given by faculty with research expertise in selected topics. Readings will be taken from current and classic literature. Topics covered include (but are not limited to) molecular and cellular endocrinology, hormone receptors and mechanism of action, reproductive neuroendocrinology, reproductive behavior, gametogenesis, fertilization, sexual differentiation, puberty, menopause and environmental effects on reproduction. Emphasis will be placed on the analysis and understanding of the experimental basis for current concepts in reproductive biology. Prereq: ASC/PGY 601 and ASC 364 or BIO/PGY 502 or consent of instructor. (Same as ASC 660 and PGY 660).
- ANA 662 ULTRASTRUCTURAL ANATOMY.** (2-5)  
The objectives of this course are to advance the students' knowledge of the submicroscopic structure of cells and tissues. Correlation of intra- and extracellular morphology and function will be emphasized. Students will do detailed laboratory work in the techniques of electron microscopy. Depending on the number of credits a student registers for, and the topic and course orientation, laboratory work, library work, written and/or oral presentations may be a course requirement. Prereq: ANA 512, previous work in microscopy including histology or cytology, or equivalents, and consent of instructor.
- ANA 710 AGING OF THE NERVOUS SYSTEM.** (3)  
This course will examine the alterations in the brain that occur with aging and in neurodegenerative disorders such as Alzheimer's disease. The emphasis will be on human aging although the relevance of animal models to studies of human aging will be a recurrent theme. The course will examine aging at several levels, including molecular, cellular, organismic, and behavioral. A strong background in the basic sciences is encouraged. (Same as GRN/PGY/PHA 710.)
- ANA 748 MASTER'S THESIS RESEARCH.** (0)  
Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.
- ANA 749 DISSERTATION RESEARCH.** (0)  
Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.
- ANA 767 DISSERTATION RESIDENCY CREDIT.** (2)  
Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.
- ANA 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE.** (1-6)  
May be repeated to a maximum of 12 hours.
- ANA 769 RESIDENCE CREDIT FOR THE DOCTOR'S DEGREE.** (0-12)  
May be repeated indefinitely.

## Course Descriptions

### **ANA 780 SPECIAL TOPICS IN NEUROBIOLOGY. (1-3)**

A lecture/seminar course offered based on contemporary topics in neurobiology. Course is designed to offer different emphasis in a given year and to cover timely topics. Prereq: Consent of the course director.

### **ANA 790 RESEARCH IN ANATOMY. (1-12)**

Individualized laboratory and research experience under the supervision of a faculty member. May be repeated to a maximum of 12 credits. Prereq: Consent of the instructor.

### **ANA 801 HISTOLOGY FOR PHYSICAL THERAPY STUDENTS. (1)**

A survey of selected basic and specialized mammalian tissues most commonly involved in diseases treated by physical therapists. The course provides information required for understanding the cellular mechanisms behind the various diseases and the rationale for subsequent treatment. Prereq: Admission to the College of Allied Health.

### **ANA 802 NEUROANATOMY FOR PHYSICAL THERAPY STUDENTS. (2)**

A concise account of the functional anatomy of the central nervous system. The anatomical organization is correlated with physiological activity. Emphasis is placed upon the morphological basis for progressively higher levels of control of activity from the simple reflex to voluntary motor activities controlled by the cerebral cortex. This type of knowledge is required for proper understanding and performance of physical therapy technicians in the treatment of medical and surgical disease.

### **ANA 811 HUMAN ANATOMY FOR ALLIED HEALTH PROFESSIONS. (5)**

A dissection-based gross anatomy course designed to present the principles of the human body in a regional format with special emphasis on functional/clinical anatomical relationships. Prereq: Enrollment in the PT program of the College of Allied Health Professions.

### **ANA 814 HUMAN STRUCTURE/GROSS ANATOMY. (6)**

The course consists of lecture, small group, laboratory, and palpation exercises that provide a basic understanding of anatomical principles, organization and development. Anatomical structures are introduced as a basis for future functional correlates and principles are taught via laboratory discussions, prosections, dissections, films and skeletal materials. Lecture, 20 hours per week. Prereq: Admission to Medical School (first year). (Same as MD 814.)

### **ANA 815 FIRST-YEAR ELECTIVE, ANATOMY. (1-3)**

With the advice and approval of his or her faculty adviser, the first-year student may choose approved electives offered by the Department of Anatomy and Neurobiology. The intent is to provide the student an opportunity for exploration and study in an area which supplements and/or complements required course work in the first-year curriculum. Pass-fail only. Prereq: Admission to first year, College of Medicine.

### **ANA 825 SECOND-YEAR ELECTIVE, ANATOMY. (1-4)**

With the advice and approval of his or her faculty adviser, the second-year student may choose approved electives offered by the Department of Anatomy and Neurobiology. The intent is to provide the student an opportunity for exploration and study in an area which supplements and/or complements required course work in the second-year curriculum. Pass-fail only. Prereq: Admission to second-year medical curriculum and approval of adviser.

### **ANA 850-899 FOURTH-YEAR ELECTIVE FOR MEDICAL STUDENTS. (1-6)**

With the advice and approval of the faculty adviser and the Student Progress and Promotions Committee, the fourth-year student may choose approved electives offered by the various departments in the College of Medicine. The intent is to provide the student an opportunity to develop his/her fund of knowledge and clinical competence. Prereq: Admission to the fourth year, College of Medicine and/or by the permission of the Student Progress and Promotions Committee.

#### **Approved elective:**

**ANA 850 ELECTIVE: APPLIED HUMAN ANATOMY**

## **ANS Anesthesiology**

### **ANS 815 FIRST-YEAR ELECTIVE, ANESTHESIOLOGY. (1-3)**

With the advice and approval of his or her faculty adviser, the first-year student may choose approved electives offered by the Department of Anesthesiology. The intent is to provide the student an opportunity for exploration and study in an area which supplements and/or complements required course work in the first-year curriculum. Pass-fail only. Prereq: Admission to first year, College of Medicine.

### **ANS 825 SECOND-YEAR ELECTIVE, ANESTHESIOLOGY. (1-4)**

With the advice and approval of his or her faculty adviser, the second-year student may choose approved electives offered by the Department of Anesthesiology. The intent is to provide the student an opportunity for exploration and study in an area which supplements and/or complements required course work in the second-year curriculum. Pass-fail only. Prereq: Admission to second-year medical curriculum and approval of adviser.

### **ANS 842 ADVANCED CLINICAL PHARMACOLOGY AND ANESTHESIOLOGY. (4)**

This course uses lectures, interactive small groups, and firsthand experience to introduce anesthesiology as it relates to pharmacology and physiology. The course also teaches pharmacology and therapeutics utilizing clinical cases. Students develop their own personal formularies during the course. Laboratory, 40 hours per week. Prereq: Admission to fourth year of medical curriculum. (Same as PHA 842 and MD 842).

### **#ANS 849 ELECTIVE:**

#### **EXTRAMURAL ROTATION IN ANESTHESIOLOGY. (4)**

Clinical electives allow students to gain exposure to medical specialties reflecting their career interests. Extramural electives allows students to experience clinical care in different environments at different institutions. Through this extramural clinical elective, the student will complete a clinical rotation in Anesthesiology at another institution. The specific rotation details and institution must be approved by the course director. Prereq: Promotion to the Advanced Development Phase of the M.D. curriculum.

### **ANS 850-899 FOURTH-YEAR ELECTIVE FOR MEDICAL STUDENTS. (1-6)**

With the advice and approval of the faculty adviser and the Student Progress and Promotions Committee, the fourth-year student may choose approved electives offered by the various departments in the College of Medicine. The intent is to provide the student an opportunity to develop his fund of knowledge and clinical competence. Prereq: Admission to the fourth year, College of Medicine and/or permission of the Student Progress and Promotions Committee.

#### **Approved electives:**

**\*ANS 850 ELECTIVE: INTRODUCTION TO ANESTHESIOLOGY.**

**\*ANS 851 ELECTIVE: CRITICAL CARE ANESTHESIOLOGY.**

**\*ANS 852 ELECTIVE: RESEARCH IN ANESTHESIOLOGY.**

**\*ANS 853 ELECTIVE: PAIN MANAGEMENT.**

**#ANS 854 ELECTIVE: ADVANCED ANESTHESIOLOGY.**

**\*ANS 890 ELECTIVE: ANESTHESIOLOGY OFF-SITE.**

## **ANT Anthropology**

### **ANT 101 WHAT MAKES US HUMAN? INTRO TO ANTHROPOLOGY. (3)**

This course explores what it means to be human by studying human cultures, past and present. Students will develop an understanding of anthropology that emphasizes the concepts and methods of the major sub-fields, i.e., cultural, biological, archaeology, and linguistics.

### **ANT 102 ARCHAEOLOGY: MYSTERIES AND CONTROVERSIES. (3)**

Scientific archaeology has a problem: fringe ideas about mysteries of the past attract more interest than scholarly accounts of these same mysteries. In discussing the "mysterious" side of archaeology, this course asks why consideration of the past invites some of the most bizarre speculations about human life. Why do fringe theories about lost civilizations, intergalactic interactions, and mysterious technologies gain more popularity than mainstream theories? Why should serious archaeologists and students pay any attention to such "wacko" ideas? To answer these questions, this course attends to two kinds of controversies: fantastic claims in the past (such as the Myth of the Moundbuilders and the Shroud of Turin) and debates in the present (such as the cultural affiliation of Kennewick Man and uses of archaeology to promote discrimination).

### **ANT 103 SPORTS, CULTURE, AND SOCIETY. (3)**

From little league baseball to the world of college and professional sports and the numerous ESPN channels that track them, it is clear that sports play a significant role in our culture and society and yet, we often take for granted this significance. This course introduces students to the anthropology of sports through an examination of the rituals, political and economic dimensions, and social and cultural meanings of sports from around the globe in both the past and the present.

### **#ANT 104 FIRST YEAR SEMINAR (Subtitle required). (3)**

This course introduces the freshman student to the concept of community. What is a community? Who is part of the community and who is not? Anthropological theories and concepts involved in defining communities and cultures and in building a sense of community will be explored as will the use of anthropological methods and data collection and presentation.

### **#ANT 105 HUMAN ORIGINS. (3)**

This course is directed at non-majors (with no anthropology prerequisite) and will introduce students to the science of biological anthropology. Students will critically examine the ways in which biology, the environment, society, and culture come together to form the human condition. Guided by evolutionary theory and the scientific method, we will explore the evolutionary history of modern Homo sapiens from early primate origins to our recent hominin ancestors. We will explore the role that evolutionary forces had in shaping the variation that exists in modern humans today; and we will problematize "race" as a way of categorizing that variation.

### **ANT 130 INTRODUCTION TO COMPARATIVE RELIGION. (3)**

Comparative study of major world and selected regional religions with emphasis on analysis of belief, ritual, artistic expression and social organization. Eastern and Western religions are considered.

### **ANT 160 CULTURAL DIVERSITY IN THE MODERN WORLD. (3)**

Directed at non-majors, this course is intended to introduce the student to the diversity of human cultural experience in the contemporary world. Goals of the course include gaining an appreciation for the common humanity and uniqueness of all cultures; to gain a sensitivity toward stereotypes and ethnocentrism, and to understand the distinctions between "race," ethnicity and racism. The course features extended descriptions of the cultural dynamics of the culture(s) with which the instructor has worked.

**ANT 220 INTRODUCTION TO CULTURAL ANTHROPOLOGY. (3)**

The study of the lifeways and beliefs of different peoples. The objectives of the course are to foster an appreciation for the variety of cultural traditions found throughout the world, and to introduce students to anthropological concepts and methods of inquiry.

**ANT 221 NATIVE PEOPLE OF NORTH AMERICA. (3)**

This is a survey of the aboriginal Native American cultures of North America and of the impact of four centuries of British, French, Spanish, and Russian contact on Native American societies. Particular emphasis is placed on comparing and contrasting cultural characteristics of Native American groups living in ecologically diverse regions of North America. The course will include consideration of the status of Native Americans in present-day North America.

**ANT 222 MIDDLE EAST CULTURES. (3)**

As part of the General Education curriculum, this course falls under the "Global Dynamics" category of the broad area of "Citizenship." This course will explore some of the cultures, and aspects of culture, found in the broad region of the Middle East and North Africa. Exploration will be rooted in anthropological research and perspective, and organized around rubrics including kinship, gender, religion, and cultural performance.

**ANT 225 CULTURE, ENVIRONMENT AND GLOBAL ISSUES. (3)**

A fundamental part of human experience is interacting with our physical surroundings, but in the globalized ecosystem of our planet, our interactions with the physical world increasingly include distant places rather than just the surroundings we see from our door step. This course aims to develop students' awareness, knowledge and ability to reflect on how human behavior intersects with global environments. To do so, it applies an anthropological interpretive framework to topics that link human lifestyles, the environment and global issues. Prereq: Freshman or sophomore standing only.

**ANT 230 INTRODUCTION TO BIOLOGICAL ANTHROPOLOGY. (3)**

This course explores the ways in which biology, the environment and culture come together to form the human condition. Topics include human genetics, human evolution, primate behavior, contemporary human variation and applied biological anthropology, including forensics, child growth and human nutrition. This course includes a laboratory component.

**ANT 240 INTRODUCTION TO ARCHAEOLOGY. (3)**

Introduces the theories, techniques, and strategies used by archaeologists to recover and interpret information about past cultures.

**ANT 241 ORIGINS OF OLD WORLD CIVILIZATION. (3)**

This course explores the rise of civilizations in the Old World through archaeology and history. The course examines theories of civilization and state formation and case studies that demonstrate how states arose. Concentrates on regions that produced some of the earliest and most complex societies on the planet: Mesopotamia, Egypt, the Indus Valley, China, and Europe. Comparing and contrasting these great societies will show how each was influenced by its unique social, cultural and environmental surroundings. The course also examines the origins of agriculture, writing, art, trade, mathematics, astronomy and religion in Africa, Asia, and Europe.

**ANT 242 ORIGINS OF NEW WORLD CIVILIZATION. (3)**

This course discusses warfare, commerce, social organization, political diplomacy, disease, demographics, religion, and environmental degradation among the ancient peoples of the Americas as revealed by archaeological, art historical, and textual data. Students will gain an appreciation of the diversity of human life in the New World as well as an understanding of the tremendous cultural achievements of the Inca, the Aztec, the Maya, and their neighbors. We will use the concept of complexity as a framework for comparing different societies and for contextualizing the relevance of ancient civilizations for understanding global processes in the contemporary world.

**ANT 245 FOOD CULTURE AND SOCIETY. (3)**

This course is designed for students in anthropology, food and nutrition, agriculture and environmental studies. It explores food in terms of human food systems. Human food systems include the knowledge, values, and practices used to produce, distribute, process, exchange and consume food. These are embedded in culture and operate within societies. Thus, why we eat, what we eat, when, where and with whom we eat, how and where we obtain our food, how we prepare it, and distribute it in specific ways may vary as a function of the culture in which we live, our place of residence and our location within society. We will explore these issues through the lectures, readings, videos and discussions to gain a better understanding of the complexity of food-related behaviors among people around the world.

**ANT 251 GLOBAL HEALTH INEQUALITIES. (3)**

This course explores contemporary global health issues from an anthropological perspective. We will examine health effects of economic collapse, disasters and socio-political changes in industrialized and developing countries. We also study the growing global health and humanitarian industries. Topics include in chronic and infectious diseases, environmental illnesses, pharmaceuticals, and the commercial traffic in tissues, organs and other bodily substances. This course will be of interest to students in anthropology and the social sciences, public health, International Studies, pre-med students and those who are interested in pursuing advanced degrees or professional careers in other health-related fields, including development and policy.

**ANT 301 HISTORY OF ANTHROPOLOGICAL THEORY. (3)**

The purpose of this course is to acquaint the undergraduate student with the history of the development of anthropological ideas from their precursors in thought about human nature and behavior beginning with ethnographic and philosophical literature from Greek and Roman civilization, and ending with discussion of current emphases in anthropological theory. The course will provide anthropology majors with the foundations they need to master this area of disciplinary knowledge.

**ANT 302 ETHNOGRAPHIC METHODS: DOING ANTHROPOLOGY. (3)**

Introduction to qualitative research methods in cultural anthropology, with a focus on participant-observation, interviewing, collaborative methods, ethnographic writing, and other techniques. Prereq: Anthropology major or minor status or instructor's approval.

**ANT 303 TOPICS IN THE ANTHROPOLOGY OF FOOD AND NUTRITION: (Subtitle required). (3)**

This course focuses on food and nutrition through the lens of anthropology. Topics will vary, but each semester the course will provide insight into an aspect of food and nutrition that is relevant to present-day concerns in regional, national, and/or global context. Nutrition is one of the most critical health issues in the U.S. and globally as people struggle with both undernutrition and overnutrition and the long-term consequences of both to human well-being. At the same time, it is important to recognize that food is embedded in cultural, social and political-economic contexts that serve to foster and maintain cultural and social identity, and/or in which food is a commodity to be bought, sold and traded for economic profit and/or political gain.

**ANT 311 ANTHROPOLOGY OF GLOBALIZATION. (3)**

This course explores the ways in which differences in factors such as nationality, ethnicity, age, gender, class and occupation shape experiences of globalization. We will analyze and interpret rapidly changing patterns of global production, consumption, politics, resistance, adaptation, and identity construction around the world.

**ANT 312 BUSINESS, CULTURE AND SOCIETY. (3)**

The course introduces students to recent research in business and organizational anthropology within three overlapping domains: marketing and consumer behavior, organizational theory and culture, and global business (especially international marketing, intercultural management and intercultural communication). We will explore and critically examine the meaning and usage of core concepts such as culture, design, social organization, consumption, globalization, ethnography, business, branding and marketing. Students will have opportunities for hands-on research involving observation and critical analysis and will learn how to make effective (oral, written, and visual) critical commentaries on the methods, theories and ethics of business anthropology.

**ANT 315 CULTURE THROUGH FILM AND SOUND. (3)**

Anthropologists have drawn on visual representation and analysis of human experience since the inception of the discipline, and are increasingly paying attention to what can be learned through the other senses as well. This course will explore ethnographic, documentary, and cross-cultural film traditions; ethics, methods, and theories of recording and representation; ways to use sensory anthropology methods in all the subfields (archaeologists reconstructing soundscapes, for example); critical attention to the uses of cinema, television, radio and social media to disempower or empower; indigenous media; and current work in participatory video and interest in analog vs. digital technologies.

**ANT 320 ANDEAN CIVILIZATION. (3)**

A study of the Inca and other pre-Hispanic civilizations of highland South America in terms of their origins, their development, and their material, social, and intellectual achievements.

**ANT 321 INTRODUCTION TO JAPANESE CULTURE, MEIJI (1868) TO PRESENT. (3)**

General introduction to Japanese culture from Meiji Restoration (1868) to the present. Topics include: nation-building, Japan and the West, Japan and Asia (for the Meiji period 1868-1912); gender construction and class formation, urbanization and mass culture (for the Taisho period 1912-1926); and Japanese colonialism, WWII, A-bomb, the U.S. occupation, postwar recovery, popular culture, and globalization (for the Showa period 1926-1989 and beyond). (Same as JPN 321.)

**ANT 322 ANCIENT MEXICAN CIVILIZATIONS. (3)**

The course provides a study of the Aztec and the related cultures of the New World. It provides a detailed discussion of pre-Columbian subsistence practices, economy, religion, and politics by tracing the development of ancient Mesoamerican civilization from its earliest beginnings to the Spanish conquest.

**ANT 324 CONTEMPORARY LATIN AMERICAN CULTURES. (3)**

This course is a detailed survey of societies and cultures of contemporary Latin America, utilizing contributions from anthropological research. Prereq: Introductory social science course.

**ANT 325 LANGUAGE AND CULTURE. (3)**

This course is an introduction to linguistic anthropology. The course reviews the basic principles of linguistic analysis and examines the ways in which linguistic structures interact with and reflect cultural variation. (Same as LIN 325.)

**ANT 326 CONTEMPORARY AFRICAN LIVES. (3)**

What do you think when you hear AFRICA? This course goes beyond the words, images and stereotypes that we typically learn from western news reports, popular media and mainstream descriptions of issues on the continent. Our goal will be to examine, and challenge, many of the popular portrayals of Africa, and thus build a more realistic and grounded understanding of the region. We will consider issues of geography, social organization and family life, health and food security, economy and ecology, and politics and identity. But our examination will draw from African sources and people living on the continent, as well as media built on long term engagement with the multitude of African nations. We will investigate how social, economic and global systems come together to produce the diversity of lives across the vast region. We will also discover positive, hopeful and sustainable aspects of African life with attention to local people's solutions and efforts to build the lives they want. Ultimately, we will come away with both better understanding of the complex reality of "Africa", and with analytical tools for examining other complex, but often stereotyped, issues in society more broadly. Prereq: Sophomore standing or higher. (Same as AAS 326.)

**ANT 327 CULTURE AND SOCIETIES OF INDIA AND SOUTH ASIA. (3)**

This course considers the interrelationships between the various religious, political and philosophical traditions and practices of India and South Asia in the context of their shared cultural, historic, structural, geographic and demographic ties.

**ANT 328 THE ANCIENT MAYA. (3)**

This course uses archaeology, epigraphy, ethnohistory and ethnographic analogy to explore the origin, florescence and decline of the ancient Maya (1000 BC to 1500 AD). The class ties economics, politics, social organization, and religion into a holistic understanding of the ancient Maya world.

**ANT 329 CULTURES AND SOCIETIES OF EURASIA AND EASTERN EUROPE: SOCIALISM AND POST-SOCIALIST CHANGE. (3)**

This course provides an anthropological study of cultures and societies of Eurasia and Eastern Europe. The course considers the demise of Soviet socialism and the emergence of democracy and market economies. We examine how people experience political, cultural and economic transformations in their social relations and in their everyday lives.

**ANT 330 NORTH AMERICAN CULTURES. (3)**

This course uses readings, films, and music to explore the plurality of peoples and cultures in North America – with particular attention to the US. We will look at youth cultures as sites of creativity and resistance, examine perennial problems in social equality, consider the similarities and differences between urban and rural ways of life, and explore environmental concerns as an integral part of making and sustaining culture.

**ANT 331 ANTHROPOLOGY OF NORTH AFRICA. (3)**

This is a survey course of North Africa as a cultural area. Countries included in any given semester will vary. North Africa is Islamic and is often considered to be part of the Middle East but has a distinct history and culture of its own. Course content will include cultural, social, historical, economic, religious, and political perspectives on this important region. Ethnicity and the impact of colonialism will be discussed. Other important segments will examine gender status and roles, family and marriage, sociopolitical organization, the life course of males and females, and aging.

**ANT 332 HUMAN EVOLUTION. (3)**

Basic concepts and theory of evolution will be reviewed and applied to the study of fossil humans. The evidence for the evolution of humans and their primate relatives will be studied, with attention paid to alternate interpretations of the data. Prereq: ANT 230 or BIO 150.

**ANT 333 CONTEMPORARY HUMAN VARIATION. (3)**

This course focuses on human variation resulting from adaptation to a wide range of environments and the stresses inherent in each. It explores how humans respond/ have responded to natural stresses, e.g., cold, heat, aridity and altitude, and human-made stresses, e.g., poverty, malnutrition and chemical pollution.

**ANT 335 RELIGION IN EVERYDAY LIFE. (3)**

Directed at non-majors (with no anthropology prerequisite), this course is intended to introduce the student to the diversity and unity of religious beliefs and practices in everyday life throughout the world through the lens of the social science anthropology. This includes the study of religions both textual and non-textual, large-scale and small-scale. The course content will include ethnographic materials as well as an examination of various methods and theoretical approaches used in anthropology in the cross-cultural study of religion. Questions that are addressed in this course include: Why do humans have/need religion? What is "religion"? Where, when, and how did "religion" evolve as a cultural universal in the human species? We will examine the basic components of religious beliefs and practices and how they are integrated into human life both individually and in communities. Students will think critically about the social organization of religion and impact of religion on society. Other areas of discussion will include: religious specialists, sacred places, religion and adaptation, religion and gender, and politics and religion. This course is much more than a typical survey of world religions and will specifically encourage the cross-cultural comparative perspective of a significant feature of all human groups.

**#ANT 336 CONTEMPORARY MUSLIM SOCIETIES. (3)**

Provides an anthropological analysis of Islam as a key factor for understanding contemporary Muslim societies and globalized Islam. Analyzes issues relevant to the growth and development of Muslim societies. Exposes students to diverse expressions and practices of Islam through ethnographic case studies in the West and in the Islamic world.

**#ANT 337 GLOBAL AGING. (3)**

In this course, the discipline of anthropology provides the framework for the study of aging in cross-cultural perspective. Aging is a universal human phenomenon and a basic and inevitable biological reality, but the social and cultural experience of aging varies a great deal cross-culturally. Culture shapes biology and this cultural variation provides the topic of this course. What does it mean to get older in our own and other cultures? We will begin with the global demography of the world's elderly population. Course readings and discussions will include such topics as social support, intergenerational relationships, attitudes and stereotypes about aging, conceptualizations about the life course, gender and aging, religion and aging, aging and technology, and peer relationships among elders. One of the features of the course will be an examination of the diversity of aging in the US including ethnicity and LGBTQI. Some of the cultures we will study are in Morocco, India, China, Europe, and Japan. One of the main themes of this course is successful aging. Students will be encouraged to explore their own interests as well.

**ANT 338 ECONOMIC ANTHROPOLOGY. (3)**

A comparative ethnographic, theoretical, and historical exploration of the socio-cultural constitution of economic practices. Students will examine different approaches to questions of human nature, choice, values and morality. The course explores power and social life in diverse cultures through a topical focus on peasants, markets, gifts, commodities, consumption and systems of production. The course provides a foundation for applying anthropological knowledge to real-world situations and the material is readily applied to archaeology, international business and social science.

**ANT 339 HUMAN RIGHTS IN GLOBAL PERSPECTIVE. (3)**

This class discusses theoretical debates on human rights within the discipline of anthropology and contrasts these approaches to those of other disciplines. Once students acquire this foundation, they apply their knowledge to a human rights problem of their own choice. They identify a researchable question about human rights and use appropriate evidence and methods to substantiate their claims. Students will also learn through experience the ethic dimensions of research and how research can have an important impact on society.

**ANT 340 DEVELOPMENT AND CHANGE IN THE THIRD WORLD. (3)**

This course introduces the student to how anthropologists approach the study and practice of economic development. It explores cross-culturally how local populations have responded to development; the different topics of development anthropology, such as agriculture and rural development; and the ways anthropological knowledge is applied in addressing development problems.

**ANT 341 APPALACHIAN ENGLISH. (3)**

The Appalachian Mountains, which range from New York to Mississippi, making up part of the landscape of 13 different states, are known to many Americans as being home to a unique cultural and linguistic experience. In this course, we will examine the extent to which this uniqueness is true, considering the nature of many myths and stereotypes that exist about this variety. We will discuss certain lexical, phonetic, syntactic, and other linguistic features that set this variety apart from other American varieties while also noting the features the speech of Appalachia shares with others. We will examine the history, origins, and development of English in Appalachia and address issues of identity, education, and standardness with respect to the English of Appalachia. (Same as APP/LIN 311.)

**ANT 342 NORTH AMERICAN ARCHAEOLOGY. (3)**

This course focuses on the origin and growth of prehistoric American Indian cultures north of Mexico as revealed by archaeological data.

**ANT 350 TOPICS IN ANTHROPOLOGY (Subtitle required). (3)**

Discussion, reading and writing focusing on specific topics in anthropology. May be repeated to a maximum of nine credits under different subtitle.

**ANT 351 SPECIAL TOPICS IN ARCHAEOLOGY (Subtitle required). (3)**

Discussion, reading and writing focusing on specific topics in archaeology. May be repeated up to a maximum of twelve credits under a different subtitle.

**ANT 352 SPECIAL TOPICS IN CULTURAL ANTHROPOLOGY (Subtitle required). (3)**

Discussion, reading and writing focusing on specific topics in cultural anthropology. May be repeated up to a maximum of twelve credits under a different subtitle.

**ANT 353 SPECIAL TOPICS IN PHYSICAL OR BIOLOGICAL ANTHROPOLOGY (Subtitle required). (3)**

Discussion, reading and writing focusing on specific topics in physical or biological anthropology. May be repeated up to a maximum of twelve credits under a different subtitle.

**#ANT 354 HUMAN SKELETAL ANTHROPOLOGY. (3)**

The focus of this course is human osteology, or the study of the human skeleton, from a biocultural perspective. Emphasis will be placed on both the biology of human skeletal remains through osteological analysis as well as cultural context. This course will explore the various types of biological, cultural and evolutionary information that can be derived from the examination of human skeletal remains. Students will not only learn how to identify skeletal elements, but also estimate age and sex of individuals. Lectures will also cover various topics such as the reconstruction of diet, the identification of disease in past populations (paleopathology), forensic applications and ethical issues concerning the concept of race, and the research of human remains.

**#ANT 355 FORENSIC ANTHROPOLOGY. (3)**

This course will provide students with an introduction to human skeletal biology and its applications to medico-legal issues. We will also discuss the different contexts in which forensic anthropology is applied, including local death investigations, mass disasters, and human rights violations. Utilizing a biocultural perspective, participants will explore the biology of human skeletal remains through osteological analysis, while also emphasizing the cultural context of the people we study as well as the scientists who study them. We will also investigate the various types of biological, cultural and evolutionary information that can be derived from the examination of human skeletal remains.

**ANT 360 STATISTICS IN ANTHROPOLOGY. (3)**

Students learn how to use probability and quantitative data to test hypotheses in anthropology. Due to common characteristics of anthropological data sets, this class emphasizes methods appropriate for handling small sample sizes and nominal and ordinal scale variables. The course also covers descriptive statistics, sampling, spatial analysis, confidence intervals, and the creation of charts and tables. Since the class focuses more on core concepts than mechanical computation, lessons learned in the context of anthropological questions can be applied to everyday decisions. Prereq: Any Quantitative Foundations course.

**ANT 375 ECOLOGY AND SOCIAL PRACTICE. (3)**

This course provides a broad survey of theoretical and historical issues in the link between humans and their environment. Throughout the semester, students will read about and discuss the many ways humans interact with their physical surroundings. Students will examine human cultural adaptation to different ecological settings, with an overall concern of finding general principles that apply to the many human lifestyles on the planet.

**#ANT 395 INDEPENDENT STUDY. (1-4)**

A course with special assignments for study of special topic usually involving preparation of a final paper. Student must identify a clearly defined topic and a specific faculty member as instructor. All work to fulfill this course must be detailed clearly and described fully in advance using the approved learning contract. The student and faculty member will need to agree on a general schedule of student/faculty meetings during the semester to discuss the progress of the project. May be repeated to a maximum of 12 credits. Letter Grade only. Prereq: Major in anthropology, standing of 3.0 in the department and permission of Instructor, DUS or DGS, and Chair; and completion of departmental learning agreement.

**ANT 399 FIELD BASED/COMMUNITY BASED EDUCATION IN ANTHROPOLOGY. (1-15)**

A community-based or field-based experience in Anthropology under the supervision of a faculty member. May be repeated to a maximum of 15 credits. Pass-fail only. Prereq: Permission of instructor and departmental chairperson; completion of departmental learning agreement.

**ANT 401 GENDER ROLES IN CROSS-CULTURAL PERSPECTIVE. (3)**

Explores the theoretical and substantive basis for contemporary thinking about gender from an anthropological perspective. Gender content is explored in several cultures representing all levels of sociocultural complexity.

**ANT 429 SURVEY OF MEDICAL ANTHROPOLOGY. (3)**

This course provides a survey of health, disease, and healing in non-Western and Western societies. An examination of major theoretical perspectives in medical anthropology.

**ANT 432 ANTHROPOLOGY OF EASTERN EUROPE AND RUSSIA. (3)**

An anthropological approach to the cultural, political, and economic experiences of people living under state socialism and through its demise. We ask how everyday life and social relations in this region are being affected by emerging market relations and democracy. Reading include ethnographic studies and the works of essayists, fiction writers, and scholars from the region. Prereq: ANT 160 or ANT 220.

**ANT 433 SOCIAL ORGANIZATION. (3)**

This course provides an overview of how anthropologists approach the study of social organization. The class will provide historical and conceptual background to the study of social organization, and explore a range of organizational forms from rural households to complex communities.

**ANT 435 CULTURES AND POLITICS OF REPRODUCTION. (3)**

This course takes a cross-cultural approach to understanding the ways reproduction and associated phenomena (such as family formations and the social use of technologies) comprise arenas where social relations become created and challenged. Ethnographic case studies will explore cross-cultural constructions of the body (sexuality, anatomy and physiology), parenthood, and kinship relations; and students will examine the ways the state, social movements, legal/medical experts, and lay persons struggle to appropriate reproductive potentials for their own needs. Prereq: ANT 220 or WS 201 or permission of instructor.

**ANT 440 ANTHROPOLOGICAL PERSPECTIVES ON CHILD GROWTH. (3)**

This course examines basic concepts of child growth and development, the evolutionary pattern of human growth and comparative patterns of human growth across populations. Taking a biocultural approach, it explores the many influences that facilitate or constrain child growth, including poverty, gender ideology, nutrition, and illness, focusing especially on social inequality. Taking a child-centered approach, the course also focuses on the lives of children, how children cope with the circumstances of their lives, and the effect of those circumstances on their well-being.

**ANT 450 SYMBOLS AND CULTURE. (3)**

Examines the way in which symbolic systems create the meanings through which we experience life. The course will explore symbols and symboling behavior from a humanistic perspective, and will present examples of non-Western symbolic systems. Prereq: ANT 220, or consent of instructor.

**ANT 470G REGIONAL AMERICAN ETHNOGRAPHY. (3)**

The ethnography of a selected North American or South American culture area or group. Both historical and contemporary cultures will be considered, e.g., Appalachia, Northwest Coast Indians, Urban American, etc. May be repeated to a maximum of six credits.

**#ANT 480 BUSINESS AND ORGANIZATIONAL CULTURES. (3)**

The course introduces students to the various applications of anthropological theory and ethnographic research methods in contemporary institutional settings, including businesses, government, and non-governmental organizations. Students will investigate the concept of organization from an anthropological perspective in order to understand how organizational forms manifest in different social and cultural contexts and what cultural patterns and processes shape them. Students will learn about the growing field of business anthropology in which anthropologists apply their knowledge, skills, and research methods to improve business performance, competitiveness, and communication. Students will explore how business anthropologists help organizations develop culturally appropriate ways of working with suppliers, partners, and consumers and promote smooth working relationships among employees from different cultural contexts. Students will also critically examine the meaning and usage of core concepts such as culture, design, social organization, consumption, globalization, ethnography, business, branding and marketing. Students will have opportunities for hands-on, qualitative research involving interviews and participant observation. They will learn to effectively analyze their research data and relate it to the theoretical and analytical frameworks developed by business and organizational anthropologists. Prereq: Admission to the Online Bachelor of Liberal Studies degree program in the College of Arts and Sciences; ANT 101, 160, 220; or consent of the instructor.

**#ANT 481 HEALTH CARE INEQUALITIES. (3)**

This course introduces students to anthropological theory and ethnographic research methods from the perspective of health inequalities and cultural aspects of health care systems. Students will investigate the concepts of health, disease and illness from an anthropological perspective in order to study how cultural and structural inequalities influence diverse experiences of health care institutions and practices. Students will develop skills in cross-cultural analysis to understand how factors such as race, gender, sexuality, and socio-economic status affect health outcomes, access to care, and the nature of patient-professional interactions in diverse social and cultural contexts. Students will critically examine Western biomedical interventions and practices as culturally embedded rather than universal or existing outside of culture. Students will also reflect on their own cultural and personal beliefs about the causes of and responses to illness. Students will explore the practical applications of medical anthropology for understanding the strengths and limitations of how concepts such as culture, compliance and cultural competency shape health care systems and practices, and how an anthropological approach can improve patient-professional relationships and health outcomes. Students will have opportunities for evaluating scholarly literature, critically analyzing representations of health and illness in mass media and popular culture outlets, and hands-on qualitative research involving interviews. They will learn to effectively analyze their research data and relate it to the theoretical and analytical frameworks developed by medical anthropologists. Prereq: Admission to the Online Bachelor of Liberal Studies degree program in the College of Arts and Sciences; Anthropology 101, 160, 220; or consent of the instructor.

**ANT 506 SOCIOLINGUISTICS. (3)**

This course is an advanced survey of current areas of research in sociolinguistics. Topics include dialectology, language variation and change, interactional sociolinguistics, language and gender, bilingualism, and language contact. Prereq: LIN 221 or LIN 222 or SOC 101 or ANT 220. (Same as LIN/SOC 506.)

**ANT 507 LINGUISTIC ANTHROPOLOGY. (3)**

This course is an advanced survey of current areas of research in linguistic anthropology. Topics include language and thought, cultural differences in linguistic interaction, the ethnography of communication, ritual uses of language, language and identity and cultural poetics. Prereq: LIN 221 or LIN 222 or SOC 101 or ANT 220. (Same as LIN 507.)

**ANT 515 PHONOLOGICAL ANALYSIS. (3)**

This course is an investigation of the systematic properties of speech sounds in natural languages. It compares current theoretical approaches to the analysis of individual features and sounds as well as larger prosodic units, and identifies the dimensions of typological variation in the phonological domain. Discussion includes extensive reference to languages other than English. Prereq: LIN 221. (Same as LIN 515.)

**ANT 516 GRAMMATICAL TYPOLOGY. (3)**

This course examines the typological classification of languages according to their morphological and syntactic characteristics. Course work includes practical training in the writing of grammatical descriptions and in the elicitation, transcription, and analysis of data from a non-Western language. Discussion includes extensive reference to languages other than English. Prereq: LIN 221. (Same as LIN 516.)

**ANT 519 HISTORICAL LINGUISTICS. (3)**

This course studies the historical development of language through time and space, examining the internal mechanisms and external influences involved in language change. Change will be examined at all levels: orthographic, phonetic, phonological, morphological, syntactic, semantic, and lexical. The course will also investigate a variety of topics related to the phenomenon of language change: language classification; comparative linguistics; the reconstruction of linguistic systems; the social context of language change. Through study of these issues, students will gain insights into historical language varieties and writing systems; relationships among the world's languages; and the origins of the sounds, words, and structures of the languages we speak today. Prereq: LIN 221 and LIN 222. (Same as LIN 519.)

**ANT 525 APPLIED ANTHROPOLOGY. (3)**

Principles of policy research and intervention in cultural anthropology with attention to the theoretical and ethical basis of such research and intervention. Intervention techniques considered include research and development anthropology, action anthropology, community development, community advocacy anthropology and culture brokerage. Prereq: Nine hours of cultural anthropology or consent of instructor.

**ANT 530 ELITES IN CROSS-CULTURAL PERSPECTIVE. (3)**

This course examines elites in different areas of the world paying special attention to what defines them as power holders, their sub-cultures, histories, strategies of class reproduction, and relations to subaltern groups. The class will also explore the critical perspectives gained from studying up, as well as the theoretical and methodological difficulties of doing this kind of work.

**ANT 534 SOCIOLOGY OF APPALACHIA. (3)**

A sociological study of selected social issues facing Appalachian communities, with an emphasis on placing regional political economy, society and culture in a global context. Prereq: Sociology, Anthropology or CLD senior major or minor; Appalachian Studies minor; graduate student status; or consent of instructor. (Same as CLD/SOC 534.)

**ANT 536 GLOBAL APPALACHIA. (3)**

Appalachia has always had strong global connections, environmentally, economically, and culturally. Current cultural and political economic issues in the region will be examined in comparative perspective through studying related histories and concerns of communities in Appalachia and other mountain regions, including social and economic marginalization within nation-states, resource extraction, low-wage work, migration, and environmental challenges. Students will have the opportunity to communicate directly with residents and scholars of several different global mountain regions, to consider sustainable livelihoods, identity in relationship to place, and social movements.

**ANT 541 ARCHAEOLOGICAL METHOD AND THEORY. (3)**

Examines the concepts, aims and methodology of archaeology as a scientific discipline within the social sciences. Attention given to the basic principles and recent advances of archaeological fieldwork and post-field analysis. Prereq: ANT 240 and six hours of cultural anthropology or archaeology courses, or consent of instructor.

**ANT 543 CULTURAL RESOURCE MANAGEMENT. (3)**

Introduction to the theory and practice of culture resource management as it has developed in the historic preservation movement in the United States. The history of preservation is covered along with the development of the contemporary legal tools. The implications of these for the field evaluation of sites is presented. Prereq: Nine hours cultural anthropology or archaeology, or consent of instructor.

**ANT 545 HISTORICAL ARCHAEOLOGY. (3)**

Historical archaeology applies archaeological methods and techniques to the remains of societies having written histories. The course introduces students to the history and theoretical development of the discipline, and to the variety of the data sources used by historical archaeologists. Particular attention is given to the ways in which historical archaeologists use material culture to address research issues of interest in anthropology, history, and other relevant disciplines. Prereq: ANT 240.

**ANT 555 EASTERN NORTH AMERICAN ARCHAEOLOGY. (3)**

Detailed analysis of prehistoric cultures of eastern United States with emphasis on interpretation of prehistory in Ohio River Valley. Prereq: ANT 240 and six hours of archaeology or cultural anthropology, or consent of instructor.

**ANT 580 ADVANCED TOPICS IN ANTHROPOLOGY. (3)**

Selected topics of theoretical or methodological importance in anthropology, with special attention to topics of contemporary relevance. Refer to Schedule of Classes for topics. May be repeated to a maximum of six credits. Prereq: Consent of instructor.

**ANT 581 INDEPENDENT WORK IN ANTHROPOLOGY. (1-4)**

May be repeated three times to a maximum of 12 credits. Prereq: Major in anthropology, standing of 3.0 in the department and consent of instructor.

**ANT 582 SENIOR INTEGRATIVE SEMINAR. (3)**

Seminar focusing on current issues in anthropology. Purpose is to provide a format in which advanced undergraduates can integrate knowledge acquired in previous anthropological course work and evaluate the contribution of the different anthropological subdisciplines to understanding contemporary problems. Emphasis placed on oral and written communication. Prereq: Major in anthropology; senior standing.

**ANT 585 FIELD LABORATORY IN ARCHAEOLOGICAL RESEARCH. (3-6)**

Practical supervised training in-field in archaeological research methods and techniques, problem analysis, field laboratory procedures, recording methods. Laboratory, 20 to 40 hours per week. May be repeated to a maximum of 12 credits. Prereq: Consent of instructor.

**ANT 600 PRACTICUM IN TEACHING ANTHROPOLOGY. (1)**

Guided practical experience in teaching, supplemented with group discussions of teaching practice and selected reading on lecture technique, course development, test writing and other skills for participation in the professoriate. May be repeated to a maximum of three credits. Prereq: Graduate status in anthropology or consent of instructor.

**ANT 601 THEORIES AND CONCEPTS IN ANTHROPOLOGY. (3)**

This course is an intensive examination of the theoretical perspective in anthropology. While attention will be given to the historical foundations of anthropological theory, emphasis will be placed on contemporary concerns in anthropology as illustrated through the contributions of selected theorists. Prereq: Admission to Graduate Program or approval of instructor.

**ANT 603 HUMAN BIOLOGY IN CONTEXT OF SOCIOCULTURAL CHANGE. (3)**

This course explores the relationship between society, culture, and human biology. Its thematic focus will be how cultural ideologies and social organization play out with respect to the biology of human groups, both archaeological and contemporary populations. We will pay special attention to issues of class, gender and ethnicity and focus on demographic and health-related issues. Current issues in biological anthropology, including critical analysis of evolutionary/adaptation theory and the concept of "race" in contemporary human populations will also be addressed. Prereq: First-year graduate standing in Anthropology, or permission of instructor.

**ANT 604 SOCIAL ORGANIZATION, KINSHIP AND IDENTITIES. (3)**

Social organization is a core component of anthropology. This seminar encompasses both historical and contemporary approaches to this central focus of the discipline. It includes the major theoretical approaches to the study of social organization and examines key concepts such as kinship and collective identity. Topics include how human groups are defined, organized, perpetuated, and change; as well as the role of individuals in broader social structures. Prereq: Graduate standing in Anthropology.

**ANT 608 ANTHROPOLOGY OF FOOD AND NUTRITION. (3)**

This graduate seminar explores food as fundamental to human existence in a variety of ways. We eat to maintain life – and the nutritional characteristics of human diets shape the development and health of individuals and populations. But, for the most part, humans do not eat nutrients, humans eat food, and food consumption and production is an intensely cultural, social and political activity. We will explore food and nutrition from all these perspectives. In addition to theorizing food and nutrition, we will become familiar with the methods most often used by national and global scholars and practitioners for assessing dietary and nutritional status of individuals and populations. Prereq: Graduate standing in Anthropology or permission of instructor.

**ANT 610 HISTORY OF THEORY IN ANTHROPOLOGY. (3)**

This course aims to give graduate students a firm grounding in the development of anthropological thought from its roots in Enlightenment social philosophy and 19th century evolutionism to the emergence of poststructuralist theory in the late 20th century. Upon completion of this course students should be thoroughly familiar with the major theoretical schools and debates in the history of anthropology and the broader social discourses that shaped them. Prereq: Graduate standing in Anthropology or permission of instructor.

**ANT 620 TOPICS AND METHODS OF EVALUATION. (3)**

An examination of a subset of evaluation methods, topics, and problems. An introductory course in the area with minimal emphasis on quantitative methods. The course is designed to: provide a perspective from which evaluation studies may be viewed; and, to provide experiences for those who will learn from or conduct evaluations. Prereq: Consent of instructor, and a basic course in statistics or research. (Same as EDP/EPE 620/SOC 622.)

**\*ANT 621 ADVANCED TOPICS AND METHODS OF EVALUATION. (3)**

An advanced course in evaluation methods and techniques with an emphasis on quantitative methodology. State of the art ideas and methods of conducting evaluation studies and analyzing data from those studies are presented. The course is designed primarily for those who are conducting or will conduct evaluation studies. Prereq: A basic course in statistics or its equivalent; EDP/EPE/ANT 620; and consent of instructor. (Same as EDP 621/EPE 621.)

**ANT 631 RESEARCH ETHICS IN THE SOCIAL SCIENCES. (1)**

This course will provide students with an understanding of the ethical dimensions of social science research. Students will learn about the ethics guidelines of different social science disciplines and discuss case studies illustrating the kinds of ethical dilemmas that researchers may encounter. The course will also examine such topics as procedures of the Institutional Review Board and the protection of human subjects; ethical implications of community-based and/or participatory research; and the relationship between ethics, research methodologies, and modes of documentation.

**ANT 637 SOCIOCULTURAL DIMENSIONS OF ECONOMIC DEVELOPMENT. (3)**

Examination of social, cultural and economic conditions in lesser developed countries. Discussion of the various socioeconomic and cultural theories of change and developments, and of alternative policies for the world of the future. Considers the possible roles for social scientists in policy formulation and application. Prereq: Six graduate credits in social sciences or consent of instructor. (Same as SOC 637.)

**ANT 640 SCIENCE, AGRICULTURE, AND DEVELOPMENT. (3)**

An in-depth examination of the interrelations between science, agriculture, and development. Both domestic and international issues are explored. Prereq: Graduate standing in the social or agricultural sciences. (Same as CLD/SOC 640.)

**ANT 641 GENDER ISSUES IN DEVELOPMENT. (3)**

An examination of gender issues in domestic and international development. Prereq: Graduate standing in the social or agricultural sciences or permission of the instructor. (Same as SOC 641.)

**ANT 645 ANTHROPOLOGY AND EPIDEMIOLOGY. (3)**

This course will introduce students to the fundamentals of epidemiology, as the methodological approach, which underlies biomedical research, and will examine the ways that the methodologies of anthropology and epidemiology complement each other in the study of health and disease. The course will examine the points of similarity between anthropology and epidemiology particularly as regards the importance of examining sociocultural phenomena in order to better understand the origins of disease. The course will explore the tensions between anthropology and epidemiology in matters of methodology, exemplified by the debate over quantitative vs. qualitative approaches, as well as theoretical perspective. Prereq: Permission of instructor.

**ANT 646 GLOBAL HEALTH: PEOPLE, INSTITUTIONS AND CHANGE. (3)**

This course presents anthropological studies of health in an international context, attending to ways in which anthropological study can contribute to identification of issues relevant to health and development. It will have a dual focus. First, it will deprivilege western concepts and explore both indigenous and biomedical accounts of health. Topics may include culturally-defined syndromes, international medicines and health, and illness and body from an international, ethnographic perspective. Second, the course will explore the culture of international health agencies, e.g., WHO, UNICEF, etc. Prereq: Permission of instructor.

**ANT 650 THEORY IN ARCHAEOLOGY. (3)**

This seminar examines the development of archaeological theory with specific emphasis on the discipline of anthropological archaeology in the New World. Particular schools and trends in contemporary archaeological theory are discussed in detail. Prereq: ANT 541 or consent of instructor.

**ANT 651 ARCHAEOLOGICAL DATA ANALYSIS. (3)**

This course examines the manipulations of archaeological data that follow fieldwork. These procedures, usually consisting of data processing and classification, are often undertaken in the field as data are being gathered. Data organization and analysis are the basic goals of this course. May be repeated to a maximum of six credits. Prereq: ANT 541 or consent of instructor.

**ANT 652 HOUSEHOLD, COMMUNITY, AND DEMOGRAPHIC ARCHAEOLOGY. (3)**

A seminar which examines the theory and methodology used by archaeologists to study population aggregates ranging from individual households to regional populations. Particular emphasis given to theoretical perspectives which integrate ecological, social and spatial analyses of population data. Prereq: Graduate standing in the Department of Anthropology or consent of instructor.

**ANT 653 PREHISTORIC ECONOMICS. (3)**

This seminar examines the theory and methodology used by archaeologists to study and reconstruct the economic structure of past societies. Discussion examines forms of subsistence and craft production and systems of resource distribution and exchange. Prereq: ANT 541 or consent of instructor.

**ANT 654 ARCHAEOLOGY OF POLITICAL SYSTEMS. (3)**

This course is designed to study the archaeology of political systems. The goals are to discuss the major trends, concepts, and perspectives in researching event and process in the evolution of political organization and social integration. A corollary goal is to examine the empirical evidence for, and archaeological correlates of, political evolution. It is not intended as a comprehensive coverage of all theories about past political systems, or as a survey of the rise and development of political forms in complex societies around the world. Prereq: ANT 541, ANT 602 or consent of instructor.

**ANT 660 ETHNOGRAPHIC RESEARCH. (3)**

Intensive graduate seminar designed to help students develop skills in ethnographic data collection and analysis. The aim of the course is to explore the processes through which anthropologists collect data and then transform materials of ethnographic research into analyses and interpretations. We will give careful consideration to the process of writing and issues specific to writing ethnography. Prereq: Graduate standing in Anthropology or permission of instructor.

**ANT 662 RESEARCH DESIGN. (3)**

Guided individual student research covering the relationship between theory, methods, and reality: how to better design anthropological inquiry. Prereq: One year graduate work in anthropology and consent of advisor.

**#ANT 680 BUSINESS AND ORGANIZATIONAL CULTURES. (3)**

The course introduces students to the various applications of anthropological theory and ethnographic research methods in contemporary institutional settings, including businesses, government, and non-governmental organizations. Students will investigate the concept of organization from an anthropological perspective in order to understand how organizational forms manifest in different social and cultural contexts and what cultural patterns and processes shape them. Students will learn about the growing field of business anthropology in which

anthropologists apply their knowledge, skills, and research methods to improve business performance, competitiveness, and communication. Students will explore how business anthropologists help organizations develop culturally appropriate ways of working with suppliers, partners, and consumers and promote smooth working relationships among employees from different cultural contexts. Students will also critically examine the meaning and usage of core concepts such as culture, design, social organization, consumption, globalization, ethnography, business, branding and marketing. Students will have opportunities for hands-on, qualitative research involving interviews and participant observation. They will learn to effectively analyze their research data and relate it to the theoretical and analytical frameworks developed by business and organizational anthropologists. Prereq: Admission to an Online Graduate Certificate or MA program in the College of Arts and Sciences or consent of instructor.

**#ANT 681 HEALTH CARE INEQUALITIES. (3)**

This course introduces students to anthropological theory and ethnographic research methods from the perspective of health inequalities and cultural aspects of health care systems. Students will investigate the concepts of health, disease and illness from an anthropological perspective in order to study how cultural and structural inequalities influence diverse experiences of health care institutions and practices. Students will develop skills in cross-cultural analysis to understand how factors such as race, gender, sexuality, and socio-economic status affect health outcomes, access to care, and the nature of patient-professional interactions in diverse social and cultural contexts. Students will critically examine Western biomedical interventions and practices as culturally embedded rather than universal or existing outside of culture. Students will also reflect on their own cultural and personal beliefs about the causes of and responses to illness. Students will explore the practical applications of medical anthropology for understanding the strengths and limitations of how concepts such as culture, compliance and cultural competency shape health care systems and practices, and how an anthropological approach can improve patient-professional relationships and health outcomes. Students will have opportunities for evaluating scholarly literature, critically analyzing representations of health and illness in mass media and popular culture outlets, and hands-on qualitative research involving interviews. They will learn to effectively analyze their research data and relate it to the theoretical and analytical frameworks developed by medical anthropologists. Prereq: Admission to an Online Graduate Certificate or MA program in the College of Arts and Sciences or consent of instructor.

**ANT 684 FARMING SYSTEMS RESEARCH METHODS. (3)**

A critical analysis of the concepts, methods, and practices of farming systems research. Design and carry out an FSR project. Prereq: Graduate standing in the social or agricultural sciences. (Same as SOC 684.)

**ANT 691 CULTURAL RESOURCE MANAGEMENT CLERKSHIP. (1-3)**

Practical experience in aspects of the cultural resource management process are provided through a one-semester rotation of work in the Office of State Archaeology (OSA), Museum of Anthropology (UKMA), and the program for Cultural Resource Assessment (PCRA). Students are assigned tasks at each work assignment rotation during the semester and are evaluated on the basis of work performance and a journal summary of this experience by a committee of their supervisors. Prereq: Graduate standing in anthropology or consent of instructor.

**ANT 724 ANTHROPOLOGY OF THE STATE. (3)**

This seminar will offer a critical approach to the study of states and related political forms, with special emphasis on anthropology's contributions to theorizing about the state. Drawing on temporally and spatially diverse examples of state-making, statecraft, and ideologies of the state, it will both question definitions of the state as well as engage in ethnographic exploration of past and current states. Other topics will include related political forms such as tribes, nationalist movements, empires, and multi-lateral actors. Prereq: Graduate standing or consent of instructor.

**ANT 725 SEMINAR IN APPLIED ANTHROPOLOGY. (3)**

Seminar discussion and individual or group research in the applications of social anthropology theory and methods to the solution of institutional, community, regional or national problems. Attention will be given to ethics, to the role attributes of the applied anthropologist, and to the history of applied anthropology. Prereq: ANT 601 or consent of instructor.

**ANT 731 SEMINAR IN SOCIAL AND POLITICAL DYNAMICS. (3)**

Theoretical frameworks for the analysis of political systems and processes. The seminar explores politics as action and systemic process in contemporary, prehistoric, and historical contexts. Students are expected to formulate research questions and discuss current theory in a critical fashion. Prereq: ANT 601 and 602 or consent of instructor.

**ANT 732 SEMINAR IN ECOLOGICAL ANTHROPOLOGY. (3)**

A study of interrelationship among populations, organization, environment, technology and symbols. The course focuses on recent anthropological contributions to the understanding of ecological relationships both now and in the past, including how people exploit the environment and how resource exploitation results in environmental change. Prereq: Completion of ANT 601 and ANT 602 or consent of instructor.

**ANT 733 SEMINAR IN SYMBOLS AND MEANING. (3)**

Seminar in the development of anthropological approaches to cultural meaning in actions, thought, and language from the 1960s. Includes the social structural approach to symbolism and ritual, cognitive approaches to meaning, the anthropology of experience and expression, interpretive and post-modern approaches, and topical applications of these approaches. Prereq: ANT 601 and 602 or consent of instructor.

## Course Descriptions

### ANT 734 SEMINAR IN ECONOMIC ANTHROPOLOGY. (3)

Theoretical frameworks for the analysis of economic systems and processes. The seminar explores the interaction between economic phenomena and other aspects of social and political organization both as action, structure, and systemic process in contemporary, prehistoric, and historical contexts. Students are expected to formulate research questions and discuss current theory in a critical fashion. Prereq: ANT 601 and 602 (ANT 538 is recommended) or consent of instructor.

### ANT 735 SEMINAR IN PRACTICE AND ACTION. (3)

Comparative analysis of various modes of social action including action research, advocacy, cultural action, and participatory action research. Foundations in social theory considered. Prereq: Admission to graduate program in anthropology or consent of instructor.

### ANT 736 CULTURE, ENVIRONMENT AND DEVELOPMENT. (3)

This seminar explores the interrelationships between social processes, development and the environment. It provides the graduate student with the necessary theoretical and analytical tools to examine the social and cultural processes of environmental degradation and change. Topics include political ecology, health impacts of development, deforestation, resource tenure systems, environmental grassroots movements and large-scale development organizations. Prereq: Consent of instructor. (Same as SOC 737.)

### ANT 737 SOCIOCULTURAL THEORIES IN THE ANTHROPOLOGY OF GENDER. (3)

Anthropological approaches to the study of gender have proliferated since the 1970s. The primary objective of this seminar is to provide participants with an overview of some of the salient "schools" that have emerged, and through comparison, critically to assess their limitations and utility for both theoretical and applied objectives. Prereq: Graduate standing in anthropology, or permission of instructor.

### ANT 738 SEMINAR IN REGIONAL ARCHAEOLOGY. (3)

This course examines contemporary issues and theory in the archaeology of a particular region of the world. Students may take this course up to 9 credit hours under a different region each time course is offered. Prereq: Graduate Standing in Anthropology or permission of instructor.

### ANT 748 MASTER'S THESIS RESEARCH. (0)

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

### ANT 749 DISSERTATION RESEARCH. (0)

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

### ANT 750 GRADUATE FIELD STUDY IN ANTHROPOLOGY. (1-6)

Field research as part of a long-range anthropological research program for graduate interns training under direct faculty supervision. Provides student with experience conducting scientific research as research team member. Report required. Laboratory, three hours to full time. Prereq: Appropriate language fluency; preparatory area study plus consent of instructor.

### ANT 760 PRACTICUM IN APPLIED ANTHROPOLOGY. (1-6)

Practical field experience in which the student applies the theory and method of social anthropology to the solution of a problem defined by the student in consultation with a community or a public or private service agency. Required of all doctoral students in Applied Anthropology. Prereq: Consent of instructor.

### ANT 765 ADVANCED SEMINAR IN MEDICAL ANTHROPOLOGY. (3)

(1) Advanced history and theory of medical anthropology; (2) research design, field work, analysis of data in medical anthropology. Prereq: Consent of instructor. (Same as BSC 765.)

### ANT 766 GENDER, ETHNICITY AND HEALTH. (3)

This course will bring the anthropology of gender to the study of medical anthropology. We will examine the interconnections between gender, ethnicity, and class in relation to the greater and lesser likelihood of disease. We will explore differences in health in relation to the resources available and the treatment modalities called upon by people in different social locations within the United States, and internationally. We will also look at the symbolic importance given to different phenomena related to the body, disease, and healing. This course will draw heavily upon the ethnographic literature to develop conceptual accounts of gender, ethnicity, class, and health. Prereq: Permission of instructor.

### ANT 767 DISSERTATION RESIDENCY CREDIT. (2)

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

### ANT 768 RESIDENCE CREDIT FOR MASTER'S DEGREE. (1-6)

May be repeated to a maximum of 12 hours.

### ANT 769 RESIDENCE CREDIT FOR DOCTOR'S DEGREE. (0-12)

May be repeated indefinitely.

### ANT 770 TOPICAL SEMINAR: (Subtitle required). (3)

Intensive work in particular fields of anthropology. May be repeated four times. Prereq: Graduate standing in Anthropology, or consent of instructor.

### ANT 774 FOOD AND FOOD SECURITY IN A CHANGING WORLD. (3)

This cross-cultural seminar explores the biocultural interactions among food, human biology, and the social, cultural, political and economic factors that shape food-related behaviors and nutritional status of populations. Topics include the social role of food, food beliefs and ideology, the political economy of malnutrition, development strategies and food security, and methods in nutritional anthropology research. Readings and discussions are research focused and approach issues from a variety of theoretical perspectives. Prereq: ANT 601 or consent of instructor. (Same as BSC 774.)

### ANT 775 CULTURES AND POLITICS OF REPRODUCTION. (3)

This course takes a cross-cultural approach to understanding how reproduction and associated phenomena (family formations and the social use of technologies) comprise arenas where broader political debates become played out, and social relations become created and contested. Ethnographic case studies include cross-cultural constructions of the body, parenthood, and kinship relations; and we examine how the state, social movements, legal/medical experts, and lay persons struggle to appropriate reproductive potentials for their own needs. Prereq: Graduate standing in Anthropology or consent of instructor.

### ANT 776 SEMINAR IN DEPENDENCY BEHAVIOR. (3)

The course is designed to explore theories of dependency behavior by examining the concept of dependency as it can be applied to the study of various phenomena including alcohol use and abuse; dependence on other psychoactive substances; institutional dependency; dependency in work settings; and poverty and welfare. Prereq: Consent of instructor. (Same as SOC/PSY/BSC 776.)

### ANT 790 RESEARCH PROBLEMS IN ANTHROPOLOGY. (1-6)

Intensive study in the fields of physical anthropology, archaeology and ethnology with qualified staff members. May be repeated to a maximum of nine credits. Prereq: Admission into the graduate program.

---

## APP Appalachian Studies

---

### APP 200 INTRODUCTION TO APPALACHIAN STUDIES. (3)

A multidisciplinary introduction to Appalachian culture, history and society. Examines how Appalachia came to be viewed as a distinct region; looks at its place in American life.

### APP 300 TOPICS IN APPALACHIAN STUDIES (Subtitle required). (3)

Study of topics relevant to Appalachian Studies, such as gender, folklore, literature, religion, community development, public policy, social movements and social change. May be repeated to a maximum of twelve credits under different subtitles. Prereq: APP 200 or consent of instructor.

### APP 311 APPALACHIAN ENGLISH. (3)

The Appalachian Mountains, which range from New York to Mississippi, making up part of the landscape of 13 different states, are known to many Americans as being home to a unique cultural and linguistic experience. In this course, we will examine the extent to which this uniqueness is true, considering the nature of many myths and stereotypes that exist about this variety. We will discuss certain lexical, phonetic, syntactic, and other linguistic features that set this variety apart from other American varieties while also noting the features the speech of Appalachia shares with others. We will examine the history, origins, and development of English in Appalachia and address issues of identity, education, and standardness with respect to the English of Appalachia. (Same as ANT 341/LIN 311.)

### APP 395 INDEPENDENT STUDY. (1-6)

Independent study of special topic under the supervision of Appalachian Studies-affiliated faculty. Students must identify both a topic for this project as well as a faculty mentor who has agreed to supervise this project. May be repeated to a maximum of six credits. Prereq: APP 200.

### APP 399 PRACTICUM. (1-6)

A field-, community-based, practical or applied educational experience supervised by an Appalachian Studies Program faculty affiliate. May be repeated to a maximum of 6 hours. Pass-fail only. A learning contract must be filed in order to receive credit for this course. Prereq: APP 200.

### APP 500 SPECIAL TOPICS IN APPALACHIAN STUDIES (Subtitle required). (3)

An interdisciplinary study of topics, related to, or relevant for the Appalachian region. Topics may include global Appalachia, participatory action research in Appalachia, crime and deviance in Appalachia, Appalachian environmental issues, public health issues in Appalachia, critical regional studies, critical and comparative mountain regions, or any other topics relevant to the region.

A particular course may be offered at most three times under the 500 number. Open to all university students subject to such limitations or prerequisites as set by the instructor. Repeatable to a maximum of nine credits under different subtitles. Prereq: Consent of instructor.

## ARC Architecture

### ARC 101 DRAWING I: OBSERVATIONAL FREEHAND DRAWING. (3)

Focuses on the rigors of observational drawing. Structure, space, contour, line, and color are explored through study of the human body, still life, landscape, and architectural spaces with attention to their application to the architectural experience. Studio: 6 hours per week. Prereq: Admission to the School of Architecture.

### ARC 111 INTRODUCTION TO HISTORY AND THEORY. (3)

Introduces enduring themes and generative forces in the history and theory of architecture by examining the cultural periods of various societies in different historical periods.

### ARC 151 DESIGN STUDIO I. (6)

Students investigate two-dimensional media, analyze buildings and text, and construct models as a means to explore basic environmental design principles. The studio continues with an emphasis on three-dimensional exploration and construction. Students investigate architectural design programs and materials of constructions. Studio: 12 hours per week. Prereq: Admission to the School of Architecture.

### ARC 152 DESIGN STUDIO II. (6)

Students gain understanding of architectural language based on modern archetypes. Projects explore aesthetic and poetic possibilities while also emphasizing cohesion among space, structure, site, program, and material assembly. A variety of assembly types are introduced for the examining of structural and materials concepts. Studio: 12 hours per week. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK. Prereq: ARC 151 with a grade of C or better.

### ARC 199 TOPICS IN ARCHITECTURE. (3)

This course number is to allow for new and experimental classes to be introduced into the architectural curriculum on an ad hoc basis. The course, if adopted on a permanent basis, will be formally proposed for addition to the College curriculum and assigned a new, permanent number. May be repeated to a maximum of six credits under different subtitles. Prereq: TBA.

### ARC 203 DIGITAL MEDIA WITHIN ARCHITECTURE. (3)

A workshop that introduces students to the creative, analytical and generative potential of computers in the design of architecture. Lecture: one hour; laboratory: four hours per week. Prereq: Admission to the School of Architecture.

### ARC 212 HISTORY AND THEORY I: 15TH-17TH CENTURIES. (3)

An overview of the key themes and historical developments in architecture from the fifteenth through seventeenth centuries. Emphasis on Western examples and relationships with earlier and later conditions, including contemporary problematics.

### ARC 213 HISTORY AND THEORY II: 18TH-19TH CENTURIES. (3)

Continues the investigation of key themes and historical developments of architecture in the eighteenth and nineteenth centuries. Prereq: ARC 212 or consent of instructor.

### ARC 231 STRUCTURAL AND MATERIAL CONCEPTS. (3)

Introduces technological concepts of building and investigates the spatial and formal language of architecture with visual and physical analyses of various building structures and materials through the use of computers, field observations, etc. Prereq: Admission to the School of Architecture; MA 109 or MA 123. Paired with: ARC 252.

### ARC 253 DESIGN STUDIO III. (6)

Extends the consideration of the issues related to the isolated object to the multiplication of that object with reference to issues of site and context, focusing attention on formal strategies for obtaining thematic unity. Studio: 12 hours per week. Prereq: ARC 252 with a grade of C or better.

### ARC 254 DESIGN STUDIO IV. (6)

Studies the formal characteristics of site and context together with laws and principles of building and nature, ecology, and the ways these forces influence architecture. The studio investigates applications of current technology and building systems. Studio: 12 hours per week. Prereq: ARC 253 with a grade of C or better.

### #ARC 280 VISUAL CULTURE IN A DIGITAL AGE. (3)

This course provides a general introduction to visual culture as a formal language with which social, cultural, political, and spiritual meanings are developed and communicated through visual means. Particular emphasis will be placed on the role of contemporary design as an intentional process and actor in the creation of culture via images, artifacts and environments. We will explore the implications and opportunities of visual representation across a range of scales (from the image and object to the patterns of the built environment) and draw from a variety of disciplines (design, architecture, art, anthropology, business, science) to link concepts of image-making, perception, identity, and humanity at large. Students will gain an ability to read the visual world with greater sensitivity; and develop a broad understanding of the power of visual images and how they operate within built and virtual environments. This course is open to all students, but cannot be applied towards the 12 credit hours of electives in the undergraduate architecture degree.

### ARC 299 TOPICS IN ARCHITECTURE. (3)

This course number is to allow for new and experimental classes to be introduced into the architectural curriculum on an ad hoc basis. The course, if adopted on a permanent basis, will be formally proposed for addition to the College curriculum and assigned a new, permanent number. May be repeated to a maximum of six credits under different subtitles. Prereq: TBA.

### ARC 314 HISTORY AND THEORY III: 20TH CENTURY AND CONTEMPORARY ARCHITECTURE. (3)

Investigates modern and late twentieth century architecture as well as current themes and issues in contemporary architecture in relation to their historical context. Satisfies graduate writing requirement for Architecture Majors. Prereq: ARC 111, ARC 212 and ARC 213; or consent of the instructor. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

### ARC 315 HISTORY AND THEORY OF ARCHITECTURE IV: URBAN FORMS. (3)

An investigation of the factors and a consideration of the theories which have affected world urban form related to architecture. Prereq: ARC 314, or consent of the instructor.

### ARC 332 ENVIRONMENTAL CONTROLS I. (3)

Design, analysis and coordination of building systems to meet basic human needs and social expectations of the built environment. Considers ecology when addressing the thermal environment, water, sanitation, concentrated energy, circulation, life-safety, and communication. Prereq: ARC 231. Paired with: ARC 354.

### ARC 333 ENVIRONMENTAL CONTROLS II. (3)

A continuing investigation into ideas and issues raised in ARC 332, Environmental Controls I. Prereq: ARC 332. Paired with: ARC 355.

### ARC 355 DESIGN STUDIO V. (6)

Explores the architectural problem of a large-scale interior space conditioned by social and cultural programs. Special problems in lighting and acoustics will be addressed along with long-span structure. Attention will be paid to issues of scale, life safety social interaction and public circulation. Studio: 12 hours per week. Prereq: ARC 354 with a grade of C or better. Paired with course: ARC 333.

### ARC 356 DESIGN STUDIO VI. (6)

This studio explores various design topics including building technology, furniture design, digital visualization, historic preservation, and human settlement. Studio: 12 hours per week. Prereq: ARC 355 with a grade of C or better.

### ARC 399 TOPICS IN ARCHITECTURE. (3)

This course number is to allow for new and experimental classes to be introduced into the architectural curriculum on an ad hoc basis. The course, if adopted on a permanent basis, will be formally proposed for addition to the College curriculum and assigned a new, permanent number. May be repeated to a maximum of six credits under different subtitles. Prereq: TBA.

### ARC 405 DIGITAL VISUALIZATION I. (3)

Students are introduced to concepts of computer visualization as applied to the study of architecture. Students will utilize modeling, rendering, and animation software to create three-dimensional representations of selected projects. Lecture: two hours; laboratory: two hours per week. Prereq: ARC 203.

### ARC 406 DIGITAL VISUALIZATION II. (3)

A continued exploration of computer visualization with particular emphasis on a specific software. Subtitle required. Lecture: 1 hours; laboratory: four hours per week. Prereq: ARC 405.

### ARC 410 INDEPENDENT STUDY. (3)

An independent study of architecture history and/or theory, wherein a student will research a specific topic agreed upon with a designated faculty member of the college. Laboratory, six hours per week. May be repeated to a maximum of six hours.

### ARC 434 STRUCTURAL DESIGN AND ANALYSIS I. (3)

An exploration of structural concepts with an emphasis on statics, strength of materials, and the use of mathematical and computer-aided methods of analysis. Prereq: ARC 231.

### ARC 435 MATERIALS AND METHODS OF CONSTRUCTION. (3)

An intensive exploration of materials and building techniques with special consideration given to the properties of materials and their uses in various methods of construction. Prereq: ARC 231.

### ARC 457 DESIGN STUDIO VII. (6)

This studio explores various design topics including building technology, furniture design, digital visualization, historic preservation, and human settlement. Studio: 12 hours per week. Prereq: ARC 455 or ARC 456 with a grade of C or better.

### ARC 499 TOPICS IN ARCHITECTURE. (3)

This course number is to allow for new and experimental classes to be introduced into the architectural curriculum on an ad hoc basis. The course, if adopted on a permanent basis, will be formally proposed for addition to the College curriculum and assigned a new, permanent number. May be repeated to a maximum of six credits under different subtitles. Prereq: TBA.

### ARC 510 GENERATIVE AND CRITICAL STRATEGIES. (3)

This course explores, studies, and tests various visual and analytical tools used by designers to understand their work in order to understand the relationship of form, content, and performance of a design. Students will use these tools to gain an understanding of buildings, spaces, objects, contexts, and landscapes from a wide range of cultures and time periods. Prereq: Admission to the UK School of Architecture Graduate 3+ track.

## Course Descriptions

### **ARC 511 HISTORY AND THEORY SEMINAR:**

#### **PRE-20TH CENTURY (Subtitle required). (3)**

One of a series of graduate seminars devoted to investigations and analyses of pre-twentieth century architecture. Subtitle required. May be repeated to a total of 6 credit hours under different subtitles. Prereq: Junior or Senior standing with completion of ARC 314, graduate standing, or consent of instructor or director.

### **ARC 512 HISTORY AND THEORY SEMINAR: MODERN**

#### **(Subtitle required). (3)**

One of a series of graduate seminars devoted to investigations and analyses of modern architecture. Subtitle required. May be repeated to a total of 6 credit hours under different subtitles. Prereq: Junior or Senior standing with completion of ARC 314, graduate standing, or consent of instructor or director.

### **ARC 513 HISTORY AND THEORY SEMINAR:**

#### **CONTEMPORARY (Subtitle required). (3)**

One of a series of graduate seminars devoted to investigations and analyses of contemporary architecture. Subtitle required. May be repeated to a total of 6 credit hours under different subtitles. Prereq: Junior or Senior standing with completion of ARC 314, graduate standing, or consent of instructor or director.

### **ARC 514 HISTORY AND THEORY SEMINAR:**

#### **THEORY AND CRITICISM (Subtitle required). (3)**

One of a series of graduate seminars devoted to investigations and analyses of architectural theory and criticism. Subtitle required. May be repeated to a total of 6 credit hours under different subtitles. Prereq: Junior or Senior standing with completion of ARC 314, graduate standing, or consent of instructor or director.

### **ARC 515 HISTORY AND THEORY SEMINAR:**

#### **URBAN FORMS (Subtitle required). (3)**

One of a series of graduate seminars devoted to investigations and analyses of urban forms. Subtitle required. May be repeated to a total of 6 credit hours under different subtitles. Prereq: Junior or Senior standing with completion of ARC 314, graduate standing, or consent of instructor or director.

### **ARC 533 STRUCTURAL DESIGN AND ANALYSIS II. (3)**

An exploration of structural concepts for the materials of steel and wood, including considerations of load and resistance as factors in architectural design. Prereq: ARC 434.

### **ARC 534 ADVANCED STUDIES IN STRUCTURAL SYSTEMS. (3)**

An exploration of structural concepts relating to construction with the materials concrete and masonry, including discussion of stress and load as considerations in architectural design. Prereq: ARC 533.

### **ARC 550 ACCELERATED DESIGN I. (9)**

Accelerated Design I: immersion through design in the comprehensive elements that order architecture with emphasis on integrative strategies. Prereq: Admission to the UK School of Architecture Graduate 3+ track.

### **ARC 551 ACCELERATED DESIGN II. (9)**

Accelerated Design II: an immersion in the art and science of architectural design with emphasis on integrative strategies. Prereq: Admission to the UK School of Architecture Graduate 3+ track.

### **ARC 584 DESIGN OF TIMBER AND MASONRY STRUCTURES. (3)**

Current and historic design methods of buildings and their components using wood, wood products, bricks, and concrete blocks. Prereq: Courses in steel and reinforced concrete design at the senior level, or consent of instructor. (Same as CE.584.)

### **ARC 599 TOPICS IN ARCHITECTURE. (3)**

This course number is to allow for new and experimental classes to be introduced into the architectural curriculum on an ad hoc basis. The course, if adopted on a permanent basis, will be formally proposed for addition to the College curriculum and assigned a new, permanent number. May be repeated to a maximum of six credits under different subtitles. Prereq: TBA.

### **ARC 631 BUILDING SYSTEMS INTEGRATION. (3)**

Graduate level study of the art and science of building design with emphasis given to integrative strategies for developing a comprehensive, multi-systemic, architectural project. Paired with: ARC 750.

### **ARC 632 SPECIAL TOPICS IN ENVIRONMENTAL CONTROLS. (3)**

Advanced studies in human environmental design. Topics for research and development will include sustainability, energy, infrastructure, sanitation and water, lighting, and acoustics. Subtitle required. Prereq: ARC 332 and ARC 333.

### **ARC 634 ARCHITECTURAL DETAILING. (3)**

A study of the art and technique of complete building design through detail development. Prereq: Completion of all technical requirements for BA in Architecture or equivalent and admission to the Master of Architecture program.

### **ARC 641 PROFESSIONAL PRACTICE. (3)**

An exploration of professional and ethical responsibilities of the architect as they pertain to the procedural matters of practice and management. Prereq: Admission to the M.Arch. program.

### **ARC 642 PROFESSIONAL INTERNSHIP. (3)**

A graduate-level summer internship with a professional architectural firm in which the student, along with a faculty advisor, will determine specific experiential and educational goals to be met. Laboratory: hours to be agreed upon with selected firm (apx. 10-15 hrs/wk for duration of internship). Prereq: Admission to the M.Arch. program.

### **ARC 658 DESIGN STUDIO VIII. (6)**

This graduate level studio explores various design topics including building technology, furniture design, digital visualization, historic preservation, and human settlement. Studio: 12 hours per week. Prereq: ARC 457 with a grade of C or better.

### **ARC 659 DESIGN STUDIO IX. (6)**

This graduate level studio explores various design topics including building technology, furniture design, digital visualization, historic preservation, and human settlement. Studio: 12 hours per week. Prereq: ARC 658 with a grade of C or better.

### **ARC 699 TOPICS IN ARCHITECTURE. (3)**

This course number is to allow for new and experimental classes to be introduced into the architectural curriculum on an ad hoc basis. The course, if adopted on a permanent basis, will be formally proposed for addition to the College curriculum and assigned a new, permanent number. May be repeated to a maximum of six credits under different subtitles. Prereq: TBA.

### **ARC 707 DIGITAL MEDIA: HISTORY AND THEORY. (3)**

A graduate level seminar exploring the impact of digital media on visualization and the theoretical implications arising from its use as a means of visual expression. Laboratory: 6 hours per week. Prereq: ARC 406.

### **ARC 709 MASTER'S PROJECT IN DIGITAL VISUALIZATION. (9)**

A final, comprehensive project in the digital visualization concentration, which synthesizes conceptual and experiential knowledge into a cohesive presentation. Studio: 18 hours per week. Prereq: ARC 750 and all requisite courses for the Digital Visualization concentration.

### **ARC 719 MASTER'S PROJECT IN HISTORY/THEORY/CRITICISM. (9)**

A final, comprehensive project in the history, theory, and criticism concentration, which synthesizes conceptual and experiential knowledge into a cohesive presentation. Studio: 18 hours per week. Prereq: ARC 750 and all requisite courses for the History, Theory and Criticism concentration.

### **ARC 729 MASTER'S PROJECT IN HISTORIC PRESERVATION. (9)**

A final, comprehensive project in the historic preservation concentration, which synthesizes conceptual and experiential knowledge into a cohesive presentation. Studio: 18 hours per week. Prereq: ARC 750 and all requisite courses for the Historic Preservation concentration.

### **ARC 735 PROJECT DELIVERY. (3)**

A study in the execution of an architectural design including contract documents, cost estimation, and construction management. Prereq: Completion of all technical requirements for BA in Architecture or equivalent and admission to the Master of Architecture program.

### **ARC 736 BUILDING CODES AND DESIGN. (3)**

An analysis of content and format of current model building codes combined with discussion of the necessity for building codes, problems in interpretation and applications as well as legal aspects involved. Prereq: Completion of all technical requirements for BA in Architecture or equivalent and admission to the Master of Architecture program.

### **ARC 738 CONSTRUCTION SPECIFICATIONS. (3)**

A study in defining the quality of materials used in architectural design. Prereq: Admission to the Master of Architecture program.

### **ARC 743 ADVANCED PROFESSIONAL PRACTICE. (3)**

A continuation of concepts introduced in ARC 641, Professional Practice, with an emphasis in issues relating to the legal, business, and organizational considerations of architectural practice as well as investigations into advocacy and the public and private leadership roles of the architect. Prereq: ARC 641.

### **ARC 748 MASTER'S PROJECT RESEARCH. (0)**

Half-time to full-time work on Master's Project. May be repeated a maximum of six times. Prereq: All course work toward the degree must be completed.

### **ARC 750 DESIGN STUDIO X. (6)**

Utilizing given site and program requirements, graduate students explore design issues comprehensively by producing a developed and detailed building design. Students will engage in structural design, environmental systems, life-safety and post-design assessments as required to meet the most current NAAB standards for a comprehensive studio. Studio: 12 hours per week. Prereq: ARC 659.

### **ARC 759 MASTER'S PROJECT IN BUILDING DESIGN. (9)**

A final, comprehensive project in the building technology and tectonics concentration, which synthesizes conceptual and experiential knowledge into a cohesive presentation. Studio: 18 hours per week. Prereq: ARC 750 and all requisite courses for the Building Design concentration.

### **ARC 761 SPECIAL PROBLEMS IN TOWN DESIGN. (3)**

Students explore various topics related to the theory and practice of existing, emerging and new strategies for city and town development, revitalization, and long-term sustainability. Subtitle required. Prereq: Admission to the Master of Architecture program.

**ARC 779 MASTER'S PROJECT IN TOWN DESIGN. (9)**

A final, comprehensive project in the town design concentration, which synthesizes conceptual and experiential knowledge into a cohesive presentation. Studio: 18 hours per week. Prereq: ARC 750 and all requisite courses for the Town Design concentration.

**ARC 799 TOPICS IN ARCHITECTURE. (3)**

This course number is to allow for new and experimental classes to be introduced into the architectural curriculum on an ad hoc basis. The course, if adopted on a permanent basis, will be formally proposed for addition to the College curriculum and assigned a new, permanent number. May be repeated to a maximum of six credits under different subtitles. Prereq: TBA.

**ART Art****ART 100 INTRODUCTION TO ART. (3)**

This course is open to all University students interested in an understanding and appreciation of the visual arts. The formal and expressive qualities of major art forms are examined through lectures and presentations.

**ART 191 ART PROFESSIONS. (1)**

Lectures and discussions on the various art professions as they affect the student, the professional artist, the art historian, the art educator, and the community. May be repeated to a maximum of eight hours.

**ART 291 B.F.A. STUDIO PRACTICUM. (1)**

The study and practice of professional techniques of the organization and maintenance of the art studio environment. Orientation and application of best practices for health and safety. Prereq: Acceptance into B.F.A. program and consent of instructor.

**ART 301 PROFESSIONAL PRACTICES. (3)**

This course is designed to assist Art Studio majors in developing practical writing and presentation skills needed to maintain a successful, professional practice in the visual arts. Students are required to write in a variety of formats that are standard in the field of art studio. The course will include developing artist and biographical statements, resumes, grant/exhibition proposals and/or reviews, as well as a research paper on a topic of interest in contemporary art. Students will also prepare a digital portfolio emphasizing presentation and documentation skills about a student's own research. Prereq: Majors only; completion of all pre-major/ Foundations course-work and completion of 60 credit hours. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

**ART 504 CURATORIAL PRACTICE: HISTORY, THEORY, PRACTICE. (3)**

An introduction to the history, theory, and practice of curatorial studies through readings, discussion, critical writing and independent research. Intended for advanced students, this seminar will expand students' understanding of curatorial practice and guide them as they develop a particular curatorial project. Prereq: Junior standing or above, and consent of the instructor.

**ART 604 CURATORIAL PRACTICE: CURATORIAL PROJECTS. (3)**

In this course students will realize a curatorial proposal developed in ART 504. The focus will be on implementation, marketing, didactics, and education programming. Students will gain practical experience in promotion, budgeting, time and resource management, and professional standards within the field of curatorial studies. Prereq: Graduate status, consent of instructor, and ART 504 required.

**ART 748 INDEPENDENT THESIS RESEARCH. (0)**

Independent work on thesis project. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

**ART 768 THESIS PREPARATION AND PRESENTATION. (3)**

Independent study to formulate, prepare and present M.F.A. thesis project under the direction of thesis advisor. A formal learning contract between student and thesis advisor is required. Prereq: Good standing as graduate student in curatorial studies; permission of thesis advisor.

**ART 794 INTERNSHIP: BOLIVAR GALLERY. (3)**

A supervised internship in the SAVS Bolivar Art Gallery. The aim is to give students hands-on experience handling art, installing exhibitions, writing wall text, completing condition reports and contracts, and doing social media outreach. Interns will work directly with artists and the gallery director, and the content of their work, developing written pieces for digital publication and promotion (website, social media, etc). Learning contract required. Practicum, 40 hours per credit hour. Prereq: Graduate status in Curatorial Studies.

**ART 795 INTERNSHIP: UK ART MUSEUM. (3)**

A supervised internship in the UK Art Museum. The aim is to strengthen the students' skills in research, writing, and speaking through practical applications in the profession through area-specific placement. While interns may do a variety of tasks throughout the internship, the majority of time will be spent working within one of the following departments: curatorial, development, education, or registration. Learning contract required. Practicum, 40 hours per credit hour. Prereq: Graduate status in Curatorial Studies.

**ART 796 INTERNSHIP: COMMUNITY PARTNERS. (3)**

A supervised internship with a community partner who integrates the arts into their programming. The focus may be on a single aspect or several areas of community engagement through the arts such as exhibition development, event planning, fundraising, promotion, administration, etc. A formal learning contract among student, field supervisor, and supervising faculty member required. Practicum, 40 hours per credit hour. Prereq: ART 794 and ART 795 required.

**ART 797 INTERNSHIP: ARTS ORGANIZATION. (3)**

A supervised internship at a local, national, or international arts organization that relates to a student's research interests. The aim is to help develop programming that aligns with the mission of the organization. Interns may perform a wide variety of tasks such as curating, fundraising, marketing, education, administration, etc. A formal learning contract among student, field supervisor, and supervising faculty member required. Practicum, 40 hours per credit hour. Prereq: ART 794 and ART 795 required.

**ASC Animal Sciences****ASC 101 DOMESTIC ANIMAL BIOLOGY. (3)**

The first in a sequence of two courses providing an introduction to the subject of animal science. Emphasis is placed on a fundamental understanding of anatomy, physiology, nutrition, reproduction, genetics and behavior of domestic animals. Prereq: Fall semesters – Animal sciences majors. Spring semesters – Animal sciences majors and minors, Career and Technical Education majors, Equine Science and Management majors, or consent of instructor.

**ASC 102 INTRODUCTION TO LIVESTOCK AND POULTRY PRODUCTION. (3)**

An introduction to livestock and poultry production. Emphasis is placed on the application of anatomy, physiology, nutrition, feeds and feeding, reproduction, breeding and genetics, and behavior in the production and management of livestock and poultry in the U.S. Prereq: ASC 101. Primary registration access limited to Animal Sciences majors and remaining seats open during secondary registration open to College of Agriculture, Food and Environment majors. [Offered in spring only.]

**ASC 205 CAREER DEVELOPMENT FOR ANIMAL SCIENCES. (1)**

Local experts in a wide variety of animal production enterprises and associated support services will give presentations on their area of expertise. Following the presentation, students will have the opportunity to discuss the topic of the day and potential employment opportunities in that field with the speaker. Prereq: ASC 102 (or concurrent enrollment). [Offered in fall and spring.]

**ASC 209 VETERINARY MEDICAL TERMINOLOGY. (3)**

This course will cover veterinary terminology including medical word roots, prefixes, suffixes and animal specific terminology involving food animals, horses and pets. Veterinary case studies will allow students to apply these fundamentals in practical situations. Appropriate for pre-vets and any students interested in animal health and care. Prereq: Primary registration access limited to College of Agriculture, Food and Environment majors or consent of instructor, remaining seats open during secondary registration. Students who have completed CLA 131 are not eligible to take ASC 209 without consent of instructor.

**#ASC 220 APPLIED ANIMAL BEHAVIOR AND WELFARE. (3)**

Presenting the nature of and behavioral categories for agricultural, companion, and exotic animals. Understanding learning theory and animal cognition to enhance fair training and safe/effective handling methods. Recognizing abnormal and stereotypic behaviors. Assessing behavioral indicators of welfare status. Acknowledging contemporary welfare issues. Prereq: Successful completion of ASC 101 and ASC 102 or ASC 382.

**\*ASC 300 MEAT SCIENCE. (4)**

A historical perspective of the meat industry together with major changes in body type and composition in both the live animal and its end product meat. Students will evaluate live market animals (swine, cattle, sheep), harvest the market animals, and follow their carcasses and cuts through fabrication and distribution channels. Major topics of discussion will focus on growth and development, inspection, grading, physical and chemical composition of meat and postmortem changes that affect meat quality. Additional information will cover meat marketing trends, nutrition, meat cookery, meat selection, health issues and consumer information. Prereq: ASC 101 and ASC 102 or ASC 382. [Offered in fall only.]

**ASC 301 LIVESTOCK SELECTION AND EVALUATION. (3)**

Selection principles of purebred and commercial beef cattle, sheep, swine and meat goats. Evaluation of live animal and carcass characteristics of beef cattle, sheep, swine and meat goats. Emphasis placed on oral reasons. Laboratory, six hours. Prereq: Junior or senior standing or consent of instructor. [Offered in fall only.]

**ASC 303 EVALUATION AND GRADING OF MEATS. (2)**

A detailed consideration of the factors involved in the selection, grading and evaluation of carcasses and wholesale cuts of beef, pork and lamb. Specific emphasis will be given to cutability, quality and maturity as they relate to palatability and acceptance by the consumer. Laboratory, four hours. Prereq: FSC 304 or FSC 306. [Offered in spring only.]

**ASC 309 ADVANCED EVALUATION AND GRADING OF MEAT. (2)**

Further consideration of the factors involved in selecting, grading and evaluating carcasses and wholesale cuts of beef, pork, and lamb. Emphasis will be placed on writing reasons. Laboratory, four hours. Prereq: ASC 303 or consent of instructor. [Offered in fall only.]

## Course Descriptions

- \*ASC 310 EQUINE ANATOMY. (3)**  
This course will focus on the functional anatomy of the horse. Topics will include the anatomy of skeletal, muscular, respiratory, digestive, cardiovascular, reproductive, nervous, endocrine, urinary and integumentary systems. Prereq: ASC 101 and sophomore standing; primary registration access limited to ANSC and ESMA majors; secondary registration access limited to CAFE majors. [Offered in fall and spring.]
- ASC 311 ADVANCED EQUINE EVALUATION. (1)**  
Advanced study of conformation, performance and breeding value in the horse. Selection of horses based on conformation, breed characteristics and movement. Emphasis will be placed on developing a knowledge of industry standards for evaluating horses for different uses. Laboratory, two hours per week. Prereq: ASC 310. [Offered in Fall only]
- ASC 312 ADVANCED LIVESTOCK SELECTION AND EVALUATION. (2)**  
Selection of purebred and commercial beef cattle, sheep, swine and meat goats. Special emphasis on oral reasons, livestock contest procedures and herd improvement principles. Laboratory, six hours. Prereq: ASC 301 or consent of instructor. [Offered in spring only.]
- ASC 320 EQUINE MANAGEMENT. (3)**  
Study of the basic principles associated with horse management. Topics will include equine behavior, equine diseases and herd health programs, facilities and environmental management, nutrition and feed management. Lecture, two hours; laboratory, three hours per week. Prereq: ASC 101. [Offered in fall, spring (online), summer (online).]
- ASC 321 DAIRY CATTLE EVALUATION. (2)**  
Evaluation of dairy cattle for type characteristics. Laboratory, four hours. [Offered in spring only.]
- ASC 323 ADVANCED DAIRY CATTLE EVALUATION. (1)**  
Open only to those who have consent of instructor. Laboratory, two hours. Prereq: ASC 321. [Offered in fall only.]
- ASC 325 ANIMAL PHYSIOLOGY. (3)**  
An introduction to the functional anatomy and physiology of major body systems in domestic animals. Emphasis will be on how these systems interact to regular circulation, gas exchange, acid-base balance, digestion and metabolism, location and adapting to environmental changes. Prereq: BIO 152, junior standing or consent of instructor. [Offered in fall only.]
- ASC 333 TOPICS IN ANIMAL SCIENCE (Subtitle required). (1-4)**  
Intensive study in a unique aspect of animal agriculture not covered in other courses currently offered. May be repeated under a different subtitle two times to a maximum of 8 credits. Prereq: Specified by instructor for each offering.
- ASC 340 POULTRY PRODUCTION. (2)**  
A study of the application of avian biology to modern poultry production. Topics include anatomy, physiology, reproduction, incubation and embryonic development, breeding and genetics, nutrition and feeding, disease control, housing and environmental control, management, poultry and egg products, and the structure of the poultry industry. For majors and non-majors. Prereq: ASC 101 and ASC 102 or ASC 382. [Offered in spring only.]
- ASC 362 ANIMAL BREEDING AND GENETICS. (4)**  
Fundamental principles of genetics and statistics as applied in selection and mating systems to make genetic improvements in farm animals. Involves traditional discussion of Mendelian, population, and quantitative genetics and their application. Includes development of genetic prediction and introduces genomic techniques for increasing accuracy of prediction. Prereq: ASC 101, BIO 152. [Offered in spring only.]
- ASC 364 REPRODUCTIVE PHYSIOLOGY OF FARM ANIMALS. (4)**  
Introduction to anatomy and physiological processes related to reproduction with a focus on farm animals. Evaluations of management procedures as they related to reproductive physiology. Prereq: ASC 101 and BIO 152. Primary registration access limited to College of Agriculture, Food and Environment majors and remaining seats open during secondary registration. [Offered in spring only.]
- ASC 378 ANIMAL NUTRITION AND FEEDING. (4)**  
A fundamental study of the nutrients, their utilization and their role in the animal in conjunction with an applied understanding of the manner in which feedstuffs are evaluated and blended to meet the various species needs for those nutrients. Prereq: ASC 101 and CHE 230 or CHE 236. [Offered in fall only.]
- ASC 380 APPLIED ANIMAL NUTRITION. (3)**  
The composition and nutritional characteristics of common feedstuffs. The digestive systems, nutritional requirements, formulated rations and economical feeding programs for farm animals. Prereq: ASC 378 or consent of instructor. [Offered in fall (online).]
- ASC 382 ANIMAL PRODUCTION PRINCIPLES. (3)**  
A broad survey of animal agricultural management covering cattle, horses, poultry, swine, sheep and goats. Emphasis is placed on the practical application of scientific disciplines including anatomy, physiology, nutrition, reproduction and genetics. For nonmajors only. [Offered in spring only.]
- ASC 388 COMPANION ANIMAL NUTRITION. (3)**  
This course offers an introductory look at the nutrition of companion animals, primarily the dog and cat. Basic concepts in nutrition, food chemistry, biochemistry, digestive physiology and microbiology will be addressed as they pertain to pet health and well being. Prereq: CHE 230 or CHE 236 or equivalent. [Offered in spring only.]
- ASC 389 APPLIED EQUINE NUTRITION AND FEEDING. (2)**  
This course examines the feeding management of broodmares, growing horses, performance horses and horses with special needs. Lecture material covers common equine feeds, feed and ration analysis, factors influencing the utilization of feeds by horses, and factors affecting nutrient requirements and feeding management of the different classes of horses. Prereq: A course in nutrition or consent of instructor. [Offered in spring only.]
- ASC 395 SPECIAL PROBLEM IN ANIMAL SCIENCES. (1-4)**  
Independent study in Animal Sciences under the supervision of a faculty member. May be repeated for a maximum of eight credits. Prereq: Consent of appropriate instructor. [Offered in fall and spring.]
- \*ASC 399 EXPERIENTIAL LEARNING IN ANIMAL SCIENCES. (1-3)**  
A field-based learning experience in animal sciences approved by the instructor of record and mentored by an internship supervisor. May be repeated to a maximum of six credits. Prereq: Consent of instructor and director of undergraduate studies in Animal Sciences and completion of a supervisor contract and departmental learning contract before registration. [Offered in fall and spring.]
- ASC 404G SHEEP SCIENCE. (4)**  
History and importance of the sheep industry; application of the principles of selection, breeding, feeding and management of sheep for efficient lamb and wool production. Lecture, three hours per week; laboratory, three hours per week. Prereq: ASC 300, ASC 362, ASC 364, ASC 378 or consent of instructor. [Offered in fall only.]
- ASC 406 BEEF CATTLE SCIENCE. (4)**  
Scope and importance of the beef cattle industry; roles of the major cattle breeds and organizations associated with the beef cattle industry; application of equipment, identification, nutrition, reproduction, genetics, health, marketing, taxation and management principles to beef cattle production; impact of current economic, social and environmental issues on the beef cattle industry. Lecture, three hours; laboratory, three hours. Prereq: ASC 300, ASC 362, ASC 364 and ASC 378 or consent of instructor. [Offered in fall only.]
- ASC 408G SWINE PRODUCTION. (3)**  
A study of scope and importance of the swine industry. Application of principles of breeding, reproduction, nutrition, housing, health, and management of swine in modern production systems. Prereq: ASC 101 and ASC 102 or ASC 382. [Offered in spring only.]
- ASC 410G EQUINE SCIENCE. (3)**  
Detailed study of the anatomy and physiology of the horse as they relate to the nutrition, reproduction, athletic ability, unsoundness and control of diseases and parasites. Lecture, two hours; laboratory, two hours. Prereq: ASC 310, ASC 364, and ASC 378. [Offered in spring only.]
- ASC 420G DAIRY CATTLE MANAGEMENT. (3)**  
Scope and importance of the dairy cattle industry; selection, breeding, housing, feeding and management of dairy cattle. Lecture, two hours; laboratory, two hours. Prereq: ASC 325, ASC 364 and ASC 378 or consent of instructor. [Offered in fall only.]
- \*ASC 470 CAPSTONE FOR ANIMAL AGRICULTURE. (3)**  
Discussion of the importance of livestock production to society and consideration of major issues impacting animal agriculture. Principles and practices learned in disciplinary and commodity Animal Sciences courses are integrated into a unified perspective, and the scientific method is employed as an approach to problem analysis and resolution. Refinement of skills in critical thinking, information gathering, writing, and oral communication is emphasized. Prereq: Senior standing in Animal Sciences major. Successful completion of GCCR WRD 203 or WRD 204. [Offered in fall and spring.]
- ASC 499 ACADEMIC ENRICHMENT EXPERIENCE IN ANIMAL SCIENCES. (1)**  
Development and evaluation of the student's required academic enrichment experience (study abroad, undergraduate research, internship, student mentorship, leadership, etc.) Prereq: Open to Animal Sciences majors only.
- ASC 564 MILK SECRETION. (3)**  
Anatomy of the mammary gland, physiology and biochemistry of milk secretion and management factors affecting yield and composition of milk. Prereq: ASC 101 and BIO 152. [Offered in spring only.]
- ASC 601 MAMMALIAN ENDOCRINOLOGY. (3)**  
An introduction to the basic anatomy, physiology and biochemistry of endocrine systems with emphasis on mechanisms of hormone synthesis, secretion and action. Lectures and reading assignments will focus on endocrine function in mammalian species, including laboratory animals, humans and livestock. Prereq: BCH 401G and BIO 350 or equivalents. (Same as PGY 601.)
- ASC 602 INTEGRATED NUTRITIONAL SCIENCES II. (3)**  
Integrated study of the properties, metabolism, biochemical and physiological functions and interactions of vitamins and minerals, and their relationships to chronic diseases, deficiency symptoms and toxicity. Prereq: IBS 601, PGY 206. (Same as CNU/NS 602.) [Offered in spring - odd years.]

- ASC 630 ADVANCED MEAT SCIENCE. (4)**  
Advanced meat science with special reference to the histological, chemical, physical and microbiological properties as they relate to meat quality, organoleptic acceptability and processing procedures. Lecture, three hours; laboratory, two hours. Prereq: FSC 304, FSC 306 or equivalent; one course in histology or biochemistry or consent of instructor. (Same as FSC 630.) [Offered in spring – even years.]
- ASC 660 BIOLOGY OF REPRODUCTION. (3)**  
Advanced study of current topics in reproductive biology. The course is comprised equally of student-led discussions and lectures given by faculty with research expertise in selected topics. Readings will be taken from current and classic literature. Topics covered include (but are not limited to) molecular and cellular endocrinology, hormone receptors and mechanism of action, reproductive neuroendocrinology, reproductive behavior, gametogenesis, fertilization, sexual differentiation, puberty, menopause and environmental effects on reproduction. Emphasis will be placed on the analysis and understanding of the experimental basis for current concepts in reproductive biology. Prereq: ASC/PGY 601 and ASC 364 or BIO/PGY 502 or consent of instructor. (Same as PGY 660 and ANA 660.) [Offered in spring – odd years.]
- ASC 680 LABORATORY METHODS IN NUTRITIONAL SCIENCES. (4)**  
The use of laboratory techniques and instrumentation in the solution of fundamental problems of nutrition. Lecture, one hour; laboratory, six hours. [Offered in fall – odd years.]
- ASC 681 ENERGY METABOLISM. (2)**  
An in-depth discussion of nutritional energetics, from the standpoint of factors which influence the utilization of dietary energy. A critical review of current literature. Prereq: ASC 378 or equivalent, BCH 502 or equivalent or consent of instructor. [Offered in spring – odd years.]
- ASC 683 PROTEIN METABOLISM. (2)**  
A study of the principles and present concepts of protein and amino acid nutrition and metabolism in the animal. Prereq: Graduate level biochemistry. [Offered in fall only.]
- ASC 684 ADVANCED RUMINANT NUTRITION. (3)**  
Principles of ruminant metabolism in the utilization of feedstuffs for meat, milk, and wool production. Prereq: ASC 682 and two or more courses from ASC 681, ASC 683, ASC 685 and ASC 687 or consent of instructor. [Offered in spring – even years.]
- ASC 685 MINERAL METABOLISM. (2)**  
An in-depth review of the function, requirement deficiency and toxicity of mineral elements in nutrition. Emphasis on the interactions between elements and current literature will be made. Prereq: ASC 378 or NFS 510 or equivalent, BCH 502 or equivalent or consent of instructor. [Offered in spring – even years.]
- ASC 686 ADVANCED NONRUMINANT NUTRITION. (3)**  
A study of nutrient utilization as influenced by digestion, absorption and metabolism with emphasis on swine and poultry. Prereq: One course each in nutrition and biochemistry.
- ASC 687 VITAMIN METABOLISM. (2)**  
Detailed study of the metabolism of vitamins and the role of vitamins in the metabolism of carbohydrates, proteins, lipids, and minerals. Prereq: BCH 502 or CHE 552 or consent of instructor. [Offered in spring – odd years.]
- ASC 688 EQUINE NUTRITION. (2)**  
Detailed study of anatomical, physiological and microbiological factors influencing the nutritive requirements of the equine for maintenance, growth, reproduction, lactation and work. Prereq: One course in nutrition and physiology or biochemistry or consent of instructor. [Offered in fall – even years.]
- ASC 689 PHYSIOLOGY OF NUTRIENT DIGESTION AND ABSORPTION. (3)**  
An analysis and comparison of the structure and function of mammalian and avian gastrointestinal tracts, of feedstuff digestive processes, and of specific mechanisms responsible for nutrient absorption in various cell types. Emphasis is placed on livestock and avian species. Prereq: Graduate level Biochemistry. [Offered in fall – even years.]
- ASC 690 MACRONUTRIENT METABOLISM IN DOMESTIC ANIMALS. (2)**  
An in-depth study of macronutrient metabolism and how it can be influenced by nutrition in both ruminant and non-ruminant species. Students will learn the important principles of macronutrient metabolism in domestic animals through lectures, evaluation of the current scientific literature and presentations. Prereq: 3 credits in biochemistry (BCH 401G, IBS 601, or equivalent) and 3 credits in animal nutrition, or consent of the instructor.
- ASC 748 MASTER'S THESIS RESEARCH. (0)**  
Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed. [Offered in fall, spring and summer.]
- ASC 749 DISSERTATION RESEARCH. (0)**  
Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.
- ASC 767 DISSERTATION RESIDENCY CREDIT. (2)**  
Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended. [Offered in fall, spring and summer.]
- ASC 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)**  
May be repeated to a maximum of 12 hours.
- ASC 769 RESIDENCE CREDIT FOR THE DOCTOR'S DEGREE. (0-12)**  
May be repeated indefinitely.
- ASC 771 ANIMAL SCIENCE SEMINAR. (1)**  
May be repeated twice for a maximum of three credits. [Offered in fall and spring.]
- ASC 777 ADVANCED TOPICS IN ANIMAL SCIENCE (Subtitle required). (1-4)**  
Intensive study in a unique aspect of animal agriculture not covered in other graduate courses currently offered. May be repeated under a different subtitle two times to a maximum of 8 credits. Prereq: Permission of instructor.
- ASC 780 SPECIAL PROBLEMS IN ANIMAL DERIVED FOODS. (1-4)**  
May be repeated for a maximum of nine credits. Prereq: Consent of graduate adviser. (Same as FSC 780.) [Offered in fall and spring.]
- ASC 781 SPECIAL PROBLEMS IN GENETICS AND ANIMAL BREEDING. (1-4)**  
May be repeated to a maximum of nine credits. Prereq: Consent of graduate adviser. [Offered in fall and spring.]
- ASC 782 SPECIAL PROBLEMS IN ANIMAL NUTRITION. (1-4)**  
May be repeated to a maximum of nine credits. Prereq: Consent of graduate adviser. [Offered in fall and spring.]
- ASC 783 SPECIAL PROBLEMS IN REPRODUCTIVE PHYSIOLOGY (Subtitle required). (1-4)**  
Intensive study or investigation of topics in physiology not covered in formalized courses. May be repeated under different subtitle to a maximum of nine credits. Prereq: Consent of graduate adviser. [Offered in fall and spring.]
- ASC 790 RESEARCH IN ANIMAL DERIVED FOODS. (1-6)**  
Problems involving original investigation. May be repeated for a maximum of nine credits. Prereq: Consent of graduate adviser. (Same as FSC 790.)
- ASC 791 RESEARCH IN GENETICS AND ANIMAL BREEDING. (1-6)**  
Problems involving original investigation. May be repeated for a maximum of nine credits. Prereq: Consent of graduate adviser. [Offered in fall and spring.]
- ASC 792 RESEARCH IN ANIMAL NUTRITION. (1-6)**  
Problems involving original investigation. May be repeated for a maximum of nine credits. Prereq: Consent of graduate adviser. [Offered in fall and spring.]
- ASC 793 RESEARCH IN REPRODUCTIVE PHYSIOLOGY (Subtitle required). (1-6)**  
Original investigation of mechanisms and problems related to mammalian reproduction. May be repeated under different subtitle to a maximum of nine credits. Prereq: Consent of graduate adviser. [Offered in fall and spring.]
- 
- AST Astronomy**
- AST 191 THE SOLAR SYSTEM. (3)**  
A course emphasizing the nature, origin and evolution of planets, satellites and other objects in the Solar System. Topics also include historical astronomy, the naked eye phenomena of the sky and modern solar system discoveries made by spacecraft. This course may be taken independently of AST 192.
- AST 192 STARS, GALAXIES AND THE UNIVERSE. (3)**  
A course covering the universe outside the Solar System. A principle theme is the origin and evolution of stars, galaxies and the universe at large. Topics also include black holes, quasars and the big bang model of the universe. This course may be taken independently of AST 191.
- AST 310 TOPICS IN ASTRONOMY AND ASTROPHYSICS (Subtitle required). (3)**  
Readings, research, discussions and lectures to illuminate problems of contemporary significance in astronomy and astrophysics. May be repeated to a maximum of six credits under a different subtitle. Prereq: To be announced with subtitle.
- AST 395 INDEPENDENT WORK IN ASTRONOMY. (1-3)**  
Students may select an approved topic for study under the direction of a faculty member. May be repeated to a maximum of 12 credits. Prereq: Major and a standing of 3.0 in the department.
- AST 591 ASTROPHYSICS I - STARS. (3)**  
The physics of stars from star formation to stellar death. Topics include stellar structure and evolution, energy generation and transport, the later stages of stellar evolution and stellar remnants. Prereq: PHY 361, PHY 416G, PHY 417G or consent of instructor. (Same as PHY 591.)

**AST 592 ASTROPHYSICS II – GALAXIES AND INTERSTELLAR MATERIAL. (3)**

The physics of galaxies and of the interstellar medium. Topics include galaxy formation, evolution and interaction, phases of the interstellar medium, and physical processes in the interstellar medium. Prereq: PHY 361, PHY 416G, PHY 417G or consent of instructor. (Same as PHY 592.)

**AST 639 PHYSICAL PROCESSES IN ASTROPHYSICS. (3)**

A lecture and problem course covering the physical processes encountered in astrophysics. The topics covered will include micro-physical processes in stellar atmospheres and the interstellar medium, high-energy astrophysics, and basic hydrodynamics and shock waves. Prereq: PHY/AST 592 or consent of instructor. (Same as PHY 639.)

**AT Athletic Training**

**AT 120 CAREERS IN ATHLETIC TRAINING. (1)**

An overview of the Athletic Training profession(s) including aspects of professional practice, areas of specialization, professional issues and trends, and career paths and opportunities. The course will consist of assignments, lectures and interactive discussions led by faculty and visiting professionals designed to expand students' understanding of the profession(s) and to assist in educational and career planning and discernment.

**AT 500 INTEGRATIVE CARE FOR HEALTH SCIENCES. (1-3)**

Integrative care involves using the best possible treatments from both complementary/alternative and allopathic medicine, based on the patient's individual needs and condition. The selection of health care providers should be based on good science and this course will introduce students to complementary and alternative health care providers and the practices and beliefs of these practices as well as the scientific evidence in support of these practices. The course integrates successes from both worlds and describe the safest, least invasive, most cost-effective approach while incorporating a holistic understanding of the individual. May be repeated to a maximum of 3 credits (1 credit didactic and up to two credits experiential/research). (Same as HS 500, CNU 500, CD 500, MLS 500, PAS 500.)

**#AT 504 CURRENT TOPICS IN ACTIVE WOMEN'S HEALTH. (2)**

This is a required course encompassing a wide range of topics related to women's health with a focus on active women's health. The primary focus of this course will be on the discussion of clinical issues specific to active women's health from a variety of healthcare professionals. The course will utilize a combination of discussions, oral presentations, written communication and group discussions to inform the student. Course must be taken twice for a total of 4 credits. Prereq: 1. Acceptance in to the Active Women's Health Certificate Program. (Same as CNU 504.)

**#AT 505 SPORTS MEDICINE FOR ACTIVE WOMEN. (2)**

This course is designed to study the basic areas covered in sports medicine with readings and discussions of current trends in research and practice in the field of active women's health. Readings, discussions and an independent project will focus on reflective decision making about current issues and trends related to sports medicine. Contemporary topics in sports medicine will be covered and students will be expected to develop a presentation on a topic specific to their respective area of clinical practice. Prereq: 1. Acceptance in to the Active Women's Health Certificate; 2. B or better in CNU 503: Nutrition for Health Professions.

**#AT 506 EXPERIENTIAL LEARNING IN WOMEN'S HEALTH: PART I. (2)**

The intent of the Part I Experiential Learning in Women's Health course is to use knowledge learned in the classroom and apply to women in the healthcare settings to facilitate wellness, prevention and recovery to maximize women's health. Students will learn to apply the basics of motivational interviewing as well as the fundamentals learned in class to assess and recommend treatment for issues related to active women's health. Experiences to be covered in the healthcare settings for women will include nutritional assessment, basic nutrition counseling, physical assessment, injury prevention during exercise, and injury recovery. The course will have an introductory didactic component prior to the experiential learning activities to understand issues related to professionalism and motivational interviewing. Prereq: 1. Acceptance in to the Active Women's Health Certificate; 2. Students must have maintained an overall GPA of 3.0, with a B in all Certificate courses. (Same as CNU 506.)

**#AT 507 EXPERIENTIAL LEARNING IN WOMEN'S HEALTH: PART II. (2)**

The intent of the Part II Experiential Learning in Women's Health course is to use knowledge learned in the classroom and during Part I and further understanding and skills applied to women in healthcare settings to facilitate wellness, prevention and recovery to maximize women's health. Students will learn to further apply the basics of motivational interviewing as well as the fundamentals learned in class to assess and counsel on issues related to active women's health. Experiences to be covered in the healthcare settings for women will include more in depth skills involving nutritional assessment, expanding nutrition knowledge and nutrition counseling skills, additional applications of physical assessment and injury prevention during exercise as well as injury recovery. The course will have lectures interspersed on healthcare workplace skills. Prereq: 1. Acceptance in to the Active Women's Health Certificate; 2. Students must have maintained an overall GPA of 3.0, with a B in all Certificate courses. (Same as CNU 507.)

**AT 510 LIFE-THREATENING AND EMERGENCY CONDITIONS DURING PHYSICAL ACTIVITY. (3)**

This is a course designed for students pursuing licensure as an Athletic Trainer or a similar professional license in a health care profession that requires the ability to understand, recognize and manage life-threatening and emergency conditions. This is part of a sequence of courses that focus on sports injury assessment and recognition. The overall objectives are for the students to provide foundational and conceptual information for the body systems most commonly involved in emergency conditions during physical activity. Students will learn to recognize life-threatening emergency conditions, identify the body systems in crisis, and the associated threats to those body systems. The student will be required to demonstrate competencies in written and practical examinations. Prereq: Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky.

**AT 520 MANAGEMENT AND ADMINISTRATION IN ATHLETIC TRAINING. (3)**

This is a course designed to students pursuing a certification in Athletic Training or similar professional license in health care professions that focuses on the concepts related to the administration of athletic training programs including legal aspects and regulation of clinical practice, department and personnel management, budgeting, medical records management, risk management planning, facility design, development of referral programs and basic program outcome assessment methods. Prereq: Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky.

**AT 550 EVIDENCE-BASED PRACTICE IN ATHLETIC TRAINING. (3)**

This is a course designed for students pursuing a certification in Athletic Training or similar professional license in health care professions that exposes the students to importance of supportive, validated research to establish evidence for clinical practice. Lectures will provide foundation information for students to understand the 5 steps of seeking and integrating research into clinical practice. The student will be required to demonstrate competencies in evidence based concepts in written examinations, as well as complete a written and oral presentation of a literature review that utilizes evidence based concepts to address a clinical question. Prereq: Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky.

**#AT 589 FOUNDATIONS IN ATHLETIC TRAINING. (2)**

This two credit course (1 credit lecture, 1 credit lab) will cover topics diverse in nature to ensure foundational preparation for athletic training students in their subsequent coursework and clinical experiences. Topics introduced in this course will include: interprofessional practice; laws, regulations, and rules that guide athletic training practice; effective communication strategies; cultural competency; basic injury prevention techniques; and an introduction to healthcare informatics. Prereq: Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky.

**\*AT 590 MUSCULOSKELETAL ANATOMICAL DISSECTION. (3)**

This is a course designed for students pursuing certification as an Athletic Trainer or a similar professional license in a health care profession that requires the ability to understand, recognize and manage musculoskeletal injuries. This is the first course in a sequence of courses that focus on sports injury assessment and recognition, and is a 3-credit cadaver anatomy course, which will include dissection and examination of the human cadaver. Lecture and laboratory experiences will emphasize the various systems of the body with reference to athletic injury mechanism and evaluation. The student will be required to demonstrate competencies in written and practical examinations. Prereq: Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky.

**\*AT 591 FOUNDATIONS AND PATHOPHYSIOLOGY OF THE MUSCULOSKELETAL SYSTEM: I. (3)**

This is a 3 credit course (3 lecture) designed for students pursuing a certification in Athletic Training or a similar professional license in health care professions that requires the ability to perform musculoskeletal assessment and management of injuries to the various systems of the human body. This is part of a sequence of anatomy and physiology of human body systems courses that focus on normal and disrupted structures involved in sports injuries. The overall objective is for the students to receive foundational information pertaining to structure and function of the various body systems and introduce diagnostic imaging techniques for these various systems. The student will be required to demonstrate competencies in written and practical examinations. Prereq: 1) Formal acceptance into the Master of Science in Athletic Training program at the University of Kentucky.

**\*AT 592 FOUNDATIONS AND PATHOPHYSIOLOGY OF THE MUSCULOSKELETAL SYSTEM: II. (3)**

This course is a 3 credit course (2 lecture, 1 lab) designed for students pursuing a certification in Athletic Training or similar professional license in health care professions that requires the ability to perform musculoskeletal assessment and management of the entire human body. This is part of a sequence of anatomical and physiological of human body systems courses that focus on normal and disrupted structures involved in sports injuries. The overall objective is to provide foundational information to the students on the endocrine, gastrointestinal, genitourinary, neurological, reproductive, respiratory, cardiovascular and integumentary body systems. The students will also explore tests and measures to assess these body systems. The student will be required to demonstrate competencies in written and practical examinations. Prereq: 1) Formal acceptance into the Master of Science in Athletic Training program at the University of Kentucky. 2) Grade of C or higher in AT 591.

**AT 593 FOUNDATIONS AND PATHOPHYSIOLOGY OF THE MUSCULOSKELETAL SYSTEM FOR ATHLETIC TRAINERS: INTEGUMENTARY AND IMMUNE SYSTEMS. (2)**

This is a course designed for students pursuing a certification in Athletic Training or similar professional license in health care professions that requires the ability to perform musculoskeletal assessment and management of the entire human body. This is part of a sequence of anatomical and physiological of human body systems courses that focus on normal and disrupted structures involved in sports injuries. The overall objective is for the students to provide foundation information of integumentary and inflammatory body systems. The student will be required to demonstrate competencies in written examinations. Prereq: Formal acceptance into the Master of Science in Athletic Training program at the University of Kentucky.

**AT 610 ASSESSMENT AND MANAGEMENT OF LIFE-THREATENING AND EMERGENCY CONDITIONS DURING PHYSICAL ACTIVITY. (4)**

This is a course designed for students pursuing a certification in Athletic Training or similar health care professions that require patient assessment and the management of life-threatening, emergency conditions. A combination of lectures and laboratory experiences will be provided in order for the student to learn and demonstrate appropriate assessment and care for patients of all ages with a variety of medical conditions and traumatic injuries. The overall objective is for the students to be able to survey, deliver and manage emergency conditions that are likely to occur during athletic competition or physical activity. The student will be required to demonstrate competencies in assessment and management with both written and practical examinations. Prereq: Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky. AT 510 Foundational Systems for Athletic Trainers: Life-Threatening and Emergency Conditions.

**AT 620 GENERAL MEDICAL CONDITIONS IN THE PHYSICALLY ACTIVE. (3)**

This is a course designed for students pursuing a certification in Athletic Training or similar professional license in health care professions that requires the study of the pathology, etiology and presentation of common general medical conditions in active populations. Systems will include cardiovascular, respiratory, gastrointestinal, genitourinary, reproductive, and neurologic conditions most common to the physically active. In addition, concepts of pharmacology including pharmacokinetics, basic drug classifications and legal aspects of use will be covered. Specific focus will be placed on common therapeutic drugs used in sports medicine. Prereq: Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky.

**\*AT 631 CLINICAL INTEGRATION I: LOWER EXTREMITY ASSESSMENT AND MANAGEMENT. (1)**

This is a course designed for students pursuing a certification in Athletic Training. This is part of a sequence of courses that provides a review of clinical skills in the classroom. The overall objective of this course sequence is to integrate clinical skills into clinical experiences, while emphasizing clinical decision making. The student will be required to demonstrate proficiency in competencies specific to the semester content, as well as evaluated on practical examinations. Prereq: Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky. AT 695.

**\*AT 632 CLINICAL INTEGRATION II: UPPER EXTREMITY ASSESSMENT AND MANAGEMENT. (1)**

This is a course designed for students pursuing a certification in Athletic Training. This is part of a sequence of courses that provides a review of clinical skills in the classroom. The overall objective of this course sequence is to integrate clinical skills into clinical experiences, while emphasizing clinical decision making. The student will be required to demonstrate proficiency in competencies specific to the semester content, as well as evaluated on practical examinations. Prereq: Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky. AT 696.

**\*AT 633 CLINICAL INTEGRATION III: ASSESSMENT AND MANAGEMENT OF LIFE-THREATENING AND EMERGENCY CONDITIONS DURING PHYSICAL ACTIVITY. (1)**

This is a course designed for students pursuing a certification in Athletic Training. This is part of a sequence of courses that provides a review of clinical skills in the classroom. The overall objective of this course sequence is to integrate clinical skills into clinical experiences, while emphasizing clinical decision making. The student will be required to demonstrate proficiency in competencies specific to the semester content, as well as evaluated on practical examinations. Prereq: Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky. AT 510 and AT 610.

**\*AT 634 CLINICAL INTEGRATION IV: THERAPEUTIC MODALITIES AND ADVANCED THERAPEUTIC REHABILITATION. (1)**

This is a course designed for students pursuing a certification in Athletic Training. This is part of a sequence of courses that provides a review of clinical skills in the classroom. The overall objective of this course sequence is to integrate clinical skills into clinical experiences, while emphasizing clinical decision making. The student will be required to demonstrate proficiency in competencies specific to the semester content, as well as evaluated on practical examinations. Prereq: Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky. AT 691, AT 695, and AT 696.

**#AT 635 CLINICAL INTEGRATION V: SPINE ASSESSMENT AND MANAGEMENT. (1)**

This is a course designed for students pursuing a certification in Athletic Training. This is part of a sequence of courses that provides a review of clinical skills in the classroom. The overall

objective of this course sequence is to integrate clinical skills into clinical experiences, while emphasizing clinical decision making. The student will be required to demonstrate proficiency in competencies specific to the semester content, as well as evaluated on practical examinations. Prereq: 1) Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky. 2) AT 697.

**\*AT 640 PRACTICUM IN ATHLETIC TRAINING I. (2)**

This is a 2-credit practicum course designed for students pursuing a certification in Athletic Training. This is the first course in a series of courses that combines supervised field experience with review of clinical skills from the classroom. Students will integrate didactic knowledge and clinical skills from previous coursework in to the clinical experience. Students will also observe and assist clinical preceptors in healthcare delivery. The overall objective of this course sequence is to integrate clinical skills into clinical experiences, while emphasizing clinical decision making under the supervision of an assigned Preceptor. Additionally, students will be required to demonstrate proficiency in competencies specific to the semester content. Prereq: 1) Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky. 2) A grade of C or better in: AT 550, 589, 590, AT 591.

**#AT 641 PRACTICUM IN ATHLETIC TRAINING II. (3)**

This is a 3-credit practicum course designed for students pursuing a certification in Athletic Training. This is the second course in a series of courses that combines supervised field experience with review of clinical skills from the classroom. Students will integrate didactic knowledge and clinical skills from previous coursework in to the clinical experience, specifically lower extremity evaluation, lower extremity rehabilitation and management, and administration. Students will also observe and assist clinical preceptors in healthcare delivery. The overall objective of this course sequence is to integrate clinical skills into clinical experiences, while emphasizing clinical decision making under the supervision of an assigned Preceptor. Students will meet every Friday during the last four weeks, for one hour with the faculty of record, to review patient case presentations and discuss emerging clinical topics. Additionally, students will be required to demonstrate proficiency in competencies specific to the semester content. Prereq: 1) Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky. 2) A grade of C or better in: AT 510, AT 520, AT 592 and AT 695. 3) Completed Clinical Proficiency Evaluations in AT 640.

**#AT 642 PRACTICUM IN ATHLETIC TRAINING III. (4)**

This is a 4-credit practicum course designed for students pursuing a certification in Athletic Training. This is the third course in a series of courses that combines supervised field experience with review of clinical skills from the classroom. The students will complete an immersive experience during this semester. Students will integrate didactic knowledge and clinical skills from previous coursework in to the clinical experience, specifically upper extremity evaluation, upper extremity rehabilitation and emergency management. The overall objective of this course sequence is to integrate clinical skills into clinical experiences, while emphasizing clinical decision making under the supervision of an assigned Preceptor. Prereq: 1) Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky. 2) A grade of C or better in: AT 610, AT 641, AT 670 and AT 696. 3) Completed Clinical Proficiency Evaluations in AT 641.

**#AT 643 PRACTICUM IN ATHLETIC TRAINING IV. (7)**

This is a 7-credit practicum course designed for students pursuing a certification in Athletic Training. This is the fourth course in a series of courses that combines supervised field experience with review of clinical skills from the classroom. The students will complete an 8-week immersive experience. Students will integrate didactic knowledge and clinical skills from previous coursework in to the clinical experience, specifically upper and lower and upper extremity evaluation, lower extremity and upper extremity rehabilitation, therapeutic modalities, and emergency management. The overall objective of this course sequence is to integrate clinical skills into clinical experiences, while emphasizing clinical decision making under the supervision of an assigned Preceptor. Prereq: 1) Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky. 2) A grade of C or better in: AT 642, AT 691 and AT 671. 3) Completed Clinical Proficiency Evaluations in AT 642.

**#AT 644 PRACTICUM IN ATHLETIC TRAINING V. (6)**

This is a 6-credit practicum course designed for students pursuing a certification in Athletic Training. This is the fifth and final course in a series of courses that combines supervised field experience with review of clinical skills from the classroom. Students will integrate didactic knowledge and clinical skills from previous coursework in to the clinical experience, specifically upper and lower extremity and spine evaluation, upper and lower extremity and spine rehabilitation and management, therapeutic modalities, and emergency management. The overall objective of this course sequence is to integrate clinical skills into clinical experiences, while emphasizing clinical decision making under the supervision of an assigned Preceptor. Prereq: 1) Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky. 2) A grade of C or better in: AT 643, AT 672, AT 673 and AT 697. 3) Completed Clinical Proficiency Evaluations in AT 643.

**AT 660 DIRECTED STUDY IN ATHLETIC TRAINING. (1-3)**

A specific topic in Athletic Training related to the student's interests is selected for intensive study. Work to be supervised by a graduate faculty member proficient in the area under investigation. May be repeated to a maximum of six credits. Prereq: Graduate standing and consent of instructor.

**AT 670 SCIENTIFIC INQUIRY IN ATHLETIC TRAINING I. (2)**

An introduction to the research process in athletic training. The importance of pursuing quality research in athletic training will be stressed and the procedures necessary to complete this process will be presented. May be repeated to a maximum of 8 credits. Prereq: Graduate standing and consent of the instructor.

**AT 671 SCIENTIFIC INQUIRY IN ATHLETIC TRAINING II. (2)**

The second course of a four part series that will develop skills and a knowledge base that will aid the student while conducting and critically reviewing research in athletic training. Course work will address the methodological procedures of designing and pursuing research in athletic training. The importance of pursuing quality research will be stressed and the procedures necessary to complete this process will be presented. Prereq: Graduate standing and consent of instructor.

**AT 672 SCIENTIFIC INQUIRY IN ATHLETIC TRAINING III. (2)**

The third course of a four part series that will develop skills and a knowledge base that will aid the student while conducting and critically reviewing research in athletic training. Course work will address the design of research and synthesis of data in athletic training. The importance of pursuing quality research will be stressed and the procedures necessary to complete this process will be presented. Prereq: Graduate standing and consent of instructor.

**AT 673 SCIENTIFIC INQUIRY IN ATHLETIC TRAINING IV. (2)**

The final course of a four part series that will develop skills and a knowledge base that will aid the student while conducting and critically reviewing research in athletic training. Course work will focus on developing the skills needed to critically synthesize material with accepted practice, and prepare professional presentations using acquired data and an appropriate statistical analysis. The importance of pursuing quality research will be stressed and the procedures necessary to complete this process will be presented. Prereq: Graduate standing, and consent of instructor.

**AT 680 SPECIAL TOPICS IN ATHLETIC TRAINING: (Subtitle required). (1-3)**

Study of emerging topics of current high interest in athletic training. May be repeated to a maximum of 9 credits. Prereq: Graduate standing and consent of instructor.

**AT 682 CLINICAL SEMINAR IN ATHLETIC TRAINING. (1)**

This is an advanced athletic training course encompassing a wide range of topics related to all domains of the athletic training profession. The primary focus of this course will be on the presentation of case studies for group discussion and contribution. This course will utilize a combination of discussion, review, and student presentation.

**AT 685 PRINCIPLES AND APPLICATION OF KINESIOLOGICAL EMG. (3)**

To introduce the student to the principles and application of kinesiological electromyography (EMG). Kinesiological EMG research incorporates the study of human movement with direct assessment of the muscles involved with human motion. The primary aim for this course is to provide the student with background and practical knowledge of kinesiological EMG in order to be able to perform and critically analyze kinesiological EMG studies. Students will enhance their understanding of neuromuscular properties of skeletal musculature. Students will be exposed to the common procedures used to collect, analyze, and interpret both surface and indwelling kinesiological EMG research. Prereq: KHP 615 or comparable graduate level biomechanics course, the course can be taken concurrently. Approval of instructor.

**AT 690 ORTHOPAEDIC EVALUATION AND REHABILITATION OF THE UPPER EXTREMITY. (4)**

Current evaluation and rehabilitation of upper extremity and upper spine injuries that commonly occur in athletic, recreational or occupational activities. A combination of lecture, laboratory techniques will be used to review current practice and interventions. Prereq: Graduate standing and consent of instructor.

**AT 691 THERAPEUTIC MODALITIES FOR ATHLETIC TRAINERS. (3)**

This is a course designed to students pursuing a certification in Athletic Training or similar professional license in health care professions that requires the ability to treat and manage symptoms of musculoskeletal conditions using therapeutic modalities. A combination of lectures and laboratory experiences will be provided in this class in order for the student to gain theoretical knowledge and practical application of the use of these physical agents. The overall objective is for the students to develop the skills necessary to select appropriate modalities that can be used when providing care for musculoskeletal injuries sustained by physically active individuals. The student will be required to demonstrate competencies in therapeutic modality applications with both written and practical examinations. Prereq: Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky. AT 591 Foundational Systems, Disorders and Disruptions in Athletic Injury: Muscle/Tendon/Nerve. AT 592 Foundational Systems, Disorders and Disruptions in Athletic Injury: Articular/Bone/Cartilage. AT 590 Anatomical Musculoskeletal Dissection.

**AT 692 ORTHOPAEDIC EVALUATION AND REHABILITATION OF THE SPINE. (4)**

This is an advanced athletic training course encompassing a regional study of orthopedic evaluation and management of the cervical, thoracic, and lumbar spine. A combination of lecture, applied evaluation and rehabilitation techniques, critical reviews of the literature, discussion, and student presentations will be employed. Prereq: Graduate standing and consent of instructor.

**AT 695 ORTHOPAEDIC EVALUATION AND REHABILITATION OF THE LOWER EXTREMITY. (4)**

Current evaluation and rehabilitation of lower extremity and lumbar spine injuries that commonly occur in athletic, recreational or occupational activities. A combination of lecture, laboratory and student presentation and written reviews of current practice and interventions will be employed. Prereq: Graduate standing and consent of instructor.

**#AT 696 ORTHOPEDIC EVALUATION AND REHABILITATION OF THE UPPER EXTREMITY. (4)**

This four credit course (2 hours of lecture, 4 hours of lab per week) is designed for students pursuing a certification in athletic training or similar health care profession. A combination of lecture and laboratory experiences will be provided in order for the student to learn and demonstrate appropriate assessment and care for patient of all ages, specific to the entire upper extremity. Regional study of musculoskeletal and neurological evaluation, assessment, management and rehabilitation of the upper extremity will be covered. Laboratory experiences will focus on performance of evaluation of regional areas and application of rehabilitation techniques for a variety of upper extremity health conditions. Prereq: 1) Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky.

**#AT 697 ORTHOPEDIC EVALUATION AND REHABILITATION OF THE SPINE. (3)**

This three-credit course is designed for students pursuing a certification in athletic training or similar health care profession. A combination of lecture and laboratory experiences will be provided in order for the student to learn and demonstrate appropriate assessment and care for patients of all ages, specific to the cervical, thoracic and lumbar spine. Regional study of orthopedic evaluation, assessment, management, and rehabilitation of the spine will be covered. Laboratory experiences will focus on performance of evaluations of regional areas and specific manual techniques of rehabilitation. Prereq: 1) Formal acceptance into the Master of Science degree program in Athletic Training at the University of Kentucky.

**AT 700 MUSCLE MECHANICS. (3)**

This is an advanced athletic training course encompassing a wide range of topics related to all aspects of skeletal muscle form and function. The primary focus of this course will be on the mechanical properties of skeletal muscle, and translational aspects of basic science research and clinical care.

**#AT 701 CLINICAL SEMINAR IN ATHLETIC TRAINING I. (1)**

This is the first course in a 4-part sequence of athletic training courses encompassing a wide range of topics related to all domains of the athletic training profession. The primary focus of this course sequence will be on the discussion of clinical cases and clinical issues in a group discussion ranging from athletic injury assessment, intervention, communication issues among athletes and coaches and any other relevant clinical issues facing credentialed athletic trainers. Each of the four courses will have unique student learning outcomes and assignments relative to your growth in clinical practice. This course will utilize a combination of on-line discussions, oral and written case study presentations, clinical outcomes assessment and competency related clinical goals. Prereq: Formal acceptance into the Graduate Certificate program in Musculoskeletal Injury Management at the University of Kentucky or by instructor permission.

**#AT 702 CLINICAL SEMINAR IN ATHLETIC TRAINING II. (1)**

This is the second course in a 4-part sequence of athletic training courses encompassing a wide range of topics related to all domains of the athletic training profession. The primary focus of this course sequence will be on the discussion of clinical cases and clinical issues in a group discussion ranging from athletic injury assessment, intervention, communication issues among athletes and coaches and any other relevant clinical issues facing credentialed athletic trainers. Each of the four courses will have unique student learning outcomes and assignments relative to your growth in clinical practice. This course will utilize a combination of on-line discussions, oral and written case study presentations, clinical outcomes assessment and competency related clinical goals. Prereq: Formal acceptance into the Graduate Certificate program in Musculoskeletal Injury Management at the University of Kentucky or by instructor permission.

**#AT 703 CLINICAL SEMINAR IN ATHLETIC TRAINING III. (1)**

This is the third course in a 4-part sequence of athletic training courses encompassing a wide range of topics related to all domains of the athletic training profession. The primary focus of this course sequence will be on the discussion of clinical cases and clinical issues in a group discussion ranging from athletic injury assessment, intervention, communication issues among athletes and coaches and any other relevant clinical issues facing credentialed athletic trainers. Each of the four courses will have unique student learning outcomes and assignments relative to your growth in clinical practice. This course will utilize a combination of on-line discussions, oral and written case study presentations, clinical outcomes assessment and competency related clinical goals. Prereq: Formal acceptance into the Graduate Certificate program in Musculoskeletal Injury Management at the University of Kentucky or by instructor permission.

**#AT 704 CLINICAL SEMINAR IN ATHLETIC TRAINING IV. (1)**

This is the fourth course in a 4-part sequence of athletic training courses encompassing a wide range of topics related to all domains of the athletic training profession. The primary focus of this course sequence will be on the discussion of clinical cases and clinical issues in a group discussion ranging from athletic injury assessment, intervention, communication issues among athletes and coaches and any other relevant clinical issues facing credentialed athletic trainers. Each of the four courses will have unique student learning outcomes and assignments relative to your growth in clinical practice. This course will utilize a combination of on-line discussions, oral and written case study presentations, clinical outcomes assessment and competency related clinical goals. Prereq: Formal acceptance into the Graduate Certificate program in Musculoskeletal Injury Management at the University of Kentucky or by instructor permission.

**AT 720 SPORTS MEDICINE. (3)**

A study of the basic areas covered in sports medicine with readings and discussions of current international trends in the research and practice in this field. Prereq: Twelve semester hours; credit in the field of biological sciences; consent of instructor. (Same as KHP 720.)

**AT 740 MUSCULOSKELETAL ANATOMICAL DISSECTION. (3)**

This course is a 3-credit cadaver anatomy laboratory course, which will include examination and dissection of the human cadaver. Lectures and laboratory experience will emphasize the musculoskeletal, articular, nervous, and vascular systems particularly as they relate to athletic injury mechanism and evaluation.

**AT 768 RES CR MASTERS DEGREE. (1-3)**

Residency credit for master's thesis.

**#AT 775 TISSUE PATHOMECHANICS IN PHYSICAL ACTIVITY INJURIES. (3)**

This is a course designed for students pursuing a graduate certificate in Musculoskeletal Injury Management. The objective of this class is to understand normal and pathological conditions of the musculoskeletal system, specifically focusing on bone, ligament, cartilage, muscle and tendon structures, and how these passive restraint systems interact with the nervous system to create dynamic restraint. From this knowledge, students will gain advanced understanding of mechanisms of musculoskeletal injury common in sports and physical activity. The student will be required to demonstrate competencies via written examinations. Prereq: Formal acceptance into the Graduate Certificate program in Musculoskeletal Injury Management at the University of Kentucky.

**#AT 777 ADVANCE TREATMENT TECHNIQUES FOR REHABILITATION OF MUSCULOSKELETAL MOBILITY DEFICITS. (3)**

This is an advanced rehabilitation course encompassing therapeutic intervention to address mobility deficits in a joint of the extremity or spine along with musculotendinous restrictions. This course will educate the student to various manual therapy techniques that can be applied to patients suffering from limited mobility or muscular imbalances in order to restore normal function. The primary patient population will be physically active individuals however the techniques can be applied to any patient with an orthopedic or musculoskeletal injury. The course will primarily focus on learning and applying appropriate techniques however clinical decision making and problem solving will be incorporated by presenting case scenarios to determine the appropriate intervention techniques for particular patients. The student will be expected to demonstrate proficiency in manual therapy techniques with a practical and written tests. Prereq: 1. Student will be enrolled in Graduate Certificate program in Musculoskeletal Injury Management or by instructor permission. 2. Student will possess or be pursuing a clinical degree in a health related field. 3. Have previously passed a human anatomy course, equivalent to ANA 209 at the University of Kentucky.

**B&E Business and Economics****†B&E 102 MICROSOFT OFFICE SPECIALIST – WORD.****†B&E 103 MICROSOFT OFFICE SPECIALIST – POWERPOINT.****†B&E 104 MICROSOFT OFFICE SPECIALIST – EXCEL.****B&E 105 TECHNOLOGY FOR BUSINESS SOLUTIONS. (1)**

This course prepares pre-major students in the Gatton College of Business & Economics to use business software at a high level of proficiency and focuses on Microsoft Excel and Access. Lectures will be supplemented with hands on experiences with business problems. Prereq: ACC 201 and ECO 201, pre-major in the Gatton College of Business & Economics, or consent of instructor.

**B&E 120 LEADERSHIP IN THE GLOBAL MARKETPLACE. (3)**

An introductory examination of the skills, competencies, and styles of effective global leaders. Activities include individual assessments and a personal leadership development plan. Prereq: Acceptance in the Global Scholars Certificate program.

**B&E 122 THE CHALLENGE OF LEADERSHIP. (1)**

Current leadership challenges as discussed by the people who confront them. Students have the opportunity to discuss leadership challenges with guest speakers from the corporate, government and non-profit sectors. Prereq: Acceptance into Global Business Leadership certificate program.

**B&E 150 BUSINESS CAREER EXPLORATION AND DECISION MAKING. (1)**

B&E 150 guides students to explore business majors and career opportunities while addressing their individual decision making style. Students participate in assessment activities designed to enhance their understanding of self, including interests, personality, skills and values – factors that influence choosing an academic major and career pathway. Students explore potential career paths of Gatton majors by participating in exploration activities and utilizing resources provided by the Graham Office of Career Management. Students learn basics for resume and cover letter development, interviewing, professionalism and business etiquette while completing the INTERVIEW ready program over the span of the course. By completing this course, students will be better equipped to select internships and enrichment activities that align with their career goals.

**B&E 201 INTRODUCTION TO BUSINESS. (3)**

This course provides an introductory level understanding of how a business operates and how it is managed. Business concepts and activities that will be covered include business development, management, human resources, marketing, accounting and finance. Prereq: Open to all students except those admitted to the Upper Division of the Gatton College of Business and Economics.

**B&E 223 INTRODUCTION TO THE ECONOMICS OF BUSINESS. (2)**

Provides an introduction to the principles of microeconomics and some key concepts of macroeconomics as they relate and apply to the immediate interests of business managers. Basic tools of economics will be used to study consumer/producer behavior, how markets work, supply and demand interaction, and intra to market structure. This course is specifically designed to help prepare prospective MBA students for the economics and business classes and will not satisfy ANY undergraduate degree requirement. Prereq: Acceptance into MBA program, other graduate program or consent of instructor.

**B&E 240 INTER-CULTURAL BUSINESS COMMUNICATION. (3)**

This course is designed to improve students' ability to communicate effectively with people from diverse cultural backgrounds. Prereq: Acceptance into Global Business Leadership certificate program.

**B&E 300 CAREER DEVELOPMENT IN BUSINESS AND ECONOMICS. (1)**

The course will emphasize the application of analytical, communicative, and critical thinking skills in the development of students' careers. It will address career opportunities, selection of personally appropriate career plans, and job search activities. It will enhance analytical skills through career analysis and company analysis, and enhance written and oral communication skills through their application to job search activities. Prereq: At least 60 hours of earned credit.

**B&E 327 LARGER WORLD ISSUES IN BUSINESS. (3)**

A case-based course that explores the nexus between business and the social issues of the day (e.g., poverty, the environment). Student activities include a case competition exercise where they examine a social issue in business and hone their analytical and oral presentation skills. Prereq: Acceptance into the Global Scholars program.

**B&E 390 SPECIAL TOPICS IN BUSINESS (Subtitle required). (3)**

Readings, projects, lecture and/or discussion to illuminate current topics of special interest or concern in business. May be repeated to a maximum of six credits. May not be repeated under the same title. A particular topic may be offered at most three times under the B&E 390 number. Prereq: Varies by topic.

**B&E 396 INTERNSHIP SEMINAR. (1-3)**

B&E 396 is an on-line seminar course taken by Gatton College business majors in conjunction with any credit-bearing, part-time internship experience during fall, spring, or summer semesters. B&E 396 is also the course credit for full time summer internships. Students work the required hours at the internship site (number of hours to be determined by the number of credit hours being earned and the internship pay status – see Graham Office Internship Guidelines and the Graham Office Pre-Internship Checklist for details) and participate in this four session seminar course. The seminar serves as a means to provide the academic and career development supervision, supplementing the site supervisor's role in monitoring the progress of each intern. The course is designed to provide web-based discussion that provides an opportunity for students to process their internship experience and how it relates to their career goals. The seminar content focuses on professional and career development topics, such as business etiquette, navigating corporate culture, and building a professional network. Seminar content also includes academic major discipline-specific material and applications. By completing this course, students will benefit from a well-rounded professional work experience that is supported by academic and career development resources. Gatton students can earn up to 3 credit hours of experiential education credit per semester, and 6 credit hours total, which count toward their degree requirements for graduation. A student may not earn B&E 396 academic credit for the same internship experience more than one semester. This course must be taken pass/fail.

**B&E 397 FULL-TIME INTERNSHIP SEMINAR. (1)**

B&E 397 is an on-line seminar course taken by Gatton College business majors in conjunction with any credit-bearing, full-time internship experience during the spring or fall semester. Enrollment in this course constitutes full-time student status. Students work the required hours at the internship site (see Graham Office Internship Guidelines and the Graham Office Pre-Internship Checklist for details) and participate in this four session seminar course. The seminar serves as a means to provide the academic and career development supervision, supplementing the site supervisor's role in monitoring the progress of each intern. The course is designed to provide web-based discussion that provides an opportunity for students to process their internship experience and how it relates to their career goals. The seminar content focuses on professional and career development topics, such as business etiquette, navigating corporate culture, and building a professional network. Seminar content also includes academic major discipline-specific material and applications. By completing this course, students will benefit from a well-rounded professional work experience that is supported by academic and career development resources. Gatton students can earn up to 3 credit hours of experiential education credit per semester, and 6 credit hours total, which count toward their degree requirements for graduation. A student may not earn B&E 397 academic credit for the same internship experience more than one semester. This course must be taken pass/fail.

## Course Descriptions

### #B&E 650 GRADUATE LEVEL EXPERIENTIAL EDUCATION I. (1-3)

An academic internship is a supervised career related work experience that allows graduate students to apply classroom learning to real-world situations. Internships offer students an opportunity to set learning goals, obtain valuable professional-level experience, and reflect on what they learned from the experience. Prereq: Approval from the Gatton Career Center and MBA Center.

### #B&E 651 GRADUATE LEVEL EXPERIENTIAL EDUCATION II. (1-3)

An academic internship is a supervised career related work experience that allows students to apply classroom learning to real-world situations. Internships offer students an opportunity to set learning goals, obtain valuable professional-level experience, and reflect on what they learned from the experience. B&E 651 is designed as the second term of an internship or externship experience. Prereq: B&E 650 and approval from the Gatton Career Center and MBA Center.

---

## BA Business Administration

---

### BA 700 TEACHING METHODS IN BUSINESS. (1)

A three part course that examines what constitutes good teaching and explores effective techniques for college instruction. Seminars emphasize practical information for both the principal activities and the details of teaching. Departmental discussions allow students to discuss issues that arise in their teaching practice. Reviews of classroom performance provide professional feedback in order to enhance on-the-job learning. Seminar, two hours per week. Prereq: Approval of Director of Graduate Studies. (Same as ECO 700.)

### BA 749 DISSERTATION RESEARCH. (0)

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

### BA 762 RESEARCH METHODOLOGY. (3)

Examines fundamental concepts in design, control, and measurement for social science research with emphasis on: reliability, internal and external validity, and causality. Prereq: Admission to DBA program and prior completion of or concurrent enrollment in a graduate level course on the general linear model.

### BA 767 DISSERTATION RESIDENCY CREDIT. (2)

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

### BA 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)

May be repeated to a maximum of 12 hours.

### BA 769 RESIDENCE CREDIT FOR THE DOCTOR'S DEGREE. (0-12)

May be repeated indefinitely.

---

## BAE Biosystems and Agricultural Engineering

---

### BAE 102 INTRODUCTION TO BIOSYSTEMS ENGINEERING. (1)

An introduction to the engineering of food and fiber production and processing systems. Professionalism and the engineering approach will be emphasized.

### BAE 103 ENERGY IN BIOLOGICAL SYSTEMS. (2)

This course introduces the concepts of energy transport in biological systems including the study of thermodynamics, heat transfer, psychometrics, and fluid flow. BAE 102 and prereq or concur: MA 113, or consent of instructor.

### BAE 200 PRINCIPLES OF BIOSYSTEMS ENGINEERING. (3)

The engineering problem solving approach will be practiced to analyze biological systems and to demonstrate the application of mathematical and scientific principles to engineering design. Prereq: MA 113, and concurrent with, PHY 231, CHE 105, EGR 103.

### BAE 202 STATISTICAL INFERENCES FOR BIOSYSTEMS ENGINEERING. (3)

Introduction to statistics and statistical inference reasoning. Evaluation of common claims based on statistical constructs, hypothesis tests, margins of error, confidence intervals, and analysis of variation. Identification of possible statistical obstacles, such as confounding, missing data, and inappropriate randomness. Conceptual statistics will be emphasized. Special attention will be given to include biosystems engineering problems. Prereq: MA 114.

### BAE 301 ECONOMIC ANALYSIS OF BIOSYSTEMS. (2)

The financial and managerial aspects of biosystems in evaluating design alternatives. Typical topics included are: concepts of present and future value, techniques of managerial economics, and biosystem design analysis in the evaluation of alternatives. Retirement/replacement policies and risk analysis. Prereq: BAE 202.

### BAE 305 DC CIRCUITS AND MICROELECTRONICS. (3)

An introduction to the use of digital electronics and integrated circuits in solving biosystems engineering problems. Digital circuits, microprocessor concepts, computer interfacing, transducers, signal conditioning and control applications are discussed. Lecture, two hours; laboratory, two hours per week. Prereq: EGR 102 and EE 305.

### BAE 310 HEAT AND MASS TRANSFER IN BIOSYSTEMS ENGINEERING. (3)

Fundamental principles of steady state and transient heat and mass transfer in biosystems engineering. Heat transfer will include conduction, convection, and radiation. Mass transfer will include liquid-gas, solid-gas, and solid-liquid equilibrium scenarios, as well as convective, diffusive, and osmotic mass transfer. Governing equations and boundary conditions for both heat and mass transfer will be included with special attention to industrial, biological, and bioenvironmental problems. Prereq: MA 214 and ME 220; concurrently CE 341.

### BAE 395 INDEPENDENT RESEARCH IN BIOSYSTEMS ENGINEERING. (1-3)

Individual research on a selected problem in the field of biosystems engineering. May be repeated for a maximum of 6 credits. Prereq: Engineering standing and consent of instructor.

### BAE 400 SENIOR SEMINAR. (1)

A course for senior students in biosystems engineering with emphasis on oral communications skills. Students will do literature searches on topics related to the biosystems engineering profession and present oral and written reports. Prereq or concur with BAE 402.

### BAE 402 BIOSYSTEMS ENGINEERING DESIGN I. (2)

A design course for seniors in BAE requiring students to solve open-ended problems. Students will use previously learned engineering principles to produce actual designs which will be built and analyzed in BAE 403. Prereq: BIO 148, BIO 152, ME 330 or CE 341; EM 302; concurrently with EM 313 and ME 325.

### BAE 403 BIOSYSTEMS ENGINEERING DESIGN II. (2)

Student design teams evaluate and enhance design solutions, fabricate prototypes, execute performance tests, analyze results, and develop final design specifications. Oral and written reports are required. Prereq: BAE 402; EM 313; ME 325.

### BAE 417 DESIGN OF MACHINE SYSTEMS. (3)

A study of the operational characteristics and design features associated with production and processing equipment for food and fiber products and an introduction to conceptualization, analysis and design of these systems. Lecture, two hours; laboratory, two hours per week. Prereq: ME 330 or CE 341, EM 302; prereq or concur: EM 313.

### BAE 427 STRUCTURES AND ENVIRONMENT ENGINEERING. (3)

This course teaches load estimate for light timber and concrete structures and introduces the design of heating, cooling, and ventilation systems in these structures. Prereq: CE 341 or ME 330; BIO 148 and 152; prereq or concur: EM 313.

### BAE 435G WASTE MANAGEMENT FOR BIOSYSTEMS. (3)

A study of the characteristics; treatment and utilization principles; and analysis and design of systems for managing waste from the production and processing of food and fiber. Lecture, two hours; laboratory, three hours per week. Prereq: MA 214; BIO 152.

### BAE 437 LAND AND WATER RESOURCES ENGINEERING. (3)

The hydrologic cycle is studied and design procedures are developed for flood control structures, water table management, wetlands, irrigation, and erosion control systems. Prereq: CE 341 or ME 330; BIO 148 and BIO 152.

### †BAE 438G FUNDAMENTALS OF GROUNDWATER HYDROLOGY.

### BAE 447 BIOPROCESS ENGINEERING FUNDAMENTALS. (3)

Design principles and equipment selection for the most common processing operations are studied for the manufacturing and preservation of biological materials. Topics will include the design of fluid flow systems, transient heat transfer, heat exchangers, psychometrics, and refrigeration. Prereq: BIO 148 and BIO 152; prereq or concur with ME 325.

### BAE 450 SPECIAL PROBLEMS. (1-3)

An intensive study of some phases of biosystems engineering in which the student is particularly interested. Approval of instructor is required. May be repeated to a maximum of six credits. Prereq: Approval of the instructor.

### BAE 502 MODELING OF BIOLOGICAL SYSTEMS. (3)

This course will introduce students to mathematical modeling of biological systems, both from a conceptual and methodological perspective. The art and science of developing a computer simulation model will be presented and supported by examples/exercises in MATLAB. Prereq: BAE 402.

### BAE 503 FUNDAMENTALS OF BIORENEWABLE RESOURCE ENGINEERING. (3)

This course introduces students to the science and engineering of converting biorenewable resources into bioenergy and biobased products. Topics include: Defining the resource base; physical and chemical properties of biorenewable resources; description of biobased products; methods of production for biorenewable resources.

**BAE 504 BIOFUELS PRODUCTION AND PROPERTIES. (3)**

This course introduces students to the science and engineering of liquid biofuels for transportation. Topics include: physical and chemical properties; engine performance; processing technologies; and environmental impact of biofuels. Prereq: BAE 503 or consent of instructor.

**BAE 505 THERMOCHEMICAL PROCESSING OF BIOMASS. (3)**

Introduction to thermal and catalytic processes for the conversion of biomass to biofuels and other biobased products. Topics include gasification, fast pyrolysis, hydrothermal processing, syngas to synfuels, and bio-oil upgrading. Prereq: BAE 503, BAE 504, or consent of instructor.

**BAE 506 LIFE CYCLE ASSESSMENTS FOR BIORESOURCE ENGINEERING. (3)**

Life Cycle Assessment (LCA) is a method in which the energy and raw material consumption, different types of emissions and other important factors related to a specific production or service are measured, analyzed and summarized over the entire life cycle. This course will cover the theory, practice and application of Life Cycle Assessment. Life Cycle Assessment is one tool in a large tool box of methods, such as Life Cycle Costing (LCC), Substance Flow Analysis (SFA), and Risk Assessment (RA), used to evaluate goods, services and systems. Prereq: Senior or graduate student standing.

**BAE 514 COMPONENT DESIGN. (3)**

This course is intended to give students practical experience in the design and analysis of components used in agricultural machinery. Major topics include material properties, stress/strain analysis, failure theory, and mechanical components. Students will learn how to use computer software to conduct simulations and design components. Rapid prototyping and traditional fabrication techniques will be explored. Prereq: EM 302; ME 205 or CE 106.

**BAE 515 FLUID POWER SYSTEMS. (3)**

Analysis and design of fluid power systems used in agricultural, industrial and processing equipment. Selected topics to include: positive displacement components, control devices, actuators, fluid transmission and system dynamics. Lecture, two hours; laboratory, two hours per week. Prereq: ME 330, ME 340 and engineering standing.

**BAE 516 CONTROL OF OFF-ROAD VEHICLES. (3)**

This course is intended to give students practical experience in the design and analysis of control and communication systems used in off-road vehicles. Additional emphasis will be placed on implementing simple feedback control methods using an industrial embedded controller. Prereq: BAE 305.

**BAE 517 OFF-ROAD VEHICLE DESIGN. (3)**

Morphology, operational characteristics, and design considerations of off-road vehicles used in agriculture, forestry and construction. This course provides an introduction to conceptualization, analysis and design of these vehicles. Topics to be addressed include: engine performance and design, vehicle testing, turbo chargers and intercoolers, drivetrains, chassis mechanics, electronic systems, hydraulic systems, and human factors. Prereq: BAE 417.

**BAE 532 INTRODUCTION TO STREAM RESTORATION. (3)**

Introduction to principles of fluvial geomorphology for application in restoring impaired streams. Topics include channel formation processes (hydrology/hydraulics), stream assessment, sediment transport, in-stream structures, erosion control, habitat, and monitoring. Prereq: CE 341 (or equivalent) and engineering standing or consent of instructor. (Same as CE 542.)

**BAE 535 ENVIRONMENTAL CONTROL SYSTEM DESIGN AND RECLAMATION. (3)**

Introduction to the principles of sustainable mine planning with a focus on environmental control system design, reclamation and restoration design, and environmental monitoring systems. Topics will include culvert and diversion design, hydrologic inputs, catchment delineation and routing, sedimentologic inputs, erosion control and best management practice selection, sediment pond design, design of silt fences, grass filters, and sediment ditches, weep berm and vegetated filter strip design, reforestation, grassland/wildlife establishment, stream restoration, wetlands/vernal ponds, environmental monitoring system design, and community integration. Prereq: MNG 291, MNG 463, and engineering standing or consent of instructor. (Same as MNG 535.)

**BAE 536 FLUVIAL HYDRAULICS. (3)**

Rainfall physics, principles of erosion on upland areas and construction sites, stable channel design in alluvial material, mechanics of sediment transport, river mechanics, reservoir sedimentation. Prereq: CE 341 or ME 330 and engineering standing. (Same as CE 546.)

**BAE 537 IRRIGATION AND DRAINAGE ENGINEERING. (3)**

Planning and design of irrigation system; sprinkler, traveling gun, center pivot, trickle, subirrigation and residential and commercial irrigating; pumps; water quality treatment and supply; ponds and wells; principles of water movement and plant-soil relationships; surface and subsurface drainage. Prereq: ME 330 or CE 341 or consent of instructor.

**BAE 538 GIS APPLICATIONS FOR WATER RESOURCES. (3)**

This course studies the principles, methodology and analysis of geographic information systems and spatially-referenced data unique to water resources and hydrologic modeling. Lectures will explore the latest GIS concepts, hydrologic modeling relationships and data sources and be complimented with computer-based laboratory exercises. Prereq: BAE 437, CE 461G, or consent of instructor. (Same as CE 568.)

**BAE 541 INTERMEDIATE FLUID MECHANICS. (3)**

Application of basic fluid mechanics to problems of importance to civil engineering practice. This includes flow measuring, closed conduit flow and pipe networks, open channel flow, turbomachinery (pumps), hydraulic structures, culvert flow. Prereq: CE 341, CS programming course, and engineering standing or consent of instructor. (Same as CE 541.)

**#BAE 542 BIOFUELS AND BIOPRODUCTS. (3)**

This course explores the history and current status of biofuels and bioproducts development, the policy drivers and stakeholders, current industrial players, mainstream processing technologies, and current and future research themes. Expanding the technical aspects, this course will cover biochemical conversion techniques for producing bioethanol, biobutanol, biodiesel, biogas, and other advanced biofuels/bioproducts and thermochemical conversion techniques towards syngas, bio-oil, and biochar. Prereq: Engineering standing or consent of instructor.

**BAE 543 SOLAR CELL DEVICES AND SYSTEMS FOR ELECTRICAL ENERGY GENERATION. (3)**

Physics of photovoltaic (PV) devices, emerging technologies, design of PV cells and systems, electronic components for signal conditioning, integration, installation, performance evaluation and economic issues related to PV systems. Prereq: EE 211 or EE 305 and Engineering Standing, or consent of instructor. (Same as EE 543/EGR 543.)

**BAE 545 ENGINEERING HYDRAULICS. (3)**

Analysis and Design of flow in closed conduits and natural and artificial open channels. Design of hydraulic structures. Prereq: CE 461G and engineering standing, or consent of instructor. (Same as CE 549.)

**BAE 547 WATERSHED SEDIMENTATION. (3)**

The course objective is to gain an understanding of watershed sedimentation including: (1) erosion and sediment transport processes in a watershed and the mechanisms by which the processes are initiated, developed, and worked towards equilibrium; (2) measurement of the sediment budget for a watershed using sediment fingerprinting and sediment loading data; and (3) prediction of sediment loading in watersheds with different human disturbances using hydrologic-based modeling tools. Specific emphasis will be placed on the use of natural carbon and nitrogen isotopic tracer measurements within sediment fingerprinting as a data-driven approach to measure sediment loading from different sources in a watershed. In order to fulfill the course objective, the instructor will use traditional classroom learning as well as field and laboratory components of the course in order that students can participate in hands-on learning. Prereq: CE 461G (Pre- or Co-requisite or equivalent). (Same as CE 547.)

**BAE 549 BIOLOGICAL PROCESS ENGINEERING. (3)**

An analysis of processing operations for the conversion or generation of biological materials. The course material applies thermodynamics, heat transfer, mass and energy balances, and reaction kinetics to biological process operations such as sterilization, fermentation, product recovery, freezing, drying, evaporation, and refrigeration. Applications include biomedical, food processing, and biochemical and biofuel production from biomass. Prereq: BAE 447 or consent of instructor.

**BAE 556 SOLID AND HAZARDOUS WASTE MANAGEMENT. (3)**

Study of the generation and management of solid and hazardous wastes. Application of engineering principles to the collection, transport, processing, resource recovery and ultimate disposal of these wastes. Prereq: CE 471G, CE 521 or consent of instructor and engineering standing. (Same as CE 556.)

**BAE 580 HEATING, VENTILATING AND AIR CONDITIONING. (3)**

A course emphasizing the use of thermodynamics, fluid mechanics, and heat transfer principles in thermal environmental design. Building energy requirements will be computed and thermal comfort criteria will be studied. Prereq: BAE 427 or ME 321, or consent of instructor. This course is open only to graduate students or undergraduates with engineering standing. (Same as ME 580.)

**BAE 581 PHYSICS OF PLANT AND ANIMAL ENVIRONMENTS. (3)**

A study of the thermal, moisture, light, and gaseous components of plant and animal environments with emphasis on interactions between these biological systems and their environments. Prereq: BAE 427 or consent of instructor.

**#BAE 583 INDUSTRIAL ENERGY UTILIZATION AND ASSESSMENT. (3)**

This course considers energy use in industrial settings – including energy flows and energy transformations. Students will learn methodologies for assessing, analyzing, and reducing energy use and cost in industrial facilities and auxiliary equipment. The content presented in this course is intended to be consistent with the US Department of Energy Industrial Assessment Center program methods. Students will learn how to perform energy assessments in real engineering settings. Prereq: Engineering standing or consent of instructor. (Same as EE 583/EGR 583/ME 583/MFS 583.)

**BAE 599 TOPICS IN BIOSYSTEMS ENGINEERING. (2-3)**

A detailed investigation of a topic of current significance in biosystems engineering such as: design of small earth dams, vacuum dehydration systems, small particle mechanics, biofuels, environmental control in green houses, sprinkler irrigation, energy conversion in agriculture, bio-simulation. May be repeated to a maximum of six credits, but only three credits can be earned under the same title. A particular topic may be offered at most twice under the BAE 599 number. Prereq: Variable; given when topic identified.

**BAE 625 TOPICS IN ADVANCED ENVIRONMENT**

**CONTROL AND ANALYSIS (Subtitle required). (3)**

A study of current research in environment control and analysis of agricultural, commercial and residential structures. May be repeated three times for a maximum of nine credits, but not more than three credits may be earned under a particular topic. Prereq: Senior course in environment control and HVAC, BAE/ME 580, or consent of instructor.

**BAE 642 OPEN CHANNEL FLOW. (3)**

The study of open channel flow fundamentals and concepts. Topics include uniform flow, varied flow, steady and unsteady flow, energy dissipators, flow transitions, controls, analytical and numerical solutions in 1D and 2D applications. Prereq: CE 541 or consent of instructor. (Same as CE 642.)

**BAE 643 MECHANICS OF SEDIMENT TRANSPORT. (3)**

Fundamentals of turbulence in rivers and sediment transport will be taught including recent theory, derivation of governing equations, experimental methods, modeling, and design based on sediment thresholds. Prereq: CE 341 or consent of instructor. (Same as CE 643.)

**BAE 647 SYSTEM OPTIMIZATION I. (3)**

Introduction to linear and nonlinear optimization and their use in engineering design. Emphasis on numerical approaches and use of optimization methods for engineering systems (e.g. biological, mechanical, structural). Prereq: CS 221 or equivalent; one mathematics course beyond MA 214 or equivalent. (Same as ME 647.)

**BAE 648 ENERGY AND MASS TRANSFER IN BIOSYSTEMS PROCESSING. (3)**

A comprehensive and in-depth study of the principles of energy and mass transfer as they apply to the processing of agricultural and biological materials. Prereq: BAE 549 or consent of instructor.

**BAE 652 BIOLOGICAL PROCESSES FOR WATER QUALITY CONTROL. (3)**

Principles and applications of environmental biotechnology for water quality control. Process microbiology and kinetics for various water and wastewater treatment processes. Prereq: CE 351 or consent of instructor. (Same as CE 652.)

**BAE 653 WATER QUALITY IN SURFACE WATERS. (3)**

Principles of surface water quality modeling and control. Analysis of dispersion, advection, natural aeration, biological oxidation and photosynthesis; their effects on the physical, chemical, and biological quality of waters in streams, lakes, reservoirs, estuaries and other surface waters. Prereq: CE 351 or consent of instructor. (Same as CE 653.)

**BAE 658 INSTRUMENTATION FOR ENGINEERING RESEARCH. (3)**

Instrumentation and measuring system characteristics; transducers for engineering measurements; and data acquisition and analysis. Lecture, two hours; laboratory, two hours per week. Prereq: Consent of instructor.

† **BAE 660 SIMILITUDE IN ENGINEERING.**

**BAE 662 STOCHASTIC HYDROLOGY. (3)**

Hydrologic random variables and probability distributions. Statistical measures, development and use of Monte Carlo simulations in the generation of precipitation fields. Statistical tests of hydrologic data. Point frequency and regional frequency analysis. Analysis of hydrologic time series. Long-term trend, harmonic analysis of periodicity, autocorrelation, spectral analysis. Correlation and regression analysis. Linear stochastic models. Introduction to stochastic processes in hydrology, real-time hydrologic forecast (Kalman filter), pattern recognition, and stochastic differential equations. Prereq: MA 214, CE 461G or equivalent. (Same as CE 662.)

**BAE 664 WATERSHED MANAGEMENT. (3)**

This course provides an overview of the scientific principles and management strategies used to effectively manage the physical, chemical, biological and social resources within a watershed so as to improve and sustain the integrity of the watershed system. The course will examine watershed management from both a scientific/engineering perspective as well as from a social science/policy perspective. Examples of effective watershed management will be drawn from cases studies in Kentucky and the United States. Students will be provided with an introduction to those spatial data sets, computer software, and methods currently used in watershed management practice. Prereq: BAE 437 or CE 461G or an equivalent course in hydrology, or consent of instructor. (Same as CE 664.)

**BAE 665 WATER RESOURCES SYSTEMS. (3)**

Application of systems analysis, mathematic modeling, and optimization in water resources management and design. Solution of engineering problems found in water supply, water quality, urban drainage, and river basin development and management by use of linear, nonlinear, and dynamic programming models. Prereq: Consent of instructor. (Same as CE 665.)

**BAE 667 STORMWATER MODELING. (3)**

Introduction to deterministic and parametric modeling approaches for mathematically simulating stormwater runoff and quality. Emphasis on modeling concepts and model formulation. Analysis of deterministic component models and their linkage. Formulation of existing parametric models. Presentation of methods for parameter optimization and regionalization. Demonstration of linkage between the two approaches with illustrative examples. Prereq: CE 341 and CE 461G, or consent of instructor. (Same as CE 667.)

**BAE 672 LANDFILL DESIGN. (3)**

This course deals with the geotechnical aspects of the design of landfills for the disposal of municipal solid waste. Since landfill design is driven by state and federal regulations, time is taken to review these regulations. Landfills are evaluated as engineered systems consisting of multiple components. Each component is investigated individually, and methods are developed to predict and quantify the performance of these components so that appropriate materials, design criteria, and construction methods can be selected to assure that the landfill will function with minimal environmental impact. Prereq: CE 471G. (Same as CE 672.)

**BAE 680 BIOCHEMICAL ENGINEERING. (3)**

Principles and design of processes involving biochemical reactions, including aerobic and anaerobic respirations and fermentations, and involving pure and mixed cultures. Energy considerations, heat and mass transfer, biochemical kinetics, and application to biological waste treatment. Prereq: CME 550, CME 630, CHE 440G or consent of instructor. (Same as CME 680.)

**BAE 748 MASTER'S THESIS RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

**BAE 749 DISSERTATION RESEARCH. (0)**

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

**BAE 750 SPECIAL PROBLEMS IN BIOSYSTEMS ENGINEERING. (1-3)**

Independent work on selected research problems in one of the various fields of biosystems and agricultural engineering. Consultation and laboratory by appointment. May be repeated three times for a maximum of nine credits. Prereq: Approval of chairperson of department.

**BAE 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

**BAE 768 RESIDENCE CREDIT FOR MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours.

**BAE 769 RESIDENCE CREDIT FOR DOCTOR'S DEGREE. (0-12)**

May be repeated indefinitely.

**BAE 775 PROFESSIONAL PRACTICES SEMINAR. (2)**

Review of current research topics, methods, management tools and communications techniques with applications. Required of all departmental graduate students. May be repeated once for credit. Lecture, two hours per week. Prereq: Graduate standing.

**BAE 795 THESIS. (0)**

May be repeated twice.

**BCH Biochemistry**

**BCH 395 INDEPENDENT WORK IN BIOCHEMISTRY. (3-12)**

Students will carry out a laboratory research project and related reference reading. Laboratory: 9-36 hours per week. May be repeated to a maximum of 12 credits. Prereq: Permission of instructor.

**BCH 401G FUNDAMENTALS OF BIOCHEMISTRY. (3)**

Descriptive chemistry of amino acids and proteins, carbohydrates, lipids, and nucleic acids. Discussion of structure and function; metabolism and bioenergetics; and biological information flow. At the undergraduate level, understanding is demonstrated through hour examinations; at the graduate level, understanding is demonstrated through hour examinations and a brief paper. Lecture, three hours; one optional conference. Prereq: CHE 107, CHE 236 and BIO 152 or equivalent.

**BCH 419G MOLECULAR BASIS OF HUMAN DISEASE. (3)**

The goal of this course is to provide students with an understanding of the defining characteristics of the major human diseases, the molecular mechanisms responsible for causing these diseases, and some of the molecular technologies used to diagnose and treat them. Prereq: BCH 401G.

**BCH 517 EXPERIMENTAL METHODS IN BIOCHEMISTRY. (4)**

A laboratory course dealing with the instrumentation and procedures of biochemical research. Because many of the materials used are labile, the course is given in a block during a four-week period at the end of the spring semester. Five days per week during four-week intersession, or summer session. Prereq: BCH 401G, 502 or 811 and consent of instructor.

**BCH 556 PRINCIPLES OF DRUG DESIGN. (3)**

Introduction to medicinal chemistry will be explored through rational biochemical and physical organic chemical approaches to drug design, action and development. Structural features, physical properties, mechanism of action and metabolism of drug like molecules, forces that govern interaction of drug-like molecules with their targets, enzyme mechanisms and inhibition and xenobiotic metabolism will be illustrated with specific examples showing how drugs function at the molecular level. Prereq: CHE 230, CHE 232, BIO 148, BIO 152. (Same as PHS 556.)

**BCH 601 SPECIAL TOPICS IN MOLECULAR AND CELLULAR GENETICS.**

(1)

Each semester five distinguished scientists visit the UK campus to deliver a series of three formal lectures each and participate in numerous informal contacts with graduate students. The emphasis is on the presentation of the most current advances (often unpublished) in selected topics in molecular and cellular genetics. May be repeated to a maximum of six credits. (Same as BIO/MI/PLS/PPA 601.)

**BCH 604 STRUCTURAL BIOLOGY.**

(3)

An advanced course on the structure and function of proteins and nucleic acids. Topics include: the physical determinants of protein structure, classification of protein architecture, protein-nucleic acid and protein-protein interactions, sequence dependence of nucleic acid structure, ribozymes, dynamics and evolutionary relationships. Prereq: IBS 601-602/BCH 607-608 or equivalent.

**BCH 607 BIOMOLECULES AND METABOLISM.**

(3)

An introductory graduate-level biochemistry course designed to provide a basic knowledge of molecular and biochemical principles necessary for advanced graduate study. Protein structure and function, enzyme catalysis, the generation and storage of metabolic energy, amino acid, nucleotide, and lipid metabolism and biological membranes and transport will be covered. Prereq: CHE 105, 107, 230 and 232; BIO 150 and 152; or equivalents. (Same as IBS 601.)

**BCH 608 BIOMOLECULES AND MOLECULAR BIOLOGY.**

(3)

An introductory graduate-level biochemistry course focused on the cellular mechanisms that underlie the regulated expression of genes, including transcription and translation, as well as basic mechanisms of DNA replication/repair and recombination. Genetic engineering and other experimental approaches critical to molecular biology research will be reviewed. Prereq: CHE 105, 107, 230 and 232; BIO 150 and 152; or equivalents.

**BCH 609 PLANT BIOCHEMISTRY.**

(3)

The course will consider the chemical constituents of plants (with emphasis on biologically or nutritionally significant compounds unique to plants), their biosynthesis, contribution to key metabolic and defense processes and the regulation of their synthesis. Included will be discussions of photosynthesis, carbohydrates, lipids, isoprenoids and phenylpropanoids, nitrogen fixation, nitrogen and sulfur reduction and assimilation, alkaloids and additional secondary compounds, frontiers in plant biochemistry. Prereq: BCH 607 or equivalent or consent of instructor. (Same as PLS/PPA 609.)

**\*BCH 610 CELLULAR AND MOLECULAR BIOLOGY OF BIOMEMBRANES.**

(3)

A lecture and seminar course that discusses primary literature focused on the structures, assembly, and functions of biologically important membranes. Prereq: CHE 232; CHE 442G; BCH 401G, 811, or IBS 601.

**BCH 611 BIOCHEMISTRY AND CELL BIOLOGY OF NUCLEIC ACIDS.**

(3)

A lecture and seminar course devoted to a study of the principles of nucleic acid chemistry and to the role of nucleic acids in cellular function. Prereq: BCH 401G, 502 or 811.

**BCH 612 STRUCTURE AND FUNCTION OF PROTEINS AND ENZYMES.**

(3)

Primarily a lecture course devoted to the relationship of the structure of protein molecules to their biological roles. Proteins will be discussed in terms of their size, shape, conformation, primary structure, catalytic mechanism and regulatory properties. Prereq: BCH 401G, 502 or 811; CHE 444G or consent of instructor. May be taken concurrently with BCH 502.

**BCH 615 MOLECULAR BIOLOGY.**

(3)

This course will develop the student's ability to critically read and evaluate the primary literature in selected areas of molecular biology; various experimental systems and techniques are discussed. While there is some lecture, the time will be predominantly spent in class discussions of the primary literature. Prereq: An advanced course in molecular biology and genetics (e.g. IBS 602) or consent of instructor. (Same as BIO/MI 615.)

**BCH 618 SEMINAR IN BIOCHEMISTRY.**

(1)

A weekly seminar, required of all students majoring in biochemistry, devoted to discussions of areas not covered in other courses and to recent developments in the field. May be repeated to a maximum of five credits.

**BCH 619 SEMINAR IN BIOCHEMISTRY.**

(1)

A weekly seminar, required of all students majoring in biochemistry, devoted to discussions of areas not covered in other courses and to recent developments in the field. May be repeated to a maximum of five credits.

**BCH 620 BIOSYNTHESIS OF NATURAL PRODUCTS.**

(3)

An overview of the biochemical pathways leading to compounds called natural products/secondary metabolites. Prereq: Two semesters of organic chemistry. (Same as PHR 620/PLS 642.)

**BCH 625 SCIENTIFIC COMMUNICATIONS.**

(2)

To be useful, scientific research needs to be explained clearly to others – to colleagues, to administrators, to foundations and governmental bodies, and to the public. This course will give students the tools to effectively present their data, their ideas, and themselves to the scientific community. Through a series of directed exercises the students will learn how to write an abstract, a scientific paper, and a grant, and to prepare a poster and to give an oral presentation. The class will draw examples, topics, and exercises from current literature. Prereq: Good standing in a graduate program in the physical, chemical or biomedical sciences.

**BCH 640 RESEARCH IN BIOCHEMISTRY.**

(1-9)

Prereq: Consent of instructor.

**BCH 748 MASTER'S THESIS RESEARCH.**

(0)

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

**BCH 749 DISSERTATION RESEARCH.**

(0)

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

**BCH 767 DISSERTATION RESIDENCY CREDIT.**

(2)

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

**BCH 768 RESIDENCE CREDIT FOR MASTER'S DEGREE.**

(1-6)

May be repeated to a maximum of 12 hours.

**BCH 769 RESIDENCE CREDIT FOR THE DOCTOR'S DEGREE.**

(0-12)

May be repeated indefinitely.

**BCH 779 MEMBRANE SCIENCES COLLOQUIUM.**

(1)

Outstanding membrane scientists present their current research on biological and/or synthetic membranes. Students read a pertinent paper by the speaker prior to his/her talk and write a short paper on the talk; especially important is relevance of the main points of the talk to membrane science in general and the student's own research in particular. May be repeated to a maximum of six credits. (Same as CHE/CME/PHA/PHR 779.)

**BCH 780 TOPICS IN BIOCHEMISTRY.**

(1-3)

A lecture and seminar course offered on topics of special interest to graduate students. May be repeated to a maximum of six credits.

**BCH 812 DENTAL BIOCHEMISTRY.**

(6)

This is a comprehensive course in biochemistry designed to fulfill the specific needs of student dentists. Course content is generally as outlined in the American Association of Dental Schools suggested curriculum guidelines for biochemistry. Part I acquaints students with the chemical constituents of prokaryotic and eukaryotic cells; topics include the chemistry of lipids, carbohydrates, proteins, vitamins and coenzymes, and the nature of enzyme action. Part II integrates the chemical principles learned from Part I with concepts of cell dynamics, structure, function, subcellular organization, and metabolism. Topics include intermediary metabolism, bioenergetics, DNA replication, protein synthesis, and cellular regulatory and control mechanisms. Course content, where possible, is related to current concepts concerning the etiology of oral diseases, their treatment, and prevention to assist student dentists in attaining institutional goals and objectives for clinical competency. Prereq: Admission into the College of Dentistry and/or consent of course director. (Same as OBI 812.)

**BCH 815 FIRST-YEAR ELECTIVE, BIOCHEMISTRY.**

(1-3)

With the advice and approval of his or her faculty adviser, the first-year student may choose approved electives offered by the Department of Biochemistry. The intent is to provide the student an opportunity for exploration and study in an area which supplements and/or complements required course work in the first-year curriculum. Pass-fail only. Prereq: Admission to first year, College of Medicine.

**BCH 819 CELLULAR STRUCTURE AND FUNCTION/BIOCHEMISTRY.**

(7)

The course combines lecture, small group activities, clinical correlations, problem-based learning, and problem-solving sessions in providing an understanding of the relationship of biochemical principles to human health and disease. Close integration with genetics topics provides a better picture of how biochemistry, molecular biology and genetics contribute to normal human development and medicine. Lecture, 20 hours per week. Prereq: Admission to Medical School (first year).

**BCH 825 SECOND-YEAR ELECTIVE, BIOCHEMISTRY.**

(1-4)

With the advice and approval of his or her faculty adviser, the second-year student may choose approved electives offered by the Department of Biochemistry. The intent is to provide the student with an opportunity for exploration and study in an area which supplements and/or complements required course work in the second-year curriculum. Pass/Fail only. Prereq: Admission to second year medical curriculum and approval of advisor.

**BCH 850-899 FOURTH-YEAR ELECTIVE FOR MEDICAL STUDENTS.**

(1-6)

With the advice and approval of the faculty adviser and the Student Progress and Promotions Committee, the fourth-year student may choose approved electives offered by the various departments in the College of Medicine. The intent is to provide the student an opportunity to develop his fund of knowledge and clinical competence. Prereq: Admission to the fourth year, College of Medicine and/or permission of the Student Progress and Promotions Committee.

**Approved elective:****BCH 850 ELECTIVE: RESEARCH IN BIOCHEMISTRY**

## BIO Biology

### BIO 101 WAYS OF DOING BIOLOGY. (1)

Through a series of lectures and discussions students will gain a better understanding of the various academic programs in the life sciences across campus. Information will also be provided about research opportunities and career possibilities. Pass/fail only. Enrollment limited to freshmen and sophomore science majors.

### BIO 102 HUMAN ECOLOGY. (3)

A study of the interrelationships of man, populations, space, energy, food, mineral resources and other life on earth. Not for life science majors.

### BIO 103 BASIC IDEAS OF BIOLOGY. (3)

Introductory biology. Discussion topics are those relevant to both plants and animals - cell structure and function, molecules important to living things, metabolism, heredity, environment. Not for life science majors.

### BIO 111 GENERAL BIOLOGY LABORATORY. (1)

Laboratory studies in the structure and function of cells, plants, and animals; ecology; heredity; and evolution. Prereq or coreq: BIO 103 or consent of instructor.

### BIO 148 INTRODUCTORY BIOLOGY I. (3)

BIO 148 introduces the student to the biological mechanisms operating at the molecular, cellular, and population level that contribute to the origin, maintenance, and evolution of biodiversity including the origins and history of the evolutionary process. Course material is presented within a phylogenetic context, emphasizing the shared history of all living organisms on earth through common ancestry. The first semester of an integrated one-year sequence (BIO 148 and BIO 152). Prereq: Math ACT of 24 or above or MA 109, and past or concurrent enrollment in CHE 105.

### BIO 152 PRINCIPLES OF BIOLOGY II. (3)

The second semester of an integrated one-year sequence (BIO 148 and 152) that is designed to develop understanding and appreciation for the biocomplexity of multicellular eukaryotes, with emphasis on animals and terrestrial plants. Structure and function relationships will be explored at many levels of organization. Prereq: C or better in BIO 148 or permission of Department.

### BIO 155 LABORATORY FOR INTRODUCTORY BIOLOGY I. (1)

This course is designed to provide a broad introduction into the data, results, and information associated with biological research, and into some of the analytical approaches used to test biological hypotheses. Communication of these aspects of biological research is crucial, and much of this lab course will be focused on the development of effective writing skills for the delivery of this information. Prereq: Math ACT of 23 or above or MA 109, past or concurrent enrollment in CHE 105.

### BIO 180 SPECIAL TOPICS IN BIOLOGY (INTRODUCTORY LEVEL): (Subtitle required). (1-4)

Interdisciplinary, topical or experimental course in introductory biology. Subtitle required. May be repeated for a maximum of 12 credit hours under different subtitles. Lecture and/or laboratory and/or recitation and/or seminar. Prereq: Determined by instructor.

### \*BIO 190 SUPPLEMENTAL BIOLOGY WORKSHOP I. (1)

Cooperative workshop offered only as an optional supplement to certain biology lecture courses. Offered only on a pass/fail basis. Coreq: BIO 148.

### BIO 192 SUPPLEMENTAL BIOLOGY WORKSHOP II. (1)

Cooperative workshop offered only as an optional supplement to certain biology lecture courses. Offered only on a pass/fail basis. Coreq: BIO 152.

### BIO 198 SCHOLARS BIOLOGY RESEARCH. (2)

Biology 198 is one of the Scholars courses for biology majors in the Department of Biology Scholars Program. This course is designed to provide a solid introduction to 21st century bioscience research. Students will learn how to critically read, interpret, understand and discuss original literature. Students will learn how to discuss data and information from the original literature appropriately, develop reasonable hypotheses from current 21st century bioscience problems and provide plausible conclusions and presentations in regard to those problems using original information and data. Lastly, the course is designed to equip students with the necessary skills to participate and succeed in an upper level research experience. The course substitutes for BIO 155 for BIOLOGY majors. Prereq: ACT 30 or Reading/Math SAT of 1320 or Reading/Math SAT 2016 of 1370 or Reading/Math/Writing SAT of 1980, and declared biology major, and a min High School GPA of 3.5.

### BIO 199 RESEARCH EXPERIENCE IN BIOLOGY. (0-1)

Participation in biological research under the direction of a faculty mentor in Biology or a related field. A research contract signed by the student and faculty mentor must be approved by the Director of Undergraduate Studies in Biology. Offered pass/fail only.

### BIO 208 PRINCIPLES OF MICROBIOLOGY. (3)

The course introduces fundamental microbiological principles and techniques. Emphasis is placed on the interactions between humans and microorganisms, especially bacteria and viruses, the use of antimicrobial agents, microbial antibiotic resistance, and the structural, functional, and evolutionary relationships among microorganisms. Prereq: High school chemistry recommended.

### BIO 209 INTRODUCTORY MICROBIOLOGY LABORATORY. (2)

Laboratory exercises in general microbiology. Laboratory, four hours per week. Prereq: One unit of chemistry or consent of instructor; BIO 208 or BIO 308 should be taken concurrently.

### BIO 300 GENERAL ENTOMOLOGY. (3)

Fundamentals of insect biology and relationships among insects, plants, and other organisms; identification of commonly encountered insects. Beneficial and detrimental effects of insects are discussed. Lecture, two hours; laboratory, two hours per week. Prereq: One course in introductory biology. (Same as ENT 300.)

### BIO 302 INTRODUCTION TO NEUROSCIENCE. (3)

This introductory course is designed to provide students with a basic understanding, at the physiological, cellular and molecular levels, of how the nervous system functions to create behavior. It will also introduce students to the consequences of abnormal system functioning brought about by either disease or injury. Prereq: BIO 152 or equivalent or permission of instructor.

### BIO 303 INTRODUCTION TO EVOLUTION. (4)

This course covers topics in evolution, concentrating on the Darwinian theories of evolution including descent with modification, natural selection, and sexual selection. Topics will include: patterns of evolution, the genetic source of variation, measuring evolution, adaptation, speciation, human evolution, "evo-devo", and evolutionary medicine. Taught on campus (lecture: three hours; recitation, three hours) or online. Prereq: BIO 148, BIO 152 and BIO 155 or equivalent.

### BIO 304 PRINCIPLES OF GENETICS. (4)

A study of the physical and chemical aspects of the genetic material and their relationship to the expression and inheritance of the phenotype. Lecture, three hours; laboratory, three hours per week. Prereq: BIO 148, BIO 152, BIO 155, CHE 107, CHE 113.

### \*BIO 305 INTRODUCTION TO NEUROSCIENCE TECHNIQUES. (4)

This introductory lecture/laboratory course will provide students with theoretical and practical knowledge, as well as hands-on experience in basic behavioral, anatomical, and physiological techniques used by laboratory scientists in the investigation of the nervous system. Upon completion, students will be prepared for independent research experiences in working neuroscience laboratories. Prereq: BIO 302 Introduction to Neuroscience or equivalent.

### BIO 308 GENERAL MICROBIOLOGY. (3)

Fundamental concepts of microbiology. The nutrition, physiology, genetics, molecular biology of microorganisms, and their roles in nature and in infection and immunity will be studied. Prereq: BIO 304 or ABT 360 or ENT 360 and CHE 230 or CHE 236.

### BIO 309 MICROBIOLOGY LABORATORY. (2)

This course includes laboratory exercises that are designed to illustrate processes central to microbiology and to familiarize students with basic skills required for working with microorganisms in a safe environment. Students will become familiar with isolating, culturing, and identifying microorganisms, and with molecular techniques used to study and manipulate microbes. Prereq: BIO 304 or ABT 360 or ENT 360 and CHE 230 or CHE 236 or consent of instructor.

### BIO 310 THE LIFE PROCESSES OF PLANTS. (3)

This course is intended to provide a basic understanding of the natural products and processes that shape the nature of modern plants and govern their interactions with the environment. Students will develop a basic understanding of how these plant attributes relate to organismic function. Emphasis will be placed on exploring the nature of the major plant biomes of the Earth, their community dynamics, and how member plants compete for space and other resources. Development of optimal plant strategies for reproductive success, plant interaction with other living systems as well as abiotic factors and their defense from predation and attack will also be considered. Prereq: BIO 152.

### BIO 315 INTRODUCTION TO CELL BIOLOGY. (4)

The structure and function of cells will be considered. Emphasis will be placed on the ultrastructure of cell organelles in plants and animals as a framework for understanding the compartmentalized nature of cell activity. Lecture, three hours; laboratory three hours/weekly. Prereq: BIO 303 and BIO 304. Coreq: CHE 230 or equivalent. Or consent of instructor.

### \*BIO 325 ECOLOGY. (4)

This course introduces the scientific study of relationship between organisms and their environment. The course is structured around levels of organization – from physiological ecology to individuals, populations, communities, ecosystems, landscapes, regions, and the biosphere. Students will be expected to develop a solid knowledge base and understanding of key concepts and issues in contemporary ecology; to become familiar with how ecological understanding is attained by researchers; and to see how ecological knowledge and methods can be used to address important societal problems. Lecture, three hours per week; laboratory, an average of three hours per week. Prereq: BIO 148 and BIO 152, or equivalent introductory biology sequence; and BIO 304 or equivalent genetics course; or consent of instructor.

### BIO 337 MATHEMATICAL MODELING IN THE LIFE SCIENCES. (3)

This course introduces mathematical modeling in biology and other life science disciplines using discrete and continuous tools and techniques, including difference equations and differential equations. Students will learn to construct, analyze, and simulate models and interpret the results within their biological context. Prereq: A grade of B or better in MA 114 (Calculus II) or MA 138 (Calculus II with Life Science Applications) or consent of department. (Same as MA 337.)

**BIO 350 ANIMAL PHYSIOLOGY. (4)**

An introduction to the basic principles of animal physiology. An elementary discussion of the major vertebrate organ systems including nutrition, metabolism, respiration, circulation, excretion, muscle contraction, peripheral and central nervous system, and endocrine function emphasizing homeostasis. Lecture, three hours; laboratory, three hours. Prereq: BIO 148, BIO 152, BIO 155 or BIO 198, CHE 105 (or CHE 109 and CHE 110) and CHE 107 or consent of instructor. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

**BIO 351 PLANT KINGDOM. (3)**

An evolutionary survey of the morphology, taxonomy, life histories and biological relationships of all plant groups comprising the plant kingdom. Lecture, two hours; laboratory, two hours. Prereq: An introductory course in biology.

**BIO 355 BIOLOGY STUDY ABROAD (Subtitle required). (3)**

This course offers students an opportunity to study unique biological communities and to experience living in a foreign culture. Specific content and location varies. May be repeated a maximum of two times under different subtitles. Prereq: Will be set by instructor.

**BIO 361 ECOLOGY OF THE KENTUCKY FLORA AND VEGETATION. (3)**

An overview of the physiography, geology, soils, hydrology, climate (paleo and recent), vegetation (paleo and recent), floras (including floristic relationships), archaeobotany, and agriculture of Kentucky. Lecture, two hours; laboratory, two hours per week. Prereq: One year of introductory Biology or consent of instructor.

**\*BIO 375 BEHAVIORAL ECOLOGY AND SOCIOBIOLOGY. (3)**

This course will explore the selective forces influencing animal behavior, such as foraging, predator avoidance, mate choice, parental care, and social interaction. Specific phenomena to be explored include the evolution of optimal foraging and search images, extravagant male characteristics, female preferences, conflicts between the sexes, infanticide, parent-offspring conflict, dominance hierarchies, optimal group size, altruism, and eusociality. The study of these behaviors integrates ideas and approaches from ecology, genetics, physiology, and psychology. Students will be encouraged to read outside material, to think carefully, logically, and critically about ideas, and to ask questions and defend their views in class. Prereq: A year of introductory biology (BIO 148/152).

**BIO 380 SPECIAL TOPICS IN BIOLOGY (INTERMEDIATE LEVEL) (Subtitle required). (1-4)**

Interdisciplinary, topical or experimental course in intermediate (300-level) biology. Subtitle required. May be repeated for a maximum of 12 credit hours under different subtitles. Lecture and/or laboratory and/or recitation and/or seminar. Prereq: Determined by instructor.

**BIO 394 RESEARCH IN NEUROSCIENCE. (1-3)**

An independent research project in an area of neuroscience under the direction of a faculty mentor. A research contract signed by the student and the faculty research mentor must be approved by the Director of Undergraduate Studies (Neuroscience). May be repeated to a maximum of 12 credits, but a maximum of only 6 credits may be used to satisfy the requirements of the minor or major in Neuroscience. Prereq: BIO 152 and BIO 302 or PSY 312.

**BIO 395 RESEARCH IN BIOLOGY. (1-3)**

An independent research project in an area of biology under the direction of a faculty mentor. The research may be conducted in the Department of Biology or in other biological units on campus. A research contract signed by the student and the faculty research mentor must be approved by the Director of Undergraduate Studies in Biology. May be repeated to a maximum of 12 credits, but a maximum of only 6 credits may be used to satisfy the requirements of a BS or BA in Biology. Prereq: BIO 148, BIO 152 and BIO 155 or equivalent. Completion of at least one of the Biology core courses (Cell Biology, Evolution, Genetics, Physiology, Ecology) is strongly recommended.

**BIO 397 RESEARCH IN MICROBIOLOGY. (1-3)**

An independent research project in an area of microbiology under the direction of a faculty mentor. The research may be conducted in the Department of Biology or in other microbiological units on campus. A research contract signed by the student and the faculty research mentor must be approved by the Director of Undergraduate Studies in Microbiology. Prereq: BIO 308 and BIO 309.

**#BIO 398 RESEARCH AND WRITING IN BIOLOGY. (1-3)**

An independent laboratory research project in an area of biology under the direction of a faculty mentor. The research may be conducted in the Department of Biology or in other biological units on campus. A research contract signed by the student and the faculty research mentor must be approved by the Director of Undergraduate Studies in Biology. As part of the course, students will complete one or more formal written assignments that total at least 4500 words, with a significant portion of this assignment or assignments revised at least once. Completion of at least one of the Biology core courses (Cell Biology, Evolution, Genetics, Physiology, Ecology) is strongly recommended. May be repeated to a maximum of 12 credits, but a maximum of only 6 credits of independent research (BIO 394, 395, 397, or 398) may be used to satisfy the requirements of a BS or BA in Biology. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK. Prereq: BIO 148, BIO 152 and BIO 155 or equivalent.

**BIO 401G SPECIAL TOPICS IN BIOLOGY FOR ELEMENTARY, MIDDLE AND HIGH SCHOOL TEACHERS (Subtitle required). (1-4)**

Selected topics in biology of special interest to teachers such as biological research experiences related to pharmacological assays, collecting behavioral data, compilation and statistically analysis of data. When the course is offered, a specific title with specific credits, the number of hours in lecture-discussion and laboratory, will be given. Lecture/discussion, two-four hours; laboratory, zero-four hours. May be repeated to a maximum of 12 credits. Prereq: By consent of instructor only.

**#BIO 402 PRACTICAL MICROSCOPY. (3)**

The objective of this course is to provide an operational understanding of the use of contemporary microscopes and the principles underlying biological imaging methods through a combination of lectures and hands-on laboratory experiences. Students will learn to use stereo and compound microscopes to image specimens using bright field, fluorescence, and enhanced contrast techniques. Students will also learn about the application of advanced microscopy methods to biological samples. Prereq: BIO 148, BIO 152, and BIO 155 or equivalents are required. In addition, one of the following courses or permission of instructor is required: BIO 305, BIO 309, BIO 315, BIO 350.

**\*BIO 404 ADVANCED GENETICS. (3)**

This course in contemporary genetic analysis emphasizes experimental approaches to biological questions in a variety of eukaryotic organisms. The course includes discussion of the application of methodologies spanning a wide range of genetics, including classical, molecular, quantitative and genome-wide approaches. Primary scientific literature is investigated to understand the development and application of these methods. The course is intended to provide a good working understanding of current genetic techniques, how to select appropriate approaches to modern biological problems, and how to interpret results of genetic analyses. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK. Prereq: BIO 304 (Introductory Genetics) or equivalent or consent of the instructor is required. BIO 315 (Cell Biology) or equivalent is recommended, but not required.

**\*BIO 405 HUMAN GENETICS. (3)**

This course will survey selected topics relevant to the understanding of the diversity and complexity of human genetics and genetic diseases, and will explore some of the contemporary methodologies used to identify genes underlying human genetic diseases. This course will also cover modern methods for genome analysis since the human genome sequence forms the foundation of current human genetics in research and medicine. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK. Prereq: Grade of C or better in BIO 304 or permission of instructor.

**BIO 410 VERTEBRATE ENDOCRINOLOGY. (3)**

This course is designed to provide students with a broad understanding of vertebrate endocrinology. Course topics will include the various classes of hormones, sources and synthesis of hormones, receptors and target tissues, mechanisms of action and regulation, and methods used in endocrinology and behavioral endocrinology. Details of classical endocrine systems will be explored. The last third of the course will focus on neuroendocrinology and how hormones influence the development and activation of behavior in humans and animal models. Prereq: BIO 302 or BIO 315 or BIO 350.

**\*BIO 418 ECOLOGICAL GENETICS. (3)**

Ecological genetics resides at the interface of ecology, evolution, and genetics. At the heart of ecological genetics lie two components of adaptive evolution: genetic variation in phenotypic traits and natural selection on phenotypes. In this course, students will explore basic concepts in population and quantitative genetics and apply these to the analysis of genetic and phenotypic data. This course provides a conceptual link between courses focused on genetics and molecular biology and courses focused on whole organisms and their ecology. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK. Prereq: BIO 303 and BIO 304 or equivalent, or consent of the instructor.

**BIO 420G TAXONOMY OF VASCULAR PLANTS. (4)**

A survey of the evolutionary relationships among the major of vascular plant groups, concentrating heavily on important families flowering plants. Issues in contemporary systematics, including cladistic methods, will be covered. Students will gain practical experience learning the language of descriptive botany and using botanical keys in technical manuals for species identification. Field trips highlight the local spring flora. Lecture, three hours; laboratory, three hours; plus two Saturday field trips. Prereq: Junior standing; BIO 148 and BIO 152 or one course in introductory botany or consent of instructor. (Same as NRE 420G.)

**\*BIO 425 BIOLOGY SEMINAR: (Subtitle required). (1)**

This seminar develops effective analysis, presentation, and discussion skills required of Biology majors by exploring various life science topics of interest to faculty and students. Satisfies seminar requirements for Biology majors and can be repeated for a maximum of 2 credits under a different subtitle. Prereq: Senior standing in Biology recommended. BIO 148 and BIO 152, or equivalent. Additional prereq(s) may be identified by instructor when topic is selected. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

## Course Descriptions

### **BIO 426 NEUROSCIENCE SEMINAR (Subtitle required). (1)**

This seminar course develops effective analysis, presentation and discussion skills required of science majors by exploring one neuroscience topic in detail. Prereq: Determined by instructor.

### **BIO 427 SEMINAR IN MICROBIOLOGY (Subtitle required). (1)**

This seminar course develops effective analysis, presentation, and discussion skills required of life science majors by exploring various microbiological topics. Prereq: Senior standing recommended. BIO 308 and BIO 309 or equivalent. Additional prereq(s) may be identified by instructor when topic is selected.

### **\*BIO 429 DEVELOPMENTAL BIOLOGY. (3)**

An introduction to the principles of developmental biology, particularly of animals, including genetic and environmental control of development at the molecular, cellular, and physiological levels. Prereq: BIO 304 or equivalent, or consent of instructor.

### **BIO 430G PLANT PHYSIOLOGY. (4)**

Basic principles of plant physiology; the physiological processes of green plants and the effect of the environment on these processes. Lecture (three hours) and laboratory (three hours). Prereq: BIO 148, BIO 152, BIO 155 or BIO 198 (or equivalent); CHE 230 and CHE 231 (or equivalent) or consent of instructor.

### **BIO 440 COMPARATIVE AND FUNCTIONAL ANATOMY. (4)**

Comparative and Functional Neuroanatomy explores the cellular bases for sensory, integrative and motor neuroscience from an evolutionary perspective, delineating common features of all nervous systems ranging from cnidarian nerve nets to ventral nerve cords of most invertebrates to the chordate/vertebrate central nervous systems. Discovery of the common features of nervous structure in model system organisms with the human brain will provide students a perspective on the value of model systems for future study. Functional analyses of nervous system structures will enable students to identify anatomical bases for neural function and behavior. Prereq: BIO 302 or consent of instructor.

### **\*BIO 445 THE BIOLOGY OF SEX. (3)**

What is sex? Who has sex? What is sex for? This course is about the biological aspects of sex and gender, two of the most powerful forces in nature. We will explore the early evolution of sexual exchange of DNA and the emergence of genders. We will also discover the mechanisms by which gender is assigned across a vast array of different organisms and the amazing variability of sexual activity, ranging from duplicitous orchids to the rapacious passions of giant squid. Ultimately, we will explore the biological aspects of human sexuality in the context of its evolutionary origins and compare them to our closest relatives, the great apes. Readings in journal articles and a book will be complemented by short videos and discussions. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK. Prereq: BIO 148 and BIO 152 or equivalent, or consent of instructor.

### **BIO 446 NEUROPHYSIOLOGY LABORATORY. (3)**

This course will focus on experimentation in neurophysiology. The generation of receptor potentials in sensory neurons will be measured in addition to action potentials in axons. Pharmacological experimentation of ionotropic and metabotropic receptors subtypes and second messengers signaling will be conducted. The key role of ion channels and transporters in regulation of the membrane potential will be examined. The concept of electrochemical equilibrium will be introduced and the quantitative examination of the equilibrium membrane potential will include discussion of Goldman and Nernst equations and their applications. The mechanisms of action potential generation, as a result of synaptic and receptor stimulation within a neural cell, will be measured. Lecture and laboratory. Prereq: BIO 302 or BIO 350 or consent of instructor.

### **BIO 447 ANIMAL SENSES. (3)**

Advanced study on how animals use sensory abilities to communicate, navigate, and detect prey, predators and mates. Focus will be on extreme and unusual sensory systems such as echolocation, electroreception, and magnetoreception, as well as vision, smell, touch, and hearing. Prereq: BIO 350 or PGY 412G or permission of instructor.

### **BIO 452G LABORATORY IN ECOLOGY. (2)**

An introduction to laboratory and field experimentation and computer simulation in ecology. Exercises and demonstrations will be performed to familiarize students with (1) particular populations and ecosystems, (2) some important research problems in ecology, and (3) current research techniques for dealing with them. One or two Saturday field trips will be required. Laboratory, four hours. Prereq or coreq: BIO 325 or equivalent and consent of instructor.

### **\*BIO 461G INTRODUCTION TO POPULATION GENETICS. (3)**

This survey course examines the population dynamics and equilibria of genes in nuclei, chloroplasts and mitochondria. Emphasis will be on biological relevance (in plants, animals, and micro-organisms), but some theoretical derivations will also be introduced. Prereq: ABT 360 (or equivalent) and one course in probability/statistics. (Same as ABT/ENT/FOR 461G.)

### **BIO 494G IMMUNOBIOLOGY. (3)**

A survey of theories and mechanisms of immunity including: nature of antigens and antibodies, antigen-antibody reactions, immunocompetent cells, immunogenetics, allergic reactions, tumor immunology and transplantation immunology. Prereq: BCH 401G (may be taken concurrently) and BIO 208 or BIO 308 or consent of instructor. (Same as MI 494G.)

### **BIO 495G BACTERIAL PATHOGENESIS. (3)**

This course will examine the pathogenic mechanisms used by bacteria to cause human disease. Bacterial virulence factors and host susceptibility factors will be discussed, with an emphasis

on understanding the techniques that can be used to identify these traits in newly emerging pathogens. Prereq: BIO 308, BIO 315, BCH 401 recommended. Or permission of instructor. (Same as MI 495G.)

### **BIO 499 BIOLOGY RESEARCH SEMINAR. (1)**

A seminar for students engaged in independent research. Students with BIO 395 experience will interact with student colleagues and an experienced research mentor. Prereq: Past or current enrollment in BIO 395.

### **\*BIO 502 SYSTEMS, CELLULAR AND MOLECULAR PHYSIOLOGY. (5)**

PGY/BIO 502 is a team-taught, lecture-based course that provides an integrated in-depth understanding of the physiology and pathophysiology of the human cardiovascular, digestive, endocrine, neural, renal and respiratory organ systems. Lectures are supplemented with assigned readings, hands-on demonstrations, and problem-oriented study sessions. Prereq: An introductory physiology course (for example PGY 206), and an understanding of fundamental undergraduate-level chemical and physical concepts is recommended but not required. (Same as PGY 502.)

### **BIO 507 BIOLOGY OF SLEEP AND CIRCADIAN RHYTHMS. (3)**

This course provides an introduction to the fields of sleep and circadian rhythms including the underlying neuroanatomy, neurophysiology, and the molecular and genetic underpinnings of sleep and circadian behaviors. The medical and societal relevance of these areas will also be emphasized. Considerable time will be spent reading and analyzing the primary literature in these fields, including student presentations of selected articles. Prereq: BIO 304 or BIO 302 or consent of instructor.

### **BIO 508 EVOLUTION. (3)**

Mechanisms of evolutionary change, with a brief summary of historical evolution, especially of the Metazoa. Prereq: BIO 304 or ASC/ABT 360.

### **BIO 509 BRAINS AND BUDS: NEUROSCIENCE OF POLLINATION. (3)**

Pollinators have tremendous agricultural and societal value, and to a neuroscientist, they showcase principles of cognition in the real world. Pollinator species present exquisite examples of co-evolution, physiological and dietary specialization, navigation in complex landscapes, collective decision-making processes, and the behavioral consequences of environmental toxins and disease. In this course, we will use pollinator species (honey bees and other insects, as well as vertebrate pollinators) to explore how critical features of pollination intersect at the level of brain function, covering important neuroscience topics including sensory ecology and evolution, neural energetics, mechanisms of addiction and reward, molecular neuroscience, cognition, and learning and memory. Prereq: Students must have at least Junior standing in a life sciences discipline, or permission from instructor. (Same as ENT 509.)

### **BIO 510 RECOMBINANT DNA TECHNIQUES LABORATORY. (4)**

An introduction to the construction, isolation, and analysis of recombinant DNA clones, with emphasis on practical experience in basic techniques. Graduate students will be given first preference in course enrollment. Lecture, one hour; laboratory, 6 hours per week. Prereq: BIO 304 and BIO 315 or equivalent with consent of instructor.

### **BIO 515 GENERAL CELL BIOLOGY. (3)**

An integrative, analytical study of the cell as the basic unit of biological structure and function, with emphasis on eukaryotes. Lecture, discussions with readings in some original literature. Prereq: BIO 315 or BCH 401G or equivalent and consent of instructor. (Same as MI 515.)

### **BIO 520 BIOINFORMATICS. (3)**

An introduction to computer analysis of macromolecular structure information. This course describes how to access, process, and interpret structural information regarding biological macromolecules as a guide to experiments in biology. Prereq: BIO 315 or BIO 304 or BCH 401 or BCH 501 or BCH 502 or BIO 510 or consent of instructor. (Same as INF 520.)

### **BIO 525 ADVANCED ECOLOGY. (3)**

BIO 525 is intended to bring students with a baseline knowledge of ecology to a deeper understanding of and experience with the way that ecological studies are conceived, conducted, analyzed and interpreted. BIO 525 is a series of modules that introduce students to the field site and most basic methods and then to a set of research systems for which the group is challenged to come up with the study design, analysis, and interpretation. These modules will address important issues in contemporary ecology and will build on what students learned in previous undergraduate ecology courses. Prereq: BIO 325 (Ecology) or equivalent.

### **BIO 527 STEM CELLS, TISSUE ENGINEERING, AND REGENERATIVE MEDICINE. (3)**

The course will provide students with knowledge from a broad range of topics related to stem cells, tissue engineering and regenerative medicine, including: an historical perspective of these fields, contemporary use of stem cells in medicine, introduction to different concepts in regenerative medicine, research in tissue engineering and biomaterials, and societal issues surrounding stem cells and regenerative medicine. Prereq: BIO 315 and BIO 304.

### **BIO 530 BIOGEOGRAPHY AND CONSERVATION. (3)**

An introduction to the geographic patterning of biological diversity, exploring its origins, dynamics, and present trends. Examines the interplay among physical conditions, ecological interactions, evolutionary processes, and the historical movements of organisms and land masses as they have combined to affect the distribution of species, with particular attention to the application of biogeographic knowledge to current problems of species loss and conservation. Prereq: Two semesters of introductory biology or physical geography, or consent of the instructor. (Same as GEO 530.)

**BIO 535 COMPARATIVE NEUROBIOLOGY AND BEHAVIOR. (3)**

The course consists of an introduction to neurophysiology and study of the neural basis of sensory processing and motor patterns. A comparative analysis of the neurobiological basis of behavioral responses will be made, utilizing a broad range of vertebrates and invertebrates. Prereq: BIO 350 or consent of instructor. (Same as PGY 535.)

**BIO 542 HISTOLOGY. (5)**

An in-depth study of vertebrate cell and tissue structure and function. Human tissue is emphasized. Some knowledge of biochemistry, physiology, and anatomy is desirable. The laboratory involves study of prepared microscope slides. Lecture, three hours; laboratory, four hours per week. Prereq: BIO 315 or consent of instructor.

**BIO 550 ADVANCED PHYSIOLOGY. (3)**

Physiological mechanisms by which animals cope with different environmental stresses. Osmoregulation, respiration, temperature regulation and tolerance, sensory reception, circulation, etc. Prereq: One year college chemistry, BIO 350 or equivalent, one year college physics or consent of instructor.

**BIO 551 LIFE CYCLE ECOLOGY OF FLOWERING PLANTS. (4)**

The effect of physical and biotic factors on plants and environment. Physiological, morphological and anatomical adaptations of plants to the physical factors of the environment are emphasized. Some of the laboratory exercises are carried out in the field. Lecture, three hours; laboratory, two hours. Prereq: BIO 325 or consent of instructor.

**BIO 553 FISH BIOLOGY. (4)**

This course explores the biology of fishes from an evolutionary perspective. Lectures cover physiology, functional morphology, ecology, population biology, behavior, evolutionary relationships, and fisheries biology. Laboratory exercises include development of a fish collection; experiments in fish physiology, behavior and ecology; computer modeling of problems in fisheries biology; and field trips. Lecture, three hours; laboratory, two hours per week. Prereq: BIO 148, BIO 152, BIO 155 or BIO 198 or consent of instructor.

**BIO 555 VERTEBRATE ZOOLOGY. (5)**

An intensive survey of the vertebrate classes with emphasis on trends and processes in evolution, classification, phylogeny, ecology, and adaptations in morphology and behavior. Lecture, three hours; laboratory, four hours per week. Prereq: BIO 148, BIO 152, BIO 155 or BIO 198, or consent of instructor.

**BIO 556 COMMUNICATION BIOLOGY. (3)**

Animals sense and respond to numerous signals from their environment by using sensory modalities attuned to visual, auditory, chemical, and electromagnetic cues. This course is an in-depth examination of the physiological bases of sensory input and the interactive, motor system-mediated, behavioral repertoires exhibited by different species in response to such inputs. Prereq: BIO 325 or BIO 350.

**BIO 559 ORNITHOLOGY. (4)**

A study of the life histories, habits, identification, structure, adaptations, and physiology of birds. Special emphasis upon migrations, songs, nests and economic importance of our native birds. Lecture, field excursions, laboratory studies. Prereq: BIO 148, BIO 152, BIO 155 or BIO 198, or consent of instructor.

**BIO 560 ENVIRONMENTAL PHYSIOLOGY AND TOXICOLOGY. (4)**

Emphasis will be placed on the physiological and toxicological effects of chemicals on natural biota, including considerations at cellular, organismal, population, and community levels. This will include assimilation and metabolism of pollutants by animal species, with emphasis upon biochemical and physiological mechanisms involved in stress-induced responses and stress reduction. Additional areas of concern will include the transport, fate, and effects of chemical stressors on structure and function of biotic communities and will include introductions to ecotoxicology and environmental regulatory strategies. Lecture, three hours; recitation, two hours per week. Prereq: BIO 350 or PGY 502 or equivalent or consent of instructor.

**BIO 561 INSECTS AFFECTING HUMAN AND ANIMAL HEALTH. (3)**

Discussion of arthropod parasites and disease vectors. Topics include an overview of disease transmission and public health, epidemiology, vector biology, important arthropod groups and their control. Prereq: 3 credits of basic biology (BIO 103 or BIO 148 or equivalent) or permission of instructor. (Same as CPH/ENT 561.)

**BIO 563 PARASITOLOGY. (4)**

Protozoan, helminth and arthropod parasites of man and domestic animals, emphasis on etiology, epidemiology, methods of diagnosis, control measures, and life histories. Techniques for host examination and preparation of material for study. Prereq: BIO 148, BIO 152, BIO 155 or BIO 198, or consent of instructor. (Same as ENT 563.)

**BIO 564 INSECT TAXONOMY. (4)**

A study of insect taxonomy including the collection, preparation, and identification of adult insect specimens. Prereq: Consent of instructor. (Same as ENT 564.)

**BIO 567 APPLICATIONS OF GENETICS. (4)**

Course covers genetic concepts with an emphasis on interpretation and analysis of molecular and population genetic data using examples from the entomological literature. Prereq: ABT 360 or BIO 304 or equivalent and an introductory statistics course.

**\*BIO 568 INSECT BEHAVIOR. (3)**

The principles of animal behavior will be stressed using insects as examples. Physiology, mechanisms, behavioral ecology and evolution of insect behavior will be covered. Prereq: One year of biology or permission of instructor. (Same as ENT 568.)

**BIO 575 PLANT ANATOMY AND MORPHOLOGY. (4)**

A survey of the diverse structural features of plants and their functional and phylogenetic significance. Emphasis will be on the adaptive design of modern vascular plants as a response to natural and artificial selection. Lecture, three hours; laboratory, two hours per week. Prereq: Introductory biology sequence (six hours) or consent of instructor.

**BIO 580 SPECIAL TOPICS IN BIOLOGY (ADVANCED LEVEL): (Subtitle required). (1-4)**

Interdisciplinary, topical or experimental course in advanced (500-level) biology. Subtitle required. May be repeated for a maximum of 12 credit hours under different subtitles. Course format: variable—Lecture and/or laboratory and/or recitation and/or seminar. Prereq: Determined by instructor.

**BIO 582 VIROLOGY. (3)**

Physical, chemical and biological properties of viruses. Modes of replication and control of gene product formation displayed by representative plant, animal, and bacterial viruses. Prereq: BIO 304 and biochemistry or equivalent strongly recommended, or consent of instructor. (Same as MI 582.)

**BIO 595 IMMUNOBIOLOGY. (2)**

Laboratory in immunology and serology. Preparation, standardization, and uses of biological products; serology. Laboratory, four hours. Prereq: BIO/MI 494G or concurrently; or consent of instructor. (Same as MI 595.)

**BIO 601 SPECIAL TOPICS IN MOLECULAR AND CELLULAR GENETICS. (1)**

Each semester five distinguished scientists visit the UK campus to deliver a series of three formal lectures each and participate in numerous informal contacts with graduate students. The emphasis is on the presentation of the most current advances (often unpublished) in selected topics in molecular and cellular genetics. May be repeated to a maximum of six credits. (Same as BCH/MI/PLS/PPA 601.)

**#BIO 602 PRINCIPLES AND APPLICATIONS OF PRACTICAL MICROSCOPY. (3)**

The objective of this course is to provide an advanced understanding of the use of contemporary microscopes and the principles underlying biological imaging methods through a combination of lectures and hands-on laboratory experiences. Students will learn to use stereo and compound microscopes to image specimens using bright field, fluorescence, and enhanced contrast techniques. Students will also design their own project and utilize microscopy methods to address a research question. Prereq: BIO 148, BIO 152, and BIO 155 or equivalents are required. In addition, one of the following courses or permission of instructor is required: BIO 305, BIO 309, BIO 315, BIO 350.

**BIO 604 GENETIC ANALYSIS. (3)**

This course in contemporary genetic analysis emphasizes experimental approaches to biological questions in a variety of eukaryotic organisms. The course includes discussion of the application of methodologies spanning a wide range of genetics, including classical, molecular, quantitative and genome-wide approaches. Primary scientific literature is investigated to understand the development and application of these methods. The course is intended to provide a good working understanding of current genetic techniques, how to select appropriate approaches to modern biological problems, and how to interpret results of genetic analyses. Prereq: BIO 304 (Introductory Genetics) or equivalent or consent of the instructor is required. BIO 315 (Cell Biology) or equivalent is recommended, but not required.

**BIO 606 CONCEPTUAL METHODS IN ECOLOGY AND EVOLUTION. (3)**

This course provides students with hands-on experience in a diverse array of conceptual research techniques used by ecologists and evolutionary biologists. The focus will be on optimization methods used for predicting animal and plant behaviors and life histories, and on methods for assessing population trends and dynamics. Mathematical techniques used will include graphical analyses, matrix algebra, calculus, and computer simulations. The latter part of the course will consist of collaborative modeling projects, in which small groups of students will work with the instructor to address an important contemporary research problem and will report their results in a public talk and a project writeup. Prereq: One year of calculus and BIO 325 or FOR 340 or ENT 665, or consent of instructor. (Same as ENT/FOR 606.)

**BIO 607 ADVANCED EVOLUTION. (2)**

This course covers advanced topics in evolution, concentrating on questions central to the understanding of general evolutionary processes. Phenomena occurring both within populations (e.g., selection, inheritance, population subdivision) and between populations (e.g., gene flow, competition) will be addressed. Special attention will be given to modern research approaches and techniques including quantitative genetics, measurement of selection, phylogenetic analyses of comparative data and molecular systematics. Prereq: One year of calculus, genetics (BIO 304 or BIO 461) and BIO 508 or consent of instructor. (Same as ENT/FOR 607.)

**BIO 608 BEHAVIORAL ECOLOGY AND LIFE HISTORIES. (2)**

This course uses an evolutionary approach to examine behavior and life histories. Topics addressed include: the optimality approach, constraints on optimality, kin and group selection, predator and prey behaviors, social and mating behaviors, and life history evolution. Prereq: BIO 325 and one semester of calculus; or consent of instructor. (Same as ENT/FOR 608.)

**BIO 609 POPULATION AND COMMUNITY ECOLOGY. (3)**

This course discusses the processes that determine population distributions and dynamics and community structure for both plants and animals. Topics addressed include: population regulation and population stability, community diversity and stability, ecological succession, population interactions (competition, predation, mutualism), coevolution, and the effects of spatial and temporal heterogeneity on population and community patterns. Prereq: BIO 325 or FOR 340 or consent of instructor. (Same as ENT/FOR 609.)

**BIO 612 BIOLOGY OF AGING. (3)**

A multidisciplinary discussion of how the process of aging affects biological systems. Coverage will be quite broad and includes topics such as subcellular and cellular aging, genetics, immunology, anatomy and physiology, animal model of aging, etc. Prereq: Enrollment in the doctoral program in Gerontology or a biomedical science department or consent of instructor. (Same as ANA/GRN/PGY 612.)

**BIO 615 MOLECULAR BIOLOGY. (3)**

This course will develop the student's ability to critically read and evaluate the primary literature in selected areas of molecular biology; various experimental systems and techniques are discussed. While there is some lecture, the time will be predominately spent in class discussions of the primary literature. Prereq: An advanced course in molecular biology and genetics (e.g. IBS 602) or consent of instructor. (Same as BCH/MI 615.)

**BIO 618 ECOLOGICAL GENETICS. (3)**

Ecological genetics resides at the interface of ecology, evolution, and genetics. At the heart of ecological genetics lie two components of adaptive evolution: genetic variation in phenotypic traits and natural selection on phenotypes. In this course, students will explore advanced concepts in population and quantitative genetics and apply these to the analysis of genetic and phenotypic data. This course provides an in-depth conceptual link between courses focused on genetics and molecular biology and courses focused on whole organisms and their ecology. Prereq: Graduate standing in a life sciences program, or consent of instructor.

**BIO 620 PLANT MOLECULAR BIOLOGY. (3)**

This course is intended to be a treatment of current concepts of plant molecular biology. It will be a literature-based course, supplemented by handouts and reading lists. The course will deal as much as possible with topics that are unique to plants. Current aspects of molecular biology that are relevant to the course content will be covered in the first part of the course; however, these lectures will not be a review of topics that should have been retained from introductory genetics and biochemistry courses. Also, they will not be a substitute for a molecular biology course. Prereq: One semester of undergraduate genetics and biochemistry or consent of instructor. (Same as PLS 620.)

**BIO 621 TOPICS IN MODERN BIOLOGY (Subtitle required). (1-3)**

A course for students in the biological and related sciences to be taught on various topics by specialists in their fields. Designed to give the student the most up-to-date information on the various topics. May be repeated to a maximum of nine credits under different subtitles. Prereq: Consent of instructor.

**BIO 622 PHYSIOLOGY OF PLANTS I. (3)**

A physiological/biochemical treatment of central topics in modern plant physiology. Topics will include: plant-cell biology, ion transport, water and translocation, respiration and photosynthesis. Prereq: BIO 430G or equivalent or consent of coordinator. Prereq or concur: BCH 607. (Same as FOR/PLS 622.)

**BIO 623 PHYSIOLOGY OF PLANTS II. (3)**

A physiological/biochemical treatment of central topics in modern plant physiology. Topics will include: plant hormones, an introduction to plant biotechnology, senescence and abscission, stress physiology, phytochrome-photomorphogenesis-phototropism nitrogen and sulfur metabolism. Prereq: BIO 430G or equivalent or consent of coordinator. Prereq or concur: BCH 607. (Same as FOR/PLS 623.)

**BIO 625 INSECT-PLANT RELATIONSHIPS. (3)**

This course examines the natural history, ecology, and evolution of insect/plant relationships. Topics include mechanisms and theory of plant defense, behavioral and physiological adaptations of herbivorous insects, pollination biology, multitrophic-level interactions, causes of insect outbreaks, and applications to managed ecosystems. Critical reading and discussion of current literature is emphasized. Prereq: Two years of college-level biology. (Same as ENT 625.)

**BIO 629 DEVELOPMENTAL BIOLOGY. (3)**

An examination of the principles of developmental biology, particularly of animals, including genetic and environmental control of development at the molecular, cellular, and physiological levels. Prereq: BIO 304 or equivalent introductory genetics course and graduate standing, or consent of instructor.

**BIO 632 ADVANCED CELL BIOLOGY I. (3)**

A molecular level treatment of cell structure and function derived from current experimental approaches. Eukaryotes will be stressed. Topics will usually include membrane structure and function, the cytoskeleton and the extracellular matrix, and bioenergetics. Lectures and discussions with reading in the original literature. Prereq: BIO 304 or equivalent; coreq: BCH 501 or equivalent or consent of instructor.

**BIO 635 INSECT PHYSIOLOGY. (4)**

Study of insect physiological processes including development, digestion, reproduction, respiration, excretion, hormones and immunity. Opportunity to learn techniques used in insect physiology and molecular biology. Prereq: Consent of instructor. (Same as ENT 635.)

**BIO 636 INSECT MOLECULAR BIOLOGY. (4)**

Principles of insect molecular biology. Analysis of insect development, reproduction, behavior, immunity, transgenic insects and insecticide resistance at the molecular level. Hands-on experience with molecular biology techniques. Prereq: ENT/BIO 635 or consent of instructor. (Same as ENT 636.)

**BIO 638 DEVELOPMENTAL NEUROBIOLOGY. (3)**

An explanation of the processes which contribute to the development of the nervous system. Neurophysiological, cell biological and molecular approaches to cell differentiation, neuronal pathfinding and synapse formation and stabilization will be explored and discussed. Examples will be drawn from both vertebrate and invertebrate preparations. Prereq: BIO 535 or consent of instructor. (Same as ANA/PGY/PSY 638.)

**BIO 650 ANIMAL PHYSIOLOGY LABORATORY. (3)**

Hands-on laboratory exercises in animal physiology. Prereq: Previous or concurrent enrollment in BIO 550. (Same as PGY 650.)

**BIO 665 INSECT ECOLOGY. (3)**

The biotic and physical factors influencing the distribution and abundance of insects and insect populations. Prereq: Consent of instructor. (Same as ENT 665.)

**BIO 667 INVASIVE SPECIES BIOLOGY. (3)**

This course will examine circumstances that allow introduced species to become invasive, how invasive species threaten our resources, and approaches to minimizing the incidence and impact of invasions. Prereq: Graduate standing or consent of instructor. (Same as ENT/FOR 667.)

**BIO 684 PHYLOGENETIC SYSTEMATICS. (3)**

Theory and methods of phylogenetic analysis and cladistics will be explained. Applications of phylogenetic analysis, such as historical biogeography, biological classification, and testing of ecological hypotheses will be explored. (Same as ENT 684.)

**BIO 685 IMMUNOBIOLOGY, INFECTION AND INFLAMMATION. (3)**

An introductory level graduate course surveying current trends in immunology including the organization of the immune system, cells important for immunity and inflammation; types of immune responses, cellular immunology, molecular immunology, self-nonself discrimination, vaccines and immune mediated diseases. Prereq: BCH 401G, or BCH 501 or 502, IBS 501 or equivalent or consent of the course director. (Same as MI 685.)

**BIO 707 CONTEMPORARY TOPICS IN IMMUNOLOGY. (3)**

This course will deal with controversial and evolving areas of immunology. Lectures in a given topic will be accompanied by student discussion of contemporary literature. Prereq: MI 685 or equivalent or consent of instructor. (Same as MI 707.)

**BIO 720 MICROBIAL STRUCTURE AND FUNCTION. (3)**

Molecular basis of structure and function in unicellular microbes. Molecular genetic and structural approaches to the analysis of bacterial architecture growth, division, and differentiation. Prereq: (to reflect appropriate IBS course). (Same as MI 720 and OBI 720.)

**BIO 740 MAMMALIAN RADIATION BIOLOGY. (2)**

The physical and biological sequelae of radiation effects will be discussed emphasizing human and mammalian responses and radiation health. Emphasis will be for health and medical workers. Prereq: Must have consent of instructor, BIO/RM 540 or RM 546 or equivalent background. (Same as RM 740.)

**BIO 748 MASTER'S THESIS RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

**BIO 749 DISSERTATION RESEARCH. (0)**

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

**BIO 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

**BIO 768 RESIDENCE CREDIT FOR MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours.

**BIO 769 RESIDENCE CREDIT FOR DOCTOR'S DEGREE. (0-12)**

May be repeated indefinitely.

**BIO 770 SEMINAR IN BIOLOGY. (1)**

Reports and discussions of current research and literature in biology. Required of all graduate students. May be repeated to a maximum of 8 credits. Prereq: Graduate standing in biological sciences.

**BIO 772 SEMINAR IN MICROBIOLOGY. (0-1)**

Review of current literature in microbiology; presentation of papers on work in progress in the department or on assigned topics; reports on meetings of national and international scientific and professional societies and symposia. Required of all graduate students. Two hours per week. May be repeated nine times for a maximum of 10 credits. (Same as MI 772.)

**BIO 773 SEMINAR IN PLANT PHYSIOLOGY. (1)**

Reports and discussions on various topics in plant physiology. May be repeated for a maximum of eight credits.

**BIO 782 ADVANCED VIROLOGY. (3)**

Current trends in virology. Typical topics include DNA tumor viruses, RNA tumor viruses, persistent virus infections, and interference. Emphases of molecular mechanisms. Prereq: BIO 582. Adequate biochemistry and genetics strongly recommended, or consent of instructor. (Same as VS 782.)

**BIO 795 RESEARCH IN BIOLOGY. (1-9)**

Independent research work in biology. May be repeated to a maximum of 24 credits. Prereq: Graduate standing in biological sciences.

**BIO 798 RESEARCH IN MICROBIOLOGY. (1-9)**

May be repeated to a maximum of 24 credits. Prereq: Consent of instructor. (Same as MI 798.)

---

## **BME Biomedical Engineering**

---

**#BME 201 INTRODUCTION TO BIOMEDICAL ENGINEERING. (3)**

Survey of the principles, practices, sub-specialty areas, and careers in biomedical engineering. Prereq: BIO 148, CHE 105, MA 113, MA 114, PHY 231, PHY 241.

**#BME 272 INTRO TO UX FOR PRODUCT DESIGN. (2)**

This course serves as an introduction to basic concepts of user experience (UX) design. Students will learn how to create engaging interactions between users and products/services through a holistic user-centered approach to design. Students will examine the history and evolution of user experience design and define key terms associated with the field. Students will explore a range of design research methods and discuss how these practices, along with theories regarding human behavior and perception, inform the user experience design process. Projects from PRD 221, other studio courses within the College of Design, or BME courses will serve as case studies for analysis and application of course content. Students may participate in field trips to sites, businesses, manufacturers, etc. to further their knowledge of the design profession and coursework, sometimes with corresponding entry fees. (Same as PRD 272.)

**BME 301 FUNDAMENTALS OF BIOMEDICAL ENGINEERING. (3)**

Overview of the application of engineering principles to problems in living systems and healthcare delivery. Fundamental anatomy and physiology for engineers. Quantitative measurement and analysis of the structure, function, and control of biological systems. Prereq: Engineering standing or consent of instructor.

**BME 395 INDEPENDENT RESEARCH IN BIOMEDICAL ENGINEERING. (1-3)**

Individual research on selected problems of current significance in biomedical engineering. Variable credit; may be repeated to a maximum of six credit hours. Prereq: Consent of instructor.

**BME 405 INTRODUCTION TO BIOMEDICAL SIGNAL PROCESSING. (3)**

Study of continuous and discrete signal concepts, sampling of analog signals, domain transformation (Fourier, LaPlace, Z-Transforms), and introduction to correlation and power spectrum. Characteristics and design of analog and digital filters. Features of biological signals and systems and biomedical applications. Introduction to non-linear systems. Prereq: EE 305 or equivalent and MA 214; or consent of instructor.

**BME 472 HUMAN BIOMECHANICS. (3)**

This course presents an engineering-based approach to the quantitative study of the human musculoskeletal system. Principles involving static and dynamic mechanical analyses will be applied to quantify the forces and moments in human posture and movement. Study of the material and biological properties of the musculoskeletal system is included because they are intimately coupled to the formulation and interpretation of problems in static and dynamic biomechanics. Prereq: EM 221, EM 313; or consent of instructor.

**BME 481G TOPICS IN BIOMEDICAL ENGINEERING. (3)**

Detailed investigation of a topic of current significance in biomedical engineering such as: biomaterials, hard or soft tissue biomechanics, rehabilitation engineering, cardiopulmonary systems analysis, biomedical imaging. Prereq: Consent of instructor.

**BME 485 FUNDAMENTALS OF BIOFLUID MECHANICS. (3)**

This course is taught concurrently with BME 685 Biofluid Mechanics. This course provides the students with a review of basic fluid mechanics principles and a direct, practical application of these principles to biomedical and clinical problems associated with the human circulatory system. Prereq: Engineering standing or consent of instructor.

**BME 488 INTRODUCTION TO BIOMATERIALS. (3)**

Study of biological and man-made materials that perform, improve, or restore natural functions. Structure and properties of connective tissue and commonly implanted metals, ceramics, and polymers; biocompatibility of materials used in orthopedic, soft tissue, and cardiovascular applications. Prereq: Engineering standing and MSE 201; or consent of instructor.

**BME 501 FOUNDATIONS OF BIOMEDICAL ENGINEERING. (3)**

This course demonstrates the application of diverse engineering principles to analysis and understanding of the structure, function, and control of biological systems. Quantitative measurements and analysis of homeostatic, regulatory, transport, biochemical, and biomechanical processes of the human body. Prereq: Engineering standing or consent of instructor.

**BME 508 CELL MECHANICS AND MECHANOBIOLOGY. (3)**

This course will serve as an introduction to cell and tissue level mechanobiology with focus on human physiological and disease processes. The primary focus is to introduce principles of cell-level mechanics in the context of the biology of living organisms, what we term mechanobiology. In effect, we treat biological processes and regulation as another variable(s) that must be accounted for when modeling the mechanical/physical behavior of human tissues. A large amount of the basic principles in this field of study arose as a result of the intense research in the cardiovascular field. We will draw many examples of mechanobiological principles as it relates to the circulatory system. Despite our cardiovascular focus, the basic principles can be applied to the whole range of mechanobiological research conducted in other applications (orthopedics, urological, pulmonary, etc.). Prereq: EM 302 and/or CME/ME 330 (or equivalent fluid mechanics course); or consent of instructor.

**BME 515 MODELING OF PHYSIOLOGICAL SYSTEMS. (3)**

This introductory course in mathematical modeling will teach students how to construct simple and elegant models of biological and physiological processes—for instance the absorption and elimination of drugs in the human body or the kinetics of tumour growth in tissue—and to analyze or predict the dynamics of these events by solving the models. Prereq: MA 113, 114, 213, 214, or consent of instructor; familiarity with computer programming.

**BME 530 BIOMEDICAL INSTRUMENTATION. (3)**

A comprehensive introduction to major aspects of biomedical instrumentation. Topics include basic concept of medical instrumentation, biopotentials, physiological pressure/flow/respiratory measurement, optical sensing, and clinical applications of all the above. The fundamental mathematics underlying each instrument will be reviewed and an engineering picture of the hardware and software needed to implement each system will be examined. Prereq: Consent of instructor.

**BME 540 MECHANICAL MODELING OF HUMAN MOTION. (3)**

An introduction to mechanical modeling of human motion (lectures) along with application of computational software to model and estimate internal tissues responses to physical demands of several different activities/tasks (lab activities). Prereq: EM 221, EM 313; or consent of instructor.

**BME 541 OCCUPATIONAL BIOMECHANICS. (3)**

This course will provide an understanding of physical interaction between workers and their tools, machines, and materials so as to enhance the workers performance while minimizing the risk of musculoskeletal disorders. Discussion of ergonomic methods for measurement, assessment, and evaluation, with major topics including manual materials handling, cumulative trauma disorders, environmental stresses, safety, and legal issues. Prereq: Engineering standing or with instructor permission. (Same as MFS 541.)

**BME 579 NEURAL ENGINEERING: MERGING ENGINEERING WITH NEUROSCIENCE. (3)**

A multidisciplinary approach combining engineering principles for systems analysis and control, knowledge of biological control mechanisms, and computational properties of biological neural networks in the development of engineering neural networks for control applications. Topics include: equivalent circuit models for biological neurons and networks, non-linear differential equation representations, biological control strategies for rhythmic movements, design and development of controller for robot function, proposal development and presentation. Prereq: EE 422G and Engineering Standing or consent of instructor. (Same as EE 579.)

**BME 580 INTRODUCTION TO BIOMEDICAL IMAGING. (3)**

A comprehensive introduction to bio-medical imaging systems used today, including xray imaging and computed tomography (CT), magnetic resonance imaging (MRI), ultrasound imaging (UI), and diffuse optical tomography (DOT). The course will review the fundamental mathematics underlying each imaging modality, the hardware needed to implement each system, and the image reconstruction and analysis. The class may involve homework, projects, and exams. Prereq: EE 305, or consent of instructor.

**BME 599 TOPICS IN BIOMEDICAL ENGINEERING (Subtitle required). (3)**

An interdisciplinary course devoted to detailed study of a topic of current significance in biomedical engineering, such as cellular mechanotransduction, systems biology, and tissue engineering. May be repeated to a maximum of six credits. Prereq: Consent of instructor.

**BME 605 BIOMEDICAL SIGNAL PROCESSING I. (3)**

Continuous and discrete signals, sampling, Fourier Transform, LaPlace Transform, Z-Transform, correlation and spectral analysis, digital filters. Prereq: Concurrent enrollment or completion of PGY 412G or PGY 502.

**BME 610 BIOMEDICAL CONTROL SYSTEMS I. (3)**

Homeostatic mechanisms, input-output analysis, steady state and transient response, feedback concepts, system identification and simulation from actual operating data. Prereq: PGY 502 and ME 440 or equivalent.

**BME 615 BIOMEDICAL SIGNAL PROCESSING II. (3)**

Stochastic processes, Fourier-based spectral analysis and linear system identification, modern spectral estimation (AR, MA, ARMA), parametric transfer function estimation, time-frequency analysis of nonstationary signals. Prereq: BME 605, BME 610, EE 640 recommended.

## Course Descriptions

### **BME 640 BIOMEDICAL ENGINEERING ETHICS. (1)**

This course presents an engineering-based approach to study the system of ethics applicable to biomedical engineering. This course will describe and examine the responsibilities of biomedical engineers to stakeholders, e.g., patients, research subjects, and engineering clients as well as to the legal system (where applicable) and the profession as an entity. As a scholarly discipline, biomedical engineering ethics draws upon principles from subjects such as: the philosophy of science, the philosophy of engineering, and the ethics of technology. Materials from these principles will be used in this course with adaptation to the special circumstances attending the practice of Biomedical Engineering.

### **BME 642 NAVIGATIONAL GUIDES FOR BIOMEDICAL PRODUCT DEVELOPMENT. (3)**

This course teaches engineers how biomedical product designs are influenced by government regulations, economic issues, and ethical concerns.

### **BME 661 BIOMATERIALS SCIENCE AND ENGINEERING. (3)**

Study of biological and man-made materials that perform, improve, or restore natural functions. Structure and properties of connective tissue and commonly implanted metals, ceramics, and polymers; biocompatibility of materials used in orthopedic, soft tissue, and cardiovascular applications. Prereq: Undergraduate engineering degree or consent of instructor.

### **BME 662 TISSUE-IMPLANT INTERFACE. (3)**

Study of the interface between implants and host tissues from both the materials and biological perspective. Structure of the tissue-implant interface; surface characterization of biomaterials; protein adsorption; mechanisms of cell responses; the methods for controlling the tissue-implant interface, with emphasis on orthopedic and cardiovascular applications. Prereq: BME 661 or consent of instructor.

### **BME 670 BIOSOLID MECHANICS. (3)**

Application of laws of mechanics to study the behavior of human organ systems. Stress-strain analysis of soft and hard body tissues with emphasis on pulmonary and musculoskeletal systems. Viscoelastic properties. Prereq: Undergraduate engineering degree or consent of instructor.

### **BME 672 MUSCULOSKELETAL BIOMECHANICS. (3)**

Application of laws of mechanics to study behavior of human musculoskeletal system. Materials science of bone, muscle, tendon are integrated into static and dynamic analyses of isolated (e.g., foot, arm, and hand) and whole body segment. Prereq: PGY 502, ME 330 or consent of instructor.

### **BME 685 BIOFLUID MECHANICS. (3)**

Review of the rheology of circulatory processes in the body. Special emphasis on cardiovascular dynamics: pulsatile pressure and flow, vascular impedance, wave propagation/reflection, cardiac dynamics. Special topics. Lecture, three hours with periodic lab demonstrations. Prereq: Undergraduate engineering degree or consent of instructor.

### **BME 690 RESEARCH IN BIOMEDICAL ENGINEERING (Subtitle required). (1-3)**

Individual study related to a special research project. Intended for M.S. candidates who want a research project experience independent of their M.S. thesis work. This course cannot be used to satisfy residency credit requirements. Lecture, 1-3 hours; laboratory, 3-6 hours per week. May be repeated to a maximum of six credits. Prereq: Consent of instructor and graduate standing in BME.

### **BME 699 SPECIAL TOPICS IN BIOMEDICAL ENGINEERING (Subtitle required). (1-3)**

Special topics in biomedical engineering, addressed primarily in a lecture/discussion format. Presentation of focused or specialized topics that are not available in standard courses. Lecture, three hours; laboratory 0-2 hours per week. May be repeated to a maximum of nine credits. Prereq: Consent of instructor and graduate standing in BME.

### **BME 748 MASTER'S THESIS RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

### **BME 749 DISSERTATION RESEARCH. (0)**

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

### **BME 766 MANAGEMENT OF TECHNOLOGY. (3)**

Successfulness in developing new technologies relies upon knowing which technology advance, the ultimate scientific limits of that technology, and the forecasted rate of technological change. This course presents curricula that explore the direction of technological change and how this affects the rate and extent of innovation.

### **BME 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

### **BME 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours.

### **BME 769 RESIDENCE CREDIT FOR THE DOCTOR'S DEGREE. (0-12)**

May be repeated indefinitely.

### **BME 772 SEMINAR. (0)**

Review of current literature in the field of biomedical engineering, general discussion and presentation of papers on research in biomedical engineering. Lecture, one hour per week. Required for all graduate students in biomedical engineering.

### **BME 774 GRADUATE BME SEMINAR. (0-1)**

Scientists and engineers present current research in biomedical engineering. Students are required to prepare for and deliver a seminar on their own research. May be repeated to a maximum of 4 credits. Prereq: Graduate standing in Biomedical Engineering or consent of instructor.

### **BME 777 ADVANCED STUDY PROJECT. (3)**

This is an independent study project, topic to be selected in consultation with the instructor. Purpose is to integrate all materials learned in the program and apply these principles to the solution of an actual problem in biomedical engineering technology. Prereq: Permission of instructor and completion of year 1 PBME studies.

### **BME 781 SPECIAL PROBLEMS IN BIOMEDICAL ENGINEERING (Subtitle required). (1-3)**

Discussion of advanced and current topics in biomedical engineering. Individual work on research problems of current interest. May be repeated to a maximum of nine credits. Lecture/laboratory hours, variable. Prereq: Approval of instructor.

### **BME 790 RESEARCH IN BIOMEDICAL ENGINEERING. (1-9)**

Graduate research in any area of biomedical engineering, subject to approval of the Director of Graduate Studies. May be repeated to a maximum of nine hours. Prereq: Consent of the Director of Graduate Studies.

## **BMI Biomedical Informatics**

### **BMI 633 INTRODUCTION TO BIOINFORMATICS. (3)**

This is an introductory course aimed at a multi-disciplinary audience with an interest in applying the principles of information sciences for obtaining insight into biological processes and systems that can eventually be used to make informed decisions.

### **BMI 730 PRINCIPLES OF CLINICAL INFORMATICS. (3)**

This course offers an overview of Clinical informatics, which is the application of informatics principles, methods, and tools to support healthcare practice and research activities as well as business processes.

### **BMI 731 BIOMEDICAL INFORMATION RETRIEVAL. (3)**

This class is an introductory information retrieval class that is focused on biomedical information search engines. Basic IR concepts such index construction, optimization, visualization, and evaluation will be covered. In addition to core IR contexts, students will have an opportunity to learn about search engines, web crawling, and some Web 2.0 technologies based on hands-on exercises and assignments with a focus on techniques that can be used to access, retrieve, organize, and present information. Students will employ an open source indexing engine (e.g., Lemur or Lucene or something similar) to understand how back-end of retrieval engine is effectively and efficiently structured.

### **BMI 732 BIOMEDICAL ONTOLOGIES AND SEMANTIC WEB TECHNIQUES. (3)**

This course is a conceptual introduction to biomedical ontologies and ontological modeling in biomedicine through Semantic Web techniques. Students will learn about RDF, OWL, description logics, and SPARQL and their role in designing ontologies. Biomedical terminologies such as GO, ICD-9/10, SNOMED-CT, and MeSH will be discussed as case studies. Prereq: MA 123 (or equivalent) or consent of the instructor.

### **BMI 733 BIOMEDICAL NATURAL LANGUAGE PROCESSING. (3)**

This course is a technical introduction to the area of biomedical natural language processing (NLP). In the field of biomedical informatics, this focuses on the common steps in extracting information from textual data that arises from biomedical literature and clinical documents. Topics involve n-gram models, tokenization, POS tagging, and parsing. Prereq: MA 123 (or equivalent) or consent of instructor.

### **BMI 734 INTRODUCTION TO BIOMEDICAL IMAGE ANALYSIS. (3)**

This class aims to give students a broad overview of biomedical image analysis and imaging informatics. We will introduce the state-of-the-art knowledge to understand, develop, and apply existing methods and software to handle biomedical image data to extract quantitative matrices.

### **BMI 735 INTRODUCTION TO BIOIMAGE INFORMATICS. (3)**

This class provides an introduction to searching and retrieval in biomedical image analysis and imaging informatics. We will introduce some advanced biomedical image analysis, searching, and retrieval algorithm for fast and efficient image searching and retrieval. Prereq: BMI 734: Introduction to Biomedical Image Analysis.

## BSC Behavioral Science

### **BSC 152 YOU, ME, MYSELF, AND I: PSYCHOSOCIAL INFLUENCES ON HEALTH.** (3)

How do our individual thoughts, behaviors, and social interactions influence our health and wellbeing? In this interdisciplinary course, students explore problems that link psychosocial factors (such as cognition, beliefs, self-concept, social support, behavior change, stress, and decision-making) with health outcomes (such as depression, heart disease, addiction, obesity, and mortality). For those interested in pursuing careers in the health care professions, this course provides a basic understanding of the behavioral concepts that are included in professional school admissions tests as well as board certification tests. Prereq: None. Registration with consent of the course instructor.

### **\*BSC 251 THE ENEMY WITHIN: CULTURE AND HEALTH BEHAVIOR.** (3)

This seminar will acquaint students with the major social, cultural, and behavioral phenomena that affect our reactions to variations in our health. Students will move from a knowledge of basic human universal psychological processes to the social and cultural factors shaping our perceptions of health. This constitutes the basic conceptual framework and theories of social science field of medical anthropology. With this conceptual foundation, the rest of the semester will be spent investigating the impact of culture on health and health care. Concurrent with the conceptual material the use of Rapid Appraisal (RA) will be introduced and mastered. Teams of four students will select a health condition/issue immediate to their domiciliary unit (dorm, apartment complex, fraternity/sorority house), e.g., intimate partner violence/date rape, drugs, sleep deprivation, etc. These teams will then spend the rest of the semester researching/discussing their topic and conducting a Rapid Appraisal of it in their particular setting, and writing a "scope/solution" paper. Each team's product will be discussed and appraised by the rest of the group. Assessment will focus on application and synthesis of medical anthropology concepts, with writing the focus of examinations and papers. The following are some of the questions we will explore: How do we decide whether we are healthy/ill? Why is "normal" health culture-specific? How does culture influence human perception? How does culture contribute to disparities in health? How can medical anthropological concepts and methods be used to assess a health issue? Prereq: None. Registration with consent of the course instructor.

### **BSC 301 DOCTORING UNDERCOVER: SHADOWING AND THE CULTURE OF MEDICINE.** (3)

This experiential learning course consists of three parts: 1) an interdisciplinary introduction to studies of the "culture" of Western medicine; 2) a placement at a shadowing site and directed observational activities related to the historical, social, and interpersonal contexts that shape contemporary health care; and 3) a unique contribution to a collaborative activity guide for other undergraduates who wish to shadow. In this writing intensive course, students learn to take an active role in the shadowing process by reflecting on their experiences and designing innovative educational materials for their peers. For those interested in pursuing careers in the health care professions, this course provides an opportunity to observe and analyze behavioral health concepts in clinical settings while also enhancing students' application materials for professional school. Prereq: None. Registration with consent of the course instructor.

### **BSC 331 BEHAVIORAL FACTORS IN HEALTH AND DISEASE.** (3)

The study of human behavior relating to health and disease and the organization of health care as a social system. Selected concepts from the psychological and social sciences are presented in a biobehavioral frame of reference and applied to the consideration of specific problems.

### **BSC 425 INTRODUCTION TO INTEGRATIVE AND ALTERNATIVE MEDICINE.** (3)

This fully online course will delve into topics at the forefront of integrative and alternative medicine. Students will explore the history and organization of fields such as "functional," "integrative," and "complementary and alternative" medicine, and examine the content and philosophies of these fields. Students will learn about topics such as direct-to-consumer genetic testing, the use, regulation, and safety of vitamin, mineral, and botanical supplementation in personalized medicine, and the influence of ancient healing traditions such as Traditional Chinese Medicine and Ayurveda on Western medicine. This course will give students an introduction to an integrative and alternative view of health and healing. Prereq: Junior classification; undergraduate credit or permission of the instructor.

### **BSC 534 ETHICS AND RESPONSIBILITY IN CLINICAL RESEARCH.** (3)

Clinical scientists need a sound understanding of the ethical principles guiding the conduct of research projects. This course will address issues relevant to ethically sound study design, responsible conduct of research and scientific misconduct. Students will also complete human subjects protection training and learn to conduct research in an ethical manner. During this course, students will engage in both in-class lecture and discussion sessions as well as out of class learning activities (outlined below). The final project for graduate students for this course will serve as a practical application of what is learned during the course to students' stated research interest. The goal of this course is to provide an overview of ethical considerations when conducting and reporting clinical research, as well as to provide experience in the practice and application of ethics to clinical science.

It is assumed by the course directors that students in this course are either actively engaged in clinical research or intend to be involved in clinical research in the near future. This course has been designed around the principle that practical knowledge about how to conduct ethical research should be the focus. A second key principle of this course is that it is student-centered,

meaning that it emphasizes the involvement of students in applying the concepts of ethics to their own research interests. The course activities are intended to promote the ethical application of research concepts to students' areas of interest and to foster practical knowledge that supports students' own research agendas. The diverse interests and experiences of students and faculty offer opportunities to learn from each other. Prereq: This course is designed for scholars pursuing research training in clinical and translational science to integrate and apply knowledge obtained in previous training. Permission is required from the Course Director for entry into the class.

### **BSC 620 ORIENTATION TO MEDICAL BEHAVIORAL SCIENCE.** (1)

This course offers a structural exposure of students to the varieties of basic and clinical science research and current issues in health care policy under discussion at the University Medical Center. Following weekly attendance at research seminars and clinical rounds, students will present their observations in follow-up discussion groups. May be repeated to a maximum of three credits. (Same as CPH 841.)

### **BSC 625 FUNDAMENTALS OF BIOSTATISTICS FOR CLINICAL AND TRANSLATIONAL SCIENCE.** (3)

This course is designed to support clinical and translational science students in acquiring an applied understanding of the biostatistical tools and techniques commonly used in the conduct of clinical and translational science research. Through a combination of lectures, readings, demonstrations, discussions, and self-study modules, students will understand and appreciate measurement and statistical challenges that are common to clinical and translational science. Study design, selection of independent and dependent variables, and the selection and use of statistical techniques will be the focus of the course. The course activities are intended to promote the application of biostatistics to research concepts in the students' areas of interest and to foster practical knowledge that supports students' own research agendas. If the course is listed as section 001, the format of the course is a standard lecture/discussion. If the course is listed as section 002 the format of the course is a hybrid, with approximately 50% in the classroom and 50% in an on-line format. Prereq: This course is designed primarily for graduate students pursuing research training in clinical and translational science and who have been admitted to the Clinical and Translational Science training program. All students need permission of the instructor to enroll in this course.

### **BSC 626 SURVEY OF HEALTH PSYCHOLOGY.** (3)

A survey of the field of health psychology. It will explore the ways in which social and psychological research contribute to an understanding of health and illness behavior. Prereq: Graduate or professional standing and consent of instructor. (Same as PSY 626.)

### **BSC 731 METHODS AND TECHNOLOGIES IN CLINICAL AND TRANSLATIONAL SCIENCE.** (3)

This overview course is designed to introduce the student to the major methods and technologies of clinical and translational science (CTS) with an emphasis on human subjects research. Students learn these core methodologies through classroom discussions, readings, and written portfolio activities that challenge them to apply methodological concepts to their own areas of research interest. Specifically, the course teaches students how to formulate research questions and write literature reviews; apply CTS research methods, including experimental, survey, and qualitative research methodologies, to diverse areas of research by aligning appropriate methodologies to research questions of interest, and enhance interdisciplinary communication skills. It is assumed that students are engaged in research that is consistent with CTS or will become engaged in such research in the near future. Prereq: Graduate standing. Permission is required from the Course Director for entry into the class.

### **BSC 732 INTERDISCIPLINARY PROTOCOL DEVELOPMENT.** (3)

This course will introduce students to the processes involved in the development and implementation of interdisciplinary research. Students will be introduced to key aspects of the leadership, communication and teamwork involved in interdisciplinary research. Students will also be introduced to the structure and functioning of the NIH and the NIH grant application and review process. Finally, students will apply their knowledge regarding the research methods and technologies of clinical and translational science to develop an NIH-format research grant application that addresses a research topic in their own area of interest. This course is intended for advanced graduate or professional students pursuing focused research training in one of the degree or certificate programs available in clinical and translational science. It is expected students will have completed the course in Methods and Technologies in Clinical & Translational Science (BSC 731) prior to this course. Prereq: BSC 731 and graduate standing in the clinical and translational science program.

### **BSC 733 SEMINAR IN CLINICAL AND TRANSLATIONAL SCIENCE.** (1)

This seminar course is designed to orient students to clinical and translational research community and activities at the University of Kentucky and to incorporate a multidisciplinary cooperative approach to clinical and translational research. Students are expected to apply their knowledge of effective scientific communication, responsible conduct of research, and methods and technologies of clinical and translational science to ongoing discussions. The course will consist of seven evening seminars focusing on different topics of clinical and translational research. Students will be required to present a description of their research interests and activities during one seminar. Homework assignments will require students to summarize the key elements of each seminar as related to clinical and translational research and the relevance of these issues to their own research interests and career plans. Active participation by all members is expected. Prereq: Graduate standing.

**BSC 746 RESEARCH ETHICS AND DILEMMAS. (3)**

This class will utilize case studies for debate, class participation, and papers to help students gain skills to recognize and resolve research dilemmas. Objectives of this class include: (1) understand basic elements of ethical dilemmas; (2) to understand basic ethical theories and frameworks for solving ethical dilemmas; (3) to examine ethical dilemmas within a behavioral or medical science research context; and, (4) to examine ways of eliminating bias and promoting objectivity in a behavioral or medical science research context.

**BSC 750 HISTORY OF MEDICINE AMONG AFRICAN AMERICANS: IMPLICATIONS FOR HEALTH DISPARITIES. (3)**

This course on the history of medicine among African Americans seeks to provide an understanding of the roots of the African American health deficit. The course will enable students to: 1) Articulate how the earliest encounters between African Americans and Western medical researchers set the stage for health inequities. 2) Engage in and direct thought-provoking discussions of how racist pseudoscientific ideas remain in contemporary society that contributes to health disparities among African Americans. 3) Critically examine the theory of eugenics and social Darwinism and how they are used to justify experimental exploitation and poor medical treatment of African Americans. 4) Understand and identify how historical and contemporary medical issues have contributed to medical ethics of distrust in the African American community.

**BSC 755 RACE, RACISM AND HEALTH DISPARITIES AMONG BLACKS IN THE U.S. (3)**

This course on racism and health disparities is designed to support graduate studies in the social sciences, allied health, and medical disciplines. This course will briefly review the biological and social history of race in America; critique emerging views on the genetics of race; discuss how the classification/mechanism of "race" operates to contribute to health disparities; explore theoretical frameworks of racism and related measures; differentiate between the terms "health inequities", "health inequalities" and "health disparities"; and, examine the biopsychosocial impact of racism on health. Although it is recognized that the discussion of race, racism and health is relevant to other "racially-classified social groups" the course will draw primarily upon the experience of Blacks in the U.S.

**BSC 760 AGING, HEALTH AND DECISION MAKING. (3)**

This is a doctoral level seminar that provides an overview of behavioral decisional theories (e.g. rational choice, multiattribute utilities models, naturalistic decision-making, ethnographic decision models, Janis and Mann's conflict theory, information processing theory, heuristic models, process tracing models, etc.) and examines research applications of those theories to the health of older adults. Research focuses on decision made by physicians, older adults, family caregivers and policy makers. A variety of applications include such decision domains as preventative screening, retirement and financial planning, other medical treatments, self-care, seeking medical care, institutionalization, end-of-life, etc.

**BSC 763 WOMEN'S TRAUMA AND MENTAL HEALTH. (3)**

This course will examine the research on intimate partner violence, mental health, and substance abuse among women. Clinical and legal interventions will also be discussed. Although knowledge of at least basic statistics would be helpful, it is not required for this class.

**BSC 764 SEMINAR IN HEALTH INEQUITIES. (3)**

This course is designed to critically examine undeniable inequities in the distribution of morbidity and mortality. Students explore linkages between disease burdens and the social, economic, and cultural contexts of our rapidly changing world by integrating local, national and international perspectives from social and biomedical sciences. Prereq: Graduate studies in the social sciences and permission of the instructor.

**BSC 765 RESEARCH PROBLEMS IN MEDICAL ANTHROPOLOGY. (3)**

(1) Advanced history and theory of medical anthropology; (2) research design, field work, analysis of data in medical anthropology. Prereq: Consent of instructor. (Same as ANT 765.)

**BSC 766 CONCEPTS IN MEDICAL SOCIOLOGY. (3)**

A review of sociological concepts and methods which have been applied to the study of health and medicine; the contributions of medical sociology to general sociological theory and to concepts and research on health-related problems of society. Prereq: Consent of instructor. (Same as SOC 766.)

**BSC 770 PSYCHOSOCIAL ISSUES IN HEALTH AND AGING. (3)**

This course will focus on psychosocial issues related to the physical health and functioning of older adults. Topic areas include: theories of aging; age-appropriate research designs; age-related cognitive personality, social and family changes which influence physical health; health behavior and education of older adults; and selected chronic conditions, e.g. Alzheimer's disease, arthritis, depression, diabetes and stroke.

**BSC 772 TOPICAL SEMINAR IN MEDICAL BEHAVIORAL SCIENCE. (1-3)**

Advanced study of selected topics of current importance in medical behavioral science. May be repeated to a maximum of six credits. Prereq: Consent of instructor.

**BSC 773 PSYCHOSOCIAL ONCOLOGY. (3)**

This course will introduce the student to the field of psychosocial oncology. Historical and recent developments in the application of behavioral science knowledge and methodology to the understanding and treatment of cancer and the cancer patient will be examined. The role of psychosocial factors in the etiology, prevention, and treatment of cancer will be explored. Emphasis will be placed upon the interaction of biological, psychological, and social factors throughout the course of cancer. Prereq: Graduate standing.

**BSC 774 FOOD AND FOOD SECURITY IN A CHANGING WORLD. (3)**

This cross-cultural seminar explores the biocultural interactions among food, human biology, and the social, cultural, political and economic factors that shape food-related behaviors and nutritional status of populations. Topics include the social role of food, food beliefs and ideology, the political economy of malnutrition, development strategies and food security, and methods in nutritional anthropology research. Readings and discussions are research focused and approach issues from a variety of theoretical perspectives. Prereq: ANT 601 or consent of instructor. (Same as ANT 774.)

**BSC 776 SEMINAR IN DEPENDENCY BEHAVIOR. (3)**

The course is designed to explore theories of dependency behavior by examining the concept of dependency as it can be applied to the study of various phenomena including alcohol use and abuse; dependence on other psychoactive substances; institutional dependency; dependency in work settings; and poverty and welfare. Prereq: Consent of instructor. (Same as ANT/PSY/SOC 776.)

**BSC 778 BEHAVIORAL FACTORS IN SELECTED DISEASES. (3)**

An exploration of behavioral science concepts which bear on various physical illnesses. The perspective of the course is interdisciplinary, using concepts from the various behavioral science disciplines. Prereq: Consent of instructor.

**BSC 779 BEHAVIORAL FACTORS IN DEATH AND DYING. (3)**

Behavioral concepts are examined which explain reactions of individuals, collectivities and social institutions to the phenomenon of death. Prereq: Consent of instructor.

**BSC 782 WOMEN'S HEALTH AND AGING. (3)**

This class explores the issues related to health and well-being among older women. Using a multidisciplinary approach that blends humanities, social and medical science and public policy, the course examines social, economic and cultural contexts of chronic physical and mental health. Prereq: Upper level/graduate class in social science. (Same as GRN 782.)

**BSC 787 BIOBEHAVIORAL PERSPECTIVES ON DRUG AND ALCOHOL ABUSE AND DEPENDENCY. (3)**

This seminar course is designed to survey major topics, concepts and issues pertinent to the field of drug and alcohol abuse and dependence. The course will consist of 14 weekly presentations by instructors followed by open discussion of the presentation and assigned readings by class members. Active participation by all members is expected. Each weekly presentation is designed to provide a general overview of the current state of knowledge (e.g. theory, methods, ethics, review of classic and/or exemplary studies) in a given area of drug and alcohol abuse and dependence research. Discussions are intended to integrate the information across traditional disciplinary boundaries. Prereq: Graduate standing.

**BSC 788 DRUG ABUSE: CONTEMPORARY THEORIES AND ISSUES. (3)**

This course is designed to familiarize students with major concepts and current issues in the field of substance abuse research.

**BSC 790 RESEARCH IN MEDICAL BEHAVIORAL SCIENCE. (1-6)**

Individually directed research and reading in particular aspects of medical behavioral science under the supervision of one or more members of the faculty. May be repeated to a maximum of 12 hours. Prereq: Consent of instructor.

**BSC 814 PATIENTS, DENTISTS AND SOCIETY I. (1)**

This course aims to orient the student to the place health and health professions play in modern cultures. Recognition of their own social assumptions and values and those of persons of different backgrounds is encouraged. Understanding, predicting, and changing dental patient behavior from a social standpoint is emphasized. (Same as CDE 814.)

**BSC 815 FIRST-YEAR ELECTIVE, BEHAVIORAL SCIENCE. (1-3)**

With the advice and approval of his or her faculty adviser, the first-year student may choose approved electives offered by the Department of Behavioral Science. The intent is to provide the student an opportunity for exploration and study in an area which supplements and/or complements required course work in the first-year curriculum. Pass-fail only. Prereq: Admission to first year, College of Medicine.

**BSC 824 COMMUNICATION IN THE DENTAL HEALTH CARE SETTING. (1)**

This course aims to improve the student's ability to communicate with patients and the public in an empathetic and professional manner. Methods of obtaining necessary health information from all types of patients are taught. Prereq: Second year standing in the College of Dentistry. (Same as CDE 824.)

**BSC 825 SECOND-YEAR ELECTIVE, BEHAVIORAL SCIENCE. (1-4)**

With the advice and approval of his or her faculty adviser, the second-year student may choose approved electives offered by the Department of Behavioral Science. The intent is to provide the student an opportunity for exploration and study in an area which supplements and/or complements required course work in the second-year curriculum. Pass-fail only. Prereq: Admission to second-year medical curriculum and approval of adviser.

**BSC 850-899 FOURTH-YEAR ELECTIVE FOR MEDICAL STUDENTS. (1-6)**

With the advice and approval of the faculty adviser and the Student Progress and Promotions Committee, the fourth-year student may choose approved electives offered by the various departments in the College of Medicine. The intent is to provide the student an opportunity to develop his fund of knowledge and clinical competence. Prereq: Admission to the fourth year, College of Medicine and/or permission of the Student Progress and Promotions Committee.

**Approved electives:****BSC 850 ELECTIVE IN BEHAVIORAL SCIENCE****BSC 880 TREATMENT OF DENTAL FEAR**

---

**BST Biostatistics**

---

**BST 230 STATISTICAL THINKING IN PUBLIC HEALTH. (3)**

BST 230 provides students with an introduction to statistical concepts that are important for solving real-world public health problems. This course will present statistical principles and associated scientific reasoning underlying public health practice and health policy decision-making. Topics include data visualization, summary statistics, statistical inference, study design and data analysis, and strategies for articulating and evaluating claims using statistical constructs. Prereq: UK Core course in Quantitative Foundations.

**#BST 600 INTRODUCTION TO BIostatistical METHODS. (3)**

BST 600 covers basic statistical methods that are commonly encountered in health-related research. Major topics include descriptive statistics, estimation and hypothesis testing for means and proportions, correlation, and regression. Prereq: College level algebra or equivalent.

**BST 655 INTRODUCTION TO STATISTICAL GENETICS. (3)**

BST 655 presents an introduction to the statistical methodologies used today to investigate genetic susceptibility to complex diseases. The course focuses on linkage and association analysis with applications to real-world data. Commonly used (and freely available) software will be presented and used throughout. Because the field is constantly evolving, a focus of the material for this course will be recent statistical human genetics literature. Prereq: STA 580 or equivalent. (Same as STA 655.)

**BST 675 BIOMETRICS I. (4)**

This course, the first of a two-semester sequence in biometrics, introduces probability, discrete random variables, continuous random variables, joint distributions, and sampling distributions. Prereq: STA 580 and MA 114 or equivalent.

**BST 676 BIOMETRICS II. (4)**

This course, the second of a two-semester sequence in biometrics, introduces techniques for constructing and evaluating point estimators, hypothesis testing procedures, and interval estimators. Prereq: BST 675.

**BST 681 LINEAR REGRESSION. (3)**

This course, the first in a two-semester sequence in regression modeling, covers linear regression models for normally distributed outcomes. The course will cover simple and multiple linear regression, estimation, interpretation, hypothesis testing, model building and diagnostics, matrix algebra for regression, and an introduction to design of experiments. The course will include the use of computing tools to apply these models to real data. Prereq: STA 580 or consent of instructor.

**BST 682 GENERALIZED LINEAR MODELS. (3)**

This course, the second in a two-semester sequence in regression modeling, covers regression models for outcomes which are not normally distributed, such as binary and count data. The course will cover the generalized linear model framework, multivariate maximum likelihood theory, logistic regression, Poisson regression, and nominal and ordinal logistic regression models, as well as approaches for building and checking these models. The course will include the use of computing tools to apply these models to real data. Prereq: BST 675, BST 681.

**BST 693 STATISTICAL PRACTICE IN PUBLIC HEALTH. (3)**

To provide an introduction to statistical practice in public health including improved statistical communication (how to ask good questions in a consulting session, writing analysis plans, and how to express results both orally and in writing), programming for reproducibility and data ethics, and utilizing statistical methodology for problem solving in public health research. Prereq: CPH 630/STA 681 or equivalent and CPH 535 or equivalent.

**BST 701 BAYESIAN MODELING IN BIOSTATISTICS. (3)**

This course provides an introduction to Bayesian ideas and data analysis applied to the biosciences. The course illustrates current approaches to Bayesian modeling and computation in biostatistics. Prereq: BST 682 and BST 676 or equivalent.

**BST 713 CLINICAL TRIALS. (3)**

Design and analysis of Phase I-III clinical trials, interim monitoring of trials, sample size, power, crossover trials, bioequivalency, mixed models, and meta analysis. Coreq: STA 603. (Same as STA 653.)

**BST 740 SPATIAL STATISTICS. (3)**

Course will cover risks and rates, types of spatial data, visualizing spatial data, analysis of spatial point patterns, spatial clustering of health events based on case control studies, and based on regional counts, linking spatial exposure data to health events through regression modeling, Bayesian spatial analysis. Prereq: BST 682.

**BST 761 TIME TO EVENT ANALYSIS. (3)**

Analysis of time to event data encountered in Public Health and Medicine. Survival distributions and hazard functions. Time to event analysis using Kaplan-Meier method and life-table method. Accelerated failure time model, logit model for discrete data, complimentary log-log model, and proportional hazards model. Tests for goodness-of-fit, graphical methods, and residual and influence statistics. Time-dependent covariates, non-proportional hazards, left truncation, and late entry into the risk set. Sample size and power, competing risks, and time to event analysis with missing data. Prereq: STA 580 or equivalent.

**BST 762 LONGITUDINAL DATA ANALYSIS. (3)**

This course presents statistical techniques for analyzing longitudinal studies and repeated measures experiments that occur frequently in public health, clinical trials, and outcomes research. This course will cover linear mixed models, generalized linear mixed models and an introduction to nonlinear models as they apply to the analysis of correlated data. Prereq: BST 682 and BST 676. (Same as STA 632.)

**BST 763 ANALYSIS OF CATEGORICAL DATA. (3)**

Multinomial and product-multinomial models; large-sample theory of estimation and testing, Pearson chi-square and modified chi-square statistics, Pearson-Fisher Theorem, Wald Statistics and generalized least squares technique; applications to problems of symmetry, association and hypotheses of no interaction in multi-dimensional contingency tables. Prereq: STA 603 and STA 606. (Same as STA 665.)

**BST 764 APPLIED STATISTICAL MODELING FOR MEDICINE AND PUBLIC HEALTH. (3)**

This course introduces some useful statistical models not typically encountered in the core course of a master's or doctoral biostatistics curriculum. These include finite mixture models, nonparametric regression models, covariance-based models, and stochastic models. Prereq: BST 682 and BST 676.

**BST 765 MISSING DATA METHODOLOGY FOR PUBLIC HEALTH. (3)**

This course surveys methods for analyzing data with missing observations. This includes methods for data missing completely at random including hot deck cold deck, mean substitution, and single imputation; methods for data missing at random including multiple imputation and weighted estimating equations and methods for data missing not at random including pattern mixture models, selection models, and shared random effects models. Prereq: BST 676 and BST 762.

**BST 766 ANALYSIS OF TEMPORAL DATA IN PUBLIC HEALTH. (3)**

This course surveys methods for analyzing public health data collected over time. Methods covered include smoothing time series data, the modeling of stationary time series for Gaussian, dichotomous, and case count responses, methods for detecting the clustering of disease over time, and methods for the surveillance of infectious diseases in real time. Prereq: BST 682 and BST 676.

---

**BTH Bioethics**

---

**\*BTH 405 BIOETHICS ON FILM. (3)**

This 3-credit course uses a variety of films (some documentaries) to examine core bioethics issues and principles comprising Autonomy, Beneficence, Non-Maleficence and Justice. Core concepts in Medical Professionalism and Medical Humanism will also be explored. The films selected help to illustrate complex bioethics issues within our current social and medical constructs.

---

**BVI Blindness and Visual Impairment**

---

**\*BVI 580 INTRODUCTION TO VISUAL IMPAIRMENTS. (3)**

This course will provide an introduction to the educational programs and services for students with blindness and visual impairments. Content of this course will focus on the historical foundation of the field, the developmental and psychosocial aspects of individuals with visual impairments, an overview of legislation, influential agencies, and service delivery methods. The impact of vision loss on early childhood development will also be covered. Prereq: Admission to the Teacher Preparation Program in Visual Impairments, Orientation and Mobility program, or instructor permission required.

**\*BVI 582 ANATOMY AND PHYSIOLOGY OF THE EYE. (3)**

This course will cover the anatomy and physiology of the eye, including visual development. Causes of ocular and neurological visual impairment will be addressed, treatments, and their impact on learning. Course topics will include optics, low vision devices and services, environmental adaptations, and interpreting eye reports. Learners will have the opportunity to directly observe a low vision evaluation and will learn the components of a functional vision assessment. Prereq: Admission to the Teacher Preparation Program in Visual Impairments, Orientation and Mobility program, or instructor permission required.

**\*BVI 583 BRAILLE CODES I. (3)**

This course is designed to teach the literary braille code. Students will become proficient in transcribing both uncontracted and contracted braille utilizing a Perkins Braille, slate and stylus, and six-key entry computer software with proper formatting. Students will also learn appropriate techniques for reading braille both tactually and visually. In addition, the history of the braille code will be covered as well as current resources. Prereq: Admission to the Teacher Preparation Program in Visual Impairments, Orientation and Mobility program, or instructor permission.

**#BVI611 TEACHING METHODS FOR STUDENTS WITH VISUAL IMPAIRMENTS. (3)**

This course is designed to examine how to teach and modify the core curriculum for students who are blind or visually impaired. Topics will include: adaptation of general education classroom materials, IEP development and implementation, lesson planning, and braille literacy. Prospective teachers will develop organization skills and strategies necessary to be efficient in delivery of services as a teacher of the visually impaired. Prereq: Successful completion of BVI580, Admission to the Teacher Preparation Program in Visual Impairments, or instructor permission.

**#BVI614 BRAILLE CODES II. (3)**

This course studies advanced braille codes with a special emphasis on braille mathematics utilizing Unified English Braille (UEB) and the Nemeth Code. Other codes covered are music and foreign language (French, German, and Spanish). Braille formats will also be taught, including how to correctly transcribe and format materials for braille users, including preparing worksheets and tests for students. Competency in using the Cranner Abacus will also be mastered. Prereq: Successful completion of BVI583 (Braille Codes I) or proof of competency in literary braille along with admission to the Teacher Preparation Program in Visual Impairments, or instructor permission.

**#BVI615 ASSISTIVE TECHNOLOGY FOR STUDENTS WITH VISUAL IMPAIRMENTS. (3)**

This course introduces a wide variety of technologies for people who are blind or visually impaired. Students will learn about Universal Design for Learning (UDL) as it relates to technology, as well as proprietary software and hardware. Technologies covered include, but are not limited to: Screen readers, screen magnification, electronic notetakers, refreshable braille displays, braille translation programs, magnification hardware, scanning and OCR programs, and accessible digital book options. A wide variety of computers, tablets, and smart phone options will be explored. Instructional strategies for teaching technology skills will be emphasized. Prereq: Admission to the Teacher Preparation Program in Visual Impairments or instructor permission.

**#BVI616 EXPANDED CORE CURRICULUM FOR BLIND AND VISUALLY IMPAIRED. (3)**

The Expanded Core Curriculum (ECC) is the body of knowledge and skills that are needed by students with visual impairments due to their unique needs. This course will explore all nine areas of the ECC including: compensatory or functional academic skills, orientation and mobility, social interaction skills, independent living skills, recreation and leisure skills, career education, use of assistive technology, sensory efficiency skills and self-determination. Participants will have the opportunity to observe and work with students in a summer program and teach skills from the ECC. Prereq: Admission to the Teacher Preparation Program in Visual Impairments or instructor permission.

**#BVI617 VISUAL IMPAIRMENTS AND MULTIPLE DISABILITIES. (3)**

This course is designed to provide students with knowledge and skills necessary to design and implement programs for persons who have visual impairments and additional disabilities. Topics include assistive technology, augmentative and alternative communication, literacy instruction, sensory processing, adaptive behavior, and self-help skills. An emphasis will be placed on adaptations that enhance functioning for persons with developmental delays, autism, medical conditions, deaf-blindness, communication disorders, and those with common syndromes and eye disorders related to multiple disabilities. Prereq: Admission to the Teacher Preparation Program in Visual Impairments or instructor permission.

**#BVI618 ASSESSMENT OF STUDENTS WITH VISUAL IMPAIRMENTS. (3)**

This course covers various types of assessments used to evaluate students who are blind or visually impaired. Participants will discuss testing and assessment including the development of standardized tests and their applicability for individuals with visual impairments, as well as alternate assessments. Students will practice assessing and planning educational programs for students with visual impairments by completing a Functional Vision/Learning Media Assessment, as well as assessments in assistive technology and the Expanded Core Curriculum. Prereq: Admission to the Teacher Preparation Program in Visual Impairments or instructor permission.

**#BVI620 FOUNDATIONS OF ORIENTATION AND MOBILITY. (3)**

A fundamental course in the history and development of Orientation & Mobility programs, educational and rehabilitation models, and mobility systems. Philosophies, practices, standards, and ethics of O&M will be also discussed. Prereq: Admission to the Orientation and Mobility Program or instructor permission is required.

**#BVI622 ADVANCED SKILLS AND TECHNIQUES IN ORIENTATION AND MOBILITY. (2)**

The course will focus on advanced skills and techniques used by individuals with visual impairments for independent travel in business and complex environments. Students will have practical experience in the use of the long cane and travel under blindfold and vision loss simulators. Students will gain experience in planning lessons and teaching skills to each other under instructor supervision. Prereq: Admission to the Orientation and Mobility program and instructor permission.

**#BVI623 ORIENTATION AND MOBILITY FOR CHILDREN. (3)**

The course will address the impact and effects of a visual impairment on the overall development of children with visual impairments. Course topics will include information on locomotion, concept development, O&M skill acquisition and performance for children with visual impairments. Instructional methods, strategies, and materials for teaching Orientation &

Mobility concepts and skills will also be covered. Prereq: Admission to the Orientation and Mobility program and instructor permission.

**#BVI624 TECHNOLOGY IN ORIENTATION AND MOBILITY. (1)**

The course will be an introduction to the use of electronic travel aids and electronic orientation aids as a secondary mobility system for individuals with visual impairments. The advantages and disadvantages of using electronic travel devices will be identified along with instructional strategies to incorporate the use into lessons. There will be hands-on experience with using electronic devices with an emphasis on the use of cellphone applications. Prereq: Admission to the Orientation and Mobility Program or instructor permission is required.

**#BVI626 METHODS IN ORIENTATION AND MOBILITY. (3)**

The course will address a variety of topics, strategies, and approaches related to Orientation and Mobility instruction for individuals with visual impairments. Content will focus on adult rehabilitation, low vision, and low vision devices, mobility systems, echolocation, and Flash Sonar. The course content will also include instructional approaches used to assessing environments, teach complex travel environments and intersections, adapt for adverse weather conditions, and use various transportation systems. Prereq: Admission to the Orientation and Mobility program and instructor permission.

**#BVI627 ORIENTATION AND MOBILITY FOR INDIVIDUALS WITH COMPLEX NEEDS. (3)**

The course will discuss the impact and effects of health conditions and other disabilities among individuals with visual impairments on concept development, learning, and skill acquisition on O&M. Course content will discuss the roles of professionals in addressing complex needs of individuals with visual impairments and deaf-blindness. It will focus on instructional methods and strategies to address complex needs in an educational and rehabilitation setting. Prereq: Admission to the Orientation and Mobility program and instructor permission.

**#BVI628 ASSESSMENT IN ORIENTATION AND MOBILITY. (3)**

The course will address strategies and methods for evaluating an individual with a visual impairment and assessing an individual's progress in Orientation and Mobility. Learners also will analyze assessment results to develop and implement appropriate O&M goals and objectives. Other content will include the strategies to select and analyze environments for safety, instruction, and assessment. Prereq: Admission to the Orientation and Mobility program and instructor permission.

**#BVI629 PRACTICUM IN ORIENTATION AND MOBILITY. (1)**

The practicum in Orientation and Mobility will consist of supervised, field-based experience in various settings ranging from preschool, school-based, adult rehabilitation, and geriatric settings. Site approval is required by the program coordinator. Prereq: Instructor permission.

**#BVI650 SPECIAL TOPICS IN BLINDNESS AND VISUAL IMPAIRMENTS. (1-9)**

In-depth study of a current and topical problem or issue in the area of blindness and visual impairment. A title is assigned each time the course is offered. Prereq: Admission to the Teacher Preparation Program in Visual Impairments, Orientation and Mobility program, or instructor permission.

**#BVI710 STUDENT TEACHING/FIELD EXPERIENCE IN VISUAL IMPAIRMENTS. (3-12)**

This is a supervised student teaching/field experience working with children, preschool through graduation age, who are blind or visually impaired. Candidates will apply best practices for working with children who are blind or have low vision, including those with additional disabilities. Successful completion of this course will demonstrate the candidate's ability to apply methods of teaching that include assessment, program planning and implementation, appropriate environmental and academic modifications, and instruction in the Expanded Core Curriculum. Candidates will also have to demonstrate appropriate classroom and/or caseload management strategies based on their placement. Prereq: Admission to the Teacher Preparation Program in Visual Impairments and approval by the Visual Impairment Program Faculty Chair.

**#BVI720 INTERNSHIP IN ORIENTATION AND MOBILITY. (1-6)**

Supervised professional experience for candidates in Orientation & Mobility will be offered in an educational or rehabilitation setting serving individuals with visual impairments. A minimum of 350 hours is required. This may be completed either on a full-time or part-time basis. Prereq: Completion of Orientation & Mobility coursework and instructor permission is required.

**CDE Community Dentistry**

**CDE 814 PATIENTS, DENTISTS AND SOCIETY. (1)**

This course aims to orient the student to the place health and health professions play in modern cultures. Recognition of their own social assumptions and values and those of persons of different backgrounds is encouraged. Understanding, predicting, and changing dental patient behavior from a social standpoint is emphasized. (Same as BSC 814.)

**CDE 815 FUNDAMENTALS OF DENTAL PUBLIC HEALTH. (2)**

Fundamentals of Dental Public Health is a first-year course designed to introduce student dentists to the dental specialty of Dental Public Health, to dental epidemiological concepts, terminology, and methods used in population-based health care. Community oral health problems in Kentucky and the United States will be reviewed. Emphasis will be placed on public health research, programming, and outcome evaluation strategies related to oral disease in populations.

**CDE 824 COMMUNICATION IN THE DENTAL HEALTH CARE SETTING. (1)**

This course aims to improve the student's ability to communicate with patients and the public in an empathetic and professional manner. Methods of obtaining necessary health information from all types of patients are taught. Prereq: Second year standing in the College of Dentistry. (Same as BSC 824.)

**CDE 826 DENTAL PRACTICE MANAGEMENT I. (1)**

This course is designed to present a range of dental practice models and introduce several elements of Practice Management. Students will become acquainted with concepts such as business plans, billing, collections, and risk management, and will have the opportunity to engage in guest lectures from outside experts in a range of legal and business fields.

**CDE 830 ADVANCED CONCEPTS IN DENTAL PUBLIC HEALTH. (1)**

Advanced Concepts in Dental Public Health is a third year course designed to help students develop the perspective and sensitivities of dentists practicing in the community. It examines the external environment and various factors that influence the oral health of the community including barriers to care. Financing mechanisms and workforce issues will be discussed. To provide a framework for the dental student's professional development, the instructional content builds on the concepts acquired in the first year introductory course in dental public health and presents concepts that will help the student dentist prepare for the Community-Based Dental Education Program. (CDE 841).

Course material is organized around current societal and dental health issues and health care delivery system trends in Kentucky and the United States. These issues and trends will be examined in the context of current national debates concerning access to oral health prevention and care for high risk populations and the associated health disparities to these populations. Prereq: Admission to College of Dentistry or consent of course director.

**CDE 840 ADVANCED COURSE ON THE TREATMENT OF SPECIAL PATIENTS. (1)**

In this course, dental students participate in preclinical seminars and dental treatment of mentally, medically and physically handicapped patients. Several phases of dental treatment of the special patient, such as sedation and general anesthesia, pharmacological evaluation and preventive dentistry, are covered. The course is individually designed based on the student's interest in treating compromised patients. Note: Scheduling for this course will take place outside of regularly scheduled clinic/class time. Enrollment minimum is one and maximum enrollment is four. Prereq: Consent of Course Director, Academic Performance Committee (APC), and Team Leader.

**CDE 841 DENTAL PRACTICE FIELD EXPERIENCE. (4-10)**

Students are provided a full-time, off-campus assignment to a dental practice environment. Students participate in practice management and patient treatment activities under the supervision of a dentist. They also participate in career plan development and in study of the community or region, particularly its health care delivery system and the role of dentistry in that system. Prereq: CDE 830.

**\*CDE 844 DENTAL PRACTICE MANAGEMENT II. (2)**

This course is primarily designed to give the student dentists, prior to graduation, practical, useful knowledge on establishing and maintaining a private dental practice. The course will be presented in an active learning format. Course sessions and activities will also include special sessions designed to introduce students to the current environment of dental practice, to organized dentistry in Kentucky, to the College's Alumni Association and to new developments and continuing education in the dental profession. Prereq: CDE 830 or consent of course director.

**CDE 850 EXTRAMURAL EXPERIENCES FOR STUDENT DENTISTS. (1-6)**

This course is designed to provide student dentists an experiential learning experience in a research program, clinical program, public health program, and/or institutional dental program. Career planning and service-learning are emphasized and coordinated with placement in a community-based site. Students learn by active participation in patient care and/or research, by observation and by discussion with mentors. Discussions and interviews with patients and dental residents and staff are also encouraged. This course provides an opportunity for selected students, based on their own career goals, to participate in short-term elective dental educational experience external to the students dentists' clinics. While the sites vary greatly, most experiences include some patient care experiences (observation, assisting, direct participation in patient care under the direct supervision of an approved mentor). Extramural experiences are customized for each student dentist. Prereq: Consent of Course Director, Academic Performance Committee (APC), and Team Leader.

**CDE 855 PUBLIC HEALTH DENTISTRY FIELD EXPERIENCE. (1-2)**

This course allows implementation of oral health promotion programs designed in CDE 830 in community settings. Prereq: Must be fourth year dental student.

**CDE 880 TREATMENT OF DENTAL FEAR. (1)**

This advanced course in the treatment of dental fear is intended to prepare the student to manage very fearful dental patients. Topics covered include etiologies, diagnosis and types, relaxation and distraction, and case histories. Note: Scheduling for the course will take place outside of regularly scheduled clinic/class time. Prereq: CDS 823 and consent of course director. (Same as BSC 880.)

**CDE 883 COMMUNITY-BASED SERVICE ELECTIVE. (1-5)**

This Community-Based Service elective is designed to give students greater opportunities to provide dental services to diverse, underserved populations. The goals of this course are to expand development of a service ethic and to meet some of the needs of populations who do

not have access to dental care. The majority of the time requirements for this course will be rotations to community clinics where students will work under the supervision of a College of Dentistry faculty providing dental services. Prereq: Third year standing and approval of College of Dentistry APC.

**CDE 884 INTERNATIONAL ELECTIVE. (1-3)**

This community-based service learning elective is designed to afford students greater opportunities to provide a broad spectrum of dental educational, clinical and public health services to diverse, underserved populations in an international setting. The majority of the time requirements for this course will be in a foreign country at designated community sites potentially working with other health care professionals. Activities will include but are not limited to assessing both community and patient needs and providing services based on the needs assessment and community goals. Students will work with UK approved organizations and under the direct supervision of a College of Dentistry faculty while in-country. Prereq: Admission to College of Dentistry.

**CDS Conjoint Dental Science****CDS 611 CHILD GROWTH AND DEVELOPMENT PART I. (2)**

A seminar course on nature and physiologic control of physical growth, for graduate students in dentistry. Prereq: Admission to a graduate program of the College of Dentistry; D.D.S. or D.M.D. degree.

**CDS 612 CHILD GROWTH AND DEVELOPMENT PART II. (2)**

A seminar course for graduate students in dentistry covering emotional and intellectual growth of children, and diseases and congenital anomalies of children. Prereq: Admission to graduate program of the College of Dentistry; D.D.S. or D.M.D. degree.

**CDS 613 CONTEMPORARY LEADERSHIP IN DENTISTRY. (1)**

The course will explore the current leadership dilemma in the health professions (specifically). The purpose is to prompt the extension of the role of oral health professionals to serve as leaders who engage a richer "public good" agenda as part of their role as doctor/teacher. The course will concentrate on important issues such as leadership development and theories of leadership; team building; personality preferences and leadership; peer assessment; transformational and transactional leadership; stress management; leading change; negotiation; and giving and receiving feedback. Prereq: Enrollment in one of the College of Dentistry's post-doctoral programs.

**CDS 631 DIAGNOSIS AND MANAGEMENT OF TEMPOROMANDIBULAR DISORDERS AND OROFACIAL PAIN. (1)**

This course provides information regarding the normal anatomy and function of the masticatory system and then highlights some of the common disorders related to dysfunction of this system. Emphasis is placed on temporomandibular disorders and how they are identified and management in the clinical practice. Other disorders associated with orofacial pain complaints will be discussed so that students are able to identify these conditions and successfully manage them or refer the patient to the appropriate health care provider. Prereq: Admission to dental graduate program; D.D.S. or D.M.D. degree.

**\*CDS 660 SPECIAL TOPICS: RESEARCH DESIGN, METHODOLOGY, AND DISSEMINATION. (2)**

This lecture/seminar course is designed to provide students with an overview of the basic principles of study design and protocol development, with a focus on clinical and translational research. It also is designed to expose students to the interplay between patient care and clinical/translational research and to provide the students with tools that will assist them in dissemination of their research findings. Prereq: Admission to a dental graduate program.

**CDS 670 ADVANCES IN ORAL AND MAXILLOFACIAL PATHOLOGY. (1)**

This course consists of 16 hours of lecture on the major disease topics in Oral and Maxillofacial Pathology including oral mucosal, salivary gland and bone pathology. Current classifications of these major categories will be presented and selected topics of current importance will be discussed. Prereq: Admission to dental graduate program.

**CDS 680 CLINICAL MEDICINE FOR POSTGRADUATE DENTAL STUDENTS. (2)**

This course is designed to provide graduate students and dental residents with an advanced understanding of how various medical disorders and medical therapies can affect oral health and the delivery of dental care. Prereq: Admission to dental graduate program.

**CDS 748 MASTER'S THESIS RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

**CDS 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours.

**CDS 812 NORMAL HUMAN GROWTH AND DEVELOPMENT. (1)**

This is a lecture course which introduces basic concepts of normal human growth and development from birth through adolescence. Lectures emphasize the time-dependent changes that normally occur during physical and psychological maturation. A special emphasis is directed toward basic knowledge and understanding of craniofacial growth and development of the teeth and occlusion. Prereq: Admission to the College of Dentistry or consent of course director.

**CDS 813 MANAGEMENT I: INTRODUCTION TO MANAGEMENT FOR THE DENTIST. (1)**

This is the first in a series of conjoint courses to improve the management of patients by student dentists. The course is co-directed by the patient care Team Leaders. Special didactic and clinical activities are included to provide the student with an introduction to clinical protocol and to the fundamentals of patient management. The course spans both semesters of the academic year, and includes all clinical activities and interactions with Team Leaders. Prereq: Admission to the College of Dentistry.

**CDS 815 INTRODUCTION TO CLINICAL DENTISTRY. (3)**

This survey course presents an introduction to the dental field of operation (operatory), basic assisting procedures, preventive dentistry, infection control, application of sealants and oral isolation techniques. It is designed to prepare students to function in dental environments, safely and efficiently and to prepare them for the school-based sealant experience offered in CDE 815, Fundamentals of Dental Public Health. Prereq: Admission to the College of Dentistry or consent of the course director.

**CDS 816 THE PROFESSION OF DENTISTRY. (1)**

This course is an introduction to life in the profession of dentistry. The course will explore normal everyday morality, and consider whether a case can be made for an extraordinary morality or ethic for practitioners. The course will conclude with a brief review of the history of dentistry to enable the student to place the profession of dentistry in cultural and historical perspective. Prereq: Admission to the College of Dentistry.

**CDS 818 THE PROFESSION OF DENTISTRY I. (1)**

This course is an introduction to life in the profession of dentistry. The course will explore normal everyday morality, and consider whether a case can be made for an extraordinary morality or ethic for practitioners. The course will conclude with a brief review of the history of dentistry to enable the student to place the profession of dentistry in cultural and historical perspective. Prereq: Admission to the College of Dentistry or consent of Course Director.

**CDS 819 SPECIAL TOPICS IN DENTISTRY I. (1)**

This course is the first year of the two year longitudinal core curriculum in Interprofessional Healthcare Education. The purpose of this first-year course is to present current information on a wide variety of topics ranging from interprofessional collaborative care, culture and society, minority health issues, gender and age as factors in health care, alcohol and substance abuse, evidence-based practice and decision-making, the connection between a healthy work-life balance and being a successful practitioner, and the use of mindful meditation practices for maintaining a work-life balance, along with other subjects of relevance to students enrolled in the dental curriculum. In some cases, the course content applies directly to didactic and clinical courses in the curriculum. At other times, the material is intended to help students increase their success in the curriculum and become better caregivers. Seminar, 20 hours. Prereq: First year standing.

**CDS 821 LOCAL ANESTHESIA. (1)**

The action and dosage of local anesthetic agents used in dentistry are taught as are the proper injection techniques. The technique of venipuncture and administration of intravenous drugs are also included. Patient evaluation and emergency techniques for cardiac and respiratory resuscitation are reviewed. Prereq: ANA 534.

**CDS 822 GERONTOLOGY/GERIATRIC DENTISTRY. (1)**

This course is designed to help students gain an appreciation for the significant opportunities as well as challenges the aging population will bring to their oral health practice. This course will provide students basic knowledge and information in gerontology/geriatric dentistry. Prereq: Permission of course director.

**CDS 823 MANAGEMENT II: CLINICAL PATIENT MANAGEMENT. (1)**

CDS 823 is the second in a series of conjoint courses designed to improve the management of patients by student dentists. The course is directed by the patient care Team Leaders with other faculty. Special didactic and clinical activities are included to improve and maintain the students' ability to manage patients safely and efficiently. One of the primary goals of this course is to improve students' ability to interact with patients in an empathetic and professional manner. The course spans both semesters of the academic year and includes all clinical activities and interactions with Team Leaders. Prereq: CDS 813 or consent of course director.

**CDS 824 ORAL DIAGNOSIS AND TREATMENT PLANNING. (1)**

The purpose of this course is to prepare the student for clinical dentistry by presenting techniques of examination and diagnostic procedures that ultimately lead to diagnosis and treatment planning. Prereq: ODM 814 or consent of course director.

**\*CDS 825 DENTAL IMPLANTOLOGY. (2)**

Dental implantology has become an integral part of dental services. This course contains information on patient centered criteria for implant services, surgical considerations, and prosthetically driven treatment results. The student will have the opportunity to familiarize him/herself with the components used in providing such treatment through a hands-on laboratory session and using digital dentistry in the diagnosis and treatment planning for single implant crown and implant retained overdenture. Prereq: Admission to College of Dentistry or discretion of course director.

**CDS 828 PROFESSION OF DENTISTRY II. (1)**

This course focuses on ethical practice in clinical dentistry. In the life of a health-care clinician circumstances arise daily which are ethical in nature. The dentist, and the patient, must respond to these circumstances in ways that result in the best for all parties concerned. This course will explore the duties assumed by dentists in becoming a provider of oral health care for patients.

In doing so, the major question to be addressed is, "How do dentists interact with their patients for the good of both?" Prereq: Approval of dean and/or his designee for academic affairs and the course director.

**CDS 829 SPECIAL TOPICS IN DENTISTRY II. (1)**

This course is the second year of the two year longitudinal core curriculum in Interprofessional HealthCare education. The course focuses primarily on team approaches to patient quality and safety and issues surrounding transitions in settings of patient care. Background information is presented through BlackBoard and students then meet in several interprofessional groups for discussions and completion of a group capstone project. There are also two required named lectures to attend and one session on Evidence Based Dentistry (EBD). Seminar, 16 hours. Prereq: CDS 819.

**CDS 830 NEW DEVELOPMENTS IN DENTISTRY III. (1-2)**

This course will cover selected new developments in dentistry or treat with added emphasis established dental skills and knowledge. The topics will be in such areas as the basic sciences, behavioral science, clinical dentistry, dental practice management, and community dentistry. When offered, this course will be required of third-year dental students. May be repeated to a maximum of four credits. Prereq: Third-year standing in the College of Dentistry; any course prerequisites will be announced.

**CDS 831 CONSCIOUS SEDATION. (1)**

This course is designed to teach and prepare the student dentist the principles of nitrous oxide-oxygen inhalation sedation and intravenous sedation in dentistry including a clinical training on venipuncture and intravenous drugs administration techniques. The management of emergencies associated with these techniques and an introduction to the principles of general anesthesia are also included. Prereq: CDS 821.

**CDS 833 MANAGEMENT III: CLINICAL PATIENT MANAGEMENT. (1)**

CDS 833 is the third in a series of conjoint courses to improve the management of patients by student dentists. The course is directed by the four patient care Team Leaders. Special didactic and clinical activities are included to improve and maintain the student dentist's ability to manage patients and provide care. The course spans both semesters of the academic year and includes all clinical activities and interactions with Team Leaders. Prereq: CDS 823.

**\*CDS 835 ADVANCED DENTAL IMPLANTOLOGY. (1)**

Dental Implantology has become an integral part of dental services. This course contains information on patient centered criteria for advanced implant services, advanced surgical considerations, and advanced prosthetically driven treatment results. Additional topics include treatment planning for complex dental implant cases, mechanical and restorative complication related to implant dentistry, esthetic consideration for implant restorations, immediate implant placement and immediate provisionalization, and immediate/early loading protocols will be discussed. The student will have the opportunity to familiarize him/herself with multiple implant systems and multiple implant placement protocols. The student will have the opportunity to have literatures review on most current techniques and products. Prereq: CDS 825.

**CDS 836 DIAGNOSIS AND MANAGEMENT OF OROFACIAL PAIN. (3)**

This course is designed to present information regarding the diagnosis and management of Orofacial Pain and Temporomandibular Disorders. The course will consist of a series of lectures and case presentations. The information provided in this course will allow the student to understand the dentist's role in managing complex orofacial pain problems. The area of temporomandibular disorders will be emphasized since the dentist plays a major role in managing these pain disorders. Prereq: ANA 534, OSG 820, and RSD 822.

**CDS 838 THE PROFESSION OF DENTISTRY III. (1)**

This course is an introduction to the issues of justice and how we define, appropriate, and ensure justice today. The ethical principle of justice is the touchstone for American law, and a vision for our judiciary system. While dentists, as members of society, comply with laws in a way common to all other citizens, they also have additional legal responsibilities which derive from the unique relationship dentist and dentists have with society generally and patient specifically. This course will explore the relationship of dentistry to society and attempt to explicate further the nature of professional responsibility. In so doing, the major question will be, "How do society and dentistry interact for the good of the public and the profession?" Prereq: Approval of dean and/or his designee for academic affairs and the course director.

**CDS 843 MANAGEMENT IV: CLINICAL PATIENT MANAGEMENT. (1)**

CDS 843 is the fourth in a series of conjoint courses to improve the management of patients by student dentists. The course is directed by the patient care Team Leaders. Special didactic and clinical activities are also included to improve and maintain your ability to manage patients. The course spans both semesters of the academic year, including all clinical activities and interactions with Team Leaders. Prereq: CDS 833 or consent of course director.

**\*CDS 844 DRUG MISUSE, ABUSE AND DEPENDENCY: WHAT DENTISTS NEED TO KNOW. (1)**

This course is designed to provide new insights and understanding into prevention, recognition and treatment of patients with, and at risk for, drug misuse and abuse. The course enables dental students to understand addiction as primary, chronic and progressive disease and to demonstrate an understanding of the pharmacology, abuse potential, as well as the behavioral and physiological effects of the commonly abused drugs. Emphasis will be on increasing dental students skills and abilities to recognize the signs and symptoms of drug abuse; identify and manage patients at risk for drug problems; and become effective in providing successful care for drug dependent patients while minimizing their potential for relapse. Prereq: Fourth-year standing in College of Dentistry or consent of course director.

**CDS 846 DIAGNOSIS AND MANAGEMENT OF OROFACIAL PAIN. (3)**

This course will present information regarding the diagnosis and management of orofacial pain and temporomandibular disorders. The information provided in this course will allow the student to understand the dentist's role in managing complex orofacial pain problems. The area of temporomandibular disorders will be emphasized since the dentist plays a major role in managing these pain disorders. Prereq: ANA 534, OSG 820, and RSD 822.

**CDS 860 SPECIAL TOPICS IN ORAL HEALTH. (1-3)**

This course will engage students in a variety of activities including lectures, independent literature review and reading community-based projects, and individual or small group discussions to address current topics of special interest or concern in oral health. Projects and discussion areas for students participating in an interdisciplinary colloquium will be developed in conjunction with other health care providers. Prereq: Enrollment in the College of Dentistry; approval of the course director.

**CDS 863 EXPLORING DENTAL TEACHING ELECTIVE. (1)**

This course will provide dental students who have an interest in teaching an opportunity to learn about being a dental faculty member in a systematic way. This course will educate dental students on two main subjects: 1) Roles, responsibilities, and opportunities for dental educators in an academic institution, and 2) Effective teaching in the classroom and clinic. Lecture, 16 hours. Prereq: Open to all 4th year dental students. Open to 3rd year dental students with permission of the course director and the Academic Performance Committee.

**CDS 865 FORENSIC ODONTOLOGY. (1)**

Elective introductory course in forensic dentistry for fourth year dental students. Prereq: Must be fourth year dental student.

**CDS 881 MAXILLOFACIAL DISEASE FOR THE HEALTH CARE PROFESSIONAL. (1)**

Designed for motivated 4th year medical students who want to understand more about Hospice and Palliative Care. This rotation will present students with a multidisciplinary approach to caring for patients by working with doctors, nurses, home health care providers and chaplains. Prereq: MD 836/837 or consent of course director. (Same as SUR 875.)

**CDS 885 ADVANCED DENTAL IMPLANTOLOGY ELECTIVE. (1)**

Dental Implantology has become an integral part of dental services. This course contains information on patient centered criteria for advanced implant services, advanced surgical considerations, and advanced prosthetically driven treatment results. Additional topics include treatment planning for complex dental implant cases, mechanical and restorative complication related to implant dentistry, esthetic consideration for implant restorations, immediate implant placement and immediate provisionalization, and immediate/early loading protocols will be discussed. The student will have the opportunity to familiarize him/herself with multiple implant systems and multiple implant placement protocols. The student will have the opportunity to have literature review on most current techniques and products. 12 hours Lecture, 8 hours Laboratory. Prereq: Successful completion of CDS 835.

---

## CE Civil Engineering

---

**CE 106 COMPUTER GRAPHICS AND COMMUNICATION. (3)**

Introduction to visualization, orthographic projection, and computer-aided drawing. Graphical solution of spatial problems. Integrated use of computer graphics to create civil engineering drawings. Lecture, two hours; laboratory, three hours per week. Prereq or coreq: MA 113 or consent of instructor.

**CE 120 INTRODUCTION TO CIVIL ENGINEERING. (1)**

An introduction to the civil engineering profession and the use of computer hardware and software in CE systems analysis and design. Presentations will be used to illustrate the conception, design, construction, and operation processes. Sample problems and class exercises on the various technical areas of civil engineering will make use of existing computer software packages and teamwork principles.

**CE 195 INDEPENDENT WORK IN PRE-CIVIL ENGINEERING. (0-4)**

Independent or make-up work for lower division engineering students in the field of civil engineering. May be repeated for a maximum of four credit hours. Prereq: Admission to the College of Engineering and consent of department chair or DUS, and the instructor.

**CE 211 SURVEYING. (4)**

A comprehensive course in the art and science of surveying as applied to civil engineering, including the use and care of surveying instruments; measurement of horizontal and vertical distances, angles and directions; collection of ground and underground data for the design and layout of roads, buildings, various mineral workings and other structures; and some aspects of the precise determination of position and direction for survey control. Lecture, three hours, laboratory, three hours per week. Prereq or coreq: CE 106; preq: MA 114.

**CE 303 INTRODUCTION TO CONSTRUCTION ENGINEERING. (3)**

The study of the planning, administration, management, and cost of construction projects and an introduction to the methodology utilized in executing specific designs. Emphasis is placed on the organization of construction firms, development of construction documents, theory of engineering economics, estimating and quantity take-off, contractual and management systems, scheduling, project administration, and inspection of construction operations. Prereq: C or better in CE 106 and engineering standing.

**CE 329 CIVIL ENGINEERING COMMUNICATIONS AND TEAMS LAB. (1)**

The class focuses on presenting the proper tools and techniques for oral presentations, identifying the requirements for proper technical writing, and providing students with the means to effectively work within a team environment. Prereq: CIS 111 Comp and Comm II; Engineering standing.

**CE 331 TRANSPORTATION ENGINEERING. (3)**

An introduction to transportation engineering. Development of transportation systems in the United States. Route geometrics and design. Traffic flow characteristics and control. Planning financing and economic analysis of transport facilities. Prereq: C or better in CE 211 and engineering standing.

**CE 341 INTRODUCTION TO FLUID MECHANICS. (4)**

Fundamental principles of thermodynamics and fluid flow. Includes fluids at rest, fluids in motion. Continuity, momentum and energy relations, ideal and viscous fluids. Emphasis on incompressible fluids. Description of pumps and open channels. Prereq: PHY 231 and MA 214 and engineering standing.

**CE 351 INTRODUCTION TO ENVIRONMENTAL ENGINEERING. (3)**

Overview of environmental chemistry and microbiology, water quality, water and wastewater treatment, solid and hazardous wastes management, hazardous waste remediation, and air pollution control. Emphasis on the basic science and engineering principles required to understand both natural and engineered systems, as well as the engineering approach to understanding the natural environment and specific treatment mitigation methods. Prereq: CHE 107, MA 214, PHY 231, and engineering standing.

**CE 381 CIVIL ENGINEERING MATERIALS I. (3)**

A study of the microscopic and macroscopic structures and properties of materials used in civil engineering construction with emphasis on the relationships of their physical and mechanical properties to engineering design and application. Written reports and oral presentation of results will be required. Lecture, two hours; laboratory, three hours per week. Prereq and/or coreq: C or better in EM 302 and engineering standing.

**CE 382 STRUCTURAL ANALYSIS. (3)**

Statically determinate analysis of two-dimensional structures: trusses, beams and frames. Influence lines for truss and beam structures. Displacement calculations using virtual work principles. Statically indeterminate analysis includes approximate, force method and plastic analysis. Prereq: EM 302 and engineering standing.

**CE 395 INDEPENDENT WORK IN CIVIL ENGINEERING. (1-6)**

Individual work on some selected problem in the field of civil engineering. May be repeated for a maximum of six credits. Prereq: Engineering standing, consent of department chairperson and the instructor.

**CE 399 TOPICS IN CIVIL ENGINEERING (Subtitle required). (1-4)**

A detailed investigation of a topic of current significance in civil engineering such as: design of small earth dams, man and the environment, drilling and blasting, scheduling construction operations, construction equipment and methods, traffic safety, optimum structural design, environmental impact analysis, systems analysis in civil engineering, motor vehicle noise and its control. May be repeated to a maximum of eight credits, but only four credits can be earned under the same title. A particular topic may be offered at most twice under the CE 399 number. Prereq: Variable; given when topic identified and registration in the College of Engineering.

**CE 401 SEMINAR. (1)**

A discussion of the ethical and professional aspects of civil engineering practice. Concepts of loss prevention and conflict resolution. Structured small group discussion, oral presentations, and role playing. Lecture, two hours per week. Prereq: Senior classification and engineering standing.

**CE 429 CIVIL ENGINEERING SYSTEMS DESIGN. (3)**

The course is designed to provide the graduating civil engineer with an integration of professional practice issues with planning, design, and construction. Topics to be covered will include: development of teaming, problem solving, and decision-making skills; development of written and oral technical communication skills; procurement of professional services; integration of planning, design, and construction activities; integration of environmental, legal, political, and social issues and concerns into the project process. All activities will be conducted in teams. Lecture, two hours; laboratory three hours per week. Prereq: To be taken during the student's last semester.

**CE 433 RAILWAY OPERATIONS AND MULTI-MODAL TRANSPORTATION. (3)**

Study of the transportation engineering aspects of efficient management of railway freight, passenger and intermodal operations and the relationships to the other major transport modes – water, highway, air, pipeline and overland conveyor. Prereq: CE 331 and engineering standing.

**CE 461G WATER RESOURCES ENGINEERING. (4)**

A hydrological and hydraulic study of the laws governing the occurrence, distribution, and movement of water in watershed systems. Meteorological considerations, precipitation, evaporation, infiltration, streamflow, hydrograph analysis, flood routing, open channel hydraulics, culvert design, pump systems, groundwater flow, and frequency analysis. Principles of mathematical models that describe the flow processes in a natural watershed and hydraulic structures. Prereq: C or better in CE 341 and engineering standing or consent of instructor.

**CE 471G SOIL MECHANICS. (4)**

A study of the strength, deformation and hydraulic properties of soils and their relationship to settlement, stress distribution, earth pressure, bearing capacity and slope stability. Design of footing foundations and retaining walls. Written and oral presentations of student projects will be required. Lecture, three hours; laboratory, three hours per week. Prereq: C or better in EM 302; prereq or concur: EES 220; and engineering standing or consent of instructor.

**\*CE 482 STRUCTURAL ANALYSIS AND DESIGN. (3)**

Application of principles of solid mechanics to the design of steel, timber and reinforced concrete members and structures. Emphasis on basic ideas and their application to practical design of relatively simple structures according to building code. Prereq: C or better in CE 302 and engineering standing.

**CE 486G REINFORCED CONCRETE STRUCTURES. (3)**

Theory and design of beams, slabs, girders and columns as related to building frames and bridges. Introduction to pre-stressed concrete, elastic design and ultimate strength design. Prereq: CE 382 and engineering standing or consent of instructor.

**CE 487G STEEL STRUCTURES. (3)**

Behavior, analysis, and design of compression members, laterally braced and unbraced beams, beam-columns, composite beams, tension members, directly loaded bolted and welded connections, and column base plates. Evaluation of frame stability. Prereq: CE 382 and engineering standing, or consent of instructor.

**CE 499 TOPICS IN CIVIL ENGINEERING (Subtitle required). (1-4)**

Devoted to a special topic of current interest in civil engineering. May be repeated to a maximum of eight credits, but not more than four credits may be earned under the same subtitle. A particular topic may be offered at most twice under the CE 499 number. May be counted as technical or design elective with consent of chairman. Prereq: Variable, given when topic is identified, plus engineering standing.

**CE 507 CONSTRUCTION SAFETY AND HEALTH. (3)**

The course will develop an understanding of safety and health; cost and human impact; hazard and risk analyses; psychological facts of organizational culture and climate; design safe work procedures for the execution of particular types of work; and individual versus management level improvement in safety and health procedures in the construction process. Prereq: Engineering standing and CE 303 or consent of instructor.

**CE 508 DESIGN AND OPTIMIZATION OF CONSTRUCTION OPERATIONS. (3)**

The course critically examines repetitive operations that occur from project to project and the deterministic approaches used to design and optimize their effectiveness. Scientific techniques used to field measure the efficiency of construction operations are also examined. The primary metrics used to optimization include cost, schedule, and sustainability. Prereq: C in CE 303, C in CE 381, and engineering standing or graduate standing.

**CE 509 CONTROL OF THE CONSTRUCTION PROJECT. (3)**

This course investigates the principles and practices for the control of budget and schedule for construction projects. Topics studied include: estimating construction costs and developing a project budget, planning construction operations and developing a project schedule, documenting and reporting of project progress and spending, and the management of change of contract amount, contract time, and contract scope work. Prereq or coreq: CE 508 or consent of instructor.

**CE 517 BOUNDARY LOCATION PRINCIPLES. (3)**

Procedures for locating or relocating the boundaries of real property; records searching, technical aspects of field work, preparation of descriptions and survey reports, land data systems, legal aspects, special problems. Prereq: C in CE 211, engineering standing, or consent of instructor.

**CE 525 CIVIL ENGINEERING APPLICATIONS OF GEOGRAPHIC INFORMATION SYSTEMS. (3)**

CE 525 focuses on GIS as a tool in Civil Engineering. The terms and concepts related to Geographic Information Systems are introduced. The management of spatial databases, particularly those related to Civil Engineering, is covered. Students will collect data using a Global Positioning System (GPS). Students will be required to use the GIS ArcInfo to solve a specific individual spatial problem that they propose based on several Civil Engineering databases available to them. Lecture, two hours; laboratory, three hours per week. Prereq: Engineering standing and one of the following: C in CE 331, C in CE 341, or CE 471G.

**CE 531 GEOMETRIC DESIGN AND OPERATIONS OF ROADWAYS. (3)**

Analysis of transportation facilities through a diagnostic study of transportation systems with emphasis on design, capacity and safety. Engineering practice oriented toward open-ended design solutions, mostly focused on roadway design. Prereq: C in CE 331, and engineering standing.

**CE 533 RAILROAD FACILITIES DESIGN AND ANALYSIS. (3)**

Principles of railroad location, construction, rehabilitation, maintenance, and operation with emphasis on track structure design and analysis, bridges and bridge loading, drainage considerations, track geometry effects, and operating systems analysis. Coreq or prereq: CE 471G or graduate standing or consent of instructor.

**CE 534 PAVEMENT DESIGN, CONSTRUCTION AND MANAGEMENT. (3)**

Design, analysis, construction, and management of flexible and rigid pavements. Stresses and strains, pavement materials, subgrade soil stabilization, bases and subbases, quality control, drainage, pavement-type selection, and pavement management. Prereq: C in CE 381; prereq or concur: CE 471G, and engineering standing.

**CE 539 TRANSPORTATION SYSTEMS DESIGN. (3)**

This course focuses on the design of urban intersections and the procedures used to evaluate the operational level of urban roadway systems. First, a review of urban intersection design principles and aspects is presented. Second, traffic signal timing techniques are reviewed and students are required to use two software packages for evaluation of traffic operation of urban roadway systems. The focal point of the course is a group design project where solutions to accommodate all transportation modes and their issues along a corridor in Lexington are sought. Fieldwork and data collection are part of this course. Lecture, two hours; laboratory, one hour. Prereq: C in CE 331; CE 531 prereq or concur.

**CE 541 INTERMEDIATE FLUID MECHANICS. (3)**

Application of basic fluid mechanics to problems of importance to civil engineering practice. This includes flow measuring, closed conduit flow and pipe networks, open channel flow, turbomachinery (pumps), hydraulic structures, culvert flow. Prereq: CE 341, CS programming course, and engineering standing or consent of instructor. (Same as BAE 541.)

**CE 542 INTRODUCTION TO STREAM RESTORATION. (3)**

Introduction to principles of fluvial geomorphology for application in restoring impaired streams. Topics include channel formation processes (hydrology/hydraulics), stream assessment, sediment transport, in-stream structures, erosion control, habitat, and monitoring. Prereq: CE 341 (or equivalent) and engineering standing or consent of instructor. (Same as BAE 532.)

**CE 546 FLUVIAL HYDRAULICS. (3)**

Rainfall physics, principles of erosion on upland areas and construction sites, stable channel design in alluvial material, mechanics of sediment transport, river mechanics, reservoir sedimentation. Prereq: CE 341 or ME 330 and engineering standing. (Same as BAE 536.)

**CE 547 WATERSHED SEDIMENTATION. (3)**

The course objective is to gain an understanding of watershed sedimentation including: (1) erosion and sediment transport processes in a watershed and the mechanisms by which the processes are initiated, developed, and worked towards equilibrium; (2) measurement of the sediment budget for a watershed using sediment fingerprinting and sediment loading data; and (3) prediction of sediment loading in watersheds with different human disturbances using hydrologic-based modeling tools. Specific emphasis will be placed on the use of natural carbon and nitrogen isotopic tracer measurements within sediment fingerprinting as a data-driven approach to measure sediment loading from different sources in a watershed. In order to fulfill the course objective, the instructor will use traditional classroom learning as well as field and laboratory components of the course in order that students can participate in hands-on learning. Prereq: CE 461G (Pre- or Co-requisite or equivalent). (Same as BAE 547.)

**CE 549 ENGINEERING HYDRAULICS. (3)**

Analysis and Design of flow in closed conduits and natural and artificial open channels. Design of hydraulic structures. Prereq: CE 461G and engineering standing, or consent of instructor. (Same as BAE 545.)

**CE 551 WATER AND WASTEWATER TREATMENT ENGINEERING. (3)**

This course examines the scientific and engineering aspects of water and wastewater treatment. Conventional water treatment processes such as rapid mixing, flocculation, sedimentation, filtration, and disinfection as well as biological processes for wastewater treatment are analyzed. Sustainable alternative treatment techniques are also discussed. Prereq: C in CE 341, C in CE 351, and engineering standing or consent of instructor.

**CE 553 ENVIRONMENTAL CONSEQUENCES OF ENERGY PRODUCTION. (3)**

This course will introduce the relationship of energy, pollution control technology, and the environment. The scientific and engineering aspects of energy production are examined and the associated environmental problems and control technologies are discussed. Prereq: CHE 105, MA 214, and engineering standing or consent of instructor. (Same as EGR 553.)

**CE 555 MICROBIAL ASPECTS OF ENVIRONMENTAL ENGINEERING. (3)**

Environmental microbiology for engineering students with emphasis on microbially mediated chemical cycles, microbial ecology, and industrial microbiology. Prereq: C in CE 351, engineering standing, graduate status or consent of instructor.

**CE 568 GIS APPLICATIONS FOR WATER RESOURCES. (3)**

This course studies the principles, methodology and analysis of geographic information systems and spatially-referenced data unique to water resources and hydrologic modeling. Lectures will explore the latest GIS concepts, hydrologic modeling relationships and data sources and be complemented with computer-based laboratory exercises. Prereq: BAE 437, CE 461G, or consent of instructor. (Same as BAE 538.)

**CE 579 GEOTECHNICAL ENGINEERING. (3)**

Application of the principles of soil mechanics and structural mechanics to the design of retaining walls, bracing for excavations, footings, mat and pile foundations and to the analysis of the stability of earth slopes. Prereq: CE 471G and engineering standing.

- CE 581 CIVIL ENGINEERING MATERIALS II.** (3)  
Design, evaluation, and construction of portland cement concrete and hot mix asphalt (HMA). Advanced topics related to high performance concrete and asphalt materials are covered in this course. Prereq: C in CE 381 and engineering standing.
- #CE 582 INTERMEDIATE STRUCTURAL ANALYSIS.** (3)  
Analysis of indeterminate, truss, frame and arch structures using energy principles associated with the flexibility and stiffness methods; influence line functions for indeterminate structures; and use of available computer programs for structural analysis and matrix operations. Prereq: CE 382 or CE 499, be registered in the College of Engineering, or consent of instructor.
- CE 584 DESIGN OF TIMBER AND MASONRY STRUCTURES.** (3)  
Current and historic design methods of buildings and their components using wood, wood products, bricks, and concrete blocks. Prereq: Courses in steel and reinforced concrete design at the senior level, or consent of instructor. (Same as ARC 584.)
- \*CE 585 CIVIL ENGINEERING FAILURES.** (3)  
Fundamentals of failure investigation and forensic engineering; Failure types and mechanisms; Case studies and discussions on various constructed facilities. Prereq: CE 482 or consent of instructor, and engineering standing.
- \*CE 586 PRESTRESSED CONCRETE.** (3)  
Fundamental basis and underlying principles for the analysis and design of Prestressed concrete. Working stress and ultimate strength design methods, full and partial prestressing. Design for shear and torsion, deflection, crack control, and long-term effects, and prestress losses. Composite beams, slabs, short and slender columns, precast structures and their connections. Prereq: Undergraduate level course in Reinforced Concrete (e.g., CE 486G, CE 482, or CE 499), be registered in the College of Engineering, or consent of instructor.
- \*CE 589 DESIGN OF STRUCTURAL SYSTEMS.** (3)  
Building codes, design loads, computerized structural analysis and design, gravity and lateral system design, structural system descriptions and selection considerations, and structural contract documents. Prereq: C in CE 482, engineering standing or consent of instructor.
- CE 595 INDEPENDENT WORK IN CE.** (1-4)  
Individual work on some selected problem in the field of civil engineering. May be repeated for a maximum of six credits. Prereq: Consent of department chairperson and the instructor; with engineering standing.
- CE 599 TOPICS IN CIVIL ENGINEERING (Subtitle required).** (1-4)  
A detailed investigation of a topic of current significance in civil engineering such as: design of small earth dams, man and the environment, drilling and blasting, scheduling construction operations, construction equipment and methods, traffic safety, optimum structural design, environmental impact analysis, systems analysis in civil engineering, motor vehicle noise and its control. May be repeated to a maximum of eight credits, but only four credits can be earned under the same title. A particular topic may be offered at most twice under the CE 599 number. Prereq: Variable; given when topic is identified; plus engineering standing.
- PREREQUISITE FOR GRADUATE WORK:** Students desiring to take any of the following courses should have a thorough working knowledge of chemistry, physics and mathematics. For major work, a candidate must hold a bachelor's degree in civil engineering or its equivalent.
- CE 602 CONSTRUCTION PROJECT MANAGEMENT.** (3)  
Management of construction projects; planning, estimating, scheduling and control; organization; site management; material management; safety management; quality management; construction labor relations; productivity management; claims. Prereq: Engineering Standing, graduate status, or consent of instructor.
- CE 605 NEW ENGINEERING ENTERPRISES.** (3)  
The course covers the theory and actual practices of organization, management and operation of engineering companies. Primary emphasis on construction companies; however, the principles apply to most service oriented engineering companies. Students will be required to do several independent exercises related to establishing an engineering company. Prereq: Graduate standing in engineering or consent of instructor.
- CE 608 BUILDING INFORMATION MODELING FOR CONSTRUCTION.** (3)  
The course focuses on advanced information systems used to control and predict project performance (cost and schedule) in construction. Building Information Modeling is examined as a systems approach of integrating design and construction for the benefit of developing construction work packages, 4D simulations, clash detection, trade coordination, and status visualization. Prereq: CE 509 and enrollment in the Graduate School or consent of the instructor.
- CE 621 INTRODUCTION TO FINITE ELEMENT ANALYSIS.** (3)  
Theoretical, conceptual, and computational aspects of the finite element method are developed. Development of the element relationships, element calculations, and assembly of the finite element equations are covered. Both one- and two-dimensional finite element problems are considered. One-dimensional problem areas include elastic deformation, heat conduction, fluid flow, electrostatics, groundwater flow, mass transport, beams on elastic foundations, etc. Two-dimensional problem areas include Poisson's equation, viscous incompressible flow, plane elasticity, and bending of elastic plates. Prereq: MA 432G, MA 537 or consent of instructor. (Same as ME 601.)
- CE 631 URBAN TRANSPORTATION PLANNING.** (3)  
A detailed review of the transportation planning process; inventory methodologies; trip generation, distribution and assignment with associated mathematical models and theories; prediction of future travel; land use models; modal split; developing and testing proposed systems; simulation. Prereq: CE 531 or equivalent and STA 381, or 681 or equivalent statistics course. (Same as GEO 643.)
- CE 633 AIR TRANSPORT ENGINEERING.** (3)  
Planning location and design of airports, STOL ports, and heliports. Air traffic operations, performance and control as related to facility requirements. Role of governmental agencies. Prereq: CE 531 or consent of instructor.
- CE 634 TRAFFIC CHARACTERISTICS.** (3)  
Vehicle operating characteristics; driver, pedestrian and roadway characteristics as they individually, and collectively as traffic stream characteristics, are related to the planning design and operation of highway facilities.
- CE 635 HIGHWAY SAFETY.** (3)  
A detailed review of the impacts of safety considerations on highway design and planning, focusing on the highway environment, its users (both vehicles and drivers) and their interactions. The role of special interest groups (tracking industry, insurance agencies) is also examined. Prereq: CE 539 or consent of instructor.
- CE 641 MECHANICS OF LIQUID FLOW IN PIPES.** (3)  
Steady and unsteady one-dimensional pipe flow. Water hammer and surge tank analysis. Steady two-dimensional pipe flow. Digital and analog computer applications. Prereq: CE 549.
- CE 642 OPEN CHANNEL FLOW.** (3)  
The study of open channel flow fundamentals and concepts. Topics include uniform flow, varied flow, steady and unsteady flow, energy dissipators, flow transitions, controls, analytical and numerical solutions in 1D and 2D applications. Prereq: CE 541 or consent of instructor. (Same as BAE 642.)
- CE 643 MECHANICS OF SEDIMENT TRANSPORT.** (3)  
Fundamentals of turbulence in rivers and sediment transport will be taught including recent theory, derivation of governing equations, experimental methods, modeling, and design based on sediment thresholds. Prereq: CE 341 or consent of instructor. (Same as BAE 643.)
- CE 652 BIOLOGICAL PROCESSES FOR WATER QUALITY CONTROL.** (3)  
Principles and applications of environmental biotechnology for water quality control. Process microbiology and kinetics for various water and wastewater treatment processes. Prereq: CE 351 or consent of instructor. (Same as BAE 652.)
- CE 653 WATER QUALITY IN SURFACE WATERS.** (3)  
Principles of surface water quality modeling and control. Analysis of dispersion, advection, natural aeration, biological oxidation and photosynthesis; their effects on the physical, chemical, and biological quality of waters in streams, lakes, reservoirs, estuaries and other surface waters. Prereq: CE 351 or consent of instructor. (Same as BAE 653.)
- CE 655 WATER SANITATION AND HEALTH.** (3)  
Prevention of water-related diseases by appropriate supply and sanitation practices with designs applicable to small systems and rural areas of developing nations. (Same as CPH 790.)
- CE 662 STOCHASTIC HYDROLOGY.** (3)  
Hydrologic random variables and probability distributions. Statistical measures, development and use of Monte Carlo simulations in the generation of precipitation fields. Statistical tests of hydrologic data. Point frequency and regional frequency analysis. Analysis of hydrologic time series. Long-term trend, harmonic analysis of periodicity, autocorrelation, spectral analysis. Correlation and regression analysis. Linear stochastic models. Introduction to stochastic processes in hydrology, real-time hydrologic forecast (Kalman filter), pattern recognition, and stochastic differential equations. Prereq: MA 214, CE 461G or equivalent. (Same as BAE 662.)
- CE 664 WATERSHED MANAGEMENT.** (3)  
This course provides an overview of the scientific principles and management strategies used to effectively manage the physical, chemical, biological and social resources within a watershed so as to improve and sustain the integrity of the watershed system. The course will examine watershed management from both a scientific/engineering perspective as well as from a social science/policy perspective. Examples of effective watershed management will be drawn from cases studies in Kentucky and the United States. Students will be provided with an introduction to those spatial data sets, computer software, and methods currently used in watershed management practice. Prereq: BAE 437 or CE 461G or an equivalent course in hydrology, or consent of instructor. (Same as BAE 664.)
- CE 665 WATER RESOURCES SYSTEMS.** (3)  
Application of systems analysis, mathematic modeling, and optimization in water resources management and design. Solution of engineering problems found in water supply, water quality, urban drainage, and river basin development and management by use of linear, nonlinear, and dynamic programming models. Prereq: Consent of instructor. (Same as BAE 665.)

## Course Descriptions

### **CE 667 STORMWATER MODELING. (3)**

Introduction to deterministic and parametric modeling approaches for mathematically simulating stormwater runoff and quality. Emphasis on modeling concepts and model formulation. Analysis of deterministic component models and their linkage. Formulation of existing parametric models. Presentation of methods for parameter optimization and regionalization. Demonstration of linkage between the two approaches with illustrative examples. Prereq: CE 341 and CE 461G, or consent of instructor. (Same as BAE 667.)

### **CE 671 ADVANCED SOIL MECHANICS. (3)**

Detailed study of soil behavior. Specific topics include soil classification and structure, strength and deformational behavior, compaction, consolidation, and stress distribution in earth masses. Prereq: CE 471G or consent of instructor.

### **CE 672 LANDFILL DESIGN. (3)**

This course deals with the geotechnical aspects of the design of landfills for the disposal of municipal solid waste. Since landfill design is driven by state and federal regulations, time is taken to review these regulations. Landfills are evaluated as engineered systems consisting of multiple components. Each component is investigated individually, and methods are developed to predict and quantify the performance of these components so that appropriate materials, design criteria, and construction methods can be selected to assure that the landfill will function with minimal environmental impact. Prereq: CE 471G. (Same as BAE 672.)

### **CE 673 STABILITY OF EARTH SLOPES. (3)**

Review of shear strength principle including laboratory and field tests for shear strength and shear strength of unsaturated soils; theoretical and practical aspects of infinite slopes, block analysis, method of slices, effective and total stress analysis, analysis of unsaturated slopes, commercial software packages for slope stability analysis, probabilistic analysis of slope stability problems, rapid drawdown, and slope failure mitigation.

### **CE 676 GROUNDWATER AND SEEPAGE. (3)**

Permeability and capillary flow in soils, mathematical theory of flow through porous media. Flow through anisotropic, stratified and composite sections. Solution by flow net, conformal mapping and numerical methods. Seepage toward wells. Dewatering and drainage of soils. Prereq: CE 471G or consent of instructor.

### **CE 679 GEOTECHNICAL EARTHQUAKE ENGINEERING. (3)**

Introduction to seismology. Dynamic and earthquake response of soils using standard analysis. Liquefaction of soils under cyclic loading. Measurements of dynamic properties of soils. Earthquake resistant design of retaining walls, foundations, slopes, and earth dams. Soil improvement methods for seismic resistant design. Current state-of-the-art techniques in geotechnical earthquake engineering. Prereq: CE 579.

### **CE 681 ADVANCED CIVIL ENGINEERING MATERIALS. (3)**

Fundamental aspects of mechanical behavior of civil engineering materials. Rheology and fracture of asphalt and Portland cement concrete materials. Prereq: CE 381.

### **CE 682 ADVANCED STRUCTURAL ANALYSIS. (3)**

Theory and application of energy principles for plane and space frames; shear wall structures; geometric and material nonlinear formations; and nonlinear solution strategies. Solution techniques for the analysis of large complex structures. Introduction to plane stress/strain, axisymmetric and plate bending finite element analysis.

### **CE 684 SLAB AND FOLDED PLATE STRUCTURES. (3)**

Design and analysis of reinforced concrete floor slabs and folded plate roofs. Elastic and inelastic methods.

### **\*CE 686 ADVANCED REINFORCED CONCRETE THEORY. (3)**

Background and origin of modern reinforced concrete design procedures and codes. Comparison of American and foreign methods of analysis. Review of current research and projection to anticipated future changes in design and construction practices. Prereq: C in CE 482 or consent of instructor.

### **\*CE 687 ADVANCED STEEL DESIGN. (3)**

Strength of structural steel columns, including asymmetry and slender compression elements. Flexural strength of slender plate girders. Shear strength with and without post-buckling strength. Frame stability. Steel connections. Floor vibration serviceability. Prereq: CE 587 and registered in the College of Engineering, or consent of instructor.

### **CE 699 TOPICS IN CIVIL ENGINEERING (Subtitle required). (1-4)**

An advanced level presentation of a topic from one of the major areas of civil engineering such as hydraulics, geotechnics, structures, transportation, surveying, or water resources. Course with a given subtitle may be offered not more than twice under this number. Prereq: Variable; given when topic identified; graduate standing.

### **CE 748 MASTER'S THESIS RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

### **CE 749 DISSERTATION RESEARCH. (0)**

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

### **CE 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

### **CE 768 RESIDENCE CREDIT FOR MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours.

### **CE 769 RESIDENCE CREDIT FOR DOCTOR'S DEGREE. (0-12)**

### **CE 779 ADVANCED GEOTECHNICAL ENGINEERING. (3)**

Application of the principles of soil mechanics to the design and analysis of foundations and earth structures. Prereq: CE 579 and CE 671 or consent of instructor.

### **CE 782 DYNAMICS OF STRUCTURES. (3)**

Review of methods of analysis of simple structural systems. Effects of wind, earthquake, traffic and machinery loads. Matrix methods for complex dynamic structural systems, random vibrations of structures.

### **CE 784 SHELL STRUCTURES. (3)**

Design and analysis of reinforced concrete shell structures, including domes, barrel shells, hyperbolic paraboloids and cylindrical tanks. Prereq: CE 684 or consent of instructor.

### **CE 790 SPECIAL RESEARCH PROBLEMS IN CIVIL ENGINEERING. (1-6)**

Individual work on some selected problems in one of the various fields of civil engineering. Laboratory, six hours. May be repeated to a maximum of nine credits. Prereq: Consent of the chairperson of the department.

### **CE 791 SPECIAL DESIGN PROBLEMS IN CIVIL ENGINEERING. (1-6)**

Individual work on some selected problems in one of the various fields of civil engineering. Laboratory, six hours. May be repeated to a maximum of nine credits. Prereq: Consent of the chairperson of the department.

## **CEF Consumer Economics and Financial Counseling**

### **CEF 251 PERSONAL AND FAMILY FINANCE INTRODUCTION. (3)**

An introductory course for personal and family finance. Relevant topics such as building and protecting wealth, retirement and estate planning and personal investing will be covered throughout the course.

### **#CEF 350 CONSUMER ECONOMICS. (3)**

An in-depth study of consumer issues, rights, and responsibilities. An examination of how individual and societal decisions affect quality of life, including consumer safety, and the interactions of consumption, health, law, government regulations and the economy. Consumer education and financial literacy will also be emphasized.

### **CEF 351 ADVANCED PERSONAL AND FAMILY FINANCE I. (3)**

Management of personal and family financial resources throughout the life span. A study of individual and family finances as related to financial planning, money management practices, checking and savings, credit management, loans and borrowing, income taxes, housing costs, and transportation costs. Prereq: CEF 251.

### **CEF 352 ADVANCED PERSONAL AND FAMILY FINANCE II. (3)**

Management of personal and family financial resources throughout the life span. A study of individual and family finances as related to financial planning; property and liability risk; health care management and expenses; insurance planning; investment fundamentals; stocks, bonds, and mutual fund investments; real estate and high risk investments; and retirement and estate planning. Prereq: CEF 251 and CEF 351.

### **CEF 360 INTRODUCTION TO FAMILY INTERVENTION: WORKING WITH FAMILIES AND INDIVIDUALS. (3)**

Survey course to introduce students to the various skills, strategies and professional ethical standards used by family scientists in helping relationships. The emphasis will be on learning the skills required to provide support for families and individuals. Prereq: Declared majors or minors in FAM or declared majors in CEF. FAM 251 is a prerequisite for FAM majors and minors. CEF 251 is a prerequisite for CEF majors. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK. (Same as FAM 360.)

### **#CEF 390 INTRODUCTION TO RESEARCH METHODS. (3)**

An introduction to research design, methodology, instrumentation, and data analysis with emphasis on a student's ability to understand and critique research in the content areas of consumer economics, personal finance, human development, and family relations. This course provides partial credit for the written component of GCCR in conjunction with FAM 360 and CEF 403 or FAM 357. Prereq: Declared majors or minors in Family Sciences; STA 210; CIS/WRD 110; CIS/WRD 111; and sophomore standing. (Same as FAM 390.)

**#CEF 402 THEORIES AND APPLICATIONS IN CONSUMER ECONOMICS.** (3)

Study of concepts, theories, and real world applications of consumer economics. This course provides partial credit for the written component of GCCR for the Consumer Economics and Personal Finance major/program in conjunction with FAM 360 and CEF 390. Prereq: ECO 201, ECO 202, CEF 350, CIS/WRD 110; CIS/WRD 111; and sophomore standing.

**CEF 403 FAMILY FINANCIAL COUNSELING.** (3)

An examination of family economics and resource management issues and their impact on the well-being of families across the major transitions of the family life-cycle. The complex process of financial decision-making and the role of the financial counselor are addressed. Best practices in assisting individuals and families facing financial challenges and increasing their level of financial capability, while decreasing their financial stress through personal financial counseling processes will be addressed. Prereq: CEF 351 and CEF 352 OR consent of the instructor.

**#CEF 475 SPECIAL TOPICS IN CONSUMER ECONOMICS AND PERSONAL FINANCE.** (1-6)

Course will focus on selected topics drawn from various areas of consumer economics and/or personal finance taught by faculty members with special interests and competence. May be repeated to a maximum of six credits under different subtitles. Prereq: Consent of instructor.

**#CEF 495 INDEPENDENT WORK IN CONSUMER ECONOMICS AND PERSONAL FINANCE.** (1-3)

Intensive independent scholarship or training in consumer economics and/or financial counseling. This is a variable credit course (1 to 3 credits). CEF 495 may be repeated to a maximum of 6 credits. Prereq: Consent of instructor; and junior or senior standing in CEF.

**#CEF 496 ACCREDITED FINANCIAL COUNSELOR REVIEW COURSE.** (3)

Preparation for the Accredited Financial Counselor certification exam provided by the Association for Financial Counseling and Planning Education (AFCPE). A review of financial counseling processes, family economics, and resource management issues in preparation for the Accredited Financial Counselor examination. Prereq: CEF 251, CEF 351, CEF 352, CEF 403, or consent of the instructor.

**#CEF 498 INTERNSHIP IN CONSUMER ECONOMICS AND PERSONAL FINANCE.** (3)

A supervised working internship and course for juniors and seniors in the CEF program. The internship will take place in a community, educational, Cooperative Extension, and/or research setting. Emphasis is on observation, teaching, conceptualizing research problems, and developing competencies for providing consumer economics and financial services at the individual, family, and/or community level. The course includes lecture and internship hours (a total of 150 hours). Prereq: CEF 403; junior or senior standing; Consumer Economics and Personal Finance majors only; consent of instructor; completed internship learning contract.

**#CEF 499 ADVANCED INTERNSHIP IN CONSUMER ECONOMICS AND PERSONAL FINANCE.** (3)

A supervised working internship and course for juniors and seniors in the CEF program. The internship will take place in a community, educational, Cooperative Extension, and/or research setting. Building on the concepts and professional development learned in CEF 498, emphasis is on observation, teaching, conceptualizing research problems, and developing competencies for providing consumer economics and financial services at the individual, family, and/or community level. The course includes virtual discussion and internship hours (a total of 150 hours). The course will meet synchronously and live via web video through multiple sections (to accommodate students in different time zones). The course may be repeated for a maximum of 6 credit hours in separate terms. Prereq: CEF 498; junior or senior standing; Consumer Economics and Personal Finance majors only; consent of instructor; completed internship contract.

**CGS Cognitive Science****CGS 500 COGNITIVE SCIENCE IN THEORY AND PRACTICE.** (3)

This course will introduce upper-level undergraduate students (and lower-level graduate students) to Cognitive Science, an interdisciplinary field that seeks to study the mind from the perspective of various disciplines: Biology, Computer Science, Linguistics, the Neurosciences, Philosophy, and Psychology. The course will consist of modules in at least four of these six disciplines. Prereq: Upper-class standing.

**CHE Chemistry****CHE 101 MOLECULAR SCIENCE FOR CITIZENS.** (3)

A conceptual introduction to the molecular nature of natural and man-made materials as well as the key molecules of biological organisms. The important classes of molecules will be discussed in terms of their properties and impact on our everyday real world experience.

**CHE 103 CHEMISTRY FOR HEALTH PROFESSIONALS.** (4)

A study of the basic concepts of general, organic, and biological chemistry. Topics include electronic structure of atoms and molecules, periodicity of the elements, stoichiometry, states of matter, kinetics, equilibria, acids and bases, organic functional groups, stereochemistry, carbohydrates, lipids, proteins, and enzymes. Topics are presented with an emphasis on application to the allied health professions. Prereq: Credit for MA 111, or Math ACT score above 20, or ALEKS Math Placement above 45.

**CHE 104 INTRODUCTORY GENERAL CHEMISTRY.** (3)

A study of general principles, including laws of definite and multiple proportions, stoichiometry, gases, electronic structure, chemical bonding, periodic relationships, oxidation-reduction, chemical equilibrium and acids/bases. Not open to students who have already completed both CHE 105 and CHE 107. Not recommended for students seeking careers in science, engineering, medicine, pharmacy or dentistry for which the recommended sequence is CHE 105/107. Prereq: Credit for MA 111, or Math ACT score above 20, or ALEKS Math Placement above 45.

**CHE 105 GENERAL COLLEGE CHEMISTRY I.** (4)

A study of chemical principles and their application to pure and mixed substances. Not open to students who have already completed both CHE 109 and CHE 110. Prereq: Math ACT of 23 or above (or Math placement test), or MA 109, or MA 110.

**CHE 107 GENERAL COLLEGE CHEMISTRY II.** (3)

A continuation of CHE 105. A study of the principles of chemistry and their application to elements and compounds. Prereq: CHE 105 or CHE 110 (with a C or better).

**CHE 108 INTRODUCTION TO INORGANIC, ORGANIC AND BIOCHEMISTRY WITHOUT LABORATORY.** (3)

Formally a continuation of CHE 104, a study of selected aspects of inorganic, organic, and biochemistry including the chemistry of metals and nonmetals, basic organic functional groups, proteins, nucleic acids, and lipids. Not recommended for students seeking careers in medicine, pharmacy, science, dentistry, and engineering for which the recommended sequence is CHE 105/107. Prereq: CHE 104 or CHE 105.

**CHE 109 GENERAL CHEMISTRY 1A.** (4)

A study of chemical principles and their applications to pure and mixed substances. The two-semester CHE 109/110 sequence covers the same material as CHE 105. Prereq: Math ACT of 23 or above (or math placement test), or MA 109 or MA 110.

**CHE 110 GENERAL CHEMISTRY 1B.** (4)

A continuation of CHE 109; CHE 109 and 110 are equivalent to CHE 105. Prereq: CHE 109 with grade C or better.

**CHE 111 GENERAL CHEMISTRY I LABORATORY.** (1)

A laboratory course, to accompany CHE 105 or CHE 110, dealing with the properties of chemical substances and providing an introduction to quantitative chemical analysis. Prereq or coreq: CHE 105 or CHE 110.

**CHE 113 GENERAL CHEMISTRY II LABORATORY.** (2)

A laboratory course, to accompany CHE 107, emphasizing qualitative and quantitative chemical analysis. Prereq: CHE 111; prereq or concur: CHE 107.

**CHE 195 GENERAL CHEMISTRY WORKSHOP I.** (1)

Peer-led team problem solving. Two-hour workshop offered on a pass-fail basis only. Enrollment in CHE 105 need not be accompanied by enrollment in CHE 195. Prereq: Concurrent registration in CHE 105 required.

**CHE 197 GENERAL CHEMISTRY WORKSHOP II.** (1)

Peer-led team problem solving. Two-hour workshop offered on a pass-fail basis only. Enrollment in CHE 107 need not be accompanied by enrollment in CHE 197. Prereq: Concurrent registration in CHE 107 required.

**CHE 199 RESEARCH EXPERIENCE IN CHEMISTRY.** (0)

Participation in laboratory research in chemistry. Offered pass/fail only. Prereq: Permission of instructor.

**CHE 226 ANALYTICAL CHEMISTRY.** (3)

An introduction to the theory and practice of quantitative chemical analysis. Lecture, 2 hours; laboratory, 3 hours. Prereq: CHE 107 and CHE 113.

**CHE 230 ORGANIC CHEMISTRY I.** (3)

Fundamental principles and theories of organic chemistry. Prereq: CHE 107 and 113.

**CHE 231 ORGANIC CHEMISTRY LABORATORY I.** (1)

Laboratory for CHE 230 or CHE 236. Laboratory, three hours per week. Prereq: CHE 113; prereq or concur: CHE 230 or CHE 236.

**CHE 232 ORGANIC CHEMISTRY II.** (3)

A continuation of CHE 230. Prereq: CHE 230 with grade C or above.

**CHE 233 ORGANIC CHEMISTRY LABORATORY II.** (1)

Laboratory for CHE 232. Laboratory, three hours per week. Prereq: CHE 231. Prereq or concur: CHE 232.

**CHE 236 SURVEY OF ORGANIC CHEMISTRY.** (3)

A one-semester course in organic chemistry. Not open to students who have already completed both CHE 230 and 232. Prereq: CHE 107 and 113.

**CHE 250 FORENSIC SCIENCE ON TELEVISION.** (3)

This course will introduce students to the basic chemical and biochemical principles of forensic science utilized on popular science/science fiction television shows. Forensic science involves the application of techniques from instrumental chemical analysis and molecular biology to identify and quantify evidence collected from crime scenes. By using popular television shows to introduce specific techniques students should gain a basic understanding of the capabilities and limitations of forensic science as it is presently practiced. Prereq: CHE 103 or CHE 104 or CHE 110 or CHE 105.

## Course Descriptions

### CHE 295 ORGANIC CHEMISTRY WORKSHOP I. (1)

Peer-led team problem solving. Two-hour workshop offered on a pass-fail basis only. Enrollment in CHE 230 need not be accompanied by enrollment in CHE 295. Prereq: Concurrent registration in CHE 230 required.

### CHE 297 ORGANIC CHEMISTRY WORKSHOP II. (1)

Peer-led team problem solving. Two-hour workshop offered on a pass-fail basis only. Enrollment in CHE 232 need not be accompanied by enrollment in CHE 297. Prereq: Concurrent enrollment in CHE 232 required.

### CHE 372 COMMUNICATION IN CHEMISTRY I. (1)

Reports and discussions on recent research and current chemical literature; writing and revision of scientific papers; literature searching methods; preparation of effective presentations abstracts and visual aids. CHE 372 and CHE 472 meet the A&S College Writing and Communications Requirement. Prereq: CHE 226 (or concurrent) or CHE 232 (or concurrent) or consent of Director of Undergraduate Studies. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

### CHE 380 TOPICS IN MOLECULAR SCIENCE (Subtitle required). (2-4)

Detailed study of a given aspect of molecular science. Topic, prereqs and credit hours are announced the preceding semester. May be repeated to a maximum of six credits when identified by different subtitles. Prereq: Prerequisites will be set by the instructor.

### CHE 395 INDEPENDENT WORK IN CHEMISTRY. (1-3)

An independent research project in an area of chemistry under the direction of a chemistry faculty mentor. Must be approved by the Director of Undergraduate Studies in Chemistry. May be repeated to a maximum of 12 credits. Prereq: Declared major in Chemistry; CHE 230, 231; CHE 232 or CHE 226; GPA of at least 3.0 in CHE courses.

### CHE 410G INORGANIC CHEMISTRY. (2)

An overview of inorganic chemistry, including fundamental aspects of structure, bonding, periodicity, spectroscopic properties, reaction mechanisms and applications. Prereq: CHE 231 and 232; prereq or concur: a physical chemistry course at or above the 400 level.

### CHE 412 INORGANIC CHEMISTRY LABORATORY. (2)

A laboratory course that will acquaint the student with the synthesis, characterization and properties of inorganic and organometallic compounds of both main-group and transition elements. Laboratory, six hours per week. Prereq: CHE 410G; prereq or concur: a physical chemistry course at or above the 400 level.

### CHE 422 INSTRUMENTAL ANALYSIS. (4)

The theory and application of instrumental methods of analysis. Lecture, two hours; laboratory, six hours. Prereq: A physical chemistry course at or above the 400 level.

### CHE 440G INTRODUCTORY PHYSICAL CHEMISTRY. (3)

A one-semester survey of thermodynamics, chemical kinetics, and quantum chemistry with an elementary introduction to spectroscopy. Prereq: PHY 213 or PHY 232; MA 114; CHE 226 or MA 213.

### CHE 441 PHYSICAL CHEMISTRY LABORATORY. (2)

Laboratory studies in physical chemistry, including quantum chemistry, spectroscopy, thermodynamics and chemical kinetics. Laboratory, six hours. Prereq: A physical chemistry course at or above the 400 level.

### CHE 442G THERMODYNAMICS AND KINETICS. (3)

Principles of physical chemistry including thermodynamics, chemical kinetics, and statistical thermodynamics. Prereq: CHE 226; MA 213; PHY 213 or 232.

### CHE 446G PHYSICAL CHEMISTRY FOR ENGINEERS. (3)

An introductory course in physical chemistry for engineering students. Kinetic theory, thermodynamics, phase diagrams, colligative properties, electrochemistry, transport properties, kinetics, quantum theory, spectroscopy. Prereq: CHE 107, 113; PHY 232; MA 213; CME 200 or the equivalent.

### CHE 454 BIOLOGICAL CHEMISTRY LABORATORY. (2)

An introductory biological chemistry laboratory course. Areas of experimentation will include spectroscopic methods, electrophoresis, chromatography, and isolation and characterization of biological macromolecules. Prereq: CHE 232, or CHE 550 and a physical chemistry course at or above the 400 level (e.g., CHE 440), or consent of instructor.

### CHE 472 COMMUNICATION IN CHEMISTRY II. (1)

Reports and discussions on recent research and current chemical literature in seminar format; literature searching methods; résumé construction; preparation of effective presentations abstracts and visual aids. CHE 472 and CHE 372 meet the A&S College Writing and Communications Requirement. Prereq: CHE 372 or consent of the Chemistry Director of Undergraduate Studies. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

### CHE 510 ADVANCED INORGANIC CHEMISTRY. (3)

A course dealing with the concepts of inorganic chemistry with emphasis on atomic structure, periodicity, nomenclature, bonding, reaction mechanisms and acid-base theories. Prereq: CHE 232, CHE 226, and a physical chemistry course at or above the 400 level; or CHE 410G and CHE 412G.

### CHE 514 DESCRIPTIVE INORGANIC CHEMISTRY. (3)

A course dealing in detail with descriptive chemistry of the elements and their compounds, excluding the hydrocarbons and their derivatives. Prereq: CHE 226 and CHE 232; or CHE 450G, or permission of instructor.

### CHE 516 INORGANIC MATERIALS CHEMISTRY. (3)

Introduction to solid state inorganic materials chemistry, including atomic structure; optical, electronic, and magnetic properties; and characterization methods such as x-ray diffraction and electron microscopy. Prereq: CHE 440G or CHE 547 or equivalent; and CHE 410G or 510 or equivalent; or permission from the instructor.

### CHE 520 RADIOCHEMISTRY. (3)

Applications of radionuclides in chemistry with emphasis on principles of radioactive decay, interactions of radiation with matter, use of isotopic tracers, activation analysis, isotope dilution analysis, hot atom chemistry and nuclear dating methods. Prereq: CHE 107, or 226.

### CHE 524 CHEMICAL INSTRUMENTATION. (4)

Aspects of electronics, microcomputers, computer interfacing, and data analysis as they apply to chemical measurements and measurement systems. Lecture, two hours; laboratory, six hours per week. Prereq: A physical chemistry course at or above the 400 level or consent of instructor.

### CHE 525 BIOANALYTICAL SENSORS. (3)

Theory, principles, and applications of bioanalytical sensors and sensing systems, including transducers, molecular recognition, and microfabrication. Prereq: A physical chemistry course at or above the 400 level, or consent of instructor.

### CHE 526 CHEMICAL SEPARATIONS. (2)

An advanced study of the theory, instrumentation, and analytical applications of chemical separation methods. Prereq: A physical chemistry course at or above the 400 level, or consent of instructor.

### CHE 532 SPECTROMETRIC IDENTIFICATION OF ORGANIC MOLECULES. (2)

A discussion of nuclear magnetic resonance, ultraviolet and infrared spectroscopies, and mass spectrometry in the determination of the structure and stereochemistry of organic molecules. Prereq: CHE 231 and CHE 232.

### CHE 533 ADVANCED ORGANIC CHEMISTRY LABORATORY. (2)

The practice of synthesis, purification, and characterization of organic compounds in the modern chemistry laboratory. Laboratory, six hours. Prereq: CHE 532.

### CHE 535 SYNTHETIC ORGANIC CHEMISTRY. (3)

A general survey of organic chemistry with emphasis on synthetic methods and the synthesis of natural products. Prereq: CHE 232.

### CHE 536 ORGANIC MATERIALS: ELECTRONIC AND PHOTONIC PROPERTIES. (3)

A description of relationships between molecular structure and optical and electronic properties, focusing on changes in properties moving from single molecules to aggregates to bulk solid states. Electronic structure and photonic properties of organic molecules, solid-state polymers and interfaces will be considered. Material characteristics will be studied in the types of devices where organic materials show promising performance: displays, lighting, transistors, energy conversion/storage applications, and non-linear optics technologies. Prereq: CHE 232 and PHY 213 or PHY 232, or permission of the instructor.

### CHE 538 PRINCIPLES OF ORGANIC CHEMISTRY. (3)

A general survey of the field of organic chemistry. Topics emphasized are: mechanistic principles relating molecular structure to reaction outcome, stereoisomerism and its effect on chemical reactivity, and simple molecular orbital theory as required to understand aromaticity and to predict the occurrence and stereochemistry of pericyclic reactions. Prereq: CHE 232.

### CHE 547 PRINCIPLES OF PHYSICAL CHEMISTRY I. (3)

An introduction to quantum chemistry and spectroscopy, emphasizing modern applications of quantum theory to the calculation of molecular properties. Practical experience with quantum chemistry software on various computer platforms is included. Prereq: MA 213; PHY 213 or 232; or consent of instructor.

### CHE 548 PRINCIPLES OF PHYSICAL CHEMISTRY II. (3)

Fundamental principles of classical physical chemistry, including thermodynamics, statistical thermodynamics, and chemical kinetics. Prereq: A physical chemistry course at the 400 level or above, or consent of instructor.

### CHE 550 BIOLOGICAL CHEMISTRY I. (3)

An introduction to biological chemistry. Topics include amino acids and proteins; nucleic acids and nucleotides; enzyme structure, function and energetics; metabolism including glycolysis; the tricarboxylic acid cycle; electron transport and oxidative phosphorylation; glycogen metabolism; hormone action; and other aspects of modern biological chemistry. Prereq: CHE 232.

### CHE 552 BIOLOGICAL CHEMISTRY II. (3)

A further introduction to biological chemistry. Topics include lipid metabolism, biosynthesis and metabolism of nitrogen-containing compounds, storage and utilization of genetic information, immunochemistry, and other contemporary topics in biological chemistry Prereq: CHE 232.

**CHE 553 CHEMISTRY AND MOLECULAR BIOTECHNOLOGY. (3)**

This course focuses on the chemical aspects of biotechnology development. Current topics in biotechnology are emphasized through extensive reading and classroom discussion of the most recent scientific literature. Biotechnology development in fields as diverse as agriculture, the environment, and medicine will be covered. Prereq: An introductory course in biology, biological chemistry, or biochemistry; and CHE 232; or consent of instructor.

**CHE 555 HOMONUCLEAR NMR. (3)**

This course will give students hands-on experience with modern NMR experiments that are the mainstays of chemical structural analysis and biophysical studies of macromolecules and pharmaceuticals. Lecture, two hours; laboratory, three hours per week. Prereq: CHE 232 or 236; and a physical chemistry course at or above the 400 level.

**CHE 556 ELEMENTS OF NEUROCHEMISTRY. (3)**

A course in the neurochemistry of the brain. Among topics to be covered: brain cell cytoarchitecture; chemical bases for: neuronal membrane transport, electrical excitability, and ion channels; axonal transport; energy metabolism; synaptic transmission; cellular signaling; Ca<sup>2+</sup> homeostasis; neurotransmitters; oxidative stress; apoptosis and necrosis; application of neurochemical principles to the molecular bases of neurodegenerative disorders. Prereq: CHE 232 and a biological chemistry course, or consent of instructor.

**CHE 558 HORMONE RECEPTORS AND CELL SIGNALS. (3)**

This course starts with the general concepts on hormones and their receptors and describes how hormones interact with their receptors and generate hormone signals and responses. Prereq: BIO 315 or equivalent, BCH 401G or equivalent, CHE 550 or 552 or equivalent, or consent of instructor.

**CHE 559 MOLECULAR BIOPHYSICS. (3)**

Overview of intermolecular forces responsible for formulation tertiary structure and macromolecular assemblies, as well as linked equilibria, allostery and propagation of signals. Extension of these principles to explain macromolecular machines, complex molecular behavior and, ultimately, processes of life. Prereq: A physical chemistry course at the 400 level or above, or consent of instructor.

**CHE 565 ENVIRONMENTAL CHEMISTRY. (3)**

A study of the sources, reactions, transport, effects, and fates of chemical species in the atmosphere, hydrosphere, lithosphere and biosphere. Prereq: Two semesters of general college chemistry are required. Courses in analytical and physical chemistry are recommended, but are not required.

**CHE 566 ORGANIC MATERIALS: CHARACTERIZATION AND DEVICES. (3)**

A study of applications of organic materials in electronic and optical devices, focusing on appropriate material-selection, processing, and interpretation of device output. Will cover basic methods for the formation of thin films of organic molecules and polymers, various spectroscopic techniques relevant to device performance, and methods to form and measure devices such as transistors and light-emitting diodes. Hybrid organic-inorganic material systems, and complex device structures for all-organic circuitry will be discussed. Prereq: CHE 232 and PHY 213 or PHY 232, or permission of the instructor.

**CHE 567 ORGANIC MATERIALS: FABRICATION LABORATORY. (2)**

A laboratory course focused on the fabrication and characterization of organic and organic-inorganic hybrid electronic devices. Although a stand-alone course, the laboratory will cover practical aspects related to topics covered in CHE 536 and 566, including processing methods and characterization of optical and electronic properties of organic materials and thin films. Prereq: CHE 536 or CHE 566, and PHY 213 or 232, or permission of the instructor.

**CHE 576 POLYMER CHEMISTRY. (3)**

Introduction to the theory and practice of polymer chemistry and polymer characterization. Prereq: CHE 230 and CHE 226; or permission from the instructor.

**\*CHE 580 TOPICS IN CHEMISTRY. (1-3)**

A detailed investigation of a topic of current significance in chemistry. May be repeated to a maximum of nine credits. Lecture and/or laboratory: variable. Prereq: CHE 232 and a physical chemistry course at or above the 400 level, or consent of instructor.

**CHE 610 CHEMISTRY OF THE TRANSITION METALS. (3)**

A detailed treatment of the chemistry of the transition elements, lanthanides and actinides, including the structure of coordination complexes, bonding, reaction mechanisms and preparations. Prereq: CHE 510.

**CHE 612 INORGANIC CHEMISTRY OF THE NON-METALS. (3)**

A detailed treatment of the inorganic chemistry of the nonmetals. Topics include theories of bonding, spectral characteristics, reaction mechanisms, preparations, physical methods of characterization and structural determination, and applications. Prereq: CHE 510.

**CHE 614 ORGANOTRANSITION METAL CHEMISTRY. (3)**

A detailed treatment of the organometallic chemistry of the transition metals, including lanthanides and actinides. Topics include synthesis, structure, bonding theories, reactions, characterization by physical methods, and applications in organic chemistry and catalysis. Prereq: CHE 232, and CHE 410G or 510, and a physical chemistry course at the 400 level or above, or consent of instructor.

**CHE 620 ELECTROCHEMICAL METHODS OF ANALYSIS. (3)**

An intensive study of the fundamental theories and principles of electrochemistry, and their practical applications for physical and quantitative analytical measurements. Topics include

potentiometric, voltammetric, amperometric, and coulometric methods. Prereq: CHE 522 or a physical chemistry course at the 400 level or above.

**CHE 623 CHEMICAL EQUILIBRIUM AND DATA ANALYSIS. (3)**

An advanced treatment of chemical equilibrium, sampling, and the evaluation of data obtained from chemically related measurements. Prereq: CHE 226 or 522 or a physical chemistry course at the 400 level or above.

**CHE 625 SPECTROCHEMICAL ANALYSIS. (3)**

An intensive study of the theory, instrumentation, and analytical applications of modern atomic and molecular spectrometric methods. Prereq: CHE 522.

**CHE 626 ADVANCED ANALYTICAL CHEMISTRY. (3)**

An advanced study of the theory and practice of quantitative analysis.

**CHE 640 CHEMICAL CRYSTALLOGRAPHY. (3)**

An introduction to modern small-molecule crystallography with emphasis on typical applications of interest to synthetic chemists. Prereq: CHE 232 and a physical chemistry course at the 400-level or above.

**CHE 643 SPECTROSCOPY AND PHOTOPHYSICS. (3)**

An integrated treatment of modern spectroscopy and photophysics. Topics to include atomic spectroscopy, microwave, infrared and UV-visible spectroscopy of diatomic and polyatomic molecules, lasers, creation and detection of excited states, fluorescence, phosphorescence, radiationless processes and photochemical transformations. Prereq: CHE 547 or 446G or permission of instructor.

**CHE 646 CHEMICAL KINETICS. (3)**

Studies of chemical reactions from the standpoint of velocity and mechanism. Prereq: CHE 442G.

**CHE 664 MULTIDISCIPLINARY SENSORS LABORATORY. (3)**

A multidisciplinary laboratory course with laboratory experiences in areas related to sensors and sensing architectures, typically including chemistry, chemical and materials engineering, and electrical engineering. Lecture, 1 hour; laboratory, 2 hours. Prereq: One year of college chemistry, calculus and physics. GS 660 or by consent of instructor. (Same as CME/EE/MSE 664.)

**CHE 666 PROTEOMICS AND MASS SPECTROMETRY. (3)**

A course in the identification, characterization, and quantification of the proteins in tissues and cells. Mass spectrometric methods are of central importance, and those techniques (including data analysis) are a major focus of the course. Prereq: CHE 232, a course in physical chemistry at or above the 400-level.

**CHE 668 SYMMETRY AND CHEMICAL APPLICATIONS. (3)**

An integrated treatment of fundamentals, techniques, and chemical applications of molecular symmetry and group theory. Prereq: A physical chemistry course at the 400-level, or consent of instructor.

**CHE 736 TOPICS IN ORGANIC CHEMISTRY. (2-4)**

Selected topics which may include heterocyclic organic compounds, natural and synthetic dyes, carbohydrates, nitrogen compounds, and recent advances in the field of organic chemistry. May be repeated to a maximum of 12 credits.

**CHE 746 TOPICS IN PHYSICAL CHEMISTRY. (2-4)**

Selected topics which may include photochemistry, structure of crystals, molecular spectra, nature of the chemical bond, and other recent advances in the field of physical chemistry. May be repeated to a maximum of 12 credits. Prereq: A physical chemistry course at the 400 level or above.

**CHE 748 MASTER'S THESIS RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

**CHE 749 DISSERTATION RESEARCH. (0)**

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

**CHE 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

**CHE 768 RESIDENCE CREDIT FOR MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours.

**CHE 769 RESIDENCE CREDIT FOR DOCTOR'S DEGREE. (0-12)**

May be repeated indefinitely.

**CHE 772 SEMINAR IN CHEMISTRY INSTRUCTION. (1)**

A seminar for teaching assistants on the methods and techniques of effective instruction in laboratory and recitation classes in chemistry. Required of all new graduate teaching assistants. Prereq: Admission to M.S. or Ph.D. program in chemistry.

## Course Descriptions

- CHE 776 GRADUATE SEMINAR.** (3)  
Reports and discussions on recent research and current literature. Required of all graduate students. Prereq: Graduate Standing.
- CHE 779 MEMBRANE SCIENCES COLLOQUIUM.** (1)  
Outstanding membrane scientists present their current research on biological and/or synthetic membranes. Students read a pertinent paper by the speaker prior to his/her talk and write a short paper on the talk; especially important is relevance of the main points of the talk to membrane science in general and the student's own research in particular. May be repeated to a maximum of six credits. (Same as BCH/CME/PHA/PHR 779.)
- CHE 780 INDIVIDUAL WORK IN CHEMISTRY.** (1-5)  
Selected library and laboratory problems in conformance with the student's interest will be attacked and pursued under the direction of a suitable staff member who is proficient in the area under investigation.
- CHE 790 RESEARCH IN CHEMISTRY.** (1-12)  
Work may be taken in the following fields, subject to the approval of the Departmental Graduate Committee: analytical chemistry, industrial chemistry, inorganic chemistry, organic chemistry, radiochemistry, or physical chemistry. May be repeated indefinitely.

## CHI Chinese Culture and Language

- CHI 101 BEGINNING CHINESE I.** (4)  
A course in first semester Chinese language.
- CHI 102 BEGINNING CHINESE II.** (4)  
A course in second semester Chinese language. Prereq: CHI 101 or equivalent.
- CHI 201 INTERMEDIATE CHINESE I.** (4)  
A course in third semester Chinese language. Prereq: CHI 102 or equivalent.
- CHI 202 INTERMEDIATE CHINESE II.** (4)  
A fourth semester course in Chinese language. Prereq: CHI 201 or equivalent.
- CHI 301 ADVANCED INTERMEDIATE CHINESE I.** (3)  
A course designed to increase student skills in listening, speaking, writing, reading and culture. More complex grammatical forms introduced; focus on control of basic forms. Development of students' lexicon through reading, watching films, conversation, tapes, etc. Prereq: CHI 202 or equivalent. All students who have had three or more years of high school Chinese or are heritage learners of Chinese and are enrolling in college-level Chinese for the first time must take the Chinese placement exam before enrolling in this course.
- CHI 302 ADVANCED INTERMEDIATE CHINESE II.** (3)  
A course designed to increase student skills in listening, speaking, writing, reading and culture. More complex grammatical forms introduced; focus on control of basic forms. Development of students' lexicon through reading, watching films, conversation, tapes, etc. Prereq: CHI 301 or equivalent. All students who have had three or more years of high school Chinese or are heritage learners of Chinese and are enrolling in college-level Chinese for the first time must take the Chinese placement exam before enrolling in this course.
- CHI 320 GENDER POLITICS IN CHINESE LITERATURE.** (3)  
An interdisciplinary, multimedia approach to the representation of gender relations in Chinese literature over time. Critical engagement of such topics as the complex relationships between women's issues and national discourse, between identity and performance, between the construction of female subjectivity and male fantasy, between gender and genre. Students will be encouraged to conduct cross-genre and cross-cultural comparisons. All readings in English. Prereq: Junior status or consent of instructor.
- CHI 321 INTRODUCTION TO CONTEMPORARY CHINESE FILM.** (3)  
The course offers an overview of major films, directors and actors in the contemporary PRC, Taiwan and Hong Kong. It examines the genres of Chinese film better known in the U.S., including the Hong Kong action film, fifth-generation mainland cinema and Taiwanese urban dramas. The course will provide an understanding of contemporary Chinese cinema through analyses of the content and style, poetics and politics of films/filmmakers/film movements, that reflect the Chinese cultural value system and differing Chinese aesthetics vis-a-vis Western and Hollywood views. All films are screened with English subtitles. Prereq: Junior status or consent of instructor.
- CHI 322 SELF AND SOCIETY IN CHINESE CULTURE.** (3)  
This course takes an interdisciplinary approach to the concept of the self and its relationship to larger social categories such as family and society in Chinese culture. Critical approaches to topics such as self-expression in art and literature over time and across genres, self-cultivation, gender, consciousness, modernity, and transnational identity. Course readings will include philosophical and religious texts as well as literature, historical writing, and material culture in its various forms. Prereq: Junior status or consent of instructor.
- CHI 323 CHINESE DRAMA – FROM PAST TO PRESENT.** (3)  
An interdisciplinary course that introduces students to the drama and oral performances of China from their origins in early time to their contemporary developments. Focuses will be the history and aesthetics of Chinese theatrical arts as well as works of regional dramatic forms. Students will also learn to appreciate Chinese performances in terms of both their social,

political and historical context and their structural and formal properties. The course will be conducted in English and all required readings are English as well. Students are not expected to know Chinese to take this course.

- CHI 330 INTRODUCTION TO CHINESE CULTURE, PRE-MODERN TO 1840.** (3)  
This course introduces students to premodern Chinese history, society, and culture up to 1840. Some of the major questions to be addressed include: Is "China" the oldest continuous civilization? Was it culturally and ethnically homogenous? Was Chinese traditional culture and society "patriarchal"? To what extent was the state successful in penetrating into the daily lives of individuals? Course assignments will include primary and secondary literature (entirely in English) as well as visual and material culture sources. No prior knowledge of Chinese history, culture, or language required.

- CHI 331 INTRODUCTION TO CHINESE CULTURE, 1840 TO PRESENT.** (3)  
This course introduces students to modern Chinese history, society, and culture from 1840 to the present, with a special focus on developments in the twentieth century. We will investigate three sets of major problems: (1) China is often seen as an ethnically and culturally homogenous society, but what is China and (Han) Chinese? (2) How did China transition from a multi-ethnic empire to a modern nation state? (3) What does modernity mean in the Chinese context? Aside from these specific objectives, this course will also teach students to analyze written and visual texts found in various genres. No prior knowledge of Chinese history, culture, or language required.

- CHI 333 CHINESE SHORT STORIES.** (3)  
This course takes an interdisciplinary approach and analyzes the issues of didacticism in storytelling, the problems of interpretation and the balance between entertaining and enlightening and the art and techniques of narration in traditional Chinese short stories. By reading Taoist, Buddhist, detective and fox and ghost stories as windows onto the social practices and values of traditional China, the course investigates broad social concerns such as identity, gender, sexuality and morality in pre-modern China. The course will be conducted in English and all required readings are in English as well. Students are not expected to know Chinese to take this course.

- CHI 334 TRADITIONAL CHINESE MEDICINE.** (3)  
This course is an interdisciplinary introduction to the history of Chinese medicine: its philosophy, theories, practices and transformations. Drawing on cultural history, anthropology, and gender studies, this course investigates Chinese medicine in its intellectual, social and cultural context and emphasizes the following components: 1) reading primary texts in translation; 2) a historical overview of the development of Chinese medicine; 3) examining different methodological approaches. The course will be conducted in English and all required readings are English as well. Students are not expected to know Chinese to take this course.

- CHI 345 INTRODUCTION TO EARLY CHINESE THOUGHT.** (3)  
This course will examine the intellectual history of China's classical period, from the late Shang until the sixth century CE, and critically engage fundamental concepts of early Chinese philosophy and religion including: the Dao, the discourse of tradition, formation of philosophical "schools," cosmic and social gender, the Sage, and human nature. This course will also consider "Religion" and "Philosophy" as terms of inquiry, and synthesize this literature to describe and analyze changes and continuities to Chinese thought during the classical era.

- CHI 395 INDEPENDENT WORK IN CHINESE.** (1-3)  
Students who have the proper qualifications may undertake a special problem in reading and research. May be repeated to a maximum of six credits. (Recommended.)

- CHI 401 ADVANCED CHINESE I.** (3)  
The course builds on material covered in CHI 302 and will cover a wide range of materials, including dialogues and newspaper articles. It will facilitate oral and written practice, allow students to communicate in real-life situations, and read and write Chinese texts with minimal aid of pinyin. Prereq: CHI 302 or equivalent.

- CHI 402 ADVANCED CHINESE II.** (3)  
This course builds on the linguistic skills acquired in previous Chinese study and further trains students in advanced use of the language, including listening, speaking, reading and writing. The course will expand students' vocabulary and improve students' reading and writing, speaking, and listening skills. The topics of the lessons cover the social changes in contemporary China and cultural developments in their social context. Prereq: CHI 401 or equivalent.

- CHI 430 POPULAR CULTURE IN MODERN CHINA.** (3)  
This course provides a critical examination of modern Chinese popular culture and its global cultural significance in the contemporary world. From film to literature, from music to theatre, this course will probe modern Chinese popular culture as it has manifested itself, and trace its sociopolitical, aesthetic, and affective impact on the contemporary world.

- CHI 450 DAOISM.** (3)  
Interdisciplinary examination of the development of Daoism, China's indigenous philosophical and religious tradition. Includes critical approaches to texts that are central to the doctrines, concepts, and practices of Daoism, and an assessment of its impact on Chinese art, poetry, fiction, and historical writing form all periods of Chinese history. This course will also offer a discussion of Daoism and its emergence in 20th century American culture and evaluate its impact and effects on North American pop culture, alternative culture, and new religious movements.

**CHI 495G ADVANCED INDEPENDENT WORK IN CHINESE. (1-3)**

Independent research in Russian and Eastern Studies on an advanced level for undergraduate and graduate students. Students will be required to establish a written contract with the relevant faculty member describing the tasks to be completed in the course. May be repeated to a maximum of six credits, or a total of six credits of CHI 395 and 495G.

**CHI 511 LITERARY CHINESE. (3)**

This course builds on linguistic skills learned in previous study of Chinese and Japanese, introducing the grammar, vocabulary, and concepts of Literary Chinese. The class will focus on early texts written in what is often referred to as "Classical Chinese," which flourished from the late Zhou to the end of the Han dynasty (220 CE) and was the common written language of East Asia. Prereq: CHI 301 or JPN 301 or consent of instructor.

**CHS College of Health Sciences****#CHS 101 AN INTRODUCTION TO HEALTH PROFESSIONS FOR EXPLORATORY STUDENTS. (2)**

This course introduces students to the health sciences professions and explores healthcare related careers. Students engage in self-reflection, in-class and co-curricular activities to enhance their awareness of personal strengths, interests, values, and goals to assist them in confirming or choosing a major and/or career pathway. Guest speakers, lectures, and assigned readings assist students in understanding the broader context of healthcare, trends in health practice, accreditation and certification requirements of various professions, health care delivery environments, and professional roles and responsibilities as members of an interprofessional health care team. The overall course goal is to promote informed decision-making as health sciences students begin their academic preparation within the health professions. Prereq: College of Health Sciences Exploratory Student or permission of the instructor.

**#CHS 150 INTRODUCTION TO INTERPROFESSIONAL HEALTHCARE SEMINAR. (3)**

This course is designed to introduce entry-level health care students to the importance and role of collaborative practice in healthcare for the purpose of building effective teams that can achieve optimal healthcare outcomes, promote patient safety, and organizational function. Students will learn the foundational skills and knowledge of core interprofessional competencies including professionalism, shared values and ethics, roles and responsibilities, interprofessional communication, and the development of teams and teamwork. Conceptual models through which an understanding of interprofessional healthcare practice will be presented. The International Classification of Functioning, Disability and Health (ICF) will form a key theoretical model to help develop a holistic perspective of patient care and develop a shared interprofessional framework and language. Prereq: CHS major or consent of instructor.

**#CHS 354 INTERPROFESSIONAL EVIDENCE-BASED DECISION MAKING. (3)**

This course prepares CHS majors for their careers by helping them understand the evidence-based decision making paradigm. Students in this course will apply evidence-based decision making skills in order to conduct a literature review, design a research question/hypothesis, and evaluate research studies. Prereq: CIS/WRD 110/111/112 or equivalent; not to be taken concurrently with CHS 150.

**CI Communication and Information****CI 601 PROSEMINAR IN COMMUNICATION. (3)**

Introduction to graduate study; theory and systems, research strategies. Prereq: Graduate standing in communication or consent of instructor.

**CI 608 MASS COMMUNICATIONS AND SOCIETY. (3)**

A study of the ways in which the communications media play their roles in contemporary society with special attention to the major functions, rights, and responsibilities of media and individuals. Prereq: Graduate standing in communication or consent of instructor.

**CI 610 PARTICIPATORY COMMUNICATION. (3)**

This seminar will provide students with a state of the art account of the underlying philosophical, theoretical, and methodological premises of participatory communication. This will help students gain a deep understanding of participatory communication theory and research, and their implications for such contexts as management and organizational communication, health communication, international development, journalism, democracy and civic engagement, public policy, and communication with marginalized groups. Prereq: At least one year of graduate study in communication or consent of instructor.

**CI 615 PROSEMINAR IN COMMUNICATION AND INFORMATION SYSTEMS. (3)**

This course is an introductory graduate-level survey of theory and research on human communication mediated by communication and information technologies. This course is designed to cover the areas not typically addressed in traditional courses of mass or interpersonal communication, including theory and research on the use of computers and electronic communication over a variety of communication and information systems. Prereq: Graduate standing or consent of instructor. (Same as LIS 615.)

**CI 616 FOUNDATIONS IN INSTRUCTIONAL COMMUNICATION. (3)**

Instructional communication is a blending of three disciplines including pedagogy (i.e., teaching), educational psychology (i.e., cognitive learning), and communication. Although each of these unique disciplines is embedded in its own theoretical and research tradition, this course will focus on where these three disciplines intersect. We will examine and criticize various communication and instructional models, plan for and deliver instruction in both in-person and computer-aided venues, learn various methods for assessing teaching and learning, and discuss the managerial and political aspects of instructional delivery in various professional contexts, with a special emphasis on those in academic, information, and organizational settings.

**CI 619 PROSEMINAR IN INTERNATIONAL/ INTERCULTURAL COMMUNICATION. (3)**

Examines important issues in communication from a global perspective. In-depth study of international communications systems, international information flow, problems that occur in communicating with members of different cultures or subcultures, and development of theories and strategies for improving international communications at the mass, organizational, and interpersonal levels. Prereq: CI 601 and graduate standing in communication or consent of instructor.

**CI 625 PROSEMINAR IN ORGANIZATIONAL COMMUNICATION. (3)**

This course is an introductory graduate-level survey of theory and research in the area of organizational communication and related topics. Students will be exposed to a variety of current theoretical perspectives and methodological orientations. Prereq: Graduate standing in communication or consent of instructor.

**CI 629 INTRODUCTION TO MEDICAL INFORMATICS. (3)**

This course is designed to introduce the interdisciplinary field of medical informatics to health information professionals. Medical Informatics is a developing field that essentially seeks to apply information and computing technologies to improve all aspects of healthcare, including patient care, research, and education. During the semester we will explore a number of topics central to understanding the field, including: the nature of biomedical information, the electronic medical record, the role of information and computing technologies to support clinical decision making, healthcare and informatics standards, information retrieval, system analysis and technology assessment, and essential issues of information technology in medical education and medical ethics. By the end of this Web-based course, students are expected to be able to understand broad aspects of the field and can use this as a foundation for further education, training, and work in health information professions. (Same as LIS 629.)

**CI 630 PROSEMINAR IN MASS MEDIA LAW AND PUBLIC POLICY. (3)**

Study of mass communication law and policy-making. Intensive review of court decisions, statutes and administrative rules and regulations regarding libel, privacy, public access to government meetings and documents, intellectual property, broadcast regulation, commercial and corporate speech, obscenity and protection of news sources. Prereq: CI 601 and graduate standing in communication or consent of instructor.

**CI 631 PROSEMINAR IN INTERPERSONAL COMMUNICATION. (3)**

The course reviews existing and emerging theoretical, perspectives relevant to the context of interpersonal communication. Emphasis is on theories of message production and reception, identity management, relationship development, and related processes. Methods of investigation unique to the study of interpersonal interaction are also addressed. Students are expected to be familiar with general communication theory and basic research methods prior to enrolling in the course.

**CI 636 ASSESSMENT AND EVALUATION METHODS IN APPLIED COMMUNICATION RESEARCH. (3)**

In applied instructional settings (e.g., training, workshops, teaching, online courses, conference proceedings), goals are set for specific outcomes to be achieved, whether they are affective, cognitive, or behavioral. In these instructional contexts, assessment is used to evaluate the effectiveness of any program or intervention. Additionally, assessment is used to improve upon existing programs and interventions. Students will learn how to develop, conduct, and evaluate sound assessment plans, and provide recommendations based on assessment results.

**CI 637 INFORMATION TECHNOLOGY. (3)**

Study of computer and communication technology used in modern information storage and retrieval systems. Consideration also given to managing microcomputer services, hardware evaluation and selection, and system security. Prereq: Consent of instructor. (Same as LIS 637.)

**CI 638 INTERNET TECHNOLOGIES AND INFORMATION SERVICES. (3)**

A course examining the structure, development and evolution of the Internet; network protocols and client/server architecture issues; Web page design, authoring, and evaluation; the use of the Internet as an information storage and retrieval system; recent advances in HTML and scripting languages; and Internet related social issues such as censorship and copyright. Prereq: LIS 636 or consent of instructor. (Same as LIS 638.)

**CI 640 HEALTH INFORMATION RESOURCE SERVICES. (3)**

A survey of information agencies and health science libraries, including topics related to: the healthcare community and their information needs, information resources in the health sciences, controlled medical terminologies and classification systems, search and retrieval of information resources, issues in the management of collections and access to health libraries. (Same as ICT/ LIS 640.)

**CI 645 PROSEMINAR IN MASS COMMUNICATION THEORY. (3)**

A broad examination and critical analysis of major mass communication theories and research areas. Prereq: A course in research methods and graduate standing in communication or consent of instructor.

## Course Descriptions

### **CI 646 INTERPERSONAL COMMUNICATION IN INSTRUCTION. (3)**

Interpersonal communication exists in the relationships between students and instructors and between students, both in and out of the classroom. Although these relationships differ from other interpersonal relationships (e.g., friends, significant others), their impact is no less profound or influential. In this course, students will explore how interpersonal concepts, constructs, theories, and relationships emerge in the classroom and impact the overall instructional environment in terms of learning outcomes, satisfaction, and engagement, among other important instructional outcomes.

### **CI 651 COMMUNICATION THEORY. (3)**

Examination and critical analysis of the major theories of communication processes, including systems theory, structural theories and semiotics, behaviorism, symbolic interactionism, theories of the social construction of reality, and other theoretical approaches to the study of communication. Prereq: Graduate standing or consent of instructor.

### **CI 652 DISTANCE EDUCATION: MANAGEMENT AND SUPPORT. (3)**

This course has been designed for those faculty or future faculty who plan to manage or direct programs delivered through distance education technology. The course will focus on current issues and challenges in distance education administration, including such topics as provision of quality support services; policy issues at the local, state, national, and international level; model administrative structures; instruction and technology funding; and virtual institutions. Prereq: Master's degree. (Same as EDS 652.)

### **CI 656 INSTRUCTIONAL COMMUNICATION AND TECHNOLOGY. (3)**

Instructional communication often utilizes technology. Teaching and learning now incorporate a wide variety of technologies, ranging from supplementing traditional lectures to holding classes online with students across the world. This course marries traditional areas of concern for instructional communication and emerging technologies to explore the landscape of teaching and learning. Through readings, technology demonstrations, and discussion, the class will examine ethical, technological, professional, and scholarly questions.

### **CI 664 QUALITATIVE METHODS IN COMMUNICATION RESEARCH. (3)**

Goals, epistemology and methods of qualitative inquiry in communication. Strengths and limitations of different qualitative research methodologies. Distinctive contributions of qualitative research to theory and practice of communication.

### **CI 665 QUANTITATIVE METHODS IN COMMUNICATION RESEARCH. (3)**

The scientific method. Communication research as part of social science research. Study and practice of quantitative behavioral research techniques which apply to communication. Prereq: Graduate standing in communication or consent of instructor.

### **CI 668 DATABASE MANAGEMENT. (3)**

This course is designed as a first database course for students without any previous experience. The general aim of the course is to understand the basic concepts, principles, and hands-on experiences on database systems. The course will evolve from understanding, visualizing, and analyzing data. Then transition to understanding relational databases by designing and building databases using Access and querying using Structured Query Language (SQL). Prereq: LIS 636 or permission of instructor. (Same as LIS 668.)

### **CI 671 PROSEMINAR IN HEALTH COMMUNICATION. (3)**

This course is designed to provide a broad introduction to communication in a health care context. Topics addressed are patient-provider communication, small group communication, communication in health care organizations, intercultural communication in health care, and health images in the mass media. Prereq: Graduate standing in communication or consent of instructor.

### **CI 682 COMMUNICATION AND PERSUASION. (3)**

An advanced course examining the literature in communication and attitude change. Issues in measurement, theory, and philosophical orientation are central. Covers communication broadly, including interpersonal, mediated, and mass communication. Prereq: Graduate standing in communications or consent of instructor.

### **CI 684 PROSEMINAR IN INSTRUCTIONAL COMMUNICATION. (3)**

This course is an introductory graduate-level survey of current theory, research, and current developments in the area of instructional communication. Students will be exposed to a variety of current theoretical perspectives and methodological orientations. Hands-on opportunities are provided to construct and refine strategies and resources for instruction. Prereq: Prior teaching experience, or COM 584, or consent of instructor.

### **CI 685 SEMINAR: PREPARING FUTURE FACULTY FOR THE MULTICULTURAL CLASSROOM. (1)**

This course is to prepare future communication faculty for facilitating and dealing with diverse student learning in an increasingly multicultural classroom context. Prereq: Recommend CI 684 or GS 650.

### **CI 690 SPECIAL TOPICS IN LIBRARY AND INFORMATION SCIENCE. (1-3)**

A survey and historical study of multicultural literature for your of all ages. Students will engage in extensive reading, evaluation, and discussion of literature and the issues related to developing an understanding of various cultures and special populations. Prereq: LIS 610 or LIS 614, or consent of instructor.

### **CI 696 INTERNSHIP IN COMMUNICATION. (3)**

Field experience for candidates for the M.A. degree in any field of communications through work in industry, government, education, research or business agencies. Laboratory, 12 hours

per week. Prereq: Admission to M.A. program and 18 hours of graduate work. Consent of DGS required.

### **CI 700 DIRECTED READING IN COMMUNICATION. (1-3)**

Individual reading study on some communications aspects not treated in depth in a regular course or of topical interest. Advance consultation regarding reading list and examination procedure required. May be repeated to a maximum of 12 credits. Prereq: Graduate standing in communication or consent of instructor.

### **CI 719 SEMINAR IN INTERNATIONAL/ INTERCULTURAL COMMUNICATION (Subtitle required). (3)**

Special Topics/Issues in International/Intercultural Communication examines the current and the alternative perspectives in the field of study. Topics/Issues such as the New World Information and Communication Order, Information/Communication Technologies, Communication and Development, Transborder Data Flows, etc., are studied. May be repeated to a maximum of six credits. Prereq: CI 619 and graduate standing in communication or consent of instructor.

### **CI 721 SEMINAR IN RISK COMMUNICATION. (3)**

This course establishes risk communication as a distinct sub-discipline within the communication discipline. Ethical considerations are paramount in all areas covered in the course. Theories of risk communication such as mindfulness, sensemaking, chaos, image repair, issues management, the constraints of structuration, and renewal discourse are discussed in terms of pre-crisis, crisis, and post-crisis. Applied research areas such as best practices, high reliability organizations, terrorism, and health risks are also considered. Ultimately, the course provides an overview of the established and emerging perspectives on risk and crisis from the communication perspective.

### **CI 722 SEMINAR IN CRISIS COMMUNICATION. (3)**

This course follows the crisis communication management process through the stages of pre-crisis, crisis, and post-crisis. The pre-crisis stage discusses planning and environmental scanning. The crisis stage discusses communication strategies for image restoration. The post-crisis stage depicts crisis as an opportunity for organizational learning and for rebuilding or expanding public trust. The course uses a case study approach throughout.

### **CI 723 SEMINAR IN TRAINING AND CONSULTING. (3)**

This graduate course explores communication training and consultation as a research and instructional focus for students interested in applied communication. Students will learn how to identify and assess communication competence and how to develop training programs to enhance communication competency.

### **CI 725 SEMINAR IN ORGANIZATIONAL COMMUNICATION: (Subtitle required). (3)**

This course is concerned with theory and research relevant to organizational communication and related areas of interest. Special attention is given to various topics relevant to a specific subtitle. May be repeated to a maximum of six credits under a different subtitle. Prereq: Graduate standing in communication or consent of instructor.

### **CI 726 COMMUNICATION LEADERSHIP STUDIES. (3)**

The primary purpose of this is course is to extend students' theoretical understanding of leadership from a communication perspective. Specifically, this course is designed to (1) sharpen the students' understanding of the role of communication in developing effective leadership behaviors; (2) familiarize students with leadership as it relates to the communication process; (3) involve students in major term projects which incorporate current leadership theory and research; and (4) enhance students' understanding of published research in leadership communication.

### **CI 730 SEMINAR IN MASS MEDIA AND PUBLIC POLICY (Subtitle required). (3)**

The role of mass communications media in making public policy and the effects of public policies on the mass media. One subject area will be investigated each semester; typical topics are (1) political campaign communications; (2) censorship; (3) controversial public issues; (4) rights; (5) international and world agreements. May be repeated to a maximum of six credits under a different subtitle. Prereq: CI 630 and graduate standing in communication or consent of instructor.

### **CI 731 SEMINAR IN INTERPERSONAL COMMUNICATION (Subtitle required). (3)**

Consideration of special problems in interpersonal communication with emphasis on emergence of theory and implications for further research. May be repeated to a maximum of six credits under a different subtitle. Prereq: CI 631 and graduate standing in communication or consent of instructor.

### **CI 745 SEMINAR IN MASS COMMUNICATION (Subtitle required). (3)**

Consideration of selected topics in mass communication theory and research. May be repeated under a different subtitle to a maximum of six credits. Prereq: Graduate standing in communication or consent of instructor.

### **CI 751 ADVANCED TOPICS IN COMMUNICATION THEORY CONSTRUCTION. (3)**

Intensive examination of selected topics important to the construction, development, and testing of communication theories and problems. Prereq: Completion of required first-year curriculum for the Ph.D.

**CI 764 ADVANCED TOPICS IN****QUALITATIVE RESEARCH METHODS (Subtitle required). (3)**

A focused treatment of one or more issues, topics, or problems in qualitative research methodology in communication, such as ethnography, discourse analysis, semiotics, or historical methods. May be repeated unlimited under different topics. Prereq: CI 664 or consent of instructor.

**CI 765 ADVANCED SEMINAR IN COMMUNICATION****RESEARCH METHODS (Subtitle required). (3)**

A course in the methods and design of communication studies. Prereq: CI 665 or the equivalent and graduate standing in communications or consent of instructor.

**CI 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

**CI 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours.

**CI 769 RESIDENCE CREDIT FOR DOCTOR'S DEGREE. (0-12)**

May be repeated indefinitely. Prereq: Satisfactory completion of Qualifying Examination (third year).

**CI 771 SEMINAR IN HEALTH COMMUNICATION (Subtitle required). (3)**

A topical seminar discussing issues in the field of health communication from a variety of perspectives, e.g., the relevance of interpersonal, international and intercultural and mass communication processes to the quality and availability of health care. May be repeated.

**CI 775 SEMINAR IN HEALTH COMMUNICATION CAMPAIGNS. (3)**

The role of communication in public health campaigns. Includes theories relevant to such campaigns, campaign effects studies, methods of evaluation, and message design and targeting principles. Prereq: CI 645 and graduate standing in communication or consent of instructor.

**CI 780 SPECIAL TOPICS IN COMMUNICATION (Subtitle required). (3)**

Professors will conduct research seminars in topics or problems in which they have special research interests. May be repeated with different topics.

**CI 781 DIRECTED STUDY IN COMMUNICATION. (1-6)**

To provide advanced students with an opportunity for independent work to be conducted in regular consultation with the instructor. May be repeated to a maximum of six credits. (To be used for independent work.) Prereq: Consent of instructor.

**CI 782 SEMINAR IN STRATEGIC COMMUNICATION (Subtitle required). (3)**

This course is concerned with advanced theory and research in strategic communication and social influence. Special attention may be given to compliance gaining, negotiation, self-presentation, deception or other types of strategic interaction. May be repeated to a maximum of six credits under a different subtitle. Prereq: Graduate standing in communication or consent of instructor.

**CI 790 RESEARCH PROBLEMS IN COMMUNICATION. (1-6)**

Significant participation in important aspects of a research project under the direction of a graduate faculty member. May be repeated to a maximum of six credits. Prereq: Completion of all required first-year courses in the doctoral curriculum and consent of Associate Dean for Graduate Studies.

---

## CIS                      Communications and Information Studies

---

**CIS 110 COMPOSITION AND COMMUNICATION I. (3)**

Composition and Communication I is the introductory course in a two-course sequence designed to engage students in composing and communicating ideas using speech, writing, and visuals. Students will develop interpersonal communication, critical thinking, and information literacy skills by exploring what it means to be engaged, twenty-first century citizens. Students will practice composing, critiquing, and revising ideas based on personal experience, observation, and fieldwork in the community, culminating in several discrete projects using oral, written, and visual modalities.

**CIS 111 COMPOSITION AND COMMUNICATION II. (3)**

Composition and Communication II is the advanced course in a two-course sequence designed to engage students in composing and communicating ideas using speech, writing, and visuals. In this course, students will work in small groups to explore issues of public concern using rhetorical analysis, engage in deliberation, compose conscientious and well-developed arguments, and propose viable solutions to different audiences. Students will sharpen their ability to conduct research; compose and communicate in spoken, written, and visual forms; and work effectively in teams through sustained interrogation of an issue. A significant component of the class will involve learning to use visual and digital resources both to enhance written and oral presentations and to communicate with public audiences. Prereq: CIS 110.

**CIS 112 ACCELERATED COMPOSITION AND COMMUNICATION II (CIS). (3)**

Composition and Communication 112 is an accelerated version of the standard two-semester composition and communication sequence. It focuses on integrated oral, written, and visual communication skill development and emphasizes critical inquiry and research. Students will sharpen their ability to conduct research; compose and communicate in written, oral, and visual modalities; and use interpersonal skills to work effectively in groups (dyads and small groups). Prereq: AP English Composition score of 4 or 5, an ACT English score of 32 or higher, an SAT verbal score of 720 or higher, an SAT 2016 reading score of 38 or higher, or acceptance into the University's Honors Program.

**CIS 184 COMMUNICATING ARGUMENTS. (3)**

Theories; strategies; techniques for researching, analyzing, constructing, and presenting oral arguments for and against selected contemporary topics and issues. Emphasis on in-class presentations. Prereq: Instructor approval required to enroll.

**CIS 191 SPECIAL TOPICS IN INSTRUCTIONAL COMMUNICATION (Subtitle required). (1-3)**

Study of a specialized topic in instructional communication. May be repeated to a maximum of nine credits under different subtitles. Lecture. Prerequisites will be set by the instructor.

**CIS 284 INTERCOLLEGIATE DEBATE AND FORENSICS. (1)**

Preparation for and participation in intercollegiate debating and/or forensics. May be repeated seven times for a maximum of eight credits. Prereq: Instructor approval required to enroll.

**CIS 300 STRATEGIC BUSINESS AND PROFESSIONAL COMMUNICATION (W). (3)**

This communication intensive course prepares students for their careers by developing effective communication skills (integrated written, oral, and visual) applied specifically to today's technology-driven and global business environment. The course will focus on developing strong communication skills in interpersonal settings, on small group teams, and when delivering public presentations. Students will prepare cover letters, resumes, websites, and portfolios; develop effective interviewing skills in face-to-face and online environments; communicate effectively based on audience analysis in face-to-face and online settings; deliver effective formal public business presentations (informative and persuasive) based on audience analysis and using a variety of presentational aids that enhance the message; and learn to manage data, graphics, and a positive online presence (e.g., websites, blogs, social media outlets, email messages, and webinars). Prereq: Upper division status in accounting, analytics, communication, economics, finance, management, marketing, or permission from instructor. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

**CIS 391 SPECIAL TOPICS IN INSTRUCTIONAL COMMUNICATION (Subtitle required). (3)**

Intensive study of a specialized topic in instructional communication. May be repeated to a maximum of 9 credits under different subtitles. Lecture.

**CIS 399 CONSULTING AND TRAINING – MULTIMODAL COMMUNICATION CONSULTING CENTER INTERNSHIP. (1-3)**

The principle purpose of this course is to provide students with an opportunity to intern in the Multimodal Communication Consulting Center (MC3). The internship will provide students with the ability to act as a peer tutor in the MC3, engage in classroom presentations, and develop out-of-class instructional workshop focused on presentational elements and multimodal communication. Prereq: CIS/WRD 110 and 111 or equivalents and by instructor approval.

**CIS 499 INTERNATIONAL INTERNSHIP. (3)**

Qualified students enter the professional sector to refine skills and knowledge. Supervised internships in an international location approved by the College allow placements in industry, government, the media, communication agencies, etc. International internship credit will only be given for sites/programs approved by Education Abroad at UK. Pass/Fail only. Prereq: Admission to upper-division in one of the undergraduate majors in the College of Communication and Information (COM, ICT, ISC, JOU or MAS), fulfillment of internship prerequisites for the specific major (for COM 399, JAT 399 or ICT 399), and approval of the College's executive director for international studies.

**CIS 590 INTERNSHIP-APPRENTICESHIP IN INSTRUCTIONAL COMMUNICATION (Subtitle required). (3)**

This course provides students an opportunity to work one-on-one with a faculty member in the college as a teacher's apprentice in a course in the track of their chosen major. As an apprentice, students will attend all classes of the course they are serving as an apprentice for and meet with the faculty member weekly to discuss course content and pedagogical strategies. Students will also prepare at least three lesson plans and lead the class in working through them at least three times over the course of the semester. Students will ultimately develop a reflective teaching portfolio for the course. This course is repeatable for up to 6 credits. Prereq: Upper division status in the College of Communication and Information, successful completion of the course for which a student wants to as an intern-apprentice (i.e., B or better), an overall GPA of 3.0 or higher, permission from both the teacher of the course and the Director of the Division of Instructional Communication prior to registration, and completion of a Division Learning Contract.

## CJT Communication, Journalism, Telecommunications (Graduate)

**CJT 748 MASTER'S THESIS RESEARCH.** (0)  
Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

**CJT 749 DISSERTATION RESEARCH.** (0)  
Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

## CLA Classics

### COURSES IN CULTURE AND CIVILIZATION

(No knowledge of Greek or Latin expected.)

**CLA 100 ANCIENT STORIES IN MODERN FILMS.** (3)  
This course will view a number of modern films and set them alongside ancient literary texts which have either directly inspired them or with which they share common themes. In the first part of the course, we will consider the relationship between ancient Greek epic, tragic, and comic literature and the modern cinema. In the second part, we will look at a number of ways in which the city of Rome has been treated as both a physical place and as an idea or ideal in the works of both ancient Romans and modern film-makers.

**CLA 131 MEDICAL TERMINOLOGY FROM GREEK AND LATIN.** (3)  
Latin and Greek roots, prefixes, and suffixes as found in medical terminology. Primarily for pre-medical, pre-dental, pre-nursing and pre-veterinary students, but others will be admitted for help in vocabulary building.

**CLA 135 GREEK AND ROMAN MYTHOLOGY.** (3)  
The Greek myths studied both from the standpoint of their meaning to the Greeks and Romans and from the standpoint of their use in later literature and in everyday life. Fulfills Gen Ed Inquiry, Humanities.

**CLA 190 INTRODUCTION TO THE NEW TESTAMENT.** (3)  
This course introduces students to both the role religion can play in human experience and the principles of the interpretation of historical, especially religious, texts by exploring the literary, historical, and cultural dimensions of the Christian Bible, the New Testament. The scholarly and academically rigorous exploration of sacred texts and religion in general, outside the realm of denominational belief, stretches back nearly 200 years, to the time of the birth of such disciplines as archaeology, anthropology, sociology, cultural history, and folkloric studies, all of which contribute to the modern discipline of biblical studies and the historical-critical method of interpretation. The academic study of the New Testament, especially since it is a text already familiar to many students, can in particular serve to teach reasoned analysis and critical thinking, challenge assumptions, and demonstrate the vital relevance of the humanities disciplines to our daily lives.

**CLA 191 CHRISTIANITY, CULTURE, AND SOCIETY: AHISTORICAL INTRODUCTION.** (3)  
A historical introduction to Christianity in its varying cultural contexts, examining the primary developments in its teachings, practices, and structures from its origins to the sixteenth century.

**CLA 210 THE ART OF GREECE AND ROME.** (3)  
A survey of the major forms of art in ancient Western Asia, Greece, and Rome, with emphasis on the comparative typology and cultural significance of the monuments.

**CLA 229 THE ANCIENT NEAR EAST AND GREECE TO THE DEATH OF ALEXANDER THE GREAT.** (3)  
Covers the birth of civilization in Egypt and Mesopotamia, and the history of the ancient Near East and Greece to the conquest of Greece by Philip of Macedon. (Same as HIS 229.)

**CLA 230 THE HELLENISTIC WORLD AND ROME TO THE DEATH OF CONSTANTINE.** (3)  
Covers the conquests of Alexander the Great, and the main features of the Hellenistic World, the Roman Republic and the Roman Empire to the death of Constantine. (Same as HIS 230.)

**CLA 261 LITERARY MASTERPIECES OF GREECE AND ROME.** (3)  
A survey of major Greek and Roman literary works. Attention will be focused on the various genres of Classical literature, and the course will include comparative analysis of Greek and Latin literary pieces.

**CLA 314 ANCIENT (Subtitle required).** (3)  
Study of the arts and visual cultures of the Ancient World. According to subtitles, focus may be on selected periods or media of artistic and visual production, in the context of political, social and cultural developments, from Bronze Age through the Roman Empire under Constantine. May be repeated under a different subtitle to a maximum of six credits. Prereq: A-H 105 recommended. (Same as A-H 314.)

**CLA 331 GENDER AND SEXUALITY IN ANTIQUITY.** (3)  
A survey of the construction of gender, sexuality, and their relation to and expression in the societies of ancient Greece and Rome. Gender roles, marriage, social problems concerning sex and virginity, and different ways of understanding sexuality and gender in historical contexts are examined through the study of ancient literature, art and the insights of contemporary scholarship.

**CLA 382 GREEK AND ROMAN RELIGION.** (3)  
A broad examination of the varieties of religious practice and experience in the ancient Mediterranean world, particularly in Greece and Rome, with emphasis placed on how dramatically ancient religious concepts and systems differ from those of the modern world.

**CLA 390 BACKGROUNDS TO AN EARLY HISTORY OF CHRISTIANITY TO 150 CE.** (3)  
This course examines the origins of Christianity from its Jewish, Greek, and Roman influences and charts its development through the first one hundred years of its existence. Special emphases are placed on understanding the diversity of Judaic religious identity as well as the influence of Greek philosophy and religion. The world of Jesus, Paul, and the evolution of this new view of one's relationship to God are analyzed historically through a close examination of the texts of this time in the nexus of Jewish, Greek, and Roman cultural interaction. All students will write a book review, take two essay exams, and participate in regular discussion. Class participation is an expected component of this class and contributes 25% to the final grade for the course. (Same as HIS 390.)

**CLA 391 CHRISTIANS IN THE ROMAN EMPIRE.** (3)  
This course discusses the changing status of Christians in the Roman Empire between 100 and 500 CE. An underlying theme of this course is: What is it to be a Christian? Students will read and discuss both primary and secondary sources and analyze how the answer to the above-mentioned question changed during the Roman Empire. Topics to be discussed include: heresies, persecution, definitions of doctrines and practices, the relationship to the Roman Empire, and more. All students will write a book review, take two essay exams, and participate in regular discussion. Class participation is an expected component of this class and contributes 25% to the final grade for the course. (Same as HIS 391.)

**CLA 450G SPECIAL TOPICS IN CLASSICAL STUDIES (Subtitle required).** (3)  
This course offers advanced study of a particular topic in classical studies not covered in other CLA courses. The field of study for this course is broadly conceived, and can include aspects of Greek or Latin philology and literature, as well as the history and culture of antiquity, archaeology and material studies, literary rhetorical theory and criticism, the classical tradition in the humanities, and pertinent topics in the Middle Ages and Renaissance. Format includes lectures and discussions, assigned and supplementary readings, and paper writing. May be repeated to a maximum of nine credits with different topics.

**CLA 462G TOPICS IN CLASSICAL LITERATURE (Subtitle required).** (3)  
A study of a specific genre or genres, or author or set of authors, selected from Greek and Roman literature read in English translation. In addition to developing an appreciation of the works studied and their ongoing contribution to world literature, the course will examine various methods of literary analysis and criticism as well as the historical, social, and cultural context of these works in classical antiquity. The course is especially suited for students outside the classical languages who wish to acquire a sophisticated understanding of classical culture and for students interested in comparative literary studies.

**CLA 509 ROMAN LAW.** (3)  
An historical introduction to the development of Roman law, from the Twelve Tables through the Codex Justinianus. (Same as HIS 509.)

### COURSES IN LATIN

**CLA 205 COMPREHENSIVE INTERMEDIATE LATIN.** (3)  
An accelerated course offered in the summer session designed to take the student through the material normally covered in the two intermediate-level Latin courses (201 and 202). This course is intended to expand the student's knowledge of the vocabulary, grammar, and prose idiom of classical and post-classical Latin. There will also be discussions of Roman art, literature, history, and culture and, as time permits, Latin's role in the development of the English language. Oral exercises will also be part of the instruction. Prereq: CLA 102 or equivalent, or permission of the instructor.

**CLA 301 LATIN LITERATURE I (Subtitle required).** (3)  
An introduction to the literature of Republican Rome with selected readings of complete works from the major Latin authors. Lectures and class discussions on the various genres, styles, and themes of Latin literature. Topics vary every time the course is offered. May be repeated once under a different subtitle. Prereq: CLA 202 or equivalent.

**CLA 302 LATIN LITERATURE II (Subtitle required).** (3)  
An introduction to the literature of Imperial Rome with selected readings of complete works from the major Latin authors. Lectures and class discussions on the various genres, styles, and themes of Latin literature. Topics vary every time the course is offered. May be repeated once under a different subtitle. Prereq: CLA 202 or equivalent.

**CLA 501 LATIN COMPOSITION. (3)**

The course is designed for students with a good command of Latin morphology and basic knowledge of Latin syntax. The participants will deepen their knowledge of Latin syntax, internalize the principles of Latin grammar and usage, and develop a sensitivity to prose style. The course will involve readings from Latin authors from all periods, and exercises in Latin prose composition. It will foster familiarization with the language through exercises that will go beyond simple translation from English. English, not Latin, will be the spoken language used in this course. Prereq: Proficiency in Latin above the 300 level.

**CLA 521 ADVANCED LATIN COMPOSITION AND READING. (3)**

This course continues the study of Latin composition, concentrating on the compound sentence, modes of expression in subordinate clauses, and the figures of speech in rhetoric. Students will become acquainted with masterpieces of Latin prose from all periods, including Cicero, Sallust, Livy, Petronius, Pliny Minor, Einhard, Abelard, Erasmus of Rotterdam, Thomas More. This course, unlike CLA 501, will be conducted entirely in Latin, with the objective of further enhancing the students' abilities to express themselves in correct Latin prose. Prereq: Consent of instructor.

**CLA 524 THE LATIN LITERATURE OF THE REPUBLIC (Subtitle required). (3)**

A study of one or more works selected from the beginnings of Roman literary history to 31 B.C., the period of such writers as Cicero, Caesar, Sallust, Plautus, Terence, Lucretius, and Catullus. Texts may include prose, including history, philosophy, rhetoric and oratory, and letters, and/or poetry, including drama and satire. A particular author, work, genre, or theme is selected each time the course is offered. Textual analysis is emphasized, with lectures and class discussion on the literary milieu. May be repeated to a maximum of nine credits under a different subtitle. Prereq: CLA 301 or equivalent.

**CLA 525 THE LATIN LITERATURE OF THE EMPIRE (Subtitle required). (3)**

A study of one or more works selected from approximately 31 B.C. to the end of the Western Empire, the period of such writers as Livy, Tacitus, Pliny, Seneca, Virgil, Horace, Ovid, and Juvenal. Texts may include prose, including history, philosophy, rhetoric and oratory, and letters, and/or poetry, including epic, lyric, elegiac, pastoral, and satire. A particular author, work, genre, or theme is selected each time the course is offered. Textual analysis is emphasized, with lectures and class discussion on the literary milieu. May be repeated to a maximum of nine credits under a different subtitle. Prereq: CLA 301 or equivalent.

**CLA 528 LATE ANTIQUE AND POST-IMPERIAL LATIN LITERATURE (Subtitle required). (3)**

A study of one or more works selected from Latin literature of late antiquity, or after the fall of the empire in the west, from approximately 200 AD into the Middle Ages and Renaissance. Authors and works may include early Christian Latin writers such as Augustine, late antique pagan writers such as the historian Ammianus, as well as medieval poetry, the Latin novel, medieval Christian writers, and Renaissance figures such as Erasmus. A particular author, work, genre, or theme is selected each time the course is offered. Textual analysis is emphasized, as well as the historical and cultural setting of the text and author. May be repeated to a maximum of nine credits under a different subtitle. Prereq: CLA 301 or equivalent.

**CLA 611 LATIN OF ANCIENT ROME AND THE MIDDLE AGES (Subtitle required). (3)**

This course is based on extensive reading of Latin texts taken from the Roman through the Medieval periods. It aims to foster close familiarization with the Latin language, cultivate an appreciation for different Latin prose styles, as well as investigate the broader historical and cultural circumstances surrounding each work. The classes will be conducted in Latin, and the assignments will involve Latin composition. May be repeated to a maximum of nine hours. Prereq: At least one course in Latin composition or permission of instructor.

**CLA 612 LATIN OF THE MIDDLE AGES TO THE MODERN WORLD (Subtitle required). (3)**

This course is based on extensive reading of Latin texts taken from the Medieval through the Modern period. It aims to foster close familiarization with the Latin language, cultivate an appreciation for different Latin prose styles, as well as investigate the broader historical and cultural circumstances surrounding each work. The classes will be conducted in Latin, and the assignments will involve Latin composition. May be repeated to a maximum of nine hours. Prereq: At least one course in Latin composition or permission of instructor.

**CLA 624 SEMINAR IN THE LATIN LITERATURE OF THE REPUBLIC (Subtitle required). (3)**

Graduate seminar in an author, a literary form, or a problem in the period of the Roman Republic. Intensive study of the Latin text(s) is accompanied by considerable attention to current scholarship and bibliography. Students will write extended papers and present oral reports in class. May be repeated to a maximum of nine hours. Prereq: Graduate standing or consent of the Classics DGS and instructor.

**CLA 625 SEMINAR IN THE LATIN LITERATURE OF THE EMPIRE (Subtitle required). (3)**

Graduate seminar in an author, a literary form, or a problem in the period of the Roman Empire. Intensive study of the Latin text(s) is accompanied by considerable attention to current scholarship and bibliography. Students will write extended papers and present oral reports in class. May be repeated to a maximum of nine hours. Prereq: Graduate standing or consent of the Classics DGS and instructor.

**CLA 628 SEMINAR IN LATE ANTIQUE AND POST-IMPERIAL LATIN LITERATURE (Subtitle required). (3)**

Graduate seminar in an author, a literary form, or a problem from Latin literature of late antiquity or early Christianity, or after the fall of the empire in the west, including the Middle Ages and Renaissance. Intensive study of the Latin text(s) is accompanied by considerable attention to current scholarship and bibliography. Students will write extended papers and present oral reports in class. May be repeated to a maximum of nine hours. Prereq: Graduate standing or consent of the Classics DGS and instructor.

**COURSES IN GREEK****CLA 350 PREPARING TO READ GREEK TEXTS. (3)**

This course completes the study of fundamentals of the grammar and syntax of Classical Greek and prepares the student to read original Greek texts with competence and confidence. Prereq: CLA 252 or equivalent, or permission of instructor.

**CLA 551 GREEK POETRY AND DRAMA (Subtitle required). (3)**

A study of one or more works of Greek poetic and/or dramatic literature, which may include epic, lyric, tragedy, and comedy, selected from the whole of ancient Greek literature from Homer through the Roman period. A particular author, work, genre, or theme is selected each time the course is offered. Emphasis is placed both on mastering the Greek language and on literary analysis of the texts studied. Lectures and class discussions will further illuminate the literary and cultural milieu of the author or text. May be repeated to a maximum of nine credits under a different title. Prereq: CLA 252 or equivalent.

**CLA 555 GREEK PROSE (Subtitle required). (3)**

A study of one or more works of Greek prose literature, which may include history, biography, philosophy, satire, and the novel, selected from the whole of ancient Greek literature from Homer through the Roman period. A particular author, work, genre, or theme is selected each time the course is offered. Emphasis is placed both on mastering the Greek language and on literary analysis of the texts studied. Lectures and class discussions will further illuminate the literary and cultural milieu of the author or text. May be repeated to a maximum of nine credits under a different title. Prereq: CLA 252 or equivalent.

**CLA 651 SEMINAR IN GREEK POETRY AND DRAMA (Subtitle required). (3)**

Graduate seminar in Greek poetic and/or dramatic literature, which may include epic, lyric, tragedy, and comedy. Intensive study of the Greek text(s) is accompanied by considerable attention to current scholarship and bibliography. Students will write extended papers and present oral reports in class. May be repeated to a maximum of nine credits. Prereq: Graduate standing or consent of the Classics DGS and instructor.

**CLA 655 SEMINAR IN GREEK PROSE (Subtitle required). (3)**

Graduate seminar in Greek prose literature, which may include history, biography, satire, and the novel. Intensive study of the Greek text(s) is accompanied by considerable attention to current scholarship and bibliography. Students will write extended papers and present oral reports in class. May be repeated to a maximum of nine credits. Prereq: Graduate standing or consent of the Classics DGS and instructor.

**OTHER ADVANCED COURSES****CLA 395 UNDERGRADUATE INDEPENDENT STUDY IN CLASSICS. (1-3)**

An independent investigation of a topic, usually outside of or in considerably greater depth than available in the regular course offerings, in Greek and/or Roman language, literature, history, or culture. The course is designed for advanced undergraduate students under the supervision of a faculty member, and usually takes the form of directed readings, writing, and discussion, with tutorial meetings with the instructor no less than once a week. An advanced undergraduate research paper or equivalent project is the standard product of the course. May be repeated to a maximum of 6 credits. Prereq: Advanced undergraduate experience in Classics and permission of the instructor.

**CLA 480G STUDIES IN GREEK AND LATIN LITERATURE (Subtitle required). (3)**

A study of one or more works of Classical literature, either Greek or Latin, is designed to offer study in a particular text or author meeting a particular need or demand for graduate students from other disciplines and advanced undergraduate students in Classics. The course is not intended for Classics graduate students. Mastering the language of the text is a fundamental objective of this course, but the historical, social, and cultural milieu will also be studied. May be repeated for credit up to a maximum of six hours.

**CLA 580 INDEPENDENT WORK IN CLASSICS. (3)**

Courses to meet the needs of the student, including those who wish to study Medieval and/or Renaissance Latin, will be arranged in various areas. May be repeated to a maximum of 12 credits. Prereq: Major standing of 3.0 in the department or consent of instructor.

**CLA 615 MANUSCRIPT CULTURES. (3)**

This course examines how the vehicle of the manuscript and the circumstances of manuscript production shaped the creation, transmission, and reading of texts before the fifteenth century. Among the topics to be studied are orality and literacy, the transcription of sacred texts in Christianity, Judaism, and Islam, the political, economic, and social impacts of manuscript production and circulation, the impact of institutions (such as universities) on reading practices, contexts for the suppression, control, and alteration of texts, and the radical differences between print and manuscript cultures. (Same as HIS 615.)

**CLA 616 PALEOGRAPHY. (3)**  
 This course provides training in the skills needed to read the handwritten materials that constitute evidence for historical investigation of the production and circulation of information outside the medium of print. While the specific scripts to be studied will vary from semester to semester, depending upon whether the course is focused upon Latin paleography, Greek paleography, or vernacular paleographies, students will learn to read and transcribe manuscripts, to expand abbreviations appropriately, to recognize the chronological and geographical extent of particular scripts, to develop strategies for reading difficult scripts, to find the specialized reference works to assist them in studying handwritten materials, and to understand the historical arguments that have been constructed on the basis of analysis of scripts and the "archaeology of the book." The course also provides training in basic codicology and editorial techniques for establishing a text and recording variant readings. Prereq: Some familiarity with the language of the materials. (Same as HIS 616.)

**CLA 630 SEMINAR IN CLASSICAL LITERATURE AND CULTURE (Subtitle required). (3)**  
 This graduate seminar offers advanced, intensive study in two particular approaches to the study of Classics, requiring a broader and more inclusive approach beyond the scope of the typical Greek or Latin seminar. These are: 1) the coordinated study of works of both Greek and Latin literature, and 2) the study of a specific research area in classical studies and culture. One of these areas will be the focus of the course each time it is offered. Topics in the coordinated study of Greek and Latin literature can take various forms, such as the passions in Greek and Latin poetry, comparative Greek and Latin drama, Homer and Virgil, etc. Research in classics and culture involves extensive reading of a large body of sources and scholarship on a specific topic of current scholarly interest, along with the use of texts in the original language(s) for course assignments and papers. Appropriate competence in reading Latin and/or Greek texts is expected of all students in the course. Topics may include a focused aspect of Greek and/or Roman society, material culture, early Christianity – and its relation to classical culture, aspects of Medieval or Renaissance culture, or the ongoing influence of classical stories, ideals, and cultural forms in modern media. May be repeated for up to six credits on different topics. Prereq: Graduate standing or consent of the Classics DGS and instructor.

**CLA 695 INDEPENDENT STUDY. (1-3)**  
 Independent investigation of a problem under supervision of a graduate faculty member; or directed readings, writing, and discussion in small groups on topics outside the usual seminar offerings, guided by a graduate faculty member. May be repeated to a maximum of nine credits. Prereq: Admission to graduate program, permission of instructor and of departmental Director of Graduate Studies.

**CLA 748 MASTER'S THESIS RESEARCH. (0)**  
 Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

**CLA 768 RESIDENCE CREDIT FOR MASTER'S DEGREE. (1-6)**  
 May be repeated to a maximum of 12 hours.

**CLA 790 RESEARCH IN THE TEACHING OF CLASSICAL LANGUAGES. (3)**  
 Problems in the teaching of Latin and/or Greek in secondary and/or higher education. Objectives, methods, preparation of materials, development of curricula, or the history of the field. Prereq: CLA 530 or the equivalent.

## CLD Community and Leadership Development

**CLD 102 THE DYNAMICS OF RURAL SOCIAL LIFE. (3)**  
 Introduces major concepts of sociology by exploring social, political and cultural issues confronting rural society and American agriculture, such as: population change, industrialization, energy developments, agricultural change. Student may not receive credit for both this course and SOC 101.

**CLD 230 INTRAPERSONAL LEADERSHIP. (3)**  
 This course is designed to provide a foundation for individuals "to get to know themselves better" in the context of leadership. Examination of effective leader characteristics, personality traits, motivation, personal leadership vision and other concepts will encourage students to develop a better understanding of their own leadership skills and perspectives. In addition, students will determine their own personality style, and learn how to best use this style when leading others. Ultimately, this type of intrapersonal knowledge will serve as the building block for deeper exploration into the field of leadership.

**CLD 250 READING CRITICALLY AND WRITING WELL: COMMUNITY COMMUNICATIONS AND LEADERSHIP DEVELOPMENT. (3)**  
 This course will provide students with a foundation in critical thinking through an emphasis on reading, writing and analytical discussions addressing basic agricultural topics, controversial agricultural topics and specific topics in community communications and leadership development. Prereq: ENG 104 and sophomore status. Primary registration access limited to majors and remaining seats open during secondary registration.

**CLD 260 COMMUNITY PORTRAITS. (3)**  
 This course introduces the social science concept of community. The focus will be on definitions of community, community basics and the different types of communities that exist in society. Students will explore the development of community as defined by place and

interest, structure and function. Finally, students will begin developing a theory to practice mentality by gathering and analyzing information about real communities that represent different types of community (i.e. place, practice and interest).

**CLD 305 RESEARCH METHODS IN COMMUNITY AND LEADERSHIP DEVELOPMENT. (3)**  
 This course will familiarize students with research concepts, methods, and skills used in community and organizational development and communication. The course focuses on applied research topics such as secondary data analysis, survey design, focus groups, key informant interviews and content analysis. In addition, the course considers the politics of information and ethical concerns in social research. Prereq: Major standing and CLD 300 (may be taken concurrently).

**CLD 320 COMMUNITY AND COMMUNICATION: EXPLORING THEIR INTERSECTIONS. (3)**  
 This course will explore the inextricable link between community and communication by examining the social structure of communities and the media residing within them. Particular emphasis will be placed on the availability of information to citizens and in turn how this information environment facilitates/thwarts social interaction. Prereq: Community and Leadership Development majors or consent of instructor.

**CLD 325 WRITING FOR COMMUNITY MEDIA. (3)**  
 This 3-hour skills course will teach students how to write clearly, concisely and accurately for various community media, including print, radio, television and new social media. It provides a broad-based understanding of writing and communicating to community audiences. Prereq: Major standing in CLD plus completion of graduation writing requirement.

**CLD 330 INTERPERSONAL SKILLS FOR TOMORROW'S LEADERS. (3)**  
 This course provides fundamental leadership theories, models, and perspectives to aid students in conducting interpersonal relationships in their daily lives, and help students acquire skills basic to becoming a leader in their professional lives. Each student will begin developing a foundation of practical leadership applications. Prereq: Major standing in CLD.

**CLD 340 COMMUNITY INTERACTION. (3)**  
 Examines community effects on group and individual behavior from the perspective of sociological social psychology. By focusing on individuals, individuals in groups, and groups, special emphasis is given to how community context shapes the attitudes, beliefs, and actions of individuals as well as their interactions with others. Prereq: CLD 102 or SOC 101 or consent of instructor. Primary registration access limited to SOC and CLD majors and remaining seats open during secondary registration. (Same as SOC 340.)

**CLD 360 ENVIRONMENTAL SOCIOLOGY. (3)**  
 A sociological study of the inter-relationship between human societies and the natural environment. Topics may include population growth; food systems; energy; climate change; risk perception; disasters; sustainability; social movements; and environmental justice. Prereq: SOC 101 or CLD 102. (Same as SOC 360.)

**CLD 362 FIELD EXPERIENCE IN CLD. (3)**  
 Supervised experiences in businesses, agencies or government. Required of all Community Communications and Leadership Development majors. Includes observation, participation, experience, field trips, inspection of programs, and professional organizations. Prereq: Junior standing, majors only.

**CLD 370 LEARNING IN SOCIETY. (3)**  
 Learning in Society is designed to assist students in identifying and evaluating human learning and development within various social contexts. This course focuses on the impact social interactions have on human cognition, emotion and identity. Theoretical foundations for this course include social learning, social integration, multiple intelligences, emotional intelligence, systems psychology, and identity development. Prereq: Major standing in CLD or CTE students admitted to TEP.

**CLD 375 CONTEMPORARY ADULT LEARNING. (3)**  
 This course expands on adult learning theory first presented by Malcolm Knowles and focuses on the idea of lifelong learning, differences between pedagogy and andragogy, fundamental andragogical concepts, and the role that adult learning professionals play in the adult learning process. Finally, an international context will be explored by comparing and contrasting adult education in the U.S. and around the world. Prereq: Major standing in CLD or CTE students admitted to TEP.

**CLD 380 GLOBALIZATION: A CROSS-CULTURAL PERSPECTIVE. (3)**  
 A sociological study of how globalization processes affect development in various countries and world regions. Topics shall include development theory; comparative development processes and outcomes; and development policy options. (Same as SOC 380.)

**CLD 395 SPECIAL PROBLEMS IN COMMUNITY AND LEADERSHIP DEVELOPMENT. (1-3)**  
 Directed independent study of a selected problem in the field of community and leadership development. May be repeated to a maximum of six credits. Prereq: Consent of instructor.

**CLD 399 EXPERIENTIAL LEARNING IN COMMUNITY AND LEADERSHIP DEVELOPMENT. (1-3)**  
 A field-based learning experience, under faculty supervision, in the application of community and leadership techniques in agricultural/public issues. May be repeated to a maximum of six credits. Offered on a pass/fail basis only. Prereq: Consent of instructor and completion of learning contract.

**CLD 400 AGRICULTURAL COMMUNICATIONS CAMPAIGNS. (3)**

Exploration of communications campaigns and strategies in the agricultural sector. Students will learn how to plan and enact communications campaigns centered on agricultural issues and audiences. Prereq: Primary registration access limited to majors and remaining seats open during secondary registration.

**CLD 401 PRINCIPLES OF COOPERATIVE EXTENSION. (3)**

Philosophy, history, and development of Cooperative Extension Service; evaluation of instructional techniques; leadership training; and practice in use of Extension methods. Open to junior and senior students.

**CLD 402 PRINCIPLES OF LEADERSHIP. (3)**

This course is designed to provide an introduction to leadership. Its focus is the development of an understanding of leadership theories and styles. You will also learn strategies for successful leadership. The introduction will include: 1) historical, theoretical, and cultural perspectives of leadership, 2) leadership skills and styles and strategies for success, and 3) examination of the responsibilities of leadership. Prereq: Admission to the program or consent of instructor. (Same as EDL 402.)

**CLD 403 LEADERSHIP AND COMMUNICATION. (3)**

This course is designed to expand student understanding of the theory and practice of leadership, conflict management, and decision-making. It is also designed to focus on issues of cohesiveness, trust, motivation, vision, and goals. Students must integrate their personal ethics and definition of leadership in various course assignments and projects. Prereq: Admission to the program or consent of instructor. (Same as EDL 403.)

**CLD 404 CONTEMPORARY LEADERSHIP APPLICATIONS. (3)**

This course supplements and integrates previous learning and is designed to provide maximum exposure to various concepts and perspectives of leadership through observational experiences, critical thinking, and self-analysis. It is also designed to allow the demonstration of previously learned leadership theories, styles, and strategies. Students must integrate their personal ethics and vision of leadership in their examination of various contemporary leadership contexts. Prereq: Admission to the program or consent of instructor. (Same as EDL 404.)

**CLD 420 SOCIOLOGY OF COMMUNITIES. (3)**

A sociological study of issues relevant to communities. Topics may include: conceptual approaches to community; organizational and institutional linkages within and beyond the community; social inequality and social processes within communities such as social networks, social capital, power and decision-making, and social change. Prereq: SOC 101 or RSO 102 or CLD 102; and one of the following: SOC 302 or 304 or CLD 405; or consent of instructor. (Same as SOC 420.)

**CLD 430 LEADING IN COMMUNITIES: VISION, ACTION, AND CHANGE. (3)**

This course examines the nuances of leadership within communities. To learn what makes an effective community leader and the role a leader plays in community action, students will explore the importance of framing ideas, mobilizing resources, and developing social capital. This course expands on theories to highlight correlations with servant leadership, community behavior, and collaborative leadership styles. Finally, working with community visioning, change and ambiguity will reinforce the need for flexibility within the community leader's toolkit. Prereq: Major standing in CLD.

**CLD 440 COMMUNITY PROCESSES AND COMMUNICATION. (3)**

This course examines the relationship between community organization and change and the media. Special emphasis is given to the place of media organizations in community structure, the effects of media on community processes, and how community members use the media. Prereq: CLD 102 or SOC 101 and CLD/SOC 340 or consent of instructor. Primary registration access limited to majors and remaining seats open during secondary registration. (Same as SOC 440.)

**CLD 460 COMMUNITY DEVELOPMENT AND CHANGE. (3)**

This course examines change and change management within communities and organizations. This includes looking at the change process through the eyes of innovation, opinion leader and community member. In addition to individual skill development, this course will introduce a vision of an ideal organization/community, one that supports innovation and creativity, knowledge exchange and application and collaboration; a culture that makes productive change a part of the everyday work, encouraging initiative and promoting viability in today's society. This course weaves together theoretical and experiential threads using insights gained from readings, industry-based examples, case studies, class assignments and experiential activities. Prereq: Major standing in CLD.

**CLD 465 TOPICS IN COMMUNITY COMMUNICATIONS (Subtitle required). (3)**

Intensive study of a specialized topic in community communications. May be repeated under different subtitles. Prereq: Major standing in CLD.

**CLD 470 TOPICS IN LEADERSHIP (Subtitle required). (3)**

Intensive study of a specialized topic in leadership studies. May be repeated under different subtitles. Prereq: Major standing in CLD.

**CLD 475 TOPICS IN NON-FORMAL EDUCATION (Subtitle required). (3)**

Intensive study of a specialized topic in non-formal education. May be repeated under different subtitles. Prereq: Major standing in CLD or CTE students admitted to TEP.

**CLD 478 ENTREPRENEURIAL PROGRAMMING IN COMMUNITY EDUCATION. (3)**

This course focuses on using creative and entrepreneurial processes to develop innovative programming for communities in a variety of contexts. Within this theory to practice course, students will develop innovative educational programming for communities of place, practice, and interest. Prereq: CLD 370 or consent of the instructor.

**CLD 479 INSTRUCTIONAL APPROACHES IN COMMUNITY EDUCATION. (3)**

This course will present the basics of teaching and learning within a community setting. Community learning and development, community-based education and community education will all be explored, as well as effective teaching methodologies outside of the classroom. Students will learn innovative, unique teaching techniques through hands on instruction in a variety of community settings. Prereq: CLD 370 or consent of the instructor.

**CLD 480 TOPICS IN COMMUNITY (Subtitle required). (3)**

Intensive study of a specialized topic in community studies. May be repeated under different subtitles. Prereq: Major standing in CLD.

**CLD 490 SENIOR CAPSTONE SEMINAR IN COMMUNITY AND LEADERSHIP DEVELOPMENT. (3)**

One of the two senior capstone courses in Community and Leadership Development. Students will learn to integrate theories common to multiple social science contexts. Following critical analyses, students will learn to describe how these theories are applied within various situations. Presentations and applied research papers will be significant course components. Prereq: Senior standing in the CLD major, or consent of instructor. Concurrently enrolled in CLD 497: Senior Capstone Practicum in CLD.

**CLD 495 TOPICAL SEMINAR IN COMMUNITY AND LEADERSHIP DEVELOPMENT (Subtitle required). (1-3)**

Topical seminar using readings, discussions, and papers to focus on current issues of significance to community and leadership development. May be repeated to a maximum of twelve credits under different subtitles. Prereq: Consent of instructor. Primary registration access limited to majors and remaining seats open during secondary registration.

**CLD 497 SENIOR CAPSTONE PRACTICUM IN COMMUNITY AND LEADERSHIP DEVELOPMENT. (3)**

A senior capstone course for seniors in community and leadership development. This is a cooperative educational program between the Community and Leadership Development majors at the University of Kentucky and approved employers who furnish facilities and instruction that help students acquire the skills and knowledge required in their chosen field. Ultimately, this is a dually beneficial relationship; stakeholder relations are improved while students have an opportunity to build relationships/networks that could encourage future career development. Prereq: Major standing in CLD; senior standing.

**CLD 517 RURAL SOCIOLOGY. (3)**

A sociological study of the issues relevant to rural communities. Topics may include transformations in rural communities; the agrifood system; and the natural environment in the U.S. and the world. Prereq: Graduate student status; undergraduates with consent of instructor only. (Same as SOC 517.)

**CLD 525 COMMUNITY DIVERSITY AND MEDIA. (3)**

This course covers how media, both traditional news media and newly emerging digital communication technologies, relate to community diversity. Specifically, the course focuses on the relationships between media and community (power) structure, community institutions/organizations, social movements and minority groups, urban/rural communities, gender/race/ethnicity/class and more. Prereq: Major standing in CLD or graduate student status.

**CLD 530 FUNDAMENTALS OF ORGANIZATIONAL LEADERSHIP. (3)**

This course examines the existing and emerging knowledge base for leadership within organizations. Leadership and motivation of others requires individuals to go beyond their basic knowledge of managing others and learn how cultures, structures, and individuals in organizations interact within the system. This course highlights correlations with organizational behavior, team building, and collaborative leadership styles. In this class, students will explore organizational culture, team synergy and individual leadership capital. Prereq: Major standing in CLD or graduate student status.

**CLD 534 SOCIOLOGY OF APPALACHIA. (3)**

A sociological study of selected social issues facing Appalachian communities, with an emphasis on placing regional political economy, society and culture in a global context. Prereq: Sociology, Anthropology or CLD senior major or minor; Appalachian Studies minor; graduate student status; or consent of instructor. (Same as ANT/SOC 534.)

**CLD 560 COMMUNITY INEQUALITIES. (3)**

This course focuses on the emergence and persistence of community inequalities in contemporary American society. This begins by identifying, describing, and analyzing inequalities within and among American communities and then considering the implications of these inequalities for organizational and community processes. The essential questions that will guide this course are: How do we define, measure and evaluate the differences among communities? What factors contribute to the emergence and persistence of the inequalities among communities? What are the consequences of these inequalities for the people who live in these communities? Prereq: Major standing in CLD or graduate student status.

## Course Descriptions

### **CLD 575 SCHOOLS, COMMUNITY AND SOCIETY. (3)**

This course highlights the integral relationships between contemporary and historical societal norms, distinctive communities and educational systems. Prereq: Major standing in CLD; CTE students admitted to TEP; or graduate student status.

### **CLD 610 EXPERIENTIAL EDUCATION: PROCESS AND PRACTICE. (3)**

This course is designed for students to examine and apply theoretical and practical foundations of Experiential Education within classroom and community-based educational environments.

### **CLD 620 GRADUATE STUDY IN COMMUNITY AND LEADERSHIP DEVELOPMENT. (1)**

This course is an introduction to the interdisciplinary field of Community and Leadership Development (CLD). CLD reflects the multidisciplinary fields of faculty in the department: Rural Sociology, Community Development, Community Communications, Leadership Development and Agricultural Education.

### **CLD 630 INDIVIDUAL AND GROUP DYNAMICS. (3)**

This course is designed as an advanced course exploring the dynamics involved in individual and group situations. Specifically, students will explore basic psychological and social psychological processes shaping human behavior and learn to apply the knowledge of these processes in educational, organizational and community settings.

### **CLD 640 SCIENCE, AGRICULTURE, AND DEVELOPMENT. (3)**

An in-depth examination of the interrelations between science, agriculture, and development. Both domestic and international issues are explored. Prereq: Graduate standing in the social or agricultural sciences. (Same as ANT/SOC 640.)

### **CLD 650 APPLIED COMMUNITY COMMUNICATIONS. (3)**

Designed to familiarize students with advanced writing and editing techniques, common forms of workplace writing, audience analysis, content analysis, and graphic design tips and tools. Discussion will include some of the larger issues surrounding community communications, such as discourse communities, bias, and ethics. Prereq: Graduate standing.

### **CLD 660 ADVANCED LEADERSHIP THEORY AND PRACTICE. (3)**

This course has been designed to introduce the theoretical and research foundation of leadership studies through current journal articles and text chapters and also emphasizes multiple dimensions and contexts that influence leadership dynamics.

### **\*CLD 665 PROGRAM DEVELOPMENT AND EVALUATION. (3)**

The purpose of this course is to provide a basic understanding of program evaluation processes, concepts, and theories and to develop expertise needed to design and conduct systematic evaluations of formal and non-formal programs. The material to be covered is applicable to a wide range of topics and disciplines, including social welfare, youth development, family studies, agriculture and the environment, community/economic development, and other formal and non-formal educational programs. Such programs have a common goal of achieving their desired objectives and being held accountable for the resources they obtain from agencies and stakeholders.

Because program evaluation is part of a larger interdisciplinary content area that includes research design and methods, the course will briefly cover needs assessment and asset building, with program development also being a necessary component. The majority of the course will focus on evaluation design, methods, and implementation. A range of program evaluation and research methods will be presented, and students will be encouraged to identify those approaches that most closely match their own philosophical perspectives, as well as strategies that will be utilized by their groups, organizations and current/future employers. Students will participate in class discussions and activities, reflecting on any experience working with community programs when applicable. Web-based publications, journal articles and the assigned text readings will comprise the content of the course. Prereq: Admission to the UK graduate school; students in good standing; Degree-seeking student in the Science and Translation program in the College of Agriculture, Food and Environment. (Same as SOC 665/STO 601.)

### **CLD 670 COMMUNITY ENGAGEMENT. (3)**

This course is designed as a service-learning/community engagement experience. It is organized with a field component related to the student's area of interest and an in-class experience that provides students with the opportunity to share and process their field experiences and to learn and grow from them through a variety of interactive exercises, readings, films and guest presentations.

### **CLD 671 ADVANCED METHODS OF TEACHING. (3)**

The principles of method applied to teaching in the fields of classroom and community-based education. Prereq: Teaching experience within a classroom or community-based educational setting.

### **CLD 672 ADULT EDUCATION IN COMMUNITY AND LEADERSHIP DEVELOPMENT. (3)**

Preparation for teaching adult classes in career and technical education including organization of classes, development of curriculum, and methods of teaching.

### **CLD 673 CURRENT TRENDS IN AGRICULTURAL EDUCATION. (3)**

Class work pertains to current trends and significant developments in agricultural education. May be repeated to a maximum of nine credits.

### **CLD 675 THEORETICAL FOUNDATIONS OF COMMUNICATION AND COMMUNITY. (3)**

This course is designed to explore the dynamics of community development and leadership communication within both geographic-bounded communities and communities of taste. (Same as SOC 675.)

### **CLD 676 SUPERVISION IN AGRICULTURAL EDUCATION. (3)**

This course includes practice in teaching for observation by others, student teaching, and school visiting.

### **CLD 678 COLLEGE TEACHING OF AGRICULTURE, NATURAL RESOURCES AND HUMAN SCIENCES. (3)**

A course designed to assist current or future college faculty in agriculture, natural resources or human science disciplines seeking to enhance the teaching skills. Topics include theories, principles and practices associated with effective teaching and learning in higher education. Prereq: Graduate Standing in the College of Agriculture.

### **CLD 684 STATISTICAL ANALYSIS IN COMMUNITY AND LEADERSHIP DEVELOPMENT. (3)**

The purpose of this course is to develop an overview and basic understanding of descriptive and inferential statistics. As a result, students will be able to organize and summarize quantitative data; interpret data; make generalizations from sample data to populations or theory; and, read and understand research reports.

### **CLD 685 COMMUNITY DEVELOPMENT THEORY AND PRACTICE. (3)**

This course examines the application of our conceptual understanding of community and organizational dynamics to community development that builds upon assets and encourages local involvement. (Same as SOC 685.)

### **CLD 686 RESEARCH DESIGN. (3)**

This course is an introduction to research design/methodology in social science research. The course emphasizes conceptualizing and working with the various components of a research inquiry and in particular how these components work together and strengthen the overall research design.

### **CLD 691 SOCIOLOGY OF FOOD AND AGRICULTURE. (3)**

This seminar will analyze the transformation of agriculture and the food system in the historical context of increased globalization. Emphasis is given to key historical transitions, changing social relations surrounding production and consumption of food, and shifts in regulations and policy at the local, national, and/or international levels. Such emphases provide a framework for understanding the historical roots and future prospects for the socioeconomic problems confronting contemporary U.S. and global agriculture and food economies. Prereq: Graduate standing, or consent of instructor. (Same as AEC/SOC 691.)

### **CLD 694 THE ADMINISTRATION OF AGRICULTURAL EDUCATION. (3)**

A course designed for superintendents, high school principals, and other administrators. Its purpose is to prepare administrators and supervisors for leadership in agricultural education. (Same as EDL 694.)

### **CLD 748 MASTER'S THESIS RESEARCH IN COMMUNITY AND LEADERSHIP DEVELOPMENT. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

### **CLD 758 CREATIVE COMPONENT IN COMMUNITY AND LEADERSHIP DEVELOPMENT. (3)**

This course offers a non-thesis option in Community and Leadership Development for students interested in completing a practitioner-based scholarly project. Prereq: All course work toward the degree must be completed and approval of the student's Advisory Committee is required.

### **CLD 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours. Prereq: All course work toward the degree must be completed.

### **CLD 775 TOPICAL SEMINAR IN COMMUNITY AND LEADERSHIP DEVELOPMENT. (3)**

Advanced study of topics of current importance in community and leadership development such as dispute resolution, volunteer management, or advanced program design and evaluation. May be repeated to a maximum of six credits.

### **CLD 780 SPECIAL PROBLEMS IN COMMUNITY AND LEADERSHIP DEVELOPMENT. (1-6)**

Supervised individual study on selected issues in community and leadership development. May be repeated to a maximum of six credits. Learning contract must be filed with Director of Graduate Studies.

### **CLD 790 RESEARCH IN COMMUNITY AND LEADERSHIP DEVELOPMENT. (1-6)**

Supervised individual graduate research projects on selected issues in community and leadership development. May be repeated to a maximum of six credits. Research Learning contract must be filed with the Director of Graduate Studies.

## CLM Clinical Leadership and Management

### CLM 104 MINDFULNESS PRACTICES AND STRESS REDUCTION. (1)

This course is designed for students interested in gaining personal insight into their busy mind's activity and learning how to settle the mind and more effectively deal with daily life stressors. Mindfulness practices will be discussed on evidenced based health outcomes and will be applied through personal mindfulness practice experiences. (Same as HHS 104.)

### \*CLM 120 CAREERS IN CLINICAL LEADERSHIP AND MANAGEMENT. (2)

This course is designed to give students an overview of clinical leadership and management and related careers by examining aspects of professional practice, areas of specialization, and professional issues. Students will explore personal values and academic goals through guest speakers, individual projects, class exercises and group interaction and examine how these values and goals connect to careers in Clinical Leadership Management. Prereq: CLM Major designation, CHS pre-major status, or consent of instructor.

### \*CLM 241 HEALTH AND MEDICAL CARE DELIVERY SYSTEMS. (3)

Review of the wellness-illness spectrum and the societal response in terms of health services. Topics to be covered include the nature and functions of health services agencies and professionals, and the impact of social, political, economic, regulatory, and technological forces. Also includes a discussion of major health problems and related health care programs. Prereq: HHS or CLM Major designation, CHS pre-major status, or consent of instructor. (Same as HHS 241/HSE 241.)

### #CLM 300 HEALTHCARE MANAGERS: WRITE, SPEAK, AND CREATE. (3)

This course prepares CLM majors for their careers by further developing effective written, oral, and visual/digital communication skills, applied specifically to today's healthcare management environment. Students will communicate effectively based on audience analysis in face-to-face and online settings; deliver effective formal public healthcare presentations (informative and persuasive) based on audience analysis and using a variety of presentational aids that enhance the message. This course provides GCCR credit for the CLM program. Prereq: CIS110/111 or CIS112, WRD 110/111 or 112 or equivalent and CLM major status.

### #CLM 323 SOCIAL DETERMINANTS OF HEALTH. (3)

The social determinants are instruments that influence health outcomes and risk patterns across the lifespan. This course will provide students with an understanding of how the social determinants influence health outcomes with a focus on a variety of patient and community populations. An overarching theme of the course addresses how the social determinants of health adversely affect health outcomes and contribute to health disparities. Prereq: CLM 325 or equivalent or permission of instructor.

### \*CLM 325 INTRODUCTION TO HEALTH CARE MANAGEMENT. (3)

The purpose of the course is to provide an integrated approach to understanding management in a variety of healthcare organizations (HCOs). This course highlights the major functions of healthcare managers and introduces students to the skills necessary to be successful managers. It also serves a foundation for the leadership series of courses that come after this course in the major. Prereq: CLM 241 or equivalent or permission of instructor.

### #CLM 335 HEALTH INFORMATION MANAGEMENT. (3)

The course is designed to introduce challenges facing managers of integrated healthcare information systems and delivery networks. Specifically, the course will address the following: A. Overview of the field of health informatics and its specialty fields; B. The role of health informatics in day-to-day management and practical applications of information systems in health care; C. Current trends that impact the design and evolution of healthcare informatics. Prereq: CLM 325 or equivalent or permission of instructor.

### #CLM 342 LEADERSHIP: MANAGEMENT COMPETENCIES ESSENTIAL TO LEAD IN HEALTHCARE. (3)

This course introduces theories and concepts of leadership and management and provides opportunities to translate learning into action through the simulation of various healthcare settings and scenarios. Students will engage in opportunities designed to increase their Emotional Intelligence and further develop leadership and management competencies essential for future clinical and/or healthcare leaders. The foundation learning strategy will be an assessment tool that will help students better understand themselves and others and identify ways to adapt their communication and leadership presence to be an effective leader. Prereq: CLM 325 or equivalent or permission of instructor.

### \*CLM 345 QUALITY AND PRODUCTIVITY IMPROVEMENT AND EVALUATION. (3)

A core program course that focuses on leadership and management knowledge, skills, and practices that promote healthcare quality, efficiency, and productivity. Methods to measure, monitor, and evaluate quality and productivity will be discussed. Prereq: CLM 325 or equivalent or permission of instructor.

### \*CLM 350 HEALTH POLICY, POLITICS, AND LAW. (3)

This is a survey course in U.S. health policy and law. It begins by describing the basic machinery of policymaking and legal process that underpin the individual health care and health systems and then turns to an exploration of many of the fundamental problems and contemporary issues in health policy and law. Students will learn to think systematically about these issues and the

various methods available to public and private policymakers to solve them. Students should also be able to [1] discern when significant legal issues exist in a situation and when consultation with legal counsel is appropriate; [2] have a basic familiarity and facility with legal terminology to be in a position to consult effectively with legal counsel; [3] be able to identify and critically assess news reports and professional matters related to legal issues in health care. Prereq: CLM 325 or equivalent or permission of instructor.

### \*CLM 353 ETHICS IN HEALTH SERVICES MANAGEMENT. (3)

This course introduces students to moral reasoning and ethics in health services management relevant to ethical dilemmas likely to be encountered in the healthcare industry. Basic concepts, methods, and resources for ethical decision-making in healthcare administration will be included. Obligations to patients, the community, healthcare workers and the organization (institutions, agencies, associations) will be considered. Prereq: CLM 325 or equivalent or permission of instructor.

### CLM 354 HEALTH LAW. (3)

Introduction to concepts of administrative and tort law applicable to health care settings. Topics to be considered include governance, patient rights, informed consent, medical/moral problems, malpractice, tax laws, contracts, labor law, regulation and institutional liability. Prereq: Professional program status (which includes an earned Associate Degree in a health care discipline and one year of post-degree work in a health care setting) or consent of instructor. (Same as HHS/HSM 354.)

### CLM 370 ELECTRONIC HEALTH RECORDS. (2)

The Electronic Health Records course is an undergraduate level introduction to the concepts and trends in health care electronic health records in today's technology driven health care field. Several areas will be introduced that will provide baseline knowledge for EHRs. Topics include Meaningful Use, EHR Adoption, Quality of Care, Workflow, Implementation, Acute Care, Ambulatory Care, Specialty-specific EHRs, Health Information Exchange, and other related topics. It is highly recommended for students to either have experience working in a health care related field or have a health care major or minor. Some exceptions to the student plans to apply the profession in a health care organization or consent of instructor. (Same as HHS 370.)

### CLM 380 LONG-TERM CARE ADMINISTRATION. (3)

An overview of the long-term care industry. Includes a survey of the history and philosophy of long-term care administration. Provides an introduction to and application of regulatory standards. Specializations within the long-term care industry are discussed. Semester Hours 3 (3 lec). Prereq: Admission to CLM Program, CLM Track C, or by consent of instructor.

### #CLM 401 PRACTICUM I: FOUNDATIONS. (3)

This practicum is the first in a three-course sequence. In this foundational practicum, students gain practical general training and integrate learning from foundation Clinical Leadership and Management courses in a healthcare setting context. Through their experiences in a healthcare work environment and interaction with healthcare and administrative professionals, students further develop their fundamental knowledge and skills in areas of professionalism, critical thinking, cultural humility, and inter-professional practice—essential elements for collaborative leadership and the development of the professional 'self'. Students will apply for the practicum course and work with faculty and the practicum coordinator to secure a clinical leadership and management focused placement in a healthcare setting that is appropriate for the course and student learning goals. Students develop a site-specific individualized learning plan and class seminars assist students with integrating their workplace experiences with foundational coursework as a cohort. This course includes specified hours per semester of seminar and experiential learning. Prereq: Completion of CLM 325 or equivalent.

### #CLM 402 PRACTICUM II: INTERMEDIATE. (3)

This practicum is the second in a three-course sequence. This advanced level practicum builds on the foundation practicum and provides students with the opportunity to further develop the knowledge and skills essential for effective, collaborative clinical leadership, to manage complex processes, resolve multi-faceted problems, build teams and productive work environments, and promote organizational health, growth, and quality of services. The advanced clinical leadership and management practicum focuses on the 1) application of theory, knowledge, and skills essential for effective and collaborative leadership in health care, and 2) the integration of CLM student learning outcomes and foundational learning dimensions addressed in CLM 401 through applied experiences and seminar/course assignment activities. Students will apply for the practicum course and work with faculty and the practicum coordinator to secure a clinical leadership and management focused placement in a healthcare setting that is appropriate for the course and student learning goals. Students develop a site-specific individualized learning plan and class seminars assist students with integrating their workplace experiences with foundational coursework as a cohort.

CLM 402 and CLM 403 offer concentrated professional practicum immersion experiences. Simultaneous enrollment in courses other than the Capstone course is discouraged. Employment is also discouraged so that students may fully engage in the professional practicum experience.

Students will be required to attend a mandatory Orientation session prior to participating in CLM 402 and CLM 403. The schedule for Orientation will be available on the first day of the semester. Preceptors may also request to meet with and/or interview potential student interns prior to acceptance at the site. Prereq: Completion of all required CLM coursework and CLM 401 Practicum Foundations (with a grade of "C" or better) or equivalents except for CLM 443, CLM 444, CLM 403, and CLM 495 or consent of the instructor.

**#CLM 403 PRACTICUM III: ADVANCED. (3)**

This practicum is the third in a three-course sequence. This advanced level practicum continues the development and integration of clinical leadership and management core learning outcomes associated with CLM 402. Students continue to focus on 1) application of theory, knowledge, and skills essential for effective and collaborative leadership in health care, and 2) the integration of CLM student learning outcomes and foundational learning dimensions addressed in CLM 401 through applied experiences and seminar/course assignment activities. Additionally, CLM 403 assists students in deepening their knowledge and skills through preceptor mentorship and engagement in activities such as quality improvement projects, system/process/service assessments, data collection, analysis, synthesis and presentation as part of their individualized, agency-specific learning agreements.

Students will apply for the practicum course and work with faculty and the practicum coordinator to secure a clinical leadership and management focused placement in a healthcare setting that is appropriate for the course and student learning goals. Students develop a site-specific individualized learning plan and class seminars assist students with integrating their workplace experiences with foundational coursework as a cohort.

CLM 402 and CLM 403 offer concentrated professional practicum immersion experiences. Simultaneous enrollment in courses other than the Capstone course is discouraged. Employment during the practicum is also discouraged so that the student may fully concentrate on the professional practicum experience.

Students will be required to attend a mandatory Orientation session prior to participating in CLM 402 and CLM 403. The schedule for Orientation will be available on the first day of the semester. Preceptors may also request to meet with and/or interview potential student interns prior to acceptance at the site. Prereq: Completion of all required CLM coursework and CLM 401 Practicum Foundations (with a grade of "C" or better) or equivalents except for CLM 443, CLM 444, CLM 402, and CLM 495 or consent of the instructor.

**CLM 405 SOCIAL AND CULTURAL EVOLUTION OF DISEASE. (3)**

This course provides students with the opportunity to understand the intersection between culture, society, and disease as it relates to their future careers as healthcare professionals. Topics to be covered include epidemics, pandemics, and the spread of infectious disease. How cultural and social factors evolve over time to influence the way disease is framed, starting in the 1600s and ending in the present day. Prereq: HHS/CLM 241 and 350. Admission to the CLM or HHS program or consent of instructor. (Same as HHS 405.)

**#CLM 443 LEADERSHIP: STRATEGIC VISION, MISSION AND PLANNING IN HEALTHCARE. (3)**

This course is one of three (3 credit) courses in the Clinical Leadership and Management Leadership Course Series. Strategy development from planning to action is an important process in healthcare administration. The course begins with developing a mission and vision and proceeds toward planning, marketing and how that leads managers to action. Prereq: Completion of all required CLM coursework or equivalents except for CLM 444, CLM 402, CLM 403, and CLM 495 or consent of the instructor.

**\*CLM 444 LEADERSHIP: HUMAN RESOURCES MANAGEMENT IN HEALTHCARE. (3)**

This course covers strategic human resources management concepts for contemporary healthcare environments. Students will explore the relationship between human resources management and strategic advantage. Topics such as human resources functions, compensation and benefits, personnel planning, recruitment and selection, training and development, employee appraisal and discipline, and union-management relations will be covered. Prereq: Completion of all required CLM coursework or equivalents except for CLM 443, CLM 402, CLM 403, and CLM 495 or consent of the instructor.

**CLM 452 COMMUNITY AND INSTITUTIONAL PLANNING FOR HEALTH SERVICES DELIVERY. (3)**

Theoretical foundations for health planning. History of health planning and regulation. Specific attention will be given to integration of institutional planning with community health planning. Prereq: Professional program status (which includes an earned Associate Degree in a health care discipline and one year of post-degree work in a health care setting). Completion of CLM 241, CLM 350, CLM 351, and admission to the CLM Program or consent of instructor. (Same as HSM 452.)

**#CLM 453 CULTURAL COMPETENCE IN HEALTHCARE. (3)**

This course is designed to introduce students to concepts of culture, race, ethnicity, and competence. Emphasis will be placed on identifying individual characteristics and their influence on bias, especially in the context of healthcare. Factors related to culturally and linguistically appropriate healthcare will be reviewed. Prereq: CLM 323 or equivalent or permission of instructor.

**\*CLM 455 FINANCIAL MANAGEMENT OF HEALTHCARE ORGANIZATIONS. (4)**

This course examines the current system of healthcare financing and factors affecting it. Topics covered include exploration and analysis of budgetary concepts, financial management, cost accounting and management under rate control and competition, as well as differences between the goods and service industries within the healthcare context. The pros and cons of a single payer system are also considered. Spreadsheet software will be used to develop budgets, business proposals, and other select applications in the financial management of healthcare organizations. Completion of ACC 201 Financial Accounting or equivalent is recommended but not required. Prereq: CLM 325 or equivalent or permission of instructor.

**CLM 470 LONG-TERM CARE MANAGEMENT. (3)**

An overview of the functional organizational structures common to long-term health care facilities. An examination of the departments in long-term care facilities, chain of command, personnel, regulatory requirements, quality indicators, and the role of the long-term care administrator. Prereq: CLM 241, CLM 350, CLM 351 and CLM 353 Admission to CLM Program or by consent of instructor.

**CLM 480 SEMINAR IN HUMAN HEALTH SCIENCES (Variable topic). (1-3)**

Study and analysis of current and topical problems and issues regarding the roles, trends and research for health care professionals. May be repeated to a maximum of six credits. Prereq: Admission to CLM or HHS program or consent of instructor. (Same as HHS 480.)

**\*CLM 495 CLINICAL LEADERSHIP AND MANAGEMENT CAPSTONE. (3)**

The CLM Capstone course is a culmination of coursework and experiences in this program. Students will synthesize course material and major concepts from their CLM coursework and apply the major concepts to case studies in health services. Students will also examine their own competencies for entry-level healthcare administration jobs or graduate school and create an individualized learning plan to continue growth as a professional. Prereq: Completion of all required CLM coursework: CLM 443, CLM 444, CLM 402, and CLM 403 may be concurrent with CLM 495.

**CLM 501 PRACTICUM IN CLINICAL LEADERSHIP AND MANAGEMENT. (1-6)**

Students will gain practical general training and experiences in the healthcare workplace with a focus on exposure/experience in clinical leadership and management. The CLM faculty in coordination with the practicum coordinator will arrange these experiences with the site employer/personnel and develop an individualized plan for the student at each site. The plan relates the workplace training and experiences to the student's general and technical course of study. Prereq: Consent of instructor; HHS 102; student must earn a grade of C or better in previous practicum in order to re-enroll in this course. (Same as HHS 501.)

**CLM 510 ORGANIZATION OF THE LONG-TERM CARE SECTOR. (3)**

This course examines the structure and function of the long-term care sector with emphasis on nursing homes and the role of noninstitutional alternatives. Analysis focuses on the impact of changes in reimbursement and regulatory policy, interorganizational relations, newly emerging treatment modalities, and the influence of the external organizational, economic, and political environment. Prereq: A course in health care delivery systems or permission of instructor. (Same as HSM 510.)

**CLM 570 MANAGING HEALTH ISSUES IN LONG-TERM CARE: TEAM APPROACH. (2)**

This course will cover the identification and management of health issues commonly found in long-term care (LTC) settings. Specifically, this course is designed to recognize, screen and identify the most common health issues present in elder residents of LTC facilities. After identification of these health issues, information regarding the appropriate course of action, utilizing appropriate care team resources, to prevent, manage, as well as treat these health issues will be provided. Common health issues to be covered include unintentional weight loss (malnutrition, frailty); unintentional weight gain (obesity and related co-morbidities); major organ system dysfunction (heart, kidney, lungs, immune, gastrointestinal, endocrine/hormonal); diminished function of 'senses' (vision, hearing/balance and its implications); physical dysfunction (muscle wasting, mobility issues and implications); osteoporosis (bone health, risk of falls); mental decline (depression, dementia/Alzheimer's Disease); social isolation; spiritual support; polypharmacy. Prereq: HHS 101, HHS 102, CLM 241, GRN 250 or consent of instructor. (Same as HSE 570.)

**CLM 595 DIRECTED STUDIES. (1-3)**

Independent work devoted to research on specific problems, to challenge the student to synthesize concepts from his total program and relate them to his allied health specialty. Conference, one to three hours per week. May be repeated to a maximum of six credits. Prereq: Completion of CLM 241, CLM 350, CLM 351, CLM 353, CLM 354, CLM 355, CLM 405, CLM 444, CLM 445, CLM 452, CLM 495, or consent of instructor. (Same as HSE 595.) This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

**CLS Clinical Laboratory Sciences**

†CLS832 BASIC CLINICAL CHEMISTRY.

†CLS833 BASIC HEMATOLOGY.

†CLS838 BASIC IMMUNOHEMATOLOGY.

†CLS851 BASIC CLINICAL MICROBIOLOGY.

## CME Chemical Engineering

### CME 006 THE ENGINEERING PROFESSION (JUNIOR AND SENIOR). (0)

Activities of the Student Chapter of the American Institute of Chemical Engineers (for junior and senior year chemical engineering students). Lecture: one hour per week. May be repeated three times. Prereq: Chemical engineering major.

### CME 101 INTRODUCTION TO CHEMICAL ENGINEERING. (1)

An introduction to the chemical engineering profession including: problem-solving techniques, use of computers, computer problems and lectures by practitioners.

### CME 200 PROCESS PRINCIPLES. (3)

A course in material and energy balances, units, conversions, tie elements, recycle, bypass, equations of state, heat effects, phase transitions, and the first and second laws of thermodynamics applications in separation processes involving equilibrium reactions and energy exchange. Prereq: "C" or better in MA 113; "C" average in CHE 105 and 107; prereq or concur: MA 114, PHY 231.

### CME 220 COMPUTATIONAL TOOLS IN CHEMICAL ENGINEERING. (3)

An introduction to computational tools used in chemical engineering, such as Microsoft Excel, MATLAB, and Aspen. Prereq: Grade of "C" or better in CME 200.

### CME 320 ENGINEERING THERMODYNAMICS. (3)

Fundamentals of thermodynamics, review of first law, second and third laws, VL, LL and SL equilibria, homogeneous and heterogeneous chemical reaction equilibria. Prereq: MA 213, PHY 231, and "C" or better in CME 200.

### CME 330 FLUID MECHANICS. (3)

Introduction to the physical properties of fluids, fluid statics. Equations of conservation of mass, momentum and energy for systems and control volumes. Dimensional analysis and similarity. Principles of inviscid and real fluid flows; flow through pipes and around bodies. Application and design of fluid handling systems. Prereq: Engineering standing; CME 220, 320; MA 214.

### CME 395 SPECIAL PROBLEMS IN CHEMICAL ENGINEERING. (1-3)

Individual work on some selected problems in the field of chemical engineering. May be taken three times for a total of 9 credit hours. Prereq: Engineering standing and approval of the chairman of the department.

### CME 404G POLYMERIC MATERIALS. (3)

Synthesis, structure, and processing of polymers, useful geometric forms, mechanical and thermal properties, crystallinity, polymer blends, evaluation of polymers for specific applications (aerospace, automotive, biomedical), laboratory activities for each of the above. Prereq: Engineering standing. CHE 230 or CHE 236. MSE 301 or consent of instructor. (Same as MSE 404G.)

### CME 415 SEPARATION PROCESSES. (3)

Separations based on both equilibrium stage concepts and mass transfer rate control are addressed for a range of chemical process operations, including distillation, gas absorption, extraction, adsorption, and membrane-based processes. Design problems are conceived to require computer-aided modeling and analysis. Prereq: Engineering standing; CME 220, 320.

### CME 420 PROCESS MODELING IN CHEMICAL ENGINEERING. (3)

Applications of principles of material and energy balances, thermodynamics, heat and mass transfer, physical chemistry and numerical methods to problems in separation and transport processes and reactive systems. Prereq: Engineering standing; CME 330, 415.

### CME 425 HEAT AND MASS TRANSFER. (4)

Fundamental principles of conduction and convective heat transfer, and diffusional and convective mass transfer. Design applications to heat exchanges and packed bed absorbers. Prereq: Engineering standing; CME 330, 415.

### CME 432 CHEMICAL ENGINEERING LABORATORY I. (2)

A laboratory course emphasizing experimental work in fluid flow, separations, heat transfer, and mass transfer. A majority of this course will focus on lab report writing, statistics, experimental design and safety in the laboratory. Prereq: Engineering standing; CME 330, CME 415; CHE 230, 231.

### CME 433 CHEMICAL ENGINEERING LABORATORY II. (3)

A continuation of CME 432. A laboratory course emphasizing more detailed experiments in fluid flow, heat transfer, mass transfer, separations, and chemical reaction kinetics with more extensive data collection and analysis as well as a design component based on the experimental results. Prereq: Engineering standing; CME 432; concur: CME 550.

### CME 455 CHEMICAL ENGINEERING PRODUCT AND PROCESS DESIGN I. (3)

A lecture and problem-solving course emphasizing process economic evaluation, product design, and process synthesis as they apply to chemical units and systems. Appropriate use of software for simulation and design of chemical systems will also be emphasized. Prereq: Engineering standing; concur: CME 550.

### CME 456 CHEMICAL ENGINEERING PROCESS DESIGN II. (3)

A lecture and problem-solving course intended to combine the principles of chemical engineering with optimization as they apply to the design of chemical processes. Results of each design case studied will be presented by both oral and written reports. Prereq: Engineering standing; CME 455, 550.

### CME 462 PROCESS CONTROL. (3)

Basic theory of automatic control devices and their application in industrial chemical plants is emphasized. Identification of control objectives, appropriate measurements and manipulations, and possible loops between these, requires integration of the control system with the original process design. Interactions between process units are analyzed using well-known analytical tools and design strategies. Prereq: Engineering standing; CME 420, 550.

### CME 470 PROFESSIONALISM, ETHICS AND SAFETY. (2)

Detailed lectures and supervised discussions on standards of ethics and safety as they relate to the chemical engineering profession. Emphasis will be on safety in plant design and process operations, laboratory safety, hazardous risk management, regulation and oversight. Prereq: Engineering Standing. Concurrent: CME 455.

### CME 505 ANALYSIS OF CHEMICAL ENGINEERING PROBLEMS. (3)

The application of differential and integral equations to traditional and non-traditional chemical engineering problems. Prereq: CME 425, CME 550 concurrent or consent of instructor.

### CME 515 AIR POLLUTION CONTROL. (3)

Kinetics and equilibria of photochemical and "dark" atmospheric reactions. Atmospheric statics and dynamics including lapse rates, inversions, and vertical and horizontal air motion. Single and area source diffusion. Stack meteorology. Prereq: CME 320 or ME 220.

### CME 523 CONCEPTS, ASSESSMENT TOOLS AND METHODS IN SUSTAINABLE POWER AND ENERGY. (3)

A multidisciplinary course presenting an overview of key topics in sustainability and environmental impact assessment for engineers. Topics will include assessment of current and future energy systems, renewable and conventional energy technologies, supply chain management, sustainability metrics, energy assessment tools, environmental impact assessment and life cycle assessment. Topics will be presented and their attributes described within a framework that aids in evaluation and analysis of energy technology systems and designs in the context of political, social, economic, and environmental goals. Prereq: Engineering Standing and Senior Classification or Consent of Instructor. (Same as EGR/MFS 523.)

### CME 542 ELECTRIC POWER GENERATION TECHNOLOGIES. (3)

Overview of technologies used for generating electricity from location, recovery, transportation and storage of fuel to the types of technologies used to convert the fuel to electricity. Included is a discussion of the advantages and disadvantages of each technology and how they must adapt to be viable in the future. Technologies covered include coal, natural gas, nuclear, biomass, wind, solar and advanced technologies. Prereq: Engineering standing or consent of instructor. (Same as EGR 542.)

### CME 550 CHEMICAL REACTOR DESIGN. (3)

A lecture and problem course dealing with interpretation of rate data and development of performance equations for single and multiple reactor systems. A design problem will be selected for an industrially important chemical reaction system requiring computer solution. Prereq: Engineering standing; CME 420, 425.

### CME 552 AUTOMOTIVE PLASTICS. (3)

Overview of materials and processes for the application of plastics in the automotive industry. Engineering properties of plastics, rheology and governing relations for melt process flows. Plastic injection molding including design, control, and simulation of molding operations. Plastic part design and material selection; material testing and quality control. Prereq: Engineering Standing, MSE 201 or enrollment in the Production Engineering Certificate. (Same as MSE 552.)

### CME 554 CHEMICAL AND PHYSICAL PROCESSING OF POLYMER SYSTEMS. (3)

Theory and practice as related to the chemical and physical processing of polymer systems. Polymer rheology, heat transfer in polymer flows, polymer engineering properties. Polymer processing operations and materials selection; flow instabilities. Prereq: CME 330, CME 425 or ME 325; or consent of instructor. This course is open only to graduate students or undergraduates with engineering standing. (Same as ME/MFS/MSE 554.)

### CME 556 INTRODUCTION TO COMPOSITE MATERIALS. (3)

Modern composite materials and their applications. Basic concepts and definitions. Fundamental properties of fibers and polymer resins. Manufacturing methods. Analysis and design of laminated and chopped fiber reinforced composites. Micro- and macro-mechanical analysis of elastic constants. Failure theory of composite materials. Computational design of composites. Prereq: Engineering Standing, and EM 302 or with instructor permission. (Same as ME/MFS/MSE 556.)

## Course Descriptions

### **CME 570 BIONANOTECHNOLOGY: INTERFACES AND DEVICES. (3)**

This course introduces the broad impact of small-scale biological and synthetic structures and resulting miniature technologies on the biological, medical, and environmental fields, focusing on interfaces and devices. It will discuss the fundamental science behind the technologies, highlighting the advantages that result at the micro- and nanoscale (e.g. mass and energy transport). In particular, medical (diagnostic and therapeutic devices) and environmental applications will be examined, with several examples of micro- and nanoscale systems exhibiting enhanced properties highlighted. The student will be introduced to the fundamental science, the cutting-edge research activities, and the current commercially available technologies. Prereq: Upper level in CME or consent of instructor.

### **#CME 573 DRUG DELIVERY: ADVANCED PHARMACEUTICS. (3)**

Drug delivery is a multidisciplinary field that combines the expertise of engineering/pharmaceuticals and medicine to design better therapies for a wide variety of diseases. This course will provide a solid foundation on the mathematical principles that underlie all drug delivery technologies. These principles will then be integrated into several delivery routes and dosage forms, including pulmonary, oral and transdermal. This combination of fundamentals and case study applications will provide a broad understanding of the origins and current state of the art in drug delivery. Prereq: Students not enrolled in Pharmaceutical Sciences or in Upper level Chemical Engineering require consent of instructor. (Same as PHS 573.)

### **#CME 575 FUNDAMENTALS OF PHARMACEUTICAL ENGINEERING. (3)**

Pharmaceutical Engineering is a cross-disciplinary field that requires the knowledge of engineering principles, materials science, and general regulatory concepts associated with the production of pharmaceutical dosage forms. Safety and biological performance drive all decisions throughout drug discovery and development. Once a lead candidate is selected, several facets of the API and finished dosage form must be considered, including chemical stability, physical stability, manufacturability, patient acceptance, and regulation. Small synthetic molecules and biomolecules present unique challenges and require specific manufacturing processes. This course will cover the foundational science associated with the development of APIs. Prereq: Enrollment in the Biopharmaceutical Certificate Program.

### **CME 580 DESIGN OF RATE AND EQUILIBRIUM PROCESSES FOR WATER POLLUTION CONTROL. (3)**

The design of chemical and physical processes for the removal and concentration of organic, inorganic, and particulate pollutants from aqueous solution/suspension: adsorption, destabilization, disinfection, membrane processes, thermal processes, flow through beds of solids, etc. Prereq: CHE 440G, CME 425 and prereq or concur: CME 550 or consent of instructor.

### **CME 599 TOPICS IN CHEMICAL ENGINEERING. (3)**

A detailed investigation of a topic of current significance in chemical engineering such as: contemporary energy topics, fuels development, membrane science, computer control of chemical processing. A particular topic may be offered twice under the CME 599 number. May be repeated to a maximum of nine credits. Prereq: Engineering standing.

## **PREREQUISITE FOR GRADUATE WORK**

Students desiring to take any of the following courses should have a thorough working knowledge of chemistry, physics, and mathematics. For major work, a candidate must hold a bachelor's degree in chemical engineering or its equivalent.

### **CME 620 EQUILIBRIUM THERMODYNAMICS. (3)**

The criteria for physical and chemical equilibria, including: predictive equations, solution theory, chemical activity, coupled chemical equilibria, and external constraints. Emphasis may be on vapor-liquid equilibrium, chemical reaction equilibrium, or complex ionic equilibria in dilute aqueous solutions and suspensions. Prereq: CHE 440G and CME 320 or consent of instructor.

### **CME 630 TRANSPORT I. (3)**

A unified study of physical rate processes in liquids and vapors, including: mass, energy, and momentum transport, transport in chemically reacting systems, similarities, turbulence modeling, buoyance-induced transport and multicomponent diffusion. Prereq: ME 330, CME 425, CME 505 concurrent or consent of instructor.

### **#CME 634 PHARMACEUTICAL ENGINEERING. (3)**

Pharmaceutical Engineering is a cross-disciplinary field requiring knowledge of engineering principles, materials science, and an understanding of the unique aspects of developing active pharmaceutical ingredients (API) into finished dosage forms. Safety and bioperformance drive all decisions throughout drug discovery and development. Once a lead candidate is selected, several facets of the API and finished dosage form must be considered, including chemical stability, physical stability, manufacturability, patient acceptance, and regulation. Small synthetic molecules and biomolecules present unique challenges and require specific manufacturing processes. This course will cover the foundational science associated with the development of APIs. Prereq: Calculus IV and Transport Phenomenon or equivalent. For undergraduate students: Enrollment in the Biopharmaceutical Engineering Certificate Program. (Same as PHS 634.)

### **CME 650 ADVANCED CHEMICAL REACTOR DESIGN. (3)**

Rate expressions for heterogeneous reaction kinetics; energy and mass transport within and external to reacting porous catalysts; design equations for multiphase fixed and moving bed reactors. Prereq: CME 550, CME 630, CME 505, or instructor consent.

### **CME 664 MULTIDISCIPLINARY SENSORS LABORATORY. (3)**

A multidisciplinary laboratory course with laboratory experiences in areas related to sensors and sensing architectures, typically including chemistry, chemical and materials engineering, and electrical engineering. Lecture, 1 hour; laboratory, 2 hours. Prereq: One year of college chemistry, calculus and physics. GS 660 or by consent of instructor. (Same as CHE/EE/MSE 664.)

### **CME 680 BIOCHEMICAL ENGINEERING. (3)**

Principles and design of processes involving biochemical reactions, including aerobic and anaerobic respirations and fermentations, and involving pure and mixed cultures. Energy considerations, heat and mass transfer, biochemical kinetics, and application to biological waste treatment. Prereq: CME 550, CME 630, CHE 440G or consent of instructor. (Same as BAE 680.)

### **CME 748 MASTER'S THESIS RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

### **CME 749 DISSERTATION RESEARCH. (0)**

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

### **CME 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

### **CME 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours.

### **CME 769 RESIDENCE CREDIT FOR THE DOCTOR'S DEGREE. (0-12)**

### **CME 771 SEMINAR. (0)**

Review of current literature in the field of chemical engineering, general discussion and presentation of papers on departmental research. Lecture, one hour per week. Required for all graduate students in chemical engineering.

### **CME 779 MEMBRANE SCIENCES COLLOQUIUM. (1)**

Outstanding membrane scientists present their current research on biological and/or synthetic membranes. Students read a pertinent paper by the speaker prior to his/her talk and write a short paper on the talk; especially important is relevance of the main points of the talk to membrane science in general and the student's own research in particular. May be repeated to a maximum of six credits. (Same as BCH/CHE/PHA/PHR 779.)

### **CME 780 SPECIAL PROBLEMS IN CHEMICAL ENGINEERING. (1-3)**

Independent study, design, or research in chemical engineering topics. May be repeated to a maximum of 12 credits. Prereq: Approval of the departmental director of Graduate Studies.

### **CME 790 RESEARCH IN CHEMICAL ENGINEERING. (1-9)**

Graduate Research in Chemical Engineering on a topic approved by the Departmental Graduate Studies Committee. May be repeated to a maximum of two semesters. Prereq: Consent of the Director of Graduate Studies.

## **CNU Clinical Nutrition**

### **CNU 400 NUTRITION FOR PHYSICAL ACTIVITY, INJURY PREVENTION, AND REHABILITATION. (2)**

This course will acquaint students with general concepts in nutrition that relate to physical activity, injury prevention and rehabilitation. The content of the course is organized in such a way that students can progress logically from knowledge of basic human nutrition processes to the specific nutrition related issues commonly observed in physically active individuals and nutritional needs to prevent injury and aid healing following injury. Prereq: Admission into the Human Health Sciences Undergraduate Program or consent of instructor; 200 level physiology or equivalent.

### **CNU 500 INTEGRATIVE CARE FOR HEALTH SCIENCES. (1-3)**

Integrative care involves using the best possible treatments from both complementary/alternative and allopathic medicine, based on the patient's individual needs and condition. The selection of health care providers should be based on good science and this course will introduce students to complementary and alternative health care providers and the practices and beliefs of these practices as well as the scientific evidence in support of these practices. The course integrates successes from both worlds and describe the safest, least invasive, most cost-effective approach while incorporating a holistic understanding of the individual. May be repeated to a maximum of 3 credits (1 credit didactic and up to two credits experiential/research). (Same as AT 500, HS 500, CD 500, MLS 500, PAS 500.)

**CNU 501 NUTRACEUTICALS AND FUNCTIONAL FOODS IN HEALTH AND DISEASE PREVENTION. (2)**

The course will cover the classification, brief history and the impact of nutraceuticals and functional foods on health and disease. An example of nutraceuticals to be covered in the course include isoprenoids, isoflavones, flavanoids, carotenoids, lycopene, garlic, omega 3 fatty acids, sphingolipids, vitamin E and antioxidants, S-adenosyl-L-methionine, CLA, creatine, herbal products in foods and lipoic acid. Prereq: Undergraduate organic chemistry and/or biochemistry.

**CNU 502 OBESITY C2C: CELL TO COMMUNITY (Subtitle required). (2)**

This course will provide an overview of the obesity epidemic from an applied clinical as well as public health perspective. Topics to be covered include etiology, pathophysiology, evaluation, treatment, management, and prevention of obesity throughout the lifecycle.

**CNU 503 NUTRITION FOR HEALTH PROFESSIONS. (1-2)**

An interdisciplinary/interprofessional approach to applied and medical nutrition therapy and its role in primary, secondary, and tertiary health care delivery. Covers the fundamental principles and concepts of nutrition science as applied to the human life cycle. Prereq: Undergraduate junior, senior and/or graduate students planning to enroll and/or who are currently enrolled in the Colleges of Medicine, Nursing, Dentistry, Pharmacy, Public Health and/or Health Sciences. Completion of at least one semester of physiology, biology, chemistry and/or biochemistry and/or consent of instructor.

**#CNU 504 CURRENT TOPICS IN ACTIVE WOMEN'S HEALTH. (2)**

This is a required course encompassing a wide range of topics related to women's health with a focus on active women's health. The primary focus of this course will be on the discussion of clinical issues specific to active women's health from a variety of healthcare professionals. The course will utilize a combination of discussions, oral presentations, written communication and group discussions to inform the student. Course must be taken twice for a total of 4 credits. Prereq: 1. Acceptance in to the Active Women's Health Certificate Program. (Same as AT 504.)

**#CNU 506 EXPERIENTIAL LEARNING IN WOMEN'S HEALTH: PART I. (2)**

The intent of the Part I Experiential Learning in Women's Health course is to use knowledge learned in the classroom and apply to women in the healthcare settings to facilitate wellness, prevention and recovery to maximize women's health. Students will learn to apply the basics of motivational interviewing as well as the fundamentals learned in class to assess and recommend treatment for issues related to active women's health. Experiences to be covered in the healthcare settings for women will include nutritional assessment, basic nutrition counseling, physical assessment, injury prevention during exercise, and injury recovery. The course will have an introductory didactic component prior to the experiential learning activities to understand issues related to professionalism and motivational interviewing. Prereq: 1. Acceptance in to the Active Women's Health Certificate; 2. Students must have maintained an overall GPA of 3.0, with a B in all Certificate courses. (Same as AT 506.)

**#CNU 507 EXPERIENTIAL LEARNING IN WOMEN'S HEALTH: PART II. (2)**

The intent of the Part II Experiential Learning in Women's Health course is to use knowledge learned in the classroom and during Part I and further understanding and skills applied to women in healthcare settings to facilitate wellness, prevention and recovery to maximize women's health. Students will learn to further apply the basics of motivational interviewing as well as the fundamentals learned in class to assess and counsel on issues related to active women's health. Experiences to be covered in the healthcare settings for women will include more in depth skills involving nutritional assessment, expanding nutrition knowledge and nutrition counseling skills, additional applications of physical assessment and injury prevention during exercise as well as injury recovery. The course will have lectures interspersed on healthcare workplace skills. Prereq: 1. Acceptance in to the Active Women's Health Certificate; 2. Students must have maintained an overall GPA of 3.0, with a B in all Certificate courses. (Same as AT 507.)

**CNU 601 INTEGRATED NUTRITIONAL SCIENCES I. (3)**

The material covered in CNU/NS 601 consists of three major emphasis areas: (1) review of carbohydrate, lipid, and protein structure, synthesis, absorption, and metabolism, (2) the impact of nutritional influences on macronutrient metabolism to health and disease, (3) the influence of macronutrient metabolism on the regulation of energy balance. Prereq: IBS 601, PGY 206. (Same as NS 601.)

**CNU 602 INTEGRATED NUTRITIONAL SCIENCES II. (3)**

Integrated study of the properties, metabolism, biochemical and physiological functions and interactions of vitamins and minerals, and their relationships to chronic diseases, deficiency symptoms and toxicity. Prereq: IBS 601, PGY 206. (Same as ASC/NS 602.)

**CNU 603 INTEGRATED NUTRITIONAL SCIENCES III. (2)**

This course is aimed at providing medical and health professional students with a working knowledge of dietary requirements and guidelines, nutritional assessment and nutritional requirements, food safety issues and nutritional needs throughout the lifecycle. Prereq: Health Professional Graduate Status. (Same as FSC/NS 603.)

**\*CNU 605 ADVANCED SPORTS NUTRITION. (3)**

Emphasis is directed toward the scientific underpinnings and evidence-based applied nutrition strategies for human performance. General focus areas will be categorized as nutrition needs for chronic training or acute phases (i.e. before, during and post acute training sessions and competition) in competition and sport. Targeted focus areas are: macronutrient metabolism, energy availability and expenditure, body composition, the metabolic basis of weight

management in sport, micro-nutrient needs, ergogenic aids, disordered eating and eating disorders, and water and electrolyte balance. Prereq: PGY 412G, and BCH 401G or equivalent or consent of instructor. (Same as NS/PT 605.)

**CNU 606 MOLECULAR BIOLOGY APPLICATIONS IN NUTRITION. (2)**

Focus will be on the use of the most recently developed techniques and model systems in molecular biology for studying nutrient regulation of gene expression. Examples include current problems in nutrition such as models for engineering plants containing more desirable nutrient sources (fats); for studying effects of various nutrients in transgenic mice on tumor suppressor genes and oncogene expression, that are important in cancer prevention; and for studying nutrient effects on genes that modulate obesity. Prereq: BCH 501 and 502 or equivalent; or BCH 401G and consent of instructor. (Same as NS 606.)

**CNU 608 NUTRITIONAL IMMUNOLOGY. (3)**

Theories and mechanisms of immunity will be introduced. The effects of nutrition on immunity will be discussed from experimental and clinical perspectives. A lecture and problem-based learning approach with incorporation of student presentations, three hours per week. Prereq: PGY 412G and CNU 601, or consent of instructor. (Same as NS 608.)

**CNU 609 ETHICS IN CLINICAL SCIENCES RESEARCH. (1)**

Students will examine ethical issues in biomedical research using a case-study approach. Representative issues addressed may include data selection and retention, plagiarism, scientific review of grants and manuscripts, scientific misconduct, and informed consent. Prereq: Graduate student status. (Same as CD/CLS/PT/RAS 610.) (Same as NS 609.)

**CNU 611 ADVANCED MEDICAL NUTRITION THERAPY. (2)**

The overall course objective is for the advanced health care professional to gain an in-depth working knowledge and set of skills in medical nutrition therapy of acute and chronic conditions, including pediatrics that builds upon previous applied nutrition course work and/or experience. Prereq: PGY 206 or equivalent; BCH 401G or equivalent; advanced nutrition course or consent of instructor.

**CNU 612 ASSESSMENT SKILLS FOR THE CLINICAL NUTRITIONIST. (2)**

The goal of this course is to provide the Clinical Nutrition masters student with the skills necessary to elicit a comprehensive medical history, perform basic physical examination techniques appropriate for nutritional assessment, evaluate and interpret laboratory test results, and systematically report their findings in appropriate oral and written formats. Prereq: Admission into the Center for Nutritional Sciences Masters with emphasis in Clinical Nutrition or by consent of instructor.

**CNU 613 APPLIED NUTRITION AND DISEASE PREVENTION. (2)**

This course is designed to give the medical and health professional student an understanding of the basic principles of normal nutrition and medical nutrition therapy during the course of health and disease. Areas to be covered include: general principles of macro- and micronutrients; the basics of nutritional assessment; the Recommended Dietary Allowances and Dietary Reference Intakes; the "MyPyramid" Food Guide Pyramid; nutritional needs throughout the life cycle; determination of energy and macronutrient requirements; and nutrition for health promotion and disease prevention, e.g., cardiovascular, diabetes, renal, pulmonary, cancer, AIDS, gastrointestinal; weight maintenance/weight loss. Prereq: Completion of a 400 or 500 level nutrition course or consent of instructor.

**\*CNU 689 NUTRITION AND CHRONIC DISEASES. (3)**

Selected topics in nutritional sciences related to health and chronic diseases, e.g., autoimmune conditions, cardiovascular disease, diabetes, obesity and cancer. This course will explore the pathophysiology of chronic diseases influenced by nutrition and discuss mechanisms underlying nutritional approaches for prevention and intervention. Prereq: Enrolling students should have completed a physiology, biochemistry or advanced nutrition course, or received consent of the course instructor. (Same as NS 689.)

**CNU 702 CLINICAL/WELLNESS NUTRITION PROBLEM-BASED CASE STUDIES. (1-3)**

A problem-based learning approach to case studies is integrated with a traditional didactic approach to offer options in therapeutic nutrition, and/or health promotion. Efforts are directed toward patient, worksite and laboratory data interpretation as well as patient education. Students are directed to develop independent critical thinking related to class presentations including case studies regarding rotations through various medical or health services e.g. surgery, pediatrics, nutrition support and health promotion. Prereq: NS/CNU 601, NS/ASC 602, NS/CNU 701, NS/NFS 610 and graduate status or consent of instructor. (Same as NS 702.)

**CNU 704 CURRENT TOPICS IN NUTRITIONAL SCIENCES. (1)**

This course is designed to develop the student's independent thinking and critical analysis related to various nutritional sciences issues. These skills will be developed through reading assignments and group discussion related to current topics in nutrition. Prereq: Consent of instructor. (Same as NFS/NS 704.)

**CNU 782 SPECIAL PROBLEMS. (1-6)**

Independent advanced work on a special problem in nutritional sciences. Prereq: Consent of graduate advisor. (Same as NFS/NS 782.)

**CNU 790 RESEARCH IN NUTRITIONAL SCIENCES. (0-6)**

Research work involving original investigation. May be repeated to a maximum of 18 credits. Prereq: Consent of graduate advisor. (Same as NFS/NS 790.)

## COM Communication

### COM 101 INTRODUCTION TO COMMUNICATIONS. (3)

An introduction to the process of communication as a critical element in human interaction and in society. Designed to enhance effective communication and informed use of the mass media.

### COM 181 BASIC PUBLIC SPEAKING. (3)

A course designed to give the student platform experience in the fundamentals of effective speaking.

### COM 199 PRESENTATIONAL COMMUNICATION SKILLS. (1)

Introduces students to fundamental oral communication skills needed to prepare and present messages effectively. Note: This course will not substitute for the three-credit course COM 181, Basic Public Speaking. It will count toward partial completion of the oral communication skills component of the University Studies Program.

### COM 249 MASS MEDIA AND MASS CULTURE. (3)

An examination of the interplay between the technology and content of the mass communication media. Prereq: COM 101 or its equivalent.

### COM 252 INTRODUCTION TO INTERPERSONAL COMMUNICATION. (3)

This writing intensive course examines basic verbal and nonverbal concepts affecting the communication process between individuals in various interpersonal contexts. Course also requires participation in written and oral activities designed to develop and improve interpersonal skills. Topics may include: perspective-taking, relationship and conversation management, effective listening, conflict management, communication climate, communication anxiety, and cultural/gender differences in interpersonal communication.

### COM 281 COMMUNICATION IN SMALL GROUPS. (3)

A study of communication processes in small group situations. Topics include conflict, leadership, and decision-making. Students will participate in group discussion and develop skills in analyzing group performance.

### COM 285 APPLIED PHONETICS. (3)

Study of the phonetic structure of English language with requirement of mastery of international Phonetic Alphabet. Emphasis will be placed on phonetic transcription, and application will be made for students interested in general speech, speech correction, radio, television, and theatre.

### COM 287 PERSUASIVE SPEAKING. (3)

A study of the processes involved in attitude change, with emphasis on the preparation and delivery of persuasive messages. Prereq: CIS 110/WRD 110 or equivalent.

### COM 311 TAKING CONTROL OF YOUR HEALTH: PATIENT-PROVIDER COMMUNICATION. (3)

This course helps students explore, understand, and appreciate the patient-provider relationship through an examination and analysis of selected health communication case studies and related materials. It is also designed to improve communication skills with and among physicians, nurses, and allied health professionals.

### COM 312 LEARNING INTERCULTURAL COMMUNICATION THROUGH MEDIA AND FILM. (3)

This course examines intercultural and co-cultural divides using a skills-based approach. Students will be exposed to cultural communication situations and will apply skills using lecture, discussion, and various media (e.g., news, radio, film, blogs), equipping them with more effective skills for communicating with other groups, communities, and cultures.

### COM 313 INTERPERSONAL COMMUNICATION IN CLOSE RELATIONSHIPS. (3)

This course focuses on describing and explaining communication processes that occur within the context of close relationships. Three general topic areas include: (1) developing and escalating relationships, (2) satisfying relationships, and (3) coping with relational challenges.

### COM 314 THE DARK SIDE OF INTERPERSONAL COMMUNICATION AND RELATIONSHIPS. (3)

Provides an overview of research and theory related to the "dark side" of interpersonal communication and relationships. This course will cover topics such as secrets, bullying, cyberstalking, verbal abuse, and revenge between romantic partners, family members, friends, and sometimes strangers.

### COM 315 UNDERSTANDING WORKPLACE COMMUNICATION IN A DIVERSE U.S. SOCIETY. (3)

Understanding workplace communication in U.S. society requires an interdisciplinary approach in preparing students to developing an enlightened consideration of the complex and contextual nature of communication in organizations. The emphasis on community, culture and citizenship is designed to engage students using dynamic learning experiences such as debates and discussion over topics relevant to the role of communication and organizations in U.S. society.

### COM 316 EMERGENCY AND DISASTER COMMUNICATION: HUMANITY IN A ZOMBIE APOCALYPSE. (3)

The purpose of this course is to develop an applied humanistic understanding of communication and life skills for high-stress situations. Using the apocalypse as a metaphor for all-hazards scenarios, historical narratives of disaster and films and novels in the zombie genre are

used to discuss emergency preparedness and survival strategies. Students will demonstrate an ability to analyze the rhetorical situation of apocalypse, engage in emergency and disaster planning, response, and recovery assignments, activities, and exercises including developing emergency evacuation plans, preparing emergency kits and bug-out bags, and exercising medical triage and first aid.

### COM 317 COMMUNICATION IN FAMILY AND MARITAL RELATIONSHIPS. (3)

The goal of this course is to provide you with an in-depth understanding of the communication processes that take place in families and marriage (which includes, straight, gay, and common-law relationships). Emphasis is placed on the theoretical explanations of communication processes and on their practical application through communication behaviors that enhance familial interactions. The course reviews communication theories and theories from allied disciplines that have been employed in scholarly research of families and marriages. What you learn in this course will improve the quality of your family and marriage communication and relationships.

### COM 325 INTRODUCTION TO ORGANIZATIONAL COMMUNICATION. (3)

Designed to introduce students to basic concepts in the study of organizational communication. The course considers approaches to the practice and study of communication within organizational settings, including classical approach, human relations, human resources approaches, systems approaches, cultural approaches, and critical approaches. It also introduces specific issues within the study of organizational communication, including assimilation, decision-making, conflict, change, emotion, cultural diversity and communication technologies. Prereq: Communication major; others need departmental approval.

### \*COM 326 COMMUNICATION STRATEGIES FOR PROFESSIONAL EXCELLENCE. (3)

Communication Strategies for Professional Excellence introduces students to a variety of technical and business theories and practices designed to be applicable to business communication in the real world. This course is focused on communication strategies to use once the job has been secured, rather than those to get the job (i.e., resume, cover letter, interviewing). Specifically, the course teaches the fundamentals of good business communication, including protocols for writing media notices/releases, marketing copy, business letters, memoranda, electronic mail, thank you notes, apology letters, persuasive messages, and business plans. Throughout these writing assignments, you will also become acquainted with the strategies used by communication professionals such as functions of media, employee, community, government, investor, and consumer relations. In addition, there will be instruction in oral presentation and in depth practice on both an individual and a collaborative basis. Finally, students will also learn tactics for running a business meeting, dealing with organizational conflict, and finding ways to enhance their business communication through technically based media. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK. Prereq: Upper Division standing in the Communication Major. ADDITIONALLY, completion of all COM BA/BS pre-major requirements. Specifically: COM 101, COM 249, COM 252, CIS or WRD 110, CIS or WRD 111.

### \*COM 327 COMMUNICATION AND SPORT. (3)

This course is designed to explore in depth the relationship between communication and sport. We will examine theories of communication and connect them to sport. The class will examine the relationship between sport and race, gender, class, violence, community, and/or society throughout the United States and around the world.

### COM 350 LANGUAGE AND COMMUNICATION. (3)

An introductory survey course covering syntactic, semantic and pragmatic aspects of language as they relate to communication. Language learning, sign typologies, psycholinguistics, and the nature of meaning are selected topic areas. Emphasis is on behavioral, communication approach. Not open to students who have completed a 300-level (or above) linguistic class.

### \*COM 351 INTRODUCTION TO COMMUNICATION THEORY. (3)

Considers various theoretical perspectives which lead to a more thorough understanding of communication processes. Begins with discussion of the development of theory and inquiry. Includes perspectives of systems, cognitive, behavioral, affective, symbolic interactionist, dramatic, cultural and social reality, interpretive and critical theories. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK. Prereq: Upper Division standing in the Communication Major. ADDITIONALLY, completion of all COM BA/BS pre-major requirements. Specifically: COM 101, COM 249, COM 252, CIS or WRD 110, CIS or WRD 111.

### COM 352 INTERPERSONAL COMMUNICATION AND SOCIAL MEDIA. (3)

With the proliferation of technologically advanced social media (e.g., facebook, chat, twitter) available at the fingertips of individuals through multiple channels (e.g., phone, ipad, laptop, online video games), interpersonal relationships are being affected. Negotiating this relatively new, understudied, and quickly evolving terrain can present relational difficulties for a variety of relationships types. Students in this class will gain a thorough understanding of multiple communication platforms and the communication theory that can explain the interactions occurring in each platform, as well as improve their mediated communication skills to enhance interpersonal relationships. Prereq: COM 252.

**#COM 353 TECHNOLOGY-MEDIATED COMMUNICATION IN SPORT. (3)**

A study of the processes involved in technology mediated communication, including interactions between public figures and their fans and followers, with emphasis on the preparation and delivery of messages that directly impact identity management. Prereq: COM 327.

**COM 365 INTRODUCTION TO COMMUNICATION RESEARCH METHODS. (3)**

An introduction to the methods of philosophy of scientific research into the origins, nature, and effects of communication processes. Provides skills necessary for designing research projects and for interpreting and critically evaluating research results. Prereq: STA 210.

**COM 381 COMMUNICATION, LEADERSHIP, AND ENTREPRENEURSHIP. (3)**

This course provides an introduction to the study and practice of leadership from an entrepreneurial and communication perspective. Course activities will cover, 1) the basic concepts essential to personal skills development and organizational leadership behavior, 2) the theory component, and 3) the practical process of leadership and entrepreneurship. The course is designed to introduce students to leadership perspectives and the role communication plays in effective leadership and entrepreneurial strategies. The course explores communication variables involved when leaders attempt to influence members to achieve a goal. Topics include power, credibility, motivation, research on leader traits, styles, and situations, innovation strategies, organizational dynamics, creative problem solving, and current models of leadership. The different leadership challenges posed by different group and organizational types will also be explored.

**COM 390 COMMUNICATION EDUCATION ABROAD (Subtitle required). (1-6)**

Communication education abroad is an academically rigorous and experientially rich opportunity for students to work with a UK faculty member by participating in a formal study abroad course, research program, or service project related to one or more of many communication theories, concepts, and skills. Any communication education abroad offering will be grounded firmly in the communication discipline in ways designed to enrich one's understanding of how individual and local communication norms and practices both shape and are shaped by global trends, communication, and interactions. Prereq: Approval from instructor.

**COM 395 INDEPENDENT WORK. (1-3)**

Research and study of special topics in communication. The student proposes the specific study to be undertaken and formally contracts with a faculty supervisor for guidance and evaluation. Ordinarily, projects will require the production of written materials as a basis for the evaluation. May be repeated to a maximum of six credits. Prereq: Communication major, departmental approval, and completion of learning contract prior to registration.

**COM 399 INTERNSHIP IN COMMUNICATION. (1-6)**

Provides field-based experience in communication through work in industry, government, education, etc. Pass-fail only. May be repeated to a maximum of six credits. A maximum of three credit hours may be counted toward the communication major. Prereq: Consent of Department Internship Director prior to registration, and completion of departmental learning contract.

**COM 425 COMMUNICATION, NEGOTIATION, AND CONFLICT MANAGEMENT IN ORGANIZATIONS. (3)**

This course explores the role of communication in negotiation and conflict management in organizations. The course examines conflict theories and approaches, negotiation processes, and third party intervention through the study of strategies and tactics, interaction processes, phases and stages of negotiation development and conflict framing. The course examines strategies and tactics used in exchange of offers and counteroffers, salary negotiations, buying and selling of products, team bargaining, and multiparty negotiations. Prereq: COM 326 or COM 351.

**#COM 426 SPORT COMMUNICATION AND ANALYTICS. (3)**

This course is designed to enhance students' literacy regarding sport analytics through the examination of structured historical data and the interpretation of sport metrics. Prereq: COM 327 and COM 326 or COM 351.

**COM 449 SOCIAL PROCESSES AND EFFECTS OF MASS COMMUNICATION. (3)**

This course examines the relationship between the organization of modern society and its communication media with special emphasis on cultural processes and social change. The social-psychological bases of communication are studied within a context of theory and research. Prereq: COM 326 or COM 351.

**COM 452 STUDIES IN INTERPERSONAL COMMUNICATION. (3)**

Examines current theory and research on the nature and development of interpersonal communication ability. Topics include: understanding strategic communicative relational communication elements, and cultural and institutional influences on the development of interpersonal communication. Prereq: COM 326 or COM 351.

**COM 453 DIGITAL AND MASS COMMUNICATION MEDIA LITERACY. (3)**

A course designed to examine theory and research related to criticism of the mass media and to the relationship of digital and mass communication to contemporary social issues. Prereq: COM 249, and COM 326 or COM 351.

**COM 454 HONORS SEMINAR IN COMMUNICATION (Subtitle required). (3)**

Intensive study of a communication topic in professional, theoretical, and research methodology areas of communication. This seminar WILL count toward a Communication major and toward credits for graduation. Prereq: COM 351, COM 365, and 3.3 COM GPA, or permission of the instructor.

**#COM 460 SPORT INDUSTRIES AND AUDIENCES. (3)**

The primary objective of this course is to provide you with an understanding of the social and economic relationships that exist between sport industries and the effects those relationships have on sport media consumers' daily lives. Prereq: COM 326 or COM 351 and COM 327.

**COM 462 INTERCULTURAL COMMUNICATION. (3)**

An overview of problems, issues, processes and assumptions involved with communicating across cultures and co-cultures. Theories of cognition and communication will be used to explore and explain communication with people from diverse cultures. Differences in both verbal and nonverbal communication among different cultural groups will be discussed. Prereq: COM 326 or COM 351.

**COM 471 INTRODUCTION TO HEALTH COMMUNICATION. (3)**

This course examines theory and research relevant to health communication including interpersonal, organizational, and mass communication approaches. Topics include the role of communication in general models of health and illness, the relationship between patients and healthcare providers, social support, and health campaigns.

**COM 482 STUDIES IN PERSUASION. (3)**

This course examines theory and research of persuasion. Topics include message characteristics, credibility, compliance-gaining, decision-making and motivational appeals. Prereq: COM 326 or COM 351.

**COM 525 ADVANCED ISSUES IN ORGANIZATIONAL COMMUNICATION (Subtitle required). (3)**

Examines theory and research relevant to understanding advanced issues in organizational communication. Topics may include strategies of innovation, organizing, networking, decision-making, globalization, technology, power, and diversity. Prereq: COM 326 or COM 351.

**COM 535 RISK AND CRISIS COMMUNICATION. (3)**

This course examines strategic risk and crisis communication research, theory, and practices. Special emphasis is placed on crisis planning, media relationships, image restoration, ethical responses, and organizational learning. Prereq: COM 326 or COM 351.

**COM 553 CRITICAL ANALYSIS OF COMMUNICATION AND PERSUASION IN POPULAR CULTURE. (3)**

This course focuses on what and how popular culture entertainment media functions to communicate and persuade. Forms to be examined may include films/movies, television programs, music, cartoons, and/or comics. Ultimately, students will be equipped with tools to make educated decisions as critical consumers of the messages conveyed in popular culture entertainment media. Prereq: COM 326 or COM 351.

**#COM 563 CRITICAL ANALYSIS OF SPORT MEDIA AND SOCIETY. (3)**

This course is designed to explore how sport media communicate social values, social norms, cultural identification, and cultural values. This approach will allow students to critically evaluate sport media, organizations, and audiences. Prereq: COM 326 or COM 351 and COM 327.

**COM 571 INTERPERSONAL COMMUNICATION IN HEALTH CONTEXTS. (3)**

Examines theory and research relevant to the role of interpersonal communication in managing mental and physical health. Topics related to interaction in health contexts include: communicating identity in health and illness, health and personal relationships, health care provider/patient communication, medical decision-making, and interpersonal health education and prevention efforts. Prereq: COM 471, and COM 326 or COM 351.

**COM 572 HEALTH COMMUNICATION CAMPAIGNS AND COMMUNITIES. (3)**

This course focuses on the role of the mass media in contemporary public health campaigns. Most class sessions focus on the application of theory and research to the design of these campaigns. Earlier studies examining the role of the mass media in health campaigns indicated that the mass media played a small and rather insignificant role in changing health behaviors. However, more recent studies indicate that careful targeting combined with formative research often yield successful behavior change. Prereq: COM 326 or COM 351.

**COM 581 TEAMWORK AND LEADERSHIP IN ORGANIZATIONS. (3)**

Examines theory and research on the nature and development of small group communication. Topics include leadership, interpersonal relations and roles, goals, and decision-making in multiple organizational contexts. Communication major or permission of instructor required for enrollment. Prereq: COM 325 AND completion of the major graduation communication and composition in the communication major requirement (COM 326 or COM 351).

**COM 584 TEACHING OF COMMUNICATION. (3)**

This course uses communication research and theory to develop effective instructors of communication. Topics include instructor identity, course development, teaching communication contexts (e.g., small group, intercultural, persuasion, speech) in diverse settings (e.g., classroom, organizational training), managing learners, and learning assessment. Prereq: COM 326 or COM 351.

## Course Descriptions

### COM 591 SPECIAL TOPICS IN COMMUNICATION (Subtitle required). (1-3)

Intensive study of a specialized topic area in communication. May be repeated to a maximum of six credits under different subtitles. Prereq: COM 326 or COM 351.

## CPE Computer Engineering

### CPE 200 COMPUTER ENGINEERING SOPHOMORE SEMINAR. (1)

A required course designed for sophomore Computer Engineering Students to inform them about the CPE degree program careers in computer engineering and resources available to students to ensure success. The course will introduce students to the computer engineering program requirements; the academic advising resources and policies; the academic advising staff; the faculty. The course will assist students in setting career objectives; assist in the selection of appropriate electives to meet their career objectives; assist in preparing a plan of study; assist in preparing a professional resume. The course will also introduce students to the areas within computer engineering and learn of the major developments in the field of computer engineering from industrial practitioners. Prereq: EGR 103.

### CPE 282 DIGITAL LOGIC DESIGN. (4)

Boolean algebra; number systems; combinational logic circuits; synchronous sequential circuits; asynchronous sequential circuits; design problems using digital logic. Laboratory experiments reinforce the course content. Lecture, three hours; laboratory, one three-hour session. Prereq: EGR 102 or equivalent programming course. (Same as EE 282.)

### CPE 287 INTRODUCTION TO EMBEDDED SYSTEMS. (4)

Introduction to Embedded Systems teaches students how to use microcontrollers to interact with the physical world. Lectures will cover the theory behind microcontroller architecture, programming, and interfacing and lab projects will back up that theory with hands-on design experiments using microcontrollers. Topics include assembly language and high-level language programming, address decoding, hardware interrupts, parallel and serial interfacing, analog I/O, and basic real-time processing. Prereq: EE/CPE 282 and prereq or concur: CS 215 or consent of instructor. (Same as EE 287.)

### CPE 380 COMPUTER ORGANIZATION. (3)

Hardware and software organization of a typical computer; machine language and assembler language programming, interfacing peripheral devices, and input-output programming; real-time computer applications, laboratory included. Prereq: Engineering standing, CS 215 and EE/CPE 282 or EE 280. (Same as CS/EE 380.)

### CPE 480G ADVANCED COMPUTER ARCHITECTURE. (3)

This course focuses on advanced computer architectures and low-level system software. Topics include RISC architectures, vector and multiprocessor architectures, multiprocessor memory architectures, and multiprocessor interconnection networks. Peripheral devices such as disk arrays, NICs, and video/audio devices are covered. Topics also include device drivers, interrupt processing, advanced assembly language programming techniques, assemblers, linkers, and loaders. Prereq: CPE/CS/EE 380. (Same as CS 480G and EE 480.)

### CPE 490 ECE CAPSTONE DESIGN I. (3)

The first semester of a two-semester design sequence for senior students in electrical engineering with an emphasis on the engineering process. Topics important in product design and manufacturing are included, including considerations of economics, safety, and communication. Students are expected to formally propose a design project that includes a problem definition that incorporates engineering standards and realistic constraints. Students work in teams to develop and complete the designs. Lecture, two hours; laboratory, three hours per week. Prereq: Engineering standing and completion of all other required 400-level EE/CPE courses, excluding EE/CPE 491. (Same as EE 490.)

### CPE 491 ECE CAPSTONE DESIGN II. (3)

The second semester of a two-semester design sequence for senior students in electrical engineering with an emphasis on the engineering process. Students work in teams to develop and complete the designs. Topics to include engineering ethics, design, documentation, and communication. Prereq: EE/CPE 490 completed in the previous semester and Engineering standing. (Same as EE 491.)

### CPE 580 EMBEDDED SYSTEM DESIGN. (3)

Embedded System Design covers the design and implementation of hardware and software for embedded computer systems. Topics include architectural support for embedded systems, power management, analog and digital I/O, real-time processing design constraints and the design of embedded systems using a real-time operating systems. Prereq: EE/CPE 287, EE/CPE 380, and engineering standing or consent of instructor. (Same as EE 580.)

### CPE 584 INTRODUCTION OF VLSI DESIGN AND TESTING. (3)

Introduction to the design and layout of Very Large Scale Integrated (VLSI) Circuits for complex digital systems; fundamentals of the VLSI fabrication process; and introduction to VLSI testing and structured design for testability techniques. Prereq: Engineering standing or consent of instructor. (Same as EE 584.)

### CPE 585 FAULT TOLERANT COMPUTING. (3)

Students in this course study the theory and practice of fault-tolerant and dependable computing systems. The course will introduce sources of faults, error and failures in computer controlled systems and approaches to design masking and recovery techniques at the hardware, software, and systems level. Prereq: EE/CPE 380 and engineering standing or consent of the instructor. (Same as EE 585.)

### CPE 586 COMMUNICATION AND SWITCHING NETWORKS. (3)

Fundamentals of modern communication networking and telecommunications, data transmission, multiplexing, circuit switching networks, network topology routing and control, computer communication, packet switching networks, congestion control, frame relay, ATM switching networks, traffic and congestion control. Prereq: EE/CPE 282 and engineering standing. (Same as EE 586.)

### CPE 587 ADVANCED EMBEDDED SYSTEMS. (3)

An advanced course in the design of embedded systems using state-of-the-art microcontroller hardware and software development tools. Topics include architecture support for real-time operating systems, language support for embedded and real-time processing, embedded and wireless networking. Prereq: EE/CPE 580 and engineering standing or consent of instructor. (Same as CS/EE 587.)

### CPE 588 REAL-TIME COMPUTER SYSTEMS. (3)

This course covers features typically found in real-time and embedded systems. Topics include real-time operating systems, scheduling synchronization, and architectural features of single and multiple processor real-time and embedded systems. Prereq: EE/CPE 580 and engineering standing or consent of instructor. (Same as EE 588.)

## CPH College of Public Health

### CPH 201 INTRODUCTION TO PUBLIC HEALTH. (3)

This course provides the student with basic knowledge about the discipline of public health. After receiving a philosophical and political orientation to public health, students will begin to acquire functional knowledge of the strategies most often applied in public health practice. Key content areas (such as HIV prevention, maternal and child health, reducing obesity rates, and reducing tobacco addiction) will become focal points for the investigation of these strategies.

### CPH 202 PUBLIC HEALTH THROUGH POPULAR FILM. (3)

This course will provide students with an introductory understanding of public health concepts through critical examination of popular cinema and instruction in basic public health principles, disease principles, and behavioral and social interactions related to the movie topics. A combination of lectures, readings and film viewing will enable students to understand the relationship between behavioral, environmental, biological and other risk factors with disease, injury or other health outcomes. The effect of social, economic and health systems context will also be examined. In addition, students will learn to distinguish between fact and fiction with regard to the science and activities of public health as portrayed in cinema.

### CPH 203 SEXUAL HEALTH. (3)

This course will be an in-depth introduction to the relationship of sex and sexual behaviors to health and wellness.

### CPH 309 HEALTH, HISTORY, AND HUMAN DIVERSITY. (3)

Health care reform is often in the news, and everyone has an opinion on why the system is broken, how to fix it, who should have access to good medical care, under what circumstances, and what constitutes "good care." This online, multi-format course will consider what it has meant to be a good patient or a good doctor at various points in U.S. history, who was included or excluded in each group, how medicine became professionalized, and how people have organized around health issues. Students will engage with primary sources, watch related films, interact with the professor during virtual "office hours," and participate in online moderated discussions. (Same as GWS 309.)

### CPH 310 DISEASE DETECTIVES: EPIDEMIOLOGY IN ACTION. (3)

This course will outline the history of epidemiology as a science and examine its wide-ranging contributions to the fields of public health, medicine, and the social sciences. This course will focus on epidemiological methods to investigate health outcomes and identify associated and causative factors of disease in populations.

### CPH 315 CHRONIC DISEASE EPIDEMIOLOGY. (3)

This course is an introduction to the epidemiology of chronic diseases including but not limited to cardiovascular disease, cancer, and diabetes, with a focus upon chronic disease surveillance and risk factors. Prereq: CPH 310 or equivalent (with permission from instructor).

### #CPH 318 GLOBAL CANCER EPIDEMIOLOGY. (3)

This course applies and integrates the principles and tools of epidemiology to the study of cancer. The course includes discussions of the burden of various kinds of cancer across the United States and the world by age, gender, and race/ethnicity, the underlying biology behind the development of cancer in humans, cancer surveillance, and the epidemiology of various types of cancer by cancer site such as breast, lung, and colorectal cancers. The course also examines the major risk factors of cancer such as smoking, alcohol use, endogenous and exogenous hormones, viruses, environmental/occupational exposures, and diet. Prereq: CPH 310.

**CPH 320 FUNDAMENTALS OF ENVIRONMENTAL HEALTH. (3)**

An overview of the physical factors that influence human health, including hazards from unsanitary water, polluted air, traumatic injury hazards, toxins, radiologic risks, and other features of the natural and human made environment that can kill, injure, maim, and cause disease in human populations. Special focus is given to understanding the relationships between biological, chemical, and other factors that produce unhealthy environments that sicken individuals throughout their lifespan. Additional topics include the important influence of environmental hygiene, restaurant inspections, occupational safety and health issues, clean water standards, air pollution regulations, and other laws and regulations that protect the health and safety of human populations. Prereq: BPH Majors only.

**CPH 330 HEALTH ANALYTICS I. (3)**

CPH 330 focuses on applying methods for solving public health analytical problems. This course will build on the statistical principles and scientific reasoning introduced in introductory statistics courses, but will focus on the application of methods for categorical data analysis. Topics include data visualization, exploratory data analysis, summary statistics, statistical testing, estimation, confounding, and the use of regression models commonly encountered in public health. An emphasis on data analytic methods will also introduce students to the use of statistical software. Prereq: CPH 310 and BPH Majors only or permission of instructor.

**#CPH 345 FOOD FIGHT: PUBLIC HEALTH AND NUTRITION IN THE 21ST CENTURY. (3)**

Linked to many of the biggest health challenges of our time – heart disease, stroke, diabetes, cancers, and more – overeating represents one of the leading preventable causes of premature death, both domestically and increasingly around the globe. Understanding why people overeat requires an understanding of the food system – the production, distribution, and consumption of food. Public health professionals have important roles to play in shaping the food system, including participating in the public debate over issues such as junk food taxes, farm subsidies, food assistance programs, genetically-modified organisms (GMOs), and factory farms. This course explores how public policies, private businesses, individual decisions, and social norms combine to shape our food system and dietary behaviors, as well as exploring the public health response to this health crisis. Prereq: BPH major or consent of instructor.

**CPH 350 INTRODUCTION TO HEALTH CARE ORGANIZATION AND POLICY. (3)**

This introductory course exposes students to the various components of the U.S. health care system and its history, current status, proposed policy solutions, and expanding focus on improving population health. The course begins by describing the contribution of health care to population health. Next, the course discusses how the organization of services influences health care access, quality, and efficiency. It follows with a review of the complexities of the organization of the health care system, including the inter-relationships between health care providers, health insurance and financing, and political forces. Prereq: ECO 201.

**CPH 351 PREPARING FOR AN APOCALYPTIC EVENT: POPULATION HEALTH AND CRISIS MANAGEMENT. (3)**

Students enrolled in this course will participate in in-depth analyses of multiple large-scale disasters. This course will provide students with the knowledge necessary to participate in all phases of the crisis management process, as overseen by a health service organization. Case studies will be utilized heavily throughout this course and students will have the opportunity to engage in discussion with various health professionals from around Kentucky who engage in crisis management activities. Prereq: CPH 201 or permission of the instructor.

**CPH 365 SPECIAL TOPICS IN PUBLIC HEALTH (Subtitle required). (3)**

This course provides focused coverage within domains of public health, including: Health Behavior; Epidemiology; Gerontology; Environmental Health; Health Services Management, and Biostatistics. A central goal of these special topics courses is to provide a public health context to material in a way that promotes applicability to undergraduate majors university-wide.

**CPH 395 UNDERGRADUATE INDEPENDENT STUDIES IN PUBLIC HEALTH. (1-3)**

This course offers students the opportunity to independently promote learning in public health content areas and/or skills that are not covered by formal courses within the college. Students typically work with an individual faculty member to develop specialized or advanced knowledge or skills, or to identify, design and/or conduct research. Students must coordinate with a faculty member to complete a Prospectus for Research/Independent Study prior to registering for CPH 395. This course may be repeated for a maximum of 6 semester hours. Prereq: A minimum of 60 credit hours completed or junior level standing and permission of instructor.

**CPH 410 EPIDEMIOLOGY IN THE WEB OF CAUSATION: PEOPLE, PLACE, AND POLITICS. (3)**

This course will provide an interdisciplinary introduction to applications of epidemiology in the context of political, community, social, and behavioral influences on health. Epidemiology is the study of patterns of diseases, injury, and other indicators of health in human populations. The course will review principles and introduce novel methods used in epidemiologic research. Students will learn approaches to collecting data about sensitive health behaviors, examining social networks, integrating information from interviews and focus groups, and collecting spatial data using a smart phone application. These topics will be explored using a range of case examples, including infectious disease, humanitarian crises, sexual health, substance abuse, obesity, and others. Prereq: Introduction to Public Health (CPH 201) and Disease Detectives (CPH 310) or equivalents (instructor permission required) should be taken before or at least concurrently with this course.

**CPH 423 HEALTH OF KENTUCKIANS. (3)**

This course provides an overview of the determinants, factors, and remedies to the traditionally poor health status of Kentuckians. The course focus is on population health of the Commonwealth, with an emphasis on data, trends and solutions to illness, death and disability. Other topics include health rankings, vital statistics and demographic factors. The comparison of Kentucky's population health status to the US average and to other states is presented, plus strategies to improve population health in the Commonwealth. Additional topics include the relationship between Kentucky's demographic, economic, environmental, and education characteristics and their impact on health.

**CPH 440 FOUNDATIONS OF HEALTH BEHAVIOR. (3)**

This course will provide students with an overview of how the social and behavioral sciences contribute to primary prevention in the rapidly expanding field of health behavior. Emphasis will be placed on theory-driven approaches that are supported by empirical investigations. Students will acquire a working knowledge of foundational theories used in public health practice as well as the ability to measure key theoretical constructs. The course includes an overview of public health issues in the United States. The course also includes training regarding the translation of research findings into public health practice. Prereq: BPH Majors only.

**CPH 441 THE SMOKING GUN: TOBACCO AND THE PUBLIC'S HEALTH. (3)**

This course will provide a theoretical, cultural and economic rationale for the role of tobacco smoking related to the overall health of US populations in the United States and abroad. This course will examine trends in tobacco smoking from the 1960's to present day and how social and political forces have both directly and indirectly undermined the current public health agenda – to reduce, minimize, and eventually eradicate tobacco related chronic disease and death worldwide. Students will acquire the necessary tools to identify the scientific literature on smoking and disease through traditional published literature, tobacco websites, and national data sets. Prereq: Junior or Senior undergraduate in good academic standing, recommendation of advisor or permission of instructor.

**CPH 450 MANAGING HEALTH ORGANIZATIONS TO IMPROVE POPULATION HEALTH. (3)**

This course will introduce students to a number of foundational concepts related to leadership and management, specifically in the realm of health organizations (e.g., local and state health departments, hospitals, community clinics, etc.). In particular, this course will explore the areas of managing human and non-human resources, and improving agency performance. Students will have the opportunity to interact with managers and organizational leaders from a variety of health service agencies. Prereq: CPH 201 or permission of the instructor.

**\*CPH 470 PUBLIC HEALTH CAPSTONE. (3)**

This course will provide students a culminating Bachelor of Public Health (BPH) experience through synthesis of material learned throughout the program's core coursework in the following areas: epidemiology; biostatistics; environmental health; population health management and policy; and health behavior. Students will draw upon previous coursework in public health to assess multi-factorial public health problems through case studies, videos/movies and current events. Students will also practice professional writing skills and public presentations. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK. Prereq: BPH Majors only plus CPH 310, CPH 320, CPH 330, CPH 350 and CPH 440.

**\*CPH 472 PUBLIC HEALTH PROFESSION AND PRACTICE. (3)**

This course familiarizes students with the practice of public health, introducing them to the various settings and arenas in which public health professionals work. Through guest lectures and discussions with professionals in the field, experiential learning opportunities and in-depth examination of specific public health careers, students gain exposure to the roles and responsibilities of the public health workforce. Students will also engage in activities to prepare for a job search within public health through resume and cover letter development, preparation and practice for professional interviews, and other assessment activities to strengthen the student's career readiness. Prereq: BPH Majors only plus CPH 310, CPH 320, CPH 330, CPH 350, and CPH 440.

**CPH 476G A SICK WORLD: GLOBAL PUBLIC HEALTH IN THE EARLY 21ST CENTURY. (3)**

This course provides students with basic knowledge about the issues of global public health and its importance to all peoples of the globe. After receiving an introduction to the principles and goals of global public health, students will begin to acquire functional knowledge of the theoretical and methodological underpinnings of global public health practice. Key content areas such as health determinants, issues of health, education, and poverty, ethical and human rights concerns, the impact of culture on global public health, the burden of disease on the global human population, and other pertinent global public health topics will become focal points for class discussion. This course will emphasize theory-driven empirical investigation of key behavioral issues that influence the health and well-being of people around the globe. Case studies of global public health issues will be utilized. Prereq: CPH 440 and BPH Majors only or by permission of the instructor.

**CPH 535 DATABASES AND SAS PROGRAMMING. (3)**

Students will learn how to construct and maintain databases with applications to public health. They will also learn how to program in SAS, the leading statistical analysis system. SAS skills include report writing, MACRO writing, and Programming using SAS Intranet. Lecture, two hours; laboratory, two hours per week. Prereq: STA 291 or equivalent.

## Course Descriptions

### \*CPH 551 COMPARATIVE HEALTH SYSTEMS. (3)

An overview of healthcare system structure in selected countries with attention to their developmental history, financing, and delivery infrastructure. Prereq: Enrollment in a public health degree program or permission of instructor.

### CPH 561 INSECTS AFFECTING HUMAN AND ANIMAL HEALTH. (3)

Discussion of arthropod parasites and disease vectors. Topics include an overview of disease transmission and public health, epidemiology, vector biology, important arthropod groups and their control. Prereq: 3 credits of basic biology (BIO 103 or BIO 148 or equivalent) or permission of instructor. (Same as BIO/ENT 561.)

### CPH 565 SPECIAL TOPICS IN PUBLIC HEALTH: (Subtitle required). (3)

This course provides focused coverage within domains of public health, including, but not limited to: Biostatistics; Epidemiology; Gerontology; Health, Behavior & Society; Health Management & Policy; and Preventive Medicine and Environmental Health. A central goal of these special topics courses is to provide a public health context to material in a way that promotes applicability to undergraduate and graduate students university-wide.

### CPH 580 BIostatISTICS I. (3)

CPH 580 covers univariate statistical methods commonly encountered in public health studies. This includes descriptive statistics, hypothesis testing, paired and unpaired t tests, ANOVA, contingency tables, log rank test, regression and correlation. Prereq: MA 109 or higher. (Same as STA 580.)

### CPH 600 HEALTH SERVICES AND SYSTEMS ORGANIZATION. (3)

An introduction to the health care delivery system in the United States, including its composition, functioning, the interrelationships of organizations and professional groups within the system in various settings, health care terminology, and major problems and issues in the delivery of health services. Prereq: College of Public Health graduate program enrollment or permission of instructor.

### \*CPH 601 OCCUPATIONAL & ENVIRONMENTAL HEALTH I. (3)

This course provides an introduction to the theory and practice of assessing, correcting, controlling, and preventing environmental health hazards that may adversely affect the health of current and future generations. Prereq: Undergraduate chemistry and biology, or permission of instructor.

### \*CPH 603 DATA ANALYSIS. (3)

This course covers topics relating to applications of biostatistics in public health. It provides a conceptual introduction to statistical methods commonly used in public health practice. Topics include data visualization, summary statistics, statistical testing, estimation, confounding, and an introduction to regression (linear, logistic, proportional hazards).

### \*CPH 604 FOUNDATIONS OF HEALTH BEHAVIOR I. (2)

This course will demonstrate how changes in health behavior can and do impact population-level indicators of morbidity and mortality. Within the context of the socio-ecological framework, students will focus on health behavior theories and interventions targeting the intra- and interpersonal levels of the framework. Students will apply an intervention mapping approach to identify priority needs for health promotion and design health promotion programs. Students will be able to make clear linkages between health promotion practices and the overarching goals of public health. Selection and design of strategies will be achieved through an understanding of theory-based approaches that have been widely applied in health promotion research. Prereq: Admission to MPH program or permission of instructor.

### CPH 605 EPIDEMIOLOGY. (3)

This is an initial graduate level course in the principles of epidemiology and applications in preventive medicine and environmental health. The course consists of lectures and informal discussions. Principles and methods of epidemiologic research with a focus on issues of study design and analysis will be presented. Prereq: Graduate student in good standing in the MPH program, MSPH program, or community health nursing, or consent of instructor.

### CPH 608 PUBLIC HEALTH CAPSTONE. (3)

To be successful in the MPH degree program and the profession, students are expected to demonstrate excellence in communication skills both orally and in writing. The 'manuscript' format for the capstone project is intended to familiarize students with the rigors of preparing manuscripts for professional journals. This course provides course credit for students who successfully complete the MPH capstone project and oral final examination. Prereq: MPH students only.

### CPH 609 PUBLIC HEALTH PRACTICUM. (3 or 6)

The public health practicum is designed as an integrative experience in the workplace. The practicum is an opportunity to apply classroom theories and methods under the guidance of an experienced public health practitioner with faculty oversight. Prereq: Admission to MPH program or permission of instructor.

### CPH 610 INJURY EPIDEMIOLOGY AND CONTROL. (3)

The epidemiological basis for understanding the distribution and determinants for traumatic injury and poisonings including both intentional and unintentional events. Topics include sources of data, methodological approaches to studying injuries, evaluation of injury interventions and the link between epidemiology and public health policy impacting injuries. Prereq: PM 620 and/or permission of instructor.

### CPH 611 ADVANCED EPIDEMIOLOGY. (3)

This course provides specialized epidemiologic content and method designed to meet the research and practice needs of health professionals. Practice-based problem sets and hands-on computer assignments will complement this seminar-oriented course, focusing on the role of epidemiology in the prevention of disease and injury. Prereq: CPH 605 or consent of instructor. (Same as PM 621.)

### \*CPH 612 INFECTIOUS DISEASE EPIDEMIOLOGY. (3)

This course applies the principles of infectious disease epidemiology to infectious and emerging diseases of public health importance. Prereq: CPH 605 or consent of instructor.

### CPH 613 MOLECULAR EPIDEMIOLOGY, CANCER PREVENTION AND CONTROL. (3)

This course consists of didactic lectures, journal clubs, and small group round table discussions related to the principles of underlying biomarker discovery and development for cancer prevention and control. The overarching goal of this course will be to assess how biomarkers are developed and used for the risk assessment, early detection, diagnosis, prognosis, and theragnosis of cancer. Prereq: CPH 605 or consent of instructor.

### CPH 614 MANAGERIAL EPIDEMIOLOGY. (3)

This course applies and integrates the principles and tools of epidemiology to the decision-making process in health care management. Prereq: Enrollment in a Public Health degree program and CPH 605, or consent of instructor.

### \*CPH 615 CANCER EPIDEMIOLOGY. (3)

This course applies and integrates the principles and tools of epidemiology to the study of cancer. The course includes discussion of the burden of various kinds of cancer across the United States and the world by age, gender, and race/ethnicity. The underlying biology behind the development of cancer in humans, cancer surveillance, the epidemiology of various kinds of cancer by category of major risk factors such as human behavior, (e.g. smoking and alcohol use), endogenous/exogenous hormones, viruses, environmental/occupational exposures, and diet, and courses of data and methods for evaluating cancer screenings, measuring the impact of risk factors, determining the incidence of cancer and cancer clusters, measuring patterns of care, and understanding the determinants of survival. Prereq: CPH 605 or consent of instructor.

### CPH 617 ENVIRONMENTAL/OCCUPATIONAL EPIDEMIOLOGY. (3)

A study of work-related and environmental exposures and hazards associated adverse health outcomes. Integrating the fields of occupational and environmental epidemiology. Prereq: Enrollment in a Public Health degree program and CPH 605/PM 620 or consent of instructor.

### CPH 618 EPIDEMIOLOGY OF AGING. (3)

This course introduces the application of epidemiologic methods to the study of older persons. Prereq: Enrollment in a Public Health degree and CPH 605/PM 620 Intro to Epidemiology and GRN 650, or consent of instructor. (Same as GRN 618.)

### #CPH 619 EPIDEMIOLOGY OF THE OPIOID EPIDEMIC. (3)

This course will provide an interdisciplinary and contemporary overview of the epidemiology of substance use and public health approaches to reducing harms related to substance use (e.g., HIV, hepatitis C, overdose). The course will also introduce novel methods used in epidemiologic research on substance use, including strategies for participant recruitment and collection of sensitive behavioral data; interwoven with this content will be discussions of the ethical considerations for research involving people who use drugs. The course will focus predominantly on heroin and nonmedical use of prescription opioids, but will also discuss issues surrounding cocaine, crack, methamphetamine, nonmedical use of other prescription drugs, hallucinogens, synthetic drugs, and other emerging substances. These topics will be explored using a range of approaches, including readings, documentaries, and discussions with guest lecturers involved in epidemiologic research on substance use, public health practice, and/or who are in recovery from substance use. Prereq: Graduate student or consent of instructor.

### \*CPH 620 OCCUPATIONAL & ENVIRONMENTAL HEALTH II. (3)

This course addresses advanced theories and practices of identifying, assessing, and controlling occupational and environmental hazards that may adversely affect the health of communities and working populations. The course emphasizes harmful effects of non-chemical hazards, such as radiation, noise, hypoxia, and physical agents that lead to morbidity and mortality. However, evaluation and control measures will cover many types of hazardous exposures, including those from chemical exposures. Prereq: CPH 601 or consent of instructor.

### #CPH 621 UNDERSTANDING AND COMMUNICATING ENVIRONMENTAL HEALTH RISKS. (3)

Public health practitioners and researchers require knowledge of how exposure to environmental and occupational contaminants can adversely affect the health of both current and future generations. Public health professionals also require skills to communicate clearly with multiple stakeholders about opportunities to assess, control, and/or prevent complex environmental health hazards. In this course, students will develop foundational environmental health concepts and build cultural competencies for effective stakeholder communication. Prereq: Admissions to College of Public Health program or consent of instructor.

### CPH 622 TOXIC AGENTS AND THEIR IMPLICATIONS IN PUBLIC HEALTH. (3)

This course provides an overview of chemical agents within the environment, their interaction with the human organism, and resultant public health implications. The goal of this course is to utilize toxicological information to create, understand, and explain control strategies that protect and improve public health. Prereq: CPH 601.

**CPH 623 PUBLIC HEALTH BIOLOGY. (1)**

Public Health Biology is a 1 credit course offered over five weeks that will introduce students to some of the basic terminology and concepts of human health.

**CPH 630 BIostatISTICS II. (3)**

Students will learn statistical methods used in public health studies. This includes receiver operator curves, multiple regression, logistic regression, confounding and stratification, the Mantel-Haenzel procedure, and the Cox proportional hazards model. Prereq: STA 570, CPH 603, STA 580/CPH 580, or equivalent. (Same as STA 681.)

**CPH 631 DESIGN AND ANALYSIS OF HEALTH SURVEYS. (3)**

Students will learn design and analysis issues associated with well-known national health surveys, including reliability and validity of measurements, instrument validation, sampling designs, weighing of responses, and multiple imputations. Students will learn how to use statistical software to analyze data from complex survey designs. Lecture, two hours; laboratory, two hours per week. Prereq: STA 580 or equivalent.

**CPH 632 FUNDAMENTALS OF CLINICAL RESEARCH. (3)**

This course is intended to lay the foundation for the more advanced study necessary for a clinical research investigator; and, will cover the concepts of clinical research design and implementation with an emphasis on clinical trials. This course is intended to be a springboard and to complement the more advanced curricula in Epidemiology and Biostatistics, by providing concepts that will aid the student in patient-oriented investigation. Some medical knowledge is preferable for the successful completion of this course. Prereq: CPH 605 or permission of instructor.

**#CPH 634 ANALYTICS METHODS FOR HEALTHCARE DATA. (3)**

The course will discuss the use and importance of observational data, such as naturalistic real-world trials, patient registries, and health care claims. We will review issues involved in analyzing observational data (like selection bias or confounding) and common statistical solutions to those issues (e.g., propensity score matching). As a part of "hands-on" training experience, students will work with a subset of health claims data to gain experience in cleaning, managing and exporting data to statistical software. Prereq: Enrollment in the Master of Public Health degree program or consent of instructor.

**CPH 636 DATA MINING IN PUBLIC HEALTH. (3)**

This course concerns statistical techniques for and practical issues associated with the exploration of large public health data sets, the development of models from such data sets, and the effective communication of one's findings. Prereq: STA/CPH 580 and CPH 535, or graduate program status in Ph.D. Statistics or Ph.D. Epidemiology/Biostatistics.

**CPH 640 WOMEN'S HEALTH. (3)**

This course will cover a variety of women's health topics including substance abuse, violence against women, nutrition, chronic diseases, reproductive and sexual health, and menopause. The course content will also emphasize the social, economic, environmental, behavioral, and political factors associated with women's health. We will address these content areas using a lifecourse perspective. The epidemiology, measurement and interpretation of these factors, and how these factors can be translated into interventions, programs, and policy, will be of major interest. Our focus will be primarily within the United States though we will touch on some aspects of global health. Prereq: Enrollment in the MPH program or permission of instructor.

**CPH 641 PUBLIC HEALTH AND ANTHROPOLOGY. (3)**

Examination of how the perspectives and methods of anthropology can be and have been applied in public health research and intervention projects. Prereq: Enrollment in the MPH, or DrPH program, or consent of instructor.

**CPH 642 ECOLOGICAL AND ADVANCED HEALTH BEHAVIOR THEORY. (3)**

Exploration of ecological model and other advanced theories of health behavior, based on theoretical and case-study literature. Contrasts individual-level and population-level approaches to health behavior. Prereq: CPH 604 or consent of instructor.

**\*CPH 643 MEASURING HEALTH BEHAVIOR: QUANTITATIVE & QUALITATIVE APPROACHES. (3)**

This course focuses on measurement, the key component of research. Topics include types of measurement; units of measurement; theory and measurement; reliability and validity; survey development; how and where to find "good" measures of health behaviors; quantitative and qualitative approaches; and cultural considerations in measurement. The course relies upon the socioecological framework, acknowledging that health behaviors (as well as their determinants, consequences, and correlates) can and should be measured at all levels of society (e.g., individual, relational, community, and societal). The goal of the course is to train the student in how to measure health behaviors both responsibly and effectively. Prereq: Enrollment in the MPH, or consent of instructor.

**CPH 644 RURAL HEALTH DISPARITIES. (3)**

Through class meetings, course readings, and assignments, this course will provide students with a comprehensive overview of issues pertaining to health disparities of rural populations by examining current programs and policies, relevant literature, public health practice, and quantitative and qualitative research pertaining to the health and well-being of rural populations.

**CPH 645 FOOD SYSTEMS, MALNUTRITION AND PUBLIC HEALTH. (3)**

Exploration of the role of the global food system in shaping food consumption and the implications for public health. Prereq: Enrollment in College of Public Health or consent of instructor.

**CPH 646 SPECIAL TOPICS IN BEHAVIORAL HEALTH: (1-3)**

**(Subtitle required).**

This course will engage students in readings, projects, lectures and/or discussions to address current topics of special interest or concerns. May be repeated to a maximum of 6 credit hours. Prereq: Enrollment in a Public Health degree program or consent of instructor.

**CPH 647 RESEARCH METHODS FOR PUBLIC HEALTH. (3)**

This course provides the student with basic knowledge about the design and analysis of research in the field of health behavior. The theory, design, applications, and analytic strategies used for various types of research are presented in a sequential format. Goals of the course include: 1) gaining the ability to critically evaluate research in health behavior 2) achieving competence in research methodology, and 3) understanding the conceptual application of analytic techniques to data. Prereq: M.P.H., Dr.P.H., or Ph.D. in public health student or permission of instructor.

**CPH 648 ELIMINATING RACIAL AND ETHNIC HEALTH DISPARITIES. (3)**

This course will help the learner understand differences in minority populations in order to help build and lobby for the infrastructure needed to prevent excess disease and death among underserved populations. A special emphasis in this class will be placed on understanding the role of culture in influencing the adaptation of health attitudes, practices, and behaviors. An additional focus will be placed on health status, current trends, and health indicators for special populations. Prereq: Graduate student in Public Health and others by instructor permission.

**CPH 649 INDEPENDENT STUDIES IN HEALTH BEHAVIOR. (1-3)**

Designed for advanced students with research or special study interest in Behavioral Health. Students are under guidance and confer individually with faculty. May be repeated to a maximum of 6 credit hours. Prereq: Enrollment in a Public Health degree program or consent of instructor.

**\*CPH 650 PUBLIC HEALTH SYSTEMS ADMINISTRATION. (3)**

This course introduces students to foundational concepts of health policy, the US health care and public health systems, and areas of management that are critical to the design, development and evaluation of health policy. Prereq: College of Public Health major or consent of instructor.

**CPH 651 POPULATION HEALTH: MEASUREMENT, MANAGEMENT AND IMPROVEMENT. (3)**

This course explores strategies for measuring, managing and improving health status on a population-wide basis using insight from the social and behavioral sciences. Students will examine approaches for measuring population health and analyzing determinants of health and wellbeing using primary and secondary sources. Students will acquire an understanding of how multiple service delivery and financing systems interact in shaping health and wellbeing on a population level, and what policy and management strategies and incentives are available to align the medical, public health and social systems that support population health. Finally, the course will introduce students to an array of analytic tools and methodologies for evaluating the implementation and impact of population health improvement strategies. Prereq: Enrollment in the MPH program or permission of the instructor.

**CPH 652 HEALTH FINANCE. (3)**

This course provides students an understanding of key principles of financial management as they are applied in healthcare organizations. Knowledge of key elements of strategic financial planning and their application in developing organizational plans and programs will be enhanced through the case study method. Prereq: Enrollment in a College of Public Health degree program or permission of instructor.

**CPH 653 PUBLIC HEALTH LAW & POLICY. (3)**

Overview of public health law with emphasis on topics and materials used by public health practitioners, as well as the use of law to advance a public health agenda. Prereq: Graduate status or approval of instructor.

**CPH 655 MANAGEMENT ACCOUNTING FOR HEALTHCARE ORGANIZATIONS. (3)**

This course introduces the use of management accounting techniques for decision making in healthcare organizations. Lectures, problems and cases will be used to focus on various types of healthcare organizations. Prereq: Enrollment in a College of Public Health degree program or MBA (or permission of instructor).

**CPH 658 HEALTH ECONOMICS. (3)**

Health policies and market forces impact the U.S. health care system in terms of access, cost, and quality. This course provides the perspective that economic reasoning is a valuable critical thinking approach to social science inquiry and demonstrates how this perspective helps students understand health care policy and market issues. Prereq: Enrollment in a College of Public Health degree program or certificate program (or permission of instructor).

**\*CPH 660 DISEASE MAPPING & DATA VISUALIZATION. (3)**

This course will introduce students to basic concepts in disease mapping and data visualization using a variety of software packages. These will include Excel from Microsoft, EpiInfo from the Centers for Disease Control & Prevention (CDC), QGIS from the open-source QGIS Project, and more. Students will use these tools to gain experience producing figures and tables appropriate for publication in epidemiologic manuscripts. Prereq: CPH 605 or consent of instructor.

**CPH 661 BIOETHICS FOR PUBLIC HEALTH PROFESSIONALS. (3)**

This course will engage students in readings, projects, and discussions to address controversial issues of bioethics for public health professionals. Prereq: Enrollment in a Public Health degree program or consent of instructor.

**CPH 662 PUBLIC HEALTH RESPONSE TO TERRORISM, DISASTERS AND EMERGENCIES. (3)**

This course will focus on the public health concepts, history, methods, planning, and response preparedness to weapons of mass destruction, terrorism, natural and human-made disasters, and other health emergencies. Prereq: Enrollment in a Public Health degree program and CPH 605, or consent of instructor.

**\*CPH 663 INTRODUCTION TO PUBLIC HEALTH PRACTICE. (1)**

This course is to be a practical introduction to public health at the national, state, and local levels. This course is intended for students in the Master of Health Administration, PhD in Gerontology, and PhD in Epidemiology & Biostatistics. Prereq: Enrollment in Master of Health Administration, PhD in Gerontology, PhD in Epidemiology & Biostatistics or consent of instructor.

**CPH 664 DESIGN AND ANALYSIS OF CLINICAL TRIALS. (3)**

This course will introduce the fundamental concepts used in the design of Phase I/IV clinical trials and statistical methodology associated with trial data analysis. Prereq: STA 570 or permission of instructor.

**CPH 665 ETHICAL ISSUES IN CLINICAL RESEARCH. (3)**

Based on NIH guidelines for Responsible Conduct of Research, this course will present ethical and regulatory guidelines for conducting clinical research. Prereq: Participation in curriculum leading to Graduate Certificate in Clinical Research Skills, or permission of instructor. (Same as PHR 665.)

**CPH 670 INTERDISCIPLINARY PROTOCOL DEVELOPMENT. (2)**

This course is designed to orient students to leadership and teamwork processes involved in clinical and translational research and to train students to function effectively in team settings. Students will be assigned to multidisciplinary teams with a designated principal investigator. Each team will be assigned to develop an integrated multidisciplinary grant application to address an assigned clinical research topic. Students are expected to apply their knowledge of effective scientific communication, responsible conduct of research, and methods and technologies of clinical and translational science to the grant application. The course will consist of four class periods. The first three classes will consist of an orientation to communication and the role of leadership and teamwork in multidisciplinary clinical and translational research. The final class period will be reserved for a teams organizational meeting. Supplemental team meetings are optional. Each team member will be required to complete an individual five-page research methods report that is integrated into a multidisciplinary research application addressing a clinical research topic assigned to the team under the direction of an assigned principal investigator. Prereq: Graduate standing.

**\*CPH 672 EVIDENCED-BASED PUBLIC HEALTH PLANNING & PRACTICE. (3)**

This course provides the student with knowledge and skills in understanding and practicing evidence-based public health: applying scientific reasoning, systematic use of data and information systems, and appropriate public health theories to the development, implementation, and evaluation of effective programs and policies in public health. The course will emphasize online data, tools, and other resources that support the evidence-based decision making process. Prereq: Enrollment in the MPH program or consent of instructor.

**#CPH 674 FOUNDATIONS OF HEALTH BEHAVIOR II. (2)**

This course will demonstrate how changes in health behavior can and do impact population-level indicators of morbidity and mortality. Within the context of the socioecological framework, students will focus on health behavior theories and interventions targeting the organizational, community, and societal levels of the framework, as well as multilevel interventions. Students will apply an intervention mapping approach to identify priority needs for health promotion and design health promotion programs. Students will be able to make clear linkages between health promotion practices and the overarching goals of public health. Selection and design of strategies will be achieved through an understanding of theory-based approaches that have been widely applied in health promotion research. Prereq: CPH 604 and Admission to MPH program or permission of instructor.

**CPH 680 FUNDAMENTALS OF HEALTHCARE QUALITY AND SAFETY. (3)**

This course introduces you to the broad discipline of health services systems with an emphasis on quality and patient safety. By the end of this course you will have a better understanding of the theory, methods, structures, and processes of health services, quality and patient safety and why the core areas of interest are so important in health care. Prereq: CPH 600 or permission of instructor.

**CPH 681 LEGAL ASPECTS OF HEALTHCARE MANAGEMENT. (3)**

The course will familiarize students with the application of law to management issues in healthcare organizations. Skills addressed include terminology, legal reasoning, the tools of law, and topics specific to healthcare settings. Prereq: Enrollment in a College of Public Health degree program or permission of instructor.

**CPH 682 QUANTITATIVE METHODS FOR HEALTHCARE MANAGEMENT. (3)**

This course is a survey of quantitative methods for healthcare managers. Specific content areas include problem selection, data collection, measurement, analytic techniques, and research design. Prereq: Enrollment in a College of Public Health degree program or permission of instructor.

**CPH 683 OPERATIONS MANAGEMENT AND QUALITY IMPROVEMENT. (3)**

This course covers the basics of operations including management of productivity, quality, and inventory as well as process improvement, capacity and throughput analysis and benchmarking. Development of operational performance metrics and basics of both project management and supply chain management are also covered. The focus is on developing tools to support decision making under conditions of uncertainty, risk, and multiple objectives. Prereq: Enrollment in a College of Public Health degree program or permission of instructor.

**CPH 684 HUMAN RESOURCES MANAGEMENT IN HEALTHCARE. (2)**

This course will examine concepts, methods, systems, and processes for planning and managing human resources in healthcare. It is designed for those aspiring in strategic leadership roles in complex healthcare organizations, rather than primarily for those seeking a specialized role in human resources. Prereq: Enrollment in a College of Public Health degree program or permission of instructor.

**CPH 687 ORGANIZATION THEORY AND BEHAVIOR. (3)**

This course introduces the disciplines of organization theory and organization behavior and their application in healthcare organization management. Special attention is given to understanding the practice of administration in healthcare organizations, the skills needed for effective management, and evolving management approaches (i.e. Lean). Prereq: Enrollment in a College of Public Health degree program or permission of instructor.

**CPH 688 INTERNSHIP IN HEALTH ADMINISTRATION. (1-3)**

Managerial experience in a healthcare setting is an essential component of the health administration educational process. An administrative internship, also referred to as the internship, provides the student with the opportunity to put into practice the knowledge and skills learned in the classroom in healthcare organizations under the guidance of a senior healthcare administrator with faculty oversight. Prereq: Enrollment in the MHA program.

**CPH 691 SOCIAL DETERMINANTS OF POPULATION HEALTH. (3)**

The fundamental determinants of population health (often referred to as the social determinants of health) are grounded in the social, genetic, and physical environments and may influence multiple risk factors and health outcomes by directly shaping individual health behaviors and by shaping access to living conditions and goods and services such as health care and social resources. This course will examine the major categories of social determinants of population health and emerging strategies to address them. Prereq: Enrollment in the MPH program or permission of the instructor.

**CPH 695 PUBLIC HEALTH PRACTICE THROUGH SERVICE LEARNING. (1-3)**

This course will provide students the opportunity to gain first hand public health experience by participating in projects in a community setting. Number of credit hours, associated contact hours, and assignments to be determined in consultation with the instructor. Prereq: Enrollment in a Public Health degree program and completion of the core curriculum, or consent of instructor.

**CPH 698 OCCUPATIONAL SAFETY AND HEALTH: FIELD SURVEYS. (3)**

The course provides students with the opportunity to visit various work sites and industries in the Appalachian region. This course will provide students with onsite, direct experience recognizing hazards and evaluating control measures to reduce occupational health and safety risks. This is a cross-disciplinary course for graduate students in occupational safety, industrial hygiene, environmental health, occupational health nursing, ergonomics, injury prevention, agricultural health and safety, occupational epidemiology and occupational medicine. Prereq: CPH 620 Occupational Health.

**CPH 701 CURRENT ISSUES IN PUBLIC HEALTH. (1)**

This seminar course will introduce M.S. and Ph.D. students to the critical role of public health in protecting, maintaining, and improving the health of the population. Specific emphasis will be directed to the "Ten Essential Functions of Public Health" through weekly lectures, readings, and writing assignments. While all five core areas of public health will be introduced. Prereq: Admission to College of Public Health M.S. or Ph.D. program.

**CPH 709 GLOBAL HEALTH INTERNSHIP. (3)**

This course will consist of an internship in a foreign country, preferably in a resource-limited setting. Students will have both a University of Kentucky and a local mentor, and will develop a plan for participating in some type of health-related project or activity during a four-week period. A paper or presentation summarizing the key components of the internship experience will be submitted upon returning to Lexington. Prereq: Enrollment in the Graduate Certificate in Global Health Program, and completion of the course CPH 751, Introduction to Global Health, or approval from the Director of the certificate.

**CPH 710 ADVERSE EVENTS IN HEALTHCARE: EPIDEMIOLOGY AND PREVENTION. (3)**

This course will focus on the epidemiology, history, methods, and ancillary laboratory tools used in the study and control of healthcare associated adverse events, including discussions of key concepts and theory, basic types of epidemiological investigations and study designs, and distinctive problems associated with specific risk factors. Adverse events will be discussed as components of patient safety and the quality of care.

**CPH 711 CHRONIC DISEASE EPIDEMIOLOGY. (3)**

A survey course on the leading chronic diseases in the U.S., including cardiovascular disease, cancer and diabetes with focus on surveillance and risk factors. Prereq: Enrollment in a Public Health degree program, CPH 605/PM 620 Introduction to Epidemiology or consent of instructor.

**CPH712 ADVANCED EPIDEMIOLOGY. (3)**

This course provides students with the understanding of advanced issues in the design, analysis, and interpretation of epidemiologic studies. The course text and associated readings will focus on study designs and the methodologic approaches to addressing bias, confounding, and error in the design of population-based health research. The development of a systematic approach for evaluating evidence from epidemiologic studies as it relates to demonstrating causality will be emphasized. Focusing on study design, measures of associations, confounding, interaction, sources of bias and error, the student will gain an understanding of epidemiology and its role in the medical and public health sciences. Prereq: Enrollment in a public health degree program and CPH 605 or consent of instructor.

**CPH713 PHARMACOEPIDEMIOLOGY. (3)**

This course will provide an overview of the field of pharmacoepidemiology and its relationship to health care research. Various topics including methodology and analytical issues relevant to the conduct of pharmacoepidemiologic research will be covered. Time will also be spent reviewing existing papers in the field of pharmacoepidemiology. Prereq: CPH 605 and STA 580 or equivalent; may be concurrent. (Same as PPS 701.)

**CPH714 MATERNAL AND CHILD HEALTH INFORMATION AND DATA SYSTEMS. (3)**

This course will equip participants with basic skills in identifying, accessing, interpreting and utilizing U.S. maternal and child health data systems at the national and state level. Participants will learn the essential ways that secondary data sources inform public health practice and how to interpret and present information from these sources. They will also learn key skills in data interpretation, data linkage, working with small numbers, stratifying data by population subgroups and examining trends over time.

**CPH715 PERINATAL EPIDEMIOLOGY. (3)**

This course will equip participants with basic skills in the field of perinatal epidemiology and its application in the field of Maternal and Child Health. Students will work with birth and death data using SAS, SPSS or STATA to gain experience in secondary data analysis; from initial data base organization and cleaning through descriptive analysis and interpretation of the content. Topics such as proper data coding, the use of prenatal indices and an introduction to data linkage will be included.

**CPH716 PROSEMINAR IN OCCUPATIONAL HEALTH AND SAFETY. (0-1)**

This course will provide students, in a seminar format for 6 sessions during the semester, presentations from occupational health and safety professionals from a variety of disciplines and experiences. The seminar is 2.5 hours long at each session. Knowledge regarding workplace exposures and related health outcomes will be provided. Students should acquire basic understanding of current topics in the fields of occupational medicine, nursing, safety, industrial hygiene, epidemiology, biostatistics, mining, and agriculture.

**CPH718 SPECIAL TOPICS IN EPIDEMIOLOGY: (Subtitle required). (1-3)**

This course will engage in readings, projects, lectures and/or discussions to address current topics of special interest or concerns. May be repeated to a maximum of 6 semester hours. Prereq: Enrollment in a Public Health degree program or consent of instructor.

**CPH719 INDEPENDENT STUDIES IN EPIDEMIOLOGY. (1-3)**

Designed for advanced students with research or special study interests in Epidemiology. Students are under guidance and confer individually with faculty. May be repeated to a maximum of 6 semester hours. Prereq: Enrollment in a Public Health degree program or consent of instructor.

**CPH720 HEALTH OF AGRICULTURAL POPULATIONS. (3)**

Health of Agricultural Populations addresses the threats and hazards that impact the health, safety and productivity of farmers, members of farm families, hired farm workers, and others who live or work in agricultural environments, such as crop and livestock production, timber production and commercial fishing. This course offers analysis in selected issues of agricultural health and safety. Students will visit agricultural operation sites.

**CPH725 CLINICAL PREVENTIVE SERVICES. (3)**

Disease prevention and control have been recognized as more efficient and effective in extending the quality and quantity of human life. As a core part of the Preventive Medicine-Public Health Residency curriculum, this course will focus on up-to-date, clinically relevant information and cutting edge research results regarding clinical preventive medicine and public health issues. The primary focus of this course will be 1) evidence based preventive health care services, and 2) recommendations of the United States Preventive Services Task Force for screening and preventive health care services. Prereq: Permission of instructor.

**CPH728 SPECIAL TOPICS IN OCCUPATIONAL/ ENVIRONMENTAL HEALTH: (Subtitle required). (1-3)**

This course will engage students in reading, projects, lectures and/or discussions to address current topics of special interest or concerns. May be repeated to a maximum of 6 semester hours. Prereq: Enrollment in a Public Health degree program or consent of instructor.

**CPH729 INDEPENDENT STUDIES IN OCCUPATIONAL/ENVIRONMENTAL HEALTH. (1-3)**

Designed for students with research or special study interest in Occupational and Environmental Health. Structured activities with goals, objectives, and deliverables are designed with individual faculty. May be repeated to a maximum of 6 credit hours per semester. Prereq: Enrollment in a College of Public Health program or consent of instructor. This is a controlled enrollment course; see instructor for additional information.

**CPH738 SPECIAL TOPICS IN BIOSTATISTICS: (Subtitle required). (1-3)**

This course will engage students in readings, projects, lectures and/or discussions to address current topics of special interest or concerns. May be repeated to a maximum of 6 credit hours. Prereq: Enrollment in a Public Health degree program or consent of instructor.

**CPH739 INDEPENDENT STUDIES IN BIOSTATISTICS. (1-3)**

Designed for advanced students with research or special study interest in Biostatistics. Students are under guidance and confer individually with faculty. May be repeated to a maximum of 6 credit hours. Prereq: Enrollment in a Public Health degree program or consent of instructor.

**CPH740 INTRODUCTION TO MATERNAL AND CHILD HEALTH. (3)**

This course will acquaint students with the major issues and challenges of working in the area of maternal and child health. Prereq: UK graduate or professional school student status.

**CPH746 RESEARCH METHODS AND PROGRAM EVALUATION FOR HEALTH BEHAVIOR. (3)**

This course provides the student with basic knowledge about the design and analysis of research in the field of health promotion. The theory, design, applications, and analytic strategies used for various types of research are presented in a sequential format. Goals of the course include: 1) gaining the ability to critically evaluate research in health promotion practice, 2) achieving competence in research methodology, and 3) understanding the conceptual application of analytic techniques to data. This course also prepares second-year MPH students concentrating in Health Behavior to successfully construct and defend their capstone in April of the current academic year. Prereq: CPH 672 and CPH 643, or permission of instructor.

**CPH748 RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

**CPH752 LEADERSHIP IN HEALTH ORGANIZATIONS. (3)**

This course is designed to explore the dimensions of leadership as presented in both the traditional and contemporary literature. It focuses student understanding on their leadership qualities and the ways to apply them in the current public health environment.

**CPH754 HEALTH CARE ACCESS AND COVERAGE. (3)**

This course offered gives students a greater understanding of programs available to underserved populations, how the changes in the health care market impacts care provided to underserved populations, and policy and programmatic options to address the needs of underserved populations. Prereq: Graduate or post-baccalaureate student status.

**CPH755 LEADING CHANGE WITH HEALTHCARE TEAMS. (3)**

This course focuses on developing the skills necessary to successfully facilitate teams to achieve sustainable change in healthcare systems. The course introduces the foundations of change management, key features of successful teams and factors that lead to team failures; and specific behaviors and communications that enhance effective team interaction. By the end of this course you will have a better understanding of team dynamics and the tools of implementation with special emphasis on applications to improve healthcare quality, safety, satisfaction and efficiency. Prereq: Enrollment in a College of Public Health degree program or certificate program (or permission of instructor).

**CPH758 SPECIAL TOPICS IN HEALTH MANAGEMENT POLICY: (Subtitle required). (1-3)**

This course will engage students in readings, projects, lectures and/or discussions to address current topics of special interest or concerns. May be repeated to a maximum of 6 credit hours. Prereq: Enrollment in a Public Health degree program or consent of instructor.

**CPH759 INDEPENDENT STUDIES IN HEALTH MANAGEMENT POLICY. (1-3)**

Designed for students with research or special study interest in Health Services Management. Students must develop a prospectus that specifies goals, objectives, and deliverables with individual faculty. May be repeated to a maximum of 6 credit hours per semester. Prereq: Enrollment in a College of Public Health degree program or consent of instructor. This is a controlled enrollment course; contact instructor for additional information.

**CPH763 ETHICS FOR PUBLIC HEALTH. (3)**

The focus of this class is on applied ethics and its application to public health issues. In addition to examining current issues that might arise during the timeframe of the course, we will address the following: ethical frameworks, theories, and approaches; a unique public health ethics; social justice; ethics surrounding infectious diseases, including surveillance and control; health disparities; environmental and occupational health issues; genetics; smoking cessation; end-of-life issues; conundrums regarding vulnerable populations; public health research; and ethical leadership of public health organizations. Prereq: Enrollment in the MPH program or consent of instructor.

**CPH767 DISSERTATION RESEARCH CREDIT. (2)**

Students will enroll in this course to complete their research for their dissertation. Prereq: Approval of DGS.

**CPH768 RESIDENCY CREDIT FOR MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 credits. Prereq: All course work toward the degree must be completed.

## Course Descriptions

### **CPH 776 INTRODUCTION TO GLOBAL PUBLIC HEALTH. (3)**

This course will acquaint students with the major issues and challenges for public health in a variety of wealthy, emerging, and impoverished nations and with the impact of local or regional issues on national and/or global levels. Prereq: UK graduate or professional school student status.

### **CPH 778 SPECIAL TOPICS IN PUBLIC HEALTH: (Subtitle required). (1-3)**

This course will engage in reading, projects, lectures and/or discussions to address current topics of special interest or concern in public health. May be repeated to a maximum of 6 semester hours. Prereq: Enrollment in a Public Health degree program or consent of instructor.

### **CPH 779 INDEPENDENT STUDIES IN PUBLIC HEALTH. (1-3)**

Designed for advanced students with research or special study interests in Public Health. Students are under guidance and confer individually with faculty. May be repeated to a maximum of 6 semester hours. Prereq: Enrollment in a Public Health degree program or consent of instructor.

### **CPH 780 STRATEGIC PLANNING AND MARKETING IN HEALTHCARE. (3)**

This course focuses on the future needs of health care organizations as contrasted with day-to-day operations management. Strategies for the design and implementation of organizational change will be addressed. The strategic planning components of environmental analyses, directional strategy, gap analysis, strategic options, goals and objectives, and performance monitoring form the basis of the course. Current trends in health care delivery and financing, marketing and performance measurements are illustrated through case analysis. Prereq: Enrollment in a College of Public Health degree program or permission of instructor.

### **CPH 781 HEALTHCARE ETHICS AND GOVERNANCE. (2)**

This course addresses the basic concepts and principles of healthcare ethics, including the biomedical, managerial, and organizational components and applies them using case studies, role playing, and analytical exercises. The course also examines the roles and responsibilities of healthcare governing boards and factors that influence their effectiveness. Prereq: Enrollment in a College of Public Health degree program or permission of instructor.

### **CPH 782 INFORMATION SYSTEMS IN HEALTH CARE. (3)**

This course provides an overview of information systems and their use in healthcare organizations. Topics include the history of IT use, recent developments, continuing challenges and emerging opportunities. The role of the healthcare manager in information system planning, selection and implementation is stressed. Prereq: Enrollment in a College of Public Health degree program or permission of instructor.

### **CPH 783 APPLICATIONS IN HEALTHCARE FINANCE AND OPERATIONS. (3)**

An analysis of the healthcare industry's financial framework and operational issues applying insights from earlier coursework in realistic scenarios. Prereq: Enrollment in MHA Program.

### **CPH 784 CASE STUDIES IN HEALTH ADMINISTRATION. (2)**

This course builds on the concepts and techniques introduced in the MHA curriculum and integrates them with a decision making focus in a variety of healthcare problems and settings. Case analysis will be used extensively to develop an opportunity for the student to apply appropriate skills in an unstructured environment. Prereq: Enrollment in MHA program and completion of two semesters of course work.

### **CPH 785 HEALTH POLICY. (3)**

An analysis of the development and implementation of health policy on a national, state, local and organizational level. The course will focus on issue and policy analysis, formal and informal processes of policy development and the issues, values, and political and community factors affecting policy development and program implementation. Prereq: Enrollment in a College of Public Health degree program or permission of instructor.

### **CPH 786 DOCTORAL SEMINAR. (1)**

Students will attend colloquium sessions that will supplement the core curriculum with additional application. Prereq: Enrollment in the Ph.D. in Epidemiology and Biostatistics program.

### **CPH 787 INDEPENDENT STUDY IN HEALTH ADMINISTRATION. (1-3)**

Supervised individual research on a topic related to health administration selected by the student. May be repeated to a maximum of six credits. Prereq: Enrollment in MHA program.

### **CPH 788 SPECIAL TOPICS IN HEALTH ADMINISTRATION. (1-3)**

An analysis of selected issues with special significance for health administration. Prereq: Enrollment in MHA program.

### **CPH 790 WATER SANITATION AND HEALTH. (3)**

Prevention of water-related diseases by appropriate supply and sanitation practices with designs applicable to small systems and rural areas of developing nations. (Same as CE 655.)

### **CPH 841 ORIENTATION TO MEDICAL BEHAVIORAL SCIENCE. (1)**

This course offers a structural exposure of students to the varieties of basic and clinical science research and current issues in health care policy under discussion at the University Medical Center. Following weekly attendance at research seminars and clinical rounds, students will present their observations in follow-up discussion groups. May be repeated to a maximum of three credits. (Same as BSC 620.)

### **CPH 901 PUBLIC HEALTH DOCTORAL PROFESSIONAL COLLOQUIUM. (1)**

Seminar course designed as the integrative introduction, consideration, capstone for the Doctor of Public Health (Dr.P.H.) degree. Offered each semester of enrollment. Prereq: Admission to the Dr.P.H. program.

### **CPH 910 ADVANCED EPIDEMIOLOGY. (3)**

This course provides students with the understanding of advanced issues in the design, analysis, and interpretation of epidemiologic studies. The course text and associated readings will focus on study designs and the methodologic approaches to addressing bias, confounding, and error in the design of population-based health research. The development of a systematic approach for evaluating evidence from epidemiologic studies as it relates to demonstrating causality will be emphasized. Focusing on study design, measures of associations, confounding, interaction, sources of bias and error, the student will gain an understanding of epidemiology and its role in the medical and public health sciences. Prereq: Enrollment in the doctorate of public health degree program and CPH 605 or consent of instructor.

### **CPH 911 PROFESSIONAL SEMINAR IN EPIDEMIOLOGY. (3)**

Professional Seminar in Epidemiology is an advanced course in one of the five content areas of public health designed as the link between academic work in epidemiology and application in Public Health practice. Prereq: Admission to the Dr.P.H. program, completion of CPH 910, or approval of instructor.

### **CPH 920 ADVANCED ENVIRONMENTAL HEALTH. (3)**

This professional seminar in Environmental Health is designed to provide comprehensive coverage of the principles upon which the Environmental Health field relies. Prereq: Admission into the Dr.P.H. curriculum.

### **CPH 921 PROFESSIONAL SEMINAR IN ENVIRONMENTAL HEALTH. (3)**

Designed as the link between academic work in environmental health and application health practice, and to prepare the student for a leadership role in public health. Prereq: Admission to the Dr.P.H. program, completion of MPH/MSPH core or equivalent, or approval of instructor.

### **\*CPH 930 BIostatistics CONCEPTS FOR THE PUBLIC HEALTH PRACTITIONER. (3)**

This course covers topics relating to applications of biostatistics in public health. It provides a conceptual introduction to statistical methods commonly used in public health practice. Topics include data visualization, summary statistics, statistical testing, estimation, confounding, and an introduction to regression (linear, logistic, proportional hazards). Prereq: Good standing in the DrPH program.

### **CPH 931 PROFESSIONAL SEMINAR IN BIostatISTICS. (3)**

Designed as the link between academic work in biostatistics and application in public health practice; and to prepare the student for a leadership role in public health. Prereq: Admission to the Dr.P.H. program, CPH 930, or approval of instructor.

### **CPH 940 HEALTH-RELATED BEHAVIORS: MODELS AND APPLICATIONS. (3)**

This course evaluates the use of models of health on related behavior and their applications for intervention in public health problems. Prereq: Admission to the Dr.P.H. program, completion of MPH/MSPH core or equivalent, or approval of instructor.

### **CPH 941 PROFESSIONAL SEMINAR IN HEALTH ENHANCEMENT. (3)**

Designed as the opportunity to link academic work in health enhancement with application in public health practice and to prepare the student for a leadership role in public health. Prereq: Admission to the Dr.P.H. program, CPH 940, or approval of instructor.

### **CPH 942 SEMINAR IN PUBLIC HEALTH COMMUNICATION. (3)**

This seminar in Public Health Communication is intended to acquaint students with theory and current research related to communication in public health settings. It is designed to provide insight into the communication that serves as the lifeblood of the organized institutions which promote public health. Those who wish to have a significant role in the management of public health practitioners, improve their understanding of organizations, understand how groups and individuals fit into the larger mission, need to apply advanced information and communication technologies, and desire to become more effective communicators will find this course worthwhile. This course is primarily designed to give students a background in theories, perspectives, concepts, and approaches to understanding communication. Thus, it seeks to promote student understanding, analytical skills, and critical thinking necessary for such professions as consulting, research, and management and for their own personal development.

### **CPH 949 DOCTORAL CAPSTONE RESEARCH. (0)**

This course will allow Dr.P.H. students to remain in a full-time enrollment status at the University of Kentucky while working on their doctoral capstone. Enrollment is restricted and by special permission only; students may only register for this course after all for-credit course work has been completed.

### **CPH 950 WELL MANAGED PUBLIC HEALTH CARE ORGANIZATION. (3)**

The Well Managed Public Health Care Organization is an advanced course addressing effective senior management of public and private organizations focusing upon public health. Prereq: Admission to the Dr.P.H. program, completion of MPH/MSPH core or equivalent, or approval of instructor.

**CPH951 PROFESSIONAL SEMINAR IN PUBLIC HEALTH MANAGEMENT AND PRACTICE.** (3)

Designed to link academic work in public health management with application in public health practice, and to prepare the student for a leadership role in public health. Prereq: Admission to the Dr.P.H. program, CPH 950, or approval of instructor.

**CPH952 SEMINAR IN ADVANCED LEADERSHIP.** (3)

This course provides the opportunity to link academic work in public health leadership with application in public health practice and to prepare the learner for a leadership role in public health. This will be accomplished through readings, case studies, exercises, and individual research relevant to the disciplines of the profession of public health and leadership. Prereq: Enrollment as a Dr.P.H. student or permission of the instructor.

**CPH 953 SEMINAR IN ETHICAL AND MORAL DECISION-MAKING.** (3)

This course provides the opportunity to link academic work in public health decision-making with its application to public health practice and to prepare the learner for the practice of public health decision-making based on ethical and moral principles. This will be accomplished through readings, case studies, exercises, and individual research relevant to the disciplines of the profession of public health decision-making. The period of Nazi Germany 1933-1945 will compose the underlying case study. The seminar will consider in depth the decisions made by Nazi political and military leaders, citizens, religious leaders, concentration camp commanders, guards, and prisoners, physicians, scientists and business leaders. Films will be used extensively in the seminar. Prereq: Enrollment as a Dr.P.H. student or permission of the instructor.

**CPH954 SEMINAR IN ADVANCED PUBLIC HEALTH FINANCE AND ECONOMICS.** (3)

This course provides the opportunity to link academic work in public health finance and economics with application in public health practice and to prepare the learner for key leadership roles in public health. This will be accomplished through readings, case studies, exercises, and individual research relevant to the disciplines of the profession of public health finance and economics. Prereq: Enrollment as a Dr.P.H. student or permission of instructor and approval of the Associate Dean for Admissions and Student Affairs.

**CPH956 PROGRAM EVALUATION FOR PUBLIC HEALTH PROFESSIONALS AND LEADERS.** (3)

This course is designed to provide Dr.P.H. students the knowledge and skills to guide and critically review program evaluations in their roles as public health professionals and leaders. The course focuses on providing an overview of the key concepts, methods, and approaches to program evaluation with an emphasis on public health practice. Topics include approaches to program evaluation, defining evaluation questions, managing an evaluation, program evaluation standards, program evaluation designs, reporting and disseminating results and findings, and political issues of evaluation. Prereq: Enrollment as a Dr.P.H. student or by permission of the instructor.

**#CPH957 HEALTH OUTCOMES RESEARCH: DESIGN, MEASUREMENT, AND ANALYSIS.** (3)

This course explores how to plan and conduct rigorous health outcomes research studies at the clinic and population levels. Students will learn how to formulate health outcomes research questions, design a study to investigate selected research questions, evaluate the validity and reliability of health outcomes measures, and identify appropriate statistical analyses. Prereq: Doctoral student standing or consent of instructor is required.

**CPH960 BIOLOGY OF AGING.** (3)

This course will focus on the recognition and discussion of the outcomes of biological changes in terms of the effects of aging on the individual's physical and psychosocial systems. It will be organized utilizing a systems approach to presentations, class discussions, class readings and on-line discussions. Prereq: Enrollment as a Dr.P.H. student or by permission of the instructor.

**CPH961 A STUDY OF THE OLDER PERSON.** (3)

An increasing elderly population during this century has created a variety of pressing social issues. Underscoring such issues is a long-standing cultural view of elders as a homogenous group of people who are "different" from younger labor force participants, a view that has resulted in pervasive "ageism" – the collection of attitudes and practices that may reflect discrimination against elders. A properly informed public is necessary to combat ageism and establish sound economic, social, cultural and health care policies that successfully encompass all ages of society. Gerontology is a field of study designed to provide knowledge and a sound database for dealing with present and future issues of aging and the older population, especially within the realm of public health. This course has been designed to give students pursuing a Dr.P.H. with a concentration in gerontology a broad yet comprehensive graduate-level introduction to the field and to the experience of an older individual that will provide a solid foundation for subsequent courses, and more importantly, personal scholarly development in the program. An array of topics and themes will be presented to adequately represent the multidisciplinary nature of gerontology. Through critical examination of such topics and themes the learner will gain a conceptual foundation for developing effective skills in interdisciplinary inquiry. Prereq: Enrollment as a Dr.P.H. student or by permission of the instructor.

**CPH993 PROFESSIONAL SEMINAR IN FOUNDATIONS OF PUBLIC HEALTH PRACTICE.** (3)

A culminating experience professional seminar linking evidence-based academic work in public health with the foundations of practice. A fundamental part of the course is to prepare the learner for a community advocacy role in public health using skill sets found in critical analysis and leadership. Prereq: All 9X0 and 9X1 courses in the Dr.P.H. program.

**CPH994 PROFESSIONAL SEMINAR IN LEADING PEOPLE – MANAGING CHANGE.** (3)

A culminating experience professional seminar linking academic work in public health leadership, management and ethics with application to public health practice and preparing learners for a leadership role in public health. Prereq: All five 9X0 and three 9X1 courses in the Dr.P.H. program.

**CPH995 DOCTORAL SEMINAR IN PUBLIC HEALTH RESEARCH METHODS.** (3)

A survey course in a seminar style covering both classical and recent literature in public health services, including description and critique of research. Prereq: HSM 601/CPH 602, STA 570 or 580, and admission to the Dr.P.H. program or post-doctoral fellowship; or consent of instructor.

**CPH996 PUBLIC HEALTH PROJECT OR DISSERTATION RESEARCH.** (1-12)

Public health project or dissertation research for residency credit. To be repeated unlimited. Prereq: Completion of the Dr.P.H. Determinative Examination.

**CPH997 DOCTORAL PUBLIC HEALTH FIELD PRACTICUM.** (2-4)

Required public health field work is the integrative component of the curriculum and an opportunity to apply and test didactic learning. May be repeated twice. Laboratory, eight to sixteen hours per week. Prereq: Admission to the Dr.P.H. program, completion of MPH/MSPH core or equivalent, second year status, or approval of instructor.

**CPH998 SPECIAL TOPICS IN PUBLIC HEALTH (Subtitle required).** (1-4)

Designed to address contemporary topics of significance in the field of public health as well as the study of specific topics and problems. May be repeated three times. Prereq: Admission to the Dr.P.H. program, consent of instructor.

**CPH999 DIRECTED STUDIES IN PUBLIC HEALTH.** (1-4)

Study and research on contemporary and specific topics and problems of significance to the field of public health, and the interests of individual students. May be repeated to a maximum of six hours. Prereq: Admission to the Dr.P.H. program, consent of instructor.

---

**CS Computer Science**

---

**CS 100 THE COMPUTER SCIENCE PROFESSION.** (1)

An introductory seminar which covers the fundamental activities, principles, and ethics of the computer science profession. An overview of the discipline of computer science, examples of careers, the history of computing and experience with elementary computing tools are included.

**CS 101 INTRODUCTION TO COMPUTING I.** (3)

An introduction to computing and its impact on society from a user's perspective. Topics include computation using spreadsheets, beautification using text formatters and word processors, information management with database managers, and problem solving through program design and implementation using a simple programming language. Not open to students who have received credit for higher level computer science courses.

**CS 115 INTRODUCTION TO COMPUTER PROGRAMMING.** (3)

This course teaches introductory skills in computer programming using a high-level computer programming language. There is an emphasis on both the principles and practice of computer programming. Covers principles of problem solving by computer and requires completion of a number of programming assignments.

**CS 215 INTRODUCTION TO PROGRAM DESIGN, ABSTRACTION, AND PROBLEM SOLVING.** (4)

The course covers introductory object-oriented problem solving, design, and programming engineering. Fundamental elements of data structures and algorithm design will be addressed. An equally balanced effort will be devoted to the three main threads in the course: concepts, programming language skills, and rudiments of object-oriented programming and software engineering. Prereq: EGR 102 or CS 115 or equivalent.

**CS 216 INTRODUCTION TO SOFTWARE ENGINEERING TECHNIQUES.** (3)

Implementation of large programming projects using object-oriented design techniques and software tools in a modern development environment. Software engineering topics to include: life cycles, metrics, requirements specifications, design methodologies, validation and verification, testing, reliability and project planning. Prereq: CS 215.

**CS 221 FIRST COURSE IN COMPUTER SCIENCE FOR ENGINEERS.** (2)

Characteristics of a procedure-oriented language; description of a computer as to internal structure and the representation of information; introduction to algorithms. Emphasis will be placed on the solution of characteristic problems arising in engineering. Prereq: Not open to students who have received credit for EGR 102 or CS 115.

**CS261 SOCIAL NETWORKS: METHODS AND TOOLS. (3)**

The complex connectedness of the modern society is a multifaceted phenomenon resulting from the growing density of the human population, the advent of fast global mass transportation infrastructure, the emergence of global companies and markets, and spurred by the Internet and its applications such as the Web, Facebook and Twitter. In this course, we learn about graph theory, game theory and computational tools required to model and analyze social networks, matching markets, web search, network externalities, tipping points, information cascades, epidemics, small worlds, and voting schemes. The course requires no programming background and has no university-level prerequisites.

**CS270 SYSTEMS PROGRAMMING. (3)**

This course provides an introduction to computer systems and explores computer architecture, operating systems, and networks from a programmer's perspective. The course also introduces advanced programming and debugging tools. Topics include hardware instruction sets, machine language and C language program representations, linking/loading, operating systems (process management, scheduling, memory management, interprocess communication, and file systems), network programming (socket programming and web protocols), and common security attacks and solutions. Prereq: CS 216; coreq: EE 280.

**CS275 DISCRETE MATHEMATICS. (4)**

Topics in discrete math aimed at applications in Computer Science. Fundamental principles: set theory, induction, relations, functions, Boolean algebra. Techniques of counting: permutations, combinations, recurrences, algorithms to generate them. Introduction to graphs and trees. Prereq: MA 113 and either EGR 102 or CS 115.

**CS315 ALGORITHM DESIGN AND ANALYSIS. (3)**

Introduction to the design and analysis of algorithms. Asymptotic analysis of time complexity. Proofs of correctness. Algorithms and advanced data structures for searching and sorting lists, graph algorithms, numeric algorithms, and string algorithms. Polynomial time computation and NP-completeness. Prereq: CS 215, CS 275, and engineering standing.

**CS316 WEB PROGRAMMING. (3)**

This course introduces students to the World Wide Web, languages and techniques used for web programming, data transfer over the Internet, and the tools available in the web environment. Prereq: CS 216.

**CS321 INTRODUCTION TO NUMERICAL METHODS. (3)**

Floating point arithmetic. Numerical linear algebra: elimination with partial pivoting and scaling. Polynomial and piecewise interpolation. Least squares approximation. Numerical integration. Roots of nonlinear equations. Ordinary differential equations. Laboratory exercises using software packages available at computer center. Prereq: MA 114 and knowledge of a procedural computer language is required. (Same as MA 321.)

**CS335 GRAPHICS AND MULTIMEDIA. (3)**

This course focuses on the graphical human-machine interface, covering the principles of windowing systems, graphical interface design and implementation, and processing graphical data. There is an emphasis on medium-scale programming projects with graphical user interfaces using a high-level procedural programming language and concepts such as object-oriented design. Prereq: CS 216 and engineering standing.

**CS340 APPLICABLE ALGEBRA. (3)**

Topics include: Euclid's algorithm, unique factorization moduli arithmetic, Fermat's and Euler's theorems, Chinese remainder theorem, RSA public key encryption, Pollard rho factoring, pseudo primes, error correcting codes, Hamming codes, polynomial rings and quotient rings, field extensions, finite fields and BCH codes. Prereq: MA 322 or MA 213. (Same as MA 340.)

**CS371 INTRODUCTION TO COMPUTER NETWORKING. (3)**

Introduction to the principles and concepts of the Internet; data communications and digital channel characteristics; networking applications and protocols, client-server paradigm and network programming; reliable data transfer, end-to-end transport; addressing, forwarding and routing, datagram networks; media access control, data link control; selected topics from cloud computing, network security and network management. Concepts are combined with programming and other hands-on assignments to enhance the learning of these topics. Prereq: CS 270, CS 315.

**CS375 LOGIC AND THEORY OF COMPUTING. (3)**

Topics in logic and discrete math aimed at applications in Computer Science. Propositional calculus: truth tables, logical relations, proofs, tautologies, soundness. Predicate calculus: variables, quantifiers, equivalencies. Models of computation: logic circuits, finite automata, Turing machines. Prereq: MA 113, CS 215, CS 275 and engineering standing.

**CS378 INTRODUCTION TO CRYPTOLOGY. (3)**

The study of secrecy in digital systems. Methods of keeping information secure from classical systems dating from ancient times to modern systems based on modern mathematics. Basic methods of encryption using public key systems, block ciphers, and stream ciphers. The mathematical tools for the design and analysis of such systems. Topics will include classical cryptography, modern methods of public and private key encryption, authentication and digital signatures, hashing, and passwords. Number theory, abstract algebra, combinatorics, and complexity theory necessary for the design and analysis of cryptographic systems. Prereq: CS 315 and STA 281, or instructor's consent.

**CS380 COMPUTER ORGANIZATION. (3)**

Hardware and software organization of a typical computer; machine language and assembler language programming, interfacing peripheral devices, and input-output programming; real-

time computer applications, laboratory included. Prereq: Engineering standing, CS 215 and EE/CPE 282 or EE 280. (Same as CPE/EE 380.)

**CS383 INTRODUCTION TO EMBEDDED SYSTEMS. (3)**

A course in the hardware and software of microprocessors. Assembly language programming, address decoding, hardware interrupts, parallel and serial interfacing with various special purpose integrated circuits. Each student is expected to do homework assignments using microprocessor hardware. Prereq: EE 280 and EE/CS 380. (Same as EE 383.)

**CS395 INDEPENDENT WORK IN COMPUTER SCIENCE. (1-3)**

A course that provides an opportunity for supervised individual research and study in computer science. A topic of the course must be approved by a supervising instructor and the Computer Science Director of Undergraduate Studies. May be repeated to a maximum of six credits. Prereq: Consent of the Computer Science Department.

**CS405G INTRODUCTION TO DATABASE SYSTEMS. (3)**

Study of fundamental concepts behind the design, implementation and application of database systems. Brief review of entity-relationship, hierarchical and network database models and an in-depth coverage of the relational model including relational algebra and calculi, relational database theory, concepts in schema design and commercial database languages. Prereq: CS 315 and graduate or engineering standing.

**CS415G COMBINATORICS AND GRAPH THEORY. (3)**

A basic course in the theory of counting and graph theory. Topics in enumerative combinatorics may include: generating functions, compositions, partitions, Fibonacci numbers, permutations, cycle structure of permutations, permutations statistics, Stirling numbers of the first and second kind, Bell numbers, inclusion-exclusion. Topics in graph theory may include: Eulerian and Hamiltonian cycles, matrix tree theorem, planar graphs and the 4-color theorem, chromatic polynomial, Hall's marriage theorem, stable marriage theorem, Ramsey theory, electrical networks. Prereq: MA 213 or MA 322. (Same as MA 415G.)

**CS416G INTRODUCTION TO OPTIMIZATION. (3)**

The course is an introduction to modern operations research and includes discussion of modeling, linear programming, dynamic programming, integer programming, scheduling and inventory problems and network algorithms. Prereq: MA 213 and MA 322 (or equivalent classes), or graduate student status, or consent of the department. (Same as MA 416G.)

**CS422 NUMERICAL SOLUTIONS OF EQUATIONS. (3)**

Linear equations: Gaussian elimination, special linear systems, orthogonalization, eigenproblem, iterative methods. Nonlinear equations: solutions of equations in one variable, solutions of systems of nonlinear equations. Optimization. Prereq: CS/MA 321 and MA 322; or consent of instructor. (Same as MA 422.)

**CS441G COMPILERS FOR ALGORITHMIC LANGUAGES. (3)**

The techniques of processing, specifying, and translating high-level computer languages are studied. Topics include finite state machines and lexical analysis, context-free grammars for language specification, attributed translation grammars, language parsing, and automatic generation of compilers by SLR, LALR, and other methods of analyzing context-free grammars. Other topics may include code optimization, semantics of programming languages, and top-down parsing. Prereq: CS 315 and engineering standing.

**CS450G FUNDAMENTALS OF PROGRAMMING LANGUAGES. (3)**

An intensive study of fundamental programming concepts exhibited in current high level languages. Concepts include recursion, iteration, coroutines, multiprocessing, backtracking, pattern-matching, parameter passing methods, data structures, and storage management. Typical languages studied are SNOBOL, LISP, PASCAL, and APL. Prereq: CS 370. Restricted to computer science and electrical engineering majors. Others by permission.

**CS460G MACHINE LEARNING. (3)**

Study of computational principles and techniques that enable software systems to improve their performance by learning from data. Focus on fundamental algorithms, mathematical models and programming techniques used in Machine Learning. Topics include: different learning settings (such as supervised, unsupervised and reinforcement learning), various learning algorithms (such as decision trees, neural networks, k-NN, boosting, SVM, k-means) and crosscutting issues of generalization, data representation, feature selection, model fitting and optimization. The course covers both theory and practice, including programming and written assignments that utilize concepts covered in lectures. Prereq: Strong programming ability (CS 315), basic probability and statistics (STA 281), and basic concepts of linear algebra (MA/CS 321 or MA/CS 322), or instructor's consent.

**CS463G INTRODUCTION TO ARTIFICIAL INTELLIGENCE. (3)**

The course covers basic techniques of artificial intelligence. The topics in this course are: search and game-playing, logic systems and automated reasoning, knowledge representation, intelligent agents, planning, reasoning under uncertainty, and declarative programming languages. The course covers both theory and practice, including programming assignments that utilize concepts covered in lectures. Prereq: CS 315, CS 375, and engineering standing.

**CS470G INTRODUCTION TO OPERATING SYSTEMS. (3)**

This course provides an introduction and overview of operating system design, internals, and administration. Topics include classical operating systems (process management, scheduling, memory management, device drivers, file systems), modern operating systems concepts (kernel/microkernel designs, concurrency, synchronization, interprocess communication, security and protection), and operating system administration. Prereq: CS 315, CS 380, and graduate or engineering standing.

**CS 471G NETWORKING AND DISTRIBUTED OPERATING SYSTEMS.****(3)**

Broad overview of concepts in networking and distributed operating systems with examples. Topics will include protocol stacks, link, network, transport, and application layers, network management, the client-server model, remote procedure calls, and case studies of distributed OS and file systems. Prereq: CS 315 and graduate or engineering standing.

**CS 480G ADVANCED COMPUTER ARCHITECTURE.****(3)**

This course focuses on advanced computer architectures and low-level system software. Topics include RISC architectures, vector and multiprocessor architectures, multiprocessor memory architectures, and multiprocessor interconnection networks. Peripheral devices such as disk arrays, NICs, and video/audio devices are covered. Topics also include device drivers, interrupt processing, advanced assembly language programming techniques, assemblers, linkers, and loaders. Prereq: CPE/CS/EE 380. (Same as CPE/EE 480.)

**CS 485G TOPICS IN COMPUTER SCIENCE (Subtitle required).****(2-4)**

Studies of emerging research and methods in computer science. A review and extension of selected topics in the current literature. When the course is offered, a specific title with specific credits, the number of hours in lecture-discussion and laboratory will be announced. Lecture/discussion, two-four hours; laboratory, zero-four hours per week. May be repeated up to the discretion of the department.

**CS 498 SOFTWARE ENGINEERING FOR SENIOR PROJECT.****(3)**

Current approaches—practice and technologies—for developing reliable software: specifications, testing, and verification. Individual and team assignments focused on applying these approaches to software systems. A significant communication and composition component related to specifying, designing, presenting, and documenting software systems. Prereq: CS 115, 215, 216.

**CS 499 SENIOR DESIGN PROJECT.****(3)**

Projects to design and implement complex systems of current interest to computer scientists. Students will work in small groups. Prereq: CS 315 and engineering standing. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

**CS 505 INTERMEDIATE TOPICS IN DATABASE SYSTEMS.****(3)**

The course introduces a variety of modern techniques in database and distributed database systems. The major topics include, but are not limited to: object-oriented database systems; distributed, heterogeneous and web-based databases; knowledge based systems; physical database design; and security. The course covers a variety of methods that allow for a solution of database problems where the traditional relational database techniques are not viable or not sufficient. Prereq: CS 405 or consent of instructor.

**CS 515 ALGORITHM DESIGN.****(3)**

The design and analysis of efficient algorithms on data structures for problems in sorting, searching, graph theory, combinatorial optimization, computational geometry, and algebraic computation. Algorithm design techniques: divide-and-conquer, dynamic programming, greedy method, and randomization, approximation algorithms. Prereq: CS 315 and engineering standing.

**CS 521 COMPUTATIONAL SCIENCES.****(3)**

Study of computer science techniques and tools that support computational sciences and engineering. Emphasis on visualization, performance evaluation, parallel computing, and distributed computing. Prereq: Either EGR 102 or CS 115, and CS 380/EE 380 and engineering standing.

**CS 522 MATRIX THEORY AND NUMERICAL LINEAR ALGEBRA I.****(3)**

Review of basic linear algebra from a constructive and geometric point of view. Factorizations of Gauss, Cholesky and Gram-Schmidt. Determinants. Linear least squares problems. Rounding error analysis. Stable methods for updating matrix factorizations and for linear programming. Introduction to Hermitian eigenvalue problems and the singular value decomposition via the QR algorithm and the Lanczos process. Method of conjugate gradients. Prereq: MA 322. (Same as MA 522.)

**CS 535 INTERMEDIATE COMPUTER GRAPHICS.****(3)**

Three-dimensional graphics primitives such as 3D viewing, lighting, shading, hidden line/surface removal, and more advanced topics such as solid modeling, image storage and representation, advanced raster graphics architecture and algorithms, advanced modeling techniques, and animation will be covered. Prereq: CS 335, CS 315, CS 321, and engineering standing.

**CS 536 SITUATED COMPUTING.****(3)**

This course covers the fundamental concepts involved in understanding and engineering a closed-loop, sensing, reasoning, and actuating agent. Biological models of sensing and actuation will be discussed and related to modern artificial counterparts. The course consists of three major topic areas: vision, brain, and robotics. It will introduce students to the issues in computer and biological vision, to models of belief representation and modification, architectures for percept processing and reasoning, machine learning for vision, neural networks, path planning, intelligent localization based on visual cues, and to forward and inverse kinematics, intelligent grasping, and the integration of perception and action. Prereq: CS 460G or consent of instructor.

**CS 537 NUMERICAL ANALYSIS.****(3)**

Floating point arithmetic. Direct methods for the solution of systems of linear algebraic equations. Polynomial and piecewise polynomial approximation, orthogonal polynomials.

Numerical integration: Newton Cotes formulas and Gaussian quadrature. Basic methods for initial value problems for ordinary differential equations. The emphasis throughout is on the understanding and use of software packages for the solution of commonly occurring problems in science and engineering. Prereq: CS/MA 321 or equivalent or graduate standing or consent of instructor. Knowledge of a procedural computer language is required. (Same as EGR/MA 537.)

**CS 541 COMPILER DESIGN.****(3)**

Intermediate aspects of a compilation process with an emphasis on front-end issues. Practical issues in using compiler writing tools. Code generation for expressions, control statements and procedures (including parameter passing). Symbol tables, runtime organization for simple and structured variables. Using compilers and translators for automation (filters, programs writing programs). Prereq: CS 441 or consent of instructor.

**CS 555 DECLARATIVE PROGRAMMING.****(3)**

The course covers fundamentals of propositional and predicate logic, and their uses in declarative programming to model and solve computational problems. Topics include propositional satisfiability, satisfiability testing techniques such as the DPLL algorithm, automated reasoning techniques for predicate logic such as resolution with unification and logic programming. Prereq: CS 315 and CS 375 or consent of instructor.

**CS 564 COMPUTER SECURITY.****(3)**

This course will introduce students to the basics of computer and software security. It will expose students to topics such as cryptography, secure hash functions, access control models, audit of computer systems, attacks on computer systems and countermeasures, elements of computer forensics, and elements of database and network security. Prereq: CS 270 or EE 287 or consent of the instructor.

**CS 570 MODERN OPERATING SYSTEMS.****(3)**

Brief review of classical operating system concepts (process and memory management, process coordination, device drivers, file systems, starvation/deadlock). Modern topics of files systems (log-structured file systems, distributed file systems, memory-based file systems), operating system design (monolithic, communication-kernel, extensible/adaptable, distributed shared memory), multiprocessor issues (scheduling, synchronization, IPC), security (internet attacks, encryption, defenses). Inspection and modification of actual operating system code (Linux). Prereq: CS 470 and engineering standing.

**CS 571 COMPUTER NETWORKS.****(3)**

Principles of computer networks using current Internet technologies and protocols as examples. Routing algorithms and protocols; end-to-end transport; flow control; congestion avoidance and control; mail, web, and file transfer protocols; designing and implementing applications using common network APIs. Advanced topics, included as time permits, include network security, multicast, and quality of service. Prereq: CS 471G or consent of instructor.

**CS 572 NETWORK SECURITY.****(3)**

This course introduces students to the state of the art of network security problems and solutions. Topics include security issues in computer networks, the Public Key Infrastructure ecosystem, key exchange protocols, and security mechanisms and protocols at the application, transport, network and data link layers. It will also discuss up-to-date development in the field of network security. Prereq: CS 270 or EE 287 or consent of the instructor.

**CS 575 MODELS OF COMPUTATION.****(3)**

The formal study of computation, including computability and computation with limited resources. Church's thesis and models of computation. Formal languages and machines as recognizers of languages. The Chomsky Hierarchy of language types. Topics may include Turing machines or other basic models of computation; decidability and undecidability; basic complexity theory; finite automata and regular languages; pushdown automata and context-free languages. The course will cover primarily theory, including assignments that utilize concepts covered in lectures. Prereq: CS 375 and engineering standing, or consent of instructor.

**CS 585 INTERMEDIATE TOPICS IN COMPUTER SCIENCE (Subtitle required).****(3)**

Topics to be selected by staff. May be repeated to a maximum of six credits, but only three credits may be earned by a student under the same topic. Prereq: Restricted to computer science and electrical engineering majors. Others by permission.

**CS 587 ADVANCED EMBEDDED SYSTEMS.****(3)**

An advanced course in the design of embedded systems using state-of-the-art microcontroller hardware and software development tools. Topics include architecture support for real-time operating systems, language support for embedded and real-time processing, embedded and wireless networking. Prereq: EE/CPE 580 and engineering standing or consent of instructor. (Same as EE/CPE 587.)

**CS 610 MASTER'S PROJECT.****(3)**

Design and implementation of a large computing project under the supervision of a member of the graduate faculty. Prereq: Satisfactory completion of the departmental foundational examinations.

**CS 611 RESEARCH IN COMPUTER SCIENCE.****(1-9)**

Doctoral students conduct research work in computer science under supervision of a faculty member from the Department of Computer Science. May be repeated to a maximum of 4 semesters. Prereq: 36 credit hours of graduate course work in computer science and approval of the Departmental Committee on Higher Degrees.

**CS612 INDEPENDENT WORK IN COMPUTER SCIENCE. (1-3)**

Reading course for graduate students in computer science. May be repeated to a maximum of nine credits. Prereq: Overall standing of 3.0, and consent of instructor.

**CS616 SOFTWARE ENGINEERING. (3)**

This course provides an overview of the software engineering discipline: software requirements, software design, software construction, software management, and software quality. Testing and validation techniques will be emphasized throughout the course. Programs and program fragments will be developed and studied throughout the course to illustrate specific problems encountered in the lifecycle development of software systems. Prereq: At least nine hours of graduate computer science courses.

**CS617 REQUIREMENTS ENGINEERING. (3)**

The course examines the requirements phase of the Systems Engineering and Software Engineering lifecycles in detail. Topics include: requirements elicitation, requirements specification, and requirements analysis. Verification and validation techniques are emphasized throughout the course. Students work in small groups to research and present a related topic. Prereq: Nine hours of graduate study.

**CS618 SOFTWARE DESIGN. (3)**

This course provides an overview of the software design field: software design overview, software design process, a survey of software design method (such as structured design methods, object-oriented design methods, concurrent design methods), design reviews, as well as discussing current topics such as aspect-oriented programming, refactoring, and design patterns. Testing and validation techniques are emphasized through the course. Program designs are developed and validated throughout the course. Readings and summaries of current and seminal journal papers and texts are required. Prereq: Nine hours of graduate study.

**CS621 PARALLEL AND DISTRIBUTED COMPUTING. (3)**

This course provides graduate students in computer science and in other fields of science and engineering with experience of parallel and distributed computing. It gives an overview of parallel and distributed computers, and parallel computation. The course addresses architectures, languages, environments, communications, and parallel programming. Emphasis on understanding parallel and distributed computers and portable parallel programming with MPI. Prereq: Two 500 level CS courses, or consent of the instructor.

**CS622 MATRIX THEORY AND NUMERICAL LINEAR ALGEBRA II. (3)**

Numerical solution of matrix eigenvalue problems and applications of eigenvalues. Normal forms of Jordan and Schur. Vector and matrix norms. Perturbation theory and bounds for eigenvalues. Stable matrices and Lyapunov theorems. Nonnegative matrices. Iterative methods for solving large sparse linear systems. Prereq: MA 522 or equivalent. (Same as MA 622.)

**CS623 PARALLEL ITERATIVE COMPUTING. (3)**

The course will present advanced computational science techniques needed to support large scale engineering and scientific computations. Emphasis on iterative methods for solving large sparse linear systems and parallel implementations of iterative techniques. Prereq: CS 537 or consent of the instructor.

**CS626 LARGE SCALE DATA SCIENCE. (3)**

This course will offer an opportunity for students to learn big data techniques and apply them to tackle real-world data science challenges (e.g., processing, storing, querying, exploring, and mining big data). Topics include big data systems and programming models, parallel computing framework, scalable data management and processing solutions, scalable data mining techniques for large datasets, and advanced applications. Prereq: CS 505 or consent of the instructor.

**CS630 FREE-FORM SOLID MODELING. (3)**

This course covers the path from a conceptual vision of a shape to a concrete computer-based description that is suitable for manufacturing. It covers various solids modeling techniques, including volume representations, boundary representations, instantiation and Boolean combinations of shapes, and procedural generation such as sweeps. It discusses effective data structures and consistent and unambiguous part description formats to transfer a shape from a designer to a fabrication house, as well as problems with maintaining unambiguous topology in the presence of finite-precision geometry. Prereq: CS 535 or consent of instructor.

**CS631 COMPUTER-AIDED GEOMETRIC DESIGN. (3)**

Overview of current concepts and issues in CAGD with emphasis on free-form surface design; mathematics of free-form curve and surface representations, including Coons patches, Gregory patches, Bezier method, B-splines, NURBS, triangular interpolants, and their geometric consequences; creating objects with smooth surfaces, covering assembling spline patches, geometric and parametric continuity, texture mapping onto complex shapes, subdivision surfaces, surface evolution, and global optimization. Prereq: CS 535 and CS 321, or consent of instructor.

**CS633 3D COMPUTER ANIMATION. (3)**

This course covers the underlying principles and techniques of 3D computer animation. The topics covered include (1) modeling: the process of building the forms that will be animated, (2) rendering: the process of defining how the final picture in the model will look, (3) animation techniques: the process of creating in-between frames and keyframes, (4) compositing and special effects: the process of assembling various pieces of an image to get special two-dimensional effects, and (5) recording: the principles and techniques involved in putting animation frames onto film or video. Prereq: CS 335 or CS 535, or consent of instructor.

**CS634 MULTIMEDIA SYSTEMS. (3)**

This course covers fundamental techniques in multimedia systems for capturing, managing, accessing and delivering digital media over local, wide-area and wireless network technology.

The core topics will emphasize the digital media (images, video, audio) and the algorithms to generate, store, access and process it. Network concepts will be presented at a high level only. Prereq: CS 335 or consent of instructor.

**CS 635 IMAGE PROCESSING. (3)**

The course outlines applications of image processing and addresses basic operations involved. Topics covered include image perception, transforms, compression enhancement, restoration, segmentation, and matching. Prereq: Graduate standing and consent of instructor. (Same as EE 635.)

**CS 636 COMPUTER VISION. (3)**

This course covers digital image processing as well as advanced topics in computer vision. Initial topics include image formation, digital filtering, sensor modeling and feature detection techniques. The course will discuss how these algorithms are used to address general computer vision problems including three-dimensional reconstruction, scene understanding, object recognition, and motion analysis. Prereq: CS 536 or consent of instructor.

**CS 637 EXPLORING VIRTUAL WORLDS. (3)**

This course covers a mixture of core techniques related to systems for constructing and modeling virtual environments, such as model-building, image-based rendering, head-mounted hardware, stereo image generation, head-tracking, and immersive display technology. The core topics will be presented using textbooks and papers from the current literature. A substantial group project will provide hands-on experience with the concepts, algorithms and technology. Prereq: CS 335 and CS 635.

**CS 642 DISCRETE EVENT SYSTEMS. (3)**

The objective of the course is to prepare students for research in the field of supervisory control of discrete event systems (DES's). Logical models, supervising control. Stability and optimal control of DES, complexity analysis and other related research areas will be covered. Prereq: Graduate standing or consent of instructor. (Same as EE 642.)

**CS655 PROGRAMMING LANGUAGES. (3)**

Overview of programming-language styles: imperative, functional, declarative, object-oriented, concurrent, simulation, glue. Non-local referencing environments, combinatorial control structures (backtracking, coroutines), higher-order types, lazy/eager evaluation. This course looks at features, not complete languages, touching on such languages as Ada, CLU, FP, Haskell, Icon, Lisp, ML, Modula-2, Modula-3, Pascal, Post, Prolog, Russell, CSim, Simula-67, and Smalltalk-80. Students will not become proficient in any of these languages, but rather will learn what contributions each has made to the state of the art in language design. Compiler-construction issues will be touched on only in passing. Prereq: CS 450G or consent of instructor.

**CS 660 TOPICS IN ARTIFICIAL INTELLIGENCE (Subtitle required). (3)**

Advanced topics chosen from the following: knowledge representation, knowledge acquisition, problem solving, very high-level programming languages, expert systems, intelligent and deductive databases, automated theorem proving. May be repeated to a maximum of six credits, but only three credits may be earned under the same topic. Prereq: CS 505 and CS 560 or consent of instructor.

**CS 663 ARTIFICIAL INTELLIGENCE. (3)**

Overview of modern artificial intelligence. Covers topics such as searching and game trees, knowledge representation techniques, methods to represent uncertain information and to reason about it, reasoning about action and planning, expert systems, machine learning and neural networks. Prereq: CS 555 or consent of instructor.

**CS 670 DISTRIBUTED OPERATING SYSTEM THEORY. (3)**

This course covers advanced distributed operating system algorithms and theory. Topics such as distributed mutual exclusion, distributed event ordering, distributed deadlock detection/avoidance, agreement protocols, consistent global snapshot collection, stable predicate detection, failure recovery, faulty-tolerant consensus, leader election, process groups and group communication. Case studies of distributed operating systems such as LOCUS, Grapevine, V System, ISIS, Amoeba, Sprite, and Mach will be used as illustrations of the above algorithms. Prereq: CS 570 or consent of instructor.

**CS 671 ADVANCED COMPUTER NETWORKS. (3)**

This course is intended to provide students with a solid understanding of the state of the art in computer network systems and protocols. Topics are covered in some depth, including both abstract and concrete aspects. The course begins with a study of implementations of the current Internet Protocols (TCP, UDP and IP); this provides a concrete backdrop for the rest of the course. The emphasis is on learning by doing, with programming and other hands-on assignments associated with most topics. Prereq: CS 571 or consent of instructor.

**CS 673 ERROR CORRECTING CODES. (3)**

The problem of correct transmission of data in a noisy environment. The design and analysis of codes that efficiently (in terms of data rate and encryption and decryption speed) correct errors. Linear and nonlinear block codes, general encoding and decoding techniques, fundamental bounds, dual codes, cyclic codes. Specific codes will be studied, including Hamming, BCH, Reed-Muller, Reed-Solomon, trellis, and convolutional codes. Prereq: CS 515 or consent of the instructor.

**CS 674 HEURISTIC ALGORITHMS. (3)**

Solving problems that are intractable. Exact techniques such as search integer programming and dynamic programming. Approximation techniques including local search, divide and conquer, and greedy algorithms. Methods based upon natural models such as force-directed iteration, simulated annealing, genetic algorithms, and neural networks. Examples will be selected from active research areas. Prereq: CS 515 or consent of instructor.

**CS 675 COMPUTABILITY AND COMPLEXITY. (3)**

The formal study of computation, including computability and computation with limited resources. Church's thesis and models of computation. Topics will include Turing machines or other basic models of computation; reductions; computable and computably enumerable sets; Rice's Theorem; decidability and undecidability; basic complexity theory; NP-completeness and notions of intractability. Additional topics may include primitive recursive functions and Grzegorzcz hierarchy; nondeterminism; the arithmetic hierarchy; formal complexity measures; time and space hierarchy theorems; the polynomial hierarchy and PSPACE; probabilistic complexity classes; circuit complexity. Prereq: CS 575 or consent of instructor.

**CS 677 COMPUTATIONAL GEOMETRY. (3)**

Design and analysis of algorithms and data structures for geometric problems. The particular groups of problems addressed include convex hull construction, proximity, Voronoi Diagrams, geometric search, intersection. Prereq: CS 580.

**CS 678 CRYPTOGRAPHY. (3)**

The study of security in communications and electronic computing. The encryption of data using public key systems, block ciphers, and stream ciphers. The basic tools for the design and analysis of such systems. Topics may include information theory, authentication, digital signatures, secret sharing schemes, complexity theoretic issues, probabilistic encryption, electronic commerce and others. Prereq: CS 515 or consent of the instructor.

**CS 680 SEMINAR IN COMPUTER SCIENCE. (2)**

May be repeated to a maximum of four credits. Prereq: Consent of instructor, or two 500-level computer science courses.

**CS 683 FINITE-STATE MACHINES. (3)**

Analysis and synthesis of sequential machines via state-tables and regular expressions. Equivalence, minimization and decomposition of machines. Partitions and structure-theory. Identification and diagnosis of finite-state machines by means of input-output experiments. Linear, finite-memory, and information-lossless machines. Prereq: EE 280.

**CS 684 SPECIAL TOPICS IN VISION, GRAPHICS AND MULTIMEDIA (Subtitle required). (3)**

Advanced topics in computer graphics, computer vision, and multimedia systems. Specific topics include but are not limited to: isophotes, volume rendering, displacement mapping, geographic information systems (GIS), remote sensing topics, large scale sensor networks, video and audio encoding, visualization, immersive environments, and multimedia interfaces. May be repeated to a maximum of up to 6 credit hours, with no more than 3 in the same topic. Prereq: Consent of instructor.

**CS 685 SPECIAL TOPICS IN COMPUTER SCIENCE (Subtitle required). (3)**

Topics to be selected by staff. May be repeated to a maximum of six credits but only three credits may be earned under the same topic. Prereq: Consent of instructor or two 500-level computer science courses.

**CS 686 SPECIAL TOPICS IN THE THEORY OF COMPUTATION (Subtitle required). (3)**

Advanced topics in the theory of computation and the design and analysis of algorithms, including heuristic approaches for algorithm design, parallel computation, flow problems, parallel and concurrent processes and other areas of current research interest. May be repeated to a maximum of six credits but only three credits may be earned under the same topic. Prereq: Consent of instructor or CS 575 and CS 580.

**CS 687 SPECIAL TOPICS IN SYSTEMS. (3)**

This course is a special topics course. The topic and syllabus will change each time the course is offered, reflecting the interests of the instructor. Typically the course will survey new research in the topic area but may also look back at canonical and ground breaking work from the past. Example course topics might include things such as web operating systems, global file systems, distributed object-based systems, fault tolerance/distributed check pointing, high-speed networking, network security, active networking, group communication models, compilers for parallel/distributed computing, recent programming languages, and data mining. Prereq: Consent of instructor.

**CS 689 SPECIAL TOPICS IN NUMERICAL AND SCIENTIFIC COMPUTING (Subtitle required). (3)**

Advanced topics in numerical analysis, scientific computation, and complexity of continuous problems. Specific topics may include, but are not limited to: iterative methods, advanced parallel algorithms in numerical linear algebra, multivariate function approximation and integration. Prereq: CS 537 or consent of instructor.

**CS 690 OPERATING SYSTEMS THEORY. (3)**

An advanced study of operating systems theory including cooperating sequential processes, processor scheduling, paging systems, and memory management. Prereq: CS 570.

**CS 748 MASTER'S THESIS RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

**CS 749 DISSERTATION RESEARCH. (0)**

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

**CS 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

**CS 768 RESIDENCE CREDIT FOR MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours.

**CS 769 RESIDENCE CREDIT FOR DOCTOR'S DEGREE. (0-12)**

May be repeated indefinitely.

**CSC Clinical Sciences****CSC 528 LABORATORY TECHNIQUES FOR CLINICAL SCIENCES STUDENTS. (2)**

Basic clinical laboratory principles and techniques; includes laboratory safety, sterilization procedures, pipetting, microscopy, routine culture and staining procedures, chamber counts, laboratory math calculations and statistics. Consent of instructor required for non-CS or non-CLS students.

**CSC 600 HUMAN PATHOPHYSIOLOGY. (4)**

A study of disease processes, pathomonic parameters, and pathologic factors that mediate disease. Diagnostic testing used to validate disease process will be used to emphasize to the student the role of clinical sciences in the diagnosis of these complex disease states. Variances in disease in relationship to age will be examined. Prereq: Admission to the Clinical Sciences graduate program or consent of the course faculty committee.

**CSC 601 HEALTH CARE POLICY AND ETHICS. (3)**

The focus of this integrative course will be on policy and ethical issues confronting health care providers, health care systems, and particularly those issues specific to clinical sciences. Emphasis will be placed on current trends and anticipated challenges in providing humane and cost-effective health care services, with particular reference to the medically underserved and other at-risk populations. The different needs of special populations such as the aging, socioeconomically disadvantaged, insured and underinsured persons, ethically and culturally diverse groups such as recent immigrants and minorities will be explored. Discussion of technology dissemination delivery models, funding sources, human resources required to provide health care, alternative methods of coordinating these resources, and shifting from an "illness" orientation to a "wellness" approach will be included. The bioethics of health care delivery addressed will also include global considerations relative to health care, population dynamics, health care rationing, health care economics and assisted reproduction and transplantation issues.

**CSC 602 CLINICAL SCIENCES SEMINAR (Subtitle required). (1)**

Provides skills required of successful scientist to communicate effectively with peers, clients and general public. Each student will demonstrate an ability to interact with community, to function in an educator role by investigating a topic and preparing and delivering a presentation to the class and a community group. May be repeated up to five times. Prereq: Admission to the Clinical Sciences graduate program or consent of instructor.

**CSC 604 RESEARCH METHODS FOR THE CLINICAL SCIENCES. (3)**

Introduction to experimental design, data collection and data analyses for clinical biomedical research. Students will also examine ethical issues in biomedical science research using a case-study approach. Representative issues to be addressed may include data selection and retention, plagiarism, scientific review of grants and manuscripts, review of protocols by human studies committees (institutional review boards or IRB) and informed consent.

**CSC 606 ADVANCED LABORATORY STATISTICS AND ADMINISTRATIVE ANALYSIS. (3)**

Applications-based statistical and analytical software is used to demonstrate Continuing Quality Improvement (CQI) adherence to Federal regulation, NCCLS/IFCC protocols, and other accrediting agency requirements. Special emphasis is on defining and controlling unstable error through a statistical modeling approach. Documentation structures for quality operations policy; and processes, procedures and implementation of a quality system are examined with special attention to assuring quality of point-of-care testing. Detailed computerized study of method comparison includes receiver operator charting (ROC). Computerized diagnostic screening programs are used to evaluate prevalence, sensitivity, specificity, and predictive values. Utilization of management systems to track expenses, budget/inventory management, employee scheduling, productivity evaluations, process improvement and restructuring are demonstrated. Computerized performance management systems and innovations in compliance strategies are featured. Student evaluation will be based on examinations, projects, and papers.

**CSC 615 REPRODUCTIVE LABORATORY SCIENCE. (1)**

The course includes basic cell biology and principles of genetics; a review of the male reproductive system including hormonal control, early development, spermatogenesis and fertilization; a review of the female reproductive system including hormonal control, early development, oogenesis, the menstrual cycle, fertilization and early implantation.

**CSC 616 ANDROLOGY. (1)**

The course will include a review of male physiology, spermatogenesis and fertilization. The procedures appropriate for evaluation of male fertility will be presented and conditions and diseases associated with male factor infertility will be discussed. Basic and advanced andrology tests and procedures for both diagnostic and treatment purposes will be reviewed. Micromanipulation procedures (intracytoplasmic injection ICSI) and treatments using epididymal and testicular sperm will be introduced. Prereq: CSC 528, CSC 615 or consent of the instructor.

**CSC 617 REPRO MICROBIOLOGY AND IMMUNOLOGY. (1)**

A review of basic immunology will be covered including an overview of the organs, tissues and cells that comprise the immune system, different forms of immunity and the basis of the immune response. The reproductive immunology segment will focus on antibodies associated with infertility and reproductive failure, and also will include properties of the immune system during pregnancy. Microbiology will be covered as it pertains to assisted reproductive technology, focusing on: (1) causes of infertility may be transmitted in the assisted reproductive technology (ART) laboratory and (3) prevention of contamination in the ART facility. Prereq: CSC 528, CSC 615 or consent of instructor.

**CSC 618 LABS IN ANDROLOGY, REPRODUCTIVE MICROBIOLOGY AND IMMUNOLOGY. (1)**

Student laboratories will focus on semen analysis, sperm function tests, and preparation of partner and donor semen for artificial insemination. Advanced andrology procedures, including the sperm penetration assay and the hemi-zona assay, will be discussed and protocols provided. Reproductive Immunology: Students will perform procedures for detecting antisperm antibodies in semen and in serum. Sperm-cervical mucus testing and cross-testing will be performed using controlled donor semen and bovine cervical mucus. Reproductive Microbiology: Organisms associated with sexually transmitted diseases, infertility, and reproductive failure will be demonstrated with representative demonstrations consisting of: stained slide of bacteria, fungi and parasites and electron micrographs of viruses; organisms on appropriate culture media; examples of testing for identification. Students will use data from the demonstrations to develop summaries for the correct isolation and identification of these organisms. Prereq: CSC 528, CSC 615, CSC 616, and CSC 617 or consent of instructor.

**CSC 620 ANDROLOGY. (3)**

Review of the male reproductive system including hormonal control, early development, spermatogenesis and fertilization. Basic and advanced andrology procedures will be discussed and laboratories will focus on semen analysis, sperm function tests, and preparation of partner and donor semen for artificial insemination. Prereq: BIO 549.

**CSC 621 EMBRYOLOGY/ASSISTED REPRODUCTIVE TECHNOLOGY. (3)**

Review of female reproductive system including hormonal control, early development, oogenesis, the menstrual cycle, fertilization and early implantation. Assisted reproductive technology procedures will be discussed with the aid of photographs and videos and laboratories will focus on culturing and manipulating mouse embryos. Prereq: BIO 549, CSC 620.

**CSC 623 REPRODUCTIVE IMMUNOLOGY. (1)**

Immunology associated with fertilization, implantation, and early development in humans. Various procedures for detecting antibodies associated with reproduction will be discussed and the laboratories will assess both direction and indirect antibodies on spermatozoa. Prereq: BIO 494G, CSC 620, CSC 621.

**CSC 624 CRYOPRESERVATION OF REPRODUCTIVE TISSUES. (2)**

Principles of methods of cryopreservation will be covered and procedures for freezing human oocytes, embryos, and ovarian and testicular tissues will be detailed. Legal, ethical and policy issues associated with cryopreservation will be introduced. Laboratory sessions will focus on freezing human spermatozoa and mouse gametes and embryos. Prereq: CSC 620 and CSC 621.

**CSC 625 POLICY, MANAGEMENT, ETHICAL AND LEGAL ISSUES IN ASSISTED REPRODUCTION. (2)**

Current and anticipated regulations of assisted reproductive technology will be discussed. Legal and ethical concerns associated with ART will be introduced and case studies will focus on specific issues. Prereq: CSC 620, 621, 624.

**CSC 626 CLINICAL PRACTICUM IN ANDROLOGY LABORATORY. (2)**

Students must complete the checklist procedures while working under supervision. Andrology procedures will include semen analysis, sperm function tests, microbiology, preparation for artificial insemination, and cryopreservation of male gametes. Prereq: CSC 620, 621, 623, 624, 625.

**CSC 627 CLINICAL PRACTICA IN ART LABORATORY. (3)**

Students must complete the checklist procedures while working under supervision. All ART procedures including in vitro fertilization, ICSI, zona hatching and cryopreservation of gametes and embryos will be practiced under supervision using appropriate models for practice. Prereq: CSC 620, 621, 623, 624, 625.

**CSC 628 RLS SEMINAR. (1)**

Students in the RLS seminar will critique research papers in the field, will develop and present PowerPoint presentations on subjects covering andrology, ART, cryopreservation of human reproductive tissue, management issues in the reproductive laboratory, and policy, ethical and legal issues in ART. May be repeated for total of two credits. Prereq: CSC 528, CSC 615, CSC 616, CSC 617, CSC 618, CSC 619, CSC 621, CSC 624, CSC 625 or consent of instructor.

**CSC 630 RLS RESEARCH. (1-5)**

Research projects for students in Reproductive Laboratory Science. Students will complete web-based modules, "The Scientific Method and the Art of Research" prior to project initiation. Projects should be related to the student's individual interest and should address an area in reproductive laboratory science. Projects should be under the supervision of a faculty member with expertise in the project area. Prereq: CSC 528, CSC 615, CSC 616, and CSC 617 or consent of instructor. Additional CSC courses in the RLS track may be required as prerequisites depending on the nature of the research project.

**CSC 670 HISTOCOMPATIBILITY AND IMMUNOGENETICS. (3)**

In-depth study of the human histocompatibility polymorphisms will include genetic inheritance, alleles, typing methodologies, and matching requirements for solid organ and tissue transplantation. The human leukocyte antigen (HLA or MHC) system and its role in transplant rejection will be the major focus, however minor histocompatibility systems will also be examined. Specific and detailed correlation of didactic information will be integrated with case studies to explore current concepts of immunologically-based molecular methods of antigen detection and their impact on clinical practice. Prereq: Immunology course.

**CSC 672 TRANSPLANTATION SCIENCE. (3)**

Course content includes immunological, biochemical and genetic concepts and molecular biology related to the clinical process of transplantation. Cellular and molecular mechanisms will be an intense focus of this course. Solid organ and tissues transplantation, the need for donor organs and tissues, compatibility requirements for successful transplantation of each type of organ and tissue, immunosuppressive therapy, and research opportunities that may impact successful transplantation and tissue availability will be examined. Literature review and presentation of papers on assigned topics will be required. Prereq: CSC 670 or consent of instructor.

**CSC 673 FLOW CYTOMETRY. (3)**

This course focuses on principles, applications and quality assurance of flow cytometry in research and clinical use in hematology and transplantation. Emphasis is placed on the biological and physical principles underlying flow cytometry, specimen processing, operation and specific application in the identification of various hematopoietic and other cells. The use of flow cytometry to screen transplant recipients, cross-match donor and potential recipient, post-transplant monitoring, identifying HLA antigens, diagnosing hemoproliferative disorders, monitoring immunosuppressive therapy and stem cell isolation is presented. Evolving applications in other disciplines such as microbiology and clinical chemistry, will also be explored. Prereq: CSC 670, or CSC 674 and CSC 675, or consent of instructor.

**CSC 674 HEMOPOIESIS. (3)**

Normal and abnormal hemopoiesis is examined. Special emphasis is placed on understanding the relationship of hemopoiesis to hemoproliferative and immunologic disease; transplantation science, and medical applications. Prereq: Course(s) in hematology and hematologic disease, or consent of instructor.

**CSC 676 ADVANCED HEMOSTASIS. (3)**

This course will review current knowledge and hypotheses regarding both hypo and hyper coagulable states, drug induced disorders of hemostasis, treatment regimes, and the present state of the art in laboratory testing for high-risk individuals. Prereq: Course in hemostasis including normal mechanisms and pathological states, or consent of instructor.

**CSC 677 ERYTHROCYTE DISORDERS. (3)**

Advanced review of inherited and acquired disorders of erythrocyte production, destruction and loss including the hemoglobinopathies. The course will address the pathophysiology, laboratory testing and treatment of each disorder. Prereq: CSC 674.

**CSC 690 CLINICAL SCIENCES THESIS RESEARCH. (1-6)**

Research, design, protocol development and production of thesis are included. Grade will be reported following evaluation of written product by the thesis committee. Prereq: Successful completion of final/comprehensive examinations for the Clinical Sciences graduate program.

**CSC 749 DISSERTATION RESEARCH. (0)**

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of CSC 769 residence credit following the successful completion of the qualifying exams.

**CSC 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

**CSC 789 RESEARCH APPRENTICESHIP. (1-4)**

The goal of this course is to ensure that the student understands and can apply research methods to identifying a research problem, developing a proposal, conducting an investigation, and preparing a journal-quality research paper. Students will work closely with a clinical sciences researcher to develop these research skills. The course requirements and format will vary depending upon the student's prior experience. Prereq: Admission to the Clinical Sciences doctoral program.

**CSD 790 CLINICAL SCIENCES DISSERTATION RESEARCH. (0-12)**

Research design, protocol development and production of written dissertation after completion of the dissertation research. Grade will be issued following evaluation of the dissertation by committee. Candidates for the degree must complete nine credit hours in each of two successive semesters of dissertation research. Prereq: Successful completion of the Clinical Sciences qualifying examinations.

## CSD Communication Sciences and Disorders

**CSD 120 CAREERS IN SPEECH-LANGUAGE PATHOLOGY AND AUDIOLOGY. (1)**

An overview of the Speech-Language Pathology and Audiology profession(s) including aspects of professional practice, areas of specialization, professional issues and trends, and career paths and opportunities. The course will consist of assignments, lectures and interactive discussions led by faculty and visiting professionals designed to expand students' understanding of the profession(s) and to assist in educational and career planning and discernment.

**CSD 220 AMERICAN SIGN LANGUAGE I AND THE CULTURE OF THE DEAF COMMUNITY IN AMERICA. (3)**

An introductory course in American Sign Language (ASL), the native language of the Deaf community in America, this course lays a foundation for effective, respectful, participation in a culturally and linguistically diverse society. The course will employ an immersion approach to develop basic skills in conversational ASL and fingerspelling, as well as an appreciation of the basic grammatical principles of ASL, the historical and cultural background of the language, linguistic and ethical principles related to use of ASL, and the role of Deaf culture in society. Prereq: CSD or HHS majors or permission of the instructor.

**CSD 277 INTRODUCTION TO COMMUNICATION DISORDERS. (3)**

An introduction to disorders of speech, language, and hearing. The course includes definitions, symptomatology, etiologies, and basic intervention principles for these disorders.

**CSD 320 AMERICAN SIGN LANGUAGE II AND THE CULTURE OF THE DEAF COMMUNITY IN THE US. (3)**

An intermediate level course in American Sign Language (ASL), the native language of the Deaf community in America, this course will use an immersion approach to develop skills in conversational ASL and fingerspelling, as well as an appreciation of the grammatical principles of ASL, the historical and cultural background of the language, linguistic and ethical principles related to use of ASL, appropriate use of interpreters, and the role of Deaf culture in society. Prereq: Successful completion of CSD 220 (ASL I) or permission of instructor.

**CSD 378 ANATOMY AND PHYSIOLOGY OF SPEECH. (3)**

A detailed investigation of structures and functions supporting speech production: respiration, phonation, articulation, and resonance. Neural bases of speech and language will also be introduced. Prereq: CSD major or permission of instructor.

**CSD 402 SPEECH AND HEARING SCIENCE. (3)**

Investigation of the physiological and acoustic bases of speech and hearing; the physics of sound and the scientific bases of human speech production. Students will have exposure to instrumentation designed to increase understanding of human communication. Prereq: CODI major or permission of instructor. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

**#CSD 409 ENGLISH GRAMMAR FOR COMMUNICATION SCIENCES AND DISORDERS. (1)**

This one-credit hour course is designed to provide students with a comprehensive understanding of English syntactic form and function necessary to the future clinical practice of speech-language pathology. In addition, students will appreciate the role of complex syntax in spoken and written language and how these are commonly measured in children and adults with language disorders. Readings, activities, projects, and examinations will be used to establish a strong foundation in language form for graduate coursework in childhood and adolescent language disorders as well as adult language impairments. Prereq: CODI major or consent of the instructor.

**CSD 410 LANGUAGE DEVELOPMENT THROUGH THE LIFESPAN. (3)**

An introduction to the normal development of language in individuals from birth to advanced age. Topics include theories of language acquisition; prelinguistic development; development in each of the language domains (phonology, semantics, morphology and syntax, and pragmatics); the relationships between oral language, written language, and academic progress; and cultural differences. Prereq: CODI major or consent of instructor.

**CSD 420 AMERICAN SIGN LANGUAGE III. (3)**

This course is designed to build receptive and expressive language abilities in American Sign Language (ASL). You will learn to translate and produce narrative language. Instruction includes an advanced level vocabulary, the structure of the language, as well as an expanded exposure to the history and culture of Deaf people. ASL III is taught solely in ASL by an instructor who only uses ASL to communicate. You will not be allowed to use your voice in this class at all. The American Sign Language Teaching Association (ASLTA) recommended curriculum will be followed. Prereq: Successful completion of CSD 320 or permission of the instructor.

**CSD 424 AMERICAN SIGN LANGUAGE IV. (3)**

This course is designed to further develop your intermediate receptive and expressive language ability in American Sign Language (ASL). You will learn to translate and produce narrative language, temporal & distributional inflections, ASL numbers and ASL classifiers. Instruction includes an upper intermediate level vocabulary, the structure of the language, as well as an expanded exposure to ASL literature. ASL IV is taught solely in ASL by a native speaker of ASL to communicate as recommended by American Sign Language Teachers Association (ASLTA). The ASLTA curriculum will be followed. Prereq: Successful completion of CSD 420 or permission of the instructor.

**\*CSD 481 CLINICAL EXPERIENCE IN COMMUNICATION DISORDERS. (3)**

The general purpose of this course is to provide a competency-based experience in the clinical laboratory designed to orient the student to the professional activities in speech-language pathology. Clinical observations and shadowing, readings, in-class activities, and independent projects will focus on reflective decision making in professional activities. These topics will include professional ethics, client rights, scope of practice, preferred practice patterns, health/safety, liability/legal issues, professional organizations, credentialing, multicultural issues, and treatment outcomes. This course helps meet the required ASHA coursework standards in the areas of professional coursework in Speech-Language Pathology, and clinical observation. Prereq: CSD 402 or consent of instructor; CODI majors only.

**\*CSD 482 INTRODUCTION TO CLINICAL MANAGEMENT. (3)**

Introduction to strategies for remediation of speech and language disorders in individuals from birth through adulthood and from culturally and linguistically diverse backgrounds. Prereq: CSD 402 or consent of instructor; CODI majors only.

**†CSD 483 CLINICAL MANAGEMENT OF COMMUNICATION DISORDERS II.****CSD 484 INTRODUCTION TO DIAGNOSTIC PROCEDURES IN SPEECH-LANGUAGE PATHOLOGY. (3)**

Introduction to the principles, techniques, and tools used to develop and implement a diagnostic protocol. Prereq: CSD 402 or consent of instructor; CODI majors only.

**\*CSD 485 CLINICAL PHONETICS. (3)**

Study of the phonetic structure of the English language with requirement of mastery of the International Phonetic Alphabet. Emphasis will be placed on phonetic transcription of normal and disordered speech for students in communication sciences and disorders. Prereq: CODI major or permission of instructor.

**CSD 491 AUDIOLOGY. (3)**

Introduction to symptomatology and etiologies of hearing impairment and principles of hearing assessment. Topics include: peripheral hearing impairment; central and nonorganic hearing impairment; screening for hearing impairment; hearing conservation; pure tone air and bone conduction threshold testing; basic speech audiometry; masking; audiometric calibration; and acoustic immittance screening. Prereq: CSD 402 or consent of instructor; CODI majors only.

**CSD 500 INTEGRATIVE CARE FOR HEALTH SCIENCES. (1-3)**

Integrative care involves using the best possible treatments from both complementary/alternative and allopathic medicine, based on the patient's individual needs and condition. The selection of health care providers should be based on good science and this course will introduce students to complementary and alternative health care providers and the practices and beliefs of these practices as well as the scientific evidence in support of these practices. The course integrates successes from both worlds and describe the safest, least invasive, most cost-effective approach while incorporating a holistic understanding of the individual. May be repeated to a maximum of 3 credits (1 credit didactic and up to two credits experiential/research). (Same as AT 500, HS 500, CLS 500, CNU 500, PAS 500.)

**†CSD 520 INTRODUCTION TO MANUAL COMMUNICATION.****\*CSD 571 NEURAL BASES OF SPEECH, LANGUAGE, AND HEARING. (4)**

Detailed investigation of the neuroanatomy and neurophysiology of speech, language, and hearing from a communication sciences perspective. Emphasis on anatomy and physiology of the central nervous system, neurodevelopment, and normal neural substrates involved in speech, language, and hearing. Prereq: CSD 378 or permission of the instructor.

**CSD 588 VARIABLE TOPICS IN COMMUNICATION DISORDERS (Subtitle required). (1-3)**

In-depth study of a current problem or issue related to the communication disorders profession. May be repeated for a maximum of 6 credits. A title is assigned each time the course is offered. Prereq: Undergraduate or master's level CODI majors only and consent of the instructor.

**CSD 589 INDEPENDENT STUDY IN COMMUNICATION DISORDERS. (1-6)**

Independent study for undergraduate or master's level graduate students with an interest in a specific problem or issue in communication disorders. May be repeated for a maximum of six credits. Prereq: Undergraduate or master's level graduate CODI majors only and consent of the instructor.

**CSD 591 AURAL REHABILITATION. (3)**

Management strategies for people with hearing loss. Topics include: variables affecting hearing handicap; characteristics, selection, counseling, and orientation in regard to amplification systems; acoustic, perceptual and visual aspects of speech; assessment and management of problems resulting from hearing loss across the lifespan. Prereq: CSD 420 or consent of instructor; undergraduate and graduate CODI majors only. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

**CSD 621 ALTERNATIVE AND AUGMENTATIVE COMMUNICATION. (3)**

A detailed investigation of the use of augmentative and alternative communication systems with individuals with moderate to severe communication disorders. Participants will examine the full range of augmentative/alternative communication systems and the related assessment and intervention considerations. Prereq: EDS 375 or equivalent or graduate status in CODI or RHB, or consent of instructor.

**CSD 647 LANGUAGE DISORDERS IN DEVELOPMENTALLY YOUNG INDIVIDUALS. (3)**

A detailed investigation of language disorders and language intervention in developmentally young populations. Includes an in-depth discussion of prevention strategies, service delivery models, assessment tools and paradigms, and intervention strategies. Provides practice in self-directed inquiry. Prereq: Graduate status in CODI or RHB or consent of instructor.

**CSD 648 LANGUAGE DISORDERS IN SCHOOL-AGE POPULATIONS. (3)**

A detailed investigation of language disorders and language intervention in school-age populations. Includes an in-depth discussion of prevention strategies, service delivery models, related cultural diversity issues, and assessment and intervention principles and strategies. Prereq: Graduate status in CODI or RHB or consent of instructor.

**CSD 649 COMMUNICATION, AAC, AND TECHNOLOGY FOR INDIVIDUALS WITH AUTISM SPECTRUM DISORDERS. (3)**

This course prepares persons who will be serving individuals with ASD. The focus of the course is on developing communication in this population, exploring augmentative and alternative communication devices, and using technology to teach individuals with ASD. The course will provide information on (a) typical language development, (b) characteristics of persons with autism and their unique communication needs, (c) assessment of communication needs, (d) development of communication goals, (e) development and delivery of effective strategies for teaching communication, and (f) use of technology to teach individuals with ASD. The objectives of this course are designed to provide students with a comprehensive knowledge of the communication characteristics of persons with autism, the state-of-the-art techniques in providing communication services for this population, and research-based strategies utilizing technology in teaching individuals with ASD. This course will be taught jointly by the Department of Special Education & Rehabilitation Counseling and the Department of Communication Sciences and Disorders. Prereq: EDS 601, EDS 661, EDS 662. (Same as EDS 662.)

**CSD 654 CLINICAL ORIENTATION IN COMMUNICATION DISORDERS. (3)**

A lecture-laboratory experience designed to orient the student to the professional activities in speech-language pathology. Lecture, one hour; laboratory, four hours per week. Prereq: Graduate status in CODI or consent of instructor.

**CSD 657 CLINICAL PRACTICUM IN SPEECH-LANGUAGE PATHOLOGY. (1-3)**

Experience with children and adults in the assessment and management of communication and swallowing disorders. Lecture, one hour; practicum, four hours per week. May be repeated to a maximum of 12 credits. Prereq: Graduate status in CODI, CSD 481 or equivalent, and CSD 654.

**CSD 659 CLINICAL ROTATION IN SPEECH-LANGUAGE PATHOLOGY. (1-12)**

Supervised clinical experience in the evaluation and management of children and adults. Up to 40 laboratory hours per week (at site all day). May be repeated up to 36 hours. Prereq: Graduate status in CODI, successful completion of 6 hours of graduate clinical practicum and consent of instructor.

**CSD 661 PHONOLOGICAL DEVELOPMENT AND DISORDERS. (3)**

A comprehensive course in phonological theory, assessment, and treatment. Advanced principles of diagnosis and remediation for patients across the age span and from culturally and linguistically diverse backgrounds. Prereq: Graduate status in CODI or RHB or consent of instructor.

**CSD 670 VOICE DISORDERS. (3)**

Assessment and management of adults and children with disorders of voice and resonance. Includes laryngectomy. Prereq: Graduate status in CODI or RHB or consent of instructor.

**CSD 674 DISORDERS OF FLUENCY. (3)**

Analysis, identification and management of fluency disorders. Prereq: Permission of instructor.

**CSD 675 LOW INCIDENCE COMMUNICATION DISORDERS (Subtitle required). (1)**

Assessment and management of adults and children with low incidence communication disorders including disorders of fluency, craniofacial anomalies and tracheostomy. Topics may vary depending on current trends in the discipline. Prereq: Graduate status in CODI or consent of instructor.

**CSD 677 APHASIA AND RELATED DISORDERS. (3)**

Identification, appraisal, diagnosis, and clinical management of persons with aphasia and related disorders. Primary emphasis is given to aphasia and apraxia of speech in adults. Prereq: Graduate status in RHB or CODI or consent of instructor.

**CSD 701 RESEARCH METHODS IN COMMUNICATION DISORDERS. (3)**

Principles and methods for designing research in communication sciences and disorders. Topics include: introduction to the scientific method, research designs, measurement techniques, formulating research questions, writing and evaluating research reports, and ethics of research. Prereq: Graduate standing in Communication Disorders.

**CSD 710 COGNITIVE COMMUNICATION DISORDERS. (3)**

The class will focus on the neuroanatomy and pathology of traumatic brain injury, right hemisphere disorders, and dementia. Students will learn current theory regarding differential diagnosis and treatment of these disorders. Prereq: CSD 571 or permission of instructor.

**#CSD 720 PROFESSIONAL ISSUES IN SPEECH LANGUAGE PATHOLOGY. (1)**

This course addresses professional issues in speech-language pathology as they relate to various employment settings including public school, healthcare, and private practice. Topics will include professional ethics, cultural competence, professional practice documents, service delivery models, billing and coding, job exploration, resumes, interviews, credentialing, legal considerations, and professional advocacy. Content will be in accordance with the American Speech-Language-Hearing Association (ASHA) Scope of Practice, Code of Ethics and guidelines for credentialing. Prereq: Graduate standing in CSD or consent of the instructor.

**CSD 744 ADULT SWALLOWING AND MOTOR SPEECH DISORDERS. (3)**

Analysis, identification and management of adult neurogenic disorders of speech and swallowing. Emphasis will be placed on clinical management of adult dysarthria and the concomitant communication and swallowing disorders. Prereq: CSD 571 or permission of instructor.

**CSD 745 PEDIATRIC FEEDING AND MOTOR SPEECH DISORDERS. (3)**

Analysis, identification and management of pediatric disorders of speech, feeding and swallowing. Emphasis will be placed on clinical management of dysarthria and the concomitant communication, feeding and swallowing disorders. Prereq: CSD 571 or permission of instructor.

**#CSD 746 MOTOR SPEECH DISORDERS. (2)**

This 2 credit graduate course focuses on the pathophysiology, diagnosis, differential diagnosis, assessment, and treatment of motor speech disorders (MSDs) in individuals from birth through adulthood. The course will address oral sensory disorders, developmental delays, and MSDs secondary to neurological damage and disease with particular emphasis on dysarthria and Childhood Apraxia of Speech (CAD). The course will also address the dysarthrias resulting from acquired brain injury (e.g. stroke and trauma) in adulthood and progressive and non-progressive diseases of the nervous system. Clinical management of MSDs in both children and adults will be addressed as well as cultural differences and diversity issues as they affect development, care-giving, treatment and access to services. Prereq: CSD 571 or permission of the instructor.

**†CSD 747 SEMINAR IN LANGUAGE DEVELOPMENT IN CHILDREN.**

**CSD 748 MASTER'S THESIS RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

**†CSD 761 APPLIED PHONOLOGY: DEVELOPMENT AND DISORDERS.**

**CSD 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours.

**CSD 771 DYSPHAGIA. (3)**

This course includes a review of the anatomy and physiology of normal deglutition; the nature and characteristics of swallowing disorders; methods of evaluation and management of dysphagia in adults and children; and consideration of medical conditions such as aspiration pneumonia, tracheostomy, and other complicating factors associated with dysphagia. Also included is a brief review of professional issues relating to efficacy of treatment; third party reimbursement; and roles and responsibilities of other health care professionals in feeding and swallowing. Prereq: Admission to the Communication Disorders graduate program or the Rehabilitation Sciences Ph.D. program or consent of the instructor.

**†CSD 775 SEMINAR IN LITERATE LANGUAGE.**

**CSD 788 VARIABLE TOPICS IN COMMUNICATION DISORDERS (Subtitle required). (1-3)**

In-depth study of a current problem or issue related to the communication disorders profession. May be repeated for a maximum of nine credits. A title is assigned each time the course is offered. Prereq: Graduate status in RHB or CODI or consent of instructor.

**CSD 789 INDEPENDENT STUDY IN COMMUNICATION DISORDERS. (1-6)**

Independent study for graduate students with an interest in a specific problem in communication disorders. May be repeated to a maximum of 12 credits. Lecture, 1-6 hours; laboratory, 2-12 hours per week. Prereq: Graduate status and consent of instructor.

## DES Design

### DES 100 DESIGN IN YOUR WORLD. (3)

Understanding how design unfolds from and informs culture, students garner appreciation for and creatively experiment with the embedded practice of design as a basic human response for inhabitation, work, play, and worship. Prereq: For students in all colleges except for the College of Design.

### #DES 285 VISUAL STORYTELLING. (3)

Introduces basic concepts of digital storytelling through various social mediums, with an emphasis on the use of social media platforms. This course will teach students how to think critically about the power of imagery and how to harness its potential to create persuasive and compelling visual narratives to promote their personal brand identity. Students will learn how to define their own personal graphic sensibility and apply it to creative projects through a variety of graphic mediums and online platforms.

### #DES 380 DIY MAKER: USING DIGITAL TECHNOLOGY TO MAKE THINGS. (3)

This course introduces students to digital design and making techniques. Changes with digital software and the available market for affordable personal maker machines (desktop 3D printers, laser cutters, etc.) have made accessible a world of making that was previously not available to the general public. Whether making craft projects for your family or prototyping products to sell in the marketplace, accessibility to the necessary technologies is easier than ever. The course will cover a wide range of software and output machines as well as a brief understanding of design techniques and best practices. Over the course of the semester students will design and fabricate four projects and various scales.

### #DES 385 UNDERSTANDING WEBSITES. (3)

This course introduces various website building platforms and their capabilities. Specifically, platforms that require little to no coding experience will be explored. Students will curate, organize and develop their own websites, with an emphasis on user experience and a consistent brand identity. Students will learn and apply basic principles of effective visual communication, web and user experience design.

## DHN Dietetics and Human Nutrition

### DHN 101 HUMAN NUTRITION AND WELLNESS. (3)

Food composition, digestion, absorption and metabolism as related to selection of nutrients essential for human life, growth, reproduction, lactation, wellness and physical activity. Not open to DHN majors except hospitality management students.

### DHN 212 INTRODUCTORY NUTRITION. (3)

An elementary study of the principles of nutrition and the application of these principles to providing adequate nutrition to humans. The chemical and physiological approach to nutrition is emphasized. Prereq: CHE 105 or CHE 103 or CHE 108; plus, past or concurrent BIO 103 or BIO 148 or BIO 152 or BIO 208.

### DHN 241 FOOD SERVICE SANITATION. (1)

This course covers the principles of food microbiology, important food borne diseases, standards that are enforced by regulatory agencies, and applied measures for the prevention of food borne diseases and other microbiological problems. It leads to certification from the National Restaurant Association.

### \*DHN 301 DIETETICS PRACTICE. (2)

This course provides a study of dietetic practice including professional ethics, standards of practice, scope of practice, educational pathways, credentials attainment and maintenance, competencies required for entry level practice, responsibilities as a professional. Experiences allow exploration of dietetics practice in medical nutrition therapy, food service management and delivery of nutrition services. Prereq: DHN 212; limited to Dietetics majors only.

### DHN 302 PRINCIPLES OF FOOD PREPARATION. (3)

The physical and chemical principles involved in the preparation of foods and the application of these principles to control for quality outcomes. Laboratory experiences link theory to practice to ensure that the standards of safety and overall quality factors are applied to maximize nutrient retention while maintaining the acceptability and nutritional qualities of foods produced for individuals and groups. Lecture, one hour; laboratory, four hours. Prereq: DHN 241; limited to DHN and Family and Consumer Science (FSC) department majors and with permission of instructor.

### DHN 304 EXPERIMENTAL FOODS. (3)

Chemical and physical properties of food and the changes resulting from processing and preparation. Experimental study of variations in ingredients and preparation methods on food quality. Design, execute and report an independent research project. Lecture, two hours; laboratory and discussion, three hours per week. Prereq: DHN 302; CHE 230 or CHE 236.

### \*DHN 311 NUTRITIONAL BIOCHEMISTRY. (3)

An introductory study of the biochemical basis of nutrition – the physiochemical properties of nutrients and other essential biochemicals and their role in physiological and metabolic processes. Prereq: CHE 230 or CHE 236 must be completed prior to DHN 311; PGY 206 must be taken concurrently or prior to DHN 311. Limited to Dietetics, Human Nutrition, and Food Science majors only; other majors by Consent of Instructor.

### DHN 312 LIFE CYCLE AND COMMUNITY NUTRITION I. (3)

A study of the physiological changes occurring in the human life cycle with associated nutrient needs. The course focuses on assessment and determination of nutrition issues and nutrition education for individuals from in-utero to toddlerhood. Nutrition education programs on a community level will be addressed at each stage of the life cycle. Prereq: DHN 212; Limited to Dietetics and Human Nutrition Majors only.

### DHN 313 LIFE CYCLE AND COMMUNITY NUTRITION II. (3)

A study of the physiological changes occurring in the life cycle with associated nutrient needs. The course focuses on assessment and determination of nutrition issues and nutrition education for individuals from childhood to old age. Nutrition education programs on a community level will be addressed at each stage of the life cycle. Program planning, evaluation and grant writing will also be covered and applied in this course. Prereq: DHN 312; limited to Dietetics and Human Nutrition majors only.

### DHN 315 NUTRITION ISSUES IN PHYSICAL ACTIVITY. (3)

This course explores the special nutritional needs of a person engaged in regular physical activity. Emphasis will be placed on selecting a diet to achieve optimal performance and overall wellness. Athletic performance enhancing supplements will be examined to determine the efficacy and safety of such products. Prereq: DHN 212 and restricted to Dietetics or Human Nutrition majors.

### DHN 318 HUNGER, FOOD BEHAVIOR, AND THE ENVIRONMENT. (3)

This course brings together the role of the biological processes that influence hunger with the physiological responses to cues in the social and neighborhood environment that influence what we eat. The connection between what we eat and lifelong health consequences of dietary patterns can be seen at the individual, familial, and community level. Topics in this course will include hunger and satiety, taste preferences and food aversions, food policy, sustainability, the role of the food environment, and nutrition policy. Prereq: DHN 101, DHN 212, or consent of instructor.

### \*DHN 319 SEMINAR IN HUNGER STUDIES. (1)

This course provides a multi-disciplinary approach to hunger studies. Students will develop a written paper and professional seminar on a current hunger-related issue. Prereq: DHN 318 or consent of instructor. DHN 318 can be taken concurrently.

### \*DHN 320 EXPERIENTIAL LEARNING IN HUNGER STUDIES. (2)

Students will engage in experiential learning in a pre-approved volunteer, internship, study abroad, or paid work experience related to the world fight against hunger and social injustice. Prereq: DHN 318 or consent of instructor. DHN 318 can be taken concurrently.

### DHN 340 INSTITUTIONAL PURCHASING. (3)

Fundamental principles and purchasing techniques for the selection of food and nonfood items in a food service system. Prereq: ECO 201 or 202; limited to Dietetics and Hospitality Management and Tourism majors only.

### DHN 342 QUANTITY FOOD PRODUCTION. (4)

An introduction to the production and service of food in quantity, to include the application of production techniques and controls, menu planning and service. Lecture, two hours; laboratory, 4.5 hours per week. Prereq: DHN 302 or HMT 308; DHN 241; limited to Dietetics and Hospitality Management and Tourism majors.

### DHN 346 MANAGEMENT FOR FOOD INDUSTRIES. (3)

This course examines the evolving field of human resources in the food and hospitality industry. Students will examine the changing roles and responsibilities of the manager. Topics will include fundamental principles and purchasing techniques in the food service system as well as planning, selection, placement, training, disciplining employees, labor relations and compensation. Prereq: ECO 201; Dietetics majors only.

### DHN 374 RESEARCH AND WRITING IN DIETETICS. (3)

Study of research, ethics, and methodology for designing, managing, and synthesizing evidence based research in dietetics. Students develop critical thinking, writing, and oral communication skills through scientific literature searches, interpretation of data, and development of a news brief, newsletter article, and literature review with accompanying oral presentations. Prereq: DHN 212 and STA 210; limited to Dietetics majors only. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

### DHN 403 COMMUNITY NUTRITION AND WELLNESS. (3)

Study of nutrition education programs on a community level. Experience is provided for presenting nutrition in health clinics, health camps, schools, state institutions, family resource centers, and corporate wellness programs. Attention is paid to special populations, including pregnant women, children, adults, the elderly, and persons with disabilities. Prereq: DHN 312.

### DHN 408G SEMINAR IN DIETETICS AND HUMAN NUTRITION. (1)

Investigation of recent research in dietetics and human nutrition. May be repeated to a maximum of three credits. Nutritional Sciences graduate students may not enroll for graduate credit. Prereq: DHN 510 or consent of instructor.

**DHN 474 RESEARCH IN NUTRITION: THEORY. (3)**

A required course which allows the student to explore research opportunities in the health field, identify potential funding sources, review institutional review board requirements, and develop a grant proposal based on their own interests in nutrition. Prereq: Human Nutrition majors only. Senior standing. DHN 311 (may be taken concurrently with consent of instructor). This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

**DHN 475 RESEARCH IN NUTRITION: APPLICATION. (3)**

A required course which allows the student to design a research study, write a grant, prepare a comprehensive literature review, design a survey, conduct statistical analyses on collected data, and prepare a professional article and poster to present at University and regional events. Prereq: Human Nutrition majors only. Grade of C or better in DHN 474. This is a writing-intensive (W) course approved to fulfill the upper tier of the graduation writing requirement (GWR). To receive W credit for this course, you must have successfully completed the first-year writing requirement (ENG 104 or its equivalent) and have completed at least 30 hours of course work. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

**DHN 480 DIETETICS PRE-PROFESSIONAL PRACTICE. (1-6)**

Pre-professional experiences are designed to allow students to apply knowledge and skills in assessing, planning, implementing, and evaluating nutrition care in various health delivery systems. Student experience will include opportunities to link theory and practice while developing the skills and attitudes essential to practice in the dietetics profession. Placement of experiential settings must have the approval of the appropriate Director of Dietetics in Nutrition and Food Science. A minimum of 60 supervised practice hours will constitute one semester credit hour with prior approval. May be repeated to a maximum of six credits. Prereq: Consent of instructor and senior status in the Dietetics Didactic Program.

**DHN 510 ADVANCED NUTRITION. (3)**

Application of biochemistry, physiology and nutrition to the understanding of the utilization and function of nutrients in the body as related to the structure, function and metabolic needs of cells/organ systems. Prereq: DHN 311 or BCH 401G or equivalent; PGY 206; Dietetics and Human Nutrition Majors or admission to DHN/NS graduate program.

**DHN 512 MEDICAL NUTRITION THERAPY I. (4)**

This course explores changes in nutrient metabolism related to biochemical and physiological alterations in disease conditions and application of the Nutrition Care Process. Content includes case study evaluations, medical nutrition therapies for disease conditions, and current research in the field. Prereq: DHN 311 and 312; plus, past or concurrent DHN 510. Enrollment is restricted to dietetics majors only.

**\*DHN 514 DIETETICS: COUNSELING AND COMMUNICATION THEORIES AND APPLICATIONS. (3)**

Counseling and communication theories are combined to study specific applications which include disease prevention, disease management and refinement of communication skills to enhance effectiveness as a practicing RD. Students will enhance their capacity to motivate others to practice healthy food behaviors. Active learners will develop a conceptual framework for future professional practice in dietetics as ethical counselors and facilitators of behavior change. Three credit hours. Prereq: DHN 313, DHN 510, DHN 512; must be taken concurrently with DHN 517. Limited to Dietetics majors only.

**DHN 515 MEDICAL NUTRITION THERAPY. (5)**

This capstone course explores changes in nutrient metabolism related to biochemical, physiological, and pathophysiological alterations in disease conditions, application of the Nutritional Care Process and Model, and development of medical nutrition therapy intervention. Content includes case study evaluations, nutritional therapies for disease conditions, including enteral and total parenteral nutrition, and current research in the field. Prereq: DHN 311, 312, 403 and 510 and concurrent with DHN 514. Enrollment is limited to dietetics majors.

**DHN 516 MATERNAL AND CHILD NUTRITION. (3)**

Food selection for optimal nutrition during pregnancy and lactation and for infant and child development through preadolescence. Cultural, social, and psychological aspects of food selection and dietary patterns, as they relate to mental and physical development. Prereq: DHN 312 or consent of instructor.

**DHN 517 MEDICAL NUTRITION THERAPY II. (3)**

This course continues study of medical nutrition therapy topics, including trauma and enteral and parenteral nutrition. Content includes more advanced case study evaluations, medical nutrition therapies, and current research in the field. Prereq: DHN 512 and concurrent with DHN 514 and enrollment is limited to dietetics majors.

**DHN 518 EVALUATION OF DIETETIC ISSUES AND LEADERSHIP. (2)**

Course provides opportunities for the development of competencies, attitudes and values expected of the entry level professional. Lectures, presentation of individual case studies and research projects are conducted. Opportunities are provided for transfer of theory to practice, interpretation of research, discussion of professional literature and application of leadership and communication skills in addressing issues of professional dietetic practice. This web enhanced didactic course is taught via distance learning coupled with on campus sessions. Prereq: Admission to the Coordinated Program or Dietetic Internship.

**DHN 520 MEDICAL NUTRITION THERAPY I: SUPERVISED PRACTICE. (5)**

Supervised practice in health care facilities. Course focuses on patient assessment, diet planning, care plan implementation, and nutritional evaluation. Fulltime medical nutrition therapy experience at an assigned facility with the opportunity to gain entry level experience while seeing a variety of patients with varied disease states. Prereq: Admission to UK DHN Supervised Practice Program (SPP).

**DHN 522 FOOD SERVICE SYSTEMS MANAGEMENT I: SUPERVISED PRACTICE. (5)**

Supervised practice in foodservice systems management in a variety of food service operations. Experience involves participation in management functions including procurement, production, financial and human resources management, marketing, and training. Prereq: Admission to UK DHN Supervised Practice Program (SPP).

**DHN 524 FOOD SERVICE SYSTEMS MANAGEMENT II: SUPERVISED PRACTICE. (3)**

In-depth application of foodservice systems management in a variety of food systems operations. Provides variety of experience in operations, financial, and managerial aspects of food services. Prereq: Admission to UK DHN Supervised Practice Program (SPP).

**DHN 526 MEDICAL NUTRITION THERAPY II: SUPERVISED PRACTICE. (3)**

This course provides an in-depth clinical application of the principles of dietetics. The course will focus on the team concept of patient care and provide advanced dietetics practice with the opportunity to test and evaluate results. Prereq: Admission to UK DHN Supervised Practice Program (SPP).

**DHN 528 COMMUNITY NUTRITION I: SUPERVISED PRACTICE. (1)**

This course provides an introductory supervised practice in community nutrition. Experiences include public and private agencies/organizations that provide food and nutrition services, public policy and program development, and nutrition education for various socioeconomic groups. Full-time community nutrition experience as a member of the community health delivery team at assigned community and health related agency. The student will have opportunities to manage nutrition care for population groups across the lifespan; develop community based food and nutrition programs; and develop health promotion/disease prevention intervention projects. Prereq: Admission to UK DHN Supervised Practice Program (SPP).

**DHN 530 COMMUNITY NUTRITION II: SUPERVISED PRACTICE. (2)**

This course provides an introductory supervised practice in community nutrition. Experiences include public and private agencies/organizations that provide food and nutrition services, public policy and program development, and nutrition education for various socioeconomic groups. Full-time community nutrition experience as a member of the community health delivery team at assigned community and health related agency. The student will have opportunities to manage nutrition care for population groups across the lifespan; develop community based food and nutrition programs; and develop health promotion/disease prevention intervention projects. Prereq: Admission to UK DHN Supervised Practice Program (SPP).

**DHN 591 SPECIAL PROBLEMS IN DIETETICS AND HUMAN NUTRITION. (1-3)**

Intensive work on an independent project related to dietetics and human nutrition. Senior or graduate standing. May be repeated for a maximum of six credits. Prereq: Consent of instructor.

**\*DHN 597 OBESITY AND FOOD INSECURITY PARADIGM: FROM CELL TO SOCIETY. (3)**

This course will explore the pathophysiology of obesity, including genetic determinants, prenatal and early life influences, and epigenetics. Students will examine the influence of environmental, socio-economic, public policy, dietary, and physical activity factors as they relate to overweight and obesity in the United States. Interventions to treat obesity, including pharmaceutical, surgical, lifestyle, and environmental options, will be discussed. Prereq: DHN 101, DHN 212, or consent of instructor.

**#DHN 598 GLOBAL FOODS, DIET AND CULTURE. (3)**

This course provides a study of global factors influencing food habits, dietary patterns, and health. Students will examine the effects of cultural identity amongst people living across the United States as it relates to food choices, behaviors, and nutritional status. The nutritional value of global foods, strategies towards disease prevention, and interventions through nutrition to improve health outcomes will be discussed. Prereq: DHN 101 or DHN 212 or a comparable introductory nutrition course.

**#DHN 599 INTRODUCTION TO CULINARY MEDICINE. (3)**

This course will introduce students to the field of culinary medicine, which involves using both evidence-based nutrition and medicine knowledge and culinary skills to assist healthcare providers and nutrition professionals in supporting patients and their families in achieving and maintaining optimal health and wellness through diet. Students will learn key food preparation and food science principles and how those can be translated to modifying recipes for optimal health and provided as appropriate evidence-based educational resources for use in patient care. Students will apply this knowledge to prepare healthy, flavorful and delicious snacks and meals that are appropriate for individuals with chronic health conditions such as food allergies, Celiac disease, gastrointestinal disorders, heart disease, diabetes, hypertension, cancer, and obesity. Prereq: Admission to Graduate Certificate in Applied Nutrition and Culinary Medicine; Admission to MS degree programs in Nutrition and Food Systems or Science and Translation Outreach; Upper-level undergraduate students who have completed DHN 302; or, Consent of Instructor.

**DHN 600 RESEARCH METHODS IN NUTRITION AND FOOD SYSTEMS. (3)**

Students will study accepted research methodologies and scientific approaches in human nutrition and food systems. Emphasis is placed on understanding the research methods, study design, data collection, and evaluation of various nutrition related studies. Discussions include development of research aims and hypothesis, internal review board, collecting of primary and secondary data, measurement approaches, study designs, and key considerations in developing a thesis for publication. Prereq: Admission to graduate program and selection of graduate faculty mentor with approved research topic.

**\*DHN 603 ADVANCED COMMUNITY PROGRAM DEVELOPMENT. (3)**

This course focuses on the theory, practice, and evaluation of community programs to improve quality of life. Key concepts include the socio-ecological model, direct education combined with policy, systems, and environmental approaches, program evaluation, and implementation of evidence-based interventions. Some concepts, like logic models and social marketing, may appear to be simple and straightforward, but are actually quite complex. The course will employ a variety of teaching strategies; we will use experience and reflection to enhance the learning process. Discussions, projects, electronic communication and resources, and visual media will allow learners to interact with the content, instructor, and each other. Assignments are designed to help students learn how to effectively plan, develop, and evaluate community programs and strategies to promote healthy eating, active living, and a sustainable environment. Prereq: Admission to MS degree programs in Nutrition and Food Systems or Science and Translation Outreach OR enrollment in Graduate Certificate in Applied Nutrition and Culinary Medicine OR consent of instructor.

**DHN 605 FOOD SYSTEMS AND SOCIETY. (3)**

Food Systems and Society tracks food from farm to table, including growing, harvesting, processing, packaging, transporting, marketing, consumption, and disposal. Policy and culture determine who eats what and who benefits and loses in any given food system. As a result food systems vary considerably across the world with each evolving to affect overall health. The course will assess sustainability of food systems and explore the ethical, economical, socio-ecological, and environmental factors that affect local, regional, national, and global food system development. Content includes case study evaluations and current research in the field. Prereq: Graduate standing.

**DHN 607 FOOD RELATED BEHAVIORS. (3)**

This team-taught course will provide background in topics and methods in food related behaviors to students in Nutritional Sciences and other interested students. The course will follow a problem-based learning approach, and will consist of 3 out of 4 modules in any given year. The four modules will be Social and Cultural Perspectives on Food, Psychological Perspectives on Food and Food Behaviors, Challenges to Community Food Security, and International Issues in Nutrition.

**DHN 608 CHRONIC DISEASE MANAGEMENT AND PROCESS. (3)**

This course focuses on the etiology and pathophysiology of nutrition-related chronic diseases and conditions including obesity, hypertension, dyslipidemia, heart disease, diabetes, and cancer. Emphasis is placed on the biochemical and physiological mechanisms involved by which nutrients impact the prevention, nutrition care process-diagnosis, assessment, implementation of care, monitoring and evaluation, and progression of chronic diseases and conditions. Prereq: Graduate standing and minimum 3 credit hours of upper level advanced nutrition or DHN 510.

**DHN 610 MARKETING IN HOSPITALITY AND DIETETICS. (3)**

This course overviews the discipline of marketing as it relates to the hospitality and dietetics professions. Special emphasis will be placed on the analysis of the marketing environment, marketing strategies and the diversity of marketing practices used by the hospitality industry and dietetics profession. This course will provide opportunities for students to develop appropriate marketing approaches in today's increasingly competitive and complex global marketplace. Prereq: MKT 300 or HMT 320 or equivalent course.

**DHN 620 NUTRITION AND AGING. (2)**

Emphasis on current research in nutrition and aging, nutrition needs of the elderly and nutrition-related diseases associated with aging. Prereq: DHN 510 and 511 or equivalent. (Same as NS 620.)

**DHN 640 HUMAN NUTRITION: ASSESSMENT. (3)**

Assessment of dietary, anthropometric and biochemical parameters of nutritional status in health and disease. Lecture, two hours; laboratory, three hours per week. Prereq: DHN 510, DHN 511 or equivalent. (Same as NS 640.)

**DHN 648 MANAGEMENT OF HOSPITALITY AND DIETETICS ORGANIZATIONS. (3)**

This course will engage students with the theories and their application in the area of leadership and management of people, resources, finances, information and internal and external customers as they relate to dietetics, food service and hospitality professions. Prereq: Admission to graduate program, DHN 346 or equivalent course.

**DHN 690 ADVANCED WORK IN DIETETICS. (3)**

Evaluation of administrative practices in dietetics. This course will examine topics related to managing dietetics services including medical nutrition therapy protocols, dietetics outcomes research, parenteral and enteral support, clinical pathways, JCAHO requirements, state and institutional policy controls, reimbursement for dietetics services, in-patient and out-patient quality management, and hospital outreach programs. Prereq: Admission to graduate program. Lecture only course.

**DHN 704 CURRENT TOPICS IN NUTRITIONAL SCIENCES. (1)**

This course is designed to develop the student's independent thinking and critical analysis related to various nutritional sciences issues. These skills will be developed through reading assignments and group discussion related to current topics in nutrition. Prereq: Consent of instructor. (Same as CNU/NS 704.)

**DHN 748 MASTER'S THESIS RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed. (Same as NS 748.)

**DHN 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours. (Same as NS 768.)

**DHN 770 SEMINAR IN HOSPITALITY AND DIETETICS ADMINISTRATION. (1)**

Investigation of recent research in Hospitality and Dietetics Administration. May be repeated to a maximum of three credits.

**DHN 772 CURRENT TOPICS IN HOSPITALITY AND DIETETICS ADMINISTRATION. (2)**

Faculty from different disciplines will provide in-depth coverage of selected topics in Hospitality and Dietetics Administration.

**DHN 774 SEMINAR IN NUTRITION AND FOOD SYSTEMS. (3)**

This advanced participatory seminar focuses on the latest in nutrition and food systems research. Students will be expected to apply their knowledge of effective scientific communication, responsible conduct of research, and methods and technologies in nutrition and food systems through weekly readings, presentations, and class discussions. Prereq: Graduate standing and upper level graduate statistics.

**DHN 782 SPECIAL PROBLEMS. (1-6)**

Independent advanced work on a special problem in nutritional sciences. Prereq: Consent of graduate advisor. (Same as CNU/NS 782.)

**DHN 784 SPECIAL PROBLEMS IN FINANCIAL MANAGEMENT. (3)**

A current events approach to the financial and accounting decision-making process in dietetics and hospitality administration. The course will prepare advanced students in dietetics and hospitality administration to analyze and make sound financial decisions in settings relevant to the dietetics profession and the hospitality industry. Prereq: Admission to graduate program, ACC 201, ECO 201 and either FIN 300 or (DHN 340, DHN 342, and DHN 346).

**DHN 790 RESEARCH IN NUTRITIONAL SCIENCES. (0-6)**

Research work involving original investigation. May be repeated to a maximum of 18 credits. Prereq: Consent of graduate advisor. (Same as CNU/NS 790.)

---

## DIP                      Diplomacy and International Commerce

---

**DIP 600 SPECIAL TOPICS. (1-3)**

This course will vary in content depending on special needs or faculty availability.

**DIP 700 DYNAMICS OF DIPLOMACY. (3)**

This course explores the historical evolution of diplomacy, then focuses on post WWII diplomatic practice and especially the dynamics of diplomacy since the end of the Cold War. Emphasis will be placed on diplomacy's role in the international system, new tasks for diplomacy, and enhancing diplomatic skills in a new paradigm. Prereq: Permission of instructor.

**DIP 712 WEAK STATES AND INTERNATIONAL SECURITY. (3)**

This course reviews how the policy community has measured the weak state, revealing discrepancies in the quantifiable parameters, definitions, and categorizations, and analyze the efforts taken to address state weakness, particularly foreign economic and security assistance. It will review the five theoretical approaches to the weak state in the literature, which are informed by the international community's concerns with state weakness: development, intervention, post-colonialism, globalization and terrorism. The theory will be applied to specific cases of weak states in several regions (e.g., Africa, Asia, the Balkans, Latin America, the Middle East, and the Former Soviet States) and analyzes the threats they pose to international security.

## Course Descriptions

### DIP 715 DEMOCRACY AND INTERNATIONAL AFFAIRS. (3)

Discussion of the impact of the global spread of democracy on foreign policy and war. Prereq: Graduate status and consent of instructor. (Same as PS 735.)

### DIP 716 INTERNATIONAL TRADE POLICY AND PRACTICE. (3)

This course is designed to prepare students to function comfortably in either the trade policy formulation (public trade policy producers) or commercial environment (policy consumers). Although the course is organized in two discrete sections, throughout the course, the implications of policy on commercial practice and the reverse will be stressed.

### DIP 720 ECONOMIC STATECRAFT. (3)

This seminar course will explore how economic values and choices shape economic options, and the techniques used to pursue them in the diplomatic arena. Trade and fiscal techniques, financial policies, and sanctions will be explored in relationship to the interplay between economic and political/international relations theory, and the relevance of economic statecraft to achieving both economic and noneconomic goals.

### DIP 725 GEOPOLITICAL MODELING. (3)

Course uses large user friendly computer model of world's political/economic systems to explore topics such as globalization, development, energy security, and political instability from a theoretical and quantitative viewpoint. Prereq: STA 570 or permission of instructor.

### DIP 726 INTRODUCTION TO INTELLIGENCE. (3)

This course will introduce the student to the role of intelligence in U.S. national security policy-making.

### DIP 727 ANALYTICAL METHODS FOR INTELLIGENCE ANALYSIS. (3)

This course will introduce the student to the role of intelligence analysis in U.S. national security policy-making. It will be discussed and put to practical use the various analytical methods and techniques that are used by analysts within the Intelligence Community.

### DIP 730 CROSS-CULTURAL NEGOTIATION AND BARGAINING. (3)

A multidisciplinary graduate course using contemporary studies of negotiation and bargaining from the individual to the international level. Uses both public (Diplomatic) and private (Commercial) examples, including case studies and practice negotiations. Group and national differences are explored as well as the content and environment of negotiations. Prereq: Any one graduate course plus consent of instructor.

### DIP 734 AFRICA'S DEVELOPMENT CHALLENGES. (3)

Examination of challenges facing sub-saharan African countries in developing economic and politically sustainable societies.

### DIP 735 ENERGY SECURITY. (3)

This course uses the tools of economic analysis and economic statecraft to examine energy security. It will look at the connection between energy and the economy in both the U.S. and other states and the connections between energy and military security and power. It will include a detailed review of the U.S. energy economy, the international energy market, the economies of the major Middle Eastern states, and the Russian economy. At the end of the course each student will understand the history of energy security, be aware of the data sources for current policy analysis, be able to use the relevant tools of economic analysis including econometrics, and be familiar with the energy security policy debate both in the United States and in key foreign countries. Prereq: DIP 740 or ECO 672 or at least two semesters of undergraduate economic theory with grades of B or better. DIP 720 and DIP 750 recommended.

### DIP 740 GLOBALIZATION. (3)

This course examines the phenomenon of globalization by applying core theories of the international political economy. Subjects to be covered include economic and political definitions of globalization, the technological, economic, and political causes of globalization, and the effects of globalization on national politics and wealth. By the end of the course, students should be able to apply the basic international political economy analysis to both trade and financial issues, giving them the necessary skills to prepare convincing policy analyses, political advocacy programs, and business plans. Lecture/Discussion hours per week. Prereq: Graduate status, a modest undergraduate or graduate background in Foreign Affairs or permission of the instructor.

### DIP 742 NATIONAL SECURITY POLICY. (3)

This course provides a foundation in the major debates on national security policy.

### DIP 748 MASTER'S THESIS RESEARCH. (0)

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

### DIP 750 DEFENSE STATECRAFT. (3)

Students will gain familiarity with the key military policy issues that confront government officials, and they will learn to evaluate the claims of journalists and advocacy organizations that confront informed American opinion on a day-to-day basis. Prereq: Graduate status.

### DIP 755 POLITICS AND DIPLOMACY OF THE MIDDLE EAST. (3)

Analyzes the interplay between politics and diplomacy in the Middle East. Prereq: Permission of instructor.

### DIP 756 DIPLOMACY OF NUCLEAR WEAPONS. (3)

This course explores diplomatic issues with developing and maintaining, securing, restricting and eliminating nuclear weapons.

### DIP 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)

May be repeated to a maximum of 12 hours.

### DIP 777 RESEARCH PROBLEMS IN INTERNATIONAL RELATIONS. (3)

This seminar focuses on research strategies that can be utilized in dealing with problems in international relations. May be repeated once with consent of instructor. Prereq: PS 674 or consent of instructor.

### DIP 780 INTERNATIONAL SCIENCE AND TECHNOLOGY POLICY. (3)

A multidisciplinary graduate course that investigates policy questions and the policy process surrounding developments in international sciences and technology. This course will focus on the intersection of scientific research, technological applications and change, and business and governmental activities in these areas that impact upon international relations. Prereq: Consent of instructor.

### DIP 795 SPECIAL PROBLEMS IN DIPLOMACY AND INTERNATIONAL COMMERCE. (3)

Specially designed independent study course taken under the supervision of various instructors. May be repeated to a maximum of six credits. Prereq: Permission of instructor.

## DIS Decision Science and Information Systems

### DIS 600 PRODUCTION MANAGEMENT. (3)

This course exposes the MBA generalist to the functional area of production in both manufacturing and service sectors. Topics include tactical decisions in production and operative relationships with corporate strategy. The course emphasizes operations planning and control. Prereq: Graduate standing; MGT 611, ECO 610, ACC 628, DIS 650, ECO 611, FIN 600, DIS 651, MKT 600.

### DIS 612 SUPPLY CHAIN OPERATIONS. (3)

An introduction to the terminology, concepts, and skills related to supply chain management. Students develop an understanding of the complexities associated with the movement of goods and information, and how they affect the mission of the firm. Discussions address the various processes and activities within an organization and how they interface with other members of the supply chain.

### DIS 620 MANAGEMENT INFORMATION SYSTEMS IN DECISION MAKING. (3)

In-depth consideration of the value of information in managerial decision making. Topics include issues in design and evaluation of management information systems, decision support systems, and business expert systems. Prereq: DIS 651.

### DIS 621 BUSINESS EXPERT SYSTEMS. (3)

Introduction to expert systems and artificial intelligence in the business setting. Discussions include past and current applications of expert systems in business and considerations of future application possibilities. Prereq: DIS 620.

### DIS 622 BUSINESS DATA SYSTEM ANALYSIS AND DESIGN. (3)

An introduction to the comparative analysis and business use of various data models. Topics include the theory and design of information storage and retrieval procedures in the context of business information needs. Prereq: DIS 620, CS 101 or consent of instructor.

### DIS 623 BUSINESS DECISION SUPPORT SYSTEMS. (3)

Discussion of business decision support system concepts and the applications of these concepts in business organizations. The theoretical development of the decision support system concept is analyzed through review of important literature in this area. Emphasis is placed on the impact of technological advances which form the basis of decision support system software. Current decision support systems are studied and future likely applications considered. Prereq: DIS 620.

### DIS 624 MANAGEMENT OF INFORMATION RESOURCES. (3)

The course is designed to prepare students to understand and analyze major issues related to the management of information resources, evaluate the current state of information resources management within an organization, and participate in the management of such resources. Prereq: DIS 620 or consent of instructor. (Same as MGT 624.)

### DIS 651 QUANTITATIVE ANALYSIS IN BUSINESS DECISION MAKING. (3)

A study of key problem formulation and solution procedures in business decision making. The topics studied include statistical techniques integrated in decision making under uncertainty, decision trees, queuing problems, and value of information. A major segment of the course is devoted to the study of linear programming problems, sensitivity analysis, assignment problems and transportation problems. Prereq: MBA standing.

### DIS 695 INDIVIDUAL WORK IN DSIS. (3)

Students confer individually with instructor. May be repeated to a maximum of six credits. Prereq: Consent of the instructor.

### DIS 700 TOPICS IN OPERATIONS MANAGEMENT. (3)

To review the various topics of operations management and to survey the status of the art research in each topic area. Research methodology and research opportunities in each topic area will be identified. May be repeated to a maximum of nine credits.

**DIS 720 MANAGEMENT INFORMATION SYSTEMS THEORY. (3)**

A theoretical consideration of the role of MIS in managerial decision making. Emphasis is placed on current research in MIS and interrelationships with management science and operations management. Prereq: Consent of instructor.

**DIS 753 SEMINAR IN MANAGEMENT SCIENCE. (3-6)**

Each semester some topic in management science such as simulation, queuing theory, stochastic processes, numerical methods, and Bayesian Decision Theory will be studied intensively. Prereq: DIS 751, 752.

**DIS 780 STUDIES IN DECISION SCIENCE AND INFORMATION SYSTEMS. (3)**

This course will analyze the current research topics of interest in the decision sciences. Possible areas of study may include: network management, multiple-criteria decision making; data envelopment analysis, combative decisions, and models for service organizations. May be repeated to a maximum of nine credits. Prereq: DIS 751 or consent of instructor.

**DIS 790 SPECIAL TOPICS IN MANAGEMENT DECISION SYSTEMS (Subtitle required). (3)**

This is a variable topic course enabling focused doctoral student investigation of current research areas. It is anticipated that the course grade will be based on individual student semester research papers in the course topic area. May be repeated to a maximum of 12 credits under different subtitles. Prereq: Consent of instructor.

---

## DMT Interior Design, Merchandising, and Textiles

---

**DMT 520 TEXTILES FOR INTERIORS. (3)**

Selection, cost, expected performance and care of textiles used in residential and commercial interiors. Prereq: MAT 120.

---

## DR Diagnostic Radiology

---

**DR 815 FIRST-YEAR ELECTIVE, DIAGNOSTIC RADIOLOGY. (1-3)**

With the advice and approval of his or her faculty adviser, the first-year student may choose approved electives offered by the Department of Diagnostic Radiology. The intent is to provide the student an opportunity for exploration and study in an area which supplements and/or complements required course work in the first-year curriculum. Pass-fail only. Prereq: Admission to first year, College of Medicine.

**DR 825 SECOND-YEAR ELECTIVE, DIAGNOSTIC RADIOLOGY. (1-4)**

With the advice and approval of his or her faculty adviser, the second-year student may choose approved electives offered by the Department of Diagnostic Radiology. The intent is to provide the student an opportunity for exploration and study in an area which supplements and/or complements required course work in the second-year curriculum. Pass-fail only. Prereq: Admission to second-year medical curriculum and approval of adviser.

**DR 850-899 FOURTH-YEAR ELECTIVE FOR MEDICAL STUDENTS. (1-6)**

With the advice and approval of the Third and Fourth Year Curriculum and Student Progress Committee, the fourth-year student may choose approved electives offered by the various departments in the College of Medicine. The intent is to provide the student an opportunity to develop his fund of knowledge and clinical competence. Prereq: Admission to the fourth year, College of Medicine and/or by the permission of Third and Fourth Year Curriculum and Student Progress Committee.

**Approved electives:**

**DR 850 ELECTIVE: DIAGNOSTIC RADIOLOGY**  
**DR 851 RESEARCH IN DIAGNOSTIC RADIOLOGY**  
**DR 855 NUCLEAR MEDICINE**  
**DR 856 PEDIATRIC RADIOLOGY**  
**DR 890 ELECTIVE: RADIOLOGY OFF-SITE**

---

## DS Data Science

---

**#DS 272 INTRODUCTION TO USER EXPERIENCE DESIGN. (2)**

This course is supplemental to PD 221 Product Design Studio II, serving as an introduction to basic concepts of user experience (UX) design. Students will learn how to create engaging interactions between users and products/services through a holistic user-centered approach to design. Students will examine the history and evolution of user experience design and define key terms associated with the field. Students will explore a range of design research methods and discuss how these practices, along with theories regarding human behavior and perception, inform the user experience design process. Projects from PD 221 and other studio courses within the College of Design will serve as case studies for analysis and application of course content. (Same as BME 272.)

**#DS 372 USER EXPERIENCE + INTERFACE DESIGN. (1)**

This course is supplemental to PD 321 Product Design Studio III and introduces principles and methodologies of user interface and interaction design as critical elements of user experience design. Students will create interaction diagrams and develop prototypes for products and/or services. Students will learn and apply principles of visual communication, typography and motion design to create visually appealing, intuitive and feedback-based user interfaces. Students will learn how to conduct a range of usability tests to evaluate and improve interface designs. Projects from PD 321 and other studio courses within the College of Design will serve as case studies for analysis and application of course content. Prereq: DES 272. (Same as BME 372.)

**#DS 710 RESEARCH SEMINAR IN DATA SCIENCE. (1)**

An independent study course that aims to expose students to a broad range of research and professional topics in data science, and enhance students' ability to do research. Students read research papers and professional articles, attend colloquium/seminar talks on topics in data science as directed by the instructor, prepare written reports on topics and make in-class presentations. Prereq: Enrollment in the MS or PhD program in Data Science.

**#DS 711 MASTER'S PROJECT IN DATA SCIENCE. (3)**

Design and implementation of a large data science project under the supervision of a faculty member. Prereq: The course is open only to students in the MS program in Data Science who completed the program's core requirement.

**#DS 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

---

## DSP Discovery Seminar Program

---

**DSP 110 SOCIAL SCIENCES: (Subtitle Required). (3)**

An introductory course of an interdisciplinary, topical, or experimental nature which may be used toward partial fulfillment of the social science requirement in the University Studies Program. Each proposal must include the discipline in which the course is being offered and the options available to the student to complete the USP social science requirement. Each proposal must be approved by the College of Arts and sciences and the Dean of Undergraduate Studies.

**DSP 120 HUMANITIES: (Subtitle Required). (3)**

An introductory course of an interdisciplinary, topical, or experimental nature which may be used toward partial fulfillment of the humanities requirement in the University Studies Program. Each proposal must include the discipline in which the course is being offered and the options available to the student to complete the USP humanities requirement. Each proposal must be approved by the College of Arts and sciences and the Dean of Undergraduate Studies.

**DSP 130 NATURAL SCIENCES: (Subtitle Required). (3)**

An introductory course of an interdisciplinary, topical, or experimental nature which may be used toward partial fulfillment of the natural science requirement in the University Studies Program. Each proposal must include the discipline in which the course is being offered and the options available to the student to complete the USP natural science requirement. Each proposal must be approved by the College of Arts and sciences and the Dean of Undergraduate Studies.

**DSP 200 GENERAL RESEARCH SKILLS: (Subtitle Required). (3)**

Course provides the basic skills required to conduct research and other scholarly activities. Prereq: All students must be actively engaged (for an average of at least ten hours per week) in a research or other scholarly activity under the mentorship of a UK faculty member through the UK Undergraduate Research Program (UKURP).

---

## DST Digital Studies

---

**#DST 200 DIGITAL LITERACY. (3)**

This course teaches elementary and fundamental approaches to digital production and critique by asking students to consider cultural, technological, aesthetic, political, and other objects of digital study.

**#DST 300 INTRODUCTION TO DIGITAL STUDIES. (3)**

DST 300 introduces students to basic and introductory ideas associated with the field of digital studies. Prereq: DST 200.

**#DST 301 PODCASTING AND SOUND. (3)**

In this course, students will study recorded sound and produce their own recordings. Course texts will include podcast episodes and readings from the field of sound studies. Major projects will include a student-produced podcast, a proposal for the podcast, and audio exercises.

**#DST 310 WRITING MARKUP. (3)**

In this course, students will explore the history, theory, and application of markup languages, such as HTML or SGML. Markup languages are the underlying structure and instructions for the web and all digital artifacts.

**#DST 320 DIGITAL HUMANITIES. (3)**  
 While the humanities traditionally include literature, the arts, music, philosophy, and history, the digital humanities combines these traditional areas of humanistic inquiry to theories of computation, online archives, data mining, visualization, mapping. But how, why, and to what end? This course provides an overview of the Digital Humanities as an emerging area of interdisciplinary study relevant to scholarly and professional work. In this course, we'll explore key theories and concepts relevant to the Digital Humanities. As a class, we will explore through our conversations and digital projects how these ideas and new tools for composing can better situate our work within the digital age we live within.

## EAP Education Abroad Program

**\*EAP 400G EDUCATION ABROAD ON UK-SPONSORED PROGRAM. (0)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK-Sponsored Education Abroad Program. Registration in the course would constitute full-time status. This course may only be taken Pass-Fail. Students will be enrolled in the course upon payment of the non-refundable program fee deposit. The balance of the program fees will be charged as an EAP 500 course fee. The suffix indicates the particular UK-sponsored program. Upon completion of the program, Education Abroad at UK will submit to the Registrar the credit and grades given by the Program Director for the approved program courses. Prereq: Approval by each student's academic advisor, the program director and Education Abroad at UK.

**EAP 410G EDUCATION ABROAD ON EXCHANGE PROGRAM: COST. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. COST-Consortium for Overseas Teaching. Prereq: Approval by each student's academic advisor and Education Abroad at UK.

**EAP 431G EDUCATION ABROAD ON EXCHANGE PROGRAM: TFE. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. TFE-Tuition/Fees. Prereq: Approval by each student's academic advisor and Education Abroad at UK.

**EAP 432G EDUCATION ABROAD ON EXCHANGE PROGRAM: TLM. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. TLM-Tuition/Lodging/Meals.

**EAP 433G EDUCATION ABROAD ON EXCHANGE PROGRAM: TLO. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. TLO-Tuition/Lodging.

**EAP 434G EDUCATION ABROAD ON EXCHANGE PROGRAM: TMO. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. TMO-Tuition/Meals.

**EAP 435G EDUCATION ABROAD ON EXCHANGE PROGRAM: TPE. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. TPE-Tuition/Plus Other.

**EAP 436G EDUCATION ABROAD ON EXCHANGE PROGRAM: ISEP. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. ISEP.

**EAP 437G EDUCATION ABROAD ON EXCHANGE PROGRAM: DES. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. DES.

**EAP 438G EDUCATION ABROAD ON EXCHANGE PROGRAM: HSC. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. HSC.

**EAP 440G EDUCATION ABROAD ON EXCHANGE PROGRAM: BUS. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. BUS.

**EAP 441G EDUCATION ABROAD ON EXCHANGE PROGRAM: BAE. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. BAE.

**EAP 442G EDUCATION ABROAD ON EXCHANGE PROGRAM: EGR. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. EGR.

**EAP 443G EDUCATION ABROAD ON EXCHANGE PROGRAM: CHS. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. CHS.

**EAP 444G EDUCATION ABROAD ON EXCHANGE PROGRAM: ASH. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. ASH.

**EAP 445G EDUCATION ABROAD ON EXCHANGE PROGRAM: FAH. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. FAH.

**EAP 446G EDUCATION ABROAD ON EXCHANGE PROGRAM: PH. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. PH.

**EAP 447G EDUCATION ABROAD ON EXCHANGE PROGRAM: ED. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. ED.

**EAP 448G EDUCATION ABROAD ON EXCHANGE PROGRAM: CIS. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. CIS.

**EAP 533 EDUCATION ABROAD ON EXCHANGE PROGRAM: TFE. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. TFE-Tuition/Fees. Prereq: Approval by each student's academic advisor and Education Abroad at UK.

**EAP 543 EDUCATION ABROAD ON EXCHANGE PROGRAM: TFE. (0-1)**  
 A course designed for undergraduate, graduate and non-degree students who participate in a UK Exchange Program. Students will be enrolled in this course by their Education Abroad advisor upon submission of the required application materials to Education Abroad at UK. Enrollment in this course will generate the appropriate exchange fee depending on the type of exchange. The type of exchange will be indicated by the title suffix. TFE-Tuition/Fees. Prereq: Approval by each student's academic advisor and Education Abroad at UK.

**EAP 599 STUDY ABROAD. (1)**

A course designed for undergraduate and graduate students who go abroad for study following a plan developed as part of their academic program and who are not otherwise registered at the University during the period overseas. Registration in the course would constitute full-time status. The course may be taken on a pass-fail basis for undergraduate students and audited by graduate students. Evaluation by the academic adviser will be an element of the plan. May be repeated to a maximum of three credits. Prereq: Approval by each student's academic department, the Registrar, and the Office for International Programs.

**ECO Economics****ECO 101 CONTEMPORARY ECONOMIC ISSUES. (3)**

A basic course in the analysis of contemporary economic issues with emphasis on current economic topics such as inflation, poverty and affluence, urban congestion, and environmental pollution. (Credit will not be given for this course to students who have received prior credit in ECO 201 and/or 202.)

**ECO 201 PRINCIPLES OF ECONOMICS I. (3)**

The study of the allocation of scarce resources from the viewpoint of individual economic units. Topics include household and firm behavior, competitive pricing of goods and resources, and monopoly power.

**ECO 202 PRINCIPLES OF ECONOMICS II. (3)**

A study of how society's needs are satisfied with the limited resources available. Topics include contemporary issues such as inflation, unemployment, economic growth, international dependencies, and how public policy deals with them. A critical understanding of the U.S. and global economies will enhance your value as a manager or executive of a business (whether for-profit or non-profit), as a family member dealing with jobs and financial decisions, and as a voter in a democracy. The course will allow you to become knowledgeable of, and able to critically think about, the major macroeconomic issues of unemployment, jobs, recessions, economic growth, inflation, deflation, oil prices, monetary policy, the Federal Reserve, fiscal policy, budget deficits, the national debt, international trade, international finance, and the financial system. Prereq: ECO 201.

**ECO 301 ECONOMIC PRICE THEORY. (3)**

ECO 301 is an undergraduate course in microeconomic theory designed for students who enjoy economics but are NOT planning on selecting a major in economics. We will study the behavior of individual decision makers: households, firms, resource owners and the interaction of such individual economic units in markets. We will study the role that prices play in guiding the allocation of resources in a market economy. To reinforce students' understanding of microeconomic theory, and also to demonstrate the relevance of particular theoretical concepts, we will include numerous real world situations as we apply each topic. Students who have already taken ECO 401 are not allowed to take ECO 301. Prereq: ECO 201 and ECO 202 or the equivalent.

**ECO 311 BUSINESS ECONOMICS. (3)**

This course applies basic economic principles to the types of problems faced by business decision makers. Particular attention is paid to the economics of organizations and to the economics of firm strategy. Topics covered will include the nature of the firm, the make or buy decision, corporate governance, distribution channels, external market structure, selling decisions, and rivalry and strategy. Prereq: ECO 201 and ECO 202 or equivalent.

**ECO 312 MONETARY ECONOMICS. (3)**

This course analyzes how savers and borrowers meet in financial markets to allocate resources to their most productive uses. Major topics include the theory of pricing of financial assets, equilibrium determination of asset prices, risk and term structures of interest rates, how moral hazard and adverse selection inhibit credit allocation, fundamentals of commercial banking, and central bank policies. Prereq: ECO 201 and ECO 202 or equivalent.

**ECO 327 STRATEGIC DECISION MAKING: AN INTRODUCTION TO GAME THEORY. (3)**

The course is an introduction to strategic decision making and game theory. Ideas such as Nash equilibrium, dominant strategies, evolutionary stability, and asymmetric information are applied to a variety of strategic decision making problems taken from economics, computer science, politics, and biology. Prereq: A grade of B or better in MA 113 or MA 132 or MA 137 or consent of department. Students should have a strong background in first semester calculus. (Same as MA 327.)

**ECO 365 SOCIAL ECONOMIC ORGANIZATION. (3)**

This course examines the major economic systems of the world. Students will develop a general understanding of how economic systems work and how economic theory interacts with government policy, history, and culture to explain economic performance. Prereq: ECO 201 and ECO 202 or equivalent.

**ECO 367 AMERICAN ECONOMIC HISTORY. (3)**

The development of the American economy will be examined within the general framework of economic theory. Major emphasis will be given to the long-run process of economic growth of the economy from the colonial period to the present. Prereq: ECO 201 and ECO 202 or the equivalent.

**ECO 370 THE GLOBAL ECONOMY. (3)**

This course explores the theoretical foundations of International Trade including the basics of why countries trade, factors that explain the pattern of trade, the effects of trade on welfare and the distribution of income, and various policy issues. The course also provides an examination of topics in International Finance such as how international financial markets are structured and how currencies across countries relate to each other in foreign exchange markets. Prereq: Courses include ECO 201 AND ECO 202 or the equivalent. Students who have already taken ECO 471 or ECO 472 may not take ECO 370 and ECO 370 may not be taken concurrently with ECO 471 or ECO 472. Students majoring in Foreign Language and International Economics are not allowed to take ECO 370. While other economics majors through the College of Business and Economics and the College of Arts and Sciences are allowed to take this course, it is ideal for non-majors who have an interest in the global economy and students pursuing a Minor in International Business and Economics.

**ECO 379 THE ECONOMICS OF PUBLIC POLICY, LAW, AND GOVERNMENT. (3)**

This course develops the economics view of the role of government from both normative and positive perspectives. Conditions under which markets perform well are presented, as well as cases where there is market failure. Legal and social institutions that support markets are discussed, as are government policies to intervene in markets. Economic models of the operation of government are developed to understand possible shortcomings of government action, as well further linkages of economics to law. The economics perspective on income redistribution is presented along with examples from specific government programs. Prereq: ECO 201.

**ECO 381 ENVIRONMENTAL ECONOMICS. (3)**

This class will focus on the role of the environment and related issues in the theory and practice of economics. Topics covered include externalities caused by market failures, environmental policies and regulation, basic techniques used in the valuation of non-market goods and amenities, and welfare calculation and cost-benefit analysis. Prereq: ECO 201 and ECO 202 or equivalent.

**ECO 383 HEALTH ECONOMICS. (3)**

This course examines the organization, financing, and management of the U.S. health care system and programs, and emphasizes contemporary health policy concerns. Prereq: ECO 201 and ECO 202 or equivalent.

**ECO 385 LAW AND ECONOMICS. (3)**

This course will survey the field of law and economics. We will study the core areas of common law – property, contract, and tort. We will consider the sometimes-competing goals of equity and efficiency and their roles in the formulation of legal decisions. We will study the Coase theorem, and will see how the presence of transactions costs, incomplete information, and risk aversion can influence the outcome of any particular legal decision. Finally, we will examine criminal law, optimal punishment, and optimal enforcement. Prereq: ECO 201 and ECO 202 or the equivalent.

**\*ECO 391 ECONOMIC AND BUSINESS STATISTICS. (3)**

Statistical ideas are part of the language of business. An understanding of statistics will enhance your value as a manager or executive. Many of the upper division courses in Accounting, Agriculture Economics, Economics, Finance, Management, Marketing, and Public Policy use and build upon the statistical techniques and analysis learned in ECO 391. This course provides a survey of statistical techniques relevant to modern economics and business, with major emphasis on estimation, hypothesis testing, correlation, modeling, analysis of variance, regression, and forecasting. Prereq: STA 296 or STA 381 or equivalent.

**#ECO 392 INTRODUCTION TO RESEARCH IN ECONOMICS. (3)**

In this course students will apply economic theory to real world problems and concerns, learn where resources and data can be located, use statistical methods to analyze and evaluate the application of economic theory and reasoning, and gain an appreciation for the value of economic reasoning and research, while also recognizing the limitations of its application. Students will also learn to write a final paper and effectively present it to their fellow students. Prereq: The course has two prerequisites ECO 202 and ECO 391. Students who have already taken ECO 491G cannot take ECO 392 and ECO 392 cannot be taken concurrently with ECO 491G.

**ECO 393 SPORTS ECONOMICS. (3)**

This course focuses on the application of economic theories to sports and the sports industry and understanding the behavior of economic agents in sports. Students who complete the course will gain insight into economics, understand how to apply economic models to explain observed behavior in sport, and appreciate empirical economic evidence generated from sports-related data. Prereq: ECO 201 and ECO 202 and ECO 391 or the equivalent.

**ECO 395 INDIVIDUAL WORK IN ECONOMICS. (1-6)**

Students confer individually with the instructor. Written paper usually expected and filed in chairperson's office. May be repeated to a maximum of six credits. Prereq: GPA of 3.0 in major, approval of instructor and chairperson.

**ECO 401 INTERMEDIATE MICROECONOMIC THEORY. (3)**

An analysis of the behavior of consumers and firms, price determination, various market structures, and income distribution. Prereq: ECO 201 or equivalent with a grade of C or higher, ECO 202 or equivalent with a grade of C or higher and MA 113 or MA 123 or equivalent.

**ECO 402 INTERMEDIATE MACROECONOMIC THEORY. (3)**

National income concepts, the determination of aggregate income and employment, the theory of money and inflation and problems of economic growth. Prereq: ECO 202 or equivalent and ECO 401 taken previously or permission of instructor.

**\*ECO 410 CURRENT ISSUES IN ECONOMICS (Subtitle required). (3)**

The course addresses relevant topics in economics. May be repeated for a maximum of six credits under different subtitle. Prereq: ECO 202, ECO 391, ECO 401 and/or ECO XXX to be identified by instructor upon time of offering.

**#ECO 430G COST BENEFIT ANALYSIS. (3)**

Cost-Benefit Analysis uses economic tools to identify and quantify how society values the outcomes of public policies. This course examines how to identify these costs and benefits, addresses uncertainty, evaluates research techniques used to measure policy outcomes, and discusses methods for valuing these outcomes. Prereq: ECO 401 or equivalent or consent of instructor.

**ECO 450G THE ECONOMICS OF POVERTY AND WELFARE PROGRAMS. (3)**

Examines the economic conditions of the poor in the U.S., theories of poverty, and major redistribution programs in the U.S. The course will study the economic impacts of such programs as Social Security, Medicare, Aid to Families with Dependent Children, Food Stamps, Medicaid, and child care subsidies. Prereq: ECO 401 or equivalent or consent of instructor.

**ECO 461 MARKET STRUCTURE AND ANTI-TRUST POLICY. (3)**

A study of the relationship between industry performance and market structure, and the role and effect of the government's anti-trust policies. Prereq: ECO 401 or equivalent.

**ECO 463 ANALYSIS OF BUSINESS CONDITIONS. (3)**

A study of economic factors causing fluctuations in aggregate economic activity and the methods of forecasting business activity. Prereq: ECO 202 or equivalent, and ECO 391.

**ECO 471 INTERNATIONAL TRADE. (3)**

This is advanced economic course in international trade. The first part of the course covers the basics of why countries trade, what explains the pattern of trade that we observe and what are the effects of trade on welfare and the distribution of income. The second part of the course covers issues concerning trade policy and looks at the positive and normative effects of trade policy and trade agreements as well as investigating topics of current interest. While the focus of the course is on theory, students will also be exposed to many applications of the theory as a means of both explaining the economic intuition and encouraging students to analyze the world around them from an economic perspective. Prereq: ECO 401 or equivalent. Agricultural Economics majors may substitute AEC 303 for this prerequisite. (Same as AEC 471.)

**ECO 472 INTERNATIONAL MONETARY ECONOMICS. (3)**

This course deals with macroeconomic and financial aspects of the open economy. Main subjects include the balance of payments, exchange rate determination, and macroeconomic theory and policy in an open economy. Students are exposed to basic concepts such as purchasing power parity, interest parity, monetary models of the exchange rate, and the Mundell-Fleming model. Current issues for discussion include currency crises, pros and cons of international capital flows, and the choice of exchange rate regime. Prereq: ECO 402 or consent of instructor.

**ECO 473G ECONOMIC DEVELOPMENT. (3)**

A comparative study of economic progress in selected countries; growth patterns, theories of development and capital formation, interaction of social and economic change. Prereq: ECO 401 or equivalent or consent of instructor. (Same as AEC 473G.)

**ECO 477 LABOR ECONOMICS. (3)**

Application of economic principles to analyze the operation of labor markets. Topics covered include: theories of labor movements, comparative analysis of unionism in different economies, labor supply, labor demand, human capital, collective bargaining, public policy and the operation of labor markets. In addition, selected topics such as female and minority employment, social security, and industrial conflict will be covered. Prereq: ECO 401 or equivalent.

**ECO 479 PUBLIC ECONOMICS. (3)**

An application of economic analysis to the study of the role of government. Emphasis is on the reasons for and the effects of government intervention in the economy. Topics covered include: market failure, public goods and externalities, welfare policy, voting and public choice, taxation, public debt and cost-benefit analysis. Prereq: ECO 401 or equivalent. Agricultural Economics majors may substitute AEC 303 for this prerequisite. (Same as AEC 479.)

**ECO 491G APPLIED ECONOMETRICS. (3)**

To provide the student with a firm foundation in the design and estimation of economic models, empirical analysis of economic relationships, and forecasting. Emphasizes the structure and utilization of economic models. Prereq: ECO 391, ECO 401, and ECO 402 or equivalent or consent of instructor. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

**ECO 499 SEMINAR IN ECONOMICS (Subtitle required). (3)**

Reading, research and discussion in a seminar format to illuminate problems of historical and contemporary interest in areas of special faculty competence. May be repeated to a maximum of nine credits, but may not be repeated under the same subtitle. Will be limited to a maximum of 15 students. Prereq: ECO 391, ECO 401, and ECO 402 or equivalent. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

**ECO 590 INTRODUCTION TO QUANTITATIVE ECONOMICS I. (3)**

An introduction to mathematical approaches to economic theory. Emphasis on linear models, constrained optimization, and techniques used in comparative statics. Prereq: ECO 401 and MA 213, or graduate status, or consent of instructor. (Same as AEC 590.)

**ECO 601 ADVANCED MICROECONOMIC THEORY. (3)**

An intensive course covering microeconomic theory and its various methodological and analytical techniques. Prereq: ECO 401 or consent of instructor.

**ECO 602 MACROECONOMIC THEORY. (3)**

An analysis of a market clearing, general equilibrium macroeconomic model. Emphasis on theoretical foundations of relevant behavioral functions and comparative statics. Not open to those with credit in ECO 761. Prereq: ECO 402 or consent of instructor.

**ECO 603 RESEARCH METHODS AND PROCEDURES IN ECONOMICS. (3)**

The basic procedures and methods of research in economics are considered from the standpoint of their applicability to problem solving and discovery of new scientific facts and generalizations in economics. Definition of the problem, statement of hypothesis, research design, data collection methods, and data analysis constitute the major topics. Attention is given to proper style and preparation of research reports in economics.

**ECO 610 MANAGERIAL ECONOMICS. (3)**

Analysis of applications of economic theory to management decision making. Such problems as demand and cost determination, pricing, and capital budgeting are treated. Prereq: Graduate standing, MA 123 or its equivalent.

**ECO 619 SKILL DEVELOPMENT FOR APPLIED ECONOMIC ANALYSIS. (3)**

Calculus, matrix algebra, mathematical statistics to understand basic economic models and applications and the fundamentals of econometric analysis. The intent of this course is to provide and develop the tools the students will need to engage in applied economic analysis and that will be used in subsequent courses in the MS in Economics Program. Prereq: MA 114 or its equivalent or consent of the instructor.

**ECO 621 APPLIED MICROECONOMICS. (3)**

This course covers essential microeconomic models and issues for the advanced applied economist and is the foundational course for the microeconomics in the applied track of the MS in economics program. The focus is on topics and methods most frequently used and relied upon in applied business and policy problems. By doing so, the course will prepare students for subsequent coursework for the applied MS track. Additionally, it will strive for students to gain strong intuitive skills regarding how to approach applied economics problems and their related empirical applications. Prereq: ECO 401 or its equivalent or consent of the instructor.

**ECO 622 MACROECONOMICS FOR APPLIED ECONOMISTS. (3)**

An applied analysis of macroeconomic conditions useful to a professional business economist is presented. Emphasis is on blending mainstream economic models of the economy with data to interpret current conditions, prospects for future conditions, and monetary and fiscal policies that influence these conditions. Prereq: ECO 402 (Intermediate Macroeconomics) or an equivalent course.

**ECO 623 ECONOMETRICS FOR APPLIED ECONOMICS. (3)**

This course examines a variety of topics in applied econometrics. The course begins with a review of the classic linear regression model and ordinary least squares estimation. The primary focus of the class is to examine how estimation can be done when the classic model doesn't apply. Topics include endogenous regressors and instrumental variables, limited dependent variables models and maximum likelihood estimation, unobserved heterogeneity and panel data methods. Prereq: ECO 491 or equivalent or consent of instructor.

**ECO 624 EMPIRICAL DATA MANAGEMENT. (3)**

This course will cover the basic ways that economic data can be obtained. The course will cover obtaining data from data from the web, from APIs, and from colleagues in various formats including raw text files, binary files and databases. It will also cover the basics of data cleaning and how to make data operational. Organized data dramatically speeds downstream data analysis tasks. The course will also cover the components of a complete data set including raw data, processing instructions, codebooks, and processed data. The course will cover the basics needed for collecting, cleaning and sharing data. Particular points of emphasis will include reading and writing datasets, data cleaning, creating, changing and labeling variables and values, automating your work, combining and reshaping files, processing observations across subgroups, .do file programming, and programming using .ado files. Prereq: ECO 491 or its equivalent or consent of the instructor.

**ECO 625 PREDICTIVE MODELS AND FORECASTING. (3)**

This course provides students with an overview of modern techniques in the forecast of time series used in a variety of applications in the private and public sectors including revenue and sales forecasting. As an applied course the techniques will be motivated by specific practical problems and will be put to use in forecasting practices. The course covers auto-regressive and moving average models, distributed lag models, forecasting, Vector Auto-Regression, unit roots and testing, and auto-regressive conditional heteroskedasticity. Prereq: ECO 623 or its equivalent.

**ECO 631 BUSINESS ECONOMICS. (3)**

ECO 631 studies the economics of organizations and the economics of strategy. The first half of the course applies transactions costs and principal-agent theories to study the internal organization of the firm. Topics to be covered include the boundaries of the firm, corporate governance, choice of production process, and internal incentive systems. The second half of the course applies economic tools to the analysis of firm strategy. Topics to be covered include basic cost and demand conditions, economies of scale and scope, product differentiation, entry, exit and mobility conditions, price discrimination and commodity bundling, vertical control, and rivalry and strategy. Basic tools of game theory and asymmetric information are integral parts of this course. Prereq: ECO 621 or its equivalent or consent of the instructor.

**ECO 652 PUBLIC POLICY ECONOMICS. (3)**

Principles and practices of economical resource management in the governmental sector: tax and expenditure types, intergovernmental fiscal cooperation, debt financing, budgeting and financial planning. Prereq: ECO 201 or equivalent and MPA or MPP program status or permission of department. (Same as PA 652.)

**ECO 653 HEALTH ECONOMICS. (3)**

This course applies general theoretical principles of economics to the health care sector. The basic approach is to recognize the importance of scarcity and incentives, allowing for differences peculiar to health. The demand and supply of health and medical care are examined as they involve physicians, nurses and hospitals. The competitiveness of their markets, health insurance and the role of government are explored. Special topics include regulation and planning, benefits-cost analysis, and reform health plans. Prereq: The economics prerequisite can be met in three ways: (a) an undergraduate principles course in microeconomics and HA/PA 652; (b) an undergraduate microeconomics principles course and a graduate course in managerial economics; or (c) an undergraduate microeconomics principles course and an intermediate microeconomics course. (Same as PA 636.)

**ECO 654 BENEFIT-COST ANALYSIS. (3)**

Principles, practices and applications of applied welfare analysis are the content of this course. The basic theory of benefit-cost analysis is presented and the relevance of implementation analysis in policy analysis is established. Prereq: PA 652. (Same as PA 680.)

**ECO 672 WORLD TRADE AND COMMERCIAL POLICY. (3)**

An analysis of trade patterns and the implication of government policy on trade, in the light of both economic theory and empirical findings. Prereq: Successful completion of an upper division undergraduate or graduate level economics course.

**ECO 674 AGRICULTURE AND ECONOMIC DEVELOPMENT. (3)**

Analytical consideration of the role of agriculture in economic development in relation to overall development strategy at various stages of growth. Theoretical and policy issues of particular relevance to the agricultural development in underdeveloped agrarian economies with various resource, social, political and economic systems. Prereq: ECO 473G or consent of instructor. (Same as AEC 626.)

**ECO 679 ECONOMICS OF THE PUBLIC SECTOR. (3)**

Topics and methods for students who wish to become policy practitioners as well for those who will deal with policy makers. Focus is on role of the federal, state, and local government in the economic with both the expenditure and revenue sides of the government budget examined. Substantial material from standard public finance courses including welfare measures and cost-benefit analysis, program evaluation, and tax analysis. Prereq: ECO 621 or equivalent or consent of the instructor.

**ECO 692 ECONOMETRICS FOR POLICY ANALYSTS. (3)**

Maximum likelihood estimation, ordinary least squares (OLS) regression, instrumental variables (IV) regression, heteroscedasticity-consistent regression, fixed and random effects models, probit, logit and tobit models, and identification and two-state least squares estimation of simultaneous equations models. Prereq: Any undergraduate statistics course. MPA, MPP or PUAD program status for priority registration, other students with permission of instructor. (Same as PA 692.)

**ECO 697 FINAL PROJECT IN APPLIED ECONOMICS. (3)**

The purpose of this course is to assist the student in developing and completing a research study applying the tools and institutional knowledge obtained in other courses in the Applied Economics courses to evaluate an important economic policy or concern in either the public or private sector. While much of the work in the course is done independently students will meet together to discuss their progress as well as meet with the instructor individually. Prereq: ECO 623 or its equivalent or consent of the instructor.

**ECO 700 TEACHING METHODS IN BUSINESS. (1)**

A three part course that examines what constitutes good teaching and explores effective techniques for college instruction. Seminars emphasize practical information for both the principal activities and the details of teaching. Departmental discussions allow students to discuss issues that arise in their teaching practice. Reviews of classroom performance provide professional feedback in order to enhance on-the-job learning. Seminar, two hours per week. Prereq: Approval of Director of Graduate Studies. (Same as BA 700.)

**ECO 701 NEOCLASSICAL MICROECONOMIC THEORY. (3)**

The Neoclassical theory of consumer behavior, production, market equilibrium and imperfect competition. Prereq: ECO 601 and ECO 590, or consent of instructor.

**ECO 702 ADVANCED MACROECONOMIC THEORY. (3)**

Analysis of general equilibrium macroeconomic models and factors responsible for deviations from general equilibrium. Emphasis on issues from recent professional literature. Prereq: ECO 602 or consent of instructor.

**ECO 703 INTRODUCTION TO ECONOMETRICS I. (3)**

The first course in the introduction to econometrics. A comprehensive survey of the general linear regression, autocorrelation, errors in variables and distributed lag models. Prereq: ECO 590 and either ECO 603 or STA 525, or consent of instructor.

**ECO 704 GENERAL EQUILIBRIUM ANALYSIS AND WELFARE ECONOMICS. (3)**

Existence, stability, efficiency and Pareto satisfactoriness of competitive equilibrium. Recent developments in general equilibrium and welfare theory. Prereq: ECO 701 or consent of instructor.

**ECO 705 MACROECONOMIC DYNAMICS. (3)**

Theoretical and empirical assessment of dynamic issues in macroeconomics. Topics include neoclassical and endogenous growth models and vector autoregressions. Prereq: ECO 702 or consent of instructor.

**ECO 706 INTRODUCTION TO ECONOMETRICS II. (3)**

The second course in the introduction to econometrics. A comprehensive survey of identification, estimation and hypothesis testing in the context of simultaneous equations model. Prereq: ECO 703 or consent of instructor.

**ECO 707 RESEARCH SEMINAR IN ECONOMICS. (3)**

This course will help students develop research skills by requiring them to work through an independent project from start to finish. The student will review the literature and select a topic in an area of economics of interest. The student will then complete the project under the guidance of the instructor. Students will discuss their ongoing work in class with other students and in individual meetings with the instructor. The final output of the course will be a finished paper suitable for submission to a scholarly journal for publication. Prereq: Passing the Theory Exams or permission of the instructor.

**ECO 721 ENVIRONMENTAL ECONOMICS, REGULATION AND POLICY. (3)**

This course takes a balanced practitioner approach to the problems of the environment and environmental regulation. Efficiency aspects will be developed carefully, so as to provide a background for an extensive coverage of various available alternative policies. Prereq: PA 652 and MPA or economics program status or consent of instructor. (Same as PA 727.)

**ECO 724 ENVIRONMENTAL ECONOMICS. (3)**

This seminar in environmental economics deals with market failure, benefit-cost analysis, no market failure, valuations of environmental changes, and selected topics in environmental economics. Central to the course is valuing changes in health risks, risk perception, and behavior related to health risk. Selected topics include international issues, environmental equity and markets for environmental quality. This course and ECO 725 Health Economics are the two courses that are the basis for the area in Environmental and Health Economics in the Ph.D. Program in Economics. Prereq: ECO 601 and ECO 703 or consent of instructor.

**ECO 725 HEALTH ECONOMICS. (3)**

This course rigorously examines the organization, financing, and management of the US health care system and programs, and emphasizes economic analysis contemporary health policy concerns. By the end of the semester, students should have the institutional knowledge and analytic tools needed to contribute to current public policy debates about health and medical care. This course and ECO 724 Environmental Economics are the two courses that are the basis for the area in Environmental and Health Economics in the Ph.D. program in Economics. Prereq: ECO 601 and 703 or consent of instructor.

**ECO 726 ENVIRONMENTAL AND NATURAL RESOURCE ECONOMICS. (3)**

This course is a graduate-level survey of environmental and natural resource economics. Students will use mathematical models and econometric analysis to address topics including externalities and other market failures, environmental policies, management of renewable and nonrenewable resources, and non-market valuation. Prereq: ECO 701 and 703 (or equivalent courses), or consent of instructor. (Same as AEC 745.)

**ECO 731 LABOR ECONOMICS I. (3)**

The theory and estimation of the demand for and the supply of labor are introduced. Topics include demographic changes, minimum wages, retirement, and secular trends in labor force participation. The concept of human capital is examined, including applications to income distribution. Theory and evidence on the structure of wages in the U.S. is considered. Topics include compensating wages and race and gender differences. Prereq: ECO 601 or consent of instructor.

**ECO 732 LABOR ECONOMICS II. (3)**

Dynamic and cyclical labor demand are examined theoretically and empirically. Models of unemployment are considered, including search theory and the implicit contract model. Aspects of labor unionism are examined including changes in union membership, strikes, and union wages and employment. The incentive effects of compensation are discussed, including sorting models and the principal-agent problem. Prereq: ECO 601 or consent of instructor.

## Course Descriptions

### **ECO 741 THEORY OF THE FIRM AND MARKET STRUCTURE. (3)**

A study of firms and markets covering such topics as organizational structure and objectives of firms; product selection, advertising and quality; price discrimination; vertical control; entry, accommodation and exit; cost structure and market organization, market structure and performance; and public policy. Prereq: ECO 601 or consent of instructor.

### **ECO 742 INDUSTRIAL ORGANIZATION. (3)**

A comprehensive survey of the literature in industrial organizations including static theories of oligopoly, dynamic theories of oligopoly, information about strategic behavior, research and development, patents, and adoption of new technology.

### **ECO 749 DISSERTATION RESEARCH. (0)**

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

### **ECO 751 PUBLIC ECONOMICS. (3)**

An advanced study of both how government activities influence allocation, relative prices and welfare and what is the proper role of the public sector in resource allocation. Relevant topics include: public goods, externalities, tax incidence, optimal taxation, benefit-cost analysis, public pricing, fiscal federalism, state-municipal finance and public choice. Prereq: ECO 601 or consent of instructor.

### **ECO 752 ADVANCED TOPICS IN PUBLIC FINANCE. (3)**

Principles of taxation and expenditure; applications to federal, state, and local policy; fiscal federalism; international public finance. Prereq: PA 752, ECO 701 or permission of the instructor. (Same as PA 754.)

### **ECO 753 URBAN AND REGIONAL ECONOMICS. (3)**

An intensive study of the theory, evidence and policy concerning urban areas and regions. Topics typically covered include: nature of regions and urban areas, size and distribution of cities, location decisions, housing, transportation, migration and regional growth. Prereq: ECO 601 or consent of instructor.

### **ECO 761 MACRO AND MONETARY ECONOMICS I. (3)**

Advanced study of business cycle fluctuations. Theoretical and empirical investigations of the causes of business cycles; evaluating the effectiveness of monetary, fiscal, and other policies to affect inflation, unemployment, and short-run economic goals. Emphasis on current academic research. Prereq: ECO 701, ECO 702 or consent of instructor.

### **ECO 762 MACRO AND MONETARY ECONOMICS II. (3)**

Advanced study of long-run macroeconomic issues. Theoretical and empirical examinations of the determinants of economic growth; analysis of government policies, country endowments, and institutional factors in determining growth rates and income levels. Emphasis on current academic research. Prereq: ECO 702 or consent of instructor.

### **ECO 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

### **ECO 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours.

### **ECO 769 RESIDENCE CREDIT FOR THE DOCTOR'S DEGREE. (0-12)**

May be repeated indefinitely.

### **ECO 771 INTERNATIONAL ECONOMICS: INTERNATIONAL MONEY AND FINANCE. (3)**

International finance and open economy macroeconomics; the balance of payments; theory of exchange rate determination; macroeconomic policy issues in open economies. Prereq: ECO 602.

### **ECO 772 INTERNATIONAL ECONOMICS: TRADE THEORY AND POLICY. (3)**

Theory and empirical analysis of the effects of trade and trade policy. Prereq: ECO 601.

### **ECO 773 OPEN ECONOMY MACROECONOMICS. (3)**

Development of rigorous models to enhance knowledge of open economies. Topics include: impact on an economy of changes in trade, the current account balance, exchange rates, and international financial markets. Prereq: ECO 702.

### **ECO 790 TIME SERIES ANALYSIS. (3)**

Time series and stochastic processes, auto-correlation functions and spectral properties of stationary processes; linear models for stationary processes, moving average, auto-regressive and mixed auto-regressive-moving average processes; linear nonstationary models, minimum mean square error forecasts and their properties; model identification, estimation and diagnostic checking. Prereq: STA 422G or its equivalent. (Same as STA 626.)

### **ECO 796 SEMINAR. (1-6)**

An extended original investigation of some specific topic with a view to giving training in methods of research and studying intensively a particular subject in the field of economics. May be repeated to a maximum of six credits.

### **ECO 797 RESEARCH PROBLEMS IN ECONOMICS. (1-9)**

Students confer individually with the instructor. May be repeated to a maximum of 15 credits. Prereq: Permission of the Director of Graduate Studies is required.

## **EDC Curriculum and Instruction**

### **EDC 317 INTRODUCTION TO INSTRUCTIONAL MEDIA. (1)**

An introductory instructional media experience including basic production and utilization techniques for media materials and operation of commonly used educational media equipment. Topics include graphic preservation, transparency production, audio materials, motion pictures, 35mm photographic techniques, and an introduction to videotape television. Prereq: Admission to a Teacher Education Program.

### **EDC 322 ELEMENTARY PRACTICUM. (1-3)**

Planned and supervised practicum in teaching elementary science, reading, social studies, and mathematics. Observation, selecting objectives and materials, questioning strategies, learning centers, instructional units, and assessment techniques will be emphasized. May be repeated to a maximum of three credits. Lecture, one hour; laboratory, six to twelve hours per week. Prereq: Admission to Early Elementary TEP. Concur: EDC 323, EDC 326, SEM 328, SEM 337, and EDC 339.

### **EDC 323 CLASSROOM MANAGEMENT AND DISCIPLINE. (3)**

EDC 323 should be taken in conjunction with EDC 329. Prereq: Admission to Teacher Education Program.

### **EDC 326 TEACHING SOCIAL STUDIES IN THE ELEMENTARY SCHOOL. (3)**

A study of methods and materials for teaching social studies at the elementary level. The course will include a critical analysis of a variety of objectives, instructional materials and strategies, and evaluation techniques for elementary social studies. Consideration will be given to addressing the individual needs of a diverse student population. Special emphasis is placed on instruction in grades K-4. Twenty hours of field experience are required in conjunction with EDC 322. Prereq: Admission to TEP and 15 hours of social sciences. Coreq: EDC 322.

### **EDC 327 READING IN THE CONTENT AREAS. (3)**

A study of materials and techniques useful in the diagnostic teaching of reading and other language arts with students in grades 5-9. The course will emphasize materials, techniques, and procedures, which diagnose individual strengths and weaknesses, and prescriptive instruction based upon the diagnosis. Lecture, three hours; laboratory, one hour. This course is in conjunction with a guest field experience to occur in a 16-week placement at one school site. Prereq: Admission to teacher education or permission of instructor.

### **EDC 329 TEACHING READING AND LANGUAGE ARTS. (3)**

Development of competencies for the teaching of reading and other language arts to groups. Course will also provide an overview of the nature of reading and language arts development from grade K-8. Twenty hours of laboratory work in the schools are required. Prereq: Admission to Early Elementary Education TEP or Middle School TEP.

### **EDC 330 WRITING IN THE CONTENT AREAS. (3)**

Development of competencies for the teaching of writing and other language arts, including digital texts and other 21st century platforms, to groups. This course is in conjunction with a four-week field experience, consisting of 2 two-week placements in the candidate's areas of content concentration. Prereq: EDC 327, or permission of instructor.

### **EDC 334 ORAL AND WRITTEN LANGUAGE DEVELOPMENT IN THE ELEMENTARY SCHOOL. (3)**

A study of language differences, methods for teaching children with language differences, ways to integrate oral language instruction with the total curriculum, ways to enhance students' expressive writing abilities, and ways to teach grammar, spelling, and handwriting through functional and creative writing activities. Prereq: EDC 329 and admission to the elementary teacher education program.

### **EDC 339 DESIGNING A READING AND LANGUAGE ARTS PROGRAM FOR THE ELEMENTARY SCHOOL. (3)**

A study of materials and procedures for developing reading and language arts skills with elementary students, with an emphasis on grades K-4. Course will emphasize how to diagnose individual student skill strengths and weaknesses and build a prescriptive program based upon the diagnosis. Prereq: EDC 329; admission to the TEP or permission of instructor. Coreq: EDC 322.

### **EDC 341 THE EARLY ADOLESCENT LEARNER AND METHODS IN MIDDLE LEVEL EDUCATION. (3)**

An examination of the nature of early adolescents as well as the history and characteristics of the schools designed to teach them. Focus is on responsive pedagogy, especially the rationale behind the middle school concept and the generic techniques of teaching as an individual and as a member of an interdisciplinary team. Lecture, three hours; laboratory, one hour. This course is in conjunction with a guest field experience to occur in a 16-week placement at one school site. Prereq: Admission to Teacher Education or permission of instructor.

### **EDC 342 STUDENT TEACHING IN ART. (3-12)**

Designed to give the student practical experience through observation, planning, teaching, and evaluating procedures. The student works with children on all grade levels under the guidance of the supervising teacher. Offered on a pass-fail basis only. Prereq: Admission to the Teacher Education Program or permission of instructor.

**EDC 343 METHODS AND MANAGEMENT IN MIDDLE LEVEL EDUCATION. (3)**

A study of classroom management in theory and practice, with a focus on planning and assessment in middle level classrooms. This course is in conjunction with a four-week field experience, consisting of 2 two-week placements in the candidate's areas of content concentration. Prereq: EDC 341, or permission of instructor.

**EDC 346 METHODS OF TEACHING MIDDLE LEVEL SOCIAL STUDIES. (3)**

Introduction to theory, research, purposes, methods and materials appropriate to social studies instruction in the middle grades. This course is in conjunction with a four-week field experience, consisting of 2 two-week placements in the candidate's areas of content concentration. Prereq: Admission to Teacher Education, 12 hours in approved social studies courses, or permission of instructor.

**EDC 347 METHODS OF TEACHING MIDDLE LEVEL ENGLISH LANGUAGE ARTS. (3)**

This course introduces teacher candidates to the fundamentals of theory and practice for teaching English Language Arts at the middle level (grades 5-9) as they develop an understanding of state and national standards. Course work includes current issues and recent developments in curriculum and methodology in the teaching of middle level English Language Arts with emphases on the integration of reading, writing, listening, speaking, and language use. Course includes a four-week field placement in middle school settings. Prereq: Admission to Teacher Education, 9 hours in English, or permission of instructor.

**EDC 362 FIELD EXPERIENCES IN SECONDARY EDUCATION. (1-3)**

Supervised experiences in schools, other education agencies, and the community. Required of all students receiving a bachelors degree in secondary education. Includes field trips, work in schools, and involvement in community projects.

**EDC 377 STUDENT TEACHING IN MUSIC. (3-12)**

A course planned for teachers who expect to become either instructors or supervisors of music in the public schools. Observation, teaching, work on research problems, and conferences with the supervising teacher included. Offered on a pass-fail basis only. Prereq: Admission to the Teacher Education Program or permission of instructor.

**EDC 421 SURVEY OF SECONDARY MATHEMATICS CURRICULUM. (3)**

This course will examine the content of the mathematics curriculum of the secondary school and issues related to that curriculum. Students are expected to demonstrate competency in this content.

**EDC 433 STUDENT TEACHING IN THE ELEMENTARY SCHOOL. (3-12)**

A course designed to give the student experience with and practice in the program of an elementary school. Actual work with children in all learning situations is the basic part of the course. A required weekly seminar will include sessions on: beginning teacher internship, school law and students' rights, administrative organization, and professional development. Offered on a pass/fail basis only. Prereq: Must meet the published college requirements for student teaching.

**EDC 446 APPLICATIONS OF TEACHING MIDDLE LEVEL SOCIAL STUDIES. (3)**

This course emphasizes analyzing and assessing teaching and learning appropriate to inquiry-based social studies instruction in the middle grades. This course is in conjunction with an eight-week field experience. Prereq: EDC 346 or permission of instructor.

**#EDC 447 APPLICATIONS OF TEACHING MIDDLE LEVEL ENGLISH LANGUAGE ARTS. (3)**

This course emphasizes planning, assessing, and analyzing teaching and learning English/Language Arts at the middle level. Students are introduced to strategies and skills for teaching English/Language Arts content aligned with state and national standards with an emphasis on equity. This course is in conjunction with an eight-week field experience. Prereq: EDC 347 or permission of instructor.

**\*EDC 454G CULTURE, EDUCATION AND TEACHING ABROAD. (3)**

The purpose of this course, which is required for those wishing to student teach overseas, is to help participants examine theories and practices related to intercultural understanding and to develop strategies to teach with a global perspective. Prereq: Sophomores must have instructor's permission to register. (Same as EPE 454G.)

**EDC 501 TEACHING INTERNSHIP. (1-12)**

Supervised practice teaching under competent leadership. Observation, instruction, independent study which parallels field experience, and conferences with supervising instructor included. This course is designed primarily for students in Allied Health Professions, Education, Library and Information Science, Home Economics, and Social Work. May be repeated to a maximum of 12 hours. Prereq: EDC 500 or permission of instructor.

**EDC 504 LITERATURE AND RELATED MEDIA FOR YOUNG ADULTS. (3)**

A study of literature and related materials for use with young people in grades 6-12. Emphasis is placed on the special characteristics and needs of young people and the evaluation of materials for this age group. (Same as LIS 514.)

**EDC 509 COMPOSITION FOR TEACHERS. (3)**

A course covering the basic studies helpful to teachers of English composition at the secondary level. Focuses on the teaching of grammar, punctuation, usage, etc., and on theme planning, correction, and revision. Students are required to do quite a bit of writing. Provides ENG Major Elective credit and ENG minor credit. (Same as ENG 509.)

**EDC 513 TEACHING ENGLISH AS A SECOND LANGUAGE. (3)**

The course examines the current theories and methods of teaching English as a second language. The course will include (1) language learning theory as it relates to other disciplines; (2) methods and techniques of contrastive analysis. Prereq: One course in linguistics or consent of instructor. Provides ENG Major Elective credit and ENG minor credit. (Same as ENG/LIN 513.)

**EDC 514 TESL MATERIALS AND METHODS. (3)**

An extension to ENG/EDC 513, this course will include examination and evaluation of published materials designed for teaching English to speakers of other languages. Students will create individualized teaching materials and gain practical experience in applying the methods and using their own materials. Prereq: ENG/EDC 513 or consent of instructor. Provides ENG Major Elective credit and ENG minor credit. (Same as ENG/LIN 514.)

**EDC 520 ASSESSMENT AND ACCOUNTABILITY IN MIDDLE LEVEL EDUCATION. (3)**

This capstone course is taken during the student teaching experience and is taught via an online modality. The purpose of the course is to investigate and document teaching effectiveness. Candidates design an integrated unit of study, pre and post test student learning, analyze learning gains drawing on formative and summative measures, and make modifications and accommodations based on the results. Prereq: Admission to Teacher Education.

**EDC 522 PSYCHOLOGICAL AND EDUCATIONAL TESTS AND MEASUREMENTS. (3)**

Problems of measurement with emphasis on standardized tests. General principles of test construction and evaluation, for standardized assessments and/or teacher-made tests, examinations, criteria for evaluation and marking and other rating systems. (Same as EDP/EPE 522.)

**EDC 533 TEACHING LITERACY ACROSS THE DISCIPLINES. (3)**

This course provides an in-depth study of theories and teaching methods for integrating literacy (including digital literacy) instruction into content area classrooms at the K-12 levels. Instructional strategies, procedures, and assessments designed to increase vocabulary learning and comprehension of expository texts are emphasized. Prereq: Graduate standing or consent of the instructor.

**EDC 537 ADVANCED APPLICATIONS OF TEACHING WRITING. (3)**

This course promotes the thoughtful examination of writing instruction at the middle and high school levels. Throughout the course, learners are introduced to strategies and skills they can use to enhance their own writing and the writing of their students. Using a process approach, students learn how to communicate ideas effectively in a variety of genres and for a multitude of purposes. Based on the most current research in the field, this course explores such topics as writers workshop, conferencing, assessment of struggling writers, reading/writing connections, writing in the disciplines, revision and editing, the use of digital media to support writers, and the management of writing instruction. This course is offered in conjunction with an eight-week clinical field experience. Prereq: EDC 347, graduate standing, or permission of instructor.

**#EDC 540 ASSESSMENT AND SCHOOL DATA ANALYSIS. (3)**

This course focuses on the theoretical and practical aspects of educational assessment at the student, classroom, school, state/province, national, and international levels. Students examine the history of assessment in education, the varied purposes of assessment, the strengths and shortcomings of different assessment formats, and relevant research regarding the effectiveness of various types of assessment for specific educational purposes. They also explore the development of assessments to address particular types of student learning goals, the construction of rubrics to offer students descriptive feedback on their performance, the interpretation of assessment results, and the use of those results to improve teaching quality and student learning. There are no formal prerequisites, but an introductory course in statistical methods (e.g., EDP/EPE 557 or 558) and a basic course in educational tests and measures (e.g., EDP/EPE/EDC 522) are recommended. The course may be conducted in either an online or face-to-face format, depending on the semester and instructor. (Same as EDP 560/EPE 560.)

**EDC 541 READING AND UNDERSTANDING EDUCATIONAL RESEARCH. (3)**

The purpose of this course is to learn how to critically read, analyze, and reflect upon educational research from quantitative, qualitative, and mixed methods perspectives.

**EDC 543 DIGITAL GAME BASED LEARNING AND INSTRUCTION. (3)**

Digital game-based video applications as prominent video-based vehicles for distance education and multimedia development through multi-user and virtual platforms. Classroom exercises and projects develop basic video game production skills including the use of graphical and video assets, flash animations storyboarding, equipment, terminology and systems, message design issues and research on DGBL.

**EDC 544 USE AND INTEGRATION OF INSTRUCTIONAL MEDIA. (3)**

Students use a range of traditional, interactive, and emerging technological interventions in analog and digital formats. Students gain skill in the operation, production, and integration of basic media such as video, graphics, videodisk, and CD-ROM in a variety of instructional settings (training, exploratory learning, on-line databases, etc.). Students demonstrate skills via the composition and production of several media documents using available tools and resources.

**EDC 547 TECHNOLOGY IN INSTRUCTION PRACTICE. (3)**

Students use instructional computing applications and understand the roles and uses of computers in instruction. Students select and use instructional computing hardware and software appropriate to instructional goals and settings. Students use electronic networks for instructional purposes. Students demonstrate skill using basic productivity software through structured assignments and collaborative projects.

**EDC 548 INSTRUCTIONAL TECHNOLOGY LEADERSHIP. (3)**

Students develop skill in advanced aspects of the operation and use of the range of instructional technologies from desktop to distributed computing environments. Students use operating systems, learn network administration, do technology planning, and work with basic authoring tools. Skill is demonstrated through a series of projects including development of a technology plan for a specified work setting and authorship of a prototype program.

**EDC 549 MIDDLE LEVEL STUDENT TEACHING. (3-15)**

This course provides candidates with the opportunity to participate in a full-time, supervised internship in middle grade classrooms. The student teaching experience occurs in a 5-9 school setting. Offered on a pass-fail basis only. Repeated for up to 15 hours. Prereq: Must meet published college requirements for student teaching.

**EDC 550 EDUCATION IN A CULTURALLY DIVERSE SOCIETY. (3)**

This course assists future educators in developing strategies to create an equitable teaching/learning environment where all students are validated, stimulated, and nurtured. Course participants explore the rationale for their current belief systems and perceptions of other cultures; investigate how and why their personal attitudes, behaviors, and expectations affect the academic and social development of children and youth, and examine contemporary educational issues. (Same as AAS 550.)

**EDC 560 LITERACY DEVELOPMENT IN THE ESL CLASSROOM. (3)**

This course is designed to introduce students to theory, research, and teaching applications of second language literacy development in the ESL classroom. This is a field-based course, and students will study current teaching methods of literacy instruction and apply those ideas with learners in an ESL setting. (Same as TSL 560.)

**EDC 575, 576 MODERN EDUCATIONAL PROBLEMS. (UNCLASSIFIED). (3 ea.)**

**EDC 601 THEORIES, PERSPECTIVES, TRENDS AND ISSUES IN MULTICULTURAL EDUCATION. (3)**

This course provides students with a critical analysis of multicultural education theories, perspectives, current issues, and trends. Students will develop the competencies needed to write scholarly literature reviews, identify areas in multicultural education needing further research studies, and submit papers for review and presentation at professional meetings. Prereq: Graduate standing, EDP 557 or consent of instructor. (Same as AAS 601.)

**EDC 603 TEACHING READING TO LOW-ACHIEVING PRIMARY STUDENTS. (3)**

Reading Recovery is dependent on the level of expertise of Reading Recovery teachers. Students will learn to use the Reading Recovery procedures in order to help accelerate the learning of Reading Recovery children. Reading Recovery Teacher Leaders provide clinical supervision and guidance as teachers learn how to problem solve the particular challenges of children who are not making accelerated progress. Additionally, students will study the theoretical underpinnings of Reading Recovery. In order to work effectively within their schools in the future, teachers are placed in the teaching role with visible accountability across a school year.

**EDC 605 DISTANCE LEARNING RESEARCH AND DESIGN. (3)**

Study of the design and development of distributed learning systems in education and training. Topics include: foundations of distance education, distance learning research, and the design and development of e-learning courses and workshops. Student involvement in the design of an e-learning course or workshop will be emphasized.

**EDC 607 INSTRUCTIONAL DESIGN I. (3)**

Introduction to the instructional design process from needs assessment and goal definition through evaluation. Each student will design prototype instructional materials based on an instructional design model and/or procedures. The course will also introduce students to the field of instructional design and technology.

**EDC 608 INSTRUCTIONAL DESIGN II. (3)**

Critical analysis of instructional design models and their theoretical foundations including the impact of various models and perspectives on the practice and the products of instructional design. Prereq: EDC 607 or consent of instructor.

**EDC 609 INTERACTIVE MULTIMEDIA AND USER DESIGN. (3)**

The goal of this course is to examine the theoretical foundations and best practices involved in multimedia research and interface design. These investigations are anchored in user-centered design and the methodology explored in the course is research to practice in usability testing and iterative program design. Prereq: EDC 544.

**EDC 610 DISCIPLINE AND CLASSROOM MANAGEMENT. (3)**

The course is designed to examine the causes of and solutions to disruptive and noncompliant behavior and classroom management problems that are within the control of the classroom teacher. The course content is designed around two approaches: (1) identifying prevalent problems and exploring specific solutions to them; (2) presenting selected strategies and applying them to a variety of problems. In both cases, alternatives are considered in the light of relevant theory, law, research and experience. Prereq: Teacher certification and EDP 203.

**\*EDC 611 AUTHORING APPLICATIONS FOR E-LEARNING. (3)**

Focuses on individual and collaborative authoring applications for technology based instructional materials. Topics include linear and non-linear information structures, instructional message design, compositional issues related to audience focus, information density, language control, and organization, and prototype production with industry standard authoring software. Prereq: EDC 547 and EDC 607 or consent of instructor.

**EDC 612 INSTRUCTIONAL DESIGN AND TECHNOLOGY FOUNDATIONS. (3)**

Provides an in-depth survey of the field of instructional design and technology. Topics covered include the history of instructional design and technology, critical issues, current trends and future prospects for the field, instructional development, research, certification, and professional development. Prereq: EDC 607, EDC 608 or permission of instructor.

**EDC 615 ADVANCED INSTRUCTIONAL APPLICATIONS FOR THE EARLY ADOLESCENT LEARNER. (3)**

This course for middle school teachers examines the complex nature of the 10 to 14 year old student. Analysis of recent research-based effective instructional strategies to meet the needs, interests, and characteristics of these students will be included. Prereq: Teacher Certification or consent of instructor.

**EDC 616 THE MIDDLE SCHOOL. (3)**

The purpose of this course is to provide middle school teachers with an in-depth analysis of the characteristics of effective middle school facilities. An examination of current curricular models, issues, trends, and exemplary middle schools will comprise the primary focus of this course. Prereq: EDC 615 or consent of instructor.

**EDC 617 EFFECTIVE TEACHING IN CULTURALLY AND LINGUISTICALLY DIVERSE CLASSROOMS. (3)**

The purpose of this course is to prepare educators to effectively teach culturally and linguistically diverse students in mainstream classrooms. Prereq: Graduate student status is required.

**EDC 618 ADVANCED STUDY IN THE TEACHING OF READING. (3)**

An advanced course for classroom teachers which focuses on selection and implementation of reading assessment and instructional procedures. The theoretical bases of the reading process and the knowledge of research in reading will be related to the design of classroom instruction. This course is to become an option in Area 7 of both the Elementary and Secondary Standard Certification programs. Prereq: EDC 330 or 339 or 533 or equivalent.

**EDC 619 ASSESSMENT OF READING GROWTH AND DEVELOPMENT. (3)**

Clinical techniques for the diagnosis of reading disabilities. A course designed to develop both theoretical understandings and operational skills in clinical diagnosis of reading problems. Classroom application of the techniques is discussed. Prereq: EDC 330, or EDC 533, or EDC 534, or permission of instructor.

**EDC 620 DESIGN AND IMPLEMENTATION OF READING INSTRUCTION. (3)**

Clinical techniques used in the remediation of reading problems. It is a course designed to develop individualized procedures related to diagnosis. Classroom applications of the instructional procedures are discussed. This course is a combination of lecture and application with a student client. Prereq: EDC 619, or permission of instructor.

**EDC 620 DESIGN AND IMPLEMENTATION OF READING INSTRUCTION. (3)**

Clinical techniques used in the remediation of reading problems. A course designed to develop individualized procedures related to diagnosis. Classroom application of the instructional procedures is discussed. Lecture, two hours; laboratory, two hours. Prereq: EDC 619, or consent of instructor.

**EDC 621 LANGUAGE AND LITERACY DEVELOPMENT. (3)**

A study of language and literacy development (oral and written language development, first and second language development, etc.) across the lifespan to provide a foundation for literacy instruction and curriculum development. Prereq: EDC 641 or equivalent course in research foundations.

**EDC 622 OBSERVING AND RESPONDING TO YOUNG READERS. (3)**

Throughout the preparation year, teacher leaders engage in sensitive observation and responsive teaching of individual grade one children who have been identified as having difficulty learning to read and write. They study the theoretical rationales and practical application of Reading Recovery teaching procedures and connect their practice to wider understandings of literacy development. Across the year, teacher leaders work with a variety of children to gain a range of experiences, always focusing on teaching for accelerated learning. Reading Recovery trainers provide clinical supervision and guidance as teacher leaders learn how to problem solve the particular challenges of children who are not making accelerated progress. In order to work effectively with teachers in the future, teacher leaders are placed in the teaching role with visible accountability across a school year. Prereq: Applied for and been accepted to a Reading Recovery position in a school district.

**EDC 623 THEORETICAL FOUNDATIONS: LANGUAGE AND LITERACY LEARNING AND DEVELOPMENT. (3)**

Teacher Leaders in training examine the theoretical base underlying the processes of reading and writing. We will explore and extend our own personal models of reading and writing processes and ground this theory, building in close observations of young children reading and writing. Prereq: Applied for and been accepted to a Reading Recovery position in a school district.

**EDC 624 LEADERSHIP PRACTICUM FOR TEACHER LEADERS. (3)**

The course prepares teacher leaders for multiple and complex roles. Teacher leaders learn how to deliver initial training courses and ongoing professional support for Reading Recovery teachers. A key aspect of the teacher leader's role is to provide the yearlong course of initial training for Reading Recovery teachers. In order to prepare teacher leaders for this role, attention is given to research, theory and practice relating to adult learners.

**EDC 625 LITERACY LEADERSHIP P-12. (3)**

The purpose of this course is to prepare literacy professionals to facilitate positive change in school and community settings through program development and evaluation, mentoring, and advocacy. Students will: understand and assume various roles as literacy leaders; learn how to develop, implement, and evaluate effective research-based literacy programs and practices; learn how to design, facilitate, lead, and evaluate effective professional development programs for professional educators; learn how to mentor colleagues and work collaboratively with families, teachers, administrators, policymakers, and community members in individual and group contexts; and learn how to influence local, state, and national policy decisions related to literacy education.

**EDC 626 CURRENT ISSUES IN LITERACY EDUCATION. (3)**

“Current Issues in Literacy Education” (EDC626) is an advanced course for graduate students, which focuses on contemporary matters in literacy education and learners. An emphasis on social, historical, and political factors affecting the literacy learning is included.

**EDC 627 OBSERVING AND RESPONDING TO YOUNG READERS, ADVANCED. (3)**

This course represents advanced study of the Fall Semester course (622). Students will continue to engage in sensitive observation and responsive teaching focusing on the hardest to teach children. Students will refine and deepen their understandings of the theoretical rationales and practical applications of Reading Recovery. The Teacher Leader-in-training will have the opportunity to observe, analyze, discuss, and directly experience the role of Teacher Leader in class and assigned field experiences, while preparing to implement the Reading Recovery program within their region, university or school district.

**EDC 628 THEORETICAL FOUNDATIONS: ISSUES IN LITERARY DIFFICULTIES. (3)**

The purpose of this course is three fold. First, to acquaint students with the most current thinking about reading and learning processes relative to young, low progress, ‘at-risk’ students. Second, to acquaint students with the seminal research and theories which have influenced the reading difficulties field. Third, to help students relate recent and seminal theories of learning and, in particular, reading difficulties, to young students who are hard for us to teach. Prereq: Applied for and been accepted to a Reading Recovery position in a school district. EDC 502, EDC 503, EDC 622, EDC 623, EDC 624, EDC 627

**EDC 629 LEADERSHIP PRACTICUM FOR TEACHER LEADERS, ADVANCED. (3)**

Careful attention to implementation is critical for a successful intervention. Reading Recovery has well-developed, context-sensitive and evolving mechanisms for ensuring quality implementation. Teacher leaders play a critical role in maintaining the quality of each implementation. In order to provide effective leadership, teacher leaders must be knowledgeable about the design principles of the intervention and skillful in problem solving issues that arise. Teacher leaders collect and analyze data to evaluate and strengthen the implementation of Reading Recovery. They create awareness, work collaboratively with stakeholders, and cultivate support for Reading Recovery at the building, district, site, and state levels. Prereq: Applied for and been accepted to a Reading Recovery position in a school district. EDC 502, EDC 503, EDC 622, EDC 623, EDC 624, EDC 627, EDC 628.

**EDC 630 FAMILY AND COMMUNITY LITERACY. (3)**

Viewed through a lens of lifelong literacy, this course focuses on developing strong partnerships between families, communities, and schools. Course topics will include: (a) family diversity & multiple literacies, (b) learning about, from, and with families & communities, (c) building upon family/community knowledge and resources in instruction, and (d) designing effective partnerships and family-engagement programs. Course assignments will provide hands-on opportunities to engage with these topics in real-world settings. This course is offered via a hybrid distance format, with a combination of on-campus face-to-face class meetings, synchronous online class meetings, and asynchronous work. There are no prerequisites to this course, other than graduate student status.

**EDC 632 SOCIAL STUDIES PEDAGOGY IN THE SECONDARY SCHOOL. (0-3)**

Through campus and school-based experiences, students will learn how to engage young people in learning social studies and how to make decisions about planning instruction and develop assessment based on a sound knowledge base for applying content, materials, and methods (including educational technology) appropriate for high school students. May be repeated to a maximum of three credits. Lecture, 1-3 hours; laboratory, 3-6 hours per week. Prereq: Admission to the M.A./M.S. in Education (Initial Certification Option-Secondary Education).

**EDC 633 BUSINESS PEDAGOGY IN THE SECONDARY SCHOOL. (0-3)**

Through campus and school-based experiences, students will learn how to engage young people in learning business and how to make decisions about planning instruction and develop assessment based on a sound knowledge base for applying content, materials, and methods (including educational technology) appropriate for high school students. May be repeated to a maximum of three credits. Lecture, 1-3 hours; laboratory, 3-6 hours per week. Prereq: Admission to the M.A./M.S. in Education (Initial Certification Option-Secondary Education).

**EDC 635 ENGLISH PEDAGOGY IN THE SECONDARY SCHOOL. (0-3)**

Through campus and school-based experiences, students will learn how to engage young people in learning English and how to make decisions about planning instruction and develop assessment based on a sound knowledge base for applying content, materials, and methods (including educational technology) appropriate for high school students. May be repeated to a maximum of three credits. Lecture, 1-3 hours; laboratory, 3-6 hours per week. Prereq: Admission to the M.A./M.S. in Education (Initial Certification Option-Secondary Education).

**EDC 637 CLASSROOM MANAGEMENT IN SECONDARY EDUCATION. (1)**

The Classroom Management component course is designed to prepare future teachers to effectively manage aspects of their instruction, interactions with students, and student behavior in the secondary classroom. Causes of and solutions to disruptive and noncompliant behavior and classroom management problems that are within the control of the classroom teacher will be examined. Prereq: Admission to the M.A. Education (Secondary Education with Initial Certification).

**EDC 638 TECHNOLOGY IN SECONDARY EDUCATION. (1-3)**

This course emphasizes the use of several key interactive technologies for problem solving – problem solving that occurs on several levels: (1) instructional problem solving (using technology to support various kinds of learning outcomes for students), (2) content problem solving (using games/software/websites to learn to solve problems that reflect the principles and core concepts in your discipline), (3) assessment problem solving (using technologies to support authentic challenging assessments that support evaluation of what students know and are able to do).

**EDC 639 TEACHING DIVERSE LEARNERS IN SECONDARY EDUCATION. (1)**

This course explores the influence of self-concepts and past experiences on current attitudes, perceptions and behaviors; investigates the effects of cultural traditions, political mandates, educational trends and school curriculums on student achievement; and develops strategies to create equitable teaching/learning environments in secondary education that validate, stimulate, and nurture all students. Prereq: Admission to M.A. in Education (Secondary Education with Initial Certification).

**EDC 642 RESEARCH AND THEORY IN LITERACY EDUCATION. (3)**

The purpose of this course is to critically examine, analyze, and reflect upon research and theory pertaining to the production and understanding of oral and written language (reading, writing, speaking, listening, viewing, and visually representing). Prereq: EDC 641 or equivalent course in research foundations.

**EDC 709 SOCIAL MEDIA AND INTERACTIVE SYSTEMS DESIGN. (3)**

The purpose of this course is to examine the growing research and design literature for on-line communities and networked learning groups that support cooperative, collaborative and social instructional activities. Framed by concepts from Activity Theory, Social Networking Theory and Social Learning Models students will read current books, research articles and be introduced to research methods and tools (such as tracking utilities and on-line data collection) for examining on-line communities. Students will design and collect data for an original research project as part of required course work. Prereq: EDC 608, EDC 612, or consent of instructor.

**EDC 710 ADVANCED TOPICS IN INSTRUCTIONAL DESIGN. (3)**

An identification and analysis of current theories and programs of research in instructional systems design. Students will develop the skills necessary to conduct and write a scholarly literature review and identify potential areas and questions needing further study. Prereq: EDC 608, EDC 610, EDC 612, or consent of instructor.

**EDC 712 THE ELEMENTARY SCHOOL. (3)**

Recent research and modern trends in teaching the skills and content subjects in the elementary school. Planned for supervisors, superintendents, principals, and teachers for better understanding of a modern elementary school.

**EDC 714 THE SECONDARY SCHOOL. (3)**

A course designed to acquaint the secondary teacher and the administrator with the nature and function of the secondary school.

**EDC 724 GUIDING AND ANALYZING EFFECTIVE TEACHING. (3)**

A course designed for educators who are preparing to supervise teachers and who wish to analyze their own practice. Research, policies, and trends are examined and practices analyzed in the context of how to promote effective teaching. Principles apply to elementary and secondary education.

**EDC 726 CURRICULUM INQUIRY MIXED METHODS RESEARCH. (3)**

A mixed methodology conceptual framework is used to examine various approaches for designing, implementing, and analyzing practitioner data generated in a variety of instructional settings. Topics include epistemological, methodological, and ethical issues involved in action research, classroom discourse analyses, and mixed methods curriculum inquiry. Prereq: EDP/EPE 558 and EPE 663 or permission of instructor.

**EDC 730 PROBLEMS OF THE SCHOOL CURRICULUM. (3)**

Problems in the field of the school curriculum and in the preparation of instructional materials. Students enrolling in this course are required to leave on file with the College of Education a complete report of each problem studied. May be repeated once for a maximum of six credits.

**EDC 731 SOCIAL STUDIES SEMINAR: HISTORY EDUCATION. (3)**

Advanced study of the purposes and practices that characterize K-12 history education in diverse settings, critical analysis of research on the development of children’s and adolescents’ historical thinking and the introduction of classroom-based techniques for assessing students’ historical understanding. Prereq: Graduate standing.

**EDC 732 CURRICULUM DESIGN FOR LEARNING AND LEADING. (3)**

Critical analysis, design, and implementation of curricula. Survey of theoretical foundations, in-depth applied research experiences, design of curriculum resource materials, and implementation of curriculum designs.

**EDC 733 LEADERSHIP AND ANALYSIS OF ADVANCED INSTRUCTIONAL PRACTICE. (3)**

Course participants will develop leadership skills in curriculum and instruction through a variety of research-based analytic practices such as lesson study, observation, mentoring, dialogic and collaborative work in the context of a school learning community. Clinical/field/practicum experiences provide experience identifying a research problem, planning a course of action, and implementing and evaluating the action plan to improve learning results in K-12 classrooms. This course is designed as a hybrid workshop as follows. The class begins with a one-week intensive summer experience. Online and distance learning instruction will be conducted throughout the fall semester as students engage in their course work through clinical/field/practicum experiences. During the semester, two in-class meetings will serve as midpoint and final assessments of student progress toward meeting course objectives. Clinical/field work will be conducted in school classrooms. Practicum, 1 hour; Seminar, 3 hours. Prereq: Graduate-level curriculum course, graduate-level assessment course, and a minimum of two years' K-12 teaching experience.

**EDC 740 PRACTICUM IN TEACHING READING AND RELATED LANGUAGE ARTS. (3)**

Supervised practicum in analyzing problems in reading and related language arts and providing remedial work. Requires six hours per week in practicum with individual children or groups, plus two hours per week in seminar. May be repeated to a maximum of six credits. Prereq: EDC 619, 620.

**EDC 746 SUBJECT AREA INSTRUCTION IN THE SECONDARY SCHOOL. (0-9)**

Students will teach in their subject areas in the schools full-time, meet regularly to discuss teaching effectiveness and strategies for improvement and develop their professional portfolios. May be repeated to a maximum of nine credits. Lecture, 3-9 hours; laboratory, 6-18 hours per week. Prereq: The appropriate methods course in the subject area (SEM 631, EDC 632, EDC 633, SEM 634 or EDC 635). Admission to the M.A./M.S. in Education (Initial Certification Option-Secondary Education). (Same as SEM 746.)

**EDC 748 MASTER'S THESIS RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

**EDC 749 DISSERTATION RESEARCH. (0)**

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

**EDC 750 INTERNSHIP IN INSTRUCTIONAL SYSTEMS DESIGN. (3)**

Students will apply their knowledge of instructional systems design in a real-life setting. The work setting will be selected based on the professional goals of each student and student work will be supervised and reviewed by the internship coordinator. May be repeated to a maximum of nine credits. Prereq: Consent of program coordinator.

**EDC 755 CURRICULUM AND INSTRUCTION RESEARCH COLLOQUIUM. (1)**

Students and faculty will discuss current research and related issues in curriculum & instruction. May be repeated to a maximum of two credits. Prereq: Admission to graduate program in Curriculum & Instruction.

**\*EDC 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended. Prereq: Passing qualifying exam.

**EDC 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours.

**EDC 769 RESIDENCE CREDIT FOR THE DOCTOR'S DEGREE. (0-12)**

May be repeated indefinitely.

**EDC 777 SEMINAR IN CURRICULUM AND INSTRUCTION (Subtitle required). (1-3)**

A critical analysis of recently developed materials and techniques in curriculum and instruction for precollege education. Includes analysis of evaluative research related to new materials and techniques. May be repeated to a maximum of nine credits. Prereq: Consent of instructor.

**EDC 781 INDEPENDENT STUDY IN CURRICULUM AND INSTRUCTION. (1-3)**

An independent study course for graduate students who have completed at least half of the program course requirements in clinical and college teaching, curriculum and instruction, early childhood education, elementary education, reading or secondary education. May be repeated to a maximum of nine credits. Prereq: Consent of the Director of Graduate Studies.

**EDC 791 RESEARCH PROBLEMS IN CURRICULUM AND INSTRUCTION. (1-3)**

A research problems course for graduate students who have completed at least half of the program course requirements in clinical and college teaching, curriculum and instruction, early childhood education, elementary education, reading or secondary education. May be repeated to a maximum of nine credits. Prereq: Consent of the Director of Graduate Studies.

**EDL School Administration**

**EDL 401 THE PROFESSIONAL TEACHER: LEGAL PERSPECTIVES. (1)**

Study of legal concerns of public school teachers. Emphasizes legal rights and responsibilities of teachers and pupils. Lecture, two hours per week for eight weeks. Prereq: Admission to the Teacher Education Program.

**EDL 402 PRINCIPLES OF LEADERSHIP. (3)**

This course is designed to provide an introduction to leadership. Its focus is the development of an understanding of leadership theories and styles. You will also learn strategies for successful leadership. The introduction will include: 1) historical, theoretical, and cultural perspectives of leadership, 2) leadership skills and styles and strategies for success, and 3) examination of the responsibilities of leadership. Prereq: Admission to the program or consent of instructor. (Same as CLD 402.)

**EDL 403 LEADERSHIP AND COMMUNICATION. (3)**

This course is designed to expand student understanding of the theory and practice of leadership, conflict management, and decision-making. It is also designed to focus on issues of cohesiveness, trust, motivation, vision, and goals. Students must integrate their personal ethics and definition of leadership in various course assignments and projects. Prereq: Admission to the program or consent of instructor. (Same as CLD 403.)

**EDL 404 CONTEMPORARY LEADERSHIP APPLICATIONS. (3)**

This course supplements and integrates previous learning and is designed to provide maximum exposure to various concepts and perspectives of leadership through observational experiences, critical thinking, and self-analysis. It is also designed to allow the demonstration of previously learned leadership theories, styles, and strategies. Students must integrate their personal ethics and vision of leadership in their examination of various contemporary leadership contexts. Prereq: Admission to the program or consent of instructor. (Same as CLD 404.)

**EDL 571 DESIGN THINKING IN EDUCATION. (3)**

This course exposes students to many facets of design thinking and provides them with an interdisciplinary perspective about the role of design in addressing the world's challenges. This course also raises awareness about the value and power of design thinking our culture. Students will work in collaborative teams on semester-long projects in collaboration with client organizations, field liaisons, and a set of multidisciplinary experts. Students are exposed to the process of human-centered design, and hone their skills in need finding, problem definition, brainstorming, prototyping, and user testing. The course will consist of lecture, hands-on practicum, and guest speakers.

**EDL 601 INTRODUCTION TO SCHOOL LEADERSHIP AND ADMINISTRATION. (3)**

Study of school leadership and administrative responsibilities, with emphases on understanding schools as complex organizations and facilitating leadership to create a work climate supportive of excellence in teaching and learning.

**EDL 610 SCHOOL LEADERSHIP PRACTICUM I. (1)**

Study and observation of the role and responsibilities of the school principal in practice. Practicum students are required to spend time at school site locations. Prereq: Twelve hours of program course work completed, or consent of instructor.

**EDL 611 SCHOOL LEADERSHIP PRACTICUM II. (1)**

Study and observation of the role and responsibilities of the school principal in practice. Practicum students are required to spend time at school site locations. Prereq: Twelve hours of program course work completed and EDL 610 completed, or consent of instructor.

**EDL 612 SCHOOL LEADERSHIP PRACTICUM III. (1)**

Study and observation of the role and responsibilities of the school principal in practice. Practicum students are required to spend time at school site locations. Prereq: Twelve hours of program course work completed and EDL 610, EDL 611 completed, or consent of instructor.

**EDL 625 SCHOOL SAFETY AND DISCIPLINE LEADERSHIP. (3)**

Study of processes and programs effective in promoting school wide safety and discipline. Emphasis on school connections to community security and resources. Prereq: Admission to Department Program or Consent of instructor.

**EDL 627 SCHOOL FINANCE AND SUPPORT SERVICES. (3)**

Study of concepts in school finance and school business management. Attention is given to national, state, and local issues. Emphasis is also given to school support services including transportation, facility planning and maintenance, food service, and risk management. Prereq: Program status or consent of instructor.

**EDL 628 SCHOOL LAW AND ETHICS. (3)**

Study of legal and ethical issues as related to practical problems of school administration. Constitutional provisions and court decisions are examined as they impact education. Prereq: Program status or consent of instructor.

**EDL 631 LEADERSHIP FOR SCHOOL PROGRAM COLLABORATION. (3)**

This course prepared school leaders to administer integrated instructional support programs in schools and districts. Attention is also given to leadership requirements needed to facilitate collaboration among school and community-based programs that provide and support student learning. Prereq: Program status or consent of instructor.

- EDL 634 SECURING AND DEVELOPING SCHOOL STAFF. (3)**  
Study of human resources development practices in school systems, with emphases on central office and school unit responsibilities for attracting, selecting, developing, evaluating and retaining competent faculty and staff.
- EDL 638 INSTRUCTIONAL COACHING AND MENTORING. (3)**  
This course explores multiple strategies for instructional coaching and mentoring and their relationship to educational leadership, school improvement, and student learning.
- EDL 646 LEADERSHIP FOR SCHOOL-FAMILY COMMUNITY ENGAGEMENT. (3)**  
EDL 646 explores issues in administering integrated support programs in schools and districts serving specific student or community populations while increasing school and community collaboration. Prereq: Program status or consent of instructor.
- EDL 661 SCHOOL TECHNOLOGY LEADERSHIP. (3)**  
This course provides an introduction to the study of school technology leadership with an emphasis on educational administrators developing a shared vision, planning, and promulgating policies and utilizing resources for the comprehensive integration of technology at the school, district, and state levels. Prereq: Admission to the program or consent of instructor.
- EDL 662 LEADING FOR NEXT GENERATION LEARNING. (3)**  
This course focuses on the role of educational administrators in creating and sustaining a culture of learning that ensures all students have access to an academically rigorous, relevant, and engaging education through the use of appropriate digital technologies.
- EDL 663 LEADERSHIP FOR SCHOOL PROGRAM IMPROVEMENT. (3)**  
This course addresses the role of the educational administrator in providing professional development that supports communities of practice and the adoption of contemporary technologies and digital resources to enhance student academic learning. The course introduces students to principles of adult learning that characterize effective professional development and planning as it relates to technology adoption at the school, district and state-levels of education.
- EDL 664 ASSESSMENT LEADERSHIP. (3)**  
This course focuses on educational administrators' use of technology to support data-driven decision making to support continuous improvement and change at the school, district, and state levels of education. Prereq: Admission to the program or consent of instructor.
- EDL 665 SCHOOL TECHNOLOGY LEADERSHIP FOR DIGITAL CITIZENSHIP. (3)**  
This course examines school administrators' social, ethical, and legal issues and responsibilities all students, including those with disabilities and special needs, for digital citizenship. Facilitating understanding of evolving virtual school environments and modeling digital citizenship at the school, district, and state levels are also addressed. Prereq: Admission to the program or consent of instructor.
- EDL 669 LEADERSHIP FOR CREATIVE PROBLEM SOLVING. (3)**  
Study of diverse strategies and protocols used to identify authentic problems of practice in educational settings, diagnose potential options, determine innovation solutions, and assess impact by using diverse data sources.
- EDL 676 THE SCHOOL SUPERINTENDENCY. (3)**  
Role of the school district superintendent is studied including: historical and current job responsibilities of the position; knowledge, skills and dispositions necessary to serve successfully in the position; future challenges of the position. Prereq: Admission to the program and consent of instructor.
- EDL 677 SCHOOL SYSTEM ADMINISTRATION. (3)**  
Study of overall school district management and operations including administration of auxiliary services, federal programs, financial management, and human resources. Prereq: Admission to program or consent of instructor.
- EDL 678 STRATEGIC MANAGEMENT IN EDUCATION. (3)**  
Study of strategic management procedure applications in school administration utilized at both the school district and individual school site levels. Prereq: Admission to program or consent of instructor.
- EDL 679 SCHOOL SUPERINTENDENT PRACTICUM I. (1)**  
Study and observation of the role and responsibilities of the school superintendent in practice. Students are required to spend time in field settings. Prereq: Admission to school superintendency certificate program or consent of instructor.
- EDL 680 SCHOOL SUPERINTENDENT PRACTICUM II. (1)**  
Study and observation of the role and responsibilities of the school superintendent in practice. Students are required to spend time in field settings. Prereq: Admission to school superintendency certificate program and completion of EDL 679 or consent of instructor.
- EDL 681 SCHOOL SUPERINTENDENT PRACTICUM III. (1)**  
Study and observation of the role and responsibilities of the school superintendent in practice. Students are required to spend time in field settings. Prereq: Admission to school superintendency certificate program and completion of EDL 679 plus EDL 680, or consent of instructor.
- EDL 682 LEADING DISTRICT CHANGE AND INNOVATION. (3)**  
This course focuses on understanding the role of the school district superintendent in leading system-wide change and innovation, educational reform in national, state and local contexts and change models and processes. Students will collaborate with a superintendent mentor in completing field-based, work-embedded assignments. Prereq: Admission to the Superintendent Certification Program or consent of the instructor.
- EDL 694 LEADERSHIP IN CAREER AND TECHNICAL EDUCATION. (3)**  
A course designed for superintendents, high school principals, and other leaders. Its purpose is to prepare administrators and supervisors for leadership in career and technical education. (Same as CLD 694.)
- EDL 700 KNOWLEDGE BASE FOR LEADERS. (3)**  
This course reviews the quest for a knowledge based in educational administration. It begins with a survey of the history of education and organizational thought in the United States, examining scientific management, human relations, bureaucracy, and the theory movement. The course also reviews more recent attempts to capture the knowledge base including the University Council of Educational Administration's article bank, PRIMIS, and the Standards for School Leaders from the Interstate School of Leadership Licensure Consortium. The course emphasizes epistemologies used to generate a knowledge base in educational administration tracing the evolution of thought and vocabulary within the profession. Prereq: Permission of instructor.
- EDL 701 LEADERSHIP IN EDUCATIONAL ORGANIZATIONS. (3)**  
A study of leadership with particular emphasis on understanding the nature, defining characteristics, responsibilities, contextual determinants, and importance of leadership within educational organizations. Prereq: Admission to Department program or consent of instructor.
- EDL 702 LEADERSHIP FOR ORGANIZATIONAL LEARNING. (3)**  
This course examines theories associated with organizational learning and change processes that can be used by leaders of 21st century educational systems. Theories are then used to examine prevailing practices within organizations and to inform the development of action plans appropriate for improved organizational performance. Prereq: Admission to Department program or consent of instructor.
- EDL 703 LEADING ORGANIZATIONAL CHANGE. (3)**  
This course focuses on understanding the field of organizational change as well as emphasizing the nature, characteristics, responsibilities, and contextual determinants that influence a leader's role in changing educational organizations. Prereq: Admission to Department program or consent of instructor.
- EDL 704 POLITICS OF EDUCATIONAL LEADERSHIP. (3)**  
This course provides a study of the political contexts in which educational leaders must operate. The course explores the roles of policy actors, institutions, ideologies, and competing interests, both internal and external to education institutions. The course places emphasis on the ways that race, class, and income factor into political decision making in education. Prereq: Graduate standing. (Same as EPE 603.)
- EDL 705 INTERNATIONAL PERSPECTIVES ON EDUCATIONAL REFORM. (3)**  
The course focuses on international education reform, the function of schools in national social, economic and political development, as well as emerging perspectives on educational leadership and professional preparation. Prereq: Admission to a doctoral degree program at the University of Kentucky, completion of EPE 555, its equivalent, or consent of the instructor.
- EDL 706 CONTEMPORARY SCHOOL LEADERSHIP. (3)**  
EDL 706 examines leadership and administrative responsibilities in contemporary P12 schools with emphasis on a principal's role in creating a learning-centered culture focused on student achievement and school excellence. Hybrid delivery that features face-to-face and online sessions. Prereq: Admission to EdD program or permission of instructor.
- EDL 707 LEADERSHIP IN LEARNING-CENTERED SCHOOLS. (3)**  
EDL 707 examines theories associated with learning-centered leadership in P12 educational organizations with emphasis on the roles and responsibilities of principal in supervising and monitoring a school's instructional program, learning assessment, and evaluation and accountability processes to assure academic achievement by all students. Prereq: Admission to Ed.D. program or permission of instructor.
- EDL 708 ORGANIZATIONAL LEARNING IN P12 SCHOOLS. (3)**  
EDL 708 examines theories associated with organizational learning and change processes that can be used by principals to create learning-centered schools. Students conduct disciplined inquiry within P12 schools to identify current practices and then develop action plans to improve school performance.
- EDL 709 EVIDENCE-BASED DECISION MAKING. (3)**  
EDL 709 provides an overview of assumptions and procedures for systematic inquiry in educational settings and practice using diverse strategies to analyze data in order to make informed decisions about improving student learning and school performance. Hybrid delivery that features face-to-face and online sessions. Prereq: Current EdS degree-seeing student in principal preparation program or approval of course instructor.
- EDL 749 DISSERTATION RESEARCH. (0)**  
Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

**EDL 751 FOUNDATIONS OF INQUIRY. (3)**

Introductory study of assumptions and procedures of systematic inquiry used to investigate administrative, leadership and supervisory phenomena in education. Issues regarding quantitative, qualitative and mixed methods models of inquiry are included.

**EDL 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

**EDL 769 RESIDENCE CREDIT FOR THE DOCTOR'S DEGREE. (0-12)**

May be repeated indefinitely.

**EDL 770 TOPICAL SEMINAR IN EDUCATIONAL LEADERSHIP. (1-3)**

Advanced graduate students enroll in this topical seminar to enhance their portfolios for educational leadership through concentrated study of innovations in the specialized functions of leadership. These specializations include, but are not limited to, the study of curriculum and instructional leadership, educational law, personnel administration, school and community relations, education for diverse populations, budgeting and financing of schools. May be repeated to a maximum of nine credits. Prereq: Admission to program or consent of instructor.

**EDL 771 SEMINAR IN LEADERSHIP. (1-3)**

A variable topic seminar on selected problems in educational leadership. Activities are designed to improve skill in planning, data-informed decision making, organizing, communicating, evaluating, negotiating, and problem solving will be provided as appropriate. Educational innovations and processes of implementing change may be analyzed. May be repeated to a maximum of nine credits. Prereq: Admission to program or consent of instructor.

**EDL 785 INDEPENDENT WORK IN EDUCATIONAL LEADERSHIP. (3)**

Includes research on a practical problem in educational leadership. Open only to students with at least one semester of graduate work in education. May be repeated to a maximum of nine credits. Prereq: Consent of instructor.

**EDL 792 RESEARCH IN EDUCATIONAL LEADERSHIP. (3)**

Critical examination of representative research studies in leadership and related fields. Emphasis upon the students' defining and delimiting an appropriate problem in educational leadership, generating a design appropriate to the problem and selecting appropriate techniques of analysis. Prereq: Admission to program.

**EDP Educational and Counseling Psychology**

**EDP 202 HUMAN DEVELOPMENT AND LEARNING. (3)**

Theories and concepts of human development, learning, and motivation are presented and applied to interpreting and explaining human behavior and interaction in relation to teaching across the developmental span from early childhood to adulthood. A field experience in a school or other educational agency is a required and basic part of the course. Prereq: PSY 100.

**EDP 203 TEACHING EXCEPTIONAL LEARNERS IN REGULAR CLASSROOMS. (3)**

An introduction to the characteristics and instructional needs of exceptional learners is presented with an overview of principles, procedures, methods, and materials for adapting educational programs to accommodate the integration of exceptional children in regular classrooms, when appropriate. A field experience in a school or other educational agency is a required and basic part of the course. Lecture, three hours per week; laboratory, two hours per week for a maximum of six weeks. Prereq: Successful completion of EDP 202 with an earned grade of C or higher.

**\*EDP 303 TEACHING EXCEPTIONAL LEARNERS IN THE ELEMENTARY CLASSROOM. (3)**

This course is designed to introduce students to issues related to classroom instruction to meet the needs of ALL students. We will examine the concept of the "least restrictive environment" (LRE) for learners and will discuss a variety of individual and group differences and exceptionalities, including various disabilities, giftedness, multicultural and diversity issues that teachers encounter in the regular classroom. The emphasis will be on understanding the needs and abilities of exceptional learners in order to make appropriate, reflective decisions about their instruction. Prereq: Admission to the Elementary Teacher Education Program and successful completion of EDP 202, or an equivalent.

**EDP 305 INTRODUCTION TO COUNSELING SKILLS. (3)**

This course serves as an introduction to the skills and techniques required to be an effective helper, broadly defined, but generally focused within a counseling context. Didactic and experiential training is provided for initial counseling, interviewing (listening), and relationship building skills. Prereq: Completion of PSY 100 or consent of instructor.

**EDP 513 SOCIAL ASPECTS OF BEHAVIOR. (3)**

This course is designed to meet the needs of undergraduate and graduate students in the College of Education for a course in theory and principles of social psychology. The course will cover the basic concepts and theories in social psychology. The theories of attitude formation, group dynamics, and biases will be surveyed, with an application to the professional fields of psychology. In addition to the theories and principles of social psychology, research

paradigms, social change, social influence, system consultation, and community issues as they relate to social psychological considerations will be addressed. Undergraduate-level prereq: One course in psychology or consent of instructor. Graduate-level prereq: None.

**EDP 518 CONTEMPORARY TOPICS IN UNIVERSITY RESIDENTIAL LIVING. (3)**

An exploration of topic areas such as conflict mediation, crisis management, communication skills, student development theories, and wellness designed to provide new Resident Life Advisors with the skills and knowledge essential for being successful. Prereq: PSY 100, PSY 215, or EDP 202 and must be a Residence Life Advisor.

**EDP 520 PROGRAM EVALUATION. (3)**

This course is an application-focused course that provides an overview of program evaluation. This course will cover the types of evaluation, the theory associated with evaluation, and the tools most commonly applied to the evaluation process. Students will develop an appreciation for the flexibility needed in order to perform evaluation tasks in practical situations related to their area of expertise. (Same as EPE 520/KHP 520.)

**EDP 522 PSYCHOLOGICAL AND EDUCATIONAL TESTS AND MEASUREMENTS. (3)**

Problems of measurement with emphasis on standardized tests. General principles of test construction and evaluation, for standardized assessments and/or teacher-made tests, examinations, criteria for evaluation and marking and other rating systems. (Same as EDC/EPE 522.)

**EDP 545 PSYCHOLOGY OF THE BLACK EXPERIENCE. (3)**

EDP 545, Psychology of the Black Experience, is an elective course in the Department of Educational, School, and Counseling Psychology and is cross-listed with the Africana Studies program and Psychology department. It is designed to offer enrolled undergraduate and graduate students opportunities to survey, explore, and critique classic and contemporary theories and research articulating the psychologies that inform both social and academic experiences and observed behaviors of Black people. While there are multiple objectives for this upper-level undergraduate and graduate-level seminar course, one central objective for the course is to expose all students to literature and research pertaining to the Black experience in the United States in an effort to develop and refine ideas and mindsets that will foster and reflect innovate ways of thinking about how to enhance the life experiences of Black persons. That is, in the course, the primary objective is to have the course material and critical discourse influence your thinking about and actions towards or on behalf of Black persons. Prereq: PSY 100 or AAS 200 or consent of the instructor. (Same as AAS 545.)

**EDP 548 EDUCATIONAL PSYCHOLOGY. (3)**

An introduction to the application of principles of psychology to classroom learning and teaching problems.

**EDP 557 GATHERING, ANALYZING, AND USING EDUCATIONAL DATA. (3)**

This course is rooted in the conceptual understanding of statistics and covers applications of statistical and graphical methods for educational and evaluation data. Basic descriptive statistics, correlation, normal distributions and hypothesis testing will be covered. An emphasis is placed on exploratory data analysis and interpretation of results within the broad contexts of education and evaluation. Statistical literacy exercises will be used for comprehension and application of materials. In addition, applications of statistical software will be demonstrated. Prereq: MA 109 or equivalent; undergraduate (with permission) or graduate status in the College of Education; or consent of the instructor. (Same as EPE 557.)

**EDP 558 GATHERING, ANALYZING, AND USING EDUCATIONAL DATA II. (3)**

The course covers applications of statistical and graphical methods for educational and evaluation data. Topics to be covered include descriptive statistics, correlation, normal distributions, hypothesis testing, regression, ANOVA, and power. General goals include: developing an understanding of statistical concepts, improving reasoning and critical thinking skills, and to prepare for more advanced quantitative courses. Students will gain valuable statistical computing skills via stats Software. Prereq: EDP/EPE 557 or equivalent. (Same as EPE 558.)

**#EDP 560 ASSESSMENT AND SCHOOL DATA ANALYSIS. (3)**

This course focuses on the theoretical and practical aspects of educational assessment at the student, classroom, school, state/province, national, and international levels. Students examine the history of assessment in education, the varied purposes of assessment, the strengths and shortcomings of different assessment formats, and relevant research regarding the effectiveness of various types of assessment for specific educational purposes. They also explore the development of assessments to address particular types of student learning goals, the construction of rubrics to offer students descriptive feedback on their performance, the interpretation of assessment results, and the use of those results to improve teaching quality and student learning. There are no formal prerequisites, but an introductory course in statistical methods (e.g., EDP/EPE 557 or 558) and a basic course in educational tests and measures (e.g., EDP/EPE/EDC 522) are recommended. The course may be conducted in either an online or face-to-face format, depending on the semester and instructor. (Same as EDC 540/EPE 560.)

**EDP 570 INTRODUCTION TO PSYCHOLOGICAL SERVICES IN SCHOOLS. (3)**

A review of the historical development and models of organization and administration in the field of school psychology and the relationship between school psychology and other educational and psychological specialties. Prereq: Admission to School Psychology Program or consent of instructor.

**EDP 600 LIFE SPAN OF HUMAN DEVELOPMENT AND BEHAVIOR. (3)**

This course is designed to meet the needs of graduate students in the College of Education for a course in theory and principles of developmental theories of individuals across the lifespan. Lifespan developmental psychology is a study of how and why people change over time as well as how and why they remain the same from conception through the aging process. The course is described through three perspectives: physical, cognitive, and psychosocial. Emphasis will be on the major transitions from infancy through young adulthood in the physical, cognitive, social, moral and emotional domains. The impact of ethnic, gender, and cultural factors on development will also be examined.

**EDP 603 HUMAN COGNITIVE DEVELOPMENT. (3)**

Theory and research concerning the development of attitudes, motives, self-concept and other cognitive processes are presented and the educational implications explored. Prereq: EDP 548 or EDP 610 or EDP 600.

**EDP 604 LIFESPAN GENDER DEVELOPMENT. (3)**

An in-depth examination of theory, research, and personal attitudes concerning gender development over the lifespan. Interaction of gender with effective personal functioning in family, educational, and work-related settings. Prereq: EDP 600 and 601 or equivalent.

**EDP 605 INTRODUCTION TO COUNSELING: TECHNIQUES I. (3)**

A survey of counseling psychology, philosophy, procedures and practices. Consideration of the roles of the counselor in relation to counseling services in the community and educational settings. In-depth training in initial counseling skills, interviewing (listening) and relationship building skills. Prereq: Acceptance to the graduate program in counseling psychology with the following major codes: RECO, ECGO, CPEC, ECPY, ECPC, CNPS, ESPP, ESPY, ECPP, or consent of instructor via permit.

**EDP 606 COUNSELING PSYCHOLOGY PROFESSIONAL IDENTITY, ISSUES, AND RESEARCH METHODS. (3)**

Foundational doctoral seminar in counseling psychology. Addresses professional identity, historical perspectives, training issues, and current issues in counseling psychology. Provides an introduction to counseling psychology research methodology related to evidence-based practice. Prereq: Enrollment in the doctoral program in counseling psychology.

**EDP 610 THEORIES OF LEARNING IN EDUCATION. (3)**

Consideration of the theoretical origins of learning within the context of education. Topics include major theories of learning, physiological bases for learning, relationships between learning theory and instruction, and major applications of learning theories in educational settings.

**EDP 614 MOTIVATION AND LEARNING. (3)**

This course will provide a review of current educational and psychological theories of motivation. After examining various theories (e.g., attributions, goals, self efficacy, expectancy X value), the course will examine applications of these theories to contemporary issues such as violence, substance abuse, dropping out of school, health maintenance, etc.

**EDP 615 PROSEMINAR IN HISTORY AND SYSTEMS OF PSYCHOLOGY. (3)**

A study of the philosophical precursors and scientific traditions of psychology. The schools of 19th and 20th century psychology are surveyed as are the major theoretical positions and content areas of contemporary psychology. Prereq: Graduate standing in department of Psychology or department of Educational and Counseling Psychology. (Same as PSY 620.)

**EDP 616 MULTICULTURAL PSYCHOLOGY. (3)**

This course is designed to increase one's sensitivity to and respect for individual differences. Models, frameworks, techniques and experiential exercises are presented to increase one's skill level in working with persons from racially and ethnically diverse backgrounds. Prereq: EDP 600 or equivalent or consent of instructor. (Same as AAS 616.)

**EDP 620 TOPICS AND METHODS OF EVALUATION. (3)**

An examination of a subset of evaluation methods, topics, and problems. An introductory course in the area with minimal emphasis on quantitative methods. The course is designed to: provide a perspective from which evaluation studies may be viewed; and, to provide experiences for those who will learn from or conduct evaluations. Prereq: Consent of instructor, and a basic course in statistics or research. (Same as ANT/EPE 620/SOC 622.)

**\*EDP 621 ADVANCED TOPICS AND METHODS OF EVALUATION. (3)**

An advanced course in evaluation methods and techniques with an emphasis on quantitative methodology. State of the art ideas and methods of conducting evaluation studies and analyzing data from those studies are presented. The course is designed primarily for those who are conducting or will conduct evaluation studies. Prereq: A basic course in statistics or its equivalent; EDP/EPE/ANT 620; and consent of instructor. (Same as ANT 621/EPE 621.)

**\*EDP 622 SUPERVISION IN SCHOOL PSYCHOLOGY I: THEORETICAL MODES OF PRACTICE. (3)**

The objectives of this seminar include 1.) Students will be able to demonstrate knowledge of supervision models and practice, 2.) Students will be able to identify and articulate a personal supervision model, 3.) Students will be able to apply their personal supervision model, and 4.) Students will be able to identify areas of growth and areas in need of improvement with respect to their professional supervision skills. Students will work with second year school psychology students as "Supervisors in Training" to build their knowledge and skill-based competencies in supervision. Prereq: Enrollment in PHD program in School Psychology.

**#EDP 623 SUPERVISION IN SCHOOL PSYCHOLOGY II: APPLICATION FOR PRACTICE. (3)**

The objectives of this seminar include 1.) Students will be able to demonstrate knowledge of supervision models and practice, 2.) Students will be able to identify and articulate a personal supervision model, 3.) Students will be able to apply their personal supervision model and 4.) Students will be able to identify areas of growth and areas in need of improvement with respect to their professional supervision skills. Students will work with second year school psychology students as "Supervisors in Training" to build their knowledge and skill-based competencies in supervision. Prereq: Enrollment in PhD program in School Psychology; EDP 622.

**EDP 630 PRINCIPLES OF PSYCHOLOGICAL ASSESSMENT. (3)**

An overview of the principles and methods of psychological assessment including observational methods, interviewing, behavioral analysis, and standardized psychological testing as a means of arriving at a comprehensive individual analysis and of creating a treatment plan for both children and adults. Students develop skills in selection and evaluation of psychological tests (personality, interests, and aptitudes), integration of multi-modal assessment methods, and report writing. Prereq: Acceptance to the graduate programs in Educational and Counseling Psychology with the following major codes: CPEC, ECPY, ECPC, CNPS, ECPP, ECPE, EEPS, ESPY, ECPS, ESPP or consent of the instructor via permit.

**EDP 640 INDIVIDUAL ASSESSMENT OF COGNITIVE FUNCTIONING. (3)**

This course provides theoretical material and advanced laboratory practice in the measurement of intelligence by individual techniques. Lecture, two hours; laboratory, two hours. May be repeated to a maximum of six credits. Prereq: PSY 535 (with a grade of "B" or better) or equivalent, enrollment in a professional program in Educational, School, and Counseling Psychology or consent of instructor.

**EDP 642 INDIVIDUAL ASSESSMENT OF PERSONALITY FUNCTIONING. (3)**

An in-depth study of the nature and measurement of human emotion, temperament and personality. Laboratory and field experience in the administration, scoring, and interpretation of tests related to personality functioning and underlying dynamics of personality. May be repeated to a maximum of six credits. Prereq: Successful completion of PSY 535 (or equivalent) with a grade of "B" or better and enrollment in a professional program in Educational, School, and Counseling Psychology.

**EDP 649 GROUP COUNSELING. (3)**

An overview of the theoretical bases and practical procedures used in the organization, and effective use of group counseling in the facilitation of psychological and educational goals. Prereq: EDP 605, EDP 652 and EDP 661 (all with grades of "B" or better), or consent of instructor.

**EDP 650 DIAGNOSIS AND PSYCHOPATHOLOGY IN COUNSELING PSYCHOLOGY. (3)**

An integrative seminar in diagnosis and application of theories, techniques and assessment tools in Counseling Psychology. Special consideration of classification of psychological states and characteristics including DSM-IV temperament, analysis, and other research methods of integrating assessment and treatment alternatives. Prereq: PSY 535 or equivalent, EDP 652, and EDP 661 (all with a "B" or better) and admission to a program in Educational, School, and Counseling Psychology or consent of the instructor.

**EDP 652 THEORIES OF COUNSELING. (3)**

A survey of theories and methods in facilitating personality growth, character maturation, problem solving, decision making, crisis resolutions, and behavior change, through individual and group counseling. Prereq: Acceptance to a graduate program in EDP with the following major codes: EGCO, CPEC, ECPY, ECPC, ESPP, ECPS, ECPE, EEPS, CNPS, EDPS, or consent of instructor via permit.

**EDP 656 RESEARCH METHODS. (3)**

An introduction to research methods applicable to education, the scientific method, research designs, measurement techniques, statistical analysis, and writing the research report. Prereq: EDP/EPE 557, EDP/EPE 558, or equivalent, but preferred EDP/EPE 558.

**EDP 657 MAJOR THEORIES IN LEARNING IN SECONDARY EDUCATION. (1)**

This course will provide an overview of some of the major theories of human learning as they relate to formal education and schooling. We will attempt to examine such theories of human learning while paying close attention to the roles that philosophy, history, the humanities, the natural sciences, and psychology have played in their development. Also, throughout the course, we shall attempt to explore current topics in the formal educational experiences of elementary, secondary and postsecondary students in order to link such theories to known educational practice. Finally, in the interest of advancing the current learning theories, we will offer critical evaluations of the presented learning theories and use these in the development of our own ideas, conceptualizations and theoretical developments regarding human learning. Prereq: Admission to the M.A. in Education (Secondary Education with initial certification option).

**EDP 658 PROBLEMS IN EDUCATIONAL PSYCHOLOGY. (1-3)**

Special topics in psychological theories and research applicable to educational practices. May be repeated to a maximum of six credits. Prereq: Consent of instructor.

**EDP 660 RESEARCH DESIGN AND ANALYSIS IN EDUCATION. (3)**

This is a statistics-oriented course that focuses on various aspects of regression analysis (general and generalized linear models). Topics to be covered include, but are not limited to, simple correlation and regression, multiple regression (with and without interaction/moderation terms, with/without nonlinear terms, contrast variable coding for categorical predictors, nested model comparison for hierarchical regression, etc.), regression diagnostics (outlying and influential cases identification and assessment, collinearity evaluation, residual analysis, etc.), logistic regression (with a comparison of the logit model with other commonly used classification models like probit model, decision tree model, etc.), among other things. The course will familiarize students with cleaning data for regression analysis, building regression models, conducting statistical inference of regression models, selecting the optimal regression model(s) for the data in hand, and interpreting regression analysis results using the right language. Students will gain requisite foundation knowledge necessary to learn more complex statistical tests and procedures, and become more critical of statistical presentations in academic journals and the mass media. Students will also become proficient in using at least one major statistics computer program (SPSS, Minitab, SAS, Stata, or R). Prereq: EPE/EDP 558 or consent of instructor. (Same as EPE 660.)

**EDP 661 TECHNIQUES OF COUNSELING II. (3)**

Practice in interviewing, simulated problems, observational techniques, role of the counselor. Study of films, tapes and transcripts of leading practitioners of several schools of counseling. Supervised practice with selected clients. Lecture, two hours; laboratory, two hours. Prereq: EDP 652, PSY 535 (both with a grade of "B" or better), and consent of instructor.

**EDP 662 DOCTORAL PRE-PRACTICUM SEMINAR. (1)**

Preparation for UK Counseling Center Doctoral Level practicum will include starting to develop an integrative understanding of theory, assessment, ethics, and practice as it relates to effective work with university students. The course introduces the application of traditional individual and group psychotherapy and the provision of effective outreach and consultation on a university campus. Lecture, one hour, fifteen minutes. Prereq: Approval for doctoral-level practicum at UK Counseling & Testing Center.

**EDP 664 PRE-MASTERS PRACTICUM IN COUNSELING PSYCHOLOGY. (3-6)**

Supervised experience in application of diagnostic and interviewing techniques in a counseling service. May be repeated to a maximum of 12 credits. Lecture, three hours; laboratory, eight hours per three credit hours. Prereq: All required counseling coursework. EDP 605, PSY 535 or equivalent, EDP 652, EDP 688, and EDP 661 (minimum competency courses with grades of "B" or better), application for practicum the semester prior to practicum placement and permission of CPAC.

**EDP 665 POST-MASTERS PRACTICUM IN COUNSELING PSYCHOLOGY. (1-6)**

Supervised experience in application of diagnostic and interviewing techniques in a counseling service. Prereq: PSY 535 or equivalent, EDP 605, EDP 652, EDP 661, EDP 649, and EDP 688 or equivalent (all with grades of "B" or better). Application for practicum the semester prior to practicum placement and permission of CPAC.

**EDP 666 PSYCHOLOGY OF CAREER COUNSELING. (3)**

A survey of theories and methods used in Career Counseling. Contemporary approaches to career counseling are studied within developmental and decision-making frameworks. Prereq: EDP 652 and PSY 535 or equivalent (both with a grade of "B" or better).

**EDP 669 DIAGNOSTIC CLASSIFICATION IN SCHOOL PSYCHOLOGY. (3)**

Review of theory and research related to individual differences in physical, intellectual, social, and emotional development of preschool and school-aged children and adolescents. Compares psychological and educational approaches to diagnostic classification of such differences. Prereq: PSY 533 or consent of instructor.

**EDP 670 PSYCHOEDUCATIONAL STRATEGIES OF INTERVENTION. (3)**

A general review of and development of basic competence in the major intervention strategies applicable to the amelioration of children's common learning and adjustment difficulties in the school setting. Prereq: EDP 640, EDP 669 and Admission to School Psychology Program.

**EDP 671 SEMINAR IN PSYCHOEDUCATIONAL CONSULTATION IN SCHOOLS. (3)**

A study of the rationale and techniques used in consultation with teachers, parents, administrators and other school personnel for the purpose of both preventing and alleviating the learning and adjustment difficulties of individual or groups of school-aged children. Prereq: Admission to School Psychology Program, advanced standing in a professional educational program or permission of the instructor.

**EDP 674 SCHOOL-BASED PRACTICUM IN SCHOOL PSYCHOLOGY. (1-6)**

Supervised experience in the application of psychoeducational, diagnostic assessment, intervention, and consultation services in a school setting. Requires minimum three hours of on-site activities per credit hour. Students will have a primary supervisor at their school site. Students will attend class meetings in a didactic format. Students will have a university supervisor who will serve as a secondary supervisor and communicate and coordinate on-going communication with the school-based supervisor. May be repeated to a maximum of 18 credits. Prereq: Admission to the School Psychology Program and consent of instructor.

**EDP 675 PRACTICUM IN SCHOOL PSYCHOLOGY. (1-6)**

Supervised experience in the application of psychoeducational, diagnostic assessment, intervention, and consultation services in a clinic, school, or community setting. Requires three hours of on-site activities per credit hour and weekly supervision meetings. May be repeated to a maximum of 18 credits. Prereq: Admission to the School Psychology Program and consent of instructor.

**EDP 679 INTRODUCTION TO MEASUREMENT THEORY AND TECHNIQUES. (3)**

This is a measurement-oriented course that focuses on introducing measurement theory and techniques used in education and evaluation. Topics to be covered include, but are not limited to, measurement models, bivariate measures of association, norms, standardized score scales, scaling, reliability, validity, item analysis, factor analysis, confirmatory factor analysis, test construction for affective and cognitive instruments, Item Response Theory, and Rasch. The course aims to familiarize students with measurement terminology, possess a detailed strategy for constructing an instrument suitable for research purposes, become familiar with statistical procedures and software for implementing measurement techniques, gain requisite foundation of knowledge necessary to learn more complex measurement models, and become more critical of measurement presentations in academic journals and the mass media. Prereq: EDP/EPE 660, EPE 621, or equivalent. (Same as EPE 679.)

**EDP 680 PARENT AND CHILD COUNSELING. (3)**

Theories, methods, and techniques of counseling psychology as applied to planned interventions with parents and their children. Contemporary approaches to family and child dysfunctioning are studied within a framework of human development; applied practice utilizing simulated problems. Prereq: EDP 652 and EDP 661 (both with a grade of "B" or better) or consent of instructor.

**EDP 683 TOPICS IN COUNSELING PSYCHOLOGY. (1-3)**

Counseling for special problems with special methods. Topics may vary from semester to semester. Seminar, one-three hours per week. May be repeated to a maximum of 12 credits. Prereq or coreq: EDP 652 and consent of instructor.

**EDP 685 ISSUES AND TECHNIQUES IN THE COUNSELING OF WOMEN. (3)**

The course is designed to improve students' knowledge of the special counseling needs of women and to facilitate students' development of highly skilled techniques for counseling with women. Skill and knowledge areas include such topics as rape, spouse abuse, mastectomy, career, assertiveness, single parenting, and sex discrimination. Prereq: EDP 652 and EDP 661 (both with a grade of "B" or better) or corequisite EDP 604 or consent of instructor.

**EDP 686 THEORY AND METHODS IN MARRIAGE AND FAMILY THERAPY. (3)**

A survey of theories and methods used in marriage and family therapy. Designed to provide students with a knowledge of the theoretical bases for marriage and family therapy, including an introduction to procedures used to assess, diagnose and treat marriage and family dysfunctions. Prereq: Consent of instructor and EDP 661 (with a grade of "B" or better).

**EDP 688 ETHICAL AND LEGAL ISSUES IN PSYCHOLOGY. (3)**

This course is designed to educate students about ethical and legal issues related to the practice of psychology. An emphasis is placed on learning the current APA ethical code of conduct, mental health laws, and ethical decision-making models. Prereq: EDP 605 and 661, or consent of the instructor.

**#EDP 702 SEX PSYCHOLOGY: INTERSECTIONAL SEX THERAPY PRACTICE. (3)**

To prepare counseling psychology scientist-practitioners and other mental health professionals from a social justice framework, this course is designed to provide students with an opportunity to critically examine the psychology of sex therapy from an intersectional perspective. The course will cover sexual functioning, as well as cultural scenarios, interpersonal scripts, and intrapsychic scripts related to sex therapy from various social locations. This course will also explore the psychophysiology of sex and attachment in sexual relationships and focus special attention to culturally competent, intersectional sex therapy interventions.

**EDP 703 SEMINAR IN CLINICAL SUPERVISION AND CONSULTATION. (1-3)**

An advanced seminar covering theories, issues, methods and techniques used in supervision of counseling and psychotherapy and in consultation with groups and organizations. Seminar topics will vary depending on the interests of the professor and students. May be repeated to a maximum of six credits. Prereq: EDP 652, EDP 661, and EDP 665 or equivalent.

**EDP 704 SOCIAL JUSTICE CONSULTATION AND EVALUATION. (3)**

This course focuses on theoretically grounded social justice consultation and evaluation in counseling psychology. The purpose of this course is to help students develop beginning competencies in social justice consultation, advocacy, and program evaluation as counseling psychologists. Doctoral students in counseling psychology will practice beginning skills in interprofessional collaboration and community partnership. Prereq: Students can enroll once they have completed the first year of the counseling psychology doctoral program.

**EDP 707 MULTIVARIATE ANALYSIS IN EDUCATIONAL RESEARCH. (3)**

Multivariate statistics will prepare student to understand multivariate statistical methods and draw the link between statistics previously learned. Students will be able to conduct, interpret, and critique procedures such as factorial ANOVA, multiple regression, MANOVA, ANCOVA, MANCOVA, PCA, EFA, discriminant function analysis, logistic regression, canonical correlation, hierarchical linear regression, and multivariate analysis of change. Become familiar with statistical software for implementing multivariate procedures. Develop an understanding of the concepts, terms, and symbols used in multivariate statistics (e.g., Matrix Algebra, effect sizes). Gain an appreciation of the role of multivariate procedures in the research process. Gain requisite knowledge necessary to learn more complex statistical procedures. Prereq: EDP/EPE 660 or equivalent. (Same as EPE 707.)

**EDP 708 INTERNSHIP IN EDUCATIONAL, SCHOOL, AND COUNSELING PSYCHOLOGY. (0-9)**

Full-time practice in an operational setting such as a school or government agency, with on-site supervision provided by the host agency and with academic supervision provided by a University faculty member. Practicum: full-time field experience. May be repeated to a maximum of 12 credits. Prereq: Completion of a minimum of one year of graduate study in the department and consent of instructor.

**EDP 711 ADVANCED QUANTITATIVE METHODS (Subtitle required). (3-12)**

This course will provide students with an overview of the theory and applications of advanced quantitative methods. A quantitative research method focuses on advanced quantitative methodologies used in methodologically-oriented studies in educational research, evaluation, and statistics. The goal of this course is to prepare students to analyze data using advanced quantitative methods. It covers topics in the areas of multilevel modeling, data mining, missing data, categorical data analysis, meta-analysis, and longitudinal data analysis. Other specific analysis techniques may also be explored. Given the advanced nature of the course, we will not shy away from using the mathematical tools needed to develop the conceptual understanding. But the emphasis of the course will be on the conceptual understanding and application of the tools rather than on the math or the mechanics behind the tools. This course can be repeated for up to 12 credit hours. Prereq: Intermediate Statistics. (Same as EPE 711.)

**EDP 712 ADVANCED PSYCHOMETRIC METHODS (Subtitle required). (3-12)**

This course will provide students with an overview of the theory and applications of advanced psychometric methods. A psychometric method focuses on advanced psychometric methodologies used in methodologically-oriented studies in educational measurement and evaluation techniques. The goal of this course is to prepare students to analyze data using advanced psychometric methods. It covers topics in the areas of Rasch Modeling, Item Response Theory, Structural Equation Modeling, Advanced Survey Techniques, and Latent Variable Modeling (as well as additional techniques). Given the advanced nature of the course, we will not shy away from using the mathematical tools needed to develop the conceptual understanding. But the emphasis of the course will be on the conceptual understanding and application of the tools rather than on the math or the mechanics behind the tools. This course can be repeated for up to 12 credit hours. Prereq: Intermediate Statistics. (Same as EPE 712.)

**EDP 748 MASTER'S THESIS RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

**EDP 749 DISSERTATION RESEARCH. (0)**

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

**\*EDP 765 DOCTORAL RESEARCH SEMINAR. (1)**

This seminar provides structure for working with faculty advisors and peer colleagues to cultivate the research skills needed to create new knowledge related to research questions that are important to the fields of counseling psychology, educational psychology, school psychology, and quantitative and psychometric methods, and to the mission of social justice. Prereq: Enrollment in the counseling psychology, educational psychology, school psychology, or quantitative and psychometric methods graduate program and permission of the instructor.

**EDP 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

**EDP 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours.

**EDP 769 RESIDENCE CREDIT FOR THE DOCTOR'S DEGREE. (0-12)**

May be repeated indefinitely.

**EDP 770 LEGAL ETHICAL PSYCHOLOGY. (3)**

The goal of this course is to provide students with knowledge of ethics and law that pertain to the theory, research, and practice of school psychology. This course will provide experiential and problem-based learning in the area of professional standards and ethics for the field of school psychology. Professional standards and ethics will be drawn from the codes of the American Psychological Association, the National Association of School Psychologists, and the Association of State and Provincial Psychology Boards. Students will translate ethical

principles and standards into guidelines for decision making and practice. Prereq: Admission to School Psychology graduate program or permission of instructor.

**EDP 776 SEMINAR IN SCHOOL PSYCHOLOGY (Subtitle required). (3)**

Topical consideration of philosophical, technical, professional and theoretical positions in school psychology theory and practice. May be repeated to a maximum of nine credits under different subtitles. Prereq: Graduate standing in School Psychology or consent of instructor.

**EDP 777 SEMINAR IN COUNSELING PSYCHOLOGY. (1-3)**

Topical consideration of philosophical, technical and theoretical positions in counseling theory and practice. May be repeated to a maximum of six credits. Prereq: Consent of instructor.

**EDP 778 SEMINAR IN EDUCATIONAL PSYCHOLOGY (Subtitle required). (3)**

Intensive study of selected topics in human learning and development. Particular emphasis on research topics. Students will design sample studies in their areas of interest. May be repeated to a maximum of nine credits under different subtitles. Prereq: Doctoral standing in the College of Education or consent of instructor.

**EDP 782 INDEPENDENT STUDY IN EDUCATIONAL PSYCHOLOGY. (1-3)**

Independent study course for advanced graduate students who desire to investigate special problems and conduct research in educational psychology. May be repeated to a maximum of 12 credits. Prereq: One year of graduate work in educational psychology and consent of instructor.

---

## EDS Special Education

---

**EDS 301 INITIAL PRACTICUM IN SPECIAL EDUCATION. (2)**

This field-based course is intended to provide opportunities for students to demonstrate their readiness for teaching students with disabilities across grade levels, special education settings, and types of disabilities. This initial practicum will allow you to gain experiences in teaching students with disabilities and apply your course content to a classroom setting. Prereq: You must have successfully completed EDS 375. Additionally, you must be concurrently enrolled in EDS 517, EDS 530, and EDS 570.

**EDS 357 INITIAL PRACTICUM IN SPECIAL EDUCATION. (1)**

An introductory supervised field experience for special education majors. Students will participate in two special education programs as teacher aides. Placements will include public schools and other agencies serving children with disabilities. May be repeated to a maximum of three credits. Lecture, one hour; field experience, three hours per week. Prereq or concurrent: EDS 375 (may be a co-requisite); restricted to declared majors in Learning and Behavioral Disorders (SELB) and Moderate and Severe Disabilities (SEMS).

**EDS 375 INTRODUCTION TO EDUCATION OF EXCEPTIONAL CHILDREN. (3)**

An introduction to the various contemporary areas of special education. Topics include special education diagnostic categories, programming, service delivery models, career education, child advocacy and litigation affecting public education for students with disabilities.

**EDS 395 INDEPENDENT STUDY IN SPECIAL EDUCATION. (1-6)**

An independent study course for undergraduate students with an interest in a specific problem in special education. Offered by appointment.

**EDS 401 INTERMEDIATE PRACTICUM IN SPECIAL EDUCATION. (3)**

This field-based course is intended to provide opportunities for students to demonstrate their readiness for teaching students with disabilities across grade levels, special education settings, and types of disabilities. This intermediate practicum will allow you to gain experiences in teaching students with disabilities and apply your course content to a classroom setting. Prereq: You must have been admitted to the special education teacher education program (TEP), and successfully completed the EDS 357 and EDS 301. Additionally, you must be enrolled in EDS 528, EDS 549, and EDS 518.

**EDS 402 ADVANCED PRACTICUM IN SPECIAL EDUCATION. (3)**

This field-based course is intended to provide opportunities for students to demonstrate their readiness for teaching students with disabilities across grade levels, special education settings, and types of disabilities. This advanced practicum will allow you to gain experiences in teaching students with disabilities and apply your course content to a classroom setting. Prereq: You must have successfully completed EDS 375, EDS 301, and EDS 401. Additionally, you must also be enrolled in EDS 529, and EDS 548.

**EDS 447 STRATEGIES FOR INCLUDING STUDENTS WITH DISABILITIES IN THE ELEMENTARY CLASSROOM. (2)**

This course will focus on inclusion of students with disabilities in all aspects of the elementary classroom. The course will prepare general education elementary teachers to collaborate with special education teachers and other professionals in planning and implementing instruction, behavioral supports, and assessments. Prereq: Elementary Education major, admission to Teacher Education Program, successful completion of EDP 303 and EDC 322, and concurrent enrollment in EDC 433.

**EDS 459 STUDENT TEACHING IN SPECIAL EDUCATION. (3-12)**

Supervised student teaching experience utilizing the special techniques used in working with individuals with exceptional educational problems such as speech handicaps, physical handicaps, visual impairments, hearing disabilities, neurological impairments (learning disabilities), mental retardation, and the gifted. To be offered only on a pass-fail basis. Prereq: Must complete the published College requirements for admission to student teaching; admission to the Teacher Education Program or permission of instructor.

**#EDS 501 UNIVERSAL DESIGN FOR LEARNING (UDL). (3)**

With the increase in diversity in education and the global economy, it is critical that students, staff, and faculty have experience in Universal Design for Learning (UDL). UDL calls for materials that address the majority of individual needs and are accessible from the very beginning. This requires a change in thinking from a traditional one-size-fits-all education and training philosophy to one that provides greater flexibility, providing multiple means of engagement, multiple means of representation, and multiple means of action and expression, in order to promote more purposeful and motivated, resourceful and knowledgeable, and strategic and goal-directed learners.

The course will be founded in current practices and literature applicable to UDL. Learners will be encouraged to use current and innovative technologies and tools to develop course content that exemplifies best practices, including UDL principals, accessibility standards/regulations, and Quality Matters.

**EDS 513 LEGAL ISSUES IN SPECIAL EDUCATION. (3)**

A review of pertinent legislation concerning human and constitutional rights related to persons with disabilities. Teachers' specific responsibilities and liabilities are described and related to current requirements for development of appropriate educational programs. Emphasis is given to how, through active parent participation, teachers can facilitate each student's developmental progress. Prereq: EDS 375 or consent of instructor.

**EDS 514 INSTRUCTIONAL TECHNOLOGY IN SPECIAL EDUCATION. (3)**

An overview of ways technology can be used to facilitate the education of students with disabilities. Topics include personal computer operation, personal productivity tools, instructional software evaluation and integration into the curriculum, multimedia applications, telecommunications, and emerging technologies. Lecture, three hours; laboratory, two hours per week. Prereq: EDS 375 or EDP 203.

**EDS 516 PRINCIPLES OF BEHAVIOR MANAGEMENT AND INSTRUCTION. (3)**

Basic principles of applied behavior analysis and modification which employ social learning theory and operant conditioning models are taught. Emphasis is placed on designing individualized learning environments, selecting and implementing behavior management strategies, writing behavior objectives, and performing task analyses. Prereq: EDS 375 or permission of the instructor.

**EDS 517 ASSISTIVE TECHNOLOGY IN SPECIAL EDUCATION. (3)**

This course is designed to enable students to critically discuss issues relating to the educational, psychosocial, medical, and therapeutic aspects of teaching students with specific cognitive, physical, and sensory disabilities and health impairments. Students will learn to use assistive technology. This will include selecting appropriate adaptive devices/strategies, programming for their use in an educational setting, and identifying professionals who support these selections. The conceptual underpinning of the course is based on the Human Function Model which identifies assistive technologies to assist with the areas of existence; communication; body support, alignment and positioning; travel and mobility; education and transition; environmental adaptation; and sports, recreation, and leisure. Prereq: EDP 203 or EDS 375 or equivalent; or permission of the instructor. Coreq: EDS 301.

**EDS 518 BEHAVIOR MANAGEMENT IN APPLIED SETTINGS. (3)**

Principles of behavior analysis will be used to determine behavioral functions and intervention development for students exhibiting challenging behaviors within the schools. The course will focus on the key tenants of functional behavioral assessments and behavior intervention planning, with special attention to the provisions of indirect services to students. Field experiences are required as part of this course. Coreq: EDS 401 or permission of instructor.

**EDS 522 CHILDREN AND FAMILIES. (3)**

The purpose of this course is to provide students with information related to working with young children with and without disabilities and their families. This course will focus both on presenting new information and providing opportunities for students to practice skills necessary for working with families. (Same as IEC 522.)

**EDS 526 INTRODUCTION TO SPECIAL EDUCATION ASSESSMENT AND PROGRAM PLANNING. (3)**

This course provides an introduction to the procedures used in determining special education eligibility and subsequent program planning for students with disabilities. Emphasis is placed on understanding various assessment processes, instruments, norm-referenced and curriculum-based scores, and individualized educational program planning. Prereq: EDS 375, EDS 513, and EDS 516.

**EDS 528 READING AND LANGUAGE ARTS ASSESSMENT AND METHODS FOR STUDENTS WITH MILD TO MODERATE DISABILITIES. (3)**

EDS 528 focuses on designing, implementing, and evaluating individualized reading and language arts programs based on the educational characteristics of children with learning and behavior disorders in elementary and secondary school. This course also addresses the procedures needed for assessing the educationally relevant strengths and weakness in reading and language arts using informal and formal evaluation measures. Prereq: Admission to Teacher Education Program, EDS 570, EDS 516, and/or permission of the instructor. Coreq: EDS 401.

**EDS 529 MATHEMATICS ASSESSMENT AND METHODS FOR STUDENTS WITH MILD TO MODERATE DISABILITIES. (3)**

EDS 529 focuses on designing, implementing, and evaluating individualized mathematics programs based on the educational characteristics of children with learning and behavior disorders in elementary and secondary school. This course also addresses the procedures needed for assessing the educationally relevant strengths and weakness in mathematics using informal and formal evaluation measures. Prereq: Admission to Teacher Education Program, EDS 528, EDS 570, EDS 516, and/or permission of the instructor. Coreq: Students must also be concurrently enrolled in EDS 402.

**EDS 530 MODERATE AND SEVERE DISABILITIES. (3)**

Special education issues with individuals exhibiting moderate to severe intellectual and developmental disabilities. A critical examination of contemporary research with regard to the educational, behavioral, developmental issues of individuals exhibiting moderate to severe intellectual and developmental disabilities. Issues and research describing the full educational inclusion and community integration of persons with moderate to severe intellectual and developmental disabilities will be addressed. Lecture, three hours. Prereq: Junior or graduate student status. Coreq: Should occur concurrently with EDS 301; or permission of instructor.

**EDS 546 TRANSDISCIPLINARY SERVICES FOR STUDENTS WITH DISABILITIES: TRANSITION. (3)**

This course is designed as an examination of the critical issues of transition from school to work and post-secondary education for students with disabilities. As such, this course is appropriate for both graduate students in special education and those in rehabilitation counseling. Given the increasing numbers of students with disabilities, including intellectual disabilities, who are attending post-secondary education programs, this course will provide equal emphases to work and post-secondary education, as well as to other critical life domains (community living, recreations, social networks, financial and legal issues involved in transition). Finally, this course will address the broad spectrum of youths and young adults with disabilities—including students with the most significant disabilities, as well as students with more mild disabilities. Prereq: EDS 375 or permission of instructor.

**EDS 547 COLLABORATION AND INCLUSION IN SCHOOL AND COMMUNITY SETTINGS. (3)**

This course will focus on inclusion of students with moderate to severe disabilities in all aspects of school and community life, with special consideration given to the individual student planning variables that must be addressed in meeting the needs of each school-age student and for preparing students to function as fully and independently in their communities as possible. The course is designed to meet the needs of those pursuing certification in Moderate and Severe Disabilities and pursuing degrees in Elementary and Secondary Education, Vocational Rehabilitation, School Psychology, Social Work, Physical Therapy, Communication Disorders, and related disciplines. Prereq: Consent of instructor. (Same as RC 547.)

**EDS 548 CURRICULUM DESIGN FOR STUDENTS WITH MODERATE AND SEVERE DISABILITIES. (3)**

This course is designed to expand student's knowledge and skills in administering, interpreting, and utilizing a variety of assessment instruments and procedures (standardized and informal) for the purpose of program planning specifically for students with moderate and severe disabilities. Students will learn about transdisciplinary assessment processes and how to facilitate collaboration between the various related service providers when assessing students. Students will use assessment results to plan individualized instruction for students using a transdisciplinary model. Prereq: Admission to Teacher Education Program, EDS 516, EDS 530, or permission of the instructor; coreq: students enrolled in this course must also be concurrently enrolled in EDS 402.

**EDS 549 METHODS FOR STUDENTS WITH MODERATE AND SEVERE DISABILITIES. (3)**

This course is designed to introduce students to instructional strategies typically used with students classified with moderate and severe disabilities. Throughout the semester, course participants will be presented with information on how to organize and present instruction to students with moderate to severe disabilities across environments. The implementation of these skills is assessed through written products and classroom performance in school settings. Class meetings are two and one-half-hours per week. Prereq: Admission to Teacher Education Program, EDS 516. Coreq: Occurs concurrently with EDS 401; or, permission of instructor.

**EDS 550 STUDENT TEACHING: SPECIAL EDUCATION. (12)**

Supervised student teaching in a classroom for students with disabilities utilizing contemporary curricula, assessments, methods, and materials designed for use with children exhibiting moderate severe developmental or intellectual disabilities and learning and behavior disorders. Student teachers are required to demonstrate attainment of the Kentucky Teacher Standards. Student teachers will be evaluated on these competencies by the university supervisor and the supervising classroom teacher throughout the student teaching placement. EDS 550 is offered on a letter grade basis only. Prereq: Published University, College and Departmental requirements (see appropriate section of the most recent UK *Bulletin*) for admission to student teaching; admission to the Teacher Education Program or permission of instructor. Successful completion of all EDS Core Moderate/Severe Disabilities (MSD) and Learning and Behavior Disorders (LBD) Certification Area course work. EDS 550 is the final certification requirement in the special education teacher undergraduate program. Prior to entering this course, the special education major will have successfully completed all MSD and LBD Area and EDS CORE practica in a variety of learning environments serving the needs of children exhibiting moderate to severe intellectual or developmental disabilities and learning and behavior disorders.

**EDS 558 ISSUES IN SPECIAL EDUCATION. (1-9)**

In-depth study of a current and topical problem or issue in the education of exceptional children and youth. May be repeated to a maximum of nine credits. A title is assigned each time the course is offered.

**EDS 570 CHARACTERISTICS OF LEARNING AND BEHAVIORAL DISABILITIES. (3)**

The learning and behavioral problems of exceptional children and youth are considered in the context of normal child development. A survey of the major categories of learning and behavioral disabilities including identification, description and etiology, with material drawn from clinical, theoretical, and research sources. Approaches to remediation cover both community resources and the roles of various professional personnel. Prereq: EDS 375 or equivalent. Coreq: This course will be taken concurrently with EDS 301; or, permission of instructor.

**EDS 581 METHODS FOR TEACHING STUDENTS WITH VISUAL IMPAIRMENTS. (3)**

This course is designed to examine how to teach and modify the core curriculum for students who are blind or visually impaired. Topics will include: adaptation of general education classroom materials, IEP development and implementation, lesson planning, and braille literacy. Prospective teachers will develop organization skills and strategies necessary to be efficient in delivery of services as a teacher of the visually impaired. This course requires one weekend at the Kentucky School for the Blind in Louisville as well as attendance at the Kentucky AER Conference. Prereq: Admission to the Teacher Preparation Program in Visual Impairments and successful completion of EDS 580 or instructor permission.

**EDS 584 BRAILLE CODES II. (3)**

This course studies braille codes with a special emphasis on the Nemeth Code (Braille Mathematics). Other codes covered are music, foreign language (French, German, and Spanish), and computer braille. Braille formats will also be taught, including how to correctly transcribe and format materials for braille users, including preparing worksheets and tests for students. Competency in using the Cranmer Abacus will also be mastered. This course requires one weekend at the Kentucky School for the Blind in Louisville. Prereq: Admission to the Teacher Preparation Program in Visual Impairments or instructor permission.

**EDS 585 ASSISTIVE TECHNOLOGY FOR STUDENTS WITH VISUAL IMPAIRMENTS. (3)**

This course introduces a wide variety of technologies for people who are blind or visually impaired. Students will learn about Universal Design for Learning (UDL) as it relates to technology, as well as proprietary software and hardware. Technologies covered include, but are not limited to: Screen readers, screen magnification, electronic note takers, refreshable braille displays, braille translation programs, magnification hardware, scanning and OCR programs, and accessible digital book options. A wide variety of computers, tablets, and smart phone options will be explored. Instructional strategies for teaching technology skills will be emphasized. In-state students are required to attend class at the Kentucky School for the Blind in Louisville and will need to choose the section of the course related to the off-site campus. Out-of-state students will take the course online and should register for the distance learning section. Prereq: Admission to the Teacher Preparation Program in Visual Impairments or instructor permission.

**EDS 586 EXPANDED CORE CURRICULUM FOR BLIND AND VISUALLY IMPAIRED. (3)**

The Expanded Core Curriculum (ECC) is the body of knowledge and skills that are needed by students with visual impairments due to their unique needs. This course will explore all nine areas of the ECC including: compensatory or functional academic skills, orientation and mobility, social interaction skills, independent living skills, recreation and leisure skills, career education, use of assistive technology, sensory efficiency skills and self-determination. Participants will have the opportunity to observe and work with students in a summer program and teach skills from the ECC. In-state students are required to attend class at the Kentucky School for the Blind in Louisville as well as complete practicum hours at various locations throughout the state. In-state students will need to choose the section of the course related to the off-site campus. Out-of-state students will take the course online and should register for the distance learning section. Prereq: Admission to the Teacher Preparation Program in Visual Impairments or instructor permission.

**EDS 587 VISUAL IMPAIRMENTS AND MULTIPLE DISABILITIES. (3)**

This course is designed to provide students with knowledge and skills necessary to design and implement programs for persons who have visual impairments and additional disabilities. Topics include assistive technology, augmentative and alternative communication, literacy instruction, sensory processing, adaptive behavior, and self-help skills. An emphasis will be placed on adaptations that enhance functioning for persons with developmental delays, autism, medical conditions, deaf-blindness, communication disorders, and those with common syndromes and eye disorders related to multiple disabilities. This course requires a weekend at the Kentucky School for the Blind in Louisville. Prereq: Admission to the Teacher Preparation Program in Visual Impairments or instructor permission.

**EDS 588 ASSESSMENT OF STUDENTS WITH VISUAL IMPAIRMENTS. (3)**

This course covers various types of assessments used to evaluate students who are blind or visually impaired. Participants will discuss testing and assessment including the development of standardized tests and their applicability for individuals with visual impairments, as well as alternate assessments. Students will practice assessing and planning educational programs for students with visual impairments by completing a Functional Vision/Learning Media Assessment, as well as assessments in assistive technology and the Expanded Core Curriculum. This course is designed to be taken in conjunction with student teaching/internship in visual

impairments. This course requires a weekend at the Kentucky School for the Blind in Louisville. Prereq: Admission to the Teacher Preparation Program in Visual Impairments or instructor permission.

**EDS 589 FIELD EXPERIENCES: MILD DISABILITIES. (3)**

Supervised pre-student teaching experiences with children having learning and behavioral disabilities, including practica experience with public school students in at least two different special education sites. Approximately two hours lecture-discussion and two three-hour observations and/or practica per week. Prereq: EDS 513, 516, admission to the Teacher Education Program; or consent of instructor. Prereq, or concur: EDS 528. Must take EDS 529 concurrently. Must not take concurrently with the Middle School methods block (EDS 330, EDS 343, and two methods classes).

**EDS 590 STUDENT TEACHING/FIELD EXPERIENCE IN VISUAL IMPAIRMENTS. (3-12)**

This is a supervised student teaching/field experience working with children, preschool through graduation age, who are blind or visually impaired. Candidates will apply best practices for working with children who are blind or have low vision, including those with additional disabilities. Successful completion of this course will demonstrate the candidate's ability to apply methods of teaching that include assessment, program planning and implementation, appropriate environmental and academic modifications, and instruction in the Expanded Core Curriculum. Candidates will also have to demonstrate appropriate classroom and/or caseload management strategies based on their placement. Prereq: Successful completion of EDS 580, 581, 582, 583, 584, 585, 586, and 587 or instructor permission.

**EDS 600 SURVEY OF SPECIAL EDUCATION. (3)**

A survey of current status of the field of special education. Emphasis is on analysis of the major research literature pertaining to exceptional children and their education. Prereq: Graduate standing.

**EDS 601 APPLIED BEHAVIORAL ANALYSIS. (3)**

The focus of this course is on the technology of applied behavior analysis, including the functional analysis of children's behavior and the development, implementation, evaluation of behavior management programs with children and youth. Prereq: Completion of EDS 516 or equivalent, with a grade of "B" or better.

**EDS 602 ADMINISTRATION AND PROGRAMS IN SPECIAL EDUCATION. (3)**

The organization, management and supervision of programs for exceptional children at the local, state and national levels. Roles and functions of the special education administrator are considered. Experiences drawn from special residential, private and public day schools are studied. Prereq: Certification in special education; six hours of course work in educational administration and supervision.

**EDS 603 BEHAVIORAL CONSULTATION IN THE SCHOOLS. (3)**

Principles and techniques of behavioral consulting with classroom teachers and other school personnel, with particular focus on supporting handicapped children in mainstream education programs. The consultant's role in providing indirect service to children, through inservice teacher training and consultation, is emphasized. Lecture, two hours; laboratory, two hours. Prereq: EDS 601, or equivalent; EDP 671 (may be taken concurrently); or permission of instructor.

**EDS 604 SPECIAL EDUCATION FOR SECONDARY EDUCATION. (1)**

This course is designed for secondary teachers who encounter students who require special education services. As such, it is intended to provide an in-depth examination of issues in the education of individuals with disabilities. The course is organized in a seminar format with the intent of creating a dialogue among the participants and the instructors. Emphasis will be placed on the development of concepts and the acquisition of a body of knowledge, which relate to issues, processes and procedures to facilitate the inclusion of all student and collaboration across disciplines. The course takes a broad view of inclusion in all aspects of school and community life. Special consideration is given to the individual student planning variables that must be addressed in meeting the needs of each school-age student with a disability in a variety of integrated school and community settings. Prereq: Admission to the M.A. in Education – Secondary with Initial Certification.

**EDS 605 PRACTICAL APPLICATIONS OF APPLIED BEHAVIOR ANALYSIS. (3)**

In this course students will expand their understanding of Applied Behavior Analysis (ABA) by learning how to design and evaluate behaviorally based programs that address academic (e.g., learning to learn), adaptive (e.g., self-care), communication (e.g., naturalistic strategies; verbal behavior), social (e.g., initiations), and other related skills (e.g., imitation; self-management) in persons with or at-risk for disabilities and provide training and feedback when working with families and professionals. In addition, students will receive training on writing and modifying behavior intervention plans, with an emphasis on conducting functional analyses. Prereq: EDS 601 (or equivalent); EDS 630 recommended.

**EDS 610 ADVANCED EDUCATIONAL ASSESSMENT FOR STUDENTS WITH MILD DISABILITIES. (3)**

This course examines factors that contribute to the reliable and valid measurement and diagnosis of students with mild disabilities. Emphasis is placed on evaluating standardized, norm-referenced instruments according to their technical characteristics and merits, developing curriculum-based measures for classroom use, and critiquing emerging systems of determining eligibility for special education Prereq: EDS 528 or consent of instructor.

**EDS 611 CONTEMPORARY TRENDS AND ISSUES IN THE EDUCATION OF STUDENTS WITH MILD DISABILITIES. (3)**

This course examines trends and issues in the education of students with mild disabilities (e.g., learning disabilities, mild cognitive disability, ADHD, and emotional/behavioral disabilities). The professional literature is examined to identify emerging methods of effective instruction as well as points of controversy in identification, placement, and service. Prereq: EDS 529 and EDS 610 or consent of instructor.

**EDS 612 ADVANCED PRACTICUM: SPECIAL EDUCATION. (1-6)**

Intensive clinical experience with exceptional children in day and residential schools, hospitals and private agencies. Students engage in prescriptive teaching with persons with disabilities in individualized, small group and special class settings. Laboratory, 6-12 hours per week. Prereq: Graduate Standing; major in Special Education, Applied Behavior Analysis, or permission of the instructor.

**EDS 613 LEGAL AND PARENTAL ISSUES SCHOOL ADMINISTRATION. (3)**

This course is designed as a required course for certification in the school administration program or elective in graduate or post baccalaureate degree. Essential course questions will emphasize the delivery of a free and appropriate public education for children with disabilities within a practical application format that is accessible and useful to educational professionals. In addition, the course will consider the implications of federal requirements in state and local policy. Particular attention will be given to leadership within an educational reform environment as well as the legal and programmatic implications for children with disabilities and their families. Finally, the course will model appropriate ways in which educational professionals working with families can maximize educational results for children with and without disabilities. Prereq: Be admitted to an Administrator preparation program, or received permission of instructor.

**EDS 614 PROFESSIONAL ETHICS IN BEHAVIOR ANALYSIS I. (1)**

This 1-credit hour course is part of a three-course sequence designed to address ethical, behavioral, and professional conduct for behavior analysts. This course will address content related to the BACB Disciplinary and Ethical Standards and Disciplinary Procedures, as well as the Guidelines for Responsible Conduct for Behavior Analysts. This course prepares students to apply for the Board Certified Behavior Analyst exam. (Must be taken as Co-Requisite to EDS 612: Practicum in Special Education). Prereq: Entrance into the Board Certified Behavior Analyst program, Master's in Applied Behavior Analysis program or permission of instructor.

**EDS 615 PROFESSIONAL ETHICS IN BEHAVIOR ANALYSIS II. (1)**

This 1-credit hour course is part of a three-course sequence designed to address ethical, behavioral, and professional conduct for behavior analysts. This course will address content related to the BACB Disciplinary and Ethical Standards and Disciplinary Procedures, as well as the Guidelines for Responsible Conduct for Behavior Analysts. This course prepares students to apply for the Board Certified Behavior Analyst exam. (Must be taken as Co-Requisite to EDS 612: Practicum in Special Education). Prereq: Entrance into the Board Certified Behavior Analyst program, Master's in Applied Behavior Analysis program or permission of instructor.

**EDS 616 PROFESSIONAL ETHICS IN BEHAVIOR ANALYSIS III. (1)**

This 1-credit hour course is part of a three-course sequence designed to address ethical, behavioral, and professional conduct for behavior analysts. This course will address content related to the BACB Disciplinary and Ethical Standards and Disciplinary Procedures, as well as the Guidelines for Responsible Conduct for Behavior Analysts. This course prepares students to apply for the Board Certified Behavior Analyst exam. (Must be taken as Co-Requisite to EDS 612: Practicum in Special Education). Prereq: Entrance into the Board Certified Behavior Analyst program, Master's in Applied Behavior Analysis program or permission of instructor.

**EDS 630 ADVANCED METHODS FOR TEACHING STUDENTS WITH DISABILITIES. (3)**

An intensive study of the principles and procedures used in programming learning activities for students with disabilities, including those with autism spectrum disorders. Topical areas include the acquisition of stimulus control and programming for the generalization and maintenance skills. Lecture, three hours. Prereq: EDS 601 and consent of instructor.

**EDS 631 ADVANCED PROGRAMMING FOR STUDENTS WITH MODERATE AND SEVERE DISABILITIES. (3)**

Intensive review of instructional programs designed for use with students with moderate and severe disabilities, including autism spectrum disorders. Emphasis is on leadership in assessment and developing individual education programs for students. Lecture, three hours. Prereq: Consent of instructor.

**EDS 632 ADVANCED PRACTICUM: MODERATE AND SEVERE DISABILITIES. (1-12)**

Intensive educational experience with students with moderate and severe disabilities in educational, residential and hospital settings. Site and practicum responsibilities will be based on students' competencies and area of interest. May be repeated to a maximum of 21 credits. While enrolled in this course, students will be required to apply for the Teacher Education Program. Prereq: Admission to the Master's program in Special Education or permission of the instructor.

**EDS 633 SINGLE SUBJECT RESEARCH DESIGN. (3)**

Principles and methods in designing single subject research, including those involving students with disabilities. Students will be required to design a research proposal. Prereq: EDS 601 or 630 or consent of instructor.

**EDS 634 LEADERSHIP IN SPECIAL EDUCATION. (3)**

Students will select from a variety of options that demonstrate leadership in the field of education. Between the course instructor and each student's master's committee, students will complete a variety of activities and experiences that will assist them in completing the capstone requirement. Prereq: EDS 601, 630, 633.

**EDS 640 ADVANCED ASSISTIVE TECHNOLOGY. (3)**

An advanced study of assistive technology devices and services for individuals with learning, cognitive, physical, and sensory disabilities. The course includes lecture, hands-on experiences, and discussions of current trends and issues in assistive technology consideration and implementation for teachers, families, and administrators. Prereq: EDS 600 or equivalent or permission of instructor.

**EDS 641 ASSISTIVE TECHNOLOGY ASSESSMENT. (3)**

A study in the evaluation of students with learning, cognitive, physical, and sensory disabilities for assistive technology devices and services. Students implement data-based assistive technology decisions for students with disabilities, locate assistive technologies through a variety of sources, and develop assistive technology implementation plans for individuals with disabilities. Prereq: EDS 640, or permission of instructor.

**EDS 645 HYPERMEDIA DEVELOPMENT FOR SPECIAL EDUCATION. (3)**

Students will study ways that hypermedia/multimedia can be developed for use in special education programs. Students will examine how theories of human learning and principles of universal design provide a foundation for designing instructional programs that meet the unique needs of all students. Topics will include theories of human learning, principles of universal design, hypermedia/multimedia concepts, interface design guidelines, computer graphics programs, digital scanning of images, accessible text, sound effects, use of digital movies, and multimedia authoring tools. Prereq: EDS 514 and EDS 600, or permission of instructor.

**EDS 647 SEMINAR IN SPECIAL EDUCATION TECHNOLOGY (Variable topic). (1-3)**

A topical seminar on technology applications in special education. Seminars will address different topics of timely interest, current issues, and various approaches to providing assistive technology and instructional technology services for people with disabilities. Prereq: EDS 514 and EDS 600, or permission of instructor.

**EDS 648 COORDINATING ASSISTIVE TECHNOLOGY PROGRAMS. (3)**

Students will study procedures for planning and implementing assistive technology programs in schools. Topics will include use of planning models, philosophy and mission development, generating program goals and objectives, procedures for preparing strategic plans, establishing policies and procedures, identifying resource requirements, managing program implementation, evaluation of program effectiveness, and preparation of proposals for funding. Prereq: EDS 640 and EDS 641 or permission of instructor.

**EDS 649 ADVANCED PRACTICUM: SPECIAL EDUCATION TECHNOLOGY. (1-9)**

Students will engage in supervised practicum activities associated with the delivery of technology services to individuals with disabilities. Practicum settings may include schools, rehabilitation agencies, clinics, hospitals, technology resource centers, administrative offices, and other facilities involved in the development or delivery of technology services. May be repeated to a maximum of nine credits. Prereq: EDS 514 and EDS 600, or permission of instructor.

**EDS 650 INITIAL CERTIFICATION ADVANCED PRACTICUM IN MODERATE AND SEVERE DISABILITIES. (6)**

Supervised practicum experience in a classroom for students with moderate/severe disabilities utilizing contemporary curricula, assessments, methods, and materials designed for use with children exhibiting moderate-severe developmental or intellectual disabilities. This course is designed as an advanced practicum for students in the MSD program who are pursuing an initial certification at the graduate level. Practicum students will be evaluated on these competencies by the university supervisor throughout the semester. EDS 650 is offered on a letter grade basis only. Prereq: Published University, College and Departmental requirements (see appropriate section of the most recent UK Bulletin) admission to the Teacher Education Program or permission of instructor. Successful completion of all EDS Core and Moderate/Severe Disabilities (MSD) Certification Area course work. EDS 650 is the final certification requirement for students obtaining initial certification at the graduate level. Prior to entering this course, the MSD major will have successfully completed all MSD Area and EDS CORE practica serving the needs of children exhibiting moderate to severe intellectual or developmental disabilities. Students in this course will complete their assignments while working full time in a classroom for students with MSD.

**EDS 651 DISTANCE EDUCATION: DELIVERY. (3)**

This course has been designed for those faculty or future faculty who plan to teach via distance education technology. This course will review current literature on how to deliver distance education content with attention to developing materials, setting delivery timelines, facilitating interactions, and using appropriate teaching strategies. Prereq: Master's degree.

**EDS 652 DISTANCE EDUCATION: MANAGEMENT AND SUPPORT. (3)**

This course has been designed for those faculty or future faculty who plan to manage or direct programs delivered through distance education technology. The course will focus on current issues and challenges in distance education administration, including such topics as provision of quality support services; policy issues at the local, state, national, and international level; model administrative structures; instruction and technology funding; and virtual institutions. Prereq: Master's degree. (Same as CI 652.)

**EDS 660 OVERVIEW OF CHARACTERISTICS AND INSTRUCTIONAL STRATEGIES FOR INDIVIDUALS WITH ASD. (3)**

This course introduces students to the characteristics, classification systems, etiology and research, screening and assessment strategies/issues, approaches, and research-based interventions related to individuals with autism spectrum disorders. Practical classroom strategies, such as visual strategies and environmental arrangements will also be reviewed. The primary goal of the course is to provide students with a foundational knowledge of the strengths and needs characteristic of individuals with ASD, as well as to provide students with a comprehensive array of research-based instructional approaches for individuals with ASD, and to provide the criteria for determining which approach to use. Prereq: EDS 601.

**EDS 661 ADVANCED INSTRUCTIONAL STRATEGIES FOR STUDENTS WITH ASD. (3)**

This course builds on topics previously learned in EDS 660. Teachers will learn to critically analyze current trends, issues, and therapies used with individuals with ASDs. Practical classroom strategies detailing what to teach based on assessment results, how to use data-based decisions to guide instruction, and an overview of alignment to state standards based on alternate assessments will also be reviewed. The primary goal of the course is to provide teachers with a comprehensive array of practical research-based instructional approaches for individuals with ASDs, criteria for determining which approaches to use, and planning for access to the general education curriculum for all students across the spectrum. Completion of this course sequence (in combination with EDS 660, EDS 662, and EDP 671) will prepare teachers for applications in the ASD Institute (EDS 663). Prereq: EDS 601 and EDS 660.

**EDS 662 COMMUNICATION, AAC, AND TECHNOLOGY FOR INDIVIDUALS WITH AUTISM SPECTRUM DISORDERS. (3)**

This course prepares persons who will be serving individuals with ASD. The focus of the course is on developing communication in this population, exploring augmentative and alternative communication devices, and using technology to teach individuals with ASD. The course will provide information on (a) typical language development, (b) characteristics of persons with autism and their unique communication needs, (c) assessment of communication needs, (d) development of communication goals, (e) development and delivery of effective strategies for teaching communication, and (f) use of technology to teach individuals with ASD. The objectives of this course are designed to provide students with a comprehensive knowledge of the communication characteristics of persons with autism, the state-of-the-art techniques in providing communication services for this population, and research-based strategies utilizing technology in teaching individuals with ASD. This course will be taught jointly by the Department of Special Education & Rehabilitation Counseling and the Department of Communication Sciences and Disorders. Prereq: EDS 601, EDS 661, EDS 662. (Same as CSD 649.)

**EDS 663 SERVING INDIVIDUALS WITH ASD INSTITUTE. (3)**

Students will connect content knowledge with skills from courses taken in the Autism Certificate courses (EDS 660, EDS 661, EDS 662, and EDP 671). Students will demonstrate skills in areas such as implementing research-based strategies and/or behavior supports, collaborating for planning and delivery of instruction, working with diverse families and service providers, and evaluating appropriate technologies based on student needs. Students will demonstrate proficiency via role-play, case studies, video examples, and/or direct observation of individuals with ASD. Students will have an opportunity to learn from one another and experts in the field in a face-to-face format. Prereq: EDS 601 and EDS 660, EDS 661, EDS 662, EDP 671.

**EDS 701 SEMINAR FOR EDSRC LEADERSHIP PERSONNEL. (1)**

Study of issues and topics affecting the preparation of Rehabilitation Counseling, Special Education, and Early Childhood personnel and of research issues involving persons with disabilities and educational and rehabilitation programs. May be repeated to a maximum of six credits. Lecture, two hours per week. Prereq: Admission to Ed.S., EDS, RC, or IEC Ph.D. Programs. (Same as IEC/RC 701.)

**EDS 710 SEMINAR IN MILD DISABILITIES. (3)**

Advanced study of issues related to mild disabilities in children, including etiology, assessment, intervention, theories, and contemporary research findings. Prereq: Admission to Ed.S. or Ed.D. program in Special Education or consent of instructor.

**EDS 711 SEMINAR IN MODERATE AND SEVERE DISABILITIES. (3)**

Advanced study of issues related to moderate and severe disabilities, including problems of identification and assessment, program alternatives, curricula, theories, and contemporary research findings. Prereq: Admission to Ed.S. or Ed.D. program in Special Education or consent of instructor.

**EDS 712 SEMINAR IN EDSRC PROFESSIONAL SERVICES. (3)**

Education and Rehabilitation professional services including consultation, technical assistance, continuing education programs, professional organization development, committee and advisory board involvement, professional writing and editing, leadership training, and funding proposal development. Prereq: Admission to Ed.S., EDS, RC, or IEC Ph.D. Programs. (Same as IEC/RC 712.)

**EDS 713 DESIGNING CLASSROOM-BASED INTERVENTION RESEARCH IN SPECIAL EDUCATION. (3)**

The purpose of this course is to acquaint students with methods for designing and conducting experimental and quasi-experimental intervention studies in school-based settings. Students will have the opportunity to conceptualize a study based on their interests and propose procedures for implementing it. Although knowledge of basic statistics would increase understanding, the substance of the course focuses primarily on designing studies that test for the presence of a distinct cause-and-effect relationship between variables.

**EDS 720 SEMINAR IN EDSRC TEACHER PREPARATION. (3)**

Rehabilitation Counseling and Special Education college/university professor preparation, including syllabus development, organization of class presentations, instructional alternatives, scheduling, student assessment, professor-student interactions, student advising, resource identification and utilization and program evaluation. Prereq: Admission to Ed.S., EDS, RC, or IEC Ph.D. Programs. (Same as IEC/RC 720.)

**EDS 721 PRACTICUM IN EDSRC PERSONNEL PREPARATION. (1-9)**

Professional preparation of Rehabilitation Counselors or Special Education Teachers, including practice in delivering lectures, conducting class discussions, leading seminars, directing independent studies, guiding student research projects, demonstrating instructional methods and materials, supervising rehabilitation counselors or special education student teachers, and advising. Laboratory, three-nine hours. May be repeated to a maximum of nine credits. Prereq: Admission to Ed.S., EDS, RC, or IEC Ph.D. Programs. (Same as IEC/RC 721.)

**EDS 730 SEMINAR IN SPECIAL EDUCATION ADMINISTRATION. (3)**

Administration of special education programs at the local and state levels. Emphasis is on program planning, staffing, fiscal management and program evaluation. Prereq: EDS 602 and admission to the Ed.S. or Ed.D. program in special education or consent of instructor.

**EDS 731 ADVANCED PRACTICUM: SPECIAL EDUCATION ADMINISTRATION. (1-9)**

Supervised practicum experiences related to the administration of special education programs at the local and state levels, and project management, including staff management and development, program planning, evaluation, fiscal management, organization, reporting, communications, and coordination. Laboratory, three-nine hours. May be repeated to a maximum of nine credits. Prereq: Admission to the Ed.S. or Ed.D. program in special education administration or in certification program for special education administrators.

**EDS 748 MASTER'S THESIS RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

**EDS 749 DISSERTATION RESEARCH. (0)**

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

**EDS 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended. Prereq: Admission to Ed.S., EDS, RC, or IEC Ph.D. Programs. (Same as IEC/RC 767.)

**EDS 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours.

**EDS 769 RESIDENCE FOR THE DOCTORAL DEGREE. (0-12)**

May be repeated indefinitely.

**EDS 779 SEMINAR IN SPECIAL EDUCATION (Variable topic). (1-3)**

Study of philosophy, principles, trends and research in education of exceptional children. Students will carry on an extensive study of a problem dealing with education of the exceptional child. May be repeated to a maximum of nine credits.

**EDS 789 INDEPENDENT STUDY IN EARLY CHILDHOOD/SPECIAL EDUCATION/REHABILITATION COUNSELING RESEARCH. (1-6)**

An independent study supervised research course for advanced graduate students in Rehabilitation Counseling, Special Education, or Early Childhood with an interest in a specific research problem. Class hours determined with supervising instructor. Note: For Rehabilitation Counseling doctoral students this course will satisfy CACREP internship requirements in the Research core area. Additional internship in 2 additional core areas are also required. Prereq: Admission to EDSRC Doctoral Program or approval of instructor. (Same as RC 789.)

---

**EDU Education**

---

**EDU 300 SPECIAL COURSE. (1-9)**

This course is an opportunity for experimental, topical or interdisciplinary experience for up to 9 hours of credit without creating a permanent course. The description and course subtitle will be submitted each time the course is offered. Subtitle required.

## Course Descriptions

### **EDU 305 CONTEMPORARY ISSUES FACING THE AT-RISK SCHOOL-AGE/ADOLESCENT CHILD. (3)**

To provide background information, experience, and skills for undergraduate students to interact with elementary and middle school children in a consulting role. Special emphasis will address the needs of the "at-risk" student population. The "at-risk" student is associated with families with incomes below the poverty level, as well as other significant problems which plague contemporary society-e.g., homelessness, child abuse/neglect, single parent homes, non-English speaking parents, fetal alcohol or substance abuse syndrome, mentally and/or physically handicapped parents or siblings, and high incidence of academic achievement declines and dropout rates. Lecture, two hours; laboratory, two hours per week. Prereq: Consent of instructor.

### **EDU 645 FOUNDATIONS OF PEDAGOGICAL THEORY AND PRACTICE IN THE SECONDARY SCHOOL. (0-9)**

Students will participate with other secondary education majors in a variety of disciplines in the reflective study of adolescent behavior, secondary school curriculum, school law, learning theory, learning styles, effective teaching and learning, instructional technology, working with special populations, cultural diversity in the schools, school context, and professional development. Students will spend time in the schools applying concepts. May be repeated to a maximum of nine credits. Lecture, 3-9 hours; laboratory, 6-18 hours per week. Prereq: Admission to the M.A./M.S. in Education (Initial Certification Option-Secondary Education).

### **EDU 745 INTERDISCIPLINARY INSTRUCTION IN THE SECONDARY SCHOOL. (0-3)**

Students will participate with other secondary education majors from a variety of disciplines in the reflective study of the context of schooling, classroom management, individual student differences, and professional development. Students will be in the schools applying concepts on a full-time basis. May be repeated to a maximum of three credits. Lecture, 1-3 hours; laboratory, 3-6 hours per week. Prereq: Admission to the M.A./M.S. in Education (Initial Certification Option-Secondary Education).

## **EDV Vocational Education**

### **AGRICULTURAL EDUCATION**

#### **EDV 580 MATERIALS AND METHODS FOR TEACHING VOCATIONAL AGRICULTURE. (3)**

Designed to develop teacher competency in methods of teaching with emphasis on the problem-solving procedure and use of demonstrations, field trips, and audiovisual materials. Evaluation of teaching-learning is emphasized. A study of facilities and instructional materials needed by a department of vocational agriculture is made. Prereq: Admission to the Teacher Education Program or permission of instructor.

### **BUSINESS EDUCATION**

#### **EDV 626 CLASSIFICATION AND POSSIBLE USE OF COMMUNITY RESOURCES IN BUSINESS EDUCATION. (3)**

Course provides for community analysis, and the development of possible ways and means to supplement the business education course in the secondary school with a study of vital community resources.

### **VOCATIONAL EDUCATION**

#### **EDV 501 PRACTICUM IN VOCATIONAL EDUCATION. (1-12)**

Planned and supervised practicum in teaching agriculture, business, home economics and vocational industrial education at middle and high school levels. Requires the integration of observation skills, application of instructional objectives, teaching strategies, selection of instructional materials, assessment of student progress, and use of student organizations. Regularly scheduled seminars included as an integral part of course. Open only to students in the master's degree combined with initial teaching certification program. May be repeated to a maximum of 12 credits. Prereq: Consent of instructor.

#### **EDV 520 THE ADULT LEARNER IN VOCATIONAL SETTINGS. (3)**

An overview of adult education practices and their relevance to adult learning in the work setting. Prereq: EDV 211 or consent of instructor.

#### **EDV 535 PRINCIPLES AND PHILOSOPHY OF VOCATIONAL EDUCATION. (2-3)**

Study is made of philosophy, accepted principles, and legislation affecting programs in vocational education. May be repeated to a maximum of six credits.

#### **EDV 749 DISSERTATION RESEARCH. (0)**

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

#### **EDV 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

### **EDV 769 RESIDENCE CREDIT FOR THE DOCTOR'S DEGREE. (0-12)**

May be repeated indefinitely.

## **EE Electrical Engineering**

### **EE 101 CREATIVITY AND DESIGN IN ELECTRICAL AND COMPUTER ENGINEERING. (3)**

This course provides an introduction to the process and application of creative design and problem solving within science and engineering. Emphasis is placed on applications and case studies in the areas of electrical and computer engineering. Several laboratory-based engineering problems are used to provide practical settings in which to apply and evaluate constraint- and product-focused strategies for creative design and problem solving. In addition to technical and aesthetic considerations, ethical and cultural influences on the creative process will also be discussed.

### **EE 167 FUNDAMENTALS OF NANOTECHNOLOGY AND APPLICATIONS IN RENEWABLE ENERGY. (3)**

In 6 lecture modules and 4 observational visits to laboratories on UK campus, this course covers: effects of small size (1 nm to 100 nm) on the electro-optical properties of materials; fundamental principles of quantum mechanics; applying quantum mechanics to understand the changes in material properties like color, luminescence and electrical conductance at nanoscale; operating principles, basic theory and design issues in solar cells; nanotechnology applications for enhancing the performance of renewable energy generation and storage systems, especially solar cells and batteries. Prereq: Proficiency in mathematics, physics and chemistry at the high school graduate level.

### **EE 211 CIRCUITS I. (4)**

Fundamental laws, principles and analysis techniques for DC and AC linear circuits whose elements consist of passive and active components used in modern engineering practice including the determination of steady state and transient responses. In addition to the required text book, additional materials including a portable Oscillator & Signal Generator, a digital Multimeter, an electronics-part kit, and a simulation software are required for at-home laboratory assignments. Prereq: MA 114, prereq or concurrent; PHY 232, 242.

### **EE 221 CIRCUITS II. (3)**

Analysis and design methods for analog linear circuits whose elements consist of passive and active components used in modern engineering practice, including transfer functions, network parameters, and a design project involving modern design practices. Prereq: EE 211. Concur: MA 214.

### **EE 222 ELECTRICAL ENGINEERING LABORATORY I. (2)**

Laboratory exercises in the use of measuring instruments. Experiments in R-L-C circuit analysis. Lecture, one hour; laboratory, three hours. Prereq or concur: EE 211.

### **EE 223 AC CIRCUITS. (4)**

Analysis and design methods for analog linear circuits whose elements consist of passive and active components used in modern engineering practice, including transfer functions, network parameters, and a design project and laboratory experiments involving modern design practices. Prereq: EE 211. Concurrent: MA 214.

### **EE 280 DESIGN OF LOGIC CIRCUITS. (3)**

Boolean algebra; combinational logic circuits; synchronous sequential circuits; asynchronous sequential circuits; design problems using standard integrated circuits. Prereq: CS 115 or EGR 102.

### **EE 281 LOGICAL DESIGN LABORATORY. (2)**

A laboratory involving the design and implementation of logic circuits. Combinational and sequential (both synchronous) design examples using small and medium scale integrated circuits. Lecture, one hour; laboratory, one three-hour session. Prereq: EE 280.

### **EE 282 DIGITAL LOGIC DESIGN. (4)**

Boolean algebra; number systems; combinational logic circuits; synchronous sequential circuits; asynchronous sequential circuits; design problems using digital logic. Laboratory experiments reinforce the course content. Lecture, three hours; laboratory, one three-hour session. Prereq: EGR 102 or equivalent programming course. (Same as CPE 282.)

### **EE 287 INTRODUCTION TO EMBEDDED SYSTEMS. (4)**

Introduction to Embedded Systems teaches students how to use microcontrollers to interact with the physical world. Lectures will cover the theory behind microcontroller architecture, programming, and interfacing and lab projects will back up that theory with hands-on design experiments using microcontrollers. Topics include assembly language and high-level language programming, address decoding, hardware interrupts, parallel and serial interfacing, analog I/O, and basic real-time processing. Prereq: EE/CPE 282 and prereq or concur: CS 215 or consent of instructor. (Same as CPE 287.)

### **EE 305 ELECTRICAL CIRCUITS AND ELECTRONICS. (3)**

A service course covering electrical engineering principles for engineering or science students with majors outside of electrical engineering. Topics include: AC and DC circuits analysis. Prereq: MA 114, PHY 232.

**EE 360 INTRODUCTION TO SEMICONDUCTOR DEVICES. (3)**

Electronic properties of solid-state materials and calculation of charge carriers in semiconductors; structure and physical model of p-n junctions and various diode devices, bipolar transistors, field effect transistors; semiconductor fabrication technologies and microelectronics manufacturing issues. Prereq: PHY 232 and CHE 105.

**EE 380 COMPUTER ORGANIZATION. (3)**

Hardware and software organization of a typical computer; machine language and assembler language programming, interfacing peripheral devices, and input-output programming; real-time computer applications, laboratory included. Prereq: Engineering standing, CS 215 and EE/CPE 282 or EE 280. (Same as CPE/CS 380.)

**EE 383 INTRODUCTION TO EMBEDDED SYSTEMS. (3)**

A course in the hardware and software of microprocessors. Assembly language programming, address decoding, hardware interrupts, parallel and serial interfacing with various special purpose integrated circuits. Each student is expected to do homework assignments using microprocessor hardware. Prereq: EE 280 and EE/CS 380. (Same as CS 383.)

**EE 391 UNDERGRADUATE RESEARCH EXPERIENCE. (1)**

Research project or activity led by an engineering faculty member, designed to provide students research experience. Completion of this course requires that the student submit a report overviewing activities of the student and summarizing the experience. Course may be repeated to a maximum of three credit hours. Prereq: Submission of approved learning plan and approval of department.

**EE 395 INDEPENDENT WORK IN ELECTRICAL ENGINEERING. (1-6)**

Special research and problems for individual students who are capable of pursuing independent investigations. May be repeated to a maximum of six credits. Prereq: Consent of instructor.

**EE 396 COMMUNITY OR CAMPUS EXPERIENTIAL LEARNING. (1)**

This course credit recognizes extensive involvement by a student in a campus organization or community organization. This involvement may be leadership or responsibility for significant substantial portions of a project or event. Enrollment in this course requires a Learning Plan developed by the student and a faculty advisor (such as the organization faculty advisor, for campus organizations). The Learning Plan must be approved by the Director of Undergraduate Studies. The plan should include a list of learning objectives, and a list of readings or other curricular materials that will be read related to the experience. Successful completion of the course requires that the student submit a report, covering an overview of activities and responsibilities of the student during the experience, and a reflective statement on lessons learned during the experience. These lessons learned may be in regards to leadership, team interactions, project management, or technical aspects of a project. The report must be approved by the designated advisor and the DUS, or his/her delegate. Course may be taken on a pass-fail basis only and may be repeated to a maximum of three credit hours. Prereq: Submission of acceptable learning plan and approval of department.

**EE 402G ELECTRONIC INSTRUMENTATION AND MEASUREMENTS. (3)**

Elementary treatment of electronic circuits emphasizing laboratory work. Topics include AC circuits, filters, theory and operation of transistors and other semiconductor devices and a simple treatment of operational amplifiers. Lecture, two hours per week; laboratory, three hours per week. Prereq: PHY 242 or EE 305 or consent of instructor. (Same as PHY 402G.)

**EE 415G ELECTROMECHANICS. (3)**

Study of electric machines and electromechanical systems. Prereq: Engineering standing, EE 221 with a C or better, and PHY 232.

**EE 416G ENERGY CONVERSION LABORATORY. (2)**

Laboratory practice and experimental studies related to EE415G. Lecture one hour; laboratory, three hours. Prereq or concur: EE 415G.

**EE 421G SIGNALS AND SYSTEMS. (3)**

An introduction to continuous and discrete signal and system models and analyses. Topics include discrete and continuous convolution, Fourier transforms, and Laplace transforms and Z-transforms with application examples including AM modulation and the sampling theorem. Prereq: Engineering standing, MA 214 and a C or better in EE 221.

**EE 422G SIGNALS AND SYSTEMS LABORATORY. (2)**

Lectures and laboratory exercises on signal and systems modeling. Topics include noise models and analysis, filter design, modulation techniques, sampling, discrete Fourier Transforms, State Variable Models, and feedback design with an emphasis on using computer software for analysis and simulation. Prereq: EE 421G, MA 320.

**EE 461G INTRODUCTION TO ELECTRONICS. (3)**

Analysis and design of electronic circuitry incorporating nonlinear electronic elements such as transistors, FET's, and vacuum tubes. Applications to amplifiers. Prereq: Engineering standing and a grade of C or better in EE 221.

**EE 462G ELECTRONIC CIRCUITS LABORATORY. (2)**

Experimental exercises in the design and analysis of useful electronic circuits incorporating semiconductor devices: transistors, tunnel and Zener diodes; also, vacuum tubes, integrated circuits and operational amplifiers. Lecture, one hour; laboratory, three hours. Prereq: EE 222 and EE 461G.

**EE 468G INTRODUCTION TO ENGINEERING ELECTROMAGNETICS. (4)**

Applications of electromagnetic theory; electrostatic and magnetostatic fields; Maxwell's field equations; plane waves; transmission lines and waveguides; antennas and radiation. Prereq: Engineering standing and MA 213; prereq or concur: EE 221.

**EE 480 ADVANCED COMPUTER ARCHITECTURE. (3)**

This course focuses on advanced computer architectures and low-level system software. Topics include RISC architectures, vector and multiprocessor architectures, multiprocessor memory architectures, and multiprocessor interconnection networks. Peripheral devices such as disk arrays, NICs, and video/audio devices are covered. Topics also include device drivers, interrupt processing, advanced assembly language programming techniques, assemblers, linkers, and loaders. Prereq: CPE/CS/EE 380. (Same as CPE 480 and CS 480G.)

**EE 490 ECE CAPSTONE DESIGN I. (3)**

The first semester of a two-semester design sequence for senior students in electrical engineering with an emphasis on the engineering process. Topics important in product design and manufacturing are included, including considerations of economics, safety, and communication. Students are expected to formally propose a design project that includes a problem definition that incorporates engineering standards and realistic constraints. Students work in teams to develop and complete the designs. Lecture, two hours; laboratory, three hours per week. Prereq: Engineering standing and completion of all other required 400-level EE/CPE courses, excluding EE/CPE 491. (Same as CPE 490.) This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

**EE 491 ECE CAPSTONE DESIGN II. (3)**

The second semester of a two-semester design sequence for senior students in electrical engineering with an emphasis on the engineering process. Students work in teams to develop and complete the designs. Topics to include engineering ethics, design, documentation, and communication. Prereq: EE/CPE 490 completed in the previous semester and Engineering standing. (Same as CPE 491.)

**EE 503 POWER ELECTRONICS. (3)**

Study of solid-state power electronic devices and their applications. Examination of control philosophies, steady-state models, and numerical simulation of characterizing differential equations. Current topics of interest from the literature. Prereq: EE 415G and EE 461 or consent of instructor.

**EE 511 INTRODUCTION TO COMMUNICATION SYSTEMS. (3)**

An introduction to the basic signal processing operations in communications systems. Topics include frequency and time domain signal and system representation, random signals, modulation, sampling, pulse modulation, information theory. Prereq: EE 421G, MA 320, and engineering standing.

**EE 512 DIGITAL COMMUNICATION SYSTEMS. (3)**

A treatment of the basic signaling concepts involved in the communication of digital information. Topics include transmission requirements and distortion of digital signals; discrete amplitude, frequency, and phase modulation; error control coding. Prereq: EE 421G, EE 422G, engineering standing or consent of instructor.

**EE 513 AUDIO SIGNALS AND SYSTEMS. (3)**

An introduction to digital signal processing and classification methods for audio signals. Topics include signal analysis and system design using correlation functions, power spectra, difference equations, and transfer functions; implementations of filters, classifiers, and audio effects; characteristics and modeling of common audio signals such as speech, music, and noise. Prereq: EE 422G, engineering standing.

**EE 517 ADVANCED ELECTROMECHANICS. (3)**

Dynamics of electromechanical systems and rotating electrical machines. Applications of electro-magnetic theory to electrical machines. Certain special topics of current interest. Prereq: EE 415G, EE 421G, and engineering standing.

**EE 518 ELECTRIC DRIVES. (3)**

Introduction to common power electronic converters used in electric motor drives. Steady-state analysis methods for electric machines fed by power conditioning converters. Performance prediction of electric machines by electromagnetic field theory and by coupled oil models. Prereq: EE 415G, EE 421G, and engineering standing.

**EE 521 INTRODUCTION TO WIRELESS COMMUNICATIONS. (3)**

Study of analog RF electronics for wireless communications through a combination of course and laboratory work. Topics covered in the course include: modulation/demodulation, filters, RF transformers, mixers, transistor switches and amplifiers, class A, B, AB, C, D, E, and F amplifiers, quartz crystals, transmission lines, impedance inverters, acoustics, oscillators, audio circuitry, noise and inter-modulation, and antennas. Prereq: Engineering standing.

**EE 522 ANTENNA DESIGN. (3)**

Principles of radiation, potential solution to Maxwell's equations for current in empty space, electrically small antennas, antenna arrays, wire antenna principles, introduction to numerical methods, aperture antennas, frequency scaling antennas, receiving properties of antennas, antenna measurement techniques. Prereq: EE 468G and engineering standing.

**EE 523 MICROWAVE CIRCUIT DESIGN. (3)**

Physical and mathematical descriptions of wave propagation in guided structures; microstrip lines; microwave integrated circuits; passive components; two-terminal devices; four-terminal devices; S-parameter concept; equivalent circuit concept; solid state microwave amplifiers and oscillators. Prereq: EE 468G and engineering standing.

**EE 524 SOLID STATE PHYSICS. (3)**

Introductory solid state physics with emphasis on the properties of electrons in crystals; crystal structure, crystal diffraction, reciprocal lattice, lattice vibrations and phonons, free electron theory, energy bands in solids, semiconductors. Prereq: PHY 520, or consent of instructor. Engineering standing required for EE 524. (Same as PHY 524.)

**EE 525 NUMERICAL METHODS AND ELECTROMAGNETICS. (3)**

This course covers the basics of numerical methods and programming with applications in electromagnetics. Examples range from statics to radiation/scattering problems involving numerical solutions to integro-differential and finite difference equations. Prereq: EE 468G and engineering standing, or consent of instructor.

**EE 526 LEAN OPERATIONS MANAGEMENT. (3)**

This course will cover topics in basic lean system operations as well as the management system to support the attainment of highest customer satisfaction with respect to Safety, Quality, Cost, Productivity, Delivery and Human Resource Development. Working in teams, students apply fundamental lean tools and concepts to develop a lean operations environment capable of driving continuous improvement in a simulated factory. As the operational environment evolves, key management principles and tools are explored using the teachings of Taiichi Ohno and others considered to be the pillars of the Toyota Production System. All students must have a webcam and microphone or headset to participate in on-line team and class meetings. Prereq: Enrollment restricted to junior-level or above students. Prior enrollment in the Lean Student certificate course or MFS 503 is required or with the consent of the instructor. (Same as ME 526/MFS 526.)

**EE 527 ELECTROMAGNETIC COMPATIBILITY. (3)**

Design of electronic systems to minimize 1) emission of electromagnetic signals that cause interference in other electronic systems, 2) the susceptibility of that system to electromagnetic signal from other electronic systems, and 3) the susceptibility of that system to its own, internally generated signals. A set of brief laboratory experiments demonstrate the design principles and provide familiarity with modern test equipment. Prereq: EE 468G and engineering standing.

**EE 528 AUTOMOTIVE BODY WELDING. (3)**

The objective of this course is to introduce students to automotive Body Production Engineering (BPE). The course will introduce students to the joining methods to produce subassemblies and the main body assembly. The course will cover joining methods, joining theory, quality assessment, and design of experiment to prove welding joints. Prereq: Engineering Standing and enrollment in the Production Engineering Certificate.

**EE 531 ALTERNATIVE AND RENEWABLE ENERGY SYSTEMS. (3)**

Study of non-traditional, electric generating systems, and the use of renewable energy sources. Energy sources include solar, wind, hydro, and biomass/biogas. Generating technologies include both inverter based equipment and rotating machinery. Prereq: EE 415G, Engineering Standing or consent of instructor.

**EE 532 SMART GRID: AUTOMATION AND CONTROL OF POWER SYSTEMS. (3)**

This course covers introduction to smart grid, key technologies in transmission and distribution systems that enable smart grid, power market structure, and real time pricing. Prereq: Engineering standing, or consent of instructor.

**EE 533 ADVANCED POWER SYSTEM PROTECTION. (3)**

This course teaches philosophies for protecting power systems, covers micro-processor based relays, and provides projects on relay setting and relay testing. Prereq: Engineering standing, or consent of instructor.

**EE 535 POWER SYSTEMS: GENERATION, OPERATION, AND CONTROL. (3)**

This course covers essential aspects of the energy management system of power systems. Will cover topics: power system economics, state estimation, power system stability, power quality, and fault location. Prereq: EE 537 or concurrent, and Engineering Standing.

**EE 536 POWER SYSTEM FAULT ANALYSIS AND PROTECTION. (3)**

This course teaches computer based methods for performing fault analysis of power systems, and principles for protecting power systems. Prereq: EE 537, or concurrent, and Engineering Standing.

**EE 537 ELECTRIC POWER SYSTEMS I. (3)**

A study of power flow, elements of power factor correction, the one-line diagram, the per-unit system, transformer modeling, generator modeling, transmission line modeling, transmission line performance calculations from equivalent circuits, and general methods for network calculations. Prereq: Engineering standing, or consent of instructor.

**EE 538 ELECTRIC POWER SYSTEMS II. (3)**

Introduction to modern power system practices, basic transient and steady-state stability analysis with emphasis on digital techniques. Prereq: Engineering standing and consent of instructor.

**EE 539 POWER DISTRIBUTION SYSTEMS. (3)**

Study of electric utility distribution power systems. Topics include configurations, equipment, customer class data, load flow, phase balancing, capacitor placement, system protection, power quality, and distributed generation. Prereq: EE 537, engineering standing or consent of instructor.

**EE 543 SOLAR CELL DEVICES AND SYSTEMS FOR ELECTRICAL ENERGY GENERATION. (3)**

Physics of photovoltaic (PV) devices, emerging technologies, design of PV cells and systems, electronic components for signal conditioning, integration, installation, performance evaluation and economic issues related to PV systems. Prereq: EE 211 or EE 305 and Engineering Standing, or consent of instructor. (Same as BAE 543/EGR 543.)

**EE 546 ELECTRIC POWER SYSTEM FUNDAMENTALS. (3)**

Introduction to power transmission basics, power system components, power flow, fault analysis and protection, control, stability, and economic operation of the power grid. This course will also introduce modern trends such as distributed generation, communications, and cybersecurity. Prereq: Graduate or engineering standing and EE 221, EE 305, or equivalent. (Same as EGR 546.)

**EE 555 INTRODUCTION TO MICRO-/NANO-ELECTROMECHANICAL SYSTEMS. (3)**

This course provides an overview of micromachined structures with an emphasis on operational theory and fabrication technology. Prereq: Engineering standing or consent of instructor. (Same as ME/MSE 555.)

**EE 560 SEMICONDUCTOR DEVICE DESIGN. (3)**

Theory, development and discussion of equivalent circuit models of transistor devices, negative resistance, semiconductor devices and praetersonic devices based on electronic processes in solid state elements. High and low frequency, as well as the Ebers-Moll and charge control switching models and their application in computerized electronic circuit analysis will be developed. Prereq: EE 461G or equivalent, and engineering standing.

**EE 562 ANALOG ELECTRONIC CIRCUITS. (3)**

Feedback amplifiers, tuned and untuned amplifiers, oscillators, AM and FM transmitters. Prereq: EE 360, EE 461G and engineering standing.

**EE 566 ENGINEERING OPTICS. (3)**

Fundamentals of geometrical and physical optics; applications as related to problems in engineering design and research, details of some optical measurement techniques; introduction to lasers; techniques for determining optical properties. Prereq: Engineering standing. (Same as ME 560.)

**EE 567 INTRODUCTION TO LASERS AND MASERS. (3)**

Basic principles of laser action; atomic transitions; population inversion; two and three level systems; optical resonators; pumping methods; applications. Prereq: EE 360, EE 468G, or PHY 417G, or consent of instructor. (Same as PHY 567.)

**EE 568 FIBER OPTICS. (3)**

The course presents theory and practice related to (a) fiber optic cable and their fabrication, (b) fiber optic transmitters and detectors, (c) fiber optic communication systems and (d) fiber optic remote sensors. Prereq: EE 468G. (Same as MSE 568.)

**EE 569 ELECTRONIC PACKAGING SYSTEMS AND MANUFACTURING PROCESSES. (3)**

Study of packaging systems which interconnect, support, power, cool, protect, and maintain electronic components. The course will address systems at the chip, board, and product levels. Topics include design, properties, materials, manufacture, and performance of various packaging systems. Laboratory will provide familiarity with design software and production equipment and processes. Prereq: EE 211 or EE 305, EE 360 or MSE 402G, or consent of instructor. (Same as MSE 569.)

**EE 570 FUNDAMENTALS OF NANOELECTRONIC DEVICES AND MATERIALS. (3)**

Energy bands in crystals; heterostructures; quantum wells and low dimensional systems; the two-dimensional electron gas and MODFET; transmission in nanostructures; current topics in nanoscale devices. Prereq: EE 360 and engineering standing, or consent of instructor. (Same as ME/MSE 570.)

**EE 571 FEEDBACK CONTROL DESIGN. (3)**

System representation via transfer function and state variables, root locus analysis; Bode plots; compensation by root-locus and frequency response methods; state variable feedback; sensitivity analysis; tracking via output feedback; digital control systems. Prereq: EE 421G, EE 422G, engineering standing, and consent of instructor.

**EE 572 DIGITAL CONTROL OF DYNAMIC SYSTEMS. (3)**

Zero and first order hold, theory of analog to digital and digital to analog conversion. Z-transform analysis, discrete state variable analysis, discrete estimation techniques, error analysis of discrete systems. Prereq: EE 422G, engineering standing.

**EE 575 INDUSTRIAL CONTROL. (3)**

Control technologies for industrial and process control systems, including sensors, actuators, PLCs, and hydraulic and pneumatic control elements. Prereq: Engineering standing or graduate standing.

**EE 576 CYBERSECURITY. (3)**

This course focuses on technologies in protecting infrastructure, networks, programs and data from unintended or unauthorized access, change or destruction. It provides a survey of latest developments in cyber-security through study of theoretical foundation and hands-on practical implementation. Topics include basic security technology, cryptography, security management, risk assessment, operations and physical security, software and network security, as well as ethical and legal issues. Prereq: CS 270 and EE 380 or consent of instructor.

**EE 579 NEURAL ENGINEERING:****MERGING ENGINEERING WITH NEUROSCIENCE. (3)**

A multidisciplinary approach combining engineering principles for systems analysis and control, knowledge of biological control mechanisms, and computational properties of biological neural networks in the development of engineering neural networks for control applications. Topics include: equivalent circuit models for biological neurons and networks, non-linear differential equation representations, biological control strategies for rhythmic movements, design and development of controller for robot function, proposal development and presentation. Prereq: EE 422G and Engineering Standing or consent of instructor. (Same as BME 579.)

**EE 580 EMBEDDED SYSTEM DESIGN. (3)**

Embedded System Design covers the design and implementation of hardware and software for embedded computer systems. Topics include architectural support for embedded systems, power management, analog and digital I/O, real-time processing design constraints and the design of embedded systems using a real-time operating systems. Prereq: EE/CPE 287, EE/CPE 380, and engineering standing or consent of instructor. (Same as CPE 580.)

**EE 582 HARDWARE DESCRIPTION LANGUAGES AND PROGRAMMABLE LOGIC. (3)**

A study of hardware description languages including netlists, VHDL and Verilog; their use in digital design methodologies including modeling techniques, design verification, simulation, synthesis, and implementation in programmable and fabricated logic media. Programmable logic topics include CPLD and FPGA architectures, programming technologies and techniques. Prereq: EE/CS 380 and engineering standing.

**#EE 583 INDUSTRIAL ENERGY UTILIZATION AND ASSESSMENT. (3)**

This course considers energy use in industrial settings – including energy flows and energy transformations. Students will learn methodologies for assessing, analyzing, and reducing energy use and cost in industrial facilities and auxiliary equipment. The content presented in this course is intended to be consistent with the US Department of Energy Industrial Assessment Center program methods. Students will learn how to perform energy assessments in real engineering settings. Prereq: Engineering standing or consent of instructor. (Same as BAE 583/EGR 583/ME 583/MFS 583.)

**EE 584 INTRODUCTION OF VLSI DESIGN AND TESTING. (3)**

Introduction to the design and layout of Very Large Scale Integrated (VLSI) Circuits for complex digital systems; fundamentals of the VLSI fabrication process; and introduction to VLSI testing and structured design for testability techniques. Prereq: Engineering standing or consent of instructor. (Same as CPE 584.)

**EE 585 FAULT TOLERANT COMPUTING. (3)**

Students in this course study the theory and practice of fault-tolerant and dependable computing systems. The course will introduce sources of faults, error and failures in computer controlled systems and approaches to design masking and recovery techniques at the hardware, software, and systems level. Prereq: EE/CPE 380 and engineering standing or consent of the instructor. (Same as CPE 585.)

**EE 586 COMMUNICATION AND SWITCHING NETWORKS. (3)**

Fundamentals of modern communication networking and telecommunications, data transmission, multiplexing, circuit switching networks, network topology routing and control, computer communication, packet switching networks, congestion control, frame relay, ATM switching networks, traffic and congestion control. Prereq: EE/CPE 282 and engineering standing. (Same as CPE 586.)

**EE 587 ADVANCED EMBEDDED SYSTEMS. (3)**

An advanced course in the design of embedded systems using state-of-the-art microcontroller hardware and software development tools. Topics include architecture support for real-time operating systems, language support for embedded and real-time processing, embedded and wireless networking. Prereq: EE/CPE 580 and engineering standing or consent of instructor. (Same as CPE/CS 587.)

**EE 588 REAL-TIME COMPUTER SYSTEMS. (3)**

This course covers features typically found in real-time and embedded systems. Topics include real-time operating systems, scheduling synchronization, and architectural features of single and multiple processor real-time and embedded systems. Prereq: EE/CPE 580 and engineering standing or consent of instructor. (Same as CPE 588.)

**EE 589 ADVANCED VLSI. (3)**

An advanced class in topics related to Very Large Scale Integration. Example topics are advanced simulation, yield impact, memory design, statistical analysis and data reduction. Prereq: EE 584, engineering standing.

**EE 595 INDEPENDENT PROBLEMS. (1-3)**

For electrical engineers. A problem, approved by the chairperson of the department, provides an objective for study and research. May be repeated to a maximum of six credits. Prereq: 2.5 standing and engineering standing.

**EE 598 SPEC. TOPICS MULTI-INST (Subtitle required). (3)**

This course covers advanced topics on various aspects of electrical engineering, and is a template for courses to be shared among multi-institutions via distance learning technologies.

**EE 599 TOPICS IN ELECTRICAL ENGINEERING (Subtitle required). (3)**

A detailed investigation of a topic of current significance in electrical engineering such as biomedical instrumentation, digital filter design, active networks, advanced electrical devices,

digital communications, display of electronics. May be repeated, but only three credits can be earned under the same title. Only nine credit hours may count toward degree requirements. A particular topic may be offered at most twice under the EE 599 number. Prereq: Equivalent of two 400-level courses in electrical engineering, consent of instructor and engineering standing.

**PREREQUISITE FOR GRADUATE WORK:** Students desiring to take any of the following courses should have a thorough working knowledge of chemistry, physics and mathematics. For major work, a candidate must hold a bachelor's degree in electrical engineering or its equivalent.

**EE 601 ELECTROMAGNETIC ENERGY CONVERSION. (3)**

Generalized electric machine theory; parameter determination. Energy conversion in continuous media including magnetohydrodynamics. Prereq: Consent of instructor.

**EE 603 POWER ELECTRONICS. (3)**

Study of solid-state power electronic devices and their applications. Examination of control philosophies, steady-state models, and numerical simulation of characterizing differential equations. Current topics of interest from the literature. This course may not be used to satisfy degree requirements if credit is earned in EE 503. Prereq: EE 517 and EE 571 or consent of instructor.

**EE 604 SWITCH MODE CONVERTERS. (3)**

Study of analysis techniques for switching mode converters and associated control practices. Boost, buck, buck-boost, flyback, and Cuk topologies in both continuous and discontinuous conduction modes are presented. Numerical solution, state-space averaging, and linearization techniques are applied to predict performance and formulate transfer characteristics. Prereq: EE 517 or consent of instructor.

**EE 605 MODELING, SIMULATION AND CONTROL FOR MANUFACTURING. (3)**

The purpose of this course is to examine methods and systems from the perspectives of modeling, simulation, and control of manufacturing facilities. The emphasis will be primarily on techniques that can be used to model and evaluate performance of systems. Students are encouraged to think critically about available technologies, identify relative strengths and weaknesses, and analyze the technologies toward developing improved solutions to factory control and information management problems. Prereq: Graduate Standing. (Same as ME/MFS 605.)

**EE 606 GLOBAL ISSUES IN MANUFACTURING. (3)**

The need to increase quality, productivity, efficiency and sustainability in manufacturing operations spanning the product, process and systems (manufacturing systems as well as supply chain) domains is essential for companies to be successful. The increased globalization of markets and manufacturing operations, declining natural resources and negative consequences of some manufacturing practices as well as increased legislation in many regions has led to many new challenges that companies must overcome to be successful in competitive markets. This seminar course will introduce students to a variety of global issues in manufacturing through presentations by leading national and international experts in these domains. The seminars will cover a broad range of manufacturing related topics relevant to many disciplines including manufacturing, mechanical and electrical engineering. The course can also help graduate students identify topical issues that need further investigation and could become potential research topics. (Same as ME/MFS 606.)

**EE 611 DETERMINISTIC SYSTEMS. (3)**

Concepts of linear systems, singularity functions, convolution and superposition integrals, state-variable method for linear systems, relation between transfer function and state-variable equations, fundamental matrix, state-transition matrix, unit-impulse response matrix, and transmission matrix. Prereq: EE 421G.

**EE 613 OPTIMAL CONTROL THEORY. (3)**

State-space modeling of control systems; variational techniques; system optimization by maximum principle, dynamic programming; Hamilton-Jacobi equations design of linear optimal systems; computational methods for solving boundary value problems. Prereq: EE 611.

**EE 614 ADAPTIVE CONTROL. (3)**

Real-time parameter estimation; deterministic self-tuning regulators; stochastic and predictive self-tuning regulators; model-reference systems; auto-tuning; gain scheduling; practical issues; design and simulation projects. Prereq: EE 611.

**EE 619 PROBLEMS SEMINAR IN OPERATIONS RESEARCH. (3)**

In this course, the student is exposed to the art of applying the tools of operations research to real world problems. The seminar is generally conducted by a group of faculty members from the various disciplines to which operations research is applicable. Prereq: MA 617 and STA 525 or consent of instructor.

**EE 621 ELECTROMAGNETIC FIELDS. (3)**

Development of electromagnetic field theory from the basic postulates of Maxwell's equations in differential and integral forms, solution to static, quasistatic, and wave-propagation problems. Radiation from dipole antenna elements. Prereq: EE 468G.

**EE 622 ADVANCED ELECTRODYNAMICS. (3)**

Solution methods for applied electrodynamics problems; uniqueness, equivalence, duality, reciprocity; linear space methods; wave solutions in separable coordinate systems; classical problems in cartesian, cylindrical, and spherical coordinates. Prereq: EE 468G.

**EE 624 COMPUTATIONAL ELECTROMAGNETICS:**

**THE FINITE-DIFFERENCE TIME-DOMAIN. (3)**

A course on the application of the finite-difference time-domain (FDTD) technique for the full-wave simulation of time-dependent electromagnetic waves in complex media. Representative topics in the course include: The Yee-algorithm, numerical dispersion and stability, physical source models, absorbing boundaries and perfectly matched layered media, near-field to far-field transformations, modeling of microwave circuits and antennas, parameter extraction, lumped load models, non-uniform and non-orthogonal grid methods, and current topics in FDTD. Prereq: EE 621 or consent of instructor.

**EE 625 COMPUTATIONAL ELECTROMAGNETICS. (3)**

This advanced course in computational electromagnetics primarily covers moment method and finite element method solutions to scattering problems. Representative topics of the course include surface and volume equivalence principles, scattering by material cylinders, scattering by periodic structures and absorbing boundary condition models. Prereq: EE 525, EE 621, or consent of instructor.

**EE 630 DIGITAL SIGNAL PROCESSING. (3)**

An introductory treatment of the basic concepts of signal processing via time and frequency domain (Z-transform) methods and a survey of procedures for designing, implementing and using digital signal processors. Prereq: EE 512 or consent of instructor.

**EE 635 IMAGE PROCESSING. (3)**

The course outlines applications of image processing and addresses basic operations involved. Topics covered include image perception, transforms, compression, enhancement, restoration, segmentation, and matching. Prereq: Graduate standing and consent of instructor. (Same as CS 635.)

**EE 639 ADVANCED TOPICS IN SIGNAL PROCESSING AND COMMUNICATIONS. (3)**

Advanced topics in signal processing and communications research and design topics of current interests, such as optical processing, pattern recognition, satellite systems, and digital communication networks. A review and extension of current literature and selected papers and reports. May be repeated to a maximum of nine credits. Prereq: Advanced graduate standing.

**EE 640 STOCHASTIC SYSTEMS. (3)**

Random variables, stochastic processes, stationary processes, correlation and power spectrum, mean-square estimation, filter design, decision theory, Markoff processes, simulation. Prereq: EE 421G.

**EE 641 ADVANCED POWER SYSTEMS. (3)**

This course covers advanced topics on electric power systems including power system analysis, operation, monitoring, protection, optimization and control. Prereq: Graduate student, AND EE 415 or equivalent or consent of instructor.

**#EE 643 INTEGRATION OF DISTRIBUTED ENERGY RESOURCES. (3)**

This course covers characteristics of distributed energy resources, and the challenges and methods for integrating them into the power grid. Prereq: Graduate student, AND EE 415 or equivalent or consent of instructor.

**EE 645 ADVANCED CONTROL SYSTEM ANALYSIS. (3)**

Conceptual development and study of complex systems; their synthesis and design; analysis and optimization of system parameters. Input-output relationships; formulation of mathematical models, parameters and constraints on physical systems. Prereq: ME 440 or instructor consent. (Same as ME 645.)

**EE 661 SOLID-STATE ELECTRONICS. (3)**

A study of semiconductor fundamentals including crystal structure, basic quantum mechanics, energy-band theory, carrier distributions, carrier transport, and recombination-generation. Analysis of semiconductor devices including PN junction diodes, bipolar-junction transistors, metal-semiconductor diodes, and metal-oxide semiconductor field effect transistors. Prereq: EE 360 and EE 461G or consent of instructor.

**EE 663 OPTOELECTRONIC DEVICES. (3)**

Theory and applications of photodetectors, solar cells, semiconductor lasers, light emitting diodes and display devices, nanocrystalline structures and organic semiconductors applications in optoelectronic devices. Prereq: EE 360 or MSE 402G, consent of instructor and/or graduate standing. (Same as MSE 663.)

**EE 664 MULTIDISCIPLINARY SENSORS LABORATORY. (3)**

A multidisciplinary laboratory course with laboratory experiences in areas related to sensors and sensing architectures, typically including chemistry, chemical and materials engineering, and electrical engineering. Lecture, 1 hour; laboratory, 2 hours. Prereq: One year of college chemistry, calculus and physics. GS 660 or by consent of instructor. (Same as CHE/CME/MSE 664.)

**EE 672 NONLINEAR SYSTEMS AND CONTROL. (3)**

This course presents methods for analyzing and controlling nonlinear dynamic systems. The major topics are: 1) fundamental properties of nonlinear ordinary differential equations such as existence and uniqueness; 2) Lyapunov stability theory; and 3) nonlinear feedback control techniques such as backstepping, feedback linearization, and Lyapunov-based design. (Same as ME 672.)

**EE 684 INTRODUCTION TO COMPUTER**

**AIDED DESIGN OF VLSI CIRCUITS. (3)**

Computer aided design of Very Large Scale Integration (VLSI) circuits. Topics include: VLSI technologies, CMOS circuit characteristics, computer aids in the design of VLSI circuits, use of various CAD tools for layout, circuit design, logic design, and functional design, and the use of VLSI circuits in the system design. A design project is required. Prereq: EE 581 and EE 461G or consent of instructor.

**EE 685 DIGITAL COMPUTER STRUCTURE. (3)**

Study of fundamental concepts in digital computer system structure and design. Topics include: computer system modeling based on instruction set processor (ISP) and processor-memory-switch (PMS) models, design and algorithms for ALU, processor, control unit and memory system. Special topics include floating-point arithmetic, cache design, pipeline design technologies, and parallel computer architectures. Prereq: EE 380 and EE 581 or consent of instructor.

**EE 686 ADVANCED COMPUTER ARCHITECTURE DESIGN. (3)**

A study of current diverse advanced architectures such as microprogrammed, parallel, array and vector, networked, and distributed architectures; applications and example systems employing these architectures; matching applications to architectures; consideration of architectures of the future. Prereq: EE 685.

**EE 698 SPEC. TOPICS MULTI-INST (Subtitle required). (3)**

This course covers advanced topics on various aspects of electrical engineering, and is a template for courses to be shared among multi-institutions via distance learning technologies.

**EE 699 TOPICS IN ELECTRICAL ENGINEERING (Subtitle required). (3)**

A detailed study of a topic of current interest in electrical engineering. May be repeated to a maximum of six credits, but only three credits may be earned under the same subtitle. A particular topic may be offered at most twice under the EE 699 number. Prereq: Consent of instructor.

**EE 748 MASTER'S THESIS RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

**EE 749 DISSERTATION RESEARCH. (0)**

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

**EE 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

**EE 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours.

**EE 769 RESIDENCE CREDIT FOR THE DOCTOR'S DEGREE. (0-12)**

May be repeated indefinitely.

**EE 780 ADVANCED PRACTICE IN ELECTRICAL AND COMPUTER ENGINEERING. (1-3)**

Apply advanced training in electrical/computer engineering to solve complex practical problems through analysis, design, implementation, experiments, and/or developments subject to approval of the course instructor. This course may be repeated for a maximum of six credit hours in combination with EE 783. Prereq: 18 hours of graduate courses.

**EE 783 SPECIAL PROBLEMS IN ELECTRICAL ENGINEERING. (1-3)**

Open to graduate students only. Individual work on an assignment approved by the chairperson of the department. May be repeated to a maximum of nine credits.

**EE 784 RESEARCH PROJECT IN ELECTRICAL ENGINEERING. (3)**

Individual study related to a special research project supervised by the student's advisor. A final written report on the project is required. This course is open only to and required by students pursuing the MSEE degree with a non-thesis option (Plan B). The course cannot satisfy part of the required 30 hours of course work for Plan B. Prereq: Approval of student's MSEE advisor.

**EE 790 RESEARCH IN ELECTRICAL ENGINEERING. (1-9)**

Research in any field of electrical and/or computer engineering subject to approval of the Director of Graduate Studies. This course can be taken prior to the qualifying examination, but will not count for pre-qualifying examination residency credit. This course may be repeated to a maximum of 18 credit hours. Prereq: Consent of DGS.

## EES Earth and Environmental Sciences

### EES 110 ENDANGERED PLANET: AN INTRODUCTION TO ENVIRONMENTAL GEOLOGY. (3)

An introductory course that applies basic geological concepts to current environmental issues including the availability and use of water and soil resources, pollution causes, effects and solutions, and causes and prediction of environmental hazards including floods, landslides, subsidence, earthquakes and volcanoes.

### EES 120 SUSTAINABLE PLANET: THE GEOLOGY OF NATURAL RESOURCES. (3)

An introduction to the geologic and societal controls that govern the distribution and cost of using geologic resources: minerals, soils, and energy and industrial materials. Topics include the geological processes responsible for forming these resources, controls on their distribution, quality and abundance, economic factors that drive their recovery, and the legal/political arena in which we attempt to utilize them.

### EES 130 DINOSAURS AND DISASTERS. (3)

More than 65 million years ago, dinosaurs and their kin dominated the earth and relegated our mammalian ancestors to positions of unimportance for nearly 155 million years. This course traces the history of dinosaurs from early vertebrate ancestors to their final extinction and surveys the evolutionary, paleogeographic, environmental, and possible extraterrestrial causes for the rise to dominance and sudden fall. Along the way and afterwards, dinosaur interactions with other organisms and the environment, as well as their indirect influence on mammals, particularly on the much later evolution of humankind, will be examined.

### EES 150 EARTHQUAKES AND VOLCANOES. (3)

An introduction to earthquakes and volcanoes through theory, active learning assignments, and case studies. Using the basic principles of plate tectonics, students will learn why, where and how earthquakes and volcanoes occur. The hazards associated with earthquakes and volcanic eruptions will be discussed, as well as their societal implications in both the United States and developing world. Earthquake and volcanic hazard mitigation techniques will be addressed. In addition, earthquake hazards in the central United States will be discussed.

### EES 151 QUANTITATIVE PLANET. (3)

A basic problem solving approach to quantifying and predicting how Earth changes through time. Involves application of math skills of sufficient level for UK admission. Satisfies the UK Core Quantitative Foundations requirement; no prerequisites.

### EES 155 EARTHQUAKES AND QUANTITATIVE REASONING. (3)

Earthquake phenomena will be introduced in a manner that will allow students to learn why, where, and how earthquakes occur using elements of fundamental topics in algebra and trigonometry. These quantitative foundations will be used to investigate the origins and hazards associated with earthquakes, as well as their societal implications in both the United States and developing world. Students will often work in small groups to increase confidence in orally communicating their quantitative thinking and defending their logic, as well as providing an opportunity to consider alternative problem solving strategies.

### EES 160 GEOLOGY FOR TEACHERS. (3)

The basic principles of geologic processes, materials, and history with primary emphasis on inquiry-based laboratory and field activities. The course is designed in conjunction with PHY 160 to provide basic concepts of earth science, astronomy and physics appropriate for elementary and middle school teachers. Both courses are taught with an emphasis on inquiry-based, laboratory activities. Lecture, two hours per week; laboratory, three hours per week. Not available for credit to students who have received credit for EES 220.

### EES 170 BLUE PLANET: INTRODUCTION TO OCEANOGRAPHY. (3)

Survey of oceanography, including the geologic evolution of the ocean floor; composition and dynamics of ocean water; interaction of lithosphere with hydrosphere; ocean-atmosphere interaction and oceanic controls on climate dynamics; marine life and ecosystems; impact of human activity on marine ecosystems.

### EES 180 GEOLOGY OF THE NATIONAL PARKS. (3)

The American system of national parks and monuments provides a natural and exciting basis for learning about geology, the scientific study of the Earth. These spectacular, diverse natural classrooms will be used to uncover the origin and variety of Earth materials, probe the dynamic processes that have produced and continue to modify internal and surficial environments over geologic time, critically examine the effects of changing patterns of land use on the natural environment, and recount the conservation efforts that have preserved these unique natural environments for future generations. The course includes a required, two-day (Saturday-Sunday) field trip to Mammoth Cave National Park.

### EES 185 QUANTIFYING THE BLUEGRASS WATER SUPPLY. (3)

This course develops the ability to locate and identify data, critically evaluate the data, develop probabilistic models, and present the results of their research. Geology provides important information on the origins of natural resources and the amounts available for exploitation and use. Course focuses on the issues surrounding the water supply and demand in the central Kentucky Bluegrass region, and the impact of global climate change.

### EES 220 PRINCIPLES OF PHYSICAL GEOLOGY. (4)

How the Earth Works: an integrated course in physical geology, covering the physical, chemical and biological processes that combine to produce geological processes. Attention is focused on plate tectonics, earth surface processes, and properties and formation of earth materials. Lab exercises emphasize identification and interpretation of geologic materials and maps. Lecture/Discussion, three hours per week; laboratory, three hours per week.

### EES 230 FUNDAMENTALS OF GEOLOGY I. (3)

Field and laboratory methods for identification and description of rocks and minerals with emphasis on sedimentary rocks and rock-forming minerals. Field study of geologic structures. Interpretation of geologic maps. Laboratory, three hours per week. Eight days in the field. Prereq: EES 220.

### \*EES 235 FUNDAMENTALS OF GEOLOGY II. (3)

Modern techniques for displaying and interpreting surface and subsurface data. GIS-based field data collection and geologic mapping. Introduction to Appalachian tectonics. Laboratory, three hours per week. Four days in the field. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK. Prereq: EES 220 and 230.

### EES 295 GEOSCIENCE ORIENTATION. (1)

Survey of geoscience disciplines and post-baccalaureate career options for Geology majors. Introduction to the range of geoscience research approaches and means of dissemination of geoscience information. Guest speakers from industry, government, and academia will discuss career issues specific to geology, including consideration of appropriate educational preparation for potential career paths. Pass/Fail only. Prereq: EES 220 and sophomore standing.

### EES 310 EXPLORATIONS OF THE SOLAR SYSTEM. (3)

Fundamental and current topics in the space exploration of our solar system. Topics and examples of themes include: What is a planet; critical evaluation of the evidence for the heliocentric system; electromagnetic waves; the threat of asteroid impact; critical evaluation of the possibilities of extra-terrestrial life; critical evaluation of the evidence for climate change; and other topical items based on the results of on-going space missions. Prereq: Any two university science/math courses or completion of one and concurrent enrollment in another.

### EES 323 FIELDWORK IN REGIONAL GEOLOGY. (6)

Geologic mapping in the field for a six-week period. Description, measurement, and mapping of a wide variety of rocks and structures, and analysis of geologic events in mountainous regions of the Rockies or Appalachians. Includes practice in writing geologic field reports. Offered only during the summer session. At least 40 hours of field-related work per week. Special fee. Prereq: EES 230 and EES 235.

### EES 341 LANDFORMS. (3)

A study of the origin and distribution of landforms. Lecture, three hours per week. (Same as GEO 351.)

### EES 345 PALEOCLIMATOLOGY: THE SCIENCE. (3)

This course focuses on the science behind our understanding of how our planet's climate has changed over time, in particular from 100 million years ago to the present. The most significant processes, astronomical, geological, oceanographic, and atmospheric, are examined with an emphasis on the broad scales of time and space over which they operate, and drive climatic change. Proxy data records are defined in the context of how they record climatic data, and how we "read" them to learn the climatic history they store. Finally, the course brings us into the historical age, where data stores on climate change are the most diverse, but shortest in duration. The ultimate goal is for students to understand how we know what we know about Earth's past climatic changes, so that we can formulate informed strategies moving forward to mitigate our own species' impact on global climate.

### EES 350 REGIONAL HISTORICAL GEOLOGY. (3)

Integration of basic rock types, geologic structures, geomorphology, and natural resources in the context of geologic history of the major regions of North America. Global plate tectonics as a framework for evolution of the North American continent. Prereq: EES 230.

### \*EES 360 MINERALOGY. (4)

The study of mineral structure and composition, and mineral classification through crystallographic and crystal chemical techniques. Laboratory work includes study of minerals via crystallography, X-ray diffraction, mineral chemical analysis, and optical petrographic techniques. Lecture, three hours per week; laboratory, three hours per week. Prereq: CHE 105 and EES 220.

### EES 385 HYDROLOGY AND WATER RESOURCES. (3)

The occurrence, movement, and quality of fresh water in the water cycle, including environmental problems and possible solutions. Case studies are explored through readings, videos, and required field trips. Prereq: EES 220.

### EES 395 SPECIAL PROBLEMS IN GEOLOGY. (1-3)

Individual work on a special problem in geology. Report required. May be repeated to a maximum of six credits. Prereq: Consent of instructor.

### EES 399 WORK EXPERIENCE IN GEOLOGICAL SCIENCES. (1-6)

Professional-level, pre-planned learning experience in geological sciences in the work place under the supervision of a faculty member. The student will complete work of the type done by professional geoscientists in the same setting. May be repeated to a maximum of six credits. Pass/fail only. Prereq: Approval of learning contract by faculty supervisor, director of undergraduate studies, and department chair.

## Course Descriptions

### **EES 401G INVERTEBRATE PALEOBIOLOGY AND EVOLUTION. (3)**

Basic ecologic and evolutionary framework of common fossil invertebrate taxa. Major principles of paleontology, ecology, systematics, and evolution; and the use of fossils in paleoecology and biostratigraphy. Laboratory work in classification of common fossils. Lecture, two hours; laboratory, three hours per week. Prereq: EES 102/112.

### **EES 420G STRUCTURAL GEOLOGY. (4)**

An introduction to earth structures. Advanced geologic map interpretation. Prereq: EES 230.

### **EES 450G SEDIMENTARY GEOLOGY. (4)**

Basic principles and concepts of stratigraphy and sedimentation. Lithologic correlation and the interpretation of geologic history and paleogeography. Field and laboratory analysis of sedimentary rocks including megascopic and microscopic methods. Lecture, three hours per week; laboratory, three hours per week. Prereq: EES 230 and EES 360.

### **EES 461 IGNEOUS AND METAMORPHIC PETROLOGY. (4)**

Classification and origins of the common igneous and metamorphic rocks. Lecture material will emphasize the mineralogical, chemical, and physical equilibria within the earth. Laboratory topics will stress hand-specimen and microscopic petrography. Lecture, three hours; laboratory, three hours per week. Prereq: EES 230 and 235 and EES 360. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

### **EES 480 ADVANCED TOPICS IN GEOLOGICAL SCIENCES (Subtitle Required). (1-6)**

Advanced topical course in the geological sciences. May be repeated to a maximum of six credits under different subtitles. Prereq: Consent of instructor.

### **EES 490 EARTH DYNAMICS. (3)**

Basic planetary changes through geological time, including continental drift, formation of supercontinents, paleoclimate, and the growth of the earth's crust. Students will be required to take the Fundamentals component of the ASBOG professional geologist certification exam (fee required). Prereq: Senior standing with at least 30 credits in a Geological Sciences curriculum.

### **EES 511 PETROLEUM GEOLOGY. (3)**

Survey of the origin, chemical composition, occurrence in the context of stratigraphy, structure, and reservoir types of natural hydrocarbons; exploration methods and production techniques; environmental impacts of exploration and production. Prereq: EES 450G, EES 420G, or equivalent, or consent of instructor.

### **\*EES 530 LOW TEMPERATURE GEOCHEMISTRY. (3)**

An introduction to sedimentary and environmental geochemistry, including carbonate equilibria, redox chemistry, acid-base reactions, and kinetics. These examples will be considered in the context of geologic and environmental topics including acid mine drainage, groundwater, chemical oceanography, and changes across earth history.

### **EES 550 FUNDAMENTAL GEOPHYSICS. (3)**

Survey of active geophysical measurements and passive geophysical observations and their relation to Earth's structure and composition. Investigation of the relationship between Earth's elastic, potentiometric, and thermodynamic properties and traditional geophysical methods for measurement (e.g., gravity, magnetism, seismic, and heat flow). Material will help students improve their quantitative problem-solving abilities, but will also emphasize the visual learning skills commonly developed in the broader geology curricula. Prereq: MA 113, PHY 211 or 213, or consent of instructor. (MA 114 suggested).

### **EES 555 STRATIGRAPHY. (3)**

Principles of stratigraphy, depositional systems, sequence stratigraphy, and tectonic framework of sedimentation. Prereq: EES 450G.

### **EES 560 GEOPHYSICAL FIELD METHODS. (4)**

An introduction to the principles and applications of geophysics in the field. The course will present the geophysical methods used to assess the configuration and physical properties of the Earth's subsurface, as well as to explore for natural resources. Designed for geology students (upper-division or first-year graduate) and other science or engineering students without prior formal instruction in geophysics. To understand the discussions and exercises, the student should be familiar with first-year calculus and physics. Prereq: MA 113, 114; PHY 211, 213 or PHY 231, 232 or consent of instructor. MA 114, PHY 213 or PHY 232 may be taken concurrently.

### **EES 570 SEMINAR IN GEOLOGICAL SCIENCES (Subtitle required). (1)**

A general seminar in a broad range of topics in the geological sciences. May be repeated to a maximum of six credits under different subtitles. Prereq: Senior or graduate standing in Geological Sciences.

### **EES 585 HYDROGEOLOGY. (3)**

A study of the physical aspects of groundwater, including regional flow, well hydraulics, and computer simulation. Prereq: EES 220 and MA 113 or 123.

### **EES 610 TOPICS IN HYDROGEOLOGY AND SURFICIAL PROCESSES (Subtitle required). (3)**

Study of topics in hydrogeology and surficial processes. Recent topics include: models of surface processes; contaminant hydrogeology; modeling in hydrogeology. May be repeated to a maximum of nine credits under different subtitles. Prereq: Consent of instructor.

### **EES 620 TECTONICS. (3)**

A study of the structural features of the earth's crust with an analysis of the mechanics involved. Prereq: PHY 211, 213; EES 420G.

### **EES 624 ADVANCED STRUCTURAL GEOLOGY. (3)**

An advanced study of the theory, principles, and application of structural geology. Prereq: EES 420G.

### **EES 625 TOPICS IN GEOPHYSICS. (3)**

Special topics in geophysics such as advanced seismology, seismic processing, seismic stratigraphy, earthquake seismology, geologic hazards, gravity fields, magnetic fields, heat flow, geodynamics, planetary geophysics, quantitative methods, inverse methods, geophysical modeling. May be repeated to a maximum of nine credits under different subtitles. Prereq: Consent of instructor.

### **EES 626 GRAVITY AND MAGNETIC METHODS. (3)**

Theory and practice of the gravity and magnetic methods of geophysical exploration as applied to geological, archeological, environmental, and planetary exploration problems. The course includes principles of instrumentation, surveying, reduction of anomalies, and their interpretation. Prereq: MA 113, MA 114; PHY 211 and PHY 213 or PHY 231 and PHY 232; or consent of instructor. MA 114 and PHY 213 or 232 may be taken concurrently.

### **#EES 630 STABLE ISOTOPES IN THE ENVIRONMENT. (3)**

An overview of stable isotope systematics and applications related to environmental applications. Key topics covered include trophic ecology, nutrient cycling, carbonate chemistry, oceanography, petroleum geology, and hydrology.

### **EES 645 TOPICS IN PETROLOGY AND GEOCHEMISTRY (Subtitle required). (3)**

Study of selected topics in petrology and geochemistry. Past topics include: Carbonate Petrology; Igneous Petrology; Organic Petrology; Isotope Geochemistry. May be repeated to a maximum of nine credits under different subtitles. Prereq: Consent of instructor.

### **EES 652 TECTONICS AND STRATIGRAPHY. (3)**

Use of stratigraphic data in the interpretation of tectonic framework of sedimentation, tectonic controls on paleogeography, and interactions between sedimentary rocks and geologic structures. Prereq: EES 420G and 450G or equivalent.

### **#EES 665 MUD AND MUDSTONES. (3)**

This course focuses on the geology and geochemistry of muds and mudstones. Lectures emphasize the generation of silt and clay, processes of transport and accumulation, muddy depositional environments, provenance techniques (inorganic geochemistry and mineralogy), organic geochemistry, and concepts/tools in basin analysis. An introduction to petroleum resource exploration in shale plays of the USA will be presented. An introduction to applied paleontology and paleoclimatology using deposits from muddy basins will also be presented.

### **EES 670 EXPLORATION SEISMOLOGY. (3)**

Advanced study of the acquisition, processing and interpretation of reflected and refracted seismic waves in layered media with applications to energy and geotechnical exploration. Prereq: EES 550 or EES 560 or consent of instructor.

### **EES 675 EARTHQUAKE SEISMOLOGY. (3)**

A study of the principles and methods of earthquake and engineering seismology. Specifically, the course will focus on the concepts of the seismic source, path, and site effects phenomena, as well as the practical aspects of seismic hazard assessment. Prereq: EES 550 or consent of instructor.

### **EES 685 GROUNDWATER MODELING. (3)**

This course teaches the basic concepts in groundwater modeling and provides basic exposure to standard modeling software. Prereq: EES 585 Hydrogeology; or consent of instructor.

### **EES 695 SCIENTIFIC COMMUNICATION. (3)**

A professional development course focused on scientific communication in the geosciences. Prereq: Graduate student in Geological Sciences or related field.

### **EES 715 COAL GEOLOGY SEMINAR. (2)**

Seminar discussion and presentation of current work in coal geology from current literature or ongoing research. May be repeated to a maximum of eight credits. Prereq: EES 515 or 617 or consent of instructor.

### **EES 730 SEMINAR IN TECTONICS AND STRATIGRAPHY (Subtitle required). (3)**

Seminar in Tectonics and Stratigraphy. Past topics include: Tectonics and Stratigraphy of the Appalachians; Tectonics and Sedimentation; Basin Analysis. May be repeated to a maximum of nine credits under different subtitles. Prereq: Consent of instructor.

### **EES 735 TOPICS IN STRUCTURE AND TECTONICS. (3)**

Seminar or new course offering in Structure and Tectonics. May be repeated to a maximum of nine credits under different subtitles. Prereq: Consent of instructor.

### **EES 741 ENVIRONMENTAL CLAY MINERALOGY. (3)**

A comprehensive study of the crystal structures of clay minerals commonly found in soils and sediments. Lecture and discussion, two hours; laboratory, three hours. Prereq: EES 360 or consent of instructor. (Same as PLS 741.)

**EES 748 MASTER'S THESIS RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

**EES 749 DISSERTATION RESEARCH. (0)**

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

**EES 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

**EES 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours.

**EES 769 RESIDENCE CREDIT FOR THE DOCTOR'S DEGREE. (0-12)**

May be repeated indefinitely.

**EES 782 INDIVIDUAL WORK IN GEOLOGY. (1-3)**

Problems involving independent laboratory and/or library study conforming to the student's special interest under the direction of an appropriate staff member having proficiency in the area selected. May be repeated to a maximum of nine credits. Prereq: Geology major with graduate standing.

**EES 790 RESEARCH IN GEOLOGICAL SCIENCES. (0-6)**

Research in the geological sciences. May be repeated to a maximum of twelve credits. Prereq: Approval of instructor and Director of Graduate Studies.

---

## EGR Engineering

---

**EGR 101 ENGINEERING EXPLORATION I. (1)**

Engineering Exploration I introduces students to the engineering and computer science professions, College of Engineering degree programs, and opportunities for career path exploration. Topics and assignments include study skills, team development, ethics, problem solving and basic engineering tools for modeling, analysis and visualization. Open to students enrolled in the College of Engineering. Students who received credit for EGR 112 are not eligible for EGR 101. Prereq: Enrolled in the College of Engineering or MA ACT of at least 23 or equivalent. Students who received credit for EGR 112 are not eligible for EGR 101.

**EGR 102 FUNDAMENTALS OF ENGINEERING COMPUTING. (2)**

Fundamentals of Engineering Computing introduces students to the practice and principles of computer programming and computational problem solving. Students will engage in hands-on project-based problem solving using modern computer software and hardware, with a particular emphasis on problems and techniques commonly appearing in various domains of engineering. Open to students enrolled in the College of Engineering. Prereq: Enrolled in the College of Engineering or MA ACT of at least 23 or equivalent.

**EGR 103 ENGINEERING EXPLORATION II. (2)**

Engineering Exploration II focuses on a semester long engineering design project with students working in teams to apply the skills and tools introduced in EGR 101 or EGR 112 for transfer students and EGR 102. Topics and assignments include more in depth exploration of engineering tools for modeling, analysis, visualization, programming, hardware interfacing, team development, documentation and communication. Students gain experience in project management, identifying constraints, iteration and technical report writing. Prereq: EGR 102 or equivalent; prereq or concur MA 113; prereq or concur PHY 231; prereq or concur; CHE 105.

**EGR 111 SUCCESS IN ENGINEERING. (1)**

EGR 111 reserved for Freshman College of Engineering students who have been admitted into the Engineering Living Learning Community. For registration information contact 859-257-0552.

**EGR 112 ENGINEERING EXPLORATION FOR TRANSFER STUDENTS. (1)**

Engineering Exploration For Transfer Students introduces transfer students to the engineering and computer science professions using multidisciplinary and societally relevant content. Topics and assignments will focus on skills development for engineering academic success, team development, engineering ethics, problem solving and basic engineering tools for modeling, analysis and visualization. In addition, the students will be introduced to College of Engineering student services and will have opportunities for career path exploration. Open to transfer students enrolled in the College of Engineering. Students who received credit for EGR 101 are not eligible for EGR 112. Prereq: Enrolled in the College of Engineering or MA ACT of at least 23 or equivalent. Students who received credit for EGR 101 are not eligible for EGR 112.

**EGR 120 TECHNOLOGY: BLESSING OR CURSE. (3)**

Technology has created the world in which we live. Our wealth, our economy, and the way we live each day have come about due to the emergence of technology over the centuries. The course will examine the relationship between technology and society; how technology influenced the development of society, how society influenced the development of technology, and how people in society view technology. Prereq: Acceptance into SEAM Program.

**#EGR 175 ENGINEERING ACADEMIC SUCCESS. (1)**

This 1-hour, graded course is designed to assist students in developing and utilizing study skills and learning strategies needed to reach their academic goals. It also includes exploration of careers related to target majors, as well as identification of relevant campus resources designed to enhance success. Through assessments, homework assignments, class activities, and reflective evaluations, students will set their semester objectives; implement new behaviors and methods to achieve their goals; assess their performance regularly; and adapt their strategies in response to their obtained results.

**EGR 190 UNDERSTANDING LEADERSHIP. (1)**

To introduce students to the principles of leadership, common strategies used by leaders, and communication techniques that are vital to becoming a dynamic leader. This course is only available to students admit to the Scholars in Engineering And Management (SEAM) honors program.

**EGR 196 ENGINEERING PRACTICE, CULTURE, AND LANGUAGE IN GERMANY. (3)**

This course is part of a study abroad program conducted in Germany. Students will visit Engineering companies and cultural sites in Germany, and better understand engineering practices, training and culture of Germany and its engineering companies. Students will conduct background research on the companies and sites they visit. Students will also take a German language and culture course as part of this course, which will teach basic German language, but also customs, culture and history of Germany and its residents.

**EGR 198 PLTW CREDIT. (1-6)**

This course grants college credit to Project Lead the Way Pathway to Engineering graduates from PLTW Certified high schools. University of Kentucky Engineering students may earn one college credit for each of the PLTW Pathway to Engineering courses [IED, POE, DE, CIM, CSE, CEA, ES, AE] completed while enrolled in secondary school(s), up to a maximum of six UK College of Engineering credits. Three of these credits may be used in approved engineering majors as support electives. Additional credits past three can be used for fulfill free electives in approved engineering majors. Criteria to obtain the credit include: • Graduation from a PLTW Certified secondary school. • Completing each PLTW course with an average of B. • Scoring in the 6th Stanine or above on the End-of-Course (EOC) PLTW exam. • Enrolling in the UK College of Engineering. • Paying any designated University of Kentucky tuition and fees. Prereq: Process to obtain the credit: • be a graduate of a PLTW Certified secondary school; • received a B (or better) in the PLTW course in high school; • scored in the 6th Stanine or above on the End-of-Course (EOC) PLTW exam for that course; • be enrolled in the UK College of Engineering; and • pay any designated University of Kentucky tuition and fees.

**EGR 199 TOPICS IN ENGINEERING: TITLE TO BE ASSIGNED. (1-6)**

An experimental, topical or interdisciplinary course devoted to special topics of interest in engineering. Course offerings must be approved by the Deans and Chairpersons of all cosponsoring academic units. A particular title may only be offered twice under the EGR 199 number. Students may not repeat this course under the same title. May be repeated to a maximum of twelve hours. Prereq: Enrollment in the College of Engineering, or permission of the instructor.

**EGR 201 LITERATURE, TECHNOLOGY, AND CULTURE. (3)**

EGR 201 focuses on human endeavors in science as refracted through literature. The course brings together two distinct traditions: the study of literature and the practice of technical communication. The course operates from several assumptions: (1) that imaginative treatments of technological subjects offer powerful, useful, and even needed critical perspectives, (2) that authors and engineers both work from written conventions – genres and other tropes – that frame knowledge, (3) that writers benefit from scrutiny of generic conventions, and (4) that creative play with conventional literary genres can inspire engineers to “think outside the box,” to think creatively about their own designs and projects and about innovative ways of presenting their work. Prereq: Students must have successfully completed the first course in the General Education Communication sequence (or its transfer equivalent) and must have completed at least 30 hours of course work.

**EGR 215 INTRODUCTION TO THE PRACTICE OF ENGINEERING FOR TRANSFER STUDENTS. (3)**

Introduction to the Practice of Engineering for Transfer Students welcomes transfer students to the College of Engineering and introduces them to the creativity inherent in how engineers and computer scientists approach innovation, design and problem solving from blue sky brainstorming to implementing a solution. Students will be introduced to general engineering content, practice with tools of the trade (written and oral communications, data analysis, visualization, and professional development), provide peer reviews and discuss ethical implications of creative engineering endeavors. Students will work in teams to apply the skills and tools introduced. Topics and assignments include in depth engagement with engineering tools for modeling, analysis, visualization, team development, documentation and communication. Students gain experience in project management, identifying constraints, accepting and providing critical analysis, iterating to refine their work, and keeping a technical design notebook. Prereq: Enrolled in the College of Engineering or MA ACT of at least 23 or equivalent. Prereq or concur: MA 113.

**EGR 240 GLOBAL ENERGY ISSUES. (3)**

This is a cross-disciplinary course open to all majors. This course critically examines issues associated with the technical, economic, societal, environmental, and geopolitical aspects of energy. The course is taught through lectures, discussions, and invited speakers.

**\*EGR 390 EXPERIENTIAL LEARNING IN ENGINEERING OR COMPUTER SCIENCE. (0-3)**  
 Project or activity led by an engineering faculty member, designed to provide students the opportunity to apply engineering principles in the context of real-world and multi-disciplinary community-based problems. May be repeated to a maximum of nine credits. Prereq: Engineering standing.

**EGR 394 BS/MBA SEMINAR. (0-1)**  
 Participation in team development exercises, seminars, company visits, and activities associated with the BS/MBA program. Prereq: Admission to the BS/MBA program.

**EGR 399 COOPERATIVE ENGINEERING EDUCATION. (1)**  
 A course designed for undergraduate students who, through the engineering cooperative education office, secure full-time, salaried, career-related positions under the supervision of a sponsoring employer. Enrollment in the course constitutes full-time status. Course may be taken on a pass-fail basis only and may be repeated on a rotational basis to a maximum of six credit hours. Prereq: Approval of Coordinator of Cooperative Engineering Education.

**EGR 401 CAREER PLANNING/EMPLOYMENT SEMINAR. (1)**  
 This course will introduce students to the various elements involved in obtaining a position in their chosen field of engineering. Prereq: Engineering standing.

**EGR 490 ENGINEERING LEADERSHIP. (1)**  
 To introduce students to advanced principles of leadership, common strategies used by distinguished community leaders and UK alumni, and communication techniques that are vital to becoming a dynamic leader in engineering industry. Prereq: Junior or senior with Engineering standing.

**#EGR 492 ORGANIZATIONAL LEADERSHIP. (1)**  
 This course focuses on advanced study of leadership, with a focus on leadership within teams and organizations. Topics include a review of core personal leadership concepts, team formation and dynamics, conflict management, professional ethics, strategic planning and decision making, global cultures and perspectives, organizational cultures and lifecycles, and coalition building for systematic change. Course content will be reinforced through facilitated discussions with numerous guest speakers, many of them UK Engineering alums and industry leaders, throughout the semester. Prereq: EGR 190 or equivalent introductory leadership class.

**EGR 505 PROJECT LEAD THE WAY (Subtitle required). (1-6)**  
 Project Lead The Way is the nation's leading provider of science, technology, engineering, and math (STEM) programs. Through world-class K-12 curriculum, high-quality teacher professional development, and outstanding partnerships, PLTW is helping students develop the skills needed to succeed in the global economy. To be an educator in this program teacher must successfully complete a core training session. Core Training is an intensive program intended to give Instructors an overview of the PLTW course they will be teaching. Class meets from 8am to 5pm each day, with an hour for lunch. Attendance is required at all sessions. During the training, participants complete a portfolio in order to be certified to teach the course and receive credit. Prereq: Completion of a bachelors or be registered as a junior or higher at a Kentucky university.

**#EGR 521 RENEWABLE ENERGY. (3)**  
 This is a cross-disciplinary course open to all majors. Topics include Energy policy in Navarre, US and Middle East, renewable energy overview (hydroelectric, wind, photovoltaic, thermal solar, biomass, geothermal and marine). In addition, there are technical tours of important renewable energy centers in Navarre. Prereq: Engineering standing or consent of instructor.

**EGR 523 CONCEPTS, ASSESSMENT TOOLS AND METHODS IN SUSTAINABLE POWER AND ENERGY. (3)**  
 A multidisciplinary course presenting an overview of key topics in sustainability and environmental impact assessment for engineers. Topics will include assessment of current and future energy systems, renewable and conventional energy technologies, supply chain management, sustainability metrics, energy assessment tools, environmental impact assessment and life cycle assessment. Topics will be presented and their attributes described within a framework that aids in evaluation and analysis of energy technology systems and designs in the context of political, social, economic, and environmental goals. Prereq: Engineering Standing and Senior Classification or Consent of Instructor. (Same as CME/MFS 523.)

**EGR 537 NUMERICAL ANALYSIS. (3)**  
 Floating point arithmetic. Direct methods for the solution of systems of linear algebraic equations. Polynomial and piecewise polynomial approximation, orthogonal polynomials. Numerical integration: Newton Cotes formulas and Gaussian quadrature. Basic methods for initial value problems for ordinary differential equations. The emphasis throughout is on the understanding and use of software packages for the solution of commonly occurring problems in science and engineering. Prereq: CS/MA 321 or equivalent, or graduate standing or consent of instructor. Knowledge of a procedural computer language is required. (Same as CS/MA 537.)

**EGR 540 POWER ECONOMICS AND PUBLIC POLICY. (3)**  
 This course provides an introduction to the theories and industry practices related to power economics and power public policy. Topics studied include: U.S. power markets, electric utility business regulation, electric utility environmental regulation, public policy theory, political science theory, development of new electric generation facilities, utility business operation, engineering influence on public policy, and engineering economic analysis. Prereq: Engineering standing, graduate standing, or consent of instructor.

**EGR 542 ELECTRIC POWER GENERATION TECHNOLOGIES. (3)**  
 Overview of technologies used for generating electricity from location, recovery, transportation and storage of fuel to the types of technologies used to convert the fuel to electricity. Included is a discussion of the advantages and disadvantages of each technology and how they must adapt to be viable in the future. Technologies covered include coal, natural gas, nuclear, biomass, wind, solar and advanced technologies. Prereq: Engineering standing or consent of instructor. (Same as CME 542.)

**EGR 543 SOLAR CELL DEVICES AND SYSTEMS FOR ELECTRICAL ENERGY GENERATION. (3)**  
 Physics of photovoltaic (PV) devices, emerging technologies, design of PV cells and systems, electronic components for signal conditioning, integration, installation, performance evaluation and economic issues related to PV systems. Prereq: EE 211 or EE 305 and Engineering Standing, or consent of instructor. (Same as BAE 543/EE 543.)

**EGR 546 ELECTRIC POWER SYSTEM FUNDAMENTALS. (3)**  
 Introduction to power transmission basics, power system components, power flow, fault analysis and protection, control, stability, and economic operation of the power grid. This course will also introduce modern trends such as distributed generation, communications, and cybersecurity. Prereq: Graduate or engineering standing and EE 221, EE 305, or equivalent. (Same as EE 546.)

**EGR 549 POWER AND ENERGY EXPERIENCES. (3)**  
 This course will provide unique experiences through visits to a variety of energy-related sites and presentations from topical experts. The course begins with preparations through readings, videos, and assignments. The course then has a week-long tour of selected energy related sites, which may include: pumped storage site, coal mine, coal- and gas-fired and nuclear power plants, power operations center, wind farm, hydroelectric generation, landfill gas site, smart grid demonstration center, solar farm, high efficiency building, etc. in the region. More than simply tours, these visits include presentations by industry technical personnel. Students prepare for these visits in advance through preliminary assignments, and students then do a written summary and reflection journal on these visits afterwards. This Course may not be used to satisfy degree requirements if credit is earned in EGR 649. Prereq: EGR 240 or EGR 542 or EGR 546, or consent of the instructor. Due to the nature of this class, enrollment is limited. Students pursuing either the Undergraduate Certificate or Graduate Certificate in Power and Energy may be given preference in enrollment.

**EGR 553 ENVIRONMENTAL CONSEQUENCES OF ENERGY PRODUCTION. (3)**  
 This course will introduce the relationship of energy, pollution control technology, and the environment. The scientific and engineering aspects of energy production are examined and the associated environmental problems and control technologies are discussed. Prereq: CHE 105, MA 214, and engineering standing or consent of instructor. (Same as CE 553.)

**#EGR 583 INDUSTRIAL ENERGY UTILIZATION AND ASSESSMENT. (3)**  
 This course considers energy use in industrial settings – including energy flows and energy transformations. Students will learn methodologies for assessing, analyzing, and reducing energy use and cost in industrial facilities and auxiliary equipment. The content presented in this course is intended to be consistent with the US Department of Energy Industrial Assessment Center program methods. Students will learn how to perform energy assessments in real engineering settings. Prereq: Engineering standing or consent of instructor. (Same as BAE 583/EE 583/ME 583/MFS 583.)

**EGR 599 TOPICS IN ENGINEERING (Subtitle required). (1-3)**  
 An experimental, interdisciplinary course devoted to a topic of interest to students in several departments of the college. Only three credits may be earned under the same title; students may register for more than one section each semester. A particular topic may be offered at most three times under the EGR 599 number. Prereq: Variable, given when topic is identified.

**EGR 601 INTRODUCTION TO RESEARCH IN ENGINEERING. (3)**  
 Introduction to scientific research, applied to engineering. Characterization of scientific research, the definition of a research project, and methodology in research. Discussion includes management, organization and execution of a research project, scientific writing, information related to research ethics and data management, national policies, and intellectual properties. Case studies. Introduction to share research tools such as high performance computing or scanning electron microscopy. Prereq: Graduate standing or consent of instructor.

**EGR 611 BOUNDARY ELEMENT METHODS IN ENGINEERING. (3)**  
 Introduction of boundary element methods for use in solving common engineering equations, such as the Laplace equation, the Poisson equation, the wave equation, and the diffusion equation. Both the theoretical and numerical aspects of the boundary element technique are presented. Application areas include heat conduction, potential flow problems, acoustic wave propagation, general diffusion, and stress analysis. Prereq: EGR 537 or consent of instructor. (Same as ME 611.)

**EGR 649 POWER AND ENERGY EXPERIENCES. (3)**

This course will provide unique experiences through visits to a variety of energy-related sites and presentations from topical experts. The course begins with preparations through readings, videos, and assignments. The course then has a week-long tour of selected energy related sites, which may include: pumped storage site, coal mine, coal- and gas-fired and nuclear power plants, power operations center, wind farm, hydroelectric generation, landfill gas site, smart grid demonstration center, solar farm, high efficiency building, etc. in the region. More than simply tours, these visits include presentations by industry technical personnel. Students prepare for these visits in advance through preliminary assignments, and students then do a written summary and reflection journal on these visits afterwards. This course may not be used to satisfy degree requirements if credit is earned in EGR 549. Prereq: EGR 542 or EGR 546, or consent of the instructor. Due to the nature of this class, enrollment is limited. Students pursuing the Graduate Certificate in Power and Energy may be given preference in enrollment.

---

## ELS Teacher Leadership

---

**ELS 600 LEADERSHIP IN LEARNING-CENTERED SCHOOLS. (3)**

ELS 600 is a study of school leadership responsibilities assumed by teachers working collaboratively with colleagues and principals to create learning-centered schools that assure all students learn at their highest potential.

**ELS 601 BUILDING A PROFESSIONAL LEADERSHIP COMMUNITY. (1)**

ELS 601 is the study of characteristics of school-based professional learning communities with emphasis on shared vision, values and goals, collective inquiry, collaborative teams, action orientation for continuous improvement of student-learning.

**ELS 602 LEADERSHIP ROLES IN PROFESSIONAL LEADERSHIP COMMUNITIES. (1)**

ELS 602 is the study of professional learning communities with emphasis on essential roles of collaborative leaders (i.e., principals, teachers, students, parents) in creating and sustaining continuous improvement of student-learning.

**ELS 603 LEADERSHIP FOR STUDENT LEARNING. (1)**

ELS 603 is the study of professional learning communities with emphasis on understanding strategies used by collaborative leaders to ensure all students learn at high levels, with emphasis on establishing instructional priorities, building capacity, planning, data analysis, resource allocation, monitoring and communicating with stakeholders.

**ELS 604 LEADERSHIP IN COMMUNITIES OF PRACTICE. (3)**

This course is an introduction to the study of communities of practice (also known as professional learning communities) and collaborative leadership roles intended to support school changes that contribute to all students learning at high levels.

**ELS 605 LEGAL RIGHTS AND RESPONSIBILITIES OF STUDENTS. (1)**

Students have both legal rights and responsibilities within the school environment, which teachers must both respect and enforce. ELS 605 provides an overview of rights and responsibilities of students within classrooms (e.g., student expression, discipline, harassment, discrimination, attendance, instruction and testing, privacy).

**ELS 606 LEGAL RIGHTS AND RESPONSIBILITIES OF TEACHERS. (1)**

Teachers are both primary recipients and implementers of educational laws. Given this front line position, a wealth of legal rights and responsibilities are bestowed on teachers. Likewise, teachers are confronted with myriad policies and procedures to follow (e.g., certification, employment, collective bargaining, termination) and with rights to protect (e.g., expression, privacy, discrimination). An overview of these rights and responsibilities for teachers is examined in ELS 606.

**ELS 607 TEACHER RESPONSIBILITIES IN SCHOOL-BASED DECISION MAKING. (1)**

School-Based Decision Making (SBDM) Councils have been an integral part of school governance since passage of the 1990 Kentucky Educational Reform Act. Role and responsibilities of SBDM Council are examined with focus on how teachers can use their local Council to assure successful school improvement efforts.

**ELS 608 SCHOOL LAW AND GOVERNANCE FOR TEACHERS. (3)**

ELS 608 is the study of school operations from a legal perspective with particular focus on mandates of the Kentucky Legislature affecting students, teachers, and schools. Teachers are introduced to the governing regulations of schools to begin to understand how schools and classrooms legally operate and their rights and responsibilities, as well as the rights and responsibilities of their students, in the schooling enterprise.

**ELS 609 TECHNOLOGY LEADERSHIP IN SCHOOLS. (1)**

The Information Revolution fundamentally changed the way schools operate at the beginning of the 21st century – not only has technology facilitated improved school operations, but also is radically changing how students learn inside and outside of the classroom. ELS 609 emphasizes the role of the teacher leader in improving the school-wide technology integration and use of technology beyond the classroom to link people and resources to integrate more innovation into the school environment.

**ELS 610 DISTRIBUTED LEADERSHIP IN SCHOOLS. (1)**

ELS 610 is the study of distributed leadership research and related teacher leadership roles and responsibilities through readings, assignments, and collegial discussion. Emphasis placed on building connections between course concepts and activities and students' professional work.

**ELS 611 CURRENT ISSUES FOR EDUCATION LEADERSHIP. (1)**

ELS 611 is a study of selected issues that face school leaders and reflect differences among community citizens about who schools should serve (equity and justice), what curriculum should be taught (knowledge and literacy), and how schools should be organized and governed (environment).

**ELS 612 LEADERSHIP FOR TECHNOLOGY AND INNOVATION. (3)**

Successful implementation of innovation in schools requires broad-based leadership. ELS 612 (a) highlights current issues provoking educational innovation nationally and locally, (b) explores how innovations require students and teachers to become technologically competent, and (c) explores distributed leadership research and concepts for improving leadership practice through distributed roles and responsibilities for teacher leaders and other stakeholders.

**ELS 613 LEADERSHIP IN THE PUBLIC CONTEXT OF EDUCATION. (1)**

ELS 613 is a study of the role of teacher leader whose influence and responsibility transcends school walls to include community and civic leadership.

**ELS 614 PARTNERSHIPS FOR CLOSING ACHIEVEMENT GAPS. (1)**

ELS 614 is a study of strategies that teacher leaders may utilize for mobilizing school, community, and family resources toward eliminating achievement gaps among students.

**ELS 615 LEADERSHIP FOR RESPONSE TO INTERVENTION CLASSROOMS. (1)**

ELS 615 is a study of roles of teacher leaders in the Response to Intervention (RTI) model, which serves as both a strategy for providing assistance to children having learning difficulty, as well as a method for diagnosing learning disabilities.

**ELS 616 LEADERSHIP FOR SCHOOL AS INCLUSIVE COMMUNITY. (3)**

ELS 616 is a study of evolving perspectives of the purposes of public education, leadership within and beyond the school building to support family-community partnerships and networks, and leadership to ensure inclusive classrooms. Curriculum includes how diverse personnel ensure school-wide safety.

**ELS 617 TEACHER LEADERSHIP FOR INSTRUCTIONAL TEAMS. (1)**

ELS 617 is the study of teacher roles and responsibilities within instructional teams at classroom, school, and district levels. Emphasis is placed on concepts and procedures for creating and sustaining instructional teams, designed to support systemic inquiry and school improvement.

**ELS 618 INTRODUCTION TO LEADING ACTION RESEARCH FOR SCHOOL RENEWAL. (1)**

ELS 618 is the study of teacher roles and responsibilities within instructional teams at classroom, school, and district levels. Emphasis is placed on concepts and procedures for creating and sustaining instructional teams, designed to support systemic inquiry and school improvement.

**ELS 619 EVIDENCE-BASED DECISION MAKING. (1)**

ELS 619 is the study of teacher roles and responsibilities when analyzing evidence of student outcomes at classroom and school levels and examination of a model and tools for data analysis and team based discussions, reflection, and decision making.

**ELS 620 LEADING ACTION RESEARCH AND INQUIRY 1. (3)**

ELS 620 is the first course in a two-part sequence that presents concepts and procedures for conducting systematic inquiry to investigate phenomena in classrooms and schools to ensure learning excellence. Emphasis is placed on developing a proposal for disciplined inquiry in classrooms or schools that will be conducted in ELS 621, the second course in the sequence.

**ELS 621 LEADING ACTION RESEARCH AND INQUIRY 2. (3)**

ELS 621 is the second course in a two-part sequence in which action research proposed in ELS 620 is conducted. Emphasis is placed on appropriate use of data for making informed decisions about classroom and school practices. Prereq: Successful completion of ELS 620 or consent of instructor.

**ELS 624 LEADERSHIP PRACTICUM. (3)**

ELS 624 is a field-based practicum to explore leadership roles and responsibilities distributed within P12 schools. Students work closely with a principal and leadership team members to examine specific site issue(s) and provide recommendations for action.

**ELS 691 LEGAL PERSPECTIVES FOR TEACHERS. (1)**

This course introduces legal concerns for public school teachers. It emphasizes legal rights and responsibilities of both teachers and pupils. Course coverage includes an introduction to governance, liability, church and state, instructional issues, student rights, student discipline, student abuse, teacher rights, and teacher discipline.

## EM Engineering Mechanics

**EM 221 STATICS.** (3)  
Study of forces on bodies at rest. Vector algebra; study of force systems; equivalent force systems; distributed forces; internal forces; principles of equilibrium; application to trusses, frames and beams; friction. Prereq or concur: MA 213.

**EM 302 MECHANICS OF DEFORMABLE SOLIDS.** (3)  
A study of stress and strain in deformable solids with application primarily to linear elastic materials: stress and strain transformations; simple tension and compression of axial members; torsion of shafts; bending of beams; combined loading of members; buckling of columns. Prereq: Registration in the College of Engineering or consent of chairperson, and EM 221; prereq or concur: MA 214.

**EM 313 DYNAMICS.** (3)  
Study of the motion of bodies. Kinematics: cartesian and polar coordinate systems; normal and tangential components; translating and rotating reference frames. Kinetics of particles and rigid bodies: laws of motion; work and energy; impulse and momentum. Prereq: Registration in College of Engineering, EM 221; prereq or concur: MA 214.

## EMBA Executive Master of Business Administration

**EMBA 601 MANAGING PEOPLE.** (2)  
This course will address the central question of how to manage and motivate individuals and teams for high performance in today's organizations including the underlying fundamental and powerful concepts in organizations as open systems, individual behavior, group and social processes, and control and leadership. Prereq: Admission to joint EMBA program.

**EMBA 602 BUSINESS MODELS FOR QUANTITATIVE ANALYSIS.** (2)  
This course introduces students to quantitative techniques commonly used to make effective business decisions. It introduces tools and techniques illustrating the application of the techniques for managerial decision making. Prereq: Admission to the joint EMBA program.

**EMBA 603 ECONOMICS I.** (2)  
This course will apply economic theory to managerial decision making and analysis. Traditional tools of microeconomics will be employed to see how they can be used to evaluate practical business problems. Prereq: Admission to the joint EMBA program.

**EMBA 604 STRATEGIC ANALYSIS.** (2)  
This course provides a framework of competitive analysis and competitive advantage upon which functionally oriented courses in the program may build. It provides an overall picture of the analysis activities and decision-making situations facing a company's top management team (i.e., CEOs, general managers, division managers) focusing on top management decisions relating to the external environment and internal issues. It presents practical experience in recognizing what information is important, sifting it for relevance, and employing the knowledge for the competitive benefit of the firm. Prereq: Admission to the joint EMBA program.

**EMBA 605 ECONOMICS II.** (2)  
This course will apply economic theory to managerial decision making and analysis. It will employ many of the traditional tools of microeconomics to see how they can be used to evaluate practical business problems. Markets and market structures will be studied including competitive markets, monopoly and pricing with market power, and oligopoly, rivalry, and strategic behavior. Particular attention will be paid to the strategy of firms in the marketplace. Prereq: Admission to the joint EMBA program.

**EMBA 606 FINANCIAL ACCOUNTING.** (2)  
This course provides an overview of financial accounting information and the role of that information in the economy. It focuses on the recognition and measurement concepts underlying financial accounting, but also covers the mechanics of recording and reporting accounting information to outside parties. The first portion of the course presents an overview of the accrual accounting model, how information is presented and the mechanics of keeping track of financial accounting information. Prereq: Admission to the joint EMBA program.

**EMBA 607 BUSINESS INTELLIGENCE.** (2)  
This course is an introduction to the field of Business Intelligence (BI), a field that encompasses the use of business performance monitoring, querying/reporting, online analytical processing (OLAP), and business analytics, with particular emphasis on the latter. Prereq: Admission to the EMBA program.

**EMBA 608 MANAGERIAL ACCOUNTING.** (2)  
This course reviews the tools needed by managers to plan and control (evaluate) personnel and operations of the firm. It provides a framework for understanding when and why managers need specific types of accounting information to both facilitate their decision making and influence the decisions of their employees. Techniques covered include: product costing, activity-based costing, planning and controlling costs, budgeting, standard cost systems, new production philosophies and analytical techniques for decision making. Prereq: Admission to the EMBA program.

**EMBA 609 FINANCIAL MANAGEMENT I.** (2)  
The goal of this course is to provide an overview of modern corporate financial methods with an emphasis on practical financial decision that financial managers in the real world need to make on a regular basis. Emphasis will be placed on the investment decision (how firms should spend money). This course takes the perspective of a corporate financial manager attempting to pursue strategies that increase shareholder wealth. Prereq: Admission to the EMBA program.

**EMBA 610 MARKETING MANAGEMENT I.** (2)  
This course will help develop the skills, knowledge and experience required to critically solve marketing problems. It will rely on a mixture of lectures, applications, and cases to add well-established and proven marketing concepts and frameworks to your managerial arsenal. The course is intended to be practical and is focused on developing your ability to be an effective manager and decision maker. Prereq: Admission to the EMBA program.

**EMBA 611 FINANCIAL MANAGEMENT II.** (2)  
This course provides an overview of modern corporate financial methods with an emphasis on practical financial decisions that financial managers in the real world need to make on a regular basis. It will emphasize the financing decision (how firms optimally raise money). Topics will include cost of capital, capital structure, valuation, and issuing securities. The course will take the perspective of a corporate financial manager attempting to pursue strategies that increase shareholder wealth. Prereq: Admission to EMBA program.

**EMBA 612 MARKETING MANAGEMENT II.** (2)  
This course provides students with insight into how profitable branding strategies can be created by addressing three important questions: (1) How do you build brand equity? (2) How do you capitalize on brand equity to expand your business? (3) How can brand equity be measured? Prereq: Admission to the EMBA program.

**EMBA 613 LEADING ORGANIZATIONS.** (2)  
In this course, you will discuss theories, empirical studies, and strategies for improving your effectiveness as a leader, all within a framework designed to enhance your learning experience. Experiential learning, projects, case discussion and critical analysis will be used to help you develop an entirely unique viewpoint on what leadership is, how to be a leader. It will help you begin the process of practicing new leadership skills and how to make them habitual. As a result, you will increase your positive impact now and in the future. Prereq: Admission to the EMBA program.

**EMBA 614 MANAGING GLOBAL CHALLENGES.** (2)  
This course will familiarize students with the foundations of the global economy, current trends in the global business environment, and issues facing countries and individual firms (e.g., foreign market entry modes, global supply chain configurations, global new product development, international joint venture formation, and global competitive rivalry). It will introduce the fundamental principles of international economics, discuss positive and negative impacts of globalization on the domestic economy, labor and product markets. Prereq: Admission to the EMBA program.

**EMBA 615 OPERATIONS MANAGEMENT.** (2)  
This course addresses how to design and operate a manufacturing or service company. The underlying fundamental and powerful concepts include (1) design of a system, (2) operations of a system, and (3) measuring and controlling the performance of a system from effectiveness (e.g., quality of a product) and efficiency (e.g., cost of producing a product) viewpoints. Prereq: Admission to the EMBA program.

**EMBA 616 CORPORATE ENTREPRENEURSHIP.** (2)  
This course introduces entrepreneurship in the corporate setting. The difference between individual entrepreneurial activities and corporate entrepreneurial activities is examined. Models of entrepreneurial activities in established organizations are presented. Prereq: Admission to the EMBA program.

**EMBA 617 BUSINESS STRATEGY AND PUBLIC POLICY.** (2)  
This course will examine how public policy decisions are made at the federal and state level and how they influence business decision making. A managerial perspective is used to examine the interface between business and the external political environments in which they operate. Public policies, from tax or trade policies to regulatory policies affecting the environment, intellectual property, human resources and tort liability are discussed. Prereq: Admission to the EMBA program.

**EMBA 618 COMPLEX ORGANIZATIONAL CHANGE.** (2)  
This course examines both the content and process of complex organizational change. The first part of the course is dedicated to content issues, including an introduction to a systems view of organizations and organization structure, an examination of the role of organizational structure in creating competitive advantage, and understanding how structure and strategy need to be aligned within various environmental constraints. The second part of the course focuses on the complexity and intricacies of the change process, including working with internal and external change agents. Prereq: Admission to the EMBA program.

**EMBA 619 NEGOTIATIONS AND CONFLICT RESOLUTION.** (2)  
This course focuses on negotiation skills and making the student a more confident and judicious negotiator. By the conclusion of this course, you will have improved your daily ability to diagnose negotiation situations, strategize and plan upcoming negotiations, and engage in more fruitful negotiations when you are dealing with difficult negotiation partners. Prereq: Admission to the EMBA program.

**EMBA 620 STRATEGIC MANAGEMENT. (2)**

This course is an integrative capstone course – the only course that challenges students to study and experience sets of multifunctional problems that confront top management. The course requires students to bring together all of their learned functional skills (i.e., accounting, finance, marketing, etc.) and use them to study organizational problems within the context of hands-on-exercises/stimulations, real-world business case studies, and open discussion forums. Prereq: Admission to the EMBA program.

**EMBA 650 SPECIAL TOPICS IN BUSINESS ADMINISTRATION (Subtitle required). (2)**

This course is designed to illuminate current topics of special interest to executives in today's organizations. May be repeated a maximum of 6 credit hours when taken under separate subtitles. Prereq: Admission to the joint EMBA program.

**END Endodontics****END 820 ANTERIOR ENDODONTICS. (2)**

This is a lecture-laboratory course which is designed to introduce the student to the diagnostic terminology of pulpal and periapical disease and the techniques of endodontics in anterior teeth. Prereq: RSD 812 and RSD 814, or consent of course director.

**END 821 CLINICAL ENDODONTICS I. (1)**

In this course, students will treat two clinical endodontic cases, one of which shall be a molar. Thirty hours clinic, total. Prereq: END 820.

**END 822 POSTERIOR ENDODONTICS. (2)**

This is a lecture-laboratory course which is designed to introduce the student to the diagnostic terminology of pulpal and periapical disease and the techniques of endodontic in posterior teeth. Prereq: END 820 and RSD 824, or consent of course director.

**#END 824 PRINCIPLES OF ENDODONTICS. (1)**

This is an online course designed to introduce the student to the practice and scope of endodontics. It will prepare the student to recognize, understand, diagnose and successfully treat diseases and injuries of the pulp and periradicular tissues.

**#END 826 PRE-CLINICAL ENDODONTICS. (2)**

This is a laboratory instructional course designed to provide the student with the basic techniques involved in endodontic treatment of anterior and posterior teeth. Prereq: END 824, RSD 812 and RSD 814, or consent of course director.

**END 830 ENDODONTICS II. (1)**

This course concerns the diagnosis and treatment of endodontically related problems. Traumatic injuries, controversies in instrumentation and filling procedures, periodontic-endodontic consideration, surgical endodontics and other selected topics are discussed in depth. Prereq: END 821.

**END 831 CLINICAL ENDODONTICS II. (1)**

In this course students will treat routine endodontic cases. Prereq: END 821.

**END 841 CLINICAL ENDODONTICS III. (1)**

This course offers dental students further experience in providing endodontic treatment. Prereq: END 831 or consent of instructor.

**END 880 CLINICAL ENDODONTICS SEMINAR. (1)**

This course is designed to give a more in-depth hands-on view of some of the newest concepts in endodontics. Seminars will be presented including new concepts of instrumentation and root canal obturation. Demonstrations and hands on class participation will supplement the seminars. Note: scheduling for this course will take place outside of regularly scheduled class/clinic time. Prereq: END 830, 831, ranked in the upper half of the class, and consent of instructor.

**ENG English****ENG 098 ENGLISH FOR SPEAKERS OF OTHER LANGUAGES. (3)**

This course is a writing course designed to provide international undergraduate students with a firm basis in the rhetorical patterns of written English and in the grammatical structures and expressions associated with those patterns. It also serves as an introduction to the analysis and organization of information as found in English paragraphs and essays. Emphasis is placed upon writing beyond the sentence level. Students must attain at least a C in order to enter ENG 099. The course may be repeated up to six credits. Students cannot count this credit toward the Freshman Composition requirement or toward the graduation requirement. Lecture, five hours per week.

**ENG 100 ORIENTATION TO THE ENGLISH MAJOR. (1)**

It is strongly recommended that all incoming freshmen with a declared English major should take this course, which serves as an introduction and orientation to the benefits and requirements of majoring in English. You will learn about literary fields including American, British, and African-American literature, and Creative Writing. You will meet professors, hear about the Creative Writing Option, learn how to earn honors and do internships in English, and also hear about study abroad options. You will meet your classmates and have opportunities to get involved with extra-curricular activities in English. Most important, you will develop your own personalized four year plan. This class will put you on a track to excel and get the most out of your major. Prereq: Declared English major.

**^ENG 101 WRITING I. (3)**

A course in writing emphasizing argument. Instruction and practice in reading critically, thinking logically, responding to texts, developing research skills, writing substantial essays through systematic revision, addressing specific audiences, expressing ideas in standard and correct English. Includes grammar and mechanics review. Notes: (a) Credit not available by special examination; (b) ENG 101 and ENG 102 may not be taken concurrently.

**^NOTE: ENG 101 is no longer taught at UK. This course is a placeholder for transfer students only.** Along with ENG 102 this course can be used to partially fulfill the Composition and Communication requirements in the UK Core.

**^^ENG 102 WRITING II. (3)**

Argumentative writing. Emphasis on development of a fluent, precise, and versatile prose style. Continued instruction and practice in reading critically, thinking logically, responding to texts, developing research skills, writing substantial essays through systematic revision, addressing specific audiences, expressing ideas in standard and correct English. Prereq: ENG 101 or equivalent. Notes: (a) Credit not available by special examination; (b) ENG 101 and ENG 102 may not be taken concurrently.

**^^NOTE: ENG 102 is no longer taught at UK. This course is a placeholder for transfer students only.** Along with ENG 101 this course can be used to partially fulfill the Composition and Communication requirements in the UK Core.

**\*ENG 107 WRITING CRAFT: INTRODUCTION TO CREATIVE WRITING. (3)**

An introduction to the genres and craft of creative writing, including fiction, nonfiction, and poetry. Students will study and practice writing in various modes through composition, peer critique, and research. Lecture or lecture with discussion section. Offers credit for the UK Core requirement in Intellectual Inquiry in Arts & Creativity. Provides ENG minor credit.

**\*ENG 130 LITERARY ENCOUNTERS. (3)**

This course introduces students to literary works of various styles that deal with current subjects and creative applications. Topics vary by semester and are chosen to give a broad-based understanding of literary works, genres, creative techniques, or cultural trends (e.g., Literature and Other Art Forms; Film, Art, & Social Protest; Creative Writing, Mixed Media, & Social Media). See departmental listings for different offerings per semester. Provides ENG Major or Minor Elective credit.

**ENG 142 GLOBAL SHAKESPEARE. (3)**

Global Shakespeare will expose students to selected productions and adaptations of Shakespeare's plays by authors and acting companies from Asia, the Middle East, Africa, the Americas, and from European nations other than Great Britain. In our globally connected age, Shakespeare has crossed borders, occupying an honored place in the school curricula and cultural aspirations of many formerly colonized nations. In a post-colonial age, he has become the medium through which multiple cultures articulate their own values and enter into equal intellectual and aesthetic exchange with the English-speaking west. Students in the course will be asked to ponder what there is about Shakespeare that makes his plays such rich raw material for these encounters and exchanges. Prereq: None. Does not fulfill ENG premajor requirement or provide ENG Major Elective credit. Provides ENG minor credit.

**ENG 168 ALL THAT SPEAK OF JAZZ: AN INTELLECTUAL INQUIRY INTO JAZZ AND DEMOCRACY (3)**

This course is a hybrid cultural studies seminar and creative composition course that explores jazz theory as a philosophical artistic practice rooted in American democracy. It investigates jazz aesthetics as a literary, visual, and musical art form, and it examines theories of jazz composition as philosophical statements in direct conversation with the principles of U.S. democracy. The course also explores the philosophical and aesthetic connections of jazz literature to surrealist and existentialist artistic movements in modern and postmodern cultural contexts. Artists to be discussed include James Baldwin, Harryette Mullen, and others. The theoretical aspects of this course will demonstrate how jazz has been a source of inspiration for a variety of twentieth-century literatures and theoretical practices. The readings include selections of fiction, poetry, drama, and essays with emphasis on jazz literary modes, creative trends, and political connotations specific to African American literature and culture. (Same as AAS 168.)

**ENG 171 GLOBAL LITERATURE IN ENGLISH. (3)**

A course exploring the diversity and significance of English literature from across the world. To what extent is English now a global language, no longer the property of any national group? How has fiction contributed to the process of internationalizing English? To answer these questions and others, this course examines the idea of global citizenship and cosmopolitan English through the work of some of the language's most compelling international novelists. Lecture. Offers credit for the UK Core requirement in Global Citizenship. Does not fulfill ENG premajor requirement or provide ENG Major Elective credit. Provides ENG minor credit. Credit will not be given to students who already have credit for ENG 181.

**ENG 180 GREAT MOVIES (Subtitle required). (3)**

A course introducing students to films of various genres and styles, from both historical and contemporary filmmakers, investigating a particular issue or theme. Topics vary by semester and are chosen by faculty to give a broad-based understanding of important cinematic works, trends, and the creative processes behind this important, collaborative artform. As with all Arts and Creativity classes, this class will require students to produce an artistic artifact. Intended as a general humanities course for non-majors. Lecture and section. See departmental listings for different offerings per semester. Does not fulfill ENG premajor requirement or provide ENG Major Elective credit. Fulfills the UK Core requirement in Arts and Creativity.

**ENG 191 LITERATURE AND THE ARTS OF CITIZENSHIP. (3)**

A survey and investigation of contemporary literature of modern American citizenship, with an emphasis on questions of race, religion, gender, sexuality, and socioeconomic class. Lecture. Offers credit for the UK Core requirements in either U.S. Citizenship or Intellectual Inquiry in the Humanities. Does not fulfill ENG premajor requirement or ENG Major Elective credit. Provides ENG minor credit.

**ENG 207 BEGINNING WORKSHOP IN CREATIVE WRITING (Subtitle required). (3)**

A beginning workshop in the craft of writing, teaching students how to read critically and how to revise work in progress. The students provide an audience for each others' work. Exercises involve practice in aspects of craft and promote experimentation with different forms, subjects, and approaches; outside reading provides models and inspiration. May be repeated under different subtitles to a maximum of 6 credits. Does not fulfill ENG premajor requirement. Provides ENG Major Elective credit and ENG minor credit. Required for ENG Creative Writing Option.

**\*ENG 209 THE STRUCTURE AND USE OF ENGLISH. (3)**

A general survey of the history, structure, and use of the English language. Topics investigated include: the history of the English language; elements of the structure of English; the distinctive characteristics of spoken and written English and the varied registers of English; the diversity of the English lexicon; regional and social dialects of English and their representation in literature; and the ideological dimensions of English language use, especially those relating to social and political issues and controversies. Offers UK Core credit for Intellectual Inquiry in the Humanities. Provides ENG minor credit. (Same as LIN 209.)

**ENG 210 HISTORY OF THE ENGLISH LANGUAGE. (3)**

A survey of the historical development of English from its Indo-European origins to the present. Includes an investigation of the principal changes which have affected English phonology, morphology, syntax, semantics, and vocabulary, and of the ways in which these changes are reflected in contemporary English usage; and an examination of the socio-historical factors that have shaped the evolution of the English language. (Same as LIN 210.)

**ENG 221 INTRODUCTION TO LINGUISTICS: THEORETICAL FOUNDATIONS AND ANALYSIS. (3)**

First of two courses offered in the introductory linguistics sequence, designed for majors and minors in Linguistics. Provides an intense and thorough introduction to the fundamental concepts of the field, including but not limited to: phonetics, phonology, morphology, syntax, and semantics. May be of use to students in other disciplines. Prerequisite for most 500 level LIN courses. Prereq: This course is primarily designed for Linguistics major and minor students, but it is also suitable for students pursuing a major in the following disciplines: English, Modern and Classical Languages, and Communication Science Disorders, or consent of instructor. (Same as LIN 221.)

**ENG 230 INTRODUCTION TO LITERATURE (Subtitle required). (3)**

An introduction to literary analysis through close reading and argumentative writing. The course involves studying selected texts from several genres and investigating a unified theme or set of topics indicated in the subtitle. Students will learn how to read closely, how to relate texts to contexts, and how to use basic literary terms and concepts. Attention will be paid to student writing, particularly to devising a thesis, crafting an argument, and learning how to use supporting evidence. See departmental listings for different offerings with different subtitles each semester. Offers UK Core credit for Intellectual Inquiry in the Humanities. Fulfills ENG premajor requirement. Provides ENG minor credit. Prereq: Graduation Requirement Course – credit is awarded to students meeting the GWR prerequisites.

**ENG 241 SURVEY OF BRITISH LITERATURE I. (3)**

A survey of British literature from the Anglo-Saxon period to the later seventeenth century, with emphasis on different genres, periods, and cultural characteristics of the early English literary tradition. Texts and authors covered may include *Beowulf* and Old English elegiac poetry; Middle English poetry and selections from Geoffrey Chaucer's *Canterbury Tales*; Renaissance lyrics, sonnets, and narrative poetry; the drama of Shakespeare; selections from John Milton's *Paradise Lost*; and more. Lecture. Fulfills ENG major Historical Survey Requirement and Early Period requirement. Provides ENG minor credit. Credit will not be given to students who already have credit for ENG 331.

**ENG 242 SURVEY OF BRITISH LITERATURE II. (3)**

A survey of British literature from the seventeenth century to the present, with emphasis on different genres, periods, and cultural characteristics of the later English literary tradition. Authors covered may include the Augustan poetry of John Dryden and Alexander Pope; the early and later Romantic movements; novelists and poets of the Victorian period such as Charles Dickens, Alfred Tennyson, and Elizabeth B. Browning; the early twentieth-century Modernism of Virginia Woolf and T.S. Eliot; and more. Lecture or lecture with discussion. Fulfills ENG major Historical Survey Requirement. Provides ENG minor credit. Credit will not be given to students who already have credit for ENG 332.

**ENG 251 SURVEY OF AMERICAN LITERATURE I. (3)**

A survey of American literature from its colonial origins to the Civil War, with emphasis on different genres, periods, and cultural characteristics of the American Colonies and antebellum United States. The course explores both the social conditions in which authors lived and wrote – such as conflicts over land with Native Americans, slavery, and the emergence of women's rights – as well as the key developments in literary form during this period, such as the rise of the novel, the slave narrative, and the changing shape of poetry. Texts and authors covered may include Susanna Rowson, Herman Melville's *Moby Dick*, Frederick Douglass' *Narrative*, short stories by Edgar Allen Poe, the poetry of Walt Whitman and Emily Dickinson, and more. Lecture or lecture with discussion. Fulfills ENG major Historical Survey Requirement and Early Period requirement. Provides ENG minor credit. Credit will not be given to students who already have credit for ENG 334.

**ENG 252 SURVEY OF AMERICAN LITERATURE II. (3)**

A survey of American literature from the Civil War to the present, with an emphasis on different genres, periods, and cultural characteristics of later periods in U.S. history. The course explores the changing social conditions in which American literature was produced – such as the Roaring 20's, the Cold War, and the upheaval of the 1960's – and several key literary movements, such as the Harlem Renaissance, Modernism, and Postmodernism. Texts and authors covered may include Edith Wharton's *House of Mirth*, Nella Larsen's *Quicksand*, Ernest Hemingway, Toni Morrison, the poetry of Marianne Moore and Elizabeth Bishop, and more. Lecture or lecture and discussion. Fulfills ENG major Historical Survey Requirement. Provides ENG minor credit. Credit will not be given to students who already have credit for ENG 335.

**\*ENG 260 INTRODUCTION TO BLACK WRITERS. (3)**

An introduction to written and oral works by Black authors of Africa, the Caribbean, and the United States. The course includes writers such as Chinua Achebe (Africa), Wilson Harris (Caribbean), and Toni Morrison (USA), as well as others from the diverse field of literature written by African-American authors and authors of color worldwide. Attention will be paid to student writing, particularly to devising a thesis, crafting an argument, and learning how to use supporting evidence. See departmental listings for different offerings per semester. Offers UK Core credit for Intellectual Inquiry in the Humanities. Fulfills ENG premajor requirement. Can be taken for ENG Major Elective credit. Provides ENG minor credit. Credit will not be given to students who already have credit for ENG 264. (Same as AAS 264.)

**ENG 265 SURVEY OF AFRICAN-AMERICAN LITERATURE I. (3)**

A survey of African-American literature from the mid-eighteenth century to Reconstruction and after, with emphasis on selected genres, periods, and thematic characteristics of the early African-American cultural and literary experience. Topics include colonialism and abolitionism; early black aesthetics, narratives of enslavement, and drama, novels, and poetry. Authors may include Jupiter Hammon, Phillis Wheatley, William Wells Brown, George Moses Horton, Martin Delaney, Frederick Douglass, Harriet Wilson, Ellen Craft, and more. Lecture. Fulfills ENG major Historical Survey Requirement. Provides ENG minor credit.

**ENG 266 SURVEY OF AFRICAN-AMERICAN LITERATURE II. (3)**

A survey of African-American literature from post-Reconstruction to the Black Arts Movement and beyond, with emphasis on selected genres, periods, and thematic characteristics of the later African-American cultural and literary experience to the present day. Topics include literature of the Reconstruction; poetry and dialect poetry, the "plantation tradition" and black musical traditions; Black Modernism and the Harlem Renaissance; the Black Power movement and Civil Rights. Authors may include Pauline Hopkins, Frances Harper, Sutton Griggs, Oscar Micheaux, W.E.B. DuBois, Langston Hughes, Countee Cullen, Zora Neale Hurston, Richard Wright, Gwendolyn Brooks, and more. Lecture. Fulfills ENG major Historical Survey Requirement. Provides ENG minor credit.

**ENG 271 THE BIBLE AS LITERATURE. (3)**

A course investigating selections from the Christian Bible (Old and New Testaments) in English, and from related sacred texts, as literary and cultural documents of great significance and literary achievement. Emphasis is on the careful analysis of literary forms and themes within a broadly historical and non-denominational context. Lecture. Does not fulfill ENG premajor requirement or provide ENG Major Elective credit. Provides ENG minor credit.

**ENG 274 CLASSICS OF WESTERN LITERATURE. (3)**

A study of selected works by major Western authors from the Bible and ancient Greek literature through the Renaissance and Enlightenment periods, and later. Emphasis is on the study of genres, themes, characters, and literary forms that have had an enduring presence in Western culture. Texts may include Homer's *Iliad* and *Odyssey*; selections from the Old Testament; classical Greek drama; Virgil's *Aeneid*; Dante's *Divine Comedy*; Cervantes' *Don Quixote*; and others. Lecture. Does not fulfill ENG premajor requirement or provide ENG Major Elective credit. Provides ENG minor credit.

**ENG 280 INTRODUCTION TO FILM. (3)**

An introduction to the study of films as narrative art and cultural documents. The course involves viewing and analyzing films from different genres and investigating a unified theme or set of topics. Students will learn how to view films closely, how to relate films to their contexts, and how to employ the basic terms and concepts of film analysis. Attention will be paid to student writing, particularly to devising a thesis, crafting an argument, and learning how to use supporting evidence. Viewing films outside of class is required. See departmental listings for different offerings per semester. Offers UK Core credit for Intellectual Inquiry in the Humanities. Does not fulfill ENG premajor requirement. Can be taken for ENG Major Elective credit. Provides ENG minor credit. Credit will not be given to students who already have credit for ENG 281. Prereq: Graduation Writing Requirement Course – credit is awarded to students meeting the GWR prerequisite.

**ENG 284 HISTORY OF FILM I. (3)**

An introduction to the history of film as art and industry from the invention of the moving picture to World War II. Emphasis is on the artistic development of the silent film in America and Europe, the rise of the American studio system, and the emergence of sound in film in the 1930's. Filmmakers may include the Lumiere brothers, Georges Meliès, Buster Keaton, D. W. Griffith, Charlie Chaplin, King Vidor, Alan Crosland, Leni Riefenstahl, and others. Lecture. Viewing films outside of class is required. Does not fulfill Historical Survey requirement. Can be taken for ENG Major Elective requirement. Provides ENG minor credit. Credit will not be given to students who already have credit for ENG 381.

**ENG 285 HISTORY OF FILM II. (3)**

A chronological survey of narrative film (primarily American) from World War II to the present, concentrating on both canonical films (such as Hitchcock's *Vertigo*) and often overlooked examples of cult, low budget, and independent film. Many paradigms of the major genres are included: musical, film noir, gangster, screwball comedy, horror and science fiction, western, and more. This survey also examines more idiosyncratic work of auteur directors (Nicholas Ray, Jane Campion), films capturing a specific sociopolitical moment (e.g. Spike Lee's *Do the Right Thing*), and larger cinematic movements such as Italian neo-realism, French New Wave cinema, and the New Hollywood of the 70's. Lecture. Viewing films outside of class is required. Does not fulfill ENG Historical Survey requirement. Can be taken for ENG Major Elective requirement. Provides ENG minor credit. Credit will not be given to students who already have credit for ENG 382.

**\*ENG 290 INTRODUCTION TO WOMEN'S LITERATURE. (3)**

An introduction to the rich traditions of women's writing, focusing on some important issues and representative examples. Students will read canonical and non-canonical works, discuss continuities and differences among women writers, and master some of the concepts of gender studies. Attention will be paid to student writing, particularly to devising a thesis, crafting an argument, and learning how to use supporting evidence. See departmental listings for different offerings per semester. Offers UK Core credit for Intellectual Inquiry in the Humanities. Fulfills ENG premajor requirement. Provides ENG Major or Minor Elective credit. Credit will not be given to students who already have credit for ENG 234.

**ENG 301 STYLE FOR WRITERS. (3)**

This course is designed for those who wish to improve their own writing style or the style of others. While the course may include some account of historical changes in prose style and require some stylistic analysis of literary texts, the emphasis is on editing contemporary prose, both in exercises and in the students' own writing. Students will learn and practice principles such as economy, coordination, subordination, precision, parallelism, balance, coherence, rhythm, clarity, and grace. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent. (Same as WRD 301.)

**ENG 307 SPECIAL TOPICS IN CREATIVE WRITING (Subtitle required). (3)**

An exploratory creative writing class (craft-based, cross-genre, or theme-based), this course is suitable for prospective English teachers, for those practicing creative writing who wish to explore cross-genre work, or for students with other majors who are interested in the given topic. May be repeated under different subtitles to a maximum of 6 credits. Prereq: Completion of Composition and Communication requirement and consent of instructor.

**ENG 310 AMERICAN ENGLISH. (3)**

The study of the varieties of modern American English: regional, social, and ethnic varieties, gender differences in communication, creoles and pidgins, stylistic variation. History and methods of American dialect study. No prerequisites. Provides ENG Major Elective credit and ENG minor credit. (Same as LIN 310.)

**ENG 330 TEXT AND CONTEXT (Subtitle required). (3)**

The core course in the English Major focusing on the close reading and analysis of a single major literary text, or a focused set of texts, in historical and critical context. Students will develop analytical and interpretive skills that deepen their historical and conceptual understanding of literature, as well as their skills of critical reading, writing, and presentation. See departmental listings for different offerings per semester. ENG major and minor requirement. Repeatable for up to six hours of credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent, and either ENG 107, or ENG 209, or ENG 230. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

**ENG 337 LITERATURE AND GENRE: (Subtitle required). (3)**

An advanced course exploring one or two literary genres or formal categories. It focuses on analyzing the parameters and practices of a broad generic category (e.g. the short story; lyric poetry; epic and mock-epic; autobiography; the bildungsroman; protest literature) or a genre specific to a particular period (e.g. mid-century American crime novels; Elizabethan songs and sonnets; Victorian drama). May be repeated up to 9 hours under different subtitles. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent. Provides ENG Major Elective credit and ENG minor credit. May fulfill ENG Early Period requirement depending on the course: see departmental listings for different offerings per semester.

**ENG 338 TOPICS IN LITERATURE (Subtitle required). (3)**

An advanced course exploring a focused literary topic across various periods, genres, styles, and media. It focuses on the creative connections in literature unifying a shared set of themes or topical concerns (e.g., narratives of travel; the family through history; stories about work and play; ethnic identities; nature and the natural world). Provides ENG Major Elective credit and ENG minor credit. May be repeated to a maximum of 9 hours under different subtitles. May fulfill ENG Early Period requirement depending on the course: see departmental listings for different offerings per semester. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent.

**ENG 339 AUTHOR STUDIES (Subtitle required). (3)**

An advanced course exploring the works of a single important author of English literature, or literature in translation, from any period or nationality. It focuses on developing a strong familiarity with the oeuvre of a specific important writer. Provides ENG Major Elective credit and ENG minor credit. May be repeated to a maximum of 9 hours under different subtitles. May fulfill ENG Early Period requirement depending on the course: see departmental listings for different offerings per semester. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent.

**ENG 341 CHAUCER AND HIS CONTEMPORARIES. (3)**

A course covering medieval English literature from around the years 1350-1450 and centering on the works of Geoffrey Chaucer (c. 1340-1400), particularly his early dream-visions and *The Canterbury Tales*. Other authors and texts may include William Langland's *Piers Plowman*; the poetry of John Gower; *Sir Gawain and the Green Knight* and the works of the Pearl-Poet; Thomas Hoccleve; Margery Kempe; anonymous romances and Arthurian narratives; and more. Topics include courtly love and chivalry; Christian spirituality; women and gender roles; feudal politics and rebellion. Fulfills the ENG Early Period requirement. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent.

**ENG 342 SHAKESPEARE. (3)**

A course offering advanced study of a representative selection of Shakespeare's plays across the length of his career. It situates Shakespeare within Renaissance theatre culture: the playhouses and audiences he wrote for, the structure of his acting company, and the patronage system that supported their business. Students will learn how his plays departed from received ideas about dramatic genres and in some instances set new standards for how certain types of plays should look and feel. Students will also gain a sense of how interpretations of individual plays have changed over time and how later periods and audiences continue to make Shakespeare their own. Fulfills the ENG Early Period requirement. Provides ENG Major Elective credit and ENG minor credit. Credit will not be given to students who already have credit for ENG 340. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent.

**ENG 343 RENAISSANCE DRAMA AND SOCIETY. (3)**

This course studies Elizabethan and Jacobean drama by Shakespeare's predecessors and contemporaries. Although most people identify Shakespeare as the representative Renaissance playwright, he was only one member of a distinguished generation. Students will encounter a variety of popular dramatic genres in which Shakespeare either did not work or that he heavily adapted to his own ends: Turk plays, city comedy, unperformed "closet drama," revenge tragedy, pastoral. Readings may include playwrights such as Thomas Kyd, Christopher Marlowe, Elizabeth Cary, Lady Mary Wroth, Thomas Middleton, John Webster, and others; and topics such as tragedy and comedy, sex and romance, urban life and the value of money, and racial and religious difference. Fulfills the ENG Early Period requirement. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent.

**ENG 345 BRITISH POETRY. (3)**

This course provides a selective encounter with the poetry of the British tradition. Texts and topics may be drawn from the later Renaissance (16th c.) up through the present day, exploring the depth, history, and continued vitality of British poetry. Particular attention is paid to the formal aspects and skills of reading poetry in different periods and styles. Reading may include authors and texts such as the sonnets and songs of Philip Sidney and Shakespeare; the verse of John Milton and other seventeenth-century poets; Alexander Pope and his contemporaries; Victorians and pre-Raphaelites such as E. B. Browning and Christina Rossetti; Modernists such as Ezra Pound, W. B. Yeats, and H.D.; and contemporary British, Irish, and Scottish poets. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent.

**ENG 347 THE RISE OF THE BRITISH NOVEL. (3)**

What is the novel and how did it begin? Why did it develop at a specific moment in history and what counted as fiction before that time? What makes one novel "literature" and another "trash"? In this course we explore the early decades of the novel to better understand prose fiction and how it came to be a dominant genre in English literature. Readings can include works by Daniel Defoe, Eliza Haywood, Samuel Richardson, Henry Fielding, Laurence Sterne, Frances Burney, Mary Shelley, Jane Austen (including selected cinematic adaptations), and more. Topics can include the novel in history and the history of the novel; the evolving cultural practices of novel-reading; eighteenth-century fiction and contemporary popular culture. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent.

**ENG 348 VICTORIAN NOVELS AND THEIR WORLDS. (3)**

This course examines the development of the novel as a literary and cultural form at the moment of its greatest impact during the Victorian era (1837-1901). It focuses on the emergence of the realist novel and other modes that intersected and competed with it (e.g. the gothic, the supernatural, sensation fiction, the New Woman novel), to explore the complex ways that represented different realities. The course also addresses contemporary issues such as new ideas about human psychology; gender, domesticity, and The Woman Question; social status and class conflict; science and religion; race and empire. Authors may include Jane Austen, Mary Shelley, Charles Dickens, Mary Elizabeth Braddon, Oscar Wilde, Olive Schreiner, and more. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent.

**ENG 349 MODERNISM. (3)**

A course on Modernist Literature: British, Irish and American writing from the first half of the twentieth century. Virginia Woolf once tried to explain modernism by claiming, "On or about December 1910 human character changed." Much of the writing of the period might be read as an attempt to record and understand that change. Texts include the fiction, poetry, drama, and essays from writers such as Woolf, James Joyce, T.S. Eliot, W.B. Yeats, Ezra Pound, Wyndham Lewis and Gertrude Stein. The literature of the period will be examined in relation to various contexts and backgrounds, including the experience of war, the breakup of empire, and other major events and upheavals. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent.

**ENG 352 AMERICAN LITERATURE AND CULTURES TO 1900. (3)**

This course focuses on selected literary movements and their relationships to American culture up through 1900. Authors studied may include Susanna Rowson, Nathaniel Hawthorne, Herman Melville, Walt Whitman, Harriet Jacobs, and Henry James. Topics may include American imperialism, slavery and abolition, the rise of the historical novel, Sentimentalism, Romanticism, and the emergence of psychological realism. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent.

**ENG 353 AMERICAN LITERATURE AND CULTURES POST-1900. (3)**

This course focuses on selected literary movements and their relationships to American culture since 1900. Authors studied may include Edith Wharton, F. Scott Fitzgerald, Allen Ginsberg, Ralph Ellison, Toni Morrison, Thomas Pynchon, and others. Topics may include the literatures of World War I, the Cold War, the Beat Generation, the New Social Movements of the 1960's, Postmodernism, and more. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent.

**ENG 355 AMERICAN POETIC TRADITIONS. (3)**

A course investigating contrasting traditions of American poetry from the nineteenth and twentieth centuries. Several poets are examined within historical and literary contexts, and their poems examined in detail through close reading, with attention paid in particular to stylistic/formal characteristics. Poets studied may include Walt Whitman, Emily Dickinson, William Carlos Williams, Wallace Stevens, and others. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent.

**ENG 357 CONTEMPORARY AMERICAN LITERATURE. (3)**

A course examining contemporary American fiction primarily since the 1970s and 1980s, as well as the diverse categories by which its critics and readers have sought to identify it: minimalism, hyperrealism, postmodernism, cyberpunk, the magical real. The class investigates contemporary authors in order to generate the key terms and problems for approaching work in diverse current genres, from science fiction and graphic novels to historical novels and self-consciously "literary" fiction. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent.

**ENG 359 THE KENTUCKY LITERARY HERITAGE. (3)**

A course exploring the rich literary heritage of the Commonwealth of Kentucky and the greater Appalachian region, surveying its local history and diversity as well as its wider significance for American art. Authors covered may include early figures such as William Wells Brown, the first African-American novelist, and John Fox Jr., the first million-selling novelist; Robert Penn Warren, first Poet Laureate of the United States and author of *All the King's Men*; Elizabeth Madox Roberts; Harriette Arnow, winner of the National Book Award in 1954 for *The Dollmaker*; counter-cultural writers of the 60's and 70's such as Hunter S. Thompson, Gurney Norman, and Ed McClanahan; contemporary Kentucky writers such as Wendell Berry, Erik Reece, Bobbie Ann Mason, Sara Jeter Naslund, C. E. Morgan, Kim Edwards, and Gayle Jones; and contemporary award-winning poets such as Frank X Walker, Nikky Finney, and Maurice Manning. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent.

**ENG 361 EARLY AFRICAN-AMERICAN LITERATURE. (3)**

This course investigates selected writers of the early African-American tradition, primarily from the mid-eighteenth century to post-Reconstruction. Inquiry focuses on the literary modes and genres that were central to the creation of a distinct African-American literary voice and canon, including slave narratives, folklore, poetry, drama, and more. Authors can include Phyllis Wheatley, Frederick Douglass, Harriet Jacobs, William Wells Brown, Frances Harper, Charles Chesnut, Martin Delaney, Sojourner Truth, and others. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent. ENG 260, 265 or 266 are recommended but not required.

**ENG 362 FLIGHTS TO FREEDOM: LITERATURE OF THE GREAT BLACK MIGRATIONS. (3)**

Between 1910 and 1930 more than one million African Americans migrated from the rural South to the urban North. This course focuses on the development of African-American migration narratives from the slave era to the contemporary moment. It examines literary, musical, artistic, and journalistic representations of the Great Migrations that capture the experiences of African-Americans as they moved not only from the South to the North, but also from the South to the Midwest and the West in pursuit of better economic opportunities and political freedom. Readings are drawn from writers such as William and Ellen Craft, Frederick Douglass, Harriet Jacobs, Paul Laurence Dunbar, James Weldon Johnson, Jean Toomer, Nella Larsen, Ann Petry, Dorothy West, Pearl Cleage, August Wilson, Toni Morrison, Ishmael Reed, Colson Whitehead, and others. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent. ENG 260, 265, or 266 are recommended but not required.

**ENG 368 CONTEMPORARY AFRICAN-AMERICAN VOICES. (3)**

Encompassing an array of genres and forms, this course examines black culture, literature, and performance from mid-20th century to present. It engages aesthetic, critical, and political issues related to seminal periods such as the Black Arts Movement of 1960's, the Third Renaissance of 1980's-90's, and the ascent of the first U.S. president of African descent. This course examines how forms of performance such as folklore and work songs, the blues, jazz, and rap, all shape cultural and literary production. Authors may include Lorraine Hansberry, Ernest Gaines, Gloria Naylor, Ice Cube, Cornell West, Marlon Riggs, Tupac, India Arie, Percival Everett, Nikky Finney, Natasha Trethewey, Barack Obama, and others. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent.

**ENG 369 AFRICAN AMERICAN WOMEN'S WRITING. (3)**

This course analyzes the literary and visual representation of black women from the nineteenth to the twenty-first century. It explores how selected writers, working across different genres, render black female characters in ways that perpetuate, contest, or subvert stereotypical images of black women. Texts and authors may include Harriet Jacobs' *Incidents in the Life of a Slave Girl*, Frances Harper's *Trial and Triumph*, Nella Larsen's *Zora Neale Hurston*, Gwendolyn Brooks' *Maud Martha* (1953), Toni Cade Bambara's *Gorilla, My Love* (1972), Toni Morrison's *Sula* (1973), and contemporary authors such as Ann Allen Shockley, Gayl Jones, Nikky Finney, and others. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent.

**ENG 370 LITERATURE ACROSS BORDERS. (3)**

A course examining literature as a product of multiple regional, national, and international contexts. How do texts, ideas, goods, and people move across borders? How are identities and concepts produced through transnational dialogue and exchange? Possible areas of study include transatlantic political or literary movements, border studies, multinational literatures, or literatures of migration and diaspora. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent.

**ENG 380 FILM AND GENRE (Subtitle required). (3)**

An advanced course exploring one or two film genres, styles, or formal categories. It focuses on analyzing the parameters and practices of a broad generic category (e.g. gangster films; documentaries; biographies; war films) or a genre specific to a particular period (e.g. early silent films; twentieth-century horror films). Viewing films outside of class is required. See departmental listings for different offerings per semester. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent. ENG 280, 284, or 285 are recommended but not required.

**ENG 384 LITERATURE AND FILM. (3)**

This course explores the relationship between two creative traditions, literature and film, focusing on film adaptations of literary works for the screen. Subjects can include the adaptation of works by a particular writer such as Shakespeare or Jane Austen, or it may range more widely among the thousands of innovative cinematic reinventions of literary texts, e.g. Richardson's *Tom Jones*, Altman's *Short Cuts*. In some semesters the course may focus on a particular topic or genre and its treatment in both literary and cinematic texts, or on a particular moment when cinema and literary writers exerted a strong mutual influence (such as Hollywood in the 1920's). Viewing films outside of class is required. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent. ENG 280, 284, or 285 are recommended but not required.

**ENG 391 LITERARY THEORY. (3)**

Since the 1940's "literary theory" has emerged as a vibrant and vital aspect of literary studies. The term covers a wide range of formal, historical, and critical approaches to literature and culture that have changed the ways we read. This course investigates selected trends and schools of modern literary theory in diverse texts and contexts. These can include formalism, Practical Criticism, and the New Criticism; French Structuralism and the various modes of post-structuralism (Semiotics, Deconstruction, Reader-response, Speech-act theory); historicism and the New Historicism; as well as broader modes of cultural critique such as Feminism, Marxism, Critical Theory and the Frankfurt School, Post-colonialism, Critical Race Theory, and more. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent.

**ENG 395 INDEPENDENT WORK.****(1-3)**

For undergraduate majors in English with high standing. Students pursue an independent course of study, tutorial, or directed project under the guidance of a faculty member, with appropriate assessment and grading (e.g., term paper(s), examinations, final project). Projects are generally proposed and arranged by students themselves, reflecting individual interests and goals. Limited enrollment. Prereq: ENG major with a major GPA of 3.0 or above; prior permission of faculty advisor and ENG chairperson; approved Learning Contract. May be repeated to a maximum of 6 credits. Contact the Director of Undergraduate Studies for information. Provides ENG Major Elective credit.

**ENG 399 INTERNSHIP IN ENGLISH-RELATED WORK EXPERIENCE.****(1-3)**

The Department of English internship is available for qualified students to receive academic credit toward the Bachelor of Arts or Bachelor of Science in English through applied and practical experience with a variety of private and public entities, including but not limited to the University Press of Kentucky. The student will identify a field-, community-based, practical or applied educational experience and locate a sponsor to host their internship, which will be supervised by both a responsible person on site and by an English Dept. faculty member. The internship will provide supervised professional experience in public and private sector positions and is intended to introduce students to the skills and working environments of careers for graduates of the English Dept. Students should consult with an English faculty member in advance of registering for this class. A learning contract must be completed by the student, the faculty supervisor, and the on-site internship supervisor, then filed with the English Dept.'s Director of Undergraduate Studies (DUS) in order to receive credit for this course. Credits: 1-3 credit hours, depending on the time required and nature of the internship. Approximately 10 hours a week of internship work equals three credit hours. At midterm, the faculty and on-site supervisors will communicate about the student's progress so that the faculty member can submit a midterm grade. English 399 will be graded only on a pass-fail basis. Repeatable for a total of up to 6 credit hours. Prereq: To be eligible for the internship, students must (1) be sophomores, juniors or seniors, and (2) have completed both parts of the CCR/composition and communication requirement.

**ENG 401 SPECIAL TOPICS IN WRITING (Subtitle required).****(3)**

Studies of special topics in writing, in areas such as literary nonfiction (essays), responding to literature, cultural critique, and composing law and justice. Topics announced the preceding semester. May be repeated under different subtitles to a maximum of six credits. Does not fulfill ENG major 400-level course requirement. Provides ENG Major Elective credit and ENG minor credit. Prereq: Completion of UK Core Composition and Communication I-II requirement or equivalent. (Same as WRD 401.)

**ENG 405 EDITING ENGLISH PROSE.****(3)**

This course is designed for students interested in the basics of editing and publishing and offers instruction and extensive practice in editing and revising both the student's own writing and the prose works of others. In addition to learning techniques of revision, verification of sources, and preparation of manuscripts, students will be expected to learn about the editing profession generally and to follow trends in editing and publishing. Not for students with writing deficiencies. Does not fulfill ENG Major 400-level course requirement. Provides ENG Major Elective credit and ENG Minor credit. Prereq: WRD 301, or WRD 306, or consent of instructor. (Same as WRD 405.)

**ENG 407 INTERMEDIATE WORKSHOP IN CREATIVE WRITING (Subtitle required).****(3)**

Continued studies in the writer's craft, focusing on student work but with increased emphasis on outside reading. Areas of workshop practice include Poetry, Fiction, and Creative Non-Fiction. Prereq: ENG 207 in the same genre or consent of instructor. May be repeated to a maximum of 9 credits. Provides ENG Major Elective credit and ENG minor credit. Can count only once for ENG Major 400-level course requirement. Required for ENG Creative Writing Option.

**ENG 425 ENVIRONMENTAL WRITING.****(3)**

Students will consider the way writers address environmental issues by exploring various forms of environmental writing, from personal narrative to literary nonfiction to advocacy. Students will be required to take a mandatory day long field trip to UK's Robinson Forest. All students must participate in this field trip. Prereq: Completion of Composition and Communication requirement or consent of instructor.

**ENG 440G STUDIES IN BRITISH LITERATURE: (Subtitle required).****(3)**

An advanced British Literature course on a period, a theme, a genre, or one or more authors. See departmental listings for different offerings per semester. May be repeated to a maximum of 9 hours under different subtitles. Prereq: ENG 330 Text and Context or consent of the instructor. Fulfills ENG Major 400-level course requirement. Provides ENG Major Elective credit and ENG minor credit.

**ENG 450G STUDIES IN AMERICAN LITERATURE: (Subtitle required).****(3)**

An advanced American Literature course on a period, a theme, a genre, or one or more authors. See departmental listings for different offerings per semester. May be repeated to a maximum of 9 hours under different subtitles. Prereq: ENG 330 Text and Context or consent of the instructor. Fulfills ENG Major 400-level course requirement. Provides ENG Major Elective credit.

**ENG 460G STUDIES IN AFRICAN-AMERICAN LITERATURE:****(Subtitle required).****(3)**

An advanced African-American literature course on a period, a theme, a genre, or one or more authors. See departmental listings for different offerings per semester. May be repeated to a maximum of 9 hours under different subtitles. Prereq: ENG 330 Text and Context or consent of the instructor. Fulfills ENG Major 400-level course requirement. Provides ENG Major Elective credit and ENG minor credit.

**ENG 470G COMPARATIVE AND TRANSNATIONAL****STUDIES IN LITERATURE: (Subtitle required).****(3)**

An advanced literature course focusing on comparative or transnational periods, themes, genres, national or ethnic traditions, or one or more authors. Possible areas of study include transatlantic connections, diasporic communities, or comparisons between English language authors and foreign authors in translation. See departmental listings for different offerings per semester. May be repeated to a maximum of 9 hours under different subtitles. Prereq: ENG 330 Text and Context or consent of the instructor. Fulfills ENG Major 400-level course requirement. Provides ENG Major Elective credit and ENG minor credit.

**ENG 480G STUDIES IN FILM (Subtitle required).****(3)**

An advanced course in the history, analysis, criticism, and theory of film. Viewing of films outside of class is required. See departmental listings for different offerings per semester. May be repeated to a maximum of 9 hours under different subtitles. Prereq: ENG 330 Text and Context or consent of the instructor. Fulfills ENG Major 400-level course requirement. ENG 280 strongly recommended. Provides ENG Major Elective credit and ENG minor credit.

**ENG 490G STUDIES IN LITERATURE AND GENDER:****(Subtitle required).****(3)**

An advanced course focusing on any aspect of gender in literary studies, such as gender and genre, gender issues in a particular literary period, masculinity, minority women writers, or feminist literary theory. See departmental listings for different offerings per semester. May be repeated to a maximum of 9 hours under different subtitles. Prereq: ENG 330 Text and Context or consent of the instructor. Fulfills ENG Major 400-level course requirement. Provides ENG Major Elective credit and ENG minor credit.

**ENG 491G STUDIES IN THEORY: (Subtitle required).****(3)**

An advanced course on any aspect of literary or critical theory, in relation to selected texts. See departmental listings for different offerings per semester. May be repeated to a maximum of 9 hours under different subtitles. Prereq: ENG 330 Text and Context or consent of the instructor. Fulfills ENG Major 400-level course requirement. Provides ENG Major Elective credit and ENG minor credit.

**ENG 492G CULTURAL STUDIES: (Subtitle required).****(3)**

An advanced course on any aspect of cultural studies, in relation to selected texts. See departmental listings for different offerings per semester. May be repeated to a maximum of 9 hours under different subtitles. Prereq: ENG 330 Text and Context or consent of the instructor. Fulfills ENG Major 400-level course requirement. Provides ENG Major Elective credit and ENG minor credit.

**ENG 495 MAJOR HONORS SEMINAR (Subtitle required).****(3)**

An advanced undergraduate seminar in literature, film, or cultural study. Honors seminar topics will be announced the preceding year. Required for graduation with Departmental Honors in English. Enrollment limited to junior and senior ENG majors. May be repeated up to 9 hours under different subtitles. Fulfills ENG Major 400-level course requirement. Provides ENG Major Elective credit. Prereq: ENG major; completion of premajor requirements and ENG 330; ENG major GPA of 3.5 or above. Enrollment limited to junior and senior ENG majors.

**#ENG 502 TECHNOLOGY IN LITERATURE AND FILM.****(3)**

This course will explore one of the most popular storylines in fiction and film, and one that is relevant to life throughout our history: humans and their relationships to machines and technology. Literature and cinema have long provided a perfect medium for telling stories about such relationships, for exploring how they intersect with and shape our lives, and for documenting how this has changed over time. Credit for this course can be applied to the certificate in Liberal Studies and not toward the B.A., M.A., Ph.D., or M.F.A. in English.

**ENG 507 ADVANCED WORKSHOP****IN CREATIVE WRITING (Subtitle required).****(3)**

For the student who has shown marked talent and commitment, this course provides a rigorous workshop among peers and includes additional attention to outside reading. Each student will produce a chapbook of poems or stories. See departmental listings for different offerings per semester. Prereq: ENG 207 and ENG 407, or the equivalent, and consent of the instructor. May be repeated with a different subtitle (different or same genre) to a maximum of 6 credits. Required for the ENG Creative Option under two different subtitles. Provides ENG Major Elective credit and ENG minor credit.

**ENG 509 COMPOSITION FOR TEACHERS.****(3)**

A course covering the basic studies helpful to teachers of English composition at the secondary level. Focuses on the teaching of grammar, punctuation, usage, etc., and on theme planning, correction, and revision. Students are required to do quite a bit of writing. Provides ENG Major Elective credit and ENG minor credit. (Same as EDC 509.)

**ENG 512 ANALYSIS OF ENGLISH SYNTAX.****(3)**

Contemporary approaches to the syntactic analysis of Modern English; particular attention is devoted to Chomskyan syntactic theory. Prereq: LIN 221 or graduate standing. (Same as LIN 512.)

## Course Descriptions

### ENG 513 TEACHING ENGLISH AS A SECOND LANGUAGE. (3)

The course examines the current theories and methods of teaching English as a second language. The course will include (1) language learning theory as it relates to other disciplines; (2) methods and techniques of contrastive analysis. Prereq: One course in linguistics or consent of instructor. Provides ENG Major Elective credit and ENG minor credit. (Same as EDC/LIN 513.)

### ENG 514 TESL MATERIALS AND METHODS. (3)

An extension to ENG/EDC 513, this course will include examination and evaluation of published materials designed for teaching English to speakers of other languages. Students will create individualized teaching materials and gain practical experience in applying the methods and using their own materials. Prereq: ENG/EDC 513 or consent of instructor. Provides ENG Major Elective credit and ENG minor credit. (Same as EDC/LIN 514.)

### ENG 518 ADVANCED HISTORY OF THE ENGLISH LANGUAGE. (3)

This course explores the development of English from its roots in Indo-European, through Old, Middle, and Early Modern English(es), culminating with a review of the English languages of today. It focuses on the phonological, grammatical, and lexical changes of the language, as well as on the social contexts of the rise and spread of English as a contemporary world language. Special emphasis is given to a linguistically informed understanding of how the language has changed in response to political and historical pressures. Fulfills the ENG Early Period requirement. Provides ENG Major Elective Credit and ENG Minor credit. (Same as LIN 518.)

### ENG 519 INTRODUCTION TO OLD ENGLISH. (3)

An introduction to the study of the Old English language and its literature from the 8th to the 11th centuries. Emphasis on learning the basic vocabulary and grammar of Old English in the West Saxon standard written dialect. Readings include excerpts from prose and poetry, the basics of Old English verse forms and alliterative poetry, and some historical and cultural background. The course is particularly recommended for students of European languages (especially German) and Linguistics; some basic background in Linguistics is recommended but not required. Fulfills ENG major Early Period Requirement. Provides ENG Major Elective credit and ENG minor credit.

### ENG 570 SELECTED TOPICS FOR ADVANCED STUDIES IN LITERATURE (Subtitle required). (3)

Study of special topics that cut across the normal divisions of genre or periods, such as the relations of literature to other disciplines; metaphor and symbolism; interpretative theory. May be repeated to a maximum of six credits. Prereq: Junior standing or consent of instructor.

**PROSEMINARS:** The purpose of the proseminar courses (600 level) is to impart through lectures and discussion both the facts of literary history and the techniques of literary analysis. They are, therefore, designed to go beyond the mere information level to techniques of contemporary literary criticism and scholarship.

### ENG 600 BIBLIOGRAPHY AND METHODS OF RESEARCH. (3)

An introduction to descriptive and enumerative bibliography, textual criticism, and historical scholarship.

### ENG 601 ESSAYS AND CREATIVE NONFICTION. (3)

Study and practice in nonfiction writing, including literary nonfiction, literary journalism, personal essays, and creative nonfiction. May not be repeated for graduate credit. Prereq: Admission to the graduate program or consent of instructor.

### #ENG 602 CONTEMPORARY AMERICAN LITERATURE. (3)

This course examines American literature written since the 1980s, introducing students to important writers, as well as key genres, movements, and intellectual trends, of the period. The class will situate literature within various social, political, cultural, and historical contexts to better understand literary imagination of the contemporary world. Credit for this course can be applied to the certificate in Liberal Studies and not toward the B.A., M.A., Ph.D., or M.F.A. in English.

### ENG 605 EDITING. (3)

ENG 605 offers instruction in the history of U.S. publishing and extensive practice in verification of sources, fact checking, copy editing, and manuscript preparation. Prereq: Admission to Graduate School or consent of instructor.

### ENG 607 GRADUATE WRITING WORKSHOP (Subtitle Required). (3)

A course for experienced writers who have some knowledge of contemporary American literature. Equal emphasis on students' original work and outside reading. Each student will produce a chapbook of poems or stories and write a short introduction to it. May be repeated with the same subtitle to a maximum of fifteen credits. Prereq: Consent of instructor.

### ENG 608 CRAFT OF WRITING (Subtitle required). (3)

This course examines the craft, emphasizing techniques, style, and structure. May be offered in each genre offered in the MFA degree program. At least 6 hours of courses related to the study of creative writing genres, such as: Craft of Poetry, Fiction, or Nonfiction, with emphasis on themes such as: Ekphrastic Writing, Experimental Forms, Working Class Themes, etc. Prereq: This course is open only to MFA in Creative Writing candidates or by permission of the instructor.

### ENG 609 COMPOSITION FOR TEACHERS. (3)

A course in the theory and practice of teaching English composition at the college level. Required of first-year teaching assistants in the Department of English, the course is structured to match the ordering of English 101 so that the practical work of college writing and the theoretical considerations of English 609 will be mutually reinforcing.

### ENG 610 STUDIES IN RHETORIC. (3)

This course introduces theories of rhetoric with readings drawn from major theoreticians and rhetoricians; applies theory to the practice of teaching college writing, with special emphasis on argumentation, the subject of English 102; and provides an opportunity for teaching assistants to get help from the teacher and from their peers in responding to and evaluating students' written work. This course, required of second semester teaching assistants in the Department of English, continues the work of English 609. Prereq: ENG 609 or equivalent.

### ENG 611 LITERATURE TEACHING SEMINAR. (3)

This seminar prepares graduate students to teach literature classes at the University of Kentucky and elsewhere. It offers instruction and guidance in curriculum design, syllabus creation, reading and work exercises, and more. Students develop a portfolio of course materials and refine skills for teaching literature and film at the introductory as well as advanced levels of an undergraduate curriculum. This course is not a requirement for completing the Ph.D. degree, but it is required for graduate instructors to be approved to teach their own introductory-level literature and film classes in the University of Kentucky English Department curriculum.

### ENG 612 STRUCTURE AND STYLISTICS OF FRENCH. (3)

A study of the history and structure of French with an emphasis on contemporary features. (Same as FR/LIN 612.)

### ENG 619 BEOWULF. (3)

Translation and study of *Beowulf*. ENG 518 or ENG 519 recommended as background courses.

### ENG 620 STUDIES IN MIDDLE ENGLISH LITERATURE. (3)

A study in depth of selected writers and movements.

### ENG 621 STUDIES IN CHAUCER. (3)

A study in depth of selected works of Chaucer, especially *Troilus*, in relation to aspects of the medieval literary tradition.

### ENG 622 STUDIES IN RENAISSANCE LITERATURE: 1500-1660. (3)

Intensive study of selections from the drama, poetry, and prose of the period.

### ENG 625 STUDIES IN RENAISSANCE DRAMA EXCLUSIVE OF SHAKESPEARE. (3)

A study in depth of selected writers.

### ENG 626 STUDIES IN SPENSER, SHAKESPEARE, MILTON. (3)

Intensive study of one or more major authors and the relevant criticism and scholarship. Prereq: ENG 425 or ENG 426 or ENG 428 or equivalent.

### ENG 630 STUDIES IN ENGLISH LITERATURE: 1660-1720. (3)

Comprehensive study of broad topics, normally limited to an intensive survey of the literature and scholarship of the period as a whole.

### ENG 631 STUDIES IN ENGLISH LITERATURE: 1720-1780. (3)

Comprehensive study of broad topics, normally limited to an intensive survey of the literature and scholarship of the period as a whole.

### ENG 635 STUDIES IN ROMANTICISM. (3)

Readings in selected authors and relevant scholarship.

### ENG 638 STUDIES IN VICTORIAN LITERATURE. (3)

Readings in the poetry and prose non-fiction of the period with relevant scholarship.

### ENG 642 STUDIES IN MODERN BRITISH LITERATURE. (3)

Selected writers, works, and movements in the modern period with concentration on the period from 1890 to 1945.

### ENG 651 STUDIES IN AMERICAN LITERATURE BEFORE 1860. (3)

A study in depth of selected writers and movements.

### ENG 652 STUDIES IN AMERICAN LITERATURE: 1860-1900. (3)

A study in depth of selected writers and movements.

### ENG 653 STUDIES IN AMERICAN LITERATURE SINCE 1900. (3)

A study in depth of selected writers and movements.

### ENG 656 BLACK AMERICAN LITERATURE. (3)

An in-depth study of black American literature, with concentration on major texts by major black writers. (Same as AAS 656.)

### ENG 660 MODERN CRITICAL THEORY (Subtitle required). (3)

Detailed examination of one or another topic in contemporary theory of interpretation, such as literature and analytical philosophy, phenomenology and literature, structuralism, Marxism, psychoanalysis. May be repeated up to 6 credit hours under different subtitles.

### ENG 681 STUDIES IN FILM. (3)

Comprehensive study of the history, theory, and criticism of film, with concentration on a series of major American and foreign films. Viewing of films outside of class is required. May be repeated up to 9 credit hours under different subtitles.

### ENG 682 STUDIES IN FICTION. (3)

A study in depth of selected types of fiction.

**ENG 690 STUDIES IN LITERATURE AND GENDER****(Subtitle required). (3)**

This course focuses on gender as a primary category for literary analysis. Topics will vary, from a group of authors, an historical period or an aesthetic movement, to a genre, a theme, or an aspect of literary theory. May be repeated under different subtitles to a maximum of six credits.

**ENG 691 READINGS IN RHETORIC (Subtitle required). (1)**

This reading course allows graduate students to integrate readings in Rhetoric and Composition scholarship and provides an opportunity to discuss research with faculty associated with Rhetoric and Composition. In addition to readings, students will be expected to keep a reading journal or complete a brief annotated bibliography. May be repeated to a maximum of three credits. Prereq: ENG 609 and ENG 610 or consent of instructor.

**ENG 700 TUTORIAL FOR PH.D. CANDIDATES. (3)**

This course allows Ph.D. candidates who have completed all course work requirements to work together under the direction of a senior faculty member in preparing for and taking the Qualifying Examination. May be repeated to a maximum of twelve credits. Prereq: Admission to the Ph.D. program and instructor's consent.

**ENG 720 SEMINAR IN MEDIEVAL LITERATURE. (3)**

Recent topics: medieval fiction; Chaucer and the Gothic mind. May be repeated to a maximum of six credits.

**ENG 722 SEMINAR IN RENAISSANCE STUDIES (Subtitle required). (3)**

Advanced work on a specific author or topic. Recent topics: Eco-Milton, Romance narrative. May be repeated to a maximum of nine credits.

**ENG 730 SEMINAR IN 18th CENTURY LITERATURE. (3)**

Recent topics: neoclassic satire. May be repeated to a maximum of six credits.

**ENG 735 SEMINAR IN ROMANTIC LITERATURE. (3)**

Recent topics: Keats; Wordsworth. May be repeated to a maximum of six credits.

**ENG 738 SEMINAR IN VICTORIAN LITERATURE. (3)**

Seminar in Victorian literature. May be repeated to a maximum of six credits.

**ENG 740 SEMINAR IN 20th CENTURY BRITISH LITERATURE. (3)**

Seminar in 20th century British literature. May be repeated to a maximum of six credits.

**ENG 748 MASTER'S THESIS RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed.

**ENG 749 DISSERTATION RESEARCH. (0)**

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

**ENG 750 SEMINAR IN COLONIAL LITERATURE. (3)**

Seminar in Colonial Literature; may be repeated to a maximum of six credits.

**ENG 751 SEMINAR IN AMERICAN LITERATURE: 1800-1860. (3)**

Seminar in American literature 1800-1860. Recent topics: Emerson and Melville; Hawthorne. May be repeated to a maximum of six credits.

**ENG 752 SEMINAR IN AMERICAN LITERATURE: 1860-1900. (3)**

Seminar in American literature 1860-1900. Recent topics: Whitman and Dickinson. May be repeated to a maximum of six credits.

**ENG 753 SEMINAR IN AMERICAN LITERATURE SINCE 1900. (3)**

Seminar in American literature since 1900. Recent topics: Faulkner, Wolfe, and Warren. May be repeated to a maximum of six credits.

**ENG 767 DISSERTATION RESIDENCY CREDIT. (2)**

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended.

**ENG 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)**

May be repeated to a maximum of 12 hours.

**ENG 769 RESIDENCE CREDIT FOR THE DOCTOR'S DEGREE. (0-12)**

May be repeated indefinitely.

**ENG 771 SEMINAR IN SPECIAL TOPICS (Subtitle required). (1-3)**

Seminar in special topics; includes genres and subject matters such as symbolism which cover more than one period of literature. Recent topics: symbolism and allegory. May be repeated up to 9 credit hours under different subtitles.

**ENG 780 DIRECTED STUDIES. (1-6)**

Independent work devoted to study and research on specific subjects and problems according to the interests and needs of individual students. May be repeated to a maximum of nine credits. Permission of chairperson required.

**ENG 781 SEMINAR IN FILM (Subtitle required). (3)**

Seminar in special topics in film, such as directors, genres, historical periods, film and literature,

film theories, and film movements. Viewing of films outside of class is required. May be repeated under different subtitle to a maximum of nine credits.

**ENS Environmental Studies****ENS 200 INTRODUCTION TO ENVIRONMENTAL STUDIES. (3)**

A broad-ranging multidisciplinary introduction to current environmental issues and problem solving presented through a series of case studies. Case studies incorporate contemporary environmental themes including industrialization, resource use, and pollution; changing land use patterns; global warming and deforestation; biodiversity; political regulation; economic resources; cultural attitudes toward nature. Each case study will present environmental issues as scientific problems with social, political, philosophical, and economic causes and consequences. Emphasis is placed on understanding and combining different approaches to environmental problems and on proposing public policy solutions.

**ENS 201 ENVIRONMENTAL AND SUSTAINABILITY STUDIES I: HUMANITIES AND SOCIAL SCIENCES. (3)**

This course will provide a foundation in the core ideas, theoretical concerns and practical approaches to environmental studies framed within the disciplines of the humanities and social sciences. Students will study human interactions with the environment, both natural and built, and inter-human relations conditioned by local and global environmental factors. Students will obtain a basic conceptual and historical understanding of the nature and value of their local, regional, and global environment.

**ENS 202 ENVIRONMENTAL AND SUSTAINABILITY STUDIES II: NATURAL SCIENCE AND POLICY. (3)**

This is an introduction to natural science and policy as they pertain to understanding environmental studies. The core ideas include understanding how the ecological theories of population dynamics, community structure, and ecosystems dynamics lay a scientific foundation to understanding the nature of current environmental issues and how they might be addressed individually and through governmental regulation.

**ENS 300 SPECIAL TOPICS (Subtitle required). (1-4)**

Special topics in environmental studies. This course permits the offering of special topics in order to take advantage of faculty specialties. Course topic must be approved by the Environmental Studies Program Director. Prereq: Variable, when topic is identified.

**ENS 395 INDEPENDENT WORK. (1-4)**

Under special conditions selected students may investigate specific environmental issues and problems. The instructor and the student will agree on a formal semester plan/learning contract, which will be filed with the Environmental Studies Program Director and will include weekly reports to the instructor. Prereq: Environmental Studies minor, 3.0 G.P.A., consent of instructor.

**ENS 400 SENIOR SEMINAR (Subtitle required). (3)**

This course will draw on your interdisciplinary understanding of environmental issues and your problem-solving capacities developed while fulfilling Environmental Studies Minor requirements. It is a participatory capstone seminar designed to utilize and test your critical ability for independent thinking organized around specific environmental issues. Independent library work and writing assignments will be required in order to prepare for weekly, interactive topical seminar meetings. Group projects will culminate in individual term papers/projects on different aspects of the environmental issues under discussion. Specific topics will vary. Prereq: ENS 200 and 12 hours of course work from approved Environmental Studies courses (or instructor's consent). This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK.

**#ENS 601 ENVIRONMENT AND SUSTAINABILITY: ISSUES AND IDEAS. (3)**

This course will survey some of the most important environmental problems (climate change, biodiversity loss, deforestation, water scarcity) and the tools needed to analyze, understand, and respond to these problems (market-based solutions, political economy, institutional economic theories, environmental ethics). Students will also explore new scientific ideas on sustainability to better understand the contemporary environmental problems the world is facing. With rigorous thinking about the science of sustainability, students will have the knowledge and skills so that they can help institutions, business, public policy, and individuals understand and act on key principles of sustainability. Prereq: Admission to the MA or Graduate Certificate in Applied Environmental and Sustainability Studies or permission of instructor.

**#ENS 602 ENVIRONMENT AND SUSTAINABILITY POLICY AND GOVERNANCE. (3)**

This course will explore the roles of governments, markets, and civil society in the creation, adoption, and implementation of environmental and sustainability rules and norms. We will evaluate leading environmental and policy strategies, including traditional state regulation, market-based incentives and regulations created by private actors (civil society and corporations/Corporate Social Responsibility). Increasingly, the interactions between different forms of regulation figure prominently in debates about environmental and sustainability governance. We will draw upon empirical examples of governance and policy for a diverse reference set of environmental and sustainability challenges and solutions. Students will develop strong critical thinking and problem-solving skills in order to contribute to environmental and sustainability policy and governance. Prereq: Admission to online MA program or Graduate Certificate in Applied Environmental and Sustainability Studies or consent of instructor.

**#ENS 603 COMMUNICATING ENVIRONMENTAL AND SUSTAINABILITY STUDIES. (3)**

The course provides students an understanding of the latest scientific research in the field of environment and sustainability studies and the tools to communicate this research effectively to the public. In addition, students will learn key technical writing skills to apply knowledge in environmental and sustainability studies. For technical writing, students will develop skills for writing letters, grant proposals, reports, and presentations for specific audiences. To communicate with a broad audience about the questions central to environmental and sustainability studies, students will write short articles, record podcasts, make videos, craft memes, and author multimodal texts. Storytelling and clear description will also be emphasized across multiple platforms, which will include blogs, audio podcasts and short videos, among others. Students will build the critical skillsets necessary for technical writing as well as craft dynamic and compelling stories about environment and sustainability issues. Prereq: Admission to online MA or Graduate Certificate in Applied Environmental and Sustainability Studies or consent of instructor.

**#ENS 605 SEMINAR IN ENVIRONMENTAL AND SUSTAINABILITY STUDIES (Subtitle required). (3)**

Seminar in Environmental and Sustainability Studies, including, for example, environmental racism, environmental justice, sustainability ethics, environment and development, climate change and climate justice, environmental health, or environment and society. May be repeated to a maximum of six credits under different subtitles. Prereq: Admission to the online MA or Graduate Certificate in Applied Environmental and Sustainability Studies or permission of instructor.

**#ENS 695 RESEARCH IN APPLIED ENVIRONMENTAL AND SUSTAINABILITY STUDIES. (3)**

Students will complete a significant research project in environmental and sustainability studies that includes reviewing relevant literature and collecting data. Students will design an independent research project using recognized research methodology and will collect and analyze data under the guidance of their faculty advisor and graduate committee. A learning contract with project clearly defined must be approved by supervising faculty member. Prereq: ENS 601 and ENS 602 and ENS 603.

**#ENS 696 REPORTING RESEARCH IN APPLIED ENVIRONMENTAL AND SUSTAINABILITY STUDIES. (3)**

This course is part of the Plan B Capstone option for the MA in Applied Environmental and Sustainability Studies. Students will report on the significant research project in environmental and sustainability studies that they conducted in ENS 695 under the guidance of their faculty advisor. Students will complete a report on their research in a format agreed upon with their faculty advisor. Students will also create a blog post and give an oral presentation supported with visual aids (such as powerpoint) to demonstrate their ability to apply different forms of communication in environmental and sustainability studies. A learning contract with a clearly defined scope of the work and deadlines must be approved by the supervising faculty member. Prereq: ENS 603, ENS 695.

**#ENS 697 INTERNSHIP IN APPLIED ENVIRONMENTAL AND SUSTAINABILITY STUDIES I. (3)**

Students pursuing the Plan B Internship option in the MA in Applied Environmental and Sustainability Studies are required to complete six credit hours of internships in order to graduate and must work 40 hours for each credit hour earned. While students are ultimately responsible for finding and completing their internships, students do receive ample support and assistance from program faculty throughout the process. The activities to be carried out during internships must be mutually agreed upon by the student, their faculty supervisor, and the host organization supervisor. Internships can be completed during spring and fall semesters or the summer after students have completed their regular course work. Prereq: ENS 601, ENS 602, and ENS 603.

**#ENS 698 INTERNSHIP IN APPLIED ENVIRONMENTAL AND SUSTAINABILITY STUDIES II. (3)**

Students pursuing the Plan B Internship option in the MA in Applied Environmental and Sustainability Studies are required to complete six credit hours of internships in order to graduate and must work 40 hours for each credit hour earned. While students are ultimately responsible for finding and completing their internships, students do receive ample support and assistance from program faculty throughout the process. The activities to be carried out during internships must be mutually agreed upon by the student, their faculty supervisor, and the host organization supervisor. Internships can be completed during spring and fall semesters or the summer after students have completed their regular course work. Prereq: ENS 601, ENS 602, ENS 603, ENS 697.

**#ENS 699 INDEPENDENT STUDY IN ENVIRONMENT AND SUSTAINABILITY STUDIES. (3)**

Supervised individual work in Applied Environmental and Sustainability Studies. A learning contract with a clearly defined project must be approved by supervising faculty member or program director. May not be repeated for additional credit. Prereq: ENS 601, ENS 602, and ENS 603 or consent of instructor.

**ENT Entomology**

**ENT 110 INSECT BIOLOGY. (3)**

Overview of the biology of insects. Emphasizes how this enormously abundant and important group of animals has resolved the basic challenges of survival and reproduction. Principles of physiology, behavior, ecology, and evolution are introduced using insects as examples. The roles of both beneficial and detrimental insects will be discussed. [Offered in fall, spring and summer.]

**#ENT 209 BEES AND PEOPLE. (3)**

Bees are a charismatic group of insects with important roles in human society. They are critical crop and wild flower pollinators, and have been cultivated for pollination, honey, and wax production for thousands of years. Some bee species live in social groups, including the honey bee, which lives in one of the most complex societies in the animal kingdom. This course will focus on bee biology, diversity, behavior, and basic beekeeping to teach students about scientific approaches in diverse areas of biology. We will also address the ways in which scientific consensus is reached around controversial issues, particularly those that threaten bee populations.

**ENT 300 GENERAL ENTOMOLOGY. (3)**

Fundamentals of insect biology and relationships among insects, plants, and other organisms; identification of commonly encountered insects. Beneficial and detrimental effects of insects are discussed. Lecture, two hours; laboratory, two hours per week. Prereq: One course in introductory biology. (Same as BIO 300.) [Offered in fall only.]

**ENT 310 INSECT PESTS OF FIELD CROPS. (3)**

Identification, life histories and control of insects attacking field crops, especially those of importance in Kentucky. The damage that these insects cause, the reasons for their abundance, and alternatives in control practices will also be emphasized. Lecture, two hours per week; laboratory, two hours per week. [Offered in fall only.]

**ENT 320 HORTICULTURAL ENTOMOLOGY. (3)**

A detailed coverage of the insects and mites attacking turf, ornamentals, greenhouse plantings, vegetables and fruits, with emphasis on field recognition of the pests and their damage. Lecture, two hours per week; laboratory, two hours per week. [Offered in fall only.]

**\*ENT 340 LIVESTOCK ENTOMOLOGY. (2)**

Biology and behavior of insects and other pests attacking livestock, poultry, pets and wildlife. Current control methods are discussed. For students interested in livestock production, farm management, equine management, dairy science, poultry science, and preveterinary medicine, as well as general agriculture. Prereq: One course in introductory biology. [Offered in spring only.]

**ENT 360 GENETICS. (3)**

The basic principles of heredity as currently understood from evidence accumulated in classical, cytogenetic, molecular, and quantitative genetic experiments. Emphasis is placed on a thorough understanding of genetic principles and the relationship of genetics to all biological disciplines. Prereq: BIO 148, BIO 152 and CHE 105 or consent of instructor. (Same as ABT 360.) [Offered in fall only.]

**ENT 395 INDEPENDENT WORK. (1-3)**

Special problems for individual students who are capable of pursuing independent investigations in the various areas of entomology. May be repeated to a maximum of six credits. Prereq: ENT 300. [Offered in fall, spring and summer.]

**ENT 399 FIELD BASED/COMMUNITY BASED EDUCATION. (1-6)**

Field-based or community-based experience in entomology under supervision of a faculty member. Pass/Fail only. Prereq: Permission of faculty member and department chairperson and completion of a departmental learning agreement before registration. [Offered in fall, spring and summer.]

**ENT 460 INTRODUCTION TO MOLECULAR GENETICS. (3)**

Molecular genetics is the study of the biochemical basis of heredity and focuses on the structure and expression of DNA at the molecular and cellular level. The course will provide a detailed understanding of the biochemical events involved in genome replication, prokaryotic and eukaryotic transcription, and translation of DNA, as well as RNA processing, recombination and the theoretical underpinnings of genetic engineering. Prereq: ABT/ENT 360 or BIO 304 or consent of instructor. (Same as ABT 460.) [Offered in spring only.]

**\*ENT 461G INTRODUCTION TO POPULATION GENETICS. (3)**

This survey course examines the population dynamics and equilibria of genes in nuclei, chloroplasts and mitochondria. Emphasis will be on biological relevance (in plants, animals, and micro-organisms), but some theoretical derivations will also be introduced. Prereq: ABT 360 (or equivalent) and one course in probability/statistics. (Same as ABT/BIO/FOR 461.G.) [Offered in spring only.]

**ENT 502 FOREST ENTOMOLOGY. (3)**

Lectures primarily address principles and concepts. Laboratories use a hands-on approach to demonstrate insect collecting and identification techniques, ecological concepts and management approaches, and use of reference materials. Prereq: A minimum of 3 credits of basic biology (BIO 103 or BIO 148 or equivalent) or consent of instructor. (Same as FOR 502.) [Offered in fall only.]

**ENT 505 EVOLUTION IN AGRICULTURE, MEDICINE AND CONSERVATION BIOLOGY. (3)**

An introduction to modern evolutionary theory with emphasis on its application to current problems in agriculture, the biomedical sciences, and conservation biology. Prereq: Genetics (ABT 360, BIO 304 or equivalent introductory genetics course). (Same as ABT 505.)

**ENT 509 BRAINS AND BUDS: NEUROSCIENCE OF POLLINATION. (3)**

Pollinators have tremendous agricultural and societal value, and to a neuroscientist, they showcase principles of cognition in the real world. Pollinator species present exquisite examples of co-evolution, physiological and dietary specialization, navigation in complex landscapes, collective decision-making processes, and the behavioral consequences of environmental toxins and disease. In this course, we will use pollinator species (honey bees and other insects, as well as vertebrate pollinators) to explore how critical features of pollination intersect at the level of brain function, covering important neuroscience topics including sensory ecology and evolution, neural energetics, mechanisms of addiction and reward, molecular neuroscience, cognition, and learning and memory. Prereq: Students must have at least Junior standing in a life sciences discipline, or permission from instructor. (Same as BIO 509.)

**\*ENT 530 INTEGRATED PEST MANAGEMENT. (3)**

Principles of insect damage, populations and distributions. Various types of natural and applied control, including problems of insecticide toxicity, resistance and residues. Prereq: ENT 300 or ENT 310 or ENT 320 or equivalent course, or consent of instructor.

**ENT 550 SPIDER ECOLOGY AND BEHAVIOR. (3)**

Spiders are fascinating in their own right, and also are major predators in terrestrial food webs. This course examines the ecology and behavior of spiders as model predators in systems ranging from undisturbed forests and meadows to agroecosystems and the urban landscape. While focusing on spiders, the course also intertwines two general sub-themes: (1) the advantages of employing diverse approaches (e.g. field and laboratory experiments, non-manipulative observations, and meta-analyses) in ecological and behavioral research; and (2) the strengths, and limitations, of using model organisms to develop and test theory. Prereq: One year of undergraduate biology.

**ENT 561 INSECTS AFFECTING HUMAN AND ANIMAL HEALTH. (3)**

Discussion of arthropod parasites and disease vectors. Topics include an overview of disease transmission and public health, epidemiology, vector biology, important arthropod groups and their control. Prereq: 3 credits of basic biology (BIO 103 or BIO 148 or equivalent) or permission of instructor. (Same as BIO/CPH 561.) [Offered in fall-odd years.]

**ENT 563 PARASITOLOGY. (4)**

Protozoan, helminth and arthropod parasites of man and domestic animals, emphasis on etiology, epidemiology, methods of diagnosis, control measures, and life histories. Techniques for host examination and preparation of material for study. Prereq: BIO 148, BIO 152, BIO 155 or BIO 198, or consent of instructor. (Same as BIO 563.)

**ENT 564 INSECT TAXONOMY. (4)**

A study of insect taxonomy including the collection, preparation, and identification of adult insect specimens. Prereq: Consent of instructor. (Same as BIO 564.) [Offered in fall-even years.]

**\*ENT 568 INSECT BEHAVIOR. (3)**

The principles of animal behavior will be stressed using insects as examples. Physiology, mechanisms, behavioral ecology and evolution of insect behavior will be covered. Prereq: One year of biology or permission of instructor. (Same as BIO 568.)

**ENT 574 ADVANCED APPLIED ENTOMOLOGY. (4)**

The objective of this course is to present the student with advanced concepts of applied entomology in a system-specific context. Each week, the insect problems associated with a different commodity/production system will be presented so as to illustrate a different broadly-based theme. Prereq: An introductory entomology course and consent of instructor.

**ENT 595 ENTOMOLOGICAL SPECIAL TOPICS (Subtitle required). (1-4)**

Special topics or experimental courses in Entomology for undergraduate and graduate students. Special title is required and must be approved by the chairperson of the Department of Entomology. A particular title may be offered twice at most under ENT 595. Students may not repeat under the same subtitle. Prereq: Will be set by instructor. (Offered in fall and spring.)

**ENT 606 CONCEPTUAL METHODS IN ECOLOGY AND EVOLUTION. (3)**

This course provides students with hands-on experience in a diverse array of conceptual research techniques used by ecologists and evolutionary biologists. The focus will be on optimization methods used for predicting animal and plant behaviors and life histories, and on methods for assessing population trends and dynamics. Mathematical techniques used will include graphical analyses, matrix algebra, calculus, and computer simulations. The latter part of the course will consist of collaborative modeling projects, in which small groups of students will work with the instructor to address an important contemporary research problem and will report their results in a public talk and a project writeup. Prereq: One year of calculus and BIO 325 or FOR 340 or ENT 665, or consent of instructor. (Same as BIO/FOR 606.)

**ENT 607 ADVANCED EVOLUTION. (2)**

This course covers advanced topics in evolution, concentrating on questions central to the understanding of general evolutionary processes. Phenomena occurring both within populations (e.g., selection, inheritance, population subdivision) and between populations (e.g., gene

flow, competition) will be addressed. Special attention will be given to modern research approaches and techniques including quantitative genetics, measurement of selection, phylogenetic analyses of comparative data and molecular systematics. Prereq: One year of calculus, genetics (BIO 304 or BIO 461) and BIO 508 or consent of instructor. (Same as BIO/FOR 607.) [Offered in fall only.]

**ENT 608 BEHAVIORAL ECOLOGY AND LIFE HISTORIES. (2)**

This course uses an evolutionary approach to examine behavior and life histories. Topics addressed include: the optimality approach, constraints on optimality, kin and group selection, predator and prey behaviors, social and mating behaviors, and life history evolution. Prereq: BIO 325 and one semester of calculus; or consent of instructor. (Same as BIO/FOR 608.)

**ENT 609 POPULATION AND COMMUNITY ECOLOGY. (3)**

This course discusses the processes that determine population distributions and dynamics and community structure for both plants and animals. Topics addressed include: population regulation and population stability, community diversity and stability, ecological succession, population interactions (competition, predation, mutualism), coevolution, and the effects of spatial and temporal heterogeneity on population and community patterns. Prereq: BIO 325 or FOR 340 or consent of instructor. (Same as BIO/FOR 609.) [Offered in fall only.]

**ENT 625 INSECT-PLANT RELATIONSHIPS. (3)**

This course examines the natural history, ecology, and evolution of insect/plant relationships. Topics include mechanisms and theory of plant defense, behavioral and physiological adaptations of herbivorous insects, pollination biology, multitrophic-level interactions, causes of insect outbreaks, and applications to managed ecosystems. Critical reading and discussion of current literature is emphasized. Prereq: Two years of college-level biology. (Same as BIO 625.) [Offered in spring-odd years.]

**ENT 635 INSECT PHYSIOLOGY. (4)**

Study of insect physiological processes including development, digestion, reproduction, respiration, excretion, hormones and immunity. Opportunity to learn techniques used in insect physiology and molecular biology. Prereq: Consent of instructor. (Same as BIO 635.) [Offered in spring-even years.]

**ENT 636 INSECT MOLECULAR BIOLOGY. (4)**

Principles of insect molecular biology. Analysis of insect development, reproduction, behavior, immunity, transgenic insects and insecticide resistance at the molecular level. Hands-on experience with molecular biology techniques. Prereq: ENT/BIO 635 or consent of instructor. (Same as BIO 636.) [Offered in spring-odd years.]

**ENT 660 IMMATURE INSECTS. (3)**

Bionomics, structure and classification of immature stages of insects; practice in their identification. Lecture, one hour; laboratory, six hours. Prereq: BIO 570 or ENT 564, or consent of instructor.

**ENT 665 INSECT ECOLOGY. (3)**

The biotic and physical factors influencing the distribution and abundance of insects and insect populations. Prereq: Consent of instructor. (Same as BIO 665.) [Offered in fall-even years.]

**ENT 667 INVASIVE SPECIES BIOLOGY. (3)**

This course will examine circumstances that allow introduced species to become invasive, how invasive species threaten our resources, and approaches to minimizing the incidence and impact of invasions. Prereq: Graduate standing or consent of instructor. (Same as BIO/FOR 667.) [Offered in fall-odd years.]

**\*ENT 670 SCIENTIFIC PUBLISHING: PROCESS AND ETHICS. (2)**

An introduction to scientific publishing, including types of scientific journals, choosing where to publish, the structure of scientific papers, the peer review process, data management and archiving, post-publication promotion of research, metrics of scientific impact such as impact factors and altmetrics, and publication ethics. Prereq: Graduate student in a science discipline OR permission of instructor.

**\*ENT 680 BIOLOGICAL CONTROL. (3)**

Principles related to the use of arthropods to suppress populations of arthropod pests and weeds. Includes historical perspective, ecological relationships, and contemporary issues related to the conservation and manipulation of arthropod predators, parasitoids, and herbivores. Prereq: ENT 300 or equivalent OR permission of instructor. [Offered in spring-even years.]

**ENT 684 PHYLOGENETIC SYSTEMATICS. (3)**

Theory and methods of phylogenetic analysis and cladistics will be explained. Applications of phylogenetic analysis, such as historical biogeography, biological classification, and testing of ecological hypotheses will be explored. (Same as BIO 684.)

**ENT 695 SPECIAL TOPICS IN ENTOMOLOGY (Subtitle required). (1-4)**

Special topical or experimental courses in entomology for graduate students. Special title required and must be approved by the chairperson of the Department of Entomology. A particular title may be offered twice at most under ENT 695. Students may not repeat under the same subtitle. Prereq: Will be set by instructor. [Offered in fall and spring.]

**ENT 748 MASTER'S THESIS RESEARCH. (0)**

Half-time to full-time work on thesis. May be repeated to a maximum of six semesters. Prereq: All course work toward the degree must be completed. [Offered in fall and spring.]

## Course Descriptions

### ENT 749 DISSERTATION RESEARCH. (0)

Half-time to full-time work on dissertation. May be repeated to a maximum of six semesters. Prereq: Registration for two full-time semesters of 769 residence credit following the successful completion of the qualifying exams.

### ENT 767 DISSERTATION RESIDENCY CREDIT. (2)

Residency credit for dissertation research after the qualifying examination. Students may register for this course in the semester of the qualifying examination. A minimum of two semesters are required as well as continuous enrollment (Fall and Spring) until the dissertation is completed and defended. [Offered in fall and spring.]

### ENT 768 RESIDENCE CREDIT FOR THE MASTER'S DEGREE. (1-6)

May be repeated to a maximum of 12 hours.

### ENT 769 RESIDENCE CREDIT FOR THE DOCTOR'S DEGREE. (0-12)

May be repeated indefinitely.

### ENT 770 ENTOMOLOGICAL SEMINAR. (0-1)

Discussion of current research problems in entomology. May be repeated to a maximum of six hours. [Offered in fall and spring.]

### \*ENT 780 SPECIAL PROBLEMS IN ENTOMOLOGY AND ACAROLGY. (2-3)

Investigations of chosen insect problems, including original work. Discussion and assignment of current insect subjects. May be repeated to a maximum of six credits. Prereq: Consent of the instructor (Director of Online Plan B MS in Entomology). [Offered in fall and spring.]

### ENT 790 RESEARCH IN ENTOMOLOGY AND ACAROLGY. (1-6)

Independent research in entomology or acarology. May be repeated to a maximum of 12 hours. Prereq: Consent of instructor. [Offered in fall and spring.]

## EPE Educational Policy Studies and Evaluation

### EPE 174 THEORIES OF COLLEGE STUDENT SUCCESS. (3)

The objective of the course is to introduce theories of student development and the organizational structure of teaching and learning in college. This course satisfies the UK Core requirement for Inquiry in Social Sciences.

### \*EPE 301 EDUCATION IN AMERICAN CULTURE. (3)

Critical examination of contending views, past and present, regarding the nature and role of educational institutions in American society as well as proposed purposes and policies for schools and other educational agencies. This course is a Graduation Composition and Communication Requirement (GCCR) course in certain programs, and hence is not likely to be eligible for automatic transfer credit to UK. Prereq: Graduation Writing Requirement Course - Credit is awarded to students meeting the GWR prerequisites.

### EPE 317 HISTORY OF EDUCATION. (3)

A study of the historical foundations of American education.

### EPE 350 TOWN AND GOWN IN FACT AND FICTION: CAMPUS AND COMMUNITY AS LOCAL HISTORY. (3)

The study of campus and community – “Town and Gown” – as part of local history. It includes reading a variety of sources – novels, memoirs, historical documents, and scholarly articles plus field studies. Prereq: Junior standing or higher.

### EPE 374 THEORIES OF COLLEGE STUDENT DEVELOPMENT AND MENTORING. (3)

This course will explore the research discourse regarding college student development, behavior, relationship of student personnel to the total college experience, organization and administration of co-curricular academic support, program evaluation and assessment models, and research of models for college student mentoring. Prereq: Sophomore status or higher.

### \*EPE 454G CULTURE, EDUCATION AND TEACHING ABROAD. (3)

The purpose of this course, which is required for those wishing to student teach overseas, is to help participants examine theories and practices related to intercultural understanding and to develop strategies to teach with a global perspective. Prereq: Sophomores must have instructor's permission to register. (Same as EDC 454G.)

### EPE 520 PROGRAM EVALUATION. (3)

This course is an application-focused course that provides an overview of program evaluation. This course will cover the types of evaluation, the theory associated with evaluation, and the tools most commonly applied to the evaluation process. Students will develop an appreciation for the flexibility needed in order to perform evaluation tasks in practical situations related to their area of expertise. (Same as EDP 520/KHP 520.)

### EPE 522 PSYCHOLOGICAL AND EDUCATIONAL TESTS AND MEASUREMENTS. (3)

Problems of measurement with emphasis on standardized tests. General principles of test construction and evaluation, for standardized assessments and/or teacher-made tests, examinations, criteria for evaluation and marking and other rating systems. (Same as EDC/EDP 522.)

### EPE 525 SPECIAL TOPICS SEMINAR IN EDUCATIONAL POLICY STUDIES AND EVALUATION (Subtitle required). (3)

Examination of selected topics in educational policy studies and evaluation. May be repeated to a maximum of six credits but no more than three may be earned under the same subtitle. Prereq: Consent of instructor.

### EPE 555 COMPARATIVE EDUCATION. (3)

Analytic and comparative study of contemporary education in selected countries, with emphasis on the historical development and total cultural context of educational programs in non-Western countries. Informal as well as formal agencies and programs will be studied with particular attention to recent reforms and innovations. Prereq: Junior, senior or graduate status, or consent of instructor.

### EPE 557 GATHERING, ANALYZING, AND USING EDUCATIONAL DATA. (3)

This course is rooted in the conceptual understanding of statistics and covers applications of statistical and graphical methods for educational and evaluation data. Basic descriptive statistics, correlation, normal distributions and hypothesis testing will be covered. An emphasis is placed on exploratory data analysis and interpretation of results within the broad contexts of education and evaluation. Statistical literacy exercises will be used for comprehension and application of materials. In addition, applications of statistical software will be demonstrated. Prereq: MA 109 or equivalent; undergraduate (with permission) or graduate status in the College of Education; or consent of the instructor. (Same as EDP 557.)

### EPE 558 GATHERING, ANALYZING, AND USING EDUCATIONAL DATA II. (3)

The course covers applications of statistical and graphical methods for educational and evaluation data. Topics to be covered include descriptive statistics, correlation, normal distributions, hypothesis testing, regression, ANOVA, and power. General goals include: developing an understanding of statistical concepts, improving reasoning and critical thinking skills, and to prepare for more advanced quantitative courses. Students will gain valuable statistical computing skills via stats Software. Prereq: EDP/EPE 557 or equivalent. (Same as EDP 558.)

### #EPE 560 ASSESSMENT AND SCHOOL DATA ANALYSIS. (3)

This course focuses on the theoretical and practical aspects of educational assessment at the student, classroom, school, state/province, national, and international levels. Students examine the history of assessment in education, the varied purposes of assessment, the strengths and shortcomings of different assessment formats, and relevant research regarding the effectiveness of various types of assessment for specific educational purposes. They also explore the development of assessments to address particular types of student learning goals, the construction of rubrics to offer students descriptive feedback on their performance, the interpretation of assessment results, and the use of those results to improve teaching quality and student learning. There are no formal prerequisites, but an introductory course in statistical methods (e.g., EDP/EPE 557 or 558) and a basic course in educational tests and measures (e.g., EDP/EPE/EDC 522) are recommended. The course may be conducted in either an online or face-to-face format, depending on the semester and instructor. (Same as EDC 540/EDP 560.)

### EPE 571 WRITING SEMINAR IN EDUCATIONAL RESEARCH. (3)

This course is intended to familiarize students with the academic writing process and expectations. Topics include: qualitative writing, quantitative writing, and program evaluation report writing. Other specific writing topics may also be explored

### EPE 600 SOCIAL FOUNDATIONS TOPICS FOR SECONDARY EDUCATION. (1)

This course is constructed to link reflective practitioner objectives of the MIC program to scholarly interests of “social foundations” faculty in the UK College of Education. The implicit objective of social foundations courses (e.g., Philosophy of Education, History of Education, Politics of Education, etc.) is to assist students in understanding the social nature of education in our society; to think critically and reflectively about education; and to recognize education as an area of inquiry in which systematic study can benefit practice. In the MIC version of this very abbreviated course, we will attempt to more explicitly link ideas and perspectives in course materials to the aims and interests of future reflective practitioners (you are they). Substantive origins and methodologies found in the “social foundations” course typically come from outside academic specialties like those enumerated above. That is, there are many academic historians and sociologists and political scientists and anthropologists, etc., who are quite interested in formal schooling as a social and cultural enterprise even though they do not work in schools themselves, nor are they interested in “improving” them. Prereq: Admission to the M.A. in Education - Secondary with Initial Certification Option.

### EPE 601 PROSEMINAR. (1)

Introductory survey of the bibliographic parameters and research approaches to educational policy studies and evaluation. Graduate faculty resources and typical research problems are introduced. Emphasis upon significance and importance of thesis writing and dissertation in graduate studies. Required, first semester of study, for all degree students in the department. Prereq: Graduate standing or consent of instructor.

### EPE 602 SOCIAL POLICY ISSUES AND EDUCATION. (1-3)

Study of philosophical, historical, and sociological dimensions of contemporary educational policy issues. Topical policy controversies, such as equality of educational opportunity, tuition tax credits, and religious education, will be examined.

**EPE 603 POLITICS OF EDUCATIONAL LEADERSHIP. (3)**

This course provides a study of the political contexts in which educational leaders must operate. The course explores the roles of policy actors, institutions, ideologies, and competing interests, both internal and external to education institutions. The course places emphasis on the ways that race, class, and income factor into political decision making in education. Prereq: Graduate standing. (Same as EDL 704.)

**EPE 612 INTRODUCTION TO HIGHER EDUCATION. (3)**

This course is intended to give the student a broad overview of contemporary higher education. The course examines major trends, issues, and problems facing colleges and universities from a variety of perspectives, including historical, administrative, public policy, governance, and faculty. The primary objectives of the course are to assist the student in developing an understanding of 1) various components and operations of higher education and 2) the interaction of these components and operations.

**EPE 619 SURVEY RESEARCH METHODS IN EDUCATION (Subtitle required). (3)**

Survey research is one of the most common and useful methods for gathering data in educational research. Obtaining valid and reliable research results requires the administration of instruments that provide valid and reliable measures of the variables selected for observation. This course will focus on principles of measurement and procedures for developing a variety of survey instruments and for determining their validity and reliability. It is designed to teach students both how to improve the questions and design instruments. The theory and practice of survey research relies on contributions from disciplines such as psychology, sociology, statistics, and computer science. The purpose of this course is to familiarize participants with basic features of the design and implementation of surveys, and acquaint them with some principles and underlying theory from disciplines that have traditionally used surveys most heavily. The course will cover major stages of the survey process, including hypothesis and problem formulation, study design, sampling, questionnaire design, interviewing techniques, pretesting, modes of data collection, and data cleaning, management, and analysis. The course involves lectures, readings, and discussions. Students are encouraged to bring materials related to their own research interests. The course will provide an overview of the theoretical and experimental literature related to question and questionnaire design as well as focusing on practical issues in the design, critique, and interpretation of survey questions that are often not taught in formal courses. There will be exercises both in and outside of class to reinforce both theory and practice. Prereq: EPE/EDP 557 or an equivalent course; an introductory statistics course.

**EPE 620 TOPICS AND METHODS OF EVALUATION. (3)**

An examination of a subset of evaluation methods, topics, and problems. An introductory course in the area with minimal emphasis on quantitative methods. The course is designed to: provide a perspective from which evaluation studies may be viewed; and, to provide experiences for those who will learn from or conduct evaluations. Prereq: Consent of instructor, and a basic course in statistics or research. (Same as ANT/EDP 620/SOC 622.)

**\*EPE 621 ADVANCED TOPICS AND METHODS OF EVALUATION. (3)**

An advanced course in evaluation methods and techniques with an emphasis on quantitative methodology. State of the art ideas and methods of conducting evaluation studies and analyzing data from those studies are presented. The course is designed primarily for those who are conducting or will conduct evaluation studies. Prereq: A basic course in statistics or its equivalent; EDP/EPE/ANT 620; and consent of instructor. (Same as ANT 621/EDP 621.)

**EPE 622 COLLEGE AND UNIVERSITY FACULTY. (3)**

This course considers college and university faculty in their roles as researchers, teachers, and community/institutional servants. The class considers from various theoretical perspective who faculty are, what they do, and how they relate to the environments and cultures in which they work. Prereq: EPE 612 or consent of instructor.

**EPE 628 ETHICS AND EDUCATIONAL DECISION MAKING. (3)**

Examination of ethical theories upon which educational evaluations are based and upon which they become the basis for educational policies. Theories considered include classical and rule utilitarianism, Rawlsian social justice, behavioristic, critical, and hermeneutic theories of value. Prereq: EPE 603 or consent of instructor.

**EPE 632 STUDENT SERVICES. (3)**

This course focuses on students services (broadly defined) and those who work with college and university students outside of the academic arena. The course not only surveys the history of student services but critically examines its theoretical bases and current practices with special attention paid to the relationship between students services and other segments of campus. Prereq: EPE 612 or consent of instructor.

**EPE 640 PHILOSOPHY OF EDUCATION. (3)**

The course is designed to enhance the professional educator's competence in analyzing and evaluating educational policies and programs. Theoretical frameworks, philosophical methods, and current educational debates are examined. May be repeated once to a maximum of six credits. Prereq: Twelve semester hours in education or permission of instructor.

**EPE 651 HISTORY OF EDUCATION IN THE UNITED STATES. (3)**

A history of the growth and development of education in the United States from earliest colonial times to the present, including recent movements and trends.

**EPE 652 HISTORY OF EDUCATIONAL THOUGHT. (3)**

Description and critical examination of the core ideas of leading educational theorists in the history of Western culture. Emphasis upon the societal and cultural conditions in which the ideas emerged, and the relevance of these ideas to contemporary educational policy concerns.

**EPE 653 HISTORY OF HIGHER EDUCATION. (3)**

Social and institutional history of higher education which will include selected topics in European culture and education and which will emphasize the development of the American college and university. This is a Distance Learning (DL) course that will be offered via formats and media provided by the University of Kentucky Distance Learning Center. It will be asynchronous in character, using standard Distance Learning internet capabilities.

**EPE 655 COMPARATIVE HIGHER EDUCATION. (3)**

This seminar will explore comparative methods and theoretical frameworks in international higher education research. Students will examine questions of access, quality, and accountability in tertiary education, student mobility within nations and internationally, and the process of internationalization and regional collaborations in higher education in the US and abroad.

**EPE 660 RESEARCH DESIGN AND ANALYSIS IN EDUCATION. (3)**
